Concordance of Statistics Available in Selected Federal Reserve Publications

This publication serves as a guide to the reader who wishes to follow over time the data series published in the *Federal Reserve Bulletin* and the *Statistical Digest*.

Unless otherwise noted, the tables in the *Federal Reserve Bulletin* referred to here are published each month, and they contain the latest annual, quarterly, monthly, or weekly data available as of the date of publication. Changes in the form or content of tables during 2000 have been noted.

Because the frequency of the data shown may vary among the publications listed, the frequencies for each table are shown in parentheses, as are other pertinent differences.

Because the sequence is established by the order of the *Bulletin* tables, the table numbers for the *Digests* are not necessarily consecutive.

Footnotes appear at the end of the *Concordance*.
