# Economic Indicators 

## JULY 1955

## Prepared for the Joint Committee on the Economic Report <br> by the Council of Economic Advisers

#### Abstract

The Joint Committee on the Economic Report in House Report 1256, 83d Congress, 2d session, directed the committee staff to sponsor an intensive review of Economic Indicators. This review was undertaken with the cooperation of the Council of Economic Advisers and the Bureau of the Budget. Comments and suggestions by the users of Economic Indicators have helped the Joint Committee and the Council of Economic Advisers to make several revisions and additions which have already been included in Economic Indicators. This issue contains additional improvements, including a new arrangement of the charts and tables. The Joint Committee is grateful for the assistance it has received and will continue to welcome comments directed toward making Economic Indicators a more widely useful publication.

Paul H. Douglas, Cbairman, Joint Committee on the Economic Report.

## TOTAL OUTPUT, INCOME, AND SPENDING

 THE NATION'S INCOME, EXPENDITURE, AND SAVINGPreliminary estimates of total income and expenditures for the second quarter of 1955 reflect the continued rise in over-all economic activity.

## GROSS NATIONAL PRODUCT OR EXPENDITURE

Recently revised estimates indicate that the gross nationol product reached an all-time hish of $\$ 375$ billion (seasonally adjusted annual rate) in the first quarter of this year. Preliminary estimates indicate a further rise of nearly $\$ 8$ billion to a new record of $\$ 383$ billion in the second quarter.

## NATIONAL INCOME

The continued increase in general business activity during the second quarter was reflected in a rise of over $\$ 8$ billion (seasonally adjusted annual rate) in national income, according to preliminary estimates. Increases in employee compensation and corporate profits accounted for most of the rise.

| Period | Total national income | Compensation of employees ${ }^{1}$ | Proprietors' income |  | Rental income of persons | Net interest | Corporate profits and inventory valuation adjustment |  |  |

[^0]
## SOURCES OF PERSONAL INCOME

Total personal income increased $\$ 2$ billion (seasonally adjusted annual rate) in May and exceeded the $\$ 300$ billion level for the first time in history. Labor income rose materially. Farm income, which fluctuates erratically on a month-tn-mnnth basis. declined.

[^1]

## DISPOSITION OF PERSONAL INCOME

Disposable personal income rose by $\$ 6$ billion (seasonally adjusted annual rate) in the second quarter of this year, according to preliminary estimates. Consumer expenditures rose less than disposable income, and the rate of consumer saving rose to about the level registered in the last half of 1954.

| Period | Personal income | Less: <br> Personal taxes ${ }^{1}$ | Equals: <br> Disposable personal income | Less: Personal consumption expenditures |  |  |  | Equals: <br> Personal saving | Saving as percent of disposable income |

ment payments to farmers. billion dollars and (b) 5.7 billion dollars.

4 Same as farm proprietors' income on pages 3 and 4 except for 1951 , which includes revisions by the Department of Agriculture not yet incorporated into the national income accounts of the Department of Commerce

5 Dollar estimates in current prices divided by index of prices paid by farmers for items used in family living, on base $1954=100$.
For the quarterly data, tre number of farms is held constant within a given year.
7 Estimate by Council of Economic Advisers.
Note.-Estimates for 1952-55 reflect interim revisions made in connection with the annual report on national income by the Department of Commerce. Fina revisions will be completed by the Department of Agriculture in October.

## CORPORATE PROFITS

Corporate profits (seasonally adjusted), both before and after taxes, continued to rise in the second quarter of 1955, according to preliminary estimates.

[Billions of dollars]

| Period | Corporate profits before taxes | Corporate tax liability | Corporate profits after taxes |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: |
|  |  |  | Total | Dividend payments | Undistributed profits |

## EXPENDITURES FOR NEW PLANT AND EQUIPMENT

According to a survey made in April and May, expenditures for new plant and equipment were expected to increase 9 percent between the first and second quarters-the largest quarterly rise since the last half of 1950. Plans for the third quarter indicated an additional rise of 3 percent to a level of about $\$ 29$ billion (seasonally adjusted annual rate), equaling the previous peak in the third quarter of 1953.

## EMPLOYMENT, UNEMPLOYMENT, AND WAGES STATUS OF THE LABOR FORCE

Employment rose between early May and early June to an all-time high of 64 million. Unemployment rose as young workers sought jobs at the close of school, but the rise was smaller than usual at this time of year.

| Period | Total <br> labor <br> force (in- <br> cluding <br> armed <br> forces) | Civilian labor force | Employment ${ }^{1}$ |  |  | $\begin{gathered} \text { Tempo- } \\ \text { rary } \\ \text { layoffs }{ }^{2} \end{gathered}$ | Unemployment ${ }^{3}$ |  | Insured unemployment ${ }^{4}$ |  |

## WEEKLY INDICATORS OF PRODUCTION

According to several weekly indicators, production continued at a high level during June and early July. Production of electric power and paperboard was at record levels. Bituminous cocl mining increased. Steel production and freight carloadings declined slightly. Car and truck assemblies fell, partly as a result of strikes.

| Period | Steel produced |  | $\|$Electric <br> power <br> distributed <br> millions of <br> kilowatt-hours) | Bituminous. coal mined (thousand. of short tons) ${ }^{2}$ | Freight loaded 'thousands of cars) | Paperboard produced <br> thousands of tons) | Cars and trucks assembled (thousands) |  |  |

## SALES AND INVENTORIES-MANUFACTURING AND TRADE

Total sales (seasonally adjusted) increased about 1 percent in May, largely as the result of increased sales by manufacturers. Inventories of manufacturers and distributors also increased during the month. Manufacturers' new orders rose substantially. In June, retail sales continued at the record level reached in April.

| Period | Manufacturing and trade |  | Manufacturing |  |  | Wholesale |  | Retail |  | Department stores |  |

"Rerised to include the items classifled as "national security" in The Rudget of The United States Gorernment for the Fiscal Year Endino June so, 1956 . These exmenditure items are: Military functions of Defense Department, mutual military program, development and control of atomic energy, and allocation of critical and strategic materiais.
${ }^{1}$ Includes giaranteed securities, excent those held by the Treasury. Not all of total shown is subject to statutory debt limitation.
Note.-Beginning w!th Fehruary 1954, the reporting of budget receints and expenditures is on a basis consistent with that used in preparing budget estimates. The figures shown above for fiscal years 1953 and 1954 are those published by the Treasury Depnrtment on the new basis.

Detail will not necessarily add to totals because of rounding.

## CASH RECEIPTS FROM AND PAYMENTS TO THE PUBLIC

Federal cash receipts exceeded cash payments by $\$ 4.1$ billion in the first quarter of this year. Because of the heavy concentration of corporate tax payments in March, a substantial cash surplus is usual at this time of year.

[Millions of dollars]
$\left.\begin{array}{r|r|r|r}\hline \text { Calendar year } & \begin{array}{c}\text { Cash receipts } \\ \text { from the } \\ \text { public }\end{array} & \begin{array}{c}\text { Cash pay- } \\ \text { ments to } \\ \text { the public }\end{array} & \begin{array}{c}\text { Excess of re- } \\ \text { ceipts } \\ \text { (t) }\end{array} \\ \text { payments }(-)\end{array}\right)$
