Corporate and Municipal Financing Ahead

By SIDNEY BROWN

This week's calendar of senior capital debt offerings consists of 3 private public utilities and 23 tax-exempts of $1 million or larger in size. The former comes to $104.5 million and the latter to $118.4 million—a total of approximately $223 million—and are all slated for the competitive bidding block. Geographically, the three corporates stem from Portland, Ore. ($32 million); San Francisco, Calif. ($65 million); and Birmingham, Ala. ($7.5 million). The municipals range from State of Kentucky, ($25 million) to San Juan, Puerto Rico ($14 million). The backlog of definitive offerings (with sales dates set) still shows no significant upsurging change in the corporate sector. One Japanese issue was added to the calendar last week—450,000 Honda Motor Co., Ltd., ADR's—and another was added to the backlog of issues without dates. The latter was the Tokyo Shibaura Electric Co., Ltd. $20 millon debenture registered with the SEC. Two other Japanese offerings still awaiting finalizing details—and, thus, carried in our indeterminate backlog table instead of the firm table of issues to be offered —are Japan Development Bank and Mitsubishi Electric Manufacturing Co. Last September was a busy month for Japan in our capital market wherein $70 million were raised in three publicly offered and one privately placed issue. It is quite possible that $100 million private capital outflow to Japan will be achieved this year—a testament to the obvious growth and our private market's approval of the quality of that growth.

Tennessee Gas Transmission Co.'s $50 million first mortgage pipe line bonds (*via* Stone & Webster Securities Corp., White, Weld & Co., and Halsey, Stuart & Co.) is expected to be marketed next January. The final bidding details for the forthcoming $250 million U. S. Government's venture into competitive bidding for its bonds should be forthcoming next month.

The State-local backlog of forthcoming issues with tentatively scheduled dates is relatively light but prospective issues are heavy in dollar volume—such as the Board of Commissioners of the Memphis Light, Gas and Water division, Memphis, Tenn. proposed refinancing totaling $194.2 million in two issues. One is the $103 million City of Memphis TVA lease rental revenue bonds and the other is $91.2 million City of Memphis electric system revenue bonds. The underwriters are Lehman Bros.; Blyth & Co.; Kuhn, Loeb & Co.; and Equitable Securities Co.

TREASURY AND THE FED CREATED UNEXPECTED FORCES SHAPING BOND PRICES

The Administration and the Federal Reserve unleashed three powerful forces in 1961-62 affecting the bond price-yield pattern which, it is believed here, produced unexpected or unintended repercussions. Two of them turned out to be a bitter, but necessary, pill to swallow and the third was a pleasurable surprise. The goal of the Treasury, with the cooperation of the Federal Reserve, has been to keep the capital market's interest rate pattern low and the money market's interest rate high within the monetary environment of easy credit. Jeopardizing this goal was the brilliant technique of advanced refunding employed in full force which offered attractive rights-refunding terms requiring the corporate market to raise competitively its interest-rate ante.

Were it not for the attractiveness of the advanced refunding terms, to assure success, it is reasonable to believe that the bond interest rate pattern in the market we have had to date would have been lower than the unique level attained for the 21 months since the last recession's trough (February, 1961). No one here is questioning the advantages in lengthening the debt and keeping nonbanking holders interested in keeping governments; what is questioned is whether originally the Treasury had intended to influence bond interest rates toward their present level or—most probably—fractionally or a point lower. For four years bond yields have been higher than stock yields and instead of encouraging flotation of new capital it has to a considerable extent encouraged refunding higher yields into lower ones—where they still remain above those for stocks.

The recent closeness of government yields to corporates looks good superficially, but the forthcoming $250 million competitive government long-term offering faces a projected $7.8 billion 1963 fiscal deficit (July 1, 1962-June 30, 1963), following the heels of this fiscal year's $6.3 billion deficit, which does not include the cost of the Administration's promised (Congress willing) substantial tax-burden reduction.

Assuming the Fed does not monetize the additional debt directly and/or create reserves so that the commercial banks can absorb it and, also, that there are limits to short-term issues' volume (since it would require the Treasury to be going constantly to the market) the new debt will have to be sold in large measure to nonbank buyers. The added volume should depress price and raise yield. Were today's bond yields lower and prices higher, in the absence of advanced refunding competitively attractive terms, the Treasury would likely have found its forthcoming financing task and its low bond interest rate goal a lot easier to reconcile.

The second unanticipated problem is found in "nudging." The attractiveness of the bill rate has even induced corporate working capital to stay there, riding the yield curve of bills instead of tending to corporate business. Further, the bond market has been forced to meet this bill rate competition. The deduction, therefore, is that the bond yield today would have been lower were it not for the balance of payments problem and the resultant policy of "nudging." True, historically, bond interest rates have never been so low for so many months after a trough.

But, did the Administration originally and even now, for that matter, want its success in raising the bill yield to act competitively on the low bond yields causing the latter to increase? If so, all the Treasury has to do is to finance its debt through nonbank sources—with no Federal Reserve creation of reserves—and it should see bond yields increase even more. Were that to occur, it could find short-term yields, in turn, competitively rising.

According to the official pronouncements of the Treasury, the hike in bill rates has worked without pushing up bond interest rates. Actually, the bond interest rate would have been even higher and the Administration would have found the bill rate exceedingly competitive were it not for a third unexpected event. The lifting of interest rates on time and savings deposits through Regulation "Q" has brought the banks into the market for higher yielding investments. This in turn has increased the demand for bonds, mortgages and municipals. In turn, it has been instrumental in unwittingly helping the Administration make an impressive looking record as to the success of "nudging." Helping the banks to obtain the funds for longer-term investments, it goes without saying, has been the Federal Reserve's easy money policy in keeping member banks plentifully supplied with free, excess reserves.

In lifting the interest rate to 4%, the Fed had hoped commercial banks and mutual savings banks would be able to compete with S&L Associations. The unforeseen result was the drastic shift in portfolios to such an extent that the Fed has not had to buy long-term governments to keep bond yields down—as originally decreed would be done when "nudging" went into effect over twenty months ago and supplanted the "bills" preferably policy.

Tomorrow's expected still larger Federal debt and the balance of payment need for a high bill rate tend to depress bond prices. But, Reg "Q" and the economy's sluggishness—plus pent-up real and artificially created savings—help to keep bond prices up. This balance can be expected to keep the interest rate at its present level until another significant unforeseen force upsets the balance.

These warrants permit the purchase of 66,667 shares of common stock at $7.50 a share and expire June 30, 1968. Exercise of all the warrants would give CapTech a 5.3% equity in Ultronic Systems, assuming all outstanding warrants and options were exercised, Dr. Plesset stated.—V. 196, p. 1977.

Cities Service Co.—Proposed Acquisition—

Directors of Cities Service and Tennessee Corp. have approved a plan whereby Cities Service would acquire the assets and business of Tennessee Corp.

A joint announcement by the companies stated that the plan, which would constitute a pooling of interests of the two companies, would contribute materially to their respective diversification programs.

The plan, which is subject, among other things, to the approval of the stockholders of both companies at special meetings to be held early in 1963, provides that stockholders of Tennessee Corp. will receive nine-tenths of one share of a new voting convertible preference stock of Cities Service for each share of capital stock of Tennessee Corp. held by them. The convertible preference stock will carry an annual cumulative dividend of $2.25 and each share will be convertible into 0.909 of one share of Cities Service common stock, which is equivalent to a price of $55 per share of the Cities Service common stock. The preference stock will be noncallable for a period of seven years and may be redeemed after seven years from the date of its issue at an initial redemption price of $52.50 per share declining over a reasonable period to $50, the liquidation value thereof.—V. 196, p. 1766.

Commodore Business Machines (Canada) Ltd.—To Lease Equipment—

This New York and Toronto based manufacturer of typewriters, adding machines and drycopy units, has become the first major firm in this field to lease individual drycopy machines to business organizations on a weekly basis. The announcement was made by Jack Tramiel, Commodore's President.

Commodore's Drycopy units, which normally are priced at about $299, will be made available on this new rental basis for $2 per week, under the terms of an annual contract. The lease program will be offered through Commodore's more than 750 distributors in the United States and Canada. Mr. Tramiel expects over 50,000 machines to be leased in the next two year period.

According to Mr. Tramiel, "At a cost of only $2 a week, any company, no matter how small, can now afford a drycopy unit. In fact, every department of a company can now have one. Commodore's rental program can save corporations thousands of dollars in labor costs which are normally incurred using other copying or re-typing procedures for important documents, letters, etc."

The Commodore Drycopy is a compact unit which can reproduce in four seconds a dry, permanent reproduction of any document on ordinary, low cost office paper. The machine was introduced last June and has become in this short period one of the top sellers in North America.—V. 196, p. 1344.

Consumers Gas Co. (Canada)—Bonds Sold Privately—

On Nov. 23, 1962, it was reported that the company had arranged to sell privately, $20,000,000 of first mortgage bonds through Dominion Securities Co., and A. E. Ames & Co., Toronto.

Proceeds will be used to repay bank loans, and for expansion.—V. 195, p. 2594.

Decca Records, Inc.—Net Higher—

Consolidated net earnings of Decca Records including results of operations of its subsidiary Universal Pictures Co. Inc. for nine months ended Sept. 30, 1962, amounted to $4,359,091, equal to $2.85 per share on the 1,527,401 outstanding shares of capital stock.

In the corresponding period of 1961, Decca reported earnings of $1,875,007, equal to $1.46 per share on 1,285,701 outstanding shares of capital stock.—V. 196, p. 638.

Deere & Co.—Sales Up 6%—

The company has reported that consolidated net sales increased nearly 6% in the 1962 fiscal year which ended October 31.

President William A. Hewitt, in a preliminary year-end report to stockholders, said sales from U. S. and Canadian operations totaled approximately $540 million this year compared with $510 million a year ago. The company consolidates only U. S. and Canadian operations.

World-wide net sales—including both consolidated sales and the sales of unconsolidated foreign subsidiaries—will total about $575 million, he said. This is about 2% higher than world-wide net sales in 1961. Foreign sales this year were affected adversely by unsettled economic and political conditions abroad, particularly in Argentina.

Because audited financial statements will not be ready until January, no estimate of earnings for the year was made, however, they are expected to exceed 1961 earnings moderately, the report said.—V. 196, p. 853.

Detroit Edison Co.—Stock Split Approved—

Approval by Detroit Edison shareowners of a proposal for a two-for-one split of the company's common stock was announced at a special stckholders meeting in Detroit Nov. 19.

The meeting was the first of its kind ever conducted by the company elsewhere than in New York City, where Detroit Edison's corporate headquarters are located.

At the meeting, held in the Ford Auditorium, proxies representing over 86% of the approximately 14,400,000 shares of Detroit Edison stock outstanding were received and tallied together with ballots cast by those attending the meeting.

The proposal, passed almost unanimously was:

To decrease the par value of the common stock from $20 to $10 per share, and to increase the authorized shares of common stock from 20,000,000 to 40,000,000 shares.

Also, to change and reclassify each outstanding share of common stock into two shares of the common stock of the par value of $10, without changing the aggregate amount of capital of the company. —V. 196, p. 1241.

Devoe & Raynolds Co., Inc.—Record Sales, Earnings

The company has reported record sales and earnings for the third quarter and first nine months of this year.

Earnings and sales for the first nine months of the year similarly reached new highs, totaling $2,351,228 and $53,654,696, respectively. In 1961, earnings for the nine months amounted to $1,734,651 on sales of $48,348,226.

Net earnings of $1,554,326 for the first nine months of 1962 were reported by Diebold. Earnings were 5.3% higher, after provisions for Federal and Canadian income taxes, than the $1,476,665 earned in the first nine months last year.

Earnings per common share were $1.53 for the first nine months compared with $1.46 earned in the comparable period last year, based upon the 1,013,511 common shares outstanding as of Sept. 30, 1962.—V. 196, p. 638.

Documentation Inc.—Sales Up 97%— Net 12%—

A significant rise in gross sales of 97% and an increase of 12% in net income for the six months ended Sept. 30 was reported to stockholders by Eugene Miller, President.

Mr. Miller noted the new financial and corporate details in the six-month report are "indicative of a bright future ahead" and the company has "every reason to expect that our growth rate will be maintained and our profit margins greatly increased. . . ."

Sales for the first-half of fiscal 1962 were $1,136,104 as compared to $576,765 for the corresponding 1961 period—a hike of 97%, the DOC INC executive said.

At the same time, Mr. Miller reported the company's net income for the half-year was $44,782 before taxes, a 12% rise from $39,955 in the corresponding period in the previous fiscal year.—V. 196, p. 1241.

Dover Corp.—Sales, Net Higher—Acquisition—

Sales and earnings of Dover for the nine months ended Sept. 30, 1962, were higher than in the corresponding period last year, Fred D. Durham, Chairman, reported in the quarterly report to stockholders.

Sales for the nine months amounted to $38,147,000, compared with $34,466,000 in the corresponding period of 1961. Net earnings were $2,390,000, equal to $1.86 per share, compared with $1,983,000 or $1.57 per share a year earlier.

"During the third quarter, sales were at favorable levels but earnings were somewhat lower than anticipated," Mr. Durham said. "We feel that most of the factors which adversely affected earnings in the third quarter were temporary in nature. Among them was the six weeks' strike at the Cook Division which ended on Sept. 4."

Sales for the third quarter were $13,538,000, compared with $12,741,000 in the 1961 period. Earnings totaled $792,000 or 62 cents per share, compared with $815,000 or 65 cents per share in the third quarter of 1961.

On Nov. 5 the stockholders of De-Sta-Co Corp. of Detroit approved the sale of its assets to Dover for $7,325,025. Under the purchase agreement, Dover will pay De-Sta-Co approximately $5,700,000, since the full acquisition cost will be reduced by the amount of cash and other securities of De-Sta-Co. Dover will use approximately $2,700,000 of corporate funds and borrow $3,000,000 from insurance companies.

"De-Sta-Co is expected this year to earn close to $700,000 after taxes on sales of about $6,000,000," Mr. Durham said. "After allowing for interest charges, such earnings would increase Dover's earnings at an annual rate of approximately 50 cents per share." The closing is scheduled to take place about Nov. 30, 1962.

"The outlook for the balance of the year is favorable," Dover said. "Earnings for the year should amount to between $2.40 and $2.50 per share, exclusive of any De-Sta-Co earnings which will be included only for December, assuming a November 30 closing." —V. 196, p. 1451.

Dunhill International, Inc.—Nine Months' Report—

Dunhill International has reported net earnings of $1,263,229, equal to 35 cents a share, on sales and revenues of $17,487,608 for the nine months ended Sept. 30. The announcement was made by Reuben W. Askanase, Chairman.

Mr. Askanase said that results for the comparable 1961 period were unavailable because of the previous differences in the operating years of Dunhill International and the Pyramid Rubber Co. group, which merged into Dunhill last February.

Indicated net earnings for the September quarter were $576,781, equal to 16 cents a share, on sales and revenues of $6,182,153. —V. 196, p. 854.

Eastern Air Lines, Inc.—Net Loss Reported—

Eastern Air Lines reported a net loss from operations of $23,556,000 after all taxes and charges for the first nine months of 1962. The loss figure does not, however, reflect approximately $16,000,000 so far received by Eastern from other airlines participating in a mutual aid agreement which provides partial reimbursement for strike losses.

Eastern was grounded by a strike of flight engineers from June 23 to Sept. 12, 1962. The mutual aid agreement, while in effect, is still awaiting final approval by the Civil Aeronautics Board.

The reported net losses, excluding mutual aid payments, is equivalent to $7.28 per share on 3,234,616 shares outstanding as of Sept. 30. This compares with a net loss from operations of $10,374,000 or $3.21 per share for the same period of 1961, when earnings were also adversely affected by a flight engineers' strike in February of that year.

Because of the strikes, 1961-1962 figures for such items as operating revenues and expenses, seat miles operated and load factors, are not comparable, the company said.—V. 196, p. 744.

Consolidated sales climbed to $5,779,401 for the period ending July 31, 1962 from $4,957,854 for the period ending July 31, 1961, an increase of 17%.

Net earnings per share for the year ending July 31, 1962, were 20 cents, compared to a deficit in the previous year of 18 cents. This shows a marked improvement, especially when taking into account expenditures for newly enlarged manufacturing facilities and continued product development for the company's new line of merchandise.

Emenee is a major manufacturer of musical toys, youth physical fitness equipment and electronic toys under the brand name of Emenee, and a complete line of adult electric chord organs under the brand name of American Audion.—V. 194, p. 2223.

Empire Financial Corp.—Net Up 30%—

The corporation's net earnings before appropriations to general reserves increased 30% in the first nine months of 1962 as compared with the like period of 1961, Samuel Oschin, President, reported.

For the nine months ended Sept. 30, earnings were $883,334 or $1.12 a share as compared with $672,741 or 85 cents a share in the like 1961 period. Per share earnings were adjusted to reflect the 786,651 shares currently outstanding.

The company's chief subsidiary, Empire Savings & Loan Association, reported gains approximating 50% in three major categories during the past 12 months, Mr. Oschin said.

Savings as of Sept. 30 stood at $30,189,978 as compared with $23,156,209 on Sept. 30, 1961; total assets were $45,929,001 as compared with $30,686,632 a year earlier; and total loans in effect were $37,378,269 versus $24,890,701.—V. 196, p. 318.

Engineered Plastics Container Co., Inc.—Net Up—

Earnings of Engineered Plastics Container for the fiscal 1963 first quarter, ended Sept. 30, increased to $7,498, which compares with a deficit of $995 for the comparable year-ago period, it was announced by Robert E. Marsh, President.

Net sales for the Anaheim-based manufacturer of industrial and commercial plastic products for the first quarter rose to $149,353, versus $33,682 a year earlier.—V. 196, p. 1345.

Equity Capital Co.—Earnings Up 400%—

A four-fold increase in net earnings during its second fiscal year was reported in the company's annual report to shareholders.

According to Harry J. Klein, President of the Minneapolis-based real estate financing firm, Equity Capital's net earnings after taxes for the fiscal year ending Aug. 31 totaled $219,911.

This is equal to 81.3 cents per share, compared to first year earnings of $51,638, or 19.1 cents per share.

Earnings retained by the company, he said, now total $271,549 and Equity Capital's net worth exceeds $2,000,000. As a result of the company's second-year earnings, Mr. Klein said, a 4% stock dividend will be paid Dec. 3 to shareholders of record Nov. 2.

Equity Capital's working funds were increased by $750,000 during the past fiscal year through the sale of 8%, three-year subordinate debentures. The firm's outstanding receivables nearly doubled, climbing to $6,325,376 from $3,230,671.—V. 195, p. 318.

Esquire, Inc.—Net, Sales Higher—

Esquire has reported net income of $191,122 for the first six months of its current fiscal year, for the period ending Sept. 30. This compares with a loss of $34,330 incurred during the same period last year, as a result of operating losses and suspension costs of Coronet Magazine.

The diversified publishing company's sales volume for the first six months came to $9,922,645, in contrast with sales a year earlier of $9,160,000, excluding revenues of Coronet Magazine, or $12,439,272 including Coronet.

A. L. Blinder, President of Esquire said "We have finally removed Coronet's restraining effect on the profitability of the company and its many successful new divisions. The current balance sheet is now a more accurate reflection of Esquire's operations." Mr. Blinder reported that all divisions are operating profitably, showing gains in sales and earnings over the similar period in 1961.—V. 196, p. 1978.

Eurofund, Inc.—Assets Down 15.7%—

Eurofund, the closed-end investment company specializing in European growth securities, has reported that net assets on Sept. 30, 1962 were $29,668,365, or $18.09 on each of the 1,640,000 U.S. shares then outstanding. These figures compare with $35,199,307, or $21.28 per share on Dec. 31, 1961, and $33,965,598, or $20.54 per share on Sept. 30, 1961 based on 1,653,750 shares outstanding on both these dates.

Eurofund's September report to shareholders discloses that net assets remained relatively unchanged (down less than 1%) for the June-September period. From January through September, U. S. security values, as measured by the Dow Jones Industrial Index, and European stock prices as measured by the Eurosyndicat Index have dropped 20.9% and 20.4%, respectively. Eurofund's net assets for the same period declined only 15.7%, reflecting the basic strength of certain portfolio securities and the maintenance of a favorable liquid asset position. As of Sept. 30, short term U. S. and British obligations and cash represented 19.3% of Eurofund's total net assets.

The quarterly statement notified shareholders that Eurofund may increase to an aggregate amount not exceeding $1.2 million the purchases of its common stock at market prices lower than net asset value. This includes 13,700 shares already bought and presently held in Eurofund's treasury. The previous limit, set forth in a July notice to stockholders, was $1 million.—V. 195, p. 1923.

Gamma Leather Goods Corp.—Units Offered—

Pursuant to a Nov. 14, 1962 prospectus, Hampstead Investing Corp., New York, offered publicly, 75,000 units of this firm's securities, each unit consisting of one share of common stock and one warrant, at $4.75 per unit. One warrant entitles the holder to purchase one common share for a period of five years at prices ranging from $4.75 to $6.75.

Net proceeds, estimated at $282,625, will be used to acquire and equip new and expanded plant facilities, retain additional sales personnel, and increase working capital.

BUSINESS—The company, of 288 Plymouth Ave., Fall River, Mass., designs, manufactures and sells a popular priced line of ladies' handbags and related items.

In 1945, Irving Levine founded Gamma Leather Goods Co., a sole proprietorship engaged in the design, manufacture and sale of popular priced ladies' handbags. The sole proprietorship was acquired by Gamma Leather Goods Co., Inc. in 1948 which continued the business previously done by the sole proprietorship. In 1951, Crest Bags, Inc. was organized to engage in the design, manufacture and sale of a line of slightly higher priced ladies' handbags. When the venture into the line of medium priced ladies' handbags proved unsuccessful, Crest ceased manufacturing operations and was devoted exclusively to assisting in the sale to jobbers of low priced ladies' handbags designed and manufactured by Gamma.

In 1951, Gamma introduced to its shoe chain customers what was then a new policy concept in the low priced ladies' handbag field —namely, the style coordination of ladies' handbags with popular priced ladies' shoes, so as to make available to chain stores and shoe chains, ladies' handbags specifically designed and coordinated for sale with their shoes in volume.

This has led to the development of a close and continuous working relationship over the years between the company and its principal customers. The company has no material contracts with its principal customers.

General Railway Signal Co.—Sales Up, Net Down—Proposed Merger—

Consolidated net earnings of the company during the third quarter of 1962 were $454,991 or 34 cents per share, on sales of $8.1 million it was announced by Mr. P. W. Smith, President. This compares with $459,892, or 35 cents per share, on sales of $7.9 million during the corresponding period in 1961. Net earnings from operations for the nine month period were $1.08 per share on sales of $25.3 million versus $1.28 per share on sales of $26.7 million during the comparable 1961 period.

As the result of a higher operating rate in railway signaling business, third quarter earnings from this segment were somewhat improved over the corresponding quarter of 1961. However, this gain was approximately offset by declines in the operating results of Regina Corp. and Budelman Electronics Corp.

On Sept. 25, the company, announced a plan to combine with the privately-held Edwards Co. of Norwalk, Conn. Subject to clearance of certain tax and legal matters, this transaction should be completed before year-end. It will involve the exchange of a net of 127,006 shares of GRS common stock for all of the outstanding common stock of Edwards Co. 23,092 shares of $50 par 6% preferred stock of Edwards, a total of $1,154,600, will remain outstanding in the capital structure of that company. Also, subject to GRS stockholder approval at a special meeting to be called for that purpose, it is planned that the GRS corporate name be changed to General Signal Corp.

Like GRS, Edwards has specialized in signaling, control, communication, and protection, but in different markets. Founded in 1872, Edwards serves the institutional, industrial, and residential building markets and, in its overall product categories, is the dominant company in its field. "We believe that, by augmenting Edwards' product development capabilities with those which now exist within the GRS group, we can speed the flow of new products into the outstanding distribution system Edwards Company has built over the years," Mr. Smith stated.

In addition to its headquarters and plant at Norwalk, Edwards operates a plant at Pittsfield, Maine and owns Edwards of Canada, Ltd., at Owen Sound, Ontario.—V. 196, p. 1346.

General Spray Service, Inc.—Acquisition—

General Spray Service, the world's largest lawn and garden spray service, has acquired American-Marsh Pumps (Canada) Ltd., Stratford, Ont., a manufacturer of fire-fighting equipment, it was announced by Everett Crosby, chairman of the board of General Spray.

General Spray acquired 100% of American-Marsh Pumps' stock for an undisclosed amount of cash. The Canadian company will be operated as a manufacturing subsidiary of General Spray.

American-Marsh Pumps, which has been in business for 15 years, manufactures a complete line of fire engines, ranging from standard pumpers to custom units with aerial ladders and other special equipment. "We have the only aluminum aerial ladder equipment supplied in Canada," Mr. Crosby said in announcing the acquisition.

"We will continue to manufacture fire-fighting equipment at American-Marsh Pumps, and we will also manufacture spraying equipment and equip trucks for General Spray there," Mr. Crosby said.—V. 196, p. 1659.

Georgia-Pacific Corp.—Proposed Capital Increase—Debt Refinancing—Acquisitions—

Stockholders are to vote Dec. 18, in Augusta, Ga., on proposals to increase authorized common from 7,500,000 to 12,500,000 shares and to create 100,000 shares of new 5½% preferred ($100 par) and 31,703 shares of a new 5% convertible preference stock (par $100).

If approved the stock would be used to acquire Vanity Fair Paper Mills, Inc., of Plattsburgh, N. Y., and Lianga Bay Logging Co., of The Philippines.

The company would also refinance a $220,000,000 loan from a group of banks and insurance companies. The proxy statement said, "It is contemplated that the formal loan agreements will be entered into and the borrowings effected thereunder on or about Dec. 20, 1962."—V. 196, p. 429.

Gerber Products Co.—Sales Higher—

Following a meeting of the board of directors, Dan Gerber, President of Gerber Products, announced consolidated sales of $84,625,899 for the six months ended Sept. 30, 1962. This is an increase of $9,373,230 over sales of $75,252,669 for the same period a year ago.

Consolidated earnings of $4,877,365 were reported for the six months period. This is $370,650 more than earnings of $4,506,715 for a year ago. Earnings per share of common stock are $1.15 for the present period as compared to $1.06 a year ago.

Taxes on income for the six months ended Sept. 30, 1962, are estimated at $5,954,000 as compared to taxes of $5,213,000 for the same period last year.—V. 196, p. 537.

Giannini Controls Corp.—Merger Approved—

On Nov. 20, stockholders of Powertron Ultrasonics Corp., Plainview, N. Y., voted to consolidate with Giannini Controls and the transaction has been concluded, it was announced by GCC president Donald H. Putnam.

"Powertron Corp. is operating as a wholly-owned subsidiary of Giannini Controls, with William G. McGowan, former president of Powertron Ultrasonics, as president of the new subsidiary," Mr. Putnam said. "Other officers also have been retained in the positions they held with the predecessor company."

"Powertron provides GCC with a firm position in one of the fastest growing new technical markets: the application of ultrasonic techniques in the measurement and control of fluids, and in industrial processing," Mr. Putnam continued.

"The new GCC subsidiary provides missile fuel utilization systems, loading and tanking controls, submarine depth measuring devices, and other systems involving the control of fluids," Mr. Putnam said.

Powertron occupies a 21,000-square foot plant and employs more than 100 persons. The consolidation is based on the exchange of Giannini common and preferred stock for the business and assets of Powertron.

The ultrasonics company is Giannini Controls' third acquisition in the past two years. Conrac, Inc., Glendora, Calif., became GCC's Conrac Division in March of 1961, and Cramer Controls Corp., Old Saybrook, Conn., became the Cramer Division in May of the same year.

Giannini Controls consists of seven divisions which design and manufacture controls and systems for aerospace and industry, and closed circuit television equipment. In addition to Powertron, the company has another subsidiary, Datex Corp., Monrovia, Calif., which produces digital control systems.

GCC, traded on the American Exchange, had net income of $958,799, or 81 cents per share in 1961, and sales of $22,042,394 during the year.

Sales of the company for the first nine months this year were well ahead of the same period a year ago and reached a record high for the third quarter, but net income in both periods this year was below corresponding periods of 1961, E. J. Thomas, Chairman of the board, announced following a meeting of the Board of Directors.

Consolidated net sales for the first nine months of this year totaled $1,176,462,000, an increase of 7.2% over the $1,097,296,000 sales realized last year. Earnings for the first three quarters of 1962 amounted to $51,101,000, compared with $57,392,000 for the same 1961 period, a decrease of 11% and equal to $1.47 a share, as related to $1.65 for last year, both based on 34,801,018 shares of outstanding common stock.

For the third quarter of 1962, consolidated net sales rose to $393,502,000 from $371,144,000 in 1961, an increase of 6%. Net income for the quarter was $16,453,000, down from $18,920,000, a reduction of 13%.

Earnings for the first three quarters of 1962 amounted to 4.3% of sales, compared to 5.2% for the same period in 1961 and 4.5% in 1960.

Contributing to the decreased profits was the lower level of tire prices which has prevailed in the industry this year, Thomas stated. Effective Nov. 1, Goodyear announced prices ranging from 3 to 5% higher for its new line of replacement passenger and truck tires, all of which now contain Tufsyn, Goodyear's new longer-wearing synthetic rubber.—V. 196, p. 640.

Net profits before taxes, however, declined from $284,880 a year ago to $140,292 during the 1962 first half because of increased investments in an intensified dealer and sales program and higher production costs, Mr. Cohen explained to stockholders that Hilco Realty Corp.'s wholly-owned subsidiary, Equity Acceptance Corp., was formed during this six-month period and will not show any substantial activity until the third and fourth quarters.

Increased prices on Hilco manufactured homes also will bring higher profit margins during the last half of the fiscal year, Mr. Cohen added.—V. 196, p. 7.

BUSINESS—The company of Morristown, N. J., is an electric public utility furnishing service wholly within and organized under the laws of the State of New Jersey. It provides retail electric service to all or portions of 135 municipalities in the north central and east central parts of New Jersey comprising approximately 1,528 square miles or about 20.3% of the total area of the State. The company has approximately 264,000 residential customers and serves an estimated population of 838,000. It also sells electricity at wholesale to four municipalities having an estimated population of 23,000.

The generating and transmission facilities of the company, and of New Jersey Power & Light Co., Metropolitan Edison Co., and Pennsylvania Electric Co., all of which are subsidiaries of General Public Utilities Corp., a holding company registered under the Public Utility Holding Company Act of 1935, are interconnected and are operated as an integrated and coordinated system. Major facilities of the integrated system are designed and installed on an over-all system basis in an effort to realize the capital and operating economies resulting from larger-size units as well as the maximum economic utilization of the relatively low cost fuel of central and western Pennsylvania to the extent consistent with the protection of local area service requirements. This policy leads to a relative concentration of the steam generating capacity for the integrated system in the Pennsylvania Electric Co. territory where low cost fuel is available.

In addition to being interconnected among themselves, the electric transmission facilities of the integrated system are also physically interconnected with neighboring non-affiliated utilities in Pennsylvania, New Jersey, Maryland and New York and the system companies contemplate making additional interconnections in the near future. The existing interconnection facilities are used for substantial capacity and energy interchange transactions as well as emergency assistance and it is anticipated that such additional interconnections would be similarly employed.

Kentucky Central Life & Accident Insurance Co.—Nine Months' Report—

"Very substantial" gains during the first three quarters of 1962, with "record highs established in all areas of the company's operations," were reported by the company.

President Garvice D. Kincaid disclosed that premium income of the Anchorage-based insurer rose to $10,668,191 during the nine months ended Sept. 30, an increase of 11.7% over the same period in 1961.

Other operating figures reported by Kentucky Central for the first three quarters: life insurance in force, up from $280,833,240 to $350,680,510, an increase of 24.9% since Dec. 31, 1961; assets, up from $32,125,341 to $35,938,895, an increase of 11.8% since Dec. 31, 1961.

At the same time, Mr. Kincaid stated that Kentucky Central's investment income for the nine-month period jumped to $1,036,257, "indicating a probable increase of nearly 13% for the full calendar year."

He emphasized that the nine-month report does not reflect the company's latest acquisition—purchase and merger of the Gulf States Life Insurance Companies, of Birmingham, and Atlanta—which was concluded on Oct. 17. These companies had assets of more than $5,500,000, annual premium income of $3,000,000 and life insurance in force of approximately $75,000,000.

Commenting on Kentucky Central's showing in the first nine months, Mr. Kincaid said that "even without additional acquisitions, we are confident that Kentucky Central next year will join that elite group of life insurance companies in the United States having more than $500 million of insurance in force." During 1961, only 131 of the nation's 1,500 life companies had more than $500 million of life insurance in force.

When Mr. Kincaid became chief executive officer of the company in mid-1959, Kentucky Central had only about $150,000,000 life insurance in force.—V. 196, p. 746.

Consolidated net earnings after reserve for Federal and foreign income taxes, and after reserve for foreign activities climbed sharply to $11,549,000, equal to $1.77 per share for the first nine months of 1962, Herbert L. Barnet, President, reported.

This compares with 1961 earnings of $11,014,000, or $1.69 per share for the corresponding period.

Mr. Barnet emphasized that Pepsi's record-breaking nine months' profit performance was registered in spite of mediocre, cool and wet weather which blanketed most of the nation in the third quarter.

The Pepsi-Cola President declared that by maintaining its present accelerated marketing pace, the company would enjoy the greatest earnings and sales year in its history.—V. 195, p. 2382.

Peoples Gas Light & Coke Co.—Acquisition—

On Nov. 14, the company formally acquired control of North Shore Gas Co. and that company will be operated as a subsidiary of Peoples Gas.

At First National Bank of Chicago, 688,040 shares of Peoples Gas capital stock were deposited with bank officials for mailing to North Shore common stockholders in exchange for 916,799 shares, about 91% of the outstanding common stock of North Shore. The exchange ratio is three-quarters of a share of Peoples Gas for each share of common stock of North Shore.

Peples Gas said that the expiration date of the offer has been extended to Dec. 14, as a convenience to stockholders of North Shore who were not able to make the exchange within the original time limit.—V. 196, p. 1662.

Net proceeds, estimated at $290,000, will be used for sales promotion, equipment, construction, and working capital.

Y., was incorporated in March, 1961, under the laws of the State of New York for the purpose of acquiring all of the capital stock of Orbital Systems Corp., a Delaware corporation organized in December, 1960, and for the purpose of continuing the research and development activities of Dr. Roland C. M. Beeh, which he previously conducted at his laboratory at Walker Valley.

The corporation is engaged in research and development primarily in the field of electroluminescent—photoconductive devices employing micro-miniaturized circuits by the use of thin film techniques. Another area of emphasis is in the development of components, including motors, to be used in research and manufacturing processes carried on under ultra high vacuum conditions. Plymouth Cordage Co.—Record Sales—

The company has reported that dollar sales for the fiscal year ended Sept. 30, were the highest in the company's 138-year history and net earnings the highest on record except for 1950.

The annual report to shareholders, now in the mail, disclosed that consolidated net sales for fiscal 1962 totaled $53,882,694, compared with $52,214,800 the year previous and with the latest 10-year average of $33,129,852.

Consolidated net profits in 1962 rose 12% to $1,871,439, from $1,674,834 the year before, and compared with the 10-year average of $1,282,083. Latest earnings were equal to $6.81 a share, up from $6.15 in 1961, based on 274,644 shares now outstanding.

The recent improvement in sales and the even greater increase in net earnings are largely the result of the company's policy of product diversification since 1956, when total sales were $26,725,957, and net profit was $4.61 a share.—V. 196, p. 1448.

Power Corp. of Canada, Ltd.—Quebec to Nationalize Subsidiaries—

In a letter to stockholders, P. N. Thomson, Chairman and President, stated:

"In my address to shareholders at the special and annual meeting on Oct. 15, 1962, I stated that the Quebec Government had called a provincial election for the express purpose of seeking a mandate from the electorate to expropriate the principal privately-owned hydro-electric utilities in the Province of Quebec. On Nov. 14 the Quebec Liberal Government was re-elected by a decisive majority. When the election was announced on Sept. 19, 1962, Premier Jean Lesage said:

'Shareholders of these companies will receive fair compensation, to be fixed in taking into strict account the legitimate interests of the shareholders and the taxpayers. This compensation shall be subject to final determination by the courts.' The Premier also stated that legislation would be passed for the nationalization of only the electricity undertakings of the 11 power companies. With reference to employees of the power companies the Premier stated: 'Employees of these companies will become employees of Hydro-Quebec, and shall not lose either their rank or their acquired rights.'

"It therefore appears that after the enabling legislation has been passed the 11 investor-owned power companies, including Northern Quebec Power Co. and Shawinigan Water & Power Co., in which your company has substantial investments, will be expropriated and become part of the provincially owned hydro system.

"For your additional information I quote below from a release by the Shawinigan Water & Power Co. in its Stockholder News:

'Your company some time ago engaged experts in the field of electric utility appraisal with a view to establishing a fair value for the company's electric properties. Such appraisal is essential in order to arrive at fair compensation to the shareholders which, as above note, has been promised by the government.

'On behalf of our directors, we wish to assure all shareholders, that they will be informed fully and promptly of all developments in respect to their company. Meantime, the company will continue to provide its high standard of service to customers and will make every effort to protect the interests of employees and shareholders.'

"The Power Corp. Board proposes to cooperate towards an expeditious settlement with the Quebec authorities provided, of course, that it will take into account the well established principles relating to the equitable expropriation of privately owned utilities by governmental authorities."—V. 194, p. 1427.

Pure Oil Co.—New Product—

The company is introducing a new type of rust-proofing compound for auto under-bodies that is gaining wide acceptance among its service station dealers.

Called "Pure-Tect," the product provides complete protection against corrosion and even stops rust after it has already started. One reason for its popularity by Pure dealers is the small cash outlay required to make the service available—$25 worth of equipment to apply the compound, compared to about $100 to $400 for other methods. Pure Oil developed the product during two years of research, and aided in development of the special low-cost guns used to apply it.—V. 196, p. 791.

Purity Stores, Inc.—Net Down—

Earnings for Purity Stores during the thirty-six weeks ended Sept. 8, 1962 wer $171,092 or 24.7 cents per share, it was reported by Mr. J. R. Niven, president and chief executive officer of the large California food chain.

Last year's earnings were 27.4 cents per share or $189,827 which was slightly more than the current cumulative earnings. However, in the second and third quarters of 1962, the company and its operating subsidiaries (as distinguished from the realty subsidiaries) have made a definite recovery from the very poor first quarter's results for each of the twelve-week periods.

Purity sales are also indicative of Purity's new trend. Sales for the first thirty-six weeks of 1962 were $72,338,718. This represents a small gain when compared to $72,158,277 obtained for the like period of 1961.—V. 195, p. 2598.

The bonds are the direct obligation of the Most Reverend Thomas Gorman and of his successors in office.

Proceeds will be used to refund outstanding indebtedness in the amount of $4,300,000, and provide funds for the construction of a new high school.

They said net income for this period was $138,125,000 or $1.83 per share, after provision of $132,300,000 for estimated Federal income taxes. Net income for the first nine months last year was $128,202,000 or $1.70 per share, after allowing for Federal income taxes of $119,700,000.

The company also provided for a contribution of $30,700,000 to The Savings and Profit Sharing Fund of Sears, Roebuck & Co. Employees, compared with $28,490,000 in the same period last year.

Sears gross sales for the nine months ended Oct. 31 were a record $3,473,139,000, up 7.2% from last year's $3,241,324,000.—V. 196, p. 2125.

Seaporcel, Inc.—Name Change Effective—

On Nov. 19, 1962, the name of the company was changed to Investment Property Builders, Inc.—V. 196, p. 220.

Slick Airways, Inc.—Acquisition Approved—

At a special meeting in Washington, D. C., on Nov. 21, stockholders approved an agreement for Slick to acquire the business and assets of the Pulverizing Machinery Division of Martin-Marietta Corp., D. W. Rentzel, Slick's Chairman and President, announced.

The purchase agreement is also subject to approval or waiver of jurisdiction by the Civil Aeronautics Board, because of the company's Slick Airways Division. When the transaction is closed, it will be effective retroactive to Sept. 30, 1962.

Payment to Martin will be 400,000 shares of Slick common stock, plus warrants for an additional 300,000 shares. The warrants entitle Martin to purchase 150,000 shares within five years at $8 per share and the remaining 150,000 shares in the ten years at $10 per share.

Pulverizing Machinery, which will operate as a Slick division, is engaged primarily in the manufacture and distribution of pulverizing machinery and dust collecting equipment. Its customers include the principal companies in the chemical, food, pharmaceutical, cosmetic, soap, colors, dyestuffs and pigments, and related industries, as well as research organizations. Included in the purchase is all of the stock owned by Martin-Marietta in two foreign subsidiaries which sell pulverizers and dust collectors in Europe and the United Kingdom.—V. 195, p. 1853.

(A. O.) Smith Corp.—Acquisition Planned—

The board of directors of the corporation, Milwaukee, Wis., at a special meeting authorized the purchase of the Clark Controller Co. of Cleveland, O., it was announced.

Clark Controller is a manufacturer of industrial electrical controls, including motor starting equipment, electric brakes and allied equipment. A. O. Smith is a large manufacturer of electric motors at Tipp City, O.

In making the announcement, L. B. Smith, president of A. O. Smith, said the transaction involved the purchase of the outstanding stock of Clark Controller at $16.75 a share. To bind the transaction, Mr. Smith said, 66⅔% of the 460,915 shares of Clark Controller stock must be deposited in proper form with the National City Bank of Cleveland not later than noon Wednesday, Dec. 5.—V. 193, p. 2262.

Southern California Edison Co.—Appointment—

Stanray Corp.—Sales Up 22%—

Consolidated sales of Stanray for the nine months ended Sept. 30, 1962, amounted to $20,946,000, an increase of 22% over sales of $17,172,000 in the like period of 1961, President R. Arthur Williams reported to shareholders.

Consolidated net earnings for the period totaled $466,000, equal to 38 cents per outstanding share of common stock. A net loss of $620,000 was reported for the first nine months of 1961.

Results for the first nine months this year reflect the progress made in reducing costs at all levels of operations, said Mr. Williams. The cumulative effect of this profit improvement program, started more than a year ago, is asserting itself in current operations and will have an even more favorable effect on the earnings of future periods, he added. Results for the third quarter were adversely affected principally by the seasonally low period of boat sales characteristic of the Traveler Division.

The fourth quarter outlook is much more promising, said Mr. Williams. It is now expected that a profit will be reported for that period and the profit for the year as a whole will contrast with the loss of $1,425,402 experienced in 1961.

The backlog of orders at Sept. 30 totaled $8,666,000, an increase of 6% over the June 30 figure.—V. 196, p. 583.

Complete and exact details for the week covered by the foregoing will appear in our issue of next week. We cannot furnish them today, inasmuch as the week ends Saturday and the Saturday figures are not available at time of going to press. Accordingly, in the above the last day of the week in all cases has to be estimated.

In the elaborate detailed statement, however, which we present further below, we are able to give final and complete results of the previous week—the week ended Nov. 17. For that week there was a decrease of 3.1%; the aggregate clearings for the whole country having amounted to $30,521,231,886 against $31,508,596,490 in the same week in 1961. Outside of this city there was a loss of 3.2%, the bank clearings at this center showing a decrease of 3.1%. We group the cities according to the Federal Reserve Districts in which they are located and from this we note that in the New York Reserve District the totals show a decline of 3.0%; in the Boston Reserve District of 11.7%, and in the Philadelphia Reserve District of 11.9%. In the Cleveland Reserve District the totals are smaller by 2.7%, and in the Richmond Reserve District by 6.7%, but in the Atlanta Reserve District the totals are larger by 4.2%. Stylon Corp.—Sales Higher, Net Down—

Slightly higher sales for the first three quarters this year were reported by Stylon, with slightly lower earnings than for the corresponding period a year ago.

The Massachusetts-based ceramic tile manufacturer released sales figures of $8,717,835 for the nine months ended Sept. 30, compared with $8,637,185 for the same period last year.

Earnings for the three quarters were $377,567, equal to 17 cents per share on 2,170,973 shares outstanding, against $445,887, or 21 cents a share on 2,168,642 shares outstanding last year. Net income for 1962's third quarter was $142,920, or six cents a share, compared with $167,436, or eight cents a share in 1961. Sales for the third quarter were $2,950,917, about the same as the $2,957,041 recorded for the like period of 1961.

Stylon President Joseph Mass said that he expected fourth quarter earnings to approximate those of the third quarter because 1962 housing starts are predicted at a robust 1,425,000 level by the U. S. Dept. of Commerce—a level which he said was "considered conducive to good tile business."—V. 196, p. 1814.

Super Food Services, Inc.—Sales Up 39.9%—

A new annual sales peak of $189,445,409, an increase of 39.9%, or $54,069,204 over the fiscal year of 1961, was announced by Douglas A. Grimes, President of this Chicago-based wholesale grocery operation.

Mr. Grimes further pointed out "The company's Detroit acquisitions in 1962 accounted for $42,236,000 of the sales increase, the remaining divisions of the organization produced the balance of $11,834,000 of the record sales figure.

"The company's net income was reduced to 43 cents per common share, compared to 59 cents per common share last year, due primarily to expenses involved in absorbing inventories, installing new systems in the two Detroit organizations acquired during the past year. Net income was $544,998 in 1962 and $667,512 in 1961."

In closing, the President said: "The company is now in its strongest financial condition. Current working capital aggregates $6,677,784, the highest in the company's history."—V. 195, p. 262.

Superior Electric Co.—Sales, Earnings Higher—

The company has announced that net sales for the nine months ended Sept. 30 were $9,716,610 as compared with $8,543,009 in the same three quarters of 1961, an increase of $1,173,601.

Net earnings were $463,738 in the first nine months, compared with $330,229 in the same period of last year; an increase of $133,509. Earnings per share in the first three quarters increased from 43 cents last year to 60 cents this year.—V. 196, p. 685.

(James) Talcott, Inc.—Comment on Factoring—

The company expects factoring to have its best year since the company was founded more than a century ago.

Thomas J. McGann, senior Vice-President and manager of the Factoring Division, estimates Talcott's factoring volume will surpass $500 million in 1962.

Talcott, founded in 1854 as a sales agency for New England textile mills, reported a factoring volume of $462 million in 1961.

Factoring volume for the first 10 months of this year, Mr. McGann says, was $445 million, a 16% increase from the $385 million for the comparable 1961 period.

As a factor Talcott buys outright a client's accounts receivable and does the necessary credit checking, bookkeeping and collecting. The service, provided on a fee basis, gives the customer credit protection and reduces his need for extensive credit and collection departments.

Mr. McGann cites several reasons for the growth of Talcott's factoring from $305 million in 1957 to an estimated $500 million-plus this year.

"While factoring traditionally has been rooted in the textile industry," he explains, "the service has been moving into non-textile fields, such as electronics, toys and plastics. We expect this trend to continue."

About 70% of Talcott's current factoring volume is in textiles, Mr. McGann says, as compared with 90% five years ago.

"This 70%, however, represents a higher dollar volume of textile factoring than the 90% of five years ago," he says. "We've broadened our base and at the same time increased our textile factoring business."

Another reason for the Factoring Division's growth, Mr. McGann says, has been Talcott's expansion program which, since 1958, has added eight regional offices from coast-to-coast and affiliates in Montreal and San Juan, Puerto Rico.

"The regional offices have developed substantial factoring volume thus far," he says, "and we expect more business from them next year."—V. 196, p. 1705.

The company has announced that it has completed the purchase of Conley Electronics Corp., Evanston, Ill., manufacturer and distributor of endless loop magnetic tape cartridges and background music equipment, for approximately $1 million.

Irving B. Kahn, Chairman and President of TelePrompTer, said Conley Electronics will operate as a wholly-owned subsidiary retaining its present management.

He said both companies will benefit by combining interest in the field of electronic communications, particularly in view of TelePrompTer's interest in a radically new tape-handling technique it has developed and expects to make the basis for consumer and industrial products.

In a related transaction, TelePrompTer also completed refinancing of its long-term debt by means of a 6% six-year loan of $2.4 million from the Continental Illinois National Bank & Trust Co. of Chicago.

Conley Electronics, established in 1960, manufactures the Fidelipac automatic tape cartridge, a patented tape-in-magazine system providing continuous play without rewinding for such uses as broadcast automation, background music, language teaching, audio-visual systems, industrial training, data storage and message repeating. —V. 196, p. 1148.

Dowdle, President. The estimated gross oil and gas sales for the year ended June 30, 1963, could show further gains through new well acquisitions, new producing wells and an active wildcat drilling program, he added.

Australian Oil Corp., an affiliate company of Texas American, has let a drilling contract and a rotary rig is being moved in on a 4,000 feet wildcat test well on its 3,000,000 acre concession in South Australia, Australia. The new test well is located in the Murray River Easin and approximately 145 miles northeast of Adelaide, the capitol of the State of South Australia. The drill site was selected on the basis of seismic, gravity and aeromagnetic surveys in conjunction with surface geological data. For the nine months ended Sept. 30, 1962, gross revenues totaled $20,146,000, a 13% increase over gross revenues of $17,834,000 registered in the first nine months of 1961. Louis Rieben, Chairman, and Milton R. Schulte, President, in releasing the report, noted that "the gain in dollar sales reveals continuing good demand in major product areas."

"However," they noted, "the pressure on selling prices which has been affecting the tube and semiconductor industries for more than a year, was exerted on automotive products starting in the second quarter with the resultant shrinkage of profits."—V. 196, p. 476.

During the first three quarters of 1962 the United System earned $5,917,584, or $1.14 a share, up from $5,102,151, or 99 cents a share for the first nine months of last year. Gross operating revenues for the same period were $40,983,659 in 1962 as compared to $37,510,744 in 1961.

For the year ending Sept. 30, earnings per common share increased by 13% from $1.34 in 1961 to $1.51 this year on a greater number of shares outstanding. Operating revenues were up 8% for the 12-month period from $49,895,926 last year to $53,964,093 in 1962.

Fourth quarter earnings are expected to reflect the steady increases of the past five years, Mr. Scupin said. Earnings for 1962 will be the highest in the company's history.—V. 196, p. 1192.

Vanadium Corp. of America—Sales, Net Down—

Sales of Vanadium Corp. for the nine months ended Sept. 30, 1962, were $38,085,635 and net loss, after non-cash charges of $2,163,329 for depreciation and depletion, was $125,037. Net sales in the like 1961 period were $38,135,821 and net loss was $109,602. Third quarter net sales were $10,437,001 and net loss was $321,547. Net sales in the like quarter last year were $13,191,935 and net loss was $231,843.

These operating results are cited by G. LaMonte Weissenburger, Chairman and President, in the interim report to stockholders. Mr. Weissenburger says that demand and prices for ferroalloys in the third quarter continued under the pressure of further declines in production levels of stainless and other alloy steels, as well as continued inventory liquidation by steel users. On the basis of alloy prices prevailing in late 1961, he observes, the company's dollar sales for the first nine months this year would have been substantially greater and a moderate profit would have been earned on the common stock even though an altered product mix prevented the most effective utilization of producing facilities. He added that reductions effected in administrative and other expenses are obscured in the current financial statement by the inclusion of pension and other charges which were inapplicable or offset by credits a year ago. He cited the closing of the company's Vancoram plant for over a month because of a strike starting August first. —V. 196, p. 793.

Welch Scientific Co.—Sales, Net Higher—

The company has reported $718,000 net income, or 40 cents per share, for the quarter ended Sept. 30, compared with $516,000, or 29 cents a share, for the 1961 period. Sales totaled $5,734,000 compared with $5,396,000 a year earlier.

"Gains in our vacuum pump business continue to be particularly encouraging," M. W. Welch, President, told shareholders. Greater operating efficiency resulting from consolidation of manufacturing at the company's new plant in Skokie, Illinois, contributed to the improvement in third quarter earnings, according to Mr. Welch.

The company is proceeding with plans to apply for listing its shares on the New York Stock Exchange. Listing is expected to become effective the early part of 1963, shareholders were advised. —V. 196, p. 687.

Westland Capital Corp.—Net Higher—

Westland Capital, Los Angeles, has reported net income of $28,969 for the six months ended Sept. 30, 1962. This was in contrast to a net loss of $42,675 for its first fiscal year ended March 31, 1962. The small business investment company was incorporated on Sept. 8, 1961.

"Westland has invested $2,000,000 in seven companies from among approximately 300 firms considered during the first six months this year," William Goetz, Chairman of the Board, said.

"About $8,000,000 of our capital," he said, "remains available at a time when opportunities for profitable investment are increasing."

Two of the seven investments committed during the first half were not completed until early October and thus are not reflected in the financial results for the first six months, according to the Westland Board Chairman.—V. 196, p. 477.

Reported net earnings for the period were after a special non-recurring, non-operating expense of $137,059 incurred by the company's Merkel Meats Division.

L. R. Thornton, President, told stockholders that he anticipates "a continuation of generally stable business conditions, and further increases in the company's operating profits in the fourth quarter."

The dredging and construction activities of the New Orleans based firm continued at a high level through the third quarter. The backlog of jobs, in progress or uncompleted, at the start of the fourth quarter, stood at $5,400,000 compared with $2,800,000 at the same time in 1961. The company was also awarded new contracts in excess of $2,500,000 early in October.—V. 196, p. 687.

(Howard B.) Wolf, Inc. — Common Offered — On Nov. 20, 1962, Eppler, Guerin & Turner, Inc., Dallas, and associates offered publicly 120,000 shares of this firm's $1 par common stock at $9 per share. The offering was oversubscribed.

Of the total, 70,000 shares were sold by Mr. Howard Wolf, President, and 50,000 by the company.

Net proceeds to the company will be used to repay note indebtedness, increase inventories, expand advertising, strengthen the new consumer marketing department, and provide additional working capital.

BUSINESS—The company of 3809 Perry Ave., Dallas, was organized in 1952. Howard B. Wolf acquired all of its outstanding stock in September, 1956. From that date until July, 1962, the company manufactured junior dresses, suits and sportswear, selling its products to another corporation, also wholly owned by Mr. Wolf, which designed the dresses, suits and sportswear and conducted selling operations, using the Howard Wolf label. In July, 1962, these two corporations were merged and their operations were integrated into the present corporate structure.

The company manufactures and sells junior dresses and suits in sizes 3 through 15 which are intended for the 18 to 26 year age group. The dresses are divided into four seasonal lines: spring, summer, fall and holiday, each of which presently includes approximately 60 different styles. The company plans its selling operations so that no great disparity exists as to the volume of sales made during any particular season. The company's dresses and suits, sold primarily under the label Howard Wolf, are designed and manufactured to sell in the average retail price range of $20 to $40. During the fiscal year ended May 31, 1962 approximately 90% of its sales was accounted for by dresses and the balance by suits.

Wurlitzer Co.—Sales Down 7%; Net Higher—

R. C. Rolfing, President, has reported that sales for the second quarter (July, August and September) were $8,791,497, down 7% from the same period a year ago. Sales of civilian products for the quarter were greater than a year ago, while sales of defense items were less. Net earnings for the second quarter were $175,970, equal to 20 cents per share on 891,687 shares of common stock, compared with net earnings of $107,622 or 12 cents per share on 890,291 shares for the same period last year.

Sales for the first six months of the current fiscal year (April to September inclusive) were $15,617,919 compared with $16,135,126 for the same period a year ago. Net earnings for the first half of the current fiscal year were $46,014, compared with a net loss of $49,588 for the corresponding period last year.—V. 195, p. 2747.

Zero Manufacturing Co.—Record Sales, Net Down

Sales for the six months ended Sept. 30, 1962 totaled a record $6,235,000, up from $4,158,000 at the same time last year, President John B. Gilbert reported. Net income totaled $141,000, or 15 cents per share, based on 923,874 shares, the average number outstanding for the period, as compared to 1961 fiscal half income of $202,000 or 22 cents per share on 917,919 shares.

The record sales are due, Mr. Gilbert said, to a general upturn in business and to inclusion of the sales of Western Devices, Inc., which was purchased on June 28, 1962. Profits were held back, he reported, by loss of production in the Zero-Eastern plant during the move from Palmer, Mass., to Monson, Mass., which was completed last month, and by tooling, engineering and start-up costs on a $635,000 prime contract from Frankford Arsenal. The balance of the Frankford contract and any additional units are expected to result in a normal profit, he said.—V. 196, p. 899.
