JOINT COMMITTEE ON THE ECONOMIC REPORT

(Created pursuant to Sec. 5 (a) of Public Law 304, 79th Cong.)

ROBERT A. TAFT, Ohio, Chairman

JESSE P. WOLCOTT, Michigan, Vice Chairman

RALPH E. FLANDERS, Vermont ARTHUR V. WATKINS, Utah JOSEPH C. O'MAHONEY, Wyoming FRANCIS J. MYERS, Pennsylvania JOHN SPARKMAN, Alabama CHRISTIAN A. HERTER, Massachusetts ROBERT F. RICH, Pennsylvania EDWARD J. HART, New Jersey WRIGHT PATMAN, Texas WALTER B. HUBER, Ohio

FRED E. BERQUIST, Assistant Staff Director

JOHN W. LEHMAN, Clerk

WILLIAM H. MOORE, Economist

To the Members of Congress:

From the time the Joint Committee on the Economic Report was established, its members realized that one of its basic needs was a concise and meaningful picture of current economic trends and developments.

Fortunately, the Joint Committee finds that *Economic Indicators*, a set of basic charts and tables compiled monthly by the Council of Economic Advisers, admirably fills this need. While this material was prepared primarily for the use of the President, the Council and other officials in the executive offices, the Council has made it available to the Joint Committee.

Other Members of Congress have also expressed an interest in being able to obtain a quick picture of current economic facts without having to go through voluminous and specialized documents. In addition, businessmen, farm leaders, labor organizations, and representatives of the press and radio have indicated their desire for this information. Since nothing contained

in these charts and tables is of a confidential nature they have urged that the material be made available to the general public.

Accordingly, the Joint Committee has for the past several months provided the Congress and the public with a limited number of copies of *Economic Indicators*. The response to these issues has indicated such widespread interest that the Committee has arranged to release *Economic Indicators* each month as a committee print until action can be taken on authorizing the publication on a more permanent basis.

Comments or suggestions with respect to possible improvements in this presentation will always be welcome.

Chairman, Joint Committee on the Economic Report.

Robert. Zage -

Letter of Transmittal

Hon. Robert A. Taft, Chairman, Joint Committee on the Economic Report, United States Congress, Washington, D. C.

DEAR SENATOR: The Council of Economic Advisers is happy to cooperate with the Joint Committee on the Economic Report in your plans to make Economic Indicators available to the Congress as a whole and to the general public.

In carrying out its mandate under the Employment Act of 1946, the Council has found it desirable to bring together in concise and graphic form the most important facts showing current trends in the Nation's economy. Thus the Executive Office is in a better position to point up the key problems of national economic policy and to promote the improvement and coordination of the Federal Government's widespread statistical services.

We have realized, of course, that this material has a potential usefulness not only to the President, the Council and the executive departments, but also to the Congress. Furthermore, its usefulness to the general public has been impressed upon us, particularly by the representatives of business, labor, agriculture, and consumer organizations with whom we regularly consult.

We believe the Joint Committee will perform a service of real value by giving wide circulation to this material.

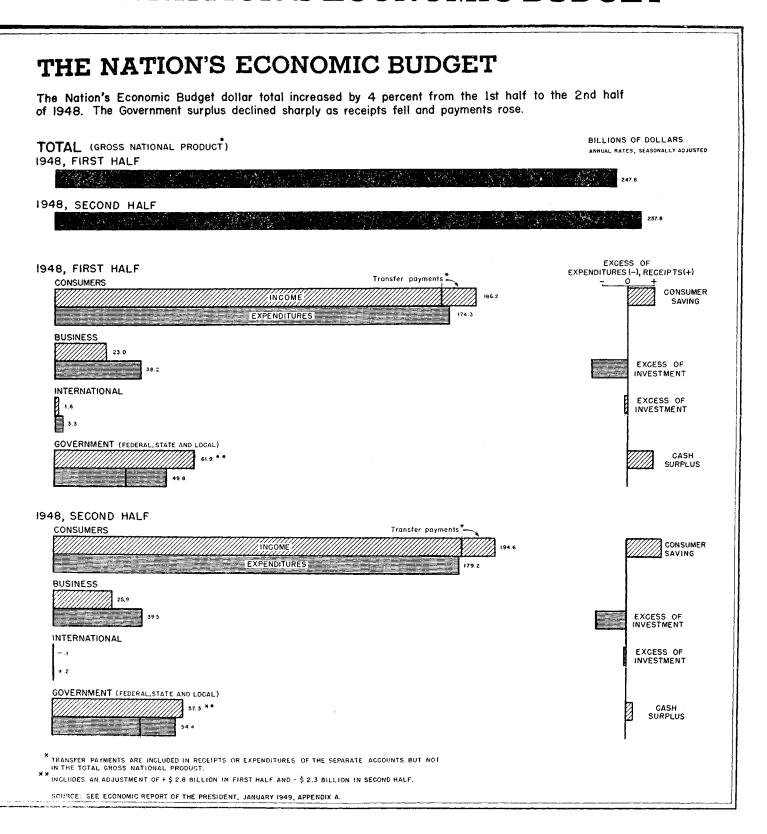

Sincerely yours,

Edwin G. Monne Chairman. Leon Aleyserling Vice Chairman. John D. Clark

THE NATION'S ECONOMIC BUDGET

PRICES

CONSUMERS' PRICES

In November consumer prices declined for the second straight month. The drop in food prices accounted for the decline, as other prices showed only slight changes.

Note.—Prices are for moderate-income families in large cities. Source: Department of Labor.

WHOLESALE PRICES

Wholesale prices dropped in December to a level slightly below December 1947. Farm and food prices accounted for most of the decline. Other than farm and food prices registered a small decrease in December.

¹ Includes all full- and part-time wage and salary workers in nonagricultural establishments who worked or received pay during the pay period ending arest the 15th of the month. Excludes proprietors, self-employed persons, domestic servants, and personnel of the armed forces. Total derived from this ple not comparable with estimates of nonagricultural employment of the civilian labor force reported by the Department of Commerce (p. 6) which include prietors, self-employed persons, and domestic servants; which count persons as employed when they are not at work because of industrial disputes; and ich are based on an enumeration of population, whereas the estimates in this table are based on reports from employing establishments.

2 Preliminary estimate. December data became available after chart was prepared.

AVERAGE WEEKLY HOURS

Average weekly hours in major nonmanufacturing industries declined slightly in October.

New nonfarm family dwelling units. Temporary units are excluded after 1947 when the program ended.
Preliminary estimate.

EXPENDITURES FOR NEW PLANT AND EQUIPMENT

Nonagricultural business expenditures for plant and equipment are expected to show a seasonal decline in the first quarter of 1949, but present estimates run above first quarter of 1948. Railroad and utility investment continues to increase in relative importance.

[Millions of dollars, annual rates, not adjusted for seasonal]

Preliminary estimate.</sup>

AVERAGE WEEKLY EARNINGS

Declines in average weekly earnings in several nonmanufacturing industries in October were primarily due to the somewhat shorter average hours of work. Preliminary data for November show average weekly earnings in manufacturing unchanged.
