## [Public Law 120-81st Congress; Chapter 237-1st Session]

JOINT RESOLUTION [S. J. Res. 55]
To print the monthly publication entitled "Economic Indicators"
Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That the Joint Committee on the Economic Report be authorized to issue a monthly publication entitled "Economic Indicators," and that a sufficient quantity be printed to furnish one copy to each Member of Congress; the Secretary and the Sergeant at Arms of the Senate; the Clerk, Sergeant at Arms, and Doorkeeper of the House of Representatives; two copies to the libraries of the Senate and House, and the Congressional Library; seven hundred copies to the Joint Committee on the Economic Report; and the required number of copies to the Superintendent of Documents for distribution to depository libraries; and that the Superintendent of Documents be authorized to have copies printed for sale to the public.

Approved June 23, 1949.

## THE TOTAL OUTPUT OF THE ECONOMY

## THE NATION'S ECONOMIC BUDGET

Consumer incomes and expenditures both increased sharply in 3 rd quarter. Business income declined mainly
because the increase in inventory valuation adjustment more than offset the rise in corporate profits. Business expenditures increased slightly. The government account changed from a deficit to a surplus.

business

INTERNATIONAL

GOVERNMENT (Federat, stote, and locol)

## GROSS NATIONAL PRODUCT

Total expenditures for goods and services rose $\$ 14$ billion (annual rate), or 5 percent, in 3 rd quarter. Personal consumption expenditures increased 7 percent and business investment, 3 percent. Government purchases showed little increase. Net foreign investment continued to drop.

## PRICES

## CONSUMERS' PRICES

Consumers' prices rose 0.6 percent from September 15 to October 15, to exceed the previous 1948 peak by 0.2 percent. The sharpest price increases were for apparel and housefurnishings. Food prices, although slightly higher, were held down by seosonal declines in meat prices.

## NONAGRICULTURAL EMPLOYMENT - SELECTED INDUSTRIES

Manufacturing employment rose by 70,000 between mid-September and mid-October to nearly 15.8 million, a new postwar record. The increase reflected acceleration in plant and equipment expenditures and record sales of consumers' goods. Employment increased seasonally in trade.

## AVERAGE WEEKLY EARNINGS - SELECTED INDUSTRIES

Average weekly earnings in manufacturing continued their steady rise in October. In durable goods industries, they increased by $\$ 1.25$, largely because of the longer workweek. In nondurable goods industries, they increased by obout $\$ 1.00$, due chiefly to wage rate increases.

## PRODUCTION AND BUSINESS ACTIVITY

## INDUSTRIAL PRODUCTION

Preliminary estimates indicate that industrial production in November dropped just below the high October level because of the storms. The expansion in Octover was primarily the result of increased output of machinery and producers' durable goods and the record production of nondurable goods.

## WEEKLY PRODUCTION - SELECTED INDICAT'ORS

Steel mill operations averaged 102.7 percent of rated capacity during November, breaking all previous tonnage records. Electric power production established new peaks; coal output continued at a high rate. Although assembly of cars and trucks declined because of changing models and taking inventories, production was above last year.

3.0 MILLIONS OF SHORT TONS

## PRODUCTION OF SELECTED MANUFACTURES

Production of iron and steel and machinery climbed substantially above September levels in October; output of other durable goods continued strong. There was increased activity among nondurable industries manufacturing fextiles, chemicals, and petroleum products.

## NEW CONSTRUCTION

Expenditures of $\$ 2.4$ billion (seasonally adjusted) for new construction in November were practically unchanged from the October level but were 22 percent above a year ago. Private residential nonfarm activity continued to decline moderately from its September peak. Other private and public construction were above their October levels.

## NEW HOUSING STARTS

New housing starts in October dropped 10 percent below the September level and, for the first time this year, were below the corresponding month of 1949. Credit restrictions probably contributed to the decline,

## EXPENDITURES FOR NEW PLANT AND EQUIPMENT

Nonfarm plant and equipment expenditures have risen in each quarter of 1950. Businessmen reported in November that in the first quarter of next year outlays would exceed those of any previous first quarter and show an increase of 30 percent over the first quarter of 1950.

${ }^{3}$ Revisions for actual third and anticipated fourth' quarter of 1950 and first quarter of 1951 expenditures became available after the chart was prepared.
Nore. -These figures do not agree with the totals included in the gross national product estimates of the Department of Commerce, principally because the
latter cover agricuitural investment and also certsin equipment and construction outlays charged to current expense. Figures for 1939-44 are Federal Reserve oard estimates based on Securities and Exchange Commission and other data.
Detall will not necessanly add to totals because annual rates are based on quarterly figures rounded to the nearest $10,000,000$,
Sources: Securities and Exchange Commission and Department of Commerce (except as noted).

## NEW CORPORATE SECURITY ISSUES

Net proceeds from new security issues showed a large seasonal decline in 3 rd quorter of the year. About $\frac{2}{3}$ of the total was for financing expansion in fixed and working capital; the remainder for retirement of debt and stock.

## PURCHASING POWER

## NATIONAL INCOME

The increase of over $\$ 101 / 2$ billion (annual rate) in national income between 2 nd and 3 rd quarters was the largest quarterly gain, dollar-wise, on record. Percentoge-wise, the increase was more than $4 \frac{1}{2}$ percent, or about the same as between the first two quarters of 1948.

## CORPORATE PROFITS

Estimated corporate profits for both 2 nd and 3 rd quarters of 1950 have been revised upward by cbout $\$ 2$ billion (seasonally adjusted annual rates). Despite the high corporate tax liability, at on annual rate of $\$ 17.6$ billion in 3 rd quarter, 67 percent higher than in 1949 , profits after taxes were also running at an all-time high. Both dividends and undistributed profits benefited in the increase.

## PERSONAL INCOME

Personal income continued to increase in October due primarily to further advances in wages and salaries and a gain in farm income. Transfer payments also rose as Old Age and Survisorsi Insurance benefits were increased under the new Social Security Act. Dividends dropped.

[Billions of dollars]

1 Inchudes veterans' insurance dividend. During first quarter, the payment was at annual rate of $\$ 8.5$ billion (or $\$ 2.1$ billion, quarterly total) and during second quarter at $\$ 2.0$ billion (or $\$ 502$ million, quarterly total).

2 Preliminary estimates.

## CONSUMER CREDIT

Consumer credit expanded slightly in October. Instalment credit, which had paced the growth in preceding months, rose only $\$ 42$ million, largely because of the impact of Regulation $W$ and the decline in anticipotory buying. The increase in instalment credit was the smallest since the usual January decline.
