

U.S. DEPARTMENT OF LABOR  
Bureau of Labor Statistics  
Washington, D. C. 20210

CONSUMER PRICE INDEX FOR OCTOBER 1964

The Consumer Price Index rose by 0.1 percent in October, the United States Department of Labor's Bureau of Labor Statistics announced today. Prices rose slightly for almost everything except food, gasoline, and household appliances.

At 108.5 percent of its 1957-59 average, the October index was just 1.2 percent above a year ago, representing a continuation of the moderate advance which has characterized consumer prices for the last several years.

TRANSPORTATION      Transportation costs rose 0.5 percent in October, as dealers offered smaller concessions on incoming 1965 models of new cars than they had in September for 1964 models. However, new car prices were down by 1.7 percent from October 1963 levels. Gasoline prices declined seasonally, but higher automobile insurance rates were reported in some areas.

OTHER PRICE INCREASES      Housing costs rose 0.2 percent in October, chiefly because of continuing increases in homeownership costs and rents. Apparel prices advanced 0.3 percent as the usual fall increases were reported, especially for women's wool apparel. Medical care costs rose again in October.

FOOD      Food prices averaged 0.3 percent lower in October, returning to their August level. Fluctuations in meat prices were primarily responsible for the September increase in average food prices and the October decline. Pork prices were sharply lower in October, in response to higher production. Prices of most cuts of fresh beef also moved downward, as a result of seasonally increased supplies and anticipation of increased beef slaughter following the end of the National Farmers' Organization withholding action early in the month.

Egg prices declined in October reflecting increased supplies, contrary to their usual seasonal pattern. Prices of apples and potatoes dropped sharply, but, like most other fresh fruits and vegetables, were higher than a year ago, because of unfavorable weather conditions in some growing areas this year. Food prices as a whole averaged 1.9 percent above October 1963 levels.

COST-OF-LIVING ADJUSTMENTS      Based on the national Consumer Price Index for October, about 850,000 workers are scheduled to receive cost-of-living increases of 1 cent an hour. Of these, 725,000 are in the automobile industry, 45,000 in farm equipment, and 80,000 in aerospace. An additional 200,000 workers in the automotive parts and farm equipment industries are also covered by agreements providing for adjustments based on the October index, but details of these adjustments are not yet available. Cost-of-living allowances of 11,500 transit workers will be reduced by one-half cent an hour, based on the quarterly change in the index for Chicago.

OTHER BASES

shown below:

The Consumer Price Index for October 1964 and the purchasing power of the consumer dollar on the bases of 1947-49 and 1939 are

<u>Base</u>	<u>Index</u>	<u>Purchasing Power</u>
1947-49=100 (or \$1.00)	133.1	\$ 0.751
1939=100 (or \$1.00)	224.1	.446

---

:The first set of the attached tables (A-1 etc.) presents the new index :  
 :series, covering both single workers living alone and families. The :  
 :analysis contained in this report is based on these tables. Table B-1 :  
 :presents a new index series for families only (excluding single workers). :  
 :The old series index, U.S. city average, was discontinued after June 1964.:  
 :However, indexes for several cities will be published on the old basis :  
 :for a short time. These are shown on Table C-1. :

1/ Area coverage includes the urban portion of the corresponding Standard Metropolitan Statistical Area (SMSA) except for New York and Chicago where the more extensive Standard Consolidated Areas are used. Area definitions are those established for the 1960 Census and do not include revisions made since 1960.

2/ Foods, fuels, and several other items priced every month in all cities; most other goods and services priced as indicated:

M - Every month.

1 - January, April, July, and October.

2 - February, May, August, and November.

3 - March, June, September, and December.

		September 1964		June 1964	September 1963
Cincinnati-----	3	107.0	130.2	0.8	1.8

1/ The old series Consumer Price Index, U.S. city average, has been discontinued with the June 1964 publication. Contrary to original plans, Portland and Scranton will be published on the old series basis temporarily. Indexes for Cincinnati, Houston, Kansas City, and Minneapolis will be published on the old series basis for the duration of 1964 and the first part of 1965, and will be added to the new series index in 1966. The present index for Milwaukee calculated by special arrangement with the City of Milwaukee, is now published on the old series basis, and will also be added to the new series index in 1966.

2/ Foods, fuels, and several other items priced every month in all cities; most other goods and services priced as indicated:

- 1 - January, April, July, and October.
- 2 - February, May, August, and November.
- 3 - March, June, September, and December.
