On September 7, 1899, reports of condition were submitted by 3,595 national banks, with a paid-in capital of $\$ 605,772,970$. The surplus fund and undivided profits amounted to $\$ 248,449,234.99$ and $\$ 102,066,430.50$, respectively. The individual deposits reached $\$ 2,450$,$725,595.31$ and the aggregate liabilities $\$ 4,650,355,133.44$. The loans and discounts on the date named aggregated $\$ 2,496,751,251.11$.

By comparison of the September 7 returns with those made on September 20, 1898, there is shown an increase in loans and discounts of $\$ 340,789,623.20$. Of the aggregate loans on the former date, $\$ 1,063,701,130$ were secured by stocks, bonds, and other collateral; $\$ 907,109,304$ represents two or more name paper, and $\$ 595,940,817$ single-name paper, including both demand and time.

An examination of the loans, as classified in the returns, indicates that 62.83 per cent of the loans of banks in central reserve cities is secured by stocks, bonds, or other collateral; 21.65 per cent is paper with two or more individual or firm names, and 15.52 per cent singlename paper. Of the loans of the banks in other reserve cities, 46.68 per cent is with collateral, 29.66 per cent two or more name paper, and 23.65 per cent single name. Outside of the reserve cities, 26.76 per cent of the loans is covered by collateral, 50.12 per cent is represented by two or more name paper, and 23.13 per cent single-name paper.

Of the total loans of all national banks, 42 per cent is with collateral security; neairly 37 per cent is paper with two or more individual or firm names, and 21 per cent paper with one or more individual or firm names, including both demand and time.

In amounts due from other banks and bankers there was an increase of $\$ 160,391,896.68$; in specie, $\$ 44,697,225.44$; and in aggregate resources, $\$ 646,844,088.57$. The decrease during the year in capital stock has been $\$ 15,652,568$; and the increase in surplus and profits, $\$ 9,945,459.06$; individual deposits, $\$ 419,271,055.02$; and in bank deposits, $\$ 230,532,614.88$.

By comparison of the returns on June 30 with those on September 7, it is noted that the resources of the banks on the former date were greater by $\$ 58,478,771.40$ than on September 7 , the reduction being occasioned by the withdrawal of deposits between those periods. Notwithstanding this reduction in total resources, the loans and discounts of the banks on September 7 exceeded the amount on June 30 by $\$ 4,520,666.59$, and were the highest at any date during the existence of the national-banking system.

The fluctuations in the amount of outstanding circulating notes of the banks have been as follows:

On July 14, 1898, the amount outstanding was $\$ 189,866,298$; increased on September 20 to $\$ 194,483,765$; on December 1 to $\$ 207,093,317$; and from February 4, 1899, to September 7 , decreased from $\$ 203,636,184$ to $\$ 200,345,567$.

The law requires the maintenance by national banks in central reserve cities of a cash reserve of 25 per cent upon deposit liabilities. The banks in other reserve cities are required to hold the same percentage of reserves, butone-half of the legal requirement may consist of deposits with approved reserve agents in central reserve cities. Banks outside of reserve cities are required to maintain a reserve of 15 per cent, twofifths of which must consist of cash in bank and three-fifths may be represented by deposits with approved reserve agents. On September 7 the net deposit liabilities of the national banks of the country aggregated $\$ 3,031,463,016.68$, which required a reserve of $\$ 630,789,147.62$. The reserve held aggregated $\$ 890,568,825.90$, or 29.38 per cent. The composition of this reserve was as follows:

Specie, $\$ 338,571,383.83$; legal tenders and United States certificates of deposit for legal tenders, $\$ 127,754,651$; due from reserve agents, $\$ 414,126,660.44$; redemption fund with Treasurer of the United States, $\$ 10,116,130.63$.

The cash reserve required was $\$ 406,314,452.36$ and the cash held $\$ 466,326,034.83$, or, approximately, $\$ 60,000,000$ more than the legal requirement. The total reserve held is seen to have been nearly 10 per cent in excess of the requirements of law.

## RECOMMENDATIONS RELATIVE TO BANK-NOTE CURRENCY.

Section 333 of the Revised Statutes of the United States provides that the Comptroller of the Currency, in his annual report to Congress, shall suggest amendments to the banking laws by which the system may be improved.

There is one reform needed in the bank-note currency of the United States, concerning the general principles of which there seems little
room for honest controversy. This is a provision for an emergency circulation which can be used in those seasons of the year in which the moving of crops requires an increase in the circulating medium, and to lessen the disastrous effects of the immense liquidation of credits incident to a financial panic. The widespread ruin and misery affecting all classes of citizens and all kinds of business, which results from an industrial and financial panic, is such that any measure designed to forestall or to lessen its destructive power should properly demand the highest degree of consideration. A time of active commerce and normal financial conditions such as we are enjoying at present is most opportune for the deliberate and careful discussion of measures which, if adopted now, may in a measure relieve the embarrassments above indicated and the keenness of the distress of commercial and industrial interests incident to such panics as those of 1873 and 1893.

It is true that the enactment of legislation by which the credit of our governmental currency may be protected from the effects of deficient revenues and from the influences of commercial panic, is important as a measure of governmental policy at this time. The panic of 1893 and an ensuing period of deficiency in governmental revenue demonstrated that fact; but they likewise demonstrated the necessity of circulation of some nature by the banks which could be used to supply the demands during such an extreme emergency for a liquidating medium whose existence would tend to protect solvent institutions of all kinds from forced bankruptcy resulting from a money panic. The object of such a circulation is neither to provide profits to the banks nor to serve as a basis for the expansion of commercial credits under normal conditions. It would be to the country at large what the clearing-house certificates have proved to be in times of panic in some of our larger cities.

The necessity for such circulation, designed for the mutual protection of banks and the public in times of panic and money stringency, and so heavily taxed as to compel its retirement after the period of acute demand for money is passed, is made clearer by a reference to conditions prevailing in 1893.

The deposits of the national banks of the country between May 4 and October 4, 1893, were reduced in the sum of $\$ 378,767,691$; the contraction in balances on deposit with other banks was $\$ 51,198,856$; the contraction in stocks and securities was $\$ 2,177,912$. The banks took out $\$ 31,265,616$ of new circulation and borrowed $\$ 36,515,092$ in their effiorts to meet the general demands upon them. As a matter of fact, the necessary delay incident to printing national-bank notes by the Government after receiving the order for circulation by the banks, amounting on the average to twenty-five days, prevented the issuance of a larger circulation at this time, the acute crisis having passed by the time the notes were ready for delivery, and the order for the notes canceled by the banks in consequence.

The amount of orders canceled for this cause during the period above named is estimated at $\$ 11,000,000$. Even with the aid of this additional circulation and borrowing, the national banks of the country to meet this drain in deposits were compelled to contract their loans during this period in the sum of $\$ 318,767,691$, taking this immense amount from the productive industries of the country and carrying
disaster, not only to employer and employee, but to every elass of our citizens.

The records of this oftice show that with our banking system as a whole the money stringency incident to a financial panic is soon over. At most it is a matter of but a few months. The crisis of a panic once passed, the arrested wheels of general business start moving very slowly, and the unproductive and unloaned capital of the country stagnates in the banks.

In May, 1893, during the panic, the average reserve of the banks of the United States was 26.4 per cent, and in December, 1893, 35.7 per cent. In May, 1893, the banks of New York City held reserves of only 28.5 per cent, and in December, 1893 , they held 41.2 per cent, or $\$ 66,663,000$ above the required legal reserve of 25 per cent.

These facts prove that emergency circulation which could be used to lessen the disastrous effects of the liquidation incident to an industrial and bank panic would be needed for but a few months, and would not remain as a disturbing and unusual factor in business long after its time of maximum influence.

In connection with the recommendations which he embodies hereafter, the Comptroller repeats the recommendation made by him in his last report to Congress, to wit:

For the purpose of allowing elasticity to bank-note issues to protect the banks and the community in times of panic, a small amount of uncovered notes, in addition to the secured notes, should be authorized by law under the following limitations: They should be subjected to so heavy a tax that they could not be issued in normal times for the purpose of profit, but would be available in times of emergency. The tax should be so large upon the solvent issuing banks as to provide a fund, which, in connection with the pro rata share of the assets of an insolvent bank, would be sufficient to redeem the notes in full, without necessitating any preference of note holders over depositors of any insolvent issuing bank. The tax should be so large as to force this currency into retirement as soon as the emergency passes. Such a currency could be used only to lessen the evil effects of the too rapid liquidation of credits which are collapsing under a financial panic, but could not be profitably used as a basis of business speculation and inflation. It should be to the business community what the clearing-house certificates are to our cities in times of panic-a remedy for an emergency, not an instrument of current business.

In view of the fact that our national banking system is composed of over 3,600 separate institutions scattered throughout our great country and surrounded by diversified business conditions, the problem of the enactment of such a law, involving as it does a departure to some extent from the principle of a bond-secured circulation, presents grave difficulties, arising partly out of the natural conservatism of our people and from the fact that the plan will be somewhat experimental. That such a law providing for the protection of the business community shall be ultimately passed is of great importance. A marked degree of elasticity, however, is possible of attainment in connection with our present system of bond-secured national bank notes.

The Comptroller believes that, in accordance with the President's recommendation, national banks should be allowed to issue circulation to the par of the United States bonds deposited by them for circulation, and that, in connection with the law authorizing this, provision can be made for a secured emergency circulation.

The object of allowing banks to take out circulation to the par of the bonds is to induce them to furnish for the use of the public a larger anount of circulation than is in existence at present. The present rate
of profit to be derived by the banks from their circulation is not sufficient to justify them in offering a larger amount, but any method of increasing the profits on circulation will result in an increase.

It is true that the authorization of an issue of currency to the par of the deposited bonds, subject to the present rate of tax, is one method of inducing a larger circulation, but it is not the only method. By a modification of the present rate of taxation on bank notes, coupled with the authorization of issues to the par of the bonds, the same inducements can be offered for a larger circulation and yet provision be made for a secured emergency circulation.

The Comptroller, therefore, would recommend legislation authorizing the issuance of national-bank note circulation to the par of the deposited United States bonds, and that the additional 10 per cent circulation thus allowed the banks be subjected to a tax at the rate of 2 or 3 per cent per annum for the time used, which will tend to prevent its unrestricted use under normal conditions, and to save it for use at those periods of the year when crops are to be moved, and in those periods of panic when it is most valuable both to the banks and the business public as a means of assisting the general liquidation of credits. With the object of securing an increase in the present bank-note circulation, he would recommend the reduction or abolishment of the present tax of 1 per cent per year on the circulation to 90 per cent of the deposited bonds-the amount of the reduction in the tax on currency to be collected from the necessary per cent of tax on the capital and surplus of national banks if requisite to the public revenues. To allow the banks to issue up to the par of the bonds, unsubjected to additional tax on the 10 per cent extra circulation, will result in their immediately taking out their additional circulation for the purpose of profit. Business credits will be extended and adjusted to correspond with such increase of the currency, and practically the same inelasticity will characterize our bank-note issues then as now. With the advent of a panic we would have no additional means of lessening the necessity of a call upon the business community to furnish, by the repayment of loans, practically the bulk of the deposits drawn by frightened depositors.

It will be seen from an examination of the calculations given hereinafter that exactly the same rate of profit could be realized by the banks upon circulation to 90 per cent of the bonds deposited, taxed at four-ninths of 1 per cent per annum, as they could realize upon circulation to the par of the bonds at the present tax of 1 per cent.

It will also be seen that if the tax on the 90 per cent of circulation should be entirely abolished, or shifted to the franchise of banks, that the profit on circulation would be much larger than could be realized upon circulation issued to the par of the bonds subjected to the present tax.

This rate of profit to be realized upon untaxed circulation issued to 90 per cent of the bonds would be so large that upon circulation issued to the par of the bonds it would be necessary to reduce the tax down to three-fifths of 1 per cent before an equal profit upon par circulation could be made.

It will also be noted that exactly the same rates of profit could be made upon 90 per cent circulation taxed one-sixth of 1 per cent as could be made upon par circulation taxed three-fourths of 1 per cent.

In the judgment of the Comptroller these tables show conclusively
that by modification in forms of taxation the same relative increase in general bank-note circulation, with an emergency circulation in addition, can be obtained, while only an increase without any elasticity could be obtained under any system of uniform taxation upon par circulation.

For the purpose of indicating that within the range of the possible modification of taxation on a circulation to 90 per cent of the bonds, provision can be made for an emergency circulation of 10 per cent to the par of the bonds, while amply encouraging the increase in general note circulation desired, the Comptroller summarizes the result of calculations given more in detail hereafter.

Profit in Dollars fron Circtlation Issled Agansst a Deposit of $\$ 100,000$, Gorernment 4 per cent Bonds Matcring in 1907, at Present Price, being the Possible Amount to be Realized unier Different Rates of Taxation in Adidtion to 6 per cent on the Capital Inyested in Bonds, with Money Wortif 6 per cent.

In the foregoing figures no profit is calculated as accruing upon the emergency circulation.
The Comptroller believes that the levying of a tax of one-sixth of 1 per cent upon circulation to 90 per cent of the par of the bonds and allowing the banks to issue currency to the par of the bonds by paying a tax at the rate of 2 or 3 per cent per annum on the excess up to the par when outstanding, will result in the desired increase in our general bank note issues, and provide a marked degree of elasticity in our circulation.
In this connection the Comptroller can not properly discuss the question of taxation of banks as related to the public revenues further than to say that the imposition of a tax upon the capital and surplus of the banks to offset any reduction in the tax on currency will remove any objection to his recommendation on the grounds that it lessens the share of the public burden which the banks should properly bear.

In considering the probable effect on the amount of bank circulation outstanding which will result from a change in rates of taxation it must be remembered that the calculation would properly include, if it could be safely made, an estimate of the increased price of Government bonds, which will probably be incident to a greater demand for these bonds from the banks seeking profit on circulation under the modified rate of taxation.

This increased price of bonds may be such as to negative to some degree the desired effect of an increased bank note circulation, since it will tend to lessen the profits on circulation. It must be remembered, however, that this objection can be made to any method of increasing the apparent profits on bank note circulation, including the method of authorizing issues to par, subject to a uniform tax.

The Comptroller believes that from the passage of laws altering, as suggested, the rate and method of taxation of national-bank notes, an increase of at least $\$ 100,000,000$ may be reasonably expected.

Based upon our present bond-secured bank note circulation, which amounts to about $\$ 207,000,000$, and this added amount, we would have, under such laws, an available bond-secured emergency circulation of at least $\$ 30,000,000$

As a summary of his views on this subject, the Comptroller would call attention to the following propositions:

First. Whether or not legislation be passed providing for an uncovered emergency circulation for needed protection from the disastrous effects of panics, a very much larger degree of elasticity can be imparted to our present bond-secured bank-note currency, thus making it of greater use in seasons of the year in which the demand for currency is above the normal, and of invaluable assistance in times of panic.

Second. This result can be obtained by the enactment into law of the President's recommendation that national banks be allowed to issue to the par of the Government bonds deposited by them as security, and by the modification of the present tax upon national banks as follows:

After determining approximately the lowest rate of profit which will call into circulation the additional amount of national-bank notes deemed necessary for public convenience, this rate of profit should be reached by lessening or shifting to the franchise of banks the present 1 per cent tax on circulation to 90 per cent of the par of the Government bonds securing it. A tax of 2 or 3 per cent should then be levied on the excess of circulation over 90 per cent of the bonds, which will make of such excess circulation a secured emergency circulation only to be used when it becomes a public necessity, and not as a means of profit by the banks under normal conditions.

The general increase in bank circulation desired being possible of attainment through the lowering of the tax on the 90 per cent circulation, this additional tax on the 10 per cent excess circulation to the par of the bonds will not materially interfere with such general increase, and will only operate to create an emergency circulation of great value.

Third. As the use of rediscounts and bills payable on the part of the Western and Southern banks at certain seasons of the year is regarded as evidencing the need of an elastic circulation, and as bearing upon the question of the measure of relief which may be expected from the bond-secured emergency circulation here recommended, the Comptroller will state that without any general increase in bank note circulation as a result of new legislation, the possible emergency circulation of $\$ 20,000,000$ immediately available, based on bonds securing the present circulation, amounts to more than the combined bills payable and rediscounts of all the national banks of the United States outstanding at any time within the last three years.

If the Comptroller's estimate of a possible bond-secured emergency circulation of $\$ 30,000,000$ be correct, this amount is about double the average combined bills payable and rediscounts of the entire national

As the elastic and uncovered issues of the joint-stock banks of England, Scotland, and Ireland, comprising all the uncovered bank notes there issued, may be cited as illustrating the advantages of an elastic circulation, the Comptroller would also call attention to the fact that these entire issues are but a small amount more than the $\$ 20,000,000$ bond-secured emergency circulation which would be immediately available on existing bond deposits in the United States under the legislation recommended. And with an increase in general bank note circulation, resulting from modified laws, we would probably have a bond-secured emergency circulation in this country larger than the emergency circulation of the joint-stock banks of England, Scotland, and lreland, which is secured only by the general assets of the banks, without preference over other creditors.

Fourth. Even if a special uncovered emergency circulation be provided, to be used only in case of panics, the plan here suggested of changing the taxation and issues of secured bank notes will afford an elastic circulation of value in times of money stringency not approaching the severity of a panic.

With or without the legislation for the special uncovered emergency circulation, the bond-secured emergency circulation will be of great public use.

Fifth. If provision be made for an uncovered emergency circulation for use in times of panic, subject to a tax so large as to be repressive at all other times, the 10 per cent bond-secured emergency circulation herein recommended might be taxed at the rate of 2 per cent per annum for the time issued instead of at the rate of 3 per cent, thus allowing its freer use under more normal conditions. But if no uncovered circulation for panics be provided, the more repressive tax of 3 per cent seems desirable upon the bond-secured emergency circulation.

Sixth. There is no need, under normal conditions, of a large amount of emergency circulation or a high degree of elasticity in bank note circulation. The immense volume of checks, drafts, and bills of exchange, based upon the assets of banks and often called bank-credit currency, expands and contracts in accordance with the demand of trade and business, and is the medium through which the great bulk of the business of our country is transacted. It is extremely elastic, and varies in amounts at different seasons of the same year. It is generally amply adequate to the business needs of the country, except in times of disturbed confidence and financial panic.

Seventh. The issuance of bank asset notes under normal conditions and in the present development of our banking system can not be justified by the plea that without them the needed elasticity of banknote currency can not be obtained. Nothing except the avoidance of panic can at present justify any experiments with bank asset currency. When authorized for use in times of panic the notes should be so heavily taxed that they can circulate only while a panic lasts, and like clearinghouse certificates should be a remedy simply for a rare emergency.

In seeking the theoretical advantages of fluidity in bank circulation we should take no risks with its solidity.
The following table, to which reference has already been made, shows the calculation in detail of profits on bond-secured national bank note circulation under the present and different methods of taxation and issue:

Profit on National Bank Circulation, Secured by $\$ 100,000$ United States 4 per cent Bonds of 1907 Costing $\$ 113,125$, Money being Worth 6 per cent: First, with Circulation 90 per cent of Bonds, Tax 1 per cent; Second, Circulation par of Bonds, Tax 1 per cent; Third, Circulation 90 per cent of Bonds, Tax four-ninths of 1 per cent; Fourth, Circulation par of Bonds, Tax three-fourths of 1 per cent; Fifth, Circulation 90 per cent of Bonds, Tax one-sixth of 1 per cent; Sixth, Circllation par of Bonds, Tax three-fiftis of 1 per cent; and Seventh, Circulation 90 per cent of Bonds, with no Tax.

repeal of section 9 of act of july 12, 1882.
Section 9 of the act of July 12, 1882, prohibits the increase of bank circulation within six months after the deposit of lawful money to reduce circulation. The repeal of this section is necessarily precedent to any reform in national banking currency which provides for a greater elasticity, and is recommended. Even under the present laws a greater elasticity will be incident to our national-bank note issues if this section be repealed. A plethora of money leads the banks to retire their currency, and when a money stringency afterwards occurs there should be no unnecessary obstructions to an increase by the banks of their note issues, then doubly mportant to the needs of the business community.

The Comptroller would respectfully call attention to the very great importance of an appropriation to increase the size of the vaults for the storage of incomplete national-bank currency in this Bureau in order to enable it to respond to the demand of the banks and the business community for circulating notes in case of sudden need. With the present inadequate facilities for storage, a sufficient amount of incomplete currency can not be kept on hand, and as it requires from twenty-five to thirty days to complete an order received from a bank for bank-note plate printing, the public and the banks are frequently put to great inconvenience by this necessary delay. In the panic of 1893 the suffering and damage to which the business community and the banks of the country were put, because of the fact that there had not been provided for this Bureau a few feet additional of needed storage room, can be inferred from the fact that of total orders for currency during the panic, amounting to $\$ 42,000,000$, orders for over $\$ 11,000,000$ were countermanded, the crisis of the money panic having passed before the twenty-five days necessary for the preparation of the currenuy had expired. With additional storage room, the Bureau will be enabled to keep on hand a sufficient stock of incomplete currency, so that orders from the banks can be filled upon receipt without delay.

## LIMITATION OF LOANS.

In his last report the Comptroller called attention to the desirability of a modification of the law limiting certain loans to 10 per cent of the capital of the bank, and pointed out that the effect of this provision was to encourage the making of loans, large in proportion to their total assets, in smaller banks and smaller communities, while it prohibited such loans in the larger cities where they could be made in accordance with the urgent demands of trade and consistent with the soundest banking principles. He pointed out that the defective and unequal working of the present provision was due to the greater ratio borne by banking resources to banking capital in the larger communities as compared with the like ratio in smaller communities.

The present section of the law regulating excessive loans should be so altered as to allow the banks of larger communities to have more nearly the privilege of loaning a given per cent of their total assets to one individual, which now belongs, under a strict compliance with the present provision, to the banks of the smaller communities. The law against excessive loans should then be made enforceable by the enactment of an amendment providing a penalty for infractions.

The Comptroller, as before, would recommend that section 5200 of the Revised Statutes be amended by adding after the words "shall at no time exceed one-tenth part of the amount of the capital stock of such association actually paid in" the following words:

[^0]A strict penalty should then be provided for infractions of the amended section.

In accordance with the recommendation of the President and the Secretary of the Treasury, and for the purpose of affording our smaller communities the business advantages incident to increased banking facilities, the Comptroller would urge the enactment of laws authorizing the organization of national banks with a capital of $\$ 25,000$ in towns of 2,000 or less population.

## NATIONAL BANK EXAMINATIONS.

The work of the corps of national-bank examiners during the year is worthy of special commendation. It is of course improper, for obvious reasons, for the Comptroller to point out the specific cases where, through the instrumentality of the examiners and their notification to directors of dangerous practices on the part of active bank officers, institutions have been protected from grave danger of insolvency.
During the year a system of special examinations has been on trial with advantageous results in marked instances. There has been utilized throughout the country special expert examiners, and an effort is being made through them to better supervise the work of local examiners as well as to add to the information of the Comptroller as to the condition of the national banks. The exchange of lists of banks for examination among examiners has been more frequent than heretofore, although the more exact knowledge of local credits, possible to a local examiner, limits the extent to which this can be done consistent with the best results.

In connection with the effiorts of the Comptroller to determine the safety of loans, examiners have been requested to keep a convenient and uniform tabulation of approximate lines of larger credits extended by the banks for his reference.

The benefit to the service resulting from the fund for special examinations of national banks, an increase in which was granted by Congress, as recommended in the last report of the Comptroller, has been material. By means of this fund investigations were conducted which resulted in decisive action by the Comptroller in relation to the affected banks, which investigations and resultant information would have been otherwise impracticable. While this fund is small, the benefits derived from it merit special mention.

The Comptroller recommends an increase in the annual fund provided for examinations of bank-note plates, and for the compensation of examiners engaged in special examinations of $\$ 2,000$, making the fund $\$ 5,000$ instead of $\$ 3,000$, as at present.

## INTERNATIONAL AND INTERCOLONIAL BANKING.

In his last report the Comptroller called attention to the need of laws authorizing and regulating banks for the transaction of international and intercolonial banking, and recommended the establishment of a commission to investigate banking and commercial conditions in the new possessions of the United States with a view to obtaining more exact knowledge of the nature of the banking legislation essential to the best interests of these new possessions, and to our own country in its business relations with them.

The past year has emphasized the rieed of such legislation, and the Comptroller again calls attention to the disadvantage at which our country is placed by the lack of proper banking facilities, not only in South American commerce, but in our commerce with our new possessions.

The need of banking facilities to care for the rapidly growing business between the United States and the territories over which she now exercises sovereignty is such that of necessity banking institutions have already been established orer which there is little or no Governmental supervision.

The earlier that intelligent and careful consideration can be given by Congress to the question of banking legislation for the new possessions, both for the local regulation of their domestic systems and the regulation of their banking relations with the United States, the better it will be for the domestic prosperity and trade relations of both.

For purpose of reference, and through the courtesy of the Secretary of the Treasury and the Secretary of War, and others, the Comptroller publishes, in an appendix to this report, information relative to financial conditions in Cuba and Porto Rico, including extracts from the report of Special Commissioner Edward W. Harden, who has gathered information relative to financial and banking conditions in the Philippines, all of which indicates the necessity and desirability of early action by Congress upon this important subject.

The Comptroller would renew his recommendations of one year ago that laws be passed authorizing the incorporation of banks organized for the purpose of carrying on international and intercolonial banking, as distinguished from domestic banking, and that as preliminary thereto a commission be established to investigate local conditions and report upon the nature of the legislation best adapted for the interests of this country and her new possessions.

In this connection he would again call attention to the existing situation by quoting briefly from his last report:

Unless some such legislation is provided, the American exporter and importer, in his trade with America's own colonies, will be compelled to endure all the disadvantages under which, in all South American markets and in many other markets of the world, he now labors in his competition with foreigners enjoying superior banking facilities.

When, by means of international banks and their branches, the proper banking facilities are afforded those engaged in foreign trade, they transact their business with these banks in much the same manner as the domestic shippers of the United States transact business with our present banks.

The American in his South American trade, as compared with the foreigner in the same line of business, is subjected to the same relative disadvantages as are experienced by a domestic shipper without banking facilities, as compared with another who possesses them.

Domestic dealers in supplies, in good credit, may make contracts with domestic wholesale purchasers in good credit for the sale and shipment of goods, for which the consignee gives his acceptance, payable at different intervals, sometimes months after the delivery to him of the shipment.

The consignor discounts this accepted draft, given him for the goods, with his bank, thus receiving his capital at once for reinvestment and enabling him to transact a larger business than if the capital invested in the goods was locked up until the maturity of the acceptance. On the other hand the consignee has the difference between the time of the arrival of the shipment and the maturity of the draft to sell the goods and to collect from the purchaser all or a portion of the amount necessary to pay the draft.
The situation of the shipper without banking facilities is in sharp contrast. He must ordinarily sell for cash, instead of on credit, to the consignee, as he needs his capital in most cases for immediate reinvestment. As a result, in lis competition
with his more favored rivals he is not only compelled to accept lower prices, involving smaller margins of profit, but he must do a smaller business on the same capital invested.

Thus, as compared with the English exporter, who, when his goods are shipped, can receive advances from an English international bank upon the credit of his bills of lading and of the foreign consignee, concerning whose credit the home bank, through its foreign branch, is well advised, the American shipper, in the majority of instances, is denied such privileges, and must await entire, instead of partial, reimbursement until the arrival of the goods at the foreign market and the collection of the draft for the purchase price made at the time of shipment.

In addition to this disadvantage, the American exporter and importer in his trade with South American countries transacts all his business of consequence through English banks in terms of English money, paying the rates of exchange fixed by these foreign institutions.

## INSOLVENT NATIONAL BANKS.

At the date of the last annual report of this Bureau the number of national banks remaining in the hands of receivers was 158. During the past year 12 banks have been placed in the hands of receivers, and 35 receiverships terminated, leaving at the present time 135 insolvent banks in the hands of receivers appointed by the Comptroller.

The assets of these insolvent national banks at the date of the present report are of the nominal value of $\$ 39,894,770$.

Special attention has been given to the reduction of expenses of the several receiverships; and in the remaining receiverships, as compared with last year, a total reduction of about $\$ 50,000$ in salaries, legal and other annual expenses, has been attained. There are at this time nineteen receiverships in the hands of one receiver at Washington. The assets of this latter class of banks are nominal in value and by the plan adopted a considerable additional annual saving has been made, which goes to increase the dividends to creditors.

In addition to the number of receiverships which have been completely liquidated, 38 receiverships have been placed on the inactive list. In such cases the fixed salaries of the receivers are terminated, and they are allowed compensation only for services actually performed.

There are at present 94 receivers who have in charge the assets of the 135 insolvent banks, a number of such receivers administering upon the affairs of two or more banks.

The 12 national banks which failed during the year makes a total of 387 failures from the organization of the Bureau to the date of this report, including 17 banks restored to solvency.

The policy of consolidating two or more banks and placing them in the hands of one receiver in the same city or locality has been found to be satisfactory, inasmuch as it results in the saving of salaries of receivers and in a lessening of legal and other expenses.

The administration of all insolvent banks is well advanced, and within a few months a number of receiverships will be closed.

In the appendix will be found a table showing the nominal value of the assets of the banks that have been or are being liquidated by receivers, with the collections, disbursements, claims proved, and dividends paid.

For the purpose, however, of indicating the general cost of administration of the affairs of insolvent banks in the hands of the Government there is presented herewith a summary of the tables given in detail in the appendix.

In the same period of timethere has been rebated to stockholders of 6 insolvent banks a sumaggregating $\$ 46,831.37$ in cases where the amount realized from thefirst assessment was greater than the individual liability of each stock-holder.
The power of the Comptroller, under his ruling, to make the second assessment has been tested in four courts of competent jurisdiction. In two different circuit courts of the United States and in the circuit court of appeals of the ninth circuit the action of the Comptroller has been sustained, and in one circuit court of the United States the power of the Comptroller to make subsequent assessments was denied. The last-mentioned case will be appealed to the circuit court of appeals.

INVESTlGATLON AK TO LOAN AND DEPOSIT ACCOUNTS, RATES OF INTEREST, AGGREGATE DFIOSITS AND LOANS OF ALI BANKS OF THE UNITED STATES.

During the past year the Comptroller has made an effort to gather statistics which would best evidence the later growth and development not only of the national banking system, but of the other banking institutions of the country operating under State laws. In this connection he has instituted an investigation as to the number of loans and deposit accounts, the interest received on loans and paid on deposits, and the amount of loans and deposits of the banks of all systems in the United States in the years 1889, 1894, and 1899. A compliance with the request for information which he has made upon the banks of the country has involved them in much clerical labor, and the very general response which has been made by them is indicative of much public spirit on their part.

As compliance with requests for statistical information of the nature asked is a matter wholly optional with the banks, the Comptroller desires to express his appreciation of the courtesy of the institutions whose labor voluntarily performed has enabled him to present to the public statistics which he believes to be of economic value.

No detailed investigation into the total number of bank loans and deposit accounts in the United States has heretofore been made, and the results of this investigation are instructive and significant.

A copy of the blank furnished by the Comptroller to be filled in by the reporting hanks js given herewith.

The Comprioldiek of wife Currency, Washingtom, I. (.
Sir: In compliance with your request of June 30, I give herewith the data desired with respect to the number of depositors in and number of borrowers from this the ———Bank, __, together with the amount of deposits, loans, and the average rates of interest paid and received, as shown by the books on the dates indicated.

Population of this place at date of latest census,

In considering the deductions to be drawn from the figures herewith presented, it must be remembered that allowance should be made for those individuals or corporations who use more than one bank for both borrowing and depositing. There was, of course, no way practicable in which exact information upon this subject could be obtained, and unquestionably certain borrowers and depositors have been counted twice or more times, since several banks may have included the same person as a borrower or depositor in making their returns to the Digitized focomptroller. The actual number of depositors and borrowers is, of
course, much less than the number of deposit and loan accounts which are indicated by the tables given herewith; and considering the number of corporations doing a large business through agents keeping. local deposits for branch offices, as well as the other causes for duplication of deposits and loans for account of the same individual or corporation, the Comptroller is unabio to arrive at a satisfactory basis for estimating the per cent of allowance to be made in determining the approximate number of individual depositors and borrowers.

In the tables given only the banks from which the Comptroller was able to secure cither a detailed report, in response to his circular, or a statement of condition have been included as a basis for eotimates. But, in conjunction with the reports, statistics as to number and capital of banks given in the annual report of the Commissioner of Internal Revenue furnish a basis for an estimate as to the deposit accounts, aggregate deposits, loans, capital, and number of loans of the combined banking systems of the United States, as will appear hereinafter.

The Comptroller has received answers to his inquiries from about two-thirds of the banks composing the national system. With these banks, as with the banks other than national, he has based his estimates as to all banks upon the ratios found to exist in the reporting banks. Since the Comptroller has the general statement of financial conditions of the nonreporting banks, these estimates may be considered as fairly reliable.

As illustrating the method of arriving at these estimates, the probable number of deposit accounts in the national banks of the United States on June 30, 1899, is arrived at as follows:

On that date, 2,417 of these banks having reported deposit accounts numbering $1,991,183$, and deposits amounting to $\$ 1,830,116,140$, the average deposit of the reporting banks is found by dividing the amount of the deposits by the number of accounts, giving an average deposit of $\$ 919$.

The total outstanding individual deposits of the entire national system of 3,583 banks, as shown by their published reports of condition June 30,1899 , amount to $\$ 2,522,157,509$, and this sum is then divided by $\$ 919$, giving the estimated number of deposit accounts for the entire system on that date as $2,744,459$.

The same method, using total loans and discounts as a basis, is pursued in estimating the total number of loans of the national system. This method is also used in estimating the number of deposit accounts and loans in banking institutions other than national.

For the reason that the proportion of banks, other than national, responding to the Comptroller's inquiries is not so large as in the case of the national banks, the same degree of accuracy can not be claimed for the estimates relating to other banks as for those relating to the national system. Yet so large a number of these banks have reported that the estimates based upon their returns are considered to be of value.

The manifest disadvantages under which this investigation has been made emphasize the importance, in the interests of banking and financial knowledge, of more intimate relations between the State officers supervising the different State banking systems and the Comptroller. It has been the constant effort of the Comptroller and his predecessors to establish with these officers those relations most conducive to mutual exchange of information and cooperation in bank supervision where cireumstances required. Gratifying progress has been made, but much
room for improvement still remains. The great totals here given indicate the wonderful banking and financial strength of the country and its people, and in the interest of the common good, as well as of financial science, and as something due to ourselves and the world, it is fitting that we strive to more exactly and completely gather and tabulate the facts here of necessity somewhat roughly estimated.

For their able and discriminating cooperation in tabulating and systematizing the thousands of reports received in connection with this inquiry, the Comptroller desires to acknowledge his indebtedness to Mr. W.J. Fowler, the chief of the organization division of the Bureau, and his assistants. Among the general deductions to be made from this investigation may be mentioned the following:

First. That the number of individual depositors in the banks of the United States is constantly increasing, as indicated by the regular increase in the number of deposit accounts of the different systems estimated as follows:

| Date. | Banks, etc. | Number of banks reporting. | Estimated number of depositors' accounts |
| :---: | :---: | :---: | :---: |

Estimated grand total for the year 1899, based upon banks reporting as above and statistics as to nonreporting banks obtained from tax returns to the Commissioner of Internal Revenue: Number of banks, 12,804; depositors' accounts, $13,153,874$.

Second. That there is a demand from borrowers for the use of the greater proportion of the deposits of banks, and while the number of individual borrowers is increasing, the depositors greatly outnumber the borrowers, and the increase in the number of borrowers is much less than the increase in the number of depositors, as indicated by the rate of increase in the number of loans estimated as follows:

| Date. | Banks, ete. | Number of banks reporting. | Estimated number of loans. |
| :---: | :---: | :---: | :---: |
| July 12,1889 | National banks. | 3,239 | 1,106,377 |

Third. That the growth of the banking systems is being characterized by a gradually lessening rate of interest charged on loans, the average rates being estimated as follows:

| Date. | Banks, ets. | Average rate of interest charged on loans. | Pate. | Ranks, cte. | Average rate of interest charged on loans |
| :---: | :---: | :---: | :---: | :---: | :---: |

| June 30, 1899 | .....do | 4.9 | July 18,1894 June 30, 1899 | .....do. | 5.0 +6 |

Fourth. That a gradually lessening rate of interest is being paid upon deposits, the average estimated rates, where paid, being as follows:

From the foregoing tables it will be seen that information relative to the resources and liabilities of incorporated and private banks in 1899 has been received from 9,732 such institutions. By reference to the annual report of the Commissioner of Internal Revenue for the year 1899 it is found that $12,80 t$ banks and bankers paid tax on capital and surplus under the war-revenue act of June 13, 1898. This indicates that there are practically 3,000 incorporated and private banks in the country relative to whose condition no definite knowledge was obtainable, the cause being in many instances a lack of State laws requiring
statements of condition. From an estimate based upon the returns to the Internal-Revenue Bureau the capital of all banks of all kinds is approximately $\$ 1,150,000,000$, and on the assumption that the capital, loans, and deposits of the 3,000 nonreporting banks will average about the same as of the State and private banks from which reports have been received, the aggregate capital of the nonreporting banks is $\$ 180,000,000$; loans, $\$ 583,572,000$; and deposits, $\$ 745,296,000$. Adding these amounts to loans and discounts, respectively, of reporting banks, makes the estimated aggregate loans of all banks for $1899 \$ 5,751,467,610$, and deposits $\$ 7,513,954,361$.

Assuming that the average loans and deposits of nonreporting banks are the same as in State and private banks from which returns have been received, their total estimated number of loans is $1,115,588$, and deposit accounts $1,721,238$, which, added to the results given in the tables for reporting banks, makes the estimated total loans in all banks of the country for $18995,067,252$, and the estimated number of deposit accounts $13,153,874$.

## LOST AND DESTROYED NATIONAL-BANK NOTES.

For the purpose of ascertaining the approximate gain to the Government on account of lost or destroyed national-bank notes, which, under the law, inure to its benefit, some research has been made. This examination is necessarily incomplete, but it can be regarded as fairly indicative of the average rate of loss of notes. From the date of the organization of the national-banking system to the close of the year 1869, covering a period of six years, 15 national banks were declared insolvent and placed in the hands of receivers. The total outstanding circulation of these banks at the date of failure was $\$ 1,554,400$, of which amount there had been presented to the Department for redemption up to October $31,1898, \$ 1,548,262$, leaving outstanding of the original amount only $\$ 6,138$. As this is at the rate of only 3.9 nills on the dollar, or a little less than two-fifths of 1 per cent, and as unquestionably some portion of this small amount will yet be presented for redemption, it is safe to conclude that the gain to the Government on account of lost, destroyed, and unredeemed national-bank notes is very small.

## ORGANLZATION OF NATIONAL BANKs.

On October 31, 1898, there were in existence 3,598 national banks, with authorized capital stock of $\$ 624,552,195$. During the year ended October $31,1899,78$ banks, with capital of $\$ 16,495,000$, were organized, and 15 associations increased their capital stock, in the aggregate, $\$ 2,985,000$. Within the same period 66 banks, with capital of $\$ 26,510,000$, were placed in voluntary liquidation by the shareholders; 12 insolvent banks, with capital of $\$ 800,000$ (including 2 banks with $\$ 150,000$ capital, heretofore in voluntary liquidation), were placed in the charge of receivers, and 79 banks reduced their capital to the extent of $\$ 8,994,150$. These transactions occasioned a net reduction of the capital stock since October 31, 1898, of $\$ 16,024,150$. The authorized capital stock of the 3,601 national banks on October 31, 1899 , was $\$ 608,528,045$.

The number and capital of banks organized during the past year exceed the number and capital of those in 1898 ly 22 and $\$ 6,805,0 \%($,
respectively. Pennsylvania exceeds other States in point of number, 11 banks having been organized, with capital aggregating $\$ 1,760,000$. Eight banks were established in Ohio, and the same number in Texas; 6 in New York; 5 in Iowa; 4 in Illinois; 3 each in Indiana, Massachusetts, Missouri, Nebraska, New Jersey, and Oklahoma; 2 each in Kentucky, Mississippi, North Carolina, West Virginia, and 1 each in Alabama, California, Indian Territorv, Kansas, Louisiana, Michigan, New Hampshire, New Mexico, Wisconsin, and Virginia. In aggregate capital Massachusetts leads, with $\$ 4,500,000$; followed by Ohio with $\$ 3,350,000$, and Missouri with $\$ 2,150,000$. In addition to the banks organized the Comptroller has approved applications for the organization, in the various States and Territories, of 36 banks, with capital aggregating $\$ 2,550,000$. Of the 78 associations formed during the year 69 were primary organizations, and 9 , with capital aggregating $\$ 2,250,000$, were conversions of State banks. Since the establishment of the national-banking system 5,229 banks have been organized, of which 1,258 have been placed in voluntary liquidation and 387 in the charge of receivers. This indicates that only about 7 per cent of the total number of national banks organized have failed.

Twenty-two national banks, with capital stock of $\$ 3,155,000$, reached the expiration of their corporate existence during the past year and renewed their charters for a further period of twenty years. During the coming year 45 associations, with capital aggregating $\$ 6,942,100$, will reach the expiration of their corporate existence, and during the ten years ending December 31, 1909, the corporate existence of 1,255 banks, with capital aggregating $\$ 175,538,150$, will expire. Since the passage of the act of July $12,188 \%$, providing for the extension of the corporate existence of national banks, renewals of charters have been granted to 1,692 banks, with capital aggregating $\$ 410,686,115$.

## CIRCULATION AND BONDS.

The outstanding circulation of national banks on October: 31, 1899, aggregated $\$ 243,066,624$, of which $\$ 207,920,774$ was secured by bonds, and $\$ 35,145,850$ by lawful money deposited with the Treasurer of the United States on account of liquidating and insolvent associations, and those reducing circulation. The decrease of circulation secured by bonds was $\$ 2,124,682$, the increase secured by lawful money $\$ 5,562,170$, and the net increase during the year $\$ 3,437,488$.

The amount and kinds of bonds on deposit as security for circulation on October 31, 1899 and 1898, are shown in the following table :

## EARNINGS, DIVIDENDS, ETC.

Since the passage of the act of Marcl 3, 1869, requiring every national-banking association to report within ten days after the declaration of any dividend the amount of such dividend, and the amount of net earnings in excess of such dividend, the reports issued from this Bureau have contained statements relative thereto for each semiannual period. The average capital and surplus of national banks for the year ended March 1, 1899, were $\$ 610,426,625$ and $\$ 248,209,205$, respectively. The gross earnings during that period were $\$ 147,031,571.36$, of which $\$ 32,333,875.43$ were devoted to losses and premiums; $\$ 65,382,255.18$ to expenses and taxes; and $\$ 46,331,009$ to the payment of dividends. The average rate of dividends to capital was 7.6 per cent, dividends to capital and surplus 5.4 per cent, and net earnings to capital and surplus 5.8 per cent.

The semiannual duty on national bank circulation during the fiscal year ended June 30, 1899, amounted to $\$ 1,991,743.31$; expense of redemption of circulating notes, $\$ 121,291$ (an average per $\$ 1,000$ of $\$ 1.34$ ); examiners' fees, $\$ 244,903.62$. From the returns to the Commissioner of Internal Revenue, as shown by his report for 1899, the tax imposed by the war-revenue act of June 13, 1898, collected on capital and surplus of the 12,804 incorporated banks and bankers of the United States, based on the average capital and surplus during the year ended June 30, 1898, aggregated $\$ 3,750,836.99$. The returns from national banks were not compiled separately in that Bureau, but an estimate based upon the average capital and surplus of such banks during the year named, as shown by reports of condition to this Bureau, indicates the payment by them of $\$ 1,752,802$.

The average capital of national banks during the thirty years ended with March 1,1899 , is shown to have been $\$ 543,244,571$, the average surplus $\$ 166,255,080$, dividends $\$ 44,468,735$, the average rate of dividends to capital 8.2 per cent, and dividends to capital and surplus 6.2 per cent.

National banks are subject to a semiannual duty of one-half of 1 per cent upon the average amount of circulating notes outstanding during the prior six months.

Under the operations of the war-revenue act of June 13, 1898, the banks are subject to the following tax: Fifty dollars per annum on capital employed not exceeding $\$ 25,000$, and for every additional $\$ 1,000$ in excess of $\$ 25,000$ two dollars. In estimating capital surplus is included. With respect to national banks this tax amounts to one-fifth of 1 per cent.

National banks are charged with the cost of redemption of their circulating notes and for the expense of examinations.

The national bank act permits the taxation of shares of stock of national banks and the real property of associations by States, counties, and municipalities.

STATE BANKS AND BANKING INSTITUTIONS.
The Comptroller is pleased to call attention to the assistance rendered by the State officials charged with the supervision of the different State banking systems in securing statistics relating to banking systems other than the national system. In almost all cases the cooperation of the State officers was willingly and effectively given, and the very
general call made by them at the suggestion of the Comptroller for statements of State banks on June 30, 1899, enables him to present a very complete and accurate statement of the entire banking resources of the United States on that date.

The Comptroller is enabled to present in this report, for June 30, 1899, detailed information relative to the condition of 6,149 State and private banking institutions of the country, including practically 90 per cent of the incorporated banks in existence, although only about 20 per cent of the private banks and bankers. As stated, the returns are for June 30, although in a few States the returns for that date were not obtainable, State laws prohibiting calling for reports other than at fixed dates. It is satisfactory to note that official returns were received relative to incorporated banks in all of the New England and Middle States, all of the Eastern States except Delaware, all of the Southern States except South Carolina, Alabama, Arkansas, and Tennessee, and all of the Western States with the exception of South Dakota. From the last-named State official returns were received, but at too late a date for incorporation with the returns from other States. In the Pacific States official returns were received from Washington, California, and Arizona only.

In detail, information has been received relative to the condition of 4,191 State banks, 260 loan and trust companies, 942 savings banks, and 756 private banks and bankers. Abstracts of these reports, by classes, States, and geographical divisions, appear in the appendix.

To enable comparisons to be made, in the following table are shown the principal items of resources and liabilities of all reporting banks other than national for the years 1895-1899, inclusive.

| Items. | 1895. | 1896. | 1897. | 1898. | 1899. |

By reference to the foregoing table, it is noted that the aggregate resources of the banks have increased from $\$ 4,138,990,529$ in 1895 to $\$ 5,196,177,381$ in 1899 . There have been slight fluctuations in the capital stock and surplus accounts during the five years, but the individual deposits have increased steadily from $\$ 3,185,245,810$ in 1895 to $\$ 4,246,500,852$ in 1899.

In the following table is exhibited in a condensed form the principal items of assets and liabilities of national and all other banks reporting on June 30, 1899:

|  | $\begin{aligned} & 3,583 \text { national } \\ & \text { banks. } \end{aligned}$ | 6,149 other banks. | 9,732 banks. |

| Total resources | $4,708,833,904$ | 5, 196, 177, 381 | $9,905,011,285$ |

As this table indicates, information has been received from 9,732 national banks, state banks, and private banks and bankers, with resources aggregating $\$ 9,905,011,285$, of which $\$ 5,167,895,610$ constitute the loans and discounts, $\$ 520,088,151$ United States bonds, $\$ 1,659,050,349$ other bonds, stocks, and securities, and $\$ 723,298,988$ cash in bank. Of the cash resources, 62 per cent is in specie, viz, gold 53 per cent and silver 9 per cent. The capital stock of the banks aggregates $\$ 973,611,975$, surplus and undivided profits $\$ 761,119,839$, and deposits $\$ 6,768,658,361$.

In connection with the information relative to the resources and liabilities of banks other than national, an attempt was made to obtain returns relative to the amount and per cent of dividends paid. Returns with respect to this point were confined to 949 banks, with capital of $\$ 63,468,827$. The amount and per cent of dividends paid were $\$ 4,871,142$, and 7.7 per cent, respectively. Reports relative to dividends paid by loan and trust companies were confined to 21 corporations, with capital aggregating $\$ 5,946,100$, the average rate of dividends paid being 6.05 per cent.

## SAVINGS BANKS.

The savings banks of the country from which returns have been received number 942 , of which 655 are mutual savings banks, the latter being institutions without capital stock operated by trustees for the exclusive benefit of the depositors. With the exception of eleven (four in Ohio, five in Indiana, and one each in West Virginia and Wisconsin), institutions of this character are located in the New England and Eastern States. The assets of these banks aggregate $\$ 2,150,717,200$; the surplus fund and undivided profits accounts $\$ 165,572,734$ and $\$ 19,511,471$, respectively. The deposits, aggregating $\$ 1,960,709,131$, are held by $5,079,732$ depositors, the average deposit being $\$ 385.99$.

The stock savings banks number 287, with capital aggregating $\$ 17,492,223$; surplus fund and other undivided profits $\$ 8,235,114$ and $\$ 1,927,720$, respectively. Banks of this character hold savings deposits to the amount of $\$ 218,759,168$ and deposits subject to check $\$ 2,538,125$. The savings depositors number 443,870, the average account being $\$ 492.84$.

The aggregate resources of the 942 mutual and stock savings banks amount to $\$ 2,400,831,472$; savings deposits, $\$ 2,179,468,299$; number of depositors, $5,523,602$, and average deposit account $\$ 394.57$. The loans of the savings banks aggregate $\$ 1,098,598,589$, of which $\$ 878,126,859$ are secured by real estate, $\$ 156,359,308$ by collateral other than real estate, and $\$ 64,112,422$ by personal and other security. The investments in United States bonds amount to $\$ 136,930,208$; State, county, and municipal bonds, $\$ 512,777,336$; railroad bonds and stocks, $\$ 167,998,336$; bank stocks, $\$ 36,637,920$; other stocks, bonds, and securities, $\$ 230,796,388$.
In the appendix are given statistics for the current and prior year relative to the number of depositors, amount of deposits, and average deposits by States and geographical divisions, and also of the growth of savings banks in the United States as indicated by number of institutions, amount of deposits, and number of depositors. The statistics last referred to include information with respect to the average sav-ings-bank deposit in the years $1820,1825,1830,1835,1840,1845$ to 1899 , inclusive, and the average deposit per inhabitant in each census
year from 1820 to 1890 , inclusive, and annually subsequent to the latter date.

The following table, taken from the last annual report of the Bank Examiner of Maine, contains information relative to the limit of deposits in mutual savings banks, average rates of interest paid on deposits, and the class of securities in which savings banks are authorized to invest their funds:

Efforts were made to obtain information relative to the classification of deposits, but the statistics received are confined to the savings banks of Vermont, Rhode Island, and Connecticut. In the Vermont savings banks 110,540 depositors have to their credit $\$ 1,500$ or less,
and 2,829 over $\$ 1,500$. Depositors in the Rhode Island savings banks to the number of 100,852 have a credit of $\$ 500$ or less; 18,138 over $\$ 500$, but less than $\$ 1,000$; and $21,825, \$ 1,000$ or over. In the Connecticut savings banks depositors with $\$ 1,000$ or less to their credit number 326,469 ; with over $\$ 1,000$ but less than $\$ 2,000,33,928$; over $\$ 2,000$, and not over $\$ 10,000,15,142$; and over $\$ 10,000,271$.

## LOAN AND TRUST COMPANIES AND PRIVATE BANKS.

Reports of condition have been received from 260 loan and trust companies, with capital aggregating $\$ 104,308,722$; surplus, $\$ 79,707,194$; other undivided profits, $\$ 25,908,973$. The individual deposits of these companies aggregate $\$ 835,499,064$, and their total resources $\$ 1,071,525,994$.

In a number of instances returns from private banks are included with State institutions, but returns have been received separately from 756 private banks and bankers, whose resources aggregate $\$ 87,787,253$. These banks have capital amounting to $\$ 13,987,676$, and individual deposits, $\$ 64,974,392$.

In the appendix will be found a table showing the population of each State and geographical division on June 1, 1899, as estimated by the Government Actuary, and, in connection therewith, the banking funds, that is, capital, surplus, undivided profits, and individual deposits of national, State, and private banks on or about June 30, 1899. These funds aggregate $\$ 8,512,300,108$, the average per capita of all banks being $\$ 111.61$. The average per capita of national banks is $\$ 45.59$; State banks, $\$ 19.81$; loan and trust companies, $\$ 13.71$; savings banks, $\$ 31.40$, and private banks, $\$ 1.10$.

## STATE AND PRIVATE BANK FAILURES.

During the year ended August 31, 1899, twenty-six State and private banks and bankers have failed, with assets aggregating $\$ 7,790,244$ and liabilities $\$ 10,448,159$, as shown by reports furnished to this office by the Bradstreet Company.

During the past summer, through the courtesy of the Bradstreet Company, the Comptroller was placed in possession of a list of all banking institutions other than national which were closed between January 1, 1893, and June 30, 1899. A copy of this list was furnished to each national-bank examiner with instructions to ascertain by correspondence with the liquidating agents the results of the liquidation of all such banks in his territory. The investigation entailed a great amount of time and labor on the part of the examiners, but it is believed that the results obtained are more satisfactory than heretofore published with respect to insolvent State and private banks.

The list referred to includes 923 State and private banks which suspended temporarily and resumed, those placed in voluntary liquidation, and those which were insolvent and placed in charge of receivers or assignees. It is impossible owing to the meagerness of the returns to state the number of each class. More or less satisfactory information is at command relative to the affairs of 283 banks which were insolvent and were liquidated by receivers or assignees. The capital of these
insolvent banks aggregated $\$ 14,754,169$; other liabilities at late of suspension, $\$ 55,103,915$; nominal assets at date of suspension, $\$ 62,739,332$; collections from assets, $\$ 32,925,233$; collections from shareholders, $\$ 1,517,178$; amount and per cent of dividends paid, $\$ 30,965,165$ and 56.19 per cent, respectively.

Of the 283 failures 117 occurred in 1893, the liabilities of the banks which failed in that year being $\$ 32,858,222$, and dividends paid $\$ 21,970,559$. There were 48 failures in 1896 , liabilities and dividends paid being $\$ 8,848,908$ and $\$ 3,122,298$, respectively. In 1895 the failures numbered 45 , with liabilities of $\$ 5,935,740$; 1897, 28 failures, liabilities, $\$ 2,398,973 ; 1894,18$ failures, liabilities, $\$ 1,389,400 ; 1898,13$ failures, liabilities, $\$ 1,349,328$, and during the first six months of 1899 , 14 failures, with liabilities aggregating $\$ 2,323,344$.

The forms used by the examiners in obtaining returns called for data with respect to the expenses incident to liquidation of the trusts, but the information received on that subject was confined to 189 banks, with liabilities aggregating $\$ 31,319,811$. These banks paid dividends to the amount of $\$ 13,458,485$, or 42.97 per cent, the expenses being $\$ 2,626,661$, or 16.3 per cent of the total collections.

Summaries of the returns from the 283 banks referred to, by States and years, will be found in the appendix.

## FOREIGN BANKING INSTITUTIONS.

In the appendix will be found a report of condition, under date September 30, 1899, of the chartered banks of the Dominion of Canada. The capital of these banks aggregates $\$ 64,183,377$; notes in circulation, $\$ 46,682,028$, and total liabilities, $\$ 427,870,875$. The average rate of dividends paid to the shareholders of these banks was 7 per cent.

Statements are also given in the appendix of the condition of the banks of Australasia on June 30, 1899. The capital of the banks amounts to $£ 21,940,959$; bank notes in circulation, $£ 4,350,332$, and total liabilities, $£ 163,163,664$.

The London Economist publishes semiannually a statement of the condition of the incorporated and private banks of the United Kingdom, including colonial and foreign banks with London offices. These statements for the close of the half years ended December, 1898, and June, 1899, are given in the appendix. The capital stock of the Bank of England and other incorporated and private banks in the United Kingdom in December, 1898, aggregated $£ 83,907,926$, and in June, 1899, $£ 84,195,340$. The bank notes outstanding, including notes of the Bank of England, increased from $£ 42,465,004$ in December to $£ 43,987,254$ in June. The resources, which amounted to $£ 986,211,641$ in December, increased in June to $£ 1,019,431,686$. The aggregate resources of the joint stock and private banks of the United Kingdom and the colonial and foreign banks with London offices increased from $£ 1,387,920,755$ to $£ 1,463,283,386$ during the same period. During the year ended December, 1898, the Bank of England paid a stock dividend of 10 per cent. The average rate of dividends by the joint stock and private banks of the United Kingdom for the same period was 12.29 per cent.

The cash resources, loans and discounts, government and other securities, circulating notes outstanding and deposits of the principal foreign banks of issue on the dates indicated, appear in recent issues
of the London Statist and the Economist and are set forth in the following table, the figures representing millions of pounds sterling:

In conclusion, it is with pleasure that the Comptroller calls attention to the faithful and efficient services of his associates in the Bureau, and he desires to express his sincere appreciation of their fidelity to the public service.

STATISTICAL AND OTHER INFORMATION RELATIVE TO COMMERCE AND BANKING IN THE PHILIPPINES, CUBA, PORTO RICO, AND HAWAII,
[Extract from report of Edward W. Harden, special commissioner of United States, on financial and industrial conditions of the Philippine Islands.]

The Spanish Government kept no statistics of currency or finance, and the bankers can give only estimates of the most general character of the amount of currency in the islands. Practically all of the business of the archipelago is carried on in Manila.

The three banking institutions at Manila do the business of the islands, though two have branches in Iloilo. The most careful estimate of the currency of the islands is therefore likely to be incorrect. There are $8,000,000$ people in the islands, according to the estimate of the Spanish Government, of whom only a small fraction live in the territory contiguous to Manila and Iloilo. When money once leaves these centers it passes out of the knowledge of business men, and it is impossible, therefore, to form any correct idea of the amount of money in the islands. There is $\$ 6,000,000$ in Philippine dollars coined by the Spanish Government and sent out a year ago, of which only a small percentage is now in Manila. It is estimated there is now in circulation $\$ 10,000,000$ of subsidiary coins, the 10 -cent, 20 -cent, and 50 -cent pieces, which have been recoined from Mexican dollars by the Spanish Government. The estimate of the Mexican dollars now in circulation, as given by one of the best informed bankers in the islands, is from $\$ 20,000,000$ to $\$ 25,000,000$. This, with the $\$ 2,500,000$ of notes of the Banco Español Filipino now in circulation, constitutes the currency of the islands. This would make a total of from $\$ 40,000,000$ to $\$ 45,000,000$, speaking roughly, for the entire islands, or, approximately, $\$ 5$ per capita for the total population of the islands. It must not be overlooked that these figures are given on a silver basis, and that therefore in figuring on our own standard all of these figures must be cut in two. On a gold basis the currency of the islands is therefore from $\$ 20,000,000$ to $\$ 22,500,000$, or $\$ 2.50$ per capita, figuring on the total population of the islands.

Three banking institutions do the banking business of the Philippine Islands, aside from that done by the large commercial houses, which buy and sell exchange, and to a limited extent carry on the business which legitimately belongs to bauking institutions. Of the three banks the two most important are branch concerns, the third being a local institution controlled by Spaniards and natives. The Banco Español Filipino is a local institution having its headquarters in Manila and with a branch in Iloilo. The two branch banks are the Manila agencies of the Hongkong and Shanghai Banking Corporation, Limited, with headquarters in Hongkong, China, and the Chartered Bank of India, Australia, and China, Limited, with headquarters in London. The Hongkong and Shanghai bank and the Chartered bank do the principal exchange business of Manila, while the Spanish bank does largely a local business, having had up to the time of the occupation of Manila by American troops the financial business of the Spanish Government for the islands. The Spanish bank is tho only one which issues notes, and these to a limited extent are in common circulation throughout the islands, being accepted at par everywhere where business is carried on with the outside world. Throughout the interior nothing but silver is in general circulation.

No statements were required by the Spanish Government from any of the lanking institutions showing the condition of their liabilities and assets. The banks were compelled to make statements upon which taxes were collected, but these were of a character which gave no adequate idea of the condition of the institutions. So far as the Hongkong and Shanghai and Chartered banks are concerned, the general statements of the two corporations would apply to the branch concerns in Manila. They were conducted as a part of the whole, and the success or the failure of either was dependent upon the corporation. Therefore, the statements of the two corporations are the only statistics available which would show either the resources or liabilities of the banks concerned. The last statement available from the Spanish bank in Manila is that submitted to the stockholders at the general meeting of the
concern in February of the present year. The changes which have been brought by the war have materially affected this concern, and the report made in February is far from being a correct statement of its present situation. It is the nearest to being correct, however, of anything obtainable. There is appended to this report a translation of the last balance sheet of the Spanish bank, together with the statement of the Hongkong and Shanghai bank for the fiscal half year ended June 30, 1898, and the last report of the Chartered bank presented at the stockholders' meeting in London, April 20, 1898.

There is in Manila a savings institution and public pawn shop, which is practically under the control of the church. It is called the "Monte de Piedad." It was established to make loans to the poor people, and has done a good work during the few years it has been in existence. It has been fairly successful, and has proved to be a source of profit to those who are interested in it. Under the charter issued to it by the Spanish Government in the islands it is allowed to operate a pawn department as well as a savings department. In the pawn department loans are made on gold, silver, jewelry, and clothing in good repair, at 6 per cent per annum. The savings department receives small sums on deposit from the working classes, on which interest at the rate of 4 per cent is paid, and the money received in the savings department is used in making loans upon personal property. In making loans on pledges of gold, silver, or jewelry the article is appraised at the intrinsic value of the material in each, without regard to mounting or workmanship. Loans are made on clothing in good condition. On gold and silver loans are made for one year, and on clothing for six months; but this time may be extended by renewing the pledge and paying the accrued interest. If the article pledged has, in the opinion of the appraisers, depreciated in value the renewal will be made only to the extent of such newly appraised value. Unredeemed pledges are sold at public auction, and if the articles bring more than the amounts loaned on them and accrued interest the balances are held to the credit of the persons making the pledges. The savings bank opens accounts on deposits of sums from 50 cents to $\$ 25$, and interest is compounded annually. One week's notice is required for the withdrawal of any deposit. During the year 1896 there were received 44,991 pledges, on which there was advanced a total of $\$ 1,041,194$, a decrease of $\$ 15,049$ over the business done in 1895 . There is given in the appendix an extract from the annual report of the bank for the year 1890.

The banks of which mention is made represent the entire banking industry of the Philippine Islands. There is a good deal of trade between the various islands in the group, and shipment of the products of one island to another island settles trade balances for goods imported from the other island. In this way a good deal of trade is carried on which requires no considerable amount of currency.

The laws which govern banking in the Philippine Islands are of a most general character. No statements are required from banking institutions other than those upon which taxes are imposed, and there is no officer charged with the duty of examining the condition of banks to determine their solvency. Practically, the only laws which affect the banking interest are those which relate to business generally. The Banco Español Filipino is operated under a charter from the Spanish Goverıment, and a renewal of this charter was granted two years ago covering a period of twenty-five years, of which there is therefore twenty-three years yet to run. The two branch banks, the Hongkong and Shanghai, and the Chartered Bank, in establishing a business in Manila, filed with the Government officials copies of their deeds of settlement, and on the filing of these documents were given permission to begin business.

Under the charter of the Banco Español Filipino it is permitted to issue bank notes in amount equal to three times its capital stock. The present capital of the bank is $\$ 1,500,000$, and its note issue may, therefore, amount to $\$ 4,500,000$. On September 30 there was in circulation, as previously stated, approximately, $\$ 2,500,000$ of these notes. These notes are issued on a silver basis, and are payable on demand to bearer. The charter requires that there shall be maintained in cash and paper which can be realized on in ninety days a sufficient amount to cover its outstanding obligations in bank notes, deposits, and accounts current. There must be maintained in the bank's vaults silver in amount equal to at least one-third of the notes in circulation.
The question of the future currency of the Philippines is one which is of vital importance to all business men in the islands. The best-informed men in Manila are unanimous in their opinion that under present conditions the silver currency is the only one suited to the islands. A great deal of the trade of the Philippines is with China and Japan, the Straits Settlements, India, and Australia. In China and Japan and in India the whole trade is on a silver basis, though Japan has adopted the gold standard, having, however, as the basis of its currency, a gold dollar which is, approximately, worth only 50 cents, and its currency therefore in effect is on a silver basis, the same as China and India.

The natives of the Phillipine Islands are conservative to a degree in the matter of their currency, and it would be a long and tedious task to educate them to a dollar which would be worth twice that now in circulation. Notwithstanding the Americans have a force of 15,000 soldiers in Manila who are paid in gold, the people of the islands will have nothing but silver. All of the soldiers, when they are paid in gold, take their money to one of the banks and exchange it for local currency. The native will take the Mexican dollar, worth less than 50 cents gold, in preference to the United States dollar, worth 100 cents. Any change in the coinage will require time for the natives to become accustomed to it before it will be accepted readily. If the United States retain the Philippine Islands, a special coinage of silver dollars might be minted for circulation in the archipelago, the same as the British dollar has been put in circulation in the Straits Settlements, in Hongkong, and in other ports where British interests predominate. If this should be done, it would probably be advisable to have the inscription in Spanish, as only a small proportion of the inhabitarts understand English, while practically all understand enough Spanish to enable them to decipher the inscription on a coin. In time the gold standard might be put in force in the islands, but in the opinion of the business men generally it would have to be accomplished slowly, and consideration would have to be given to the conservative attitude of the people, and to the fact that they would have to be educated to the value of the new currency. As an evidence of their conservatism, one of the directors of Banco Español Filipino said that when his bank a few years ago changed the form of its bank notes it required several years to educate the people to the new note, which at first they refused to accept as current money.

In the framing of the laws for the government of the islands it would seem that a due regard to the interests of depositors would require the examination of banks and the publishing of statements of assets and liabilities, as done in the United States by the Government in the case of national banks and by the States in the case of State institutions. The same law, it would seem, should provide for the keeping of a certain percentage of its deposits in cash in the vaults of the banks, and that the same precautionary measures should be taken as in the United States.

## MONTE DE PIEDAD.

The following is a summary of the report made at the last meeting of stockholders of the Monte de Piedad Savings Bank of Manila, which is a public pawn shop operated there:

In 1896 there were received 44,991 pledges, on which were loaned $\$ 1,025,145$, a decrease in business compared with 1895 of $\$ 15,049$. Renewed pledges to the amount of $\$ 399,731$ were received in 1896, an increase of $\$ 54,319$ on corresponding transactions in 1895. In 1896 there were redeemed 30,269 pledges, on which had been loaned $\$ 638,877$ and interest charged and collected to the amount of $\$ 17,895.18$. In 1896 there were sold at auction 1,036 unredeemed pledges, on which was realized $\$ 15,177$, and the accrued interest on pledges so sold amounted to $\$ 1,109.07$, and commission charged of 5 per cent amounted to $\$ 514.22$.
a The bank, in terms of its amended charter, has deposited with the Hongkong and Straits governments and with the Crown agents for the colonies securities to the value of $£ 277,49114 \mathrm{~s}$., as special reserve for its note issue.

The following table shows the total increase of profits and commissions for the year 1896:

|  | Years. | Redeemed pledges. | Renewed pledges. | Auction sales. | $\begin{aligned} & \text { Commis- } \\ & \text { sions. } \end{aligned}$ | Total. |

This table shows a total increase of profits for 1896 over 1895 of $\$ 7,226.79$.
If the disturbances of public order were noticed in the pawn department, they produced still greater effects in the business of the savings bank. During the first half year there was an increase of deposits amounting to $\$ 83,337.13$. Had the second half year continued as favorable the total increase for the year would have been $\$ 166,674.26$, but there was shown a decrease of $\$ 23,404.04$. Between deposits and interest paid out this year there has been disbursed a sum amounting to $\$ 389,849.83$, which is in excess of deposits by $\$ 23,404$.

By virtue of authority conceded to discount promissory notes with the funds on deposit we have realized by interest $\$ 22,782.42$, being an increase for 1896 over the business of 1895 of $\$ 11,309.62$.

[Copy of letter to the Comptroller of the Currency from A.E. Bates, Paymaster-General, U.S. Army.]

## War Department, Paymaster-General's Office, Washington, November 13, 1899.

Referring to our conversation and your request to know how the troops in our insular possessions are paid, I have the honor to inform you that all the troops in the service of the United States are paid either monthly or bimonthly in the legal coin of the United States or in checks drawn by the paymaster on the Treasury or some of its branches.

When our armies first occupied these countries, in the summer of 1898, as there were no banking facilities existing between the islands and the United States, it was necessary to ship the currency in kind from the Treasury in the United States to the disbursing officers in the islands. Thus there was shipped by the Pay Department a little more than $\$ 8,656,000$ to the Philippine Islands between the time when our troops landed there in 1898 and the middle of September, 1899. To the islands of the West Indies a very large amount of money bad also been sent at more or less risk.

When I received the annual report of the chief paymaster in Manila, I observed that he had never received any currency for New York or San Francisco exchange except such as came to him from the officers and soldiers in the ordinary course of business, and from these sources he received back about one-third of the total amount paid out. As our currency does not circulate there commercially, but is driven out by the cheaper Mexican coin, it was evident that about two-thirds of the amount shipped to Manila was being shipped back again, either directly or through London.

With a view of cheeking and, if possible, arresting this backward flow of currency, I arranged with the Treasury a transfer system by cable, by which I was enabled to give the banking institutions free exchange on New York. To do this the chief paymaster in Manila was directed to receive, from any source, all the American currency they wished to transfer and to cable the amount received and the house where the credit was desired to the Paymaster-General. Upon the receipt of this advice, the Paymaster-General directs the chief disbursing officer of the Paymaster-General's Office to place the amount to the credit of the party in Manila with their banking house in New York, which he does, and cables the fact to Manila. Receipt is then
forwarded to the chicf paymaster, Manila, and the transaction is complete. The money remains there for use again, at a cost of a few dollars for cable expense.

The immediate effect of this system of exchange was to raise the value of our currency in Manila 2 per cent and to give us there nearly $\$ 500,000$. This will add between $\$ 200,000$ and $\$ 300,000$ more pay per annum to our soldiers in those islands, and I hope it will save the cost and risk of transportation of five or six million dollars per annum. Even with all the advantage derived from this method of exchange the chief paymaster has to be a sort of subtreasurer and keep a large amount of gold and silver on hand; but until this country establishes some branch banks and depositories in our island possessions it is the best that can be done.

The same problem is being solved in the same way in Cuba and Porto Rico, where we are making a great effort to force our currency into general circulation, with some gratifying results.

A. E. Bates,<br>Paymaster-General, United States Army.

[Third indorsement.]

## Department of Finance, Havana, June 3, 1899.

Respectfully returned. The information requested in the inclosed letter is as to what steps are necessary to be taken in order to obtain the requisite franchises to establish a bank of exchange and deposits in the city of Cienfuegos, with branches at Sancti Spiritus, and perhaps other places, and as to what rules and regulations, if any, have been established by the authorities of the United States in reference thereto.

As to the first part of the information requested, I beg to say that no franchises are to be obtained for banking purposes of any kind, as banking business can be undertaken here by any parties, provided they comply with the requirements of the general laws contained in the code of commerce.

As to whether any rules and regulations have been established by the American Government in reference to banks, I have to say that none have been established up to date modifying or changing in any way the provisions, still in force, of the said code of commerce.
I may add, in order to facilitate the understanding of this matter, that any kind of bank, and, therefore, banks of exchange and deposit, can be freely established by any persons, either citizens or foreigners, of full age, by simply making and acknowledging before a notary public a contract or deed which shall state the names of the parties, the name by which said bank is to be known, the particular city or place where its operations of discount and deposit are to be carried on, the amount of the capital, the term of the company, the transactions and operations they propose to deal in, and such other covenants and agreements as the parties may deem convenient to enter into.

If the bank is a stock company, the contract or deed before the notary shall also state the maximum amount of capital stock, which can be freely agreed upon by the parties without any restriction, the terms within which the capital stock shall be paid in, the number of directors who shall manage the affairs of the company, there being no restriction or limitation to the free agreement of the parties on this point, and such other agreements as the parties may decide upon in regard to the meeting of stockholders, meetings of directors, powers and authority of directors, mode of election of directors and officers, modes of calling together meetings of directors and stockholders, form of adopting resolutions, either by directors or stockholders, as the case may be, in regard to the number of votes required thereto and the number of stockholders or directors necessary to constitute a quorum.

The responsibility of stockholders for the contracts and debts of the company is limited to the amount they may have paid in for the stocks held by them and for the amount they may have subscribed for.

The shares of stock may be issued to bearer or in the name of the stockholder.
These companies may issue bonds or obligations, either to bearer or to the person to whom they may be issued, but the amounts of the obligations issued and outstanding at any time may not exceed the amount loaned by the bank according to the titles or other evidences of said loan held by the bank.

Another of the requisites to be complied with is that of being registered in what is
here called "The Mercantile Registry," in whose books an entry is made, stating the names of the parties, the date and contents of the notarial instrument drawn, as before stated, for the formation of the company, the issues of stocks, the number and amount of each series, and such other details as are required by the provisions of the code of commerce.

Except for tax or other fiscal purposes, the law does not generally provide for the inspection or supervision of banking companies by any Government official, such as superintendents or examiners.

If the bank is a stock company they shall have to publish monthly in the Official Gazette a statement or balance of the operations carried on and the estimated value of the securities that may be held by the bank.

The tax at present levied on banks is 9.38 per cent per annum of the net profits that may have been realized, and if the bank be a stock company they shall have to pay only 7.50 per cent of said net profits.

At the time of the constitution of the company it shall have to pay, once for all, a tax of one-half of one 1 per cent of the value of the capital contributed.

If the bank has made any issue of stock the amount that may be paid in for these stocks shall be considered as capital, and subject, therefore, to the above-mentioned duty or tax.
At the time of the dissolution of the company the same tax duty of one-half of one per cent will have to be paid on the capital or property distributed to partners or transferred over to another company.
These are the essential regulations in regard to banking business in this country. I beg only to add that, now that the exclusive privilege that the Spanish bank had to issue bank notes has ceased in this island, banks of issue can be freely established under provisions similar to other banks.
[Letter of P. Salazer, in report of Robert P. Porter, special commissioner, on the currency question in Porto Rico.]

$$
\text { New York, August 12, } 1898 .
$$

Sir: At the request of Mr. Robert P. Porter I have given due consideration to the matter of the Porto Rico currency question, and, as requested by him, I beg leave to present to you the following considerations:

The solution of this problem seems rather difficult because of the opposite interests involved in the matter and the natural desire of the Administration to find an equitable settlement to the satisfaction of all concerned. In a country like Porto Rico, where the basis of all business has leaned upon long credits in connection with both foreign and local transactions, especially the latter, the problem offers more than one aspect to the consideration of those called upon to solve it.

I advocate a radical change in the currency of the country, by the immediate exchange of the provincial peso and its fractions for the currency of the United States, on the basis of the average rate of exchange that has ruled in Porto Rico for drafts on the United States for the last five years, say 75 per cent, as a premium on American gold. The measure will certainly meet the approval of the holders of specie who at any time have been disposed to invest their savings at the said rate of exchange, which, in fact, is more than what the specie is worth intrinsically.
The loss which the United States Government would have to bear by the transaction, taking up a coin which is worth about 38 cents for 57.20 , can be charged to the general budget of the island in four installments at the rate of 25 per cent each year. I estimate the amount of specie actually in circulation not to exceed five millions in round numbers, the bulk of it, perhaps as much as two-thirds, in the hands of the Banco Español, a sort of government bank, that holds the deposits of the native Spaniards, thus leaving a small portion scattered among the private mercantile institutions and the poorer class of the people. The latter will certainly entertain little fear of making any loss by the exchange, as, speaking in general, the Porto Rico laborer has little savings, or perhaps none at all.

The savings banks in the island are reduced to three-at San Juan, Ponce, and Mayaguez-and what deposits they may have will chiefly belong to the private merchants and planters and so-called local bankers. Even if this measure should inflict some nominal loss on the poorer classes, they are wise enough to understand that the loss is practically offset by the fact that they could buy the necessaries of life so much cheaper. Before closing this item I would further suggest, in order to save the island from the burden that the loss in the operation would impose upon the Treasury of the United States, and consequently upon the Porto Rico people, in case

$$

$$

the United States Government should be called, by virtue of the impending negotiations of peace, to defray certain sums which eventually may go to the hands of the Spanish Government or the Spanish people, that the Porto Rico provincial pesos should be paid back to them at their face value.

I desire to mention as briefly as possible that the Spanish Government exchanged in 1895 the previous currency of the country, Mexican silver, by giving the holder of every $\$ 100$ ninety-five of the new issue, which, as is well known, is of a lower value than the Mexican dollar. The Spanish Government promised to indemnify the holders of specie of this loss by sending to the Porto Rico treasury whatever profits the Central Government might derive from the operation. This was only done in part, by remitting to the Porto Rico treasury $\$ 500,000$ in gold, which, however, was soon sent to the mother country as a gift from Porto Rico to build a war ship to be named Porto Rico, which, however, never appeared on the surface of the seas. I firmly believe that Spain has still a chance to use this little specie to some advantage, owing to the distress of her treasury, in spite of her arbitrary disposition prohibiting the circulation of that currency outside of Porto Rico.

The next important step which naturally comes up with the exchange of the specie is the settlement of all debts contracted before the new currency comes into circulation. In my opinion they should be reduced in the same proportion as the specie, thus allowing the debtor to pay $\$ 100$ United States gold for $\$ 175$ of his standing debt. That this can be worked with no inconvenience and with little loss to anyone is obvious. The sugar planter and the coffee grower who has borrowed money of the merchant or banker to run his plantation will have to suffer by the adoption of the gold standard, which brings down the nominal price of his product; but this is compensated for by the reduction of his debt in the same proportion. The merchant or banker, who generally deals with foreign countries on the basis of gold, loses nothing by receiving $\$ 100$ gold instead of 175 pesos, as this difference was already charged to the planter when the merchant sold the goods, and if the creditor is a banker he would not be better off if he had the cash in hand.

The only dark spot in the whole matter is the sugar planter, owing to the low price at which he would be compelled to sell his product if the gold standard is finally established, as, on account of the inadequate machinery, the lack of proper means to irrigate the most fertile zone of the island, and, above all, due to the enormous and unequal taxes that this industry has had to bear in relation to other industries, the result is that the actual owners of sugar plantations have only been able to carry on the works regularly because of the depreciated currency that gives them the benefit of the exchange. The United States Government will certainly not allow its newly acquired territory to run the same hard luck of the English West Indjes, where the sugar problem has become a question of to be or not to be. I believe that in the natural course of events Porto Rico sugars will ultimately be admitted free of duty into the United States, but in the meantime I would suggest that some measure should be devised to protect the interests of the sugar planter, who will surely receive a heavy blow if the currency problem be solved in the way above recommended.

As an illustration, I would add that the actual production of sugar in Porto Rico is about 50,000 tons, and that with the natural impulse that American enterprise will develop this important business the production will never exceed 150,000 to 200,000 tons. Finally, I recommend that the funds to take up the present currency of the island should be sent there, as follows: 70 per cent in gold and greenbacks, 15 per cent in silver one-half and one-quarter dollars, 5 per cent in dimes, 5 per cent in nickels or half dimes, and 5 per cent in 1-cent pieces.

Respectfully, yours,
P. Salazar,

[Letter from Charles M. Pepper, author of "To-Morrow in Cubß."]
Washington, D. C., November 18, 1899.
Dear Mr. Dafes: Referring to the matter of banking and currency in Cuba there are two points which I think are important to be understood in the United States. The first is the probability that the circulating medium of Cuba may ultimately be American standard money whatever political changes take place. The second is the demand for information throughout the island regarding Government regulation of banks as practiced in the United States.

Concerning the first point, the whole monetary system of Cuba at present may be said to be in a state of transition. The profits of banking from exchange have probably been reduced since the end of Spanish sovereignty. Under the Spanish rule the finances of the island were managed by making drafts on London and Paris, largely against silver, which was the common medium of exchange, though circulating only as subsidiary coinage.

The present condition is anomalous, because the Spanish and French gold coins are still given the inflated and artificial value which was placed upon them by the official decree of the Spanish Government. The persistence with which the Spanish silver circulation has held its own is also anomalous. It has not driven out better money, but it has kept an artificial value as a medium of common circulation which has been surprising.

Anyone who studies the financial conditions must reach the conclusion that the time will come when the inflation in the Spanish and French gold coinage will cease and they will circulate at their bullion value on a parity with the gold coinage of the United States. How or when this change will come I do not venture to predict. After the American monetary standard was established by direction of the American Executive, the Cuban bankers protected their depositors by announcing that all deposits would be paid at the inflated value of the money in which they had been made. This was simply just and honorable, but it appears to me that a period of readjustment must come. With the reconstruction of the sugar and tobacco industries, the cash balance in favor of Cula will be very large, and it seems as though there will be ample American money in the island for all the purposes of trade. It would be interesting and valuable to determine at the end of the present year the amount of money in circulation, though only an approximation could be had.

Regarding the second point, I have found everywhere in the island a wide-spread demand for information regarding the methods of regulating banks in the United States. Everybody who studies the industrial situation realizes that a system of agricultural banks is essential to the development of the island and its continued prosperity, but there is great difference of opinion regarding the basis of such banks and the extent of state regulation and control. Since Cuba outside of the larger seaports has lacked both savings banks and banks of discount, the whole subject is a new one. The people would le distrustful of any banking institution which did not in some manner have an official sanction or guaranty back of it. They would demand very strict measures of state control and regulation before their confidence as depositors could be secured.

Regarding banks of issue, I think you will find that the general feeling is against them. In the beginning, even in the commercial centers, it was difficult to get American greenbacks or bank bills accepted as the equivalent of gold and silver, and that feeling yet prevails. The issuance of an amount of paper money, said to be $\$ 18,000,000$, during the last insurrection has much to do with this feeling. This money was commonly known as "Weyler's scrip," because it was issued during Weyler's term as Captain-General. The issue was by the Spanish Bank of the Island of Cuba. It was issued by direction of the Spanish Government, through the bank, which held a semiofficial relation toward the Government. There was, however, no safeguard surrounding it, such as surrounds the notes of the national banks in the United States.

The paper notes known as "Weyler's scrip" went through the usual experience of irredeemable paper money, but before the intervention of the United States they had reached the stage where the coercion of the Spanish Government and various schemes for converting them were unable to keep them in circulation. The notes are now quoted at rates varying from 6 to 9 cents on the dollar. This might be called a speculative value. The basis of this speculative value is two-fold. Though the Spanish Bank has been reorganized and disputes liability for the issue, some of the holders of the notes have an idea that a legal liability will be enforced in the courts, which will at least cause a compromise and the taking up of the scrip at some valuation. The other basis is the belief that the Spanish Cortes can be induced to recognize the Government liability for the notes and make provision for redeeming them. $a$ Whether either of these views be ultimately justified the experience of the people of the island with paper currency has been too recent and too painful to cause them to look favorably on any form of bank-note issues as a circulating medium.

Very truly yours,
Charles M. Pepper.

## Abatement:

1. An action brought by the creditor of a national bank is abated by a decree of a district or circuit court dissolving the corporation and forfeiting its franchises. First National Bank of Selma v. Colly, 21 Wall., Gol.
2. A creditor's bill was filed against a national bank before the passage of the act of Congress of June 30, 1876 ( 19 St at L., 63), and a receiver was appointed, who took possession of the property of the bank. An amended bill was filed in the canse, after the passage of that act, to secure the benefits of the act, to which all the stockholders were inade parties. Subsequently the Comptroller of the Currency appointel a receiver to wind up the affairs of the bank, and this suit was brought by him against one of the stockholders. Held, on demurrer to a plea in abatement, which set forth these facts, that the defendant is entitled to judqment on the ground that as the stockholders" liability can be completely enforced in the suit in equity, the general lule applies that a debtor shail not be vexed by two suits in the same jurisdiction for the same cause of action. Hartey, Receiver, etc., v. Lord, 10 Fed. Rep., 936.
3. The pendency of a suit in a State court is not necessarily a bar to a suit in a Federal court between the same parties, involving the same issues. Short et al. v. Hepburn, 75 Fed. Rep., 119.
4. In an action by a creditor of a corporation against a stockholder to enforce his statutory liability, an affidavit for attachment stating that the action is to enforce the stockholders' liability under the Constitution and statutes for payment of the debts of the corporation and that the claim against defendant is his liability as such stocklolder, sufficiently states the "nature of plaintiff's claim." Rev. St., sec. 5ne?; Northern National Bank v. Maumee Rolling Mill Co. (Com. Pl.), 2 Ohio N. P., Sitio.

## ACCOMMODATION PAPER:

1. A national banling association can not guarantee the paper of a customer for his accommodation. Seligman v. Charlottesville National Bank, 3 Hughes, 647.
2. The accommodation paper of a national banking association is void in the hands of one who takes it with knowledge of its character. Johnsion v . Charloitesville National Bank, 3 Hughes, $65 \%$.
3. A national bank can not become an accommodation indorser. National Bank of Commerce v. Atkinson, 55 Fed. Rep., 465.
4. A private corporation can not detend an action on its accommodation note on the ground of ultra vires, as against a bona fide lolder. Florence Railroad and Improcement Company v. Chase National Bank (Ala.), it So, , 7\%o.
5. As a qainst a hoider for value, a maker of an accommodation note can defend only on the ground of actual payment. Philler v. Paflerson (Pa. Sup.), 32 A., 26.
6. A director and stockholder of a national bank gave an accommodation note to the bank's president, on the latter's request and representation that the note was to be put in the hands of his personal creditor as security, and on condition that no money should be drawn on the note, and that the note should not be put in the bank. Without the knowiedge of the maker, he being aged and infirm of sight, the note was made payable to the bank and placed therein, and a certificate of deposit for the amount thereof issued to the president, and by him deposited with his creditor, who held the same until the bank's failure. Held, that the maker was liable on the note to the bank's receiver. Linn County National Bank v. Crawford (C. C.), 69 Fed. Rep., 53..
7. Compleinants, on the request of a national bank needing funds, signed an accommodation note for $\$ 10,000$, payable to its order, with the understanding that it would discount the same, and use the proceeds in its business. The bank at the same time agreed to place to the credit of complainants on its books an amount equal to the proceeds of the note, complainants stipulating that they would not check against this credit except to pay the note or to reimburse themselves for paying it. The credit was accordingly made, and the bank, after continuing business for some time, failed, and complainants were compelled to pay the note. They thereafter recovered a judgment at law against the bank's receiver for the amount paid to take up the note, and then sued in equity for the

## Accommodation paper-Continued.

amount placed to their credit, according to the agreement. Held, that they are not entitled to two judgments for the same debt and to dividends on both judgments until one of them was satisfied, and that the bill must therefore be dismissed. Latimer v. Wood et al., 79 Fed. Rep., 1001.
8. When the payee of an accommodation check, given for a particular purpose, deposits it in a bank in his own name and the bank makes advances and extends credit on the faith of the deposit without notice of the trust, its rights and equities are superior to the drawer of the check. Erisman v. Delaware County National Bank, 1 Pa. Super. Ct., 144, s7 W. N. C., 518 .
9. In an action on a note, it appeared that plaintiff bank discounted P. \& Co.'s paper to the full extent, consistent with itsrules, and, in reply to an application for a further discount, suggested that the company get defendant bank to discount the paper and allow plaintiff to rediscount it. The company made its note to defendant, who indorsed it, and sent it on to plaintiff, with whon it had an account, and the proceeds were placed to defendant's credit. Defendant placed the amount of the note to the credit of P. \& Co., by whom it was at once checked out. This specific amount credited to defendant by plaintiff was not checked out by defendant, but checks in various amounts, in ordinary course of business, were drawn against its account, none of which apparently had any special reference to the amount of the discount. Held, that defendant was not an accommodation indorser. Fox v. Home Co. (Sup.), 35 N. Y. S., 896, distinguished. Tradesmen's National Bank v. Bank of Commerce (Sup.), 39 N. Y. S., 554.
10. Where a note was signed by accommodation makers, and made payable to a bank, on the understanding that it was to be deposited in the bank to secure a loan for the purchase of wheat for a mill, with the ultimate intention of paying off a mortgage on the mill, and such nalsers, without notice to the bank of any restrictions on the disposition of the note, allowed the mortgagor, for whose benefit it was made, to have possession and control thereof, they can not complain that he effected an immediate payment of the mortgage by procuring an indorsement to himself from the bank, and then indorsing the note to the mortgagee. First National Bank v. Wood (Tex. Civ. App.), 28 S. W., 384.
11. An answer which alleges that the note sued on was accommodation paper, and was made and delivered on condition that defendants should not bo held liable thereon, provided there was delivered to plaintiff good business paper of the person accommodated, is insufficient, because it does not allege that the agreement to replace such note with other paper was made with plaintiff. Vilas National Bank v. Barnard (Stip.), is N. Y. S., 929 .
12. Defendant, for the accommodation of the maker, indorsed blank notes in the following form: "- after date, _ promise to pay to the order of -_ , at the Farmers' National Bank, Adams, N. Y. Value received." Hold, that the delivery of the indorsed blanks did not authorize the holder to fill them out so as to make them payable "on demand" instead of at a specified time after date, or to add the words "with interest." Farmers' National Bank v. Thomas (Sup.), 99 N. Y. S., 837.
13. An accommodation indorser on a note given in renewal of a note on which he was also accommodation indorser, at its maturity, is not relieved of liability because of his insanity at time of signing it, the bark taking it in renewal having no notice of his insanity, and he having been sane when the prior note was executed. Memphis National Bank v. Sneed (Tenn. Sup.), 33 S. W., \%16.
14. Accommodation paper is put into circulation for the purpose of giving credit to the party for whose benefit it is intended, and, although he can not maintain an action upon it against the accommodation maker or indorser, a purchaser can do so, who acquires it while still current, and gives the credit it was intended to promote, although with knowledge of its original character. Israel v. Gale, gy Fed. Rep., 53亥.
15. One who takes accommodation paper from the party for whose benefit it was made and gives him credit for the same on a precedent indebtedness, though advancing no money, is a holder of such paper for value. Ib.

AcCommodation paper-Continued.
16. The general authority of the president of a business corporation to make and discount its promissory notes gives him no power to make a note of the corporation payable to his own order, and one who discounts such a note can not recover thereon against the corporation without showing special authority for its execution. Park Hotel Co. v. Fourth National Bank of St. Louis, 86 Fed. Rep., 742.
17. To the general rule that the acts and contracts of a general agent within the scope of his powers are presumed to be lawfully done and made, there is an exception as universal and inflexible as the rule. It is that an act done or a contract made with himself by an agent on behalf of his principal is presumed to be, and is notice of the fact that it is, without the scope of his general powers, and no one who has notice of its character may safely recover upon it without proof that the agent was expressly and specially authorized by his principal to do the act or make the con-tract.-Ib.
18. It is ultra vires of a corporation to make accommodation paper, or to guarantee the payment of the obligations of others.-Ib.

The estate was at the time in possession of an Iowa probate court for purposes of administration, for which reason the Federal court could not enforce the liability, if adjudged to exist. Defendant set up the limitations contained in the Iowa statute (Code, sec. 2421) regulating the settlementof estates. Held, That the Federal court would not pass upon the question whether this provision debarred complainant from sharing in the estate, for, as the claim established in the Federal court must be presented for allowance in the probate proceedings, the better practice was to remit the question to the probate court. 16. Where a national bank issues certificates of its shares to a subsequent purchaser in lieu of the certificates of the prior owner, without observing its by-law in regard to a transfer on its books, so far as creditors of the bank are concerned a party taking and holding such shares of stock will be subject to the liabilities imposed by soction 5151 of the national banking law. 17. One to whom stock has been trarsferred in pledge or as collateral security for money loaned, and who appears on the books of the corporation as the owner of the stock, is liable as a stockholder for the benefit of creditors. Where the owner, holder, or pledgee of stock transiers it out and out for the purpose of escaping liability as a slareholder to one who is unable to meet such liability, or when the transfer is colorable and not absolute, the transfer is ineffective as to creditors, and the transterrer will be still liable. Therefore, when the G. bank loaned money and took as collateral therefor shares of stock in the C. bank, which were duly transferred in the books of the C. bank, and afterwards the G. bank transferred these shares to one of its clerks with an understanding that he should retransfer on request, and the C . bank was then in fiailing condition, held, that the G. bank was liable to contribute as a stockholder to the debts of the C. bank. The bank failed January 22. In a suit by the receiver of the bank against $F$. to recover the amount of an assessment of 100 per cent by the Comptroller of the Currency in enforcement of the individual liabiity of the shareholders, and to recover the $\$ 1,750$, held, first, in view of provisions of sections 5146,5147 , and 5210 , Rev. St., it must be presumed conclusively that F. knew from November 21 that the books showed he held 50 shares; second, F. did not get rid of his liability for $\$ 1,250$ by giving to D . his check for that sum in favor of D . individually. Finn v. Brown, 142 U. S., 56.
23. In winding up an insolvent national bank, the Comptroller of the Currency is vested with authority to determine when a deficiency of assets exists, so that the individual liability of the stockholders may be enforced, and no appeal lies from his decision. 32. In an action by the receiver of a national bank to enforce the liability of a shareholder, it appeared that the date of the defendant's subscription to the stock was prior to May, 1866, when the receiver was appointed; that the Comptroller of the Currency decided on the 28th of June, 1876, that the enforcement of this liability to its full extent was necessary, and instructed the receiver accordingly, and that this action was thereupon brought. Held, that although such decision and order of the Comptroller were necessary preliminaries to a suit against the share holder, yet, having been delayed without sufficient apparent reason for more than six years from the date of the subscription, the statute of limitations was a bar to the action, the State courts having decided that an act necessarily preliminary to the commencement of a suit upon a contract must be done within six years, unless sufficient reason for the delay is shown. 43. The Pacific National Bank of Boston was organized in October, 1877, with a capital of $\$ 250,000$, with the right to increase it to $\$ 1,000,000$. In November, 1879, its capital was raised to $\$ 500,000$; September 13, 1881, the directors voted to increase the capital to $\$ 1,000,000$. On November 18, 1881, the bank suspended. On December 13, 1881, the directors voted thatas $\$ 38,700$ of the increase of capital stock had not been paid in the capital be fixed at $\$ 961,300$, and the Comptroller of the Currency was notified to that eifect, and he notified the bank, under Rev. At the annual meeting the assessment was voted, and on March 18, 1882, with consent of the Comptroller and the approval of the directors and the examiner, the bank resumed business, and continued until May 20, 1882, when it again suspended and was put in the hands of a receiver. 45. When bank stock was sold, but not transferred on the books of the bank, and the bank afterwards failed, the executors of the person in whose name the stock stood on the books were held liable for assessment, although said stock had been paid for by a purchaser buying at the request of the president of the bank, who gave him a cashier's check for that purpose, placing the money so furnished to the credit of said purchaser on the books of the bank as a temporary loan, the intention being ultimately to transfer said shares to a third party as part of a larger proposed investment in stock, for which funds had been placed in the hands of the presitent of the bank. Price, Receiver, v. Whilney et al., 48 Fel. Rep., 29\%.
46. Detendant subscribed for new stock in the reorganization of a bank, and received a certificate on the basis of a total subscription of $\$ 500,000$. The actual increase was $\$ 461,300$. Held, that he was liable to the receiver on his subscription, and it was too late to claim that the increase as to him was invalid. Butler, Receiver, v. Aspinuall. 33 Fed. Rep., 217.
47. A pledgee of shares of stock in a national bank, who does not appear by the books of the bank or otherwise to be the owner, is not liable for an assessment upon the shares on the insolvency of the bank, under Rev. 49. In an action by the receiver of an insolvent national bank to recover of a stockholder an assessment on his shares, the defendant alleged as a counterclaim that the Comptroller of the Currency had directed the bank to restore the value of certain securities held by jt which had been reported worthless by an examiner; that certain of the stockholders, including defendant, had raised a fund which was placed in the hands of trustees to apply so much as might be from time to time required by the Comptroller to retire such securities; that the fund was deposited with the bank with full notice of the purpose to which it was to be applied; that a portion had been used to retire the securities designated, and that when the bank failed the balance of the fund came into the hands of the receiver, and was now claimed by him as a part of the ordinary assets of the bank; that a certain portion of this balance belonged to defendant, which amount he asked to set off against plaintiffi's demand. Held, that a general demurrer based on the ground that no set-off or counterclaim was a vailable in such an action would be ovesruled, as the clain could be set off if it was of such a nature that the holder would be entitled to receive the full amount before distribution by the receiver to general creditors. Welles v. Stout, 38 Fed. Rep., $80 \%$.
50. Where a shareholder of a national bank makes a bona fide sale of his stock and goes with the purchaser to the bank, indorses the certificate, and delivers it to the cashier of the bank with directions to make the transfer on the books, he has done all that is incumbent upon him to discharge his liability, and he is not liable, though the cashier failed to make the transfer, upon the subsequent suspension of the bank, for an assessment made by the Comptroller of the Currency, under Rev. object. She was assured by the bank's officers that if the bank was saved the securities would be returned, and if it failed the avails would be credited on her assessment as a stockholder. Held, that she was not entitled, as against other creditors, to set off the value of the securities against her assessment, but was, as to such value, on the same footing as any other creditor. St., sec. 5151 , imposing individual liability on the shareholders for the debts of national banks. Stephens v. Follett et al., 43 Fed. Rep., 84 .

This the cashier promised to do, but in fact the transfer was never made. The certificate recited that it was transferable on the books of the company "by indorsement hereon and surrender of this certificate." Held, that in requesting the cashier to make the transfer the broker acted as the sellers agent, and that the latter did all that was required of him as a prudent business man, and could not be held liable as a stockholder. Young v. McKay, 50 F'ed. Rep., 324.
56. A Federal court will not, even if it has the power under Rev. St., sec. 5234, grant an order authorizing a receiver of a national bank to compound the statutory liability of ceriain stockholders by accepting payment of a gross sum, less than is due, in satisfaction and discharge thereof, although more money would thus be realized than by proceedings to collect the same in the usual way, when it appears probable that such stockholders have fraudulently conveyed their property to avoid their legal obligations as stockholders, or to shield themselves from injury and exposure by litigation. 64. The individual liability of the stockholders must be restricted in its meaning to such contracts, debts, and engagements of the association as have been duly contracted in the ordinary course of its business. And, therefore, creditors of an association who make settlements after the association is put into liquidation and receive from the president payment of their claims in paper of the association, or of the individual notes of the president himself, indorsed or guaranteed in the name of the association, are not to be considered as creditors of the association entitled to subject the stockholders to individual liability, for these are new contracts. Richmond v. Irons, 121 U.S., $2 \%$.
65. The individual liability of the stockholders is enforceable only in behalf of all the creditors, and any security given by a stockholder for his liability in this respect should likewise be for the benefit of all the creditors. 69. Each shareholder of a national banking association is individually liable for its debts to the extent of the amount of his stock at its par value, in addition to the amount invested in the shares held by him, and a receiver appointed to wind up the affairs of such an association that has become insolvent is authorized, under the direction of the Comptroller of the Currency, to enforce the liability of its stockholders, and to collect from each of them the necessary amount, up to the extent of his liability, for the payment of the creditors. King et al. v. Armstrong, Receiver, 84 N. E., 103; 50 Ohio St., 222.
70. Code N.' C., sec. 1826, provides that no woman during coverture shall be capable of making any contract to affect her real and personal estate without the written consent of her husband. Held, that a parchase of stock by a married woman is not a "contract" within the terms of the statute, and that the wife is liable upon an assessment, although the stock was purchased without the written consent of her husband. Robinson v. T'urrentine et al., 59 Fed . Rep., 554.
71. One in whose name stock of an insolvent national bank stood paid an assessment thereon under a threat by the receiver to sue therefor, though he claimed that he had sold the stock. meeting of the directors subsequently held, protested against these book entries, but alterwards signed reports in which the $\$ 50,000$ was included as surplus. At the time of the advance the bank held two notes of B., and discounted another note of his a few days before the expiration of a year from the advance. Shortly after the expiration of the year the bank again suspended payment. Hcld, that the advance to the bank was a voluntary assessinent, and not a loan, and could not be set off by B. in an action against him on the notes by the receiver of the bank. Brodrick v. Brown, 69 Fed. Rep., 497.
73. M. bequeathed to his wife "for life or widowhood" 40 shares of stock in a national bank, together with other personal property, providing that she might use any of such personal property if necessary for her comtortable support, and that, at her death or marriage whatever should remain of sucli property should go in eipual shares to his four children. The administrator with the will annexed of M.'s estate transferred the strack on the books of the bank to M.'s widow. The bank having become insolient, and an assessment having been made by the Comptroller on the shareholders, for which a judgment was obtained against M.'s widow, which remained unsatisfied, the receiver of the bank brought suit agaiast M.'s administrator to compel payment of the assessment out of M.'s general estate. Held, that whether the widow took an absolute title to the stock by virtue of her power of disposal, or a life interest with remainder to the children, the beneficial ownership of the stock, in either case, had passed from M.'s estate, and the estate could not be made liable for the assessment. Held, further, that the administrator properly transierred the stock to the widow, and was not required to hold the legal title thereto, as administrator or trustee, during her life or widowhood, but that such transfer made no difference to the liability of the estate of M., since the beneficial interest would in either case have been in the widow and children. Blachmore v. Woodward et al., 71 Fed . Rep., 321.
74. The capital, the unpaid subscriptions to the capital stock, and the liability of the holders of the paid-up stock to pay an additional amount equal to the par value of their stock under section 5151, Rev. St., constitute a trust estate sacredly pledged for the security of the creditors of a national banling association. The willful destruction or diminution of any part of this trust estate or the diversion of the proceeds of any of it from the creditors of the bank is a fraud upon these creditors, and subjects its perpetrator to a suit by them or their legal representative for prover relief. Stuart v. Hayden et al., 7 t Fed. Rep., 40\%.
75. One who knowingly permits his name to be entered upon the stock books of a national bank, as the owner, individually, of stock therein, can not be permitted, as against creditors or a receiver of the bank representing them, to show that he was not the owner of the stock, and he is liable for an assessment thereon, though he held the stock, in fact, as trustee for the bank itself. Levis v. Switz, 74 Fcd. Rep., 381.
76. On 3 C. was the holder of stock in the D. National Bank, and was also an officer of the L. bank, which held stock in the D. bank. In the latter capacity he was informed of an urgent demand upon the L. bank to send $\$ 5,000$ by telegraph in aid of the D. bank. Within a week after this demand L. transferred his stock in the D. bank, without consideration, to his five children, one of whom was a married woman, and two minors. Within five months thereafter the D. bank failed and an assessment was made on the stockholders. Held, that the transfer must have been made by L. in contemplation of the liability, and that both he and his transferees were liable for the assessment, the latter because the liability was cast upon them by law when they became stockholders. Foster v. Lincoln et al., 74 Fed. Rep., 389.
77. In an action by the receiver of a national bank to enforce the individual liability of a stockholder, an allegation in the complaint that on a given date the Comptroller, having ascertained and determined that the assets, property, and credits of the bank were insufficient to pay its debts and liabilities, and, as provided by the act of Congress, made ath assessment and requisition on the shareholders of the said bank of a given sum upon each share held and owned by them, respectively, at the time of its default, and directed the receiver to take all necessary steps to enforce the liability, is sufficient. St., $\$ 5151$, subject to the relief granted by section 5152. Parker v. Robinson (C. C. A.), 'y F F., 906 .
80. The complaint, in an action by the receiver of an insolvent national bank to enforce an assessment on the sliareholders, made by the Comptroller of the Carrency, need not aver that there was a necessity therefor, or that the Comptroller determined that there was such necessity, though the law provides that the Comptroller may enforce the individual liability of the stochholders, if necessary to pay the debts of the bank. It is enough that the complaint alleges that the Comptroller made the assessment and directed its enforcement. O'Connor v. Witherby (Cul.), 44 P., $22 \%$.
81. The allegation of the complaint, in an action for an assessment on shareholuers in a banlr, that "defendant, though demanded, has failed and refused to pay said assessment, or any part thereof," is a sufficient averment as against a general demurer of nonpayment at the time action was commenced. Ib.
82. In an action by the receiver of an insolvent national bank to enforce an assessment on the shareholders, inale by the Comptroller of the Currency, the necessity of the Comptroller's making as large an assessment as that in suit can not be litigated. Ib.
83. The bill contemplated by the second section of the act of June 30, 18:0, to enforce the individual liability of stockloiders in a national-banking association that has gone into liquidation, need not parport expressly on its face to be filed by the complainant on behalf of himself and all other creditors. for the law would give it that effect and the court would so treat it; but, if this was necessary, the bill might be amended in that respect by leave of the court. Irons, Ear , etc., and others, v. Manufacturers' National Bank of Chicago and others, 17 Fed. Rep. 309.
84. The manifest intention of the national-banking act is a distribution of its assets in case a bank becomes insolvent equally among all the uusecured creditors, and the diligence of a creditor who files a creditor's bill can give him no greater rights than are given any other creditor to share in the distribution of the assets, and a prayer in the bill that such creditor be given priority over other creditors will not be granted. $H 0$.
85. Where the original bill, filed before the passage of the act of June 30,1876 , was amended after the passage of that act so as to make the individual shareholders defendants, and subject them to liability, such bill will not be considered on that account multifarious. Ib.
86. The act of June 30,1876 , did not create any new liability on the part of the stockholders, or provide for enforcing such liability against them under circumstances where it could not have been enforced betore that act was passed. This act is not retroactive, and does not creaie rights which did not exist prior to its passage as against existing stocknolders, though it may be construed as limiting the tribunal in which proceedings are to be instituted for enforcing the stockholder's liability to a United States court, instead of allowing creditors to resort to any competent tribual with equity power. Ib.
87. Entering an order that "the complainants coniessing the pleas of hankruptey of defendants, it is ordered that this case be stayed as to them," does not amount to a final decree, but simply confesses the facts set np in the plea, leaving the court to adjudge the law upon sach facts whenever the main cause is heard. Ib.
88. Where the original bill was filed February 3, 1875, before the passage of the act of June 30, 1876, and a receiver was appointed February 26,1875 , thereunder, and an amended bill, making the individual stockholders defendants, was filed October 5,1876 , and after the filing of the amended bill certain of the defendants were adjudged bankrupts, their pleas of bankruptcy will constitute a sufficient bar in their behalf. Ib.
89. Where it is admitted by the defendants that they were shareholders in a national bank, but the number of shares respectively held by them is

not admitted, the names of the shareholders and the number of shares held by each, as shown by the stock ledger and stubs of the stock certificates and the dividend sheets of the bank on which they respectively drew the last dividends, will be prima facie proof of the number of shares held, and, unless rebutted, sufficient. Ib.
90. A bill to enforce against the separate estate of a married woman an assessnent upon shares of national-bank stock is not open to the objection that it does not allege that she had the capacity to become a stockholder, whether she became such before or after marriage, where it alleges that she was the owner of the shares, and where a statute of the State in which the bank is located (Dig. St. Ark. 1874, sec. 4194) provides that a married woman may transfer her property, carry on any business and perform any services on her separate account, and that her earnings shall be her separate property and may be used or invested by her in her name. Bundy v. Cocke, 128 U. S., 185; 3 N. B. C., 316.
91. The bill alleging that the married woman is possessed of property in her own right sufficient to pay the assessment and praying for a decree of payment therefrom, and the bill of revivor filed after her death against her husband praying for relief out of the assets received by him as her legatee, devisee, or executor, the case is one of equitable cognizance. Ib.
92. A suit by the receiver of an insolvent national bank to collect an assessment by the Comptroller upon the stock from a stockholder who has made an alleged fraudulent transfer of his shares is based upon the statutory liability of the stockholder, and not upon any injury growing out of the fraudulent transfer; and therefore the statute of limitations begins to run from the date the assessment becomes due, and not from the discovery of the fraud. Thompson v. German Ins. Co. et. al., 77 Fed. Rep., 255 .
93. On a bill by the receiver of an insolvent national bank to collect an assessment by the Comptroller on the stock from a former stockholder, on the ground that, to escape liability, he had transferred his shares, within six months of the failure of the bank, to one having no means, it appeared that the transfer was made on the books of the bank, no concealment thereof being attempted, and that the receiver made no inquiry as to the nature of the transfer, and took no action against defendant until the assessment had become barred. Held, that equity would not relieve against the bar of the statute. Jb.
94. It is not necessary, in order to hold liable for an assessment upon the shareholders of an insolvent national bank one who has transferred his stock to an irresponsible person, to show that the transferrer had actual knowledge of the insolvency of the bank at the time of the transfer, but it is sufficient if he had good ground to apprehend its failure, and made the transfer with intent to relieve himself from individual liability. Cox v. Montague, 78 Fed. Rep., 845 .
95. Upon the trial of a suit brought by the receiver of an insolvent national bank to collect an assessment from one who had transferred his stock, a letter written by the defendant to a bank examiner, in reply to an inquiry about the bank, in which defendant admits his transfer of his stock when the bank was embarrassed, is not a privileged communication, though the bank examiner's letter, to which it is a reply, is marked "Confidential." Ib.
96. A corporation which receives shares of national-bank stock in pledge, with power to use and sell, and which, in good faith. without suspicion of the bank's insolvency, causes new certificates to be issued in the name of one of its employees, merely because it is unwilling they should stand in the name of the original owners, remains a mere pledgee, and is not liable, as a shareholder, to assessment on the stock. National Park Bank of City of New York v. Harmon, 79 Fed. Rep., 891.
97. L., a stockholder in the D. national bank, transferred his stock shortly before its failure to his married daughter and other minor children. It appeared from the circumstances surrounding the transaction that L., though perhaps not supposing the D. bank to be actually insolvent, was advised of facts not generally known, which indicated such uncertainty as to its ability to stand a run, which had apparently begun, as to make it safer for him to dispose of his stock forthwith, and that the transfer was made with the intent that, if all came out well, his children should have the stock, while, if the bank met with disaster, he would not be obliged to throw good money after bad. Held, that the transfer so made

98. The circuit court has jurisdiction of an action to ascertain or fix the liability upon shares of an insolvent national bank which are alleged to have been transferred with a fraudulent intent to escape such liability when the amount of the assessment exceeds $\$ 2,000$ exclusive of interest and costs. Thompson v. German Ins. Co. et al., 76 Fed. Rep., 892.
90. The right of the receiver of an insolvent national bank to enforce the liability of stockholders, though created by United States statute, may be barred by the running of a State statute of limitations. Ib.
100. The bar of a statute of limitations will be enforced, when applicable, in equity as well as at law. Ib.
101. The action of the Comptroller in making an assessment against the stockholders of an insolvent national bank creates a right of action against the stockholders, but is not the institution of a suit to enforce it so as to stop the ruming of limitation. The statute begins to run from the date the assessment becomes due. Ib.
102. A creditor who receives from his debtor a transfer of shares in a national bank as security for his debt, and who surrenders the certificates to the bank, and takes out new ones in lis own name, in which he is described as pledgee, andholds them afterwardsin good faith as such pledgee and as collateral security for the payment of his debt, is not a shareholder subject to the personal liability imposed uipon shareliolders by Revised Stetutes, section 5151. Pauly v. State Loan and Trust Company, 165 U. S., 606.
103. The previous cases relating to the liability of such shareholder examined and held to establish:
(1) That the real owner of the shares of the capital stock of a nationalbanking association may, in every case, be treated as a shareholder within the meaning of section 5151;
(2) That if the owner transfers his slares to another person as collateral security for a debt due to the Jatter from such owner, and if, by the direction or with the knowledge of the pledgee, the shares are placed on the books of the association in such way as to imply that the pledgee is the real owner, then the pledgee may be treated as a shareholder within the meaning of section 5151 of the Revised Statutes of the United States, and therefore liable upon the basis prescribed by that section, for the contracts, debts, and engagements of the association;
(3) That if the real owner of the shares transters them to another person, or causes them to be placed on the books of the association in the name of another person, with the intent simply to evade the responsibility imposed by section 5151 on shareholders of national-baniking associations, such owner may be treated, for the purposes of that section, as a shareholder, and liable as therein prescribed;
(4) That if one receives shares of the stock of a national-banking association as collateral security to him for a debt due from the owner, with power of attorney authorizing him to transfer the same on the books of the association, and being unwilling to incur the responsibilities of a shareholder as prescribed by the statute, causes the shares to be transferred on such books to another, under an agreement that they are to be held as security for the debt due from the real owner to his creditor-the latter acting in good faith and for the purpose only of securing the payment of that debt without incurring the responsibility of a shareholder-he, the creditor, will not, although the real owner may, be treated as a shareholder within the meaning of section 5151; and
(5) That the pledgee of personal property occupies toward the pledgor somewhat of a fiduciary relation, by virtue of which, he being a trustee to sell, it becomes his duty to exercise his right of sale for the benefit of the pledgor. Ib.
104. Where one residing in Maryland subscribes for stock of a national bank of another State, and then transfers it to lis wife, also a resident of Maryland, she becomes owner thereof, and is subject to stockholders' liability, under Revised Statutes, United States, 5152 , without regard to the laws of the other State relative to contract by married women. 105. A person appearing on the books of a national bank to be absolute owner of stock is subject to stockholders liability, though holding it as trustee. Ib.
106. It has been repeatedly settled by this court that the Comptroller of the Currency has power to appoint a receiver of a delanding or insolvent national bank, and to call for a ratable assessment upon the stoclihoiders of such bank, without a previous judicial ascertainment of the necessity for such action; and the contention that there is presented in this case a constitutional question not considered in the prior cases is an assumption with no foundation in fact. Bushnell v. Leland, 164 U. S., $68 \%$.
107. As by Rev. St., U.S., sec. $52 t 2$, an attachment issued before final judgment from a State court against a national bank is prohibited, such an attachment does not operate as notice to the absent defendant, so as to give the court jurisdiction of the party or subject-mater. 109. An assessment aguinst the cstate of an owner of national-bank stock, in the hands of his executrix, is enforceable in the Federal courts, though proceedings for settlement of the estate are pending in the probate court of Vermont. Broun v. Ellis, 86 Fed. Rep., $35 \%$.

111. Where the jurisdiction of the Federal courts depends on the diverse citizenship of the parties, the Federal courts of the residence of stockholdors of an insolvent corporation, organized under the laws of another State, have no jurisdiction of a suit brought by a creditor of the corporation for an accounting and a receivership, and to enforee the individual liability of the stockholders, if the corporation has not voiuntarily appeared in the action. In such case the nonresident corporation can not be compelled to appear. Smith $v$. Lyon, 10 Sup. Ct., 303,183 U. S., 315, and Improvement Co. v. Gibney, i6 Sup. 115. An assessment to restore impaired capital, under Rev. St., 55005 , is only enforceable by subjecting the stock of persons refusing to pay, and no action will lie against the stockholders personally. Ib.
116. When an executor refuses to recognize, as a claim against decedent's estate, an assessment by the Comptroller of the Currency upon nationalbank stock belonging to the deceased, a Federal court will assume jurisdiction of an action against the executor to determine the liability, although the estate is in the course of administration in the probate court. natonal bank is liable for the assessment on stock belonging to the estate in the same manner as if deceased was living (Rev. St., $\mathbf{8} .5159$ ); and the fact that the time for filing claims against the estate has expired is no bar to an action to fix such liability. Ib.
113. Where bank stock was transferred by an executrix to herself indivicually, and she admits before suit is brought, and again in her answer, that the transfer was without consideration, and is void, such admission does not vacate the transfer, and a bill in equity will lie to determine the liability of the estate on an assessment of the face value of the stock. Ib.
119. Where, at the hearing, the defendant raises the point that the chamant has a plain, speedy, and adequate remedy at law, the court will not make a decree if there is a plain defect of jurisdiction, but the bill will be construed more liberally than if the point had been rased by demarrer. Ib.

the creditors of the bank, and may be treated by the receiver as inoperative between the transferrer and himself, and the former held liable as a shareholder without reference to the financial condition of the transferee. Ib.
132. The right of creditors of a national bank to look to the individual liability of shareholders, to the extent indicated by the statute, for its contracts, debts, and engagements, attaches when the bank becomes insolvent; and the shareholder can not, by transferring his stock, compel creditors to surrender this security as to him, and force the receiver and creditors to look to the person to whom his stock has been transferred. Ib.
133. If the bank be solvent at the time of the transfer-that is, able to meet its existing contracts, debts, and engagements-the motive with which the transfer is made is immaterial, as a transfer under such circumstances does not impair the security given to creditors; but if the bank be insolvent, the receiver may, without suing the transferee and litigating the question of his liability, look to every shareholder who, knowing or having reason to know at the time that the bank was insolvent, got rid of his stock in order to escape the individual liability to which the statute subjected him. Ib.

141. A right of action by the receiver of an insolvent national bank against a stockholder to recover an assessment does not arise until the necessity for the assessment has been determined and the assessment made by the Comptroller; hence limitation runs against such an action only from that time. 2. No State court can issue an attachment against the funds of a national bank. Although the provision forbidding attachments was evidently made to secure equality among the general creditors in the division of the proceeds of the property in an insolvent bank, its operation is by no means confined to cases of actual or contemplated insolvency, but the remedy is taken away altogether and can not be used under any circumstances. The effect of the provision in sec. 5242, Rev. Bonds of orricers:

1. It is not necessary that national banking associations shail sigaify their approval of the official bonds of their officers by memoranda entered apon the journals or minutes of the directors. The acceptance is to be presumed from the retention of the bond, and from the fact that the officer is permitted to enter upon or continue in the discharge of his duties. Graves v. The Lebanon National Bank, 10 Bush., 28.
2. Where the suretios of an officer can reasonably bo presumed to have been deceived by the statement of the condition of the bank published just prior to the execution of the bond, and to have been led to think that there was no deficit, whereas there had been a misapplication of a large part of the funds by the officer whose bondsmen they became, which fact would have been ascertained had the directors exercised ordinary diligence, the sureties are discharged from their hability. Ib.

frauds upon the bank, if such frands were unknown to the officers of the bank, although they were guilty of gross negligence in not discovering them. Tapley v. Martin, 116 Mass. 275; 1 N. B. C., 611.
4. The engagement of a surety is a direct original agreement with the obligee that in the event his principal fails he will perform the original obligation, and whether it is entered into jointly with the principal or separately, the extent and cliaracter of the obligation are the same as to both, depending only upon the form in which it is expressed. La Rose et al. v. The Logansport National Bank et al., 102 Ind., 939.
5. The contract of obligors, whether entered into separately or jointly with the principal, if by its terms it appears that the principal is separately bound by an original, independent contract, to which the contract for security is collateral, and the obligors agree therein that the principal will pay or perform according to his original engagement, and that they will answer for his default in the event of failure, is a contract of guaranty. Ib.
6. The contract of the sureties in the bond of a bank cashier. conditioned for the faithful discharge of his duties by such cashier, is a contract of guaranty. Ib.
7. A failure to give notice to guarantors of the default of their principal, except in cases governed by commercial rules, is a matter of defense, and resuiting damages must concur: with such failure in order to work a discharge. Ib.
8. Where by a by-law of a bank its cashier is made responsible for the funds and valuables of the bank, it can not be implied that his bond would not become operative until all the other officers and employees were denied access to such funds and valuables nor that he is responsible for losses which may occrer through the delinquencies of others. Ib.
9. The bond of a bank cashier, executed and approved two weeks after he enters tipon his duties, is upon sufficient consideration, and is operative, at least, from the date of its approval. Ib.
10. Tho knowledge by an employer of the misconduct of an employee whose conduct and fidelity lave been guaranteed by another, which will, if concealed, release the guarantor, mustrelate to the service in which the employee is engaged, and must be something more than mere moral delinquency unconnected with the subject-matter or the guaranty. Ib.
11. A continuing contiact, guaranteeing the fidelity of a bank cashier, may le revoked by the guarantors without cause, upon proper notice, but the right must be exercised reasonably. Ib.
12. A bond of suretyship ior an employee, which is to "embrace and cover only छcts and defaults committed during its currency and within twelve months next before the date of discovery of the act or default upon which such claim is based," covers not only embezzlements made during the year actually preceding their discovery, but also earlier embezalements which would have been discovered within a year but for the fact that during the year preceding the actual discovery the employee had so falsified the books as to prevent such discovery. Consolidation National Eank v. Fidelity and Casualty Company of New Yorls (C. C.), 6\% F., $8 \% 4$.
13. Plaintiff, as receiver of a national bank, sued a former employee of the bank and a guaranty company upon a bond of indemnity, against the fraudulent acts of such employee, which contained a provision that it should be essential to the validity of the bond that the employee's signature be subscribed thereto. The defendants pleaded non est factum. The bond offered in evidence was not signed by the employee of the bank and there was no evidence that it had been executed by the defendant company. The cour'i sustained defendants' plea, and dismissed the suit. Held, no error. Blackmore v. Guarantee Company of North America et al., 71 Fed. Rep., 363.
14. A bank employee's bond, conditioned for the reimbursement of any loss sustained by reason of frand or dishonesty in connection with his duties, provided that any claim under the bond should embrace and cover only acts and defaults committed during its currency and within twelve months next before the date of discovery of the act or deiault upon which such claim was based. Held, that the bond did not cover a default committed more than twelve months prior to its discovery, which would, however, have been discovered within a year from its commission had not such discovery been prevented by the act of the employee in falsi-

fying the books during the year preceding the discovery. 6 Fed. Rep., 874, reversed. Fidelity and Casualty Company of New York v. Consolidated National Bank, 71 Fed. Rep., 116.
15. The cashier of a bank, whose bond, with sureties, was conditioned that he would "faithfully and honestly discharge his duties as cashier, and account for all such moneys, funds, and valuables" as canie into his hands, cashed a draft, payable to his order, amply secured by bills of lading of cotton, and duly forwarded the saine, with the bills of lading, to a bank in another city for collection. The draft and bills of lading were lost in the mail. The cashier's bookkeeper, whose duty it was to check the statements and accounts with other banks, reported the draft as credited on their account with the bank to which they had been forwarded, and his accounts balanced according to his report. The agent of the railroad company, without production of the bills of lading, and without the consent of the cashier, delivered the cotton to the consignee. Held, that the cashier was not liable on his bond. First National Bank v. Still (Tew. Civ. App.), sis S. W., 61.
16. The A. Surety Co. execated and delivered to the C. bank a bond, insuring the bank against loss by any act of frand or dishonesty of its cashier in connection with the duties of that office, or the duties to which, in the bank's service, he might be subsequently appointed, occurring during the continuance of the bond, and discovered within six months thereafter and within six months from the death, dismissal, or retirement of the cashier from the service of the bank. The bond provided that the surety company should be notified of "any act" of the cashier which might involve a loss for which the company would be responsible "as soon as practicable after the occurrence of such act shall lave come to the knowledge" of the bank, and it required proofs of loss to be furnished to the surety company. The bank suspended payment and passed into the hands of a receiver who afterwards notified the surety company of the discovery of dishonest acts of the cashier, fumished proots of loss, and brought suit against the surety company on the bond. The evidence upon the trial as to the time when the dishonest acts of the cashier were discovered being conflicting, held, that the question whether the required notice was given with reasonable promptness was for the jury. Held, further, that the terms of the bond did not require notice to be given of suspicions of dishonest acts. American Surety Company v. Paully, 7e Fed. Rep., 4Y0; 1\%o U. S., 134.
17. The bank having suspended business on November 12, 1891, but the cashier having continued in the service of the receiver until March following, when he resigned, held, that the services so rendered by him after November 12th were rendered to the bank none the less because its affairs were controlled by a receiver, and the surety company was not absolved from liability for acts discovered more than six months from November 12th, but within six months from his resignation. Held, further, that a proof of loss under the bond, which set forth with reasonakle plainness, and in a manner by which a person of ordinary intelligence could not be misled, that certain sums of money had been taken from the bank by means of acts oí the cashier, described in such proof, was sufficient, though it failed to aver explicitly that a loss had been caused to the bank. Ib.
18. The "teller"s book" of the bank, which had been kept by one G., who died before the trial, was offered in evidence to show that on certain days no money was received for certificates of deposit. Held, that in connection with evidence of the course of business, by which, if received, such money would be entered in the book, the evidence was competent, though not conclnsive. Ib.
19. For the purpose of showing the dealings with the bank of the president, who was charged with having misappropriated the bank's money with the cashier's aid, the president's ledger account was put in evidence, together with the testimony of the bookkeeper who made the entries, and who swore that they were correctly made from the original deposit slips and checks furnished to him by the teller, who had died before the trial; that it had been the teller's duty to verify all deposit slips, and to pay the checks; and that all such slips and checks, when reaching the bookkeeper's hands, bore marks indicating that they had been verified or paid by the teller. Held, that the account was competent, and suff.

ciently proven. Held, further, that evidence of acts of fraud, and dishonesty by the cashier, occurring before the dato of the bond, and tior which no claim was mado against the surety company, but which were similar to the acts on which the claim was based, was admissible to show that the acts on which the claim was based were intentional, and not merely negligent, or dae to oversight. IU
20. Prior to the issue of the bond sued on, the cashier and president of the bank had conspired to rob it, and had been engaged in frandrlent practices. When application was made for the bond the surety company required a certificate from the bank of the cashier's grod character. Such certificate was made by the president without, so far as appeared, any directauthority from the board of directors, or any knowledge by them that such certificate was made or required. Held, that the president's knowledge of the cashier's dishonesty was not to be imputed to tho bank, so as to moke it responsible for the misrepresentations contained in such certificate. Ib.
21. When a case goes twice to an appellate court, questions decided upon the first occasion will not be considered upon the second. Mohrenstecher et al. v. Westervelt, 87 Fed. Rep., 15\%.
22. Error in denying a motion to compel the plaintiff to elect between causes of antion is cured by instructions eliminating all bat on canse. Ib.
23. It is error to give instructions authorizing the jury, in determining whether a transaction by which the cashier of a national bank oftained possession of some of its funds vas a misapplication thereof, to consider: the fact that his indebtedness to the bank exceeded 10 per cent of its capital. Ib.
24. Instructions that no devices for concealment, however elaborate, which a bank coshier may adopt to conceal a transaction amounting to a misappropriation of its funds, can protect him, are erroneous, when there is no evidence of any concealment whatever in respect to the transaction i: question. $I b$.
25. The making of a loan exceeding 10 per cent of a national bank's capital, in the absence of fraud, is not a breach of the cashier's bond. Ib.
26. To constitute a misapplication of the funds of a bank, it is necessary that some portion thereof shall be withdrawn from its possession or control, or that some conversation be made, so as to deprive the bank of the benefit thereof. Mere renewal of notes already in the bank possession does not, of itself, constitute a misapplication of funds. 10 .
27 . The cashier of a bank having made large purchases of real estate, one of the sureties on his bond made inquiries of several officers of the bank, actively engaged in its affairs, as to whether the cashier hat boirowed money of the bank in order to make such purchases, and was informed that the purchases were for the benefit of the bank, that no liability accrued therofrom to the cashier to the bank, and that the cashior's total indebtedness to the bank was but a few hundred doilars. Held, that the bank was estopped subsequently to deuy these statements, when the sureties had relied thereon, and the cashier Lad in the meantime become insolvent. $I b$.
23. In a suit upon a bank cashier's bond, one of the sureties thereon was not allowed to testify to statements of bank officers in reference to the cashier's dealings with the bank, but the cashier himself was af ierwards permitted to testify to practically the same effect as the testimony offered. Held, that the rejection was not harmless error, as the evidence could not be considered merely cumulative, in view of attacks made upon the caskier's credibility, and of his interest in misrepresenting his transactions, if illegal. $I b$.

1. A national bank can acquire an interest in its own stock only by purchase to prevent a loss upon a debt previously contracted in good faith; and a provision in certificates of stock in such bank that they shall not be transferred until all the liabilities of the stockholder to the bank are paid is void and of no effect. 3. The articles of association and the by-laws of a national bank prohibited the transfer of stock owned by any stockholder indebted to the bank until such indebtedness should be satisfied. Held, That the prohibition was invalid, under section 35 of the national banking act, and that the bank could not thus acquire a lien on the shares of the stockholders. Bullard v. Bank, 18 Wall., 553 ; 1 N. B. C., 93.
4. The right of creditors to look to unpaid portions of the capital stock as a fund for the payment of their claims is not created by Stato statutes, but, is derived from general principles of law. The enforcement of such right, therefore, is not dependent upon remedies provided by State legislation; and if it appear that the State has, by statute, provided legal remedies for the enforcement of equitable rights, the creditor may, at his election, when proceeding in a Federal court, adopt the form of remedy appropriate in courts of equity, or may sue at law, under the statute. First National Bank of Sioux City v. Peavey, 69 Fed. Rep., 455.
5. The question whether the right of a creditor to look to unpaid capital stock is legal or equitable in its nature, in any particular case, is to be determined, it seems, by the following priuciples: If a person has subscribed for or purchased the stock under such circumstances that the corporation itself, and through it its creditors, can call upon the stockholder for the unpaid portions of the stock, then this claim is one at law, based upon the express or implied terms of the subscription or purchase. If, however, by the terms of the original subscription or purchase, no liability is assumed to make any further payments to the corporation on this stock, and it is agreed between the corporation and the stockholder that the stock shall be considered as full paid, then a creditor's right to look to unpaid portions of the stock is equitable, and can not be enforced by action at law, unless so provided by statute. Ib.
6. The A. Co. was organized with a capital of $\$ 1,000,000$, in 40,000 shares of $\$ 35$ each, all of which were subscribed for by the eight incorporators of the company. No cash was paid on the subscriptions, but property, valued at $\$ 220,000$, was conveyed to the company in payment for the stock, without application to any specific shares. Immediately after the organization of the company it was agreed by all the subscribers, at a stockholders' meeting, that 16,000 shares should be contributed by the subscribers to secure working capital, and that such shares should be issued to trustees, who were authorized to sell the same as full paid and nonassessable stock, at not less than $\$ 3$ per share, two-fifths of the proceeds to bo paid to the incorporators and three-fifths into the treasury of the corporation. It did not appear that enough of the stock so contributed was sold to equal $\$ 220,000$ at par value; but defendant purchased from one W., who was engaged on behalf of the company in selling the stock, 800 shares, in the belief that they were owned by W., and were fully pa'd, as they were stated on their face to be, having no knowledge or notice of the transactions leading to the sale of the stock or of the facts in regard to its payment. Afterwards, the company having become insolvent, a receiver of its property sued defendant for the amount of an assessment of $\$ 15$ per share on the subscriptions to the stock. Held, That the proceedings for the sale of the stock, as full paid, must be construed as an appropriation, by the shareholders and the corporation, of the unapplied credit of $\$ \mathfrak{Q} 2,000$ to the 16,000 shares contributed for sale, or to such of them as should be issued; and as it did not appear that enough of the stock was sold to equal the $\$ 220,000$, the stock purchased by defendant, in the belief that it was full paid, must be treated as being so in fact, and accordingly, the defendant was not liable for the assessment. Rood v. Whorton, 74 Fed. Rep., 118.
7. Where suit is brought in equity to enforce subscriptions to the capital stock of a corporation as part of a trust fund for the benefit of the creditors of such corporation, the bill must be so framed as to be for the benefit of all the creditors who are entitled to the trust fund. First National Bank v. Peavey (C. C.), 75 F., 154.
8. National banks have no authority to increase their capital stock except as provided by Rev. St., sec. 5142, and act of Congress May 1, 1886; and where an increase is attempted to be made without obtaining the consent of two-thirds of the stock, the payment in full of the amount of such increase, and the certificate and approval of the Comptroller of the Currency, as required by those statutes, the proceedings are invalid, and

preliminary subscriptions to such increase can not be enforced. Winters v. Armstrong; Armstrong v. Stanage; Same v. Wood, 37 Fed. Rep., 508.
9. Such a subscription is impliedly conditioned on the subscription of the whole amount of the proposed increase and on the compliance by the corporation with all the requirements of the statute necessary to make the increase stock valid, and in case of noncompliance with such requirements there is a failure of consideration. Ib.
10. In an action by the receiver of a national bank to enforce subscriptions to a proposed increase of its capital stock, an allegation that the bank, subsequent to defendants' subscriptions, and with their knowledge, represented to the public by means of circulars, letter heads, etc., that its capital stock had been so increased and that defendants allowed their names to remain "upon the list of those subscribing for and entitled to such new or increase of stock," but without alleging that the public gave credit to the bank on the faith that the defendants were part owners of such increase of stock, or that they allowed themselves to be held out as actual stockholders, does not show that they are estopped to plead the failure of the bank to comply with the statutory requirements in perfecting such increase. Ib.
11. The receiver stands in the shoes of the bank, and can assert no rights against the subscribers which the bank could not have asserted. Ib.
12. A subscriber who has made payments on his subscription to the proposed increase, believing that the statutory requirements would be complied with, is entitled to have the amount thereof allowed as a-claim against the assets of the bank in the receiver's hands. Ib.
13. Where one subscribes for shares in tne increase of the capital of a national banking association in a certain amount, such subscription being paid in full and the entry made on the stock book of the bank, he becomes a shareholder, although no stock certificate is issued. Pacific National Bank v. Eaton, 141 U. S., 227.
14. And the certificate of the Comptroller of the Currency approving the amount of increase that has been paid in, which amount includes what was paid by the dissenting subscriber, will be conclusive upon such subscriber. Ib.
15. But if such subscriber has assented to or ratified the clange he will be held a shareholder. Delano v. Butler, 118 U. S., 634.
16. When the previous proceedings looking to an increase in the capital stock of a national bank have been regular and all that are requisite, and a stockholder subscribes to his proportionate part of the increase and pays his subscription, the law does not attach to the subscription a condition that it is to be void if the whole increase authorized be not subscribed, although there may be cases in which equity would interfere to protect him in case of a material deficiency. Aspinwall v. Butler, 133 U.S., 595.
17. The Comptroller of the Currency has power by law to assent to an increase in the capital stock of a national bank less than that originally voted by the directors, but equal to the amount actually subscribed and paid for by the shareholders under that vote. Ib.
18. Where one subscribes for shares in an increase of capital stock of a national bank and pays for the same, without waiting to see whether the whole amount of the increase is taken, he is bound by such subscription and payment, though the amount of the increase is afterwards reduced by the bank and the Comptroller of the Currency. Butler v. Eaton, 1.41 U. S., 240.
19. The conditions imposed by Rev.St., sec. 5142 , as to the validity of increase of national-bank capital were intended to secure actual cash payment of subscriptions and to prevent watering stock, not to invalidate bona fide subscriptions actually made and paid. Aspinwall v. Butler, 183 U. S., 505.
20. Stockholder in national bank who, with knowledge of its insolvent condition and of all material facts, subscribes for increased stock to same amount as his original stock, and amount of proposed increase is afterwards reduced, can not question validity of proceedings for such increase to annul such subscription and payment. Delano v. Butler, 118 U.S., 634; Pacific National Bank v. Eaton, 141 ib., 227; Thayer v. Butler, ib., 294; Butler v. Eaton, ib., 240.

There can be no increase of the capital of a national bank until the Comptroller of the Currency approves thereof and issues his certificate, as provided ly section 13 of the act of Congress providing for the organization of national banks. Charleston v. People's National Bank, 5 South Carolina, 103; 1 N. B. C., s98.
22. The stockholders of the C. National Bank voted to increase its capital $\$ 300,000$, and M. subscribed and paid for 23 shares of the proposed increase. Only $\$ 150,000$ of such proposed increase was ever paid for, and the directors applied to the Comptroller of the Currency to approve the increase to the amount of $\$ 150,000$, which was refused. Afterwards the stockholders voted an increase of $\$ 150,000$, and applied for approval thereof, which was refused; but later the Comptroller, on his own motion, on the eve of the bank's insolvency, approved this increase. M. sued the bank and its receiver to recover the amount paid by him under his subscription to the first proposed increase. Held, that the Comptroller's refusal to approve the first increase to the extent of $\$ 150,000$ nullified the vote for the increase and M.'s subscription to the stock, leaving him in the position of a creditor of the bank for the amount paid in, and the subsequent proceedings, he not having participated therein, could not reanimate his contract of subscription. Matthews v.Columbia National Bank of Tacoma et al., g'y Fed. Rep., 37 .
23. Under the national banking law (Rev. St., $\$ 5142$ ) and the amendment of May 1,1886 (24 Stat., 18), the action of the Comptroller of the Currency in approving of an increase in the capital of a national bank, and certifying that the amount thereof has been paid in, is conclusive, and the validity of the increase can not be assailed in a collateral proceeding such as an action to enforce the liability of the stockholders. Latimer v. Bard ct al., 6 Fed. Rep., 636.
24. Where the capital of a national bank has been increased, and defendants have received their additional stock, and for several years held themselves out as stockholders, they can not, when the bank becomes insolvent and they are assessed to pay its indebtedness, deny their liability upon the ground that the increase of capital was fraudulent, and that they could not have discovered the fraud with ordinary care. More diligence was required of them, and they are estopped by their laches. Upton v. Tribilcock, 91 U. S., 45, and Sanger v. Upton, ib., 64, followed. Ib.
25. The officers, in taking the necessary steps for such increase, act as the agents of the stockholders, and such stockholders can not set up the frand of the officers concerning the increase to defeat the claims of innocent creditors. Ib.
26. Under the United States statutes national banks have the abstract power to increase their capital to such a limit as may be approved by the Comptroller of the Currency, and where stockholders have assented to an increase they can not set up any defects or irregularities in the exercise of the power as a defense in an action to enforce their liability. Chubb v. Uptom, 95 U. S., 665; Veeder v. Mudgett, 95 N. Y., 295, followed. Scovill v. Thayer, 105 U.S., 143, and Implement Co. v. Stevenson, 13 C. C. A., 661, 66 Fed., 633, distinguished. Ib.
27 . A national bank reducing its capital can not retain, as a surplus or for any other purpose, any portion of the money which it received for retired stock, and laving refused to permit shares thus retired to be transferred on its books, is liable for the value of the shares to the holder. Seeleyv. New York National Exchange Bank, 78 N. Y., 608; 4 Abb. New Cases, 61 ; 2 N. B. C., 340.
28. The capital of a national bank having become impaired by the nonpayment of the interest on some paper among its assets to the amount of $\$ 71,000$, in order to avoid an assessment by the Comptroller the stockholders reduced its capital stock and carried the bills and motes to the account of suspended or " bad debts," which were not thereafter included as assets, although retained in its custody. Some years afterwards the bank realized $\$ 75,000$ from collaterals pledged for the security of that paper. In a suit by a stockholder to recover hiss share of the amount realized proportioned to the amount of stock surrendered, held, that he could not recover. MeCam v. Iirst National Bank of Jeflersonville, 112 Ind., 354 ; 3 N. B. C., 494.

29. Under Comp. Laws, secs. 3589,4515 , relating to the rescission of contracts procured through fraud, one induced to purchase bank stock by fraudulent representations as to its value may rescind the purchase and recover his notes given therefor against a holder of the notes having notice of the firaud. Taylor v. National Bank (S. D.), 62 N. W., 99.
30. The State legislature may authorize the sale under execution of nationalbank stock. In re Braden's Estate, 30 A., 746 ; Appeal of Wood, ib.
31. A certificate of stock in a national bank, though in due form, may be slown aliunde to have been issued to the apparent stockholder solely as collateral security for money loaned. Williams v. American National Bank of Arkansas City, Kans., et al., 85 Fed. Rep., g'̃. $^{\prime}$
32. It is no defense to an action against a national bank for money had and received that the collateral security it gave to plaintiff was issued without authority of law. Ib.
33. The certificate of the Comptroller of the Currency, approving an increase of the capital stock of a national bank, is conclusive of the existence of the facts authorizing such certificate, and a subscriber to the stock can not question its validity. Tillinghast v. Bailey et al., 86 Fed. Rep., 46.
34. Subscribers to a duly authorized increased issue of stock by a national bank, who accept certificates therefor, vote the stock by proxy, and take dividends thereon, can not question the validity of such stock as against the receiver after the bank has become insolvent. Ib.
35. The certificate of the Comptroller of the Currency that the capital stock of a bank has been increased to a certain amount is conclusive of the sufficiency of the facts and the regularity of the proceedings requisite to an increase, and can not be questioned in any collateral proceeding. Columbia National Bank of Tacoma et al. v. Matthews, 85 Fed. Rep., 934.
36. One who subscribes to a proposed increase of stock with knowledge that the stockholders had by a resolution authorized the officers, with the approval of the Comptroller, to increase the capital stock in any multiple of $\$ 50,000$ up to $\$ 300,000$, as the subscriptions shall be paid in, is estopped from questioning the regularity of the proceedings after the certificate of the Comptroller to such an increase is obtained. 10.
37. A stockholder who, by power of attorney, has authorized another to vote his stock at any and all stockholders' meetings "in the same manuer as I should do were I there personally present," is estopped by the vote of his proxy as respects any irregularity in the proceedings or calls of the meeting, which he could have waived if personally present. 79 Fed . Rep., 558, reversed. Ib,
38. The action of the Comptroller in issuing a certificate approving an increase of the capital stock of a national bank is not subject to collateral attack, and a suit by a subscriber to such stock against a receiver of the bank, after its insolvency, for the recovery of his subscription, on the ground that such increase was illegal and the Comptroller's certificate void, is such an attack. Brown v. Tillinghast, C. C., 93 Fed. Rep., 326.
39. Under a resolution of the stocklolders of a national bank proposing to increase the capital stock from $\$ 200,000$ to $\$ 500,000$, and authorizing the president and cashier whenever $\$ 00,000$ should be subscribed and paid to certify the same to the Comptroller, subscriptions to such increase, when paid and approved by the Comptroller in the amount of $\$ 50,000$, or any multiple thereof not exceeding $\$ 300,000$, were valid and binding on the subscribers. Ib.
40. Where a subscription to a part of an increase of the capital stock of a national bank has become binding by the terms of the original resolution authorizing the increase, the subscriber is not affected by the subsequent action of the shareholders in limiting the amount of such increase to a part only of that originally authorized, when the increase to the amount so limited has been approved by the Comptroller, and whether or not the action so limiting the increase was legally taken can not render his subscription illegal or revocable. Certificate of deposit:

1. National-banking associations may issue certificates of deposits. Fiddle v . First National Bank, $2 \boldsymbol{2}$ Fed. Rep., 503.

## Certificate of deposit-Continued.

2. Certificates of deposit in the ordinary form issued by a national bank to depositors and payable to order are not post notes within the prohibition of sec. 5183 , Rev. St. $I b$.
3. A certificate of deposit, payable to the order of the depositor on the return of the certificate, is not due or suable until demand made and return of the certificate. Ib.
4. Certain persons, directors of a savings and of a national bank, procured money from the former on notes made by a third person to them for the payment of stock of the national bank issued in the name of such third person for their benefit. Theso persons were behind in their accounts with the national bank, and the savings bank allowed them to overdraw their accounts with it to a large amount, which was used in settling their accounts with the national bank. Thereafter the savings bank delivered the notes and the check to the national bank, which issued to it a certificate of deposit for an amount covering the whole amount represented by them. Held, that this certificate of deposit was without consideration and void, and any loss accruing to the savings bank by virtue of the transactions was due to the fraud or incompetency of its own officers. Murray v. Pauly, 56 Fed. Rep., 962.
5. A certificate of deposit is evidence of so high and satisfactory a character as to the sum deposited, that to escape its effect the maker must overcome it by clear and satisfactory evidence. Where the testimony, aside from the certificate, is balanced as to the amount deposited, the certificate will turn the scale. The First National Bank of Lacon v. Myers, 83 Ill., $50 \%$.
6. A certificate of deposit issued by a national bank, payable to the order of the depositor on return of the certificate properly indorsed and understood between the bank and the depositor not to be payable until a future day agreed upon, is not in violation of the national-banking act. Hunt, Appellant, 141 Mass., 515; 3 N. B. C., 474.
7. Suit against a bank upon a stolen certificate of deposit given by the defendant to the plaintiff, reciting that he had deposited in said bank a certain number of dollars, payable to his order in current funds on the return of the certificate properly indorsed. Held, that the instrument should be regarded as the promissory note of the bank, assignable under the statute, but that it was not negotiable as an inland bill of exchange, being made payab' $\theta$, not in money, but "in current funds." The National State Bank of Lafayette v. Ringel, 51 Ind., 393.
8. Held, therefore, that the payee could recover on said stolen certificate withoue giving a bond to indemnify the bank against a subsequent claim thereunder by another person. Ib.
9. A person depositing money in a bank accepted from the cashier a certificate of deposit, which made no mention of interest, but with a verbal agreement that interest should be paid. The cashier at the same time indorsed a memorandum of the rate of interest on the stub from which the certificate was taken. Held, that the stub should be read with the certificate, as evidence of the entire contract. Thomson v. Beal, 48 Fcd. Rep., 614.
10. A bank. on receiving certain notes as a special deposit, issued a certificate for the amount of the notes, made out a printed form, from which the words "in current funds" were erased, and the words "in certain notes" substituted. The certificate was inarked "Special deposit." Having been transferred, this certificate was sent by the holder to the bank for payment. The notes had not then been collected, and the cashier was directed to return the certificate, but, as the signature was torn, he was instructed to prepare and transmit a duplicate. In doing so he carelessly omitted to change the printed form by erasing "in current funds" and substituting "in certain notes." Held, that there was no ground for a claim that the second certificate was given in payment of the first, that it was only a substitute for it, and that the receiver of the bank was only required to surrender to the holder the notes constituting the special deposit, for which the original was issued. Niblack v. Cosler, $7_{4}$ Fed. Rep., 1000.
11. Knowledge by a member of a firm of the true consideration of a certificate of deposit, which the firm discounted with a bank, and which had been negligently altered in making out a duplicate, held, to be the knowledge of the bank, where such member was also its cashier, and, as such, acted as the sole representative of the bank in discounting the certificate. Ib.

Certificate of deposit-Cont:nued.
12. The defendants unlawfully detained a certificate of deposit of the value of $\$ 2,000$ from the plaintiff. Held, that the plaintiff was entitled to recover damages for such detention equal to legal interest on the value of the certificate from the date of the demand therefor and refusal to the recovery, and this without any evidence that the plaintiff would have converted said certificate into money and put it to use, other than his right to do so and the defendants' illegal prevention of the exercise of such right. Sleppy v. Bank of Commerce and others, 1' Fed. Rep., 71.9.

Certification of checis. See Collections.

1. A national banking association may "certify" a check. Merchant's National Bank v. State National Bank, 10 Wall., 604.
2. The certification of a check by a bank is, in effect, merely an acceptance and creates no trust in favor of the holder of the check and gives no lien on any particular portion of the assets of the bank. People v. St. Nicholas Bank, 88 N. Y. St., 407; 53 N. Y. St., 712.
3. A certified check has a distinctive character as a species of commercial paper, the certification constituting a new contract between the holder and the certifying bank. The funds of the drawer are, in legal contemplation, withdrawn from his credit and appropriated to the payment of the check, and the bank becomes the debtor of the holder as for money had and received. National Commercial Bank v. Miller \& Co., yyy Ala., 168.
4. Where the defendant has a right of election, on account of a tort committed, either to sue for the tort, or, waiving the tort, to sue for money had and received, the relation of debtor and creditor does not exist until he elects to sue for the money; and his creditors can not defeat his election by garnishment against the wrongdoer. But this principle does not apply where the garnishees, having received a check from the defendant, with authority to collect for deposit and use, have had the check certified by the bank on which it is drawn, before the service of the garnishment; keing authorized to have it certified, and the relation of the parties being thereby changed, they are liable to the defendant for the amount of the check, as for money had and received, and that liability may be reached by garnishment. Ib.
5. A broker received coupon railroad mortgage bonds to cover future margins of a customer and pledged them to a bank as collateral security for any indebtedness he might owe it. Afterwards the bank advanced money and certified checks on the faith of these bonds, when broker did not have money on deposit equal in amount to the checks. Held, under sec. 5208, that although the certifications were unlawful the checks certified were good and valid obligations against the bank. Thompson v. St. Nicholas National Bank, 146 U. S., 240.
6. In an action by a bona fide holder of a check drawn on defendant, a national bank, and certified by its cashier. Held, that the defendant was liable, although the drawer had no funds in the bank when the check was certified. Cooke v. The State National Bank of Boston, E2 N. Y., 96; 1 N. B.C., 698.
7. Where a postdated check is certified by the cashier of the bank on which it is drawn to be "good," by indorsement thereon before the day of its date, the instrument, upon its very face, communicates facts and information to persons receiving the same that the cashier, in making such certification, was not acting within the known limits of his power, and that he was clearly exceeding them. The Clarke National Bank v. The Bank of Albion, impleaded, etc., 52 Barb., 592.
8. It appearing, on the face of such paper, that it was certified by the cashier before its payment could have been legally demanded, and before it could be presumed that the drawer had made a deposit for its payment, this is, in the law, full notice to a purchaser. $1 b$.
9. To enable a holder of such check to recover of the bank upon it, it must appear that he became the owner and holder in good faitl for a full and fair consideration in the usual course of business, and without notice of the cashier's want of power to make the certification. He must lave parted with something of value upon the strength and in cosideration of the transfer of the paper. Ib.
10. If he parted with nothing before the check was dishonored, he stands in privity with his immediate indorsers, and is affected by all that will

Certification of checis. See Collections-Continued.
11. Crediting the indorsers with the avails of the check on the books of the holder is in no sense a paying over. The holder, upon receiving notice of dishonor, has an undoubted right to erase such credit, and to restore it only at the special instance of the indorsers from whom he received the check. Ib.
12. The receipt of a certified check is not, of itself, payment. Such a check does not cease to be commercial paper and become money. Certifying a check to be "good" is nothing more than a promise by the bank upon which it is drawn to pay it when presented, as in the case of the acceptance of the bill of exchange. It an accepted bill be protested for nonpayment, and the drawer duly notified thereof, he is bound to pay the bill, with damages and costs. The same is the law with regard to a certified check. Bichford v. First National Bank of Chicago, 42 Ill., 238.
13. As the acceptance of a bill of exchange does not discharge the drawer, so neither should the acceptance of a check, manifested by the word "good" placed upon it by the bank, discharge the drawer. They rest on the same principles. In this respect there is no difference between an uncertified and a certified check; the dishonor of either must make the drawer liable. Ib.
14. There is this difference, however, between a certified and an uncertified check: In case of the former, the amount of the check is supposed to be at once charged up against the drawer, and thus placed beyond his control, while the holder of an uncertified check may be anticipated by another, who also holds a check on which he may draw the money. The certificate is an unconditional promise on the part of the bank to pay the check on demand. The object in certifying the check is to give it a currency value and to enable the holder to use it as money. Ib.
15. Although it be the fact that certified checks pass from hand to hand as cash, still they are not cash or currency, in the legal sense of those terms, and they do not lose, on that account, any of their characteristics as bills of exchange, and therefore, when dishonored, the holder has a right to look to the drawer for payment. Ib.
16. In this case a check was drawn and certified and deposited in a bank after 10 o'clock a. m., and before 3 o'clock p. m., on a certain day, where it remained until the next morning, when it was taken, in the usual course of business, to the bank on which it was drawn. The bank was closed and continued so. The check was protested for nonpayment and due notice given. This was sufficient diligence to hold the drawer. Ib.
17. The holder of a certified check has the right to hold the drawee and acceptor, as well as the drawer. So, where the acceptor has failed and made an assignment, the holder waives none of his rights against the drawer by giving notice to the assignee of the acceptor not to pay over any money to the drawer out of assets which might come to his hands in that capacity. $I b$.
18. A certificate of a bank that a check is good is equivalent to an acceptance; it implies that a check is drawn upon sufficient funds in the hands of the drawee; that they have been set apart for its satisfaction, and that they shall be so applied whenever the check is presented for payment. Merchants' National Bank v. State National Bank, 10 Wall., 604; 1 N. B. C., 47.
19. National banks have the power to certify checks, and this power may be exercised by the cashier without special authorization. The directors may limit his exercise of this power as they deem proper, but such limitation will not affect a person ignorant thereof who deals with the cashier in relation to matters apparently within the scope of his power. Ib.
20. A bank, knowing that the county treasurer of the county had not sufficient county funds in his hands to balance his official accounts, consented to give him a fictitious credit in order to enable him to impose upon the county commissioners, who were about to examine his accounts. They accordingly gave him a "cashier's check" for $\$ 16,571.61$, which he indorsed and took to the commissioners. They received it, but ref used to discharge him or his bondsmen, and placed the check and such funds as he had in cash in a box and delivered them to his bondsmen. The latter deposited the money and the check in another bank in the same place, which bank brought suitagainst the bank which issued the check to recover upon it. Held, 1, that the circumstances under which the check was issued were a plain fraud upon the law, and also upon the county cormissioners; 2, that their receipt of it and turning it over to

the sureties was a single act, intended to assist the sureties in protecting themselves, and was inconsistent with the idea of releasing them from their obligations. Thompson v.Sioux Falls National Bank, 150 U. S., 231.
21. Though the drawer of a check, before delivering it, has it certified, he will not be relieved from liability thereon, the bank having failed before payment thereof, though presented in due season. Randolph National Bank v. Hornblower et al., 85 N. E., 850; 160 Mass., 401.
22. Where the drawer of a check, before delivering it to the payee, has it certified as good by the bank upon which it is drawn, and the payee presents it in good season for payment, and gives due notice to the drawer of its nonpayment, and the bank had failed at the time of presentment for payment, the drawer will not be discharged from liability on the check. Cincinnati Oyster and Fish Co. v. National Lafayette Banh, 36 N. E., 833.
23. As a general rule the certification of a check in the liands of the payee, the body of which is unaltered, releases the drawer from further liability and creates a direct liability from the bank to the payee, while as between the bank and the drawer it operates as a payment. to that extent on his account: and althouglo prior to its being certified the check may be countermanded by the drawer, after its certification it has passed beyond his control and he no longer has power to countermand its payment. Meridian National Bank of Indianapolis v. First National Bank of Shelbyville, 34 N. E., 60S; 7 Ind. Ap., 39.2.
24. The indorsement of a check by the person to whom it was actually issued and by whom the drawer intended the money should be received, is an effectual indorsement to pass title to the check to a bank cashing the same; and the indorsement is not, as to such bank, invalidated by reason of the payee acting under an assumed and fictitious name when he was not impersonating any other individual. Ib.
25. A bank, cashing in good faith a check so drawn and indorsed, may collect the amount thereof of the bank which has certified the same. Ib.
26. The acceptance or certification of a bank check does not warrant the signatures of the indorsers to be genuine. First National Bank v. Northwestern National Bank (Ill.), 38 N. E., 739.
27. The certification by a bank of a note made payable at such bank, where the maker keeps an account, is an absolute promise by the bank to pay such note, not as the debt of another but as its own obligation, entitling the holder to suspend any temedy against the maker and relax steps to charge an indorser, and can not be rescinded by the bank because inade under a misapprehension of fact as to the sufficiency of the maker's account to meet the note. Riverside Bank v. First National Bank of Shenandoah, ${ }^{7} 4 \mathrm{Fed}$. Rep., 276.
28. The payment of a note by the bank at which it is made payable, although made under misapprehension of the state of the maker saccount with the bank, concludes the bank as against the holder of the paper who has surrendered it, and the payment can not be recovered back of the holder. Ib.
29. A bank certifying a check without funds is not liable except to a bona fide holder. Bowen v. Needles National Bank, 87 Fed. Rep., 430.
Checks: See Certification of checks; Collections.

1. A check is, substantially, an inland bill of exchange, and the rules applicable to such bilis are alike applicable to checks. Bickford v. First National Bank of Chicago, 42 Ill., 238.
2. The check of a depositor upon his banker, dolivered to another for value, transfers to that other the title to so much of the deposit as the check calls for, which may again be transferred by delivery, and when presented at the bank the banker becomes the holder of the money to the use of the owner of the check, and is bound to account to him for that amount, provided the drawer has funds to that amount on deposit subject to his check at the time it is presented. These checks are received and passed and deposited with banker's as cash, subject, of course, to bo made good if not paid on presentation. This is the legal effect of an ordinary uncertified check. Ib.
3. In order to fix the liability of the drawer of an inland bill of exchange or check in case of nonpayment, the holder should present the bill or check to the person or bank on which it is drawn, within business hours of the

day next succeeding the receipt of the paper, and give notice of the dishonor to the drawer. Ib.
4. In the case of a deposit of a check drawn upon itself, the bank becomes at once the debtor of the depositor, and the title to the deposit passes to the bank. Oddie et al. v. The National City Bank of New York, 45 N. Y., 7935.
5. Where a depositor draws his check on his banker, who has funds to an equal or greater sum than his check, it operates to transfer the sum named to the payee, who may sue for and recover the amount from the bank, and a transfer of the check carries with it the title to the amount named in the check to each successive holder. The Union National Bank v. The Oceana County Bank, 80 Ill., 212.
6. After a check has passed into the hands of a bona fide holder it is not in the power of the drawer to countermand the order of payment. Ib.
7. An instrument drawn by a depositor on a bank in the following form, after giving the date and the name of the bank, "Pay to A. and B., for account of C. \& Co., ten hundred and eighteen 23-100 dollars," and signed by the depositor, is a valid bank check, and will operate to transfer to the payees an amount of the drawers' funds on deposit equal to the sum named on its face. The words "for account of C. $\&$ Co." do not change its character as a check. A bill or note, without at all affecting its character as such. may state the transaction out of which it arose or the consideration for which it was given. The Ridgely National Bank v. Patton \& Hamilton, 109 Ill., 479.
8. A bank clieck payable to attorneys on account of a debt due from the drawers to the clients of the attorneys vests the legal title in the payee named as trustees for the clients, and a suit thereon against the bank is properly brought in the names of the payees. Ib.
9. A debtor gave his check on a bank for the amount of his indebtedness, payable to the attorneys of the creditor, which the bank refused to pay, alleging an agreement of the debtor to apply his deposits on other indebtedness. It was held that the bringing of an action by the creditor against his debtor did not estop him from bringing an action on the check in the name of his attorneys, the payees, against the bank. Ib.
10. M., who kept an account with the M. and M. Bank of Troy, deposited with that bank a check given for value, drawn by defendant, payable to the order of M., and indorsed by him in blank. Said bank credited the amount of the check in M. s bank pass book, which was returned to him, and on the same day it mailed the check to plaintiff, its correspondent in New York, and its creditor, to be credited on account, and it was so credited. M. stopped payment of the check, and when plaintiff caused payment to be demanded of the drawee it was refused. Notice of presentation and protest was given to defendant, who subsequently paid the amount to M. In an action upon the check, held, that upon the deposit the M. and M. bank became the owner of the check, and as such could and did give a perfect title to its transferee, and that plaintiff was entitled to recover. The Metropolitan National Bank of New York v. Lloyd, 90 N. Y., 530.
11. The implied contract between a bank and its depositors is that it will pay the deposits when and in such sums as are demanded, the depositor having the election to make the whole payable at one time by demanding the whole, or in installments by demanding portions; and whenever a demand is made by presentation of a genuine check in the hands of a person entitled to receive the amount thereof for a portion of the amount on deposit, and payment is refused, a cause of action immediately arises, and the statute of limitations begins to run as against the installment so dueand payable. Viets y. The Union National Bank of Troy, 101, N. Y., 563.
12. While a check drawn by a depositor against a general bank account does not operate as an assignment of so much of the account. it authorizes the payee, or one to whom he has indorsed and delivered it, to make a demand, and a refusal of the bank to pay on presentation gives the drawer a right of action, in case he has funds in bank to meet the check, and the refusal was without his authority. Ib.
13. It is not enough to make an equitable assignment of money on deposit in bank that a check be drawn therefor; but where the money was deposited as the money of the holder of the check, though in the drawer's name, and that fact is communicated to the bank before any other right

has accrued to the fund, the same becomes in equity the property of the holder of the check, and he may recover it from the bank. Van Allen v. The American National Bank, 3 Lans., 517.
14. The holder of a check on a bank can not sue the bank for refusal to pay it on presentation, though the drawer have sufficient on deposit to meet it. Creveling et al. v. Bloomsbury National Bank, 46 N. J., 255.
15. The implied engagement on the part of a banker to pay the checks of his depositor does not inure to the benefit of the holder of a check so as to enable him to enforce payment thereon against the bank prior to acceptance, and in the absence of assent by the banker the giving of the check does not operate as a transfer or assignment of the debt created by the making of the deposit. First National Bank of Union Mills v. Clark, 134 N. Y., 368.
16. Where it is shown to be out of a bank's course of business to receive for collection checks drawn on it by its depositors, and a check on it drawn by one of its depositors in favor of another is presented by the latter and the amount thereof is credited on his pass book as a deposit, and the check is placed on the file of paid and canceled checks, and afterwards the amount of the check is also entered to his credit and charged against the drawer on the books of the bank, these facts constitute a payment of the check. and the amount of it can not be withheld by the bank on discovering that the check was an unauthorized overdraft and the drawer was insolvent. City National Bank of Selma v. Burns, 68 Ala., 600 .
17. A charge is erroneous and properly refused which affirms, as matter of law, that if the drawer and payee of a check are customers of the bank on which it is drawn, the presentation of the check by the payee to the bank and the noting or entry of it by the bank on his pass book as a deposit do not operate as a payment of the check, and that if within a reasonable time the bank ascertains that the check is an unauthorized overdraft and offers to return it there is no liability to the depositor. Ib.
18. In such case no presumption arises that the bank received the check merely for collection and in the capacity of agent for the holder; but a presumption of payment of the check does arise and the onus of overcoming that presumption rests upon the bank, and it can only be removed by evidence that such was not the intention of the parties, derived from the course of business with the depositor or from contemporaneous acts or declarations. Ib.
19. If a holder of a check, with full knowledge that the drawer is without funds in the bank to meet it, and has no just reason to believe that the check will be honored in the absence of funds, he is wanting in good faith if he demands and receives payment, especially if it is known to him that the drawer is insolvent and the bank is ignorant of the insolvency. $\overline{1} b$.
20. In such case, fraud being imputed to the holder of the check, knowledge of the want of funds must be claarly traced to him. It can not be inferred from the relations existing between him and the drawer, however intimate, unless connected with inculpatory facts or circumstances. Ib.
21. A check, drawn and delivered to the person to whose order it is payable, does not, without acceptance by the drawee, operate as an assignment of the sum in his hands for which it is given. It may be revoked by the drawer at any time before acceptance, and is revoked by his death; and there being no privity, expressed or implied, between the payee and the drawee, the former can maintain no action on it against the latter. National Commercial Bank v. Miller \& Co., 77 Ala., 168.
22. When a bank receives from a customer a check on another bank for the special purpose of collection, the title does not pass by the special indorsement for that purpose, nor does the receiving bank owe the amount until the check is collected. But where the customer has a deposit account with the bankers, on which he is accustomed to deposit checks payable to himself, which are entered on his pass book, and to draw against such deposits, an indorsement of the words "For deposit" on a check so deposited "is, in the absence of a different understanding, presumptive of more than a mere agency or authority to collect," it is a request and direction to deposit the sum to the credit of the customer, and gives to the bankers authority, not only to collect, but to use the check in such

nanner as, in their judgment and discretion, having reference to the conditions and necessities of their basiness, may make it most available to their protection, and they may have it certified by the bank on which it is drawn. Ib.
23. When checks on another bank are handed by a depositor to the receiving teller of a bank and are by the teller credited on the depositor's pass book, they are only received for collection, and it not paid on presentation may be returned and the credit in the pass book canceled. National Gold Bank and Trust Company v. McDonald, 51 Cal., 64.
24. If a customer of a bank hands the receiving teller a check drawn by another person upon the same bank, and at the same time hands him his pass book, and the telier receives the check and enters a credit for the amount in the pass book, but no entry is made on the books of the bank, and nothing eise is said or done, and the drawer has no funds in the bank, the check may be returned to the depositor and the credit in the pass book canceled. Ib.
25. In such case a finding by the court that the check was received as a cash deposit is erroneous. Ib.
26. The fact that the cashier of a bank upon which a check is drawn takes the check and places it upon the "canceling fork" does not constitute such an acceptance as will prevent him from declining to pay and returning the same upon learning that the drawer has not sufficient funds, or if the check is not in proper form. The National Bank of Rockville $\mathbf{v}$. The Second National Bank of Lafayette, 69 Ind., 479.
27. Where the larceny of a bank check is charged, the question of its value is for the jury, and it is error to instruct them that a check drawn on a bank where the maker has funds sufficient to meet it is presumptively of some value. Burrows v. State, 37 N. E., 271 .
28. The act of Congress of March 3,1869 (Rev. St., sec. 5208), making it unlawful for national banks to certify checks unless the drawer has at the time an amount of funds on deposit equal to the amount specitied in the check, does not invalidate an oral acceptance of a check, or promise to pay a check, there being at the time sufficient funds of the drawer in possession to meet it. First National Bank v. Merchants' National Bank, 7 W. Va., 544; 1 N. B. C., 915.

31. The measure of damages will be the amount of actual loss the party has sustained, which may fairly and reasonably be considered as naturally arising from the breach of the contract, according to the usual course of things. $I b$.

33. The immediate entering of a judgment against the drawer, and the sejzure of his business by the sheriff, in consequence of the failure of the bank to pay the check, is not an injury for which the bank would be liable. Ib.
34. The term "protest," as applied to inland bills of exchange, includes only the steps essential to charge the drawer and indorser. Wood River Bank v. First National Bank of Cmaha, 55 N. W., 239; 56 Ncb., 74 .
35. Bank checks in the country are regarded as inland bills of exchange, for the purpose of presentment and demand and notice of dishonor, and do not require a formal protest in order to charge the indorsers. Ib.

First National Bank v. Schmidt (Colo. App.), 40 P., 4~9.
35. As against the right of a vendor to stop goods in transitu, a bank to which the vendee has transferred the bill of lading as security is a holder for value, even though the transfer was for a preexisting debt, and not for a loan made on the promise of such transfer. Ib.

45. The maker of a note held by plaintiff gave to one J., who was accommodation indorser thereof, a second note, indorsed by defendant, to secure J. against loss by reason of his indorsement, and J. transferred the collateral note to plaintiff. Held, that plaintiff could sue on the collateral note, though J. had paid nothing on account of his liability as indorser, a creditor being entitled to all collaterals given by the principal debtor to his sureties. Merchants \& Manufacturers' National Bank v. Cummings (Sup.), 29 N. Y. S., 789.
46. A judgment creditor realized the amount of his demand from collateral security. 1. Where the holder of a bill of exchange, payable at a distant place, deposits it with a local bank for collection, he thereby assents to the course of business of banks to collect through correspondents, and the correspondent of the local bank to which the bill is forwarded becomes his agent and is responsible to him directly for negligence in failing to present the bill for payment within the proper time. Guelich v . The National State Bank of Burlington,56 Iowa, 434.

The bank presented it for payment the next day shortly before 11 oclock, and the drawee's check on bank $B$, only a few blocks distant, was taken in payment. The drawee became a bankrupt at 1 o'clock. Several checks given after this, one by the drawee on bank B, were paid before 1 o'clock. Before 3 o'clock bank A presented the check in question for payment, which was refused; whereupon it immediately went to the drawee, and, after recovering the original clieck, protested it. 5. An indorsement on a bill of exchange directing the dramee to pay to another "on account of" the indorser, or "for collection," is a restrictive indorsement, the effect of which is to restrict the furilier negotiability of the bill, and to give notice that the indorser does not thereby give title to the bill or to its proceeds when collected. $I b$.

Ib.
7. A bank receiving an indorsed note before maturity for collection is required to take the proper steps to fix the liability of the indorser. West v. St. Paul National Bank, 56 N. W., 54; 54 Minn., 476.

Wood River Bank v. First National Bank of Omaha, 55 N. W., 299.
11. 12. The Winters National Bank sent to the Fidelity Bank a note of $\$ 2,000$ for collection and indorsed "Fay Fidelity National Bank, Cincinnati, Ohio, or order, for collection for account of the Winters National Bank, Dayton, Ohio, J. C. Reber, cashier." The Fidelity Bank forwarded it to the Drovers and Mechanics' Bank, which received payment thereof at maturity. Before the Fidelity Bank received notice and remittance of the $\$ 3,000$ it become insolvent and went into the hands of a receiver, who took the $\$ 2,000$ and credited the Winters Bank therewith. Held, that the Fidelity Bank did not own the note, and the Winters Bank was entitled to the full \$2,000 as against the Fidelity Bank's receiver. In re Armstrong, 93 Fed. Rep., 405.
13. Plaintiffi sent to F. bank a draft indorsed "For collection," accompanied with instructions to "collect and credit proceeds." F. bank sent the draft to the defendant and the latter collected it, received the proceeds, and credited them to the F. bank, in accordance with the usual course of business between the F. bank and the defendant, and notified the F. bank of the credit. The F. bank suspended business before crediting plaintiff with the proceeds, but after they had been collected and after it had received notice of the credit. After the suspension of the $F$. bank the receiver appointed over its affairs credited plaintiff with the proceeds of the draft on the books of the bank. Held, that the indorsement "For collection" was notice to the defendant of the qualified title to the F. bank, and defendant could not acquire any better title to the draft or the proceeds than that of the F. bank, and could not, as against the plaintiff, apply the proceeds to an account owing the defendant from the $F$. bank, and that the defendant could only defeat an action brought to recover the proceeds in its hands by slowing that the draftor jts proceeds belonged to the F. bank. First National Bank of Circleville v. Bank of Monroe, 33 Fed. Rep., 408.
14. the plaintiff with the proceeds while it was a going concern, could not, by doing so subsequently, change the existing relation. Ib.
15. Held, in an action brought by the plaintiff against the defendant to recover the proceeds of the draft, the defendant, not having remitted the proceeds to the F . bank, was liable to the plaintiff for the amount. Ib.
16. Plaintiffs sent to a certain bank a bill of exchange indorsed to said bank for collection. At the tine the bank received the bill of exchange $i t$ was insolvent to the knowledge of the managing officer, and on that day, or following morning, it faile '.. Prior to the failure it indorsed tho bill of exchange to defendant bank, which collected it and kept the proceeds, crediting the insolvent bank, which was indebted to it, with the amount thereof, Held, that the first bank acquired no title because of its fraud in not disclosing its insolvency, and defendant had no better title, ass plaintiffs'indorsement showed that the bank was merely plaintiffs' asent to collect the proceeds. Peck et al. v First Naiional Bank, 43 F'd. Rep.,956.
17. Plaintiff sent to defendant's bank paper indorsed "For collection and immediate return" to plaintiff, and the paper was collected and the proceeds mingled with other moneys of the bank, instead of forwarded to plaintiff. The bill contained an uncontroverted allegation that defendant's bank, at all times subsequent to the collection and at the time of defendant's appointment as receiver, had on hand cash to a greater amount than that due plaintiff. The bill asked to have the balance due plaintiff paid in full, on the ground that the bank by receiving the paper for collection and immediate return became a trustee, and that either its entire property or the money in its vanlts became impressed with the trust. Held, that if the mingling of the funds was a breach of trust it was a conversion, and plaintiff became a simple contract eveditor, with no preference at law. Philadclphia National Bank v. Dowd, 38 Fed. Rep., 1"V.
18. It was immaterial whether or not the bank stood in a fiduciary capacity to plaintiff, as the facts stated in the bill showed that the money collected could not be traced into any specific investment or fund, but had been indistingaishably mingled with the general assets. Ib.
19. By agreement and custom the Fidelity Bank received drafts from its correspondent bank at E., and credited then to it as cash, with the understanding that any draft which was unpaid shoald be charged back to the correspondent. The latter forwarded drafts, which were credited to it but were not collected before the Fidelity Bank failed. The draits were paid after the appointment of a receiver and the moneys actually cane into his hards. "The drafts wero indorsed payable to the Fidelity Bank "for collection" for the bank ate. Held, that as the drafts were, when received, credited as cash to the bank at E., which had the right at once to draw against them, the indorsement for collection did not affect the result, and the bank had only the rights of a general creditor. First National Banle of Eikhart v. Armstrong, 39 Fed. Rep., 23I.
20. A draft sent to a bank specially indorsed for collection was paid by the drawee by check, which the bank collected through the cleariing house. A memorandrm was placed with the bank's cash, to indicate that the proceeds of the draft was the property of the sender. The bank was closed the next morning, and the receiver credited such proceeds to the sender of the draft on the books of the bank. Held, that the fond was not so mingled that it could not be traced and jdentified, and that the sender could recover the same. First National Eank of Montgomery v. Armstrong, 36 Fed. Rep., 59.
21. Checks and drafts sent from one bank to another were indorsed "for collection," and credited "subject to payment," according to the dealings between the banks. Part of them were paid to the receiver of the latter bank after its failure, and the balance were credited to it by the payors. Held, that the amount paid the receiver should be accounted for as a trust fund but the balance as a general debt. First National Bank of Wellston v. Armstrong, 42 Fed. Rep., 193.
22. The claimant bank sent to the F. bank a sight draft, drawn on a third party, indorsed "pay" $F$. bank, or order, "for collection for" claimant bank. It was the practice for the F . bank in its dealings with claimant to credit the latter on the day of receipt for sll drafts, checks, etc., sent for collection that were payable at sight or on demand, and the balance thus created was subject to be drawn on; but if the paper was not paid it was

charged back to claimant. On receipt of the draft the F. bank notified claimant that it has been credited, "snbject to payment:" but the credit was not drawn against nor were advances made on the faith of it. Claimant merely kept a memorandum of its transmission for collection. The F. bank sent the draft to its reserve agent, indorsed, for collection, and the amount of it was counted as a part of the $F$. bank's reserve fund, though this fact was not known to claimant. Held, that the indorsement being restrictive, the F. bank acquired no title to it, and that upon the insolvency of the F. bank, before notification of the collection of the draft, the claimant was entitled to the proceeds of it in the hands of the collecting agent. Fifth National Bank v. Armstrong, Farmers' National Bank et al., Interpleaders, 40 Fed. Rep., 46.
23. A bank which had received a draft for collection sent it to its correspondent bank at the residence of the drawee, and the draft was paid to such correspondent. There were no mutual accounts between the two banks, but it was the custom of the correspondent to remit the proceeds of collections at stated periods. Held, that until this remittance was made, or the principal bank had given the original owner of the draft credit for the avails, the original owner of the draft, as the owner of the proceeds thereof, was entitled to recover them from the correspondent bank. National Exchange Bank of Dallas v. Beal, 50 Fed. Rep., 355.
24. Though the correspondent was the agent of the first bank, and payment to it was to that extent a payment to the principal, yet until the proceeds were actually remitted to such principal and mingled with its general funds, or were so credited, the owner of the draft had the option to decline to consider it his debtor and to claim the proceeds in the hands of the agent. $I b$.
25. Where the principal fails, and a receiver is appointed, he takes the proceeds of the draft, when remitted to him, subject to the same right of reclamation by the owner that the latter had as against the agent. Ib.
26. Where, in such a case, there are mutual accounts between the two banks, the right of the agent to set off the amount of the collection against the principal's indebtedness to it can not be adjudicated in a suit in equity between the owner of the draft and the principal without making such agent a party. Ib.
27. Checks deposited in a bank ly its customers for collection do not at once become the property of the bank; the bank continues to be the agent of the customer until the collection of the check, which remains, in the meantime, the property of the depositor. Balbach et al.v.Frelinghuysen, Receiver, etc., 15 Fed. Rep., 675.
28. The rule is different where such checks are deposited to make good an overdrawn account of the customer or when the amount deposited by check is immediately drawn against; in that case the bank may hold the deposit until the overdraft is made good from other sources. $1 b$.
29. The indorsement by the customer of a check, deposited for collection, is only intended to put the paper in such shape that the bank may collect it, and not to thereby pass the title to the bank. Ib.
30. The practice which has grown up anong banks to credit deposits of checks at once to the account of the depositor, and to allow him to draw against them before the collection, is a mere gratuitous privilege, which does not grow into a binding legal usage. Ib.
31. A, who for several years had kept an account with the Marine National Bank of New York, on May 5, 1884, deposited a sight draft, dated that day, and drawn by him on a corporation of Boston, Mass., which was indebted to him in the amount of the draft. The bank was insolvent at the time, but the draft was forwarded to its collection agent at Boston, and paid May 7 , after the bank had failed and closed its doors. On several previous occasions A had deposited similar drafts, and been credited therewith as cash, and they were treated by him as cash deposits. On the occasion in question the bank credited plaintiff with the draft as a cash item. Held, that the draft was not the property of A when paid by the drawee, and that he was not entitled to recover the amount thereof from the receiver. St. Louis \& S. F. Ry. Co. v. Johnston, Receiver, etc., 27 Fed. Rep., 243.
32. When a sight bill is credited by a bank to a customer as a cash item, with the latter s assent, the transaction is equivalent to a discount of the bill by the bank. Ib.

ment of a draft for collection, which charges tho same to the drawee and credits the drawer without separating the amount from its general fund, it holds the money as agent for the drawer, who, after insolvency, becomes a mere general creditor, notwithstanding the State constitution provides that "depositors who have not stipulated for interest shall for such deposits be entitled in case of insolvency to preference of payment over all other creditors." Anheuser-Busch Brewing Association v. Clayton, 56 Fed. Rep., 759.
34. A bank in Ohio contracted with a bank in Pennsylvania to collect for it at par, at all points west of Pennsylvania, and remit the 1st, 11th, and 21st of each month. In executing this agreement the Pennsylvania bank stamped upon the paper forwarded for collection, with a stamp prepared for it by the Ohio bank, an indorsement "Pay to" the Ohio bank, "or order, for collection for" the Pennsylvania bank. The Ohio bank failed, having in its hands or in the hands of other banks to which it lad been sent for collection proceeds of paper sent it by the Pennsylvania bank for collection. A receiver being appointed, the Pennsylvania bank breught this action to recover such proceeds. Held, first, that the relation between the banks as to uncollected paper was that of principal and agent, and that the mere fact that the subagent of the Ohio bank had collected the money due on such paper was not a commingling of those collections with the general funds of the Ohio bank, and did not operate to relieve them from the trust obligation created by the agency, or create any difficulty in specially tracing them. Commercial Bank of Pennsylvania v. Armstrong, 148 U. S., 60.
35. Second, that if the Ohio bank was indebted to its subagent, and the collections when made were entered in their books as a credit to such indebtedness, they were thereby reduced to possession and passed into the general funds of the Ohio bank. $I b$.
36. Third, that by the terms of the agreement the relation of debtor and creditor was created when the collections were fally made, the funds being on general deposit with the Ohio bank, with the right in that bank to their use until the time of remittance should arrive. Ib.
37. A bank received two drafts indorsed to it for collection, on account of the drawers, against two of its depositors. After acceptance by the latter the bank charged to each depositor's account the amount of the draft accepted by him. Before remitting to the drawers the bank assigned, having on hand cash sufficient to pay such drafts. Held, that the drawers were not entitled to a preference as to the funds on hand at the time the bank failed, where the assignee holds nothing which he or such drawers can identify with the drafts or trace as a payment of them. Freiberg v. Stoddard, 28 Atl. Rep., 1111.
38. A national bank collected a note for plaintiff by accepting a draft for the amount on another party, which it forwarded to its correspondent for collection, and at the same time sent plaintiff a draft on the same correspondent as a remittance of the proceeds of his note. The correspondent received the money on the draft, sent it for collection, but before plaintiff's draft was paid by the correspondent the bank failed. Held, that the bank was only agent for plaintiff, and that the money derived from his note was a trust fund, which did not becone a part of the bank's assets. Foster v. Rincker, 35 P., 470.
39. B forwarded to bank a draft for collection. On July 22, 1893, bank made collection, and the same day forwarded its draft on New York. On July 26 bank failed, and a receiver was appointed. Draft was presented after the failure and payment refused. B brought stit to secure a preserence in payment. Held, that when a draft is forwarded to a bank for collection, in the absence of instructions to the contrary, it is with the understanding that upon collection the title to the proceeds shall vest in the collecting bank, and that said bank shall remit to its correspondent the equivalent of such proceeds by the system of exchanges established by the universal custom among banks, and when this has been done no preference can arise. Bowman et al. v. Clark et al., 88 P., 211.
40. Where one deposits a draft with a national bank and the bank sends it to an agent for collection, who collects it, and the bank fails before receiving the avails, having been insolvent at the time of the deposit, the depositor may rescind the transaction for fraud and recover the avails from the agent. Craigie v. Smith, 14 Abb. N. C., 409; 3 N. B. C., 679.

41. Plaintiff sent a draft to a bank for collection. The bank collected it and then passed into the hands of a receiver without remitting. The bank had previously made similar collections for plaintiff, the proceeds of which were always remitted to him promptly and never credited to him as a deposit. Held, that plaintiff was entitled to be paid the entire proceeds of the draft out of the bank assets in the receiver"s hands, since the bank was his trustee and not his debtor. Hunt y. Townsend, 26 S. W., 810 .
42. Under an agreement between plaintiff bank and the H. bank that the latter should collect notes and checks forwarded it by plaintiff for a commission and remit daily, the relation of principal and agent as to any paper ceased on collection, and the relation of creditor and debtor as to cash immediately arose. First National Bank of Richmond v. Davis, 19 S. E., 280.
43. On failure of the H . bank, it being shown that its cashier had no knowledge of its insolvency till the failure, it is not chargeable as for a conversion of funds of plaintiff which it has mingled with its own funds, since, in the absence of such knowledge on the cashier's part, the contract, with its necessary impiication as to the disposition to be made of plaintifi's money on collection, remained in force till the failure. Ib.
44. Where plaintiff and defendant banks for several years had acted as agents for each other in the collection of checks, notes, and drafts, and where plaintiff sent defendant a note"for collection and credit" which on maturity was paid by a check and credit was immediately given on the books, but defendant failed and the check passed into the hands of a receiver. Held, that in view of the course of dealing the two banks stood in the relation of debtor and creditor with respect to the amount of the check, and it became part of the assets of the bank. Frarklin County National Bank v. Beal, 49 Fed. Rep., 606.
45. Whether the title to a check deposited with a bank passes to the bank before collection, so as to immediately create the relation of debtor and creditor between it and the depositor is a question of fact, depending upon the circumstances and course of dealing in each particular case. City of Somerville v. Beal, 49 Fed. Rep., 790.
46. Where a bank, in accordauce with its custom, credited checks deposited by a customer at the close of each day's business, retaining the right to subsequently charge off the same if returned unpaid from the clearing house, and the bank became insolvent on a succeeding day, title in the checks passed to the bank so as to create the relation of debtor and creditor. Ib.
47. Where a national bank collected all papers sent to it by complainant under an arrangement which constituted the bank the agent of complainant, the latter can recover, on the groundi of a trust, from a receiver of the bank such portion only of the proceeds of its paper sent to the bank as it shows has passed into the receiver's hands, either in its original or some substituted form. Conmercial National Bank v. Armstrong, 39 Fed. Rep., 684.
48. Where checks and drafts sent from one bank to another indorsed "For collection' and credited "subject to payment" according to the dealings between the banks, and part of them were paid to the receiver of the latter bank after its failure and the balance were credited to it by the payors, the amount paid the receiver shonid be accounted for as a trust fund, but the balance as a general debt. First National Bank v. Armstrong, 43 Fed. Rep., 193.
49. Negotiable paper with restrictive indorsement credited by agent on date of receipt "subject to payment," although account is sabject to be drawn upon, title is not transferred, and upon the insolvency of the agent before receiving notice of the collection of the item, the owner is entitled to the proceeds in the hands of the collecting agent. Fifth National Bank v. Armstrong, 40 Fed. Rep., 46.
50. The drawers of a draft deposited with a bank for collection, and by it forwarded to a correspondent bank, are entitled to the amount as against the receiver of the forwarding bank, which was insolvent, and known to be so by its officers when it received the draft, and suspended payment before the proceeds were withdrawn from the collecting bank. bank for that purpose, and on being advised that the latter bank has collected the draft credits the depositor and then becomes insolvent without having received the money from the collecting bank, the depositor remains the owner of the draft, and is entitled to its proceeds from the collecting bank against the receiver and the creditors of the insolvent bank. Armsirong v. National Bank of Boyertown, 11 S. W., 411; Mamufacturers' National Bank v. Contincntal Bank et al., 20 N. W. 193 .
52. A bank which collects a draft sent to $i t$ by another bank for that purpose, with directions to remit the proceeds to a third bank for the owner's account, does not thereby become a trustee, so that the fund can be followed into the hands of a receiver, although it had become mixed with the other cash of the bank before his appointment; especially when it appears that the business was carried on, and money paid ont, for several days after the collection was probably made. Morchants and Furmers' Bank v. Austin et cl., 43 Fed. Rep., 25.
53. Beal v. National Exchange Bank of Dallas, 55 Fed. Rep., S94.
54. A bank which, upon a draft being deposited with it for collection, refuses to accept it as a deposit, but advances a small amount to the payee on her check, and charges her therewith on its books as an overdraft, and sends it for collection to its correspondent, and, upon receiving notice of its collection, credits the payee's account therewith, is the payee's agent; and the proceeds constitute a trust fund, which the payce is entitled io recover from the receiver. Henderson v. O'Connor (Cal.), 39 P., 786.
55. Where a bank received a draitt as agent for plaintiff, of which fact the indorsement was a notice to other banks, it did not thereby becone indebted to plaintiff for the amount thereof till after collection and possession of the proceeds, either actually or by settlement with the parties; and defendant bank, to which the draft had been sent by the first bank for collection, could not escape liability to plaintiff by making payment to the furst bank, or giving the credit to it on the account between the banks after the first bank had stopped payment. Ib.
30. An indictment under Rev. St., sec. 5e09, for willfally misapplying the moneys, funds, and credits of a national bank of which defendant was president, as well as a director and agent, must supplement the allogation of willful misapplication by allegations showing how the misapplication was made, and that it was an unlawful one. Batenelor v. United States, 15 S. Ct. 446.
31. If much the larger number of the jury are for conviction, a dissenting juror should consider whether a doubt in his own mind is a reasonable one which makes no impression upon the minds of others equally honest and equally intelligent with himself, who have heard the same evidence with an equal desire to arrive at the truth, and under the sanction of the same oath. On the other hand, if a majority are for acquittal, the minority ought to seriously ask themselves whether they may not reasonably, and ought not to, doubt the correctness of a judginent which is

not concurred in by most of those with whom they are associated, and to distrust the weight and sufficiency of that evidence which fails to carry conviction to the minds of their fellows. United States v. Ailis, "9 Fed. Rep., 165.
32. An indictment under Rev. St., 1889, sec. 3581, charging a bank offeer with receiving a deposit inowing that the bank was insolvent, is not defective because each count concludes with the words" did take, steal, ard carry away." State v. Sattley (Mo. Sup.), 83 S. W., 41.
33. Rev. St., $1889, \$ 3581$, providing that any bank officer who slall receive or assent to the reception of a deposit, or who shall create or assent to the creation of any indebtedness by the bank, knowing that it is in a failing condition, shall be guilty of larceny, and punished, etc., suificiently pescribes the nature of the crime, as required by Const., art. 12 : 27.70 .
34. The receiving of a deposit, and issuing of a certificate therefor, creates " an indebtedness," within Rev. St., 1889, $\$ 3581$, making it a crime for any bank officer to create or assent to the creation of any indeltedness by the bank, knowing its inselvency, etc. $I b$.
83. On the trial of a bank officer for receiving deposits knowing that the bank was insolvent, evidence that depositors demanded their money, and of the refusal of the bank employees to pay them, is admissible, whether or not defendant personally heard the demands, to show the forilure of the bank to meet its obligations in the ordinary course of business. Ib.
35. If a bank employee, by anthority of his superior officer given before the latter had knowledge that the bank was insolvent, receives a deposit after its insolvency, such officer, unless he revoked the anthority after he became aware of the condition oir the bank, will be liable to prosecution under Rev. St., 1889, $\$ 3581$, making it a crime for a bank officer to assent to the receipt of a deposit knowing that the banis is in failing circumstances. Ib.
37. An instruction, in the language of the statute, that the faidure of the bank "is prima facie evidence of knowledge on the part of its cashier that the same was in failing circunstances," coupled with in statement that "prima facie evidence is such that raises such a degree of probability in its favor that it must prevail unless it be rebutted on the contrary proved," is not erroneous. $I b$.
38. Where an indictment under Rev. Stat., 1889, $\$ 3581$, contains a count for receiving a deposit knowing that the bank is insolvent, and another count for assenting to the creation of an indebtedness by the bank with such knowledge, and the evidence shows but one trausaction, which consisted in receiving a deposit and issuing a cortificate the efor, a general verdict of guilly, without specifying on which comat, is sumcient. Ib.
29. Two or more persons, partners as bankers, may jointly commit the crime of receiving deposits with knowlodge that they and the bank are ingolvent. State v. Smith (Mimn.), 64 N. W., 10az.
40. On trial of an indictment of a banker for receiving deposits whea insolvent, it was proper to charge that, thougin the deposit was received by defendant's son after defendant had instructed him to refuse deposits, if defendant, on learning that the deposit was soreceived, placed it among the funds of the bank, he "knowingly accepted and received" it within the statute. State v. Eifert (Ionea), 65 N. W., 509 ,
41. Where there has been no administration on the estate of a deceased insoivent who had inpudulently conveyed his property in his liíetime, a simple contract creditor is not debarred from filing a bill against the fraudulent grantee to subject the property fraudulentiy conveyed to the satisfaction of his claim. Merenthts' National Bank v. MeGee (Ala.), 19 So., 356.
42. One who has an interest in a company for the benefit of which tho president of a national bank criminally inisapplies its funds may be guify as an aider and abettor in such misapplication, aithough tho yeesident hes no interest in or relation to him or to said company, and eithongh he has no interest in the bank, or with the president therecf, of any kind. State v. Teahan, 50 Conn., 2., distinguished; Cofin v. United States, 16 S. Ct., 943.
43. It is not necessary to the guild of aiders and abettors who are not officers of the bank that they should have a common purpose with the principal to subserve joint interests with him by the nimapplication of the bank's funds. Ib.

Criminal law. See False entries; Indictment-Continued.
44. Persons who have no official relation to a national bank may be indicted, under Rev. Stat., $\$ 5209$, as aiders and abettors of some officer of the bank in criminal misapplication of its funds, or in the making of false entries in its books. Ib.
45. If a violation of the statute is committed by an officer of the bank and by an outsider, the officer must be prosecuted as the principal, and the other can only be prosecuted, under the terms of the statute, as an aider and abettor. Ib.
46. An indictment charging the aiding and abetting of an officer of a national bank in making false entries, etc., is not defective because it charges the principal offender with having made the false entry with intent to injure and defraud the bank, and also with intent to deceive agents appointed to examine the bank's affairs, whereas it merely charges the aider and abettor with an intent to deceive such agents: for it is immaterial that the principal offender may have had several intents, if both principal and aider and abettor were actuated by the criminal intent to deceive such agents. Ib.
47. An indictment for aiding and abetting one H., the president of a bank, in the criminal misapplication of its funds, charged that, on a specified date, the said H. inisapplied a named sum, by causing the same to be paid out on the checks of a company having no moneys in the bank. The aiding and abetting clause charged that the accused did "on [specifying the same date] aid and abet said H., as aforesaid, to wrongfully," etc., misapply the moneys of the bank, "to wit," specifying an identical sum. Held (overruling a contention that the words "said" and "as aforesaid " did not refer to the same moneys previously charged to have been misapplied by the president), that the language sufficiently connected the acts charged against the aider and abettor with the offense stated against the principal. Ib.
48. An indictment for violating the national banking laws averred that the bank in question had been "heretofore" created and organized under the laws of the United States. Held, that even if it were assumed that the word should have been "therefore" in order to make it certain that the bank had been incorporated prior to the finding of the indictment, the result was only an imperfect statement of what the law implies to be true after verdict. $I b$.
49. On the trial of persons charged with aiding and abetting the president of a national bank in criminally misapplying its funds and making false entries in its books, the court charged that if the jury were satisfied that the president did knowingly and purposely make, or cause to be made. the false entries as charged, they could not find the defendants guilty as aiders and abettors, unless they were satisfied that defendants, "with like intent, unlawfully and knowingly did or said something showing their consent to, and participation in, the unlawful and criminal acts" of the said president, " and contributing to their execution." Held, that this language was not open to the objection that the expression "unlawful and criminal acts" might have been understood as relating to unlawful and criminal acts of the president generally. Ib.
50. Under Rev. Stat., 83581 , making it a crime for any bank officer to "receive or assent" to the reception of any deposit of money, knowing the bank to be insolvent, a conviction can not be had on an indictment charging merely that defendant"did receive" the deposit, on proof of an " assent" to th reception of the deposit. State v. Weils (Mo. Sup.), 35 S. W.,615.
51. An indictment against its president for defrauding a national bank, described the bank as the "National Granite State Bank," "carrying on a national banking business at the city of Exeter." The evidence showed that the authorized name of the bank was the "National Granite State Bank of Exeter." Held, that the variance was immaterial. Putnam v. United States, 162 U. S. $68 \%$.
52. Conversations with a person took place in August, 1893. In December, 1893, he testified to them before the grand jury which found the indictment in this case. On the trial of this case his evidence before the grand jury was offered to refiesh his memory as to those conversations. Held, that that evidence was not contemporaneous with the conversations, and would not support a reasonable probability that the memory of the witness, if impaired at the time of the trial, was not equally so when his testimony was committed to writing; and that the evidence was therefore inadmissable for the purpose offered. Ib.

Criminal Law. See False entries; Indictment-Continued.
53. On the trial of a national-bank president for defrauding a bank, a witness for the Governinent was asked, on cross-examination, as to the amount of stock held by the president. This being objected to, the question was ruled out as not proper on cross-examination, the Government " not having opened up affirmatively theownership of thestock." Held, that, as the order in which evidence shall be produced is within the discretion of the trial court, and as the matter sought to be elicited on the cross-examination for the accused was not offered by him at any subsequent stage of the trial, no prejudicial error was committed by the ruling. $I b$.
54. When an offense against the provisions of Rev. Stat., section 5209 , is begun in one State and completed in another, the United States court in the latter State has jurisdiction over the prosecution of the offender. Ib.
55. The proof of guilt in this case was sufficient to warrant the court in leaving to the jury to decide the question of the guilt of the accused. Ib.
56. The sentence on both counts having been distinct as to each, the entire amount of punishment imposed will be undergone, although the conviction and sentence as to the second count are set aside. Ib.
57. Coffin $v$. United States, 156, U. S., 432, affirmed on the following points: (1) That the offense of aiding or abetting an officer of a national bank in committing one or more of the offenses set forth in Rev. Stat., section 5202, may be committed by persons who are not officers or agents of the bank, and consequently it is not necessary to aver in an indictment against sach an aider or abettor that he was an officer of the bank or occupied any specific relation to it when committing the offense; (2) that the plain and ummistakable statement of the indictment in that case and this, as a whole, is that the acts charged against Haughey were done by him as president of the bank, and that the aiding and abetting was also done by assisting him in the official capacity in which alone it is charged he misapplied funds. Coffin v. Uuited States, 16. U. S., 664.
58. Instructions requested may be properly refused when fully covered by the general charge of the court. Ib.
59. When the charge, as a whole, correctly conveys to the jury the rule by which they are to determine, from all the evidence, the question of intent, there is no error in refusing the request of the defendant to single out the absence of one of the several possible motives for the commission of the offense, and instruct the jury as to the weight to be given to this particular fact independent of the other proof in the case. Ib.
60. The refusal to give, when requested, a correct legal propositiou does not constitute error, unless there be evidence rendering the legal theory applicable to the case. Ib.
61. When it is impossible to deternine whether there was evidence tending to show a state of facts adequate to make a refused instruction pertinent, and there is nothing else in the bill of exceptions to which the stated principle could apply, there is no error in refusing it. Several other exceptions are examined and held to be without merit. Ib.
62. A bank president, not acting in good faith, has no right to permit overdrafts when he does not believe, and has no reasonable ground to believe, that the moneys can be repaid; and, if coupled with such wrongful act, the proof establishes that he intended by the transaction to injure and defraud the bank, the wrongful act beconnes a crime. Ib.
63. When the principal offender in the commission of the offense, made criminal by Rev. Stat., section 5209, and the aider and abettor were both actuated by the criminal intent specified in the statute, it is immaterial that the principal offender should be further charged in the indictment with having had other intents. Ib.
64. The first clause of section 5209 of the Revised Statutes provides for three distinct offenses: First, embezzlement; second, abstraction; and, third, willful misapplication of the moneys, funds, or credits of the bank by any president, director, cashier, teller, clerk, or agent of any association organized as a national banking association. United States v. Lee, 12 Fed. Rep., 816.
65. It was the intention of Congress to make criminal the misapplication and conversion of the funds of national banking associations without regard to whether or not the party so misapplying received any of the funds or other advantage, directly or indirectly. Ib.

Criminal law: See False entries; Indictment-Continued.
66. If it appears that the funds of the banking association have been abstracted or willfully misapplied by defendant, he is precluded from denying that it was done with unlawful intent. Ib.
67. It is not a necessary ingredient of the offense of making a false entry in a report under Rev. St., $\$ 5209$, that the report shall be one of those mentioned in sections 5211,5912 , or one which the bank is bound by law to make. It is sufficient if the report is one made in the due course of business. United States v. Potter, 56 Fed. Rep., 83, 97, disapproved; United States v. Booker, 80 Fed. Rep., 376.
68. When it is made to appear to the court during the trial of a criminal case that, either by reason of facts existing when the jurors were sworn, but not then disclosed and known to the court, or by reason of outside influences brought to bear on the jury pending the trial, the jurors, or any of them, are subject to such bias or prejudice as not to stand impartial between the Government and the accused, the jury may be discharged and the defendant put on trial by another jury; and the dofendant is not thereby twice put in jeopardy, within the meaning of the fifth amendment to the Constitution of the United States. Simmons v. United States, 142 U. S., 148.
69. The judge presiding at a trial, civil or criminal, in any court of the United States may express his opinion to the jury upon the questions of fact which he submits to their determination. Ib.
70. An indictment on Rev. Stat., sec. 5209, is sufficient which avers that the defendant was president of the national banking association; that by virtue of his office he received and took into his possession certain bonds (described), the property of the association, and that, with intent to injure and defraud the association, he embezzled the bonds and converted them to his own use. Claasen v. United States, 142 U. S., 140.
71. In a criminal case a general judgment upon an indictment containing several counts and a verdict of guilty on each count can not be reversed on error if any count is good and is sufficient to support the judgment. Ib.
72. Upon writ of error no error in law can be reviewed which does not appear upon the record, or by bill of exceptions made part of the record: Ib.
73. Under sec. 5 of the act of March 3, 1801, entitled "An act to establish circuit courts of appeals, and to define and regulate in certain cases the jurisdiction of the courts of the United States, and for other purposes," a writ of error may, even before July 1, 1891, issue from this court to a circuit court in the case of a conviction of a crime under sec. 5209 of the Revised Statutes where the conviction occurred May 28, 1890, but a sentence of imprisonment in a penitentiary was imposed March 18, 1891. In re Claasen, 140 U. S., 200.
74. A crime is "infanous" under that act where it is punishable by imprisonment in a State prison or penitentiary, whether the accused is or is not sentenced or put to hard labor. Ib.
To. Such writ of error is a matter of right, and under sec. 999 of the Revised Statutes the citation may be signed by a justice of this court as an ivuthority for the issuing of the writ under sec. 1004. Ib.
76. At the time of the conviction no writ of error from this court in the case was provided for by statute, nor was any bill of exceptions, with a view to a writ of error, provided for by statute or rule, and therefore a mandamus will not lie to the judge who presided at the trial to compel him to settle a bill of exceptions which was presented to him for settlement after the sentence, nor can the minutes of the trial, as settled by the judge by consent, and signed by him, and printed and filed in July, 1890, and on which a motion for a new trial was heard in October, 1890, be treated by this court, on the return to the writ of error, as a bill of exceptions properly forming part of the record. Ib.
77. A criminal court in the southern district of New York, sitting as a circuit court therein, under sec. 613 of the Revised Statutes, and composed of the three judges named in that section, to hear a motion for a new trial and an arrest of judgment in a criminal case previously tried by a jury before one of them, is a legally constituted tribunal. Ib.
78. A justice of this court on allowing such writ and signing a citation had authority also to grant a supersedeas and stay of execution. Ib.
79. Upon a plea of guilty to three indictments found under section 5209 , Rev. St., U.S., one for the misapplication of funds of a national bank by the accused while cashier thereof, on $\theta$ for false entries to conceal such mis-

application, and the third for making a false statement with intent to deceive the examining officers, the district court pronounced sentence upon the accused as follows: "That the prisoner be confined at hard labor in the State prison of the State of New Jersey for the term of five years upon each of the three indictments above named, said terms not to run concurrently, and from and after the expiration of said terms until the costs of this prosecution shall have leen paid." Held, that the words "said terms not to run concurrently" are uncertain and incapable of application, and therefore void: and that the sentences commenced at once and ran concuremily. United States v. Patterson, Keeper, etc., 99 Fed. Rep., 770.
80. The judgment of the district and circuit courts of the United States in criminal cases is final, and can not be reviewed by writ of error; but if a judgment, or any part thereof, is void, either because the court that renders it is not competent to do so for want of jurisdiction, or becanse it is rendered under a law clearly unconstitutional, or because it is senseless and without meaning, and can not be corrected, or for any other cause, the party imprisoned by virtue of such judgment may be discharged on habeas corpus. Ib.
81. On a habeas corpus the decision should be made opon the actual status of the case at the time of the decision, and not according to the state of things when the writ was allowed. When, at the time the writ of habeas corpus for the discharge of a prisoner, under three sentences of five years, each runniug concurrently, was allowed, the first term of five years had not expired by lapse, althongh at least one of the sentences had been satisfied by means of remissions for cood conduct. Held, that the five years having entirely elapsed since the allowance of the writ, the question of the applicability of the remission for good condact to all the sentences may be waived, and the prisoner discharged. Ilb.
82. When an officer of a national bank, indicted under Rev. St., 5509 , for making false entries in a report of the condition of such bank in respect to amounts of overdrafts and of loans and discounts, has testified that certain overdrafts. in respect to which the depositors had consulted the bank officers and obtained permission to overdraw, were treated by the officers and directors of the bank as temporary loans, and were repor'ted by him among loans, and not among overdrafts, in the belief that they might properly be so reported, it is error to charge the jury that the defendant was required by law to place, under the heading "Overdrafts" in the report, all sums drawn out by depositors in excess of their deposits, and that the transfer of any such smms to the heading "Losns and discounts" was the making of a false entry, since such charge takes from the jury the right to consider, upon the question of intent, the explanation given by the defendant, while, if they believed such explanation, and that the defendant acted in good faith, the entries were not false within the meaning of the statute. Mr. Justice Harlan dissenting. Grates v. United States, 165 U. S., 323.
83. Where a transaction by a national-bank officer with intent to defrand is entered on a deposit slip, entry of the contents of such slip upon the books of the bank by him, or by his direction, is making a "false entry" within Rev. St., 5209. Agnew v. United States, 105 U. S., 36.
84. On trial of the president of a bank for conversion of its funds, the cashier who has testified as a witness for defendant niay be asked, on crossexamination, whether he did not resign because of transactions of the defendant similar to that charged in the indictment. Ib.
85. The evidence showed that defendant, president of a mational bank, without authority of the directors, purchased $\$ 20,000$ bonds, of little value, at a great discount, and had them placed in the assets of the bank, and to his credit at face value, giving his written guaranty for the principal and interest, which, by reason of his financial condition, was almost worthless. Held, that it was not error to refuse to charge that, from the guaranty, the jury might find that there was no intent to defraud the bank. Ib.
86. A charge to the effect that if defendant, a bank president, purchased bonds which were worthless, or of but little value, placed them among the assets of the bank at a greatly exaggerated value, and had such exaggerated value placed to his own credit, these facts create a presumption of an intent to defraud the bank, which "throws the burden of proof

Criminal law: See False entries; Indictment-Continued.
upon the defendant," and that evidence to overcome the presumption "must be sufficiently strong to satisfy you beyond a reasonable doubt that there was no such guilty intent," is not error, where the character of such evidence and the nature of a reasonable doubt are sufficiently explained in other portions of the charge. Ib.
87. A charge that if the defendant "either embezzled or willfully misapplied" the funds or credits of the bank, "whereby, as a necessary, natural, or legitimate consequence, its capital was rednced, or placed beyond the control of the directors, or its ability to meet its engagements or obligations, or to continue its business, was lessened or destroyed, the intent to injure or defraud the bank may be presumed," is correct. Ib.
88. It is not reversible error to refuse to charge that, if defendant nsed the proceeds of a check belonging to the bank, and which he had caused to be placed to his credit, in the payment of a debt of the bank, the jury must find that he did not fraudulently embezzle the amount, especially where defendant's explanation of the transaction is unsatisfactory. Ib.
89. Evidence of the commercial rating of a president of a bank at the time of an alleged conversion by him of its funds, by purchasing for the bank, without authority, and having placed to his credit, worthless bonds, which he had guaranteed, and the testimony of the cashier of another bank as to whether, at the time of transaction, he considered defendant's guaranty for such an amount good, are irrelevant. Ib.
90. Under rule 11 of the circuit court of appeals ( 21 C. C. A., cxi, and 78 Fed. Rep., cxi), requiring the assignment of errors to quote the full substance of evidence alleged to have been erroneously admitted or rejected, and to set out the part of the charge referred to totidem verbis, assignments that " the court erred in permitting evidence as shown in bills of exceptions numbers two and three," which errors can only be ascertained by a careful reading of a voluminous record, and that "the court erred in its charge," etc., referring to marked lines and numbers in the written opinion for instructions erroneously given and refused, will not be considered. Gallot v. United States, S7 Fed. Rep., 446.
91. The death of the principal before indictment is no obstacle to the prosecution and punishment of one charged with aiding and abetting an officer, clerk, or agent of a national bank to abstract, misapply, or einbezzle the funds thereof, in violation of Rev. St., $\$ 5209$, which inakes such offense a misdemeanor. Ib.
92. A juror who says he has an impression or opinion as to guilt or innocence of defendant, formed from newspapers and rumors, that it would require evidence to remove it, but that it would yield to evidence, and that he can and will give the defendant a fair and impartial trial according to the evidence that may be adduced before him, is competent. Ib.
93. Where an indictment contains many counts, all alike, except as to amounts of money and dates of misapplication, it is sufficient to read one count in full to the jury, explain the difference, and state the amount and date charged in each of the other counts. Ib.
94. One indictment in thirty-six counts charged defendant with aiding in the abstraction of thirty-six specified amounts of money, at thirty-six specified dates. Another indictment charged him with aiding in the misapplication of the same amounts, upon the same dates. The two were tried together, and the jury returned a verdict of "guilty as charged." Held, that the verdict was definite, certain, responsive to the issues, and not a double conviction, the sentence imposed by the court being imprisonment for a less term than the maximum under any one count. Ib.
95. An indictment under Rev. St., \$5209, against officers of a national bank and a depositor, charged willful misapplication of the funds of the bank, with intent to injure and defraud the bank. On the trial it appeared that the depositor made and deposited fictitious checks, which were credited to his account. Held, that it was necessary to show that some portion of the funds were withdrawn from the possession or control of the bank, or a conversion in some form was made thereof, so that the bank would be deprived of the benefit thereof. Dow et al. v. Unitel States, 82 Fed. Rep., 904.
96. In such a case, a statement by the court to the jury that under a State statute it is made a misdemeanor to draw a check on a bank where there are no funds to meet it, tends to mislead the jury, and constitute error. Ib.

Criminal Law: See False entries; Indictment-Continued.
97. The mere fact of payment by the officers of a national bank of a check which creates an overdraft does not necessarily constitute a fraudulent misapplication of the funds of the bank. Ib.
98. Under sucli an indictment, where the issues involve the intent with which

* certain acts were done, the trial court is justified in giving a reasonably wide latitude to the introduction of evidence tending to slow the relations of the parties, the mode in which the business was carried on, and the knowledge which the officers had of the character of the operations carried on by the depositor. Ib.

99. If, in an indictment under Rev. St., $\S 5209$, it is the purpose of the Govermment to charge the making of false entries in the books of the bank because of the receiving and crediting of checks drawn thereon by parties who had no funds there, the indictment should set forth a description of the checks, with an averment of the reasons why they were to be deemed false or valueless. Ib.
100. If an overdraft is made and allowed under circumstances justifying $i \hat{i}$, or even under circumstances making it a fraud upon the bank, the entry of the transaction just as it occurred on the books of the bank is not a false entry, under Rev. St., \&5209. Ib.
101. Where an indictment consists of numerons counts, the trial court may, in the exercise of sound judicial discretion, require the Government to elect certain counts upon which it will ask conviction; but where the counts are all for transactions connected together, or of the same class, their joinder is proper under Rev. St., 1024 , and the exercise of the court's discretion will not be disturbed, except in a clear case of improvidence or abuse. Gardes v. United States; Girault v. Same, $\delta^{\prime \prime}$ Fed. Rep., 172.
102. Where, during the trial, a juror becomes disqualified, and the court adjudges a mistrial, a plea of former jeopardy is not good on a second trial, even though all parties were willing to proceed with eleven jurors. $I b$.
103. Where defendants have been arraigned, and have waived reading of the indictment, they may not subsequently complain if the whole indictment is not read at the trial, but such parts of it are read, and such explanations made of the other parts, as may give the jury the clearest comprehension of it. $I b$.
104. Where the jury find accused guilty upon all counts of an indictment, " Guilty as charged," without specifying the counts, is a proper form of verdict. $I b$.
105. Where the verdict is sustained by one good count in the indictment, it must stand, even if all the other counts are bad. Ib.
106. Where, after mistrial, and before a new trial, amendments are made to purely formal parts of certain counts of an indictment, and the defendants are not rearraigned, even if the irregularity is material, it can affect only the counts so amended, and the error is cured by arrest of judgment on such counts. Ib.
107. Where the statute under which a prisoner is sentenced provides for imprisonment, but not at hard labor, the words "at hard labor" should not be inserted in the sentence, even if hard labor is a part of the discipline of the prison at which the sentence is to be served. Ib.
108. In a prosecution against a national-bank president for unlawfully certifying checks, it is not error to instruct the jury that the presumption is that he had knowledge of the condition of the account upon which the checks were drawn, where the same instruction cautions them that such

- . presumption may be rebutted by evidence that the defendant did notin fact have such knowledge. Spurr v. United States, 87 Fed. Rep., \%01.

109. In order to convict a national-bank officer of wrongfully certifying checks, it is not necessary to show that he had actual knowledge that the account against which the checks were drawn was not sufficient; it is enough if he willfully refrained from investigation, in order to avoid knowledge. Ib.
110. Upon the trial of the president of a national bank for certifying checks without funds, evidence of speculations by the cashier with funds of the bank, with defendant's knowledge, is admissible for its bearing upon the right of the latter to rely upon the former's representations as to the state of the customer's accounts. Ib.

Crimlnal law. See False entries; Indictment-Continued.
111. The period of time within which collateral transactions offered to show a guilty intent must have occurred is largely discretionary with the court. Ib.
112. Upon the trial of a national-bank officer for official misconduct, evidence as to the defendant's reputation for honesty and integrity shound be limited to such reputation down to the time of the failure of the bank. $I b$.
113. In general, where no attempt has been made to impeach the defendant's testimony, he may not add to the weight of his evidence by evidence of his general reputation for truthfulness. Ib .
114. A plea of former jeopardy set up certain prior procendings had in the same court under the same indictment. Counsel for the Government having objected thereto, the court treated his objection as a demurrer to its sufficiency in law, and thereupon overruled the plea. The trial then went on, without oljjection by defendant to the subsequent proceedings. Held, that there was no error in thus proceeding with the cause without first setting down the plea for trial, as the only question arising thereon was one of law, which was finally disposed of by the former ruling. United States v. Peters, 87 Fed. Rep., 985.
115. Rev. St., 8 1025, forbidding the court to quash an indictment for defect of form, makes it unnecessary, in criminal indictments, to repeat an averment contained in the first count, where subsequent counts refer back to the first, and are therely rendered sufficiently explicit in stating the offense. $1 b$.
116. An indictment charged the making of false entries in the books of a national bank for the purpose of showing that on a certain date a county treasurer deposited $\$ 10,000$ "special," which was drawn out again a few days later. Evidence was offered by the Govermnent to prove that no such deposit was made, and the treasurer himself was called by it, and testified that he had some recollectiou of having deposited a large sum about the time in question. Thereupon his books were produced, and after he had testified that he believed them to be correct, he was permitted to testify as to the entries therem on the dates referred to. By these entries it did not appear that $\$ 10,000$ had been either deposited in bank or drawn from the cash on hand. The treasurer, however, then reiterated his former statement, and was even more positive that he had made the deposit. Held that, in view thereof, there was no prejudicial error in admitting his testimony as to the book entries. Ib.
11\%. If money is left with a national bank in a sack, with the express understanding that it is not be mingled with the bank's funds, but the irlentical bills or coins are to be returned in the same condition, and this is done to make a showing of money to a bank examiner, as if it were the money of the bank, then the entry thereof ou the books of the bank as money deposited is a false entry. Ib.
11s. If the jury be charged that a false entry on the books of a national bank alone gives rise to the presumption, not only that the entry was made with criminal intent, but also with knowledge of its falsity, but elsewhere in the charge it was said that a false entry must be known to be false, and designed and intended to deceive, the charge is not erroneous. Ib.
110. Where the court has several times stated to the jury that the indictment charges the making of false entries in the books of the bank, with intent to deceive the bank examiner, and the making of false reports, with intent to deceive the Comptroller, it is not misleading to thereafter say that defendant is guilty if he made such false entries and report " with the intent mentioned in the statute," although the statute mentions several other intents. - Ib.
120. A depositor may knowingly overdraw his account, and be innocent of any unlawful purpose; but if he does so for considerable amounts, without the knowledge and consent of the proper officials, and with a fraudulent intent that the moneys of the bank shall be applied to their payment by the teller without the knowledge or consent of the proper officials, lie is guilty. United States v. Kenney, C. C., 90 Fed. Rep., 257.
121. An intent to injure or defraud a national bank, within the meaning of Rev. St., $\$ 5209$, does not necessarily involve malice or ill will towards the bank. It is sufficient that the unlawful intent is such as, if carried into execution, will necessarily or naturally injure or defraud the bank. $I b$.

Criminal law. Sce False entries; Indictment--Continned.
122. If, at the time defendant drew checks upon a national bank, he knew or had reason to believe that they were to be fraudulently paid by the teller out of the funds of the bank, and not from any funds to which defendant conld legitimately resort, he had a guilty intent: and it is immaterial that he intended finally to recompense the bank, through successtul operations in stocks or otherwise. Ib.
123. If there was apraudulent understanding between defendant and the paying teller that checks drawn by defendant in favor of a firm of stock brokers were to be paid out of funds of the bank, when defendant had no funds or only insufficient finds to his credit, and that such debts were not to be charged in his account, but were to be fraudulently concealed until he should make deposits sufficient to meet them, defendant had a guilty intent to injure or defraud the bank. Il.
124. An averment in an indictment under Rev. St., \$ 5309, for embezzlement by an officer of a national bank, that the money embezzled was lawful legal-tender money of the United States, is surplnsage and need not be proved. Porter v. United States, C. C., 11 Fed. Rep., 4at.
125. In a prosecution of an officer for making false entries in the books of a national bank and in the repont made to the Comptroller, with intent to deceive the banks directort and any agent of the Comptroller, proof that the entries made were false, arid known to be so by defendant; that they were made in tho books, and afterwards carried into a report made by the bank to the Conptroller, and were calculated to deceive the agent of the Comptroller, raises a presumption that such was the intention in making them, theugh such presumption is not conchsive. United States v. Youtsey, C. C., 21 Fed. Rep., Se4.
126. To constitute embezzlement by an officer of funds of a national bank, within the meaning of Rev. St., 5909 , with intent to detraad the bank, there mast be an unlawfal conversion by the officer to liss own use of funds intrusted to him, with intent to injure or defrand the bank, while abstraction or misapplication consists of the conversion, witli a like intent, of funds not especially intrusted to his care. Ib.
127. Under the provisions of Rev. St., 5009 , making it a crime for an officer, clerk, or agent of a national bank to make any false entry in any book, report, or statement of the association, with intent to deficaud or to deceive any officer of the bank, or any agent appointed to examine the affairs of the bank, an officer is chargeable for a false entry made by a cleris under his direction, the same as though he had made it in person. Ib.
198. Where defendant, as cashier of a national benk, diseounted certain notes, credited the proceeds to the makers, procured the credit to be transferred to himself, and with it paid certain other notes then held by the bank, thus effecting a substitution of seeurities, the fact that he knew the nakers of the notes taken up to be solvent, and the makers of the new notes to be insolvent, and the collateral security deposited therewith to be insufficient in value to pay them, raises a presumption that lie intended by the transaction to injure or defraud the bank, though such presumption is not conclusive. Ib.

Deposits:

1. The relation of banker and depositor is that of debtor and creditor. Deposits on general account belong to the bank and are part of its general fund. The bank becomes a debtor to the depositor to the amount thereof, and the debt can only be discharged by payment to the depositor or pursuant to his order. The Etna National Bank v. The Fourth National Bank, 46 N. Y., 82.
2. The contract has none of the elements of a trust. For a breach on the part of the bank of the obligation resulting from the relation between the parties the depositor alone can sue. Ib.
3. General deposits in a commercial bank on account of the depositor, without being complicated by any other transaction than that of the depositing and withdrawing of the moneys, transfers the ownership of the money to the bank; and the relationship with reference thereto, as between the bank and the depositor, is simply that of debtor and creditor. 5. A trustee who deposits in a bank and canses to be credited to his private account money of the trust fund without giving notice that it is not his private property or making any special agreement in regard to it, thereby converts it to his own use; so that the bank, in the absence of any notice that it is not his private property, may apply it as such. School District v. First National Bank, to Mass., 174.
6. Where an agent deposits in a bank, to his own account, the proceeds of property sold by lim for his principal under instructions thus to keep it, a trust is imposed upon the deposit in favor of the principal, and his right thereto is not affected by the fact that the agent at the same time deposits other moneys belonging to himself; nor is it affected by the fact that the agent, instead of depositing the identical monoys received by him on account of his principal, substitutes other moneys therefor. Van Allen v. The American National Bank, 52 N. Y., 1.
7. Where an agent or trustee has deposited money belonging to his principal or beneficiary in a bank to which he is himself indebted, and the bank, without his authority and in ignorance of the true ownership of the fund, has applied it on the debt, the owner is not debarred from recovering it from the bank if it can be identified. Burtnett, adm'r., v. The First National Bank, 38 Mich., 680.

10. Plaintiff made a certain payment to defendant bank, and received in exchange a note signed by a firm composed of the officers of the bank, and the business of which was transacted in the bank's office. He subsequently gave a check to his wife, which was also exchanged at the bank office for a similar note. Plaintiff and his wife could both read and write, and had transacted considerable business with the banks. Plaintiff retained the notes for two years, and upon the failure of the firm began suit to re-form the notes and change them into certificates of deposit of the bank on the ground that he intended to deposit his money with the bank. Held, that plaintiff was not entitled to a decree. Murphy v. First National Bank (Iowa), 68 N. W., \%02.
11. Where several deposits in bank have been made on the same account, and the title to one of the deposits is disputed, checks drawn on the accomnt will be first applied to the deposits not in dispute. Hauptmann v. First National Bank (Sup.), 31 N. Y. S., 864.
12. Testimony that the cashier of a bank failed to enter deposits on its books is not adnuissible as against the depositor to slow that the deposits were made with the cashier in his individual capacity. L'Herbette v. Pittsfield National Bank (Mass.), 38 N. E., 368.
13. An envelope, on which the sums paid into and drawn out of a bank by a depositior are entered by the cashier, is admissible against the bank to show the state of his account. Ib.
14. ernment to require an account and settlement of the moneys so deposited with it; and this remedy is not affected by the fact of a cumulative remedy at law against the postmaster on his official bond. $1 b$.
16. Where a bank knows that money deposited with it to the general credit of a depositor is held in trust by such depositor, the bank has no right to apply such deposit to the payment of a note due to it from the depositor; 57 Ill. App., 107, reversed. Clemmer v. Drovers' National Bank (Ill. Sup.), 41 N. E., 728.
17. An indictnent under a statnte declaring it an offense if an officer of a bank shall receive a deposit, "knowing, or having good reason to believe, the establishment to be insolvent," is not sufficient where it does not allege the insolvency, but merely follows the words of the statute, as there would be no offense if the bank was not insolvent, though the officer believed it was. State v. Bardwell (Miss.), 18 So., gry.

St. 1895, $\$ 8.837,638$, for receiving a deposit in an insolvent bank, defeudant offered to show that the deposit was made by a customer whose account was at the time overdrawn in an amount larger than the deposit. Held, that the evidence was admissible as tending to show that the deposit was made and accepted as an application on the depositor's indebtedness to the bank. Nichols v. State (Neb.), 65 N. W., 774.
21. When a customer of a bank who has overdrawn his account makes a deposit, the presumption is, in the absence of evidence, that the deposit was general, and was made and received toward the payment of the overdraft. Ib.
22. It was in fact insolvent when the representations were made. Held, that such vice-president and director was personally liable to such depositor for the money lost by the failure of the bank. Townsend v. Williams (N. C.), 23 S. E., 461.
23. A person deposited money with a bank, taking from it a deposit slip in the form used for general deposits. Upon such slips were the words, "Security for signing bond to be held by bank." Subsequently the depositor, in order to change the security so the $\$ 700$ would be available for one purpose and $\$ 800$ for another, drew an ordinary check, which was marked " Paid," and a certificate of deposit for $\$ 800$ made out, to be held by the surety, and $\$ 700$ to secure other bondsmen. The firstnamed certificate was afterwards paid by the bank. The depositor testified that the deposit was a special one. Held, a general deposit and not a trust fund in the hands of a receiver. 25. In an action by a bank to recover money advanced on a draft, for goods sold, deposited with it by the vendor, where it claims that the deposit was made for collection, and the depositor that it was a sale, it is proper to instruct that if it was a sale the bank could not recover, though there is evidence that the vendee, after the deposit, paid part of the price for which the draft was drawn directly to the vendor. Bank of Cuntersville v. Webb (Ala.), 19 So., 14.
26. An instruction that it an illiterate depositor, to whom a bank cashier frandulently gave a deposit slip showing a deposit of a draft for collection instead of as a discount, "within a reasonable time, and on his first

opportunity," repudiates the transaction as shown by the slip, would make no difference, is not objectionable as leaving to the jury the question of reasonable time. $\quad l b$.
27 Where a bank cashier, in receiving from an illiterate person a draft sold to the bank, fraudulently makes out his deposit slip for him so as to show a deposit for collection, and the depositor subsequently, on discovering the fraud, repudiates the transaction as a deposit for collection, and, on an issue as to whether the transaction was a purchase or a deposit for collection, the bank admits that the slip was a receipt for the draft, and the depositor claims that it was one for the proceeds, it is proper to refuse to instruct for the bank that the retention of the slip by the depositor after repudiation, and using it as evidence of its demand against the bank, rendered it binding on hiin. Ib.
28. Where a bank cashier, in receiving from an illiterate person a draft sold to the bank, fraudulently makes out his deposit slip for him so as to show a deposit for collection, it is error to admit evidence that the bank required the cashier to pay the draft on failure to collect it, on the issue as to whether the bank was liable as purchaser or as receiver for collection only. Ib.
29. On an issue as to whether the delivery of a draft to a bank was a purchase or a deposit for collection, the depositor may testify to his illiteracy to explain his accepting the deposit slip; and, having on cross-examination given the name of the person who first informed him of its contents, he may testify when and where the information was given. Ib.
30. One who draws a check on a bank in which he has sufficient funds for its payment, not encumbered by an earlier lien in favor of the bank, may sue such bank for damages on its refusal to pay the check to the drawee. Mt.Sterling National Bank v. Green (Ky.), 35 S. W., 911.

The duty which a bank lolding a note owes to an endorser thereon, to appropriate a deposit in the bank to payment of the note, exists only where the maker of the note, at its maturity, has a deposit sufficient to pay it, and not previously appropriated to any other purpose, and does not apply to a deposit made after the maturity of the note, or to a deposit by a prior indorser, though he be in fact the principal debtor, and the maker be an accommodation maker. First National Bonk v. Peltz (Pa.Sup.), 35 A., 218.
33. Decedent deposited bonds and coupons witl a bank, and took a writing, signed by the cashier, acknowledging their receipt, and that they were "to be sold, and the proceeds placed to her credit." Held, that a delivery of the receipt, with an indorsement thereon, signed by decedent, requesting the cashier to "let" plaintiff" have the amount of the within bill" and with the intention to pass title thereto, constituted a valid gift of the money due from the bank. Crook y. First National Bank (Wis.), $5:$ N. W., 1131.
34. A deposit slip issued by a banker, acknowledging the receipt of the amount of inoney therein named, is intended merely to furnish evidence, as between the depositor and the bank, that on a given day there was deposited a given sum, and not that such sum remains on deposit, and hence the delivery of a deposit slip to a third person by the depositor does not operate as an assigmment of the deposit. First National Bank v. Clark (N. Y. App.), 3: N. E., BS.
35. A conversation between a bank depositor and a third person, to whom he had delivered the deposit slip, and in whose favor he had drawn a check for the amount, in which he stated that the deposit would not be available for ten days, and that he wanted the check discounted immediately, which was accordingly done, and the money paid him by such third person, does not, as a matter of law, operate as an assignment of the deposit to such third person; and a finding by the jury that it did not will not be disturbed on appeal. Ib.

The bank, without knowledge of the fraud, obtained the money as directed, but in doing so acted as a principal without disclosing their agency in the matter. The Lewiston postmaster, under the name of Wilson, subsequently drew the greater part of the money from the bank, and suit was afterwards bronght against it by the United States to recover the money so obtained on the order. Where, after the maturity of a promissory note held by a bank, and due protest and notice thereof, the maker makes a general deposit in the bank of an amount sufficient to pay the note, this does not of itself, as between the bank and an indorser, operate as a payment. In the absence of any expressed agreement or directions it is optional with the bank whether or not to apply the money in payment; it is under no legal obligation so to do. The National Bank of Newburgh, respondent, v. Daniel Smith, appellant, ©G N, Y., ov 1 .
45. The mere discounting of paper, and placing the amount thereof to the credit of a depositor who already has a large balance to his credit, does not make the bank a purchaser for value so as to protect it against in firmities in the paper. Entering the amount of the discount to the credit of the depositor simply creates the relation, between the bank and the depositor, of debtor and creditor; and as long as that relation remains and the deposit is not drawn out the bank has simply promised to pay the depositor, has parted with no value, and is not entitied to the protection of a bona fide holder of paper. $I b$.

Quin v. Earle, 95 Fed. Rep., 728.
65. To constitute fraud on the part of a bank in receiving a deposit when insolvent, which will anthorize the depositor to rescind the contract and recover the deposit from a receiver subsequently appointed, the officers must have known or believed the bank to be insolvent at the time the deposit was received, and the fact that they knew it to be in an embarrassed condition is insufficient to establish the fraud. Ib.

## Dividends:

1. Equity has jurisdiction of a suit by the receiver of an insolvent national bank against all its shareholders to recover dividends unlawtully paid to them out of the capital at times when the bank had earned no net profits, and was in fact insolvent, it being in effect a suit to execute a trust, to undo a frand, and to prevent a multiplicity of suits. 43. Uuder the acts of Congress authorizing questions arising on a trial or hearing before two judges in the circuit court, and upon which they are divided in opinion, to be certified to the Supreme Court of the United States for decision, each question certified must be one of law and not of fact, nor of mixed law and fact, and it must be a distinct point or proposition clearly stated, and not the whole case nor the question whether upon the evidence the judgment should be for one party or for the other. Williamsport National Bank v. Knapp, 119 U. S., 357; 3 N. B. C., 184.
44. An indorser on certain notes made a compromise with the indorsee by which he gave his notes for a part of the amount due, he to be released from liability on the original notes upon payment of the compromise notes at maturity. Held, that evidence that money with which he made part payment on the compromise notes was borrowed by him was not admissible on an issue as to whether the indorsee, after accepting such payments, was estopped to hold him liable on the original notes. Humphreys v. Third National Bank of Cincinnati, \%5 Fed. Rep., 85 .
45. An indorsee of a note agreed to receive, in compromise of an indorser's liability thereon, secured notes for a less amount, the indorsee to have the right, if the compromise notes were not paid when due, to sue the indorser for the balance remaining due on the original notes, after applying thereon the partial payments made on the compromise notes, and the proceeds of the security given therefor. Held, that the indorsee did not, by receiving part payments on the compromise notes after their maturity, waive the right to sue the indorser on the original notes. 66 Fed. Rep., 87 ?, affirmed. Ib.
46. Nor did he waive his right to proceed on the original note by failing to tender back the compromise notes or the security given therefor. Ib.
47. Where the facts do not appear on the face of the judgment, oral evidenco is admissible to show how credits thereon came to be allowed and what they were allowed for. Ib.
48. Where it is not slown that a certain collection made by a receiver of an insolvent national bank wasforwarded by a correspondent of the bank, nor included in the list of items sent, it is not sufficiently traced; and this though the receiver testifies that the item was collected for the forwarding banls. Richardsonv, Louisville Banking Co., 94 Fed. Rep., 442.
49. A biil by the receiver of the bank to set aside a preferential transfer of notes, in violation of Rev. St. © 5242, is not sustained by proof that the notes, were put into the transferee's hands for payment by him, and that, instead of paying them, he wrongfully kept them. Alabama Iron and Railway Co. v. Austin, 94 Fed. Rep., 897.
50. Where an order dismissing a law case is pleaded in bar in an equity suit, and no proof is offered except the order itself, defendant can not show the nature of the law case by affidavit after trial. Ib.
51. In a suit between the receiver of a national bank and a stocklolder, the books of the bank are evidence to establish acts of the corporation and its financial condition at a particular time, though not as to dealings between the corporation and the defendant. Hayden v. Williams, 96 Fed. Rep., 2\%9.

## Execution:

1. A judgment against a national bank in the hands of a receiver only establishes the validity of the claim; the plaintiff can liave no execution on such judgment, but must wait pro rata distribution. Bank of Bethel v. Pahquioque Bank, 14 Wall., 383.

Execution-Continued.
2. A sheriff in Texas has no power to levy upon or seil land lying outside his county, and his deed, describing by metes and bounds land purporting to have been levied on and sold, part of which lies outside his county, is void as to such part. Short v. Hepburn, rí Fed. Rep., 113.
3. The imperfect description of property in a notice of sheriff's sale under execution will not necessarily vitiate the sale where the description is sufficiently certain so that no one is deceived as to the identity of the property sold. Grundy County National Bank v. Rulison, 61 Ill. App., 388.
4. Where judgment has been rendered in a State court against a national bank, and upon the execution issuing thereon a return of nulla bona has been made by the sheriff of the county where the bank is located, and the bank has ceased to discharge its fiunctions as a fiscal agent of the United States, and is disposing of its assets which can not be reached by levy and sale under the common-law execution among its stockholders, thereby endangering the safety of those assets and the judgment debt of the creditor, equity will relieve by the grant of injunction and the appointment of a receiver. Merchants and Planters. National Bank v. Trustees of Masonic Hall, 2 N. B. C., R20.
5. A bill by a judgment creditor for discovery, showing that when the execution was returned unsatisfied and when the bill was filed there was property, within the knowledge of the creditor, subject to levy on execution, fails to show that the legal remedy has been exhausted, and is demurrable. Nierchants' National Bank of Chicago et al. v. Sabin ct cl., 34 Fed. Rep., 492.
6. That a national bank for which no receiver has yet been appointed is in charge of an examiner appointed by the Comptroller to investigate its affairs does not exempt its tangible assets from execution upon final judgment. Kimball v. Dumu, So Fed. Rep., is?.

Exfiration of corporate existexce:
Under the act of Congress, July 12, 1882, extending for the purpose of liquidation the franchises of such national banking associations as do not extend the periods of their charters, and making applicable to them the statute relating to liquidation of banking associations, such an association may continue to elect officers and directors for the purpose of effecting liquidation. Butafter the expiration of the term of its charter the stock of such an association is not transferable so as to give the transferee the right to share in the election of directors, and such transferee, not being a stockholder, is ineligible as a director under Rev. Stat., sec. 5145. Richards v. Attleboro National Bank, 145 Mass., 187; i N. B. C., 495.

Extension of corporate existence:

1. The identity of a national bank is not affected by the extension of its term of existence. Trustees of First Presbyterian Chureh v. National State Bank, 29 A., 320.
2. The committee provided for by the fifth section of act of Congress of July 12, 1882, to appraise the national-bank shares of shareholders who do not assent to amendments to the articles of association, may correct a mistake made by them in their approval within thirty days therefrom. First National Banl of Clarion v. Brenneman's Executors, 114 Penn. St., 315; 3 N. B. C., 750.

## False entries:

1. The only remedy for the making of a false return to the auditor, by the cashier of a bank, of the resources and liabilities of the bank, for the purposes of taxation, is afforded by revised statutes of Ohio, section 2679 , which provides that the auditor may examine the books of the bank, and any officer or agent of it under oath, and make out the statement; and any officer of the bank may be fined not exceeding $\$ 100$ for failing to make the statement, or for willfully making a false one. Miller v. First National Bank, 21 N. E. 860.
2. Any entry on the books of the bank which is intentionally made to represent what is not true or what does not exist, with inteut either to deceive its officers or defraud the association, is a false entry within the meaning of the statute. United States y. Harper, 33 Fed. Rep., 471.

False entries-Continued.
3. It may be made personally or by direction. Ib.
4. The erasure of figures already writtell in the books of a national bank and the substitution of other figures which falsify the state of the account constitute a "false entry" within the meaning of sec. 5200 , Rev. St., by which it is declared to be a misdemeanor to make any "false entry in any book, report, or statement of the association, with intent to injure or defraud," etc. United States v. Crecelius, 34 Fed. Rep., 30.
5. Where false entries are made by a clerk at the direction of the president, the latter is a principal. In the matter of Van Campen, 2 Ben., 419 ; United States v. Fish, 24 Fed. Rep., 585.
6. A report of condition of a national bank, whether called for by the Comptroller of the Currency or not, which is a report in the usual form made by an officer of the bank in his official capacity, if it contains a false entry made with intent to deceive, is within Rev. St., sec. 5209 , which declares such false entries to be a misdemeanor. United States $\mathbf{v}$. Hughitt, 45 Fed. Rep., 47.
7. Where false entries were made by a bookkeeper in a statement requested by a national-bank examiner, purporting to give the balance due to depositors, which statement it was the duty of the examiner to make and not the bookkeeper, an indictment for making "false entries in a statement of the association" will not be sustained. United States v. Ege, 49 Fed. Rep., 85 ?
8. In an indictment of an officer of a national bank under sec. 5200 , Rev. St., for making false entries in a report to the Comptroller of the Currency, it is no defense that such entries were made by a clerk and verified by the officer without actual knowledge of their truth, since it was his duty to inform himself. United States v. Allen, $4^{\prime \prime}$ Fed. Rep., 696.
9. A "false entry" in a report by a national-bank officer or a director to Comptroller of the Currency within the meaning of sec. 5209 is not merely an incorrect entry made through inadvertent negligence or mistake, but is an entry known to the maker to be untrue and incorrect and by him intentionally entered while so knowing its false and untrue character. United States v. Graves, 53 Fed. Rep., 634.
10. In determining whether a certain false entry, made by a national-bank officer in a report to the Comptroller, was made with intent to dective or defraud, etc., within the meaning of the statute, the jury are authorized to infer the intent if the natural and legitimate result of such false entry would be to deceive any other officer or officers of the bank or any agent appointed to examine into its affairs. $I b$.
11. In determining whether defendant made a "false entry" within the meaning of the statute when he included in such reports as "Loans and discounts" of the bank amounts which were being carried on the books of the bank as "overdrafts," the jury will not consider whether other national banks followed the same practice; but the jury, in determining whether such entry, if a "false entry," was made with intent to deceive and defraud, may consider whatever knowledge defendant is shown to have had as to practice of any other national bank in this respect. Ib.
12. It is not necessary to complete the offense of making a"false entry" in a report to the Comptroller of the Currency of the condition of a national bank, with intent to deceive or defraud, that any person shall have been in fact actually deceived or defrauded, for the making of such a "false entry" with the intent to deceive or defraud is sufficient. Ib.
13. Under sec. 5209 of the national-bank act it is an indictable offense to make a false entry in a report to the Comptroller of the Currency, or to aid and abet the making of such an entry. United States v. French et al., 57 Fed. Rep., 38 .
14. It is not a "false entry" to enter under heading of "Loans and discounts" items which, on books of the bank and for convenience of its officers, bave been temporarily withdrawn from that heading, and which are, from day to day, carried on the books of the bank under heading of "Suspended loans" while a waiting action of directors as to same being withdrawn from character of loans and entered up as a loss on profit and loss account. United States v. Graves, 53 Hed. Rep., 634.
15. The president and assistant cashier of a national bank are indictable as principals, under Rev. St. . sec. 5209 . for making a false entry in a report, although neither of them actually signed or attested the report. Cochran v. United States, $15 \mathrm{~S} . \mathrm{Ct} ., 628$.

False entries-Continued.
16. The assistant cashier of a bank is indictable under Rev. St., sec. 5209, for making a false entry in a report to the Comptroller, although he is not one of the officers authorized by section 5211 to make such a report; for he may be regarded as within the category of "clerk or agent," within the terms of section 5209 . Ib.
17. An indictment under Rev. St., sec. 5209 , for making a false entry in a report to the Comptroller need not allege that such report was made by the banking association, or that it was actually verified by the oath or affirmation of the president or cashier, or attested by the directors, as required by section 5211; but it is sufficient to aver that defendant made such false entry "in a certain report of the condition of the First National Bank, * ** made to the Comptroller of the Currency in accordance with the provisions" of Rev. St., sec. 5211. Ib.
18. The jury are warranted in finding that false entries were made with guilty intent from the testimony of defendant that the said entries were made under his direction, with the knowledge that they were not transactions of the day on which they were entered in the books of the bank. United States v. Folsom, 38 P., \%o.
19. The "false entry" in the books or reports of a bank, which is punishable under Rev. St., sec. 5209, is an entry that is knowingly and intentionally false when made. It is not the purpose of the statute to punish an officer who, through honest mistake, makes an entry in the books or reports of the bank which he believes to be true, when it is in fact false. United States v. Allis, 79 Fed. Rep., 165.
20. If a president or cashier makes a false entry in a report of the condition of the bank to the Comptroller of the Currency, the jury are authorized to presume, from the talse entry itself, in the absence of any explanation or of any other testimony, that he knew it to be false. This presumption results from the fact that it is the duty of the officer who verifies the report to know the condition of the bank, and if the report is false there is a prima facie presumption that he knew it. Ib.
21. A false entry, either in the books of the bank or in a report of its condition, is punishable only when the jury find that it was nade by the defendant, or by his direction, with the intent either (1) to injure or defraud the bank, or some other corporation, or some firm or person; or (2) to deceive some officer of the bank; or (3) to deceive some agent appointed or thereafter to be appointed to examine the affairs of the bank. If any one of these intents is present the offense is complete. Ib.
22. Where an entry in the hooks or in a report of the bank's condition isin fact false, the jury are anthorized to infer, from the false entry itself, an intent of the defendant to injure or defraud the bank, or some other corporation or individual, or to deceive some officer of the association, or an agent appointed to examine into the condition of the bank, if such would be the natural and probable consequence of the false entry. Ib.
23. A false entry made in the books or reports of a bank by a clerk, bookkeeper, or other subordinate employee, by the command or direction of the president of the bank, is a false entry made by the president, and he is liable to punishment for it if he gives the direction knowing the entry to be false, or with the intent to defraud. deceive, etc. Ib.
24. If a false entry in the books or reports is made with a criminal intent, it is no defense that another false entry is also made, which offsets the former entry, with a like intent; but changes of this character are not as strong evidence of an intent to injure or defraud the bank, or to deceive its officers or examiners, as false entries which enable the officer inaking them to withdraw the funds of the bank without consideration. Ib.
25. Every overdraft, whether made by previous arrangement or not, whether secured or not, and whether drawing interest or not, is a loan, and is required by the law and the rules prescribed by the Comptroller to be listed and reported as an overdraft. It is, therefore, no defense to a charge of false entries in respect to overdrafts that they had been arranged for or secured, or that interest was to be paid upon them by agreement, if such false entries were made with a criminal intent; but in determining the intent the jury may consider the testimony of defendant that he considered the overdrafts as loans. $I b$.
26. If the president of a bank makes or causes to be made false entries in its books, or in reports to the Comptroller, with the intent to deceive or defraud, etc., it is no defense that he struggled to save the bank from

failure and to provide money to pay its depositors by sacrificing his own property and borrowing money from others. Ib.
27. Rev. St., 5209 , making embezzlement, abstraction, or wiliful misapplication of the property of a national-banking association by an officer or agent a misdemeanor, applies to an agent in liquidation appointed by the stockholders. United States v. Jewett, s4 Fed. Rep., 14\%.
28. Averments in an indictment that the defendant was appointed agent in liquidation for a national-banking association, and accepted that office, are not inconsistent with further averments that he afterwards acted as president, clerk, and director of the association. Ib.
29. An indictment against a defendant for the embezzlement and abstraction of the property of a national banking association is not demurrable because it charges the receipt of the property by him in different capacities, both as an officer and as an agent of the association. Ib.
30. An avermentin an indictment against anofficer and agent ot a national banking association that the defendant "did steal, abstract, take, and carry away" property of the association, does not charge two offenses. Ib.
31. An allegation that defendant, an officer and agent of a national banking association, did secretly, in a manner and by particulars to the jurors unknown, willfully, unlawfully, and fraudulently convert to his own use, and misapply, from said association to himselt, certain funds, sufficiently charges the offense of " willful misapplication" of property, under Rev. St., \& 5209 . Ib.
32. Under Rev. St., $\$ 5309$, prohibiting "every * * * cashier * * * of any" national bank from making "any false entry in any * * * report * * * with intent to injure or defraud," etc.. and prescribing a like penalty for "every person who, with like intent, aids or abets any officer," etc., the intent is a material ingredient under each clause; and therefore an indictment which, after duly charging the act and intent in respect to the cashier, merely charges another person with aiding and abetting him to make said false entries "in manner and form as aforesaid," is open to demurrer. United States v. Berry et al., 85 Fed. Rep., 20 ® $^{2}$

## Forfeiture of charter:

1. Forfeiture of the privileges and powers of a national bank must be deter mined by a suit brought by the Comptroller of the Currency and until determined it may do business, and no person, by a conspiracy to evade its regulations, nay escape liability for borrowed money loaned by it upon personal security in the manner authorized. Stephens v. Monongahela National Bank, ss Penu. St., 157; 32 Am. Rep., 438; 2 N. B. C., 398.
2. Under Rev. St., sec. 5339, providing that if the directors of a national bank shall violate any of the provisions of the title relating to the organization and management of banks, the franchises of the bank shall be forfeited, such violation, however, to be determined by a proper court of the United States in a suit therefor by the Comptroller, and that in case of such violation every director participating therein shall be personally liable for all damages which the bank, its shareholders, or any other person shall have sustained in consequence thereof, the Comptroller can not authorize the receiver to bring suit, under sec. 5234 , to enforce such personal liability, until it has been adjudged by a proper court that such acts have been done as authorize a forfeiture of the charter. Welles v. Graves. 41 Fed. Rep., 459.
3. The forfeiture of the rights, privileges, and franchises of a bank authorized by Rev. St., sec. 5239 , for violation by its directors of the provisions of the banking act, comes withm sec. 1047, limiting suits for any penalty or forfeiture accruing under the laws of the United States to five years. $I b$.
4. The right to maintain an action under Rev. St., sec. 5339, to recover from a bank director the damages sustained by his bank in consequence of excessive loans made by him while serving in the capacity of director, is not affected by the fact that the Comptroller has or has not procured a forfeiture of the bank's charter. Stephens v. Overstolz, 43 Fed. Rep., \%/\%1.
5. In an information charging that "' the banking association and the directors thereof did knowingly permit," etc., the allegation that the association,

aside from the directors, permitted the doing of the alleged acts, tenders an immaterial issue, and should be stricken out on motion. Trenholm, Comptroller, v. Commercial National Bank, 98 Fed. Rep., 323.
6. As the section only refers to acts done by the directors, or by the executive officers with the knowledge of the directors, an information, seeking a forfeiture, which charges that the association did the act is insufficient. 16 .
7. It seems that to maintain a suit by the receiver of a national bank to enforce the liability of its directors, arising under the provisions of Rev. St., § 5239 , it must appear that a forfeiture of the charter of the bank has been adjudged by a court of the United States, at the suit of the Comptroller of the Currency, as provided in that section. Welles v. Graves, 41 Fed. Rep., 450 , reaffirmed. Hayden v. Thompson, 17 C. C. A., 592 ; 71 Fed. Rep., 60, distinguished. Stephens v. Overstolz, 43 Fed. Rep., 771, disapproved. Gerner v. Thomson et al., 74 Fed. Rep., 125.

## Forgeries:

1. A depositor owes a duty to the bank to make an examination of his pass bouk and vouchers within a reasonable time; and if loss would result to the bank from his failure to do so he can not recover for forged checks paid by the bank and charged to his account. First National Bank v. Allen, 14 So., 335.
2. Where the examination is committed to a clerk or agent who has himself committed the forgeries, his concealment of such forgeries will not relieve the depositor from the consequences of the failure to discover the fraud and notify the bank. $I b$.
3. But if the omission of the depositor to discharge such duty has resulted in no injury to the bank, the depositor may recover. $1 b$.
4. Where, however, forgeries by the same person are committed after the depositor is chargeable with knowledge of the fact, the failure of the depositor to give the bank notice may estop him to dispute the genuineness of such checks. Ib.
5. Plaintiff bank paid delendant bank money on a forged order, made payable at plaintiff bank, bearing the general indorsement of the payee and of deiendant, the latter being "For collection." The person by whom the order purported to be drawn was a customer of plaintiff, and had directed it to pay orders drawn by hin. The forgery was not discovered for four weeis. Held, that an answer alleging that at the time of the payment the payee had property from which the order could have been collected, but that before the discovery of the forgery the payee had departed with his properiy, was not sufficient to prevent recovery of the money paid defendant, as it did not show how long the payee and the property remained within reach, and therefore failed to show loss to defendant by unreasonable delay of plaintiff in discovering the forgery and notifying defendant. Indiana National Bankv. First National Bank, 36 N. E., 38 .
6. In an action against a bank by a depositor to recover the amount of checks drawn by plaintiff, butalleged to have been paid by defendant on indorsements of the payees' names forged by plaintiff's cashier, part of whose duty was to fill in the body of checks for plaintiff to sign, pay bills, and keep the accounts, it appeared that the money on the checks in question had been obtained by plaintiff's cashier, but there was no evidence that any payees had been named in them, the canceled checks having been destroyed by the cashier. Held, that plaintiff could not recover, as it would not be presumed that the cashier committed forgery in addition to the embezzlement, when he could have avoided forgery by making the checks payable to "cash" or "bearer," in which event defendant would not be liable. National Board of Marine Underwriters $\mathbf{v}$. National Bank of the Republic, 29 N. Y. S., 698.
7. Defendant bank received a check drawn on plaintiff for collection. After plaintiff had remitted to defendant and defendant had paid the holder of the check, it was discovered that the payee's name was forged. Held, that delay of plaintiff in notifying defendant of the forgery did not relieve defendant from liability, where the only evidence of injury from the delay was that of defendant's cashier, who said: "If more seasonable notice had been given the forger would have been arrested earlier, and more favorable results might have arisen." Third National Bank v. Merchants' National Bank, 2y N, Y, S., 1070.

## Forgeries--Continued.

8. In an action by a bank which has paid to another bank a check drawn on the former bank and transferred to the latter by a forged indorsement, it is immaterial whether the signature of the drawer of the check is genuine, since both parties are estopped to deny its genuineness. First National Bank v. Northwestern National Bank (Ill.), 38 N. E., 739.
9. The defendant, as collecting agent of the Bellaire Bank of Ohio, collected at the subtreasury, New York, a pension draft on which the payee's name was forged after her death. The defendant, in making the collection, indorsed the draft as collecting agent of the Bellaira Bank, as appeared by the terms of its indorsement. and on collection at once paid over the money to the principal, without notice of the forgery, before this action was commenced. Held, that the defendant was not liable. The case of Onondaga Co. Sav. Bank, 12 C. C. A., 407: 64 Fed. Rep., ros, distinguished. United States v. American Exchange National Bank, \%o Fed. Rep., 293.
10. Defendants, who were note brokers at Omaha, and who had done busincss as such with the plaintiff bank in Iowa. sent to plaintifi by mail a list of commercial paper offered for sale, including a note described as made by seven persons jointly to the order of one B., and indorsed by B, and another. The list sent plaintiff was headed by defendants' business card as brokers, and it contained sundry items of information about the parties to the note, purporting to be the result of inquiries as to their solvency and standing, and indicating that the same were good. Plaintiff purchased the note, and, by defendants' directions, remitted the sum paid therefor to a bank in Chicago. Defendants received from such sum only their commission for selling the note, the balance being paid to B., for whom they sold it. It afterwards proved that all the signatures on the notes, except that of B., were forgeries, and that B., although at the time of the sale of the note reported to be solvent, was in fact insolvent and wholly worthless. Plaintiff sued defendants to recover the amount paid for the note on an alleged warranty of genuineness. Held, that there was nothing in the note or in the circumstances of the transaction between plaintiff and defendants to justify an assumption that defendants had any interest in or ownership of the note, but, on the contrary, that the plaintiff bank must have known that it was taking title as the indorsee of B., and that defendants were acting as brokers only, and, accordingly, that defendants, having acted only as agents of a disclosed principal, could not be held personally liable for the note. Monticello Bank v. Bostwick et al., 71 Fed. Rep., 641.
11. The forgery of the maker's name to a renewal note, delivered by the payce to the holder of the original note, does not discharge the maker from liability on such original note, as the giving of a forged note in lieu of it does not operate as payment. Second National Barkv. Wentzel (Pa. Sup.) 24 A., $108 \%$.
12. In an action on a note by a bank against the indorser who alleges his signature to be a forgery, evidence by the cashier and teller of the bank that the indorser had admitted the genuineness of his signature on another note, not in evidence, and that such other signature was precisely the same as the signature to the note in suit, is not competent for the purpose of estopping the indorser from denying such signature. Ib.
13. Testimony by the teller of the bank that the indorser liad admitted his signature to a note for which the one in suit was given as a renewal is properly stricken out as irrelevant, where the teller subsequently acknowledges that the indorser's admission related to another note, not connected with the one in suit. $I b$.
14. Evidence by defendant, on cross-examination, denying that he had received the proceeds of other notes, not in suit, which had been indorsed by him, and which had been negotiated by the maker. who also negotiated the one in suit, can not be contradicted by plaintiff in rebuttal, since such cross-examination related to an irrelevant matter. Ib.
15. In an action against an indorser on a renewal note, who was released from liability on the original note because it was not protested for nonpayment, it is error to charge that there may be a recovery if the indorsement on the first note was geuuine, notwithstanding the indorsement on the renewal note was a forgery; but the jury having found for the indorser, plaintiff can not complain of such instruction. Ib.

## Forgeries-Continued.

16. An admission by the indorser of a note as to the genuineness of his signature, made to the holder after it had discounted the same, does not estop him from denying the genuineness of the alleged indorsement on a renewal note given by the maker, the indorser having been released from liability on the original note by reason of its nonprotest for nonpayment. $I b$.
17. A bank, which holds a note made by two persons as principal and surety, in accepting. in good faith, at maturity, a renewal note to which the name of the surety was forged by the principal, is not bound to know the handwritins of the surety, and is, hence, not guilty of negligence, entitling the surety to a discharge from liability on the original note, in failing to compare the surety's signatures on the two notes, respectively, with reterence to ascertaining the genuineness of that on the renewal note. Lyndonville National Bank v. Fletcher (Vt.), 34 A., 38.
18. The right of the United States Government to recover money paid on a check on the Treasury, under a forged indorsement, is conditioned on promptness in giving notice to the person to whom the check was paid. Uuited Stales v. Clinton National Bank, , 88 Fed. Rep., $85 \%$.
19. A bank clerk, whose duty it was to prepare exchange for the cashiers signature, so drew a draft for $\$ 25$ to his own order that the amount could be readily altered, and, after procuring the cashievs signature by pretending that he wished to mate a remittance of that amount, altered the draft so that it presented the appearance of a genuine draft for $\$ 2,500$, and thereafter indorsed it, and procured it to be discounted. Held, that the forgery by the clerk, and not the negligence of the bank, was the proximate cause of the loss, and the bank was not liable therefor. Exchange National Bank of Spokane v. Bank of Little Rock, 58 Fed. Rep., 140.
20. The bank was not liable on the ground that the forger was its confidential employee, because in this transaction he acted as a purchaser and not as an employce, and becanse the purchase of the draft was complete, and he was the owner of it when the forgery was committed. $I b$.
Guaranty:
21. A personal guaranty, given by stockholders and directors to another bank in cousideration of loans, discounts, or other advances to be made, for the repayment of any indebtedness thus created. imposes a liability on the guatrantors when acted on by the guaranty, though no notice of the acceptance of the guaranty was given, for the contract shows a personal interest of the guarantors in the advances constituting a consideration moving to them. Doud et al. v. National Park Bank, 54 Fed. Rep., 846.
22. Receivers were appointed for an insolvent investinent company, incorporated under the laws of Missouri, whose liabilities consisted mainly of guaranties, in various forms, indorsed on bonds, secured by real estate mortgages, executed by borrowers to the company, and subsequently sold aild transeerred by it to investors with the guaranties mentioned. Held, that the rights of such investors were governed by the State statute relating to assignments for benefit of creditors, which provides that the assignment shall be "for all the creditors of the assignor in proportion to their respective claims" (Rev. St. Mo. 1889, \$424); that, in the d stribution of the property of such company, all claims should be allowed which, at the time of the appointment of the receivers, (1) furnished a present cause of action against the guarantor, or (2) constituted direct obligations on its part, whether due or to become due, or (3) which, though not then matured, or not constituting direct obligations, thereafter matured or would mature, or become direct obligations, before any order of distribution was made; and that all claims should be rejected (1) which arose on guaranties of collection, as distinguished from guaranties of payment, where no proceedings had been taken by the holder to collect from the maker or from the mortgaged premises, or (2) which were not matured, and in respect to which there had been no default of interest, or (3) in which by agreement between the bolder and maker, without the assent of the guarantor, the time of payment of the principal obligation had been extended. on default in payment of interest or other preliminary obligation, when, by the terms of the contract, such default is made to precipitate maturity of the debt. $I b$.
4. Receivers were appointed for an insolvent investment company, which had sold and transferred obligations secured by mortgage, with guaranties of payment thereof, but with a provision that, in case of default, it should have two years within which to collect and pay over the amount of the debt. Held, that claims arising on these guaranties were provable against the receivers where default had occurred and the two years had expired, whether these two events had occurred both before the appointment of the receivers, or one before and one after such appointment, or both after the appointinent; and, further, that such claims were provable after default, although the two years should not expire before the order of distribution. Ib.
5. A guaranty of collection of an obligation secured by mortgage which is transferred by the guarantor is an undertaking to pay the debt on condition that the person to whon the guaranty is given shall diligently proceed against the principal debtor and the mortgage security, and, in default of such diligence, the guarantor is released. Ib.
6. An investment company selling and transferring an obligation secured by mortgage agreed, by indorsement thereon, "tirst, to guarantee the payment of the coupons attached hereto at the maturity thereof; second, to collect at its own expense, and to pay over the principal hereof at maturity, provided the same is paid by the maker; third, in event of default being made by the maker, to collect at its own expense and to pay over the principal hereof within two years from maturity of the same," with interest at 6 per cent per annum. Held, that this was a guaranty, not of collection merely, but of payment. Ib.

9. Where one parchased negotiable paper from the president of a bank with a guaranty of payment executed by him apparently in behalf of the bank, on his representation that the paper belonged to the bank, and the transaction occurred in the banking house where the president was apparently engaged in performing his duties as such, the bank was liable on the guaranty. 10. Where a promissory note is transferred, and the collection of it is guaranteed by the payee in the following form, to wit: "This note is transferred, and the collection of the same guaranteed to the holder hereof," the makers can make any defence to a suit commenced by an assignee that could liave been made to a suit if commenced by the payee, notwithstanding the assignee may take the note before due and without knowledge of any infirmity in the note. 12. The vice-president of a national bank, upon making a transfer for value of certain notes belonging to the bank (the bank being the correspondent of the transferee), executed this guaranty: "In accordance with your telegram, I herewith hand you ten notes of $\$ 5,000$ each." "We debit your account, $\$ 50,000$." "This bank hereby guarantees the payment of the principal sum and interest of said notes." This was done in behalf of the bank, and the notes were also endorsed by the same individual as vice-president of the bank. It was done with the knowledge and consent of the president and cashier of the bank, but without authority of the directors, as a board, or the majority of its members individually. Held, that the bank was liable on the guaranty. People's Bank of Bellevillev. Manufacturers' National Bank of Chicago, 101 U. S., 181; 2 N. B. C., 97.

13. F. owed H. \& Co., on account, about $\$ 22,000$. He settled this in part by a cash payment and in part by a transfer of promissory notes payable to himself, the payment of two of which, for $\$ 5,000$ each, was guaranteed by him in writing. H. \& Co: transferred these notes to a bank as collateral to their own note for about $\$ 13,000$. They then became insolvent and assigned all their estate to P., as assignee, for distribution among their creditors. The bank sued F. on his guaranty. Heset up in defence that his indebtedness to H. \& Co. grew out of dealings in options in grain and other cominodities to be settled on the basis of "differences," and that it was invalidated by the statutes of Illinois. where the transactions took place. The court held that he could not maintain the statutory defence as against a bona fide holder of the guaranteed notes, and gave jodgment against him. Execution on this judgment being returned unsatisfied, a bill was filed on behalf of the bank to obtain a discovery of his property and the appointment of a receiver, to which F., and the nıaker of the notes, and R., with others, were made defendants. P., the assignee of H. \& Co., was, on his own application, subsequentiy made a defendant. An injunction issued, restraining each of the defendants from disposing of any notes in his possession due to $F$. Subsequently to these proceedings, F. assigned to R. the two notes which H. \& Co. had transferred to the bank. P., as assignee of H. \& Co., filed a cross-bill in the equity suit, showing that the judgment in favor of the bank was in excess of the balance due the bank by $H$. \& Co. R. filed an answer and a cross-hill in that suit, setting np his claim to the said notes, and maintaining that the judgment in favor of the bank was invalid, as being in conHict with the statutes of Illinois. Held, (1) that the liability of F. upon the guaranty was, as between the bank and him, fixed by the judgment in the action at law; (2) that all the bank could equitably claim in this suit was the amount actually due it from H. \&. Co., which was considerably less than the amount of the face of the notes; (3) that the transfer and guaranty of the notes to $\mathrm{H} . \& . \mathrm{Co}$. were void under the Illinois statutes, and passed no title to them or their assignee; (4) that R. was the equitable owner of the notes, and was entitled to receive them on payment to the bank of the amount of the indebtedness of H. \& Co. to it; (5) that the assignment to R. having been made in good faith and for a valuable consideration, he was a person interested in the object to be attained by the proceedings within theintent of the statute. When, by filing a replication to a plea in equity, issue is taken upon the plea, the facts, if proven, will avail the defendant only so far as in law and equity they ought to avail him. Pearce v. Rice, 142 U. S., 28.
14. A national bank went into voluntary liquidation in September, 1873. Before that it had become liable to a State bank as guarantor on sundry notes made by a third person, and which were discounted for it by the State bank. In Angust, 1874. transactions took place between the maker of the notes and the State bank and the person who acted as the president of the national bank whereby the maker was released from further liability on the notes, but such acting president attempted to continue by agreement the liability of the national bank as guarantor. In a suit begun in October, $18 ; 6$, a judgment on the guaranty was obtained in May, 1880, by the State bank against the national bank. In a suit brought by a creditor against the national bank and its stockholders to enforce their statutory liability for its delits, the court, on an application made in June, 1887, enquired into the liability of the stockholders to have the claim of the State bank enforced as against them in view of the transactions of August, 1874, and disallowed that claim. Held, (1) it was proper to reexamine the claim; (2) the judgment against the bank was not binding on the stockbolders, in the sense that it conld not be reexamined; (3) the guaranty of the bank was released as to the stockholders by the release of the maker of the notes; (4) the rights of the stockholders could not be affected by the acts of the president done after the bank had gone into liquidation. Schrader v. Manufacturers' National Bank of Chicago, 139 U. S., Jan. 20, 1890, page 67.

17. The act of Congress authorizing the organization of national banks confers upon them no authority, either iu express terms or by implication, to guarantee the payment of debts contracted by a third person, and solely for his benefit; and acts of this nature, whether executed by tho cashier or the board of directors, are necessarily ultra vires. Commercial National Bank et al. v. Pirie et al., 82 Fed. Rep., '999.
18. The presentation by a merchant seeking to purchase goods of a written guaranty, by a national bank, of payment for any goods he may purchase, even if it implies a representation that the bank is financially sound, is not of itself a fraudulent representation, such as will justify a rescission, since the seller is chargeable with knowledge that in law such a guaranty by a national bank is ultra vires and void. $I b$.

1. An indictment under act of July 12, 1882, amending sec. 520s, making it a misdemeanor to "certify any check" drawn by a person not then having on deposit sufficient money to meet same, need not allege delivery of check by bank after certification. United States v. Potter, 66 Fed. Rep., 83.
2. When indictment alleges certification as accomplished, anthentication will not be presumed as an essential part thereof, and hence it is unnecessary to allege absence of required credit or deposit at time of authentication. Ib.
3. The indictment in charging, in the language of sec. 5208 , that the drawer of the check had not on deposit, at the time it was certified, "ann amount of noney equal to that specified " in the check is sufficient. 1b.
4. The indictment does not charge two offenses in the same count, becanse it alleges therein that the check was certified "before the amount thereof had been entered to the credit of the drawer on the books of the bank," and also at a time when the drawer did not " have on deposit an amount of money equal to " the amount of the check. 9. In indictment under Rev. St., sec. 5209, for willfully misapplying the funds of a national bank, it is not necessary to charge that the funds had been previously intrusted to defendant, since such act may be done by an officer or agent of the association without his having previously received the funds into his manual possession. United States v. Northway, 129 U. S.. $3 \% \%$.

12. An indictment for willfully misapplying funds of a national bank (Rev. St., sec. 5209), charging in general words fraudulent misapplication and intent to defraud the bank, and describing specifically funds misapplied and the manner of misapplication, need not negative every possible theory consistent with an honest purpose in the disposition of the funds specified. Erans v. United States, 14 S. Ct., 934; 1b., 939.
13. An indictment charging directors of a national banking association with making false eutries in a report of condition to the Comptroller of the Currency can not be sustained under sec. 5209. United States v. Potter, 56 Fed. Rep., ${ }^{8} 9$.
14. The use in an indictment, under sec. 5209 , of the words " then and there," in alleging that the defendant was president or director of such bank and made alleged false entries, is not uncertain or repugnant merely because in one place they may refer to the whole of a day and in another to only one instant of the day. Ib.
15. The onnission of the signs for dollars and cents in the recital of alleged false entries in reports and misnomer of reports are immaterial where reports are set out by their tenor in the indictment. Ib.
16. It is not necessary to allege specifically in such indictment that the reports were transmitted to the Comptroller of the Currency or that they were published. $1 b$.

United States v. Potter, 56 F'ed. Rep., 97.
19. When indictment alleges that the false entries indicated that there was then in the paying teller's department of the bank certain amount in gold, legal tenders, and gold certificates, when in fact such amount was not there, it is not necessary that it should further allege that such amount was not then in other departments of the bank. Ib.
20. In addition to the entries themselves, the indictment need set out the context only when it so modifies the entries as to be in presumption of law a part of them. Ib.
21. The fact that the note teller's and paying teller's books, in which the president is charged with making the false entries, are usually kept by those officers without interference by the president does not invalidate indictment thereon. Ib.
22. Counts charging false entries by the president in reports of condition of the bank, which allege that reports were made in conformity to the law, and then set them out by their tenor, are bad for their failure to allege specifically that the reports were verified and attested by the cashier. 24. It is sufficient if the indictment allege the substance of the reports in question without setting them out in full. Ib.
25. An allegation in an indictment under sec. 5203 that defendant "did make a certain false entry in a certain report of the association" will not be construed to mean that the entry was made after the report was completed and was, in fact, an alteration. $i b$.
26. The preparation and completion of the report, the making of the false entry therein, its verification, attestation, and delivery to the Comptroller may be considered as simultaneous, and there is no repugnance in failing to allege that any or all of these things occurred in consecutive order. Ib.
27. 33. An indictment of H . and other persons for violation of Rev. St., sec. 5209, averred that "said H., then and there being president" of a certain national bank, "by virtue of his said office as president, aforesaid," "misapplied the funds," with intent to defraud, etc., and that such other persons did unlawfully, feloniously, "knowingly," and with intent to defraud, aid and abet the "said H., as aforesaid." Held, that the indictment averred that the aiders and abettors knew that $H$. was president of the bank at the time it is averred the acts were committed. Ib.
34. Such indictment charged that H. did misapply the moneys of the bank with intent to convert a certain sum to the use of a specified company by causing it to be paid out of the moneys of the bank on a check drawn on the bank by such company, which check was then and there cashed and paid out of the bank's funds, which sum, and no part thereof, was such company entitled to withdraw from the bank, because it had no funds therein, and that said company was then and there insolvent, as H. well knew, whereby said sum became lost to the bank. Held, that the indictment averred the actual conversion of the sum misapplied. Ib.
35. Where an indictinent under Rev. 7. A bank recovered judgment at law by default on a note made by a wife to the order of her husband, and subsequently the wife obtained an order opening the judgment, with unrestricted leave to plead. She pleaded that she ocupied the position of surety on the note and was a married woman, and also that it was a contract made with her husband and therefore void at law. The bank then filed a bill in equity for an injunction against setting up these defenses at law. On the trial of the issues thus raised the deieuse of suretyship was not sustained. Held, that the bank was in effect compelled to come into equity by defendant pleading that the contract was between lusband and wife, and that, having established its case there on the merits, defendant should not be permitted to litigate it again in the law courts. The new stock subscribed for and paid in did not amonnt to enough to make the capital stock $\$ 1,000,000$, and the directors then voted that the capital stock be increased by the sum paid in. The Comptroller of the Carrency was notified that the capital stock of the bank had been increased to that extent, and he issued a certificate anthorizing the bank to carry on business with that amonat of capital stock. The amount paid in, as above, was used by the bank in its general business, and lost within a month after the certiticate was issued, the bank having suspended. 17. The plaintiff, a citizen of New York, claiming title by assignment to the bonds deposited with the Treasurer of the United States to secure the circulation of a national bank, filed a bill setting forth that the Comptroller of the Currency and the Treasurer refused to recognize his right to the bonds or their proceeds; that the Comptroller had appointed one K., a citizen of New York, receiver of the said banls, and intended to sell the said bonds and to pay the proceeds, after redeeming the circulation of the bank, to the general creditors of the bank, or to $\mathbf{K}$. as such receiver, and that K. claimed as such receiver an interest adverse to the plaintiff in said bonds. The bill made the Comptroller, the Treasurer, and K. parties defendant, and prayed a decree establishing the plaintiff's titlo and requiring the Comptroller and the Treasurer to deliver to the plaintiff the surplus of the bonds after redeeming the notes of the bank, and annulling the appointment of K . as receiver. K . demurred to the bill for lack of equity. Held, that the demurrer must be sustained. Van Antwerp v. Hulburd, 8 Blatchford, SSZ; 1 N. B. C., 219.

Ib.
19. Per Hall, J. The residuary interest of the bank in the bonds was a part of the assets of the bank, to which K., as receiver, was entitled, unless the plaintiff's claim thereto was good, and that therefore the bill presented a question of property between plaintiff and K., but that, as plaintiff and $K$. were residents of the same State, the circuit court had not jurisdiction. $I b$.

Where a national bank is declared in default by the Comptroller of the Currency, and a receiver is appointed, and a sufficient fund is realized from its assets to pay all claims against it and leave a surplus, the Comptroller should allow interest on the claims during the period of administration before appropriating the surplus to the stockholders of the bank. Chemical National Bank v. Bailey, 12 Blatchford, 480; 1. N. B. C., 260.

24. Insolvent debtors of an insolvent national bank assign, giving preferences in favor of the bank. Quære, whether the debt preferred shall carry interest. Held, that where there is nothing in the language of the assignment, or in the circumstances under which the debt was created, to megative the presumption that the debt should bear interest, and nothing in the conduct of the receiver of the national bank to estop him from claiming interest, in such a case interest must be paid. Bain et al. v. Peters, 44 Fed. Rep., S07.

Merrill v. Florida Land and Improvement Co., 60 Fed. Rep., 17
27. When a bank has become hopelessly insolvent, and its president knows that it is so, it is a fraud to receive deposits of checiks from an innocent depositor, ignorant of its condition, and he can reclaim them or their proceeds; and the pleadings in this case are so framed as to give the plaintiff in error the benelit of this principle. St. Louis and San Francisco Railway Co. v. Johnsion, 183 U. S., 566.
28. Sureties on indebtedness of insolvent bank are not entitled to prove any claim against it by reason of the enforcement of their liability as such. Stewart v. Armstrong, 56 Fed. Rep., 167.
29. Where an indorser pays a note to a bank and takes a receipt containing an order for a surrender of the note on return of the receipt, the relation between the bank and the indorser is not that of debtor and creditor, but is a fiduciary relation, entitling the indorser, on the bank becoming insolvent without applying the money on the note or procuring its surrender, to have the assets in the hands of its receiver applied in payment thereof. Massey v. Fisher, 62 Fed. Rep. 958.
30. The fact that the money was not marked, and by a mingling with other funds of the bank lost its identity, does not affect the right to recovery in full, if it can be traced to the vaults of the bank and it appears that a sum equivalent to it remained continuonsly therein until removed by the receiver. $1 b$.

Chemical National Bank v. Hartford Deposit Company (Ill. Sup.), 41 N. E., 225.
32. One induced to subscribe for certificates alleged to represent an increase of the capital stock of a national bank at a time when no increase had been authorized, on false representations of the cashier as to the bank's condition, it being in fact insolvent at the time, is entitled to a judgment against the bank and its receiver for the purchase money paid. Newbegin v. Newton National Bank (C. C. A.), 66 Fed. Rep., ro1.
33. A contract between two national banks that the proceeds of paper, discounted by one for the other, should not be drawn on in advance of the maturity of such paper, is not affected by the subsequent fraud of the bank obtaining the discount in reporting such proceeds to the Comptroller of the Currency as part of its cash reserve. Fisher v. Tradesmen's National Bank (C. C. A.), 64 Fed. Rep., ro6.
34. A contract by which one bank pledges any of its property in the hands of another bank, as collateral to notes discounted for and guaranteed by it, authorizes the discounting bank to hold a deposit balance, standing to the credit of the borrowing bank at the time of its insolvency, as collateral to any liability, then or at maturity of the discounted notes, until the amount of the lien has been ascertained. 37. Rev. Stat., sec. 5249 , which invalidates all transfers of the notes, bonds, or bills of exchange of a national bank after the commission of an act of insolvency with a view to the preference of one creditor over another, does not prohibit a bank which has in good faith accepted the draft of a national bank the day beifore the latter's insolvency, and afterwards paid the same, from applying the proceeds of collections made by it on paper in its hands belonging to the insolvent bank to the payment of the draft, since its lien on such collection runs from the date of the acceptance. In re Armstrong, 41 k'ed. Rep., 381.
38. Sections 5151 and 5239, Revised Statutes, exclude banking associations from none of the remedies for the collection of debts, claims, and dues for the bank or its creditors provided by the general rules and principles of law and equity, but they impose upon shareholders and directors additional liabilities and subject them to proper remedies for their enforcement. Hayden v. Thompson, Gir Fed. Rep., :'ش.
39. In the State of Nebraska a suit to recover from an innocent shareholder of an insolvent national bank an unearned dividend which he has received in good faith without notice of any fact that would lead a reasonably prudent man to learn that tle dividend was not earned is barred in four years from its receipt. Ib.
40. The fact that trustees holding lands in trust for a national bank formally and regularly execute a deed thereof to a third party itself raises a presumprion that the deed was made pursuant to a regular resolution of the banks board of directors, and the deed must he held sufficient to convey the legal title where there is nothing to rebut the presumption. Butler ct al., v. Cochrill, ris Fed. Rep., 945.
41. A bank for which certain mill property was held in trust caused the same to be conveyed to a corporation, organized among its own officers and directors, with a view to loaning to such corporation money wherewith to repair and operate the mills and make them salable. The bank directors who subscribed for stock in the mill corporation had a secret agreement with the loank that, after a sale of the property was effected the proceeds should be first appicd to repay the anount of their subscriptions. The money was loaned accordingly, the bank taking the mill company s notes, and discounting them with innocent third parties. No sale was effected, and the bank and mill company failed, and all their property went into the hands of the bank's receiver. Thereafter the mill company gave to such subscribers its own notes, secured by mortgage, for the amounts paid on the stock, and the notes were then transterred to alleged innocent purchasers. Held, that these notes were without consideration. that this was a futile attempt to divert the property of an insolvent corporation from its creditors to its stockholders, and that the proceeds of the receivers sale of the mill property must be equally distributed among the holders of the notes given by it to the bank for the borrowed money, the receiver taking for the bank's creditors the proportion applicable to such of the notes as were retained by the bank. Ib.
42. A depositor who receives an ordinary certificate of deposit, and whose money is mingled with the other funds of a bank, is not entitled. on the insolvency of the bank, to any preference over other creditors, even though the banker promised him to keep his money separate from the other tunds. 44. The California "Bank Commissioners' Act" (St. 1877-78, p. 740, as amended by St. $1886-87$, p. 90) provides in section 11 that ir the commessioners shall find that any bank has violated its charter or law, or is conducting business in an unsafe manner, they shall require it to discontinue such practices; and in case of refusal, or whenever it shall appear to the commissioners unsafe for the bank to continue business, they shall notify the attorney-general, who may commence suit to enjoin the transaction of business by such bank; and, upon the hearing of such suit, the court may issue the injunction, and direct the commissioners to take such proceedings against the bank as may be decided on by its creditors. The section also empowers the commissioners to supervise the affairs of banirs in process of liquidation, limit the number of their officers and employees, and requires reports to the commissioners by such banks. Held, that a court in which proceedings are instituted by the attorney-general against a bank pursuant to such statute has no jurisdiction to appoint a receiver of the property of the bank in such proceedings, though the bank commissioners and the creditors of the bank consent, and though there are provisions in the Code of Civil Procedure authorizing the appointment of receivers in other proceedings. Murray v. American Sutrety Co. of New York (C. C. A.), ro Fed. Rep., 3.41.
45. Where plaintiff sent a note and mortgage to a bank with directions to collect the same and "forward draft" for the amount, less its colle tiven fee, the money receive? by the bank in payment thereof was not impressed with a trust in plaintiff savor so as to entithe her to recover the whole amount as a preferred clam from a receiver appointed for the bank after the collection was made, though said bank was insolvent at the time it received said note and mortgase and thong payment was made by the mortgagor with a check drawia on the banE. Higgins v. Worthington (Sup.), 35 N. Y. S., si5.
47. Where a check payable to two persons as Government officers is indozsed by one of them for both, by indorsement showing their official character, and deposited in a bank to be credited to his individual account, and thereby becomes mingled with the funds of the bank, the fact that the check was intrusted to them as officers can not be urged by the payees to charge the proceeds as a trust fund in the hands of an assignee in insolvency of the bank, in an action to which the Government is not party, and in which the authority of the depositing payee to act for his copayee is not denied. Meldrum $\mathbf{y}$. Henderson (Colo. App), 43 P., 148.
48. A creditor of an insolvent national bank is entitled to prove the whole amount of the claims against it held by him, without reference to the collateral held to secure such claims. Armstrong v. 50. In a suit against a receiver of an insolvent national bank to establish the claim of a creditor and his right to a dividend, the decree should not direct the payment of a dividend by the receiver, since the assets of such bank are, under the statutes, entirely within the control and disposition of the Comptroller of the Currency, but such decree should direct that the claim of the creditor, as established, be certified to the Comptroller, to be paid in due course of administration. Ib.

52. While the N. Bank was in embarrassed circumstances. plaintiff wasinduced, by the fraudulent misrepresentations of its cashier, to subscribe, in May, 1890 , for 62 shares of a proposed increase of its capital stock, and to pay in a large sum of money therefor. In the following November the bank failed, and the plaintiff, who lived at a distance, in another State, receiving then lis first intimation that anything was wrong, proceeded to make inquiries, and, as a resuit, instituted proceedings before the Comptroller of the Currency to have the stock standing in his name declared void, and himself not a stockholder. These proceedings failing, he took steps in May, 1891, to have a bill filed to rescind his subscription. At the request, however, of parties who were trying to reorganize the bank, he consented to withdraw such suit, and surrender his stock to be canceled, upon an express agreement that it should be without prejudice to his right to sue the bank for the fraud by which he had been induced to subscribe and pay his money therefor. Plaintiff did not participate in the reorganization, and consistently maintained that he was not a stockholder, and that the bank was liable to him for the money paid. Upon the reorganization the creditors of the bank accepted in settlement a pryment in cash and certain certificates of indebtedness. In November, 1891, plaintiff brought this action against the bank to recover the money paid by him, as a deposit. In December, 1892, the bank failed again. Held, that the occurrence of the insolvency, of the bank before the commencement of plaintiff's action did not preclude him from rescinding his subscription and recovering back the money paid for his stock. Newton National Bank v. Newbegin (C. C. A.), 14 Fed. Rep., 185.
53. In an action for an alleged balance, it appeared that defendants McG. and W. illegally undertook to corner the lard market; that McG. was a pariner in the firm through whom the transactions were carried on, but that W. was not; that the deal ruined the firm, and that the receiver for it undertook to effect a settlement; that defendants were personally liable for a part of the indebtedness by their indorsements on the firms notes, and that at the receiver's solicitation they agreed to contribute a certain sum each on consideration of a release from all creditors; that the receiver thereupon submitted the firm's proposition to pay 50 per cent of the indebtedness, in full settlement of all unsecured claims, stating that the affairs of the firm were in great confusion and that unless the compromise were effected the natter would "only terminate after long, vexatious, and fruitless litigation;" that all of the creditors accepted the payment and signed a release in full. Held, that the transaction was a valid compromise. (Winslow and Pinney, JJ., dissenting.) Continental National Bank v. McGeoch (Wis.), 66 N. W., 606.

no oversight of its affairs. He was engaged in stock speculations on his own account in New York, and drew from time to time for his own purposes in favor of K. \& Co., his brokers, on the bank balance with the Third National Bank. K. \& Co. from time to time returned to that bank sums to be credited to the Albion bank. The latter bank eventually became insolvent, being ruined by fraudulent operations of W., who disappeared, and was put in tha hands of a receiver, who brought suit against K. \& Co. to recover the sums so paid to them by W. out ot the balance to the credit of the bank with the Third National. K. \& Co. claimed to ofiset the return payments made by them to the Third National, but the trial court ruled that they were not entitled to do it, and no question in respect of them was submitted to the jury. Feld, that the decendants were entitled to have it submitted to the jury whether the other directors and officers of the Albion bank might not in the exercise of proper and reasonable care have ascertained that these moneys had been deposited to the credit of the Albion bank, and whether they would or would not have accepted such denosits as the return of the moneys to the bank. Laws Vt., sec. 1870) transferred certain securities to the bank with a view to preferring it over his other creditors. Held, that knowledge on the part of defendant of his insolvency affected the bank of which he was cashier with such lmowledge and made the transfer of such securities void, under Rev. Laws Vt., sec. 1860, which provides that a conveyance made by an insolvent, or one in contemplation of insolvency, within four months before the filing of a petition of insolvency by or against him, with a view to giving a preference to certain of his creditors, the latter having knowledge of lis insolvency, is void. Witters v. Soules and others, 39 Fed . Rep., r6.
62. Other securities were deposited by the cashier with his bank and an equal amount of his own paper withdrawn. to a receiver appointed for it in the meantime, it is presumed, in an action by the depositor against the receiver to recover the proceeds, that the correspondent credited the check to the bank before its failure. Friberg v. Cox (Tenn. Sup.), s'7 S. W., 283.
67. The burden is on one who transferred a draft to a bank prior to its failure, and who seeks to follow and reclaim the proceeds as against a receiver, to show that they were not received and mingled with the other funds of the bank before the failure; and, where they were placed to its credit by a correspondent on the same day the receiver was appointed, in the absence of further proof as to the exact time it will be presumed that the credit was given before the receiver was appointed. 70. The president of a bank, having embezzled funds of the bank on deposit with its reserve agent, replaced such funds with money borrowed by him on the bank's note without the director's knowledge, and such borrowed money was thereafter drawn out to pay the bank's lawful debts. Held, that the bank having received the benefit of the loan through its president, it was affected with his knowledge of the loan, and hence was liable to the lender as for money had and received to its use. About a year afterwards defendant failed and a receiver was appointed, who rejected tho claim of plaintifí when presented for payment, and defendant brought suit. Held, that the transaction was not a loan to A. individually, but to defendant; that plaintiff was entitled to a judgment, to be paid by the Comptroller from the assets ratably witk other claims, and that the amount due should be adjusted as of the time when the receiver was appointed, and so certified by the receiver to the Comptroller, to be paid indue course of administration. 25. The rule announced in Western National Bank v. Armstrong (14 Sup. Ct.,

522; 153 U. S., 346), that the vice-president or cashier of a national bank has no power to borrow money on its behalf unless specially authorized by the directors, is not applicable in a case where a general and longestablished usage is shown between corresponding banks, prevailing in both cities where the lending and borrowing banks were respectively situated, of lending and borrowing through the executive officers of the banks, no further authority being furnished or demanded, the presumption being that such usage was known and acquiesced in by the durectors of the borrowing bank in the absence of notice to the contrary to its correspondents. Armstrong v. Chemical National Bank of City of New York, 83 Fed. Rep., 556.
20. The vice-president of a national bank was engaged in outside speculations, to which the cashier and teller were privy, and in which funds of the bank were used. All were directors. Two of the remainingsix directors were omployees of the vice-president, whom he had qualified to act by gifts of stock, and the remainder were selected by him for the parpose of giving him full control and management of the banls, which le exercised, borrowing money and pledging the securities of the bank therefor, and using large anounts of its funds and securities in his speculations, to the knowledge of a minority of the directors, and without inquiry or investigation on the part of any. 27. Where, by usage botween two correspondent banks, one rendered a monthly statement to the other, which retarned a reconcilement sheet noting any matter of difference, which was settled by correspondence, such a statement, showing a loan by the bank making it to the other, was notice of such loan to the directors of the latter, and a failure to notice or object to it was a ratification, though in fact the books of the borrowing lank showed the transaction to lave been e deposit to its credit by its vicepresident, and the amount was credited to his individual account and used by liim, the discrepancy having been overlooked by the bookkeepers who checked the statement. In such case the negligence of the employees was chargeable to the directors, whose agents they were. Ib.
28. If, for the purpose of enabling a bank to borrow without having its printed statements show it as a borrower, another bank credits a sum to the borrower's account, and charges the same to a special account, and takes an individual guaranty note from the borrower's directors, amonnts drawn on the credit constitute a loan to the bank, and not to its directors. American Exchange National Bank of New Yorl: v. First National Bank of Spolkane Falls et al., 82 Fed. Rep., 961.
29. Upon the question whether a loan was made to the defendant bank itself, and secured by a guaranty note of its directors individually, or was made to the directors upon their own note, there was conflicting testimony as to the original agreement, but it appeared that interest was charged to the bank, and by it entered on its books under profit and loss; that the note itself was a promise to repay loans made to the bank; that the bank's cashier, in transmitting the note, referred to it as a guaranty; and that the loan was credited to the bank, and drawnon by it in the ordinary method and course. Held, that there was sufficient evidence of a loan to the bank to warrant a submission to the jury. Ib.
30. On the question whether a loan was made to a bank or to its directors, the private arrangements of the directors as to how the transaction should be entered on the bank's books would not be controlling as against the lender. Ib.
31. A corporation may become liable upon contracts assumed to have been made in its behalf by an unauthorized agent by appropriating and retaining, with knowledge of the facts, the benefits of the contract. Ib.
32. Thefact that the directors of a bank unite in making a guaranty note to secure a loan to the bank previously arranged for by the cashier is evidence of ratification of the cashier's act. Ib.
33. 6. A terminal and warehouse company executed a lease of its property for a term of 100 years, and shortly afterwards mortgaged the same to secure an issue of bonds. United States National Bank v. McNair (N. C.), 21 S. E., 389 .
5. That an indorsee who rediscounts notes may have paid less than their face value for them does not entitle the maker to any right of set-off to which he would not otherwise be entitled. Ib.
6. Where a note was altered after delivery by an agent of the payee, without the maker's knowledge, by an interlineation of the words "with interest at 6 per cent," which occupied only half a line and appeared to have been interlined, no recovery could be had thereon by a subsequent holder for value of either interest or principal alone. 9. The amount of attorney's fees stipulated in a note to be paid in case suit is brought may be added to the amount of the judgment recovered on the note, under Code Proc., sec. 803, expressly authorizing the allowance of such fees. Exchange National Bank v. Wolverton (Wash.), 39 P., 248.
10. Held, that the maker's stipulation that the note should not be used to take money from the bank was apparently made for the bank's benefit, and that, having given a valid accommodation note, he was liable thereon to the receiver of the bank, aithough his wishes in regard to the manner of its use had not been respected. The last of these parties, the D. Co., had the note discounted at its bank, which had no notice of the diversion, and received and used the proceeds. The note not being paid, the bank, at the request of the D. Co., sued the maker and all the indorsers except the D. Co. Held, that the fact that the bank had discounted the note solely in reliance on the credit of the D . Co., and that it had omitted to sue that company, in reliance upon the company's paying the note, if not collected from the maker or prior indorsers, though it enabled the D. Co. to obtain an unfair advantage, was not a defense to the action. Germania Bank of New York v. La Follette et al., 72 Fed. Rep., 145.
20. Where a note given a bank by one indebted to it was signed by the debtor's sister on the bank's representation that a further loan would be made the debtor, but no such loan was made, and the note was held merely as collateral security, it was a defense that the note was diverted from the purpose for which it was signed, and an inquiry could not be made as to whether the use which was made of the note was more disadvantageous than that stipulated would have been. Second National Bank v. Dutn (Pa. Sup.), 25 A., 80 ; Gardner v. Same, Ib., 81 and 88.
21. Where the note of a corporation is negotiable in form, the affixing of the corporate seal does not destroy its negotiability. 25 N. Y. S., 447, affirmed. Chase National Bank v. Faurot (N. Y. App.), 44 N. E., 164.
22. Defendant indorsed a note payable to himself, and gave it to his agent, to be delivered to one S., after the latter should bave procured the execution of a certain contract; but the agent gave S . the note before receiving the contract on S.'s promise that he would procure its execution that day. 30. Where signatures of defendants were obtained either as makers or indorsers of certain notes for the supposed accommodation of certain persons to whom they looked for indemnity, the fact that the notes were fraudulently obtained for the use of the cashier of a bank, who discounted them with the bank's funds, and appied the proceeds to his own use, does not render the bank chargeable with a knowledge of the fraud, and it is an owner in good faith of the paper which it took for value and before maturity. Indian Head National Bank v. Clark (Mass.), 43 N. E., 912.
31. Where the complaint in an action on a note alleged in the third paragraph that no part of the same had been paid, a denial of "each and every allegation in paragraph three," did not put in issue the question of payment. Columbia National Bank v. Western Iron and Steel Co. (Wash.), 44 P., 145.

20. A bank cashier who was indebted to the bank and also to a firm of which its president was a member gave another creditor a mortgage on slieep, which provided that the mortgagor might sell part of the sheep, and that the proceeds should be applied on the debt secured. The cashier took part of the sheep to marlet, and sent a draft for the proceeds, in a letter, to the vice-president of the bank, who acted as cashier in his absence, in which he simply said. "Place to my credit." The vice-president appled part of the draft to the debt due the bank, and the balance on the debt due such firm. Held, that the knowledge of the cashier that the draft was the proceeds of the mortgaged sheep was not imputable to the bank, and it was not bound by his acts. Rock Springs National Bank v. Luman (Wyo.), 38 P., 675.
21. Where the president of a bank knew that its cashier had purchased sheep from plaintiff, and was in debt therefor, that outside of them he could not pay the price, and that he had gone with the sheep to market, to sell them, the bank is chargeable with notice that a draft, sent to it by the cashier, was the proceeds of the sheep, and of piaintiff's interest therein as mortgagee of the sheep, and was liable to plaintiff for a portion of the draft applied on its own debt. Rock Springs National Baik v. Luman (Wyo.), 43 P., $S 74$.
22. The fact that notes offered for discount by a bank are payable to its president and bear his indorsement, followed by that of the bank affixed by him, does not give notice to the discounting bank that they are the property of such president, and the bank's indorsement is for accommodation, especially when the negotiations for the discount have been carried on by letters written in their official capacity by the president and cashier of the offering bank. United States Naitional Banle v. J'irst National Bank, 64 Fed. Rep., 985.
23. Where there is a custom between brokers and bankers that on application of a broker a bank will certify as to whether it has any lien on certain of its stock by the holder thereof being indebted to it, a bank, by being asked by a broker to give such a certificate, is thereby put on inquiry and charged with notice that a loan for a certain amount had been made to the holder of the stock. Covington City National Bank v. Commercial Bank, 65 Fed. Rep., $5 \% \%$.
24. It is not essential that a notice of dishonor or of protest of a note should state in so many words that the holder looks to the indorser for payment, but a notice from which that fact may be reasonably inferred is sufficient. A copy of the note and of the protest sent to the indorser constitutes such a notice. Nelson v. First Natoonal Baiai of Killingly, 69 Fed. Rep., 798.
25. The receiver of the C. Nationl Bank brought an action against one W. on certain promissory notes, made by him directly to tlie bauk. W. defended the action on the ground that the notes were given for the purchase money of an interest in a brickyard, which $W$. had been induced to purchase by the misrepresentations of C., the president of the bank. It appeared that the bank held sundry notes of the principal owner of the brickyard, which notes were worthless; that the notes made by W. were substituted for these; and that C. pretended to be interested himself in the brickyard, and to enter into a partnership with W. and the former owner of the yard. for the purpose of inducing W. to make the notes to the bank, which would replace the worthless notes it then heid. There was also evidence tending to show that C. was the active party in the transaction, and misrepresented the facts to W. Held, that the bank, being the payee of the notes, could not be held to have been without notice of the fraud, or unaffected by C. is knowledge thereof, and that it was error to direct the jury to render a verdict against W. Wilson v. Pauly, 72 Fed. Rep., 129.

C. immediately transferred this note by indorsement to a bank of which he was president and general manager. Held, that, as C. himself was the sole representative of the bank in the transfer of the note to it, the bank is clargeable with his knowlelge of the condition to which it was subject, and so can not sue on the note until that condition is performed. Under sec. 5136 of the national-bank act the cashier of a national bank has no power to bind it to pay the draft of a third person on one of its customers to be drawn at a future day, when it expects to have a deposit from him sufficient to cover it, and no action lies against the bank for its refusal to pay such a draft. Flannagan et al. v. California National Bank et al., 56 Fed. Rep., 959.
23. 32. The cashier of a bank kept an account with the defendants, who were brokers, and bought and sold stocks for him, and from time to time the defendants received checks of his bank upon another bank, its correspondent, drawn by him in his official capacity, and collected them from the bank npon which they were drawn, and applied the avails to the cashier's individual account. In an action brought by a receiver of the bank of the cashier to recover of defendants the amount of the checks received by them, Held, the checks being made payable to the order of the defendants, for the cashier's individual use, the defendants took them under an obligation to ascertain at their peril that the cashier had authority outside of his ordinary official authority to make the checks, and could not assume that he was acting within the scope of his official duties. A purchaser of commercial paper made by an agent can not acquire any title to it as against the principal, unless he can show that it was made by the agent upon due authorization; and when he knows that the agent has made it in the name of the principal for his own use, he must be prepared to show that special authority in that behalf was delegated by the principal, and can not rely upon the implied or ostensible suthority of the agent to make such paper in the ordinary business of̀ the principal. Anderson v. Kissim et al., 55 Fed. Rep., 699.
33. It having been shown that the cashier had no anthority to make the checks, and that the checks were paid by the bank upon which they were drawn, the defendants were prima facie liable in action of trover for the face amount of the checks. Ib.
34. The circumstance that the cashier clandestinely deposited funds with the bank upon which the checks were drawn to the credit of his own bank, which deposits were credited to his own bank, is not competent in mitigation of damages. When credited to the cashier's bank the deposits became the property of that bank as against the cashier and the defendants. The case for the plaintiff was complete when it appeared that the checks had been paid by the bank upon which they were drawn out of funds standing to the credit of the cashier's bank; the plaintiff was then entitled to recover the full amount, and it was then incumbent nopon the defendants, if they songht to reduce the damages, to show that, notwithstanding the wrongful conversion of the paper, the cashier's bank did not suffer loss. Ib.
35. The fact that some of the moneys thas clandestinely deposited by the cashier were paid in by the defendants, at his request, does not affect the defendants' liability, or go in mitigation of damages. Ib.
36. Evidence of a usage tinat bankers and brokers regard payments made by means of such checks as ordinary payments of cash made by individuals for their own account is not admissible. Ib.
37. Where the cashier of a bank conceals the deralcation of another officer the statute of limitations will not begin to run in favor of such cashier or his estate until such defalcation is disclosed to the directors or stockholders. Vance v. Mottley, 11 S. W., 593 ; 92 Tenn., 310.
38. A cashier is bound to exercise reasonable skill, care, and diligence in the discharge of his duties, and if he fails so to do, and the bank suffer damage in consequence, he is liable therefor. Ib.
39. He is liable for loss ou loans made by him through want of care, diligence, and reasonable skill. Ib.
40. Though the act of the cashier which occasions the loss is a tort, the tort may be waived and an action for value maintained against him or his estate. Ib.

43. Where a statute creating a banking corporation provides that its affairs shall be wanaged by a board of directors, who shall appoint and remove a cashier and other employees, the power to discharge a surety on a note without payment can not be exercised by the cashier unless expressly delegated to him by the board of directors. People's Savings Bank v. Hughes, 1 Mo. App. Repr, 549.
44. A cashier on whom by continued absence of the directors has devolved the duty of making loans and discounts will be liaiole for losses through overdrafts and discounts made by him only where it appears that he failed to make reasonable inquiry into the financial standing of those making the overdrafts, and those whose paper was discounted, and failed to exercise the care and discretion which an ordinatily prudent man would exercise in his own business. Pryse v. Formers' Banh ( Sy. ), 33 S. W., 53.
45. A bank cashier is the agent of the bank in financial transactions with customers, and his acts will bind it, unless contrary to the provisions of the charter, or of general law, or against public policy. Squires y. First National Bank, 59 Ill. App., 134.

4\%. Since the national-bank act expressly provides that the cashier of a national bank shall hold his office subject to the pleasure of the boaid of directors, a by-law providing that a cashier shall hold his office for one year, and shall be elected annually, is nugatory, as is a reappointment in accordance with such by-law at the beginning of each year. Ib.
48. A bond conditioned for the proper performance by a casibier of his duties "for and during all the time he shall hold the said office" binds the sureties for all such time, irrespective of the fact that he is reampointed at the beginning of each year. Ib.
49. In an action on a cashier's bond for clamages arising from breach thereof by hismisappropriation of money and making of excessive loans, the fact that the bank and its receiver have sued and obtained judgment upon notes taken by the cashier for such misappropriated money and excessive loans is no tefense. Ib.
50. Under an allegation that the guaranty sued on was executed by the defendant bank in the name of its cashier, and that such cashier was authorized by a general usage to bind the bank to similar contracts, the plaintiff may prove any competent authority to the cashier, and is not restricted to proof of usage. Seeber v. Commercial National Bank of Ogden, $7 \%$ Fed. Rep., $95 \%$.
51. The cashier of the Q. bank, who, in addition to his nsual powers as such, was allowed by the officers to have full control of its business, applied to a bank in another city for accommodation, sending to the latter bank what purported to be the signatures of the officers of the $Q$. bank and a resolution of its directors anthorizing him to borrow molley and rediscount paper. Thereafter loans were made to the Q. bank on its notes, signed by the cashier in its name. It was customary for banks in the region where the $Q$. bank was located to borrow at certain seasons, and everything connected with the transaction was apparently done in the usual and regular course of business. Held, that the Q. bank was liable on the notes signed by the cashier, though it afterwards appeared that the signatures of the officers and the resolutions sent by him to the lending bank were forgeries, and the proceeds of the loans were used by him for his own benefit. City National Bank of Quanoh, Tex., v. Chemical National Bank of St. Louis, Mo., 80 Fed. Rep., 859.

A bank can not be charged with responsibility as principal for the action of its cashier, performed as a director of a manufacturing company, in assisting to pronulgate false statements as to the company's financial condition for the purpose of defrauding all of its creditors, including the bank, so as to affect the validity of the bank's claims against the company. 53. The degree of care required of directors of corporations depends upon the subject to which it is to be applied, and each case is to be determined in view of all the circumstances. Briggs v. Spaulding, 141 U. S., 132.
54. Directors of a corporation are not insurers of the fidelity of the agents whom they appoint who become by such appointment agents of the corporation; nor can they be held responsible for losses resulting from the wrongful acts or omissions of other directors or agents unless the loss is a consequence of their own neglect of duty. Ib.
55. A director of a national bank is not precluded from resignation within the year by the provision in Rev. St., sec. 1545, that when elected he shall hold office for one year and until his successor is elected. Ib.
56. Ib.
57. Directors of a national bank must exercise ordinary care and prudence in the administration of the affairs of a bank, and this includes something more than officiating as figureheads. They are entitled under the law to commit the banking business, as defined, to their duly authorized officers; but this does not absolve them from the duty of reasonable supervision, nor ought they to be permitted to be shielded from liability because of want of knowledge of wrongdoing if that ignorance is the result of gross inattention. Ib.
58. If a director of a national bank is serionsly ill, it is within the power of the other directors to give to him leave of absence for a term of one year instead of requiring him to resign, and if frauds are committed during his absence and without lis knowledge, whereby the bank suffers loss, he is not responsible for them. Ib.
59. A notary of the city of Alexandria is authorized to administer the oath required by law to be taken by a director of the First National Bank of that city as to his ownership of the capital stock of such bank. United States v. Neale, 14 Fed. Rep., 767 .
60. When the oath is taken and subscribed by the accused it is complete, so far as the accused can make it, and if the notary, in certifying the fact of the oath having been taken, erroneously used the term "county" instead of " city," and used the seal of said bank instead of his own official seal, such error did not affect the oath taken. Ib.
61. If accused took an oath in which he stated that he was the bona fide owner in lis own right of the number of shares of stock then standing in his name on the books of the bank. and that the said shares were not hypothecated or in any way pledged as security for any loan or debt, and if he took it willfully, and not believing that he was stating the truth, it is perjury, if in point of fact he was not the owner of said stock or had pledged the same for a loan or delbt. Ib.
62. An irrevocable power of attorney given by the accused, wherein he constituted and appointed a third party his attorney for the purposes therein set forth, being a general power covering any indebtedness of accused to said third party, is a pledge of the shares of stock owned by accused mentioned therein as long as there was any debt due by the accused to such third party. $I b$.

A bill brought to charge the directors of an insolvent national bank with the amount of losses cansed by the bank's failure, alleged that one of the defendants sold and transferred his stock on the day named, but the evidence showed that defendant had not paid anything for the stock, but delivered it to a messenger of another one of the defendants, from whom he had agreed to purchase it, and that such defendant ther sold and indorsed the stock to a third party, as it was agreed he might do if he so desired. Plaintiff moved to amend the bill to conform to the proofs and make it allege that the transfer was merely formal. Held, unnecessary. Movitu, Reciever, v. Lee et al., 30 Fed. Rep., 298.

66. A director of a national bank who, before the expiration of his term, sells his stock and orally resigns his office to the president, in his place of president at the bank, and afterwards receives the money for his stock prior to the sustaining of losses by the bank, ceases to be a director and can not be held liable for subsequent losses caused by the negligence of the directors. The president of a national bank, being in failing health, was anxious to resign his position, but at a suggestion of a majority of the directors consented to take a year"s leave of absence, and during such absence, and withont any fault on lis own part, losses were sustained by the bank, and it became insolvent. Held, in a suit by the receiver to charge the directors with such losses, that he was not liable. Ib.

The directors of a national bank which has become insolvent by reason of losses cansed by the discount from time to time of paper not properly secured, indorsed by a director who is a man of wealth and the largest stockholder in the bank, and in whom the other directors have reason to place confidence, can not be held liable for the mere failure to discover the illegal transactions and to prevent such director from continuing therein. Ib.
69. Witters, Receiver, etc., v. Sowles et al., 31 Fed. Rep., 1.
70. Under Rev. St., sec. 5200 , directors of a national bank who make or assent to the making of a loan to any one person of a sum exceeding one-tenth of the capital stock of the bank become personally and individually liable for all loss sustained thereby; but where the borrower in such a case is also one of the directors ne is not so liable, but simply as a debtor to the bank. Ib.
71. Bank directors can not be held personally liable for money paid out for dividends " to a greater amount than net profits, after deducting losses and bad debts" (Rev. St., sec. 5204), because there were debts bad in fact, but supposed to be good, when the dividends were declared and paid. Bad judgment on the part of the directors as to the condition of the assets, without bad faith, does not make them individually iiable. Ib.
72. Directors of a national bank can not be held to the common-law liability for inattention to duty as directors in not preventing a hazardous, impiudent, and disastrous loan if such loan was made by their associates without their knowledge, connivance, or participation. Ib.
73. Directors or the managing committee of a national bank may, in the honest exercise of official discretion, makes loans or discoants for the actual or supposed benefit of the association, and, although the transaction may be injudicious and actually result in loss or damage to the bank, there is no criminal liability, so long as their acts are not in bad faith, for the purpose of personal gain or private advantage to the officials. United States v. Harper, 33 Fed. Rep., 421.
74. A national bank was organized with a capital of $\$ 00,000$. The promoter of the bank took 380 shares of stock in his own name and procured the defendants to be directors as well as a person to be elected cashier by them. The directors were not acquainted with the banking business. The proposed cashier was known to the directors, at least by reputation, and was supposed by them to be competent and trustworthy and of considerable experience in the basiness, and they had rull confidence in his integrity and ability to tale charge of the bank. The cashier acted as manager of the loan and discount business of the bank, and the directors merely as advisers when applied to. The promoter of the bank knew, and the other stockholders were presuned to know, that the directors were wholly unused to the banking business. Held, that the directors

were not liable for the acts of the cashier in violation of the banking law done withont their participation or knowledge. Clews et al. v. Bardon et al., 36 Fed. Rep., 617.
75. The cashier made loans in excess of 10 percent of the capital to a mannfacturing corporation supposed by him and by the public to be entircly solvent. None of the directors knew of the loans when made, but after a loan of $\$ 3,000$ in excess of the lawful limit had been made the cashier informed one of them of such loan, and was by him advised to call it in when due; and thereafter such director's advice was asked as to a further discount to the same corporation, and he disapproved of it, and it was not made. Afterwards further loans or discounts were made to the same corporation without the knowiedge or consent of any of the directors. About eight months after the bank commenced business one or more of the debtors of the bank failed, and the directors thereupon took the active management into their own hands. Held, that none of the directors had knowingly violated, or knowingly permitted to be violated, any of the provisions of the banking law, and were not liable for such violation by the cashier. Ib.
76. Under the banking law, the management of 2 national bank may be exercised either by the directors or by the cashier or other officers; therefore the directors are not liable for the illegal or negligent acts of the cashier or other officers by whom the bank is managed if they have no knowledge of such acts and do not connive at them or willfully shut their eyes and permit them. Ib.
77. It seems that the liability of directors of a national bank is substantially the same under the banking law as at the common law. Ib.
78. The personal liability of directors of a national bank for violation of Rev. St., sec. 5204, by declaring dividends in excess of net profits, and of sec. 5200 , for loaning to separate persons, firms, or corporations amounts exceeding one-tenth of the capital stock, can not be enforced in an action at law. Welles v. Graves et al., 41 Fed. Rep., ke9.
79. If the personal liability imposed by Rev. St., sec. 5239 , upon directors for violation of the provisions of the banking act in favor of anyone injured thereby can be enforced without reference to wheiher the charter has been forfeited or not, it is not a penalty within the meaning of sec. 1047, limiting actions for penaliies to five years. Ib.
80. Directors of a national bank are "officers" within the meaning of Rey. St., sec. 5209 , which makes it a misdemeanor for bank officers to matso false entries in any book, report, or statement of the bank, with intont to deceive any of its officers. United States x. Meanset al., , AS Fed. Rep., 509.
81. An act of Congress imposing a legal liability on the directors of a national bank for certain things which they may do which shall result in an injury to tho bank, its stockholders, or creditors, and making them liable for the amount of the damage, is a remedial and not a penal statute, and therefore an action under it survives against the estate of a director. Stepiens v. Overstolz, 49 Fed. Rep., 465.
82. Where a bank director mades a wrongfuil loan of money from which loss occurs it is no defense to an action by the receiver of the bank against the director's estate that the insolvency of the person to wism the loan was made was not discovered until after the death of the director and the appointment of the receiver. 1b.
83. An action by a receiver of a bank whose charter has been forfeited under above statute against a director is properly brought at law, there being no necessity for invoking the aid of a court of chancery. either because of the nature of the issues involved or to avoid a multiplicity of actions. Ib., 771.
84. In such action plaintiff may state the aggregate amount of the excessive loans made to each party and the damage resulting theretrom in each case, accompanying each allegation with an exhibit showing the dates and amonnts of the several loans that go to make up the aggregatosum stated in the petition, and is not compelled to declare in a separate count for each loan made. Ib.
85. Rev. St., secs. 5234 and 5239 . prescribing the method of enforcing the liability of the directors of national banks íor violation of the bankinglaw, are exclusive of other remedies, and a creditor or an insolvont bank for which a receiver has been appointed can not sue its directors for the

purpose of making them personally liable for the mismanagement of the bank. National Exchange Bank of Baltimore v. Peters et al., 44 Fed. Rep. 13.
86. A stockholder in an insolvent national bank for which a receiver has been appointed can not sue jts directors to make them personally liable for the mismanagement of the bank, at the right of action is in the receiver and not in the individual stockholder. Howe v. Barney et al., 45 Fed. Rep., 668.
87. Defendants, as directors, during a run on their bank posted conspicaously in the bank a notice, signed by them and addressed to the general pablic, representing the bank to be solvent. Plaintiff saw the notice, and, aiter a consultation with the directors, loaned the bank money, which was lost. Held, that the notice, not being addressed to plaintiff, could not entitle it to recover from the directors under R. L. Vt., section 983 , which provides that no action shall be brought to charge any person upon a representation concerning the credit of another unless such a representation is in writing and signed by the party to be charged; and the fact that the notice was signed by defendants as directors would prevent a recovery from them individually, even if the notice were a sufficient representation in writing. Pirst National Bank of Plattsburg v. Sowles et al., 46 Fed. Rep., \%3 1.
88. The executive officers of an association can not bind it as a gratuitous bailee unless they have a special authority from the board of directors so to do or there exists a general custom or usage to that effect. First National Bank of Lyons v. Ocean National Bank, co N. Y., 2is.
89. An action may be brought by a receiver of a national bank against its directors to recover damages sustained by their gross negligence. Brinckerhoff' v. Bostwich, 83 N. Y., 58; 3 N. B. C., 501.
90. If the receiver is one of the directors, such action may be maintained by the stockholders, or, when they are numerous, by ore or more in behalf of all. Ib.
91. It is not necessary to allege in the complaint a direction from the Comptroller, or a demand upon him and a refusal to direct the receiver to bring the action, or a refusal of the receiver to sue. Ib.
92. Such ail action may be brought in a State court. Ib.
93. The bank and the receiver, as such, are necessary parties defendant to such an action. Ib.
94. The board of directors of a bank is a body recognized by law, and to all purposes of dealing with others constitutes the corporation. Burrilly. President, Directors, etc., of the NaLant Bank, 3 Metcalf, 163.
95. A board of bank directors may delegate authority to a committee of its members to alienate or mortgage real estate; and such authority to convey real estate necessarily implies aithority to execute proper instruments for that purpose and to afixix the corporate seal thercto. Ib.
96. Where a board of bank directors anthorized a committee of its members " to sell and transfer any estate owned by the bank," and the committee gave mortgage of the real estate of the bark to a creditor who had recovered judgment against the bank on its bills, and took from him at the same time a bond conditioned that he would not put those bills in circulation, and the board of directors accepted said bond and acted on it, and the cashier paid the costs of the suit in which said judgment was recovered, according to the agreement made between said creditor and said committee, it was held that, whether the committee lat or had not authority to mortgage the estate, the mortgage had been ratified by the board of directors. Ib.
97. A stockholder in a national bank can not maintain an action against the president and directors for their neglect and mismanagement of the affairs of the bank, whereby insolvency ensued and the stock becane worthless. Comuay v. Halsey, 44 N. J. L., 46i; 3 N. B. C. 5$\rangle 1$.
98. A judge who is a director of a national bank can not try a case to which it is a party, since, by Rev. St., sec. 5146 , he must necessarily be interested as a stockiolder. Williams v. City Nitional Bank, ar S. W. , 14i.
99. The clection of an individual as a director does not constitnte him an agent of the corporation with anthority to act separately and independently of his feilow-members. It is the board duly convened andacting as a rinit that is made the representative of the association. The assent or deter-

mination of the members of the board, acting separately and individually, is not the assent of the corporation. The law proceeds upon the theory that the directors shall meet and counsel with each other, and that any determination affecting the association shall be arrived at and expressed only after a consultation at a meeting of the board, attended by at least a majority of its members. National Bank v. Drake, 85 Kans., 564.
100. Stockholders lhave no standing in court to interfere for the protection of their company until the board of directors of the company have neglected or refused an application to take the proper steps to protect the interests of the company. Hobbs v. Western National Bank, 8 Weekly Notes of Cases, 131; 2 N. B. C., 187 .
101. It is a nistake to suppose that the directors of national banks cease to be such, and that their duty to the bank lapses, when an examiner is put in clarge of its funds, properties, and books by the Comptroller. Robinson v. Hall et al., 63 Fed. Rep., 222.
102. They were, still, as much the advisers of the bank examiner as they had been of the cashier, notwithstanding they were not invested by law with the control over lim which they were empowered to exercise over the cashier. Ib.
103. Their duty as directors does not cease until after the appointment of a receiver. $I b$.
104. If directors were depositors, and knew two months or more before suspension that that event was inevitable, and that the bank conld pay only a percentage of its deposits, and yet checked for the whole of their own balances, thereby diminishing the percentage to which other creditors would be entitled, they certainly defrauded to the extent of the diminution the creditors whose interests they were relied upon to protect, and should be held to strict accountability. Ib.
105. Directors of a national bank left its management for more than three years almost wholly to its cashier, who had but little property, and of whom they required no bond; and they knowingly permitted loans to be nade to iudividuals and firms largely in excess of the amounts allowed by law. They failed to record mortgages given to secure large debts due the bank after they were aware of its insolvency, and erroneonsly advised an examiner who had taken charge of the bank that it was not necessary to record them. Held, that the directors were personally liable for the losses caused by such neglect and the fraud and defalcations of the cashier. Briggs v. Spaulding, 11 S. C., 924; 141 U.S., 132, distinguished. Ib.
106. A creditor of an insolvent national bank that is in the hands of a receiver can not sue to enforce against officers and directors who have violated the banking laws the personal liability imposed by Rev. St., sec. 5239 , as such liability is an asset belonging equally to all creditors, and must be enforced by the receiver. Bailey v. Mosher, 63 Fed. Rep., 488.
107. The liability of directors of a national bank to a common-law action of deceit for false and fraudulent representations made by them in the pretended performance of duties imposed upon them by the national banking law is not precluded by the liability imposed in that law for violation of its provisions. Prescott v. Haughey, 65 Fed. Rep., 653.
108. Complaint alleging: false and fraudulent representations by directors of a nationial bank in advertisements, statements, and reports as to its condition, whereby plaintiffs, relying thereon, were induced to deposit money with the bank, and were deceived and damaged. Held, to state a com-mon-law cause of action for deceit, not removable as involving a Federal question. Ib.
109. Directors of a national bank, who on its suspension issue a circular declaring the solvency of the bank, and that they hope to reopen within 60 days, and authorize the bank officers to receive money on special deposit, and keep it in the vaults of the bank, subject only to the check of the depositor, and subsequently, on the appointment of a receiver for the bank, turn over to him deposits made pursuant to the circular, are personally liable to the depositors for the amount of such deposits. Miller v. Howard et al., 32 S. E., 305.
110. On an issue whetlier the plaintiff bank had knowledge of the preference of a creditor of its debtor, it was proper to charge that the bank was not

chargeable with knowledge of its directors acting individually, but that the jury might consider the knowledge of the directors as tending to prove knowledge on the part of the bank. Continental National Bank v. McGeoch (Wis.), 66 N. W., 606.
111. To bind a national bank the directors nust act together as a board: their separate individual assent is ineffectual. First National Bank of Fort Scott v. Drake, 35 Kans., 564; 57 Am. Rep., 193; 3 N. B. C., 445.
112. The duty of the board of directors is not discharged by merely selecting officers of good reputation for ability and integrity, and then leaving the affairs of the bank in their hands without any other supervision or examination than mere inquiry of such officers, and relying upon their statement until some cause for suspicion attracts their attention. The board is bound to maintain a supervision of the bank's affairs, to have a general lnowledge of the character of the business and the manner in which it is conducted, and to know at least on what security its large lines of credit are given. Gibbons v. Anderson et al., 80 Fed. Rep., 345 .
113. A receiver of a national bank may sue the directors to hold them responsible for the malfeasance of the managing officer when it appears that they were so negligent as to make practically no examination of its books or affairs, and to hold meetings only at rare intervals, and then to limit their business almost wholly to the election of directors and the declaration of dividends. In such case their liability for losses should begin at a time when they ceased to discharge the duty of giving proper supervision to the conduct of the bank's affairs. In the circumstances of the present case they were held liable from the time when, by reason of the failure to earn dividends for more than a year, their attention should have been drawn to the necessity of making a thorough examination. $I b$.
114. The right of action against the directors of a national bank, for violation of the provisions of the national banking act, given by Rev. St., $\stackrel{8}{8} 5239$, is for a tort, and comes within the common-law definition of actions on the case. Cockrill v. Butler et al., $\% 8$ Fed. Rep., 679.
115. The forfeiture of the bank charter in a suit brought by the Comptroller of the Currency is not a condition precedent to the maintenance of a suitagainst its directors, under Rev. St., 885200,5239 , for excessive Ioans. Cockrill v. Cooper et al., 86 Fed. Rep., 7.
116. A court of equity has jurisdiction of a suit against the directors of a national bank for excessive loans, under Rev. St., 8 8500, 5239, where the suit is against a large number of directors, whose terms of service were not identical, where the excessive loans were inatigurated by one set of directors, and continued, renewed, or enlarged by another, and where the directors were also charged with a violation of Rev. St., \$5204, in declaring dividends. $I b$.
117. A receiver of an insolvent national bank has a right to maintain a suit in his own name against directors to charge them for losses that may have been sustained by the corporation and its creditors through their wrongful or fraudulent acts. Cockrill v. Abeles et al., 80 Fed. Rep., 505.
118. The increase of the capital stock of a bank based on a fictitions value of assets, and on notes given by the directors with an understanding that they were not to be paid, is in violation of Rev. St., $\$ 5142$, and the directors of the bank participating are liable for all losses resulting to the creditors. Ib.
119. In an action by the receiver of a national bank to charge the directors with liability for its losses, proof of general looseness of management on their part is not sufficient to cast upon them the burden of exonerating themselves, as the court can only charge them with losses shown to have resulted from their negligence. Warner v. Penoyer, 91 Fed. Rep., $58 \%$.
120. The cashier of a national bank permitted an outside corporation in which he was interested to become indebted to the bank, by overdraft and discounts for the corporation and its members, in the sum of 972,000 , which was the principal catse of the bank's failure. The directors had appointed a discount and an examining committee, and acted upon their reports approving the statements of the cashier. The conmittees, in fact, made no independent examination, but merely checked the notes

with a list furnished by the cashier. Such list, upon which they acted several months before the failure, showed eight notes for $\$ 5,000$ each. Though the bank's capital was but $\$ 50,000$. the members of the committee testified that they had no knowledge of such notes, nor of the fact of the large indebtedness of the corporation. Held, that they were guilty of negligence, which rendered them liable for the losses so sustained, but that the other directors were not liable, there oeing no evidence that they knew of the negligent manner in which the committees acted. Ib.
121. The directors of a national bank are not liable for losses ocourring through malversations of the cashier, unless, by the pertormance of their own duty of general supervision in good faith and with ordinary care and intelligence, such losses would have been prevented. Ib.
D. President -
122. The president of a national bank has no power inherent in his offico to bind the bank on the execution of a note in its name; but power to do so may be conferred on him by the board of directors, either expressly by resolution to that effect, or by subsequent ratification, or by acquiescence in transactions of a similar nature, of which the directors have notice. National Bank of Commerce v. Atkinson, 55 Fed. Rep., 465.
123. If a president of a bank exercised the functions of a cashier and was the sole managing officer of the bank, he had authority to borrow money for the use of the bank in the regular course of its business. Simons et al. v. Fisher, 55 Fed. Rep., 905.
124. The retention by a national bank of the proceeds of the sale and guaranty of notes owned by the bank is a ratification of the president's act in such selling, whether he was authorized to execute the guaranty or not. Thomas v. City National Bank, 58 N. W., 943.
125. The authority of the president of a national bank to guarantee notes of third parties held and sold by the bank will be presumed in favor of a purchaser, without notice to the contrary. Ib.
126. The president of a banking corporation has the power to employ counsel and manage the litigation of a bank, in the absence of any order of the board of directors depriving him of such power. Citizens' National Bank of Kingman v. Berry et al., 37 P., 1:31.
127. The president of a national bank has no anthority to snbscribe money fiom the bank on condition that certain parties would erect a paper mill in the town. Robertson v. Buffalo County National Bank, 58 N . W., 715 .
128. It is doubtful whether a general authority in the president of a bank to make discounts could empower him to make an arrangement under which the bank would surrender securities on receiving others, which, it was at the same time agreed, should be mere nullities so far as the sureties were concerned. The First National Bank of Sturgis v. Bennett et al., 33 Mich., 520.
129. A guaranty against loss or liability for signing as suretics, given by a bank president in his own name and without authority from the directors, to those whom he had solicited thos to sign a note given to the bank to retire a prior note held by it against their principal, is held to be the individual contract of the president, and not binding upon the bank. $I b$.
130. C., in order to obtain a credit in his personal account with a bank of which he was the president, procured the defendants, a banking firm, to discount his individual note, credit the amount to the bank, and notity the bank that he had deposited the amount with them to the credit of the bank. The bank had previously given C. credit for the amount, and after being notified by ihe defendants that the deposit had been actually made with them, allowed C. to overdraw his account. Thereafter, and while his account with the bank was withdrawn, C., in his official character as president, authorized the defendants to charge the note to the account of the bank, and the defendants did so. Held. in a suit by the receiver of the bank to recover the deposit, that, unless expressly authorized to do so, the president of the bank could not use the funds of the bauk to pay his personal obligation, and, there being no proof of such

express authority, the authorization given by him to the defendants was not a defense to the claim. Chrystie et al. v. Foster, 61 Fed. Rep., 551.
131. The inherent powers of a president of a bank lyy virtue of his office are very limited, and it is difficult to say what powers he inherently possesses, if any other than the power to take charge of the litigation of the bank by employing counsel and otherwise. The First National Bank of Wellsburg v. Kimberlands, 16 W. Va., 555.
132. A president of a bank may be authorized by its directors to do any act which they are authorized by their charter to do, unless the act to be done can by the charter be done only by the directors themselves. $I b$.
133. Such authority need not be proven by showing that it was expressly conferred by the board of directors, but may be proven by showing the existence of such facts as constitute clearly a public holding out that the particular act done or contract entered into was within the scope of his legitimate delegated authority. Ib.
134. The inference that such authority has been impliedly conferred may be legitimately drawn by proving that he was in the habit of doing acts or making contracts of the same general character as the particular act or contracts which he has done or made, and that these acts or contracts which he was in the habit of doing, though applied to different subjects, involved the same general power, except when the acts and contracts which he was in the habit of doing or making were so very numerous and so variant in their character as clearly to justify the inference that he was authorized impliedly to do all acts and make all contracts which the directors had the power to do or to make, and to conter on the president the right to do or to make. $1 b$.
135. The directors of a bank may ratify any act done or contract made by the president without anthority which they could have anthorized him to do or to make. Ib.
136. The acceptance of the benefits of a contract made by the president for the bank is an implied ratification of such contract, and if money is received by its cashier for the bank under such contract, even when such receipt was unknown to the directors, it will be a confirmation of the contract, unless the money so received is returned when its receipt becomes known to the directors. $I b$.
137. Where the articles of association of a national bank, signed by all the original stockholders, and giving express anthority to the board of directors to remove the president, have been transmitted to the Comptroller of the Currency, who has, on receiving the same, issued circulating notes to the bank, he will be deemed to have approved the articles, and the directors will have the power to remove the president, even though the bank has never legally adopted any by-laws. Taylor v. Hutton, 43 Barb., 195; 1 N. B. C., 755.
138. Where the president of a bank has agreed to answer to a bank for the overdrafts of another person, the fact that the bank, in accordance with its custom, which was well known to the president, requres such person to give notes for his overdrafts at different times, which action was explained to the president, and not objected to by him, did not release him from liability from the amounts. Brown v. Farmers and Merchants' National Bank (Tex. Civ. App.), 31 S. W., 216.
139. The president of a bank, a large creditor, or his minor nephew, who promised, when the bank advanced money to such minor, that it should be repaid before he world attempt to collect his debt, and thereby made himself liable to the bank for such advance, can not in equity assert a preference lien for his own claim, given him in a deed of trust by the insolvent minor, as against the claim of the bank. 31 S . W., 216. affirmed; Brown v. Farmers and Merchants' National Bank (Tex. Sup.), 31 S. W., 285.
140. The president of a national bank who requests the cashier to make advances to a minor, verbally promising that he will see them repaid, is liable to the bank for any loss'sustained by reason of said loans, as having been guilty of a breach of trust. Ib.

144. The president and secretary of a corporation are presumed to have authority to execute a note in the name of the corporation, and the holder of such note will not be affected by the fact that. such authority did not exist unless le is shown to have had notice thereof. American Exchange National Bank v. Oregon Pottery Co. (C. C.), 55 Fed. Rep., 265.
145. In a suit by the receiver of a bank to charge its president with losses arising from his negligent management, where it is fairly inferable from the evidence that the facts constituting such negligence were not disclosed by the president to the directors until long after their occurrence, and until disclosed by the bringing of a suit by a third party, and the jadgment therein, the lapse of more than the statutory period of limitation since the actual occurrence of the negligence can not be imputed to the receiver as laches. Lawrence v. Stearns, 79 Fed. Rep., 878.
146. Where the president of a bank, having the management oif its business, has loaned to a near relative a large share of the capital of the bank, and, with knowledge that securities offered to the bank by such relative are subject to conditions likely to eat a way much of their yalue, has accepted the securities at their face value, crediting his relative therewith, and surrendering obligations, good at the time, he is liable to the bank, because of such negligent management, for a loss resulting from the depreciation of the securities so accepted. Ib.
147. A reaiscount by a bank of its bills receivable, though it indorses the same and becomes contingently liable for their payment, is not a borrowing of money by the bank, but lias more the characteristics of a sale. United States National Bank v. First National Bank of Little Rock et al., 79 Fed. Rep., 296.
148. It is within the scope of the implied powers of the president of a bank to indorse negotiable paper in the ordinary transaction of the bank's busiiness, and a special authority to that end need not be conferred by the board of directors. Ib.
149. When a bank has long been in the habit of rediscounting its bills receivable in large amounts, all other banks in the same locality pursuing the same practice, and the president and cashier of such bank propose to its regular correspondent a rediscount of its bills, and there are no circumstances attending such proposal to arouse suspicion, the bank to which it is made may safely act upon it, without further inquiry, on the assumption that the act has either been specially authorized or that the officers are acting within the purview of their general powers. Ib.
150. Where the directors of a bank lave known for many months that its paper was being rediscounted in large amounts, under the president's direction, and without consulting the board, and that the money so obtained was being used in the business of the bank, and they have made no inquiry as to how the paper wasindorsed, the bank is estopped to dispute the authority of the president to indorse such paper for rediscount. 14. But a debtor can not set off the amount of a deposit assigned to him after the act of insolvency committed. Venango National Bank v. Taylor, 56 Penn. St., 14.
15. The ordinary equity rule of set-off in case of insolvency is that where the mutual obligations have grown out of the same transaction, insolvency, on the one hand justifies the set-off of the debt due on the other, and there is nothing in the statutes relating to national banks which prevents the application of that rule to the receiver of an insolvent national bank under circumstances like those in this case. Scott v. Armstrong, 146 U. S., 499.

Hughitt v. Hayes, 186 N. Y., 163.
20. Claims will be regarded by a court of equity as due, notwithstanding the absence of a rechnical demand, when equitable considerations require that they shall be applied each to the other. Ib.
21. In the application of cross demands to the satisfaction of each other the insolvency of one of the parties is a material circumstance, and although the debt owing by the insolvent may not be due the creditor may waive the credit, and a court of equity will then apply it upon the debt from the insolvent, if that has marured. Ib.

Shortly before the failure he, for the third time, requested the cashier to execute the conveyance; this the latter promised to do without further delay. Thereaiter plaintiff accumulated his deposits with intent to use the balance to his credit in paying for the land when the deed was delivered; this was known to the cashier. The receiver of the bank agreed that this sum should go as a set-off on the indebtedness, the depositor to pay the notes first coming due, and the deposit to be applied on the last-maturing notes. After paying the first two notes it was found that the others were in the hands of third parties and the depositor was compelled to pay them, and filed a biil to authorize the receiver to refund the money paid under a mutual mistake. This bill was heard by the district judge of the western district of Tennessee, sitting in the circuit court of the sonthern district of Ohio. Held, that the deposit should properly be set off against the claim or the bank and the depositor should recover the sum paid by him: but as the district judge of the southern district of Ohio had held, in an action between the same bank and a creditor. the circuit judye concurring therein, that the plea of set-off was not available, in order that there might not be different rules of set-off in the same court in the case of the same insolvent, and as the case can not be appealed, it will be remanded for reargument before the regular judges. who may, in their discretion provide for a dissent of record, or do what may to them seem right in the premises. 32. In the absence of all intervening equities, courts of equity put the same construction on statutes of set-off as do courts of law. Insolvency is recognized as a ground for the allowance of a set-off in equity, when it would not be allowed at law, but it is only the insolvency of the original creditor against whom the claim is asserted; and while the assignee of nonnegotiable paper takes it subject to all equities to which it was subject in the hands of the assignor, this means only the equities between the original parties, and does not include equities which may arise between other parties in the course of its transfer. Ib.

38. An assignment by the stockholder of his claim against the bank, before the direction of the Comptroller to enforce his liability, but after the insolvency of the bank, does notaffect the right to set off his liability against the dividend due on his claim, nor does the fact that the Comptroller, at the tine of the assignment, had not determined the amount necessary to be collected from the stockholders for the payment of the creditors. It is sufficient that such direction has been given, and amount so determined when the set-off is made. Ib.

While certain checks and other evidences of its indebtedness were so held the bank was closed. The third certificate was paid on presentation. The bank at the time of these payments was in fact insolvent and had been for years, but this was known only to the cashier; it was in good credic and had committed no act of insolvency, and paid all its obligat ons as they became due or were demanded for six weeks after the last of said payments was made: IIch, that the complaint was properly dismissed, as plaintiff failed to show that the payments were made in contemplation of incolvency, or to prevent the application of the bank's assets as prescribed by the act. 27. The fact that the money was not marked, and, by a mingling with other funds of the bank, iost its identity, does not affect the right to recover in full, if it can be traced to the vaults of the bank, and it appears that a sum equivalent to it remained continuonsly therein until removed by the receiver. 28. He refused to deliver them on demand, and collected them at maturity, but kept the proceeds separate. Held, that Baldwin, in the purchase of the diafts, acted as agent of the drawers, and as executor and not as cashier, and though Baldwin knew at the time that the bank was insolvent, yet the fransaction being a bona fide purchase and not a plan to secure preference of the estate over other depositors, was not in violation of section 5242 of the Revised Statutes of the United States, which forbids the transfer of any bills of exchange, etc., owing to any national bank * * * after the commission of any act of insolvency or in contemplation thereof; and, further, that this court has jurisdiction to follow the proceeds of the drafts as trust property so long as they are identifiable, and to decree their payment to the estate. Held, (1) that the receiver was entitled to the surrender of such of the property as had been actually purchased with the moneys of the bank as he might elect, but that purchases made and paid for out of the general mass could not be claimed by the receiver unless it could be shown that moneys of the bank in the general fund at the time of the purchase were appropriated for that purpose; (2) that the receiver was not estopped by such election and taking from receiving the full benefit of the deed of trust in favor of the national bank. 3. Where an insolvent association reccives a deposit a short time before closing its doors, its officers knowing of the insolvency at the time, the receipt of such deposit is a fraud upon the depositor, and no title passes to the association, and therefore the depositor may reclaim the whole amount of the deposit; and as he claims under his original title, and not under a transfer from the association, such reclamation does not amount to a preference. Cragic et al. v. Hailley, 99 N. Y., 131.
4. A trust was not impressed upon funds deposited on day the bank closed its doors in the absence of proof that the deposit had not gone into the general funds of the bank and lost its identity belore reacling the receiver. In re North River Bank, 14 N. Y., 261.
5. A draft given to a bank in the ordinary course of basiness does not constitute an equitable assignment of the fund, nor is it sufficient that draft be drawn by bank against its reserve fund in another city and given in exchange for clearing-house certificates upon the president's representation that it owes a heavy debt at the clearing house, which it is unable to meet, and his statement showing the amount of the reserve fund against which the draft was drawn. Fourth Street National Bank v. Fardley, Receiver, 55 Fed. Rep., 850.
6. In a package of miscellaneous bonds was the memorandmo of the date, amount, and time when due, and also the words " $\$ 6,500$ due Putnam." Held, that these facts did not show any equitable assignment by the bank to the plaintiff of $\$ 6,500$ worth of bonds. To constitute an equitable assignment of property there must be an appropriation or separation, and the mere intent to appropriate is not sufticient. Putnam Savings Bank v. Beal, 54 Fed. 7. Where the treasurer and tax collector of a county, without anthority of law, deposit county money in a bank and receive certificates of deposit marked "Special" the title to the moneys doesmot pass, although there is no agreement that the identical bills shall be returned and they are mixed with the bank's general funds, and the county is entitled to recover an equal amount from a receiver of the bank prior to the payment of the general depositors. San Diego County v. California National Bank et al., 52 Fed. Rep., 59. (See Multnomah County et al. $v$. Oregon National Bank et al., 61 Fed: Rep., 912.)
8. Certain checks marked "For deposit" were deposited in a bank at a quarter to 3 on Saturday, and credit was immediately given for the amount thereof on the pass book. The bank closed at 3, and the next day was declared insolvent, with the checks still in its hands. It was the bank's custom, at the close of each day's business, to balance its books, crediting depositors with the amount of their checks, and if a check was subsequently returned unpaid from the clearing house it was charged off to the depositors. The depositor in this instance did not know of this custom. He had made deposits with the bank for several years without any special arrangement, and had never drawn against uncollected checks, except by particular understanding. Held, that on these facts title had passed to the bank so as to create the relation of debtor and creditor. City of Somerville v. Beal, Receiver, 49 Fed. Rep., 790.
9. But where the foregoing facts were alleged in the bill, and connected with the further allegation that at the time the checks were received the bank was "irretrievably insolvent, and made so by the operations of the president and two others of the directors," and that the depositor then

believed it to be solvent and had no means of lnowing of its insolvency, this was sufficient to show frand and to render the bank liable to return the checks or their proceeds. 16 .
10. It was not necessary for the bill to specifically allege that the officors of the bank had knowledge of its insolvency, since such knowledge would be implied from the allegation that the insolvency was cansed by the president and two directors. Ib.
11. A city treasurer deposited checks in a bank, indorsed by him "For deposit," and the checks were immediately credited to him on his pass book, though not in pursuance of any agreement to that effect. The bank became insolvent before the checks were collected, and their proceeds passed into the hands of a receiver. Held, that no title passed to the bank except as a bailee, and that the depositor was entitled to the proceeds. Beal, Receiver, v. City of Somerville, 50 Fed. Rep., 647.
12. No knowledge by any of the officers of a bank of its insolvency is sufficient to avoid transactions between the bank and its customers. on the ground of fraud, unless the evidence clearly shows that the directors, who represent the corporation, also had such knowledge. Balbach et al. v. Frelinghuysen, Receiver, etc., 15 Fed. Rep., Ciz5.
13. When a bank has become hopelessly insolvent, and its president knows that it is so, it is a fraud to receive deposits of checks from an innocent depositor, ignorant of its condition, and he can reclaim them or their proceeds; and the pleadings in this case are so framed as to give the plaintiff in error the benefit of this principle. St. Louis and San Francisco Railway Company v. Johnston, 133 U. S., 566.
14. Where complainant sent a draft to a bank for collection, charged with a trust to pay the proceeds thereof when collected to complainant, the bank being insolvent at the time, and its officers knew of its insolvency and that the bank would be obliged to suspend within a day or two, and the bank received the draft of an agent of the owner to remit the proceeds thereof, when converted into a draft on another bank to the credit of complainant, but instead of so remitting the proceeds thereof it kept the same, and mingled the proceeds of such draft with its own funds. Held, that such conversion by the bank was fraudulent, but that in an action by complainant for the recovery of such proceeds, it is incumbent upon the complainant to trace the fund misappropriated into the hands of the receiver substantially appointed for the insolvent bank. before the latter can be charged with recognizing complainant's equitable title thereto. 17. The Comptroller having notified a national bank that its capital was impaired, it was agreed that it inight continue business on the directors putting in $\$ 100,000$ in cash and retiring that amount of objectionable securities. That sum was contributed; the account being opened with trustees appointed by the directors to manage the fund, with full power as far as the bank was concerned, and to account therefor to the contributors in such manner as to protect the equities of each individual and the bank, in relation to the bank and its legal rights. It was understood between the trustees and the examiner that the securities to be retired were to be designated by the Comptroller or examiner, but there was no such understanding with the Comptroller. The full amount of objectionable securities had not been selected and given to the trustees when the bank was closed, the receiver taking and proceeding to collect the whole assets. Held, that the receiver was not required to account for the balance of the $\$ 100,000$ as a special trust fund, but merely as a debt. Booth et al. v. Welles, 42 Fed. Rep., 11.

Held, that plaintiff is not entitled to any preference over other unseeured creditors. Ib.
22. Plaintifis deposited, in the usual course of business, certain drafts with a national bank, which were credited to them on the books of the bank and in their pass book. The bank was at the time irretrifvably insolvent and its drafts had gone to protest the day before; of this its president, to whon was intrusted its entire control and management, had full knowledge, and presunably its other officers and agents. The bank kept open until the ustal hour of closing on the day of the deposit, but did not open its doors thereafter, and went into the hands of a receiver. In an action to recover the deposit; held, that in permiting plaintiffs to make it, in reliance upon the sapposed solvency of the bank, a gross fraud was practiced upon the plaintiffs, and they were entitled to reclaim the drafts or their proceeds. Also, that the right of plaintiffs to make the reclamation was not precluded by the provisions of Rev.St., secs. 5034 and 5e49, forbidding all preferential payment or transfers by an insolvent bank and providing for a ratable distribution of its assets, as plaintiffs did not claim under a transfer from the bank, but under their original title, that their relation as cxeditors terminated when they elected to rescind the contract implied when the deposit was made. and they were geeking simply to reclaim their own property, and that neither the receiver nor any creditor of the bank had any equity to have snch property applied in payment of itsobligations. Cragie et al. v. FIadlez, Receiver, 99 N. Y., 131.
23. Plaintifis sent a draft to the defendant bank for collection. The kank collected it, and issued its own New York draft, payable to plaintifis, for the amounts so collected, less exchange, and sent it to pleintiffs, who accepted it, and forwarded it for collection. The latter draft, however, was not paid, owing to the deiendant bank's suspension. Held, that the bank was a debtor, and not a trustee, of plaintiffs. Bowman v. First National Bank (Wash.), 83 P., 211.
24. The owner of property intrusted to another, by whom it was misapplied, is not entitled to a general lien on the assets of the trustee for the value of the property. SpokaneCountyv. First National Bank, 68 Fed. Rep.,9\%9.

26. paid by the drawees, after some delay, under express directions from plaintiff. Held, that plaintiff was not entitled to payment of the amount of the draft by the receiver of the C. bank as a preferred claina, the amount of the assets for distribution among creditors not having been increased in that amount by the deposit of the draft. 27. The national banks in Philadelphia organized, for their convenience, a clearing-house association, with rules for its business, set forth in detail in the statement in the opinion. Among these rules, one provided for the deposit of securities in fixed amounts by each bank as collateral for their daily settlements, and another for the hours in the day in which settlements were to be made, and the mode of making exclanges. The Keystone Bank made its deposit in conformity with the rule; but, hewing become indebted to the clearing house by reason of the receipt of clearing-honse certificates to a large amount, the securities deposited by it were surrendered and were redeposited by it as security for the payment of the certificates. In the clearing of March 19, 1891, the Keystone Bank presented charges against other banks to the amount of $\$ 155,186.41$, and the other banks presented charges against it for $\$ 940,549$, making the Keystone Bank a debtor in the clearing for $\$ 75,359.08$. In accordance with the rule, the Keystone Bank, between the hours of 11 and 12 , paid the $\$ 75.000$ in cash, or its equivalent, and gave its duebill. to the manager of the clearing house for the fractional sum of $\$ 330.08$, which was deposited by the manager and checked against by him as cash. In the runner's exchange of that day the Keystone Bank owed a balance of $\$ 23,021.34$, which balance it settled by giving its duebill to the manager for deposit in accordance with the system ahove stated. In operating the clearing on the morning of March 20 , the Keystone Bank, throngh its runner, delivered to the respective clerks of the varions banks packages containing claims held by the Keystone Bank amounting to $\$ 70,005.46$, and the settling clerk of the Keystone Bank received from the runners of the other banks packages containing $\$ 117,035.21$, leaving the Keystone Bank debtor in the clearing for $\$ 47,029.75$. The packages containing the demands which the Keystone Bank heid against other banks, and which had been delivered to the agent of each of those bantis, were by then taken away at the teranination of the clearing. The packages containing the charges presented against the Keystone Bank, which in the aggregate amonited to $\$ 17,035.21$, instead of being taken away by its settling clerk, were, under the arrangement which we have stated, turned over by him to the manager of the clearing house, to be retained until at the hour named the Keystone Bank paid the balance due by it. Before the lon for making the payment, however, the Keystone Bank, by order of the Comptroller of the Currency, was closed, and subsequently was placed in the hands of a receiver. On the failure of the Keystone to make the payment of $\$ 17.029 .75$, the committee of the association instructed the manager to call on the banks by whom claims had been presented against the Keystone "to rodeem tile packages against the Keystone Bank." The manager thereupon gave the proper notification, and the varions banks notified sent their checks and redeemed the packages in question. Anong the obligations for $\$ 117,035.21$, however, were deebilis amomiting to $\$ 11,197.36$. These duebills came from the fractional anonnts arising by the settlement made on the morning of the 19th, to wit, $\$ 359.08$; for the duebill given at the ranner's settlement on the morning of the 19th, $\$ 23,031.4$, and for ducbills given to varions banks during the course of business on the 19 th, anomiting to $\$ 17,806.84$. Therempon, and as part of the same transaction, the manager paid from the $\$ 70,005.36$, which, by his settlement sheet, appeared to the credit of the Keystone as owing from other banks to the Keystone Bank for the checks surrendered by that bank, the amount of the duebilis referred to, viz, $\$ 41,197.36$. This left to the credit of the Keystone the sum of $\$ 28,808.10$, and this amount was by the manager, acting under directions of the committee of the association, credited on the loan-certificate account of the Keystone Bank with the association. In a suit by the receiver of the bank to determine the rights of the parties, held, (1) that the claim of the receiver that the Keystone Bani was entitled to be paid $5: 0,005.36$ of credit, irrespective of the outstanding duebills which it had been expressly agreed between the parties were to be paid by way of set-off in the clearing, was without founda-

tion; (2) that the clearing-house association, having been in possession of the $\$ 28,808.10$ as the fiduciary agent of the Keystone Bank, without a lien or right upon it, its appropriation of the same after the insolvency of the Keystone Bank to the debt owing for loan certificates was obviously a preference within the inhibition of the statute against preferences in the cases of insolvent banks, Rev. Stat., sec. 5242. Yardley v. Philler, 167 U.S., 344.
28. As between a check holder and the bank upon which such acheck is drawn, it is settled that, unless the check be accepted by the bank, an action can not be maintained by the holder against the bank. Fourth Street National Bank of Philadelphia v. Yardley, 165 U. S., 634.
29. It is also settled that a check drawn in the ordinary form does not, as between the maker and the payee, constitute an equitable assignment pro tanto of an indebtedness owing by the bank upon which the check has been drawn, and that the mere giving and receipt of the check does not entitle the holder to priority over general creditors in a fund received from such bank by an assignee under a general assignment made by the debtor for the benefit of his creditors. Ib.
30. That the owner of a chose in action or of property in the custody of another may assign a part of such rights, and that an assignment of this nature, if made, will be enforced in equity, is also settled doctrine of this court. Ib.
31. The Keystone Bank, through its president, solicited the Fourth Street Bank to give to the former $\$ 25,000$ of gold certificates, for which the Keystone Bank was to give its check against its reserve account in the Tradesmen's National Bank of New York City At the same time that this request was made the president of the Keystone Bank made the further statement that his bank owed a balance at the clearing house, which it could not meet " because its funds were in the city of New York," and exhibited a memorandum showing the amount to its credit with the Tradesmen's Bank to be in the neighborhood of $\$ 27,000$. In reliance upon such representations and the statements made, supported by the memorandum exhibited, the Fourth Street Bank delivered to the Keystone Bank the certificates requested, and there was delivered a check for $\$ 25,000$ upon the Tradesmen's National Bank of New York. The draft in question was at once forwarded to the city of New York, and was presented for payment at the Tradesmen's Bank on the following morning, when payment was refused. At the time of presentment the Tradesmen's Bank had to the credit of the Keystone Bank \$19,725.62 in cash and collection items amounting to $\$ 7,181.70$; in all, $\$ 26,907.32$. Of this amount, $818,056.21$ had been remitted by the Keystone Bank on the day previous. Held, (1) that, it being established that it was the intention and agreement of the parties to the transaction that the check drawn generally should be paid out of a particular fund, such check, as between the parties, is to be treated as though an order for payment out of the specific designated fund; (2) that as the Fourth Street Bank contracted and parted with its money on the faith of the representations of the Keystone Bank that there was to its credit in the Tradesmen's Bank a specific sum, and the fund which came into the hands of its voluntary assignee was the fund as to which the representations were made, the Keystone Bank and its assignee were in equity estopped from asserting, to the prejudice of the Fourth Street Bank, that the character and condition of the fund was otherwise than it was represented to be. Ib.
32. The right to fasten a special trust upon funds held by a receiver of an insolvent bank in Iowa not having been created by any statute of that State, but depending upoin the general principles of law and equity applicable to the circumstances, decisions of the supreme court of that State in relation thereto, if not in accord with the decisions of the Supreme Court of the United States or the decided weight of authority, do not constitute a rule of property binding on the Federal courts. Beard v. Independent District of Pella City, 88 Fed. Rep., 375, reversing 83 Fed. Rep., 5.
33. In order that a trust fund may constitute a preferential claim against the funds of a national bank in the hands of a receiver, it must appear that these funds were actially augnented by the receipt of the trust fund, And if the trust fund was created merely by a check on the same bank, drawn by a general depositor in favor of the trustee, the amount of

The declaration in an action to enforce the liability of a stockholder of a. foreign corporation, which averred that under the statute of the foreign State, as interpreted by the decisions of the court of last resort of that State, defendant's liability as stockholder was contractual, and arose upon the subscription made by him to the capital stock, and that, in subscribing, he guaranteed payment to the creditors of the corporation of an amount equal to the par value of the stociz held by him, which should be payable to the judgment creditors of the corporation who first pursued their remedy under the statute; and that an action to enforce that liability was transitory, and could be brought in any court of general jurisdiction in the State where personal service could be ruade upon the stocl:holder-stated a cause of action of which the courts of Massachusetts had jurisdiction. 25. L. was president of the defendant national bank, and had substantial control and management. He bought fifty shares of defendant's outstanding stock, and paid for it with the proceeds of a note, signed by M., the cashier, which he indorsed and placed in the bank as discounted paper. He afterwards bought one hundred and forty-eight shares, and paid for them by an ordinary call loan from defendant. On subsequently selling a portion of the stock, $I_{\text {a }}$ applied the proceeds to the note and call loan. He did not assume to act for defendant, and the stock was transferred to him individually, and was in his name on the books. He had no actual authority to buy the stock for detendant, but the evidence tended to show that the purpose of the purchase was to get the stock into the hands of persons who would be useful to defendant. In an action for fraud in a subsequent sale of such stock by L., held, that defendant could not be charged as owner of the stock. Prosser v. First National Bank of Butfalo, 106 N. Y., 677 ; 3 N. B. C., 646.

On the question whether the president represented defendant to be the owner of the stock, plaintiff testified that in the conversation resulting in the sale the president stated that "we can sell you some of our stock", at 160, and that that was "the price that the bank took it in at." Plaintiff did not inquire as to the ownership. The president testified that while he might have stated that "we have some stock," his best recollection was that he did not say " the bank took it in." No motive appeared for his representing defendant to be the owner. Held, that the evidence sustained a finding negativing such representations. Ib.

Potter v. Beal ct al., Su Fed. Rep., $80 \%$.
18. It was improper to make the disitrict attorney a party defendant for the purpose of procuring the papers to be laid before the grand jury. Merchants' National Bank v. Guilmartin (Ga.), 21S. E., 55.
30. 32. A special deposit in a bank is gratuitous where it is accepted for the accommodation of the depositor, and without any undertaking by him, express or implied, or to pay or do anything as compensation or reward for keeping the deposit; and, in an action to hold the bank liable for its loss, it is error to instruct the jury that if the bank habitually accepts such class of deposits, a person going to make a deposit with it is not obliged to be able to show satisfactorily to himself what benefit will result to the bank, but can assume that it will be benefited. Merchants' National Bank v. Guilmartin (Ga.), 15 S. E., 831.

35. A national bank, receiving a special deposit for safe-keeping, without reward, is liable only for gross negligence; the burden of proof is on the plaintiff, and gross negligence is not the omission of that care which every attentive and diligent person takes of his own goods, but the omission of that care which the most inattentive takes. Co., in order to secure one H. as surety for it on a bond for $\$ 18,000$, given pursuant to an order of court, made a special deposit of $\$ 18,000$ in the name of $H$., trustee, in a bank of which $H$. was president, receiving from the bank a certificate stating the particulars of such deposit and its purpose. The money so deposited was never separated from the other moneys of the bank, but the amount was credited on the books to H., trustee. Some time after the deposit was made, H. drew $\$ 9,000$ in checiks signed as trustee, deposited the same in his personal account, and checked it out. The trust account showed a balance of $\$ 9,000$ when the bank failed and passed into the hands of a receiver, the cash then in the bank amounting to about $\$ 11,000$. Held, that the C. Ry. A bank, on receiving certain notes as a special deposit, issued a certificate for the amount thereof, made out on a printed form, from which the words "in current funds" were erased and "in certain notes" substituted. The certificate was marked "Special deposit." Having been transferred, this certificate was sent by the holder to the bank for payment. The notes had not then been collected, and the teller was directed by the cashier to return the certiticate; but as tine signature was torn, he was instructed to propare and transmit a duplicate certificate. In doing so, he carelessiy omitted to change the printed form by erasing "in curreut funds" and substituting "in certain notes." Held, that there was no ground for a claim that the second certificate was given in payment for the first; that it was only a substitute for it, and that the receiver of the bank was only required to surrender to the holder the notes constituting the special deposit, for which the original was issued. 74 Fed. 3. The assessment of the entire capital stock of a national bank in solido against the bank itselt is invalid. The bank may pay the tax assessed upon the shares of its different stockholders, and it will have a lien thereon when it pays such tax until the same is satisfied. Note. - But it has been held in Maryland that the stock of an association represents its whole property, and where a tax is assessed upon the shares a separate tax upon the real or personal estate amounts to double taxation; and, therefore, where the organic laws of the State pronibit double taxation, such a tax upon the property of an association is void. Comety Commissioners v. Fomners and Mcchanies' Notional Bank, 43 Md., 11\%; National State Bank v. Yoang. 85 Iowa, 311, whereiin it was held that the State could tax only the shares co nomine and the real estate.

14. Where shares of stock are assessed at their actual casl value, without any deduction for the real estate owned by the association, the real estate should not be taxed conomine. Commissioners of Rice County v. Citizers' National Bank of Faribault, 23 Minn., 280.
15. Real estate owned by a bank constitutes part of its assets, within the meaning of Code of Mississippi providing that banks shall pay a privilege tax, whose amount varies, with their "capital stock or assets," in lieu of all other taxes. Vichslury Bank v. Worrell, 7 So., 219.

 Lily v. The Commissioners, c9 N. C., 300.
17. Where the State banks are taxed upon the capital, no fax can be imposed upon the shares of national banking associations; for, as the capital of the State banlis may consist of the bonds of the United States, which are exenpt from State taxation, a tax on capital is not equivalent to a tax on shares. Tan Allen v. The Assessors, 3 Wall., Exa; Bradley v. The People, 4 Wcill., 459.
18. But though the tax upon the State banks is not eo nomine a tax on shares, yet if it is equivalent to such a tax the shares in the national banking associations located in that State may be taxed. Frazer v. Setbem, if Ohio St., 614; Van Sligle v. State, i'Wis., baj; Boynoll v. Stute, is Wis., 11 .
19. Where by local legishation different rates are prescribed for diferent classes of moneyed capital, the rate imposed upon shares of national banlis should approximate as closely as may be the rate imposed upon other moneyed capital of the same or similar class, viz, shares of State banks. 20. Congress meant nomore than to requre of the States, as a condition to the exercise of the power to tax the shares in national banks, that they should, as far as they had the capacity, tax in like manner the shares of banks of issue of their own creation. Lionberger v. Rouse, 9 Wrall., hes.
21. Therefore, where a state has previonsly contracted with tho lanls which it has chartered that they shall not be taxed above a certain rate, a tax upon national-bank shares at a greater rate is not invalid. if this rate is not greater than that assessed upon all the moneyed capital within the State, except that of the State banks. $I b$.
22. Any system of assessment of taxes which exacts from the owner of the shares of a national banking association a larger sum in proportion to the actual value of those shares than it does from other moneyed capital, valued in like manner, taxes the shares at a greater rate, notwithstanding that the percentage of tax on the valuation is the same as that applieal to other moneyed capital. Peltonv. Commercial National Bank, 111 U. S., 14.3.
23. Where shares in national banking associations are purposely valued proporionately higher than the other moneyed capital in the State, the assessment is void. Ib.

29. A State statute creating a system of taxation of banks which does not discriminate against national banks is not unconstitutional. Davenport Bank v. Davenport, 193 U. S., 83.
30. Section 5219, Rev. St., does not require perfect equality between State and national banks, but only a system of taxation which shall work no discrimination between them. $1 b$.
31. The intention of Congress was that the rate of taxation of the shares should be the same as, or no greater than, the tax upon the moneyed capital of the individual citizen which is subject and liable to taxation. Pcople v . The Commissioners, 4 Wall., 244.
32. Tho fact that by the statutes creating them, which statutes were passed prior to the national banking law, State banks are entirely exempt from taxation will not render a tas upon the shares of national banking associations void. City of Richmond v. Scott, 48 Ind., 568.
33. Ànd a State tax upon shares in national banking associations is not rendered invalid by an exemption of the slares of other corporations the capital of which consists of property required to be listed for taxation as such. MicIver v. Robinson, 55 Ala., 450.
34. But though Congress did not contemplate that there should be an absolute equality (which in the nature of things is impossible), yet it did intend that there should be a substantial equality; and therefore if the exemptions in favor of other moneyed capital are so palpable as to show that there is a serious discrimination against capital invested in the shares of national banking associations, the tax will be declared unlawful. Boyer v. Boyer, 113 U. S., 690.
35. A State law which does not permit a deduction to be made from the assessed value of bank shares for all debts due by the holder thereof, while authorizing such a deduction to be nade from the assessed value or moneyed capital otherwise invested, is void. People ex rel. Williams v. Weaver, 100 U. S., 539, reversing S. C., 67 N. Y., 51e, and overruling People v. Dolan, 36 N. Y., 59.
36. In the assessment and taxation of shares of national-bank stock, the owners thereof, having no other credits or moneyed capital, are entitled to deduct their bona fide debts from the value of such shares of stock. Wasson v. Bank, 8 N. E., 97 .
37. Rev. St., sec. 5219 , providing that shares of national-bank stock may be taxed as a part of the personalty of the owner and that each State may tax them in its own manner, except that the taxation shall not be at a greater rate than is imposed on other "money capital "owned by citizens of the State, and that the shares of nonresidents shall only be taxed in the city wherein the bank is located, do not authorize the taxation of the stock of a bank in solido by the city in which it does business, but only the shares of individual owners residing in the city are taxable, and they must be taxed separately, in order that the owner may deduct from their value the amount of his personal indebtedness, where the State laws or municipal ordinances permit such deductions and require equality of taxation. First National Bank of Richmond $\nabla$. City of Richmond et al., 39 Fed. Rep., 309; Whitbeck v. Mercantile Bank, 127 U. S., 193.
38. The main purpose of Congress in fixing limits to State taxation on investments in the shares of national banks was to render it impossible for the State in levying such a tax to create and foster an unequal and unfriendly competition by facoring institutions or individuals carrying on similar business and operations and investments of a like character; and the

language of the law is to be read in the light of this policy. And therefore the exemption of shares or stock in corporations the business of which does not come into competition with that of the nationalbank (e. g., railroad companies, mining companies, manofacturing companies, and insurance companies) does not invalidate a tax upon national bank shares. Capital thus employed is not "moneyed capital" within the meaning of the act of Congress. Mercantile Bank v. New York, 1.1 U. S., 18S; Newarl Bank Co. v. Newark, Ib., 163; Bank of Redemption v. Eoston, 195 Ib., 60.
39. Although deposits in savings banks constitute moneyed capital in the hands of individuals within the terms of any definition which can be given of that phrase, yet they are not within the meaning of the act of Congtess in such a sense as to require that, if they are exempted from taxation, shares of stock in national banks must theseby also be exempted from taxation; for it can not be supposed that savings banks come into any possible competition with national banks. $I b$.

Under act Louisiana, 1888, sec. 27, relating to taxation of national-bank shares, making no deduction for that part of the banks property entering into their value which consists of nontaxable State and national securities, which deduction may, under the act, be made by individuals, a tax on national-bank shares violates Rev. St., sec. 5219 , prohibiting the assessment of such sbares at a greater rate than moneyed capital in the hands of individual citizens; and it is immaterial that the same discrimination is made against other corporations. Whitney National Bank v. Parker, 41 Fed. Rep., 40?.
42. The taxation of national-bank shares by the statute of Indiana without permitting the owner of them to deluct from their assessed value the amount of his bona fide indebtedness, as he may in the case of other investments of moneyed capital, is a discrimination forbidden by the act of Congress. Britton v. Evanstille National Bank, 105 U. S., p:2.
43. Section 5219 prohibits an adverse discrimination by a local government in the valuation of national-bank stock for assessments as compared with an assessment by the same govermment for the same year of other moneyed capital invested so as to malke a profit from the use thereof as money. Pitget Sound National Banle of Seatlle v. King County et al., 5 y Fed. Rep., 439.

49. But where the tax laws of the State make the bank the mere agent for paying the tax on shares, and direct it to retain so much of the dividends as will answer that purpose, other agents being required to pay taxes for their principals only when they have under their control the property, money, or credit of such principals, the bank can not be made liable unless it has the control of the property, etc., of its shareholders, or has dividends in its possession or lias failed to retain them. Hershire v. First National Bank, 35 Iowa, 27.
50. Act Louisiana, 1888, sec. 27, providing that shares in banks shall be assessed to shareholders, but requiring the bank to pay taxes so assessed and authorizing it to collect the same from the shareholders, imposes a tax, not upon the bank, bat upon its shares, as permitted by act of Congress providing that a State may determine the manner of taxing the shares of national banks located in the State. 57. The imposition of a tax upon the shares of the bank according to the Lonisiana statute, which requires the bank to pay the tax and then look to the dividends upon the shares and to the stockholders for reimbursement, is a tax upon the bank itself. Citizens' Bank of Loutiaiana v. Board of Assessors, 54 Fed. Rep., 73.
58. In 1856 the State of Tennessee granted to the Bank of Commerce a charter which provides that the bank "shall have a lien on the stock for debts due it by the stockholders, and shall pay to the State an annual tax of one-half of one per cent on each share of capital stock, which shal be in lieu of all other taxes." Held, that this charter exempts from taxation the property of the bank as well as the individual property of the shareholders in the corporate stock and its shares, and such construction is not affected by the fact that the United States Supreme Court decided that the charter tax was a tax on the shareholder only. and an exemption therefore of the shareholder, since such decision does not exclude from the exemption the corporation and its property. 62. P. was a resident in the city of New York and a stockholder in a national bank situated there. In 1881 his shares in the bank were assessed at a valuation of $\$ 247,635$. This valuation was entered by the tax commissioners in the annual Record of Valuations for 1881, a book which was kept open for public inspection from the second Monday of January, 1881, to May 1,1881, and a public advertisement thereof was made. Before April, 1881, P. appeared before the commissioners and cla merl a reduction, and they reduced the valuation to $\$ 190,635$. On May 1 the assessment rolls were prepared from that record, with the valuation of P.'s shares at the latter sum, and he was assessed at that valuation. The tax rolls were completed on this basis, and notice was given that they wonld be open for inspection. P.'stax, upon the reduced valuation, was $\$ 4,994.63$. The tax rolls were confirmed, and due notice was given to ail taxpayers that the taxes were due and payable. P. paid $\$ 1.310$ of this tax, but declined to pay the further sum of $\$ 3,684.63$. for the city and county of New York, under c. 230 of the laws of New York of 1843, for the enforcement of the payment of the sum remaining due. He appeared and answered, and judgment was given against him, which judgment was affirmed by the court of appeals, and the case was remanded to the court of common pleas. A writ of error was sued out from this court to review that judgment. Held, (1) that this court was bound by the decision of the court of appeals as to P's failure to comply with the State statute in relation to the method of procedure, form of assessment, etc.; (2) that the assessment was not made in contravention of the Constitution or laws of the United States, and was, therefore, not void for that reason; (3) that the mode provided by the statute of New York for the collection of the tax was "due process of law," and did not deprive $P$. of the equal protection of the laws; but that it was a purely executive process to collect the tax after the liability of the party was finally fixed. When a law provides a mode for confirming or contesting an assessment for taxation, with appropriate notice to the person charged, the assessment can not be said to deprive the owner of his property without due process of law. Assessors should give all persons taxed an opportunity to be heard; but it is sufficient if the law provides for a board of revision authorized to hear complaints respecting the justice of the assessment, and prescribes the time during which, and the place where, such complaints may be made. 64. The auditor of Cuyahoga County, Ohio, fixed the taxable value of shares in a national bank at 60 per cent of their true value in money, in accordance with the practice adopted for the valuation of other moneyed capital of individuals in the courts and State, and transmitted the same to the State board of equalization for incorporated banks. That board increased the valuation to 65 per cent, and this value, being certified back to the auditor, was placed by him on the tax list without a corresponding change being made in the valuation of other moneyed capital of individuals. Held, that this was such a discrimination as is forbidden by section 5219 of the Revised Statutes of the United States. The statutes of Ohio regulating assessments for taxation allow an owner of moneyed capital other than shares in a national bank to have a deduction equal to his bona fide indebtedness made from the amount of the assessment of the value of such moneyed capital; but they malke no provision for a similar deduction from the assessed value of shares in a national bank, and provide no means by which such a deduction may be obtained. Held, (1) that the owners of such shares are entitled to have a deduction of their indebtedness made from its assessed value as in the case of other moneyed capital; and (2) that the right to it is not lost by not making a demand for it until the entire process of appraisement and equalization of the value of the shares for taxation is completed and the tax duplicate is delivered to the treasurer for collection. An assessment upon national-bank stocks is not violative of a constitutional provision declaring that taxation shall be equal and uniform, though in such assessment the owners of such stocks are denied the right to deduct from the value of such shares the amount of capital invested by the banks in United States bonds and legal-tender notes, and such a deduction is given to private bankers. 97. A case of discrimination against national banks, within the purview of section 5219, Rev. St. U. S., arises only when the moneyed capital employed in the hands of individual owners in carrying on operations of the same character as those by national banks is some considerable amount and is exempt by operation of law or by the willful act of the assessors. 98. Rev. St., 1881, secs. 6357,6358 , provide that certain corporations organized under the State laws shall list their stock, and direct the auditor to lay such list betore the board of equalization for original valuation. Held, that these provisions do not apply to national banks. Eaton v. Union County National Bank (Ind.), 40 N. E., 693.
99. Under tax law, 1891 (Rev. St., 1894, soc. 8469), national banlts are not required to make the statements therein provided for as a basis for valuation. $I b$.
100. Act of June 8,1891 (P. L., 240), providing that banks paying a certain rate on their shares of capital stock into the State ireasury shall be exempt from local taxation, and that banks failing to do so shall be assessed both locally and by the State, at a lower and uniform rate upon the appraised value of their shares, is not repugnant to Const., Art. IX, sec. 1, which provides that all taxes shall be uniform on the same class of subjects within the territorial limits of the authority levying the tax. Commonwealth v. Merchants and Manufacturers' National Bank (Pa.), 31 Atl. Rep., 1065.
101. Where the assessor made an unauthorized assessment of the shares of bank stock to the bank, and the bank did not ask the board of equalization to correct such erroneous assessment, it could not enjoin the collection of the taxes, in the absence of a valid excuse for its failure to apply to such board. First National Bank v. Bailey (Mcnt.), 99 P., 89.
102. Where bank stock is erroneously assessed to the bank instead of the stockholders the board of equalization may correct the assessment. Ib.
103. A bank is not estopped from denying liability to pay a tax levied on its capital stock as the personal property of the bank by the fact that for several years it had paid taxes so levied. Farners and Traders' National Bank v. Hoffman (Iowa), 61 N. W., 418.
104. Under Code, section 819, providing for the taxation of slares of bank stock, and requiring the officers to furnish the assessors " the name of each person owning shares, and the amount owned by each," an assessment on the capital stock as the personal property of the bank, without mention of the shareholders, is void. Ib.
105. Under Code, section 819, providing that banks shall be liable for the tax on shares of capital stock as the agentof the shareholders, and that they "shall retain so much of any dividend belonging to any shareholder as shall be necessary to pay auy taxes levied on his shares," a bank is not liable moless it has money or property belonging to the delinquent shareholder. Ib.

Taxation-Continued.
106. Evidence that a bank had not declered a dividend for a year previous to the levy of an assessment on its capital stock, and that the surpius which it reported after tho assessment was made was worthless, by reason of the shrinkage of the securities composing it, will sustain a finding that, after the asses ment, the bank had no money of the skereholder with which to pay the tax. $1 b$.
107. The mere fact that a Statestatute permits some debts to be deitacted fron sore moneyed capital for the purpose of assessment for taxation, bat not from that which is invested in the shares of national banks, does not show a violation of Rev. St., section 5319, forbidding State tasation of national-bank shares to be at a greaier rate than is assessed ripon other moneyed capital in the hands of individual citizens, there leing nothing to show that the amonat of moneyed capital in the State from which debls may le deducted, as compared with the moneyel capital invested in national-bank shares, was so large and substantial as to amount to an illegal discrimination against national-bank shaiclioleers. First National Baik v. Ayers, 10 S. Ct. 4 s.
108. The single fact that the statutes of Kansas regulating the assessmeat and tasation of shares in national banks permit some del a to le dedacted from some moneyed capital, but not from that which is invested in the shares of national banks, is not sufficient to show that the anount of moneyed capital in the State of Kansas from which delts may be decucted as compared with the moneyed capital invested in chares of national banks, is so large and substantial as to amount to an illegal discrina nation against national-bank shareholders in violation of the provisions of Rev. Stat. sec. 5ni9. First National Bank of Gamat v. Ayers, eco led. Rep., 150.
109. Under Rev. St. U. S., 85919 , which authorizes the taxation of nationalbank shares to the owner or holder, but which empowers the Iegislatare of each State to determine the manner and place of taxing such shares, the State has a right to resort to the bank as a garnishee for the col.ection of its claims against the stockholders for taxes, and the legisfature may require the assessment oi the stock to le made to the bank in solido. First National Bank v. Chehulis Connty (Washi.), 92 I', $1 \ddot{\prime} 1$.
110. Rev. St. U.S., $\$ 5219$, which prohibits the legislature of each State from taxing national-bank stock at a greater rate than assessed upon the " moneyed capital" in the liands of iudividual citizens of the State, is intended merely to prevent moneyel capital invested in national banks from being placed at a disadvantage as compared with moneyed capital in the hands of citizens of the state, used for practically an idenitical purpose with that invested in the stock of national banks: and the nontaxation of credits owing to individual citizens. such as accounts, promissory notes, and mortgaces, is not an unlawful discrimination against national banks whose capital is taxed. 13.
111. The collection of taxes wrich plaintiff ought to pay will not be restrained for mere irregularities by the taxing officers. Dutton v. Citizens' National Bante (Kais.), do P., F19; Same v. First National Bank, ib., rait; First Netional Bamk v. Ayres, ib.
112. Where there is no means of recovering back from the State taxes illegally assessed and paid into the treasury, a court of equity will enjoin their collecion; and when both State and county taxes are included in one warrant. and are for a common reason illegal, the court will at the same time determine the validity of both the State and connty taxes. First National Bank of Omaha v. County of Douglas, 1 N. B. C., So $^{2}$.
113. State authorities will ke enjoined from collecting a tax on the capital stock of a national bank invested in United States securities. Ib.
114. The statnte of Wisconsin made taxes assessed on shares of stock in national banks a lien on such stock. The defendant sold to plaintiff shares of stock in a national bank, upon which was an unpaid tas. Defendant gave plaintiff a written statement purporting to contain all facts affecting the value of the stock, but in which the tax was not mentioned. The tax was paid by the bank. Held, that plaintiff could recover damages of the defeudant to the amount of the tax. Simmons v. Aldrich, 41 Wisconsin, 240.
115. A.State statute provided that "the stockholders of every national bank located in this State, or of any bank incorporated under the laws of the State, shall be assessed and taxed on the value of their shares of stock

therein, subject to the restriction that taxation of such shares shall not be at a greater rate than is assessed upon any other moneyed capital in the hands of individual citizens of this State in the county or precinct where such bank is located. The taxes against such shares shall belevied against the holder of the same, and shall be paid by the bank." Held, that a tax so imposed on the shares of a national bank was valid, and that payment thereof could be enforced by distraint of the property of the bank. First National Bank v. Douglas County, 3 Dillon, 3 צ̧0.
116. Under a.State constitution requiring all property not specifically exempt to be taxed, State assessors must tax the shares of national-bank stock belonging to nonresidents of the State in the city or town where the bank is located, although there is no State statute expressly directing such taxation. Kyle v. The Mayor, etc., 75 North Carolina, 445; 1 N. B. C., 808 .
117. A collector of taxes has no authority to seize the property of a national bank to satisfy a tax assessed against a shareholder. First National Bank v. Hershire, 31 Iowa, 18; 1 N. B. C., 465.
118. Under the statute of Iowa a national bank is not liable for the tax assessed against a shareholder unless it liave in its possession dividends or property belonging to such shareholder. Hershire v. The First National Bank, 85 Iowa, 27e; 1 N. B. C. 4 4 C.
119. Under a statute requiring shares in national banks to be taxed at their actual value without reduction for real estate, the banking office and lot, owned and occupied as its place of business by a national bank created, is not liable to assessment and taxation as real estate eo nomine against the bank. Board of County Commissioners of Rice County v. Citizens' National Bank of Laribault, 23 Minnesota, 880; 1 N.B.C., 629.
120. Municipal officers can not assess a tax on shares of stock of a national bank unless authorized by a law of the State. Stetson v. City of Bangor, 56 Maine, 274; 1 N. B. C., 520.
121. A statute authorizing "the taxation of all shares in moneyed corporations," held sufficient authority to tax shares in national banks. Ib.
122. A State statute prohibiting the establishment of banking companies in the State without authority of the legislature does not apply to national banks. Ib.
123. A State bank was by its charter required to pay the State a tax or bonus on its capital paid in. A statute afterwards authorized State banks to reorganize as national banks, provided that all sums required by their charters to be paid to the State continued to be paid as theretofore. Hcld, that a State bank had the right to surrender its charter. and by so doing discharged itself from its obligation to pay the required bonus, and that the State could not require it, in reorganizing as a national bank, to pay any bonus. State v. The National Bank of Baltimore, gs Maryland, \%5; 1 N. B. C. , 5\%7.
124. Congress has the constitutional right to establish national banks in any State and to provide that the shares of their capital stock shall be exempt from taxation by other States. Flint v. Board of Aldermen of Boston, 90 Massachusetts, 141; 1 N. B. C., 571.
125. Under section 41 of the national banking act of 1884 it is unlawful for a State to impose a tax on shares owned by an inhabitant thereof in the capital stock of a national bank located in another State. Ib.
126. A warrant for the collection of a tax assessed to the shareholders on shares of stock in a national bank directed the collector "to levy the same on the goods and chattels of such persons." Held, that the collector could not thereon seize the property of the bank to pay the tax. First National Bank of Sandy Hill v. Fancher, 48 New York, 524; 1 N. B. C., 607.
127. The provision of the act of June 13, 1867, requiring the assessment of shares in banks to be made for the year 1867, with regard of the first day of July, 1867, instead of the first day of the preceding April, does not violate the principle of equality and uniformity established by the Constitution. McVeagh v. City of Chicago et al., 49 Illinois, 318.
128. But if, in making an assessment under that act, the valuation of the shares was determined on the first day of July, and the law required it should be determined as of the first day of April, it would be necessary for the owner of the shares, calling upon a court of equity for relief, to show that he was injured thereby; that by reason thereof the valuation put upon them on the first day of July was greater than they justly bore

on the first day of April preceding, or that he was compelled to pay a double tax, first on the money listed for taxation on the first day of April, and again on the bank shares he purchased with this same money between that day and the first day of July. Ib.
129. Where a particular species of property has been omitted from taxation for a given year, the legislature has the power to pass a special law to cure the omission. Ib.
130. So the tax on national-bank shares, not having been equally assessed for the year 1867 , by reason of the defective law under which it was attempted, the act of June of that year was designed to supply the omission, and there was no want of constitutional power to enact it. $I b$.
181. In assessing the shares in national banks under State authority, it is not necessary that they shall be included in the personal property, so that upon aggregating the personal property, shares iucluded, the taxable portion would be shown by what remained after the reduction for debts was made, as provided by the general revenue law. It is quite immaterial on what portion of the list these shares are found. $I b$.
132. Under the act of 1867 a system of taxation for bank shares was designed, peculiar to itself and independent of the general revenue system of the State. The only deduction allowed by the act from the shares of each owner is a proportionate sum for the real estate in which a portion of the capital might be invested. No deduction for debts owing by the owner can be made from the valuation of his bank shares. Ib.
133. Nor is this discrimination in not allowing a deduction from the valuation of bank shares for debts owing by the owner, as is allowed to be made from the valuation of other personal property under the general revenue law of the State, contrary to the limitations imposed by the provisions of the forty-first section of the national banking act of June 3, 1864, which provides that shares in these banks shall not be taxed under State authority "at a greater rate than is assessed upon other moneyed capital in the hands of individual citizens of such States." The "rate" of taxation is not affected by the different modes adopted to ascertain the taxable value of the various kinds of property. Ib.
134. Should a collector be compelled to sell the bank shares for the nonpayment of taxes, under the act of 1867, and the bank refuse to transfer them to the purchaser on the books of the bank, a court of chancery, on a bill filed for such purpose, would compel the transfer. $l b$.
135. Or if the taxes upon such shares remain unpaid through the dividends, as provided by this bank, the State could by mandamus compel the officers of the bank to appropriate the dividends or such portions as might be necessary to pay the taxes. Ib.
136. No actual notice of the assessment of bank shares is required to be given to the owner, the act requiring only that notice shall be published in a newspaper a certain length of time. Ib.
137. By an act of the Indiana legislature passed in March, 1867, shares of the capital stock of national banks within the State were taxed for that year, and the cashier of each bank was required to represent each stockholder in listing and valuing his stock. Held, that the statate took effect from the 1st day of January, 1867, that it was a valid exercise of the taxing power, and that it did not conflict with the constitutional requirement of "a uniform and equal rate of assessment and taxation." Whitney et al., appellants, v. Ragsdale, Treasurer, 39 Indiana, 107; 1 N . B. C., 429.
138. The requirement of such act, that the stock shall be taxed at the place where the bank is located, is not invalid where the owner of the stock lives in another couuty or State, Ib.
139. Under a statute of Indiana, national-bank stock was nottaxable for municipal purposes. Held, that a tax for school purposes or tior a donation by a township to aid in building a railroad was not a tax for "municipal purposes," and therefore not within the restriction. Root v. Erdelmeyer, 3'y Indiana, 225; 1 N. B. C., 43:
149. By general law of a State, shares of stock in national banks were to be taxed in the township where the bank was located, except that where a stockholder resided in another township in the same county, his shares were to be there taxed. A village charter authorized the taxation of "all property, real and personal, within the limits of said village." Held, not to authorize a tax on shares of stock in a national bank located in such

village, owned by a resident of another township in the same county. Howell v. The Village of Cassopolis, 35 Michigan, 471; 1 N. B. C., 627.
141. A statute made it the duty of every shareholder in a national bank to give notice to the bank of his trne residence each year, and, in case of neglect, made the shares taxable where the bank was located as well as where the shareholder resided. Held, that a shareholder was rightfully taxed upon his shares in the town where he resided although he had, through an honest mistalke, notified the cashier that his residence was in another town. Goldsbury v. Inhabitants of Worwick, 112 Massachusetts, 384; 1 N. B. C., 592.
142. A State statute providing that shares of stock in national banks shall be taxed in the county, town, or districts where such banks are situated, whether the shareholders reside in such county, town, or district or not, is valid. First National Bank of Mendota v. Smith, 65 Illinois, 44; 1 N. B. C., 390.
143. Semble, that shares in national banks are in the nature of choses in action. They are mere demands for dividends as they become due. The certificates of stock are merely evidonce of the holder's title to a given share in the property and franchises oi the corporation of which he is a member. The bank is the trustee of the stockholders, who must come to its counter for their dividends and their share of assets on final liquidation, and no transfer of stock can be completed until shown upon the books of the bank. $I b$.
144. Assessors of taxes possess no authority except such as is conferred upon them by statute, and they must see to it that they are within the authority committed to them. Nutional Bank of Chemung v. Elmira, 53 New York, 49; 1 N. B. C., 715.
145. Asjessors assessed a tax on the capital stock of a national bank, which was expressly prohibited by statute. The property of the bank was seized by the collector of taxes and sold to pay such tax, and the proceeds paid over to the municipal treasurer. Held, that the assessment was void. and that an action lay on behalf of the bank against the municipal corporation to recover the money. Ib.
146. In assessing shares of stock in national banks in New York the assessors inust determine the actual value of the shares, taking into consideration all the capital of the bank, whether surplus or in real estate or otherwise, and then deduct from such value such sum as represents the proport on which the assessed value of the real estate bears to the assessed value of the entire capital. People ex rel. Tradesmen's National Bank v. Commissioners of Taxes and Assessments, 1 N. B. C., 752.
147. Thus the capital of a national bank was $\$ 1,009.000$, and was represented by $2 \overline{2}, 000$ shares of $\$ 40$ each. The assessors assessed the shares at $\$ 06$ each, making in the aggregate $\$ 1,400,000$, and the real estate at $\$ 200,000$. Held, that they should deduct from the assessed value of each share $\$ 8$, being one-seventh, or the proportion which the real estaie bore to the aggregate assessed value of the shares. Ib.
143. State banks were exempt from taxation under a statute passed prior to the national banking act. Held, that shares in national banks could nevertheless be taxed. City of Richmond v. Scott, 48 Indiana, 508; 1 N. B. C., 445.
143. A tax was levied on money belonging to plaintiff on the first day of January. In March he bought with this noney shares in the stock of a national bank. Held, that the shares could be also assessed under a statute providing that persons should be assessed for bank stock held by them on April first. Ib.
150. A State statute required the assessors of each city and town in which any shareho:der in national banks resided to include such shares in the assessment of such person. The defendant resided in Boston, owned shares in several national banks there situated, and was there assessed on such shares. He refused to pay the tax on the ground that the Staee statute was in violation of the national banking act permitting States to tax shares of national banks "at the place where such bank is locate $l$ and not elsewhere." Held, that as in this case the assessment was in conformity to the act of Congress the defentant had no cause for complaint and could not impeach the validity of the State statute. Austin v. The Aldermen, 7 Wall., 694; 1 N. B. C., 15.
151. By the statute of Jume, 1868, chapter 349, of Massachusetts, entitled "An

act concerning the taxing of bank shares," it was provided that the shares in national banks owned by nonresidents of the Commonwealth shall be assessed to the owners thereof in the cities or towns where the banks are located; that the rate of taxation shall be the same as on other moneyed capital; that the value of such shares shall be omitted from the valuation upon which the rate is to be based, and that the act shall " apply to taxes assessed and collected for the present year in the same manner and to the same effect as if it had been in force on the first day of May." Held, that the act was not unconstitutional, either as being in violation of the act of Congress of 1884, chapter 106, section 47, and 1868, chapter 7, or as levying a tax in a disproportional manner, or as being retrospective in its operation. Providence Institution for Savings and Jewell v. City of Boston, 101 Massachuseits, 5\%5; 1 N. B. C., 57 .
152. Bank stock should be assessed at its full and true value, and, therefore, where assessors assessed stock at its par value, when its actual or market value was in excess of the par value, held, error. People ex rel. Williams v. Assessors of Albany, 5 Thompson \& Cook, 155; 1 N. B. C., \% \% 6.
153. The relators were ownors of stock in the $N$. bank, which was assessed at par, but which was worth more than par in the market. The shares of the M. bank, located in the same city, were also assessed at par, although they were worth more than the shares in the N. bank. The relators demanded a reduction of the assessment on their stock, either by a direct order of the court or by reassessment, on the ground that their stock, being less valuable than that of the M. bank, was erroneously taxed at the same rate. Held (1) that the assessment was erroneons; (2) that, although the assessment on the shares of the relators would be increased on a reassessment of their proper'ty pursuant to the statite, yet, as their shares were worth less than those of the M. bank, the failure to tax the latter at their full value increased the ratio of taxation upon the shares of the relators, and thereby injured them; (3) that, as the return to the certiorari did not set forth the value of all the bank stock worth more than par in the city or ward, the court had not the facts from which to determine the real extent of the injury, and could not, therefore, direct a reduction of the assessment, and (4) that the court could not, under the circumstances, direct a reassessment. 10.
154. The shares of stock of a national bank were taxed at their full value, while other property was assessed at from thirty to forty per cent of its real value. Held, that the discrimination was illegal and unjust, and that the bank was a proper party to maintain a bill to restrain the collection of the tax beyond the proportion assessed on other property. Merchants' National Bank of Toledo v. Cumming, 1 N. B. C. 9.0 .
155. The constitution of Ohio declares that "laws shall be passed taxing by a uniform rule all moneys, credits. investments in bonds, stocks, jointstock companies, or otherwise; and also all the real and personal property, according to its true value in money." And the legislature has passed laws providing separate State boards of equalization for real estate, for railroad capital. and for bank shares, but there is no State board to equalize personal property, including all other moneyed capital. The equalizing process as to all other personal property and moneyed capital ceases with the county boards. Throughout a large part of the State of Ohio, including Lucas Connty, in which the plaintiff bank is located, perhaps all over the State, the officers charged with the valuation of property for purposes of taxation adopted a settled rule or system by which real estate was estimated at one-third of its true value, ordinary personal property about the same, and moneyed capital at six-tenths its true value. The State board of equalization of bank shares increased the valuation of these shares to their full value. This court holds: (1) That the act creating the board for equalizing bank shares is not void as a violation of the constitution of Ohio, because if the local assessors would discharge their duty by assessing all property at its actual cash value the operation of the equalizing board would work no inequality of taxation, and a law can not be held to be anconstitutional which in itself does not conflict with the constitution because of the injustice produced by its maladministration. (2) The rule of principal of unequal valuation of different classes of property for taxation, adopted by local

Taxation-Continued.
boards of assessment, is in conflict with the constitution and works manifest injustice to the owners of bank shares. (3) When a rule or system of valuation for purposes of taxation is adopted by those whose duty it is to make the assessment which is intended to operate unequally, in violation of the fundamental principles of the constitution, and when this principle is applied not solely to one individual, but to a large class of individuals or corporations, equity may properly interfere to restrain the operation of the unconstitutional exercise of power. (4) The appropriate mode of relief in such cases is, upon payment of the amount of the tax which is equal to that assessed on other property, to enjoin the collection of the illegal excess. Merchants' National Bank of Toledo v. Cumming, 101 U. S. 153.
156. The statute of Illinois provided that the stockholders in banks, whether State or national, should be assessed on the value of their shares in the county, town, district, village, or city where the bank was located, whether such stockholder resided there or not, but not at a greater rate than was assessed on other moneyed capital where such bank was located; that each bank should keep a list of the names, residences, and number of shares of each sharenolder, which should be open to the inspection of the revenue officers; that the assessors should ascertain and report to the county clerk a correct list of the names and residences of all stockholders, with the number and assessed value of their shares; that the county clerk should enter the assessed valuation of such shares in the tax list and compute and extend the taxes thereon; that such tax should be a lien on the shares, and that the bank officers should retain the dividends on such stock until the tax was paid. Held, constitutional. Nickerson v. Kimball, 1 N. B. C., 409.
15\%. Under the statutes of Illinois anyone may complain to the board of equalization that another is assessed too low, but such complaint is not to be acted upon until the person so assessed or his agent has been notified of such complaint, if a resident of the county, and no error or informality in the proceedings of any of the officers connected with the assessment, levying or collecting of the taxes, not affecting the substantial justice of the tax itself, shall vitiate, or in any manner affect, the tax or the assessment thereof. Held, (1) that notice of the complaint to the person assessed was not essential to give the board jurisdiction; (2) that the bank was the agent of the shareholders, and service of notice on the officers of the bank was sufficient; (3) that the complaint need not specify each person claimed to be assessed too low, but a description of them as "shar'eholders in" a particular bank was sufficient. Ib.
158. A nationa! bank alleged that it had been assessed on both its shares of stock and its real estate, and that the value of the real estate was not deducted from the gross value of the stock. It appeared that the aggregate assessed valuation of both the stock and the real estate was less than half their real value. Held, that the bank had no cause to complain. Ib.
159. Section 19 of the act of Febrnary 8, 1875, which provides "that every person, firm, association, other than national-bank associations, and every corporation, State bank, or State banking association, shall pay a tax of 10 per centum on the amount of their own notes used for circulation and paid out by them" must be construed as limited in its effect to notes payable in money; otherwise all sorts of negotiable paper, such as " grain receipts," fare tickets, and the like, might be subject to the same taxation. In re Aldrich and others, 16 Fed. Rep., 369.
160. Section 5172 of the Revised Statutes provides how the notes contemplated by the national-bank act shall be printed and what they shall contain. No provision is made for a note for less than one dollar. A note for a fractional sum is not only unknown to the law, but its issue is unlawful. Section 3583. The Supreme Court, by deciding that an obligation "payable in goods" was not illegal, has left the inference to follow almost necessarily that it was not such a note as was contemplated by the statute, and therefore not taxable. Ib.
161. An act of the legislature of the State of New York, passed April 23, 1860, provided in substance that a bank shareholder who had been assessed upon the value of hisshares was not entitled to any deduction on account of his debts, although the general laws of the State provided that in the assessment of personal property a deduction should be made for the debts owing by the person so assessed. Held, that such provision of the

act of 1866, so far as it related to the shares of a national-banking association, violated the restriction contained in section 5219, R. S., which provided that the taxation of such shares should not be at a greater rate than was assessed on other moneyed capital in the hands of individual citizens of the State. National Albany Exchange Bank v. Hills et al., 5 Fed. Rep., 248.
162. A national bank may be compelled to disclose the names of its depositors and the amounts of their deposits under the compulsory process of a State conrt, in order to ascertain whether any money deposited therein, subject to taxation within the county, has not been duly returned for that purpose by the owners. First National Bank of Youngstown v. Hughes and another, 6 Fed. Rep., 737.
163. A Federal court can not, in such case, stay the proceedings in the State court by writ of injunction. Ib.
164. The exemption from taxation of the shares of various corporations under the provisions of a State statute does not exempt " moneyed capital in the hands of individual citizens," within the meaning of section 5219 of the Revised Statutes, relating to the taxation of national-bank shares. First National Bank of Utica v. Waters and another, 7 Fed. Rep., 15 名.
165. The omission of a city clerk to extend upon the assessment roll the amount to be paid by each shareholder until after sucli roll has been delivered to the city treasurer does not render the taxation of such shares void. Ib.
166. In such case, therefore, the tax collector is protected by his warrant, when both such warrant and assessment were apparently regular when they came to his hands. Ib.
167. The provision of section 3640 of the California Political Code, as amended March 2\%, 1880, so far as it applies to national banks, is in violation of section 5219, U. S. Rev. Stat., forbidding the taxation of national-bank shares at a greater rate than is assessed upon other moneyed capital in the hands of individual citizens of the State. Miller v. Heilbron, 58 Cal., 133; 3 N. B. C., 330.
168. Where part of the capital of a national bank is invested in a building used for banking purposes, and the bank pays into the State tax prescribed upon the par value of all its shares, the building can not be taxed for county purposes, although the cashier occupies a part of it as a residence. County of Lancaster v. Lancaster County National Bank, y Weekly Notes of Cases, 29; ${ }^{2}$ N. B. C., 415.
169. The restriction upon the power of a State to tax the shares of any national bank within its borders "at a greater rate than is assessed upon other moneyed capital in the hands of individual citizens of such State" (Rev. St., sec. 5319) is intended to secure equality of valuation in the assessment of the stock, as well as equality in the rate of the tax after the assessment has been made. Albany City National Bank v. Maher, Receiver, etc., 6 Fed. Rep., $41 \%$.
170. An act for the taxation of corporations generally does not exemptindividuals from assessment or taxation upon their personal property or moneyed capital invested in the shares of such corporations. Ib.
171. Therefore the imposition of a higher assessnent and heavier tax upon the shares of a national bank than those imposed upon the capital stock and personal property of other corporations within the State does not contravene section 5219 of the Revised Statutes. $I b$.
179. In such case, however, the failure of the assessors to place the names of the shareholders upon the assessment roll, in accordance with the requirement of the State statute, renders such tax illegal and void, although a separate list, with the knowledge of the shareholders, was kept by such assessors showing the names of all such shareholders, with the number of shares held by each, and the assessable value of all such shares. $1 b$.
173. The collection of such tax will not, however, be enjoined upon the application of a shareholder upon the mere ground of such illegality. Ib.
174. In order to prevent a multiplicity of suits, however, the collection of such tax will be enjoined upon the application of the bank, where the latter is required by the statute under which the assessment was made to retain so much of any dividend or dividends belonging to such shareholders as shall be necessary to pay any taxes assessed in pursuance of the act. Ib.
175. A State may tax the real property or the capital stock of a national bank,

but not both. County Commissioners of Frederick County v. Farmers and Mechanics' National Bank of Frederick, 48 Md., 117; 2 N. B. C., 252.
176. In the assessment and taxation of shares of national-bank stock, the owners thereof, having no other credits or moneyed capital, are entitled to deduct their bona fide debts from the value of such shares of stock. Bressler v. Wayne County, 25 Nebr., 468; 3 N. B. C., 564.
177. A court of equity will not enjoin the collection of alocal tax upon nationalbank shares on the ground that the assessment is partial, unequal, and unjust, as compared with that upon other property, there being no offer to pay any tax, and the effect of an injunction being to declare the whole tax of a State for the year void. German National Bank of Chicago v. Kimball, 103 U. S., 7sí; 3 N. B. C., 9.
178. Section 7 of chapter 302 of the laws of 1859 , requiring the deputy tax commissioners to personaliy examine "each and every house, building lot, pier, and other accessible property," and furnish the commissioners of taxes a detailed statement of the same, etc., as such commissioners may require, etc., refers only to real property. In re McMahon y. Palmer, 102 N. Y., 1才6; 3 N. B. C., 636.
179. The oath required by the act to be made by the deputy to the statement returned to the commissioners may be taken at any time after examination of the property and before the filing of the statement on the second Monday of January thereafter. Ib.
180. The entry of assessments for national-bank shares upon a list or book separate from other assessments for personal property against individuals in the city of New York does not render the assessment void, and does not violate section 5219, U. S. R. S. Ib.
181. The assessment and collection of taxes constitute due process of law within the meaning of the Constitation. Ib.
182. Shares of national banks in the Territories are taxable like other personalty. Commissioners of Silver Bow County v. Davis, 6 Mont., 306; 3 N. B. C., 546 .
183. In Minnesota stocks or shares in any bank or company are taxable eacept where the entire capital stock is invested in property assessable in the Territory; in Bow County mining claims not patented were not tayed, and when patented were assessed at $\$ 5$ an acre; the entire capital of a large number of mining companies were assessable, and part of their property was mining claims; defendant's shares of bank stock were assessed at the market value. Held, that there was no discrimination. Ib.
184. Assessment of taxes against national-bank stock must be made against the shareholders personally, and the refusal of the officers of the bank to furnish the assessor with a list of shareholders does not jostify making the assessment and enforcing the tax against the property of the bank. City of Springfield v. First National Bank of Springfield, 87 Mo., 441; 3 N. B. C., 524.
185. A county assessor assessed the stock of all the banks in the county, both State and national, at the par value. The actual value of the shares of the National Albany Exchange Bank was from iwenty-five to thirty per cent above par. The actual value of the shares of all the banks in the county, with one exception, was above par from ten to over one hundred per cent. In a suit by a shareholder of said national bank to recover the amount paid upon lis stock on the ground of discrimination, held, that the discrimination not being designed by the assessor, the assessment was valid. Williams v. Board of Supervisors of the County of Albany, 122, U.S., 154; 3 N. B. C., $2 \sim 8$.
186. Where the assessors are required by statute to complete the assessment roll by a certain date, and to make oath to it in a prescribed form, and these requirements are necessary to enable notices to be published specifying a time when they would meet to review the assessments on the application of any person aggrieved, the noncompletion of the assessment roll by the specified date, and departure from the prescribed form of oath, may be cured by remedial statute subsequently enacted, providing the right of the taxpayers aggrieved by the assessment to have their objections passed upon is saved. $n b$.
187. Laws of New York, April 23, 1866, chap. 761, providing for the taxation of shares of stock in national banks, is in conflict with the act of Congress (R.S., sec. 5219) prohibiting such taxation at a greater rate than

is imposed by the State upon other moneyed capital in the hands of individual citizens of such State, in so far as it does not permit a stockholder of a national bank to deduct the amount of his just debts from the assessed value of his stock; but such assessment is not, therefore. invalid unless the stockholder has shown the assessors what his just debts are, and has taken the requisite steps to have his assessment made out in accordance therewith. Stanley v. Board of Supervisors of the County of Albany, 121 U.S., 535; 3 N.B.C., 268.
188. The rule adopted by the board of assessors of the city of Albany, to assess all shares of stock in State and national banks in the city of Albany at par, without regard to their actual or market values, but making the requisite reduction for real estate owned by the banks, is not in conflict with the national-bank act. $n b$.
189. Excessive assessments should be corrected by the statiatory course or by injunction. $I b$.
190. Where a case is tried by the circuit court of the United States without a jury. the findings of the court upon questions of fact are not reviewable in the Supreme Court on a writ of error. Ib.
191. An assessment of tax on the stock of a national bank in New Jersey, owned by a stockholder residing in the city where the bank is located, can not be sustained by the presumption that the stockholder resided in the ward in which the bank was located, bit the assessment must bo made against the stockholder. State, North Ward National Bank, pros., v. Newark, 11 Vroom, 559; 2 N. B. C., 290.
192. Action to recover taxes. The defendant was a State bank, with a capital of $\$ 1,000,000$. It was possessed of less than $\$ 200,000$ worth of real estate. The plaintiff city assessed it, in addition to its real estate, for the sum of $\$ 700,000$ as its capital or money at interest. The bank reíused to pay the tax on the ground that its capital not invested in real estate consisted of United States legal-tender notes, not taxable. Held, that the tax was lawfully levied. New Orleans Canal and Banking Company v. City of New Orleans, 99 Otto, 97; 2 N. B. C., 22.
193. A tax levied on the property of a national bank subsequent to its insolvency is subordinate to the rights of a receiver appointed after sucil levy. Wooduard v. Ellsworth, 4 Colo., 580: 2 N. B. U. 216.
194. The provision of section 3413 of the national-bank act that "every national-banking association, State bank or banker, or association shall pay a tax of ten per centum on the amount of notes of any town, city, or municipai corporation paid out by them," is constitutional even where its effect is to tax an instrumentality of a State. Merchants' National Bank of Littic Rock v. United States, 101 U. S., 1; 2N. B. C., 100.
195. A State statute, independent of and designed as a substitute for all other provisions for taxation, which permits any debtor assessed upon personal property to deduct the amount of his debts from the valuation of all his personal property, including money capital, except bank shares, is wholly unconstitutional and invalid as to national-bank slares, and affords no authority for making any assessment upon such shares; and an injunction to restrain the enforcement of such tax will issue at the suit of a bank the shares of whose capital are thus illegally assessed against the shareholders. National Albany Exchange Bank v. Hills, 2 N. B. C., 4 40 .
196. The assessment by a municipal corporat:on of a tax upon the shares of a national bauk in gross or upon its capital stock is void, but the remedy is at law and not by injunction, although the municipal corporation is insolvent. National Commercial Bank of Mobile v. Hayor, etc., of Mobile, 63 Ala., 2S4; 2 N. B. C., 440.
197. A statute empowering the authorities of a town to impose the same taxes for municipal purposes upon nonresidents pursuing their ordinary avocations within the corporate limits as upon the inhabitants, with a proviso that nouresidents so taxed shall have the right to vote at municipal elections, is not abrogated by a change in the State constitution which deprives the nonresident taxpayer of his vote and authorizes a tax upon the shares in a national bank located in the town and held by one who conducts his ordinary business therein, but whose residence is in the county outside the corporate limits. Moore v. Mayor and Commissioners of Fayetteville, 80 N. C., 154; Am. Rep., 75; 2 N. B. C., 350.
195. National-bank shares owned by residents may be assessed at their resi-

dence or at the location of the bank, as the State legislature may direct, and a State law directing the assessment where the person required to list them resides is valid. Buie v. Commissioners of Fayetteville, 75 N. C., 267; 2 N. B. C., 343.
199. An assessment upon the capital stock of a national bank in gross is invalid, and a provision that the same "shall be paid by each such association for the shareholders thereof," when dependent upon such invalid provision, and incapable of independent enforcement, is also inoperative, and imposes no duty on the bank to pay such tax. Sumter County v . National Bank of Gainesville, 62 Ala., 464; \% N. B. C., 449.
200. The provision of the national-bank act that national banks and State banks, bankers, and associations shall be taxed on the amount of town, city, or municipal corporation notes paid out by them is constitutional. National Bank v. United States, 101 U. S., 1; 2 N. B. C., 439.
201. The revenue act of North Carolina (act 1885, chap. 177, sec. 12) enumerates what shall be deemed "solvent credits," and provides that the party taxed "may deduct from the amount of solvent credits owing to him the amount of collectible debts owing by him as principal debtor." Held, that the holder of stock of a national bank located in said State was entitled to deduct his indebtedness from the valuation of his shares of said stock, although national-bank stock was not included in the statute enumeration of "solvent credits." McAden v. Commissioners of Mecklenburg County, 97 N. C., 355; 3 N. B. C., 694.
202. Under Pub. Stat. Mass., chap. 13, sec. 8, which provides that all bank shares shall be assessed at their cash value, and at no greater rate than other moneyed capital in the hands of citizens, taxes are not invalid, either under Stat. Mass. or U. S. R. S., section 5219, because the tax on savings banks is based on the amount of their deposits, excepting deposits invested in loans secured on taxable real estate. National Bank of Redemption v. City of Boston, 125 U. S., 60; 3 N. B. C., 300.
203. A tax levied under Pub. Stat. Mass., chap. 13, sec. 8 , is not " at a greater rate than other moneyed capital in the hands of citizens" because disproportionate and unequal to the tax imposed under Pub. Stat. Mass., chap. 13, relative to the taxation of the corporate franchise of corporations, excepting banks; on life insurance companies, based on the number of policies; on trust and like companies, based on the amount of deposits, and on telephone companies, based on the number of telephones used. $I b$.
204. Under U. S. R. S., section 5219, which provides that all the shares of any banking association may be included in the valuation of the personal property of the owner or holder in the State within which the association is located, but that each State may determine the manner of taxing the shares of national banks, a State may tax the shares of a national bank owned by another national bank. 1 lb .
205. The Montana statute (Pol. Code, $\S 3692$ ) provides for assessing shares of bank stock to the owners thereof, and, to aid the assessors in determining their value, requires the bank to furnish a verified statement showing the amount and number of shares of its capital stock, surplus, etc. An assessor, instead of demanding the statement here required, presented to a national bank a blank form for listing property subject to taxation. The bank did not return a verified list, but its assistant cashier banded to the assessor a statement beginning, "Capital, $\$ 800,000$," followed by items of surplus, undivided profits, United States bonds, and real estate. The assessor deducted the amount of the bonds and real estate from the "capital" and assessed the remainder to the bank as stock. Held, that the tax was illegal, as the capital of national banks is exempt from taxation under the Federal laws, and as both the State and Federal laws require the shares to be taxed to their owners; and that the form of the return did not warrant the assumption that the bank owned its own shares. Brown v. French, 80 Fed. Rep., 166.
206. Under section 3177 of the Revised Statutes U. S., anthority is given to any collector, deputy collector, or inspector of internal revenue to enter in the daytime any building or place within his district where any articles or objects subject to such taxation are made, produced, or kept, so far as it may be necessary for the purpose of examining such objects or articles, and the provision is that any owner of such building or place, or any person having the agency or superintendence of the same, who

refuses to admit such officer or suffer him to examine such articles or objects shall for every such refusal forfeit five hundred dollars. Held, that under this provision paid bank checks, which were duly and sufficiently stamped at the time they were made, signed, and issued, are not articles or objects subject to taxation, and an officer of a bank where such checks are may lawfully refuse to suffer the collector to examine such checks. United States, Plaintiff in Error, v. Mann, 95 U. S., 580; 1 N. B. C., 154.
207. If it appear that the capital represented by national-bank shares is subjected in a State to a higher rate of taxation than is assessed upon the moneyed capital generally of the taxpayers, there can be no valid assessment of national-bank shares for taxation in that State, and these shares will be relieved from any contribution whatever to the general burden of taxation under Rev. St. U. S., sec. 5219. Mercantile National Bank of City of New York v. Mayor, etc., of City of New York: and another, 28 Fed. Rep., $7 \pi 6$.
208. Taxation laws of the State of New York considered, and held to be designed to subject to equality of burden all tasable property, both real and personal, except investments in life insurance companies, deposits in savings banks, the public stocks, and the bonds of the municipalities of the State. Ib.
209. Section 5219 , Rev. St. U. S., relating to State taxation of national-bank stock, was not intended to control the power of the State on the subject of taxation, or to prohibit the exemption of particular kinds of property, but to protect the capital invested in national-bank shares from unfriendly discrimination by the States in the exercise of the taxing power. Ib.
210. It does not destroy the equality of a State's system of taxation that, in spite of the Jaws, a pari of the moneyed capital of citizens which is invested in forms that enable it to be easily traced does not escape by evasion or oversight, and is consequently more effectually reached and taxed than the bulk of the moneyed capital of individuals. Ib.
211. The capital stock of a corporation and the shares held by the several stockholders are distinct species of property for the purpose of taxa-tion-as distinct as real estate and the mortgage by which it may be encurmbered. $I b$.
212. If the taxation laws of a State subject to taxation the capital stock of certain corporations, but exempt the shares held by the several stockholders, while the shares of national-bank stock are subject to taxation in the hands of the shareholders, but the capital stock itself is exempt, held, that there is no such discrimination against capital invested in national banks as to run counter to the provisione of Rev. St. U.S., sec. 5219 . Ib.
213. The term "moneyed capital" has a more limited meaning than the term "personal property," and applies to such capital as is readily solvable in money. Ib.
214. The exemption from taxation by the laws of New York of shares of life insurance companies, of stocks and bonds of New York City, of bonds of other State municipalities, and of deposits in savings banks is justified by public policy and does not indicate any unfriendly discrimination on the part of the State as between the shares of national banks and moneyed capital generally. $1 b$.
215. Section 41 of the national banking act imposing certain taxes upon the average amount of the notes in circulation of a banking association, now found in the Revised Statutes, is not a revenue bill within the meaning of the clause of the Constitution declaring that "all bills for raising revenue shall originate in the House of Representatives, but the Senate may propose or concur with amendments as on other bills." Whether in determining such a question the courts may refer to the journals of the two Houses of Congress for the purpose of ascertaining whether the act originated in the one House or the other is not decided. Twin City Bank v. Nebeker, 167 U. S., 196.
216. This court is bound by the decision of the supreme court of the State of Washington (in which it concurs), that sec. 21 of the act of that State of March 9, 1891, relating to the taxation of national banks in that State, is to be read in connection with sec. 23 of the same act, and that when so read they do not impose upon such banks a tax forbidden by Rev. Stat., sec. 5219. National Bank v. Commonwealth, 9 Wall., 353, affirmed and

Taxation-Continued.
followed in this matter. Aberdeen Bank v. Chehalis County, 166 U. S., 440.
217. Money invested in corporations or in individual enterprises that carry on the business of railroads, of manufacturing enterprises, mining investments, and investments in mortgages does not come into competition with the business of national banks, and is therefore not within the meaning of the provision in Rev. Stat., sec. 5219 , forbidding State taxation of its shares at a greater rate than is assessed upon other moneyed capital in the hands of the citizen of the State. Ib.
218. Insurance stocks may be taxed on income instead of on value, and deposits in savings banks and moneys belonging to charitable institutions may be exempted without infringing the provisions of that section of the Revised Statutes. Ib.
219. The allegations of the complaint do not show that any moneyed capital of the bank of the character defined by the decisions of this court was omitted or intended to be omitted by the assessor, and those allegations are so general in these respects that they can not be made the basis of action. Ib.
220. The decision of the supreme court of Pennsylvania that the act of June 8, 1891, in respect to the taxation of national banks does not conflict with the constitution of that State is conclusive in this court. Merchants and Manufacturers' Bank v. Pennsylvania, 167 N. S., 461.
221. There is no lack of uniformity of taxation under that act which rendersit obnoxious to that part of the fourteenth amendment to the Federal Constitution which forbids a State to "deny to any person within its jurisdiction the equal protection of the laws," as the right of election, which if not availed of by all, may produce an inequality, is offered to all. $I b$.
223. That act treats State banks and national banks alike, gives to each the same privileges, and there is no discrimination against national banks as such. Ib.
223. The making the national bank the agent of the State to coliect such taxes is a mere matter of procedure, and there is no discrimination against the national banks in the fact that the State banks are not so compelled, but the auditor generally looks to the stockholders directly. Ib.
224. The statute, by fixing the time when the bank shall make its report, and directing the auditor-general to hear any stockholder who may desire to be heard, provides "due process of law" in these respects. Ib.
225. Under Rev. St. U. S., sec. 5219 , providing that shares of national-bank stock may be taxed as part of the personalty of the owner, and that each State may tax thein in its own manner, except that the taxation shall not be at a greater rate than is imposed on other moneyed capital owned by citizens of the State, a State may tax national-bank shares held by its corporate or individual citizens as an investment, subject to the restriction that the tax shall not exceed the burden upon similar property in the State. First National Bank of Wilmington v. Herbert, State Treasurer, 44 Fed. Rep., 158.
226. National banks being the creatures of Congress, and the right of the States to tax anything pertaining to them being wholly derived from the grant made by Congress, the power to tax shares in such banks for State purposes must be accepted with all the conditions and reservations annexed to its exercise. Maguire v. Board of Revenue and Road Commissioners of Mobile County, 71 Ala., 401.
227. The Supreme Court of the United States has the reserved power of revising, and, if need be, of reversing the rulings of the State courts bearing on the exercise by the States of the power to tax shares in national banks, and hence the decisions of that court on that subject must be adopted and followed by State courts. 16.
228. Touching the power conferred by Congress on the States to tax, that body has carefully discriminated between the capital stock of national banks and the shares in such capital stock, the power to tax the former being withheld from the States, while the power to tax the latter is granted with stated conditions and reservations. Ib.
229. National-bank shares can not be included in the valuation for taxation by or under State authority at more than the par value twercof; the par value is the fixed value for taxation. Union National Bank v. City of Cincago, 3 Biss., s:

Taxation-Continued.
230. The shares may be valued for taxation at an amount exceeding their face value, if this amount is not at a greater rate than the valuation set upon other moneyed capital in the State. Hepburn v. School Directors, 23 Wall., 480.
231. The reason is that under the national-currency act, as construed by the Supreme Court of the United States, the limited State taxation permifted is one of the conditions annezed to the grant of the franchise, and the shares are subjected to it without regard to the capital, property, or investments of the bank, and therefore such taxation is in the nature of a royalty upon the nominal value of the share. $1 b$.
239. Such taxation above the par value is not merely an irregularity, but renders the whole tax inoperative and void. Taxes levied in the absence of persons or property are ultra vires and void. Jurisdiction is as essential to valid legislative as judicial action. Ib.
233. Shares of stock represent a property interest, separate from the capital and property of the corporation, and, being incorporeal and intangible, are incapable of having an actual situs, save at the owner's domicile. $1 b$.
23.t. Revised Statutes United States, section 5219, p:oviding that shares of national bank stock may be taxer as part of the personalty of the owner, and that each State may tax them in its own manner, except that the taxation shall not be at a greater rate than is imposed on other "moneyed capital" owned by citizens of the State, and that the shares of nonresidents shall only be taxed in the city wherein the bank is located, does not authorize the taxation of the stock of a bank in solido by the city in which it doas business, but only the shares of individual owners residing in the city are taxable, and they must be taxed soparately, in order that the owner may deduct from their value the amount of the personal indebtedness, where the State laws or municipal ordinances, permitsuch deductions and require equality of taxation. First National Bank v. City of Richmond, 39 Fed. Rep., 309.
235. When a State taxing statute by its terms is designod to operate equally upon all banks, State or national, but, through the application of the doctrine of res judicata, certain State banks are exempted from its operation, this does not result in such a discrimination against national banks as is forbidden by Rev. St. U. S., \$ $\$ 219$. Ib.
236. An assessmenf in a lump sum of all the personal property of a national bank to the bank itself can not be regarled as one against the stockholders on their shares. Stapylton v. Thaggard, C. C., 91 Fed Rep., 93.
237. A provision of a State statute reguiring banks to pay the taxes assessed against their stockholders on their shares can not be enforced against the receiver of an insolvent national bank, the shares of which are worthless, nor against its property in his hand. $I b$.
238. A State can not tax a national bank except upon its real property. Ib.
239. A State is wholly without power to levy any tax, either direct or indirect, upon national banks, their property. assets or franchises, except when permitted so to do by the legislation of Congress. Owensoro National Bank v. Ouvensboro, 173 U. S., G6年.
240. Section 5219 of the Revised Statutes is the measure of the porwer of States to tax national banks, their property or their franchises, that power being confined to a taxation of the shares of stock in the names of the shareholders, and to an assessment of the real estate of the banir. Ib.
241. The taxing law of the State of Kentucky, under the provisions of winch the tar in controversy in this case was imposed, is beyond the authority conferred by Congress on the States and is void for repugnancy to that act. $I b$.
242. The tax here complained of having been assessed on the franchise or intangible property of the corporation, was not within the purxiew of the authority conferred by the act of Congress, and was therefore illegal. Ib.
243. The taxes which it was sought to enjoin in this suit wera imposed upon the franchises and property of the bank, and not upon the shares of stock in the names of the shareholders, and were therefore illegal because in violation of the act of Congress. Third National Bank of Loutisville v. Stone, $1 \% 4$ U. S., 43 .

Transfer of stock: See Shareholders; Assessment.

1. The transfer of shares in national-banking associations is not governed by different rules from those which are ordinarily applied to the transier Digitized for FRASER of shares in other corporate bodies. Johnson v. Laftin, 108 U. S., 800.

Transfer of Stock: See Shareholders; Assessment-Continued.
2. The entry of the transaction in the books of the association is required, not for the translation of the title, but for the protection of the parties, and others dealing with the association, and to enable it to know who are its stockholders. Ib.
3. A shareholder in a national lank, while it is a going concern, has the absolute right, in the absence of frand, to make a bona fide and actual sale and transfer of his shares at any time to any person capable in law of purchasing and holding the same, and of assuming the transferrer's liaabilities in respect thereto; and this right is not in such cases subject to the control of the directors or other stockholders. Johnson v. Lafin, 5 Dill., 65.
4. Under the pretense of prescribing the manner thereof, an association can not ciog the transfer with useless restrictions. Ib.
5. When a sharebolder, acting in good faith, delivers his certificates of stock, with a blank power of attorney for making the transfer, and receives the purchase money, the sale is complete and the title passes. Ib.
6. A shareholder who disposes of his stock will continue to be liable thereon until the transfer is noted on the books of the association. Bowdell v. Farmers and Merchants' National Bank of Baltimore, 2 N. B. C., 146 .
7. Where a national banking association purchases shares of its own stock and divides them among its directors, to whon the shares are transferred upon the stock books, the transaction is void, and no title passes. Meyers v. Valley National Bank, 13 National Bankruptcy Register, 34; 2 N. B. C., 150.
8. A national banking association can not acquire a lien on the stock of a shareholder. And a bylaw prohibiting a transfer until all liabilities of the shareholder to the association are discharged, or a provision to that effect in the certificates of stock, is void. Bullard v. National Bank, 18 Wall, 589; Bank v. Lanier, 11 Wall, 369; Conklin v. The Second National Bank, 45 N. Y., 655.
9. An intending purchaser of bank stock is entitled to rely upon a statement of its president as to the banlk's condition without inquiring further. Merrill v. Florida Land and Improvement Company, 60 Fed. Rep., 17.
10. In an equitable action to enforce specific performance of an agreement to sell shares in a national bank, which the purchaser wished to obtain for the purpose of securing control of the bank, held, that specific performance would not be decreed (1) because, generally, equity will not enforce specific execution of a contract relating to personal chattels, and (2) because a decres enforcing the agreement in question would be against public policy. Foll's Appeal, 21 Alb. L. J. 27 ; 2 N. B. C., 411.
11. Where a shareholder who has sold his stock has delivered to the bank the certificateof stock and a power of attorney, with the request that the transter be made upon the books of the bank, and has had no reason to suppose that such transfer was not made, he will not, should the bank afterwards become insolvent, be held liable as a shareholder, although he still appears as such on the books of the bank. Whitney v. Butler, 118 U. S., 655.
12. But where the president of the bank is himself the purchaser of the stock, then the delivery of the certificates and power of attorney to him with the request to make the transfer upon the books of the bank would not be sufficient to discharge the seller from liability as a stockholder. Richmond v. Irons, 181 U. S., 9\%.
13. Where a shareliolder of a national bank makes a bona fide sale of his stock and goes with the purchaser to the bank, indorses the certificate, and delivers it to the cashier of the bank, with directions to make the transfer on the books, he has done all that is incumbent upon him to discharge his liability, and he is not liable, though the cashier failed to make the transfer, upon the subsequent suspension of the bank, for an assessment made by the Comptroller of the Currency, under Rev. St., sec. 5151, to pay the bank's debts. Hayes v. Shoemaker, 39 Fed. Rep., 319.
14. A transfer of shares for the purpose of avoiding liability, though made "out and out," is void. National Bank v. Case, 99 U. S., 6:98; Bowden v. Santos, 1 Hughes, 158.
15. And where a shareholder, who has knowledge of the insolvent condition of the bank, transfers his shares without consideration to a person unable to respond to the assessment the transfer may be set aside. Bowden v. Jol̆nson, $10 \%$ U. S., 251.

16. Title to stock passes on delivery of certificates to purchaser with authority to have shares transferred on books of bank. Johnston v. Laflin, 103 U. S., 800.
17. Party who, as security for a loan, accepts stock which he causes to be transferred to him on the books, incurs liability as a stockholder and is not relieved by colorable transfer with understanding that he may have it back on request. National Bank v. Case, 99 U. S., G2s.
18. Bank cashier refusing to transfer, on books of bank, shares of capital stock pledged and sold for debt of one of its stockholders, receiver of bank is liable for value of stock at that time if bank had no lien thereon to justify such refusal. Case v. Bank 100 U. S., 446.
19. And where stock has been transferred as collateral security for a loan, with the understanding that in case of default in the payment of the loan the shares shall be sold, the tranferee, upon default made, and before the bank closes its doors, may sell the stock for a nominal consideration, though his purpose be to avoid a personal liability; and such a transaction can not be set aside as a fraud upon the creditors of the association. Magruder v. Coltson, 44 Md., 349.
20. After a national bank has become insolvent and has closed its doors for business, its sbareholders' fiability to creditors is so far fixed that any transfer of their shares must be held fraudulent and inoperative as against the creditors of the bank. Irons, exceutor, etc., et al. v. Menufacturers' National Bank et al., I' Fed. Rep., 308.
21. The rules which regulate the transfer of the stock of national banks are to be found in the statutes of the United States. The national banking act prescribes no exclusive method of transfer, but authorizes every association to do so. The decisions of the courts of the State in which the bank may be located do not control it. Scott et al. v. Pequonnock National Bank, 15 Fed. Rep., 494.
22. Precedence should be given to unrecorded transfers of sliares of stock of a national bank which had passed no by-law on the sulbject, located in a State whose courts leaned strongly against such transfers, but whose statutes gave the attaching creditor no peculiar rights, by delivery of certificates and a written assignment with power to transfer, both executed in blank. over subsequent attachment of a creditor of the original vendor in whose name the shares still stood on the books of the bank. Ib.
23. Where no specified acts are by positive recuirement made prerequisite to the vesting of a valid new title, creditors without notice take their debtor's property subject to all bona fide liens and equitable transfers. No registry being required, nonrecording was not evidence of fraud. The tendency is to regard State certificates, attached to an executed blank assignment and power to transfer, as approximating to negotiable securities and to favor attaching creditors less than when attachment and sale on execution alone could compel payment of a claim out of debtor's property. Federal courts have so decided. Ib.
24. The couris of Connecticut and Massachusetts have quite rigidly maintained that where a statute or charter prescribes an exclusive manner of transfer of the stock of a corporation an unrecorded transfer shall not be valid against the attaching creditors of vendor; and the courts of the former have strongly leaned toward a construction of the charters of its corporations compelling record of such transfers. Ib,
25. On December 30, 1875, A. sold certain shares of baink stock to B., and assigned them by a transfer written on the back of the certificate. By the by-laws of the bank, stock was transferable only on the books of the company. On December 14, 1878, the shares were attached by a judgment creditor of A. and sold and transferred to C. Neither the bank nor the creditor had knowledge of the transfer to B. In January, 1880, B. presented his certificate and transfer to the officers of the bank and demanded a transfer of the stock, which was refused, whereupon he brought suit against the bank for such refusal. Held, that the bank was liable in damages for the refusal to transfer the shares. Hazardy. National Exchange Bank of Newport, 26 Fed. Rep., 94.
26. The sale which sec. 5201 , Rev. St., requires a national bank to make of its stock is real and not fictitious. And where the president and cashier of a national bank, which is the owner of some of its own stock, purchase such stock and execute their note to the bank for the purchase money, in a suit against them on the note by the receiver of such bank they are

$2 \pi$. The sale by the president of a national bank to himself and the cashier of the stock of the bank owned by the bank may be ratified by the bank or its legal representative: buta sale by himself to the bank of its own stock, where heacts in the double capacity of seller and buyer, can not be latified when the purchase of the stock by the bank is not necessary to prevent loss upon a debt 1 reviously contracted. In the one case the sale of the stock is enjoined by law, and its sale by the president may be ratified, however irregular it may have been in the first instance; but the purchase of its own stock ly the bank is interdicted by law, and for this act there can be no authorization in advance and no ratification afterwards. 10.
28. The by-laws of a national bank provided that no transfer of the stock should be made ly any shareholder who was indebted to the bank, and this provision was also included in the certificates of stock. Held, invalid, and that a transfer of stock by a shareholder while indebted to the bank was good. Evansville National Bank v. Metropolitan National Bank, 2 Bissell, 527, 1 N. B. C., 189.
29. In the absence of any provision in the by-laws or articles of association of a national bank to the contrary, such a bank is bound under the laws of Pennsylvania to recognize a transfer of its stock by a foreign executor duly appointed in another State. Hobbs v. Western Natioual Bank, 8 Weekly Notes of Cases, 151; 2 N. B. C., 18 .
30. S., the president and active manager of a bank, sold a number of shares of its capital stock to T. . under representations of fact relied upon by T. and afterwards claimed by him to be fiauduient and false. The bank, by its directors. had full and actual knowledge of such representations, and with sinch iknowledge consented and arranged that T.'s notes given in partial payment for sa d stock should be made directly to the bank. and take the place of notes held by it against S. and otbers. Held, that in an action by the bank against $T$. on such notes he might make the same defeuse, founderl on such alleged false and fraudulent representations, as he could have made iif the notes had been given to $S$. and the action brought by him. National Bank of Dakota v. Taylor, 58 N. W., 297.
31. In such 1 urchase of stock $T$. had the right to rely solely upon the representations of fact by S., and if S., conscious that T. was so lelying, knowingly deceived him, nothing would condone the wrong as between them or estop T. from asserting it but his acquiescence in it with knowledge of the ficts. $\Pi$.
32. A party who thus deliberately deceives another to his preiudice can not compiain that the sufferer has not been vigilant in finding it ont. Ib.
33. The right of such sufferer to rescind may be qualified by in tervening interest of innocent parties, but so long as the question is between the original parties solely he may continue to rely on the representations upon which the contract was made and by which it was inducel, and loses no rights as against the wrongdoer humself ly failue to diligentiy discover the íraud. ib.
34. The fact that soon after such purchase $T$. became, and for a number of mouths was, the cashier of the bank would not alone, and as a matter of law, make him chargeable with a knowledge of the condition of the bank, and so of the falsity of the representations under which he bought as against evidence that he was for a considerable portion of the time absent from the bank and the city where it was located, and that during all his connection with the bank he. by direction of S., the president. and the person of whom he bought the stock, was engaged in routime work and had practically noth ng to do with the bil s receivable of the bank. $I b$.
35. The fact that as cashier he sigued statements exhibiting the condition of the baizk would not, in an action on such notes by the banik or by . esto ${ }_{j}$, him from showing, as against them, that such stat ments, which he believed at the time were true. were in fact false. 17.

Held, (1) that the action was not barred by the statute of limitations of one year; (2) the cashier having been intrusted by the directors with the duty of transferring the stock of the bank, his refusal was imputable to the bank; (3) the court below had power to order the receiver to pay the claim or cartify it to the Comptroller. 3\%. One D., a stockholder in the W. bank, died in 1482 , leaving a will by which he gave all his property to his wife for life, "to be hers absolutely," and at her death to go to his son and daughter, to be divided between them as his wife might think proper. D. s wife qualifed as executrix and tooir possession of the estate, but did not transfer the bank stock. She died in 1888, leaving a will disposing of the property, upon the assum tion that she had entire power of disposition of it, and her disjosition of it was acquiesced in by her son and daughter. One F , who was appointed esecutor of Mrs. D.'s will, qualified as such, and thereby became execator of $D$. He caused the bank stcck to be tiansferred to his name "as erecutor," and testified that he meant thereby executor of Mrs. D. Tine bank officer who made the transfer testified that he understool the stock was transferred to F.. as executor of Mrs. D. At the time of the transfer, in 1888, the bank was solvent and prosperous. The stock was leld by F. as part of a trust fund created by Mrs. D.'s will for $h \in r$ daughter, as a means of paying a debt from D. to the daughter, in such a way as to keep the money beyond the control of the daughter's husband. 'The W.bank failed in 1891, and the receiver sought to hold the estate of D. responsible for an assessment on the stockholders. Hetd, that as the stock could only have been transferred by the act of D.s execator, and as E . declared, and the bank understood when the transfer was made, that it was made to him as executor of Mrs. D., and he had power to receive it in that capacity, without regard to the terms of the wills, the bank, and consequently the receiver. were estopped to clain that D. and his e.tate had not ceased to hold stock at the time of the transfer, there being no ground to impute bad faith to any of the parties. 38. One who talres an assignment of stock, accompanied by a transfer to his name on the books, and receives a certificate from the corporation, issued to him in his own name, reciting that he is entitled to so many shares, on each of which a certain sum has been paid, leaving a specified amount "to be paid when called for," is liable, as a subscriber, for the balance due on the stock. Glen v. Portor, \% F Fed. Rep., $2 / 5$.
30. A sharehoder of a national-banking association who, for the purpose of escaping his individual liability, transfers his shares in a failing bank to oue who. for any reason, is unable to respond as promptly and efiectualy as he was to the liability their ownership imposes, commits a fraud upon the creditors of the bank, renders his transfer voidable at their election, and leaves himseif subject to the individual liability imposed by the ownership of the stock if the creditors elect to pursue him. Stuart v. Hayden, Ye Fed. Rep., HI,
40. The receiver of a national bank is the proper party to maintain a suit on behalf of its cyeditors to set aside a frandulent transfer of stock by one of its stockholders and to enforce his individuai lia ility. $m$.

43. A transiter of stock by the stockholders of a national benk for the donble purpose of escaping individual liability and defrauding the purchaser is valid until disafirmed, not void until affirmed; and it may be affirmed by the transferee and disaffirmed by the creditors of the tank, or vice versa. 17.

the transferrer on the ground that he transferred the stock to escape it, can not by a supposed cross bill inject into such a suit the litigation of the question whether or not the vendor deceived and defrauded them by the transfer. Ib.
15. Silence, delay, vacillation, acquiesence, or the retention and use of any of the fruits of a fraudulent sale or trade that are capable of restoration, for any considerable length of time after the discovery of the fraud, are fatal to the right to rescind the same. Ib.
46. One S. subscribed for 50 shares of the stock of a national bank, borrowing the money to pay for them from C., the cashier of the bank. As collateral security for the money so borrowed, he indorsed over the certificate to C., and left it with him. A few months later he sold the stock to C.for the amount of the loan and accrued interest, the certificate remaining in C.'s liands. The bank was solvent at the time, and so continued for five years, during which C. collected the dividends on the stock, as shown by the bank's dividend book, but the stock was never actually transferred to $C$. on the books of the bank. The by-laws of the bank provided that dividends should be paid to the stockholders in whose names the stock should stand; that certificates should be issued by the president and cashier; and that, when stock was transferred, the certificate should be canceled and a new one issued. Long after the sale of S.'s stock to C. the bank became insolvent, an assessment was made upon the stockholders, and the receiver of the bank finding S.'s name as a stockholder on the books of the bank, brought suit against him. . On the trial of the suit the foregoing facts were shown. C. was dead at the time of the trial. Held, that it might be inferred as a fact, from the evidence, that the bank had notice of the transfer of the stock by S. to C., and the termination of S.'s relation to the bank as stockholder, from which fact the legal presumption would follow that the bank would cause such acts to be done in relation to the transfer as its officers were called on to do, and that the jury should be permitted to draw such inference. Sinder v. Foster, 73 Fed. Rep., 136.
47. One C. was the holder of stock in the D. National Bank, and was also an officer of the L. bank, which held stock in the D. bank. In the latter capacity he was informed of an urgent demand upon the L. bank to send $\$ 5,000$ by telegraph in aid of the D. bank. Within a week after this demand, L. transferred his stock in the D. bank, without consideration, to his five children, one of whom was a married woman and two were minors. Within five months thereafter the D. bank failed, and an assessment was made on the stockholders. Held, that the transfer must have been made by L. in contemplation of the liability, and that both he and his transferees were liable for the assessment, the latter because the liability was cast upon them by law when they became stockho!ders. Foster v. Lincoln (C. C.), $7_{4}$ Fed. Rep., 382.
48. Rev. St. U. S., sec. 5139 , providing that the stock of a national bank shall be "transferable on the books of the association in such manner as may be prescribed in the by-laws or articles of association," is for the benefit of the corporation, its shareholders and creditors, only; and the rights of a trausferee of national-bank stock, under an unrecorded transfer, good at common law, are superior to the rights of a subsequent attaching creditor of the transferrer without notice. Doty v. First National Bank (N. D.), 53 N. W., '/7.

51. The burden is on the receiver of a national bank to show that a transfer of stock was inade by the transferrer for the fraudulent purpose of a voiding liability as a stockhoider; and evidence showing that the husband of the transferrer had knowledge of the embarrassed condition of the bank before the transfor was made, and that she had admitted that she never transacted any business without the advice of her husband, is not sufficient for that purpose, as against the positive statement of the trans-

ferrer that no one ever snggested to her to transfer the stock for the purpose of relieving herself from liability, or suggested to her that the bank was in a failing condition, and that she made the transfer to her daughter as anadvancement. Syles v. Hollowayet al., 81 Fed. Rep., 43 .
52. Under Rev. St. U. S., sec. 5i51, making shareholders in a national bank liable for the debts of the association, and section 5189, providing for the transfer of shares, with a provision that the transferee shall "succeed to all the rights and liabilities of the prior stockholders of such shares; and no change shall be made in the articles of the association by which the rights, remedies, and securities of the existing creditors of the association shall be impaired," a transier of stock, though without consideration and to an irresponsible person, can not be set aside by the receiver if made in good faith without knowledge of the failing condition of the bank. Ib.
53. A national bank may, by a by-law, subject the shares of a stockholder to a lien for his debt to the bank, so as to prevent a transfer on the books until such debt is paid. Bath Savings Institution v. Sagadalıoc National Bank (Me.), 80 A., 996.
54. Where there is no provision in the law of the bank subjecting shares to the payment of a shareholder s debts, a transferee of shares transferable only on the books of the bank by the shareholder or his attorney and by a surrender or the certificate takes a perfect title by transferring the shares under a power to himself, and can require the bank, upon surrender of the certificate, to give a new one, certifying that the shares stand recorded in lis own name. Ib.
55. Without the surrender of the certificate of stock, a bank can not issue another upon a transfer made by the apparent owner, either in person or by attorney, that will deprive the real owner of his shares. Ib.
50. Though the shares of stock in defendant bank were made transferable only on the books of the bank, an assignment without such transfer invested the assignee with an equitable title, which would be protected as against all persons not showing a superior right. Nicollet National Bankv. City Bank (Minn.), 85 N. W. Rep., $5 \%$ \%.
57. An assignment or stock transferable only on the books, without such transfer, for the purpose of collateral security, is effectual as against the bank asserting a lien for the debt of the stockholder (contrary to the Minnesota statute of 1881); and its refusal, because of such asserted lien, to make the proper transfer on its books renders it liable to the assignee as for conversion of the stock. Ib.
58. An attachment of the shares by the bank, after notice of the assignment, is ineffectual to defeat the prior right of the assignee. Ib.
59. Under the act of Congress July 12, 1852, extending for the purpose of licuidation the franchises of such national banking associations as do not extend the periods of their charters and making applicable to them the statute relating to liquidation of banking associations, such an association may continue to electofficers and directors for the purpose of effecting liquidation. But after the expiration of the term of its charter the stock of such an association is not transferable so as to give the transferee the right to share in the election of directors, and such transferee, not being a stockholder, is ineligible as a director under Rev. St., sec. 5145. Lichards v. Attleboro National Bank, 148 Mass., 187; 3 N. B. C., 495.

100. The discounting of a promissory note by a national bank at an unlawful rate of interest does not rendar the note void in toto, but oaly to the extent of the interest. Ib.
101. The discounting ot a note for the principal maker at an undawful rate of interest is not such an unauthorized use of the note as will discharge the sureties from liability. In the absence of any express agreement or understanding on that subject between the sureties and the principal, of which the holder had notice, or any intention to practice a traud on the sureties, they must be he!d to have trusted to the jud,ment and discretion of the principal as to the terms on which the note minht be discounted. 16 .
102. 109. Plaintiff as assignee in bankruptcy of $A$ sued to recover the penalties imposed by the national banking act for charging and receiving usurious rates of interest. Defendant proved a release and discharge executed by A before the commencement of the bankruptcy proceedings. Plaintiff gave in evidence the record of a judgenent in his favor in an action in which he as assignee sued defendant to recover a payment of a debt made to it by A about a month prior to the execution of the release, as laving been made when A was insolvent, and when defendant had reasonable cause to believe that fact and knew the payment was made in fraud of the bankrupt act. Held, that defendant was not concluded or affected by the judgment. Getman v. Second National Bank of Oswego, 89 N. Y., 136; 3 N. B.C., 599.

111. The right of action to recover double the amount of usurious interest paid to a national bank, as provided by section 5197 of the national banking. act, accrues upon the actual payment by the borrower of the amount of the illegal interest to the bank, and can be maintained whether the debt has been paid or not. Monongaliela National Bank v. Overholt, 96 Penn. St., 327; 3 N. B. C., 735.
112. The party paying such illegal interest can not recover for it after his discharge in bankruptey, but the right of action vests in the assignee. Ib.
113. A bill in equity will not lie to recover usury lrom a national bank. Hambright v. National Bank, 3 Lea, 40; 31 Am. Rep., 629; 2, N. B. C., 419.

115. A bank is a private corporation, and its charter a private act, to be pleaded and proved as all other private acts. The court can not take judicial cognizance of the fact that there are State banks whose charters authorize them to take more than six per cent interest. Ib.
116. The general rate of interest allowed in Pennsylvania to be taken by State banks is onlysix per cent. The establishment of a few banks authorized by special acts of assembly to take more than this amount is not sufficient to authorize national banks to take usurions interest under that clause of the national-bank act allowing them to charge interest at the same rate as banks of issue organized under the laws of the State whercin the national bank is situate. Ib.
117. In an action under U.S. R.S., sec. 5198, against a national bank to recover twice the amount of usurious interest taken on loans made by it to McRae, the defendant proved an oral agreement between it and McRae,

whereby the latter agreed to settle and discharge all such claims against defendant; that the same be applied in payment of that part of his indebtedness to the bank not collected by it from any other source, and that he would not sue or ailow sait to be brought against the bank on account of such illegal interest. In consideration thereof the bank agreed that it would satisfy so much of the indebtedness of McRae as remained after applying all other available collections, or would consent as a creditor to his discharge in baniruptey, as he might request. At the time of the agreement McRae was indebted to dcfendant in a large amont, and after applying all the collections there remained due a sum much larger than the excessive interest, none of which indebtedness has been paid. Held, that the agreement operated as an immediate discharge and satisfaction of the claim of McRae against defendant. Morehouse v. Second National Burdi of Ostego, 93 N. Y., 503; 3 N. B. C., 631.
118. Inconsistent action by the defendant subsequent to the agreement did not affect its legal operation. ib.
119. Neither under the national baiking act nor the Pennsylvania usury act of 1838 is the telaing of more than six 1 er cent interest a fraud upon creditors in itself. Appcal of Sceonc National Bank of Titusville, 85 Penn. St., 59S; : N. B. C., s04.

124. In such suit the defendant can not set off a judrement leid by it against the plaiutiff. ib.
125. No privilege of immunity from the usury laws of the States is conferred upon national banks by the act of Congress of 1864 ( 13 Stat at Large, 99), and a contract for a loan made in this State with one of these organizations, by which it reserves a greater rate of interest than seven per cent is void. First National Bauk of Whitehall, respondent, v. Janes Lamb et al., appellants. 50 N. Y., 95.
126. Tho provision of section 30 of said act, limiting the forfeiture to the interest, las reference only to the preceding sentence, which prescribes a rate of interest in those States and Territories where no rate is fixed by law. A construction of this provision which would make it applicable to contracts made in States where the rate of interest is regulated, and which would bring it in confict with State laws, would render it unconstitutional. Ib.
127. The power to create a corporation as an appropriate instrument for the execution of a constitutioual power vested in the Federal Government only carries with it authority to confer upon that corporation such privileges or immunities from state laws as are necessary to enable it to effect the legitimate national object for which it is created. No such national object requires that national banks should exceed the rates of interest fixed by the States, and no immmity from State usury laws is therefore necessary. $1 b$.
128. A contract to pay attorney's fees for collecting, in addition to principal and interest, is not, on its face, usurions; nor does it become usurious by reducing the debt to judgment and including in the judgment 10 per cent for attorney's fees. National Bumle v. Davforth (Gac.), " S. E., 546.

180. Usurious interest on a note is not paid, so as to set running the statute of limitations against an action to recover it back, by giving a renewal note which inclades the interest. The siatute only begins to run from the time the renewal note is paid. $I b$.

Usury: See Interest--Continued.
131. Under Rev. St., :5190, which provides that one paying usurious interest to a national bank may recover back twice the amount of the interest thus paid, it seems that the recovery allowed is twice the amuant of the entire interest, and not merely of the excess over the legal rate. Th.
132. Where more than the legal rate of interest has been paid to a national bank, the remedy is a penal sait to recover twice the anount paid, and such payment is not availabie as a defense in an equitable proceeding to collect the debt on which it was paid. Cua v. Bechetal., S3 let. Rep., No.
133. Section 5108 of the Revised Statutes of the United States, preseribines what rate of interest may be taken, received, reserved, or charged by a national banking association, makes a difference between interest which is note, bill, or other evidence of debt "carries with it, or which las been a reed to be paid thereon," and interest which has been "paid." 134. Intorest included in a renewal note or evidenced by a separate note does not thereby cease to be interest within the meaning of section 6193. Ib.

136. The forititure decared by the statute is not waived ly giving a renewal note in which is included the untious interest. No matter low many rencwals may be made, if the bank $h$ s charged a greater rate of interest than the law alows, it must, if the forfeiture clanse of the statute be relied on and the matter is thes brought to the attention of the court, lose the entire interest which the note carries or which has been agreed to bo paid. $1 b$.
137. If, for instance, one executes his note to a national bank for a named sum as evidence of a loan to him of that amount to be paid in one yea at ten per cent interest, such rate of interest being illegal, and if renewal notes are executed each year for fire years, without any money being in fact paid by the borrower-each renewal note, including last interest, Iegal and usurious-the sum included in the last note, in encess of the sum originally loaner, would be intcrest which that note carnied or winich was agreed to be paid, and not, as to any part of it, interest paid. Ib.
138. If the note when sued on includes nsurious interest. or interest pon usurious interest agreed to be paid, the holder may elect to remit sucin interest, and it can not then le said that usurious interest was paid to him. il.

140. Where a note ececnted in one State is made payable in anotier, under the laws of which it is not usurious, while it is usurious under the law of the State where made, the law of the State of performane will govern as to usury. Dygert et ux. v. Vermont Loan \& Trust Co., of lion. Rep., 913.
141. The question whether a prom:ssory note is governed, as to usury, b, the law of the State where it was executed and in which suit is brought, or of the State in which it is made payable, in the asence of a State stanate on the subject, is one of general law, upon which a Federal court is not bound to follow the decision of the supreme court of the state. NOTE 1.-Specie payments were suspended from January 1, 1862, to January 1, 1879. During the greater part of that period gold and silver coins were not in circulation except on the Pacific Coast, where, it is estimated, the specic circulation was generally about $\$ 25,000,000$. This estimated amount is the only coin included in the above statement from 1862 to 1875 , inclusive.

NOTE 2.- In 1876 subsidiary silver again came into use, and is included in this statement, beginning with that year.

Note 3.-The coinage of standard silver dollars began in 1878 under the act of Febrnary 28, 1878.
Note 4.-Specie payments were resumed January 1,1879 , and all gold and silver coins, as well as gold and silver bullion in the Treasury, are included in this statement from and after that date.
