## JOINT RESOLUTION [S. J. Res. 55]

To print the monthly publication entitled "Economic Indicators"
Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That the Joint Committee on the Economic Report be authorized to issue a monthly publication entitled "Economic Indicators," and that a sufficient quantity be printed to furnish one copy to each Member of Congress; the Secretary and the Sergeant at Arms of the Senate; the Clerk, Sergeant at Arms, and Doorkeeper of the House of Representatives; two copies to the libraries of the Senate and House, and the Congressional Library; seven hundred copies to the Joint Committee on the Economic Report; and the required number of copies to the Superintendent of Documents for distribution to depository libraries; and that the Superintendent of Documents be authorized to have copies printed for sale to the public.

Approved June 23, 1949.
Charts drawn by Grapbics Unit, Office of the Secretary, Department of Commerce

## THE TOTAL OUTPUT OF THE ECONOMY

## THE NATION'S ECONOMIC BUDGET

Consumer income and saving in the 1 st half of 1950 were substantially higher than in 2 nd half of 1949 , due in part to payment of the National Service Life Insurance dividend. This payment ( $\$ 5.2$ billion at an annual rate) more than accounted for the Government cash deficit in the ist half of 1950.

SOURCE: economic report of the presioent, july ig50, appendix a.

## GROSS NATIONAL PRODUCT

Gross national product rose about $\$ 7$ billion (annual rate) from Ist to 2nd quarter 1950 to a peacetime high of nearly $\$ 270$ billion. The chief factor in the rise was an increase of more than $\$ 5$ billion, or about 13 percent, in the rate of gross private domestic investment.

## PRICES

## CONSUMERS' PRICES

A 1.4 percent rise in consumers' prices in July, the largest monthly gain since April 1948, was mainly due to sharp increases in food prices. All other categories except apparel advanced moderately. A partial survey indicates that, because of seasonal factors, food prices leveled off by mid-August.

## WHOLESALE PRICES

Wholesale prices continued their upward trend during August. Farm and food prices moved irregularly, but industrial prices rose more consistently and reached new peaks.

## PRICES RECEIVED AND PAID BY FARMERS

Prices received by farmers increased about $1 / 2$ percent from July 15 to August 15 , reflecting sharply higher prices for cofton and for dairy and poultry products. Prices paid increased almost I percent.

## STOCK PRICES

During August the weekly index of industrial stock prices reached a postwar peak; railroad stocks maintained the 1950 high levels reached at the end of July. Utilities recovered part of the drop which occurred after the Korean outbreak.

## AVERAGE WEEKLY HOURS - SELECTED industries

Most durable industries reported small seasonal declines in the average workweek in July. Seasonal expansion in food processing and textile industries was responsible for a longer workweek in the nondurable group.

## WORK STOPPAGES

Man-days of idleness resulting from work stoppages increased slightly in July, but the scattered stoppages involved fewer workers than in June.

## PRODUCTION AND BUSINESS ACTIVITY

## INDUSTRIAL PRODUCTION

Industrial production reached a new postwar peak in August, about 4 percent above the July level, according to preliminary estimates. Higher output occurred in most major groups of industries.

[^1]${ }^{1}$ Commercial and miscellaneous romposed of trade, service, finance, and communication
© Figures for third quarter are based on anticipated capital expenditures reported in the July-August survey.
Note.-These figures do not agree with the totals includer in the gross national product estimates of the Department of Commerce, principally because the latter cover agricultural investment and also certain equipment and construction outlays charged to current expense. Figures for 1939-44 are Federal Reserve board estimates based on Securities and Exchang Commission and conser data

Detail will not necessarrly add to totals because annual rates are based on quarterly figures rounded to the nearest $10,000,000$
Sources: Securities and Exchange Commission and Department of Commerce (except as noted).

## NEW CORPORATE SECURITY ISSUES

Net proceeds from new security issues increased about $\$ 800$ million in 2nd quarter. Over half of the increased proceeds was used for retirement of debt and slock.

1 Includes small amount for other purposes.
Note.-Detail will not necessarily add to totals because of rounding.
Source: Securities and Exchange Commission.

## INVENTORIES AND SALES

Manufacturers' and retailers' sales on a seasonally adjusted basis, again achieved new records in July reflecting the buying wave that followed the Korean outbreak. Manufacturers' inventories showed little change.

## MERCHANDISE EXPORTS AND IMPORTS

In July exports fell sharply. Imports continued to increase as they have in 10 of the past 12 months, reaching a level exceeded only once (following a maritime strike). These changes brought the merchandise export surplus down to only $\$ 63$ million, the lowest since June 1941 .

## PURCHASING POWER

## NATIONAL INCOME

Total national income was more than $\$ 9$ billion (annual rate) higher in 2 nd quarter than in Ist quarter of 1950, according to preliminary data. Compensation of employees and corporate profits accounted for the increase.

[Billions of dollars]

[^2]
## CORPORATE PROFITS

Preliminary data indicate that corporate profits before taxes rose sharply in 2nd quarter of 1950, reaching an annual rate of $\$ 35.0$ billion. Dividend payments were unchanged from lst quarter and undistributed profits more than $\$ 3$ billion higher.

[Billions of dollars]

${ }^{1}$ Estimates by Council of Economic Advisers.
Nore.-No allowance has been made for inventory valuation adjustment. See p. 20 for profits before taxes and inventory valuation adjustment.

Detail will not necessarily add to totals because of rounding.
Source: Department or Commerce (except as noted).

## PERSONAL INCOME

Personal income advanced by almost \$2 billion (onnual rate) from June to July, reaching a total of \$219 billion. Most of the increase was in farm and nonfarm proprietors' income. Salaries and wages increased only slightly, while transfer payments dropped with the virtual completion of the NSLI dividend distribution.

## CONSUMER INCOME, SPENDING, AND SAVING

Disposable personal income in 2 nd quarter declined about $\$ 2$ billion (annual rate) from the Ist quarter postwar peak rate of nearly \$198 billion when the bulk of the NSLI dividend was distributed. Consumer expenditures continued to rise.

[^3]
## PERSONAL CONSUMPTION EXPENDITURES

Consumption expenditures increased again in 2 nd quarter, with nondurables, especially food and clothing, registering the major gains. Expenditures for durable goods continued at a high level. Most of the rise was due to price increases and reflected littie change in physical volume.

## CONSUMER CREDIT

Consumer credit increased $\$ 660$ million during July to reach a total of $\$ 20.3$ billion. Most of the increase resulted from continued strong demand for all types of instalment credit.
