## TABLE OF CONTENTS.

Page.
Repart submitted to Congress ..... 3
Operations under the national banking system during the past year ..... 3
Statements of national banks organized during the year ..... 4
States leading in numerical accessions ..... 4
Number and capital of banks organized and closed since establishment of the system ..... 5
Failure of banks and bankers other than national ..... 6
Losses to creditors of national banks, and cost of liquidation. ..... 8
Amendments to present law ..... 9
Monetary stringency during past year ..... 9
Clearing-house loan certificates ..... 12
Domestic exchanges ..... 16
Amount of drafts drawn by national banks ..... 17
Domestic exchanges drawn by banks other than national ..... 23
Examinations ..... 24
Certificates of stock ..... 29
Otticers and directors as borrowers. ..... 30
Bonds of bank officers ..... 32
Closed national banks ..... 34
Resumption of business by closed national banks ..... 35
Comparative statements of the national banks ..... 38
Extension of the corporate existence of national banks ..... 41
Circulating notes ..... 43
Decrease of circulation ..... 44
Banks without circulation ..... 45
Security for circulating notes ..... 46
Interest-bearing funded debt of the United States, and amount held by national banks ..... 47
Bonded debt at dates named ..... 48
Market prices of United States bonds ..... 49
Investment value for seven years ..... 50
Bond purchases and redemptions by the Treasury. ..... 50
Bond withdrawals by national banks ..... 51
Issue and redemption of circulating notes. ..... 52
Additional circulation issued and retired during the year ..... 54
National-bank notes received and destroyed yearly since the establishment of the system ..... 55
Redemption of notes of banks reducing circulation, and of failed and liquidating banks. ..... 55
Tax upon circulation, redempion cliarges, and assessments. ..... 56
Amounts collected during the past year ..... 56
Loans in central reserve cities, other reserve cities, and country ..... 57
Failed banks ..... 60
Causes of failure ..... 61
Dividends paid to creditors of failed banks. ..... 69
Inactive recciverships ..... 70
Banks in voluntary liquidation ..... 70
Directors ..... 72
Legal decisions ..... 73
Transactions of the clearing-house associations ..... 74
State, savings, private banks, loan and trust companies ..... 79
Loan and trust companies of the District of Columbia ..... 83
Conclusion ..... 88
APPENDIX.

Names and compensation of offcers and clerks ..... 89
Expenses of the office for the fiscal year ..... 90
Index to digest of decisions of the courts in cases affecting national banks ..... 91
Digest ..... 83
National banks organized, in liquidation, and in operation, with capital, bonds, and circula- tion October 31, 1891 ..... 122
Summary of the state and condition of national banks reporting duriug the year ended October 2, 1891 . ..... 123
Comparative statemente of the national banks for fourteen years from $186 \pm$ ..... 124
Authorized capital stock each month from January 1, 1870, to November 1, 1891, with amount of bonds, circulation, and lawful money deposited for redemption ..... 125
Changes in capital, bonds, and circulation by geographical divisions. ..... 129
Additional circulation issued and lawful money deposited to October 31, 1891 ..... 134
National-bank notes outstanding and the amount and kind of United States bonds on deposit. ..... 135
Increase or decrease of circulation quarterly and for the year ended October 31, 1891 ..... 136
National-bank notes issued, redeemed, and outstanding, by denominations, since the establish- ment of the system ..... 137
National gold bank notes issued, redeemed, and outstanding ..... 140
National-bank notes issued during the year. ..... 140
Minimum amount of bonds required and the amount actually held September 25,1891 ..... 141
National banks with oapital of $\$ 150,000$, under and over, and the increase or decrease of capital during the year ..... 143-146
Classification of loans and discounts ..... 147
Amounts of coin and coin certificates beld in 1888, 1889, 1890, and 1891 ..... 148
Lawful money reserve ..... 154
Ltabilities and required reserve. ..... 156
State of the lawful money reserve from 1885. ..... 158
Reserve beld and classification by geographical divisions. ..... 160
Deposits, circulation, and reserve of national banks in New York City by months ..... 170
Movement of reserve of national banks in New York City for fifteen years ..... 171
Abstract of earnings and dividends, September 1, 1890, to September 1, 1891 ..... 172-179
Ratios of capital and surplus to earnings and dividends. ..... 180
Earnings and dividends for semiannual periods ..... 182
Clearings and balances of banks in New York City ..... 184
National banks in voluntary liquidation under sections 5220 and 5221, Revised Statutes ..... 185
National banks in liquidation succeeded by associations with same or different titles. ..... 196
National banks in liquidation for the purpose of reorganization ..... 197
National banks in liquidation under section 7 of the act of July 12, 1882. ..... 199
National banks in the hands of receivers ..... 200
Insolvent national banks, assets, collections, disbursements, expenses of receiverships, divi- dends paid ..... 208
Drafts drawn by national banks in the several reserve cities, year ended June 30, 1891 ..... 220
Drafts drawn by national banks outside of reserve cities ..... 222
Drafts drawn by banks in geographical divisions upon reserve cities, ete. ..... 226
Population of each State and Territory, with capital, surplus, deposits, etc., of all banks ..... 234
Abstract of reports of condition of State banks, loan and trust companies, savings and private banks ..... 236
Reports of condition of the National Savings Bank, The National Safe Deposit Company, The
Washington Loan and Trust Company, and The Ameriean Security and Trust Company of the District of Columbia ..... 250-253
Condition of the Canadian banks ..... 254
Aggregate resources and liabilities of national banks from 1863 to 1891 ..... 255-276
Summary of the state and condition of national banks on dates of report during past year ..... 277-327
General index ..... 329
Condition of each national bank at close of business September $\mathbf{2 5 , 1 8 9 1}$ ..... Vol. II

## REPORT

## THE COMPTROLLER OFTHE CURRENCY.

Department of the Treasury, Office of the Comptroller of the Currency, Washington, D. C., December 7, 1891.

SIR: I have the honor to submit for the consideration of Congress, in compliance with the provisions of section 333 of the Revised Statutes of the United States, the twenty-ninth annual report of the Comptroller of the Currency.

The year covered by this report ended October 31, 1891. During the larger part of this period severe depression was experienced in all sections of the country, and business in its various forms was contracted in volume and unsatisfactory in results.

At the opening of the report year the stringency which characterized the money market during the autumn of 1890 was at its height, its most disastrous effects having been felt during the month of November. A period of liquidation then set in which had hardly spent its force when the bountiful harvest of 1891 brought much needed relief.

Notwithstanding the unfavorable conditions indicated, 193 new banks were organized during the year, located in 41 States and Territories, and possessing an aggregate capital of $\$ 20,700,000$. The accessions are numerically in excess of the average and have been exceeded in only seven out of the twenty-nine years during which the system has been in operation. During this twelvemonth 41 banks went into voluntary liquidation and 25 became insolvent, leaving as a net gain for the report year 127 associations, with a capital of $\$ 12,553,000$, which is, as to number of banks, precisely the net average yearly increase during the life of the system.

The number of banks now in operation is greater than at any former period. There has been a satisfactory increase in the totals of capital stock, surplus fund, and undivided profits, and this is also true of deposits, loans and discounts.

The number of banks in existence October 31, 1891, was 3,694, having in capital stock $\$ 684,755,865$; bonds deposited to secure circulation, $\$ 152,113,850$; bank notes outstanding, $\$ 171,368,948$, including $\$ 35,430$,721 representing lawful money deposited to redeem circulation still outstanding. The amount of circulation secured by the pledge of United States bonds has increased during the year $\$ 11,795,101$.

The following table gives the number of banks organized during the year ended October 31, 1891, in cach State and Territory, with their aggregate capital:

| States and Territories. | No. of banks. | Capital. | States and Territories. | No. of banks. | Capital. |
| :---: | :---: | :---: | :---: | :---: | :---: |
| Texas | 17 | \$1,510,000 | Tennesseo. | 3 | \$450, 000 |
| Pennsylvania | 17 | 1,050, 000 | West Virginia | 3 | 285, 000 |
| Washington | 11 | 700, 000 | Georgia. | 2 | 300,000 |
| Illinois.... . | 11 | 2, 830, 000 | Colorado | 2 | 300,000 |
| Towa. | 11 | 775, 000 | Lonisiana | 2 | 100,000 |
| Nebraska | 10 | 910, 000 | Maine. | 2 | 125,000 |
| New York | 10 | 2,200, 000 | Michigan | 2 | 150,000 |
| Kansas. | 9 | 760,000 | New Mexico | 2 | 100,000 |
| Kontucky | 6 | 415,000 | Dtah.. | 2 | 100,000 |
| Maryland | 6 | 1,150,000 | District of Columbia | 1 | 200,000 |
| Minnesota | 6 | 300,000 | Alabama. | 1 | 50, 000 |
| Montana. | 6 | 515,000 | Arkansas | 1 | 50, 000 |
| Wisconsin | 6 | 450,000 | Idaho | 1 | 75, 000 |
| Missouri | 5 | 1,850,000 | Indiana | 1 | 100, 000 |
| Ohio. | 5 | 650,000 | Indian Territory | 1 | 50, 000 |
| South Dakota | 5 | 300,000 | Mississippi..... | 1 | 50,000 |
| Virginia. | 5 | 400, 000 | New Hampshire | 1 | 50,000 |
| Florida. | 4 | 200,000 | New Jersey. | 1 | 50, 000 |
| North Dakota. | 4 | 250,000 | Wyoming | 1 | 50,000 |
| Massachusetts | 3 | 350, 000 |  |  |  |
| North Carolina. | 3 | 150,000 | Total. | 193 | 20,700, 000 |
| Oregon.. | 3 | 350,000 |  |  |  |

It will be observed that Texas and Pennsylvania still stand at the head of the list, as they have during the past two years, with 17 new associations in each, Texas, however, having the larger capital. Following these come the States of Washington, Illinois, and Iowa with 11 banks each, and Nebraska and New York with 10 each. Kansas shows 9 new associations and ranks next to Nèw York. It will be observed that notwithstanding the fatality attending banking operations in Kansas and Nebraska these States take prominent places in point of new organizations.

Of the associations entering the system during the year, 99, or slightly more than one-half in number, are located west of the Mississippi River and 59 in the Southern States.

Of the total number of banks in operation Pennsylvania has the greatestnumber of associations, Massachusetts the greatestaggregate capital, and New York leads in amount of deposits.
The accessions to the system are widely distributed, both old and new States being prominent in the list. It will be noticed, however, that in proportion to population the increase is greater in the newer States west of the Mississippi River.

The following table exhibits the number of banks organized, failed, and in voluntary liquidation, and the net increase numerically each year since 1863:

Number and Authorized Capital of Banks Organized and the Numbrr and Caprtal of Banks Closed in tach Year ended October 31 since the Establishment of the National Banking System, witif the Yearly Increase or Decrease.

*One bank restored to solvency, making 3,694 going banks.
$\dagger$ The total authorized capital stock on October 31 was $\$ 684,755,865$; the paid-in capital, $\$ 683,248,175$, including the capital stock of liquidating and insolvent banks which have not deposited lawful money for the retiremant of their circulating notes.

The most notable feature of the foregoing table is the large number of associations which have become insolvent during the year. They aggregate 25 banks, with a capital of $\$ 3,662,000$. The year 1873 , however, appears to have been the most disastrous in point of capital, as during that period the failure of 11 banks, with a capital of $\$ 3,825,000$, is recorded. The next in point of importance was 1877, when ten failures occurred, representing a capital of $\$ 3,344,000$.

If we consider the relative proportions existing between the liabilities of failed and active banks during various periods, it will be found that seven years have been more disastrous than the one just closed, to wit: 1867, 1872, 1873. 1877, 1878, 1882, and 1884. The liabilities of banks closed on account of insolvency in each of these seven years constitutes a larger percentage of the total liabilities of all existing banks than is shown by the record of the year covered by this report.

Of the 25 failed banks, having an aggregate capital of $\$ 3,662,000$, 13 , representing $\$ 1,137,000$ of capital, were located in Kansas and Ne braska.

The larger part of the failures in these two States were attributable to four successive crop failures, and seem to be the result of unavoidable misfortunes rather than the lack of honest and efficient manage-
ment. In many cases, however, the unfavorable conditions were greatly aggravated by the collapse of unwise speculation in real estate, more especially in city and suburban property.

The Comptroller endeavored by correspondence with various State officers, receivers, and assignees to ascertain the number of failures of banks and bankers other than national during the past twelve months, but was unable to thus secure data upon which reliance could be placed. He has been supplied, however, through the courtesy of a commercial agency,* with a list of failures in the United States of bankers, brokers, trust companies, and savings banks for the year ended June 30, 1891. These number in all 117 institutions, having liabilities estimated at $\$ 38,271,511$, and assets valued at $\$ 20,794,092$.

No reliable data in relation to the losses to creditors by reason of the failure of banks other than natioual for recent years is accessible. In order that a comparison may be made between the comparative safety of national and State systems I am led to quote from the report of Hon, John Jay Knox, then Comptroller of the Currency, for the year 1879, where the subject is discussed. He says:

There is no means of definitely determining the amount of losses sustained through the failures of banks operating under systems in vogue during the earlier periods of the history of this country. The losses under those systems, both to the noteholders, to whom there can be no loss under the national system, and to their general creditors and shareholders, are known to have been large. The loss to noteholders alone is estimated to have been 5 per cent annually upon the total amount of circulation outstanding. In Elliot's Funding System, on page 1176, it is stated that fifty-five banks with an aggregate capital of $\$ 67,036,265$ and circulation of $\$ 23,577,752$, failed in 1841. The total bank capital of that year is stated by the same authority to have been $\$ 317,642,692$, and the circulation at $\$ 121,665,198$; and it is also stated in the same connection that in nearly every instance the entire capital of the banks which failed was lost.

Numerous failures of private banking firms have occurred in this country within the last six years, and the losses consequent upon three or four of them are equal to the total losses which have occurred under the national system.

For the purpose of compariug the losses to creditors of insolvent national banks with those sustained by the creditors of insolvent banks other than national, much pains have been taken by the Comptroller to obtain as reliable and complete statistics as possible relating to the failures of State and savings banks and private bankers in the different States during the three years ending January 1, 1879. The results of his labors in this direction are to be found in the following table:

| State and city. | No. of banks. | Claims. | Amount paid and to be paid. | Losses. |
| :---: | :---: | :---: | :---: | :---: |
| Maine | 17 | \$5, 127, 995 | \$4, 370, 524 | \$757, 471 |
| Now Hampshiro | 11 | 4,864, 216 | $3,622,804$ | 1,241, 412 |
| Massachusetts.. | 11 | 4, 436,457 | 2, 670, 158 | 1,766,299 |
| Boston. | 3 | 5,551, 186 | 3,989, 799 | 1,561,387 |
| Rhode Island | 13 | 12, 601, 826 | 10,746, 554 | 1,855, 270 |

#### Abstract

The amonnt of elaims of five lanks in Missouri, one in Kansiss, and two in Nebraska could not be obtained.

In the foregoing table it has been found impossible to give the capital, or the exact amount of dividends paid to creditors, the liabilities and the losses only having been ascertained with any degree of accuracy. The differences between the two items last named represent the amount which it is assumed will eventually be paid to creditors. The average annual loss sustained by creditors during the past sisteen years by the insolvener of national banks throughout the United States has been $\$ 390,012$, and that occasioned by the failures of banks other than national, as showu by the incomplete data obtained by the Comptroller, has for the last three years beeu not loss than $\$ 10,872,220$.

In the Statos of Ohio and Illinois alone the losses during the last three years, through the failure of State, savings, and privato banks and bankers, aggregated $\$ 8,039,102$, of which $\$ 1,916,050$ were in Ohio, and $\$ 6,123,052$ in Illiuois. The total loss in these two States is greater by $\$ 1,798,913$ thau the total loss to creditors ly all the

 national bank failures which have ever occurred.The failures for the current year have been numerous, many having been characterized by gross mismanagement and some by criminality of an aggravated character, yet nothing has been developed which indicates that the confidence in national banks on the part of the general public, which is the outgrowth of an experience of twenty-nine years, has been ill founded.

It is idle to suppose that absolute immunity from failure can be secured by the operation of any law which fails to provide for absolute and complete governmental guaranty. That failures will be far more numerous during some years than othersis to be expected. This is true of every variety of business activity. The banks of the country are mere agencies through which the commercial and business operations of the people are conducted, and of necessity the losses which attend these operations are reflected in the profit and loss accounts of these agencies. The net earnings of the banks afford a good criterion for judging as to the measure of success which has attended the business operations of their customers.

It is a well-known fact that periods of business activity and depression follow each other at reasonably well-defined intervals, and that no means have been found for preventing the regular recurrence of what were under other conditions, known as years of panic. There is no doubt that the introduction of the national banking system and a well-secured currency of uniform and certain value, has served to greatly modify the severity of these periodical visitations and convert what were formerly panics into more or less severe depressions. The latter condition we have just experienced, and it is not remarkable that during the past twelve months while the country was suffering from a monetary stringency which has serionsly affected the entire commercial world, we should lave witnessed the failure of 25 banks out of a total of 3,694 .

That the law under which these associations operate is absolutely perfect no one well informed will claim, but that it has afforded greater security to its depositors and creditors than any other system is indisputable.

Since the foundation of the system 4,648 associations have been organized, of which 164 lave become insolvent, equal to about $3 \frac{1}{2}$ per cent for a period of twenty-nine years. Of this number the affairs of 102 have been finally settled, representing $\$ 28,544,992$ of proved claims, upon which the claimants have received on an average 74.17 per cent, constituting a net loss to depositors of $\$ 7,372,036$. The affairs of 62 banks are still unsettled, representing claims proved to the amount of $\$ 29,247,036$, on which have been paid $\$ 17,456,167$, leaving assets estimated at
$\$ 3,702,925$ yet to be distributed, which would represent a loss to creditors of $83,087,94$.

It will beobserved that losses to creditors of national banks during the twenty-nine years of the existence of the system, taking the amounts ascertained and the anomits estimated, aggregate $\$ 15,459,980$, or an average of $\$ 533,103$ per ammum during the life of the system.

The average amount of liabilities of all the banks since 1863 approximates $\$ 1,055,434,022$, indicating that the annual average loss to the creditors of national banks for the period of twenty-nine years has been only oue-twentieth of 1 per cent.

In order to illustrate the increasing economy and efficiency which has characterized the administration of insolvent banks by the Burean, the following table has been prepared, which covers all insolvent associations whose affairs have been finally closed:

| Date of failure in semidecades. | No. of failed banks. | Total col. lections fiom all sontrces. | Legal expenses. |  | Receivers' salaries, and all other expenses. |  | Amount of claims proved. | Percentage of divi. dends on claims proved. |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  |  |  | Amount paid. | Ratio to total collections. | $\begin{aligned} & \text { Amount } \\ & \text { paid. } \end{aligned}$ | Ratio to total eollec. tion. |  |  |
| 1865 to 1869 , inclusive. | 15 | \$3, 870,087 | \$155,959 | 4.03 | \$343,343 | 9.13 | \$5,131, 694 | 62.84 |
| 1870 to 1874, inclusive.. | 21 | 10,384,725 | 299,855 | 2.89 | 579, 495 | 5.58 | 9,876, 423 | 75.61 |
| 1875 to 1879, inclusive.. | 41 | 9,353,476 | 317, 737 | 3. 39 | 676, 526 | 7.23 | 9,646, 132 | 72.65 |
| 1880 to 1884 , inclusive.. | 9 | 1, 534, 720 | 44,561 | 2.90 | 109, 162 | 7.11 | 1, 407, 231 | 86.75 |
| 1885 to 1890 , inclusive .- | 16 | 3, 735, 929 | 30,374 | . 81 | 122, 195 | 3.27 | 2, 483,512 | 90.65 |
| Total | 102 | 28, 877, 937 | 848,486 | 2.94 | 1,830,721 | 6.34 | 28,544,992 | 74.17 |

It will be observed that the banks have been classified into semidecades, having regard to the date of insolvency. The conspicuous relative reduction in legal expenses is worthy of remark. The first semidecade shows an average disbursement for legal expenses of $\$ 4.03$ on each $\$ 100$ collected, while the same item during the last semi-decade is stated at only 81 cents.

The average expenses to each $\$ 100$ of collections for receivers' salaries and all other expenses decreased from $\$ 9.13$ during the first semidecade to $\$ 3.27$ during the last. Taking into account all the expenses of administration, we find that the cost per $\$ 100$ during the last period is $\$ 4.08$, as against $\$ 13.16$ during the first. A corresponding increase in the percentage of dividends paid to the creditors of insolvent banks is also to be noted.

During the first period, claimants received on the average 62.84 per cent; during the last period 90.65 per cent, and for the entire life of the system 74.17 per cent.

The increase in dividends and decrease in expenses go hand in hand. The increase in rate per cent paid to creditors is due in part to greater efficiency and economy in conducting the liquidations, and partly to the fact that recent failures are less disastrous than in the earlier years of the system. These results indicate that governmental supervision is growing more effective as new and improved methods are evolved from experience. Certainly no other system of liquidating insolvent banks has ever proved so effective and economical; the record of the past five years showing average dividends to creditors of 90.65 per cent, and average expenses of only 4.08 per cent is in both respects believed to be without a parallel.

The Comptroller desires to repeat in substance the recommendations contained in his report for 1890.
In his opinion the present law should be so amended as to provide:
(1) That no association shall be required to maintain a boud deposit of more than $\$ 1,000$ to secure circulation.
(2) That every association may issue circulating notes equal to the par value of the bonds so deposited.
(3) That the monthly withdrawal of bonds pledged to secure such notes shall not exceed $\$ 3,000,000$ in the aggregate.
(4) That the semi-annual duty on circulation be so reduced as to equal one-fourth of 1 per cent per annum.
These recommendations are made upon the supposition that Congress will not favorably cousider measures looking to any considerable increase of circulation through further note issues by national banks. While the Comptroller is of the opinion that bank notes possess certain qualities not found in any form of governmental issues, but which are necessary to a perfect circulating medium, he is, nevertheless, aware that the present is not an opportune time for presenting his views upon that subject. He deems it wise to accept the situation, so far as note issues are concerned, and ask for such legislation as will relieve national banks so far as possible from the enforced and unremunerative issue of circulating notes, so that they may be unembarrassed in their efforts to faithfully serve the public as banks of discount and deposit.

Inasmuch as the secured circulation of national banks has increased $\$ 11,795,101$ during the report year and is now much above the present minimum requirement, no rapid contraction of circulation need be apprehended.
The limitation provided in the third proposition would in any event prevent a retirement beyond $\$ 3,000,000$ per month. Such reduction as might otherwise take place would be neutralized for five months at least by the immediate additional issue of $\$ 15,211,385$ under the second proposition.

The reduction of the semi-annual duty is both just and expedient. No adequate reason can be given for the taxation of a valucless and unwelcome franchise for the purpose of swelling redundant revenues.

## MONETARY STRINGENCY OF 1890.

The previous report year, which ended November 1, 1890, showed a comparatively small number of failures of national banking associations. Up to Midsummer of 1890 that year had been one of more than average business activity. It was, however, apparent in the early Spring, to those who were most observant of passing events, that unfavorable conditions existed, the evil effects of which would appear in the near future. This arose from consideration of the fact that agricultural interests were in an unsatisfactory condition, and also that overtrading and unhealthful expansion were everywhere apparent. During the year the building of railroads had been prosecuted with unusual vigor, making necessary the placing of unusually large lines of securities.

Immense sums heretofore available as loanable capital in the New England and Middle States had taken a tixed form by reason of invest-
ments in the Mississippi Valley and upon the Pacific coast in city and suburban property, in loaus represented by farn mortgages, and in the stocks and bonds of unnumbered corporations organized for the purpose of conducting various kiuds of manufacturing operations, and supplying water, light, and rapid transit to the inhabitants of the many rapidly growing cities and villages in the regions named. Not only did these enterprises attract capital from the Atlantic States, but English investors brought to this comntry vast sums for the purpose of grouping together and recapitalizing corporations engaged in manufacturing, industrial, and commercial pursuits.

This unexampled movement of capital toward the West not only divested the Atlantic States in a large degree of the loanable funds heretofore available for the relief of those engaged there in manufacturing and in business in its various forms, but it also had its effect upon the West in unduly stimulating speculative operations in real estate and laying the groundwork for the future collapse in prices which it was apparent must follow whenever the flow of money toward the field of these operations should for any cause be greatly diminished or entirely arrested.

The various banking institutions located in the region of country affected by the speculative spirit thus incited became necessarily more or less involved in the operations of their local customers. They found themselves early in the Summer of 1890 carrying large lines of loans representing investments in various forms of corporate enterprises, which were in a large degree in untried fields and dependent for success upon the rapid growth of towns and cities, yet unrealized. The banks of the country were therefore in an unduly extended condition upon the approach of Midsummer, and dependent in many cases upor rediscounts with their correspondents in the reserve cities in order to enable them to carry the heavy lines with which they were burdened. While in this condition the transfer of funds to this country from England and the Continent became at first greatly reduced in volume, and finally ceased. Not only was the supply of fresh funds from this source cut off, but it was discovered that during the lato Spring and early Summer months, as well as later on, vast amounts of American securities held abroad were forced upon the New York market by European holders for the purpose of preparing for a collapse which was expected to result from similar conditions of undue expansion existing abroad. The Continental countries had already passed through a period of liquidation and loss consequent upon the failure of the Panama Canal Company and the French Copper Syndicate. England, by reason of unusually large investments in all parts of the world, and especially in the Argentine Republic, was gradually but surely approaching an exceptionally severe monetary stringency.

As an evidence of this and the consequent disposition to increase the stock of gold there held, in order to strengthen their cash resources, it is noted that during the months of June, July, and August of last year the net exportation from the United States of gold coin and bullion exceeded $\$ 14,000,000$, and for the period extending from January 1, 1890, to August 31, 1891, the net exportations of gold amounted to $\$ 75,405,613$. While these causes were operating to prevent the necessary relief from reaching us from Europe, the demands upon the banks in New York and other large reserve cities rapidly increased, producing a reduction in the amount of deposits and an increase in the amounts loaned to and rediscounted for the interior banks.

The gross deposits of forty-six national banks in the city of New York show a falling off of $\$ 44,831,350$ between the 28th of February and 17th of May, 1890; $\$ 13,519,527$ of this representing a reduction in balances due to interior banks and those located in other reserve cities, while the reduction in loans and discounts was less than $\$ 10,000,000$. The New York banks, however, were enabled to so strengthen their positions during the months of June and July that the marked stringency was delayed until August. It culminated about the middle of November, when the failure of a leading firm of brokers, the embarrassment of one large State bank, and the failure of another occurred in New York. These events were simultaneous with the announcement of the embarrassment of the Baring Brothers, of London, and the fact that a syndicate had been formed, headed by the Bank of England, through whose agency Baring Brothers' obligations were guaranteed to the extent of about $\$ 75,000,000$.
The unsatisfactory condition of monetary affairs in England, and the desire to be prepared for the effect of the announcement of the embarrassment of the Baring Brothers, induced the Bank of England to borrow $£ 3,000,000$ in gold from the Bank of France, in addition to $£ 1,500,000$ received from Russia upon sale of treasury bonds. This extraordinary transaction is an evidence of the serious character of the monetary stringency in England, aggravated by the unsatisfactory conditions apparent in almost every civilized country where English capital has heretofore found investment.

Among the unfavorable conditions existing in our own country, in addition to the undue expansion and resulting speculative investments which have been heretofore noted, should be mentioned the greatly reduced yield last year of wheat, oats, and corn, and the low prices which prevailed for the same. It is also to be observed that the importation of foreign commodities in 1890 exceeded in value that of any previous year. This was due, to some extent, to the passage of the new tariff act, which was made to take effect on the 6th of October, 1890. This undoubtedly greatly stimulated importations, in order that their arrival prior to the date mentioned might euable them to escape the higher rate of duty supposed to be imposed by the new act.

To relieve this severe monetary stringency the Secretary of the Treasury increased his purchase of United States bonds to such an extent as to almost entirely exhaust the available surplus in the Treasury. During the three and one-third months from July 19 to November 1, 1890, over $\$ 99,000,000$ were disbursed in payment for United States bonds and interest thereon. It is apparent, however, that while the relief afforded was timely and the sums disbursed very large, the unfavorable and threatening conditions were caused to a greater degree by want of confidence and a curtailment of credits than by lack of circulating medium. That this large disbursement had the effect of allaying excitement and promoting a return of confidence on the part of the general public is no doubt true.
As has been noted, the monetary stringency culminated on the 15 th of November, 1890, and its effects within thirty days thereafter had to a considerable extent passed away, so far as could be observed in the larger cities. Its effect upon the country at large, however, still continued. Inability to place securities and to borrow money had arrested the operations of a great multitude of corporations scattered all over the country, and insolvency and failure had in a large number of cases ensued. Where failure did not take place new work was stopped, all
eredits were curtailed, and hasiness in its different forms became greatly depressed. The growth of eities and villages was in many cases arrested, and the prices of city property, especially of a suburban character, beame gratly reduced.

Corporations newly organized, with insufficient capital and inexperienced management, generally becane insolvent, and speculative operations of every kind and character were prostrated. Liquidation took place in all branches of busincss, resulting in the failure and extinction of a large number of business enterprises which were never entitled to credit and in the curtailment of the operations of many possessing ample capital and skillful management.

The process of liquidation above referred to did not end with the monetary stringency in December, 1890 , but has continued since that date, and its influences are still felt and its effects observed. The subject is here discussed because of its intimate connection with the bank failures of 1891.

## CLEARING-HOUSE LOAN CERTIFICATES.

The effect of a general monetary stringency is felt first and most seriously by banks located in the larger of the reserve cities. Whenever financial affairs are in a normal condition the surplus funds of the local banks find their way to the vaults of their correspondent banks located in the great centers of business activity. This is undoubtedly due in part to the fact that these deposits may be made available for lawful money reserve and that a small rate of interest is, as a rule, paid upon bank balances by associations in the larger cities, and to the further fact that the maintenance of a good balance with their city correspondents strengthens the claim of the interior banks upon the former for rediscounts when the temporary condition of redundancy passes away and the increased demand for money is greater than the interior banks from their resources can conveniently supply.

Thus it results that the wants of a continent in case of general depression are at last brought through various channels of business activity, by way of withdrawals or loans, to the bankers of the great metropolitan cities for relief, and they are presented in such a form, in many cases, as to preclude the possibility of refusal, if general bankruptey is to be avoided.

During the period of the stringency above discussed the cities of New York, Pliladelphia, and Boston were subjected to the most pressing demands, and after very careful consideration it was decided by the associated banks that the exigency made necessary a resort to the issuing of elearing-house loan certificates, for the purpose of settling clearing-house balances. This expedient had been successfully resorted to during the panies of 1873 and 1884.

At a meeting of the New York Clearing-House Association on the 11th day of November, 1890, the following resolution was unanimously adopted:

[^0]Under this resolution a committee of five was appointed, and they proceeded, upon deposit of proper securities, to issue to applying banks loan certiticates in the following form :
No.
\$20,000
Loan committee of the New York Clearing-House Association, New Yorls, ——, 1890.

This certifies that the —__ has deposited with this committee securities in accordance with the proceedings of a meeting of the association held November 11, 1890, upon which this certificate is issued. This certificate will be received in payment of balances at the clearing house for the sum of twenty thousand dollars from any member of the Clearing. House Association.

On the surrender of this certificate by the depositing bank above named the committee will indorse the amount as a payment on the obligation of said bauk held by them, and surrender a proportionate share of the collateral securities hold therefor.
$\$ 20,000$.

These certificates were, by unanimous agreement upon the part of the clearing-house banks, accepted in lieu of money in the settlement of clearing-house balances.

In order to provide for the retirement of these securities in case the collaterals pledged were found insufficient, the severalboards of directors of the associated banks were requested to, and did, pass a resolution in the following form:
Resolved, That any loss resulting from the issue of loan certificates shall be borne by the banks comprising the Clearing-House Association pro rata of capital and surplus, and this resolution shall be ratified ly the boards of the respective banks, members of the association, and a certified copy of such consent delivered to the chairman of the loan committee.

This committee, acting under the authority granted by the above resolution, issued to the associated bauks loan certificates aggregating $\$ 16,645,000$. The first issue was made November 12,1890 , and the entire issue was retired on February 7, 1891. The largest amount outstanding at any one time was $\$ 15,205,000$, on the 13 th of December, 1890 .

On the 17 th of November, 1890 , similar proceedings were had by the Boston Clearing-House Association. On that day, at a meeting of the association, the following resolution was unanimously adopted:

[^1]The form of the loan certificates issued under the resolution alluded to is as follows:

No. $\qquad$ $\$ 5,000$.
Loan committce of the Boston Clearing-Honse Association. Boston, -_ 189-.
This certifies that the -_ has deposited with this committee socurities in accordance with the proceedings of a mecting of the association held November 17, 1890, upon which this certificate is issued.

This certificate will be received in payment of balances at the clearing house for the sum of five thousand dollars from any member of the Clearing-House Association.

On surrender of this certificate by the depositing bank above named, the committee will indorse the amount as a payment on the obligation of said bank held by them, and surrender a proportionate share of the collateral securities held therefor.
$\$ 5,000$.

When a bank applied for and received loan certificates it was required to deposit the necessary securities and to also execute and deliver an obligation, of which the following is a cony:

The ———Bank has this day received of, —— loan committee of the Boston Clearing-House Association loan certificates issued by said committee in pursuance of a vote of said association, passed November 17, 1890, to the amount of _-thousand dollars, and has deposited with said committee the securities, a statement whereof is hereto annexed, and said - Bank receives said loan certificates on the terms set forth in said vote, and agrees to pay the amount of said certificates, with interest thereon, as provided in said vote.

Under the operation of the resolution of authority granted by the clearing-house committee, as above noted, loan certificates were first issued on November 19, 1890, and the last were issued on December 6, 1890. On the latter date the issue reached its maximum of $\$ 5,065,000$. The last of the issue was retired on January 6, 1891.

The Clearing-House Association of Philadelphia took action on November 18, 1890, at which time, at a meeting of the Clearing-House Association, the following resolution was adopted:

Resolved, That, in accordance with resolution of September 24, 1873, as amended October 18, 1873, the clearing-house committee will issue loan certificates to banks applying and receive them in payment of balances.

The resolution of September 24, 1873, as amended October 18, 1873, reads as follows:
For the purpose of enabling the banks, members of the Philadelphia ClearingHouse Association, to afford proper assistance to the mercantile and manufacturing community, and also to facilitate the inter-bank settlements resulting from their daily exchanges, we, the undersigued, do bind ourselves by the following agreement on the part of our respective banks, viz:

First. That the clearing-house committee be, and they are hereby, authorized to issue to any bank member of the association loan certiticates bearing 6 per cent interest on the deposits of bills receivable and other securities to such an amount and to such percentage thereof as may in their judgment be advisable.

These certificates may be used in settlement of balances at the clearing house, and they shall be received by creditor banks in the same proportion as they bear to the aggregate amount of the debtor balances paid at the clearing house. The interest that may accrue upon these certificates shall be apportioned monthly among the banks which shall have held them during that time.

Second. The securities deposited with the said committee shall be held by them in trust as a special deposit, pledged for the redemption of the certificates issued thereupon, the same being accepted by the committee as collateral security, with the express condition that neither the Clearing-House Association, the clearinghouse committee, nor any member thereof shall be responsible for any loss on said collaterals arising from failure to make demand and protest, or from any other neglect or omission, other than the refusal to take some reasonable step which the said

Third. On the surrender of such certificates, or any of them, by the depositing bank, the committee will indorse the amount as a payment on the obligation of said bank held by them, and will surrender a proportionate amount of securities, oxcept in case of default of the bank in any of its transactions through the clearing house; in which case the securities will be applied by the committee, first, to the payment of outstanding certificates, with interest; next, to the liquidation of any indebtedness of such bank to the other banks, members of the Clearing-House Association.

Fourth. The committee shall be authorized to exchange any portion of said securitios for others, to be approved by them, and shall have power to demand additional security, at their own discretion.

Fifth. That the clearing-house eommittee be authorized to carry into full effect this agreement, with power to establish such rules and regulations for the practical working thereof as they may deem necessary; and any loss caused by the non-payment of loan certificates shall be assessed by the committee upon all the banks in the ratio of capital.

Sixtl. The expenses incurred in carrying out this agreement shall be assessed upon the banks in equal proportion to their respective capital.

Seventh. That the clearing-honse committee be, and they are hereby, authorized to terminate this agreement upon giving thirty days' notice thereof at any stated meeting of the Clearing-House Association.

Philadelphia, November 18, 1890.
At a meeting of the clearing-house committee, held this day, it was, on motion:
Resolved, That in accordance with resolutions of September 24, 1873, as amended October 18, 1873, the clearing-house committee will issue loan certificates to banks applying, and receive them in payment of balances.

The form of loan certificate issued by the Clearing-House Association of Philadelphia is here given :
No. $\qquad$ $\$ 5,000$.
Clearing-house committee of the Philadelphia banks, Philadelphia, _, 1891.
This certifies that the -_Bank has deposited with this committee, securities in accordance with the agreement of a meeting of bauk officers held September 24, 1873. This certificate will be received during the continuance of said agreement and of any renewals of the same, in payment of balances at the clearing house, for the sum of five thousand dollars, only from a member of the Clearing-House Association to whom the same may have been issued, or to whom it may be indorsed by the manager of the elearing house.
On the surrender of this certificate by the depositing bank above named the committee will indorse the amonnt as a payment on the obligation of said bank held by them, and surrouder a proportionate amount of the collateral securities except in case of default on the part of said bank in its transactions through the Clearing-House Association of Philadelphia.

It will be observed that the original agreement under which the committee proceeded in this case was adopted during the panic of 1873 and after that subsided no further action was had under it until November, 1890, but the machinery was kept standing during the whole intervening period ready for immediate use whenever required.

The clearing-house committee having, by the agreement aforesaid, been authorized to issue loan certificates resolved, on November 5, 1890, to exercise this power, whereupon the banks desiring to take out loan certificates were required to adopt a resolution empowering the hypothecation of securities, under which the issue of loan certificates, signed by not less than three members of the committee, was commenced on November 19, 1890, and ceased on May 22, 1891, the total issue being $\$ 9,655,000$. The maximum issue, $\$ 8,870,000$, was reached on January 9. The certificates have all been retired excepting $\$ 170,000$ issued to the Keystone and Spring Garden National Banks.

In his annual report for 1890 the Comptroller published certain data in relation to domestic exchanges in the United States, which exhibited the amounts of drafts drawn during the year ended June 30, 1890, (1) upon national and other banks in the cities of New York, Chicago, and St. Louis, separately stated; (2) upon bauks located in other reserve cities, and (3) upon all other banks.

Out of the 3,438 national banks in operation on the 30th day of June, 1890, 3,329 furnished the desired information. While the facts thus elicited attracted wide attention and proved valuable as illustrating the magnitude of the transactions liquidated through transfers of bank credits, it fell short of all that might be desired from the fact that drafts drawn upon reserve cities other than New York, Ohicago, and St. Louis were not separately stated but were given in the aggregate only.

It was thought desirable to again call for this information for the purpose of instituting comparisons as between the operations of the two years, and also for the purpose of ascertaining the magnitude of the transactions with each of the reserve cities, to the end that similar calls following this at suitable intervals migbt afford the means of ascertaining the relative growth of the banking operations of the several reserve cities of the United States. For this purpose circular letters were addressed to each active bank in the system, and replies were received from 3,637, that being the number in operation on the 30th day of June, 1891, exclusive of 22 associations that drew no exchange. This cheerful coöperation on the part of every bank in the system is worthy of special commendation, as last year 109 banks failed to make the necessary report.

In comparisons made between the operations of the year ended June 30,1890 , and the year ended June 30,1891 , it will be remembered that the former year covered the operations of 3,329 banks, and the latter year 3,637 banks. The total amount of drafts drawn by these 3,637 associations during the year ended June 30, 1891, was $\$ 12,782,212,495$. We find that of this amount there was drawn on New York $\$ 7,836,208,250$, on Chicago $\$ 1,254,693,941$, on St. Louis $\$ 237,908,010$, and on other reserve cities $\$ 3,101,005,735$, and on all other banks and bankers \$352,396,559.

Among the other reserve cities Boston leads with $\$ 1,492,266,242$, followed by Philadelphia with $\$ 541,333,463$.

From this statement it appears that of the total sum 61.31 per cent was drawn on banks in the city of New York; 9.82 per cent on Uhicago; 1.86 per cent on St. Louis; 11.61 per cent on Boston, and 4.24 per cent on Philadelphia. The total sum drawn upon the reserve cities, excepting New York, Chicago, and St. Louis, was 24.25 per cent and 2.76 per cent on banks located elsewhere.

In order to exhibit these movements in detail the following table has been prepared:

Table showing the amount of drafts diawn by National Banking Associations upon New York, Chicago, St. Louls, the other reserve cities, and on all other locations, the number of banks drawing upon bach city and the pelefentages of drawings, in 1891 and 1890.

| Location of banks drawn ироп. | 1891. |  |  | 1890. |  |  |

| San Francisco Des Moines.. | ${ }_{22}^{231}$ | $\begin{array}{r} 108,329,796 \\ 2,291,146 \end{array}$ | . 85 |  |  |  |
| All other localities. | 1,325 | 352, 396, 559 | 2.76 | 1, 080 | 464, 817,739 | 4.02 |
| Total |  | 12,782, 212, 495 | 100.00 |  | 11, 550, 898, 255 | 100.00 |

*The total amonut of drafts drawn upon other reserve cities (not shown in detail in 1890) is $\$ 3,101,005,735$ and the percentage 24.25.

In order to facilitate a comparison between the operations of the year ended June 30, 1890, and those of the year ended June 30, 1891, the totals and percentages for the former year are included in the table.

It will be observed that in the total amount of drafts drawn there has been an increase in each of the three central reserve cities and in the amounts drawn upon all other reserve cities, but that the total of drafts drawn upon all other banks has fallen off to a marked degree.

It will be noticed that the grand aggregate for all banks shows an increase of $\$ 1,231,314,240$, being slightly in excess of 11 per cent. So far as the percentages show the relative importance of the.several reserve cities the changes do not appear important. New York City, relatively, has slightly fallen off while Chicago and St. Louis each show a slight increase in percentages. Other reserve cities have increased from 21.88 to 24.25 per cent, indicating the growing importance of the business tributary to the inland cities.
11167-2

In the following table is exhibited the amounts of exchange drawn by all the national banks, classified by States and arranged in the order of the total amounts drawn, further subdivided so as to show the operations of the banks in reserve cities and other banks separately during the year coded June 30, 1891, to which has been added a column giving corresponding totals for the previous year.

Amount of Drafts Drawn by all Repoiting Banks in 1891 and 1890.

It will be noticed that some changes have taken place in the relative importance of the several States during the year. Those whose relative increase is most conspicuous are Texas, Tennessee, Washington, Wisconsin, Nebraska, and Iowa.

In order to further illustrate the operations of banks covered by the foregoing statement the following table is introduced, which oxhibits the amount drawn by banks in the several reserve cities:

Amount of Drafts Drawn by Banks in the Several Reserve Crties, 1891.

| Reserve cities. | On New York. | On Chicago. | $\stackrel{\text { On }}{\text { St. Louis. }}$ | On other reserve cities. | On all other banks. | Total. |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| New Yor | \$11,427, 570 | \$82, 822 | \$10.636 | \$80, 541, 409 | \$325, 172 | \$92, 387, 609 |

Tables are given in the Appendix, pp. 220, showing (1) the amounts of drafts drawn by national banking associations located in the reserve cities, upon all banks in each reserve city; (2) similar information in respect to banks outside of reserve cities; and (3) a tabular statement showing by geographical divisions the amount drawn by national banking associations in each State, reserve city, and geographical division, upon each reserve city.

Notwithstanding that the total amount of drafts drawn by the national banks of the United States during the year euded June 30, 1891, shows a satisfactory increase over the operations of the year immediately preceding that under consideration, it should be remembered that the year ended June 30, 1891, has been one of great depression on account of the monetary stringency which prevailed for the greater part of that period, and the consequent liquidations which have been in progress. While by far the larger part of the banking business is conducted through associations belonging to the uational system, it is necessary to take into consideration the operations of banks other than national in order to arrive at a proper estimate of the magnitude of the business liquidated through the agency of the banking institutions of the country.

In the collection of statistics required by the statute the Comptroller has this year received reports from 4,342 corporations or firms other than national banks which do a commercial banking business, in whole or in part. Of these 2,572 are State banks, 171 loan and trust companies, 364 are savings banks having capital stock, and 1,235 are private bankers. These represent a capital of $\$ 356,749,315$. If the domestic exchange drawn by these banking institutions bears the same relation to their capital stock as in the case of national banks, it will be found that the amount of drafts drawn by banks and bankers other than national will amount to $\$ 6,743,157,040$.

In order to arrive at the grand total of domestic exchange drawn by all the banks and bankers of the United States the following statement has been prepared, exhibiting the amounts of drafts drawn by-
3,637 national banks, official............................................................ $\$ 12,782,212,495$
4,342 State banks, private banks, etc
6, 743, 157, 040
Total
19, $525,369,535$
As there are many banks other than national that do not report to the Comptroller of the Currency, with regard to which no statistics are accessible, it is probable that the amount estimated as drawn by these institutions in the above table is understated.

The magnitude of the operations thus indicated illustrates how indispensable banks are to the safe and economical conduct of the business of the country. This immense total of nearly $\$ 20,000,000,000$ represents simply the net balances between various localities adjusted through the agency of banks, and bears a very small proportion to the gross transactions which are taking place between the banks and their customers. Some idea can be formed of the magnitude of the total transactions of national banks by consideration of the fact that on the first day of July, 1890 , the receipts by 3,364 national banks of the United States aggregated $\$ 421,824,726$. If we take $\$ 421,000,000$ as the average daily transactions of the national banks, and multiply this by 307 as the number of business days in the year, it will be found that the total receipts of these banks for a single year would amount to $\$ 129,247,000,000$, or a sum greatly in excess of the estimated value of all the real and personal property of Great Britain and the United States combined.

When we come to realize with what economy and safety this immense business is transacted the importance of perpetuating and perfecting the national banking system can not fail to command attèntion.

In another part of this report will be found a statement of the average annual losses by reason of the failure of national banks. When
this comparatively small loss is placed against the immense transactions which have taken place through these agencies the conspicuons fidelity of the associations constituting the system must be recognized by every impartial observer.

## EXAMINATIONS.

The national-bank act was perfected with great care, and in its provisions were embodied all those salutary restraints which previous legislation and the banking experience of the world for many centuries had demonstrated to be conducive to the safe and successful conduct of banks organized for commercial business. The wisdom of those who were responsible for its preparation has been vindicated by the unexampled success which has attended banks organized under it during the past twenty-nine years. No system has ever issued notes circulating at par over so wide an area of country, absolutely without loss to holders; nor has any other afforded such complete security to depositors and creditors.
The administration of this act was committed to a Bureau of which the Comptroller of the Currency is the chief officer, and all the provisions incident to the organization, supervision, and closing of associations are designed to be executed through the operation of the agency so created. The duties of the Comptroller of the Currency, as the chief executive officer, are set forth with great clearness and particularity. So far as the proceedings incident to the organization of new associations are concerned, up to and including the certificate authorizing them to begin business, they are so conducted as to make it possible for the Comptroller to personally supervise the details and see that the law is obeyed.

It is impossible, however, for him to personally visit the various associations after organization is completed and ascertain for himself that the conduct of their affairs is in every particular in conformity with law. His information in relation to matters incident to the internal management of a bank reaches him through two channels. First, through what are known as "reports of condition," which are required to be made by each association, upon call of the Comptroller, for some past date, at least five times a year, and, secondly, through reports made by national bank examiners. Reports of condition are made upon the oath or affirmation of the president or cashier, attested by at least three directors, and are required to be published in some newspaper issued in the locality where the bank is situated.

The report prepared in these cases is substantially a trial balance from the general ledger, under such classifications as the Comptroller directs, showing in detail the entire resources of the association upon the one hand, and its entire liabilities upon the other. If.correctly and honestly made, these published reports affiord to the shareholders and creditors of the association an opportunity to form a reasonably correct judgment as to its solvency, its earnings, and the value of its shares. Certain schedules accompany these reports, which are designed to disclose such facts as will indicate whether or not any provision of the national-bank act has been violated. This system of reports, especially so far as it applies to banks under honest management, is no doubt to a certain degree effective in preventing unwise and unlawful acts ou the part of those directly charged with the management.

As severe penalties are imposed upon any officer or employe who makes or aids or abets others in making any false report or statement
af the association with intent to defiaud or deceive, even those whose honesty may be brought in question are constrained through fear to make truthful reports. It sometimes occurs, however, that banks fall under the management of those who are utterly wanting in integrity and are undeterred by the penalties of the law. Occasionally the active officers of the bank enter into such collusion as renders it comparatively safe, in their opinion, to make reports which are designed to cover up unlawful practices, and to either overstate the value of the bank's resources, or understate its liabilities, so that the published report thus made serves to grossly deceive those for whose benefit the publication has been wisely ordered.

As banks under honest management are usually conducted in obedience to law, it is clear that the value of governmental supervision is determined by the success it may achieve in ascertaining facts hidden from. view by bank managers whose purpose it is to keep from the knowledge of the Comptroller conditions which might involve impairment of capital, insolvency, or criminality. The agency provided by law for ascertaining with greater certainty the condition of these associations is through the periodical visits of examiners appointed for the purpose.

The anthority for the appointment of national-bank examiners is found in section 5240 of the Revised Statutes of the United States, wherein it is provided that-

The Comptroller, with the approval of the Secretary of the Treasury, shall, as often as shall be deemed mecessary or proper, appoint a suitable person or persons to make an examination of the affairs of every banking association, who shall have power to make a thorougli examination into all the affairs of the association, and, in doing so, to examine any of the officers and agents thereof on oath; and shall make a full and detailed report of the condition of the association to the Comptroller.

This brief paragraph contains the only provision of law for the appointment of national-bank examiners, and is the only place where his rights, powers, and duties are set forth. It is apparent that these examiners were to be the confidential agents of the Comptroller, and as such to have such duties and to exercise such powers, within the law, as the Comptroller might from time to time direct.

As has been said, these examiners have always been regarded as the confidential agents of the Comptroller, and the various communications and reports transmitted by them to him have always been considered as confidential and privileged.

The relations existing between the Comptroller and his examiners is of such a character that they must necessarily possess his entire confidence. Any information which might lead him to entertain a reasonable doubt as to the skill or integrity of an examiner would make it his duty to immediately suspend him, even though the information might be of such a character as could not be substantiated by competent proof, or of such a confidential nature as would make it necessary for the Comptroller, to withhold the character of the charges from the examiner himself. The Comptroller would be derelict in duty who would continue to employ the services of an examiner who had so conducted himself as to impair that complete confidence which must from the necessities of the case exist on the part of his superior officer.

Inasmuch as the original purpose of those who framed the nationalbank act was to make a market for the securities of the United States, to provide notes for circulation, and to create fiscal agencies for the service of the Government, it is fair to presume that they had in view
such an examination as would enable the Comptroller to ascertain whether or not the various provisions of law had been complied with, and to see that the interests of the Government were protected, so far as they were involved in deposits of public moneys or the issuing of circulating notes.

Among other requirements the national-bank act provides that the capital stock of an association shall be fully paid in cash, and that each director shall be a citizen of the United States and the bona fide owner of at least ten shares of the capital stock; that loans shall be made only on personal security; that real estate, when lawfully held, shall be disposed of within the period of five years; that a list of shareholders shall be correctly prepared and kept subject to the inspection of creditors and shareholders; that a reserve of lawful money shall be held against deposits; that dividends shall not be made until earned; that loans to any one person, corporation, or firm shall not exceed in amount 10 per cent of the capital paid in; that the liabilities of the association under section 5202 of the Revised Statutes of the United States shall not exceed the amount of its capital stock actually paid in; that checks shall not be certified in excess of the drawer's deposit, and that loans shall not be made while the lawful money reserve is deficient.
lt would seem to be the duty of an examiner in making an official visit to an association to ascertain whether or not these requirements had been fully complied with and to report any disobedience of these provisions of law brought to his attention. He is also expected upon occasion to ascertain and report to the Comptroller as to whether or not the latter can properly approve a proposed increase or reduction of capital, and as to the propriety of permitting an association desiring to do so to extend its corporate existence or go into voluntary liquidation.

Inasmuch as the Comptroller is authorized to require any association whose capital becomes impaired to pay the deficiency by assessment upon its shareholders and to appoint a receiver to close up its business in case it fails to make good its capital within three months after being notified so to do, and inasmuch as the Comptroller is further authorized to appoint a receiver for any association which he shall become satisfied is insolvent, it would appear to be the duty of an examiner to not only ascertain but verify the liabilities and resources of an association and make such an estimate of the value of the latter as will enable the Comptroller upon his report to determine with reasonable certainty whether or not impairment of capital or insolvency exists.

So far as can be deduced from the provisions of the act under which national-banking associations are organized and operated, an examiner's duties are above substantially set forth. In the letter of instructions addressed to examiners, and upon the blank reports furnished for their use are found directions covering the requirements of the law as above expressed. Much, however, must be left to the discretion and intelligence of the examiner himself. No cast-iron rules, covering minute details, can be issued to examiners as a class, for the reason that what would be practicable, proper, and necessary in the case of a small bank located in some obscure hamlet, would not be applicable in the case of a large association in a central reserve city.

As a rule examiners find the greatest difficulty in so directing their efforts as to ascertain whether or not impairment or insolvency exists. They are directed to verify every credit and debt balance, to personally count the cash, and to list and verify the loans and discounts and other assets of the association. This verification can not, of course, be exhaustive, for the reason that the compensation awarded examiners by
law would not cover the time necessarily employed to this end. Nor would national banks, as a class, be willing to surrender their books and suffer interference with their business for a sufficient length of time to permit the examiner to make a complete audit of their affairs, even if they were willing to submit to the expense necessarily attending it.

The liabilities of a bank are represented to a large extent by pass books in the hands of a multitude of depositors, by drafts issued to a large number of purchasers and by them transmitted to distant points, a large amount (several days' issue at least) always being in transit and unpaid; in certificates of deposit and other like evidences of indebtedness held by persons unknown and inaccessible to the examiner, in balances due to other banks, and in bills payable and rediscounts, usually in the hands of distant correspondents of the association.
It is obvious, therefore, that it would be absolutely impracticable for the examiner to make such a complete verification as would demonstrate beyond question that the entries stating these liabilities upon the books of the bank precisely correspond with the amounts represented by these various evidences of indebtedness. Some of these accounts may in a certain degree be verified by correspondence with the distant creditors, but to call in all the pass books, certificates of deposit, and drafts in transit would be obviously impracticable.

The examinations, and reports based thereon, have undergone a gradual process of evolution during the more than quarter of a century that the national-banking system has been in existence. From year to year the attention of the Comptroller has been called to new and novel devices adopted by those who sought to cover up their criminality or prevent the discovery of serious losses. This has led to increased vigilance upon the part of examiners and to the adoption of such measures as would, so far as possible, prevent the success of such devices in the future. So, under the exigencies of the service the scope and details of examinations have undergone gradual transformation and enlargemeut, making them more and more effective and valuable as the age of the system and experience in the wiles of dishonest bank officials increases.

The small losses suffered by creditors of national banks in the past have led some part of the general public to feel that governmental supervision should lo of such a character as to absolutely prevent these associations from becoming insolvent and that in case such failures occur those charged with the administration of the law are necessarily derelict in duty. It is apparent, however, that such is very far from being the case. It will be observed that the duties of the Comptroller, and in some sense the examiners, are largely negative; that the law consists in large part of necessary limitations and restrictions upon the operations of the associations organized under its authority. The Comptroller is therefore mainly charged with the responsibility of indicating to bank managers what they shall not do.
The affairs of each association are, however, wisely placed under the control of a board of directors elected by the shareholders, which is alone vested with the power to direct its management. It is apparent that it would be impracticable for any Bureau of the General Government to undertake to participate to any degree in the receiving of deposits, in the making of loans, and in the thousand details incident to the management of each particular bank. It would be in the highest degree unfortunate and unwise for the Government to attempt to
usurp in any manner the duties which are and mast be devolved upon the representatives of the shareholders of the varions banksupon its directors and officers.

That the limitations and restraints imposed by the national-bank act; supplemented by the periodical reports required and published, have done much to promote the success of the banks constituting the national system, and the security of the various creditors is demonstrated by its history. It is, however, indisputable, and conceded by all those informed as to the facts, that the system of examinations provided for in the brief paragraph quoted at the beginning of this article is of paranount importance and absolutely indispensable to the conspicuous success which has attended the operations of these associations from the inauguration of the system.

The officers directly in charge of the various banks and the employés to whom are committed the details incident to the proper conduct of the business, are actuated by the same motives which inspire humanity generally and are subject to the same temptations and the same ambitions. In the opinion of the Comptroller, every such officer and employé will admit that the expected visit of a skilled examiner who is to inspect and criticise the work upon which he is engaged incites him to greater diligence, promptness, and accuracy, tends to deter him from entering upon operations inconsistent with good banking, and strengthens him in his efforts to overcome those temptations to disobey the law which come to every bank manager through the pressure of customers in the most varied and insidious forms.
That the visits of an examiner should be always welcome to those in charge of a bank is not to be expected. Those, however, who are conscious of having discharged their duties with fidelity and ability gladly welcome the inspection of an expert who can properly appreciate the results of their faithfulness. The officer in charge who earnestly desires an honorable and successful career will gladly accept the services of one who can aid him in verifying the various accounts of the bank and in establishing the fidelity and ability of those subordinates who are entrusted with the details of business. The directors of any association who are disposed to fulfill the important duties imposed by law and to merit the confidence reposed in them by their shareholders, hail with pleasure the visit of one whose sole object is to reinforce their efforts to contribute to the safety and success of the institution which has been committed to their care and direction.

Unfortunately dereliction of duty on the part of directors is the chiet cause of failure upon the part of corporations generally and of national banks particularly. It is this inattention to duty upon the part of those chosen to represent the shareholders in the management of national banks which has made the visits of the examiner an absolute necessity.

It has become a habit on the part of the general public whenever tine failure of a national bank occurs to at once challenge the integrity or skill of the examiner charged with its supervision, oblivious of the fact that his energy, his experience, and his devotion to duty may have prevented the failure of a score of more or less embarrassed institutions as to whose mismanagement they are of necessity entirely uninformed.

The bank examiner as a rule faithfully discharges his duty. Every disobedience of law, and everything indicating impairment of capital, insolvency, or criminality are in most instances faithfully reported to the Comptroller of the Currency. In every such case the Comptroller applies the remedy named in the law. If the report indicates a minor
disobedience of law or of the rules of sound banking, cantion or reproof is administered. If impairment of capital is indicated he immediately issues a notification that it be made good by assessment upon the shareholders. In case insolvency is shown to his satisfaction a receiver is appointed.

The great service performed through the agency of bank examiners consists largely, however, in meeting dangerous and unlawful practices at the threshold. The number of cases of this kind which have been arrested at the beginning, and severe loss, if not insolvency, prevented by the prompt and timely action of bank examiners is very great, although necessarily unknown to the general public, and hence unappreciated by those whose interests have been protected.

The Comptroller feels the need continually of one or more supervising examiners of approved skill and unquestioned integrity who might visit the various examiners in the field and bring the work into greater uniformity and in many ways increase its efficiency. Although the instructions are explicit and the blanks so arranged as to constantly remind these officers of what a complete examination should consist, yet the Comptroller can not always feel assured that these are fully understood and faithfully obeyed. And, again, when failures multiply and exigencies arise making extra precautions necessary, the services of one or more conspicuously capable examiners who are not permanently assigned to any particulary district would be invaluable.

The Comptroller also calls attention to the fact that assistant examiners are needed in all the large cities, and that no such office now exists.

He therefore recommends that the law be so amended as to provide for the appointment of not more than three supervising examiners who shall receive an annual salary to be paid from the public funds; that the Comptroller be empowered to appoint as many assistant examiners as may in his judgment be necessary, to be paid such compensation as maybe fixed by the Comptroller from the fees of the examiners by whom they are employed.

That each supervising examiner, examiner, and assistant examiner be required to take an oath before entering upon the discharge of his duties, and also to give bonds in such amount and with such sureties as may be satisfactory to the Comptroller.

## CERTIFICATES OF STOCK.

Section 5139 of the Revised Statutes of the United States provides that "The capital stock of each association shall be divided into shares of one hundred dollars each, and be deemed personal property, and transferable on the books of the association in such manner as may be prescribed in the by-laws or articles of association."

The reports of examiners indicate that too little care is taken in the transfer of stock and in the issuing of certificates. In many cases boards of directors neglect to prescribe in the by-laws the manner in which the transfers are to be made, and, as a rule, the articles of association are silent upon the subject.

In other instances the by-laws set forth in general terms the manner in which such transfers shall be effected, but it is frequently found that they are not obeyed, and that the transfers are of a very irregular character, and in many cases not lawfully executed. In some banks no stock ledger is fouud; in others, certificates are signed in blank and left for some subordinate to fill out and deliver when occasion shall require. In other banks certificates surrendered for transfer are not
properly cancelled and preserved, and in newly organized banks they are occasionally issued to shareholders prior to their having paid in full for the same. Where banks are increasiug their capital, certificates are sometimes issued before the increase has been submitted to and approved by the Comptroller.

These are a few examples of irregular practices on the part of banks which have been brought to the attention of the Comptroller by recent examinations.

The shareholders of national banks are its proprietors and the certificates of stock issued to them are the evidence of their proprietorship. The importance of preserving the record of such ownership is evidently not sufficiently appreciated. While it is true that overissues of stock are comparatively infrequent it is nevertheless the fact that examiners often find difficulty in verifying trial balances taken from stock ledgers. While in most cases this is simply an evidence of carelessness and lack of system, yet, the examiner can not always be sure that the future may not develop that a more serious condition exists.

One remedy suggested for this state of things is that all transfers of stock be registered by a corporation acting in the capacity of an agent for that purpose. This is a very valuable safeguard, and is comparatively convenient and inexpensive for banks situated in large cities. This plan is certainly worthy of investigation by all boards of directors, and it is recommended to their favorable consideration. The added value attached to shares by reason of this registration would, in the opinion of the Comptroller, exceed the slight cost which such registration would involve. As the system is, however, largely composed of banks with small capital, located outside of the larger cities, in a great majority of cases this plan would not be deemed feasible, and therefore the remedy, so far as it applies to the system generally, must be found in the greater care and activity of the directors of the several associations. They should first see that proper by-laws regulating the transfer of shares are adopted. Proper books should be furnished for recording the transfer of shares, in accordance with the terms of the by-laws, and provision made for the frequent examination of the certificate book, stock ledger, and transfer book by a committee charged with this special duty.

The signing of certificates in blank should be forbidden, and great care should be exercised in the cancellation and preservation of surrendered certificates. As it is important in the enforcement of the individual liability of shareholders in the case of insolvent banks whose assets prove insufficient to pay their debts that the question of proprietorship should be definitely determined, it is recommended that a receipt be taken from each shareholder upon delivery to him of the certificate representing the stock of which he is the owner.

## OFFICERS AND DIRECTORS AS BORROWERS.

While the failures of the year just closed have been in large part due to well-defined causes, which have been operating with morn or less severity in all parts of the civilized world, supplemented by the local influences to which allusion has been made, it is evident that some features of the more important ones are suggestive of needed changes in the national-bank act. In almost every instance an investigation of the affairs of an insolvent bank discloses the fact that the officers and directors have too freely used the funds of the association for their own purposes, either in a lawful or unlawful manner.

The facility with which the active officers of a bank may borrow its funds seems to make it necessary that some added restriction should be placed upon transactions of this kind.

In the organization of a national bank those who contribute the funds which constitute its capital should dedicate the same to the business of banking, and not to the creation of an instrumentality through which they may proceed to borrow to an amount largely in excess of the sum contributed by them to the original capital.

The principal limitation as to loans and discounts is found in section 5200 of the Revised Statutes of the United States, which reads as follows:

#### Abstract

The total liabilities to any association, of any person, or of any company, corporation, or firm, for money borrowed, including in the liabilities of a company or firm the liabilities of the several members thereof, shall at no time exceed one-tenth part of the amount of the capital stock of such association actually paid in. But the discount of bills of exchange drawn in good faith against actually existing values, and the discount of commercial or business paper actually owned by the person negotiating the same, shall not be considered as money borrowed.

This limitation is found to be wholesome in its general application, but recent events indicate that additional safeguards are needed.
In my opinion some limitation should be placed upon the amount of commercial or business paper which may be discounted by an association for any person, company, corporation, or firm, and a similar restriction should be placed upon indirect liabilities resulting from guaranty or endorsement. If it is deemed necessary to limit direct loans to 10 per cent of the capital paid in it would for the same reason follow that indirect liabilities should be subject to some limitation. Just what the extent of the restrictions should be is not so easily determined, but, in my judgment, the direct and indirect liabilities, in the case of a director, should not exceed 20 per cent of the capital paid in.

The active officers of the bank, who are charged with the custody of its assets and the handling of its funds, should not, in my opinion, be permitted to appear as borrowers or become in any way liable to the association with which they are connected. While this might work hardship in exceptional cases it would without doubt add greatly to the security of the creditors of the banks as a whole. It would be unwise to forbid an association to loan to or discount for its several directors, as they are usually selected from among the leading men in the various branches of business, for the reason that they possess information which is of great value in passing upon paper offered by those engaged in the same line of trade with themselves.
There seems to be no serious objection, however, to placing some limit upon their indirect as well as direct liabilities. The Comptroller, therefore, takes this opportunity to recommend that the active officers of a bank be excluded from incurring liabilities to the association with which they are connected, and that the direct and indirect liabilities of a director be confined to 20 per cent of the paid-up capital, leaving the limitations contained in section 5200 United States Revised Statutes intact. The Comptroller is also of opinion that the publication of the liabilities of officers and directors would afford a valuable safeguard.

The Comptroller also desires to call attention to the fact that no suitable penalty is provided by law for violations of section 5200 United States Revised Statutes.
Aside from the power to bring suit for forfeiture of franchise under the general provisions of law laying the groundwork for enforcing the
liability of directors, the Comptroller is without the power to enforce obedience to the limitations of the section quoted. The remedy provided is so severe as to make it entirely useless, no Comptroller having ever brought suit to forfeit the franchise of an active bank. The reason for this is obvious, as such a proceeding would destroy the bank, thereby greatly aggravating instead of affording a remedy for the evil complained of. The Comptroller should be empowered by law to inflict such a penalty, by way of fine or assessment, as would make excessive loans highly umprofitable, and yet not so severe as to prevent its being promptly and invariably imposed in every case brought to his notice.

## bonds of bank offioers.

Circumstances attending recent failures have served to call the attention of the Comptroller to the fact that much greater care should be exercised by boards of directors in the matter of the official bonds of the officers and employés of their several banks.

The general verdict of those most experienced in the management of banks is in favor of requiring official bonds from all who occupy places of trust, and especially those who handle cash or convertible securities. Under the national-bank act it is left discretionary with boards of directors whether or not they shall require official bonds. This matter should be taken up, fully discussed, and definitely decided by each board of directors.

At the time of organization the matter usually has attention and certain requirements are decided upon but are inefficiently carried out. Frequently the by-laws of an association contain all that is necessary in relation to bonds, but the reports of bank examiners disclose the fact that these by-laws often become obsolete by reason of inattention to their enforcement.

There are various phases of this subject which should be considered by those responsible for the management of a bank. In the first place it is necessary that the board of directors should decide as to the particular officers and employés who shall give official bonds and determine upon the amount in each case. Ordinarily this covers the entire action of the board in relation to the matter. This, however, does not constitute the full measure of their duty. Great care should be taken in preparing the form of the bond required so that in case it becomes forfeited the penalty can be enforced. Not only should the form of the bond have careful attention but its terms should be such as to cover not only criminal acts but such as involve a lack of due diligence on the part of the officers or employés.

In this connection it is proper to say that the Comptroller is in receipt of information, from a source which entitles it to the highest consideration, that bonds are habitually offered and frequently accepted which guarantee the bank only against such misconduct of the officer as amounts to embezzlement or larceny and do not secure it against gross carelessness or against connivanee at or the overlooking of its spoliation by others.

This warning should be heeded and every board of directors should promptly order an examination of all offieial bonds in their custody by competent counsel so that their bank may not suffer through their neglect when an exigency arises.

Again, it is important that the sureties should be of such a character as to insure the collection of the penalty in case of forfeiture. If the surety is an incorporated company, as is common now, its solvency
sloould be fully ascertained, and the necessary information procured as to its right to enter into such a contract under its charter. It is also important that this class of bonds should be examined with especial care as to whether they are broad enough in their terms to properly protect the bank in case of the unfaithfulness of the principal.

In case natural persons are accepted as surety similar care should be exercised. No one should be accepted as surety upon such a bond whose responsibility for the penalty is not fally established. In addition to this it is well to reject all those who are not of such high character and established integrity as to unhesitatingly meet any losses which may occur, regarding it as a moral as well as a legal obligation.

It is quite frequently the case that a bond prepared and executed, with satisfactory sureties, is found in the custody of or accessible to the identical officer for whose faithful performance of duty it is the bank's only security. It is the duty of every board of directors to see that the custody of these bonds is committed to those who can have no interest in their becoming mislaid or destroyed, and who will faithfully keep and produce them when wanted.

The bond having been properly prepared and executed, signed by sureties known to be responsible and deposited in secure hands, it remains for the board of directors to make a periodical examination in order that their existence and safety may be verified, and for the further purpose of ascertaining that the security once deemed satisfactory has not become impaired by death, removal, insolvency, or some other cause which would put the interests of the bank in jeopardy.

At the regular annual visit of the examiner inquiry is made as to whether the by-laws require official bonds, and if so whether or not they have been executed in accordance therewitl, and also as to their custody. He is instructed to call the attention of officers to any circumstances developed by his examination which would tend to impair the security of the association. His suggestions in relation to this matter, however, are usually necessarily made to the active officers of the bank, who are the identical persons from whom official bonds are required. It is often impracticable for him to call the attention of the board of directors of the bank to the necessity for the desired action in a given case.
The danger lurking here is greatly aggravated by the fact that, as a rule, the active officers possess the unbounded confidence of the board of directors, and this confidence generally remains unshaken until the commission of some act which makes necessary a resort to the sureties upon the official bond.

Unless the precautions above alluded to have had attention prior to the discovery of the unfaithfulness of the trusted officer or employe the directors awaken too late to the fact that they have been derelict in duty.

11167-3

## CLOSED NATIONAL BANKS.

The following statement exhibits the title, capital, and circulation issued, redeemed, and outstanding of associations which were closed to business during the year euded October 31, 1891. Of these 66 associations 41 went into voluntary liquidation and 25 into the hands of receivers.

National Banks closed during the Year ended October 31, 1891, in eacif State and Terbitory, witi Capital and Circulation.

## RESUMPTION OF BUSINESS BY CI OSED BANKS.

A conspicuous feature of the operations of this Bureau for the report year has been the resumption of business by banks which had voluntarily closed their doors to business.

Ordinarily the closing of a national bank serves to so greatly impair its credit as to render its resuscitation both impracticable and undesirable. In most cases the dishonesty or mismanagement which necessitates the closing of its doors causes such an impairment of confidence as to prevent the bank, even under new and competent management, from regaining its former position and securing the necessary support from the general public.

Ordinarily it is deemed better to organize a new association, with an entirely new title, than to endeavor to reopen one which has been closed. Occasionally, however, it occurs that the closing of a bank may result from causes which neither seriously affect its credit nor greatly impair its capital. In some such cases the confidence of the community is not withdrawn, and the good will of the association, which may have had a long and honorable career, is deemed by its shareholders worthy of preservation.

It has been the policy of the Comptroller in every such case to encourage the adoption of measures that would enable him to withdraw the examiner or receiver and permit the bank to resume business at as early a date as possible. He has, however, invariably made it a condition precedent that the affairs of the association should be put in a satisfactory condition. This would imply that its capital should be unimpaired, that its cash should be substantially equal to its demand liabilities, and that all doubtful and worthless assets should be eliminated; that all its affairs should be placed in strict compliance with law and such changes made in its board of directors and officers as would exclude those who had been guilty of mismanaging its affairs, and generally such measures enforced as would insure a prudent, conservative, and law-abiding course in the future.

This policy has only been adopted in cases where the Comptroller was led to believe that the conditions were, to a marked degree, favorable to a successful future career.

The failure of a bank is always a calamity, even where the assets of the failed institution are sufficient to ultimately pay in full its liabilities. The delay necessarily incident to converting these assets into cash and dividing them among the several claimants is the cause of much inconvenience and loss to a large number of depositors.

A national bank is organized for the purpose of conducting a commercial business, and is ordinarily the depositary for the current cash receipts of persons engaged in every form of manufacturing, industrial, and commercial business. Most of these enterprises are conducted with capital barely sufficient to form a basis of credit, the latter being mainly relied upon and of, by far, the greater importance. Every such firm engaged in business is liable to have its credit destroyed by the locking up of its cash resources, resulting in the dishonoring of its paper and subsequent failure.

All classes, however, are represented among the creditors of these insolvent banks. The desire to find a safe depository for funds temporarily idle moves all alike. The rich and the poor, young and old, capitalist and laborer, all appear as claimants.

An investigation of the affairs of an insolvent bank invariably discloses cases of peculiar hardship and frequently brings to light such misfortunes as are calculated to arouse the sympathies of the most indifferent. It is therefore a matter of great importance to the creditors of a failed association that their balances be made available at the earliest date practicable.

Not only are the creditors of a failed association greatly benefited by its being speedily reopened for business but shareholders also, for it is a well-established fact that the assets of such an association are much more valuable to it as an active bank than if in liquidation or in the hands of a receiver.

As a result of the policy outlined above six national banks, which closed their doors to business, possessing an aggregate capital of $\$ 2,225,000$ and having liabilities amounting to $\$ 3,756,362$, have been permitted to resume business since the 1st day of January, 1891. One other bank, closed by order of the Comptroller, having a capital of $\$ 300,000$ and liabilities amounting to $\$ 622,221$, was permitted to go into voluntary liquidation, the directors and principal shareholders of the bank having provided the necessary funds to meet all liabilities.

The following table gives the title of these banks, date of closing, date of resumption, and amount of capital and liabilities.

Permitted to Resume Business.

| Name and location of bank. | $\begin{aligned} & \text { Charter } \\ & \text { No. } \end{aligned}$ | Date of closing. | Date of resump. tion. | Capital. | Liabilities.* |

Permitted to go into Voluntary Liquidation.

| Washington National Bank, New York, N. Y. | 4335 | 1891. <br> Mar. 24 | 1891. <br> Apr. 13t | $\$ 300,000$ | $\$ 622,221$ |
| :--- | ---: | ---: | ---: | ---: | ---: |

* Exclusive of capital, surplus, earwings, and circulation.
$\dagger$ Date of liquidation.
Of these banks the Newton National Bank of Newton, Kans., and the Farmers and Merchants' National Bank of Clarksville, Tenn., were in the hands of receivers. In the other cases no receiver had been appointed, a bank examiner being in charge between the date of closing and reopening of the bank for business.

In each of the cases above mentioned the banks when reopened were reported by the officer in charge to possess an unimpaired capital, cash in hand sufficient to meet all demand liabilities, and under such management as gave reasonable assurance of an honorable and successful career. All these banks are still in operation, having promptly met all their obligations according to their terms, excepting the Washington National Bank of New York, which was permitted to go into voluntary liquidation and has paid in full all liabilities.

So far as the Comptroller is informed the records of the Department disclose but one case in the history of the system prior to 1891 where a bank once placed in the hands of a receiver was permitted to reopen.

It is hoped and believed that the future success of these banks will be such as to warrant the Comptroller in continuing a policy which has led to their rehabilitation.

## COMPARATIVE STATEMENTS OF THE NATIONAL BANKS.

The resources and liabilities of the national banks for thirteen years, at nearly couresponding dates, from 1879 to 1891, inclusive, are exhibited in the following table, and the same information with respect to preceding years will be found in the Appendix, page 124.

* Other reserve cities are Boston, Philadelphia, Baltimore, Albany, Brooklyn, Pittsburg, Washington, New Orleans, Louisville, Cincinuati, Cleveland, Detroit, Milwaukee, Des Moines, Minneapolis, St. Paul, Kansas City, St. Josepn, Omaha, and San Francisco.

For several years a statement has been presented, showing in condensed form the changes occurring in the principal items of resources and liabilities of the national banks from January 1, 1866, the data being obtained from an abstract prepared from reports of condition of all national banks at the date of the last call preceding the current annual report. The following statement is perpetuated for purposes of comparison. Aggregates are expressed in round numbers and the dates corresponding with highest and lowest points are given.

Iligines and Lowest Points reached in time Pringipal Items of Resounces and Liabifities since the Establisilament of the System.

|  | $\begin{gathered} \text { January } 1, \end{gathered}$ | $\begin{aligned} & \text { Septembor } \\ & 25,1891 \text {. } \end{aligned}$ | Highest point reached. |  | Lowest point reached. |  |

| Loans and discounts | $500,650,109$ | 1, 989, 354, 239 | 1, 989, 354, 239 | . ...do | 500, 650, 109 | Jan. 1, 1866 |
| $\xrightarrow{\text { Cash: }}$ National-bank notes | 20,406,442 | 19, 991, 167 | 28, 809,699 | Dec.31, 1883 | 11, 841, 104 | Oct. 7, 1867 |
| Legal-tender notes.. | 187, 846, 548 | 97,615, 608 | 205, 793, 579 | Oct. 1, 1886 | 52, 156, 439 | Mar.11, 1881 |
| Specie.............. | 16, 909, 363 | 183, 515, 076 | 195, 908, 859 | Oct. 2, 1890 | 8,050, 330 | Oct. 1, 1875 |

It will be seen that capital, surplus, undivided profits, and deposits have increased from $\$ 995,542,378$ in January, 1866 , to $\$ 2,596,606,111$ on September 25, 1891, and that loans and discounts amounting to $\$ 500$,650,109 have reached the sum of $\$ 1,989,354,239$, which is nearly quadruple, and upon reference to other pages in this report that the number of active banks has increased from 1,582 to 3,677 . The holdings in bonds have decreased from $\$ 440,380,350$ to $\$ 174,907,550$, but on April 4,1879 , an intermediate period, the banks held $\$ 712,437,900$. The specie held by the banks on January 1, 1866, amounted to $\$ 16,909,363$, was only $\$ 8,050,330$ in 1875 , and amounted to $\$ 183,515,076$ on September 25,1891 , which was a falling off of more than $\$ 12,000,000$ since October 2,1890 , on which date the highest point was reached.

The following comparative statement gives the percentages of loans and discounts, United States bonds, and specie to the entire fund with which the banks do business, which is made up of capital, surplus, undivided profits, circulation, and deposits.

In 1866 the percentage of circulation to capital, surplus, and undivided profits was about 45 per cent, and is now about 13 per cent, the same as last year.

|  | 1866. | 1887. | 1888. | 1889. | 1890. | 1891. |

EXTENSION OF THE CORPORATE EXISTENCE OF NATIONAL BANKS.
Under the provisions of the act of July 12, 1882, ninety-seven associations applied for and obtained an extension of their corporate existence during the past year. The following table shows the number and capital of all extended banks and their geographical location:

| States and Territories. | No. of banks. | Capital. | States and Territories. | No. of banks. | Capital. |
| :---: | :---: | :---: | :---: | :---: | :---: |
| Alabama | 5 | \$785, 000 | Missouri | 14 | \$3, 575,000 |
| Arkansas | 1 | 250, 000 | Montana. | 1 | 500,000 |
| California | 1 | 1,500, 000 | N braska | 0 | 1,200, 000 |
| Colorado | 4 | 760, 000 | New Hampshire | 37 | 4, 805, 000 |
| Connecticut | 73 | 22, 450, 820 | New Jersey | 50 | 10, 133, 350 |
| Delaware. | 11 | 1,503,185 | New York | 224 | 72,772, 460 |
| District of | 3 | 800,000 | North Carolina | 4 | 850, 000 |
| Georgia | 8 | 1,750,000 | South Carolina | 5 | 1,100, 000 |
| Illinois. | 68 | 8,793,000 | Ohio | 85 | 15, 554,000 |
| Indiana | 39 | - 5, 077,000 | Oregon | 1 | 259, 000 |
| Iowa. | 37 | 3,460,000 | Pennsylvania | 170 | $45,154_{4} 390$ |
| Idaho | 1 | 100, 000 | Rhode Island | 59 | 19, 959,800 |
| Kansas. | 4 | 400,000 | Tennessee. | 8 | 1,950,000 |
| Kentucky | 19 | 5, 800, 000 | Texas. | 5 | 675,000 |
| Louisiana | 5 | 2, 300, 000 | Vermont | 31 | 5,856, 000 |
| Maine. | 53 | 8,630, 000 | Virginia | 13 | 2, 291, 000 |
| Maryland. | 29 | 12,069, 000 | West Virginia | 13 | 1, 491, 000 |
| Massachusetts | 201 | 86, 462,500 | Wisconsin | 20 | 1,935, 000 |
| Michigan | $\stackrel{26}{13}$ | $\begin{aligned} & 2,075,000 \\ & 2,855,000 \end{aligned}$ | Total | 1,347 | 357, 972, 505 |

The following table shows how many associations will reach the expiration of their corporate existence during a period of ten years from 1892 to 1901, inclusive, with their capital and circulation:

| Year. | No. of banks. | Capital. | Circulation. | Year. | $\begin{gathered} \text { No. of } \\ \text { banks. } \end{gathered}$ | Capital. | Circulation. |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| 1892. | 96 | \$13, 951, 100 | \$3, 570, 975 | 1898. | 24 | \$2,479, 000 | \$1, 153,350 |
| 1893. | 38 | 4, 701, 000 | 1, 982, 925 |  | 34 | 4,595, 000 | 2, 106,450 |
| 1894. | 57 | 6, 768,000 | $2,585,470$ | $1900$ | $\begin{array}{r}47 \\ 104 \\ \hline\end{array}$ | $7,307,100$ | 2,040, 830 |
| 1895. | 76 22 | $11,259,000$ $2,123,800$ | $\begin{array}{r} 4,431,610 \\ 0_{y}, 5,400 \end{array}$ | 1901 | 104 | $13,503,150$ | 3, 485, 000 |
| 1897. | 25 | 3,534,000 | 1,198, 295 | ota | 523 | 70,221, 150 | 23,530,305 |

The number, capital, and circulation of the national banks of which the corporate existence expired between October 31, 1890, and October 31, 1891, are shown in the following table, and the number of extended banks is also indicated. The corporate existence of five associations expired by limitation:

| Date. | No, banks expired. | Capital. | Circulation. | No. banks extended. | Capital. | Circula. tion. |

## CIRCULATING NOTES.

The actual circulation outstanding on September 25, 1891, for which the banks were responsible was $\$ 134,897,243$, this amount being exclusive of $\$ 37,002,875$ also in circulation but represented by lawful money deposited by the banks for redemption purposes whenever the notes are received by the Treasurer.

The minimum deposit of the bonds required of the 3,677 national banks in operation September 25 , 1891, was $\$ 104,933,987$, upon which only $\$ 94,440,589$ of national-bank circulation could be issued. These banks held, on September $25, \$ 150,035,600$ of bonds, and were actually responsible for $\$ 40,456,654$ of circulation more than the minimum. Some banks do not take circulation.

Of the 3,677 banks 2,651 have a capital not exceeding $\$ 150,000$ nor less than $\$ 50,000$ each, which is the lowest amount any bank in the system may have, the aggregate capital amounting to $\$ 214,126,010$. The remaining 1,026 have a capital of over $\$ 150,000$ each, the aggregate amounting to $\$ 463,300,860$. If an amount of bonds equal to the total capital were deposited to secure circulation the whole body of banks might have a circulation amounting to $\$ 609,684,183$, or $\$ 515,243,594$ more than the present minimum. A table in the Appendix, page 141, shows, by States and geographical divisions, this information in detail.

The following table shows the number of banks organized, by fiscal years, from July 1, 1882, to July 1, 1891, capital stock, amount of bonds deposited, and circulation issued thereon:

| Year. | No. | Capital. | Minimum bonds required. | Bonds actually deposited. | Unit per cent of excess. | Circulation issued. |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| July 1, 1882, to July 1,1883 | 251 | \$26, 552, 300 | \$5, 155, 500 | \$7, 116,400 | 28 | \$6, 404, 760 |
| July 1, 1883, to July 1, 1884. | 218 | 19,944, 000 | 4,016,000 | 4, 076, 100 | 14 | 4,208, 490 |
| July 1, 1884, to July 1, 1885 | 142 | 15, 205, 000 | 3,061, 250 | 3, 332, 800 | 8 | 2, 999,520 |
| July 1, 1885, to July 1, 1886. | 163 | 17, 553, 000 | 3, 404, 500 | 3, 715,500 | 8 | 3,343, 950 |
| July 1, 1886, to July 1, 1887. | 217 | 31, 444, 000 | 4,986,000 | 5,051, 300 | 1 | 4,546, 170 |
| July 1, 1887, to July 1, 1888 | 164 | 16,734, 000 | 3, 308, 500 | 3, 324, 750 | 0.5 | 2,992, 275 |
| July 1, 1888, to July 1, 1889 | 156 | 15, 970, 000 | 3, 155, 000 | 3, 166, 300 | . 36 | 2, 849,670 |
| July 1, 1889, to July 1, 1890 | 291 | 36, 055, 000 | 6,251,250 | 6,262,750 | . 18 | $5,613,915$ |
| July 1, 1890, to July 1, 1891 | 239 | 27,680,000 | 5, 082, 500 | 5, 088,500 | . 12 | 4,579,650 |
| Total | 1,841 | 207, 137, 300 | 38,420,500 | 41,734, 400 | . . .......... | 37, 853, 400 |

The foregoing table is perpetuated to show'by comparison the falling off in the amount of bonds deposited in excess of the requirement, and it will be seen that the percentage of excess has fallen from 28 in 1882-'83 to .12 in 1889-90. Of the 239 banks organized during the past fiscal year 143 have a capital of $\$ 50,000$ each, amounting to $\$ 7,150,000 ; 56$ have a capital of over $\$ 50,000$ and not exceeding $\$ 150,000$, aggregating $\$ 5,280,000$, and 40 have an aggregate capital of $\$ 15,250,000$. The 40 largest banks deposited the exact amount of bonds required by law, and of the remaining 199 banks only 4 deposited bonds in excess of the requirement.

Notwithstanding the continuous accession of new banks to the system, more than counterbalancing the number which fail or are placed in voluntary liquidation from year to year, the outstanding circulation steadily decreases.

The anomaly, however, is presented, as asesult of operations during the past year, of an increased circulation for which the banks are responsible. This increase amounted to $\$ 9,720,287$, and was caused by the organization of new banks and additional deposits of bonds by banks already organized. The aggregate outstanding circulation, however, was reduced by the redemption of $\$ 19,400,679$, for which lawful money had been deposited, leaving a net decrease of $\$ 9,680,392$.

By referring to page 52 it will be observed that the total withdrawal of bonds, for transfer to the Secretary for purchase or redemption, amounted to $\$ 32,378,800$, nearly the whole amount being substituted by other bonds.

The following table shows by comparison for eight years the amounts of lawful money deposited and the consequent decrease of circulation:

> Decrease of National-Bank Circulation during each of the Years ended Octorer 31, from 1884 to 1891, inclusive, and the amount of Lawful Money on deposit at the End of Each Year.

National-bank notes outstanding October 31, 1883, including notes of nationaI gold banks......................
Less lawful money on deposit at same date, including deposits of national gold banks
$\$ 352,013,787$
35, 993, 461
Natioual-bank notes outstanding October 31, 1884, including notes of national gold banks .....................

333, 559, 813
Less lawful money on deposit at same date, including deposits of national gold banks

41, 710, 163
291, 849, 650

The gross decrease of circulation, including the notes of gold banks and those of failed and liquidating associations, was $\$ 7,571,085$.

A number of national banks did not originally take circulating notes for issue, and others eventually deposited lawful money and surrendered theirseirculation.

The following is a list of these banks, the amount of capital and bouds being given:

| Title of bank. | Capital. | Bonds. |
| :---: | :---: | :---: |
| Chemical National Bank, New York, N. Y | \$300, 000 | \$50, 000 |
| Mechanics' National Bank, Now York, N. Y | 2,000,000 | 50,000 |

## SECURITY FOR CIRCULATING NOTES.

The security for circulating notes of national banks is limited, by the Act, to United States registered bonds bearing interest, and the following table shows the amount of such bonds held by the Treasurer of the United States as security on June 30 of each year from 1865 to 1891, inclusive, and the amount owned and held by the banks for other purposes, including those deposited with the Treasurer to secure public deposits:

| Years. | United States bonds held as security for circulation. |  |  |  |  | United States bonds held for other purposes at nearestdate. | Grand total. |

The following table gives similar information for the years ended October 31, from 1882 to 1891, inclusive. An examination of this and the foregoing table will disclose the changes which have occurred in the holdings of the several classes of bonds by the banks:

*Three and one-half per cent.
A table will be found in the Appendix, page 125, showing on the first day of each month, from January 1, 1870, to November 1, 1891, the amount of authorized capital stock of the national banks, the amount of bonds on deposit to secure circulation, the amount of circulation secured by the bonds, the amount of lawful money deposited to redeem outstanding circulation, and the total amount outstanding including notes of gold banks.

## INTEREST-BEARING FUNDED DEBT OF THE UNITED STATES.

The following statement is made to preserve continuity with respect to changes in the funded debt of the United States. The effect upon the holdings of bouds by national banks will be observed elsewhere. The public debt reached the maximum August 31, 1865, and then amounted to $\$ 2,844,649,626$, the non-interest-bearing obligations amounted to $\$ 461,616,311$, the interest-bearing debt being $\$ 2,383,033,315$. On October 31, 1891, the interest-bearing debt amounted to $\$ 649,650,232$.

The classes of bonds available as security for the circulating notes of national banks are shown in the following table, dates of authorizing acts, maturity of bonds, and rates of interest also being given.

- Funded loan 1891; authorizing act July 14, 1870, and January 20, 1871; date of maturity, 1891. $\dagger$ Funded loau 1907; authorizing act July 14, 1870, and January 20, 1871; date of maturity, 1907.
$\ddagger$ Pacific railroad bonds; authorizing act July 1, 1862, and July 2, 1864; date of maturity, 1895 to 1899.
The Navy pension fund, amounting to $\$ 14,000,000$ in 3 per cents, the interest upon which is applied to the payment of naval pensions exclusively, and $\$ 89,070$ of refunding certificates are not included in the table.

The investment value of United States bonds increases as the relative market price of such bonds declines．The $4 \frac{1}{2}$ percents matured Sep－ tember 2,1891 ，and it will be observed that the market price declined very regularly up to date of maturity．The fluctuation in prices of 4 percents was not considerable，the decline，however，being about double that during the previous year．The following table，prepared by the Acting Actuary of the Treasury，will show the movements in prices of the two classes during the year ended October 31，1891：

Opening，Highest，and Lowest Prices of United States Registered $4 \frac{1}{3}$ Per cent and 4 per cent Bonds，in New York，for each Wefi from November 7，1890，to October 30， 1891.

bond purcilases and redemptions by the treasury.
During the past report year, the purchase of 4 per cents was discontinued by the Government in the month of Januatry, the total purchases amounting to $\$ 8,645,850$. Under Treasury circular dated October 9, 1890, the redemption of $4 \frac{1}{2}$ per cents commenced, interest being added to the face of the bond up to and including August 31, 1891. Under the various circulars issued, the total redemptions of $4 \frac{1}{2}$ per cents amounted to $\$ 33,966,150$, and the total purchased and redeemed of both classes to $\$ 42,612,000$. The total purchases and redemption of these two classes of bonds amounted to $\$ 373,484,150$ since the issue of circular dated April 17, 1888. Circular dated July 2, 1891, provided that any of the $4 \frac{1}{2}$ per cents theretofore called for redemption might be presented for continuance during the pleasure of the Government, with interest at the rate of 2 per centum per annum, in lieu of redemption. A subsequent circular extended the time for presentation for continuance to September 30.

The amount of bonds so continued was $\$ 25,364,500$. On November 1, there were $\$ 4,601,500$ of this class of bonds which had not been presented for redemption or continuance. Of this amount the national banks had on deposit to secure circulation $\$ 199,400$. The statutes re-
quire in the organization of a national bank a deposit of United States registered bouds bearing interest, and the few banks holding these bonds, being either indifferent or recalcitrant, were addressed by circular to substitute interest-bearing bonds without delay. The question had heretofore arisen as to the legal status of a bauk having bouds on deposit which did not comply with the statutes, and the question, upon being referred to the Department of Justice, was decided adversely to the banks declining to withdraw non-interest-bearing bonds and substitute others.

Statement showing the amounts of 4 and $4 \frac{1}{2}$ per gent Bonds Purchased and Redeemed each Month from November 1, 1890, to October 31, 1891, inclubive, also the amount of $4 \frac{y}{3}$ per cent Bonds continued at 2 per cent from September 2, 1891.

| Month. | 4 per cent bonds purcbased. | 4 $\frac{2}{2}$ per cent bonds redeemed. | Total purchased and redeemed. | 43 per cent bonds continued at 2 per cent from September 2, 1891. |

BOND WITHDRAWALS BY NATIONAL BANKS.
The effect of the purchase and redemption of bonds during the year by the Treasurer apon the volume of circulation was inconsiderable; for, of the $\$ 3,926,050$ bouds withdrawn by the banks, and substitution not made upward of $\$ 1,553,000$ were withdrawn on account of failed and liquidating banks. Notwithstanding the withdrawal of $\$ 2,372,500$ on account of reducing banks, there was an actual increase in the amount of circulation, for which the banks are responsible, as will be seen elsewhere.

The following table shows the class and amount of bonds withdrawn by the banks, for purchase or redemption under Treasury circulars of October 9, December 6, 1890, June 2, July 2, August 24, September 2, and September 16, 1891, and the class and amount of bonds deposited from October 31, 1890, to November 1, 1891, together with the total withdrawals, on the deposit of lawful money, for which substitution was not made.

|  | Wibhluawn. |  |  | Tnited States bonds in substitution. |  |  |  |  | Total withdrawn upon deposit of lawtul money. |

| Total ...... 200, 113, 528 190, 839, 483 18, 274, 045 1, 643, 550, 335 <br> Unpresented fractions of notes to be deducted from notes redeemed and added to amount of notes outstanding. |  |  |  |  | 1, 471, 571, 662.00 | 171, $978,673.00$ |
|  |  |  |  |  | 26, 288.75 | 26,288. 75 |
| Total |  |  |  |  | 1,471, 545, 373.25 | 172, 004, 961.75 |

The discrepancy in the amount of circulating notes outstanding October 31, which will become apparent when the several statements in this report are compared, is explained as follows:

In the table on this page notes of national gold banks amounting to $\$ 116,837$ are not included, and the table on page 44 includes $\$ 62,760$, representing notes redeemed and destroyed to be reissued.

The total issues of incomplete currency during the year are shown by the vault account, as follows:
National-bank currency in vault October 31, 1890 ..... $\$ 42,504,380$Amount received from the Burean of Engraving and Printing duringthe year ended October 31, 189148, 628, 400
Total. 91, 132, 780
Amount issued to banks during the year ..... \$46, 465, 820Amount canceled during the year, not having been issued1, 631, 240

The following table shows the amount of new currency issned to replace notes redeemed and destroyed under the provisions of the act of June 20, 1874, the amount issued to replace notes redeemed by lawful money deposited under the act of July 12, 1882, and the amount issued to both old and new banks upon bonds deposited for the purpose of obtaining additional circulation. The table also shows the amount of circulation redeemed under the act of June 20, 1874, establishing the na-tional-bank redemption agency of The Treasury at Washington:

Table Showing by States the Amount of "Additional Circulation" Issued and Retired during the Year ended Ootober 31, 1891, and Total Amount Issued and Retired since June 20, 1874.

| States and Territories. | Circulation issued. |  | Total issued | Circulation retired. |  | Total retired. |

| Grand total, Oct.31,1890. |  |  | 258, 912, 523 | 286, 871, 426 | 133, 800, 501 | 436, 938,585 |

Of the above $\$ 15,346,940$ thene were issued to banks onganized during the year $\$ 4,144,590$, and to bamis aheaty existing and increasing their circulation $\$ 11,202,350$. No changes have been made during the past year in the provisions of law relating to the redemption of nationalbank circulation, and the banks are substantially relieved from all requirements relating to redemptions, except those of keeping good a deposit of lawful money with the Treasurer equal to 5 per cent of their circulation, and the payment of a pro rata annual assessment for the cost of redemption.

During the past year the receipts of the National Bank Redemption Agency amounted to $\$ 69,679,242$, of which amount $\$ 32,471,599$, or 46 per cent, was received from New York City, and $\$ 7,407,440$ from the banks in the city of Boston. The amount received from Chicago was $\$ 4,672,057$; from Philadelphia, $\$ 4,556,442$; from Baltimore, $\$ 1,781,695$; from St. Louis, $\$ 1,275,755$; from Cincinnati, $\$ 1,489,079$; from New Orleans, $\$ 1,015,000$; from Providence, $\$ 815,770$, and from Pittsburg, $\$ 517,127$.

A certain proportion of notes received for redemption are fit for circulation, and are returned to the issuing banks. These notes amounted during the year ended October 31, 1891, to $\$ 12,821,000$.

The following table exhibits the amount of national-bank notes received monthly for redemption by the Comptroller of the Currency during the year ended October 31, 1891, and the amount received during the same period at the Redemption Agency of the Treasury, together with the total amount received since the passage of the act of June 20, 1874:

| Months. | eceived by the Comptroller of the Currency. |  |  |  |  | Recoived at the United States Treasury redemption agency. |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  | For national banks in connection with reduction of circulation and replacement with now notes. | From the redemption agency. |  |  | Total. |  |

| 1879. | 41, 101, 830 | Total | 1,471,542, 682 |
| 1880.... | 35, 539, 660 |  |  |

Notes of gold banks are not incluted in the above table.

REDEMPTION OF NOTES OF BANIS REDUCING CIRCULATION, OF THOSE IN VOLUNTARY liquidatmon, and of failed banks under the act of june 20, 1874.

This act provides for a reduction of the outstanding circulation of an association upon the deposit of lawful money with the Treasurer of the United States in sums of not less than $\$ 9,000$, and the act of July 12, 1882, requires a deposit of lawful money for the retirement of the old circulation of banks whose corporate existence has been extended.

Under these acts, and on account of liquidating and insolvent banks, $\$ 454,844,949$ of lawful money has been deposited with the Treasurer, including $\$ 2,663,720$ deposited for the redemption of notes of national gold banks, and $\$ 97,756,232$, for the redemption of national-bank notes under the act of July 12, 1882.

During the year ended October 31, 1891, $\$ 3,545,358$ in lawful money was deposited, $\$ 1,878,28 \%$ of which was by banks reducing circulation, $\$ 1,352,926$ by banks in voluntary liquidation, $\$ 70,398$ by banks retiring old circulation issued prior to the extension of their corporate existence, and $\$ 243,752$ by insolvent bauks.

The total amount deposited prior to and under the acts of June 20 , 1874, and July 12, 1882, is $\$ 469,089,759$, and of this sum $\$ 72,397,467$ was deposited by bauks in liquidation. Deducting from the total deposit the amount of circulating notes redeemed and destroyed without reissue, which was $\$ 433,659,038$, there remained in the hands of the Treasurer on October 31, 1891, $\$ 35,430,721$ in lawful money for the redemption and retirement of national-bank circulation, including \$116,837 for the redemption of the circulating notes of national gold banks.

Prior to June 20, 1874, national-bank notes amounting to $\$ 10,431,135$ were redeemed and destroyed without reissue, $\$ 423,227,903$ having been redeemed, destroyed, and retired since that date. The latter amount includes $\$ 2,546,883$ of the notes of national gold banks and $\$ 78,121,644$ of the notes of national banks whose corporate existence has been extended.

There are no national gold banks now in existence, and the lawful money on deposit with the Treasurer of the United States, amounting to $\$ 116,837$, represents the remaining outstanding circulation of these banks.

## TAX UPON CIRCUI,ATION, REDEMIPTION CEARGIES, AND ASSESSMENTS.

United States statutes subject national banks to the payment of a semiannual duty of one-half of 1 per cent upon the average amount of notes in circulation issued upon deposits of interest-bearing bonds of the United States, and the banks are required under the provisions of the act approved June 20, 1874, to pay the expenses incident to the redemption of their notes to the Treasurer of the United States. The banks are akio required to pay the expenses of preparing plates from which their circulating notes are printed. The fees allowed to national bank examiners are paid by the banks at rates fixed in accordance with the provisions of section 5240 of the Revised Statutes, as amended by the act approved Februayy 19, 1875. The amount of tax upon circulation and assessments collected during the past year were as follows:

| Semi-annual d | \$1, 216, 104. 72 |
| :---: | :---: |
| Cost of redemption of notes by the United States Treasure | 99, 366. $5^{2}$ |
| Assessment for cost of plates, new banks | 18,575.00 |
| Assessment for cost of plates, extended banks | 7, 200. 00 |
| Assessment for examiners' fees (sec. 5240, Revised Statutes) | 138, 969.39 |
| Total. | 1,480, 215.63 |

The following table is a comparative statement of taxes assessed as semi-annual duty on circulation, cost of redemption of notes, cost of plates, and examiners' fees for the past nine years:

| Years. | Semi-annnual duty on circulation. | Cost of redemption of notes by the United States Treasurer. | Assessment for cost of plates, new banks. | Assessment for cost of plates, extended banks. | Assessment for examiners' fees (sec. 5240, R.S.). | Total. |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| 1883. | \$3, 132, 006. 73 | \$147, 592. 27 | \$25, 980.00 | \$34, 120.00 | \$94, 606. 16 | \$3, 434, 305. 16 |
| 1884 | 3, 024, 668. 24 | 160, 896.65 | 18, 845.00 | 1,950.00 | 99,642. 05 | 3, 306, 001.94 |
| 1885 | 2, 794,584.01 | 181, 857, 16 | 13, 150.00 | 97, 800.00 | 107, 781. 73 | 3, 195, 172.90 |
| 1886 | 2,592,021.33 | 168, 243.35 | 14,810.00 | $24,825.00$ | 107, 272, 83 | 2, 907, 172.51 |
| 1887 | 2, 044,922.75 | 138, 967. 00 | 18, 850.00 | 1,750.00 | 110,219. 88 | 2, 314, 709.63 |
| 1888 | 1, 616, 127.53 | 141, 141.48 | 14, 100.00 | 3, 900.00 | 121, 777.86 | 1, 897, 046. 87 |
| 1889 | 1, 410, 331.84 | 131, 190.67 | 12, 200.00 | 575.00 | 136, 725.79 | 1, 685, 023. 30 |
| 1890 | 1, 254,839.65 | 107, 843.39 | 24, 175.00 | 725.00 | 136, 772.7. | 1, 524, 355. 75 |
| 1891. | 1, 216, 104. 72 | 99,366. 52 | 18,575.00 | 7,200.00 | 138,969.39 | 1,480, 215.63 |
| Tota | 19,085, 606.80 | 1,277, 098.49 | 160,685.00 | 172,845.00 | $1,047,768.40$ | 21, 744, 003.69 |

Formerly national banking associations were required to pay a separate tax on both capital and deposits. The act approved March 3, 1883, abated all taxes except that on circulation.

The total tax collected from the national banks up to July 1, 1891, amounted to $\$ 7,855,887.74$ on capital, $\$ 60,940,067.16$ on deposits, and $\$ 71,339,125.04$ on circulation, making a total of $\$ 140,135,079.94$.

## LOANi:。

The following table gives a classifieation of the loans of the national banks in each of the central reserve cities of New York, Chicago, and St. Louis, in other reserve cities classified in groups, and in the rest of the country at nearly the same dates in each of the last five years:

OCTOBER 5, 1887.

In the preceding tables the specie held represents the aggregate of gold and silver coin, Treasurer's certificates, and clearing-house gold certificates. A table will be found in the Appendix, page 148, showing the amount of each kind of coin and certificates held by the banks in each State and reserve city in October, 1888, September, 1889, October, 1890, and September, 1891.

## FAILED BANKS.

Twenty-five national banks, with an aggregate capital of $\$ 3,662,000$, were placed in the hands of receivers during the year, as shown in the following statement. In one case creditors have received 55 per cent of the principal, in another 45 per cent, in three cases 20 per cent, and in three cases 15 per cent.

CAUSES OF FALLURE.
The First National Bank of Meade Center, Kans., closed its doors October 17, 1890, being unable to satisfy demand liabilities presented for payment.
Injudicious loans had been made which were not readily convertible, and a sudden demand for the payment of a county deposit precipitated
suspension. The remote causes of failure were negligence of directors, general stagnation of business, and decrease in values, resulting from contimuons failure of crops.

The First National Bank of Alma, Kans., for several months prior to suspension of business had received more than ordinary attention from the national bank examiner, two examinations having been made within a period of six months. The president of the bank was accused of borrowing money on the strength of the bauk's indorsement for personal use and investuent in private enterprises, and of issuing certificates of deposit in blank sums to be sold under contract by outside parties. Judgments were resting against the president iudividually, and judgment had been obtained against the bank by a correspondent, the sheriff levying upon the real and personal property. The amount of demand liabilities was very small and voluntary liquidation was contemplated, but an examiner, who visited the bank with special instructions, closed the doors on November 10, 1890, after due examination.

The First National Bank of Belleville, Kans., closed its doors December 2,1890 .

The president was a large borrower, and used the bank for individual purposes. The banking house was destroyed by fire October 28 , and from that date deposits gradually diminished, seriously limiting the business of the bank. The president was active in promoting local enterprises, some of which were total failures, and there was no return from investments.

The creditors have been paid 55 per cent on the principal of claims proved.
The American National Bank of Arkansas City, Kans., closed its doors December 8, 1890.
The condition of affairs was complicated. The officers of the bank had used assets to further personal interests, and created large and excessive loans. The immediate cause of suspension was inability to pay a demand certificate of deposit. There was an unwarranted extension of business in attemptiug to sustain enterprises in which the officers were interested, and large sums of money were borrowed upon certificates of deposit at high rates of interest. Dividends were paid to shareholders not justified by the earmings of the bank, and the directors were guilty of gross inattention to daty, disregard of the law and advice from the Comptroller.

Dividends have been paid amounting to 20 per cent on the principal of claims proved, and the assets may prove to be sufficient for payment in full.

The Spokane National Bank of Spokane Falls, Wash., closed its doors December 18, 1890.

The entire management of affairs was committed to the cashier and the vice-president, who were the moving spirits in speculative enterprises, which were carried on without interference or control by the directors, the latter never giving the bank any attention, but leuding their names in support of the reckless operations of the cashier. About one-half of the deposits were locked up in private banks and mining interests. This condition of affairs made it impossible for the bank to meet its demand obligations, and was the immediate cause of suspension.

A divideud of 15 per cent has been paid to creditors on the principal of claims proved.

The City National Bank of Hastings, Nebr., closed its doors December 27, 1890 .

On October 17 an assessinent upon the shareholders, amounting to

50 per cent of the capital stock, was levied by the Comptroller, and remained upaid. The examiner upon taking charge discovered the fact that more than one-half of an increase of capital certified to the Comptroller as having been paid in, and authorized by him in accordance with law, was represented by the notes of subscribers, the obligations remaining unpaid at date of snspension.

Notes had been rediscounted for persons to whom the president had transferred real estate at fictitious values. High rates of interest were paid on certificates of deposit and bills payable to non-resident capitalists for several years prior to the suspension, and dividends not earned were declared and paid to shareholders. The board of directors was inattentive to duty, which made reckless mismanagement possible.

A dividend of 15 per cent has been paid to creditors on the principal of claims proved.

The People's National Bank of Fayetteville, N. C., closed its doors December 31, 1890 , the immediate cause being a slight run by depositors. The condition of affairs, as reported by the examiner upon taking charge, showed gross irregularities by the president and criminal violation of law. As a critical examination progressed, it was found that the bank had been practically insolvent for many years, the Comptroller and the examiners having been deceived through systematic and successful attempts to carry among the assets a large amount of notes and bills as alive and secured which were in fact past due and worthless.

The president was permitted to abstract funds of the bank upon the indorsement of notes taken by him in connection with an outside enterprise, and which were represented as being secured by chattel mortgage. Fictitious drafts were drawn and carried by the bank as bills of exchange. The president was thoroughly dishonest; but, because the directors and other officers either did not know their duties or utterly failed to perform them, he was enabled to completely wreck the bank.

All the facts were promptly reported to the United States district attorney. The president was arrested, but the grand jury failed to find an indictmeut.

A dividend of 20 per cent has been paid to creditors on the principal of claims proved.

The First National Bank of Ellsworth, Kans., closed its doors January 26,1891 . Suspension was inevitable as the result of injudicious and reckless loans to the cashier and his friends, the funds being used and lost in speculation. A dividend of 15 per cent has been paid to creditors on the principal of claims proved.

The Pratt County National Bank, of Pratt, Kans., closed its doors February 26, 1891. The president was a large borrower and a wild speculator. The bank was compelled to take mortgages to secure his indebtedness, which were not valuable as live assets, the aggregate amount representing more than one-half of the capital of the bank. The bank also suffered large losses in the earlier period of its existence, but the management undertook to conduct a successful business by borrowing on bills payable and bills receivable and paying excessive rates of interest on deposits. Upon suddeu demand for the payment of the deposit of the county treasurer, the bank was forced to suspend.

A dividend of 20 per cent has been paid to creditors on the principal of claims proved.
The Second National Bank of McPherson, Kans., closed its doors March 2, 1891. The failure of this bank was due to the reckless man-
agement of its president, who squandered the assots. When the bank suspended he committed sucide.

The Keystone National Bank of Philadelphia, Pa, was closed to business on the morning of March "0, 1891, by order of the Comptroller of the Currency, the examiner inmediately taking charge.

An assessment upon the shareholders had been previously levied to make good an impairment of the capital, as such impairment was then estimated. The assessment was uot respouded to by the shareholders, and upon disclosures made by the president of the bank in person to the Comptroller, on the evening of March 19, immediate action was taken and the bank was closed. According to the records of the bank as then disclosed, the capital had not been entirely lost, but subsequent investigation developed the fact that collusion among the officers and employés had resulted in successfully deceiving the examiner and the Comptroller with respect to the true condition of the bank.

The canses of the failure were reckless and criminal use of funds belonging to the bank, the bookkeeper having aided the president, who is a fugitive from justice, in deceiving the examiner by false entries, such entries being made at or about the dates of examination. This bookkeeper, after the suspeusion, admitted his guilt and was arrested, brought to trial, and sentenced to imprisonment for a term of seven years. Subsequently three other persons connected with the bank were arrested upon information and are now held under bail for collusion.

A thorough investigation has progressed since the date of suspension, for the purpose of ascertaining all the facts and fixing personal liability. The city treasurer of Philadelphia appeared to be a large creditor, and permission was granted State and city authorities to investigate the records of the bank for the purpose of ascertaining the precise facts.

The Treasury Department also instituted an investigation of all the records of the bank, with the view of ascertaining who is liable, criminally or otherwise, for the failuer, which is still in progress.

The Spring Garden National Bank of Philadelphia, Pa., closed its doors on the morning of May 8,1891, being unable to settle with the clearing house. This suspension closely followed that of the Keystone National Bank, and as investigation proceeded it became evident that there had been criminal violations of law. On May 28 the president and cashier were arrested upon information and brought to trial. They were found guilty and relegated to the penitentiary for a term of ten years each.

The First National Bank of Red Cloud, Nebr., was closed by the examiner May 22, 1891, payment of a certificate of deposit having been refused, and in obedience to telegraphic instructions from the Comptroller. Upon investigation it was discovered that the bank had been in an insolvent condition for a cousiderable period of time, such condition having been cansed by irregularities of former officers and general mismanagement. No meeting of the shareholders had apparently been held for more than two years, and the officers and employés immediately in charge were permitted to conduct its affairs. The funds of the bank were largely loaned to its officers and their relatives, the loans not being properly secured.

The National City Bank of Marshall, Mich., closed its doors June 3, 1891. On June 2 the Comptroller was advised that the assistant cashier had embezzled a large sum of money, but that the bondsmen were able and willing to make good the entire loss without delay.

The cashier was very inattentive to duty, and the directors, having
unbounded confidence in the integrity of the employes, grossly neglected the interests of the bank. As investigation proceeded the embezzlement was found to equal the entire capital stock. On May 27 the examiner discovered the defalcation and informed the directors, but as the bank was still considered solvent, no action was taken to secure arrest, and the embezzler escaped before the doors were closed and the examiner took charge.

A dividend of 50 per cent has been paid to creditors upon the primcipal of claims proved.

The Red Cloud National Bank of Red Oloud, Nebr., was closed by order of the Comptroller June 26, 1891. All of its capital was represented by unconvertible securities, and the funds of the bank had been invested in local enterprises, at great loss.

The condition of the bank was due to bad management and a total disregard of sound banking principles.

The Asbury Park National Bank of Asbury Park, N. J., was closed by order of the Comptroller July 1, 1891. During the period of the bank's existence a sufficient amount of individual deposits were not obtained to make a profitable business. A large and costly building was constructed, and as an asset was not consistent with the volume of business. The president borrowed large sums, bad loans were made, and excessive interest was paid. Expenditures and losses were in excess of earnings, the directors were negligent of duty, and false statements of condition were made. The public and correspondent banks lost confidence and suspension became inevitable.

The Central Nebraska National Bank of Broken Bow, Nebr., was closed by the examiner on the morning of June 12, 1891, upon receipt of instructions from the Comptroller. The immediate and remote causes for this action were the heavy loans made to individual directors, aggregating three-fifths of the capital of the bank, and the heavy loss sustained upon bills receivable, which had been foisted upon the bank through questionable methods adopted by the officers in endeavoring to aid outside enterprises wholly foreign to the locality. Large sums of money were borrowed at high rates of interest, for which nearly all of the good paper of the bank had been pledged as security.

The Florence National Bank of Florence, Ala., closed its doors June 22,1891 , the entire capital having been lost. The former president had absolute control, improperly used the funds of the bank to sustain outside enterprises, and was forced to resign; but his management had placed the bank in a position from which it could not recover. The suspension of the bank was precipitated by the protest of drafts aggregating an inconsiderable amount drawn upon a correspondent bank.

The Ninth National Bank of Dallas, Tex., was closed by the examiner July 1, 1891, upon receipt of telegraphic instructions from the Comptroller. The bank commenced business in September, 1890, and was controlled by the cashier, who had previously become indebted for a large amount to another national bank, of which he was an officer, and funds of the Ninth National Bank were used to liquidate his indebtedness. The directors held meetings only on call, and were not attentive to duty. A large proportion of the loans were made to irresponsible parties without sufficient security, and the proceeds were subrogated to the uses of the cashier. A new management was effected, but the capital had become so impaired that suspension was inevitable. After the examiner took charge an attempt was made to control sufficient funds for the payment of creditors in full, so that the bank might be placed in voluntary liquidation, but the effort did not succeed. From the
records it would appear that the failure was almost entirely due to the wild speculations and dishonest practices of the cashier.

The First National Bank of Kansas City, Kaus., closed its doors July 16, 1891, upon demand for the payment of the city deposit. A former president, in conjunction with the vice-president, were active speculators in real estate and the promoters of outside enterprises. These officers, and other real estate dealers, became indebted to the bank for large sums, and when a reaction from abnormally high prices resulting from a so-called "boom" occurred, were unable to meet their obligations or secure them with convertible collaterals. Settlements were forced upon the bank by transfers of real estate, to such an extent that the assets were tainted with a doubtful or worthless character. The credit of the bank having become impaired, confidence was destroyed, and stringency in the money market cansed a withdrawal of deposits. The bank was unable to borrow from correspondents, not being able to pledge sufficient security, and finally could not meet demand obligations.

The First National Bank of Palatka, Fla., closed its doors July 17, 1891. The president was connected with a city banking institution which failed. Public confidence was destroyed, which resulted in a considerable withdrawal of deposits. A large amount of stock, bonds, and real estate mortgages were among the assets, which at date of suspension represented a large loss. Serious depreciation of values and stagnation of business were general in the locality. Formerly, the management having been left entirely to the president, loans and investments were made in outside enterprises, dependent wholly upon the duration of exceptional local prosperity. The president and his relatives were large borrowers, and invested the funds in sustaining local schemes. Finally the bank was unable to borrow from correspondents, or rediscount paper, and could not meet demand obligations.

The Farley National Bank of Montgomery, Ala., closed its doors August 21, 1891. The immediate cause of the suspension was the protest of drafts, aggregating in amount a sum greater than the capital of the bank, which had been cashed in the interests of a railroad company, collateral security being held, but not readily convertible. Efforts are being made to realize upon the security, so that the bank may resume business.

The Rio Grande National Bank of Laredo, Tex., was closed by examiner upon receipt of instructions from the Comptroller September 14, 1891. The principal cause of failure was the use of the bank's funds in sustaining an improvement company which owned a large area of land in the locality. The bank was doing no business, its capital was seriously impaired, and its resources locked up in unconvertible securities. The depositors were few; the aggregate amount due was insignificant, and there was no money in the bank to loan.

The First National Bank of Coldwater, Kans., was closed by a national bank examiner, upon receipt of instructions from the comptroller, September 21, 1891. An assessment upon the capital had been made, but the shareholders did not respond. Former officers of the bank were reckless speculators in real estate, and failed, owing the bank large amounts. Their successors were large borrowers for similar purposes. The general causes which resulted in suspension were bad and careless management and indifference to duty on the part of the directors, who left the management entirely in the hands of the cashier. A movement to raise sufficient funds to pay creditors in full, so that the bank might be placed in voluntary liquidation, was abạndoned.

The First National Bank of Clearfield, Pa., closed its doors September 29, 1891. The entire capital had been lost. The management of the bank rested wholly with the president, who had large interests in outside enterprises and a State bank, using the national bank for individual purposes. Excessive loans were made in sustaining outside deals. Good assets were systematically abstracted, and worthless ${ }^{\circ}$ assets substituted. Loans not represented by the obligations of tirms and companies in some form or other, in which the president was interested, were based upon accommodation paper. Large loans were floated, represented by paper made by persons and firms of doubtful character. The bank acquired control of a mill property, which locked up large sums of money in the purchase and operation, and was a losing investment. The directors were either negligent or guilty of collusion. The irregularities already discovered strongly indicate fraudulent and gross violations of law. The president was promptly arrested and held for trial.

The Washington National Bank of New York City was organized June 5,1890 , with a capital of $\$ 300,000$. Injudicious loans were made, and the capital became seriously impaired. The doors were closed to business March 24, 1891, but the assets being sufficient to pay all liabilities, the bank was permitted to go into voluntary liquidation.

The Newton National Bank of Newton, Kans., closed its doors November 20, 1890. A few months prior to this date an increase of capital stock had been approved by the Comptroller, the affairs of the bank, according to reports, being in good condition. A considerable number of shares of stock were owned by non-residents, who regarded the investment as secure without inquiry as to the conduct of the bank with respect to its management.

After suspension the fact was developed that most of the increase had been collected prior to authorization by the Comptroller, and was represented substantially by loans made to a bank in Guthrie, Okla., which had failed. The cashier of this bank was the cashier of the Newton National Bank and co-manager. The management of the Newton National Bank practically rested with the vice-president and cashier.

Only one-third of the capital stock was held by local shareholders, so that unusual facilities were afforded these officers for using the funds of the bank uncontrolled, as they owned about two-thirds of the stock locally held. The officers borrowed largely from the bank, and pledged a majority of the good bills as collateral security for rediscounts. The Eastern shareholders were prompt in taking steps looking to a repairment of the capital, and their efforts resulted in a deposit of sufficient fresh capital in cash to place the bank upon a solvent footing. The receiver was withdrawn, and the bank was permitted to resume business July 1, 1891.

The Farmers and Merchants' National Bank of Clarksville, Tenn., closed its doors December 10, 1890, on account of the embarrassment created by the failure of a private bank and firms indebted to it in large sums. Reports indicated that the embarrassment was temporary, and immediate steps were taken by the shareholders to repair the capital, so that, if permitted, the bank might resume business. Their efforts were successful, a voluntary assessment was levied and paid, bad debts were charged off, and as a result there became available funds sufficient to pay all liabilities, leaving the capital intact. The bank was permitted to resume business April 20, 1891,

The affairs of three national banks have been closed during the past year and final dividends have been paid to their creditors.

| Name and location of bank. | Date of appointment of receiver. | Total dividends on principal. | Proportion of interest paid. |

| Lancaster National Bank, Clinton, Mass | Jan. 20, 1880 | 100 | 100 |

Out of 4,648 national banks organized since February, 1863, only 164, or about 3.53 per cent, have been placed in the hands of receivers; this includes 9 which had been previously placed in liquidation by the shareholders, but upon their failing to pay depositors the Comptroller appointed receivers to wind up their affairs. Of the 164 failed banks, 35 have paid creditors in full, principal and interest, 6 have paid principal and a part of the interest, and 12 have paid the principal only. The affairs of 102 of the 164 banks have been finally closed, leaving 62 in process of settlement, of which 15 are virtually closed, with the exception of pending litigation, leaving 47 receiverships in active operation.

The total amount so far paid to creditors of insolvent national banks has been $\$ 38,629,123$, upon proved claims amounting to $\$ 57,792,028$. The amount paid during the year has been $\$ 1,725,883$, besides $\$ 15,903$ paid for dividends declared prior to November 1, 1890, on claims proved since that date. Assessments amounting to $\$ 15,173,050$ have been made upon shareholders of insolvent national banks under section 5151 of the Revised Statutes of the United States. From this source the gross collections amount to $\$ 6,621,409$, of which there has been received during the past year $\$ 257,734$. Suits are pending in some cases.

In the Appendix, page 208, a table will be found showing, under various heads, amounts collected from the assets of each of the 164 insol vent national banks, the amomnts disbursed, and the purpose. All moneys and assets are accounted for, and the figures supply all information necessary to the ascertainment of percentages and loss.

Fifteen banks remain in the hands of receivers, the affairs of which are practically wound up, and the trusts are kept on the inactive list because of pending litigation or of the possession of assets, an immediate disposition of which would eutail unnecessary sacrifice. The expenses of a trust in this condition are nominal and limited to what is actually necessary to proper and careful attention to the matters in abeyance. Titles to property pass through a receiver and the courts, but final dividends are sometimes paid from the office of the Comptroller, especially in the event of a considerable lapse of time after a receiver has realized upon all available assets.

By comparison with the report of 1890 it will be observed that only one of the banks then reported on the inactive list has been stricken out. It is expected that the unsettled affairs of most of those in the list will be disposed of within the next year and the receiverships formally terminated.

The following is a list of receiverships in an inactive condition :

| Name and location of bank. | Date of appoinfment of receiver. | Div- <br> idends paid. |
| :---: | :---: | :---: |
| First National Bank, Albion, N. Y | Ang. 26, 1884 | Per cent. $28.50$ |

*And interest. Meeting of shareholders called.
The total number of national banks organized since February 25, 1863 , is 4,648 , of which 3,694 are now in operation, 954 having passed out of the system, accounted for as follows:

Passed into voluntary liquidation to wind up their affairs......................... 629
Less number afterward placed in the hands of receivers.............................. 9
Passed into liquidation for purpose of reorganization............................. ${ }_{80}^{620}$
Passed into liquidation upon expiration of corporate existence................... *91
Placed in hands of receivers....................................................................... 164
Less restored to solvency and resumed business........................................ 1
Total passed out of system........................................................... 954

## BANKS IN VOLUNTARY LIQUIDATION.

National banks complying with United States statutes are permitted to go into voluntary liquidation, and in some instances, when affairs have been partially closed, the Comptroller has been requested to per-

[^2]mit resumption of business, the same title and charter number being retained. The reasons for such requests are generally based upou an unexpected appreciation in the value of assets, a desire to avoid sacrifices seemingly unnecessary, a change of management found to be important, and a desire to retain the title for its business value.

The Supreme Court of the United States has held that a national bank in voluntary liquidation is not dissolved as a corporation, and may bring suit or defend for the purpose of winding up its business (Bank vs. Insurance Company, 104 U. S., 54), and section 7 of the act approved July 12, 1882, provides:

That national banking associations whose corporate existence has expired or shall hereafter expire, and which do not avail themselves of the provisions of this act, shall be required to comply with the provisions of sections 5221 and 5222 of the Revised Statutes in the same manner as if the shareholders had voted to go intoliquidation, as provided in section 5220 of the Revised Statates; and the provisions of sections 5224 and 5225 of the Revised Statutes shall also be applicable to such associations, except as modified by this act; and the franchise of such associations is hereby extended for the sole purpose of liquidating their affairs until such affairs are finally closed.

It has been held by the courts that under act of Congress approved July 12, 1882, extending for the purpose of liquidation the franchises of such national banking associations as do not request an extension of their corporate existence, and making applicable to them the statutes relating to the liquidation of similar banking associations, the shareholders may continue to elect officers and directors for the purpose of effecting liquidation. Ine the case referred to, the court held that the right to elect directors and such other officers as are usually chosen by a business corporation is a part of the corporate franchise, and that when the franchise is extended, although for a limited purpose, the corporation may exercise all the powers originally conferred upon it which are appropriate for that purpose, among which is the election of directors, the right to manage its own affairs belonging to the bank through the shareholders, and not to those who by accident are found to be directors in possession.

In 1868 the question arose as to whether the Comptroller of the Currency had authority to permit a national bank in voluntary liquidation to resume all its corporate powers, the request having been made by a bank which had been permitted to go into voluntary liquidation, the shareholders having rescinded a former resolution, and requesting leave to withdraw notice to the Comptroller of a desire to liquidate the affairs of the bank. The matter was referred to the Department of Justice, and the opinion was rendered that resumption of business under such circumstances would involve too many grave consequences to admit of the supposition that such an event was contemplated by Congress, or that it was consistent with the law.

It has been strongly urged, however, that inasmuch as the association does not lose its corporate entity prior to a disposition of the last remaining asset, title and charter number having been preserved, and the association having been inactive as to new business only, retroactive action by shareholders owning two-thirds of the stock, relative to resumption of business, should be equally potential with the original resolution as to voluntary liquidation, inasmuch as the Comptroller is not inhibited by the law from taking cognizance of such action.

By reference to the statute above quoted it will be seen that associtions which do not avail themselves of the provisions of the act for extension of corporate existence are required to comply with the provisions applicable to associations in voluntary liquidation consequent
upon the action of shareholders, and that the franchises of the class first mentioned are extended for the sole purpose of liquidation. It seems improbable that Congress intended to make a distinction between associations in liquidation by reason of the action or non-action of shareholders, although in the first instance the language of the statute is that the association may be closed, and in the other it is more clearly indicated that the association is to be closed.

Even if it could be conclusively shown that the Comptroller can legally permit a bank in voluntary liquidation to resume business, there would be insuperable objections to the exercise of such authority, arising out of a consideration of those principles which underlie a sound public policy with respect to the security of the depositors and creditors of national banks under existing law. Whenever depositors and creditors are paid in full, shareholders are released from the stock liability prescribed by section 5151 of the Revised Statutes; and, if the association should be resuscitated, by what process could this liability be reassumed or enforced? Furthermore, the convertible assets having been realized to liquidate indebtedness, the doubtful alone remain to represent the interests of shareholders, and as constituting a part of the capital would be a constant menace to the welfare of the association.

## DIREOTORS.

All the powers of a national banking association are exercised through its board of directors. As a general rule it may be said that associations will prosper just in proportion as their directors are intelligent and faithful. The details of the business must of course be in charge of its officers, and the duty of selecting these is one of the greatest responsibilities devolved upon the board, for unless the active managers are skillful, honest, and attentive the affairs of the association can not prosper.

With the selection of a proper corps of officers the duties of the directors are well begun, but this is far from constituting all that is required of them.

A recent decision of the Supreme Court of the United States has attracted attention to the fact that the duties and responsibilities of directors of national banks are now ill defined. Without any purpose to enter into a discussion of the decision in the case mentioned (Briggs vs. Spaulding, et al), the Comptroller desires to say that legislation should make these duties so clear and unequivocal that no person of intelligence could plead ignorance of the requirements of the position.

National banks deriving their franchises from the General Government have in the past been conducted with conspicuous fidelity and have afforded unexampled security to those who have made them the depositary of their funds. While these facts are well known to all who have access to statistics upon the subject, there is still room for progress in the direction of security. No matter what safeguards are provided their enforcement must necessarily be committed to human agencies, and these are often unskillful and occasionally corrupt.

Experience shows that governmental supervision of national banks has been in the past of very great service in promoting safe and conservative banking, although its value is neither fully understood nor appreciated. Upon the directors, however, properly rests the responsibility of management, and any plan which contemplates relieving them in this respect is false in principle and will be found vicious in practice.

Neither can they be safely permitted to delegate their powers and responsibilities to others, nor neglect them with impunity. If the provisions of existing law permit directors of national banks to escape liability for losses resulting from transactions forbidden by the national bank act by pleading ignorance of such transactions, while such ignorance is the result of neglect of the affairs of the associations committed to their charge, it will be useless to expect in the future any better results than have been experienced in the past. As a matter of fact the greatest difficulty experienced by the Comptroller in promoting the successful management of the associations coming under his supervision has resulted from his inability to inspire the directors of national banks with a proper realization of the duties which they owe to the shareholders whom they have consented to serve and the creditors whom they have engaged to protect. The greatest obstacles to be overcome are neglect and inattention. In far too many associations boards of directors never meet except upon the occasions when dividends are to be declared, and even this is sometimes unlawfully attempted without necessary action upon their part.

In other cases there is a disposition exhibited by directors to monopolize the loans and discounts of the bank, thus converting to their own use the funds of others entrusted to their keeping, thereby exposing the bank to losses by reason of want of proper distribution of its loans and subjecting to inconvenience those customers of the bank who are not favored with a place at the directors' table. Such inattention and selfishness are too often the characteristics of bank directors and are productive of serious consequences, but when accompanied, as they sometimes are, by lack of integrity the most direful results are realized.

In relation to no matter connected with the conduct of national banks is legislation more imperatively demanded than in making plain the duties of those who accept the position of directors.

If to absent themselves from the bank and from the meetings of the board affords safe grounds of defense when it is sought to hold them accountable for losses which their presence and reasonable oversight would have prevented, then the public have been grossly deceived as to the measure of duty which shareholders and creditors may properly demand of officers to whom such important trusts have been committed. If the board of directors may safely neglect everything connected with the conduct of a bank except the election of officers and the declaration of dividends, then the law is greatly at fault. Such a complete abdication of powers ought not to go unrebuked and unpunished. All other saleguards will prove of little value if the chosen and only representatives of the shareholders may lawfully refuse and neglect to give the interests committed to their care such attention and supervision as successful proprietorship has at all times demanded.

## LEGAL DEOISIONS.

A digest of the most prominent national-bank cases will be found in the appendix, page 00, decisions by the courts having been added from year to year. This digest is intended to furnish the management of national banks with a convenient source of reference and to accommodate the general public, much correspondence with the office being thus avoided which would otherwise be necessary.

A very important case was decided by the Supreme Court of the United States during the last term affecting the liability of directors of national banks with respect to negligence and inattention to duty.

The present membership of the New York Clearing-House Association comprises 45 national banks, 18 State banks, and the sulbtreasury at New York; sixty-four members in all. There are 50 national and 44 State banks in New York City, and 5 national and 26 State banks not being members, clear through other banks which are members of the association.

The following information with respect to the operations of the clear-ing-house associations in the United States has been kindly furnished, upon request, by Mr. W. A. Camp, manager of the Clearing-House Association at New York City:

Comparative Statement for Two Years of the Transactions of the New York Clearing-House, Showing Aggregate Amount of Clearings, Aggregate Balances, and the Kinds and Amounts of Money Passing in Settlement of these Balances.

[^3]The following is a comparative statement of transactions of the New York Clearing House for thirty-eight years, and shows for each year the number of banks, aggregate capital, clearings aud balances, average of the daily clearings and balances, and the percentage of balances to clearings:

| Year. | No. of banks. | Capital.* | Clearings. | Balances paid in money. | $\begin{gathered} \text { Average } \\ \text { daily } \\ \text { clearings. } \end{gathered}$ | Average daily balances paid in money. | Bal. ances to clearings. |

It will be observed that as compared with the previous year there was a decrease in the volume of exchanges amounting to over $\$ 3,000,000,000$, and that nearly the whole of such decrease occurred in the three principal eastern cities. The exehanges in New York amounted to about 60 per cent of the whole sum for the United States.

A table will be found on page 171 of the Appendix, compiled from returns made to the Clearing House by the national banksin New York City, exhibiting the movement of their reserve, weekly, during October, for the last fifteen years.

STATE, SAVINGS, PRIVATE BANKS, LOAN AND TRUST COMPANIES.
In addition to reporting the condition of associations organized under national authority, the law provides that the Comptroller of the Currency shall procure and publish in his annual report to Congress statements exhibiting the condition of banks, banking companies, and savings banks organized under State and Territorial laws; and through the courtesy of public officials, in all but 18 of the States and Territories, this Bureau has beeu favored with statements of condition of such banking institutions. It has been the custom for the past few years to add to information of that character similar returns from banks in States in which examinations are not authorized by law and reports of condition exacted. Such information is procured through direct correspondence with each bank and banker, over 5,500 laving been requested to furnish statements for this report.

While there is an apparent reluctance upon the part of proprietors of private bauks to submit reports of their condition, officers of incorporated institutions report so generally that the returns herewith given represent over 93 per cent of these institutious stated to be in operation, and unquestionably a larger percentage of their total banking resourees. During the year ended January 1, 1891, there was an increase of 606 over the prior year in number of banks organized, and an increase of 583 in the number from which reports have been received this year, indicating that the field is practically covered by the returns herewith published. Deviating in a measure from the plan of tabulating these reports as heretofore given (official and unofficial returns having been abstracted and compied separately), it has been deemed best to consolidate all reports of each class of banks by States, simply indicating official and unofficial returns by proper references.
Including reports made by private banks and bankers, statements representing the resources and liabilities of 4,989 incorporated and private banking institutions have been received, the aggregate resources amounting to $\$ 3,448,785,431$, the principal items of assets being $\$ 805$,901,113 , loans on real estate; $\$ 413,938,942$ on collateral security other than real estate; $\$ 840,567,612$ other loans and discounts; $\$ 157,933,522$ United States bonds; $\$ 327,172,153$ State, county, and municipal bonds; $\$ 384,888,905$ railroad, bank, and other stocks and bonds; $\$ 212,520,844$ due from banks and bankers; $\$ 85,804,914$ real estate, etc.; $\$ 165,634,081$ cash on hand. The aggregate capital employed amounts to $\$ 356,749,315$; surplus and undivided profits, $\$ 304,624,493$; deposits, $\$ 2,661,752,961$.

Of the 4,989 reports, 2,572 are made by commercial institutions, classified in this compilation, as State banks, having an aggregate capital of $\$ 208,564,841$; surplus and undivided profits, $\$ 81,116,533$; deposits, $\$ 556,637,012$.

Reports from 171 loan and trust companies show their aggregate resources to be $\$ 536,628,202$. The capital of these companies is $\$ 79,-$ 292,889 ; surplus and undivided profits, $\$ 55,503,845$; and deposits, $\$ 355,330,080$.

Especial interest attaches to the operations and condition of savings bauks, the repositories of the accumulations of the wage-carners, in view of the extent of the obligations of these institutions and particDigitized forulatlyeas their deposits represent nearly 90 per cent of their entire
liabilities. Including the 364 stock savings banks, reports of condition have been received fiom 1,011 savings bamks and savings institutions. Of the 647 non-capitalized iustitutions, classed as mutual, all but 11 are located in the New England and Middle States, while of those with capital but 28 are to be found in that section, the remainder, 336, being in the Southern and Westerı States and Territories.

The aggregate resources of all savings bauks amount to $\$ 1,854,517$,069 , of which loans on real estate amount to $\$ 687,583,977$; loans on collateral security other than real estate, $\$ 93,679,153$; and other loans and discounts, $\$ 198,134,045$. The following figures represent their investments in bonds, stocks, etc.: In United States bonds, $\$ 139,267,045$; State, county, and municipal bonds, $\$ 320,278,708$; in all other bonds. and stock, $\$ 268,994,583$. The amount invested in real estate is $\$ 30,438$,232 , and the funds with other banks and cash on hand, $\$ 70,660,882$ and $\$ 29,720,473$, respectively. Of the liabilities of these 1,011 institutions, $\$ 32,106,127$ represents their capital, $\$ 155,857,493$ surplus and undivided profits, $\$ 1,623,079,749$ savings deposits, and $\$ 31,746,393$ other deposits. The interest paid by mutual institutions ranges from 2 to 4 per cent, and by stock savings banks from 2 to 6 per cent, the average rate paid by the latter slightly exceeding, apparently, the rate paid by mutual institutions, while the deposits held by the mutuals are about 75 per cent of the total deposits in both classes.

Of the 2,500 reports of condition made to this Bureau directly, 1,235 were submitted by private banks and bankers, having an aggregate capital of $\$ 36,785,458$; surplus and undivided profits, $\$ 12,146,622$; deposits, $\$ 94,959,727$.

The following tables present summaries of this information:

## Aggregate Resources and Liabilities of all State Banks, Loan and Trust Companies, and Savings and Private Banks, 1890-91.

The distribution of the circulating medium of the country as shown by the cash holdings of national and other banks on or about the close of the fiscal year ended June 30, 1891, is exhibited in the following table.

The total cash on hand held by banks other than national, 4,989 in number, was $\$ 165,634,081$, of which $\$ 8,883,552$, was gold, $\$ 1,939,647$ silver, $\$ 45,456,720$ paper currency, $\$ 15,713,390$ specie not classified, and $\$ 93,640,772$ cash not classified. The total amount held by national and other banks was $\$ 479,085,588$.

Statement showing tife Amount of Gold, Silver, etc., held by National Banks on July 9, 1891, and by other Banking Institutions on or about the same date.

| Total. | 313, 451, 507 | 185,634, 081 | 479, 085, 588 |

In the Appendix, p. 236, tables will be found showing by States and Territories the condition of banks other than national, as obtained from both official and unofficial sources; aggregate resources and liabilities of each class; comparative statements of condition of State banks, 1872 to 1891 ; loan and trust companies, 1886-987 to 1890-91; savings banks, 1886-'87 to 1890-991; private banks, 1887-91; deposits in savings banks, number of depositors and average amount due each, by States, in 1889-90 and 1890-91; and a summary of condition of the chartered banks in the Dominion of Canada. On page 234 will be found a table showing by States and Territories the estimated population of each on June 1, 1891, based on the census of 1890, and the aggregate capital, surplus, undivided profits, and individual deposits of national and State banks, loan and trust companies, and savings and private banks of the United States at date of reports of the various classes, nearest thereto, the average of these per capita and the per capita average of such resources in each class of banks. It appears that the population of the country on the date in question was $64,156,300$, and the total banking funds $\$ 5,840,438,191$, an average of $\$ 91.03$. The per capita averages of such resources in each class of banks are: National banks, $\$ 39.32$; State banks, $\$ 13.13$; loan and trust companies, $\$ 7.63$; savings banks, $\$ 28.72$; and private banks, $\$ 2.23$.

## LOAN AND TRUST COMPANIES IN THE DISTRICT OF COLUMBIA.

During the first session of the Fifty-first Congress an act passed entitled, "An act to provide for the incorporation of trust, loan, mortgage, and certain other corporations within the District of Columbia." This act was approved on the 1 st day of October, 1890. Under its provisions companies can be formed for the purpose of carrying on within the District of Columbia any one of the three classes of business specified as follows:

First. A safe deposit, trust, loan, and mortgage business.
Second. A title insurance, loan, and mortgage business.
Third. A security, guaranty, indemnity, loan, and mortgage business.
It is further provided that the capital stock of said companies shall not be less than $\$ 1,000,000$, and that any of these companies may condnct a storage business when its capital stock amounts to the sum of not less than $\$ 1,200,000$.

Two methods are provided whereby companies may come under the provisions of the act.
(1) By an association of not less than twenty-five natural persons to form a company, which shall receive its original charter from the Commissioners of the District of Columbia and thereby become a body corporate and politic, and as such vested with all the powers and charged with all the liabilities conferred and imposed by the act upon companies organized under the provisions thereof.
(2) Provision is made that any safe deposit company, trust company, surety or guaranty company, or title insurance company, incorporated and operating under the laws of the United States or the District of Columbia, or of any of the States, and doing business in said District at the time of the passage of said act, may avail itself of the provisions of the act.

No charters have been issued by the Commissioners of the District of Columbia to corporations formed by the association of natural persons under the first method provided for in the act, but three companies, incorporated previous to the passage of the act and at that time doing business in said District, have availed themselves of its provisions, to wit: The American Security and Trust Company, the Washington Loan and Trust Company, and the National Safe Deposit Company.

The American Security and Trust Company was originally chartered under the laws of the State of Virginia, on the 12 th day of October, 1889 , with a capital stock of $\$ 1,250,000$, divided into shares of the par value of $\$ 100$ each. This company executed a certificate of its intention to avail itself of the provisions of the act of Congress, on the 11th day of November, 1890, and filed the same with the Comptroller of the Currency. It having complied with all the provisions of law applicable thereto, on the 17 th of November, 1890, the Comptroller issued to said company the certificate contemplated by section 5 of the act approved October 1, 1890, and the company has since that date been operating under its provisions.

The Washington Loan and Trust Company was incorporated under the laws of the State of West Virginia on the 15th day of August, 1889. This company has a capital of $\$ 1,000,000$, divided into shares of $\$ 100$ each, and was doing business in the District of Columbia at the date of the passage of the act of Congress above referred to. It having filed with the Comptroller of the Currency a certificate of its intention to avail itself of the provisions of the act aforesaid and having complied with the other requirements of the act, the Comptroller issued to said company, on the 13th day of December, 1890, a certificate that it was entitled to transact the business of a trust company.

The National Safe Deposit Company of Washington was at the date of the passage of the act of Congress first above mentioned doing business in the District of Columbia as a safe deposit company, incorporated by act of Congress approved January 22, 1867. On the 17 th of March, 1891, this company executed a certificate of its intention to avail itself of the provisions of the act of Congress approved October 1, 1890. It having complied with the provisions of law, the Comptroller issued to said company, on the 3d day of April, 1891, the certificate contemplated by the provisions of section 5 of said act, under which it was authorized to enter upon the business of a trust company. It also has a capital of $\$ 1,000,000$.

Each of these companies has declared its intention to avail itself of the provisions of the act of Congress aforesaid for the purpose of carrying on the kind or class of business described in subdivision 1 of section 1 of said act; that is to say, a safe deposit, trust, loan, and mortgage business, in addition to the powers lawfully exercised at the time
they severally came under the operations of the act of Congress above referred to. Each of these companies has also deposited with the Comptroller of the Currency securities equal in actual value to onefourth of the capital stock paid in, and is therefore entitled to become and act as administrator, executor, guardian of the estate of a minor, or undertake any other kindred fiduciary duty authorized by the act. One, the American Security and Trust Company, is also authorized to do a storage business, in accordance with the second proviso to the third paragraph of section 1 of the act above referred to.

These several companies have each been duly examined, and have made and published reports of condition from time to time as contemplated by the provisions of sections 5211,5212 , and 5213 of the Revised Statutes of the United States. A statement of condition at date of last report will be found in the Appendix, pages 251-253.

Aside from associations formed under the national bank act and those above enumerated, only one other corporation located in the District of Columbia comes in any manner under the supervision of the Oomptroller of the Currency.

The institution herein referred to is the National Savings Bank of the District of Columbia. This institution was chartered May 24, 1870, and has since been in operation. It is now, however, practically in process of liquidation, its business being gradually transferred to and absorbed by the National Safe Deposit Company, above referred to. A report of its condition on the 25th of September is published in the Appendix, page 250, which will show its condition at that time. It is understood to be the purpose of the directors of this bank to complete the tranfer of its business to the National Safe Deposit Company and to finally close its affairs at the earliest practicable date.

## CONCLUSION.

During the year covered by the report the country has been passing through a financial crisis, unique in its character but of great severity. In no country are the conditions more favorable to the success of well directed enterprise than in this, and in none can the speculative operator find a more tempting and fruitful field. These conditions necessarily tend toward overtrading and undue expansion of credits, and these in due time result in collapse and general finaucial distress.

Although periods of business disaster follow each other at reasonably well-defined intervals, the multitude, oblivious of the past, are always taken unawares. Those charged with the management of national banks are not free from the optimistic spirit which characterizes their fellows, and hence the associations under their control invariably suffer whenever these periods of depression recur. The failures witnessed during the year just closed exemplify the operations of the forces to which allusion is made.

Whenever we consider the immense shrinkage of values which the liquidations of the past twelve months involves, we are surprised that the associations constituting the national system have not suffered more severely. The growth of this system in recent years must not be overlooked when we are called upon to consider the degree of success that has attended its operations.

It is rapidly becoming popularized and for that reason more intimately connected with the business enterprises of the common people, reflecting with increasing faithfulness the degree of success or failure that attends their various commercial and industrial pursuits. So long as
banking remains free, associations will be formed by inexperienced men whose management will sometimes prove unskillful and disastrous. So long as dishonest men exist banks must not expect to entirely escape the defalcations and embezzlements which occasionally startle the public. Failures are inevitable under any system which stops short of governmental guaranty, and the latter is, of course, impracticable. That system, then, is best, all else being equal, which is found upon trial to exhibit the minimum of failures. In this respect, the national system stands unapproached and indisputably superior to all which have preceded it. It is confidently hoped therefore that such measures will be taken by Congress as will serve to perfect a system which has proved so effective in the past, and which is so necessary to the future welfare of the people.

The Comptroller desires in closing to say that the past year has devolved upon the Currency Bureau an amount of labor and responsibility which is entirely unprecedented. To those associated with him in the conduct of the affairs of the Office he is greatly indebted for the intelligent and faithful service which has made it possible to meet these increased responsibilities. He also desires to gratefully acknowledge the valuable assistance rendered him by those charged with the preparation of the statistical matter contained in this report.

Edward S. Lacey, Comptroller of the Currency.
The Speaker of the House of Representatives.

## EXPENSES OF THE OFFICE OF THE COMPTROLLER OF THE CURRENCY FOR THE YEAR ENDED JUNE 30, 1891.

The contingent expenses of the office are not paid by the Comptroller, bnt from the general appropriationfor oontingenterpenses of the 'reasury Department; no separate account of them is kept in this office.

# a DIGEST OF NATIONAL-BANK CASES. 

## CONTENTS.

## I. Constitutional lawr.

(1) Powers of Congress; (2) Powers of the States.

## II. Powers and liabilities of national banking associations.

(1) Implied powers; (2) As to collateral securities; (3) Special deposits; (4) Government securities; (5) Certified check; (6) Purchasing check; (7) Stock; (8) Deposits to secure performance of contract; (9) Loans in excess of one-tenth capital ; (10) Real estate; (11) Certificates of deposit; (12) Lien on dividends; (13) Contracts and obligations of old corporation; (14) Place of business; (15) Circulating notes; (16) Business of liquidating association.

## III. Ultra vires.

(1) Dealing in stocks; (2) Purchasing negotiable paper ; (3) Lending credit; (4) Mortgages on real estate; (5) When association can not set up want of power.
IV. Stock.
(1) Purchasing its own stock; (2) Lien on stock; (3) May be attached; (4) Capital set free belongs to shareholders; (5) Contract to give shares for business; (6) Transfer of stock ; (7) Subscriptions to increase of capital stock; (8) Specific performance of contract to sell.

## V. Shareholders.

(1) Estopped to deny incorporation ; (2) Individual liability; (3) When liability disqualities from voting; (4) Right to inspect books.
VI. Officers.
(1) Tenure of office; (2) Bonds of officers; (3) Directors must act as a board; (4) Borrowing of association; (5) Liability for violations of law ; (6) Directors of converted banks ; (7) Retirement of directors.

## VII. Interest.

(1) What interest associations may take; (2) On claims against insolvent and liquidating associations; (3) Usury.

## VIII. Insolvent associations.

(1) Not subject to baukrupt act; (2) What constitates insolvency; (3) Assets a trust fund ; (4) United States lias no priority; (5) Claims for torts; (6) Preferences; (7) Basis for estimation of dividends; (8) Set-off ; (9) Claim for breach of contract of lease.

## IX. Receiver.

(1) Officer of the United States; (2) Whom he represents; (3) How far subject to Comptroller's orders; (4) Power of courts to appoint ; (5) Deltors of association cau not question legality of appointment; (6) Receiver's decision not final ; (7) Sale by; (8) Contracts of; (9) Expenses of receivership for association which has gone into liquidation.

## X. Taxation.

(1) What may be taxed; (2) Rate; (3) Valnation ; (4) Exemptions; (5) Collection of tax from association; (6) License tax; (7) Powers of taxingofficers; (8) Euforcement of taxes; (9) Location of association for taxing purposes.
XI. Jurisdiction.
(1) Jurisdiction of Federal courts prior to the act of July 12, 1882; (2) Jurisdiction of Federal courts subsequent to act of July 12, 1882; (3) Jurisdiction of State courts; (4) United States can not be snbjected to jurisdiction of court; (5) Citizenship.

## XII. Suits.

(1) By and against associations; (2) By shareholders; (3) By receivers; (4) By creditors of insolvent association; (5) For usury; (6) To enforce liability of shareholders; (7) Execution; (8) Attachments; (9) Abatement; (10) Estoppel; (11) Suits agaiust liquidating associations; (12) Transitory and local suits; (13) Survival of suits.

## XIII. Evidence.

(1) Certificate of Comptroller; (2) Evidence of insolvency; (3) Necessity for assessment by Comptroller.

## XIV. Crimes.

(1) Under United States laws; (2) Under State laws; (3) Term "United States currency" in penal statutes.

## I. CONSTITTUTIONAL LAW.

1. Powers of Congress:
(a) Congress has the constitutional power to incorporate banks. (MoCulloch v . Maryland, 4 Wheat., 316; Osborne v. Bank of the United States, 9 Wheat., 738.)
(b) Congress has power to clothe national banking associations, as to their contracts and dealings with the world, with any special immunities and privileges exempting them, in their trade and intercourse with others, from the laws and remedies applicable in like cases to other citizens. (The Chesapeake Bank v. The First National Bank of Baltimore, 40 Md., 269.)
(c) Thus, the provision of the bauking law that no attachmett, injunction, or execution shall issue against a national banking associatiou before final judgment in any suit, action, or proceeding in a State court is constitutional. (Ibid.)
(d) The tax imposed on State or national banks paying out the notes of individuals or State banks for circulation is constitutional. (Veazie Bank v. Fenno, 8 Wall., 533.)
(e) So is the tax imposed on them for paying out the circulating notes of municipal corporations. (Merchants' National Bank of Little Rock v. Uniled -States, 101 U. S., 1.)
$(f)$ Such a tax is not a direct tax within the meaning of the clause of the Constitution which declares that "direct taxes shall be apportioned among the several States according to their respective numbers." (Veazie Bank v. Fenno and Mechanies' National Bank of Little Rock v. United States, supra.)
(g) Congress having, in the exercise of undisputed constitutional powers, undertaken to provide a currency for the whole country, may secure the benefit of it to the people by appropriate legislation. (Veazie Bank v. Fenno, supra.
(h) Congress has the power to divest the United States courts of their jurisdiction of suits by or against national banking associations. (National Bank of Jefferson v. Fare et al., U. S. C. C. (E. D. Texas), 25 Fed. Rep., 209.)
2. Powers of the States:
(a) National banking associations, being instruments designed to aid the Government in the administration of a branch of the public service, can not be controlled by the States, except in so far as Congress may see proper to permit. (Farners and Mechanics' Bank v. Dearing, 91 Г. S., 29.)
(b) No authority from the State is necessary to enable a State bank to convert itself into a national banking association. (Casey. v. Galli, 94 U. S., 673.)
(c) National banking associations located outside of a State are subject to its restraining acts prohibiting all corporations, not anthorized by the law of the State, from keeping therein offices for tho purpose of discount and deposit. (National Bank of Fairlaven v. The Phernix Warehousing Company, 6 Han, 71).
(d) It is competent for a State by penal enactments to protect its citizens in their dealings with national bauking associations located within the State. (State v. Fuller, 34 Corn., 280; see also Taxation and Jurisdiction.)

## II. POWERS AND LIABILITIES.

1. Implied powers:

To the enumerated powers of national banking associations are to be superadded all the powers incidental to the business of banking. (Patti8on r . Syracuse National Bank, 80 N.Y., 82.)
2. As to collateral securities:
(a) A national banking association may take stock of a corporation as collateral security for a loan. (Shoemaker v. The National Mechanics' Bank, 2 Abb. U. S., 416; Canfield v. The State National Rank of Minneapolis, U. S. C. C. (Dist. Miın.), 1 Northwestern Reporter, 173.)
2. As to collateral securities-Continued.
(b) And it may take for such purpose the stock of another national banking association. (National Bank v. Case, 99 U. S., 628.)
Note.-But this point was not necessary to the decision of the case.
(c) A national banking association may take a pledge of personal chattels as secnrity for a loan. (Pitisburg Locomotive and Car Worles v. State National Bank of Keokuk, U. S. C. C. (Eighth Circuit, 1875), 2 Cent. L. J., 692.)
(d) A national banking association may take as security for a loan tlie indorsement of a married woman, charging her separate estate. Such security is to be treated as personal security, within the meaning of the banking law, and not as a mortgage. (Third National Bank v. Blake, 73 N. Y., 260).
(e) A national banking association may take as collateral security for a loan a warehonse receipt for merchandise. (Cleveland, Brown \& Co., v. Shoeman, 40 Ohio St., 176.)
( $f$ ) A national bauking association may take as security for a loan the stock of a corporation whose entire capital is vested in real estate. Such a loan does not amount to a lending upon mortgage. (Baldwin v. Canfield, 26 Minn., 43.)
(g) An agreement by a national banking association to the effect that, in case a note discounted by it shall not be paid, a mortgage given by the maker to his indorser shall inure to the benefit of the association, is not inhibited by the national bauking law. (First National Bank v. Haire, 36 Iowa, 443; see also National Bank v. Matthews, 98 U. S., 821.$)$
(l) A national banking association having taken a wortgage on real estate to secure a debt previously contracted may, in order to protect itself, pay off a prior lien on the said real estate; and the lien which it thus acquires it may enforce. (Ornn v. Merchants' National Bank, 16 Kans., 341 ; Holmes v. Boyd, 90 Ind., 332.)
(i) Where a national banking association has takeu collaterals to secure a loan, and, after the loan has been repaid, holds them to secure future advances, it is not a gratuitous bailee; and it is responsible for the loss of such collaterals occasioned by its lack of ordinary care and diligence, though at the time the bailor was not indebted to it. (Third Nutional Bank of Baltimore v. Boyd, 44 Md., 47.)
3. Special deposits:
(a) A national banking association may receive special deposits. The provisiou in section 5228, Revised Statutes, authorizing au association "to deliver special deposits" implies that it may receive them as a part of its legitimate bnsiness; and this implication is as effectual as an express declaration to the same effect would have been. (National Bank v. Graham, 100 J. S., 699.)
(b) National banking associations have power to receive special deposits either gratuitously or otherwise. (Pattison v. Syracuse National Bank, 80 N. Y., 82.)
(c) But the executive officers of an association can not bind it as a gratuitous bailee, unless they have a special authority from the board of directors so to do, or there exists a general custom or usage to that effect. (First National Bank of Lyons v. Ocean National Bank, 60 N. Y., 278.)
4. Government securities:
(a) National banking associations can engage in the business of dealing in and exchanging Goyernment securities. (Van Leuven v. First National Bank, 54 N. Y., 671 ; Yerkes v. National Bank of Port Jervis, 69 N. Y., 383 ; Leach v. Hale, 31 Yowa, 69.)
(b) And where an association receives United States bonds of one class for the purpose of having them oonverted into bonds of another class, it is not a mere mandatary, but is responsible for the failure to deliver the bonds on demand. (Leach v. Hale, supra.)
5. Certieled check:

A national banking association may "certify" a check. A "certified" check is not within the meaning of section 5183 , Revised Statutes, which prohibits the issuing of post-notse or any notes to circulate as money other than such as are anthorized wy the national banking law. (Merchants' National Bank v. Stute National Bank, 10 Wall., 604.)
6. Purchasing check:

A national bank may buy a check drawn upon another bank; and whether the check is payable to order or to bearer is immaterial. (First National Bank of Rochester v. Harris, 108 Mass., 514.)
7. Stock:
(a) A national banking association, in the compromise of a claim growing ont of its legitimate business, may take railroad stock. (First Nutional Bank of Charlotte v. National Exchange Bank of Baltimore, 9: U. S., 192.)
(b) And when necessary to do so, it may pay the difference between the value of the stock and the amount of the claim. (Ibid.)
(c) A national banking association may take and hold the coupons of municipal bonds, and may maintain actions thereon. (First National Bank of North Bennington v. Town of Bennington, U. S. C. C. (Dist. Vt.), Browne's N. B. Cas., 437 ; see also Lyons v. Lyons National Bank, 19 Blatch., 279.)

## 8. Deposits to secure pfrformance of contract :

A national banking association may receive a deposit to be held by it as security for the faithful performance of a contract between the depositor aud another. (Bushnell v. The Chautauqua County National Bank, 10 Hun, 378.)
Note.--Bat the court put the decision upon the furtber grouud that even were the contract ultra vires, the association, having received the deposit, was estopped from setting up its want of power.
9. Loans in excess of one-tenter capital:
(a) Sec. 5200, Revised Statutes, which provides that the total liabilities to any association of auy person, etc., shall not exceed one-tenth part of the capital stock paid in, was intended only for the guidance of the association, and, though its franchises may be liable to forfeiture for violation of the law, the association may recover of the borrower the full amount of the loan. (Gold Mining Company v. Rocky Mountain National Bank, $96 \quad U$. S., 640; O'Hare v. Second National Bank of Titusville, 77 Penn. St., 96; Shoemaker v. The National Mechanics' Bank, 2 Abb. U. S., 416 ; Stewart v. National Jnion Bank of Maryland, 2 Abb. U. S., 424.)
(b) A note is not illegal because at the time it was discounted by the association the maker was indelted to the association in a sum equal to more than one-tenth part of its capital. (O'Hare v. Second National Bank of Titusville, supra.)
(c) And a court of equity will not enjoin an association, at the instance of the borrower, from transferring to innocent third persons notes and securities, on the ground that the notes represent part of a loan made in excess of 10 per cent of the capital of the association. (Elder v. First National Bank of Ottawa, 12 Kans., 238.)
(d) Where a State bank makes a loan to one person of an amount in excess of one-tenth part of its capital, and is afterward couverted into a national bank, it may, after conversion, extend the time for payment of such loan withont violating section 5200, Revised Statutes. (Allen v. The First National Bank of Xenia, 23 Ohio St., 97.)
10. Real estate:
(a) Where a national banking association acquires real estate which it is not anthorized to take, the conveyance to it is not void, but only voidable. And the title of the association to such real estate is good until assailed in a direct proceeding by the Government. (Reynolds v. Crawfordsville Bank, 112 U.S., 405 ; see also National Bank v. Matthews, 98 U. S., 621 ; National Bank v. Whitney, 103 U. S., 99 ; Swope v. Leffingwell, 105 U. S., 3 ; Fortier v. New Orleans Bank, 112 U. S., 439.)
(b) The amount of real estate which a national banking association may purchase to secure a pre-existing delt is not limited to the exact amount of the delot, but as mueh may be parchased as is necessary to secure the debt due, so long as the security of such debt is the real olject of the purchase. (Upton v. National Bank of South Reading, 1\$0 Mass., 153.)
(c) Where the purpose is to secure a debt previously contracted, a national banking association may take a conveyance of real estate worth more than the delot, and pay the difference between the debt and the value of the property. (Libby v. Union National Bank, 99 Ill., 622.)
(d) Where a national banking association sells real estate it may take a mortgage thereon to secure the payment of the purchase-money. (New Orleans National Bank v. Raymond, 29 La. Ann., 355.)
11. Certificates of deposit:

National banking associations may issue certificates of deposit. Such certificates are not post-notes within the prohibition of section 5183, Revised Statutes. (Hunt v. Appellant, Supreme Court of Mass., May 7, 1t86; Rid. dle v. First National Bank, D. S. C. C. (W. D. Penn.), 27 Fed. Rep., 503.)

## 1\%. Lien on dividenis

An association has equitable lien upon dividends declared for any just debt due to it from the shareholders. (Hager v. Union National Bank, 63 Me., 509.)
13. CONTi?ACDS AND OBLIGATIONS OF OLD CORPORATION:
(a) Where a State bank las been converted into a national bauking associa. tion it may enforce all contracts made with it while a State corporation. (City National Bank v. Phelps, 97 N. Y., 44.)
(b) And it is liable, after the conversion, for all the obligations of the old institutior. (Coffee v. The National Bank of Missouri, 46 Mo., 140; Kelsey v. The National Bank of Crauford, 69 Penn. St., 426.)
(e) A national banking association organized as the successor of a State bank may take and hold the assets of the bank whose place it takes, though there was not in form a conversion from a State to a national corporation, but the organization of a new corporation. (Bank v. MeLntire, 40 Ohio St., 528.)
(d) And such association will be liable to the clepositors of the former bank. (Eans v. Exchange Bank, 79 Mo., 182.)

## 14. Place of business:

(a) The provisions requiring "the usual business" of the association to be transacted "at an office or banking-house in the place specified in its organization certificate" must be construed reasonably; and a part of the legitimate business of the association which can not be transacted at the banking-house may be done elsewhere. (Merchants' Bank v. State Bank, 10 Wall., 604.)
(b) Although the general business of a national banking association is to be transacted at its place of business, yet if the association is fully advised of the facts, and does not object, and there is no fraud, its officers, when acting within the general scope of their authority, may bind it by acts done at another place. (Burton v. Burley, 9 Biss., '253.)
(c) Under Revised Statutes, section 5190, providing that "the usnal bnsiness of each national banking association shall be transacted at an office or banking-house located in the place specified ir its organization certificate," a national bank can not make a valid contract for the cashing of checks upon it at a different place from that of its residence, through the agency of another bank. (Armstrong v. National Bank of Springfield, 38 Fed. Rep., 883.)
(d) Whatever the terms of such an arrangement, being made before the date of the drawee bank's certificate of authorization, it is invalid under Revised Statutes, section 5136, providing that no banking association 'shall transact any business except such as is uncidental and necessarily preliminary to its organization, until it has been authorized by the Comptroller of the Currency to commence the business of banking." (Ibid.)
15. Circulating notes:

The circulating notes of a national banking association are valid, though they clo not bear the imprint of the seal of the Treasury. Such imprint was intended to be simply evideuce of the contract, and forms no part of the contract itself. (United States v. Bennelt, 17 Blatoh., 357.)
16. Business of liquidating association:

After an association goes into liquidation there is no authority on the part of its officers to transact any business in its name so as to bind its shareholders, except that which is implied in the duty of liquidation, unless such authority has been expressly conferred by the shareholders. (Richmond v. Irons, 121 U. S., 27.)

## III. ULIRA VIRES.

1. Dealing in stocks:
(a) A national banking association is not anthorized to act as a broker or agent in the purcliase of bonds and stocks. (First National Bank of Allentown v. Hoch, 89 Pemn. St., 324; Weckler v. The First National Bank of Hagerstown, 42 Md., 581.)
(b) A national banking association can not deal in stocks. The prohibition is to be implied from the failure to grant the power. (First Nationel Bank v. National Exchange Bank, 92 U. S., 122.)
Note,-But see, as to its power to deal in Governnent securities, Powers, 4.

## 2. Purchasing negotiable paper :

A national banking association can not purchase negotiabls paper. (Lazear v. National Union Bank of Baltimore, $5 \stackrel{\text { 2 }}{2}$ Md., 78 ; First National Bank of Rochester v. Pierson, 24 Minn., 140; see also Farmers and Mechanics' Bank v. Baldwin, 23 Minn., 198. But see Smith v. The Exchange Bank of Pittsburg, 26 Ohio St., 141.)

## 3. Lending chedit:

(a) A national banking association can not lend its credit. (Johnston v. Charlotiesville National Bank, 3 Hughes, 657 ; Seligman v. Charlottesville National Bank, 3 Hughes, 647.)
(b) A national banking association can not guaranty the paper of a customer for his accommodation. (Seligman v. Charlottesville National Bank, supra.)
(c) The accommodation paper of a national banking association is void in the hands of one who takes it with knowledge of its character. (Johnston v . Charlottesville National Bank, supra.)
4. Mortgages on rear. estate:
(a) National banking associations are by implication prohibited from taking mortgages on real estate as security for contemporaneous loans. (Narional Bank v. Matthews, 98 U. S., 621 ; Fowler v. Scully, 72 Penn. St., 456; Kansas Talley National Bank v. Rowell, 2 Dill., 371; Commonuealth Bank v. Clark, 4 Mo., 59 ; Crocker v. Whitney, 71 N. F., 161 ; Fridley v. Bowen, 87 Ill., 151.)
(b) But where snch security has been takon, no one but the Government can le heard to complain that the association has exceeded its powers. (National Bank v. Matthews, supra ; National Bank v. Whitney, 103 U. S., 99; Swope v. Leffingwell, 105 U. S., 3 ; Reynolds v. National Bank, 112 U.S.,405; Fortier v. National Bank, 112 U. S., 439.)
Note.-These decisions overrule, on this point, Kansas Valley National Bank v. Rowell, 2 Dill., 371 ; Crocker v. Whitney, supra; Fowler v. Scully, supra; Matthews v. Skinner, 62 Mo., 329 ; Woods v. People's National Bank of Pitisburg, 83 Penn. St., 57; Fridley v. Bowen, supra.
5. Wilen association can not set up want of power:

Where a national banking association has entered into a contract which it was not authorized to make, a party who has enjoyed the benefit of such contract can not question its validity. (Casey v. La Société de Credit Mobilier, 2 Woods, 77 ; German National Bank v. Meadowcroft, 95 Ill., 124.)

## IV. STOCK.

## 1. Purchasing its own stock:

Where a national banking association purchases shares of its own stock, and divides them among its directors, to whom the shares are transferred upon the stock books, the transaction is void, and no title passes. (Meyers v. Valley National Bank, U.S.D. C. (E. Dist. Mo.), 13 National Bankruptcy Register, 34.)
2. LIEN ON STOCK:
(a) A national banking association can not acquire a lien on the stock of a shareholder. And a by-law prohibiting a transfer until all liabilities of the shareholder to the association are discharged, or a provision to that effect in the certificates of stock, is void. (Bullard v. National Bank, 18 Wall., 589 ; Bank v. Lanier, 11 Wall., 369 ; Conklin v. The Second National Bank, 45 N. $\bar{Y} ., 655$.
(b) A national banking association can not take a pledge of its stock to secure a deposit made by it with another bank. Such a transaction amounts to a lending upon the security of its own shares. (Bank v. Lanier, supra.)
(c) Though a bank is prohibited from lending money upon the security of its own shares, yet, if the shares have been sold and the procceds applied to the payment of the debt, the courts will not aid the shareholder to recover the value of the sbares. He cau dispute the validity of the transaction only while the contract is executory, and the security still subsists in the possession of the bank. (National Bank of Xenia v. Stewart, 107 U. S, 676.)
3. May be aitached :

The stock of a shareholder indebted to it may be attached by the association and sold on execution. (Hager v. Union National Bank, 6;3 Me., 409.$)$
11167—7 7

## 4. Capital set free belongs to shareholders:

When a national banking association reduces its capital stock the amount of capital thus released belongs to the sharebolders pro rata and must be returned to them; and it can not be retained by the association for a surplus. (Seeley v. New York National Exchange Bank, 8 Daly, 400; S. C., 4 Abb. N. C., 61 ; affirmed, 78 N. Y., 608.
5. Contract to give shares for business:

Where an association has made or ratified a contract to give a person a certain number of the shares of its stock, upon condition that he will continue to do his business with it, and derives the benefit from this contract, the other party may recover of the association the value of the shares. (Hioh v. State National Bank of Lincoln, 7 Nebr., 231.)
6. Transfer of stock:
(a) The transfer of shares in national banking associations is not governed by different rules from those which are ordinarily applied to the transfer of shares in other corporate bodies. (Johnson v. Laflin, 103 U. S., 800.)
(b) The entry of the transaction in the books of the association is required, not for the translation of the title, but for the protection of the parties, and others dealing with the association, and to enable it to know who are its stockholders. (lbid.)
(c) A shareholder in a national bank, while it is a going concern, has the absolute right, in the absence of fraud, to make a lona fide and actual sale and transfer of his shares, at any time, to any person capable in law of purchasing and holding the same, and of assuming the transferrer's liabilities in respect thereto; and this right is not, in such cases, subject to the coutrol of the directors or other stockholders. (Johnson v. Laflin, 5 Dill., 65.)
(d) Under the pretense of prescribing the manner thereof, an association can not clog the transfer with useless restrictions. (Johnson v. Lafin, supra.)
(e) When a shareholder, acting in good faith, delivers his certificates of stock, with a blank power of attorney for making the transfer, and feceives the purchase-money, the sale is complete and the title passes. (Ibid.)
( $f$ ) Where a cashier, who is intrusted by the directors with the dnty of transferring tlse stock of the association, refuses, for insufficient reasons, to transfer shares, aud the association subsequently becomes insolvent, the owner of the shares may maintain an action against the receiver for the injury sustained. (Case v. Citizens' Bank, 100 V. S., 446.)
(g) Where a shareholder who has sold his stock has delivered to the bank the certificates of stock and a power of attorney with the request that the transfer be made upon the books of the bank, and has had no reason to suppose that such transfer was not made, he will not, slould the bank afterward become insolvent, be held liable as a sharebolder, although he still appears as such on the books of the bank. (Whitney v. Butler, 118 U. S., 655.)
(h) But where the president of the bank is himself the purchaser of the stock, then the delivery of the certificates and power of attorney to him with the request to make the transfer upon the books of the bank would not be sufficient to discharge the seller from liability as a stockholder. (Richmond v. Irons, 121 U. S., 27.)
(i) Where a shareholder of a national bank makes a bona fide sale of his stock, and goes with the purchuser to the bank, indorses the certificate, and delivers it to the casbier of the bank, with directions to make the transfer on the books, he has done all that is incumbent upon him to discharge his liability, and he is not liable, though the cashier failed to make the transfer, upon the subsequent suspension of the bank, for an assessment made by the Comptroller of the Currency, under Revised Statutes, section 5151, to pay the bank's debts. (Hayes V . Shoemaker, 39 Fed. Rep., 319.)
7. SUBSCRIPTIONS TO INCREASE OF CAPITAL STOCK:
(a) Where one subscribes for shares in the increase of the capital of a national banking association in a certain amount, such subscription avd payment are upon the implied condition that the increase shall be in the exact amount so fixed; and if such amount is changed, the subscriber may avoid the subscription and recover the amount paid in. (Eaton v. Pacific Bank, 144 Mass., 260.)
(b) And the certificate of the Comptroller of the Currency that the amount of the increase in another sum has been paid in, which amount includes what was paid by the dissenting subscriber, will not be conclusive npon such snbscriber. (Ibid.)
7. Subscriptions to increase of capital stock-Continued.
(c) But if such subscriber has assented to or ratified the change he will be held a shareholder. (Delano v. Butler, 118 U. S., 634.)
(d) National banks have no anthority to increase their capital stock except as provided by Revised Statutes, sec. 5142 , and act of Congress May 1, 1886; and where an increase is attempted to be made without obtaining the consent of two-thirds of the stock, the payment in full of the amount of such increase, and the certificate and approval of the Comptroller of the Currency, as required by those statutes, the proceedings are invalid, and preliminary subscriptions to such increase can not be enforced. (Armstrong v. Stanage et al., 37 Fed. Rep., 508.)
(e) A subscriber who has made payments on his subscription to the proposed increase believing that the statutory requirements would be complied with is entitled to have the amount thereof allowed as a claim against the assets of the bauk in the receiver's hands. ( $\quad$ bid.)
(f) When the previous proceedings looking to an increase in the capital stock of a national bank lave leen regular and all that are requisite, and a stockholder subscribes to his proportionate part of the increase and pays his sulbscription, the law does not attach to the sulbseription a condition that it is to be void if the whole increase anthorized be not subscribed; although there may be cases in which equity would interfere to protect him in case of a material deficiency. (Aspinwall v. Butler, $133 \mathrm{O} . S ., 595$. )
(g) The Comptroller of theCurrency has power by law to assent to an increase in the capital stock of a national bank less than that originally voted by the directors but equal to the amount actually subscribed and paid for by the sbareholders uuder that vote. (Ibid.)
(h) Where one subscribes for shares in an increase of capital stock of a national bank and pays for the same withont waiting to see whether the whole amount of the increase is taken, he is bound by such subscription and payment, though the amount of the increase is afterward reduced by the bank and the Comptroller of the Currency. (Butler v. Eaton, Suprene Court U. S., May 25, 1891.)

## 8. Specific performance of contract to sell :

A specific performance of a contract to sell the stock of a national banking association will not be enforced in favor of a purchaser who places his clailu for equitable relief upon the ground that he desires to oldain control of the association. Such an object is contrary to publio policy. (Foll's Appeal, 81 Penn. St., 434.)

## V. SHAREHOLDERS.

1. Estopped to deny incorporation :

A shareholder who has held himself out to the world as such is estopped to deny that the association was legally incorporated. (Casey v. Galli, $94 U$. S., 673; Wheelock v.Kost, 77 Ill., 296.)
2. Individual liability:
(a) The question whether there is a deficiency of assets, and when it is necessary to enforce the individual liability of shareholders, is for the Comptroller to determine; and his decision in this matter is final and conclasive. (Kennedy v. Gibson, 8 Wall., 498; National Bank v. Case, 99 U. S., 628; Casey v. Galli, 94 U. S., 673.)
(b) The amount contributed by each shareholder should bear the same proportion to the whole amount of the deticit as his own stock bears to the whole amount of the capital stock at its par value. And the solvent shareholders can not be made to contribute more than their proportion to make good the deficiency caused by the insolvency of other shareholders. (United States v. Knox, 102 U. S., 422.)
(c) A shareholder who disposes of his stock will continue to be liable thereon until the transfer is noted on the books of the association. (Bowdell v. Farmers and Merchants' National Bank of Baltimore, D. S. C. C. (D. Md., 1877), Browne's N. B. Cas., 147.)
(d) The individual liability of a sharcholder adheres to his estate after his death until his place as a member of the association is taken by some new sharcholder. (Davis v. Weed, U. S. D. C. (Dist. Conn.), reported 44 Conn., 569.)
(e) The receiver has a valid claim against the estate generally of a deceased shareholder who died prior to the insolvency of the bank, but whose stock has not been transferred. (Richmond v. Irons, 121 U. S. 27; Davis v. Weed, supra.)

## 2. Individual liability-Continued.

(f) And the fact that the title to the stock of a deceased slareholder vests in his administrator does not relieve the estate from the burden of an assessment. (Davis v. Weed, supra.)
(g) Nor will the fact that tho administration is complete, and all the assets have been distribnted, defeat an action brought to recover the assessment. (Ibid. But see Witters v. Soules.)
(h) The United States district court bas jurisdiction of an action at law brought by the receiver of a national bank to recover an assessment made upon a stockholder, aui the action may be maintained in such event against the executor of a deceased stockholder. (Stephens v. Bernays, U. S. C. C., E.D. Mo.)
(i) One who appears on the books of the association as the owner of shares of its stock is individually liable, though he bold the stock merely as collateral security. (National Bank v. Cabe, 99 D. S., 628; Moore v. Jones, 3 Woods, 53 ; Bowdell v. Farmers and Merchants' Nutional Bank of Ballimore, supra; Hale v. Walker, 31 Tova, 344; Wheelock v. Kost, supra.)
( $j$ ) But a pledgee of shares of stock in a national bank who in good faith and with no fraudulent intent takes the security for his benefit in the name of an irresponsible trnstee for the avowed purpose of avoiding individual liability as a sharebolder, and who exercises none of the powers or rights of a stockbolder, incurs no liability as such to creditors of the bank in case of its failure. (Anderson, Receiver, v. Warelouse Company, 111 U. S., 479.)
(k) And where stock has been transferred as collateral security for a loan, with the understanding that in case of default in the payment of the loan the shares shall be sold, the transferee, upon default made, and before the bank eloses its doors, may sell the stock for a nominal consideration, though his purpose be to avoid a personal liability; and such a transaction can not be set aside as a fraud upou the creditors of the association. (Magruder v. Colsicn, 44 Md., 349.)
Note.-The court put the decision upon the ground that the sale was in pursuance of a stipulation which formed a part of the contract between the original owner and his transferee. See also Holyoke Bank v. Burnham, 11 Cush., 187, upon the authority of which the Maryland case was decided.
(l) If the trusteeship of one who holds stock in trust does not appear upon the books of the association he will be individually liable. (Davis v. Essex Baptist Society, U. S. D. C. (Dist. Conn.), reported 44 Conn., 58\%.)
(m) A transfer of shares for the purpose of avoiding liability, though made "out and out," is void. National Bank v. Case, supra; Bowden v. Santos, 1 Hughes, 158.)
( $n$ ) And where a shareholder, who has knowledge of the insolvent condition of the bank, transfers his shares, without consideration, to a person unable to respond to the assessment, the transfer may be set aside and the individual liability of the transferrer enforced. (Bowden v. Johnson, 107 U. S., : 251.)
(o) The real owner of the stock is liable as a stockholder, though when le parchased the stock he had it transferred upon the books to another. (Davis v. Stevens, 17 Blatch., 259.)

Note.-The case of the owner of the stock is thus different from that of a pledgee. (See Anderson v. Warehouse Company, supra.)
( $p$ ) Where shareholders have assessed themselves to the amount of the par value of the stock for the parpose of restoring impaired capital, the contributions made in pursnance of such assessment, though all nsed in paying the debts of the association, will not so operate as to discharge the shareholders from their individnal liability. (Delano v. Butler, 118 D. S., 634.)
(q) The individnal liabiiity of the shareholders of an insolvent association may be enforced for the purpose of paying all of its liabilities, and not merely for the purpose of paying its "debts," technically so called. (Stanton $\mathbf{v}$. Wilkeson, 8 Ben., 357.)
(r) The individual liability of the stockholders must be restricted in its meaning to such contracts, debts, and engagements of the association as have been duly coutracted in the ordinary course of its business. And, therefore, creditors of an association who make settlements after the association is put into liquidation and receive from the president payment of their elaims in paper of the association, or the individual notes of the president himself, indorsed or guaranteed in the name of the association, are not to be considered as creditors of the association entitled to subject the stockholders to individual liability; for these are new contracts. (Richmond v. Irons, 121 U.S., 27.)
2. Indivibuat. hiability--Continmed.
(s) The individnal liability of the stockholders is enforcible only in behalf of all the creditors, and any security wiven by a stockholder for his liability in this respect should likewise be for the benefit of all the creditors. Accordingly, \& mortgage of all the individual property of a stockLolder, made after the bank has closed its doors, for the purpose of securing a single depositor, is void as against a judgment obtained against such stockholder in an action by the receiver to recover the amount of his individual liabiljty. (Gatch v. Fitch, 34 Fed. Rep., 566.)
(t) Where a married woman is by the State law capable of holding stock in a mational bank in her own right, she is liable to an assessinent upon her shares, though the law of the State does not authorize married women to bind themselves by contracts for the payment of money. The law annexes her obligations by its own force; no act or capacity to act on her part is required. (Witters v. Sowles, 35 Fed. Rep. 640; S. C. 32 Fed. Rep., 767.)
(a) The coverture of a married woman, who is a sluareholder in a national bank, does not prevent the receiver of the bank from recovering judgment against her for the amount of an assessment levied upon the shareholders equally and ratebly under the statnte. (Keyser v. Hitz, 133 U. S., 138.)
(v) While it is undoubtedly the rule as regards stockholders that one put upon the books as a stockholder without his consent can not be held for any liability in respect to snch stock, yet where the person to whom the stock is transferred is a director of the bauk, and is concerned in the management of its affairs, he must be presumed to have knowledge of the fact that the stock stood in his name. and if he has not repudiafed the transfer to himself, is liable as the holder of sucli stock. (Brown v. Finn, 34 Fed. Rep., 124.)
(w) In snch case the mere return of the dividends paid upon the stock to the person by wl om the transfer was made will not be a suffieient repudiation thereof. (Ilid.)
( $x$ ) The State statute of limitations applies to a suit brought by the receiver of a natioual bank against a shareholder to recover an assessment upon his stock to pay the debts of the hank. (Butler v. Poole, 44 Fed. Rep., 586.)
3. When liability disqualifies from voting:

The provision of section 5144, Revised Statutes, which disqualifies shareholders "whose liability is past due and unpaid" from voting at meetings of shareholders, applies only to liability for unpaid subscriptions for stock. (United States ex rel. v. Barry, 36 Fed. Rep., 246.)
4. Right to inspect books:

Code of Alabama, 1886, section 1677, which provides that stockholders of all corporations have the right to have aecess to, and inspection and examination of, the book, records, and papers of the corporation at all reasonable and proper times, applies to national banks located within the State; and mandamus will lio against the officer having custody of the books to enforce the right. (Winter v. Baldwin, 7 So., Rep., 734.)

## VI. OFFICERS.

1. Tenure of office:
(a) The officers of a national banking association can hold their positions only by the tenure specified in section 5136, Revised Statutes, viz, the pleasure of the board of divectors. (Harrington v. First National Bank of Chittenango, S. C. N. Y., 1873, Thomp. N. B. Cas., 761 ; see also Taylor v. Hatton, 43 Barb., 195.)
(b) Directors of national banking associations may remove the president, both under the law of Congress and the articles of association, where the latter so provide. The power exists, though the association has adopted no bylaws. (Taylor จ. Hutton, supra.)
$\therefore$ Bonds of officers:
(a) It is not necessary that national banking associations shall signify their approval of the official bonds of their officers by memoranda entered upon the journals or minutes of the directors. The acceptance is to be presumed from the retention of the bond, and from the fact that the officer is permitted to enter upon or continue in the discharge of his duties. (Grover v. The Lebamon National Bank, 10 Bush., 23.)
2. Bonds of officers-Continued.
(b) Where the sureties of an officer can rasouably be presumed to have been deceived by the statement of the condition of the bank published just prior to the execution of the bond. aud to lavo been led to think that there was no deficit, whereas there hail been a misapplication of a large part of the funds by the officer whose bondsmen they became, which fact would have been ascertained had the directors exercised ordinary dilligence, the sureties are discharged from their liability. (Grover v, The Lebanon National Bank, supra.)
3. Directors must act as a board:

The election of an individual as a director coes not constitute him an agent of the corporation with authority to act separately aud judependently of his fellow menbers. It is the board duly convened and acting as a unit that is made the representative of the association. The asseut or determination of the members of the board acting separately and individually is not the assent of the corporation. The law proceeds upon the theory that the directors shall meet and counsel with each other, and that any determination affecting the association shall be arrived at and expressed only after a consultation at a meeting of the board, attended by at leastia najority of its members. (National Bank v. Drake, 35 Kans., 564.)
4. Borrowing money of association:

An officer may, in the ordinary conrse of business, borrow money of the association. (Blair v. First National Bank of Mansield, U.S.C.C. (N. D. Ohio), 1877, 10 Chicago Legal News, 84.)

## 5. Liability for violations of law :

(a) All directors who participate in and assent to a loan in excess of one-tenth of the capital of the bank, in violation of section 5200, Reviser Statutes, will be liable to the bank for all damages sustained by it in consequence of such loan. (Witters v. Sowles, 31 Fed. Rep., 1.)
(b) If a cashier, withont anthority from the directors so to do, makes a loan in excess of one-tenth of the capital of the association, he will be liable, in case of loss, for the amount of the excess. (Second National Bank of Oswego v. Burt, XIV New York Weekly Digest, 290. Reversen in court of appeals on gronnd that transaction was discount of bill of exchange drawn against actually existing values, $93 N . \bar{Y} ., 233$.)
(c) The directors of a national bank will not be held liable for loss occasioned to the bank through the frands of a co-director in which they had no part, and which were perpetrated withont their connivance or knowleage. It is not sufficient to charge them with liability that the frauds might have been prevented by the exercise on their part of a proper degree of supervision over the affiairs of the bank. (Movius v. Lee, D. S. C. C. (N. D. N. Y.), 30 Fed. Rep., 298.)
(d) Directors of a uational bank are "officers" within the meaning of Revised Statutes, United States, section 5209, which makes it a misclemeanor for bank officers to make false entries in any book, report, or statement of the bank, with intent to deceive any of its officers. (United States v. Means ct al., 42 Fed. Rep.,599.)
(e) The personal liability of directors of a national bank for violation of Revised Statutes, United States, section 5204, by fleclaring dividends in excess of net profits, and of section 5200 , for loaning to separate persons, firms, or corporations amounts exceeding one-tenth of the capital stock, can not be enforced in an action at law. (Welles v. Graves, 41 Fed. Rep., 459.)
(f) Under Revised Statutes, United States, section 5239, providing that if the directors of a national bank shall violate any of the provisions of the title relating to the organization and management of banks, the franchises of the bank shall be forfeited, such violation, however, to be determined by a proper court of the United States in a suit therefor by the Comptroller, and that in cases of such violation every director participating therein shall be personally liable for all damages which the bask, its shareholders, or any other person shall have sustained in consequence thereof, the Comptroller can not authorize the receiver to bring suit, under section 5234 , to enforce sucb personal liability, nntil it has been adjudged by a proper court thatsuch acts have been done as authorize a forfeiture of the charter. (Ibid.)
(g) The right to maintain an action under Revised Statutes, United States, section 5239 , to recover from a bank director the damages sustained by his bank in consequence of excessive loans made by him while serving in the capacity of director, is not affected by the fact that the Comptroller has or has not procured a forfeiture of the bank's charter. (Stephens v. Overstolz, 43
5. Liability for vlolations of law-Continued.
(h) For services performed by the district attorneg in bringing a suit against a uational bank, and obtaining a forfeiture of its charter, he is not entitled to more than $\$ 10$, the fees prescribed by section 824 , there being no other law of the United States giving a compensation to a district attorney for such services. (Bashaw v. United States, 47 Fed. Rep., 40.)
(i) A stocklolder of an insolvent national bank for which a receiver has been appointed can not maintain an action at law against the directors for the purpose of making them personally liable for the mismanagement of the bauk, but the action must be brought by the receiver. (Howe v. Barney, 45 Fed. Rep., 668.)
(j) Revised Statutes, United States, sections 5234 and 5239 , prescribing the method of enforcing the liability of the directors of national banks for violation of the banking law, are exclusive of other remedies, and a creditor of an insolvent bank, for which a receiver has been appointed, can not sue its directors for the purpose of making them personally liable for the mismanagement of the bank. (National Exchange Bank v. Peters et al., 44 Fed. Rep., 13.)

## 6. Dinectors of converted banks:

(a) When a State bank is converted into a vatiocal banking association all of the directors at the time will continue to be the directors of the association until others are appointed or elected, though some of them may not have joined in the execution of the articles of association and organization certificate. (Lockwood v. The American National Rank, 9 R. I., 308.)
(b) And semble, that the directors of a bank at the time of its conversion into a national banking association are not required to take the oath of directors. (Ibid.)
(c) But even were the oath required, a majority of all who were directors at the time of the conversion, and not merely a majority of those who take the oath, are necessary to constitute a quoram. (Ibid.)
7. RETIREMENT OF DIRECTORS:
(a) The law providing no particular mode by which a director is to resign from the board, an oral resignation would be as good as any. (Movius v. Lee, 30 Fed. Rep., 298.)
(b) The president being the head of the board, a resignation to him is a resiguation to the board. (Ibid.)
(c) A director is not prohibited from resigning during the year. The apparent purpose of the provision in regard to the term of office is to make it conform to the time of the new election, and not to absolutely require every director to serve the full term. (Ibid.)

## VII. INTEREST.

1. What interest assoclations may take:
(a) The provision in section 30 of the act of 1864 "that where, by the law of any State, a different rate is limited for banks of issue organized under State laws, the rate so limited shall be allowed for associations orgauized in any such State under the act," is enabling, and not restrictive; and, therefore, a national bankiug association in any State may stipulate for as high a rate of interest as by the laws of such State a uatural person may, although State banks of issue are restricted to a less rate. (Tiffany v. National Bank of the State of Missouri, 18 Wall., 409.)
(b) But it is not to be inferred from Tiffany v. National Bank of Missouri that whatever by the laws of the State is lawful for natural persons in acquiring title to negotiable paper by discount is lawful for national banks. (National Bank v. Johnson, 104 U. S., 271.)
(c) The interest which a national banking association may charge is limited to the rate allowed to the banks of the State generally; and the fact that a few of the State banks are specially authorized to take a higher rate is not a warrant for a national banking assoeiation to do so. (Duncan v. First National Bank of Mount Pleasant, U.S.'D. C. (W. D. Penn., 1878), 11 Bank Mag., 787 ; Gruber v. First National Bank, 87 Penn. St., 468.)
(d) Where the State law does not limit the rate of interest which may be charged on loans to corporations, a uational banking association located in that State can not charge more than 7 per cent interest on such loans. (In re Wild, 11 Blatch., 243.)
2. What interest associations may take-Continucd.
(e) Where by the statutes of the State parties are authorized to contract for any rate of interest, national banking associations in that State may likewise contract for any rate, and are not limited to 7 per cent. (Hinds v. Marmelejo, 60 Cal., 299 ; National Bank v. Bruhn, 64 Texas, 571.)
3. On Claims against insolvent and liquidating associations :
(a) A depositor in a national banking association which has become insolvent is entitled to interest on his deposit. (National Bank of Commonwealth $\mathbf{v}$. Mechanics' National Bank, 94 U. S., 437.)
(b) He is entitled to interest from the date of the suspension of parments; and no demand upon the association is necessary. (Chemical National Bankr. Bailey, 12 Blatch., 480. )
(c) Claims, when proved to the satisfaction of the Comptroller, are upon the same footing as if put in judgment, and therefore bear interest; and the fact that, under certain circnmstances, there might be thus a compounding of interest will not defeat the right to interest. (National Bank of Commonwealth v. Mechanics' National Bank, supra.)
(d) But where a creditor has obtained judgment against an insolvent national banking association for the full amount of his claim and interest, he is not entitled to interest upon the face of the judgment, but only upon the amount of the claim at the time of the failure. (White v. Knox, 111 U.S., 784.)
(e) The creditors of an insolvent national banking association in the hands of a receiver are entitled to interest on their claims during the period of administration. (Chemical National Bank v. Bailey, supra.)
(f) The assessments made by the Comptroller upon the shareholders of an insolvent association bear interest from the date of the order. (Caseyv. Galli, 94 U.S., 673.)
(g) In the case of book accounts in favor of depositors, interest begins to run against an association in liquidation from the date of the suspension of business. (Richmond v. Irons, 121 U. S., 27.)
4. Usury:
(a) The usury laws of the Statesdo not apply to national banking associations. (Farmers and Mechanios' Bank v. Dearing, 91 U. S., 29 ; Central National. Bank v. Pratt, 115 Mas8., 539; First National Bank v. Gorlinghouse, 22 Ohio St., 492 ; Davis v. Randall, 115 Mass., 547; Hintermister v. First National Bank, 64 N. Y., 212.)
(b) And the remedies provided by the State for the taking of usury can not be resorted to. (Farmers and Mechanics' Bank v. Dearing, supra; Wiley v. Starbuck, 44 Ind., 298.)
(c) The takiug of illegal interest by a national banking association does not reuder the contract void. (Farmers and Mechanics' Bank v. Dearing, supra.)
(d) It does not invalidate an indorsement or a guaranty of the notes upon which the usurions interest was paid. (Oates v. First National Bank of Montaomery, 100 U. S., 239 ; Lazear v. National Union Bank of Baltimore, 5\% Md., 78.)
(e) But nanry destrogs the interest-bearing power of the obligation; and there will be no point of time from which it can bear interest. (Lucas v. Government Naiional Bank, 78 Pent. St., 228.)
(f) The usury works a forfeiture of the entire interest accruing after maturity and before judgment, as well as that which accraes lefore maturity. (Shunk v. The First National Bank of Gallion, 22 Ohio St., 508.)
(g) The discounting of business paper by a national banking association at a higher than the legal rate is usurious, though the law of the State fixes no linit to the rate which natural persons may take for the discount or purchase of such paper. (Johnson r. National Bank of Gloversville, 74 N. Y., 329 ; affirmed in National Bank v. Johnson, 104 U. S., 271.)
(h) By charging more than legal interest on overdrafts, a national banking association loses the right to recover any interest at all. (Third Natiomal Bank of Philadelphia v. Miller, 90 Penn. St., 241.)
(i) The liabilities of antecerlent parties to a note or bill will not be affected by the usurions character of the transaction between the payee and the association; and the association may recover the full amonnt of the note or bill from the maker or acceptor. (Smith v. The Exchange Bank of Pittsburg, 26 Ohio St., 141.)
(j) Usurions interest which has been paid to a national banking association can not be applied by way of payment or set-off in avy action by the association to recover the amount of the loan. (Barnet v. Muncie National Bank, 98 U.S., 855.)
5. Usury-Continued.
(k) Nor can the penalty for takiag the usurious interest be recovered by way of connter-claim in such action, but a separate action must be bronght therefor. (Ibid.)
Note.-This case overrules portions of the decisions in Lucas v. Government National Bank, supra; Overholt $\mathrm{\nabla}$. National Bank, 82 Penn. st., 490; Cake v. The First National Bank of Lebanon, 83 Penn. St., 303.
(l) A director is not by reasou of his position estopped from setting up the defense of usury in an action brought against him by the association. (Bank of Cadiz v. Slemons, 34 Ohio St., 142.)
( $m$ ) Where a national banking association has disconnted notes for another bank at a usurious rate of interest, the fact that the other bank has charged illegal interest on those notes to its customers will not affect its right to set up the defense of usury in an action by the association. (Third National Bank of Philadelphia v. Miller, supra.)
( $n$ ) The amount which may be recovered from the association as a penalty is twice the amount of interest paid, and not simply twice the amount in excess of the legal rate. (Crocker v. First National Bank of Chetopa, U. S. C. C. (Eighth Circuit), 3 Am. L. T. [N. S.], 350 ; Overholt v. National Bank of Mount Pleasant, 82 Penn. St., 490 ; see also Barnet v. Muncie National Bank, supra.)

## VIII. INSOLVENT ASSOCIATIONS.

1. Not subject to bankrupt act:

National banking associations were not subject to the bankrupt act while that act was in force. (In re Manufacturers' National Bank, 5 Biss., 499.)

## 2. What constitutes insolvency :

The term "insolvency," as used in section 5242, Revised Statutes, forbidding transfer of the assets of national banking associations after, or in contemplation of, such insolvency, has the same meaning as it had when applied to traders in the bankrupt act ; that is, it does not mean an absolute inability of a debtor to pay his debt at some future time, upon a settlement and winding up of his affairs, but a present inability to pay in the ordinary course of business. (Case v. Citizens' Bank of Louisiana, 2 Woods, 23; Market Bank v. Pacific National Bank, 30 Hun, 50.)
3. Assets a trust fund:

Upon the appointment of a reseiver all the assets of the association become in his hands a trust fund which the statute of limitations does not toneh or affect. (Riddle v. First National Bañk, U. S. C. C. (W. D. Ponn.), 27 Fed. Rep., 503 )
Note.-But this point was not necessary to the decision of the case, for snits against insolvent corporations are by a law of Pennsylvania expressly excluded from the operation of the statute.
4. United States has no priority:
(a) Sectiou 3466, which gives the United States a priority for all clains it has against insolvent debtors, does not apply to the case of an insolvent national banking assuciation. (Conk County National Bank v. United States, 107, U. S., 445.)
(b) And as against the proceeds of the bonds deposited to secure cireulation the United. States can set off no claim, except for money advanced to redeem the notes. (Ibid.)
(c) And upon the failure of an association its 5 per cent redemption fund can not be retained by the Treasurer to pay taxes due to the United States, but the fund passes to the Comptroller as an asset of the association. (Jackson v. United States, 20 Ct. Cls., 298.)
5. Claims for torts:

Claims arising out of the non-feasance or malfeasance of the association shonid be paid ratably with the debts, technically so called. (Turner v. First National Bank of Keokulk et al., 26 Iowa, 562.)
6. Prefbrences:
(a) A proference, to be within the meaning of section 5242, Revised Statates, must be given to ale existing creditor to secure a pre-existing debt. A transfer by an insolvent bank to secure a contemporaneous loan is not a violation of the law. (Casey v. La Société de Credit Mobilier, 2 Wood, 77.)

## 6. Preberences-Contimued.

(b) Rovised Statutes, United States, section $\mathbf{\sigma} 242$, which prohibits all transfer ${ }^{3}$ by any national banking association made atter the commission of an acto $f$ insolvency, or in contemplation thereof, with the viow to a preference of one craditor over another, is direeted to a preference, not to the giving of security when a debt is created; and if the trausaction be free from fraud in fact, and is intended merely to adequately protect a loan made at the time, the creditor can retain property transferred to secure such a loan until the debt is paid, though the debtor is insolvent, and the creditor has reason at the time to believe that to be the fact. (Armstrong v. Chemioal National Bank, 41 Fed. Rep., 234.)
(c) A banker's lien for the amonnt of the balance of its general account does not exist when the securities have been deposited with the bank for a special purpose, or for the payment of a particular loan. (Ibid.)
(d) Revised Statutes, Unitorl States, section 5242, which invalidates all transfers of the notes, bonds, or bills of exchanges of a national bank, after the commission of an act of insolvency, with the view to the preferences of one creditor over another, does not prohibit a bank which has in good faith accepted the rlraft of a national bank the day before the latter's insolvency, and afterward paid the same, from applying the proceeds of collections made by it, on paper in its hands belonging to the insolvent bank, to the payment of the draft, since its lien on such collections runs from the date of the acceptance. (In re Armatrong, 41 Fed. Rep., 381.)
(e) The insolvency need be in the contemplation of the bank only. It need not be known to the person to whom the trausfer is made. (Case v. Citizens' Bank of Louisiana, supra.)
(f) After the directors of an insolvent association have voted to close its doors, any transfer of assets whereby a creditor secures a preference must be presumed to be made with an intent to prefer. (National Security Bank v. Price, 22 Fed. Rep., 697.)
( $g$ ) Where the officers of an association which is in danger of insolvency, for the purpose and in the expectation of preventing a failure, make a pledge of securities to a depositor to induce him not to withdraw his deposit, such a pledge is not a preference within the meaning of section 5242, Revised Statutes, and will not be set aside when the association afterward is declared insolvent. (Roberts v. Hill, 23 Fed. Rep., 311.)
( $h$ ) Where an insolvent association receives a deposit a short time before closing its doors, its ofticers knowing of the insolvency at the time, the receipt of such deposit is a fraud upon the depositor, and no title passes to the association, and therefore the depositor may reclaim the whole amount of the deposit; and as he claims under his orignal title, and not under a transfer from the association, such reclamation does not amount to a preference. (Cragie et al v. Hadley, 99 .N. F., 131.)
(i) A trust was not impressed upon funds deposited on day the bank closed its doors in the absence of proof that the deposit had not gone into the general fund of the bank and lost itsidentity before reaching the receiver. (In. re North River Bank, 14 N. Y., 261.)
(j) But a creditor will not have a lien opon the funds of the association becanse checks given in settlement of balances were fraudulent, and were given at a time when the bank was hopelessly insolvent and its officers were contemplating flight. (Citizens' National Bank v. Dowd, 35 Fed. Rep., 340.)
(i) Where the proceeds of an item indorsed "for collection and return" were mingled with other moneys of the bank, if it was a breach of trust it was a convertion, and plaintiff became a simple contract creditor, with no preference at law. (Philadelphia National Bank v. Dowd, 38 Fed. Rep., 172.)
(l) Where by agreement and custom a national bank received drafts from its correspondent indorsed "for collection for the," and credited it to them as cash, with the understanding that any unpaid draft should be charged back, and where the collecting bank failed before collection, the proceeds of the draft coming into the hands of a receiver, the correspondent bank has the rights of a general creditor only. (First National Bank v. Armstrong, 39 Fed. Rep., 231.)
( $n$ ) Where a national bank collected all papers sent to it by complainant under an arrangement which constituted the bank the agent of complainant, the latter can recover, on the ground of a trust, from a receiver of the bank such portion only of the proceeds of its paper sent to the bank as it shows has passed into the recciver's hands, either in its original or some snbstituted form. (Commercial National Bank v. Armstrong, 39 Fed. Rep., 684.)

## 6. Phemermanes-Continned.

(n) Where cheoks and draftis sent from one bank to another indorsed "for collection" and credited "sulject to payment" according to the dealings between the banks, and part of them were paid to the receiver of the latter bank after its failure and the balances were credited to it by the payors, the amount paid the receiver should be acconnted for as a trust fund, but the balance as a general delt. (First National Bank v. Armstrong, 42 Fed. Rep., 193.)
(o) Negotiable paper with restrictive indorsoment credited by agent on date of receipt "sulyject to payment," although account is subject to be drawn upon, title is not transferred, and upon the insolvency of the agent before receiving notice of the collection of the item, the owner is entitled to the proceeds in the hands of the collecting agent. (Fifth National Bank v. Armstrong, 40 Fed. Rep., 46.)
( $p$ ) The drawers of a draft deposited with a bank for collection, and by it forwarded to a correspondent bank, are entitled to the amount as against the receiver of the forwarding bank, which was insolvent, and known to be so by its officers when it received the draft, and suspended payment before the proceeds were withdrawn from the collecting bank. (Importers and Traders' National Bank v. Peters et al. (Court of Appeals, N. Y.), 25) N. E. Rep., 319.)
(q) When a bank which has received a draft for collection sends it to another bank for that purpose, and on being advised that the latter bank has collected the draft credits the depositor and then becomes insolvent without laving received the money from the collecting bank, the depositor remains the owner of the draft, and is entitled to its proceeds from the collecting bank against the receiver and the creditors of the insolvent bank. (Armstiong v. National Bank of Boyertown (Court of Appeals, Ky.), 11 S. W. Rep., 411.)
7. Basis for estimation of dividends:

In estimating the dividends to be paid out of the assets of an insolvent association, the value of the claims at the time when the insolvency is declared is to be taken as the basis of distribution. (White v. Knox, 111 U.S., 784.)
8. SET-OFF :
(a) A person liable upon a note to an insolvent national bank may set off against his indebteduess the amount of hisdeposits with the bank. (Platt v. Bentley, Thomp. N. B. Cas., 758.)
(b) But a debtor can not set off the amonnt of a deposit assigned to him after the act of insolvency committed. (Venango National Bank v. Taylor, 56 Penn. St., 14.)
(c) Funds received on the disconnting of a note and deposited with the discounting bank, sulbject to the check of the depositor and which had been drawn upon by him, but were intended by him to meet the note when due, can not be pleaded as a set-off in an action on the note brought by the receiver of the disconnting bank who received the note before maturity. (Armstrong v. Scott, 36 Fed. Rep., 63.)
(d) The commercial paper of a national bank becomes overdue and dishouored after the commission of an act of insolvency and appointment of a receiver, and is subject to all equities between the bank and the original party to whom it wes payable, (U.S.D. C. (N. D. Inl.), May, 1890.)
(e) A set-off under Illinois statute in favor of the maker of a note or bill is available if the paper is assigned after due, whether arising out of the same transaction or otherwise. (Ibid.)

## 9. Claim for breach of contract of lease:

Where a national bank hasleased a banking house for a long term of years, and subsequently becomes insolvent, but during the time it continued business had not defanlted in paying the rent, the lessor has no claim against the receiver by reason of the insolvency or dissolution of the corporation or the forfeiture of its franchises, or by the refusal of the receiver to take under the coutract and pay the rent. (Fidelity Safe Deposit and Trust Co.v. Armistrong, 35 Fed. Rep., 567.)

## IX. RECEIVER.

## 1. Officer of the United States:

A receiver, when appointed by the Comptroller, with the concurrence of the Secretary, is an officer of the Unitcd States. (Stanton v. Wilkeson, 8 Ben.,
2. Whom he represents:

He represents the bank, its stockholders, aud its creditors; but ho does not it any sense represent the Government. (Case v. Terrell, 11 Wall., 199.)
3. How far subject to Comptronler's onders:
(a) The clause of section 50 , act of 1864 , which prescribes that the receiver shal be " nuder the direction of the Comptroller," means only that he shall br subject to the Comptroller's direction, not that he shall not act prithon orders. He may bring suit to collect assets without having been instructer to do so by the Comptroller. (Bank v. Kennedy, 17 Wall.)
(b) The receiver of a national bank is the instrument of the Comptroller, anc may be removed loy him, (Kennedy v. Gibson, 8 Wall., 505.)
4. Power of courts to appoint :
(a) The power of the Comptroller to appoint a receiver is not exclusive; it doe not oust the courts of equity of their authority in the matter; and there fore a court of competent jurisdiction may place the bank in the hands of : receiver in cases where, according to the rules of equity, it may pursue sucl a course with regard to insolvent corporations generally. (Irons v. Manu facturers' National Bank, 6 Bis8., 301 ; Wright v. Merchants' National Bank 1 Flippin, 561.)
(b) Where a bank has gone into voluntary liquidation, and the Comptrolle has no power to appoint $\%$ receiver, a proper court, in a case where sucl actiou is necessary to protect the interests of a creditor, will appoint a re ceiver for it. (Irons $\mathbf{v}$. Manufacturers' National Bank, supra.)
(c) Where a national bank is insolvent, and in process of volnntary liquida tion, and its affairs are being greatly mismanaged by its managing agents to the injury of its creditors and stockholders, and some of the cretitor and stockholders are being favored to the injnyy of others, a receiver ma: be appointed in such a case, even where the bank only bas been made : defendant. (Elwood v. Fïrst National Bank, 21 Kans., 673.)

## 5. Debtors of association can not quegtion legality of appointment :

The legality of the appointment of the receiver can not be questioned by thi delitors of the bank when sued by him. The bank may move to have thi appointment set aside, but the debtors can not. (Cadle v. Baker, 20 Wall. 650 ; see also Platt $\nabla$. Beebe, 57 N. Y., 339.)
6. Receiver's decision not final:

The decision of a receiver rejecting a claim is not final. The claimant still ha the right to sue. (Bank of Bethel v. Pahquioque Bank, 14 Wall., 383.)
7. Sale by :
(a) The recciver can not sell the real or personal property of the bank withou an order from a court of competent jurisdiction. (Eillis v. Little, 27 Kans. 707.)
(b) Nor can he sell upon the terms in conflict with the order. (Ibid.)
(c) And under an order permitting him to sell the property of the bank he cal not exchange, trade, or barter it for other property. (Ibid.)
(d) A sale made by a receiver under order of a court is to all intents and pur poses a judicial sale. (In re Third National Bank, 9 Biss., 535.)
8. Contracts of :
(a) As the power of a receiver of a national bank appointed by the Comptrolle is limited, a person dealing with him in his official capacity is bound as : matter of law to have lnowledge of his authority to act, and if contract and agreements are entered into with the receiver in excess of his authorit: as conferred by law, the parties contract at their own peril and the estati of the bank can not be charged for the default or inability of a receive. acting outside of bisfunctions as receiver and beyond the duties which $i$ involves. (Ellis v. Little, 27, Kans., 707.)
(b) The receiver can not charge the estate of the bank by any executory con tract, unless authorized so to do by the provisions of the national bankin; law, and the order of a court of competent jurisdiction obtained upon thi terms of said law. (Ibid.)
9. Expenses of receivership for association which has gone into liquidation

Where after an association has gone into liquidation a receiver is appointer at the instance of the creditors, the expenses of such receivership must bs paid ly the creditors. The shareholders can not be made individuall! liable for such expenses. (Richmond v. Irons.)

## X. TAXATION.

1. What may be taxed:
(a) A State can not tax the capital stock of a national bank as such. The tax must be assessed upon the shares of the different stockholders. (Collins v. Chicago, 4 Biss., 47\%.)
(b) Under Revised Statutes, United States, section 5219, which declares that nothing in the uational banking act shall prevent all the shares of stock of a natioual bank from being included in the assessment of the personal property of the owners of such shares, an assessment of the entire stock of a national bank in solido against the bank itself is invalid. (National Bank of Virginia v. City of Richmond et al., 42 Fed. Rep., 877,)
(c) The assessment of the entire capital stock of a national bank in solido against the bank itself is invalid. The bank may pay the tax assessed upon the shares of its different stockholders, and it will have a lien thereon when it pays such tax until the same is satisfied; but if for any cause the tax levied upon the different stockholders is not paid by the bank, the property of the individual stockholders will be liable therefor. (First Vational Bank of Leoti v. Fisher (S. C., Kans.), April 11, 1891.)
(d) The individual stockholders of a national bank are allowed the same deductions from the assessment against them upon their shares of stock as other tax payers in the State, owning moneyed capital, are allowed. (Ibid.)
(e) The term. "moneyed capital" as used in Revised Statutes, United States respectiug State taxation of shares in national banks embraces capital employed in national banks, and capital employed by individuals when the object of their business is the making of profit by the use of their moneyed capital as money. (Talbott v. Silver Bow County, Montana, 139 U. S., 438. )
( $f$ ) Laws, New York, chapter 596, section 3, which provides that the stockholders in banks and trust companies organized under the authority of the State, or of the United States, shall be assessed for the value of their shares of stock, but which omits to provide for the taxation of the shares of stock in other private corporations, does not contravene Revised Statutes, United States, section 5219, which forbids the taxation of shares of national banks at a greater rate than is assessed on other "moneyed capital" in the hands of the individual citizens of the State. (Palmer v. McMahon, U. S. S. C.)
(g) The shares of a national bank are taxable to the owners, and the bank is not liable primarily or as the agent of the shareholders, under the act of Congress, or the various laws of the State or Territory, for the payment of a tax levied upon such shares; but if such bank, through its proper officers, voluntarily lists such shares as the property of the bank for taxation, and the taxing officers of the State or Territory in pursuance of such erroneous listing tax the sadie in the name of the bank, equity will not relieve the bank from the payment of such tax by eujoining its collection in the absence of a proper application to all the statutory tribnnals authorized to hear such natiter and determine and grant the proper relief. '(Albuquerque National Bank v. Peoria et al. (S. C., N. Mex.), January 28, 1891.)
(h) The entire interests of the shareholders may be taxed without any deduction for that portion of the capital which is invested in United States securities. (Van Allen v. The Assessors, 3 Wall., 573.)
(i) New shares issued by a natioual banking associatiou can not be taxed until the increase of capital has been approved by the Comptrolier of the Currency. (Charleston v. People's National Banik, 5 S. C., 103.)
( $j$ ) The manifest intention of the law is to permit the State in which a national bank is located to tax, subject to the limitations prescribed, all the shares of its capital stock without regard to their ownership; and, therefore, a national bauk may be taxed upon the shares which it holds in another national bank. (Bank of Redemption v. Boston, 126 J. S., 60.)
(k) The undivided surplus of a national banking assciation, uuless invested in Federal securities, may be lawfully taxed by the State. (North Ward National Bank of Newark v. City of Newark, 10 Vroom, 380; First National Bank v. Peterborough, 56 N. H., 25.)
(l) But, of course, if the surplus is taken into consideration in estimatiug the taxable value of the shares, it is not to be taxed separately. (North Ward National Bank v. City of Newark, supra.)
NoTe.-But it has been held in Maryland that the stock of an association represents its whole property, and where a tax is assessed upon the shares a separate tax upon the real or personal estate amounts to double taxation; and, therefore, where the organic laws of the State prohibit double taxation, such a tax upon the property of an association is void. (County Commissioners v. Farmers and Mechanics' National Bank, 48 Md., 117 ; see also National State Bank v. Foung, 25 Iowa, 311, wherein it was held that
2. What may be taxbo-Continued.
( $m$ ) The surplas fund of a national banking association is not excluded in the valuation of its shares for taxation. (Strafford National Bank v. Dover, 5! N. H., 316.)
(n) Where shares of stock are assessed at their actuaI cash value, without any deduction for the real estate owned by the association, the real estate should not be taxed eo nomine. (Commissioners of Rice County v. Citizens National Bank of Faribault, 23 Minn., 280.)
(o) Real estate owned by a bank constitutes part of its assets, within the meaning of Code of Mississippi providing that banks shall pay a privilege tax, whose amonnt varies with their "capital stock or assots" in lieu of all other taxes. (Vicksburg Bank v. Worrell, 7 So. Rep., 219.)
( $p$ ) The States can not tax the circulating notes of national banking associa. tions. (Horne v. Greene, 52 Miss., 452 ; Contra Board of Conmissioners 5 Elston, 32 Ind., 27, see also Ruffin v. Board of Commissioners, 69 N. C., 498 Lily v. The Commissioners, 69 N. C., 300.)
3. Rate:
(a) Where the State banks are taxed unon the capital, no tax can be imposed upon the shares of national banking associations; for as the capital of the State banks may consist of the bonds of the United States, which are exempt from State taxation, a tax on capital is not equivalent to a tax on shares. (Van Allen v. The Assessors, 3 Wall., 573 ; Bradley v. The People, 4 Wall., 459.)
(b) But though the tax upon the State banks is not co nomine a tax on shares; yet if it is equivalent to such a tax, the shares in the national banking associations located in that State may be taxed. (Frazer v. Seibern, 16 Ohio St., 614 ; Van Slyke v. State, 23 Wis., 656; Boynoll V. State, 25 Wis., 112.)
(c) Where by local legislation different rates are prescribed for different classes of moneyed capital, the rate imposed upon shares of national banks should approximate as closely as may be to the rate imposed upon other moneyec capital of the same or similar class, viz, shares of State banks. (City National Bank v. Paducah, U. S. C. C. (Sixth Circuit, 1878), 5 Cent. L. J., 347.)
(d) Congress meant no more than to require of the States, as a condition to the exercise of the power to tax the shares in national banks, that they should, as far as they had the capacity, tax in like manner the shares of banks of issue of their own creation. (Lionberger v. Rouse, 9 Wall., 468.)
(c) Therefore, where a State has previously contracted with the banks which it has chartered that they shall not be taxed above a certain rate, a tax upon national-bank shares at a greater rate is not invalid if this rate is not greater than that assessed upon all the moneyed capital within the State, except that of the State banks. (Ibid.)
( $f$ ) Any system of assessment of taxes which exacts from the owner of the shares of a national banking association a larger sum in proportion to the actual value of those shares than it does from other moneyed capital, valued in like manner, taxes the shares at a greater rate, notwithstanding that the percentage of tax on the valuation is the same as that applied to other moneyed capital. (Pelton v. Commercial National Bank, 101 U. S., 143.),

## 3. Valuation:

(a) In estimating the value of the shares for the purpose of taxation reference may be had to all the property and values of the bank. (Saint Loui National Bank v. Papin, U. S. C. C. (Eighth Circuit), 3 Cent. L. J., 669.)
(b) If no excessive valuation is complained of, and a correct result is arrived at, equity will not restrain the collection of a tax because the method of computalion was erroneous. (Ibid.)
(c) The shares may be valued for taxation at an amount exceeding their face value, if this amount is not at a greater rate than the valuation set upor other monejed capital in the State. (Hepburn V. School Directors, 23 Wall. 480.)
(d) Under the statute of New York, shares in national banking associations should be taxed at their real or market value. (People v. The Commissioners of Taxes and A8sessments, 94 U. S., 415.)
(e) Where shares in national banking associations aro purposely valued proportionately higher than the other moneyed capital in the State, the assessment is void. (Pelton v. National Bank, 101 U. S., 143.)
( $f$ ) And the collection of what is in excess of the rate imposed on the other moneyed capital may be enjoined. (Ibid.)

## 3. Valuation-Continned.

$(g)$ It is not required that the State should abandon systems of taxation of their own banks, or of money in the hands of their other corporations, which they may think the most wise and efficient modes of taxing their own corporate organizations, in order to make that taxation conform to the system of taxing the national banks upon the shares of their stock in the hands of the shareholders; all that is necessary is that the system of State taxation of its own citizens, of its own banks, and of its own corporations shall not work a discrimination unfavorable to the holders of the shares of the national banks. (Davenport Bank v. Davenport, 123 U. S., 83.)

## 4. ExEMPTIONS:

(a) The intention of Congress was that the rate of taxation of the shares should be the same as, or not greater than, the tax upon the moneyed capital of the individual citizen which is subject and lialle to taxation. (People v. The Commissioners, 4 Wall, 244.)
(b) Therefore, it is not a ground of objection to the validity of a tax on shares that, while deductions for United States bouds are made from the personal estates of individuals and the capital of State corporations, no deductions are made on account of the capital of national banking associations invested in such bouds. (Ibid.)
(c) The fact that by the statutes creating them, which statutes were passed prior to the national banking law, State banks are entirely exempt from taxation will not render a tax upon the shares of national banking associations void. (City of Richmond v. Scott, 48 Ind., 568.)
(d) And a State tax upon shares in national banking associations is not rendered invalid by an exemption of the shares of other corporations, the capital of which consists of property required to be listed for taxation as such. (McIver v. Robinson, 53 Ala., 456.)
(e) Merely a partial exemption of other moneyed capital will not invalidate a tax upon sharos in national banking associations. (Hepburn v. School Direotors, 23 Wall., 480.)
( $f$ ) But though Congress did not contemplate that there should be an absolute equality (which in the nature of things is impossible), yet it did intend that there should be a substantial equality; and therefore, if the exemptions in favor of other moneyed capital are so palpable as to show that there is a serious discrimination against capital invested in the shares of national bankiug assooiations, the tax will be declared unlawful. (Boyer จ. Boyer, 113 U. S., 690.)
(g) A State law which does not permit a deduction to be made from the assessed value of bauk shares for all debts due by the holder thereof, while authorizing such a deduction to be made from the assessed value of moueyed capital otherwise invested, is void. (People ex vel. Williams v. Weaver, 100 U.S., 539, reversing S. C., 67 N. Y., 516, and overruling People v. Dolan, 36 N. Y., 59.)
( $h$ ) In the assessment and taxation of shares of national-bank stock, the owners thereof, having no other credits or moneyed capital, are entitled to deduct their bona fide debts from the value of such shares of stock. (Wasson v. Bank (Ind.), 8 N. E. Rep., 97.)
(i) Revised Statutes, section 5219, providing that shares of national-bank stock may be taxed as part of the personality of the owner, and that each State may tax them in its own manner, except that the taxation shall not be at a greater rate than is imposed on other "moneyed capital" owned by citizens of the State, and that the shares of non-residents shall only be taxed in the city wherein the bank is located, do not authorize the taxation of the stock of a bank in solido by the city in which it does business, but only the shares of individual owners residing in the city are taxable, and they must be taxed separately, in order that the owner may deduct from their value the amount of his personal indebtedness, where the State laws or municipal ordinances permit such deductions, and require equality of taxation. (First National Bank of Richmond v. City of Richmond et al., 39 Fed. Rep., 309.)
( $j$ ) The main purpose of Congress in fixing limits to State taxation on investments in the shares of national banks, was to render it impossible for the State in levying such a tax to create and foster an unequal and unfriendly competition by favoring institutions or individuals carrying on similar business and operations and investments of a like character; and the language of the law is to be read in the light of this policy. And, therefore, the exemption of shares of stock in corporations, the business of which does not come into competition with that of the national bank (e. g., railroad companies, mining
4. Exemptions-Continued.
companies, manufacturing companies, and insurance companies), does not invalidate a tax upon national-bank shares. Capital thus employed is not "moneyed capital" within the meaning of the act of Congress. (Mercantile Bank v. New York, 121 U. S., 138.)
(k) Bonds issued by a state, or under its authority by its public municipal bodies, althoush they undoulbtedly represent moneyed capital, yet as from their nature they are not ordinarily the subject of taxation, are not within the reason of the rule established loy Congress for the taxation of nationalbank shares, and the fact that the State exempts them from taxation does not deprive it of the right to tax shares of stock of natioual banks in the State. (Ibid.)
(l) Although deposits in savings banks constitute moneyed capital in the hands of individuals within the terms of any definition which can be given of that phrase, yet they are not within the meaning of the act of Cougress in such a sense as to require that, if they are exempted from taxation, shares of stock in national banks must thereby also be exempted from taxation; for it can not be supposed that savings banks come into any possible competition with national banks. (Ibid.)
( $m$ ) Under act Louisiana, 1888, section 27, relating to taxation of national-bank shares, making no deduction for that part of the bank's property entering into their value which consists of non-taxable State and national securities, which deduction may, under the act, be made by individuals, a tax on national-bank shares violates Revised Statutes of the United States, section 5219, prohibiting the assessment of such shares at a greater rate than moneyed capital in the hands of individual citizens, aud it is immaterial that the same discrimination is made against other corporations. (Whitney National Bank v. Parker, 41 Fed. Rep., 402.)
5. Collection of tax hrom the assoclation:
(a) A State tax upon shares is valid, though the tax is collected from the bank. (National Bank v. Commonwealth, 9 Wall., 353.)
(b) And the State nay require the banks to pay a tax rightfully laid upon the shares. (Ibid.)
(c) And where the tax on shares is payable by the association, the collection of the tax may beenforced by distraint of its property. (First National Bank v. Douglas County, 3 Dill., 330.)
(d) But where the tax laws of the State make the bank the mere agent for paying the tax on shares, and direct it to retain so much of the dividends as will answer that purpose, other agents being required to pay taxes for their principals only when they have under their control the property, money, or credit of such principals, the bank can not be made liable unless it has the control of the property, etc., of its shareholders, or has dividends in its possession, or has failed to retain them. (Hershire v. First National Bank, 35 Iowa, 272.)
(e) Act Louisiana, 1888, section 27, providing that shares in loanks shall be assessed to the shareholders, but requiring the bank to pay taxes so assessed, and anthorizing it to collect the same from the shareholders, imposes a tax, not upon the bank, but upon its shares, as permitted by act of Congress, providing that a State may determine the manner of taxing the shares of national banks located in the State. (Whitney National Bank v. Parker, 41 Fed. Rep., 402.)
6. License tax :
(a) National banking associations can not be subjected to a license or privilege tax. (Mayor v. First National Bank of Macon, 59 Ga., 648; City of Carthage v. First National Bank of Carthage, 71 Mo., 508; National Bank of Chattanooga v. Mayor, 8 Heiskell, 814.)
(b) A State law prohibiting the establishment of banking companies in the State without the authority of the legislature was not intended to apply to banking corporations created by authority of Congress, since such corporations may be legally established in the State without the consent of the legislature. (Stetson v. City of Bangor, 56 Me., 274.)
7. Powers of taxing officers:
(a) Municipal officers can not asses a tax upon the shares of national banking associations until authorized to do so by some law of the State. (Stetson $\mathbf{v}$. City of Bangor, 56 Me., 274.)
(b) The officers of a national banking association can not be compelled to exhibit to the taxing officers of a State the books of the association showing the deposits of its customers. (First National Bank of Youngstown $\mathrm{V}_{\mathrm{i}}$ Hughes, U. S. C. C. (N. D. Ohio, 1878), Browne's Ni B. Cab., 176.)

## 7. Powers of taxing officers-Continued.

(c) Code Alabana, 1286, S. 1677, which provides that stockholders of all private corporations lave the right to have aceess to, and inspection and examination of the books, records, and papers of the corporation, at all reasonable and proper times, applies to national banks located within the State, and the rights of stockholders are not curtanled nor the statute in conflict with Revised Statutes, United States, which provide that uational banks shall not be subject to visitorial powers other than those authorized by Congress or vested in the courts of justice. (Winter v. Baldwin, Ala., 7 So., 734.)
(d) The only remedy for the making of a false return to the auditor by the cashier of a bank, of the resources and liabilitics of the bank for the purposes of taxation, is afforded by revised statutes of Ohio, section 2679, which provides that the auditor may examine the books of the bank, and any officer or agent of it under oath, and maks ont the statement; and any officer of the bank may be fined uot exceeding $\$ 100$ for failing to make the statement, or for willfully making a false one. (Millerv. First National Bank, 21 N. E. Rep., 860.)
(e) A national banking association is not exempt from examination by internalrevenue officers when it has in its possession any articles subject to an internal-revenue tax. Such an examination is not the exercise of a visitorial power, and therefore is not prohibited by the provision of section 5241, Revised Statutes, that the national banks shall not be subject to any visitorial powers except those anthorized by the national-bank act or vested in the courts of justice. (United States v. Rhawn, D.S.D.C.(E. D. Penn.), Thomp. N. B. Cas., 358.)
(f) Where by the tax laws of a State a perpetnal lien for taxes attaches to property only by virtue of a levy thercon, and such levy is uot made prior to the insolvency of the bank, the taxing officers of the State will be restrained, at the instance of the receiver, fiom levying upon the property of an insolvent national lank, and selling it, for the purpose of collectiug a tax. (Wooduard v, Ellsworth, 4 Colo., 580.)
(g) A State may require the cashiers of national banking associations located within its territory to transmit lists of the shareholders to the taxing officers of the varions towns in which the shareholders reside. (Waile v. Dowley, 94 U. S., 527.)

## 8. Enforcement of taxes:

A tax duly assessed upon shares may be enforced in accordance with the gencral laws of the State ou that subject. (Weld v. City of Bangor, 59 Me., 416.)
9. Location of association for taxing purposes:

All association which opens an office for the purpose of receiving deposits in another place than that in which it was organized does not become "located" iu that place for purposes of taxation. (National State Bank of Camden v. Pierce, J. S. C. C. (E. D. Penn.), 18 Alb. L. J., 16).

## XI. JURISDIC'IION.

Note. -The jurisdiction of tbe Federal conrts in national-bank cases was very materially changed by the proviso to the fourth section of the act of July $12,188 \%$. The proviso is as follows:
"Provided, however, That the jurisdiction for suits hereafter bronght by or against any association established under any law providing for national banking associatious, except suits between them and the United States, or its officers and agents, shall be the same as, and not other than, the jurisdiction for suits by or against banks not organized under any law of the United States which do or might do banking business where such national banking associations may be doing business when such suits may be begun. And all laws and parts of laws of the Uuited States inconsistent with this proviso be, and the same are Lereby, repealed."
The jurisdiction of the United States circuit courts in suits by or against national banks is thus defined by section 4, act March 3, 1887:
"Sec. 4. That all national banking associations established under the laws of the United States sball, for the purposes of all actions by or against them, real, personal, or mixed, and all suits in equity, be deemed citizens of the States in which they are respectively located; and in such cases the circuit and district courts shall not have itfrisdiction other than such as they would have in cases between individual citizens of the same State.

## Jurisdiction-Continued.

"The provisions of this section shall not be held to affect the jurisdiction of the conrts of the United States in cases commenced by the United States, or by direction of any ofticer thereot, or cases for winding up the affairs of any such bank."

1. Jurisdiction of Federal courts prior to the act of July 12, 1882 :
(a) National banking associations may sue in the Federal conrts. The word "by" was omitted from section 57 of the act of 1864 by mistake. (Kennedy v. Gibson, 8 Wall., 505.)
(b) A national banking association may sueand be sued in the circuit court for the district in which the association is located, irrespective of the amount in controversy and the citizenship of the parties. (County of Wilson $\mathbf{v}$. National Bank, 103 U. S., 770 ; Mitchell v. Walker, U. S. C. C. (W. D. Penn., 1879), Browne's N. B. Ca8., 180; Commercial Banle of Cleveland v. Sinnons, U. S. C. C. (W. D. Ohio), 10 Alb. L. J., 155.)
(c) But where the amount in eontroversy does not exceed five hundred dollars, the association can not sue iu a Federal court outside of the district in which it is established. (St. Louis National Bank v. Brinkman, U. S. C. C. (D. Kans.), 1 Fed. Rep., 45.)
(d) A national banking association located in one State may bring an action in the circuit court of the United States sitting within another State agrainst a citizen of that State. (Manufacturers' National Bank v. Baack, 8 Blatch., 147.)
(e) When a national bank is sued in a Federal court the suit must be bronght in the district in which the bank is located. And service upon an officer of the bank in another district will not give the court of that district jurisdiction of the cause. (Maine $\mathbf{v .}$ Second National Bank of Chieago, 8 Biss., 26.)
( $f$ ) A United States district court has jurisdiction of a suit in equity by or against a national banking association located withiu the district. (First National Bank of Pittsburgh v. Pittsburgh and Castle Shannon Railroad Company, 1 Fed. Rep., 190.)
(g) A circuit court bas no jurisdiction of a suit by a privaie person to compel the Comptroller of the Currency and the Treasurer of the United States to disclose what disposition has been made of the United States bonds deposited with the Treasurer by a national bauking association, and for a decree directing those officers as to thetir duty regarding such bonds. (Van Antжerp v. Hulburd, 7 Blatch., 425; Fan Antwerp v. Hulburd, 8 Blatch., 282.)
(h) Section 380, Revised Statutes, which provides that "all suits and proceedings arising out of the provisions of law goveruing national banking associations, in which the United States or any of its officers or agents shall be parties, shall be conducted by the district attorneys of the several districts under the direction and supervision of the Solicitor of the Treasury," does not enlarge the jurisdictiou of the circuit court, and can not be held to confer jurisdiction in such suits or proceediugs upon a court not having, independently of this section, authority to eutertain them. (Van Antwerp v. Hulburd, 7 Blatch., 426, supra.)
(i) Natinnal banking associations, being corporations organized under the laws of the United States, are eutitled as such to remove into the circuit court of the United States suits bronght against them in the State conrts. (Cruikshank v. Fourth National Bank, 21 Blatch., 322; see also Removal Caber, 115 U. S., 1.)
( $j$ ) A United States district court has jurisdiction to authorize a receiver to compromise a debt. (Matter of Platt, 1 Ben., 534.)
(k) An action at common law to recover a debt due to the bank may be instituted by a receiver in a United States district court, he being an officer of the United States within the meaning of section 563, Revised Statutes. (Platt v. Beach, 2 Ben., 303 ; Stanton v. Wilkeson, 8 Ben., 357.)
(l) The power of a national banking association to take a nortgage upon real estate is a question which the party raising it should be permitted to litigate in a Federal court; and he should not be sent into the State conrts to try this question on the distribution of surplus moneys in a foreclosure suit, or in a suit brought by the party holding the alleged invalid mortgage. (In re Duryea, D. S. D. C. (S.D. N. Y.), 17 National Bankruptcy Register, 495.)
2. Jurisdiction of Federal courts subsequent to act of July 19, 188: :
(a) The tenth subdivision of section 629, Revised Statutes, which confers upon the circuit court of the United States jurisuliction of all suits by or against any national banking association established in the district for which tho
3. Jurisdiction of Federal courts subsequent to act of July 12, 1882Continued.
court is held, has been repealed by the proviso to section 4 of the act of July 12, 1882. (National Bank of Jefferson v. Fare et al., U. S. C. C. (E. D. Tex. ), 25 Fed. Rep., 200.)
(b) The object of this proviso was to deprive the United States courts of jurisdiction of suits by or against national banking associations in all cases where banks organized under State laws conld not likewise sue or be sued in such courts. (National Bank of Jefferson v. Fare et al., supra.)
(c) But the proviso does not affect the right of the receiver of an insolvent association to sue in a Federal court. (Hendee v. Connecticut and P. R. R. Co., 26 Fed. Rep., 677.)
(d) Nor would the act of Jnly 12, 1882, take from the circuit court jurisdiction of a suit brought against a director for negligent performauce of his daties; for as such suit rests upon the requirements of the United States laws, and by-laws made pursnant thereto, it is a case arising under the laws of the United States. (Witters v. Foster, U. S. C. C. (D. Vt.), 28 Fed. Rep., 737.)
(e) In an action against a national bank in a circuit court of the United States, if all the parties are citizens of the district in whieh the bank is situated, and the action does not come under section 5209 or section 5239 of the Revised Statutes, the circuit court has no jurisdiction. (Whittemore r. Amoskeag National Bank, 134 U. S., 527.)
$(f)$ The Federal courts have jurisdiction of an action between a national bank located in one State and a citizen of another State. (First National Bank v. Forest, 40 Fed. Rep., 705.)
(g) An action between a receiver of an insolvent national bauk and a depositor does not present a Federal question nuder Revised Statutes of the United States, section 5242, avoiding preferences to creditors of such an insolvent bank. (Tehan v. Firet National Bank et al., 39 Fed. Rep., 577.) On motion to remaud to State court.
(h) A receiver of an insolvent national bank is an officer of the United States within the meaning of section 563, Revised Statutes of the United States, which gives tho district courts jurisdiction of "all suits at common law bronght by the United States, or any officer thereof authorized by law to sue." (U.S. D. C. (E.D. Mo.), Fcb. 24, 1890.)
4. Jurisdiction of State Courts:
(a) State courts have jurisdiction of suits by and against national banking associations. (Bank of Bethel v. Pahquioque Banh, 14 TFall., 38'3; see also Ord. way v. Central National Bank, 47 Md., 217, and Claflin v. Houseman, 93 U. S., 130.)
(b) Where a national banking association is sued in a State court the suit must he brought in the city or county in which the bank is located. (Cadle v. Tracey, 11 Blateh., 101; Crocker v. Maine National Bank, 101 Mass., 240.)
Note.-But the New York court of appeals has held that the provision of the national banking law as to the jurisdiction of State courts is permissive only, and not mandatory, and that a State court, in a proper case, may entertain a proceeding against a national bank located in auother State. (Cooke v. The State National Bank of Boston, 52 N. Y., 96 ; Robinson v. National Bank of New Berne, 81 .N. Y., 885 ; ste also Adams v. Daunis, 29 La. Ann., 315.) And in Talmage v. Third National Bank, 27 Hun, 61, the supreme court of New York said: "The words of restriction to the place where said 'association is situated' apply to the county and municipal courts and not to the State courts. In the State courts of general jurisdiction a national banking association can be sued whenever an individual can be for the same canse." In Cooke v. The State National Bank, Chiof Judge Church questioned the constitutional right of Congress to deprive the State courts of jurisdiction iu such cases.
(c) A State court can entertain an action brought to recover of a mational banking association the penalty for taking usury. (Ordioay v. The Contral National Bank, 47 Md., 217; Hade v. McFay, 31 Ohio St., 231; Bletz v. Columbia National Bank, 87 Penn. St., 87.)
(d) The State courts have jurisdiction of an action brought by a shareholder on behalf of himself and other shareholders to recover of the directors of an insolvent association rlamages for injuries resulting from their negligence and miscondnct. (Brinckerhoff v. Bostwick, 88 N. Y., 52.)
(e) A State court has no power to make an order directing the receiver of a wational bank, who has been appointed by the Comptroller of the Curreney, to pay a judgment oltained against the bank before the recciver was appointed. (Ocean National Bank v. Carll, 7 Mun, 237.)
5. Jurisdiction of State Courts-Continuel.
(f) Stato courts have no juristiction of the case of an embezzlement of the funds of the association by one of its officers. (Commonucalth v. Felton, 101 Mass., 204; Commonwealth ex rel. Torrey v. Ketner, 92 Iemn. St., 372.)
(g) The defense of usury may be set up in action brought in a State court. (National Bank of Winterset v. Fyre, 52 Iowa, 114.)
6. United States can not be subjected to jurisdiction of court:

Neither the Comptroller nor the receiver by putting in an appearance to a suit can snbject the United States to the jurisdiction of a court. (Case v. Terrell, 11 Wall., 199.)
5. Citizenship:

A national banking association is for jurisdictional purposes a citizen of the State in which it is located. (Davis v. Cook, 9 Nev., 134.)

## XII. SUITS.

1. By and against associations:
(a) Suit may be brought against a national banking association though it is in the hands of a receiver. (Bank of Bethel v. Pahquinque Bank, 14 Wall., 383; Security National Bank v. National Bank of the Commonwealth, 2 Bun, 207; Green v. The Wallkill National Bank, 7 Hun, 63.)
(b) Where the tax on shares is collected from the association it may bring a suit to enjoin the collection of an illegal tax. (Cummings v. National Bank, 101 U. S., 153; Pelton v. Commercial National Bank, 101 O. S., 143 ; Boyer v. Boyer, 113 U. S., 143.)
(c) A State Jaw anthorizing national banking associations which have been converted from State banks to use the name of the original corporation for the purpose of prosecuting and defending suits is not in conflict with the national bankiug law, and therefore proceedings based upon a judgment obtained before the conversion niay be instituted by such association in its former corporate name. (Thomas v. Farmers' Bank of Maryland, 46 Md., 43.)
(d) A national banking association is a foreign corporation within the meaning of a State statute requiring corporations created by the laws of any other State or country to give security for costs before prosecuting a suit in the courts of the State. (National Park Bank v. Gunst, 1 Abb. N.C., 292.)
(e) As a national banking association can acquire no title to negotiable paper purchased by it, it can maintain no action thereon iu a State where the person suing must be owner of the paper. (First National Bank of Rochester v. Pierson, 24 Minn., 140.)
$(f)$ But in a State where the holder may sue without respect to the ownership an association may bring suit upou paper so acquired. (National Pemberton Bank v. Porter, 125 Mass., 333 ; Atlas National Bank v. Savery, 127 Mass., 75.)
(g) Suits brought by a receiver can not be settled or compounded upon an order of the Comptroller ; this can be done only with the anthority of the court. (Case v. Small, 2 Woods, 78.)
(h) An action for money against a national bank whose corporate existence is admitted is not a suit arising nuder the laws of the United States. ( Ulster County Savings Institution v. Fourth National Bank, 8 N. F., 162.)
2. By sharhiolders:
(a) A shareholder of a national banking association can not maintain an action agaiust the directors to recover daunges sustained for neglect and mismanagement of the affairs of the association whereby it became insolvent and its stock was rendered worthless. Such an action can be brought only by the corporation itself. (Conway v. Halsey, 15 Vroom, 462.)
(b) But where the receiver refuses to bring an action against negligent directors to recover the amount which the shareholders have been compelled to contribute to pay the debts of the association, an action against such directors may be brought by a shareholder on behalf of himself and the other shareholders. (Nelson v. Burrows, 9 Abb. N. C., 280.)
(c) And when the receiver is a director, aud one of the parties charged with misconduct and against whom a remedy is sought, the action may be bronght by a shareholder on behalf of himself and the other sharcholders. (Briuclevhoff v. Bostwick, 88 N. F., 5\%.)
3. By heceivirs :
(a) A receiver may sue either in his own name or the name of the bank. (Nutional Bankiv. Kinnedy, 17 Wall., 19.)
(b) Suits and proceedings under the act in which the United States or their officers or agents are parties, whether commenced before or after the appointment of a receiver, are to be conducted by the district attorney under the direction of the Solicitor of the Treasury. (Bank of Belhel v. Pahquioque Bank, 14 Wall., 383.)
(c) But section 380, Revised Statutes, is directory merely, and the emplosment of private counsel by the receiver can not be made a ground of defense to a suit brought by linu. (Ibid.)
(d) Receivers may sue in the courts of the United States by virtue of the act withont reference to the locality of their personal citizenship.
(e) The provisions of the codes that every action must be brouglit in the name of the real party in interest, except in the case of the trustee of an express trust, or of a persou authorized by statute to sue, does not apply to the receiver of a uational banking association suing in a Federal court held in a State which has adopted the code procedure; for the right of the receiver to sue is derived from the national banking law. (Stanton v . Wilkeson, ४ Ben., 357.)
( $f$ ) Under section 1001 of the Revised Statutes, no bond for the prosecution of the suit, or to answer iu damages or costs, is required on writs of error or appeals issuing from or brought to the Supreme Court of the United States by direction of the Comptroller of the Currency in suits by or agaiust insolvent national banking associations, or the receivers thereof. (Pacific National Bank v. Mixter, 114 U. S., 463.)
4. By creditors of'insolvent association:
(a) The creditors of an insolvent association must seek their remedy through the Comptroller, in the mode prescribed by the statute; they can not proceed directly in their own names against the stockholders or debtors of the bank. (Kennedy v. Gibson, 8 Wall., 498.)
(b) The writ of mandamus can not issue in a case where its effect is to direct or control the head of an executive department in the discharge of an executive dury, involving the exercise of judgment or discretion. (United Slates ex rel. Boynton v. Blaine, 139 U. S., 306.)
5. For usury:
(a) The penalty for all illegal interest paid to a national banking association within two years prior to the commencement of proceedings may be recovered in a single action, whether the amonnt was in one payment or in several. (Hintermister v. First National Bank, 64 N. Y., 212.)
(b) Where a bankrupt has paid usurious interest, his assignee may bring an action against the association to recover the penalty. (Wright v. First National Bank of Greensburg, U. S. C. C. (Dist. Ind., 1878); Crocker v. First National Bank of Chetopa, U. S. C. C. (Eighth Circuit, 1876) ; 3 Am. L. T. N. S., 350.)
(c) The party who paid the usurious interest is the only party to the note who is entitled to sue for the penalty. (Lazear v. National Union Bank of Maryland, $52 \mathrm{Md}$. , 78.)
(d) Under Revised Statutes, United States, 5198, providing that a suit against a national bank for taking usurious interest must be commenced within two years from "the time the usurious transaction occurred," the limitation begins to run from the time when such interest is paid. (National Bank v. Carpenter, N. J., 19 A., 181.)
6. To enforce liability of bhareholders:
(a) When the full personal liability of shareholders is to be enforced the action must be at law. (Kennedy v. Gibson, 8 Wall., 505; Casey v. Galli, 94 U. S., 673.)
(b) And it may be at law, though the assessment is not for the full value of the shares; for, since the sum each shareholder must contribute is a certain exact sum, there is no neceesity for invoking the aid of a court of equity. (Bailey v. Sawyer, 4 Dill., 463.)
(c) But the suit may be in equity. (Kennedy v. Gibson, supra.)

## 7. Execution:

A judgment against a national bank in the hands of a receiver only establishes the validity of the claim; the plaintiff can have no execution on such judgment, but must wait pro rata distribution. (Bank of Bethel v. Pahquioque Bank, 14 Wall., 3*3.)

## 8. ATTACHMENTS:

(a) When a creditor attaches the property of an insolvent bank he can not hold such property against the claim of a receiver appointed after the attachment suit was commenced. Such creditor must share pro rata with all others. (First National Bank of Selma v. Golby, 21 Wall., 609; Harvey v. Allen, 16 Blatch., 29.)
(b) No State court can issue an attachment against the funds of a national bank. Although the provision forbidding attacbments was evidently made to secure equality among the general creditors in the division of the proceeds of the property of an insolvent bauk, its operation is by no means confined to cases of actual or contemplated insolvency; but the remedy is taken away altogether and can not be used under any circumstances. The effect of the provision in soction C24:, Revised Statutes, is to write into all State attachment laws an exception in favor of natioual banks, and all such laws must be read as if they contained an exception in favor of natioual banks. (Yacific National Mank v. Mixter, 124 U. S., 721.)

Note.-This case overrules the decision of the New York court of appeals in Robinson v. National Bank of New Berne ( 81 N. Y., 385), where it was held that the national banking law does not prohibit attachments against the property of national banks, except in cases where an act of insolvency bas been committed, or is contemplated. See also National Shoe and Leather Bank v. Mechanics' National Bank, 89 N. Y., 467; Raynor v. Pacific National Bank, 93 N. Y., 371; Southwick v. First National Bank of Memphis, 7 Hun, 96.
(c) Nor can an attachment be issued ly a circuit court of the United States; for as by the law of Cougress all power of issuiug attachments against national banks before judgment has been eliminated from State statutes, there can be no laws of the State providing for such a remedy on which the circuit court can act. (Ibid.)

## 9. Abatement :

An action brought by the creditor of a national bank is abated by a decree of a distict or circuit court dissolving the corporation and forfeiting its franchises. (First National Bank of Selma v. Colby, 21 Wall., 609.)
10. Estoppel:
(a) A shareholder against whom suit is brought to recover the assessment made upon him by the Comptroller will not be permitted to deuy the existence of the association, or that it was legally incorporated. (Casey v. Galli, 94 U. S., 673.)
(b) Where one sued by a national bank is accustomed to deal with it as such, and does so deal with it in respect to the matter in suit, he is estopped from denying its incorporation. (National Bank of Fairhaven v. The PhonixWarehousing Company, 6 Hun, 71.)
11. Suits against liquidating associations:

A national bank which has goue into voluntary liquidation will continue to oxist as a body eorporate for the purpose of suing and being sued until its affairs are completely settled. (National Bank v. Jnsurance Company, 104 U. S., 54 ; Ordray v. Central Naional bank, 47 Md., 217.)
12. Transitory and local suits:

The provision of the banking law, section 5198, Revised Statntes, which requires that actions brought against national banking associations in State courts slall be brouglt in the connty or city in which the association is located, applies only to transitory actions; it was not intended to apply to actions local in their character. (Casey v. Adams, 102 U. S., 66.)
13. Survival of suits:

Whether a suit against a director for negligent porformance of his duties, as required by the statutes of the United States and the by-laws of the association, will survive against the executor or administrator depends upon State laws. (I'itters v. Foster, U.S.C.C. (Dist. Vt.), 25 Fed. Rep., 737.)

## XIII. EVIDENCE.

## 1. Certhicicate of Comptroller:

(a) The certificate of the Comptroller of the Currency that an association has complied with all the provisions required to be complied with before commencing the business of banking is admissible in evidence upon a plea of

1. Certhicate of Comprrofler-Continued.
nul licl corporation ; and such certificate, together with proof that the association has been acting as a national banking association for a loug time, is amply sutficient evidence to establish, at least prima facie, the existence of the corporation. (Mixv. The National Bank of Bloomington, 91 Ill., 20; see also Merchants' National Bank of Bangor v. Glendon, 120 Mass., 97.)
(b) The certiticate of the Comptroller that the association has complied with all the provisions of law touching the organization of associations removes any objection which might otherwise have been made to the evidence upon which he acted. (Casey v. Galli, 94 U. S., 673 ; Thatcher v. West River National Bank, 10 Mich., 196.)
(c) And in a suit against the association or its shareholders such certificate of the Comptroller is conclnsive as to the completeness of the organization. (Casey v. Galli, supra.)
(d) A letter from the Comptroller directing the receiver to institute suit, if not objected to at the time, is sufficient evidence that the Comptroller has decided that the enforcement of the individual liability of the shareholders is necessary. (Bowden v. Johnson, 107 U. S., 251.)
2. Evidence of insolvancy:
(a) It is not necessary that the facts upon which the Comptroller bases his action in appointing a receiver should be established by what is competent legal evidence; but he is left to be satisfied as best he can be, under the peculiar circumstances of eaeh case, of the facts and the necessity for the exercise of his authority. (Platt v. Beebe, 57 N. Y., 330.)
(b) A return of nulla bona upon an execution issued against the property of a natioual bank is proof of its insolvency. (Wheelook v. Kost, 77 Ill., 296.)

## 3. Necessity for assessment by Comptroller:

It is not essential, in an action to enforce the individual liability of the shareholders of an insolvent national banking association, to aver and prove that the assessment was necessary ; for the decision of the Comptroller on this point is couclusive. (Strong v. Southworth, 8 Ben., 331 ; Kennedy v. Gibson, 8 Wall., 505; Casey v. Galli, 94 U. S., 673.)

## XIV. CRIMES.

## 1. Under United States laws:

(a) The willful misapplication of the moneys aud funds of a national banking assoclation, made an offense by section 5009, Revised Statutes, must be for the use or benefit of the party charged or of some person or company other than the association. (United States v. Britton, 107 U. S., 655.)
(b) The exercise of official discretion in good faith, without fraud, for the advantage or the snpposed advantage of the association, is not punishable; but if official action be taken in bad faith, for personal advantage and with fraudulent intent, it is punishable. (United States v. Fish, 24 Fed. Rep., 585.)
(c) It is not necessary that the officer should personally misapply the funds of the association. He will be guilty as a principal offender thongh he merely procures or causes the misapplication. (Ibid.)
(d) A loan in bad faith, with intent to defraud the association, is a willful misapplication within the meaning of the statute. (Ibid.)
(c) It is no defense to a charge of eubezzlement, abstraction, or misapplication of the funds of a national banking association that the funds were used with the knowledge aud consent of the president and some of the directors. The intent to detraud is to be conclusively presumed from the commission of the offense. (United States $\mathbf{v}$. Taintor, 11 Blatch., 374.)
(f) Where the president, charged as a trustee with the administration of the funds of the bank in his hands, converts them to his own use without authority for so doing, he embezzles and abstracts them within the meaning of section 5209, Revised Statutes. (In the matter of Van Campen, 2 Ben, 419.)
(g) If, with intent to defraud the association, an officer allows a firm in which he is a member to overdraw its account, he will be guilty of misapplying the funds of the association. (Ibid).
(h) As the national banking law makes the embezzlement, abstraction, or willful misapplication of the funds of a national banking association merely a misdemeanor, a person who procures such an offense to be committed can not be punished under a State statute which provides that a person who procures a felony to be committed may be indicted and comvicted of a substantive felony. (Commonwealth v. Felton, 101 Mass., 204.)

(i) An indictment charwin@ delendants with aiding and abetting a director in a willfal misappleation of the money of an association mast state facts to show that there has been such misapplication committed by the director. ( Cmited States v. Warner, U. S. C. C. (S. D. N. F.), Feb. 13, 1886, 26, Fed. Rep., 616.)
(j) Allowing the withdrawal of the deposit of one indebted to the association can not be charged as a misapplication of the money of the association. (United States v. Britton, 108 U. S., 193.)
(l) It is not a willful misapplication of the moneys of the association within the meaning of section 5209, Revised Statates, for a president who is insolvent to procure the discounting by the association of his note not well secured. (Ibid).
(l) To constitute the offense of a willful misapplication of the moneys, funds, or credits of the association within section 5209, Revised Statutes, it is not necessary that the persou charged with the offense should have been previously in the actual possession of such monegs, funds, and credits under or by virtue of any trust, daty, or employment committed to him. Nor is it necessary to the commission of this offense that the officer making the willful misapplication should derive any personal benefit therefrom. When the funds or assets of the bauk are unlawfully taken from its possession, and afterward willfully misapplied by converting them to the use of any person other than the bank, with intent to injure and defrand, the offense as described in the statute is committed. (United States v. Harper, 33 Fed. Rep., 471.)
(m) This criminal act may be done directly and personally, or it may be done indirectly through the agency of another. If the officer charged with it has such control, direction, and power of management by virtue of his relation to the bank as to direct an application of its funds in such manner and under such circumstances as to constitute the offense of willful misapplication, and actually makes snch direction or causes such misapplication to be made, he is equally as guilty as if it was done by his own hands. (Ibid.)
(n) Any ontry on the books of the bank which is intentionally made to represent what is not true or what does not exist, with intent either to deceive its officers or defraud the association, is a false entry within the meaniog of the statute. (Oniled States v. Harper, supra.)
(o) It may be made personally or by direction.
(p) The erasure of figures already written in the books of a national bank and the substitution of other figures which falsify the state of the account constitute a "faise entry" withiu the meaning of section 5209, Revised Statutes, by which it is declared to be a misdemeanor to nıake "any false entry in any book, report, or statement of the association with intent to injure or defraud," etc. (Unted States v. Crecelius, 34 l'ed. Rep., 30.)
(q) Where false entries are made by a clerk at the direction of the president, the latter is a principal. (In the matter of Van Campen, supra; Duited States v. Fish, supra.)
(r) Prior to the act of February 26, 18s1, a notary public holding his commission under a State had no authority to administer the oath required by section 5211, Revised Statutes; and therefore a cashier who made oath before such notary to a false statement of the condition of his a sociation was not guilty of perjury. (Enited States v. Curtis, 107 U.S., 671.)
(8) To constituite the offense of willful abstraction by an officer, defined by the statute, it is neccssary that the money or funds of the association shonld be withdrawn by the officer or by his direction; that such taking or withdrawing should be withont the knowledge or consent of the bank, or of its board of dircetors; that the money or funds so taken or withdrawn should be converted to the officer's own use, or for the benefit and advautage of some persou other than the association, and that this should be done with intent to injure and defraud the association. (United Stales v. Harper, supra.)
( $t$ ) A report of condition of a national bank, whether called for by the Comptroller of the Currency or not, which is a report in the usual form made by an officer of the bank in his official capacity, if it contains a false entry made with intent to deceive, is withiu Revised Statutes of the United States, section 5209, which discloses such falseentries to bea misdemeanor. (United States v. Hughitt, 45 Fed. Rep., 47.)
2. Undel State laws:
(d) An officer of a mational banking association can not be punished under State laws for embezzling the funds of the association. (Commomvealth ex rel. Towey v. Ketner, 92 Penn. St, 372; Commomweallh v. Follon, 101 Mass., 204.)
(b) But where the offense committed by an officer is properly a larceny of the funds, and not an embezzlement, he may be indicted under a State law. (Commonueallh v. Barvy, 116 Mass., 1.)
(c) And an officer may be punished under Stato laws for making false entries in the books of the association with intent to defraud it. (Luberg v..Commonwealth, 94 Penn. St., 8ت̈.)
(d) The officers of a national banking association may be prosecuted under State statutes for fraudulent conversion of the property of individuals de. posited with, and in the custody of, the association. (Commoncealth v. Tenney, 97 Mass., 50 ; State v. Fuller, 34 Conn., 280.)
3. Term "United States currency" in Penal statutes:

The circnlating notes of natronal banking associations are included in the phrase "United States currency" when used in a penal statuto. (Statev. Gasting, 23 La. Ann., 1609.)
