Total .....	6, 302, 187, 477. 85	6, 576, 878, 163. 01	6, 605, 995, 616. 85	6, 655, 988, 686. 63	6, 975, 086, 504. 05

An examination of the periodical statements shows that the number of reporting banks has increased from 5,042 on September 9, 1903, to 5,412 on September 6, 1904, and that there has been a gradual increase during the year in the aggregate resources of these associations from \$6,310,429,966.37 on September 9, 1903, to \$6,975,086,504.05, the increase being \$664,656,537.68. With the exception of the United States and other bonds on deposit in the Treasury Department to secure public deposits, and the holdings of silver and of legal tenders, there has been an increase in every item of resources, the principal increase being in loans and discounts, amounting to \$244,704,647.44, or from \$3,481,446,772.04 to \$3,726,151,419.48. The increase in bonds on deposit to secure circulation was \$36,839,860; other United States and miscellaneous bonds, etc., \$42,295,209.56; and in holdings of specie, including coin certificates, \$107,192,767.59. The banks' holdings of specie and legal-tender notes on September 9, 1903, were \$554,306,026.94, and on September 6, 1904, they were \$661,456,529.53.

The paid-in capital stock has gradually increased since September, 1903, from \$753,722,658 to \$770,777,854, or an increase of \$17,055,196. The surplus and undivided profits aggregate \$583,137,047.94, an increase of \$26,765,598.02 during the past year. The deposits of the banks—individual, Government, and bank—amounting to nearly 75 per cent of the total liabilities, aggregated \$5,130,235,940.31, a net increase during the year of \$597,804,693.93.

From an examination of the table appearing in the appendix, relating to the classification of loans and discounts of national banks, held on September 6, 1904, and to the accompanying summary, it will be noted that nearly 22 per cent of the total volume of loans is held by the banks located in the city of New York; over 29 per cent by the banks located in New York, Chicago, and St. Louis; about 54 per cent by the banks located in the central and other reserve cities, leaving 46 per cent as the proportion of the loans in banks located elsewhere than in the reserve cities. In September, 1903, approximately 18 per cent of the loans was in the New York banks, 26 per cent in the New York, Chicago, and St. Louis banks, nearly 52 per cent in all reserve city banks, and 48 per cent in banks located elsewhere than in reserve cities.

The summary mentioned is as follows:

Banks in—	1904.		1903.	
	Loans.		Loans.	
	Amount.	Per cent.	Amount.	Per cent.
New York.....	\$807,264,703	21.6	\$631,565,824	18.1
New York.....	1,090,374,043	29.2	902,294,038	25.9
Chicago.....				
St. Louis.....				
Other reserve cities.....	919,232,812	24.6	900,365,628	25.8
All reserve cities.....	2,009,606,855	53.9	1,802,659,666	51.8
Country.....	1,716,644,564	46.0	1,678,787,106	48.2
Total.....	3,726,151,419		3,481,446,772	

The character and amount of each class of the banks' loans in September, 1904, were as follows: Demand paper, with one or more individual or firm names, \$279,779,356; time, single-name paper, \$611,024,135; demand paper, secured by bonds, stocks, etc., \$818,937,913; time paper, secured by bonds, stocks, etc., \$699,702,946; time paper, two or more individual or firm names, \$1,316,707,069.

The law requires national banking associations located in reserve cities to maintain a reserve of 25 per cent on their deposit liabilities, and banks located elsewhere a reserve of 15 per cent. On September 9, 1903, the banks located in the central reserve cities, with deposit liabilities of \$1,021,574,470.24, held an average reserve of 26.54 per cent; other reserve city banks, on liabilities of \$1,032,473,203.18, a reserve of 25.30; country banks, on liabilities of \$1,809,464,438.83, an average reserve of 17.59. The aggregate deposit liabilities were \$3,863,512,112.25 and the average reserve 22.02 per cent. On September 6, 1904, the central reserve city banks' deposit liabilities were \$1,340,729,685.89 and the reserve held 27.28 per cent; other reserve city banks, with liabilities of \$1,155,738,806.61, held a reserve of 25.39, the average for all reserve city banks being 26.41. On deposit liabilities of \$1,904,467,117.14 the country banks held an average reserve of 17.21. The aggregate deposit liabilities of all national banks, amounting to \$4,400,935,409.64, were protected by an average reserve of 22.43 per cent.

It will be noted that in September, 1904, the proportion of loans and discounts was 53.4 per cent of the total assets, and this is the lowest proportion, with the exception of the years 1900 and 1901, since 1890, when it was 74.3 per cent. An examination of the records shows that generally there was a gradual decrease in the percentage of loans to the aggregate resources from 1890 to 1896, the rate on the latter date being 67.1. In the fall of the year following the proportion had dropped to 55.3 per cent and to 54.2 in 1898, since which date that ratio, with slight fluctuations, has existed. In this connection the relation of capital and individual deposits to the banks' liabilities is interesting. Practically one-half of the banks' resources are represented by the individual deposits, and that proportion has been almost constant since 1880. The proportion of resources to capital, however, nearly doubled between 1880 and 1904. From 1880 to 1893 the resources averaged about four and one-half times the amount of capital; from 1894 to 1896, five times the capital, and gradually increased to eight and three-fourths times in 1902. The resources were approximately eight and one-half times the volume of capital stock in 1903 and 1904.

In connection with the foregoing, the following table, furnished to this office through the courtesy of the William B. Dana Company, of New York, relating to the range and average monthly rates for money in the New York market during the year ended October 31, 1904, will be found of much interest.

<sup>a</sup> No loans by trust companies on call because of low rates.

## CLEARING-HOUSE EXCHANGES.

Through the courtesy of Mr. William Sherer, manager of the New York clearing house, statistics have been compiled and furnished to this office covering the amount of exchanges of the clearing houses in the United States for the year ended September 30, 1904, and separately the operations of the New York clearing house for the same period, showing in addition to the aggregate clearings and balances the amount and kinds of money passing in settlement, together with the transactions of the association with the Assistant Treasurer of the United States at New York.

The volume of exchanges of the 98 clearing houses of the United States amounted to \$102,150,313,982, against \$113,963,298,913 for the year ended September 30, 1903, the net decrease being \$11,812,984,931.

The amount of exchanges of the principal clearing houses, and of those exceeding one billion dollars, are as follows:

New York .....	\$59, 672, 796, 804
Chicago .....	8, 808, 093, 268
Boston .....	6, 419, 272, 150
Philadelphia.....	5, 491, 236, 568
St. Louis .....	2, 682, 218, 323
Pittsburg .....	1, 986, 720, 497
San Francisco .....	1, 513, 927, 257
Cincinnati .....	1, 196, 854, 400
Baltimore.....	1, 097, 603, 459
Kansas City.....	1, 096, 400, 926

It is a notable fact that the number of banks which are members of the New York clearing house for the year 1904 is less than in any year since 1864, when the number was 49. The capital stock, however, has increased from the latter date, when it was \$68,586,763, to \$115,972,700.

The clearings during the year of the New York clearing house were settled by the payment of balances amounting to \$3,105,858,576, or 5.2 per cent of the aggregate clearings. During the fifty-one years in which the clearing house of New York has been in existence, the transactions represented by the clearings aggregated \$1,565,668,321,738, the average ratio of balances paid in money being 4.77 per cent. In settling balances in 1892, gold was used to the extent of 42.5 per cent, and legal tenders and other currency to the extent of 57.5 per cent; in 1896 but one one-hundredth of 1 per cent of the balance was paid in gold, the remainder being settled with legal tenders and other currency. In 1899 the ratio of gold used was 99 per cent and in 1903 to 1904, 99.99 per cent. The exchanges and balances received from the clearing house by the assistant treasurer of the United States at New York during the year aggregated \$559,561,205.12; the amount of exchanges delivered to the clearing house being \$290,580,050.60, and the balance paid to the clearing house, \$268,981,154.52.

## EARNINGS, DIVIDENDS, AND TAXES.

Prior to 1869 national banks were not required by law to report to the Comptroller of the Currency the amount of their earnings and dividends, although section 5199 of the Revised Statutes authorized the declaration of semiannual dividends, contingent upon carrying to the surplus fund, prior thereto, one-tenth of the net earnings of the

preceding half year until the fund amounted to 20 per cent of the capital. This provision is construed as requiring a permanent retention of the requisite surplus fund, except where losses have been sustained exceeding the net undivided profits, when it becomes necessary to encroach upon the surplus.

Reports of earnings and dividends for the year ended March 1, 1870, were received from 1,526 national banks, with capital of \$409,008,896, on which dividends were paid to the amount of \$43,246,926, or at the rate of 10.5 per cent. The average capital of banks in that year was \$268,000. Dividends at the average rate of approximately 10 per cent were paid from 1870 to 1875, inclusive. In 1879 the rate had dropped to 7.6 per cent. From 1881 to 1884 the rate was slightly in excess of 8 per cent and for the next five years continued at an average rate of 7.9 per cent. Eight per cent was slightly exceeded in 1890, and from that date declined to 6.7 in 1897, the lowest average rate ever paid by national banking associations. In 1901 the average rate was 8.1; in 1902, 9.8; in 1903, 8.7; and in 1904, 9.9. During the thirty-five years ended March 1, 1904, the average capital of national banks reporting their earnings and dividends was \$559,682,606; surplus, \$184,997,045; net earnings, \$59,843,939, and dividends declared, \$46,539,567. The average rate of dividends to capital was 8.32 and of dividends to capital and surplus, 6.25. During the thirty-five years from the net earnings aggregating \$2,094,537,873, dividends were paid to the amount of \$1,628,884,831.

The power of States to tax national banks is limited by section 5219, United States Revised Statutes, to a taxation of the shares of stock, in the names of shareholders and the real estate of the bank. (*Owensboro National Bank v. Owensboro*, 173 U. S., 664). This section further provides that the legislature of each State shall determine the manner and place of taxation, subject only to the two restrictions, that the taxation shall not be at a greater rate than is assessed on other moneyed capital in the hands of individual citizens of such State, and that the shares of any national banking association, owned by non-residents of any State, shall be taxed in the city or town where the bank is located and not elsewhere. Section 5210, United States Revised Statutes, requires every national bank to keep a correct list of the names and residences of its shareholders, the number of shares held by each shareholder, and that the list shall be subject to inspection by officers authorized to assess taxes under State authority, and also by all shareholders and creditors of the association.

No information is available with respect to the amount of State taxes paid by national banks, nor could it be obtained, except through correspondence with every association, and in many instances with every shareholder, where the tax is paid directly by the owners of stock.

The lack of uniformity in the methods of valuing bank stock for taxation in the various States is shown in the following extract from an article on the subject appearing in the September, 1904, edition of the *Banking Law Journal*:

*Connecticut*.—Bank is assessed on average market value for the year.

*Maine*.—Real estate taxed to bank at its value. Stock taxed to resident owners at approximate market value.

*Massachusetts*.—Stock taxed on book value, including surplus, reserve, and undivided profits, after deducting value of real estate (taxed to the bank).

*New York.*—One per cent on the total capital, surplus, and undivided profits, exclusive of real estate, taxed separately.

*Pennsylvania.*—Banks have option of paying 10 mills (or 1 per cent) on capital, or 4 mills on market value.

*Alabama.*—Stock is taxed on a basis of last sale prior to October 1 of each year.

*Georgia.*—Bank is assessed on full market value of stock, and in addition on any surplus, undivided profits, and real and personal property if not included in market value of shares.

*Kentucky.*—The law provides for assessment "at its fair cash value, estimated at the price it would bring at a fair voluntary sale."

*Tennessee.*—Law provides for assessment at actual or market value. Usually assessed at about 80 per cent of quoted market value on January 1.

*Texas.*—No law on subject, and methods of taxation differ greatly in different sections. Wayne County taxes on 70 per cent of capital alone; another county on 60 per cent of capital and surplus, and a third on capital, surplus, and undivided profits in full; many counties on 80 per cent of capital and surplus.

*North Carolina.*—Stock taxed to shareholders at its market value, after deducting real estate, taxed separately.

*South Carolina.*—Banks taxed on basis of 60 per cent of capital, surplus, and undivided profits, less real estate, taxed separately.

*Illinois.*—Bank is assessed upon one-fifth of cash valuation, determined upon by adding capital stock, surplus, and undivided profits, and deducting real estate (on which taxes are paid separately) and a certain per cent fixed arbitrarily by board of assessors (usually 20 to 25 per cent).

*Iowa.*—Banks are taxed upon capital, surplus, and undivided profits, after deducting real estate and taking 25 per cent on the actual cash value.

*Michigan.*—Assessment made on full value of stock, including surplus and undivided profits, less assessed value of any real estate belonging to bank.

*Minnesota.*—Taxed on 50 per cent of the capital stock, surplus, and other profits, excluding only real estate used for banking purposes.

*Missouri.*—Tax assessed on capital, surplus, and undivided profits, less assessed value of real estate held at about two-thirds value on 1st day of June.

*Ohio.*—Banks assessed at regular rate for personal taxes on two-thirds amount of capital, surplus, and undivided profits after deducting real estate.

*Kansas.*—Assessments upon greater part of banks are made upon capital stock, less real estate owned. Sometimes surplus is included. No special law with reference to assessment of bank stock.

*Nebraska.*—Assessed on the "true" value, taking into consideration the surplus and undivided profits, real estate being deducted and assessed separately.

*South Dakota.*—Banks pay taxes on basis of 40 per cent, usually of capital and surplus, less real estate, taxed separately.

*Wisconsin.*—Banks taxed on basis of 80 per cent of real book value, less assessed value of real estate used for banking office.

Section 41 of the act of June 3, 1864, provided that, in lieu of all existing taxes, every national banking association shall pay a duty of one-half of 1 per cent semiannually on the average amount of notes in circulation, one-fourth of 1 per cent on the average amount of deposits, and one-fourth of 1 per cent on the average amount of capital in excess of the amount invested in United States bonds. The tax on capital and deposits was repealed by the act of March 3, 1883. Under the war-revenue act of 1898 (repealed in 1902) a tax was imposed upon the capital and surplus of national and all other banks. Incorporated in the law of March 14, 1900, was a provision reducing the semiannual duty on national-bank circulation from one-half to one-fourth of 1 per cent on notes secured by 2 per cent consols of 1930.

The amounts paid to the Government under these various provisions up to June 30, 1904, are as follows: Capital stock, 1864 to 1883, \$7,855,888; war-revenue act of 1898, \$7,048,413; deposits to 1883, \$60,940,067; circulation to June 30, 1904, \$94,057,046; total, \$169,901,414.

In addition to the foregoing, national banks have been charged with and paid expenses as follows:

Redemption of circulating notes from 1874 to 1904.....	\$4,963,061
Cost of original plates, 1883 to 1904.....	479,935
Cost of extension plates, 1883 to 1904 .....	303,370
Fees for examinations authorized by section 5240, United States Revised Statutes, 1883 to 1904.....	4,309,199
Total payments other than taxes .....	10,055,565
Combining the taxes and other expenses, a total is shown of.....	179,956,979

From the establishment of the office of the Comptroller of the Currency in 1863 to June 30, 1904, expenses of the Bureau were \$10,025,445.93. This amount does not include contingent expenses of the Bureau, as such expenses are not paid by the Comptroller, but from the general appropriation for contingent expenses of the Treasury Department, no separate account thereof being kept. Some years since, however, a careful estimate was made and it was ascertained that such contingent expenses amount, approximately, to the sum appropriated for the operation of the Bureau. On the assumption that the estimate was practically correct, the total expenses connected with the operation of the Bureau during the life of the national banking system have been about \$20,000,000, an average of nearly \$500,000 per year. The average annual tax collected on circulation, approximately \$2,240,000, is thus seen to be over four times the average annual operating expenses of the Bureau.

#### SHARES AND SHAREHOLDERS OF NATIONAL BANKS.

In the call for lists of shareholders of national banking associations, as of the first Monday of July, 1904, a request was incorporated for the submission of information as to the number and holdings of women shareholders. The reported capital on the date in question was \$770,594,535, divided into 8,834,404 shares held by 318,735 shareholders, the average par value of shares being \$87.23. This average par value is due to the large number of banks located in the New England and Eastern States, which were converted into national banking associations and with stock divided into shares of less than \$100 each. The returns also show that 1,858,448 shares were held by 104,534 women; in other words, that while nearly one-third of the stockholders were women their holdings amounted to approximately one-fifth of the entire stock of national banking associations. It is also shown that the average number of shares per shareholder was 27.72 and the average value of holdings \$2,418. The average number of shares standing in the name of women was 17.78 and the average value of their holdings \$1,551. In the New England and Eastern States 43 per cent of the shareholders of national banks are women, and they hold, respectively, 24 and 22 per cent of the stock. In the Southern and also in the Middle Western States 26 per cent of the shareholders are women, and their holdings, approximately, 20 per cent of the stock. In the Western States the percentages drop to 19 and 10, respectively. In the Pacific States and Territories nearly 19 per cent of the stock is owned by women, representing 23 per cent of the number of shareholders.

In the following table is shown the distribution of national-bank stock on July 4, 1904:

## CAPITAL, SHARES, ETC., OF NATIONAL BANKS.

Divisions.	Capital.	Number of shares.	Average par value.	Number of share-holders.	Number of women share-holders.	Number of shares owned by women.	Per cent of women share-holders.	Per cent of shares owned by women
New England States .....	\$117,797,320	1,357,824	\$86.75	70,587	30,262	327,533	0.43—	0.24+
Eastern States .....	279,173,815	3,704,646	75.36	120,883	42,131	824,007	.43+	.22+
Southern States .....	55,169,200	980,642	97.05	43,417	11,304	191,950	.26+	.20—
Middle Western States .....	203,429,100	2,039,291	99.75	62,544	16,515	412,526	.26+	.20+

Pacific States .....	28,274,800	283,748	99.65	7,056	1,645	53,561	.23+	.19—
Islands .....	635,000	6,350	100.00	97	12	506	.12+	.08—
Total United States .	770,594,535	8,834,404	87.23	318,735	104,534	1,858,448	.32+	.21+

Investigations relative to the number of shareholders and the average individual holdings have been made at various dates from 1876. In that year the number of shares of national-bank stock was 6,505,930, the average number of shares held 31.25, and the average value of each holding \$2,427. In 1886 there were 7,116,894 shares, the average number of shares held 31.83, the average value of holdings \$2,438. In 1894 shares numbered 7,955,076, average number of shares 27.64, and the average value of holdings \$2,337. In 1902 the number of shares had increased to 8,001,433, the average number of shares held being 24.24, the average value of holdings \$2,072. The number of shares in 1903 was 8,617,517, the average number of shares held 27.36, with an average value of \$2,397. In July, 1904, the number of shares was 8,834,404, average number of shares held 27.72, and the average value of each shareholder's stock \$2,418.

## ORGANIZATION OF NATIONAL BANKS.

Under authority of the original national-bank act, approved February 25, 1863, the reenacted law of June 3, 1864, the act of February 14, 1880, authorizing the organization of national gold banks, and the final act of March 14, 1900, empowering the formation of associations with minimum capital of \$25,000, there have been chartered 7,460 national banking associations, of which 1,165, or nearly 16 per cent, were conversions of State banks. Over two-thirds of the conversions were of banks organized in the New England and Eastern States, and of the total number of organizations in those two geographical divisions one-third were conversions of State banks. Prior to March 14, 1900, there is no record of the number of banks organized to succeed State or private banks, but since that date and to October 31, 1904, it is shown that nearly one-third of the banks chartered in this period were of that class. In view of the fact that the organization of banks other than national has more than kept pace with the organization of national banks, it may be safely concluded that the relative number of State banks converted and national banks organized to succeed State banks, prior to 1900, was approximately the same as since that date. The proportion of conversions and reorganizations to total number of banks organized since March 14, 1900, is shown to be 44 per cent.

Records compiled at the close of the report, year ended October 31, 1904, show that since March 14, 1900—a period of little over four and one-half years—charters have been granted to 2,196 national banking

associations, with authorized capital of \$125,512,300. The amount of bonds deposited by these banks prior to being authorized to begin business was \$31,331,250, approximately one-fourth the amount which might have been deposited with the Treasurer of the United States in trust and circulating notes issued to the par value thereon. Included in the total number of banks organized are 1,437, with capital of \$37,459,500, which were chartered under the authority of the act of March 14, 1900—that is, with capital of less than \$50,000, the average being but slightly in excess of the minimum, namely \$25,000. During this same period banks with capital stock of \$50,000 or over were chartered to the number of 759, with capital of \$88,052,800. Further classifying the organizations, it is shown that 250 of the banks, with capital of \$16,629,800, were conversions of State banks; 716, with capital of \$43,756,000, reorganizations of State or private banks, and 1,230, with capital of \$65,126,500, primary organizations.

In the period beginning March 14, 1900, and terminating on December 31 of that year, the number of banks organized was 398. During the calendar year 1901 the number was 412; 1902, 492; 1903, 515, and 1904 to October 31, inclusive, 379. The monthly average of number of banks organized during these five periods was as follows: 1900, 42; 1901, 34; 1902, 41; 1903, 43; 1904, 38. The average national-bank capital on March 14, 1900, was \$170,400, but as a result of the large number of banks organized with capital of \$25,000, the average on October 31, 1904, was reduced to \$142,150.

On March 14, 1900, the number of national banks in existence was 3,617, with authorized capital of \$616,308,095; bonds on deposit to secure circulation, \$244,611,570; circulation secured by bonds, \$216,374,795; and total national-bank circulation outstanding, secured by bonds and by lawful money, the latter deposited with the Treasurer of the United States by liquidating banks, associations reducing their circulation, and on account of insolvent national banks, \$254,402,730. On October 31, 1904, the number of active banks was 5,495, with authorized capital of \$781,126,335; bonds on deposit to secure circulation, \$426,544,790; circulation secured by bonds, \$424,530,581, and total circulation outstanding, secured by bonds and lawful money, \$457,281,500. From the foregoing it appears that during the period in question there has been a net increase in number of banks of 1,878; capital, \$164,818,240; bonds on deposit to secure circulation, \$181,933,220; circulation secured by bonds, \$208,155,786, and total circulation outstanding, \$202,878,770. The changes in number of banks, authorized capital, etc., from March 14, 1900, to October 31, 1904, and on intermediate dates indicated, are shown in the following table:

NUMBER OF NATIONAL BANKS IN EXISTENCE, AUTHORIZED CAPITAL STOCK, BONDS ON DEPOSIT TO SECURE CIRCULATION, CIRCULATION SECURED BY BONDS AND BY LAWFUL MONEY, ON MARCH 14, 1900, JUNE 30 AND OCTOBER 31, 1903, AND JUNE 30 AND OCTOBER 31, 1904.

	Mar. 14, 1900.	June 30, 1903.	Oct. 31, 1903.	June 30, 1904.	Oct. 31, 1904.

Michigan.....	185	83	14	88					
Wisconsin.....	165	47	3	115					

From an examination of the foregoing table it will be noted that every bank chartered in the State of Delaware is still in active operation; and further, that the only States, etc., in which no failures of national banks have occurred are Maine, Rhode Island, Delaware, Arizona, Alaska, Hawaii, and Porto Rico. One bank in West Virginia, temporarily in charge of a receiver, was subsequently permitted to reopen and resume business. This practically adds West Virginia to the list of States in which no failures occurred.

The number and capital of national banking associations incorporated in each State and geographical division, classified by capital stock, organized from March 14, 1900, to October 31, 1904, are shown in the following table:

## ORGANIZATIONS, 1900 TO 1904.

States, etc.	Capital less than \$50,000.		Capital \$50,000 or over.		Total organizations.	
	No.	Capital.	No.	Capital.	No.	Capital.

a Bonds deposited, \$31,331,250.

The Middle Western States are shown to lead, both in number of organizations and capital, namely 664 and \$36,531,000, respectively; followed by the Southern States in number of banks, namely 547, but third in point of capital, the amount being \$29,148,500. In the Western States 478 banks, with capital of \$15,746,000, were organized; in the Eastern States 380 banks with capital of \$30,974,000; Pacific States, 101 banks with capital of \$8,312,800; New England States, 23 banks with capital of \$4,175,000. Two banks have been organized in Hawaii with aggregate capital of \$525,000, and one in Porto Rico, with capital of \$100,000. Texas leads by one in number of banks organized, namely 244, with capital of \$10,770,000, Pennsylvania being second in the list with 243 banks, but nearly double the capital of Texas banks, namely \$18,977,000. In the Middle Western States division Minnesota leads in number of banks with 154, followed by Illinois with 121, Ohio 115, Iowa 111, and Indiana 75. New York, with 71 banks, followed Pennsylvania in number of associations organized in the Eastern States. The capital of the New York banks is shown to be \$8,520,000, nearly one-half of the amount of the 243 banks organized in Pennsylvania. New Jersey is third in the list with 35 banks, followed by Maryland, with 24, Delaware with 5, and the District of Columbia with 2.

In the Southern States, excluding Texas, Virginia is at the head of the list with 45 banks, and capital of \$2,141,000, followed by West Virginia with 44 banks, and capital of \$2,180,000. There were 43 banks chartered in Kentucky with greater aggregate capital than the banks of any Southern State, except Texas, namely, \$3,445,000. Alabama is fifth in the list of Southern States, with 33 banks, followed by Georgia with 31, Louisiana and Tennessee with 18 each, 17 in North Carolina and Arkansas, 15 in Florida, 13 in Mississippi, and 9 in South Carolina. In the Western States division, Indian Territory leads both in number and capital, namely, 98 with capital of \$3,035,000, followed by Oklahoma 93, Kansas 67, North Dakota 62, Nebraska 57, South Dakota 41, Colorado 29, New Mexico 14, Wyoming 9, and Montana 8. In California 45 banks have been chartered with capital of \$5,827,800. Next in number of organizations in the Pacific States division is Idaho with 18 banks, followed by Oregon with 15, Washington 10, Arizona 7, Utah 5, and Nevada 1. In the New England States division, 8 banks were organized in Massachusetts with capital of \$2,950,000, 5 banks in Maine, 3 each in New Hampshire, Vermont, and Connecticut, and 1 in Rhode Island.

The following table shows the number of banks organized since March 14, 1900, by conversion, reorganization, and primary organization, classified by capital stock:

Classification.	Conversions.		Reorganizations.		Primary organizations.		Total.	
	No.	Capital.	No.	Capital.	No.	Capital.	No.	Capital.
Capital less than \$50,000....	159	\$4,227,000	464	\$12,471,000	814	\$20,761,500	1,437	\$37,459,500
Capital \$50,000 or more.....	91	12,402,800	252	31,285,000	416	44,365,000	759	88,052,800

#### VOLUNTARY LIQUIDATIONS, EXPIRATION, AND EXTENSION OF CHARTERS.

During the existence of the national banking system 1,548 national banks, including 21 banks subsequently placed in charge of a receiver, or 20.7 per cent of the total number organized, have been placed in liquidation either by vote of stockholders or by expiration of charters, the capital involved being \$280,524,550. The voluntary liquidations numbered 1,398, the capital involved \$257,136,550, and the number of expirations 150, with capital of \$23,413,000. In the year ended October 31, 1904, 66 associations, with capital of \$20,285,000, including 4 banks with \$510,000 capital, whose charters expired, were closed voluntarily. Three of the banks closed by expiration of charters were reorganized under different titles. Thirty-two of the associations closed by voluntary liquidation, with capital of \$12,700,000, were absorbed by, or consolidated with, other national banks; 9, with capital of \$4,480,000, were absorbed by trust companies, and 3, with capital of \$300,000, reorganized as trust companies; 3, with capital of \$250,000, are reported to have been succeeded by State or private banks, and 17, with capital of \$2,395,000, were closed to discontinue business.

From correspondence received it appears that the following banks were absorbed by trust companies: Colonial National Bank of Pittsburg, Pa.; the First, the National Warren, and the National Hope, all of Warren, R. I.; the First, the National Bank of North America, and the Weybosset, all of Providence, R. I.; the First of Lynn, Mass., and the Colonial of Boston. The following associations are understood to have been reorganized as trust companies: The Peoples National Bank, of Belfast, Me.; the First, of Cambridge, Mass., and the Idaho National, of Lewiston, Idaho.

Forty-five of the associations liquidated were with individual capital of from \$25,000 to \$200,000, and the remainder with individual capital of \$300,000 to \$2,000,000. The greatest number of liquidations occurred in Massachusetts, 12 being closed in that Commonwealth. Second in the list is Pennsylvania with 9, followed by Ohio and Texas with 8 each, Rhode Island 7, Oklahoma 3, New York and Iowa 2 each, and 1 each in the following States: Connecticut, Maine, Vermont, Maryland, Tennessee, Virginia, Illinois, Indian Territory, Kansas, Nebraska, New Mexico, Idaho, California, Oregon, and Washington.

National banks closed to business, by voluntary liquidation, during the year ended October 31, 1904, with date of authority to commence business, date of closing, capital, and circulation issued, redeemed, and outstanding, are shown in the following table:

On July 12, 1882, the act was passed authorizing national banking associations to extend their corporate existence for an additional period of twenty years, and on April 12, 1902, the act was approved authorizing the extension, for a further period of twenty years, of charters of banks extended under the act of July 12, 1882. The number and capital of banks whose charters have been extended under the original act are 2,258 and \$493,096,365, respectively; the number of reextensions under the act of April 12, 1902, with capital of the associations, was 315 and \$88,310,300, respectively, making the total number of first and second extensions 2,573, the capital of the banks being \$581,406,665. The number of extensions and reextensions during the year ended October 31, 1904, was 118 and 57, respectively. For the information of banks interested there is given in the appendix to this

report a list of the 104 banks; the charters of which will expire during the year ending October 31, 1905, and which may be extended under authority of the provisions of the act of July 12, 1882, and also of 643 banks extended under the act mentioned, and which may be extended for the second time under the act of April 12, 1902. The capital of banks whose charters will expire for the first time is \$13,123,000, and for the second time \$229,050,585.

Many associations, on reaching the end of their corporate existence, find that a large proportion of the stock is held by nonresidents, estates, etc., the owners of which add nothing to the banks' business, their sole concern being in the dividends declared. Where this condition exists to an extent materially affecting a bank's interests, it is found necessary to adopt measures to place the stock with those who will be desirable shareholders. Generally, it is found possible to induce such shareholders to sell their stock to local resident shareholders, or through them, to other resident business men. In case the purchase of such stock can not be effected, it is occasionally found advisable to permit the corporate existence of the bank to expire by limitation and organize a new association by the stockholders of the old bank and other local citizens engaged in active business. The course first referred to is the more desirable, as thereby the charter may be extended and the bank continue its well-earned prestige of the prior twenty or forty years, as the case may be. As the proviso to section 5 of the act of July 12, 1882, relating to the organization of a bank to succeed another association whose corporate existence has expired, confers upon the stockholders in the old bank the right to participate, according to their original holdings, in the stock of the new bank, it becomes necessary, if this right is not to be conserved, to organize under a name materially different from that of the original association; for otherwise the new management would have the advantage of the good will of the old association without rendering an equivalent to the old stockholders who are not to be permitted to become subscribers to the stock of the new bank.

Where the corporate existence of a national bank is permitted to expire by limitation the method of settling its affairs is the same as though the bank had been placed in voluntary liquidation by vote of shareholders in advance of the termination of its corporate existence. The liabilities of an association become due and payable on the date of expiration of charter. When all liabilities are paid, or provided for to the satisfaction of claimants, the remaining assets representing the stockholders' interests should be promptly converted into cash and distributed pro rata to stockholders. The law makes no provision for the report to the Comptroller of the Currency of the settlement of the affairs of an association closed by voluntary liquidation or expiration of charter, and it is clear that the agency by means of which the business should be wound up is one to be created by vote of stockholders, or, in default of such action, by the directors. The election of a liquidating agent by stockholders relieves the directors of responsibility, which they would otherwise have, for the settlement of the trust. In case of the closing of a bank for the purpose of absorption by, or consolidation with, another bank, the liquidating agent or directors appear to have authority to enter into a contract with the continuing bank for the assumption of liabilities to depositors and other general creditors, offsetting an equivalent amount of assets trans-

ferred, and to purchase the remaining assets, which can be lawfully acquired by a national bank, representing stockholders' interests. If there is to be no increase in the capital stock of the absorbing bank, for the purpose of selling the additional stock to those interested in the old association, it necessarily follows that the stockholders of the closed bank are to be paid the actual value of the assets representing their stockholdings.

The act of 1882, providing for extension of charters, conserves the interest of shareholders not desiring to continue their connection with the bank, but desiring to withdraw and to be paid the surrender value of their stock. The act provides that notice of intention to withdraw shall be given to the directors within thirty days from the date of issue of certificate authorizing extension of the charter, and that a committee of appraisal shall be appointed—one member by the withdrawing shareholder, one by the bank, and a third by the first two. The bank and the dissenting shareholder may select as members of the committee expert accountants or any other persons competent to perform the duties of appraisers. In case the value fixed is unsatisfactory to the shareholder, he may appeal to the Comptroller of the Currency, whose appraisal shall be final and binding. The right of appeal is not given to the bank. In case the valuation fixed by the Comptroller exceeds the amount fixed by the committee, the expense of reappraisal must be borne by the bank; otherwise by the shareholder appealing. The law makes no provision for payment of expenses incident to the first appraisal; hence it is incumbent upon the withdrawing shareholder and the bank to determine this question. The shares appraised and surrendered must, after due notice, be sold at public sale within thirty days after the final appraisal.

Generally speaking, the market price of stock represents the surrender value, although, in some instances, the market price may be above or below the actual value of the stock. The proper course to pursue is to have a very careful examination made of the assets, taking into consideration the actual value of items above or below the book value, deducting items admittedly worthless. The question of "good will" is not to be considered, although it may be of material value to a bank continuing business.

The act relating to extension provides that shareholders representing at least two-thirds of the stock shall consent in writing to an amendment of the articles of association, extending for a further period of twenty years the corporate existence of the association. The procuring of the necessary signatures may be taken up at any time within two years prior to the expiration of a bank's charter, and when the requisite signatures have been obtained the amendment should be filed with the Comptroller of the Currency. A shareholder's consent must be given by him in writing, or by his duly empowered attorney. The provision of law relating to voting of stock by proxy at meetings of stockholders of national banks does not apply in the case of extension of charter, as no vote is involved; hence, if desired, a shareholder may legally empower a director or other officer of a national bank to act for him in consenting to the extension of charter.

It is expected that the amendment relating to the extension of the corporate existence of a bank, accompanied by request for its approval, will be filed with the Comptroller of the Currency not later than two

months prior to expiration of the existing charter, in order that there may be sufficient time for the making of the special examination required by law to ascertain the condition of the bank's assets and to enable the association to comply with possible conditions precedent to renewal of charter. Where an examination has been made within a reasonable time prior to expiration of charter, in passing upon the question of extension the Comptroller may be governed by the condition of the bank as shown by such an examination, thus obviating the necessity of an additional special investigation of the bank's condition. When a bank's affairs are found to be in a satisfactory condition, or action has been taken in connection with the sale or disposition of undesirable assets, or those acquired in violation of the provisions of law, advice is given of the fact that certificate of extension will be issued simultaneously with the expiration of the preexisting charter. By the extension of the corporate existence of a national banking association the original charter number and title are continued, and the association enjoys all the rights, privileges, and immunities granted, and is subject to all the duties, liabilities, and restrictions imposed by law relating to national banking associations.

The act of 1882, however, provides that a bank, whose charter has been extended, can not subsequently receive and issue circulating notes of the original series; hence if the note-issuing franchise is to be enjoyed, notes of a new design must be ordered. The order for the new plates and circulation should accompany the amendment providing for extension of charter, in order that the new notes may be ready for delivery as soon as required. As the old notes are received for redemption they are destroyed and charged to the 5 per cent redemption fund and an equivalent amount of notes of the new design shipped to the bank. This process continues until three years from date of extension of charter when a deposit of lawful money is required to provide for the redemption of the balance of the notes then outstanding. An order for 50 per cent of the total amount of notes to which a bank is entitled on its bond deposit is sufficient to provide for current redemptions and reissues. If desired, lawful money may be deposited for all of the outstanding notes of the old design, which will enable the depositing bank to receive immediately the full amount of notes of the new series.

#### INSOLVENT NATIONAL BANKS.

During the past year 26 national banks, including one theretofore in voluntary liquidation, were placed in the charge of receivers. Six of the associations, however, have been restored to solvency and permitted to resume business, the receivers being discharged. Eight of the failures were due to fraudulent management or to dishonesty of the cashiers.

In the accompanying table is given a list of national banks closed during the year, the date of appointment of receiver, capital stock, and circulation issued, redeemed, and outstanding.

## INSOLVENT NATIONAL BANKS.

Name and location of bank.	Date of authority to commence business.	Date of closing.	Capital stock.	Circulation.		
				Issued.	Re-deemed.	Out-standing.
First National Bank, Victor, Colo. (5586).....	Sept. 25, 1900	Nov. 4, 1903	\$50,000	\$48,750	\$15,850	\$32,900

<sup>a</sup> Restored to solvency and resumed business.<sup>b</sup> Formerly in voluntary liquidation.

Within the past twelve months the affairs of 15 national banks, theretofore placed in the charge of receivers, were fully settled by the payment of final dividends to creditors, leaving 73 pending trusts.

Of the total number of insolvent national banks placed in charge of receivers, the affairs of 345 have been fully settled and the receiverships terminated. The capital of these banks, at date of failure, was \$53,655,920, and total assets, nominal value, taken charge of by the receivers, \$194,234,790. The collection from assets and the amount settled by offsets, etc., were \$90,341,899 and \$14,853,083, respectively. The losses on assets compounded or sold under order of court aggregated

\$78,531,580. On the final settlement of the affairs of these trusts assets of the nominal value of \$10,562,359 were returned to stockholders, including \$1,802,397 in cash. Assessments were levied on stockholders to make good deficiency in the assets of these trusts to the amount of \$31,967,520, from which was realized \$15,052,961. Dividends were paid to the amount of \$74,364,841, or 70.78 per cent on claims proved, amounting to \$105,067,058. In order to ascertain the full amount realized by creditors, it is necessary to add the dividends paid to the amount of offsets allowed and loans paid. The records therefore show that creditors realized on their claims a total of 78.11 per cent.

The cost of liquidation of an insolvent national bank—that is, the receiver's salary, legal and other expenses—based upon the total amount collected from assets and from assessment on shareholders, is shown to have been, on an average, 8.43 per cent.

In addition to detailed information relating to the affairs of each insolvent national bank, there appears in the appendix a statistical summarization, by States and geographical divisions, of data relating to trusts, the affairs of which have been finally closed. The table in question shows that creditors of the 19 national banks which failed in the New England States received 93.26 per cent on their claims. The 63 insolvent banks which failed in the Eastern States paid 75.93 per cent; the 63 in the Southern States, 68.15 per cent; 76 banks in the Middle States, 84.10 per cent; 89 in the Western States, 69.17 per cent, and 35 in the Pacific States and Territories, 70.05 per cent.

Classifying the trusts according to capital stock, it appears that banks with capital of \$100,000 or less paid dividends on claims proved at the average rate of 64 per cent, and that the assessment on stockholders produced 38 per cent. The banks with capital of \$100,000 and less than \$200,000 paid 67 per cent in dividends and stockholders paid in on assessments 41 per cent. Banks with capital of \$200,000 and over paid dividends to creditors at the average rate of 72 per cent, while the assessment on stockholders realized 51 per cent, which would appear to indicate that the larger the capital the greater the percentage realized from assets and also from assessment on stockholders. The amount of capital, claims proved, dividends paid, assessments on shareholders and collections therefrom, of banks in each class mentioned are shown in the following table:

Classification.	No.	Aggregate capital.	Claims proved.	Dividends paid.		Assessment upon shareholders.		Collected on assessment.		
				Amount.	Per cent of claims.	Amount.	Per cent of capital.	Amount.	Per cent of assessment.	Per cent of total capital.
Capital less than \$100,000.....	146	\$7,739,000	\$11,404,600	\$7,325,479	64	\$4,425,750	57	\$1,669,729	38	21.6
Capital \$100,000, and less than \$200,000.....	106	11,655,620	18,230,171	12,294,905	67	6,599,720	57	2,697,694	41	23.1
Capital \$200,000 and over.....	93	34,261,300	75,432,287	54,744,457	72	20,942,050	61	10,685,538	51	31.2
Total.....	345	53,655,920	105,067,058	74,364,841	70	31,967,520	59	15,052,961	47	28.1

In addition to statistics relating to trusts which have been finally closed, compiled by States and geographical divisions, a summary has been made, by years of failure, showing the aggregate amount of dividends paid to creditors, etc., of such banks as failed each year from 1865 to 1904.

The results obtained would indicate that creditors during the past half decade realized a higher rate of dividends on their claims than in any like period since the first failure in 1865, but this can not be stated as a fact until the affairs of all banks which failed during this period have been settled.

#### CAPITAL, BONDS, AND CIRCULATION.

At the close of the year ended October 31, 1903, on authorized national-bank capital of \$766,367,095, there was on deposit with the Treasurer of the United States in trust, as security for circulation, United States bonds to the amount of \$382,726,830, a fraction less than 50 per cent of the amount which might have been deposited, and on the security of which there were outstanding circulating notes to the amount of \$380,650,821. In other words, national-bank circulation was less than half the amount which might have been issued on bonds deposited to the maximum—that is, the banks' paid-in capital stock. The total national-bank circulation outstanding in October, 1903, was \$419,610,683, of which \$38,959,862 was covered by lawful money deposited with the Treasurer of the United States by banks reducing their circulation, associations in voluntary liquidation, and on account of insolvent national banks. At the close of the current report year, with an increase of capital stock to \$781,126,335, there was an increase in bonds deposited as security for circulation to \$426,544,790; in bond-secured circulation to \$424,530,581, and total circulation to \$457,281,500. The increase in bond-secured circulation during the year is shown to be \$43,879,760. This material increase was mainly due to the comparatively low market price of 2 per cent consols prevailing during the year. The highest market price was on October 31, 1903, namely, 107.2685. A steady decline is shown to 105.1332 in February; in March the average price was 105.6296, and in April 105.8775; dropped in May to 105.1458; advanced to 105.4303 in June, and declined in July and August to 104.9713 and 104.9491, respectively. The market price in September was 105.3 and in October, 105.

The number of banks in operation, authorized capital stock, bonds on deposit as security for circulation, average monthly market price of 2 per cent consols, circulation secured by bonds and by lawful money, and the aggregate circulation outstanding monthly from October 31, 1903, to October 31, 1904, are shown in the following table:

Date.	Number of banks.	Capital.	Bonds on deposit.	Average monthly market price of 2 per cent consols of 1930.	Circulation secured by—		Total circulation outstanding.
					Bonds.	Lawful money.	
1903.

As a result of the provision of the act of March 14, 1900, reducing the semiannual duty on circulation secured by 2 per cent consols of 1930, of the \$301,123,580 United States bonds on deposit as security for circulation on October 31, 1900, \$270,006,600 had been converted into twos, and on October 31, 1904, of the aggregate deposit (\$426,544,790), nearly 98 per cent, or \$416,972,750, were of that class.

The changes in the class and amount of bonds on deposit with the Treasurer of the United States to secure national-bank circulation on March 13, 1900, the day prior to the passage of the act authorizing the incorporation of banks with minimum capital of \$25,000 and reducing the semiannual duty on circulation secured by consols of 1930 to one-fourth of 1 per cent, and on October 31, 1900, 1902, 1903, and 1904, are set forth in the following table:

Class.	Mar. 13, 1900.	Oct. 31, 1900.	Oct. 31, 1902.	Oct. 31, 1903.	Oct. 31, 1904.
Loan of 1908-1918, 3 per cent....	\$36,164,820	\$7,756,580	\$6,056,720	\$1,797,580	\$1,922,940
Funded loan of 1907, 4 per cent.	130,302,250	13,544,100	8,248,450	2,797,200	5,857,500
Loan of 1925, 4 per cent.....	14,697,850	7,508,350	2,208,600	1,410,100	1,791,600
Loan of 1904, 5 per cent.....	21,996,350	1,298,000	1,100,900	718,650	.....

Consols of 1930, 2 per cent.....	.....	270,006,600	320,738,000	376,003,300	416,972,750
Total.....	243,651,420	301,123,580	338,352,670	382,726,830	426,544,790

Under Department regulations only three classes of plates are engraved, namely, for four \$5 notes; three \$10 and one \$20; one \$50 and one \$100. As a result of the limitation of \$5 notes to one-third of a bank's issues, incorporated in the act of March 14, 1900, the percentage of notes of that denomination outstanding has been reduced from 31.2 in 1900 to 13.6 in 1904. This limitation works considerable hardship on banks with the minimum capital, for the reason that they are prevented from ordering the most desirable denomination of notes for their localities, as but one-third of their issues can consist of the minimum denomination. In consequence, with the order for \$5s they must necessarily order a plate for either \$10s and \$20s or the \$50s and \$100s. By reference to the official records, it appears that at no time during the existence of the system has the percentage of notes

of the denomination of \$5 exceeded the limitation fixed by the act of March 14, 1900. Over 74 per cent of the total issues are now of the denominations of \$10s and \$20s, the amount of the former being \$193,777,650, and the latter \$145,751,440. The \$5 notes amount to \$62,108,195; \$50 notes, \$17,712,900; and \$100s, \$37,190,300. There are still outstanding about \$500,000 of notes of the denomination of \$1 and \$2, and \$117,500 of the denomination of \$500 and \$1,000.

The amount of each denomination of circulation outstanding at the close of the year, the amount previously issued, together with total redemptions, are shown in the following table:

Denomination.	Issued during the year.	Issued previous years.	Total issued to Oct. 31, 1904.	Total redeemed to Oct. 31, 1904.	Circulation outstanding Oct. 31, 1904.

NOTE.—Circulation outstanding and issued by national gold banks, amounting to \$75,935, not included in this table.

By reference to statistics compiled in the office of the Secretary of the Treasury, relating to the stock of money in the United States, at the close of the fiscal year ended June 30, 1864, to 1904, and also to office statistics with respect to the amount of national-bank notes outstanding on the same dates, it appears that the proportion of bank notes to the whole stock of money decreased from a maximum of 43.27 per cent in 1874 to a minimum of 9.86 per cent in 1892. From the latter date to 1900, when the percentage was 13.233, the fluctuation from year to year was only about 1 per cent. In 1901 the proportion of national-bank notes was 14.25, but dropped in 1902 to 13.91, rose to 15.91 in 1903, and stood at 16.2 in 1904, the highest proportion since 1887.

There appears in the appendix to this report a statement based upon every report of condition made to the Comptroller of the Currency by national banks from October 5, 1863, to September 6, 1904, showing the paid-in capital stock, outstanding circulation, aggregate resources, money in the United States on June 1 of each year, and the percentage of circulation to capital, assets, and money in the United States. On September 9, 1903, the percentage of circulation to capital stock was 49.8; to the banks' assets, 5.9, and on June 30 of that year, 13.4, to the money in the United States. On September 6, 1904, the percentage of circulation to capital had increased to 53.4, the percentage of assets standing unchanged at 5.9, and the percentage of stock of money of the country, based on the June returns, 14.2.

Circulating notes to the amount of \$274,777,278 were delivered to the National Bank Redemption Agency for redemption during the year, of which \$99,047,325 being in good condition were returned to the

banks of issue, \$143,799,170 were redeemed and destroyed, new notes being issued therefor, and \$31,930,783 notes of reducing, insolvent, and liquidating banks were redeemed and destroyed, necessarily without reissue.

In connection with the distribution of circulation the following table, based on the reports of condition made to this office from November 17, 1903, to September 6, 1904, is interesting as indicating the amount and changes of notes outstanding, of banks located in the city of New York, in all central reserve cities (New York, Chicago, and St. Louis), other reserve cities, all central and other reserve cities, banks located elsewhere than in reserve cities, and the total reported outstanding:

Date.	New York.	New York, Chicago, and St. Louis.	Other reserve cities.	All reserve cities.	Country.	Total.
1903.	<i>Millions.</i>	<i>Millions.</i>	<i>Millions.</i>	<i>Millions.</i>	<i>Millions.</i>	<i>Millions.</i>

#### PROFIT ON NATIONAL-BANK CIRCULATION.

In calculating the profit on the issue of circulating notes by national banking associations the question considered is: What would be the net receipts in excess of interest obtained from an investment of the amount of the cost price of bonds in loans or otherwise? The average net monthly price of United States 2 per cent consols of 1930, during the year ended October 31, 1904, fluctuated from a maximum of 106.583 in November, 1903, to a minimum of 104.7 in August, 1904. Bonds to the amount of \$100,000 cost, therefore, \$106,583, at the highest price prevailing. This amount loaned at 6 per cent would produce \$6,394.98. Assuming that the circulation is loaned at 6 per cent, a bank's receipts would then be \$6,000 interest on circulation, and \$2,000 on the bonds deposited with the Treasurer of the United States. From the gross receipts of \$8,000 there must be deducted taxes on circulation \$500, expenses incident to the preparation of plates for the printing of notes, the redemption of circulation, etc., of \$62.50, and a sinking fund of \$103.99, set aside to meet the premium on the bonds, leaving net receipts of \$7,333.51, or an excess of \$938.53, over the interest on the cost price of bonds, or a net profit of 0.881 per cent. With bonds at the minimum price during the year, 104.7, the profit on circulation rises to 1.028 per cent. This unquestionably exceeds the actual rate of profit, as in the calculation it is assumed that the entire circulation is loaned at 6 per cent, whereas, on an average of 1 to 2 per cent of a bank's circulation, as shown by periodical reports made to the Comptroller of the Currency, appears as "on hand."

The computation made by the Government actuary of the profit on national-bank circulation, based on the average net price monthly of bonds during the year ended October 31, 1904, will be found in Table 51 of the appendix to this report.

## BANKS WITHOUT CIRCULATION.

Notwithstanding the liberalizing of the circulating franchise of national banking associations, there are a number of banks in the system which do not and never have availed themselves of the privilege of taking out and issuing circulating notes. At the close of the year ended October 31 there were 10 banks in this class, with aggregate capital of \$3,185,000. These banks have on deposit with the Treasurer of the United States bonds to the amount of \$246,500, on which they would be entitled to circulation to that amount.

## LIFE OF UNITED STATES AND NATIONAL-BANK NOTES.

In his current annual report the Treasurer of the United States presents statistics relative to the estimated life, by denominations, of United States notes, coin certificates, and national-bank notes, basing the calculation on the number of United States notes and coin certificates issued up to June 30, 1904, and bank circulation to October 31, 1903.

The results are summarized in the following table:

Denomination.	United States notes.	Treasury notes.	Gold certificates.	Silver certificates.	National bank notes.

## STOCK OF MONEY OF THE WORLD.

Statistics relating to the aggregate stock of money in the principal countries of the world at the close of the calendar year 1903 have been received and compiled by the Bureau of the Mint, from which it appears that the aggregate is \$12,313,100,000, the amount of gold being \$5,628,200,000, of which \$2,892,600,000 is held in banks and public treasuries, \$2,526,000,000 being in general circulation. The stock of silver aggregates \$3,201,400,000, of which \$2,268,700,000 is "full tender" and the remaining \$932,700,000 limited tender. Uncovered paper currency is stated as amounting to \$3,483,500,000. Of the total stock of money in the world \$2,500,200,000, or approximately one-fifth, is held in this country. The stock of gold of the United States, \$1,320,400,000, is greater than that of any other country and is nearly one-fourth of the world's stock. The amount of silver is \$679,200,000. The per capita circulation of the United States is \$30.70 and is greater than that of any of the principal countries of the world except France, wherein it is \$40.09. The circulation per capita of the various kinds of money in the United States is as follows: gold, \$16.26; silver, \$8.36, and paper,

\$6.17. Tabular statistics relating to the stock of money, standard and unit of value, of the principal countries of the world appear in the appendix to this report.

From a statement issued from the office of the Secretary of the Treasury under date of June 30 last, the coin and other money of the United States was shown to amount to \$2,803,500,000, of which \$284,300,000 consisted of coin, etc., in the Treasury as assets, \$982,900,000 in the banks of the country, and \$1,536,300,000 not in the Treasury or banks and assumed to be in general circulation. Deducting from the stock the amount in the Treasury, the total in circulation, that is, the amount held by banks and others, amounts to \$2,519,200,000. In other words, the per capita in circulation is \$30.77, and the per capita in circulation not in the Treasury or in banks is \$18.77. Coin and other currency in Treasury's assets constituted 10.14 per cent of the total stock; money in reporting banks, 35.06 per cent, and money not in the Treasury or in banks, 54.80 per cent.

In the following table is shown the amount of coin and other currency in the United States at the close of the fiscal year ended June 30, 1892, to 1904, inclusive; coin, etc., in Treasury as assets, amount in circulation, the latter divided to show the amount in banks and elsewhere, with the percentage for each year in the Treasury, in banks, and in circulation; the per capita in circulation, exclusive of the amount held in the Treasury, and the amount in circulation, exclusive of the amount in Treasury and in the banks:

Year.	Coin and other money in the United States.	Coin, etc., in Treasury as assets.		Money in reporting banks.		Money not in Treasury or banks.			In circulation, exclusive of coin, etc., in Treasury as assets.

1903.....	2,684.7	317.0	11.80	848.0	31.59	1,519.7	56.61	18.88	2,367.7	29.42
1904 <sup>c</sup> .....	2,803.5	284.3	10.14	892.9	35.06	1,536.3	54.80	18.77	2,519.2	30.77

<sup>a</sup> \$12,567,265, <sup>b</sup> \$10,125,909, <sup>c</sup> \$9,240,801, and <sup>d</sup> \$7,620,304 in banks of island possessions not included in these returns.

<sup>e</sup> Population, estimated, 81,867,000.

Including coin and other currency held by reporting banks in the island possessions in June, 1904, a total is shown of \$990,575,820, an increase over the amount in banks on the corresponding date in 1903 of \$133,316,167, and of this increase \$107,551,682 is in the holdings of national banks and \$25,764,485 in State and private banks.

In the following statement is shown the amount and percentage of money in the banks of the country, by geographical divisions, for the years indicated:

## GEOGRAPHICAL DISTRIBUTION OF MONEY IN BANKS.

Division.	1896.		1902.		1903.		1904.	
	Amount.	Per cent.	Amount.	Per cent.	Amount.	Per cent.	Amount.	Per cent.
	<i>Millions.</i>		<i>Millions.</i>		<i>Millions.</i>		<i>Millions.</i>	
New England States.....	\$51.3	9.65	\$66.6	7.95	\$62.2	7.34	\$59.2	6.02
Eastern States.....	262.2	49.30	390.6	46.61	390.2	46.01	497.3	50.60
Southern States.....	36.9	6.94	57.4	6.85	59.8	7.05	68.9	7.01
Middle States.....	134.1	25.21	240.1	28.66	243.0	28.66	261.9	26.65
Western States.....	21.0	3.95	34.5	4.12	39.6	4.68	42.4	4.31
Pacific States.....	26.3	4.95	48.7	5.81	53.2	6.26	53.2	5.41
Total.....	531.8	100.00	837.9	100.00	848.0	100.00	982.9	100.00

As will be seen in the following table over one-half of the currency in banks of the country is held by those located in the Eastern States and aggregates \$497,320,102, an increase over the amount held on the corresponding date in 1903 of \$107,090,962, and which is over 80 per cent of the increase in the holdings of cash of all banks of the country. The banks in the Middle Western States increased their currency holdings during the year to the extent of \$18,889,187; banks in the Southern States to the extent of \$9,110,967, and in the Western States, \$2,852,643. There is shown to be an apparent decrease in the cash holdings of the banks of the New England States of \$3,020,180, but this is mainly accounted for from the fact that in the 1903 returns, in one State, the amounts due from banks were included in cash in banks. There was no material change in the amount of cash held by banks located in the Pacific States and Territories. A net reduction of \$1,620,501 is shown in the amount of currency held by banks located in the island possessions. Of the increase in cash holdings of the banks, amounting, as heretofore stated, to \$133,316,167, approximately \$115,500,000 is in the holdings of banks located in four of the States, as follows: New York, \$97,496,127; Illinois, \$6,338,127; Ohio, \$4,843,518; Missouri, \$6,791,472.

The table referred to is as follows:

## CASH IN NATIONAL AND OTHER BANKS ON OR ABOUT JUNE 30, 1903 AND 1904, AS REPORTED TO THE COMPTROLLER OF THE CURRENCY.

#### FOREIGN BANKS OF ISSUE, ETC.

Information relating to the principal items of resources and liabilities of foreign banks is set forth in the following table. So much of the table as relates to the principal European banks of issue, excepting the item of capital stock and deposits and advances of the banks of Scotland and Ireland, was taken from the July number of the Bulletin de Statistique. To these data have been added returns from other foreign banks, and the statistics are presumed to be comprehensive and accurate in respect to the items indicated.

a Statement of European banks from Bulletin de Statistique, July, 1904, except deposits and advances of banks of Scotland and Ireland, and the capital stock of the various banks.

b Cash money at call and short notice.

c Includes specie, bullion, and cash balances.

d Includes specie and paper currency.

## FOREIGN SAVINGS BANKS.

Conformably with request Mr. M. L. Jacobson, of the Bureau of Statistics, has compiled for this report, from various official sources, statistics relative to the amount of deposits, number of depositors, average deposit, etc., of postal and other savings banks of the world, which will be found hereinafter.

The following analysis of the statistics formed a bulletin issued by the Bureau of Statistics, Department of Commerce and Labor, under date of November 17:

The total deposits in all the savings banks of the world, according to latest official information received by the Department of Commerce and Labor through its Bureau of Statistics, amounted to over 10½ billion dollars, contributed by 82,640,000 depositors. Of this total the United States shows aggregate deposits of \$3,060,179,000, credited to 7,305,000 depositors. As the figures used in arriving at the grand totals cover about one-half of the population of the world, viz, over 770 million, it appears that the United States, with less than 9½ per cent of the total population considered, contributes over 29 per cent of the total savings deposits recorded. Of the total number of depositors, or rather deposit accounts, the share of the United States is somewhat less than 9 per cent, while the average deposit per account is more than four times and the average savings per inhabitant more than three and one-half times the corresponding averages for the rest of the world.

It is interesting to note that in Europe and even in Canada the functions of the government in this field are larger than in this country, where the State restricts itself merely to formulating the general legislation pertaining to the subject, sanctioning special charters for the creation of savings banks and controlling through special

officers the proper workings of such banks. The European governments in many cases have shown greater interest in this mode of popular saving, either by guaranteeing the safety of deposits or by instituting government institutions, chiefly postal savings banks, for the receiving and managing of savings deposits. In some countries, such as Russia, Bulgaria, and Roumania, the lack of private initiative and the preponderating influence of the State in the entire economic life of the nation have caused the development of public savings banks to an almost exclusive extent. In other countries, such as Germany, Switzerland, and France, the local public bodies, such as the communes or cantons, from the very outset invited and fostered the deposits of small savings by establishing municipal savings institutions. Wherever the central government is in immediate, though not exclusive, charge of the savings service, as in the United Kingdom, Belgium, and Russia, parts of the deposits are invested in government securities, so that the public savings institutions there serve the double purpose of providing a safe investment for the capital of the less well-to-do and commercially inexperienced class of the population, as well as of strengthening the public credit of the country by attracting investments on the part of such classes, which, left to their own initiative, might not choose this or, for that matter, any other mode of investment.

The common feature of all savings banks, no matter how organized, is that they are not working for profit, the underlying idea being rather to make the deposits as secure as possible. This results naturally in an interest rate on deposits considerably below the normal commercial rate prevailing in the respective countries. The figures as shown in the table reveal different degrees of what might be termed the "savings capacity" of the different nations, though it should always be borne in mind that the amounts deposited with savings banks by no means represent the only savings of a nation. Another factor which makes comparisons difficult is the fact that apart from differences in legislation, leaving to these institutions a greater or smaller latitude of freedom of investment, the regulations regarding the maximum amounts which may be credited to one individual vary according to country, and that therefore the average size of the savings deposit casts but little light on the general prosperity of the people and the more or less equitable distribution of wealth among them.

The general social conditions of a country, the spread of general education and "banking" habits among the masses, existing facilities of communication, the ease and lack of formalities with which savings are made, and last, but not least, the use made by the population of other modes of saving—all these factors have to be considered when international comparison of savings statistics are attempted. To give but a few examples: The total savings deposits of France, as stated in the table, appear less than those of Austria, while the aggregate savings deposits of Prussia are shown to exceed those of France by almost 80 per cent. Any conclusions with regard to the relative prosperity of these countries based on these figures would be erroneous, as in France the savings banks deposits constitute but a part, and by no means the larger part, of the total savings of the nation. As a matter of fact, the investments of the French people in Russian public bonds during the most recent period only, not to mention the holdings of the enormous national debt at home, according to the most conservative estimates exceed by far the amounts deposited in national savings institutions. In the case of Austria the figures given are somewhat misleading, since the postal savings banks there are engaged in the general banking business, the amounts reported as ordinary deposits exceeding those reported under the head of savings deposits.

With all these restrictions and interpretation clauses, the figures given are interesting as showing the wonderful results obtained in this field through ingenious organization on the one hand and the spread of thrift and saving habits among the large masses.

The tables hereinbefore referred to are as follows:

NUMBER OF DEPOSITORS, AMOUNT OF DEPOSITS, AVERAGE DEPOSIT ACCOUNT, AVERAGE DEPOSIT PER INHABITANT AT THE DATES MENTIONED IN POSTAL AND OTHER SAVINGS BANKS OF THE WORLD.

<sup>a</sup> Figures for New South Wales relate to Dec. 31; figures for the other States to June 30.

<sup>b</sup> Figures for postal savings banks relate to the end of the calendar year 1902; figures for the other savings banks to the end of 1901.

<sup>c</sup> Deposits with the State-controlled Caisse Générale d'Epargne. Includes savings deposits with post-offices. Moreover, accounts are published in the *Annuaire Statistique* of 4 municipal and 5 private savings banks for the year 1902. At the end of that year these 9 institutions had 45,165 depositors, credited with 46,262,519 francs' worth of deposits.

<sup>d</sup> Exclusive of data for the "special savings banks," the total deposits in which on June 30, 1903, amounted to \$21,241,993. The total deposits with all savings banks amount thus to \$82,013,121, making the average deposit per inhabitant \$14.83. This total does not include the savings deposits in the chartered banks.

<sup>e</sup> Includes all savings institutions. Figures for savings banks proper, exclusive of branches of ordinary banks, were 897,405 (number of depositors) and 532,273,124 kroner (total deposits plus interests due on said deposits at the end of the year).

<sup>f</sup> Not included in the grand total.

<sup>g</sup> Figures for private savings banks for the year 1901; figures for Government postal savings banks for the year 1902.

<sup>h</sup> Data for postal savings banks only.

<sup>i</sup> Exclusive of 132,009,802 lire savings deposits with the so-called "Società ordinarie di credito," and 313,407,272 lire with the "Società cooperative di credito." No data are given with regard to number of depositors in these institutions.

<sup>j</sup> Figures for private savings banks for the calendar year 1902; figures for Government postal savings banks for fiscal year ended Mar. 31, 1903.

<sup>k</sup> Figures for the "Casa de economie" only.

<sup>l</sup> Preliminary data for all Government savings banks as published by the *Viestnik Finansov*, No. 39, 1904.

<sup>m</sup> Year ended Nov. 20 for trustees savings banks.

<sup>n</sup> Estimates of M. Guillaume Fatio in the *Journal de Statistique Suisse*, 1900, No. 4.

a Post-office savings banks.

b Government savings banks.

NOTE.—Totals do not include Australia and New Zealand.

## BANKING POWER OF THE WORLD.

The banking power of the United States, made up of the capital, surplus profits, deposits, and circulation of banks of the United States and island possessions, aggregates \$13,826,000,000. These figures include funds of national banks, amounting to \$5,171,000,000; reporting State banks and bankers, \$8,092,000,000, and nonreporting banks, estimated, \$563,000,000.

From the latest and most reliable data the banking power of foreign countries has been estimated at \$19,781,000,000, thus making the aggregate banking power of the world approximately \$33,608,000,000.

The world's banking power in 1890, as estimated by Mulhall, was \$15,985,000,000, the United States being credited by him with something less than one-third of that amount. The present estimate, compared with Mulhall's, shows that the banking power of the United States has increased since that date by \$8,676,000,000, or 168.47 per cent, and that of foreign countries by \$8,946,000,000, or 82.57 per cent, the combined banking power of the world having increased since 1890 from \$15,985,000,000 to \$33,608,000,000, a total ratio of increase of 110.25 per cent.

The subjoined tables give in detail the banking power of the United States, foreign countries, and the world.

## STATE, SAVINGS, PRIVATE BANKS, LOAN AND TRUST COMPANIES.

Incorporated in the national-bank act is the provision that the Comptroller of the Currency shall include in his annual report to Congress information relative to the condition of banks and banking institutions chartered and operated under State authority. In obtaining such information the usual course has been followed in calling upon officers of States having supervision of institutions of that character for abstracts or copies of reports filed therewith. In States having no laws providing for the submission and compilation of the reports, requests were addressed to each incorporated and private bank for a statement of condition, of date June 30, 1904.

Official returns concerning the condition of incorporated commercial banks have been received from all the States and Territories of the Union with the exception of Alabama, Arkansas, Indian Territory, Oregon, Idaho, Nevada, Alaska, and Hawaii, from which unofficial returns have been compiled from reports furnished by the individual banks.

From official sources and from banks direct returns have been received showing the condition of 9,519 banks, other than national, with aggregate resources of \$8,542,839,386.

Reports were received from 6,923 commercial banks, 585 loan and trust companies, 1,157 savings banks, of which 668 were of the mutual class without capital stock, and from 854 private banks and bankers.

The capital stock of the State banks is \$347,421,197, and individual deposits \$2,073,218,049. The number of reporting banks of this character is 961 greater than in 1903, and there is an increase in assets of approximately \$372,000,000.

In 1903 reports were received from 531 loan and trust companies, having aggregate resources of \$2,298,554,063. For the current year reports have been received from 585 corporations of this character, having assets of \$2,380,287,747.

Returns were obtained from 854 private banks, against 1,174 in 1903. The assets of banks of this character, as reported in 1903, were \$169,049,821, against \$123,549,859 for the present year. The decrease in the number of private banks and bankers reporting and corresponding drop in their volume of assets is attributable to the fact that during the past year a large number of private banks were converted into State banks, over 100 of such private institutions in the State of Wisconsin alone having been incorporated during the year to meet the provision of a recent law of that State.

There will be found in the appendix, Table XI, information obtained with respect to the capital, amount and average rate per cent of dividends paid by State banks and loan and trust companies submitting data of that character for the year ended June 30, 1904. Reports covering the subject were received from 2,656 State banks with capital of \$149,834,408, showing the payment of dividends to the amount of \$12,730,514, or an average of 8.5 per cent; from 538 loan and trust companies with capital of \$209,617,666, showing the payment of dividends amounting to \$18,739,874, or an average of 8.94 per cent, and from 270 private banks the dividends paid amounted to \$993,652 on capital stock of \$6,738,243, or an average of 14.75 per cent.

#### CONSOLIDATED RETURNS FROM STATE, SAVINGS BANKS, PRIVATE BANKS, AND LOAN AND TRUST COMPANIES.

For the purpose of comparison there is given herewith a table showing the principal items of resources and liabilities of banks other than national, in the years 1899 to 1904, inclusive.

#### CONSOLIDATED RETURNS FROM STATE, SAVINGS, PRIVATE BANKS AND TRUST COMPANIES, 1899 TO 1904, INCLUSIVE.

Items.	1899.	1900.	1901.	1902.	1903.	1904.
Loans.....	\$2,659,940,630	\$3,013,449,827	\$3,444,377,672	\$3,942,592,907	\$4,296,675,586	\$4,360,209,382
Bonds.....	1,527,595,160	1,723,830,351	1,935,625,964	2,094,496,729	2,334,329,907	2,522,890,615
Cash.....	210,884,047	229,667,109	240,145,951	250,815,787	275,813,526	301,573,011
Capital.....	368,746,648	403,192,214	430,401,557	439,621,208	578,418,944	625,116,824
Surplus and undivided profits...	418,798,087	490,654,957	538,866,278	614,509,805	731,314,014	779,241,781
Deposits.....	4,246,500,852	4,780,893,692	5,518,804,859	6,005,847,214	6,352,700,055	6,688,107,157
Resources.....	5,196,177,381	5,841,658,820	6,681,567,334	7,355,110,843	8,016,181,848	8,542,839,386

The foregoing indicates an increase in aggregate resources in 1904 over 1903, of approximately \$526,000,000, and while there was a net gain in loans and discounts of only \$63,000,000, individual deposits increased during the year in the sum of \$335,500,000, and the cash holdings \$26,000,000.

From tables published in the appendix, it will be observed that the decrease in the amount of loans of private banks and trust companies, \$30,300,000 and \$155,600,000, respectively, aggregating about \$186,000,000 is offset by the gain in assets of this character by State banks. The savings banks' loans show an increase over 1903 of approximately \$63,000,000. The conversion during the past year of a large number of private banks into incorporated or State banks accounts for the apparent reduction in resources of concerns of the former class. The great-

est shrinkage in loans and discounts is chiefly confined to loan and trust companies in operation in New York—from \$735,000,000 in 1903 to \$637,000,000 in 1904. These institutions, however, largely increased their investments in stocks, bonds, etc.; their deposits with banks, and also their currency holdings. Accompanying the reported loss of \$37,500,000 in the amount of deposits in private banks is shown a gain in the State banks of \$258,700,000; savings banks, \$103,300,000, and loan and trust companies \$11,000,000, or a net gain of \$335,500,000.

In the following table are incorporated the principal items in resources and liabilities of national banks, all other banks and banking institutions, and consolidated returns from all reporting banks in 1893, 1903, and 1904:

Classification.	1893.			1903.			1904.		
	3,807 national banks.	5,685 State banks.	Total, 9,492 banks	4,939 national banks.	8,745 State banks.	Total, 13,684 banks.	5,331 national banks.	9,519 State banks.	Total, 14,850 banks.
	<i>Millions.</i>	<i>Millions.</i>	<i>Millions.</i>	<i>Millions.</i>	<i>Millions.</i>	<i>Millions.</i>	<i>Millions.</i>	<i>Millions.</i>	<i>Millions.</i>
Loans .....	\$1,843.6	\$2,348.1	\$4,191.7	\$3,442.3	\$4,296.6	\$7,738.9	\$3,621.8	\$4,360.2	\$7,982.0
U. S. bonds.....	224.0	149.9	373.9	527.1	18.6	545.7	554.4	23.2	577.6
All other bonds.....	148.5	859.6	1,008.1	588.6	2,815.6	2,854.2	576.8	2,499.6	3,076.4
Cash .....	310.3	205.6	515.9	581.4	275.8	857.2	688.9	301.5	990.4
Capital stock .....	678.5	406.0	1,084.5	743.5	578.4	1,321.9	767.3	625.1	1,392.4
Surplus and profits ..	356.2	346.2	696.4	542.1	731.3	1,273.4	581.6	779.2	1,360.8
Deposits .....	1,465.4	3,070.4	4,535.8	3,348.0	6,352.7	9,700.7	3,422.7	6,688.1	10,110.8
Aggregate resources...	3,109.5	3,979.0	7,088.5	6,286.9	8,016.1	14,303.0	6,655.9	8,542.8	15,198.7

Requests for reports of resources and liabilities of banks other than national addressed to State officials, called also for information as to the number and capital of banks of the various classes organized in each State during the year ended June 30, 1904, and the returns submitted are complete and official with respect to the States from which the information was received. A summary of the returns is published in the appendix and shows the organization of 1,050 banks with capital stock of \$35,888,265, of which 983, with capital of \$28,226,088, were incorporated commercial banks; 55, with capital of \$7,561,677, loan and trust companies; 2 mutual savings banks without capital and 10 private banks with capital of \$100,500.

#### STATE AND PRIVATE BANK FAILURES.

Through the courtesy of Mr. Frank Green, managing editor of Bradstreet's, this office has been placed in possession of information relating to the number, assets, and liabilities of incorporated and private banks which failed during the year ended June 30, 1904. The total number of failures during the year was 102, the assets of the banks being \$24,296,823 and the liabilities \$31,774,895. Included in the number of failures were 37 State banks, 7 savings banks, 8 trust companies, and 50 private banks.

Information with respect to the number of banks, other than national, which have failed annually from 1864 to 1904, together with their aggregate assets and liabilities, is incorporated in the table following:

NUMBER OF FAILURES, CAPITAL, ASSETS, LIABILITIES, AND DIVIDENDS PAID BY BANKS OTHER THAN NATIONAL WHICH FAILED IN EACH YEAR FROM 1864 TO 1904.

Year.	Number of failures.	Capital.	Nominal assets.	Liabilities.	Dividends paid.
1864.....	2				
1865.....	5	\$125,000.00	\$245,401.97	\$225,662.14	\$145,592.25

#### SAVINGS BANKS.

Savings banks, as originally conceived, were associations of philanthropic individuals formed for the purpose of receiving and profitably investing the savings of special or general classes of wage-earners. It is stated on authorities quoted by E. W. Keyes, in his History of Savings Banks in the United States, that the first savings bank was founded at Hamburg in 1778, although there are other claims to the effect that the first institution of the kind was established at Berne, Switzerland, in 1787. In Lewins' History of Banks for Savings in Great Britain and Ireland it is stated—

that from the best investigation he has been able to make, the institutions in question were something very different from savings banks as English people understand them, dealing as they did in business more like the sale of deferred annuities. The institution at Hamburg simply took the spare cash of domestic servants and handicraftsmen and granted annuities on the members arriving at a certain age. No withdrawal of money was allowed.

In 1798 there was established at Toppingham, High Cross (England), a "Friendly Society for the Benefit of Women and Children," and prior to 1801 there had been combined with the main design (granting annuities, weekly allowances in case of sickness, and burial expenses) two other objects, namely, a fund for loans and a bank for savings. In 1804 this bank for savings was organized and trustees appointed. Prior to 1817 savings banks in Great Britain were "merely voluntary associations in various localities of those who sought to assist the poor in their immediate neighborhood." The first act of Parliament relating to institutions of this character was passed in August, 1817.

Governmental recognition of savings banks in the United States antedated by nearly a year the act of the British Parliament, the Provident Institution for Savings, located at Boston, having been incorporated under the act of the State legislature approved December 13, 1816. Savings banks, however, had their first inception in this country in the State of Pennsylvania, through the voluntary association of a number of benevolent, philanthropic citizens, as the Philadelphia Savings Fund Society, which institution began business in December, 1816, although the act of incorporation was not approved until February 25, 1819.

In December, 1818, Maryland granted a charter to the first savings institution organized in that State. In the following year, savings bank charters were conferred by the States of New York, Pennsylvania, Rhode Island, and Connecticut, and also by Maine (the year prior to its admission to the Union). In the same year the proposition to incorporate a savings bank was considered by the New Hampshire legislature, but it was not until 1823 that a charter was granted. It is remarkable that while savings banks came into being in the other New England States so early in the century, and so nearly coincidentally, it was not until 1846 that institutions of that character were chartered by the State of Vermont. In 1839, the State of New Jersey granted the first charter to a savings institution. It is understood that only two savings banks have been incorporated in the State of Delaware, the first in 1832, and the second in 1861, both being still in existence.

Beyond the confines of the New England and Eastern States comparatively few savings institutions of the character of those operating in that section of the country have ever been incorporated. In fact only 3½ per cent are so located, as shown by the 1904 returns from institutions of that class. These institutions are without capital stock and operated by boards of trustees whose services generally are understood to be without compensation. The purpose, as originally conceived, still continues—that is, the reception and investment of deposits of the working population mainly of localities in which the banks exist. In investing the deposits the prime consideration is safety rather than profit. In the payment of interest on deposits, in some States the rate is fixed by statute but generally by the trustees, having in consideration the earning power of the assets. Usually either by statute or regulation a certain percentage of the earnings is carried to a reserve fund until that account amounts to a fixed proportion of the deposit liabilities.

By reference to statistics recently compiled it is noted that the investment of savings-bank funds is nearly equally divided between loans (largely on real-estate security) and in stocks and bonds. The creation of building and loan associations and the policy of commercial banks generally of paying interest on deposits have seemingly

tended to discourage the organization of mutual savings banks. By reference to statistics compiled in this office in the decennial periods terminating in June, 1874 to 1904, inclusive, it is noted that while there was a decrease in number of institutions of this character in the New England and Eastern States from 655 in 1874 to 607 in 1884, there was an increase to 659 in 1894, but a drop to 645 in 1904. It appears, however, that there was a gradual increase in the amount of deposits and the number of depositors. In 1874 the deposits amounted to \$733,000,000 and the number of depositors to 2,188,729; in 1884 the deposits had increased to \$998,000,000 and the number of depositors to 2,884,798. The deposits in 1894 were \$1,520,000,000 and the number of depositors 4,230,431. In June, 1904, the deposits had increased to over two and one-half billions and the number of depositors to 6,081,235.

Reports showing the condition, on approximately June 30, 1904, were received at this office from 1,157 savings banks, of which 668 are of the mutual class and 489 with capital stock. The aggregate assets of the former are \$2,817,996,115, and of the latter \$357,261,492, making a total of \$3,175,257,607. The loans of the mutuals amount approximately to \$1,184,000,000, of which \$971,000,000 are secured by real estate. Investments in bonds, stocks, etc., are as follows:

United States bonds, \$12,600,000; State, county, and municipal bonds, \$132,400,000; railroad bonds and stocks, \$291,900,000; bank stocks, \$28,500,000; bonds, stocks, and other securities not classified, \$936,600,000; cash on deposit with other banks, \$115,000,000, and cash on hand, \$18,000,000. On deposit liabilities of \$2,602,040,775 these banks held surplus funds and other undivided profits to the amount of \$180,198,898 and \$25,971,831, respectively, the total surplus profits amounting to nearly 8 per cent of the deposit liabilities. The returns show that the depositors in savings banks of this character number 6,286,375, which indicates an average deposit of \$413.92. The number of depositors in the savings banks in the New England States was 2,827,984, the average account, \$380.10; in the Eastern States the number of depositors was 3,253,251, the average deposits, \$445.20. But one mutual savings bank is reported to be in operation in the Southern States, and that one is located in West Virginia and has 5,208 depositors, with an average deposit of \$177.68. In the Middle Western States of Ohio, Indiana, Wisconsin, and Minnesota there are 199,932 savings-bank depositors, with an average credit of \$389.36.

The reporting stock savings banks are located in North Carolina, Iowa, California, and the District of Columbia. The resources of these banks amount to \$357,261,492, approximately 11 per cent of the total assets of all savings banks. The loans of these banks aggregate, approximately, \$226,500,000; investments in bonds, stocks, and other securities, \$87,700,000; deposits with other banks, \$25,600,000; cash on hand, \$6,400,000. The reported capital is \$22,500,000; surplus and undivided profits, \$13,700,000; deposits, \$316,700,000; number of depositors, 602,171, and the average deposit, \$525.99.

Comparing the stock-savings bank returns for the current year with those of 1903, an increase in aggregate resources is shown of approximately \$118,000,000; the increase in deposits was \$103,000,000, and number of depositors, 214,309. The average deposit has increased from \$421.84 to \$423.72, or \$1.88.

From an examination of the returns submitted with respect to the rate of interest paid on savings accounts, it will be noted that the maximum rate of interest is  $4\frac{3}{4}$  per cent and the minimum, rate 2.72 per cent. The estimated average rate is 3.506 per cent, a slight increase over the estimated average interest rate in 1903.

The following table shows the rate paid in each State by savings banks located therein:

State, etc.	Rate per cent.	State, etc.	Rate per cent.
Maine.....	3.26	Maryland <sup>a</sup> .....	3.98

Delaware.....	4.00	California <sup>a</sup> .....	3.32

<sup>a</sup> Unofficial.

In the following comparative statement relating to the number of depositors and amount of deposits, etc., in savings banks of the United States for the years 1902-3 and 1903-4 are included deposits in savings departments of commercial banks in operation in the State of Illinois, for the reason that the auditor of public accounts of Illinois in his periodical statements reports such deposits separately from deposits subject to check.

The result of the addition of the Illinois savings deposits is the raising of the aggregate savings deposits in the United States to \$3,060,178,611, the number of depositors to 7,305,443, the average deposit being \$418.89.

The table referred to is as follows:

NUMBER OF SAVINGS DEPOSITORS, AGGREGATE SAVINGS DEPOSITS, AND AVERAGE AMOUNT DUE TO DEPOSITORS IN SAVINGS BANKS IN EACH STATE IN 1902-3 AND 1903-4.

b Savings deposits in State institutions having savings departments; abstract of reports included with State banks.

c Estimated.

The following table presents a brief history of the growth of savings banks in the United States from 1820 to 1904, as evidenced by the amount of deposits, number of depositors, the average deposit account, and the average per capita deposit, based on the census years from 1820 to 1890, and annually thereafter:

## NUMBER OF SAVINGS BANKS IN THE UNITED STATES, NUMBER OF DEPOSITORS, AMOUNT OF SAVINGS DEPOSITS, AVERAGE AMOUNT DUE EACH DEPOSITOR IN THE YEARS 1820, 1825, 1830, 1835, 1840, AND 1845 TO 1904, AND AVERAGE PER CAPITA IN THE UNITED STATES IN THE YEARS GIVEN.

Year.	Number of banks.	Number of depositors.	Deposits.	Average due each depositor.	Average per capita in the United States.

a Population estimated at 81,568,000, June 1.

## GROWTH OF BANKING IN THE UNITED STATES.

In the following table is shown the growth of banking in the United States, as indicated by the number of banks, capital stock, and individual deposits, from 1882 to 1904. On the earlier date the number of reporting banks was 7,302, with capital of \$712,100,000, and deposits of \$2,785,407,000. The proportion of national-bank capital was 67.01 per cent, and deposits in national banks 38.3 per cent. On this date there was one bank for every 7,190 inhabitants, the capital and deposits per capita being \$13.60 and \$53.06, respectively. In 1892 the number of reporting banks had increased to 9,338, the capital to \$1,071,073,048, and the deposits to \$4,664,934,250. The percentage of national-bank capital had declined to 63.9 and deposits to 37.6. In 1892 there was one bank for every 7,016 inhabitants, the per capita of capital being \$16.40 and deposits \$71.40. In 1902 the number of reporting banks was 16,156, with capital of \$1,340,160,416; deposits, partially estimated, \$9,583,315,778. National-bank capital represented 52.4 per cent of the total and the deposits 32.3 per cent. The greater increase in the number of banks, as compared with population, is indicated by the fact that there was in existence one bank for every 4,897 of population, the average per capita of capital and deposits having increased to

\$16.90 and \$121.25, respectively. As will be observed from the table, the figures for 1903 include the capital and estimated deposits of some 4,546 banks, reports relative to whose condition were not received. The aggregate number of banks for this year is shown to have been 18,230, with capital of \$1,474,328,512 and deposits of \$10,056,215,995. National-bank capital declined to 50.43 per cent and the deposits to 31.8 per cent. On or about June 30, 1904, from reports received at this office from national and State banks, and adding thereto the number of nonreporting banks whose capital is stated by bank reporters, and amount of deposits estimated upon a basis of statements of reporting banks, the total is found to be 18,844, the capital \$1,473,904,674, and the deposits \$10,448,545,990. As will be observed, the percentage of national-bank capital has increased to 52.06, but the average per cent of deposits shows a reduction to 31.7. In this year there is shown to exist one bank for every 4,344 inhabitants. The per capita of capital stock and deposits has increased to \$18 and \$127.73, respectively.

The table referred to is as follows:

NOTE.—Figures for 1902, 1903, and 1904 include banks of island possessions.

For the purpose of showing the growth of banking in the country, based upon the amount of individual deposits shown by reports received at this office, a compilation of the returns for the years 1892, 1896, 1900, and 1904, has been made for each State and geographical division, showing in each the amount of deposits in State banks, savings banks, loan and trust companies, and national banks. The detailed statement is given in the appendix of this report.

By reference to the accompanying table, in which is stated the individual deposits of each class of banks in each geographical division in

the four years mentioned, namely, 1892, 1896, 1900, and 1904, it will be noted that the increase in deposits from \$4,664,934,250, in 1892, to \$4,945,124,423 in 1896, was but 6 per cent, or \$280,190,173. In 1900 the volume of deposits had increased to \$7,238,986,450, the amount and per cent of increase during this four-year period being \$2,293,862,027 (which includes about \$3,000,000 on deposit in banks in the island possessions), and 46 per cent, respectively. Including \$19,287,669 deposits in banks located in the island possessions, the total deposits in all reporting banks in 1904 amounted to \$10,000,546,999, an increase of \$2,761,560,549, or 38 per cent since 1900. The increase from 1892 to 1904 was the enormous sum of \$5,335,612,749, the rate of increase being 114.4 per cent.

The table referred to is as follows:

INDIVIDUAL DEPOSITS IN STATE, SAVINGS, PRIVATE BANKS, LOAN AND TRUST COMPANIES, AND NATIONAL BANKS, IN EACH GEOGRAPHICAL DIVISION, ON OR ABOUT JUNE 30, 1892, 1896, 1900, AND 1904.

Consolidating the returns relating to the deposits in each of the years mentioned, by geographical divisions of the country, there is shown to have been an increase in the deposits of banks located in the New England States from \$1,061,115,759 in 1892 to \$1,659,896,457 in 1904. The increase in the Eastern States during this period was from \$2,049,006,306 to \$4,523,152,171; Southern States, from \$234,040,538 to \$638,669,276; Middle Western States, \$924,138,927 to \$2,225,451,820; Western States, from \$155,762,232 to \$372,031,864, and the Pacific States from \$240,870,488 to \$562,057,742. The deposits in the banks in the island possessions (Hawaii only) are first stated for 1900, when they amounted to \$3,096,174. In 1904 the amount of deposits in the banks in the island possessions is shown to have been \$19,287,669.

In the following table is stated the aggregate amount of deposits in each geographical division on the indicated dates:

## INDIVIDUAL DEPOSITS IN STATE, SAVINGS, PRIVATE, AND NATIONAL BANKS, AND LOAN AND TRUST COMPANIES, IN EACH GEOGRAPHICAL DIVISION, ON OR ABOUT JUNE 30, 1892, 1896, 1900, AND 1904.

Geographical division.	Individual deposits.

## BUILDING AND LOAN ASSOCIATIONS.

Mr. H. F. Cellarius, secretary of the United States League of Local Building and Loan Associations, in his annual report furnished this Office, states that the business of the local building and loan associations of the United States has been very satisfactory during the past year; that while the net increase in the aggregate assets is not as large as it might be on account of an apparent decrease of nearly \$10,000,000 in Ohio, resulting in the organization of a number of building associations into trust companies, yet notwithstanding this a material advance has been made both in assets and membership. From the secretary's report it is further learned that there are in the United States 5,308 local building and loan associations with a total membership of 1,566,700 and assets amounting to \$579,556,112, a net increase in assets for the year of \$2,328,098, the net growth in membership for the year being 35,993.

The following table exhibits the number of associations and total assets of such associations by States for the years 1903-4, together with the amounts showing increase or decrease over the figures of the prior year:

State.	Number of associations.	Total membership.	Total assets.	Increase in assets.	Decrease in assets.	Increase in membership.
Pennsylvania .....	1,196	313,193	\$117,861,779	\$3,975,759		21,425
Ohio .....	731	301,460	101,221,442		\$9,729,815	5,386
New Jersey .....	353	112,539	51,460,688	2,980,311		5,915
Illinois .....	500	83,000	39,432,282		871,570	3,800
New York .....	300	90,429	33,342,475		543,267	1,809

<sup>a</sup> Decrease.

The receipts and disbursements of building and loan associations for 1903 show an increased volume of business transacted during the year amounting to over \$24,000,000. There was an increase in loans made on mortgage security over the previous year of over \$13,000,000. The receipts and disbursements in detail were as follows:

Receipts.		Disbursements.	
Cash on hand January 1, 1903 .....		Pass-book loans .....	\$11, 523, 668
Weekly dues .....	\$26, 306, 448	Mortgage loans .....	150, 688, 812
Paid-up stock .....	137, 652, 364	Stock withdrawals .....	131, 447, 312
Deposits .....	16, 619, 348	Paid-up stock withdrawals .....	21, 539, 864
Loans repaid .....	35, 669, 760	Deposit withdrawals .....	49, 077, 768
Interest .....	133, 819, 988	Expenses .....	5, 371, 696
Premium .....	29, 830, 960	Borrowed money .....	16, 884, 748
Fines .....	2, 606, 228	Interest .....	631, 652

Miscellaneous receipts .....	9, 676, 484		
	25, 303, 236		
Total .....	436, 365, 372	Total .....	436, 365, 372

#### SCHOOL SAVINGS BANKS.

The office has been placed in possession, by Mr. J. H. Thiry, of Long Island City, N. Y., of statistics relating to the operation of school savings banks in the United States, brought down to January 1, 1904. The system was inaugurated in the schools of Long Island City in 1885. The school savings-bank system is now in operation in 789 schools of 106 cities of 26 States, and 90,961 scholars in these schools have deposited \$1,367,930.25, of which \$868,276.02 have been withdrawn, leaving a balance of \$499,654.23 due to depositors on January 1, 1904.

The city of Los Angeles, Cal., has the largest number of schools in which this system of school banks has been inaugurated, there being 53 schools, with 6,698 depositors and deposit balances aggregating \$32,399.77; but the city of Pittsburg has the largest number of depositors in such school banks, 18,000 of the school children of that city having deposits to their credit to the amount of \$59,023.76.

#### BANKING IN THE ISLAND POSSESSIONS.

Through the courtesy of Hon. Frank A. Branagan, treasurer of the Philippine Archipelago, the Office has been placed in possession of official reports of the banking institutions of the Philippine Archipelago, and to Hon. Wm. F. Willoughby, treasurer of Porto Rico, the Comptroller is indebted for an abstract of the reports of condition of the banks other than national in Porto Rico; such information as has been obtained in respect to the condition of banks in the Hawaiian Islands being furnished by the banks direct.

#### THE PHILIPPINES.

A summary of the returns of the 10 banks in the Philippines as of date March 31, 1904, appears in the appendix, together with individual statements, as made to the treasurer of the archipelago at the latter

date. The principal items of resources and liabilities of these banks are: Loans and discounts, including overdrafts, \$13,695,569; bullion, specie and other currency, \$4,913,170; due from other banks and agencies, \$5,847,376; aggregate resources, \$27,312,500; capital stock, \$1,391,862; surplus and undivided profits, \$1,303,122; bank deposits, \$13,220,157; individual deposits, \$7,879,628; public deposits (insular), \$2,178,438.

Comparing these returns with those submitted to this office under date of June 30, 1903, aggregate resources show a decrease of \$640,009. Cash holdings have decreased in the sum of \$2,887,031, the loss being chiefly in the United States notes held, which have decreased from \$3,042,411 in 1903 to \$689,981 in 1904; loans and discounts have increased by \$506,430, while individual deposits show a loss of \$1,645,608 and public deposits (insular) a loss of \$3,001,679. The item of bank deposits, however, has increased from \$8,677,434 in 1903 to \$13,220,157 for the current year, being an increase of \$4,542,713.

The banks from which reports were received are the Manila agency and the Iloilo subagency of the Hongkong and Shanghai Banking Corporation; the Manila agency and Cebu subagency of the Chartered Bank of India, Australia, and China; the Banco Español-Filipino at Manila and its Iloilo subagency; the Monte de Piedad y Caja de Ahorros de Manila; the American Bank, at Manila; the Guaranty Trust Company, of New York, at Manila, and the International Banking Corporation of New York.

#### PORTO RICO.

Reports have been received from 10 banks in Porto Rico, with aggregate capital of \$1,729,064, operating under Territorial laws, and from one national banking association with capital of \$100,000.

The combined resources of the 11 banks are \$7,416,837, a gain of \$1,216,935 over the returns of 1903. The principal items of resources and liabilities of the former class of banks are, loans, \$2,393,704; bonds and stocks, \$1,302,951; cash on hand, \$1,214,085; capital stock, \$1,729,064; surplus and undivided profits, \$256,211; deposits, \$3,654,336, and total resources, \$6,985,153. The aggregate resources of the one national bank, as shown by the report of June 9, 1904, was \$431,684; loans, \$45,546; circulation, \$100,000; deposits, \$228,837.

#### HAWAII.

The two national banks in operation in the Territory of Hawaii, as shown by reports to this Office dated June 9, 1904, have a combined capital of \$525,000, circulation of \$245,200, surplus and undivided profits \$81,224. Individual deposits are \$684,796, and United States deposits and disbursing officers accounts \$226,744. The loans and discounts amount to \$1,200,052, and the aggregate resources to \$2,025,911.

Reports have been received from three incorporated banks and two private institutions with aggregate capital of \$2,150,000; surplus and profits, \$317,966; deposits, \$4,568,932; loans and discounts, including overdrafts, \$5,550,330; total resources, \$8,055,495. From these returns, the banking power of the Territory, that is, capital, surplus profits, circulation, and deposits of the reporting banking institutions,

will approximate \$9,000,000, indicating a substantial gain over the figures obtained for 1903, as well as over those published for the year 1902.

#### BANKING IN CENTRAL AND SOUTH AMERICA.

Statistics bearing upon the subject of banking in the Central and South American countries are very meager. The fund of information in respect to banking concerns of the Latin-American countries consists chiefly in the published reports of European financial institutions having branches in a number of these southern republics. The commerce of the United States is extending in this direction by reason of the building of the isthmian canal, and public interest is awake to the fact that closer trade relations between the two continents are sure to follow the completion of this important project.

In view of this fact it was thought proper that an effort should be made to obtain information relative to financial conditions and the monetary institutions of these countries, and to this end the diplomatic representatives of the United States in the various Central and South American Republics were asked to aid in the work by forwarding statements relating to banking and the financial condition concerning the countries to which they are accredited.

The results are far from complete, but any statistics from authentic sources which add to the present stock of knowledge in this respect it is believed will be of value.

The letter forwarded to each diplomatic representative reads as follows:

SIR: It is the purpose to incorporate in my report to be made to Congress in December next as complete information as can be obtained with respect to the condition of banks and banking in the Central and South American Republics, etc. With this object in view I have the honor to request your cooperation in obtaining from the State officials, or from the banking corporations of every character in operation in Mexico, statements of condition as of June 30, 1904, or approximately that date. It is desired to have shown in these statements the principal items of resources and liabilities; that is, loans and discounts, overdrafts, investments in bonds, stocks, and other securities; amounts due from other banking corporations; cash in bank, showing, separately, gold, silver, and other currency; capital stock, surplus and other profits, circulating notes outstanding, if any; deposits, and, in the aggregate, other liabilities, as indicated by the accompanying form.

Information is also desired with respect to the financial condition of the country; that is—

1. The bonded debt.
2. Floating debt.
3. Revenues for the last fiscal year—(a) From imports; (b) Internal taxes.
4. Expenditures for the last fiscal year.
5. Stock of money of the country, classified to show the amount of gold, silver, and other currency, respectively.

The receipt of all or any of the information hereinbefore requested will be greatly appreciated.

Respectfully,

WM. B. RIDGELY, *Comptroller*.

Replies have been received respecting seventeen countries, namely: Argentina, Bolivia, Brazil, Chile, Colombia, Costa Rica, Ecuador, Guatemala, Honduras, Panama, Peru, Salvador, Uruguay, Venezuela, together with Cuba, Haiti, and the Dominican Republic, no reports being received from Paraguay and Nicaragua.

As a result of the correspondence referred to, in addition to the data relating to the financial condition of the various governments, statements have been received showing the condition of over 50 of the

principal banks operating in South America, besides reports of a number of London concerns, with numerous branches there and elsewhere. The abstract of the principal items of resources and liabilities of these banks by no means fully represents the banking power of this part of the world, yet the figures reflect measurably the volume of business carried on over this vast territory. A summary of the principal items of the reports, reduced to United States money, based upon the value of the monetary unit of each country, without taking exchange into account, follows:

Loans .....	\$315, 246, 338
Bonds, etc. ....	31, 881, 095
Cash in bank .....	139, 266, 858
Capital .....	120, 350, 540
Surplus and undivided profits.....	28, 970, 892
Deposits .....	366, 437, 742
Total assets .....	743, 839, 995

The figures above were summarized from reports of condition of 7 banks in Argentina, 4 in Bolivia, 14 in Brazil, 18 in Chile, 4 in Peru, 3 in Venezuela, and 1 each in Colombia, Ecuador, and Uruguay.

An abstract of banking returns from all the Central American Republics, excepting Nicaragua, shows the principal items of resources and liabilities of the 12 reporting banks—viz: 1 each from Costa Rica, Honduras, and Panama; 6 from Guatemala, and 3 from Salvador—to be as follows:

Loans .....	\$26, 949, 302
Bonds, stocks, etc. ....	1, 956, 512
Cash on hand .....	3, 719, 349
Capital stock .....	8, 256, 580
Surplus and profits .....	4, 524, 060
Circulation .....	17, 025, 206
Deposits .....	6, 592, 174
Total assets .....	39, 444, 681

The replies to the interrogatories addressed to the United States diplomatic representatives accredited to the countries named are given in full in the appendix to this report. An abstract as correct as the information will permit relating to the financial condition of the following-named countries is presented herewith.

#### ARGENTINA.

No report relating to finances of the Government. Individual reports of banking concerns forwarded appear in the appendix.

Reliable authority places the public debt of Argentina at \$479,765,-265, excluding Government issues of paper money.

#### BOLIVIA.

Bolivia's budget, estimated for 1904, according to the *Revista Comercial e' Industrial*, is—revenue, Bs. 7,241,700; expenditures, Bs. 9,126,295. The boliviano is equal to 42.2 cents American gold.

#### BRAZIL.

No direct report as to financial condition of Brazil. The national debt of that country on June 30, 1903, according to figures published in the *Brazilian Review*, was—foreign debt, £65,917,297, the internal

funded debt payable in gold being 27,259,000 milreis (gold milreis, 54.6 cents) and payable in currency, 537,410,537 milreis—the floating debt not included in the above figures.

## CHILE.

The bonded foreign debt of Chile is £16,649,400; floating foreign debt £2,500,000, aggregating about \$93,162,000, and internal debt \$75,301,716 in paper currency of the country, equivalent to about \$25,000,000 United States currency.

The revenues for the calendar year 1903 amounted to 137,536,214 pesos in gold and 95,057,312 pesos in paper currency. The expenditures for same year were 93,464,313 pesos in gold and 91,390,659 pesos in paper currency. Gold pesos are equal to 18d. (say 36.5 cents). Other obligations of the state affecting the balance on hand for 1904 amount to 22,328,379 gold and 9,374,183 paper currency, of which sum the principal item is a conversion fund of 21,500,000 gold. All bank notes were redeemed by the law of 1895.

The stock of money in the country amounts to 50,000,000 pesos in paper and 2,000,000 pesos, approximately, in silver, nickel, and copper. The average value of this money is 33 cents United States currency. About \$60,000,000 in gold at 18d. have been coined, but it is not known how much of this amount is now within the country. Abstract of reports of 18 banks, with capital stock aggregating \$59,006,660 (Chilean currency), is published in the appendix.

## COLOMBIA.

The bonded foreign debt of Colombia is £2,700,000, or \$13,136,000, bearing interest at  $1\frac{1}{2}$  per cent annually, increasing one-half per cent each three years until it reaches 3 per cent per annum. The interior debt is stated to be \$5,633,716, and floating debt \$250,000. The stock of money, according to Government reports, amounts to \$741,048,126 (Colombian), or about \$7,005,088.67 at the present rate of exchange—10,000 per cent, approximately. There is practically no gold and silver in circulation, all having been driven out by the forced paper currency.

Official estimates of the expenditures and resources for 1903-4 are: Expenditures, \$451,557,929; resources, \$426,031,000; deficit, \$25,526,929 (Colombian).

## COSTA RICA.

From *La Gaceta* of July 19, 1904, it is learned that the rate of exchange between Costa Rica and the United States averaged during the year 217 per cent. The circulating medium on March 31, 1904, reached 7,106,254 colones, which that paper states is larger than ever before and sufficient for all requirements. (One colon equal to  $46\frac{1}{2}$  cents.)

## ECUADOR.

The total bonded debt of Ecuador on June 1, 1903, was \$9,271,035, the floating debt being estimated at \$3,800,000.

The revenue from customs duties and taxes for 1902 amounted to \$4,250,000, the expenditures being for the same year \$4,675,000. On

December 31, 1902, the stock of money in the country was \$750,000 in gold, \$1,250,000 silver, and \$2,750,000 bank notes. The monetary unit is the sucre, equal to 48.7 cents.

## GUATEMALA.

The following data taken as per December 31, 1903, being end of last fiscal year, is furnished by the United States representative to this country:

## Bonded debt:

(a) Exterior debt, including accrued interest.....	gold..	\$8, 896, 000. 00
(b) Bonos diversos .....	currency..	90, 550. 11
(c) Bonos deuda interior .....	do....	3, 602, 500. 00
(d) Bonos ferrocarril al norte .....	do....	2, 513, 700. 00
Total .....	do....	6, 206, 750. 11

## Floating debt:

(a) Gold .....		943, 585. 49
(b) Currency—		
Government bills in circulation .....		6, 034, 407. 00
Other .....		31, 224, 602. 79
Total .....		37, 259, 009. 79

## Revenue during year 1903, in national currency: .

Import duties .....		6, 175, 926. 70
Export duties .....		3, 878, 214. 04
Internal taxes, etc. ....		7, 532, 743. 96
Total .....		17, 586, 884. 70

Expenditure (currency) ..... 17, 000, 000. 00

## Stock of money:

## Bills in circulation (national currency)—

(a) Government issue .....		6, 034, 407. 00
(b) Bank issues .....		37, 151, 342. 00

Total ..... 43, 185, 749. 00

Silver very difficult to estimate, as in private hands; deposited in the various banks about..... 400,000. 00

(The amounts given are in current money of the country, viz, the peso, which it is stated has an approximate value of 7 cents gold.)

## HONDURAS.

No report other than that relating to banking as published in the appendix.

## PANAMA.

The United States chargé d'affaires writes under date of October 4, 1904:

As to present condition of the finances of Panama there is no debt and no statement has been made up as to expenditures and receipts. The coinage of the country is now being minted in the United States and will be used to redeem the present Colombian silver money at the rate of 212½ Colombia pesos for 100 "balboas," as the unit of new money is called.

## PERU.

Peru has no foreign debt. According to the director of the treasury of Peru, the interest-bearing debt of that country on the 31st of December 1903, was 2,660,645 Peruvian pounds, the non interest-bearing debt £p.377,810, and the floating debt £p.900,000.

The revenue from imports was £p.853,171,994, and from taxes £p.739,240,828, or a total of £p.1,703,138. The general expenses aggregated £p.1,478,898.

The stock of money in the country on December 31, 1903, according to a reliable estimate was £p.1,500,000, including gold and silver. The Peruvian pound is stated to be equal in every respect to the English sovereign. Silver is now treated as subsidiary coin, and the supply is rapidly becoming more limited. There are no bank notes now in existence.

## SALVADOR.

The floating debt of El Salvador on December 31, 1903, was \$10,462,967.59 in Salvador silver currency. The revenues of the Government during the calendar year 1903 amounted to \$7,980,855.23, and the expenditures were given as \$7,704,756.34.

## URUGUAY.

The bonded debt of Uruguay, according to the statement of the office of the public credit, was \$124,754,455.82 on December 31, 1903, no figures being obtainable relating to floating debt. The revenue for the last fiscal year approximated \$15,138,265, while the expenditures are estimated to be about \$16,460,000, the exact figures not being ascertainable. The stock of money in the country, the American minister states, is difficult to estimate. Monetary unit, the peso, equal to \$1.034.

## VENEZUELA.

From the published report of the message of President Castro to the Venezuelan Congress on February 20, 1904, it is learned that revenues of the country for the year ended December 31, 1903, amounted to 34,494,412.08 bolivars and the expenditures 34,329,420.76 bolivars—sums stated in United States currency equal to \$6,898,882.41 and \$6,865,884.15, respectively.

The internal debt and interest aggregated 92,983,088.67 bolivars, and the external debt, including interest, was 151,645,421.08. The total indebtedness of the country, reduced to United States currency, amounts to \$48,925,701.95. Bolivar equal to 19.3 cents.

## CUBA.

According to report of the United States minister, the bond issues of 1896-97, aggregating \$2,158,649, constitute the only debt of the Republic. The auditor-general's report for the year ended June 30, 1903, shows total income from all sources \$16,155,817.90, and disbursements from June 20, 1902, to June 30, 1903, aggregating \$15,933,646.71.

## HAITI.

The United States minister to Haiti states that the bonded debt of that country is about \$19,000,000 and the floating debt about \$18,000,000.

The revenues for the last fiscal year from imports amounted to

\$4,000,000—none from internal taxes. Figures showing expenditures not obtainable.

Stock of money consists of about \$2,500,000 in gold, about the same amount in silver, besides bank circulation to the amount of \$13,500,000, of which \$5,000,000 is yet to be received and put in circulation.

## DOMINICAN REPUBLIC.

The bonded debt is supposed to be, at the present time, about \$30,000,000. No estimate can be given as to the floating debt.

Revenue from imports last fiscal year about \$2,000,000. No internal taxes. Impossible to state amount of expenditures for last fiscal year. Stock of money, about \$3,000,000 in Dominican silver. Dollar worth about 20 cents.

## DEBT, ETC., OF THE REPUBLICS OF SOUTH AND CENTRAL AMERICA AND THE WEST INDIA ISLANDS.

In connection with the foregoing the following table, compiled from latest data obtained from the Bureau of Statistics, will be of interest:

Country.	Total debt, funded and floating.	Revenue.	Expenditure.	Stock of money.		
				Uncovered paper.	Specie.	Total.
Argentina .....	\$479,765,265	\$62,723,000	\$60,757,000	\$290,600,000	\$25,000,000	\$315,600,000
Bolivia.....	6,180,602	3,614,000	3,663,000	.....	4,200,000	4,200,000
Brazil.....	540,693,936	137,295,000	99,366,000	369,800,000	.....	369,800,000
Chile.....	107,304,151	38,684,000	44,001,000	30,700,000	12,400,000	43,100,000
Colombia.....	14,494,792	(a)	(a)	370,000,000	2,000,000	372,000,000
Ecuador.....	5,746,628	5,208,000	4,540,000	300,000	3,900,000	4,200,000
Paraguay.....	<sup>b</sup> 11,223,805	11,007,000	11,007,000	10,500,000	100,000	10,600,000
Peru.....	23,159,700	7,533,000	7,016,000	.....	6,800,000	6,800,000
Uruguay.....	127,362,827	16,703,000	15,032,000	9,700,000	19,800,000	29,500,000
Venezuela.....	49,335,647	4,818,000	5,026,000	600,000	23,200,000	23,800,000
Total South America .....	1,365,267,353	287,585,000	250,408,000	1,082,200,000	97,400,000	1,179,600,000
Costa Rica.....	14,603,556	2,820,000	2,812,000	30,200,000	9,000,000	39,200,000
Guatemala.....	12,142,334	2,046,000	2,169,000			
Honduras.....	96,249,771	1,373,000	1,264,000			
Nicaragua.....	5,590,636	2,403,000	2,393,000			
Salvador.....	3,696,472	3,281,000	3,274,000			
Total Central America .....	132,282,769	11,923,000	11,912,000	30,200,000	9,000,000	39,200,000
Cuba.....	.....	18,791,000	19,515,000	.....	3,500,000	.....
Haiti.....	<sup>c</sup> 27,961,249	7,327,000	7,341,000	3,500,000	3,200,000	6,700,000
Santo Domingo.....	26,219,449	1,910,000	1,722,000	4,200,000	2,200,000	6,400,000
Total West India Islands.....	54,180,698	28,028,000	28,578,000	7,700,000	8,900,000	13,100,000

<sup>a</sup> No data.

<sup>b</sup> There are, besides, outstanding the debts due to Brazil, 9,876,500 pesos, and to Argentina, 12,393,000 pesos.

<sup>c</sup> Largely in depreciated currency.

## BANKS AND BANKING IN JAPAN.

The Comptroller has received reports of the Bank of Japan, the private, savings, and mortgage banks, for the year ended December 31, 1903, and semiannual statements of the condition of other banks in operation in Japan as of June 30, 1904, courteously furnished by Mr. K. Ito, chief of secretary's department of the Bank of Japan.

The report of the Bank of Japan states the total operations, both receipts and disbursements, as aggregating 12,698,858,693 yen, a decrease during the year of 1,393,788,262.

The bank's outstanding circulating notes amount to 232,920,563 yen, which are covered by specie reserve of 116,962,184 and Government bonds and other securities to the amount of 115,958,379. As will be observed the specie reserve amounts to 50.2 per cent of the total. The accumulated surplus of the bank is 16,900,000, in addition to which a reserve against the depreciation of bank property, amounting to 250,000, is carried.

The principal items of liabilities, other than those mentioned, are as follows: Deposits and accounts current, 16,442,024; due to other banks, 14,850; profit and loss account, 2,536,430. The loans aggregate 122,252,910; public bonds, 47,093,200; amounts due from other banks and agencies, 739,083 and 4,816,432, respectively; bank premises, furniture, and fixtures, 2,829,065; gold, silver, and other currency, including checks and notes, 83,113,653; bullion, 38,219,525.

During the past year the bank paid two dividends on its capital of 30,000,000 yen at the rate of 12 per cent per annum. In addition to its eight branches located at Osaka, Moji, Hakodate, Nagoya, Sapporo, Kyoto, Otaru, Fukushima, the bank has 31 agencies for the management of public bonds and 47 for dealing with worn-out bank notes. Reports received relative to other banks in Japan are as follows: Yokohama Specie Bank, capital stock 18,000,000 yen; total liabilities, including capital, 197,921,143; the Hypothec Bank of Japan, capital 30,000,000; the Bank of Formosa, capital 5,000,000; the Industrial Bank of Japan, capital 10,000,000; the Hokkaido Colonial Bank, capital 3,000,000; ordinary banks (private institutions), capital 255,251,892; savings banks, capital 34,915,474; local Hypothec banks, capital 27,807,500.

The Yokohama Specie Bank is the only bank in Japan having branches in foreign countries. This bank makes a specialty of transactions in bullion and foreign exchange.

The business of the Hypothec Agricultural and Industrial Bank is confined principally to dealings in real-estate mortgages and debentures. The banks of Hokkaido and Formosa were chartered for the colonization and development of the islands of Hokkaido and Formosa, respectively.

The entire banking business of the country is under governmental supervision, and is apparently satisfactorily conducted, as the reports indicate the payment of dividends during the past year at an average rate of about  $8\frac{1}{2}$  per cent. Reports of these banks appear in the appendix.

In the appendix will be found statement showing the condition of the banks of the United Kingdom on December 31, 1903, and June 30, 1904; also summaries of the reports of the banks of Canada, Australasia, and Mexico.

#### CONCLUSION.

The figures given elsewhere in this report show the most marvelous growth in the wealth and commercial importance of the United States. Almost every year all previous records are broken in the volume of our internal trade, our exports and imports. The people of the United States have become the richest in the world, and the natural resources of the country are so great that this is sure to continue and increase

for many years to come. The amount of bank clearings and deposits and the money on hand in the banks increases in every portion of the United States at a most remarkable rate.

In spite of all this, however, we do not seem to be taking our proper rank and position in foreign and international banking. One of the chief difficulties encountered by all merchants and manufacturers in extending their trade with foreign countries, and especially those of South America and of the Orient, is the lack of American banking facilities, and the necessity of doing this business very largely through European houses. This ranks next in importance to the question of an American mercantile marine, as it is one that has a very great influence on the volume and character of our foreign trade.

As long as the United States was experimenting with silver or a bimetallic standard that fact acted as a handicap in this direction, but now that the gold standard is firmly and irrevocably established we should be able to take our proper place in international banking transactions. New York should become more and more the depository for international balances, and exchange on New York be accepted more and more in all commercial countries of the world. One important reason why our people have not been more aggressive and taken a larger part in international banking business, the same as in many other lines of trade, is that we have been too much occupied with our domestic affairs and there has been a greater temptation to transact the business at home, which was easy to do and promised as great or even greater profits.

With the accumulation of capital and wealth this condition is greatly changed, and there is now in the United States abundant capital and talent for this business, if it is given proper encouragement. Many of the national banks are now engaged in handling foreign exchange; some of them have large and successful foreign departments. In a measure, as the demand arises, facilities are being supplied, and the Comptroller sees no objection, but on the contrary many advantages, in having the larger and more powerful national banks encouraged to cultivate this business by granting them additional powers and authority for doing so.

There have been suggestions made that the organization of national corporations should be authorized for the purpose of conducting the business of foreign and international banking alone, but these do not seem to have met with much favor, and it would appear to be a wiser policy to utilize the well organized and strong national banks which are already largely engaged in this business. The Comptroller believes that it would be a wise policy and entirely just to the banks to restrict these powers to banks of large capital located in the reserve cities. Many of them now have well-organized foreign departments and officials familiar with this business, and the Comptroller believes that they are the best agencies now at hand to extend and increase this very important business.

The Comptroller would therefore recommend, in pursuance of this policy, that national banks having a capital of \$1,000,000 or more and located in the reserve cities or central reserve cities be specifically authorized to buy and sell foreign exchange; to accept bills drawn on themselves, payable not to exceed four months after sight, and to issue letters of credit; and also to open and maintain such offices,

agencies, or branches as may be necessary to conduct this business in foreign countries, and in Porto Rico, the Philippine Islands, the Hawaiian Islands, and the Panama Canal Zone.

It is believed that this measure will tend to make closer the relations of the United States with each of its possessions, and would be obviously to the advantage of both. The increased sphere of our national life imposes new duties which, in so far as they relate to the great questions of banking and exchange, call for additional legislation; and the recommendations contained in the foregoing are intended to meet the necessities of our manifest obligations and duties in this respect.

The Comptroller respectfully recommends that an act be passed repealing the limitation on the proportion of the circulation of any bank which may be issued in notes of the denomination of \$5. The evident intention of Congress in incorporating this restriction in the act of March 14, 1900, by which notes of the denomination of \$5 are limited to one-third of the amount issuable by any association, was to limit the total issues of notes of that denomination to one-third of the aggregate amount issued. As a matter of fact, this proportion has not been exceeded since 1874. For the year prior to the passage of the act, national bank notes of this denomination amounted to but 31 per cent of the total, and this percentage declined to 21 per cent in 1900 and to 16.1 per cent in 1902, and at the date of the last report of condition amounted to 13.6 per cent. The scarcity of notes of this denomination and the great convenience it is to the banks in the smaller communities to be able to issue notes of \$5 to the amount of their whole circulation as formerly, leads the Comptroller to strongly recommend that this restriction be repealed.

The Comptroller would again renew the recommendation contained in his report of December 1, 1902, for the repeal of section 9 of the act of July 9, 1882, which limits the amount of lawful money which may be deposited with the Treasurer of the United States by national banks, reducing their circulation to \$3,000,000 during any calendar month. The reasons which lead to the enactment of this restriction have ceased to exist, and there does not appear to be any good reason why it should be continued in force. Its repeal would add materially to the elasticity of the national-bank circulation without any counterbalancing disadvantages.

The Comptroller would again call the attention of Congress to the necessity for legislation in regard to the liquidation and consolidation of national banks and the extension of their corporate existence. The reasons for this recommendation were given in detail in the report of the Comptroller of the Currency for December 7, 1903, and further experience and administration of the law show the necessity of some action, not only in the interest of better and more efficient administration but for the better protection of the rights of the shareholders of national banks.

In closing this report the Comptroller wishes to again give credit to Mr. W. J. Fowler, the chief of the organization division, who has had charge of the collection and arrangement of statistics, for his accuracy, efficiency, and ability.

WM. B. RIDGELY,  
*Comptroller of the Currency.*

**THE SPEAKER OF THE HOUSE OF REPRESENTATIVES.**

## APPENDIX.

---

---

No. 1.—COMPTROLLERS AND DEPUTY COMPTROLLERS OF THE CURRENCY, DATES OF APPOINTMENT AND RESIGNATION, AND STATES FROM WHENCE APPOINTED.

No.	Name.	Date of appointment.	Date of resignation.	State.
COMPTROLLERS OF THE CURRENCY.				
1	Hugh McCulloch .....	May 9, 1863	Mar. 8, 1865	Indiana.
2	Freeman Clarke .....	Mar. 21, 1865	July 24, 1866	New York.
3	Hiland R. Hulburt .....	Feb. 1, 1867	Apr. 3, 1871	Ohio.
4	John Jay Knox .....	Apr. 25, 1872	Apr. 30, 1884	Minnesota.
5	Henry W. Cannon .....	May 12, 1884	Mar. 1, 1886	Do.
6	William L. Trenholm .....	Apr. 20, 1886	Apr. 30, 1889	South Carolina.
7	Edward S. Lacey .....	May 1, 1889	June 30, 1892	Michigan.
8	A. Barton Hepburn .....	Aug. 2, 1892	Apr. 25, 1893	New York.
9	James H. Eckels .....	Apr. 26, 1893	Dec. 31, 1897	Illinois.
10	Charles G. Dawes .....	Jan. 1, 1898	Sept. 30, 1901	Do.
11	William Barret Ridgely .....	Oct. 1, 1901	.....	Do.
DEPUTY COMPTROLLERS OF THE CURRENCY.				
1	Samuel T. Howard .....	May 9, 1863	Aug. 1, 1865	New York.
2	Hiland R. Hulburt .....	Aug. 1, 1865	Jan. 31, 1867	Ohio.
3	John Jay Knox .....	Mar. 12, 1867	Apr. 24, 1872	Minnesota
4	John S. Langworthy .....	Aug. 8, 1872	Jan. 3, 1886	New York.
5	V. P. Snyder .....	Jan. 5, 1886	Jan. 3, 1887	Do.
6	J. D. Abrahams .....	Jan. 27, 1887	May 25, 1890	Virginia.
7	R. M. Nixon .....	Aug. 11, 1890	Mar. 16, 1893	Indiana.
8	Oliver P. Tucker .....	Apr. 7, 1893	Mar. 11, 1896	Kentueky.
9	George M. Coffin .....	Mar. 12, 1896	Aug. 31, 1898	South Carolina.
10	Lawrence O. Murray .....	Sept. 1, 1898	June 27, 1899	New York.
11	Thomas P. Kane .....	June 29, 1899	.....	District of Columbia.

## No. 2.—NAMES AND COMPENSATION OF OFFICERS AND CLERKS IN THE OFFICE OF THE COMPTROLLER OF THE CURRENCY, OCTOBER 31, 1904.

Name.	Grade.	Salary.
William B. Ridgely .....	Comptroller .....	\$5,000
Thomas P. Kane .....	Deputy Comptroller .....	3,000
George T. May .....	Chief clerk .....	2,500
Watson W. Eldridge .....	Chief of division .....	2,200
Willis J. Fowler .....	do .....	2,200
Elwood S. Gatch .....	do .....	2,200
Edmund E. Schreiner .....	Superintendent .....	2,200
Caleb C. Magruder .....	Teller .....	2,000
Theodore O. Ebaugh .....	Bookkeeper .....	2,000
Ebenezer Southall .....	Assistant bookkeeper .....	2,000
Benjamin F. Blye .....	Clerk, class 4 .....	1,800
Willard E. Buell .....	do .....	1,800

NOTE 1.—Specie payments were suspended from Jan. 1, 1862, to Jan. 1, 1879. During the greater part of that period gold and silver coins were not in circulation except on the Pacific coast, where, it is estimated, the specie circulation was generally about \$25,000,000. This estimated amount is the only coin included in the above statement from 1862 to 1875, inclusive.

NOTE 2.—In 1876 subsidiary silver again came into use, and is included in this statement, beginning with that year.

NOTE 3.—The coinage of standard silver dollars began in 1878 under the act of Feb. 28, 1878.

NOTE 4.—Specie payments were resumed Jan. 1, 1879, and all gold and silver coins, as well as gold and silver bullion in the Treasury, are included in this statement from and after that date.

NOTE 5.—This table represents the circulation of the United States as shown by the revised statements of the Treasury Department for June 30 of each of the years specified.

NOTE.—Gold was first quoted at par on December 19, 1878.

The average rates of gold and currency for each month, as given in the above tables, was obtained as follows:

Four daily quotations of the rates of gold at New York, viz, the Opening, Closing, Highest, and Lowest, were recorded, from which a daily average was made, and the average rate for each month was prepared from these daily averages.

NO. 48.—UNITED STATES BONDS ON DEPOSIT TO SECURE CIRCULATING NOTES OF NATIONAL BANKS ON JUNE 30 OF EACH YEAR FROM 1865 TO 1904, AND THE AMOUNT OWNED AND HELD BY THE BANKS FOR OTHER PURPOSES, INCLUDING THOSE DEPOSITED WITH THE TREASURER TO SECURE PUBLIC DEPOSITS.

Year.	United States bonds held as security for circulation.					United States bonds held for other purposes at nearest date.	Grand total.
	6 per cent bonds.	5 per cent bonds.	4½ per cent bonds.	4 per cent bonds.	Total.

a Official information furnished through United States representatives.

b Estimate, Bureau of the Mint.

c L'Economiste Européen, January, 1903.

d C. Cramer Frey.

NOTE.—The value of the monetary stock of silver-standard countries has been changed to conform to the decline in silver values. The monetary stock of Mexico and other countries where the Mexican dollar circulates is given in Mexican dollars, at bullion value.

AGGREGATE AND PER CAPITA, IN THE PRINCIPAL COUNTRIES OF THE WORLD ON 31, 1903.

Due to other banks.....		.6
Unpaid drafts outstanding.....		.2
Total.....	23.5	24.2

TABLE XIX.

## RESOURCES AND LIABILITIES OF THE SECOND BANK OF THE UNITED STATES.

[Chartered by Congress in 1816, for twenty years; renewal of charter denied; in consequence, reorganization was effected by means of authority of the legislature of the State of Pennsylvania. The bank assigned in 1841, the affairs being finally liquidated in 1856, and resulted in the payment in full, interest and principal, of liabilities to depositors and note holders; the shareholders, however, received nothing on their investment in stock of the bank.]

In order to extend our Argentine business, we have in the course of the year opened offices in Bahia Blanca, the future port of the south of the province of Buenos Ayres, and also in Cordoba, the capital of the province of the same name, which offices have developed very satisfactorily during the year. Both are suboffices of our Buenos Ayres branch. (From report dated February 29, 1904.)

[Balance sheets of the London offices of the British Bank of South America (Limited), London and River Plate Bank (Limited), and London and Brazilian Bank (Limited), forwarded with above reports not published—statement of Argentine branches of these banks not shown therein.]

[From Report of Banco Alemán Transatlántico for year 1903.]

In consequence of a bountiful harvest and good prices being realized for most kinds of the country's produce, a decided improvement has taken place in the economic condition of the Argentine Republic during the year 1903.

The exports for the season 1902-3 reached the highest total yet recorded, viz, \$218,860,000 gold, as compared with \$173,276,000 gold for the previous season, 1901-2.

The imports also show a not inconsiderable increase, the total value for the same period being \$125,523,000 gold, as against \$103,711,000 in 1901-2. The following comparative table shows the proportion, expressed in percentages, in which these imports were furnished by the principal shipping countries, viz:

	1903.	1902.
	Per cent.	Per cent.
England.....	34.2	35.9
United States.....	12.7	12.9
Germany.....	13.0	12.8
Italy.....	11.2	11.9
France.....	9.7	9.0
Other countries.....	19.2	17.5
	100.0	100.0

As a result of so large a trade balance in favor of the country, gold was imported to the value of about \$41,000,000, the greater part of which found its way to the *caja de conversión*, where it was exchanged into currency at the official rate of \$227.27 paper for \$100 gold (44 cents gold equals \$1 paper).

This large increase in the circulation, which could only gradually be invested in new undertakings, caused a further decline in the rate of interest, which during the whole year fluctuated between 4 and 5 per cent, and thus left but a small margin of profit to the banks on their discount business.

On the other hand, the quotations of all internal interest-bearing securities, whether bonds of the National Government or *cédulas*, or municipal or provincial issues, rose to an unprecedented extent. Seven per cent national *cédulas*, Series H, now stand over par, notwithstanding the fact that new bonds are daily being marketed, and 6 per cent bonds of the National Government are quoted between 98 and 100.

The increase in the national wealth made itself apparent not only in a greater consumptive demand, but also in the largely augmented area devoted to agriculture, and as a consequence caused a rapid rise in the price of land, which, especially in the western districts of Buenos Ayres, in many instances doubled in value.

The prospects of the coming crops are very favorable, and it is expected that as regards all kinds of cereals an even larger tonnage will be available for export than was the case during the past season. Especially noticeable is also the extraordinarily rapid development of the *quebracho* forests during the past year, the products of which, partly in the form of timber and partly in the form of *quebracho* extract, have been exported at very remunerative prices.

The financial position of the Government has materially improved, in some degree due to increased customs receipts, but more particularly as the result of the sale of the balances of various former loans, hitherto held over or deposited in London as security for sundry short-dated advances. Finally, just before the close of the year, the sale was effected of the two warships which were being constructed in Italy for the Argentine Government, thus setting free a sum of £1,500,000, which had been deposited to defray their cost.

All these favorable factors have enabled the Government to propose to remit the customs surtax of 10 per cent which was previously imposed to cover expenditure on armaments.

The gold premium throughout the whole year has steadily remained at the official par point (44 cents gold equal \$1 paper). The stock of gold in the *caja de conversión*, which at the commencement of the year amounted to only a few thousand pesos, had already in April attained the figure of \$20,000,000, and at the end of the year had further increased to \$38,000,000. The Banco de la Nación Argentina has also converted into gold a portion of its paper holdings to the value of about \$12,000,000 gold, so that the stock of gold held by these two official institutions amounted at the close of the year to about \$50,000,000.

As regards politics the external relations of the Argentine Republic have remained undisturbed. Internally the country has entered upon the period when elections are held for the purpose of constituting the electoral college, by whom a successor to the outgoing president, whose period of office comes to an end October 12, 1904, will be appointed. The preparations for the elections are progressing in a quiet and orderly manner, and it is also expected that no disturbance of any kind will be experienced when the electoral college exercises its functions on June 12, next.

The gratifying development of the country is clearly reflected in the traffic receipts of the Argentine railways, which for the past year has been as follows (values in gold):

	1903.	1902.
Kilometers operated .....	18, 294	17, 383
Gross receipts .....	\$53, 008, 346	\$42, 480, 423
Gross receipts per kilometer .....	\$2, 897	\$2, 443
Net receipts .....	\$26, 291, 352	\$19, 992, 951
Net receipts per kilometer .....	\$1, 437	\$1, 150
Goods, tonnage .....	17, 436, 446	14, 544, 359

While it must be admitted that the present prosperity of Argentina rests on a legitimate basis, seeing that it is the natural outcome of good harvests, it is well also to bear in mind that a reaction would doubtless follow if the agricultural and cattle-raising interests were again visited by indifferent or bad seasons such as for a series of years overtook the country.

## BOLIVIA.

LEGACIÓN AMERICANA,  
La Paz, Bolivia, July 14, 1904.

DEAR SIR: Your letter of April 2 was duly received, and in answer to your request about the condition of banks and banking methods in Bolivia, I have the honor to send by this same mail, and in a separate package, the last reports issued by the principal banks of Bolivia.

I hope the reports will give you all the data needed. I also have the honor to add the Government's estimates for the fiscal year 1904, in which are to be found the receipts and expenditures for said year.

Hoping that said documents will cover all your questions, I remain,

Very truly, yours,

WILLIAM B. SORSBY.

Hon. W. B. RIDGELY,  
Comptroller of the Currency,  
Treasury Department, Washington, D. C.

*Balance general del Banco Nacional de Bolivia al 31 de diciembre de 1903.*

## BRAZIL.

LEGATION OF THE UNITED STATES OF AMERICA,  
*Petropolis, Brazil, June 4, 1904.*

SIR: I am in receipt of your letter of April 4 relative to information you wish to procure concerning the banks of Brazil. In reply I have to say that I have taken the matter up with the consuls in all the principal cities of Brazil, inclosing copies of the blanks and requesting that they obtain all information possible and advise me promptly. When I have heard from them I will again write you.

However, there is but little hope of being able to obtain all the information you wish. There is no system of bank supervision in Brazil, and consequently no statistics. The only way possible is to take the matter up with individual and representative banks, as I am doing through the various consuls, and depend upon their courtesy or willingness to give it, for the information.

Respectfully, yours,

D. E. THOMPSON.

HON. WILLIAM B. RIDGELY,  
*Comptroller of the Currency, Washington, D. C.*

Your letter, although dated April 4, did not reach me until May 23.

LEGATION OF THE UNITED STATES OF AMERICA,  
*Petropolis, Brazil, July 25, 1904.*

SIR: In compliance with the request contained in your letter of April 4 I inclose herewith such information about the banks of Brazil as was possible for me to obtain.

As stated in my letter of June 4, I took the matter up through the consuls in the principal cities of Brazil, sending them all supplies of the blanks with the request that they have them filled out by the banks. Without exception the banks refused to do this, but gave the information contained in their public statements, the consul at Bahia, however, getting together the desired information in something like the form you wished. The banks giving the statements and information contained herein may be taken as representative, as they are the principal ones in the principal cities, Para only being omitted, as I was unable to learn anything from there; the banks of the smaller places, where they exist at all, being, for the most part, branches of these.

Respectfully, yours,

D. E. THOMPSON.

HON. WILLIAM B. RIDGELY,  
*Comptroller of the Currency, Washington, D. C.*

			5,503,858.32

<sup>a</sup> This represents excess of this item over similar one on other side of account, but which does not appear.

<sup>b</sup> This consists chiefly of deposits which were converted, in 1901 when the bank suspended payment, into five notes, bearing interest at 6 per cent. The first note fell due this year and was promptly paid, as has also been the interest up until now. The other notes fall due in intervals of one year each.

The Banco Commercial da Bahia suspended payment early in 1901, but resumed shortly afterwards, having made the following agreement with its depositors:

For all deposits the bank issued six months' drafts bearing 6 per cent interest per annum, to be payable semiannually. If the bank should find that at the expiration of six months it could pay the notes, it would do so, otherwise the notes were to run on indefinitely until such time as it could pay.

Until this date no depositors have been paid, but the interest has been promptly met.

*Report of the condition of the Bahia, Brazil, branch of the British Bank of South America, Limited, on May 31, 1904.*

	1,908,587.04		1,908,587.04

The item "due from other banks" in the assets is in great part bills bought by this bank and sent for collection. Likewise the item "due to other banks" in the liabilities consists chiefly of paper in hand for collection for other banks.

This bank by special agreement will pay 1 and 2 per cent on deposits, but the greater part of the deposits are without interest.

The head office of this bank is London. The local bank declares no dividends, that being done by the head office.

[Reports of the London and Brazilian Bank (Limited), and the London and River Plate Bank (Limited), submitted as from Santos, not published for the reason that no separate statement of the branch banks located in that city is shown in the report. Also report of The British Bank of South America (Limited), made up by the London office, which was included with the reports forwarded from Brazil, is not published for same reason.]

#### THE NATIONAL DEBT.

The national debt of Brazil up to June 30, 1903, according to figures published in the Brazilian Review, was as follows:

##### *Foreign funded debt.*

	1902.	1903.
1883 4½ per cent .....	£3,267,000	£3,267,000
1888 4½ per cent .....	4,823,300	4,823,000
1889 4 per cent .....	18,388,200	18,388,200
1895 5 per cent .....	7,331,600	7,331,600
W. Minas 5 per cent .....	3,388,100	3,388,100
Funding 5 per cent .....	8,613,717	8,613,717
Recission 4 per cent .....	4,069,760	14,605,680
Port works 5 per cent .....		5,500,000
Total .....	49,881,677	65,917,297

In 1898, previous to the issue of the funding loan, the foreign debt stood at only £37,198,200. Since then it has been increased by £28,719,397, of which £14,113,717 on account of new loans and £14,605,680 by purchase of railways and recission of their guaranties. If strictly carried out, both amortization and interest on the recission bonds will be effected without any necessary addition to taxation, out of the sum previously provided for payment of guaranteed interest, and should not therefore be regarded as an addition to the debt, but merely as a conversion of one kind of debt into another.

*The internal funded debt.*

[Brought up to March 31.]

	1902.	1903.
<i>Payable in gold.</i>		
1868 6 percents .....	<i>Milreis.</i> 6, 710, 000	<i>Milreis.</i> 6, 710, 000
1879 4½ percents (quoted in London and usually included in the foreign debt) .....	20, 549, 000	20, 549, 000
Total .....	27, 259, 000	27, 259, 000
<i>Payable in currency.</i>		
5 per cent perpetual annuities (apolicies) .....	483, 427, 000	483, 427, 000
4 per cent perpetual annuities .....	119, 600	119, 600
6 per cent national loan, 1897 .....	59, 557, 000	53, 557, 000
Sundry inscribed debts previous to 1887 .....	306, 937	306, 937
Total .....	543, 410, 537	537, 410, 537

There were no issues of internal bonds during 1902. On the contrary, bonds to the value of 6,443,000 milreis of the 1897 loan were bought in for amortization.

*Floating debt.*

[Brought up to January 1.]

	1902.	1903.
<i>Treasury bills.</i> .....	<i>Milreis.</i> 17, 500	<i>Milreis.</i> 17, 500
Savings bank deposits (Caixa Economica), Dec. 31 .....	120, 031, 364	132, 562, 473
Monte de Piété deposits, Dec. 31 .....	175, 645	122, 798
Sundry deposits, Mar. 31 .....	46, 859, 403	47, 706, 034

**CHILE.**

LEGATION OF THE UNITED STATES OF AMERICA,  
*Santiago, Chile, October 25, 1904.*

SIR: I regret that the data requested in your letter of April 4 last, to Minister Wilson should have been so long delayed. I began collecting it soon after my arrival here last July, but one obstacle or another has come in the way of its completion until now. I trust, however, that it may still arrive in time to be of service.

On the appended sheets is given the condition of the banks in Chile as of June 30, 1904. It has not been possible to follow exactly the form prescribed in your letter. You will see, for instance, that overdrafts have been merged with loans and discounts, that gold and silver in bank have been combined as coin, and that the item "due to other banks and bankers" does not appear. The fiscal year here is the calendar year, and in their mid-yearly statements the majority of the banks display a tendency to "lump" their liabilities. It is only in their yearly statements that everything appears systematically accounted for. None of the banks has any "outstanding circulation;" all bank notes were redeemed by the law of 1895. The banks not indicated as private are incorporated. The "average rate of interest paid to depositors" it would be very difficult to determine. The banks all pay practically the same rates, varying according to conditions of withdrawal and to amount, from 1 per cent sight to 7 or 8 per cent for large sums at long terms.

The following dividends were paid on June 30, 1904. (These figures, as well as those of sheets 1 and 2 represent Chilean currency, at an average value of about 33 cents of our money.)

Bank.	Dividend.	Amount.
Chile.....	5 per cent half-yearly.....	\$1,000,000.00
Santiago.....	do.....	160,000.00
Mobiliario.....	4½ 2 per cent half-yearly.....	236,250.00
Spanish-Italian.....	5 per cent half-yearly.....	250,000.00
Popular, half-yearly.....	16 per cent to shareholders.....	13,071.60
German Trans-Atlantic.....	13 per cent to founders.....	1,278.00
Tarapaca.....	8 per cent yearly.....	
	6 per cent yearly.....	

On sheet 3 appears a statement of the bonded foreign debt of Chile, the amounts expressed in pounds sterling.

On sheet 4 I give the floating foreign debt in pounds sterling and the internal debt in paper currency.

On sheet 5 is shown the Government's revenues for the last fiscal year—i. e., the calendar year 1903; sheets 6 and 7 the expenditures for the same period.

The stock of money in the country is \$50,000,000 in paper, \$2,000,000 (approximately) in silver, nickel, and copper. The average value of this money is approximately 33 cents, United States currency.

Some sixty-odd million dollars gold at 18d. have been coined, but it is impossible to state how much of that amount is now within the country. The greater part of it is controlled by the Government, which receives it in payment of export and import duties, and sells it again at a considerable profit to those who have payments of duty to make in it. Some is held by the banks, some by individuals. None, or practically none, is in circulation as a purchasing medium.

I am, respectfully, yours,

EDWARD WINSLOW AMES,  
*Chargé d'Affaires ad interim.*

HON. WILLIAM BARRET RIDGELY,  
*Comptroller of the Currency, Washington, D. C.*

*Report of the condition of the banks in Chile on June 30, 1904.*

[In Chilean currency.]

Other creditors .....		131, 293
Total .....	22, 328, 379	9, 374, 183

[From report of Banco Alleman Transatlantico for year 1903.]

As regards most of the branches of trade, industry, and agriculture, as also from a banking point of view, the past year has been a satisfactory one. Only two particular sections in which the German settlements in southern Chile are especially interested, viz, the export division of the tanning industry and also distilling, have suffered very seriously from unremunerative prices in the one case and the effect of the alcohol law of 1902 in the other.

Nitrate of soda, the chief article exported by Chile, has enjoyed a very prosperous year. The high prices current in 1902, after a short setback in the earlier months, were firmly maintained, and even advanced, notwithstanding an increase of about 9 per cent in the total quantity shipped.

The average quotation for 95 per cent nitrate, f. o. b. shipping port, was as follows: Per quintal of 46 kilos (101 pounds), 1903, 6s. 9d.; 1902, 6s. 8d.; 1901, 6s. 5d., while the closing price in 1903 was 7s. 3d., as against 6s. 9d. in 1902.

The total quantity of nitrate exported amounted to 31,680,391 quintals in 1903, as compared with 29,900,000 in 1902 and 27,300,000 in 1901.

Copper, the next most important article exported by Chile, also had a good year, as will be seen from the following statistics:

	1903.	1902.	1901.
Average price in London per ton .....	£58	£52 10s.	£65 17s.
Closing price at end of year (1903) .....	£56 15s.	£53	.....
Quantity exported in quintals .....	683,179	638,000	679,500

A fair average harvest was experienced, sufficiently large not only to cover the home requirements, but to yield for export a small surplus of wheat and flour, which was taken principally by the neighboring countries lying to the north of Chile.

Some improvement is taking place in the economic position of Bolivia, and conditions are somewhat better in Antofagasta, where business during the past two years has been very depressed.

With regard to the finances of the Government, the revenue did not quite suffice to cover the expenditure, and a short-dated loan of £1,500,000 was placed in London. Exact particulars of the budget deficit for the past year are not yet available, but the amount will probably not be very considerable.

The country has happily been free from any actual political trouble—whether external or internal—during the past year. Perhaps the only exception to be mentioned was a strike on the part of the dock laborers at Valparaiso, which culminated in a riot, and owing to which the inhabitants of the city were held in a state of terror for a few days.

The rate of exchange, apart from a few periods of weakness, has been well maintained, 90 d/s drafts on London being quoted 16½d. at the commencement and 16¾d. at the end of the year under review. The highest point touched was 16½d. and the lowest 16¼d. The gold premium at the end of December was 7.20 per cent. Our capital employed in Chile has been maintained on a gold basis, but at times the exchange operations necessary to attain this end have been difficult and expensive.

## COLOMBIA.

LEGATION OF THE UNITED STATES,  
*Bogota, August 6, 1904.*

SIR: Referring to my letter of June 25 last, I beg leave to inclose herewith an article I wrote some time ago on the external debt of Colombia, and also part of an article on the financial situation, which may assist some in making clearer the information I sent in that letter. The part marked in the article on the national bank and the debt practically answers questions 3 and 4 of your letter, and is all the information I am able to acquire on this subject.

The banks informed me yesterday that their reports were not yet ready, but would be sent to me about the 15th of this month. When received, I will transmit them immediately.

Respectfully yours,

ALBAN G. SNYDER,

Hon. WILLIAM B. RIDGELY,

*Comptroller of the Currency, Treasury Department, Washington, D. C.*

## EXTERNAL DEBT.

The Congress of 1896 approved by law 161 the agreement made by Dr. Antonio Roldan, representing the Republic, and Mr. Frank B. Pasmore, special commissioner of the counsel of foreign bondholders of London, representing the bondholders of the external debt of Colombia.

The external debt recognized by the Roldan-Pasmore convention originated from the principal and the interest unpaid from the bonds of  $4\frac{1}{2}$  per 100, of 1873. The amount of the said principal is £1,913,500; amount of the interest owed up to December 31, 1896, amounts to £1,600,942; total, £3,514,442.

For the conversion of this debt new bonds were issued called "consolidated external debt of Colombia of 1896," for the sum of £2,700,000, in series of £1,000, £500, and £100, which gain interest from January 1, 1897. Each bond has 50 coupons for every six months, at the rate of  $1\frac{1}{2}$  per cent ( $1\frac{1}{2}$  per 100), raised one-half per cent ( $\frac{1}{2}$  per 100) every three years until it reaches 3 per cent (3 per 100). These coupons will be paid in gold, in London, on the 1st of January and the 1st of July of each year.

The amount necessary to pay the interest and the sinking fund of the new bonds (one-half per cent yearly on the principal of the debt, to commence on January 1, 1900, increasing half per cent every three years until it reaches  $1\frac{1}{2}$  per cent) is taken from common funds. The payment ought to be made in English gold.

For the remuneration of the agents in Bogota and in London, the sum of 2 per cent (2 per 100) was destined, estimated on the amount of the annual service of the debt.

The condition of the debt on the 31st of December, 1902, is the following:

Capital owed.....	£2,700,000
Interest from September to December, 1899.....	13,500
Interest at 2 per cent from January 1, 1900, to December 31, 1902.....	162,000
Total sum of the debt .....	2,875,500
(or \$14,337,000).	

Equivalent of this sum in paper money, with an exchange at 8,000 per 100, \$1,150,200,000, the interests are worth to-day £175,550, or \$877,500, which, if paid to-day, at an exchange of 10,000 per cent per 100, would give in paper money \$87,750,000.

From January 1 of this year, and after that date, the interest will be at the rate of  $2\frac{1}{2}$  per 100. It is known that the Government promised to renew the payment of the interest at this rate, and one (1 per 100) more as sinking fund.

## THE NATIONAL BANK OF COLOMBIA.

A history of events leading up to the present crisis in financial matters, is primarily a story of the National Bank of Colombia, and is as follows:

That bank had its birth in the law 39 of 1880 and was purely official in character from its beginning, the shares offered to the public never having been taken up.

From 1881 to 1885 its bills were regarded as equivalent to silver coin, being exchanged for silver at sight and at par.

During the civil war of 1884-85 there was a run on the bank, resulting in the Government providing, by decree No. 1104 of 1885, for the suspension of cash payments, which decree has never been abrogated, suspended, or modified.

Law 87 of December 20, 1886, declared the bills of the national bank inconvertible and of forced currency, and also pronounced them the only legal tender in Colombia, prohibiting stipulation in any other money.

Law 124 of 1887 limited this emission to \$12,000,000, which limit was exceeded, and in November, 1894, the Government by law 70 decreed the liquidation of the national bank.

From this date the national bank became a Government institution, ceasing to exist as a corporation.

Decree of October 16, 1899, provided for the emission of such sums of paper money as the subjugation of the revolution should render necessary, and at this time the emission of paper money in the country amounted to \$46,000,000.

From about the middle of October, 1899, to February 28, 1903, the printing presses of the Government were kept constantly at work emitting paper money, and still it was not sufficient to supply the needs of the Government, and the Departments of Santander, Bolivar, and Antioquia were authorized to issue their own money.

Here other troubles arose. The bills of the departments were not accepted at par in any department but the one of their emission, and travelers had to submit to large discounts in traveling from one part of the country to another.

There was a large premium, as much as 30 per cent at times, asked for small bills during this time.

The Government estimate of the amount of paper money in circulation is as follows:

Emitted by General Government.....	600,398,581.00
Emitted by Department of Santander .....	750,000.00
Emitted by Department of Bolivar .....	18,702,100.00
Emitted by Department of Antioquia .....	35,938,495.60
Emitted by Department of Cauca.....	44,719,688.70
Total.....	700,508,865.30

Probably three times the above will better cover the amount in circulation, for while the first bills, made by the American Bank Note Company, were good and could not be counterfeited, the ones issued by the Government are of very poor workmanship, printed on any kind of paper obtainable at that time, and easily counterfeited, and the amount of counterfeit bills in the country must be enormous.

Not long ago I was shown a package of new bills of the denomination of \$5, just gotten from the bank, every one of the same number and of same series.

At the present rate of exchange, 10,000 per cent, approximately, the total amount of money in the country is about \$7,005,088.67, and the minister of treasury's official statement fixes the amount owed by the Colombian Government to the foreign bondholders at \$14,027,510 on May 1, 1903.

The official estimate of the expenditures and resources for 1903-4 is as follows:

Expenditures.....	\$451,557,929.55
Resources.....	426,031,000.00
Deficit .....	25,526,929.55

Balance due on internal debt is about \$6,895.54, while claims (money) still due to Colombian citizens for claims arising from the wars of 1860, 1876, and 1885, as recognized by the Colombian Government, amounts to \$109,386.59, sums not recognized to \$90,451.86, sums under consideration to \$8,629.

There are a great many more claims under consideration, the monetary value of which have not yet been definitely fixed.

When the emissions of paper money ceased, provision was made for printing necessary bills to replace those worn out and no longer fit for use.

LEGATION OF THE UNITED STATES,  
Bogota, June 25, 1904.

DEAR SIR: I am in receipt of your letter of April 4, 1904, addressed to the Hon. W. W. Russell, asking for statements of condition from banking corporations of every character in operation in Colombia, and in reply beg to state that I have given your list of questions to the banks here, all of which have promised me a full report the first week in July, as statement of condition is desired to June 30, 1904, or as near that date as possible. These reports will be forwarded immediately upon receipt.

I have made a very careful inquiry relative to the questions asked in the latter part of your letter about the debt, etc., and submit the following answers, which I believe are as accurate as it is possible to make them from the meager information obtainable here on all such subjects:

*1. The bonded debt.*

Foreign debt, £2,700,000, bears interest at the rate of  $1\frac{1}{2}$  per cent a year, increasing one-half per cent each three years, until it reaches 3 per cent a year.

Interior debt:	
Consolidated, 10 per cent interest per year, colleges and schools.....	\$1,656,916
Consolidated, 6 per cent interest per year, hospitals and beneficent organizations.....	839,520
Consolidated, called common, $\frac{4}{5}$ per cent interest per year, churches, etc.....	2,041,620
Consolidated, called common, 3 per cent interest per year, churches, etc.....	1,095,660
Total.....	5,633,716

*2. Floating debt.*

Floating debt.....	\$250,000
--------------------	-----------

5. *Stock of money, etc.*

According to Government reports, the stock of money is as follows:

*Emission of paper money.*

By General Government.....	\$638,598,581
By departments.....	102,449,545
Total.....	741,048,126

In reference to the amount of paper money above quoted, I would refer you to this legation's No. 66 of June 30, 1903.

There is, practically speaking, no gold and silver coin in circulation, all having been driven out by the forced paper currency.

Answers to questions 3 and 4 have been promised me by the minister of treasury next week, and will be forwarded with the bank reports

Respectfully, yours,

ALBAN G. SNYDER,  
*United States Chargé d'Affaires.*

HON. WILLIAM B. RIDGELY,  
*Comptroller of the Currency,  
Treasury Department, Washington, D. C.*

LEGATION OF THE UNITED STATES OF AMERICA,  
*Bogota, Colombia, September 12, 1904.*

SIR: I have been able to get only the inclosed report from the Banco de Colombia in answer to your request of some time back.

The other banks, notwithstanding their promises, seem disinclined to help me in any way, so I send this report without waiting longer for the others.

Three banks and eight business houses failed recently in Medellin, Colombia, and the financial situation is extremely bad there. It is rumored that some banks here suffered therefrom and this may account for their reluctance to furnish the information desired.

I am, sir, your obedient servant,

ALBAN G. SNYDER.

HON. WILLIAM B. RIDGELY,  
*Comptroller of the Currency, Washington, D. C.*

*Banco de Colombia—Balance sheet.*

LIABILITIES.		ASSETS.	
Cash and reserve.....	\$10,350,000.00	Cash in hand.....	\$7,742,090.75
Current accounts.....	35,329,926.22½	Bills discounted.....	8,438,415.40
Deposit accounts for fixed periods.....	10,222,917.65	Current accounts.....	41,168,936.12½
Deposit accounts on demand.....	7,886,077.10	Banking houses and real estate (Bogotá and Medellin).....	8,457,733.32½

		Sundries.....	110,545.15
Total.....	69,238,389.30	Total.....	69,238,389.30

This country's paper currency: For all practical purposes the exchange can be taken at about 9,500 per cent or 10,000 per cent. (Above report not dated.)

**COSTA RICA.**

LEGATION OF THE UNITED STATES,  
*San Jose, Costa Rica, July 20, 1904.*

SIR: Referring to your note of April 4 last, I beg to inclose herewith (marked No. 1) annual report of El Banco-Anglo-Costarricense, ending June 30, 1904; also clipping from La Gaceta, the official organ of this Republic, dated July 19, 1904, which gives information on the financial condition of the Bank of Costa Rica, as well as other information requested by you. These are the two principal banks of this

Republic

The information desired by you relative to banks and banking, etc., from the Republics of Nicaragua and Salvador has not yet reached this legation. It will be forwarded as soon as it arrives.

I remain, sir, your obedient servant,

JAMES G. BAILEY,  
*Chargé d' Affaires ad interim.*

HON. WILLIAM BARRET RIDGELY,  
*Comptroller of the Currency, Treasury Department, Washington, D. C.*

[Translation. From La Gaceta, July 19, 1904.]

#### COMMERCE

Although Costa Rica possesses no manufacturing industries, she has ample agricultural resources; therefore it is correct to say that all our national wealth is derived from the soil, and that it is increased by commerce. Consequently the movement of trade is a most reliable index to the economic condition of the country.

#### FOREIGN EXCHANGE.

The international exchanges constitute one of the most faithful barometers of the condition of a nation's productive industries. The rate at which bills of exchange have been sold during 1903 shows that our general production has greatly exceeded our imports in value.

The rate of exchange has kept within the limits at which it would prove profitable to ship bullion; and that there have been no marked fluctuations is proved by the following table of rates for bills on London at ninety days' sight:

	Premium.		Premium.
1903.		1903.	
January .....	109.80	July .....	111.80
February .....	110.80	August .....	111.80
March .....	110.80	September .....	111.00
April .....	110.80	October .....	111.00
May .....	110.80	November .....	111.00
June .....	111.80	December .....	111.00

From this it appears that the average rate of exchange during the year was 211 per cent for English money, or, in other words, 10.55 colones to the pound sterling. The rate of exchange between this country and the United States during the same year averaged 217 per cent. The difference therefore of the rates of exchange on the two countries exactly corresponded with the actual differences in their monetary standards.

The differences in the rates of exchange on the two countries, England and the United States, scarcely amounted to 2 points, and these differences were due to purely mercantile causes which sometimes gave rise to a preference for certain commercial paper; therefore it may be truthfully said that our exchanges with foreign countries during the last fiscal year were at par, which indicates that the production of the country in 1903 was more than sufficient to meet the obligations of trade and also the demands for domestic consumption.

#### THE CIRCULATING MEDIUM.

Following is a statement of the monetary circulation of the country on March 31, 1903:

	Colones.
Bills of the Bank of Costa Rica .....	1,748,000
Bills of the Anglo Costa Rican Bank .....	299,900
United States gold (\$750,000) .....	1,612,500
National gold coin .....	3,000,000
National silver coin .....	700,000
Total .....	7,360,400
Less the bank reserve of 50 per cent of their circulation .....	1,023,950
Balance .....	6,336,450

The circulation on March 31, 1904, is estimated to have been as follows:

	Colones.
Bills of the Bank of Costa Rica.....	1,744,000
Bills of the Anglo Costa Rican Bank.....	1,199,900
United States gold (\$908,916).....	1,954,169
National gold coin.....	2,967,555
National silver coin.....	700,000
Nickel.....	12,600
Total.....	8,578,204
Less bank reserve of 50 per cent.....	1,471,950
Balance.....	7,106,254

The sources of the data for making this calculation are obvious. The law requires banks to publish an official statement each month of their issue, circulation, and metallic reserve, and from these particulars, which are confirmed by official examiners, it is apparent that the figures regarding the amount of bank bills in circulation are correct. The issue of the Bank of Costa Rica has suffered no change during the present fiscal year. In October this corporation was authorized to issue 10,000 colones in new bills to take the place of an equal amount of notes which had been redeemed as no longer fit for circulation. The issue of the Bank of Costa Rica therefore has remained the same. This, however, has not been the case with that of the Anglo Costa Rican Bank. The law permits banks of issue to put forth notes to an amount equal to their capital stock. The Anglo Costa Rican Bank, whose capital is 1,200,000 colones, last year obtained permission from the Government to increase the issue of its notes, and did increase the amount first mentioned by 900,000 colones.

The total amount of notes in circulation, of both banks, is something less than one-third of the amount of gold coin now in the country; therefore, our monetary system is perfectly secure.

The sum of 341,669 colones, equal to \$158,916, by which the amount of United States gold coin appears to have been increased, is made up as follows:

United States notes and gold coin imported by the United Fruit Company.....	\$203,475
Less 20 per cent, the estimated amount exported without declaration, or removed by travelers.....	\$40,695
Declared exports.....	3,864
Balance.....	158,916

The stock of national gold coin decreased 32,465 colones. This sum consisted of worn coin, which—as there is no mint here—were exported by the Government and by individuals during the year.

The stock of national silver coin apparently has not changed. By legislative enactment, initiated by Congress during the last year's sessions, there now appears, for the first time, 12,600 colones in nickel pieces of 2 centimos each. This innovation cost the exchequer 3,128.15 colones, and although the Government did not think there was any demand on the part of the people for this new medium of circulation, it executed the decree simply out of respect for the will of Congress. The nickel coins are now in the bank to the credit of the exchequer; they do not circulate.

The total amount of the circulating medium March 31 last was 7,106,254 colones, exceeding that of the preceding year by 769,804 colones. The average amount per capita was 22 colones.

The successive increases which have taken place in our circulating medium during the last three years are exhibited below:

Year.	Popula- tion.	Circulation.	Average per capita.
		Colones.	Colones.
1901.....	312,000	5,058,073	16.50
1902.....	316,728	6,936,450	20.00
1903.....	322,618	7,106,254	22.00

Ten years ago, when the amount of notes in circulation had reached its height, the total circulation was as follows:

	Colones.
Notes.....	4,186,267
Silver coin.....	1,500,000
Total.....	5,686,267

Never before have we had so large a circulating medium, and the fact that the banks are holding very large amounts of money proves that it is sufficient for all our requirements. In it, therefore, we possess one of the most essential factors for the increase of trade and, consequently, for the expansion of our national wealth.

## CUBA.

## LEGATION OF THE UNITED STATES OF AMERICA,

*Habana, Cuba, May 4, 1904.*

SIR: I have to acknowledge receipt of your communication of the 5th of April, 1904, relative to the condition of banks and banking in this Republic and the financial condition of the country.

In reply I beg to return herewith, duly filled out, the forms accompanying yours of the 5th ultimo, showing statements of the conditions as on December 31, 1903, of the National Bank of Cuba and the Royal Bank of Canada.

The bond issues of 1896-97 constitute the only debt of the Republic, as follows:

Issue of 1896:		
2,098 bonds of \$1,000 .....		\$2, 098, 000
97 bonds of \$500 .....		48, 500
379 bonds of \$50 .....		18, 950
Issue of 1897:		
44 bonds of \$10 .....		440
159 bonds of \$5 .....		795

There is no floating debt.

I inclose herewith a copy of the report of the auditor-general of Cuba, wherein you will find data relative to the revenues and expenditures from May 20, 1902, to June 30, 1903 (last fiscal year).

No report has been made on the stock of money of the country.

I am, sir, your obedient servant,

H. G. SQUIERS.

The COMPTROLLER OF THE CURRENCY,

*Treasury Department, Washington, D. C.*

Public works.....	113, 263. 25
Total expenditures.....	3, 150, 406. 18
Total expenditures.....	15, 983, 646. 71

## DOMINICAN REPUBLIC.

LEGATION OF THE UNITED STATES OF AMERICA,

*Port au Prince, Haiti, June 9, 1904.*

SIR: I have the honor to acknowledge the receipt of your favor of April 5, 1904, inclosing a circular requesting information of banking corporations of every character in operation in the Dominican Republic.

I have the honor to state that there are no established banks in this republic. There are several mercantile firms, who, in connection with their mercantile matters, do in part what might be classed a banking business; that is, discounting drafts and issuing loans to the Government at heavy rates of interest, but none do a distinctive banking business.

In reference to your second query, I am afraid I am unable to give you as accurate information as I would like, owing to the disordered condition of the treasury department, caused by the repeated revolutions that have occurred within the last two years.

1. The bonded debt is supposed to be at the present time \$30,000,000.  
2. Of the floating or interior debt no estimate can be given, for the reasons stated above.

3. Revenue for the last fiscal year: (a) From imports, above \$2,000,000; (b) internal taxes, there are none.

4. Expenditures for the last fiscal year: Impossible to state. All that has been received from the revenue has been used to suppress the present revolution.

5. Stock of money, etc.: This varies according to the needs of commerce. American gold is imported when needed. All business is conducted on a gold basis, the American gold dollar being the standard unit of value. Silver, as gold, is imported according to the need of the merchant. Dominican silver currency is of little value, being rated as follows: Dominican silver dollar is worth 20 cents. The amount of this class of currency is supposed to be about \$3,000,000.

This information is as accurate as I can obtain. I trust it may be of some little value to you in the compilation of your report.

I am, sir, your obedient servant,

W. F. POWELL, *U. S. Minister.*

HON. W. B. RIDGELY,  
*Comptroller of the Currency,  
Treasury Department.*

## ECUADOR.

DEPARTMENT OF STATE,  
*Washington, July 13, 1904.*

SIR: I have the honor to inclose herewith, in original, a report prepared by the American minister at Quito, at the request of the Comptroller of the Currency, in regard to the banks of Ecuador and the financial condition of that country.

I have the honor to be, sir, your obedient servant,

JOHN HAY.

The SECRETARY OF THE TREASURY.

## GUATEMALA.

### LEGATION OF THE UNITED STATES,

*Guatemala, August 17, 1904.*

SIR: Referring to your inquiry of April 5 last, concerning the finances and currency of Guatemala and Honduras, I beg to transmit herewith such data concerning the former country as it has been possible to obtain through the courtesy of personal friends engaged in banking in this city.

The statements of the banks are as of June 30 ultimo, and that of the Government's finances is as of December 31, 1903.

The amounts given unless specifically designated as in gold are to be understood as in the current money, viz, the peso, which to-day has an approximate value of 7 cents gold.

The data from Honduras has not yet been received, but will be transmitted as soon as it arrives.

I have the honor to be, your obedient servant,

PHILIP BROWN.

[Statement relative to finances of the Government and the value in United States money of the currency of Guatemala will be found in the text of this report.]

On March 1, 1904, President CARRERA delivered an interesting message to the Guatemalan Congress, from which the following is taken:

Concerning the finances of the country, the President states that the receipts for the year amounted to \$17,586,884.70, or \$2,484,384.70 in excess of the amount estimated in the budget.

The expenses of the administration aggregated \$17,036,938.46 in national money, and \$429,870.74 in gold, and the amount estimated in the budget was \$15,096,645.84.

During the six years that the present administration has been in power the Government has disbursed \$3,681,419.14 gold, and \$75,592,461.73 national money, of which \$2,513,152.56 gold and \$12,691,644.01, national money, were for obligations contracted prior to 1898, the time at which the present executive entered office.

During the years 1896 and 1897 the value of the imports exceeded the value of the exports, but in 1898 the conditions were reversed, and in 1903 the value of the exports exceeded the value of the imports by \$20,932,515.66 gold.

## HAITI.

### LEGATION OF THE UNITED STATES OF AMERICA,

*Port au Prince, Haiti, June 15, 1904.*

SIR: I have the honor to acknowledge the receipt of your favor of April 5, 1904, in which you request as complete information as can be obtained with respect to the condition of banking matters in this Republic.

In reply to your request I have the honor to state that there is but one bank in the Republic, known as the "National Bank of Haiti." It has branches in all the seaport towns in the Republic, and is, under a concession granted by this Government, the fiscal agent of the Republic; that is, it is the custodian of its funds and disburses the same to its creditors. It does a limited banking business outside of acting as the fiscal agent of the Government. It receives deposits, but it does not pay any interest on the same; it also discounts drafts to a limited extent. It does not emit any currency of its own, as the national banks of the States.

Its capital is \$2,000,000, of which \$1,000,000 has been paid in. It has been a happy investment to those who have controlled its affairs, paying on an average a dividend of about 20 per cent a year.

In reference to your second query, I have the honor to state:

The bonded debt is about.....	\$19,000,000
The floating debt is about.....	18,000,000
Revenue for the last fiscal year:	
(a) From imports.....	4,000,000
(b) Internal taxes.....	None.
Expenditures for the last fiscal year not obtainable.	
Stock of money in the country:	
Gold, about.....	2,500,000
Silver, about.....	2,500,000
A new currency has recently been ordered consisting of nickel 5-cent pieces, in size about that of a 5-cent coin, used in the States amounting to .....	65,000
Haiti has no gold, and when used they take either American gold pieces or the French franc.	
Bank circulation:	
Old bills not in use.....	1,500,000
New bills, a part of which have been received.....	7,000,000
Yet to arrive.....	5,000,000

I trust, sir, this information, though not as full as I would like, will be of some benefit to you in the making up of your report. If I can be of any further service to you, please command me.

I have the honor, sir, to be your obedient servant,

W. F. POWELL, *U. S. Minister.*

HON. W. B. RIDGELY,

*Comptroller of the Currency, Treasury Department, Washington, D. C.*

## HONDURAS.

LEGATION OF THE UNITED STATES,  
Guatemala, September 22, 1904.

SIR: Again referring to your inquiry of April 3 last for statistics concerning the banks in Guatemala and Honduras, and to this legation's letter of August 17 last, transmitting statistics of the banks in Guatemala, I have now the pleasure of transmitting a statement of the Bank of Honduras corresponding to June 30, 1904, which has been received through the United States vice-consul at Tegucigalpa.

I am, sir, your obedient servant,

LESTER COMBS.

HON. W. B. RIDGELY,  
Comptroller of the Currency,  
Treasury Department, Washington, D. C.

*Report of the condition of the Bank of Honduras, located at Tegucigalpa, on June 30, 1904.*

RESOURCES.		LIABILITIES.	
Loans and discounts.....	\$311,012	Capital stock <sup>a</sup> .....	\$600,000
Overdrafts.....	18,596	Surplus fund.....	80,000
Due from other banks and bankers....	80,157	Other undivided profits.....	127,915
Cash in bank:		Circulation outstanding.....	406,983
Silver.....	\$332,264	Deposits, at sight <sup>b</sup> .....	45,029
Bank notes.....	93,527	Due to other banks and bankers.....	5,301
Other currency.....	141		
	425,932		
All other resources.....	317,244		
To balance.....	112,287		
Total.....	1,265,228	Total.....	1,265,228

<sup>a</sup> Dividends paid during the past year on capital stock: Amount, \$3,350.

<sup>b</sup> No interest paid to depositors.

## BANKING AND INTEREST IN HONDURAS.

Honduras has but one bank, the Banco de Honduras, established in 1899. The bank rate of interest on loans is 18 per cent per annum, interest deducted in advance from the amount of the loan. The following data, obtained from 141 of the principal towns of the Republic, illustrate in the most emphatic manner the opportunity and necessity for other banks to be established: The monthly rate in 7 towns is 1 per cent; in 9 towns, 1½ per cent; in 82 towns, 2 per cent; in 13 towns, 3 per cent; in 4 towns, 4 per cent; in 3 towns, 5 per cent; in 18 towns, 6 per cent; in 1 town, 10 per cent, and in 4 towns, 12½ per cent. (Wm. E. Alger, Consul, Puerto Cortes, Honduras, August 10, 1904.)

## MEXICO.

EMBASSY OF THE UNITED STATES OF AMERICA,  
Mexico, August 11, 1904.

SIR: In accordance with a request contained in your letter of April 6, 1904, relative to the condition of banks, banking, etc., in the Republic of Mexico, I have the honor to transmit herewith a statement of banking institutions operating in Mexico by virtue of Government concessions. I also transmit a copy and translations of the note of Subsecretary of the Treasury Nunez, with which the aforesaid information was transmitted to this Embassy. As soon as the other information is received I will forward it.

\* \* \* \* \*

Very respectfully, yours,

POWELL CLAYTON.

HON. WILLIAM B. RIDGELY,  
Comptroller of the Currency,  
Treasury Department, Washington, D. C.

MEXICO, August 5, 1904.

Hon. POWELL CLAYTON,

*Ambassador of the United States of America, City.*

DEAR SIR: Complying with the wishes expressed at one time by Mr. Fenton R. McCreery, first secretary of the embassy, and referring to a letter addressed to you by the Comptroller of the Currency, Mr. William B. Ridgely, I have the honor to send you a statement of banking institutions operating in the country by virtue of Government concessions, with all the data that were requested in the Comptroller's aforesaid letter.

I am as yet unable to furnish you similar data—that is, those relating to the public debt of the country up to June 30 last, the income and expenses for the last fiscal year, etc.—because the general treasurer of the nation is allowed, according to law, four months to concentrate all data and render his report, therefore the treasury department has not at hand yet the necessary data to furnish you the statement requested, but I will send the same to you so soon as possible.

In the meanwhile, I remain, your respectful and obedient servant,

ROBERTO NUÑEZ.

[From report for year 1903 of Banco Aleman Transatlantico.]

Favorable economic conditions in Mexico have generally prevailed during the past year. The following commercial statistics again show a satisfactory increase in the balance of trade, viz:

	Silver.	
	1903.	1902.
Exports.....	\$219,000,000	\$172,030,000
Imports.....	191,000,000	151,000,000

The excess of exports was \$28,000,000 silver, as against \$21,000,000 silver in 1902. Of the precious metals the value exported amounted to as much as \$102,000,000 silver, as against \$76,000,000 silver in 1902.

The steady rise in the price of silver, which continued with but short intervals during the whole year, exercised a not unimportant influence on the favorable course of business.

In January bar silver was quoted in London  $21\frac{1}{4}$ d., on October 14 reached the highest price of the year,  $28\frac{1}{16}$ d., and at the end of December was somewhat lower again at  $26\frac{1}{4}$ d.

The question of placing the national currency upon a more stable basis has again engaged the attention of the Government, who during the year sent a special commission to foreign countries with the view of gathering further information upon the subject. The report of the commission has been duly furnished to the Government, but up to the close of the year no decision had been announced as to the course which will be followed in practically dealing with the matter.

It is, however, unmistakable that the projected Government action has already exercised some influence on the course of the rate of exchange, so closely allied with the price of silver, for the quotation for sight drafts on Germany, which at the commencement of the year was  $1.60\frac{1}{2}$  marks per Mexican dollar, fell in March temporarily to  $1.56\frac{1}{2}$  marks, rose, however, gradually to 1.95 marks in October, and was at the end of the year somewhat weaker at 1.86 marks, on its becoming known that the Government had not arrived at a decision as to currency reform.

Imports show in almost every article an important increase, which is attributable to the greater consuming power exhibited by the country, and business generally throughout the Republic was conducted upon a remunerative basis. Gratifying development was shown in the manufacturing industries of the country, and was particularly evident in the mining industry and its allied enterprises.

The favorable economic position was this year again reflected in the budget of the Mexican Republic, the excess of ordinary revenue over expenditure amounting in the past fiscal year to \$7,800,000 silver. Railways and other public works continued to be constructed. In connection with the railway policy of the Government special mention should be made of the transaction whereby, through the acquisition of a considerable amount of the shares of the National Railway, it secured the control of that and the International and Interoceanic railways.

## PANAMA.

AMERICAN LEGATION,  
Panama, October 4, 1904.

SIR: Referring to your letter of March 31 to the Hon. John Barrett, I beg to inclose a statement made by Messrs. Ehrman & Co., the most prominent bankers in Panama.

I regret that I am unable to furnish you with fuller information as to the condition of financial institutions here, but when I inform you that I submitted the inclosed form to Messrs. Ehrman & Co. in June last and have only received it yesterday, you will appreciate how difficult it is to obtain the information you desire.

A law has been passed for the establishment of a mortgage and loan bank under Government auspices and with Government capital, but so far the project has not been carried out.

The International Banking Corporation of New York has just established an agency here. It has been open for business for a month and a half.

The Government of Panama has imposed a commercial license tax on banking institutions, details of which will be found in my report published in the Daily Consular Reports, dated August 25, 1904. As to the present condition of the finances

of Panama there is no debt, and no statement has been made up as to expenditures and receipts. The coinage of the country is now being minted in the United States, and will be used to redeem the present Colombian silver money at the rate of 212½ Colombian pesos for 100 balboas, as the unit of the new money is called. It is not known exactly when this new coinage will be ready. It will be upon a gold basis, in accordance with the Panama currency law, with which you are without doubt familiar.

Yours, respectfully,

JOSEPH J. LEE, *Chargé d'affaires.*

W. B. RIDGELY, Esq.,  
Comptroller of the Currency,  
Treasury Department, Washington, D. C.

### PERU.

LEGATION OF THE UNITED STATES,  
*Lima, Peru, August 2, 1904.*

SIR: In compliance with the request contained in your communication to me of April 6, 1904, for certain information with respect to the condition of banks and banking in Peru and the financial condition of the country, it affords me pleasure to inclose you herewith a letter, with its accompaniments, received at this legation this afternoon from Mr. M. B. Wells, the manager of the Banco del Peru y Londres, and a note from Señor J. Adolfo Reyes, director of the treasury, which came to hand several weeks ago.

Mr. Wells' data relate to the last day of the fiscal year of the banks, which is June 30, while the memorandum of Señor Reyes deals with the end of the fiscal year of the Government, which is the 31st of December.

Respectfully yours,

IRVING B. DUDLEY,  
*United States Minister.*

HON. WILLIAM B. RIDGELY,  
*Comptroller of the Currency, Washington.*

[Translation.]

OFFICE OF THE DIRECTOR OF THE TREASURY,  
*Lima, June 17, 1904.*

MY DEAR SIR: In reply to your favor, I take pleasure in giving you the data which you requested:

Interest-bearing debt at the close of December 31, 1903.....	£p2,660,645.000
Noninterest-bearing debt.....	377,810.000
Floating debt.....	900,000.000
General revenues.....	1,708,138.770
Imports.....	853,171.994
Taxes.....	739,240.828
General expenditures.....	1,478,898.204

In regard to the fifth item, in relation to the stock of money in the country, it seems to me preferable to apply for this to the Bank of Peru and London or to the chamber of commerce, as our statistics are incomplete.

It will afford me great pleasure to submit whatever information is at my command.

Sincerely yours,

J. ADOLFO REYES.

A. S. E. el H. Sr. My E. E. de los E. E. U. U.

H. S. IRVING DUDLEY,  
*Ciudad.*

LIMA, August 1, 1904.

DEAR MR. DUDLEY: I now beg to hand you statements of conditions as of June 30 of the four banks in Peru numbered in the order of their importance, say Banco del Peru y Londres, Banco Italiano, Banco Internacional del Peru, Banco Popular del Peru, the statements being drawn up as nearly as possible to the form supplied you by the Comptroller of the United States Currency, and whose letter I now return.

Some particulars asked for can not be given, as the banks do not publish them, and even direct application would be of no avail.

I have made up the statements in the gold currency of the country, say the Peruvian pound, equal in every respect to the English sovereign, our silver coin now only being treated as subsidiary coin, the stock of which is getting scarcer and scarcer every day; neither fiscal nor bank notes now exist.

The stock of money in the country on December 31, 1903, was estimated to be some £1,500,000, including gold and silver, and I should think this was a very full estimate. How much of this amount was in gold and how much in silver it is impossible to say.

Without more complete published information it is difficult to state the average rate of interest paid to depositors, but the following is the tariff ruling last year and still in vogue, viz:

	Per annum.
	<i>Per cent.</i>
Deposits at sight.....	2
Deposits, three months sight.....	3
Deposits, six months sight.....	4
Deposits, nine months sight.....	5
Deposits, twelve months sight.....	6

Peru, as you are aware, has no foreign debt, and its internal debts are of little relative amount, say—

Consolidated debt, £p2,660,000 bearing interest at the rate of 1 per cent per annum, quoted in the market at 90 per cent discount, so that the effective value of this debt to-day is only £p266,000.

Amortization debt, amounting to some £p380,000, which bears no interest but has a quarterly service of amortization by sealed tenders to the lowest bidder, quoted in the market to-day at 15 per cent, so that the effective value is only £p57,000.

Hoping the information supplied will be found sufficiently comprehensive,

I am, dear sir, yours sincerely,

M. POWELL.

IRVING B. DUDLEY, Esq., *Present.*

*Report of the condition of the Banco del Perú y Londres, located at Lima (Peru), on June 30, 1904.*

RESOURCES.		LIABILITIES.

Total.....	252,994	Total.....	252,994

Dividend paid during the year 1903 at the rate of 12 per cent on capital stock of £72,000.

### SALVADOR.

LEGATION OF THE UNITED STATES OF AMERICA,  
*San José, Costa Rica, September 1, 1904.*

SIR: I have the honor to inclose herewith statement of expenditures by the Government of the Republic of El Salvador during the year 1903; also statements of the condition of the two banks in the Republic—Banco Agricola Comercial and Banco Occidental—on June 30, 1904. The information is official and can be relied upon.

Hoping that it may be of service to you, and with assurances of my respect, I beg to remain, sir,

Your most obedient servant,

WILLIAM LAWRENCE MERRY,  
*American Minister.*

HON. WILLIAM BARRET RIDGELY,  
*Comptroller of the Currency, Washington, D. C.*

# 496 REPORT OF THE COMPTROLLER OF THE CURRENCY.

Finance.....	440,595.94
War and marine.....	1,939,914.19
Public credit.....	2,458,144.11
	<hr/>
	7,704,756.34
Excess of receipts over expenditures.....	276,098.89

Of the customs duties collected during 1903, \$3,620,477.09 were collected on imports and \$652,656.83 on exports.

## URUGUAY.

LEGATION OF THE UNITED STATES,  
*Montevideo, Uruguay, May 20, 1904.*

DEAR SIR: Your letter, with inclosures, dated the 6th ult., to hand.

It will be difficult, I fear, to obtain the information you wish from Paraguay, but I am making an effort and will report result.

Through the manager of the Bank of the Republic here I hope to get a pretty complete report of the condition of banks and the system of banking in Uruguay.

W. R. FINCH.

HON. WILLIAM B. RIDGELY,  
*Comptroller of the Currency, Washington, D. C.*

LEGATION OF THE UNITED STATES,  
*Montevideo, Uruguay, July 16, 1904.*

DEAR SIR: As requested in yours dated April 6 last, I inclose report prepared for me by Peter C. Towers, esq., cashier of the Bank of the Republic, Montevideo, giving information about the financial condition of Uruguay and the bank of which he is the cashier.

The solicited information from Paraguay has not been received.

Very truly yours,

W. R. FINCH.

HON. WILLIAM B. RIDGELY,  
*Comptroller of the Currency, Washington, D. C.*

*Report of the condition of the Bank of the Republic of Uruguay, located at Montevideo, on June 30, 1904.*

<sup>a</sup>By the charter of the bank 10 per cent of the yearly net profits are applied to the amortization of these bonus shares.

<sup>b</sup>Ten per cent of the yearly net profits are also applied to increase the reserve fund, the remaining 80 per cent being distributed as a dividend.

Dividends paid during the past year on capital stock \$288,355, or 5.767 per cent on the paid-up capital of \$5,000,000.

Average rate of interest paid to depositors, 2.40 per cent.

BANK OF THE REPUBLIC,  
Montevideo, July 15, 1904.

DEAR SIR: At length I am able to reply to your favor of May 20 ultimo, not having done so sooner for the reasons already given to you verbally.

I regret to say that I am not allowed to give all the information you require in the bank report, but such as we are allowed to give you will find in the annexed note.

Regarding the other information you desire with respect to the financial condition of the country:

1. The bonded debt: According to the statement of the "office of public credit," published under date December 31, 1903, the amount of bonded debt outstanding at that date was \$123,754,455.82. To this must be added the \$1,000,000 of the extraordinary loan, issued by the Government in May, which would give a total of \$124,754,455.82.

2. Floating debt: Impossible to estimate at present, especially with the country in a state of civil war the expenses of which will come under this head.

3. Revenues for the last fiscal year. This ended on June 30 last, but the accounts are kept open until the 31st of August next, however, according to the statement of the minister of finance in his message to the Chambers on June 17, he estimated the revenue for the year at \$15,058,265, and in this estimate he calculated the customs duties for June at \$680,000, but as they produced about \$80,000 more than this amount, the total revenue may be put down as approximately \$15,138,265, divided as follows: (a) From import and export duties, \$9,881,000; (b) from internal taxes, \$5,257,265.

4. Expenditure for the last fiscal year. According to the finance minister's statement above referred to this would be approximately \$16,460,000, the exact figures will not be known till later on in the year.

5. Stock of money in the country. This can only be a matter of opinion and difficult to estimate, but I put it down as follows:

Coin:	
Gold.....	\$27,000,000
Silver.....	3,500,000
Nickel.....	500,000
Total.....	31,000,000

# 500 REPORT OF THE COMPTROLLER OF THE CURRENCY.

Bank notes in circulation on June 30 last were as follows:

Gold notes:	
Bank of the Republic.....	\$2,473,670.00
London and River Plate Bank (Limited).....	2,844,670.00
Italian Bank of Uruguay.....	2,087,940.00
	7,406,280.00
Silver notes:	
Bank of the Republic.....	2,463,965.50

Respectfully, yours,

P. C. TOWERS.

W. R. FINCH, Esq.,

[Extract from the Venezuelan Herald.]

## NEW NATIONAL BANK OF VENEZUELA.

The Constituent Congress of the United States of Venezuela decrees:

ARTICLE 1. There shall be an emission, deposit, draft, loans, and discount bank, which shall be called the "National Bank of Venezuela," and whose head office shall be in the capital of the Republic.

ART. 2. The capital of this bank shall be 25 million bolivars.

ART. 3. This capital shall be divided into shares of 500 bolivars each.

ART. 4. The national Government may subscribe a part or all of the capital of the bank, it may offer a part of the shares for subscription to national or foreign capitalists, or enter into contract for the creation of this institution with any person or company, subject to the provisions of the law.

ART. 5. The subscribers shall pay 30 per cent of each share into the places to be appointed by the board of directors thirty days before the opening of the bank for business, and the rest shall be at the disposition of the said board of directors, to be paid also in money, wholly or in part, whenever the said board requires it, on giving at least thirty days' previous notice. Any shareholder who shall not make the first payment within the term appointed shall not be considered a subscriber, and the board may dispose of his share or shares.

If after making the first payment he should not pay the rest wholly or in part, as abovesaid, fifteen days after the expiration of the term appointed for the payment, he shall be subject to have his share or shares sold for what may be offered and to receive the product of the sale after the expenses have been deducted.

ART. 6. The bank may begin business on having 20 per cent of its capital in its treasury.

ART. 7. The bank shall establish agencies in all the customs ports of the Republic and branches in such towns as it deems fit.

ART. 8. The statutes of the bank shall be previously submitted for the approbation of the Government.

ART. 9. The maximum of interest on discounts and loans which the bank may make shall be 9 per cent per annum.

ART. 10. The privilege of issuing notes payable to bearer is hereby granted to the Bank of Venezuela, but this issue shall not exceed the amount of its paid-up capital.

It shall be obligatory to redeem these notes in cash money, on presentation thereof, for which purpose the bank shall fix hours every day for such exchange, both in Caracas and at its agencies and branches.

ART. 11. The receipt of these notes is voluntary and no one shall be obliged to receive them.

ART. 12. The notes of the bank shall be received in national offices in payment of taxes, contributions, and credits.

ART. 13. The notes of the bank shall not represent less amounts than 20 bolivars nor more than 1,000 bolivars, and shall be printed or engraved on good paper of various colors, and in a numbered series, according to the value they represent, and shall be signed by the director of the institution and by the manager or secretary with all the precautions necessary to prevent falsification.

ART. 14. Torn notes, as also those that are dirty and soiled so as to be rendered wholly or partly illegible, shall be withdrawn from circulation.

ART. 15. The duration of this bank shall be twenty-five years, and during that time no other concessions which may be equal to, greater than, or contrary to those granted to the National Bank of Venezuela shall be made to other banks.

ART. 16. Three years before the expiration of the time fixed in the preceding article the Congress shall pass the necessary measures regarding the continuation of the National Bank of Venezuela.

ART. 17. The executive shall entrust to the National Bank of Venezuela the collection of the public revenue, if it should deem it expedient to do so, for which purpose the Government shall make the necessary rules and regulations, or may make a contract for the said collection if the institution is constituted as a private company.

ART. 18. By judicial orders the shares of the bank may be seized and even sold, but not for the purpose of withdrawing their value, but the purchaser thereof shall be held to be a substituted shareholder to the extent of the net balance remaining in the bank in favor of the defendant.

ART. 19. The national executive shall dictate the necessary formalities which shall be observed for the constitution of the bank and the penalty to be imposed on the directors for the infraction thereof.

ART. 20. The bank referred to in this law shall have the following duties:

1. To publish monthly, through the press, the balance sheet taken from their books, in which shall be clearly stated the total value of the money in the treasury, specifying the quantities of gold and silver of which it is composed; the amount and nature of the deposits, if there are any, and of the products and commercial obligations on hand, indicating the time of maturity, those realizable and those nonrealizable, of all which separate accounts shall be kept.

The bank shall furthermore express the value of the notes which are in the treasury, of those which are in circulation, and the amount of loans made to directors, administrators, shareholders, and agents, and of the obligations of the bank.

ART. 21. The bank shall be obliged to keep in stock, as a guaranty fund, 20 per cent of the total capital, and, furthermore, to form a reserve fund of 10 per cent of the net profits, and these funds shall serve, in case of suspension of payment, loss, or bankruptcy, to answer the obligations of the bank.

[Extract from message of President Castro, February 20, 1904, to the Venezuelan Congress.]

With reference to the finances of the nation, the President says:

"The financial statement will be short but eloquent. I present to you here, in a brief recapitulation, some of the data which you will find fuller and in minute detail in the report of the secretary of the treasury.

"In accordance with the authority which Congress conferred on the national executive by decrees of April 11, 1903, and May 8 of the same year, I ordered the coinage of 4,000,000 bolívares in silver at the mint in Philadelphia. Of this amount 3,000,000 bolívares had arrived at the custom-house of La Guaira up to December 31, 1903, and the rest, or 1,000,000 bolívares, was received in January, 1904. The total cost of this silver and its mintage was 1,383,216.06 bolívares.

"The salt mines of the Republic produced in the economic year ending June 30, 1903, the sum of 1,478,653.92 bolívares. This amount is about 50 per cent of the production of those mines during the former year, but such a decrease is natural and even small, if the period in which it was made is taken into account.

"The paralyzation of the account of the bonds of the salt mines was absolutely necessary up to the month of August, at which time the Government determined to apply to their amortization the receipts obtained after that month. With this amount and the sums credited by the transfer of the war tax, there have been made up to the present time 17 payments, which have reduced the balance of the account to 3,050,500 bolívares.

"The stable character of the 1 per cent bond account has produced an increase in it. The amount in circulation is 3,360,596.12 bolívares, to which have been added up to December 31 last the interest amounting to 2,250,781.44 bolívares. The balance of this account was then, on the date mentioned, 5,611,377.56 bolívares.

"As will be seen by the report of the secretary of the treasury, the amount of sealed paper on hand on January 1, 1904, was 546,114 bolívares.

"The customs receipts of La Guaira and Puerto Cabello, being subject to the reduction of 30 per cent agreed to in the protocols of Washington, the Government had to levy a special war tax, as you will see in the report of the secretary of the treasury. That measure, which it was necessary to introduce in order to avoid a financial crisis of the Government under such critical circumstances as those through which we have just passed, produced 9,760,172.50 bolívares, and these receipts enabled us to attend to pressing obligations, the gravity and urgency of which may be comprehended from the items of the account.

"On December 31, 1902, the account of the Government with the Bank of Venezuela showed a balance against the nation of 10,495,193.89 bolívares. That balance, on December 31, 1903, was 3,215,992.61 bolívares, which we have continued diminishing until, at the present time, it is less than 1,500,000 bolívares."

The message contains also interesting information on the finances of the country, of which the following is a summary:

REVENUES.	Bolívares.
Custom receipts .....	21,102,827.53
Transit tax .....	5,731,292.66

## JAPAN.

TOKYO, JAPAN, October 14, 1904.

SIR: According to the promise made in my letter of the 16th of August, I take pleasure in sending you herewith semiannual statement of the condition of banks in Japan for publication in your forthcoming report to the Congress.

Hoping this will reach you in time for publication,

I remain, sir, yours respectfully,

K. Ito,  
Chief of Secretary's Department.

THOMAS F. KANE, Esq.,  
Deputy and Acting Comptroller, Washington, D. C.
