SEC REGISTRATIONS

Accurate Parts, Inc.—SEC Registration Withdrawn

On Sept. 21, 1962 the company withdrew its registration statement originally filed with the SEC on March 30, which covered 100,000 common shares to have been offered publicly through McDonnell & Co., New York City and Raffensperger, Hughes & Co., Indianapolis.—V. 195, p. 1797.

Alaska Pacific Lumber Co.—SEC Reg. Withdrawn

On Sept. 24, 1962 the company withdrew its registration statement originally filed with the SEC on Nov. 17, 1961 which covered 250,000 common shares to have been offered publicly at $5.75 per share through Dempsey-Tegeler & Co., Inc., St. Louis.—V. 194, p. 2329.

Birtcher Corp.—Proposed Rights Offering—

The corporation of 4371 Valley Blvd., Los Angeles, filed a registration statement with the SEC on Sept. 21 covering 288,476 shares of capital stock. It is proposed to offer such stock for subscription by stockholders (or holders of outstanding 6% convertible debentures upon conversion thereof) at the rate of one new share for each three shares held. No underwriting is involved. The subscription price (maximum $5 per share) and record date are to be supplied by amendment.

The company is engaged primarily in the manufacture and sale of electrotherapeutic instruments, electronic surgical instruments, electronic diagnostic and electronic monitoring equipment and various accessories thereto, and in the sale of locking, heat dissipating clamps used to hold in place and cool electronic tubes, semi-conductors, diodes, and other critical components incorporated in military electronic equipment. It has recently designed and is beginning to manufacture an electronic testing instrument for use by other manufactures for testing electronic devices and circuitry. A subsidiary is engaged in the manufacture of pepper mills and other gourmet accessories. Of the net proceeds from the stock sale, $450,000 will be used to retire short-term bank loans and $275,000 to repay short-term loans from a number of officers and shareholders obtained for working capital purposes. About $100,000 will be used for additional production machinery and the balance to increase working capital to permit carrying of increased inventories.

In addition to certain indebtedness, the company has outstanding 1,144,036 shares of capital stock, of which Cecil J. Birtcher, President, owns 14% and management officials as a group 29%.—V. 193, p. 2663.

Coastal Chemical Corp.—Stock Registered—

The corporation of Yazzo City, Miss., filed a registration statement with the SEC on Sept 24 covering 100,000 class A, 39,239 outstanding class C and 70,000 class D shares. 60,000 of the class A shares are to be issued in connection with acquisition of properties; 50,000 of the class D shares are to be issued in exchange for outstanding class C stock when presented for transfer; and the remaining class A and class D shares are to be offered for public sale at $35 per share on a best efforts basis through the company's parent, Mississippi Chemical Corp., which will receive 33c per share for expenses. The 39,239 outstanding class C shares are owned by Mississippi Chemical which proposes to sell same at $35 per share. The parent presently owns 3.41%, 100%, and 22.26%, respectively, of the outstanding class A, B and C stock of the company.

The company manufactures a variety of high analysis fertilizers, anhydrous ammonia, and other fertilizer materials and components, and its principal purpose is to provide its products to stockholders who are users of such products. The net proceeds from the company's sale of additional class A and D stock will be added to general funds and used for working capital, including completion of construction of the addition to anhydrous ammonia and related facilities, and for general corporate purposes. In addition to certain indebtedness, the company has outstanding 276,885 class A, 2,500,000 class B (all owned by Mississippi Chemical), 176,231 class C and 102,514 class D shares (including 95,386 shares subscribed and to be issued upon completion of ammonia facilities), of which management officials as a group own 1.45% of the class A and 3.37% of the class C shares. The ownership of class A or class B stock gives the holder preferred patronage rights to purchase products manufactured by the company (other than "straight nitrogen fertilizer"), and ownersip of class C or class D stock gives patronage rights to purchase anhydrous ammonia and/or other "straight nitrogen fertilizer" from the company. LeRoy P. Percy is board chairman and Owen Cooper is president; and they hold like positions with the parent.—V. 194, p. 1381.

Collins Radio Co.—Proposed Rights Offering—

The company of 5225 "C" Avenue N.E. Cedar Rapids, Iowa filed a registration statement with the SEC on Sept. 21 covering 557,515 shares of common stock. It is proposed to offer such stock for subscription by common stockholders at the rate of one new share for each four shares held. Kidder, Peabody & Co., Inc., 20 Exchange Place, and White, Weld & Co., Inc., 20 Broad St., both of New York, head the list of underwriters. The record date, subscription price (maximum $26 per share) and underwriting terms are to be supplied by amendment.

The company is engaged in the design, development, manufacture and sale of specialized radio communication equipment and of aircraft navigation and flight control equipment. The net proceeds from the stock sale will be applied to reduce current bank borrowings incurred to finance receivables and inventories. In addition to various indebtedness, the company has outstanding 2,787,578 shares of common stock, of which Arthur A. Collins, president and board chairman (together with his family as a group) owns 24.4%. Management officials as a group own 18.11%.—V. 192, p. 2016.

Colorado Imperial Mining Co.—Common Reg'd—

The company of Creede, Colo., filed a registration statement with the SEC on Sept. 20 covering 20,000 shares of common stock, to be offered for public sale at $1 per share. A 15 cents per share selling commission will be paid to any dealers whom the company may employ to sell such shares, although no underwriting is presently involved. The statement also includes 26,074 shares reserved for certain creditors of the company.

Organized in 1960, the company has entered into exploration agreements with King Solomon Mining Corp. covering certain properties located in the Creede mining district, Mineral County, Colo.; and the $145,000 estimated net proceeds from the stock sale (assuming the payment of underwriting commissions and other expenses of the offering) will be applied to pay the company's share of the costs of the proposed program of exploration on such properties and its incidental operating expenses for the period of the program. The prospectus states that since 1910, none of the properties in the area has been a substantial producer of ore and none is now active. Furthermore, no ore bodies of consequence are known to remain in the existing workings on the properties. In addition to certain indebtedness, the company has outstanding 120,020 shares of common stock, of which Culver M. Roberts, President, John G. Kromschroeder, Vice-President, and Ruth A. Roberts, Secretary-Terasurer, own 41.75%, 12.50% and 10.62%, respectively. After the stock sale, management officials will have acquired 39.2% of the outstanding stock for $15,274 in cash (satisfaction of loans), partnership interests representing capital contributions of $48,497, the agreements under which explorations are proposed, rent and services; and the public will have acquired 60.8% for an investment of $223,150.

Columbia Gas System, Inc.—Debens. Registered—

The company of 120 East 41st St. New York filed a registration statement with the SEC on Sept. 24 covering $30,000,000 of debentures due 1987, to be offered for public sale at competitive bidding Nov. 1. The net proceeds together with other funds, will be applied principally to finance the completion of the 1962 construction program of the company's subsidiaries (estimated at $100,000,000), and to pay certain subsidiaries amounts as may be required by them for refunds upon settlement of pending rate cases.—V. 196, p. 1047.

Cooperative Grange League Federation Exchange, Inc.—Stock Registered—

The company of Terrace Hill, Ithaca. N. Y. filed a registration statement with the SEC on Sept. 21 covering 10,000 shares of 4c cumulative preferred stock (100 par) and 300,000 shares of common stock, to be offered for public sale at $100 and $5 per share, respectively. No underwriting is involved. The preferred stock may be purchased by both farmer and non-farmer patrons of G.L.F. Exchange and by any other persons; and the offering of common stock will be restricted to present members of G.L.F. Exchange and to farmers interested in becoming members.

G.L.F. Exchange is an incorporated agricultural cooperative association and is the parent cooperative of the G.L.F. system of cooperatives. It functions both as an operating cooperative directly engaged in product manufacturing, processing and distribution, wholesale purchasing, and the marketing of commodities for its members, and as a holding corporation owning all of the outstanding common stock of the following principal subsidiaries: Cooperative G.L.F. Holding Grange League Federation Insurance Co. and G.L.F. Agency Corp. As a parent cooperative, it is also the trustee-holder of all of the outstanding common stock of 282 member G.L.F. cooperative associations operating in local communities of New York, Pennsylvania and New Jersey. The net proceeds from this financing, estimated at a maximum of $2,500,000, will be used principally to provide funds for future redemption of outstanding securities of G.L.F. Exchange. Any excess in proceeds will be added to working capital.—V. 195, p. 2025.

Empire Life Insurance Co.—Common Registered—

The company, of 1111 Wilshire Blvd., Los Angeles, filed a registration statement with the SEC on Sept. 24 covering 1,600,000 shares of common stock, to be offered at $1 per share primarily to California insurance agents and brokers and others connected with, related to or working with the insurance industry. No underwriting is involved. The statement also includes 400,000 shares underlying options (exercisable at $1 per share) to be issued from time to time to agents and brokers upon the production of life insurance business. The company is in the process of formation and intends to engage in the life insurance business (after becoming licensed to do so by the Insurance Commissioner of California). The $1,435,000 estimated net proceeds from the stock sale will be used for working capital and to provide the necessary reserves required by California insurance laws and regulations. G. Sydney Barton is president. The organizing group is headed by Hal L. Nutt, Arthur F. Priebe and George E. Sloan.—V. 196, p. 951.

Highview Limited Partnership—Securities Reg'd—

The company of 1411 K St., N. W., Washington, D. C., filed a registration statement with the SEC on Sept. 21 covering $1,650,000 of limited partnership interests in Highview, to be offered for public sale in 1,000 units and at $1,650 per unit. The offering will be made on a best efforts basis by Swesnik, Blum & Potter Securities Corp. (of the same address), which will receive a $165 per unit selling commission and $25,000 for expenses.

The partnership was organized under Maryland law in August 1962 with Richard H. Swesnik and Herbert Blum as the general partners and Paul I. Bauman as the original limited partner. The partnership proposes to acquire the Highview and Parkway Apartment projects located in Prince Georges County, Maryland, at a total cost of $4,900,000. Of the $1,460,000 estimated net proceeds from this offering, $1,375,000 will be applied to the purchase price (including reimbursement of a $150,000 deposit paid by the general partners). The balance of the purchase price will be financed through loans secured by first deeds of trust on the properties. Swesnik and Blum, Inc., a company wholly-owned by the general partners, will act as management and leasing agent for the projects for a fee of 4% of the annual gross rentals (they also own all of the stock of the underwriter). They have received 54 partnership units in exchange for their assignment to the partnership of the contract to purchase the projects.

Hunter Engineering Co.—Units Registered—

The company, of 1495 Columbia Avenue, Riverside, Calif., filed a registration statement with the SEC on Sept. 26 covering 100,000 shares of common stock and 100,000 shares of cumulative convertible preferred stock ($25 par), to be offered for public sale in units consisting of one common and one preferred share. Eastman Dillon, Union Securities & Co., One Chase Manhattan Plaza, New York, heads the list of underwriters. The dividend rate on the preferred stock, public offering price of the units (maximum $3 per unit) and underwriting terms are to be supplied by amendment.

The company is engaged primarily in the production of aluminum mill products, including aluminum sheet, rod and bar, and pipe and tubing. It also engineers and builds rolling mill machinery and continuous casting equipment, for sale to the nonferrous metals industry; and, with its subsidiaries, it is engaged in the development, manufacture and distribution of a variety of fabricated and semi-fabricated aluminum products. Of the net proceeds from the sale of the units, $550,000 will be used to construct a rolling mill which will serve to produce light gauge aluminum foil; $139,000 to retire a note issued in December, 1961 in partial payment for outstanding stock of a present subsidiary; and the balance to repay in full outstanding secured loans of the company's subsidiaries obtained to finance their working capital requirements.

In addition to certain indebtedness, the company has outstanding 1,160,584 shares of common stock, of which J. L. Hunter, founder chairman, Walter F. O'Connell, Board Chairman, and R. S. Brill, President, own 33.6%, 16.8% and 10.3%, respectively, and management officials as a group 80.7%. The three officers and two others hold, as voting trustees, an aggregate of 91.4% of the outstanding stock of the company.—V. 194, p. 115.

Industrial Development Bank of Israel Ltd.—Shares Registered—

The Bank, Headquartered in Tel-Aviv, filed a registration statement with the SEC on Sept. 21 covering 1,000,000 shares of 6% preference CC shares and 1,500 ordinary AA shares. The AA shares may be purchased only as a part of a unit consisting of one AA shares and 345 CC shares; and the CC shares may be purchased either as a part of a unit or separately (no purchase less than 10 shares), at $10.50 per share. The offering price of the units is to be supplied by amendment. United States residents who have previously purchased preference C shares in the U. S. from the company will be given the right to purchase CC shares at $10 per share for every preference C share held by them. The purchase price for the stock is payable in cash or certain State of Israel bonds. The offering will be made on a best efforts basis by

Corporate and Municipal Financing Ahead

By SIDNEY BROWN

Emulating last week, another week of relatively light financing is in prospect similarly masked by a few large issues one of which is of commanding size. There will be one difference though; this week's major activity will stem from the corporate sector whereas municipals supplied the principal source of public offerings in the prior week. Moreover, one public offering alone accounts for half of this week's estimated total demand for senior capital. In addition, the Oct. 1-6 calendar of public offerings includes $44.3 million in 11 municipals of $1 million or larger in size, and two preferreds with one a large stockholders rights offering.

The step up of the A. T. & T. $250 million debentures into the four-week float is materially responsible for boosting the 28-day visible suply from $450 million projected last week to this week's $782 million. The relatively attractive bond market—due to the stock market's non-encouraging dips of last week and the light backlog—may encourage new registrations in the few days remaining in this quarter. Thus, it could well be that refinancing to take advantage of the rise in bond prices, as well as new financing, will materialize to counterbalance the present offerings-lull. So far, the fourth week in October, abetted by the A. T. & T. competitive offering, is the only one challenging the sweiling build-up of individual and institutional savings. The total backlog of forthcoming issues, with and without assigned sales dates, is up slightly compared to last week's tally but down in terms of last year's week. Surprisingly, the corporate bond float is almost unchanged compared to last week and last year's week. The number of securities, however, is less and indicates the issues are of larger proportions.

CONSOLIDATED EDISON OF N. Y. BONDS AND SMITH-CORONA MARCHANT PREFERRED RIGHTS ARE WEEK'S LARGEST CORPORATE OFFERINGS

The leading issues on this week's calendar are as follows:
Tuesday (October 2) — $75 million CONSOLIDATED EDISON CO. OF NEW YORK'S first and refunding mortgage bonds up for competitive bidding. They are rated AA and possess five-year protection against lowered interest rate. Also, CONTINENTAL TELEPHONE CO.'S 475,000 shares of common via Allen & Co., and E. F. Hutton & Co. is scheduled for the week of Oct. 2. Federman, Stonehill & Co. are tentatively planning to usher out 125,000 shares of GOLDSMITH BROS. common tomorrow (Oct. 2). That day should see two municipals emerge: $13,990,000 DeKALB COUNTY, GA., and $10 million LOS ANGELES COUNTY FLOOD CONTROL DISTRICT, CALIF.

Wednesday (Oct. 3)—$4,316,000 LICKING COUNTY, OHIO. Also, a relatively small preferred issue via Putnam & Co. of SUBURBAN WATER SERVICE CO. 30,000 shares.

Friday (Oct. 5)—Rights offering to SMITH-CORONA MARCHANT, INC. of Oct. 5 of 241,000 shares of preferred via First Boston Corp.

COLUMBIA BANCORPORATION LEADS RISE IN NUMBER OF WITHDRAWN ISSUES

The trials and tribulations of the bucking stock-market last week had some expected repercussions on the corporate securities in registrations.

The average number of withdrawals in the first three weeks of September was approximately seven. The amount doubled, however, in the Sept. 20-26 week, and undoubtedly will be larger in the last two days of the month. The largest issue reportedly in the process of withdrawal had nothing directly to do with the stock market gloom. COLUMBIA BANCORPORATION'S $30 million convertible subordinated debentures and 1,500,000 common, underwritten by Bear, Stearns & Co., and Allen & Co., offering was intended to finance the acquisition of First Western Bank and Trust Co. from Western Bancorporation. Columbia's failure to exercise its purchase option no longer necessitates the financing involved and, hence, it reportedly will withdraw its registration. Other recent larger withdrawals were: SIDNEY SCHWARTZ REALTY CORP.; REAL PROPERTIES CORP. OF AMERICA; HANNA-BARBARA PRODUCTIONS, INC.; and TREMCO MANUFACTURING CO.

Three securities left the postponed category and returned to the active backlog of issues to be offered. They are: ROADCRAFT CORP.; PROSPERITY CLEANERS & LAUNDRIES, INC.; and ALLIED GRAPHIC ARTS, INC.

FOREIGN PURCHASES OF U. S. GOVERNMENTS SOAR 125% WHILE U. S. GROSS DEBT ROSE BUT 7%. BELIES FEAR OF DOLLAR-DISTRUST OR GOLD-DEVALUATION

One of the serious gaps of information on the holdings of U. S. securities is slowly, but still not fully, being filled. For the first time figures are being provided on the total extent of foreign ownership of U. S. Governments held here. There still are no data on governments held by foreigners abroad nor, for that matter, a breakdown of securities held that is meaningful.
The forthcoming September *Federal Reserve Bulletin* will show, on page 1026, a new series called "Foreign and International" in the Table on "Ownership of Direct and Fully Guaranteed Securities." The following is extracted from the new series (in billions of dollars):

End of	Total Gross Debt	Non-Public Holdings	Public Holdings U. S.	Public Holdings Foreign
Dec., 1954	$278.8	$74.5	$197.9	$6.3
July, 1961	292.6	82.6	197.3	12.7
July, 1962	298.3	85.3	198.8	14.2

The above figures should show the extent to which foreign ownership rose compared to our holdings of U. S. debt. In the period from the end of 1954, when Europe fully started its recovery, through July, 1962—the latest data—foreign purchases increased 125.4% whereas our gross debt advanced but 6.99%. The Federal Reserve and U. S. agencies in the United States were principally responsible for absorbing governments. The public's share went up diminutively. The end of July, 1961 and 1962, figures reveal a 11.8% foreign holdings-increase held here whereas our gross debt slowly nosed up 2%. This practice, if anything, belies the plethora of European inspired reports of distrust of our dollar, or fear of gold devaluation.

MR. Wm. McC. MARTIN'S REPLY TO QUERY ON INCOMPLETE COVERAGE OF FOREIGN HOLDINGS

Knowledge of foreign held U. S. debt is important for two reasons. One, foreigners can offset our recent short-term measures to defend the dollar — for example, the recent prepayment of debt—by selling governments for dollars. Two, we should be thankful for their purchases and prevail upon dollar surplus countries to continue to buy more of our governments and, thus, lessen the immediate potential drain on our gold, giving us a bit longer maneuvering time to balance our payments. The former revolves around dollar-distrust, and the latter around confidence in the dollar.

In answer to a query to Chairman Martin of the Federal Reserve Board, early last month, for data showing the breakdown of the ownership of U. S. Government securities to show the amount held by foreign governments, foreign central banks, and international agencies as distinquished from all other foreign holders of such securities, we were told that the forthcoming *Bulletin* will carry a more complete series than the one just started in the August issue of the Treasury *Bulletin*.

The Fed's series will be prepared by the Treasury and will include foreign central banks, foreign governments and official institutions, and international organizations. Also individuals, banking and nonbanking corporations, or other organizations created under the laws of a foreign country, as well as foreign subsidiaries and branches of U. S. banks, and other corporations. BUT it will not include holdings of securities outside the United States. Fortunately, they do not represent the larger part of the holdings. The Federal Reserve's FLOW OF FUNDS/SAVINGS TABLE is not helpful, incidentally, in this regard. It shows, for example (August Federal Reserve *Bulletin*, page 1072), "Rest-of-the-world sector" federal obligations as $10.9 billion compared to the Fed's new series of $13.4 billion for the same date, end of December, 1961. Nor, for that matter, do the Balance of Payments data compiled by the Department of Commerce show a more accurate total let alone fractionalization of the holdings.

FEDERAL RESERVE WORKS HARD TO KEEP BILL YIELD FROM NARROWING AND CAUSES MEMBER BANK $135 MILLION CREDIT DEFICIENCY FOR FIRST TIME IN A LONG TIME

The Wednesday, Sept. 26, actual data of the Federal Reserve point up a third successive weekly attempt to sell a sizable lot of short terms to keep the short term bill yield from narrowing. Last week the Fed parted with $566 million in maturities of up to one year; two weeks ago (Sept. 19) it sold $599 million; and Sept. 12 sales amounted to $293 million. This, incidentally, brought the Fed's portfolio of governments down to $29,102 million on Sept. 26, compared to $30,267 million on Sept. 12. [Since Sept. 26, the Fed bought bills to ease credit contraction explained immediately following.]

The "nudging" was, however, at some expense to the member banks in the form of a sharp reduction in free credit. The weekly average last Wednsday was $355 million compared to $489 million two weeks ago. The actual net, free excess member bank reserve credit was a minus $135 million on Sept. 26 — the first actual Wednesday deficiency in a long time. The actual net excess credit on Sept. 19 was $550 million, a plus and not a minus, or a Wednesday to Wednesday contraction of $685 million.

For three weeks straight the Treasury gold stock stayed at $16,068 million. Last week's average float was a high $2,176 million for a weekly gain of $40 million. Nevertheless, the actual Wednesday to Wednesday float change was marked by a drop from $2,112,000 (Sept. 19) to $1,641,000. Credit was increased by a drop of $163 million in currency in circulation and member banks borrowed $762 million on Sept. 26—not duplicated since May, 1961.

Allied Radio Corp.—Sales, Earnings Higher—

Allied Radio has reported sales of $51,963,444, for the fiscal year ended July 31, 1962, and net profits after taxes of $1,186,693 or $1.10 a common share.

Sales for the previous fiscal year were $40,504,283 and net earnings after taxes were $986,409 or 91 cents a share before special credits. The 1961 per share earnings have been adjusted to reflect a 2% stock dividend.—V. 195, p. 2928.

American Equitable Assurance Co. of New York—Proposed Merger—

See Corroon & Reynolds Corp., this issue.—V. 193, p. 373.

American Investment Co.—Acquisition—

The assets of Farm Equipment Acceptance Corp. of Peoria, Ill., have been acquired by American Investment Co. for an undisclosed amount of cash, according to an announcement made by L. M. Curtiss, President of American. Farm Equipment Acceptance was engaged in the retail and wholesale financing of agricultural equipment through dealers in six midwestern states. Atkinson Corp., a finance company of Fort Atkinson, Wis., held the controlling stock interest in FEAC.

The acquired assets of approximately $4,000,000 of receivables will be handled by a new Farm Equipment Acceptance, a wholly-owned subsidiary of American Investment, and the business will continue under the same name. It is expected that the operation will be expanded through present dealers and by the adding of new dealers in the midwest area. The operational headquarters of Farm Equipment Acceptance, the American Investment subsidiary, will continue to be at 3500 North Adams St., Peoria, because of its proximity to a major agricultural area. The personnel of the old company will continue with American Investment's subsidiary.

American Pulley Co.—New President—

Edwin D. Solloway, 37, has been named president of The American Pulley Co., Philadelphia, a division of Universal American Corp.

American Pulley manufactures and sells mechanical power transmission equipment, material handling equipment, pressed metal specialties, agricultural spraying equipment and steel reels and spools.

Solloway has been general project manager and product engineer for Paul Hardeman, Inc., Stanton, Calif., a subsidiary of Universal American. Prior to joining Paul Hardeman, Solloway was associated with Hugh Robinson & Sons. He is a graduate of California State Polytechnic College.

Universal American Corp. is a diversified industrial organization with headquarters in New York City.—V. 191, p. 1981 and V. 184, p. 518.

American Ship Building Co.—Reports Loss—

The company has reported a loss of $250,511, equal to 43 cents per share in the fiscal year ended June 30, 1962.

W. H. Jory, President, noted in the annual report that the loss was attributable to the generally depressed condition of the industry and the occurrence of a labor dispute in the beginning of the fiscal year which caused a lengthy interruption of operations. Also, Automobile Transport, Inc., the wholly owned automobile-carrying subsidiary, was adversely affected by a labor dispute suffered by its sole customer.

The company expects operations to be profitable this year. Factors tending to improve results are a newly instituted cost cutting program, modernization of the Automobile Transport fleet, an order received for pressure steel casting machinery, the closing of an unprofitable shipyard, broadening the scope of sales coverage

and a new program of competing for military and ocean vessel construction and conversion work.

The company continues to seek new product possibilities, principally in related lines, and is now negotiating for a majority position in a small company which designs and builds a new marine product.—V. 195, p. 2488.

Archer Daniels Midland Co.—Net 18% Greater—

Operating profits of the company should continue to increase in the next two or three years on the basis of existing facilities and projects scheduled for completion within a year, John H. Daniels, President, said.

For the fiscal year ended June 30, 1962, earnings of this major processor of agricultural and chemical products were up 18% to $4,421,268, or $2.70 a share, on sales of $245,896,523.

Speaking before the New York Society of Security Analysts, Mr. Daniels pointed out that ADM's profit improvement program is well underway as a result of the company's capital expansion and improvement program and three important acquisitions in the agricultural group.

By June 1963, ADM will haves pent in three years a total of more than $40 million on capital expansion.

Within the next month, the company will dedicate two new installations—the multi-million dollar Chemical Center at Peoria, Ill. and the Thomas L. Daniels Research Center at Bloomington, Minn. A joint venture grain export terminal at Destrehan, La., is expected to go into operation early in 1963. ADM also constructed a new soybean processing plant at Fredonia, Kansas, this year which makes ADM's soybean production facilities "second to none in terms of productivity and efficiency," he added.

The acquisition of the J & O Grain Co., the Atkinson Flour Milling Co. and the 12 grain terminals purchased from the Norris Grain Co. round out ADM's current expansion program, Mr. Daniels said.

In addition to the further growth that is anticipated from the Agricultural and Chemical groups, increased revenues should be realized from our expanding overseas operations, he added.

The company now has some $6 million invested in joint ventures or subsidiaries outside the United States, and over the next five years ADM plans to intensify efforts to capture a greater share of the growing world market for its products, the ADM official pointed out.

Research and development is also a major key to future profitable growth, Mr. Daniels said. The company is spending $2,400,000 this year on R & D.

"We are anxious to maximize our short term profits as well as prepare for long term growth," Mr. Daniels stated. He added:

"This year's operating profits should continue to show a favorable trend, although first quarter earnings may not be as good as subsequent periods because ADM will not realize the full benefits of Peoria, Fredonia and Destrehan until later in the year."

Archer Daniels Midland produces some 1,000 products which are used by every major manufacturing industry. The company maintains its headquarters in Minneapolis, Minn.—V. 196, p. 949.

Associated Products, Inc.—Net Up 22%; Sales 4%—

Net income from the domestic operations of Associated Products for the fiscal year ended May 31, 1962, was nearly 22% above that of a year earlier on a gain of slightly more than 4% in sales, Morris Levinson, President, reported in the first annual report to be issued since the company became publicly owned in late 1961.

"The more than proportionate rise in earnings as against sales for fiscal 1962," Mr. Levinson said, "was the result of management's efficient implementation of the company's intensified cost control program and a realization of better profit margins on particular products." Associated Products' historically healthy record of ratio of profit from operations, before taxes, was maintained for fiscal 1962, Mr. Levinson said, and was more than 17%.

Net sales for the company's domestic operations in the past year amounted to $15,434,949 as against $14,830,165 for fiscal 1961.

Profit before taxes was $2,745,777, excluding $91,144 derived from investments. For the previous fiscal year, pre-tax earnings were $2,245,483, exclusive of $249,633 from investments.

Net income, after taxes, for fiscal 1962 totaled $1,328,445, not including $55,476 of net investment income, and was equivalent to $1.11 per share on the 1,196,250 shares of common stock currently outstanding. Including investment income, earnings equalled $1.16 per share. Net income for the previous fiscal year amounted to $1,090,151—not including $215,017 of net investment income—or 91 cents per share, calculated on the same basis. Including investment income for fiscal 1961, earnings were equivalent to $1.09 per share. —V. 196, p. 316.

Automatic Data Processing, Inc.—Net at Record High

Henry Taub, President, has announced record earnings for the fiscal year ended June 30. The company, a specialist in payroll processing, offers data processing services through the use of high speed IBM electronic computers.

Reflecting increased sales, net income for the company was $30,853 or $.075 a share. This was an increase over 1961 from $23,333 or $.057 per share based on the number presently outstanding. Gross sales rose to $660,991 from $418,937.

Mr. Taub attributed this growth to the increased technological proficiency of the company in the dynamic field of data processing services. The company, located at 92 Highway 46, recently installed its second IBM 1401 electronic computer system, enabling it to offer an extremely broad range of services. This equipment also made possible the preparation of payrolls amounting to more than $150,000,000 during 1961-62. He noted that despite the high cost of installing the equipment, the company's sales and net profits maintained favorable levels.

"We are looking forward to a period of continued growth at Automatic," he said. "Our first new branch office—Automatic Computer Services, Inc., at 120 Wall Street, New York City—was recently established to serve the business and financial community. At present a magnetic tape 1401 computer system is at work there processing reports for one of our major clients. This new company, a wholly-owned subsidiary of Automatic Data Processing, Inc., will engage in stock brokerage applications and general data processing."—V. 194, p. 1379.

Avco Corp.—Earnings Up 41%; Sales 24%—

Avco his reported a 41% increase in earnings for the first nine months of the fiscal year. They were the highest earnings for any comparable period in the company's history.

Consolidated net earnings for the nine months ended Aug. 31, 1962 rose to $12,390,933 from $8,797,648 for the same period of 1961. The 1962 nine months earnings were equal to $1.14 per common share based on an average of 10,885,903 shares outstanding, compared with 85 cents in the 1961 period when the number of outstanding shares averaged 10,402,071.

Net sales for the first nine months of fiscal 1962 increased 24% to $288,908,388 from $233,558,320 in the same 1961 period.

Kendrick R. Wilson, Jr., Avco chairman, said emphasis on research and development in the past decade has played an important part in the company's growth in volume.—V. 195, p. 2929.

Bearings, Inc.—Sales Up 17%; Earnings 74%—

Sales and earnings of Bearings set new records during the fiscal year ended June 30, 1962, Joseph M. Bruening, President, said in the annual report to shareholders.

Sales increased to $38,899,499, a gain of about 17% over the $33,378,628 of the previous year.

Net earnings climbed to a peak of $1,682,046 or $1.70 a share, an increase of 74% over net earnings of $965,499 or 97 cents a share last year.

Bearings is the largest marekter of replacement bearings, handling the lines of all principal bearing manufacturers. Approximately 85% of sales are for replacement of bearings and related products in industrial plant equipment, and 13% for the truck and fleet maintenance market, with the remaining sales resulting from spindle repair service.

Sales and service programs are conducted through 59 distribution centers located in the industrial areas of 19 states in the Midwest, South and East.—V. 196, p. 743.

Bliss & Laughlin—Acquisition—

The acquisition by Bliss & Laughlin, the nation's leading producer of cold finished steel bars, of Belmont Manufacturing Co., Belmont, Calif., was announced jointly by Bliss & Laughlin's President, Fred J. Robbins, and George Williams, President of Belmont.

Involved in the acquisition are the entire assets, production and nationwide distrbuition facilities of Belmont which produces tools for the construction industry. Tool service facilities of the company are located in 12 cities in the United States and Canada.

Purchase price for the company was not revealed; however, Mr. Robbins disclosed that it was for cash.

Commenting on the acquisition, Mr. Robbins said "this is a significant development for Bliss & Laughlin. We have for some time been interested in diversification and acquisition of Belmont is a step in providing Bliss & Laughlin stockholders with opportunity for continued growth with the nation's economy. We look forward to our association with the people at Belmont and jointly will work for continuing growth in their market."—V. 195, p. 2030.

Bobbie Brooks, Inc.—Profit Up 26%; Sales 24%—

Quarterly net profit after taxes exceeded $1,000,000 for the first time in the company's history during the three months ended July 31, 1962, Maurice Saltzman, President, announced on Sept. 20, at a meeting of the Investment Analysts Society of Chicago.

Net profit for this first quarter of the fiscal year was $1,025,300, an increase of 26% over the $812,000 earned during the same period a year ago by the manufacturer of apparel for young adult women.

Earnings per share were 34 cents compared with 27 cents for the first quarter of the preceding year, based on the 3,023,512 shares outstanding on July 31, 1962, as adjusted for the 2 for 1 stock split effective Aug. 31.

Sales also climbed rapidly during the quarter. The total of $19,023,700 was $3,642,600 or 24% higher than the $15,381,100 figure for the same three months last year.

The quarterly figures do not include operations of Ready Maid Petticoats, Inc., producer of Stretchini stretch sportswear and swimwear for children, which was acquired on July 2 subject to a favorable tax ruling.

Stretchini sales, which totaled $3,300,000 for the fiscal year ended last April 30, were up 68% during the first quarter of the current year as compared to the same three months a year ago, and its second quarter also promises to show good gains, Mr. Saltzman said.

Bobbie Brooks holiday line bookings are substantially ahead of a year ago, and the company is well on target towards its goal of $75,000,000 in sales for the year ending next April 30, with net profit expected to be from $1.05 to $1.15 a share compared with last year's 88 cents, Mr. Saltzman stated.—V. 196, p. 949.

Bowser, Inc.—Preferred Arrearage Plan Approved

On Sept. 25, 1962 it was reported that stockholders had approved a plan to pay preferred dividend arrearage amounting to $2,794,493 or $14.40 a share on 194,062 outstanding preferred shares.

The new securities and cash under the plan will be distributed Dec. 1.

The major features of the plan include:

The present $25 par value 4.8% preferred stock will be converted on a share-for-share basis for a new $28 par value 5.75% preferred. This will increase the annual dividend to $1.61 a share from $1.20.

Preferred shareholders will receive a cash payment of $3.50 a share in instalments of $1.75 on Dec. 15, 1962, and March 15, 1963.

Preferred shareholders will receive a new class B non-voting common stock that will share equally on a dividend basis with the present common stock. This distribution will be on the basis of ¾ share for each share of preferred.

A sinking fund will be established for ultimate retirement of the preferred stock. Annual payments into the fund will be related to each year's net consolidated earnings.

Bowser manufactures service station gasoline pumps, coin-handling machines and electronic products.—V. 196, p. 743.

Canadian Oil Companies—Stock Purchase Offer—

The Royal Dutch-Shell Group has raised its bid to the equivalent of about $137,000,000 in Canadian funds for all the 2,618,370 outstanding common shares of the company.

Directors of Canadian Oil said that they have recommended acceptance of the offer, which Shell said will be made "as soon as possible." Earlier the board had rejected as too low a previous bid that was equal to about $114,000,000.

The new offer is to be made by Shell Investments, Ltd., of Toronto, which owns a 50% interest in Shell Oil Co. of Canada, Ltd., and is wholly owned by the Royal Dutch-Shell Group.

Stockholders of Canadian Oil will be offered an option of either:

For each Canadian Oil share $52.50 in cash and a warrant to buy until Sept. 30, 1972, for $20 a depository certificate representing one-quarter, class B common share of Shell Oil of Canada;

Or for each Canadian Oil share $32.50 in cash and one 5½% par $20 cumulative preferred share of Shell Investments, convertible until 1972 into a depository certificate representing one-quarter class B share of Shell of Canada.

The offer will be conditional on acceptance by at least half the outstanding Canadian Oil stock. It will not be made to holders of Canadian Oil stock living in the U. S.

Shell Investments said the purpose is to integrate operations and assets of Canadian Oil Cos. with those of Shell of Canada.

Both are fully integrated oil companies based in Toronto. Shell of Canada listed total assets of $408,304,003 on June 30; in 1961 it had sales of $279,874,000. Canadian Oil had total assets of $127,644,881 at the end of 1961; its net income last year was $5,016,429 on sales of $92,469,481.—V. 190, p. 1272.

Cascade Natural Gas Corp.—Proposed Acquisition

Magna Pipeline Co. Ltd. of Vancouver, B. C. and Cascade Natural Gas have jointly advised the Public Utilities Commission of British Columbia, during a public hearing, that Cascade has offered to purchase the assets and liabilities of Magna.

The transaction, approved by the boards of directors of both companies but subject to shareholder and regulatory body approval and registration of securities with the U. S. Securities and Exchange Commission, involves the issuance by Cascade of approximately $5,818,000 (U. S.) of eight year 5¼% subordinated convertible debentures, equivalent to $5.25 of debentures for each outstanding share of Magna. The debentures would be convertible at the rate of seven shares of Cascade common for each $100 of face value and would be callable after five years from date of issue on a declining premium basis. They would carry no sinking fund. In addition Cascade would honor the present Magna warrants on a basis of eight warrants entitling the purchase of one share of Cascade at $15 (U. S.) for two years and $16.50 (U. S.) for an additional three years. There are 750,000 warrants involved.

Cascade operates natural gas transmission and distribution facilities in 52 communities in Washington and Oregon.

It is the intent of both companies to proceed immediately to obtain all necessary approvals and complete the transaction. Magna will then be liquidated and the Cascade securities distributed to the Magna shareholders.—V. 195, p. 2489.

Chemical Contour Corp.—Sales Up 59%—

The company's sales in the first quarter of its current fiscal year were at an all-time high for any three month period, James H. Langworthy, President of the chemical milling firm, announced.

Consolidated net sales in the quarter ended June 30, 1962, rose to $582,000, an increase of 59% over sales of $365,000 in the corresponding period of the previous fiscal year. Net income after taxes in the initial quarter of this fiscal year also registered a strong gain, totaling $46,000, or 12 cents a share, compared with $36,000, or 9 cents a share, a year earlier. Per share earnings are based on the 400,000 common shares outstanding at the close of both quarters.

Mr. Langworthy attributed the substantial gain in volume to increased orders for chemical milled parts for a wide range of military and commercial aircraft and space vehicles. These included the Boeing 727 commercial jet transport, the Northrop T-38 Air Force trainer, the McDonnell F4H Navy fighter, the Grumman W2F Hawkeye, the North American RS-70 and the Douglas Nike-Zeus missile.

Mr. Langworthy also reported that the first petroleum terminal automation system manufactured by the company's Empcor subsidiary was installed during the first quarter and is performing beyond expectations. "This initial unit is attracting considerable attention in the peroleum industry, and we are optimistic that it will produce additional sales," he stated.—V. 196, p. 317.

Chock Full O'Nuts Corp.—Profits Up 17%—

Chock Full O' Nuts, for the year ending July 31, 1962, increased its volume for the 12th consecutive year, while earnings rose to a record $2,420,000, over 17% greater than the previous year when earnings were $2,063,000 (excluding non-recurring income of $89,768).

For fiscal 1962, the company's volume increased $2,844,000 to $36,573,000, compared with $33,729,000 last year.

Chock Full O' Nuts' historic high profits brought earnings to 69 cents per share on 3,515,159 outstanding, compared with 60 cents (excluding non-recurring income of 2 cents per share) in 1961.

The firm's earnings increased for the sixth consecutive year. The 1962 report showed that earnings were 175% greater than for the fiscal period five years ago.

Simultaneously, Chock Full O' Nuts reported that its restaurant division will open three new stores within the next two months, and had signed leases for three additional units. The company also stated that it will market a line of salted nut meats and 10-cent candy bars in 1963.—V. 195, p. 2594.

Collins & Aikman Corp.—Record Sales, Earnings—

This leading manufacturer of textile fabrics and yarns has reported record sales of $53,571,535 for the first fiscal six months ended Sept. 1, 1962, against those of $39,482,461 in the comparable 1961 period. Net income after taxes totaled $1,872,773, a record high, equivalent to $1.70 per share on the 1,101,300 common shares currently outstanding. This compares with $1,112,396, or $1.03 per share, in the 1961 six months' period, on the 1,083,000 shares then outstanding after adjustment for a two-for-one common stock split which gecame effective Nov. 24, 1961.

Second quarter sales rose to $27,903,238 from $22,466,509 a year ago. Net income after taxes for the quarter totaled $913,585, or 83 cents per common share, compared with $723,773, or 67 cents a share a year ago based on the common shares outstanding at that time after adjustment for the two-for-one stock split.

Donald F. McCullough, President, stated that "sales in the third quarter continue at a satisfactory rate." He added that a new spinning plant of approximately 60,000 square feet is now being completed at Troy, N. C., which "will provide for a considerable expansion in the facilities of our yarn division."—V. 195, p. 216.

Commonwealth Theatres of Puerto Rico, Inc.—Annual Report—

The company has reported its operations experienced major growth in the fiscal year ended April 30, 1962.

Net sales of the company, whose 42-theatre chain is the largest in Puerto Rico, totaled $3,514,681. Earnings for the period were $385,557, or 77 cents a share.

No meaningful comparison with the sales or earnings of any previous period can be made due to basic company changes which occurred during the year, Commonwealth Theatres noted. These changes, evidenced by a quadrupling of assets in one year—from $503,096 to $2,020,008—included a public financing, and the company's evolution from a theatre management concern to one in the business of actually operating theatres as well as vending machines and concessions.—V. 194, p. 2761.

Connecticut Water Co.—Bonds Sold Privately—On Sept. 25, 1962, it was reported that $1,500,000 of this firm's 5% first mortgage bonds, due 1987 had been sold privately to the State of Connecticut as custodian for various pension funds. Putnam & Co., Hartford, assisted in the financing.

Proceeds will be used to repay bank loans and for construction.—V. 190, p. 153.

Consolidated Credit Corp. — Class B Common Offered—Pursuant to a Sept. 4, 1962 prospectus, Ferris & Co., Washington, D. C., and Southeastern Securities Corp., Charlotte, N. C., offered publicly, 77,656 shares of this firm's outstanding class B (non-voting) common stock at $6.75 per share.

Net proceeds will go to the selling stockholder.

BUSINESS—The company of 316 Johnston Bldg., Charlotte, is a North Carolina corporation organized in 1952. Almost entirely through separate subsidiary corporation which it wholly-owns, it is engaged in the personal finance or small loan business in eight states. Through another wholly-owned subsidiary, Builders Life Insurance Co., it is engaged in the business of writing life and accident and health policies in connection with loans made by the company and by other firms engaged in the same business. It is also engaged in the commercial printing business through Associated Printing Corp., a wholly-owned subsidiary, but the operations of Associated Printing are not significant in relation to the operations of the company and its other subsidiaries.

panies are under the management of Corroon & Reynolds, New York, N. Y.

The merger plan is subject to the approval of stockholders and the Superintendent of Insurance of the State of New York and the Commissioner of Insurance of the Commonwealth of Pennsylvania. Stockholders of record on Sept. 26, 1962, will vote on the proposed merger at special meetings of both companies on Nov. 2. The merger would become effective Dec. 31, 1962.

American Equitable will continue and will have a capital of $2,500,000 consisting of 1,000,000 shares of a par value of $2.50 per share. The merger agreement provides that stockholders of the present American Equitable will receive one share of new stock for each old share. Stockholders of the present Globe & Republic will receive 1 2/10 shares of new stock for each old share.

As a result of the merger, the combined assets of the new American Equitable would approximate $70 million, with policyholders surplus exceeding $36 million.—V. 193, p. 1688.

Dallas Airmotive, Inc.—Sales at Record High; Net Down—

Sales of Dallas Airmotive, for the six months ended Aug. 31 were the highest of any like period in the firm's history, Henry I. McGee, President, said in the semi-annual report to shareholders.

Out of gross revenues of $5,451,280, he added, about $3 million was derived from sales and services to commercial customers.

Net income of the company in the first half of the fiscal year totaled $302,259, equal to 47 cents on each of the 650,000 shares outstanding, compared with $345,308, equal to 53 cents a share, in the like period last year. Mr. McGee noted the earnings comparison was affected by the fact that last year's first half benefit from $75,000 commissions on sales of aircraft. This activity has been discontinued "because it was not compatible with our regular business of overhauling aircraft engines."

Mr. McGee said in the report the company expects sales in the last half this year to be about the same as the first half, but "we expect net income to be higher. This is because we are continuing to receive a higher percentage of more profitable commercial business, and because we have been able to renegotiate or discontinue some specific engines which we had not been able to overhaul at a normal profit rate," he said.—V. 195, p. 2259.

Delta Air Lines, Inc.—August Report—

Delta has reported net income of $2,370,000, equal to $1.39 a share, for August. This topped the previous record month of $2,082,600, equal to $1.22 a share, reported in July and compared with $101,000, or seven cents a share, for August, 1961.

There were no profits from the sale of aircraft in either of the August reports.

"The interruption of service of one of Delta's principal competitors continued to have some influence on the overall volume," said C. E. Woolman, President and General Manager, "but it must be pointed out that a major factor was the generally favorable business climate across Delta's system.

"For example, the west coast operations showed a marked increase above August of last year. The passenger load factor increased eight percentage points even though the capacity of service from the South to California since August, 1961, increased from three jet flights and one DC-7 daily to seven daily jet schedules."

Mr. Woolman said that for the first two months of the current fiscal year, net income was $4,452,000, equal to $2.62 a share, up from the $137,000 or nine cents a share. The passenger load factor —the percentage of available seats occupied—increased 22% from 55.72% to 67.92%.

For the month of August, Mr. Woolman said available seat miles increased to 425,512,000, 32% above the 322,997,000 of August, 1961. Revenue passenger miles rose from 181,318,000 in August, 1961, to 293,785,000, an increase of 62%. The passenger load factor was 69.04%, compared with 56.14% for August last year. The load factor for July, 1962, was 66.76%.

Operating revenues for August were a record $20,729,000, an increase of 65% above the $12,588,000 for August, 1961. Operating expenses increased 26% from $12,178,000 for August last year to $15,300,000.

AirFREIGHT revenues rose from $446,000 in August, 1961, to $834,000 with airFREIGHT revenue ton miles increasing from 1,823,000 to 3,486,000.—V. 196, p. 555.

Detroiter Mobile Homes, Inc.—Subsidiary Liquidation Approved—

Directors of Alma Trailer Co., a subsidiary, have approved a plan to sell the remaining assets of the company and liquidate the corporation, subject to stockholder approval, Melvin J. Hutchinson, President, announced.

Mr. Hutchinson said the board's decision was based on the extensive damage to Alma's manufacturing facilities from a fire on July 3, as well as other factors. The fire destroyed 75% of the production area of the Alma, Michigan plant.

Alma Trailer is 90.6% owned by Detroiter Mobile Homes, which has submitted an offer to buy the Alma assets. The offer requires the approval of at least two-thirds of the minority stockholder group. A special stockholder meeting will be held on Oct. 5 to vote on the plan.

Mr. Hutchinson, who also is President of Detroiter Mobile, said that if the sale is approved, Detroiter would utilize the remaining Alma facilities.

Earlier plans of Alma Trailer to construct a new plant to replace the destroyed facility have been canceled, Mr. Hutchinson stated. —V. 196, p. 853.

DuBois Chemicals, Inc.—Record Sales; Earnings—

Mr. Charles A. DuBois, President of this Cincinnati-based national manufacturer and distributor of cleaning compounds for institutions and industry, announced that the firm has just completed the most successful six month period in its 42 year history.

Both sales and earnings for the month of August and for the three and six months ended Aug. 31, 1962 set new record levels. For the six month period just ended net sales increased $1,860,168 or 10.8% to a total of $19,142,810. During the same period net income from operations increased 15.3% to $1,509,531 or $.57 per share based on the 2,654,594 shares outstanding as of Aug. 31, 1962; this compared with $1,309,688 or $.47 per share for the same period in the preceding year based on 2,794,521 shares outstanding Aug. 31, 1961.

In addition, Mr. DuBois showed non-recurring expenses of $2,873 for this period compared with $40,531 non-recurring income last year. Total earnings were $1,506,658, compared with $1,350,219 last year, or 57 cents per share versus 48 cents per share last year. Sales and earnings figures for both years include the Vestal Laboratories Division which was acquired Feb. 28, 1962.

The progress shown in the first half is expected to continue for the balance of the year.

Dudley Sports Co., Inc.—Common Offered—Pursuant to a Sept. 19, 1962 offering circular, Crerie & Co., Inc., and W. R. Reisch & Co., Inc., New York City, offered publicly, 37,500 shares of this firm's common stock at $4.50 per share.

Net proceeds, estimated at $135,875 will be used for repayment of loans, promotional materials, and working capital.

BUSINESS—The company was incorporated under the laws of the State of Delaware on Feb. 26, 1962 and has its principal place of business at 633 Second Ave., New York, N. Y. It is engaged in the distribution and sale of baseballs, softballs, automatic baseball pitching machines and other sports equipment and accessories.

The company was organized for the express purpose of acquiring, and on March 14, 1962 (as of March 1, 1962) succeeded to, the business operated as a sole proprietorship by G. Dudley Full under the trade name of Dudley Sports Co. from Oct. 1, 1949 to March 14, 1962.

G. Dudley Full remains associated with the business as a full time employee of the company and as the chairman of its board of directors.

Electronics International Capital Ltd.—Investment

Electronics International Capital has announced a $1 million investment in S. A. Novak of Brussels, Belgium, a leading manufacturer of television and radio receivers. At the same time, it disclosed that a merger is planned between S. A. Novak and AREL of Antwerp, another Belgian electronics firm in which EICL has a majority interest. The merger will be consummated upon the approval of a U. S. Government agency.

Combining the manufacturing and marketing resources of the two companies, according to Charles E. Salik, president and chairman of the board of EICL, would result in a strong enterprise holding a significant place in Western Europe's television market.

EICL has a total commitment in AREL of $2,100,000. With completion of the merger it will own 62% of the combined company through a total investment of $3,100,000.

The TV receiver business, Salik said, "represents one of the European Common Market's leading growth industries with sales expected to continue at a high rate for almost the entire decade of the 1960's". The recent success of Telstar, with its promise of world-wide television, he pointed out, has given an even further boost to this already vigorous sales growth.

"By 1967 it is anticipated that about 60% of the homes in Western Europe will have television, as compared with a present saturation of only 25 to 30%," Salik said.

S. A. Novak, which was founded in 1929, has a manufacturing plant in Brussels and marketing outlets throughout the European Economic Community. AREL was organized in 1952 and has operating facilities in Antwerp, subsidiaries in Amsterdam, Luxembourg, Copenhagen and Innesbruck, and an associated company in Italy. It manufactures television and radio sets as well as industrial and commercial electronics equipment. The two companies have a total of more than 1,000 employees.

Electronics International Capital Ltd., a Bermuda-based corporation, was created through a Special Act of the Parliament of Bermuda and is the first international banking institution concentrating its investments in electronics in the Free World. Investment commitments now total approximately $10 million.—V. 193, p. 1792.

Elgin National Watch Co.—Six Months' Report—

Net operating profit of the Elgin National Watch Co. for the six months ended Aug. 31, 1962, climbed to $174,702, equal to 19 cents per common share, Henry M. Margolis, board chairman, reported. This compares with a net operating loss of $55,000 in the same period a year ago.

Sales rose to $21,308,988 from $16,645,000 in the same 1961 period. Last year, however, non-recurring income of $265,178, representing the settlement of a government claim in Elgin's favor, turned the operating loss into a net profit of $210,178 or 23 cents a share.

Net earnings for the second quarter, ended Aug. 31, 1961, totaled $60,109, equal to 7 cents per share, compared with $69,507 or 8 cents a share in the comparable 1961 three months. Sales were up to $11,161,269 from $8,990,000.

Prospects for the third quarter are bright, Mr. Margolis said. Reflecting the excellent market reception of new consumer products, the sales trend is expected to continue upward, he added.

"Barring unforeseen developments, it is reasonable to expect that the higher sales will be translated into improved earnings," concluded Mr. Margolis.

The backlog of government contracts in the Industrial Group on Aug. 31, 1962, was approximately $20,000,000.

No provision was made for Federal taxes in any of the fiscal periods because of a tax loss carry-forward which on Aug. 31, 1962 amounted to $3,247,000.—V. 196, p. 5.

Engineered Plastics Container Co., Inc. — Annual Report—

The company had earnings for the fiscal year ended last June 30 —the first full year of operations for the company—of $1,728, it was announced by Robert E. Marsh, President. Net sales of the Anaheim-based manufacturer of industrial and commercial plastic products for the recent year totaled $256,776.

"While it was significant that we reached more than a break-even point in our first year's operations, even more important were the accomplishments in manufacturing and marketing that are now enabling rapid growth," Mr. Marsh said. EPC's order backlog presently tops $600,000 and is increasing steadily, he noted.

A major factor in the company's continuing growth, Mr. Marsh noted, is the fact that it has the largest blow molding plastics manufacturing apparatus in the country—a $250,000 production process which enables output of containers and other products in sizes, conformations and quality of plastic material unequalled by competitive manufacturing methods. EPC is using this capability to expand into new markets and product areas previously untapped or highly limited to plastics producers, he added.—V. 194, p. 317.

(L. M.) Ericsson Telephone Co.—Awarded Contract in Ireland—

The company, parent firm of the worldwide Ericsson Group of telecommunications companies, has announced receipt of a contract valued at approximately $660,000 to provide automatic telephone exchange equipment in Ireland.

The contract to extend the rural telephone network in Ireland was placed by the Department of Posts & Telegraphs and follows earlier contracts placed with L. M. Ericsson, one of the world's leading manufacturers of telecommunications equipment.

The first telephone exchange delivered to Ireland by L. M. Ericsson was opened in Limerick in 1957. The conversion of both urban and rural telephone traffic to automatic operation has since been proceeding at a rapid rate. Four urban exchanges servicing 12,000 subscribers have already been automated.

Currently, L. M. Ericsson has a contract backlog of over $2,600,000 with the Irish Department of Posts & Telegraphs to provide telephone exchanges, and orders valued at approximately $100,000 for telex exchanges.

The Ericsson Group, with operations in 75 countries, had sales of $221,147,000 in 1961. The Group's manufacturing subsidiary in the United States is North Electric Co., Galion, Ohio.—V. 195, p. 2701.

Ero Manufacturing Co.—Sales Up 11%, Net Higher

The company has announced increased sales and earnings for the six months ended July 31, 1962, the first half of the company's fiscal year.

Net sales rose 11% to $5,203,239, from $4,678,534 in the first half of 1961. William J. Heiman, President, said the gain was due to new sales of convertible automobile tops contributed by Atlas International Co., recently acquired by Ero.

Net income of $56,339, equal to 15 cents a share, was $14,219 over the year-earlier earnings of $42,120, or 11 cents a share. Earnings for the year-earlier period have been restated to include net income of $19,340, or 5 cents a share, arising from the elimination of a reserve for expenditures which were not made.—V. 195, p. 2490.

(Leslie) Fay, Inc.—Appointment—

Chemical Bank New York Trust Co. has been appointed transfer agent for the class A stock of the company.—V. 196, p. 1146.

Financial Federation, Inc.—Earnings Forecast—

The company expects that its 1962 second half earnings will be within the range of its record first half net income, before appropriations to general reserves, of $5,628,009, or $3.01 per share, Edward L. Johnson, President, told the Boston Security Analysts Society on Sept. 24.

Mr. Johnson's appraisal was based on the 8-month performance record of the company's 11 affiliated savings and loan associations, computed on a cash basis and subject to final adjustment. He reported that in the 1962 eight-month period compared with the same period in 1961, savings showed a gain of 30%, and loans outstanding increased 39%. New loans placed on the books were up 46%.

Income of the affiliates only, before appropriations to general reserves improved 37%. He told the analysts that he expected the third quarter earnings to be in the range of the second quarter, when the company had net earnings, before appropriations to general reserves, of $3,081,096, or $1.65 per share.

"The operating method of Financial Federation's affiliates are providing results that appear to run counter to some of the current trends of the industry," Mr. Johnson said. He cited a recent Federal Home Loan Bank Board survey on mortgage interest rates of 187 large savings and loan associations reporting that average interest rates on mortgages on new homes was 5.97% for the first 10 days of August, against a 6.02% average in early August of 1961. Financial Federation affiliates' average rate in August this year was 6.79%, against 6.92% in August 1961.

"Our delinquency trend shows a good improvement. A year ago we had a dollar delinquency ratio of 1.64%. Today that has been reduced to 1.26% and covers 333 loans, or less than 1% of our 33,586 loan accounts," Mr. Johnson reported. "Along with improvement in our delinquency ratio and our sustained growth record, we have reduced our operating expense ratio as a percentage of operating income to a new low. For the period ended Aug. 31 last year, the ratio was 22.9%, and for the past eight months it has been 20.9%, a two point drop."

Mr. Johnson said his company "expects 1963 to be a good year for housing construction in California, with housing starts somewhat greater than for 1962, varying, of course, with local conditions.

"We are optimistic over the outlook. While we are well aware of the competitive factors for this market, we are confident that through our local level operations we will receive a fine share of the business," he concluded.—V. 196, p. 639.

Franklin National Bank of Long Island—Preferred Stock Offered — On Sept. 26, 1962, Eastman Dillon, Union Securities & Co., New York City, announced that it headed an underwriting group which offered publicly, 200,000 shares of The Franklin National Bank 4.60% cumulative preferred stock, priced at $100 plus accrued dividends. The offering was oversubscribed.

Since the 1930's, there has not been a public sale of preferred stock by any major bank in the United States, although several bank holding companies have issued preferred stock.

The offering is being made subject to approval of the issue by holders of common stock of the bank and by the Comptroller of the Currency of the United States. Shareholders will be asked to approve the issue at a special meeting scheduled for Oct. 15.

CALL PROVISIONS—The preferred stock will be non-callable for any reason for 10 years. It will thereafter be callable in whole or in part at $100 per share plus accrued dividends. A non-cumulative purchase fund of $700,000 per year will be set aside each year beginning Jan. 2 1973 and applied to the purchase of preferred stock in the open market or on calls for tenders at the lowest prices available but in no event in excess of $99.99 per share plus accrued dividends.

BUSINESS—The Franklin National Bank, headquartered in Mineola, is the largest commercial bank on Long Island, and the 27th largest in the United States, in terms of deposits at June 30, 1962. Since 1950 Franklin National has opened 25 new branch offices and acquired 21 other offices through mergers and consolidations. It now operates 47 banking offices in Nassau and Suffolk Counties, Long Island, and in late 1963 will open its first two New York City offices in the financial district and at 48th Street and Madison Avenue.

Since 1950 deposits have risen from less than $41,000,000 at June 30, 1950, to $906,549,000 at June 30, 1962, and resources have mounted from less than $45,000,000 at the earlier date to almost $993,595,000 at June 30, 1962.

Frigikar Corp.—Arranges Nationwide Leasing Plan

The corporation has arranged to provide a nationwide leasing plan for its fleet automobile air conditioners, truck cab air conditioners, and truck-trailer refrigeration units under an agreement with C.I.T. Leasing Corp., it was announced today by Bert J. Mitchell, president of Frigikar.

The plan—which enables fleet owner or individual to lease the units over a predetermined period—is being made available through the company's network of over 380 distributors and over 4,000 sales and service outlets. All that is required of the lessee is an initial payment equivalent to one month's rental for each year of the lease term and the units will be delivered and installed on the user's equipment. At the end of the lease period, the user may continue the agreement on a month-to-month basis, at a reduced rate, or turn in the equipment for new units under a new lease, or purchase the units at a fair market value. "No security deposit is required under the C.I.T. plan," Mitchell said, "and the terms

of the lease can be varied to suit the individual requirements of the user."

Acquisition—

The corporation has announced the acquisition of the Coldmaster Truck Refrigeration Division of the Construction Machinery Co., Waterloo, Iowa. Bert J. Mitchell, President of Frigikar, said the cash transaction included patents, trademarks, inventories, and tools and fixtures.

"The acquisition of this fine product," said Mr. Mitchell, "is another step in our planned expansion program and the exclusive patented system gives us a broadened area of operation. It also gives us the most complete line of mobile refrigeration units on the market. The Coldmaster series of truck refrigeration has been proved by thousands of miles of operation in everyday service, and is a natural addition to the Frigiking Transport Refrigeration line for small delivery trucks."

Starting with the transfer of inventory from the Waterloo plant, the entire production of the Coldmaster units will be phased into the operations of the newly expanded Frigikar plant at 10858 Harry Hines Blvd., Dallas, it was stated.

The Coldmaster line is now being distributed nationally by a distributor network similar to Frigikar's, Mr. Mitchell said, with each distributor having complete installation and service facilities. —V. 191, p. 701.

Fund of Funds, Ltd.—New Mutual Fund—

The Fund of Funds, an American-managed mutual fund formed to invest in shares of selected U. S. investment companies, started world-wide operations in Geneva, Switzerland, on Sept. 25, 1962

Shares of the new fund will be marketed throughout the world by Investors Overseas Services, a Geneva-based corporation with offices and representatives in 62 countries on all six continents. IOS is the world's largest mutual fund distributor specializing in the international market. Anticipated 1962 sales: over $100 million.

With 350 American mutual funds currently available, the Fund of Funds aims to solve the investor's problem of "which fund to choose." The investment portfolio, constantly under review, will consist of a limited selection of the best-performing U. S. investment companies.

An important feature of the new fund provides that the cost to the Fund of Funds in any particular portfolio transaction may not exceed 1% since the fund will be purchasing in large blocks. In this way, the fund will be able to adjust its portfolio at a minimum acquisition charge.

Investment advisor to the new mutual fund is the Templeton, Damroth Corp. of New York City, a firm which together with its subsidiaries currently manages over $300 million in individual, corporate and mutual fund portfolios and is one of the ten largest investment counsel firms in the United States.

Included in the initial portfolio of the Fund of Funds will be shares of the Dreyfus Fund, Fidelity Trend Fund, Keystone: Series K-2, Massachusetts Investors Growth Stock Fund, Over-the-Counter Securities Fund, Putnam Growth Fund, Revere Fund, Research Investing Corp., Value Line Special Situations and Winfield Growth Fund.

The underwriting period for the new fund started Sept. 25 and will extend through Oct. 31. Management currently anticipates that a portion on the initial underwriting will remain in a defensive position (cash and short-term time deposits).

Banks servicing the fund include Credit Suisse of Zurich, Switzerland, depository of cash; Montreal Trust Co. (a subsidiary of Royal Bank of Canada) of Toronto, Ontario, transfer agent; and Bank H. Albert de Bary & Co. of Amsterdam, Holland, which acts as custodian.

G-L Electronics Co., Inc.—Stock Dividend; Record Sales, Net—

This Westville, N. J. manufacturer of magnetic, fiberglass and plastic components, has declared an annual 2% stock dividend, payable on Dec. 12 to stockholders of record Nov. 21.

This is the first dividend declared by G-L Electronics. It is the intention of the board that a stock dividend be declared annually, beginning with this year, at the 2% rate.

G-L Electronics finished its sixth fiscal year on July 31, with new records in both net sales and net earnings. Net sales for the year were $2,419,485, an increase of 23.6% over net sales of $1,957,269 for the previous year. Net earnings after taxes were $98,824, or 21 cents per share, as compared to $18,911, or 4 cents per share, for the previous year.

G-L Electronics operates four plants in New Jersey and one in Maryland.—V. 190, p. 258.

Gamble-Skogmo, Inc. — May Buy Stock in Alleghany Corp.—

On Sept. 25 B. C. Gamble, President, announced that negotiations are being conducted with the Murchison Brothers, Dallas financiers, which contemplate Gamble-Skogmo taking a major position through the purchase of a substantial number of shares of Alleghany Corp. from Murchison Brothers. The number of shares involved and the price were not disclosed.

Murchison Brothers revealed that it had been working for some time to interest a third party in entering the Alleghany picture as a major stockholder with the belief that this would alleviate the problem Alleghany has experienced from the controversies between the two principal major stockholders.

"Our interest in the negotiations now being conducted," said Mr. Gamble, "were inspired by the thought that a third party might be constructive in bringing about harmony in this important situation which has tremendous local impact. The arrangements now being negotiated would accomplish this purpose. We expect to complete the purchase of this interest within the next 10 days."

Murchison Brothers stated it would request of the Alleghany board that Gamble-Skogmo be given two places on that board. —V. 196, p. 639.

Gateway Sporting Goods Co.—Additional Financing Details—

Our Sept. 24, 1962 issue reported the sale on Sept. 21, of $2,000,000 of this firm's 5¾% convertible subordinated debentures due Sept. 1, 1977, at par and accrued interest. Additional financing details follow:

UNDERWRITERS—The underwriters named below have severally agreed, subject to the terms and conditions of the underwriting agreement, to purchase from Gateway Sporting Goods the respective principal amount of 5¾% convertible subordinated debentures, due Sept. 1, 1977, set forth below opposite their respective names:

General Railway Signal Co.—Proposed Acquisition —Name Change—

The company has announced plans to acquire the privately held Edwards Co., Norwalk, Conn., for 127,006 common shares. Directors of both companies have approved the transaction. Edwards manufactures electrical and electronic controls for institutional, residential and industrial buildings.

If the transaction is completed the name of the company would be changed to General Signal Corp.—V. 195, p. 537.

Cladding, McBean & Co.—Merger Completed—

See Lock Joint Pipe Co. this issue.—V. 196, p. 855.

Godfrey Co.—Sales Up 8.7%; Net 9.8%—

Sales rose to $44,885,744 for an increase of 8.7% for the 36-week period ending Sept. 8, 1962, while net earnings increased by 9.8% to $205,570 for the same period compared with a year earlier. 1962 per share earnings of 66 cents compared favorably with the 1961 earnings of 60 cents per share, as adjusted to reflect the 313,103 shares outstanding as of Sept. 8, 1962. James E. Godfrey, President, forecast continuing growth in sales and earnings for the balance of the year.

The president reported progress in the acquisition of a new warehouse site, stating that a contract to purchase had been entered into with the City of Waukesha for 100 acres, subject, however, to the fulfillment of certain terms and conditions. The company also retains an option on approximately 110 acres of land suitable for a warehouse site at another location.—V. 196, p. 115.

(W. R.) Grace & Co.—New Japanese Plant—

A plant to manufacture container sealing compounds was dedicated Sept. 26 in Atsugi, Japan, 35 miles from Tokyo, by Darex Kabushiki Kaisha, a subsidiary of W. R. Grace.

The first Grace manufacturing facility in Japan, the plant will manufacture compounded rubber and plastic sealants for metal cans, glass container closures, bottle crowns, aerosol cans, industrial pails and drums, and industrial parts. Most of these sealing compounds, which are marketed under the tradename of "Darex" have been utilized by Japanese container makers and packers since the early 1920's. At that time they were supplied by Dewey and Almy Chemical Company, now a division of W. R. Grace. The new plant will greatly shorten product delivery time.

"Darex" sealing compounds applied by special machinery become integral parts of rigid containers, preserving the purity of the contents and increasing shelf life.

The new plant will be part of Grace's Japanese subsidiary, Darex Kabushiki Kaisha, with offices in Tokyo.—V. 196, p. 640.

Gray Drug Stores, Inc.—Sales, Earnings Higher—

Net sales of Gray Drug Stores, the nation's seventh largest drug chain, climbed to a record $44,952,417 during the fiscal year ended June 30, an increase of more than 13% over the preceding year's volume of $39,626,661, Adolph Weinberger, Chairman, said in the annual report to shareholders.

Net income for the Cleveland-based firm which operates 134 drug outlets in eight States rose to a record $801,113, or $1.27 a share, up 13% over the preceding year's earnings of $707,793, or $1.12 a share as adjusted to reflect conversion of debentures.

Pointing to the growing number of outlets the company operates, Mr. Weinberger said that the company anticipates an increase in sales during the current year, and expects to be operating "at an annual rate of $55,000,000 or more by June 30, 1963."

He reported that the company had opened 18 discount units, most of them in large discount department stores, within the past year and would open 20 more by Dec. 31 to bring the total to 45.

Four regular drug stores were opened during the fiscal year just ended and at least five more will begin operations during the fiscal year now under way, he reported.

Mr. Weinberger said that of the total stores the company was operating as of June 30, 109 were the large regular stores, most of which are located in shopping centers. These, he said, had a sales volume for the year ended June 30 of $38,000,000, a new record.—V. 195, p. 2595.

(M. J.) Greene Co. (and Subs.)—6 Months' Report

Period Ended June 30—	1962	1961
Net sales	$1,370,103	$846,644
Net earnings before taxes	108,483	70,736
Net earnings after taxes	54,760	35,836
Earnings per share	$0.186	$0.122

—V. 195, p. 2930.

Gulf American Land Corp.—Earnings Forecast—

Total sales and other operating income of Gulf American Land Corporation for the fiscal year ended Aug. 31, 1962, were close to double those of the previous year and set an all-time peak, Leonard Rosen, President, said.

He told a group of Security Analysts at the Biltmore Hotel, in New York City that the past year's total income would exceed $70,000,000, based on preliminary information currently available. Mr. Rosen said he could not give more definitive figures at this time since the year had so recently closed.

In the fiscal year ended Aug. 31, 1961, total sales and other operating income amounted to $39,968,581.

The total income figure consists of lot sales, house sales and motel, restaurant and gross operating income, with lot sales making up the bulk of volume.

A record consolidated net profit in excess of $1 per share on approximately 9,200,000 common shares is indicated for the year just ended, Mr. Rosen said. In the previous year the company earned 74 cents per share on an average number of 8,372,844 shares outstanding during the year.

He explained that 1961 figures have been restated to take into account the 4-for-1 stock split resulting from the 300% common stock dividend, effective March 19, 1962, and the adoption of a new method of recording lot sales. Under this new method, a transaction is not recorded as a sale until the first instalment is paid by the purchaser following down payment. Previously, a sale was recorded on receipt of a down payment.

The Miami, Florida-based builders and national marketers of better planned communities in the first nine months of the fiscal year just ended earned a net profit of $7,808,170 or 85 cents per common share on total net sales and other operating income of $56,776,272. This compared with net profit of $4,035,844 or 50 cents per share on volume of $27,699,990 in the corresponding period of the previous year.

Gulf American Land's common shares and 6½% convertible debentures, which were sold publicly in the amount of $10,000,000 last July 19, are traded on the American Stock Exchange as well as on the Pacific Coast Exchange.—V. 196, p. 1145.

Gulton Industries, Inc.—Six Months' Report—

Period Ended Aug. 31—	1962	1961
Sales	$14,471,000	$10,702,000
Net income	704,000	393,000
Earnings per share	$0.62	$0.35

Hanna Mining Co.—Acquisition—

The company has announced that it has acquired all the outstanding 65,000 shares of Escanaba & Lake Superior Railroad for an undisclosed amount.

Hanna said it exercised an option it had held for many years to acquire the 63-mile iron ore carrier.—V. 196, p. 640.

Hayes Industries, Inc.—Sales Up 46%; Net 178%—

Hayes Industries has reported that sales and earnings for the fiscal year ended July 31 reached the highest levels since the end of World War II.

Sales for the year rose to $25,119,000, an increase of 46% over the $17,124,000 reported for the prior fiscal year.

Net earnings for the year totaled $1,343,000, equivalent to $3.18 per share on the 422,815 common shares outstanding. This represents a 178% increase over the $482,000, or $1.20 per share earned in the prior year on the 402,115 shares then outstanding.

In their report to shareholders, E. C. Hetherwick, chairman, and G. Boyd Vass, president, said that the record-breaking increase in sales volume and net income reflects a good year in the automobile industry and continuing gains in production and sales to the textile industry, Hayes' primary markets.

This permitted an increase in the company's annual dividend rate from 80 cents to $1.00 per share, effective with the payment of the July 25 quarterly dividend, they stated, and the declaration of a 25-cent extra dividend payable on Oct. 25.

Shipments of light metal beams to the textile and chemical industries reached record levels. Hayes is the world's leading producer of these lightweight beams and this product line now accounts for better than 15% of the company's total sales, the company officials reported.

The replacement market for automobile mufflers, a new field for Hayes, showed a 25% increase over its first year's operation and has significant growth potential, they said.

"The outlook for Hayes Industries is favorable for the coming year," they stated. "We base our optimistic forecast on general economic conditions, plans of the automobile industry and company expansion within present and new product lines.—V. 195, p. 1097.

(H. J.) Heinz Co.—Sales Higher—

Sales of the company are running at "the best rate in our history" and dollar profits are about the same as those of last year, Henry J. Heinz II, Chairman, told shareholders at the company's annual meeting.

Mr. Heinz told the shareholders:

"The prospects for our business continue to be good. Consolidated sales are running at the highest level in our history, and at about the same rate of increase that was shown in the annual report for the fiscal year ending May 2, 1962. Consolidated earnings as a percent of sales are slightly less than last year, owing principally to the effects of a strike at the main plant at Pittsburgh that extended into the first months of the new fiscal year."

Mr. Heinz reported that in England, Canada and Australia, where the company has its major operations abroad, business is showing "an even greater volume than last fiscal year, which is most gratifying in light of the intense competitive situation."

Mr. Heinz disclosed plans for the company's newest international venture "Nichiro Heinz," a joint operation with the Nichiro Fisheries interests in Japan. He said that Nichiro Heinz would soon begin marketing some of the 57 Varieties in Japan, "produced from especially developed Japanese recipes conceived and executed to suit Japanese palates."—V. 196, p. 429.

Heublein, Inc.—Profits Up 15%—

This Hartford, Conn. company, has reported a continuation of its upward trend of the past decade with profits rising 15% in the 1961-62 fiscal year and sales increasing 7%, as stated in the 1962 annual report. The company manufactures and imports fine foods and beverages.

Net income for the 12 months ended June 30, 1962, totaled $4,407,469 or 91 cents a share, compared with $3,814,410 or 79 cents a share, for the previous fiscal year. Figures were after adjusting the 1960-61 12-months for a 1% stock dividend last July and a three-for-one stock split in October, 1961. Net sales advanced to $116,141,949 in the recent period against $108,281,236 a year earlier.

John G. Martin, Chairman, and Ralph A. Hart, President, stated in the current 1962 Heublein annual report that they forecast continued progress in sales and earnings—aided by extensive promotion—of the company's many products, and particularly in these leaders:

Smirnoff Vodka, the manufacturer's principal product, now sells in all 50 states, is under licensing arrangements in 15 foreign countries, is shipped to more than 100 countries abroad and is the world leader in vodka;

The entire line of bottled cocktails was increased to 11 items with the introduction of Heublein Scotch Sour during the year;

A. 1. Steak Sauce, a product of the Heublein Food Division, now makes a significant contribution to net profit and had a marked increase in sales of 31% for the 1961-62 period;

Harvey's Sherries and Ports and Bell's Scotches are expected to continue improving in sales.

Other highlights of the fiscal year ended June 30 as stated by Messrs. Martin and Hart included:

Heublein stock was listed on the New York Stock Exchange on July 9 this year. This action was consistent with intentions of the board of directors since Heublein shares initially were offered to the public three years earlier.

Directors increased the regular quarterly dividend by 20% on Oct. 19, 1961.

Heublein instituted a recruitment and training program with senior executives calling upon potential candidates at colleges and using the most modern practices in this area of development.

Looking to the future, the report stated:

"Opportunities for further growth may be found in acquiring new product lines and companies. Such acquisitions will be considered, however, only if they conform to a profit pattern and growth potential equal to or better than that experienced by Heublein to date.

"The record of the past—satisfying as it has been—is exceeded by our enthusiasm and determination for the period ahead."—V. 195, p. 2380.

Hickok Electrical Instrument Co. — Sales Higher; Net Down—

Sales of the company climbed to $7,322,360 for the fiscal year ended June 30, compared with $6,967,487 for the preceding year, R. D. Hickok, President, said in a report to shareholders.

Net profit for the Cleveland-based manufacturer of electronic test and control equipment for industry and the government totalled $153,558 or 36 cents a share, close to the previous year's net earnings of $171,443, or 40 cents a share as adjusted to reflect a 3% stock dividend.

Mr. Hickok pointed out to shareholders that the year's net profits were especially significant because of deductions for depreciation amounting to about 30 cents a share, and large sums invested in research and engineering. He said that the company's research and engineering expenses for the year amounted to about 10% of sales, or approximately $1.50 a share.

"Our large investment in research and engineering last year and in previous years now is bringing substantial results. Income from commercial sales last year was triple that of the preceding year," he noted.

Pointing to an increased level of government orders and substantial prospects for newer commercial products, Mr. Hickok said that forecasts for the present year indicate record sales of between $8,000,000 and $9,500,000. He said that a favorable product mix in the company's backlog of business should enable net income to keep pace with the projected increase in sales.

Sales of the company's color TV test equipment exceeded $210,000 compared with $70,000 in the preceding year and sales of Hickok's new Cardmatic card readers, direct circuit programming activators, were $167,000, approximately 52% higher than preceding year's sales, Mr. Hickok said.

Mr. Hickok said that shareholders equity at the fiscal year end was $3,011,633 or $7.04 per share, compared with $2,825,930 or $6.61 per share a year ago. Working capital totalled $2,766,431, compared with $2,647,509 on June 30, 1961.—V. 190, p. 1835.

Horizon Land Corp.—Sales Up 100%; Net 32%—

Sales of this Tucson, Ariz., company, doubled and net income rose 32%, both reaching record highs, in the fiscal year ended May 31, 1962, Joseph Timan, president of the company, announced. Sales totaled $12,106,143, as compared with $6,114,707 in the previous year, while net income increased to $1,916,978 from $1,450,779, Mr. Timan said. Horizon, one of the world's largest land development companies, has more than 250,000 acres of land in the Southwest in various stages of development.

Mr. Timan said that fiscal '62 net income was equal to $1.61 a share based on an average of 1,191,746 shares outstanding, adjusted for stock dividends and poolings of interest. For the year before, per share income was $1.49, computed on an average of 973,432 shares.

Mr. Timan attributed the year's gains to "an accelerated and broader marketing program, acquisition of additional property and rapid progress in implementing development plans." He said Horizon

House of Vision, Inc.—Common Offered—On Sept. 27, 1962, Hornblower & Weeks, New York City, announced that it headed a group which offered publicly 150,000 shares of this firm's common stock at $14 per share.

This was the first public offering of stock in the Chicago-based dispensing optician and manufacturer and distributor of optical instruments and equipment.

All the shares were sold by current stockholders and none of the proceeds will accrue to the company.

BUSINESS — The company of 137 N. Wabash Ave., Chicago, founded in 1924 as Belgard-Spero, Inc., adopted its present name in 1951. At first it engaged exclusively in filling optical prescriptions for eye doctors. Shortly after its incorporation, it entered into the retail optical prescription business which constitutes the majority of its present operations.

Hunt Foods & Industries, Inc.—Record Sales, Earns.

New record levels of sales, profits and earnings per share were achieved in fiscal 1962 (ended June 30) by Hunt Foods marking the company's ninth consecutive year of growth in these areas. Executive Vice-President and Chief of Staff Harold M. Williams has announced in an advance statement preceding the company's annual report which will be mailed to stockholders later this month.

Hunt's 1962 results, which include W. P. Fuller & Co. for four months following the merger of the two firms last March, show net earnings of $13,663,000 from sales of $372,000,000 compared with 1961 earnings of $13,083,000 from sales of $324,000,000. Hunt sales alone, excluding $26,000,000 in Fuller sales, were up more than 7% over the previous year, Mr. Williams said.

Per share earnings were $2.52 for 1962 compared with $2.47 for the previous year. The 1962 figure is based on an average of 5,000,842 shares outstanding during the year; the 1961 figure is based on 4,862,738 shares. To make comparison valid, Mr. Williams pointed out, the per share earnings are adjusted to reflect a 5% stock dividend, a merger with Harbor Plywood Corp., and (in the case of the 1962 figure) shares issued in the Fuller merger for the four months following the merger.—V. 195, p. 2702.

Ilikon Corp.—Sales, Net Higher—

The corporation realized a significant net profit in the first quarter that ended Aug. 31, based on record sales of more than $145,000. According to L. J. Bonis, President, there is every reason to believe that this trend will continue throughout the entire fiscal year.

The Natick, Mass., space technology firm has been in operation for less than 20 months and is considered to be one of the only firms of its type in the nation today that has been able to operate profitably after such a brief period of time.

Mr. Bonis said that . . . "Ilikon has been operating in the black since the start of the present fiscal year but this trend toward profits began in the previous fiscal year when the company first started to achieve concrete results from its several product development, contract research and product sales programs."

"Ilikon's revolutionary metal blowing process, for example, was advanced in this earlier period to the point where all further development can be supported by one or more of the several major U. S. firms that have expressed keen interest in this unique method of manufacturing aluminum containers." (The Ilikon metal blowing process will make it possible to produce seamless aluminum containers of any shape, size or thickness—all in one high-speed, automatic operation.)

Mr. Bonis also cited progress in all of the Natick firm's other proprietary product development programs, such as the high-temperature strain gage, the thermal history gage, the STAP super-alloy and the new ILKOLOY family of self-lubricating materials.—V. 193, p. 911.

Irving Trust Co., New York City, has been appointed registrar of the common stock of the company.—V. 196, p. 952.

Koehring Co.—Nine Months' Report—

This Milwaukee, Wis., company, has reported net earnings of $2,058,000 or $1.28 per common share for the nine-month period ending Aug. 31. This compares with $948,000 in earnings or $.52 per common share for the same nine month period in 1961. Net sales of $42,609,000 for the first nine months of this year were reported.

In an interim report to stockholders, Koehring, chairman, and president Julien R. Steelman attributed the company's increased sales to successful introductions of new product models, particularly in the plastics molding field, and to a slightly higher level of construction activity. Mr. Steelman stated that "management will continue to emphasize new product development to better utilize the company's facilities and provide for sound growth." He credited plant consolidation and overhead reduction programs with helping to increase earnings.

Stockholders were also informed of the formation of a French company, Koehring-Brissonneau S. A., owned jointly by Koehring and the French manufacturing firm Brissouneau et Lovz. The report stated: "Through the new company, Koehring improves its position to sell its products in the rapidly-expanding Common Market of Europe, as well as in other related export markets."—V. 196, p. 8.

(E. J.) Korvette, Inc.—Opens New Store—

On Sept. 18, the company opened a department store on Route 202 in King of Prussia, Pennsylvania, William Willensky, President, announced. This is the 18th store operated by the company located in the states of Pennsylvania, New York, New Jersey and Connecticut.

The two selling levels in the 155,000 square foot store are connected by escalators and the shopping center provides free parking for thousands of cars. The store is fully air-conditioned, attractively decorated and offers large assortments of quality merchandise in seventy-five (75) departments including fashion apparel for the entire family, a wide variety of merchandise for home and recreation and also vitamins, toiletries and cosmetics.

Last May 24, Korvette opened a store on 5th Avenue in New York City and last February 12 it opened the largest regional shopping center in Rockland County, New York.

Two stores are expected to open on or about November 1 in the suburbs of Baltimore and a third on or about December 1 in West Orange, New Jersey. Shortly after the first of the year stores will open in Paramus, New Jersey and later in Trumbull, Connecticut. The company recently announced that in 1963 it will open three stores in the suburbs of Chicago, Illinois and is making plans for entering the Washington, D.C. area and other areas in the Mid-west. —V. 196, p. 746.

Kropp Forge Co.—Sales Up 36%—

This Chicago, Ill., company has reported a 36% increase in sales and a profit from operations for the fiscal year ended July 31,1962.

According to Raymond B. Kropp, board chairman, earnings for the period totalled $104,822 and were equivalent to 9 cents per share on the 1,209,999 shares of common stock outstanding. Last year the company reported a loss of $581,303.

Net sales for the year were $13,308,756, against $9,784,864 a year ago.

Mr. Kropp said a substantial portion of the sales increase was due to several new commercial and military programs.

He added that pre-production costs on these programs tended to hold down net earnings, but repeat business is expected to produce more profitable results.

In reporting on the company's financial position, Mr. Kropp said it had greatly improved over last year. Cash position has risen from $101,640 to $741,612, and working capital has increased from $2,190,954 to $2,954,078.

He said the firm is projecting a sales program based on $15 million annually, and also predicted increased earnings for fiscal 1962.—V. 195, p. 2822.

Krylon Inc.—Annual Report—

Krylon's annual report for the fiscal year ending May 31, 1962 showed net income of $401,295 on net sales of $6,336,561 compared with net income of $399,854 on net sales of $6,572,833 for the previous fiscal year. Earnings amounted to 68 cents per share for the May 31, 1962 fiscal year. Sales for the first quarter of the current fiscal year were reported to be approximately 17% above sales in the same quarter of the preceding fiscal year.—V. 194, p. 2334.

Lapp Insulator Co.—Acquisition—

Lapp Insulator of Le Roy, N. Y., has recently purchased Ceramaseal, Inc., concluding negotiations begun early this year. Purchase of the 11-year old firm was consummated between Lapp and Herbert A. Omley, founder and former president and owner of Ceramaseal.

As a wholly-owned subsidiary of Lapp, Ceramaseal will continue manufacture of high-alumina ceramic and porcelain terminals, bushings, and seals for electrical insulating and high-vacuum applications.

Commenting on the purchase, Mr. Ost said, "An important result is that Ceramaseal will become an integrated manufacturer of porcelain bushings through use of porcelain bodies supplied by Lapp. We also feel that the support of extensive ceramic and electrical engineering and laboratory facilities at the Lapp plant will enhance our services to customers and development of new Ceramaseal products."

Referring to the effect of the purchase on the Ceramaseal sales organization, Mr. Sawin stated, "Ceramaseal has expanded its sales arm to give closer contact with customers throughout the country. Most of the firms acting as sales representatives for Lapp have agreed to handle Ceramaseal products. The Lapp force, plus the agents we have retained, gives us 14 sales firms as representatives, and we anticipate adding several more to provide sales contact in all the key areas in the pertinent electronic and electrical markets."

Larsen Co.—Common Offered—Pursuant to a Sept. 25, 1962 prospectus, Robert W. Baird & Co., Inc., Milwaukee, Wis., and associates, offered publicly, 103,638 shares of this firm's outstanding common stock at $11.125 per share. Of the total, 36,000 were sold by the underwriter and 67,638 by stockholders.

BUSINESS—The company was incorporated under the laws of the State of Wisconsin in 1925 and is the successor of a business founded in the 1890's and formerly known as Wm. Larsen Canning Co. A wholly-owned subsidiary, Fox Valley Canning Co., was acquired in 1955.

The company is engaged in the business of processing and marketing premium quality canned and frozen vegetables and is the leading producer of canned mixed vegetable products in the United States.

The company's principal executive offices are located at 520 North Broadway, Green Bay, Wis., with plants located at Green Bay, Fort Atkinson and Hortonville, Wis.

Leeds & Northrup Co.—Earnings 140%—

This major Philadelphia electronic instrument and automatic controls manufacturer, has announced an increase of 18% in shipments and 140% in earnings per share for its first fiscal quarter ended Aug. 31, 1962 over the same period of the prior year.

Consolidated net earnings of the company and its Canadian subsidiary amounted to $322,000 for the three months ended Aug. 31, 1962 compared with $157,000 for the same quarter last year. After providing for dividends on preferred stocks, the current earnings are equivalent to $.36 a share based on the average number of 784,868 shares outstanding during the year compared with $.15 a share on the average number of 774,280 shares outstanding last year. This is the fourth consecutive quarter in which earnings exceeded those of the previous year.

New orders during the first quarter amounted to $10,326,000 as compared with $10,988,000 received in the same quarter last year. Consolidated net shipments for the current quarter amounted to $10,583,000 compared with $8,963,000 for the previous year, an increase of about 18%. The backlog of open orders at Aug. 31, 1962 was $10,519,000 compared with $11,134,000 a year ago.—1962 was $10,519,000 compared with $11,134,000 a year ago.

New Italian Subsidiary—

This Philadelphia manufacturer of measuring instruments and electronic controls, has announced the formation of an Italian subsidiary, Leeds & Northrup Italiana S.p.A., to manufacture and sell L&N products in Italy.

I. Melville Stein, president, said that the new firm was established in order to better serve the company's Italian customers. L&N was formerly represented in Italy by Laboratori Ing. C. Pavone, S.p.A., Milan.

Stein stated that the management of the concern with offices in Milan will be composed of Italian nationals but that the majority of the directors will consist of officers of the parent company.

The Italian company marks the third foreign subsidiary of Leeds & Northrup. The other subsidiaries are Leeds & Northrup, Canada, Ltd., and Leeds & Northrup, Limited, Birmingham, England. —V. 196, p. 8.

Lesco Automotive Corp. — Common Offered — Via Sept. 14, 1962 offering circular, M. H. Meyerson & Co. Inc., New York City, offered publicly, 50,000 shares of this firm's common stock at $6 per share.

Net proceeds, estimated at $243,000, will be used for the repayment of loans and other corporate purposes.

BUSINESS—The company was incorporated under the laws of the State of New York on Sept. 22, 1954. It is the successor to M. C. Lesser Co. a single proprietorship owned by Meyer C. Lesser which was located at 99 Dell Glen Avenue, Lodi, N. J. The predecessor was the successor to M. C. Lesser & Co., Inc., which was in business from 1944 through 1952 and located at 195 Hinsdale Street Brooklyn, N. Y. The company's place of business and executive office is located at 430 Hegeman Avenue, Brooklyn.

The company and its predecessors have been in the business of acquiring "cores" which are supplied to automobile and truck parts rebuilders by cleaning and dismantling them. The company does not build nor sell rebuilt parts but deals only with other companies who purchase the salvage materials for rebuilding. The principal parts which the company processes and supplies to such parts rebuilders are engines, transmissions, generator, starter, carburetors, fuel pumps, water pumps, crank shafts, brake shoes, mast cylinders, voltage regulators, clutch discs, pressure plates, armatures, drives and connecting rods.

According to the January, 1962, issue of Motor Age Magazine 57.2% (36,190,000) of the motor vehicles registered in 1961 were between three and nine years old. These cars will be in need of major repairs including replacement parts. Substantial numbers of replacement parts will be from rebuilt parts since they are considerably less expensive than new units. The rebuilding business is still in its infancy and many authorized dealers for the major manufacturers and large mail order companies supply rebuilt parts to the consuming public and local service and repair stations.

common shares of Louis Lesser Enterprises at $10 a share.

PROCEEDS—Of the estimated $4,265,000 net proceeds expected to be received by the company, $3,660,590 will be used to retire various outstanding loans and other obligations. The balance will be used for general corporate purposes.

BUSINESS—Louis Lesser of 8730 Wilshire Blvd., Beverly Hills, Calif., was organized to acquire the business and assets of two partnerships, Louis Lesser Enterprises, Ltd., and Lesser Industrial Properties, Ltd. The company presently owns, operates and manages a number of industrial, office and other income producing properties in California, largely in Los Angeles, Ventura, Orange, San Diego, Imperial and Riverside counties. Principal objectives of the company are: to develop and maintain a portfolio of income-producing properties, diversified as to type of structure and use; and to acquire, sub-divide and develop property.

UNDERWRITERS—The underwriters named below have joined in an underwriting agreement between the representative of the underwriters and the company, pursuant to which the underwriters have been employed as agents to sell on a "best efforts all-or-none basis," 500,000 shares of class A common stock. Under the terms of the underwriting agreement, the underwriters have agreed, subject to certain conditions, to use their best efforts to sell all of the shares of class A common stock during a period of 30 days subsequent to the effective date of the registration statement (which period is referred to as the "underwriting period"). The underwriting period may be extended for an additional number of days, but in no event more than 15 days. If the underwriters find purchasers for all of the shares of class A common stock before the end of the underwriting period, they may terminate the underwriting period at that time and proceed to set a closing date. If the underwriters shall fail to sell all of the shares during the underwriting period, then none of the shares will be sold or delivered. The closing date shall be no later than 10 days after the expiration of the underwriting period. Morris Cohon & Co. will act as the representative of the underwriters.

Lock Joint Pipe Co.—Merger Completed—

Merger of Lock Joint Pipe Co. of East Orange, N. J., with Gladding, McBean & Co. of Los Angeles, was completed Sept. 27, 1962.

New corporate name is International Pipe & Ceramics Corp.

The company listed its preferred and common shares on the New York Stock Exchange, Sept. 28.

President of International Pipe & Ceramics is Allan M. Hirsh, Jr., formerly president of Lock Joint.

Chief executive offices of International Pipe are at East Orange, N. J. Plans are underway for the construction of a new headquarters facility at Parsippany, N. J.

Pro forma income statement for the six months ended June 30, 1962, shows sales of $49,374,000. Earnings before taxes were $6,640,000 and after taxes, $3,305,000.

International Pipe & Ceramics manufactures concrete, clay, plastic and corrugated metal pipe for a wide range of governmental, residential and industrial requirements. Non-pipe products include refractories, architectural and structural ceramics, Franciscan fine dinnerware and technical ceramics for the aerospace, electronic and nuclear energy fields.—V. 196, p. 855.

Lundy Electronics & Systems, Inc.—Record Sales; Earnings—

Robert C. Barbato, President, announced that both sales and earnings for the fiscal year ended June 30, 1962 reached record highs, with every indication that this upward trend will continue.

Sales totaled $5,279,881, an increase of 22.6% over last year's sales of $4,335,728. Net income totaled $200,325 equivalent to 34 cents a share, or 10.5% higher than earnings for fiscal 1961, when net income was $181,319, equivalent to 31 cents per share.

The company's backlog of orders as of Aug. 31, 1962 rose to $5,800,000. This represents a 100% increase over a backlog of $2,900,000 on the same day a year ago.

Mr. Barbato also stated in the annual report to stockholders that "the growth of the company made it necessary to enlarge its facilities with a new 20,000 square foot wing. The addition, which will be completed by Oct. 1, 1962, will give Lundy 30% additional floor space—vital for two reasons. It will enable us to handle added volume and provide an area for additional research facilities. This is important for advance development of present systems and for the introduction of new products, particularly in the fields of Counter-measures, Audio Warning Systems and Electronic Programmers for space and satellite applications."

Lundy Electronic is listed on the American Stock Exchange. Its principal business is the development, manufacture and sale of electronic, electro-mechanical and hydraulic systems for aircraft, missiles and space vehicles. Over 98% of its sales are to the military, particularly to the Air Force.—V. 194, p. 2552.

Magnum Fund Ltd.—Annual Report—

This international investment fund with head office in Toronto, issued its annual report for its fiscal year ended June 30, 1962 showing a consolidated net profit for the year of $1,246,289 U. S. or $3 U. S. per share, of which 71 cents represented income from dividends and interest less expenses and taxes and $2.29 represented profits realized upon liquidation and sale of investments. The comparable figure for the fiscal year ended June 30, 1961 was $2.15 U. S. per share of which 60 cents represented interest and dividend income less expenses and taxes and $1.55 represented profits realized upon liquidation and sale of investments.

Net asset value for the 415,312 shares outstanding at June 30, 1962, valuing marketable securities at market prices prevailing on that date and others at cost and after deducting the dividend of 30 cents per share paid on March 30, 1962, was $9,204,528 U. S., equivalent to $22.16 U. S. per share as compared with $24.07 at June 30, 1961.—V. 190, p. 974.

Manpower, Inc.—Record Sales, Net—

The company had record net earnings and sales for the fiscal year ended June 30, 1962, according to figures released by the international temporary help firm.

Net earnings rose 20.6% to $1,023,489 or $1.13 a common share, up from $848,721 or $.93 a share a year ago. Corporate revenue consisting of branch office sales and income from franchisees climbed to a record $25,397,914, up from $20,860,095 for the previous fiscal year.

Total sales for the firm, which includes sales figures for both franchise and branch offices, reached an all time high of $48,655,010, representing a 29.9% increase.

According to Manpower president, Elmer L. Winter, Milwaukee, as of June 30, 1962, the total number of Manpower, Inc., offices reached a record high of 270, including 19 offices in Europe, 10 in Canada, one in Mexico and one in Japan. During that fiscal period, Manpower offices were opened in 38 new cities in the United States. "The consolidation of several of our separate divisional offices in one location, however, resulted in a net increase of 21 new offices."

Commenting on the European operation, President Winter said, "In April, we formulated plans for the opening of 50 additional offices in Europe within the next four years. We anticipate that in the 1962-63 fiscal year, approximately 10% of our total sales volume will be attributable to the European offices."

"During the past year," he added, "the merger of our Merchandising Services Division with our Salespower, Inc., division resulted in the creation of the world's largest sales, marketing and sales promotion organization."

Manpower, Inc., also reported that 145,000 temporary employees worked for them during the year end and that the firm performed services for over 80,000 clients. Both figures, according to Winter, were new highs.—V. 195, p. 2492.

Martin Marietta Corp.—To Sell Division—

Preliminary agreements have been reached between Martin Marietta and The Slick Corp. for the sale of Pulverizing Machinery Co. of Summit, New Jersey, a division of Martin Marietta, to Slick.

In a joint announcement, George M. Bunker, president of Martin Marietta, and D. W. Rentzel, president of The Slick Corp., said the proposal will be submitted to tneir respective Boards of Directors this week.

Because one of the divisions of The Slick Corp. is Slick Airways, now preparing to resume transcontinental scheduled common carrier air freight service on Oct. 1, the Civil Aeronautics Board has been requested to waive jurisdiction or give its approval.

In the six months ended June 30, 1962 Pulverizing Machinery had net sales of $2,200,000 on which it showed a net profit before taxes of $299,000.

Pulverizing Machinery Co. is a manufacturer of pulverizing machinery and grinders, granulators, dust collectors and pneumatic conveyors. Its customers include the prime companies in chemical, pharmaceutical, color dye stuffs and pigments, food and food products, soap, carbon black and related industries.

Mr. Rentzel pointed out that this would be the second acquisition for Slick. Its Illinois Shade Division, acquired July 1, 1960, makes Slick rank as one of the largest window shade manufacturers in the country. In the six months ended June 30, 1962, the division had net sales of $4,153,873.—V. 196, p. 856.

Mary Carter Paint Co.—Proposed Acquisitions—

Mary Carter Paint is "actively considering" acquisitions to extend its franchise chain operations in fields other than paint, I. G. Davis, Jr., President, told the Atlanta Society of Security Analysts.

"Making and retailing paint is essentially our business, and we plan to continue to expand in paint and related do-it-youself fields," he said. "But Mary Carter's progress has resulted in large part from successful franchise policies, and franchising is a strong base from which we plan to enter other fields."

Noting that the company's policy of growth through franchising has helped generate cash for further expansion, Mr. Davis said that Mary Carter has $2,500,000 in cash and no debt.

"We plan to put this money and our franchising experience to work in other fields through our franchising sales and field service forces in 40 states, backed by a seasoned marketing and advertising team," he said.

"Mary Carter has expanded its chain of retail paint stores 25% to more than 850 so far this year," Mr. Davis said.—V. 196, p. 856.

Massey-Ferguson Ltd.—Sales Up 15%—

Massey-Ferguson's world-wide net sales for the first nine months of the 1962 fiscal year rose 15% to a record $418,000,000 compared with $362,000,000 for the same period last year.

Net income was $11,307,000, equal to 83 cents per common share, as compared to $7,743,000 or 55 cents per share for the comparable 1961 period.

Profit before income taxes was $21,013,000, an increase of $5,367,000 over last year. Cost of goods sold was 78.6% of sales compared with 78.9% in 1961.

In the quarterly report to shareholders for the fiscal period ended July 31, A. A. Thornbrough, President, noted that sales for the nine months were up in five of Massey-Ferguson's six major world markets. Operations in France continue to be unprofitable, he said.

North American sales for the period increased 12% to $146,000,000, and the outlook in this market is favorable. In Europe, sales were $194,000,000, an increase of 15%, Mr. Thornbrough said.

Massey-Ferguson is the world's largest manufacturer of tractors, combines and diesel engines.—V. 196, p. 8.

Maust Coal & Coke Corp.—Securities Offered—On Sept. 27, 1962, Eastman Dillon, Union Securities & Co., New York City, headed an underwriting group which offered publicly, $5,000,000 of this firm's 5¼% sinking fund debentures, due Oct. 1, 1977, priced at 100% and accrued interest to yield approximately 5.25%. 250,000 shares of common stock were also offered for the account of J. R. Maust, Chairman of the Board and principal stockholder, at $9.25 per share. At the option of the company, the debentures are redeemable at prices ranging from 105¼% to the principal amount.

None of the proceeds from the sale of the common stock will accrue to the company.

PROCEEDS—Proceeds from the sale of the debentures will be used to repay term bank loans to finance additional capital expenditures for plant and equipment and to pay in full non-interest bearing notes.

BUSINESS—Maust Coal & Coke, of 530 Fifth Avenue, New York City, mines, processes and markets bituminous coal from its properties located in West Virginia and Pennsylvania. The company's principal customers are electric utilities and steel companies, and in recent years considerable tonnage has been shipped for export.

Matson Navigation Co.—Unlisted Trading Ended—

The capital stock of Matson Navigation was removed from unlisted trading privileges on Pacific Coast Stock Exchange at the close of business Sept. 28, 1962, it was announced by the Exchange

As a result of the recent policy adopted by the Exchange that all companies admitted to unlisted trading privileges which were not fully listed on another Exchange and subject to the Securities Act of 1934 become listed within a definite period, Matson Navigation has informed the Exchange of their intention not to list at the present time.—V. 189, p. 2677.

Maytag Co.—Secondary Oversubscribed—

On Sept. 24, 1962, it was reported that a secondary offering of 230,000 shares of this firm's common stock at $26.50 per share was oversubscribed. Eastman Dillon, Union Securities & Co., and Merrill Lynch, Pierce, Fenner & Smith, Inc., were the managing underwriters.

The stock was sold for the account of an unidentified estate.—V. 196, p. 1051.

Middle Atlantic Credit Corp.—Securities Sold Privately—

On Sept. 26, 1962, it was reported that $300,000 of this firm's senior subordinated notes due 1972, and 1,000 shares of its $100 par convertible preferred stock had been sold privately through Robert Fulton Maine Co., New York City.—V. 194, p. 532.

Mill Factors Corp.—Earnings Forecast—

The current year is expected to mark the most successful and profitable year in the history of this firm, according to Walter D. Yankauer, president of the 51-year-old major factoring and commercial financing company, in remarks made before the New York Society of Security Analysts on Sept. 21.

Mr Yankauer foresees earnings of $700,000 in 1962, a 15% rise over the $606,000 earned last year. Profits for the first six months of this year were $334,000, said the company president.

Mr. Yankauer also told the gathering that "during the first half of 1962, our factoring volume reached an all time high for any six month period, of $102,000,000. Finance volume also reached a new high of $48,000,000, making a total of $150,000,000 of volume during the first half of 1962.

"We expect," he said, "that total 1962 volume will exceed $300,000,000. Our volume in July and August, 1962, was $53,000,000, compared to $41,000,000 in those months in 1961."

Pointing out the increase made in company's commercial financing business, established in 1956, Mr. Yankauer said that "In 1956, of a total of $19,000,000 which was in use at the end of the year, only $250,000 was invested in commercial finance. By June 30, 1962, the total number of dollars which we were employing had increased to over $43,000,000, of which $25,000,000 was invested in factoring and $18,000,000 in commercial finance.

Explaining the company's source of funds, Mr. Yankauer said: "When the company was organized in 1919, its capital was $1,500,000. In 1932, after the Great Depression of 1929-1932, we had suffered substantial losses, but our capital remained intact. By the end of 1957, our total capital and surplus exceeded $5,000,000. Since Mill Factors was founded it has made a profit in every single year with the exception of 1932, and we have paid cash dividends uninterruptedly since 1925."—V. 196, p. 579.

National Airlines, Inc.—All-Jet Goal Announced—Refinancing Program—

National Airlines will become "all jet-powered" by Jan. 1, 1963, NAL president L. B. Maytag, Jr., told the New York Society of Security Analysts on Sept. 19.

This will make National the first domestic trunk carrier in the nation to offer jet-powered service exclusively. The NAL fleet, Mr. Maytag said, will be composed of pure jet aircraft and prop-jet planes. Excepted will be the South American interchange service operated by National in conjunction with Panagra, he said.

He reminded the security analysts he had announced an all-jet goal when he became president of the airline in April, and could now tell them that it will be realized.

National's profits for the first two months of the current year, July and August, he said, were the highest of any two months in the airline's history.

Net operating profits for July and August were $6,035,000, he reported. Net income before taxes was $5,674,000. Net profits for the two months after providing for deferred Federal income taxes was $2,724,000, he announced.

The coming all jet-powered operation was one of the major reasons he advanced in predicting that National will show a further increase in revenue and profits in the current year, over the year ending June 30, 1962, when the company netted $4,270,000.

Mr. Maytag said that National expects to reach three billion seat miles in its operations for the current fiscal year, and to surpass $100 million in operating revenues.

The airline's new refinancing program, effective Aug. 14, and therefore not reflected in financial statements, makes available to National a total of $51 million to retire all the company's bank indebtedness and equipment purchase obligations, Mr. Maytag noted. It covers all National debt financing except the outstanding $10,288,000 of convertible subordinated debentures.

He noted that under the new agreement, NAL can consider cash dividends from 70% of net earnings subsequent to June 30, 1962, plus $500,000.—V. 196, p. 856.

(J. C.) Penney Co.—Net Up 15.7%; Sales 12.8%—

The company has reported a 15.7% increase in earnings for the first six months of the current fiscal year.

Sales for the six months ended July 31 were greatest for any first half in the department store chain's 60-year history, amounting to $715,539,969, against $634,123,957 for the same 1961 period. This represents an increase of $81,416,012, or 12.8%.

Net earnings for the six months totaled $20,941,533 after Federal income taxes of $21,940,000. This compares with net earnings for the six months ended July 31, 1961 of $18,104,570 after Federal income taxes of $19,960,000, an increase in earnings of $2,837,263, or 15.7%.

These net earnings were equivalent to 84 cents a share on each of 24,923,601 shares of common stock outstanding on July 31. Net earnings for the six months ended July 31 last year were 73 cents a share on the 24,695,856 shares then outstanding.

The 1962 figures include operations of Penney's Milwaukee-based subsidiary General Merchandise Company.

At the same time, the company disclosed that earnings for the second quarter of the 1962 fiscal year were up slightly over a year ago. Earnings after taxes in the quarter ended July 31 rose to $10,720,537 from $10,455,807 a year ago.

The higher earnings were based on sales of $381,723,410 in the July 31 quarter, up from $342,280,943 a year ago.

Penney's report of earnings and sales for the second three months of fiscal 1962 marks the second time the company has issued a quarterly report. The first such report was issued for the quarter ended April 30 this year.—V. 196, p. 748.

Pennsylvania Mutual Fund, Inc.—Capital Stock Offered—

of the Fund are also being offered on the basis of one share for each $10.81 of net exchange value of acceptable securities deposited with the Fund. Commencing after the 30-day period the determination of the number of Fund shares to be issued for deposited securities will be calculated by dividing the net exchange value, determined at the value as of the time of receipt by the custodian-depositary, by the quoted offering price of one share of the Fund.

BUSNESS—The fund, is a new open-end diversified investment company, incorporated under the laws of the State of Delaware on Jan. 15, 1962. It now is, and will be, in a position to offer new shares as well as to redeem and repurchase, on demand, those shares which have been issued. The fund will invest in, or acquire by the exchange of investor's securities, only what its management deems to be the most promising securities—consistent with the purpose of the fund—issued by the United States Government, by Public Authorities, and by those corporations which are designated on the subjoined list, subject to modification; and which represent a wide cross section of industrial enterprise. However, there is no assurance these objectives will be achieved.

The purpose of Pennsylvania Mutual Fund is to provide a prudent investment program for conservative and long-term investors whose primary objectives are safety of principal, dependable current income and growth of capital in order to maintain and protect the purchasing power of the dollar.

The fund constantly provides all investors with the offer of its shares either through cash purchase or the exchange of acceptable securities, subject to the policies of the Fund; whereby the investor may share in the ownership of a diversified list of bonds, preferred stocks, and common stocks in which the fund will invest, either by purchase or exchange, in an endeavor to achieve its balanced program and objectives. The fund provides a long-range investment program under the continuous supervision of a management which will endeavor to promote these objectives in the light of changing economic and industrial conditions.

The fund is intended for individual investors, pension funds, family and other trusts, seeking to build up capital, as well as to obtain present or future income by means of a single consolidated security continuously available, either by purchase or securities exchange, in aggregates adapted to their respective and specified requirements.

Pillsbury Co.—Earnings Forecast—

Increases in both sales and earnings for the first quarter were predicted by Pillsbury President Paul S. Gerot at the annual meeting of stockholders in Minneapolis. The prediction was based on firm figures for June and July and an estimate for August.

In a review of the highlights of last fiscal year, Mr. Gerot noted that sales of $398 million represented an 8% gain over the previous year, although net earnings of $7.7 million were 3% under the earnings for the previous year.

"As we pointed out in our annual report, most divisions made good progress in upgrading their earnings during the year, however, adverse market conditions and intense competition in the agricultural and flour markets brought the total down.

"Recognizing revolutionary changes in our formula feed business, resulting largely from geographical shifts in the production of livestock and poultry, we have closed eight feed plants in recent years.

"This does not mean to us, however, that the formula feed business cannot be developed into a profitable operation. We have improved our organization structure, and, for the most part, our feed plants are located strategically. It is our desire to move ahead in this phase of our business with a combination of good people to manage the operation, efficient plants and good products.

"For the first three months of this year, it appears we have had a healthy improvement in our feed operations over the same period a year ago.

"The flour business continues to be a very competitive one. We are devoting a lot of attention to improving this area through the reduction of costs in our plants.

"Our operations in foreign countries are contributing to earnings, and we are hopeful of finding further opportunities overseas beyond those that we have entered in recent years.

"In fiscal 1962, our capital expenditures for modernization and expansion of our plants in this country amounted to $8.3 million. In fiscal 1963, we anticipate that we will spend about $9 million. Money that we have put into our plants in previous years is paying dividends in the form of increased operating efficiencies." —V. 196, p. 432.

Plastics & Fibers, Inc.—Acquisition—

On Sept. 24 it was reported that the company had completed the acquisition of Cal-Metal Corp. for cash and securities "in excess of $3 million."

Cal-Metal Corp. of Torrance, Calif., is a leading manufacturer of A.P.I. and irrigation steel pipe for the oil, gas and water industries. The company also designs, builds and installs pipe mills both here and abroad.

Sidney Horowitz, president, stated that Cal-Metal will be operated as a division, with no personnel changes contemplated. He said he expects the new division to add substantially to total revenues and income this year, and even more so in 1963 when Plastics & Fibers, Inc. will have a full year's revenues from Cal-Metal's operations.

Combined sales of the two firms and subsidiaries for 1961 exceeded $8 million, Mr. Horowitz noted.—V. 195 p. 2823.

Public Savings Fire & Casualty Co.—Acquisition—

Public Savings Fire & Casualty, a newly formed subsidiary of Public Savings Life Insurance Co., of Charleston, has assumed all the assets and liabilities of the Guaranty Reciprocal Exchange, Charleston fire and casualty underwriter, it was announced by R. W. Pullen, Public Savings Life president.

The acquisition of Guaranty, which has an annual income of approximately $300,000, paves the way for future expansion by the Public Savings Life subsidiary into the fire and casualty business, Mr. Pullen said.

The business of Public Savings Fire & Casualty, a full line stock company, will be serviced by its parent PSL's established agency force in South Carolina, the company president noted. This will enable substantial economies in expanding the new fire and casualty underwriter's business, he added.

Public Savings Life Insurance Co.—Earns. Forecast

Despite current major expansion programs which should substantially broaden its operating base and future income, Public Savings Life should have earnings this calendar year at least equal to the record $328,944, or $2.50 a share recorded in 1961, R. W. Pullen, President, announced.

The PSL president revealed his company's expected earnings while reporting that total insurance in force of the firm is so far this year topping year-earlier levels by 20% and now exceeds the $50 million mark.

"Our accomplishments in new business and earnings are all the more significant in the face of the rapid expansion now being undertaken by the company," Mr. Pullen said.

PSL was recently licensed to sell insurance in Georgia, which joins its previous operations in Texas and South Carolina. In addition, the company within the last few weeks formed a new fire and casualty underwriting firm in Charleston, S. C.

PSL, which has 240 agents throughout its operating areas, is a subsidiary of Public Savings Insurance Co., of Dallas. It specializes in industrial life insurance contracts, as well as offering a full line of ordinary life insurance and health, accident and hospitalization coverage. The home office of PSL is located in Charleston, S. C.

Mr. Pullen, who serves as President of both PSL and its parent Public Savings Insurance of Dallas, said that further expansion plans of the insurance underwriting subsidiary are now being studied that are designed eventually to extend PSL's operations throughout the Southeast and Southwestern U. S.—V. 187, p. 1546.

Public Service Co. of Colorado—Stk. Subscriptions

The company has announced that stockholders subscribed for 1,217,917 shares or 98% of its recent offering of 1,242,822 shares made to stockholders at $23.50 per share on the basis of one new share for each 10 shares held of record Sept. 6. Rights expired Sept. 24.

The remaining 24,905 shares were purchased by a group of underwriters headed by First Boston Corp., Blyth & Co., and Smith, Barney & Co., New York City.—V. 196, p. 1147.

Purepac Corp.—Acquisition—

Purepac, publicly owned manufacturer of proprietary drugs and family health aids, has acquired all of the outstanding stock of Practical Electric Products Corp. from Q-Tips, Inc., a subsidiary of Chesebrough-Ponds, it was announced by Adolph D. Storch, President and Chairman of Purepac.

Practical Electric Products manufactures the complete line of Prak-t-kal electric vaporizers, acknowledged to be one of the finest vaporizers of its kind on the market, and one of the oldest and most distinguished names in the drug industry.

"This acquisition," said Mr. Storch, "is a part of our program to increase our importance in the drug industry through the development and acquisition of nationally advertised products in drugs, pharmaceuticals and allied lines. Other acquisitions are presently under consideration."

Practical will be an independent and wholly-owned subsidiary of Purepac, with its own marketing and selling organization, augmented by the Purepac staff. The present policies of Practical will be continued and expanded.

The entire Practical plant will be moved from Long Island City to the Purepac plant in Elizabeth, N. J., and integrated with the Hunt Vaporizer manufacturing division of Purepac Corp.

Since Purepac products are sold to most drug stores in the United States, it is expected that Practical will benefit from the Purepac national sales organization.—V. 196, p. 10.

Realty Investors Trust Co.—Securities Offered—

Pursuant to a Sept. 5, 1962 offering circular, the Trust offered publicly, without underwriting, 210,700 shares of beneficial interest at $1 per share.

Net proceeds, estimated at $179,095, will be used for real estate investment.

BUSINESS — The company is a business trust organized in Wyoming under a Declaration of Trust dated as of Feb. 24, 1962, and amended on May 23, 1962. The principal office of the Trust is located at 121 East 18th St., Cheyenne, Wyoming.

The Trust is designed to offer investors an opportunity to participate jointly in diversified real estate investments in a manner not normally available to them individually. A special benefit of real estate investment in this form is afforded by a recent amendment to the Federal Internal Revenue Code. Under this amendment a qualified real estate investment trust is treated for the most part as a conduit of income to its shareholders rather than as a taxable entity. Unlike conventional corporations, it is not taxed on any of its income which it distributes to its shareholders as dividends. The Trust intends to qualify for this special tax treatment.

Richardson-Merrell Inc.—Record Sales, Earnings—

This company's sales, net earnings and earnings per share for the year ended June 30, 1962 were the highest in the diversified drug firm's history, it was announced in the company's annual report.

Consolidated sales were $161.9 million compared with $151.5 million last year. This was the 14th consecutive year of sales increases.

Net earnings, after adjustment for foreign operations, were $17,263,000 compared with $17,025,000 in 1960-61. Earnings reported for this year are after adjustment for returned sales and inventory write-downs totaling more than $2 million before taxes.

Earnings per share were $2.90 compared with $2.86 last year.

Each of the company's major segments of business provided increased sales in 1961-62. Proprietary drug sales rose to $75 million from $65.9 million last year; ethical and veterinary drug combined sales were $70.4 million in 1960-61 compared with $69.9 million last year; sales of chemicals and plastics increased to $16.5 million from $15.7 million. Sales in 124 countries outside the United States rose to $37.2 million from $34.5 million last year. —V. 196, p. 792.

Rutland Railway Corp.—ICC Approves Line Abandonment—

On Sept. 21, the ICC issued a certificate permitting abandonment of most of the 331 miles of line operated by the Rutland Railway with the provision that the line be sold to any reasonable buyer at a price not less than its salvage value. Rutland's salvage value is estimated at $5,765,912. Exempted from the abandonment authorization and sale provision is the Rutland's line between Norwood, N. Y., and Malone Junction, N. Y., over which the New York Central Railroad has trackage rights.

The Rutland—which runs the length of the western Vermont border with branches west to Ogdensburgh, N. Y., on the St. Lawrence River, and south to Bellow Falls, Vt., and White Creek, N. Y. —has been involved in a strike by the Operating Brotherhoods since Sept. 25, 1961, and no service has been rendered since that date. Previously, train service on the line had been discontinued from Sept. 15 to Nov. 1, 1960, also because of a strike.

The railroad filed an application with the Commission Dec. 4, 1961, which, as amended, sought permission to abandon the entire line and all operations, stating that the line had been operated at a loss and there is no reasonable prospect for profitable operation in the future.

Public hearings were held in Rutland and Malone, N. Y., in March and April, 1962. The examiner's report and recommended order were omitted at the request of the State of Vermont and the railroad. Briefs were filed by the Rutland, Railway Labor Executives' Association, Brotherhood of Locomotive Engineers, State of Vermont, City of Rutland, and Emergency Committee to Save the Rutland Railway.

The report of the Commission's Division 3 in Finance Docket No. 21870 explains that "in most proceedings seeking abandonment of an entire line, the applicant is, at the time of the proceeding, actively engaged in operating its line of railroad. Authorization of abandonment by the Commission thus results in a diminution, or complete cessation of service on the applicant's line.

"In the present situation the reverse is true. There is presently no service on the Rutland's line. . . If the Rutland is authorized to abandon its line, however, other carriers, individuals, or specially created corporate bodies are likely to acquire important segments of the line, or the entire line, and thereby bring about a resumption of service. . . ."

Since 1950 the Rutland has sustained annual deficits in net railway operating income, except from 1955 through 1958 when its income was influenced by the construction of the St. Lawrence Seaway.

". . . These deficits reflect a continuous decrease in the Rutland's traffic," states the report, "with its interline traffic declining by over 11,000 carloads of approximately 20% from 1951 to 1959. . . This trend continued in 1960, and 1961. . ."

The Rutland attributed its losses to businesses moving away from the line; changes in business operations, such as a switch from coal to oil; and shipper use of motor common carriers or their own trucks.

"Although the Rutland's traffic and revenue have been declining substantially, its expenses have remained relatively constant," the report states. "And although the number of employees decreased from 1,142 in 1950 to 489 in 1959, the average annual wage per employee for the same years increased from $3,075 to $6,039."

The Railway Labor Executives' Association contended that the Rutland's losses in the past are unrelated to its operations as a common carrier and that the losses shown by the Rutland are artificial since labor troubles, attendant strikes and extraordinary legal expenses distort the true picture, and, that protective conditions should be imposed if the application is granted.

The report states that". . .While it is true that the strikes in 1960 and 1961 adversely affected traffic revenue, as contended by the Brotherhoods, it is also apparent that the Rutland's decline in income in 1959, and in its operating months of 1960 and 1961, was further affected by decreases in traffic from other causes."

"We do not agree with the Operating Brotherhoods' contention that Rutland's declining traffic and revenues are a result of mismanagement," the report states. "Rather it appears that management reacted in a logical manner to effect savings wherever possible. . . A railroad cannot reasonably be expected to operate. . . at a loss in order to provide shippers with transportation service for part of their traffic . . ."

"It appears that approximately $500,000 in cash would be needed to resume operations by the Rutland. It is our opinion that in addition to the gradual attrition of traffic the Rutland has become so impoverished by the present strike that it would be difficult, if not impossible, for it to resume operations.

"Considering the results of its past operations and the probability that it would be unable to regain much of the traffic diverted to other carriers during its long period of inoperation, we are of the opinion that it would incur substantial losses if it resumed operations.

"In prior cases we have not required carriers to continue the business of carriage where their overall operations had been conducted at a system-wide deficit for a substantial period of time and there was no reasonable prospect of conducting those operations at profit in the foreseeable future. . . While there is a need for railroad service in the area, such railroad service and continued operation by the Rutland is not warranted. . ."

The report points out that service to points in the area served by the Rutland is provided by such other railroads as the Boston & Maine, Central of Vermont, Delaware & Hudson, and New York Central.

"Like any other abandonment of an entire line of road, the proposed abandonment, if authorized, would have the effect of severing the employer-employee relationship existing between the carrier and its employees. . ."

However, the report states, ". . .We do not agree with the Operating Brotherhoods that the instant proceeding is merely a device for breaking the strike and extricating the carrier from its present labor difficulties, Rather, it appears that management is convinced that profitable operations of the line are not possible at present and that the future affords no basis for a different conclusion."

The Commission did not impose conditions for the protection of Rutland employees adversely affected by the abandonment, noting that it is not the Commission's policy to impose protective employee conditions in proceedings where abandonment of an entire line of railroad is authorized.

The report explained that not authorizing abandonment of the Norwood-Malone Junction segment of the line does "not warrant the imposition of conditions for the protection of employees since the limitation of the abandonment will not require the retention of any employees by the Rutland for the purpose of conducting railroad operations."—V. 196, p. 684.

Sandura Co.—Unveils New Process—

A technological breakthrough which will revolutionize the vinyl floor covering industry and help his company increase its sales of permanent vinyl floor coverings by an estimated 300% during the next 24 months, was unveiled by J. Stokes Clement, Jr., President.

The development, called Luran Vinylweld, overcomes a major industry problem: permanent (cemented to the floor) vinyl floor coverings are manufactured in maximum widths of six feet; in the past—even in moderately sized rooms—wall-to-wall installations required at least one and often many unsightly seams which filled with dirt and water seepage. Now, with Luran Vinylweld, a chemical agent containing Tetrahydrofuran, Luran vinyl surfaces can be safely fused without the trace of a seam. This makes possible dirtproof and waterproof wall-to-wall installations in any configuration.

Mr. Clement said: "We believe Vinylweld to be the most dramatic breakthrough in floor covering since the introduction of Sandran 12 years ago. Not only does this give us an edge over our competition, we feel also it will revolutionize the industry. We have long believed that the greatest potential in floor covering lies in the luxury permanent vinyl field, but the problem of unsightly and troublesome seams has narrowed the potential market. With Luran Vinylweld, which can be used with our luxury Luran and Luran Imperial products, seams will be a thing of the past. This new patent-applied-for Sandura exclusive will help us, our distributors and our 12,000 retailers tap the growing permanent vinyl field. Based on our marketing studies and projections, we have every reason to believe that Vinylweld will boost sales of our permanent floor covering products, now accounting for about 20% of our current total volume, by 300% over the next 24 months."

The Vinylweld process works simply: it is applied with a dauber to two contiguous Luran or Luran Imperial surfaces, edges of the solid vinyl sheets liquefy for an instant, then flow together, fusing into a solid sheet. The chemical evaporates as the vinyl returns to its solid state. Cost to the dealer for material for a Vinylweld seam is less than a penny a running foot.

The new development, result of a twelve year research program by Sandura, can also be used to make invisible repairs and patches in cigaret-burned or marred vinyl surfaces.

Explained Mr. Clement, "Vinylweld gives us a strong competitive advantage because it only works perfectly on our products." The wearing surface of Sandura products are solid sheets of pure colorless vinyl. Competitive products contain coloring throughout the vinyl. Application of Vinylweld to these would cause blurring of pigments.

"Consumers and dealers, too, will benefit greatly," Mr. Clement pointed out. "The installations can be made by inexperienced mechanics quickly and with perfect results. Burns or gouges can now be repaired. Return calls to redo seams that have ravelled or torn will be virtually eliminated."

San Diego Gas & Electric Co.—Rights Offering to Stockholders—

The company is offering its common stockholders the right to subscribe for an additional 500,000 common shares at $31 per share on the basis of one new share for each nine shares held of record Sept. 20, with rights to expire Oct. 10. Blyth & Co., Inc., New York City, is manager of an underwriting group which will buy the unsubscribed shares.

Proceeds from the financing will be used to repay bank loans, and expand facilities.

BUSINESS—The company was incorporated in California in 1905. Its principal offices are in the Electric Building, 861 Sixth Avenue, San Diego. The company is an operating public utility engaged principally in the business of generating, purchasing and selling electric energy in San Diego County and in a portion of the southern part of Orange County, California; and of purchasing and selling natural gas in the City of San Diego and other communities in western San Diego County. The company intends to continue this business.

During the 12 months ended June 30, 1962, approximately 66.1% of the gross operating revenue of the company was derived from the sale of electricity, 33.6% from the sale of gas, and 0.2% from the sale of steam. During this period approximately 53.3% of the total electric, 60.7% of the total gas, and all of the steam operating revenues, excluding miscellaneous revenues and interdepartmental sales, were derived from sales within the corporate limits of the City of San Diego, which had a population on April 1, 1960 of 573,224. The California State Department of Finance

Saxon Paper Corp.—Notes Sold Privately—

On Sept. 25, 1962, Bear, Stearns & Co., New York City, announced that it had negotiated the private placement of $1,500,000 Saxon Paper 6¼% notes due Oct. 1, 1977.

Proceeds from the sale of the notes will be used by the company to retire long-term obligations and bank loans.—V. 196, p. 1287.

Scrivner-Stevens Co.—Sales, Net Higher—

Sales of the company for the fiscal year ended June 30, 1962, were $31,818,402, as compared with sales of $26,451,829 in fiscal 1961. Net earnings after taxes were $209,145, equivalent to $1.17 per share, as compared with 1961 earnings of $180,778, or $1.01 per share.

In a letter accompanying the annual report, A. Dean Cutsinger, company President and Chief Executive Officer, told stockholders the Oklahoma area served by Scrivner-Stevens has entered a period of dynamic growth, adding 76 new payroll-producing firms in the past year, creating 6,441 new jobs.

"A young management team of experienced career food distribution specialists has been formed," Mr. Cutsinger said, "to carry on the aggressive program of expansion which our prominent position in an area of growing urbanization indicates to be open to us."

Acquired during the year was the Altus Wholesale Grocery Co., which had annual sales of approximately $5 million during its last year of operation by the former owners. Purchased for cash effective March 31, the Altus company contributed to second half earnings, and provides Scrivner-Stevens a substantial additional customer group of stores in the expanding economy of Southwestern Oklahoma and neighboring areas of Texas. The Altus distribution center, a modern 33,000-square-foot building completed in 1961, will be enlarged to 60,000 square feet by construction planned in the first half of the current fiscal year. Major food classifications not now handled will be added—frozen foods, health and beauty aids, perishables, and several additional grocery lines. —V. 195, p. 1967.

Seeburg Corp.—Earnings Forecast—

The corporation expects sales for the current fiscal year, ending Oct. 31, 1962, to exceed $51,000,000, a rise of more than 45% from its record 1961 sales of $35,000,000, Delbert W. Coleman, Chairman, told the New York Society of Security Analysts. He said that sales of vending equipment will reach $25,000,000, more than double the $12,200,000 sales in 1961, and that sales of coin-operated phonographs would approximate $20,000,000, an 18% increase. The company also manufactures background music systems, hearing aids and other electronic equipment.

Mr. Coleman estimated that net income for 1962 will be more than $1,700,000, or 88 cents a share. This includes a tax credit of $150,000, amounting to eight cents a share. Earnings in 1961 were $1,051,000, or 54 cents a share, including a tax credit of $460,000, equal to 23 cents a share.

Seeburg sales for the nine months ending July 31 were $37,700,000, Mr. Coleman stated, compared to $25,100,000 for the same period a year ago. Earnings for the nine months were $1,197,000, or 61 cents a share, including a tax credit of $150,000, equal to eight cents a share. Earnings for the corresponding nine months in 1961 were $917,000, or 46 cents per share, including a tax credit of $399,000, equal to 20 cents per share.

Mr. Coleman termed vending a growth industry. "A greater variety of goods is being vended, more machines are being located in more places, buying from vending machines is a growing consumer habit, and the machines are replacing cafeterias in factories," he said. "In 1962, $3 billion worth of products will be vended from more than four million machines. Seeburg plans to participate in this growth by providing the necessary equipment." At present, the company sells five lines of vendors coffee, cup cold drinks, bottle cold drinks, can cold drinks and cigarettes. The company is about to begin shipment of milk vending machines, and plans to introduce its candy and pastry machines early next year.

Speaking of 1963, Mr. Coleman said that with the continued growth of the vending industry, the introduction of additional new Seeburg products, and the completion of a new 260,000 square foot plant now under construction at Hartford, Conn., which will greatly increase production capacity, he anticipated further rise in volumes and profits.—V. 196, p. 220.

Shakespeare Co.—Capital Increase Approved—Stock Dividend—

On Sept. 20, 1962, stockholders voted to increase capital stock from 500,000 to 1,000,000 $5 par shares to provide for a 100% stock dividend to holders of record Sept. 27.

Shell Oil Co. — To Distribute Shares in Canadian Affiliate—

On Sept. 25, 1962, Monroe D. Spaght, President, announced that directors have authorized the distribution to shareholders of all shares held by the company in Shell Oil Co. of Canada Ltd.

The distribution will be made Nov. 1, to holders of record Oct. 8. It will be at the rate of one voting class A common share of Shell Oil Co. of Canada, Ltd., for each five shares of Shell Oil Co. common stock outstanding. There are 60,582,260 shares of Shell common outstanding.

After Shell's divestiture of its Canadian interests, the public will hold about 17½% of the equity of Shell of Canada, and the rest will be held by companies of the Royal Dutch-Shell group.

Application is being made to list the class A common shares of Shell of Canada on the Toronto, Montreal and Vancouver Stock Exchanges.—V. 196, p. 582.

See Martin-Marietta Corp., this issue.—V. 196, p. 475.

Stauffer Chemical Co.—Acquisition—

The acquisition of 76% of the common stock of Urethane Industries International, Inc. by Stauffer Chemical was announced. Urethane Industries International is one of the largest producers of polyurethane foams in this rapidly growing industry. It operates plants in Los Angeles, Calif. and Chicago, Ill. Its wholly owned subsidiary, American Urethane, Inc., operates a plant at Franklin, N. J. Current sales of U. I. I. are in excess of seven million dollars annually.

Prior to acquiring this majority stock interest, Stauffer held a substantial amount of convertible debentures of Urethane Industries International. The acquisition of this stock has been carried out as a part of a program of recapitalization and reorganization of U. I. I.

The flexible foams produced by U. I. I. are used in the manufacture of mattresses and furniture, as lightweight insulation in coats and overcoats, for special industrial packaging and as cushioning in automobiles and airplanes. The company's rigid fire resistant foams are being used as insulation in buildings, refrigerators, railroad cars, trucks and fishing boats. They are also being used in classified defense applications.—V. 194, p. 1206.

Stelber Cycle Corp.—Common Offered—Pursuant to a Sept. 21, 1962 prospectus, Lloyd Securities, Inc., New York City, offered publicly, 100,000 shares of this firm's common stock at $3.25 per share.

Net proceeds, estimated at $260,500, will be used for debt reduction, and moving expenses.

BUSINESS—The company's principal business is the manufacture and sale of bicycles and tricycles. The firm has been manufacturing and selling bicycles since the inception of its business in 1947. The manufacture and sale of tricycles was commenced by the company in 1958. The company's two wholly-owned subsidiary corporations are in the business of selling imported bicycles of a type ("racers" and "lightweights") which are not manufactured by the company. One of these subsidiaries, Cycle Trading Corp., sells such imports strictly on a commission basis for other, non-affiliated manufacturers, while the other subsidiary, Bicycles International, Inc., purchases and resells such imports. Such subsidiaries were organized on April 19, 1961, and July 28, 1961, respectively. Prior to the organization of these subsidiary corporations, the sale of such imports was made directly by the company. The company recently began the manufacture and sale of a new line of toy automobiles.

The company sells the bicycles and tricycles it manufactures under the trade name "Stelber" (except for less than 1% of its total manufacturing output which the company manufactures under private label). The company manufactures all sizes of bicycles and tricycles, ranging from a 16 inch to a 26 inch unit for bicycles, and from a 10 inch to a 16 inch unit for tricycles. The imported bicycles are sold by the company, in some instances, under the labels of the foreign firms manufacturing such products, and in other cases under the trade name "Rutledge." During the year ended June 30, 1962, approximately 75.4% of total company sales was accounted for by the sale of bicycles manufactured by it, approximately 15.1% was accounted for by tricycles manufactured by it, and approximately 9% was accounted for by the sale of foreign imports. The remainder of ½ of 1% of total company sales during such one year period was accounted for by products no longer manufactured and sold by the company. During such period approximately 69% of total company sales was accounted for by the 20 inch and 26 inch bicycles manufactured by it. The company's business is seasonal in nature and the majority of its sales are accounted for during the last six months of the calendar year.

For the purpose of stimulating business during the months of January, February and March, the company sells a special low priced introductory line of the same products. Consequently, during this period the company's gross profit margin is reduced. Such introductory lines amounted to 22% of all company sales during the fiscal year ended June 30, 1962 and 10% during the previous fiscal year.

The company, of 744 Berriman St., Brooklyn, N. Y., is not dependent upon any single source for any of its materials or supplies. The company purchases its supplies from various sources in the United States and Europe.

Stone Container Corp.—Acquisition—

This Chicago-based boxmaker has acquired its 13th manufacturing facility by purchasing the assets of the Leonson Corrugated Box Co., Inc., St. Louis, according to an announcement by Norman H. Stone, chairman and president. The new property, which immediately will become Stone's St. Louis Division, represents the firm's first expansion west of the Mississippi.

The St. Louis firm was founded in 1934 by L. J. Leonson and today employs about 61 people in a multi-building plant at 2000 Gratiot Street in St. Louis' central area. It is an integrated operation which combines containerboard into corrugated sheets from which the containers are made.

The firm, which was closely held by Mr. Leonson and members of his family, has annual sales of about $3 million. Stone Container purchased all assets of the company for an undisclosed amount. —V. 196, p. 1288.

Stowe-Woodward, Inc.—Common Offered—On Sept. 25, 1962, Fulton, Reid & Co., Inc., Cleveland, headed an underwriting group which offered publicly, 237,140 common shares of Stowe-Woodward at $10 per share.

Of the total, 137,140 shares were offered for certain stockholders and 100,000 for the company.

PROCEEDS—Proceeds from the sale of the 100,000 shares will be used to retire outstanding bank indebtedness, for leasehold improvements and equipment at the company's new location in Sandusky, Ohio, and for general working capital.

BUSINESS—Stowe-Woodward, is a major supplier of rubber covered rolls used primarily in the paper, textile, plastic, and leather industries. The Ebonite Division manufactures the nationally known Ebonite bowling ball and distributes other bowlers' supplies under the Ebonite and private labels. Executive offices and a plant are located at 181 Oak Street, Newton Upper Falls, Mass. Other plants are operated in Neenah, Wis. and Griffin, Ga. An additional plant is under construction in Sandusky, Ohio.

UNDERWRITERS—In the purchase contract, the several underwriters have agreed, severally, subject to the terms and conditions therein set forth to purchase, and the company and the selling stockholders have agreed, severally, to sell to them, the respective numbers of shares of common stock to be sold by each. The underwriters are committed to take and pay for all the shares of common stock offered if any are taken.

The underwriters have advised the company that they propose to offer all or part of the shares offered hereby directly to the public at the public offering price and that they may offer any balance to dealers at a price which represents a concession of not in excess of 60c per share under the public offering price. Such dealers may reallow a concession of not in excess of 25c per share to other dealers.

The selling stockholders and other stockholders of the company have agreed that, except under certain circumstances, they will not, for a period of 120 days after the date of this Prospectus, make any sale or other voluntary disposition of any presently held shares of common stock of the company without the prior written consent of Fulton, Reid & Co., Inc.

The names of the several underwriters and the respective number of shares to be purchased by each of them are as follows:

Taconic Racing & Breeding Association, Inc.—Units Offered — On Sept. 27, 1962, the company of Pownal, Vt., announced the offering, in units, of $2,816,000 of first mortgage bonds, 6% series due Aug. 1, 1982, and 704,000 shares of capital stock. Each unit, consisting of $1,000 principal amount of mortgage bonds and 250 shares of capital stock, was priced at $1,250. The bonds and stock are transferable separately from date of issue. No underwriting was involved.

PROCEEDS—A major portion of the net proceeds from the financing will be used to finance the purchase of real estate directly on Route 7 at Pownal, Vermont and the construction and equipping of a complete horse racing plant which will enable thoroughbred racing and harness racing to be conducted in the spring, summer and fall seasons. The company expects to hold its first race meet beginning about the middle of May, 1963. Parimutual betting will be permitted at the company racing meets.—V. 196, p. 113.

Thomas & Betts Co.—Begins Trading on NYSE—

Trading in the common stock of Thomas & Betts Co. began Sept. 27, 1962 on the New York Stock Exchange under the symbol TNB. The first transaction in the new listing came shortly after the opening of trading on the exchange with the purchase of 100 shares of Thomas & Betts stock by the company's president, N. J. MacDonald. A total of 1,498,305 common shares are listed.

Founded in 1895, Thomas & Betts is a leading manufacturer of electrical terminals, connectors, fittings and related accessories. The Elizabeth, N. J.-based company made its first public offering of stock in February, 1959 with the sale of 300,000 shares. The company currently has approximately 3,500 shareholders in 45 states.

Both sales and earnings of the company for the six months ended June 30, 1962 were at all-time high levels. Sales amounted to $14,404,735, and net income was $1,615,071, which is equal, after preferred dividends, to $1.07 a share on 1,482,147 shares of common stock. Sales for the first six months of 1961 were $12,798,430, and net income totaled $1,331,202 or 88 cents a common share.—V. 196, p. 1288.

Toro Manufacturing Corp.—Record Sales; Earnings

David M. Lilly, President, announced at a press conference that net earnings for the fiscal year ended July 31 were $845,520 ($3.70 per share), highest ever registered by the power mower industry leader. Last year, Toro's net earnings were $482,962 ($2.10 per share). Per share earnings were $3.02 in 1960 and $3.07 in 1959.

Sales were $21,934,381, a new high for the Minneapolis firm, representing a 14.5% increase over the previous year which had been plagued by a recession, bad weather and a lag in housing starts. "We've come a long way up the road from the 1.5 million dollars in 1946, when the firm resumed production after World War II," Mr. Lilly told newsmen who came to preview the Toro line for 1963.

If Toro's management has its way, the company will travel even further up the road in six years' time—the date set for Toro to achieve annual sales of approximately $50 million.

Mr. Lilly has set his sights on exactly half that figure—$25 million—for the 1962-63 period when he predicts power mower industry sales will increase 10% to a new record of 4.4 million units. This past year, the industry recovered from the 1961 low of 3.5 million units and topped the 4-million-unit mark.—V. 195, p. 1366.

Trailer Train Co.—Appointment—

Chemical Eank New York Trust Co. has been appointed by Trailer Train to act as trustee, registrar and paying agent for its $9,600,000 principal amount of equipment trust certificates, series I, which mature serially from Sept. 1, 1963 to Sept. 1, 1982, inclusive.—V. 196, p. 1095.

Transition Electronic Corp.—Annual Report—

The corporation and subsidaries reported for the fiscal year ended June 30, 1962 sales of $28,831,539 and a loss of $763,755 or $498,755 after application of a special prior year credit in the amount of $265,000. In the previous fiscal year there was a loss of $1,451,792 on sales of $37,059,866.

In a statement accompanying the figures, Dr. David Bakalar, President, said:

"The 1962 loss was caused principally by the continuing pressure on prices in the semiconductor industry. The unaudited interim report of operations for the first nine months of the year showed a small profit but the loss for the entire year cannot be wholly attributed to the fourth quarter's results. The rapidly changing technology and conditions in the industry make it very difficult to properly evaluate on an interim basis the effects of many complex factors on the operating results of the company. We are now reviewing our procedures in order to improve interim reporting." —V. 195, p. 1144.

National and Eastern List of Over-The-Counter Securities (Quotations for Friday, September 28)

The following bid and asked quotations are obtained from the National Association of Securities Dealers, Inc., and other selected sources. They do not represent actual transactions. They are intended as a guide to the range within which these securities could have been sold (indicated by the "bid") or bought (indicated by the "asked") at the time of compilation. Origin of any quotation furnished on request. The "National" list is composed of securities which have a wide national distribution. The "Eastern" list comprises securities which have a wide distribution primarily in the Eastern region.

THE COURSE OF BANK CLEARINGS

Bank clearings this week will show an increase compared with a year ago. Preliminary figures compiled by us based upon telegraphic advices from the chief cities of the country, indicate that for the week ended Saturday, Sept. 29, clearings for all cities of the United States for which it is possible to obtain weekly clearings will be 10.2% above those of the corresponding week last year. Our preliminary totals stand at $31,887,872,560 against $28,933,952,140 for the same week in 1961. At this center there is a gain for the week ending Friday, of 10.2%. Our comparative summary for this week follows:

Complete and exact details for the week covered by the foregoing will appear in our issue of next week. We cannot furnish them today, inasmuch as the week ends Saturday and the Saturday figures are not available at time of going to press. Accordingly, in the above the last day of the week in all cases has to be estimated.

In the elaborate detailed statement, however, which we present further below, we are able to give final and complete results of the previous week—the week ended Sept. 22. For that week there was an increase of 4.7%, the aggregate clearings for the whole country having amounted to $33,865,531,783 against $32,334,784,009 in the same week in 1961. Outside of this city there was a gain of 5.9%, the bank clearings at this center showing an increase of 3.7%. We group the cities according to the Federal Reserve Districts in which they are located and from this we note that in the New York Reserve District the totals record a gain of 3.8%, and in the Boston Reserve District of 9.7%, but in the Philadelphia Reserve District the totals register a loss of 0.4%. In the Cleveland Reserve District the totals show an improvement of 4.8%; in the Richmond Reserve District of 2.6%, and in the Atlanta Reserve District of 9.2%. The Chicago Reserve District has managed to enlarge its totals by 5.4%; the St. Louis Reserve District by 7.0%, and the Minneapolis Reserve District by 5.9%. In the Kansas City Reserve District there is an increase of 8.3%; the Dallas Reserve District of 2.8%, and in the San Francisco Reserve District of 8.2%.

In the following we furnish a summary by Federal Reserve Districts:

Condition Statement of Member Banks

The condition statement of weekly reporting member banks of the Federal Reserve System in leading cities shows the following principal changes for the week ended Sept. 19: Increases of $1,302 million in loans adjusted and $1,805 million in U. S. Government demand deposits, and decreases of $145 million in demand deposits adjusted and $152 million in demand deposits credited to domestic commercial banks.

Commercial and industrial loans increased in all districts for a net of $301 million; during the comparable week a year ago, these loans increased $209 million. Loans to brokers and dealers for purchasing or carrying U. S. Government securities increased $613 million, and their loans for purchasing or carrying "other" securities increased $140 million. Loans to sales and personal financing institutions increased $112 million, as compared with an increase of $209 million during the similar week in 1961. Real estate loans increased $67 million. "Other" loans increased $39 million.

Holdings of Treasury bills by weekly reporting member banks increased $47 million, Treasury certificates decreased $36 million, and the combined total of Treasury notes and U. S. Government bonds increased $16 million. "Other" securities decreased $226 million.

Demand deposits adjusted decreased $110 million in the Chicago District, $66 million in the Cleveland District, and by lesser amounts in six other districts, but they increased $142 million in the New York District outside of New York City and $94 million in the San Francisco District. Savings deposits increased $79 million and "other" time deposits of individuals, partnerships and corporations decreased $91 million.

Borrowings of weekly reporting member banks from Federal Reserve Banks decreased $107 million but borrowings from others increased $9 million. Loans to domestic commercial banks increased $53 million.

(J. M.) Tull Metal & Supply Co., Inc.—Common Offered—Pursuant to a Sept. 20, 1962 offering circular, Wyatt, Neal & Waggoner and Robinson-Humphrey Co., Inc., Atlanta, Ga., offered publicly, 30,000 shares of this firm's common stock at $10 per share.

Net proceeds will be used to finance additional merchandise inventories, and accounts receivable.

BUSINESS—The company, of 285 Marietta St., N. W. Atlanta, is engaged in the wholesale distribution of ferrous and non-ferrous metals and industrial supplies. The principal metals sold include carbon steel products (such as wire, rods, bars, structural shapes, sheets, tubes, and tool and alloy steels), stainless steel, and aluminum, brass, copper, bronze, and nickel products. Fittings and fasteners in each of such metals are also sold. Industrial supplies distributed include hand tools, precision instruments (such as micrometers and calipers), abrasives, cutting tools (such as drills, taps, dies, and reamers), wire rope, valves, transmission products (such as gears, ratio motors, and speed reducers) and machinery (consisting of a variety of electric and air tools).

The company's sales are primarily to ferrous and non-ferrous metal fabricators, airplane and missile manufacturers, Federal, state, and local governments, paper mills, chemical plants, textile mills, machine shops, public utilities, shipyards, and airlines.

Products sold by the company are purchased from such companies as the International Nickel Co., Anaconda American Brass Co., Aluminum Co. of America, Armco Steel Corp. and United States Steel Corp.

The company distributes these products over the southeastern area of the United States, beginning with Virginia and continuing south and west to include Florida, Louisiana, Mississippi and all intermediate states.

Voi-Shan Industries, Inc.—Proposed Name Change

Shareholders of this Pasadena, Calif., firm at the annual meeting in Los Angeles on Oct. 17, will act on the board of directors recommendation to change the name of the company to VSI Corp.

President Mason Phelps said the change is being recommended to simplify the corporate name, retaining the initials of Vol-Shan Industries which the company has used as a corporate symbol for several years.

Mr. Phelps said the proposed name change to VSI Corp. will not affect the name of the company's aerospace division which will continue to be known as Voi-Shan Manufacturing Co.—V. 196, p. 1096

Welsh Panel Co.—Additional Financing Details—Our Sept. 24, 1962 issue reported the sale on Sept. 21, of 110,000 common shares of Welsh Panel stock at $7 per share. Additional financing details follow:

UNDERWRITERS—The underwriters named below have severally agreed, subject to the terms and conditions of an underwriting agreement, to purchase in the respective amounts set forth below not less than all of the 110,000 shares of common stock, if any are purchased.

Wyle Laboratories—Debentures Offered—On Sept. 27, 1962, Kidder, Peabody & Co. Inc., New York City, and Mitchum, Jones & Templeton, Inc., Los Angeles, headed an underwriting group which offered publicly, $2,500,000 of Wyle Laboratories 5½% convertible subordinated debentures, due 1977. The debentures, priced at 100% and accrued interest, are convertible into common stock at $15 per share for the life of the issue.

REDEMPTION FEATURES—The debentures are redeemable at the option of the company at prices ranging from 105½% to the principal amount. Through the operation of a sinking fund, the debentures will be redeemable, beginning in 1965, at 100% of the principal amount, plus accrued interest.

PROCEEDS—Of the proceeds, $2,000,000 will be used to repay short and long-term bank borrowings. The balance will be added to general funds and will be available for any corporate purpose.

BUSINESS—Wyle Laboratories, of El Segundo, Calif., provides a number of services and products principally to the aerospace industry. The testing division of the company operates laboratories in El Segundo and Norco, Calif., Westbury, N. Y., and Huntsville, Ala. Its major testing facilities enable it to test liquid rocket pressurization components and systems, liquid rocket propellant components and systems, solid rocket propellant systems and other systems and components of similar complexity.

Significant products of the manufacturing division are the Hydrashaker (an extremely high force electro-hydraulic vibration system), liquid carbon dioxide storage and handling equipment, environmental test equipment, ovens for high temperature mass testing of large quantities of semiconductors and other electronic components, printed circuit boards and digital computer systems and subsystems utilizing these boards.

Three subsidiaries are engaged in the business of specialized industrial distribution of electronic supplies and components.—V. 195, p. 793.

Zayre Corp.—Common Offered—The first public offering of stock of Zayre Corp. (Natick, Mass.), operator of a chain of 37 self-service department stores located in 14 states, was made Sept. 27, by Lehman Brothers, New York City, manager of the group of investment bankers which is underwriting the issue. The stock was priced at $12 per share.

Of the total, 175,000 shares represented new financing by the company. The remaining 175,000 shares were sold by certain stockholders, all members of the Feldberg families. After the sale, the families will own 1,251,500 shares or 74.43% of the 1,681,500 shares of common stock to be outstanding.

PROCEEDS—Net proceeds received by the company from the sale of the 175,000 shares will be used to provide additional working capital required in connection with additional self-service department stores presently planned to be opened through the Spring of 1963.

Eleven stores are presently under construction and the company expects construction to be started in the near future on four additional stores.

The total number of new stores already opened and expected to be opened in the current fiscal year ending in January, 1963 will be 20.

BUSINESS—In addition to the department stores, operated under the name of Zayre in Northeastern, Middle Atlantic, Mid-Western and Southern States, the company operates 52 popular-price apparel specialty stores located principally in the New England and Middle Atlantic States.

All Zayre stores offer a wide variety of merchandise at discount prices. It is the company's policy to purchase no seconds, irregulars, factory rejects or other inferior quality merchandise. Merchandise is generally selected to appeal to persons of average income.

REVENUES—Net sales in the fiscal year ended Jan. 27, 1962 amounted to $59,165,743 and net income was $1,126,736, equal to 75 cents a share on 1,506,000 common shares. Sales in the 26 weeks ended July 28, 1962 totaled $36,796,439 compared with $21,452,326 in the six months ended July 29, 1961; net income in the respective periods was $193,119 and $32,847, equal to 13 cents and two cents per common share.

CANADA

NEW BRUNSWICK

New Brunswick Electric Power Commission, N. B

Private Debenture Sale—The Commission has completed the private placement with institutional investors of $8,000,000 of 5¼%, 25-year sinking fund debentures, it was announced Sept. 27. Principal and interest of the debentures are unconditionally guarnteed by the Province of New Brunswick.

The First Boston Corporation and Harris & Partners Inc. acted as agents for the Power Commission.

The proceeds of the debentures are to be used to repay bank loans and the fifth installment due the Government of Canada on the Beechwood hydro-electric development, and the balance will be available for construction and other corporate purposes. The Commission has under construction a steam-electric generating plant of 60,000 KW capacity at Newcastle Creek, scheduled for operation during the winter of 1963-1964.

The New Brunswick Electic Power Commission is the principal supplier of electric energy in the Province having about 74% of the installed generating capacity now available. Most of the balance of generating capacity in the Province is owned by various pulp and paper companies for their own requirements and is interconnected with the Commission system. The commission serves 105,000 domestic customers and 2,500 power customers.
