## 84th Congress, 1st Session

## Economic Indicators

## DECEMBER 1955

## Prepared for the Joint Committee on the Economic Report by the Council of Economic Advisers

A number of subscribers to Economic Indicators have inquired about the Historical and Descriptive Supplement to Economic Indicators, which describes each series and gives data for years not shown in the monthly issue. This publication was issued in December 1953 but has been out of print in recent months. A revised version is now available for 40 cents a copy from:

> Superintendent of Documents
> Government Printing Office Washington 25, D. C.

## NATIONAL INCOME

According to preliminary estimates, national income rose by $\$ 4 \frac{1}{2}$ billion (seasonally adjusted annual rate) between the second and third quarters, largely due to the increase in compensation of employees.

[Billions of dollars]

${ }^{1}$ Includes public utility.
2 Includes petroleum and natural gas well drilling.
Note.-Details will not necessarily add to totals because of rounding.

## EXPENDITURES FOR NEW PLANT AND EQUIPMENT

According to a survey taken in October and November, business expenditures on plant and equipment are expected to total $\$ 28.3$ billion in 1955 , about $\$ 1 / 1 /$ billion more than in 1954 . Expendifures are expected to reach $\$ 30.9$ billion (seasonally adjusted annual rate) in the fourth quarter.

Excludes agriculture.
Commercial and other includes trade, service, finance, communications, and construction.
Estimates based on anticipated capital expenditures as reported by business in late October and November 1955
A Annual total is sum of seasonally unadjusted expenditures; it does not necessarily coincide with average of seasonally adjusted figures, which include adjustments, when necessary, for systematic tendencies in anticipatory data.

Note.-These figures do not agree with the totals included in the gross national product estimates of the Department of Commerce, principally becanse the atter cover agricultural investment and also certain equipment and construction outlays charged to current expense.

Detail will not necessarily add to totals because of rounding.
Sources: Securities and Exchange Commission and Department of Commerce.

## EMPLOYMENT, UNEMPLOYMENT, AND WAGES STATUS OF THE LABOR FORCE

In line with seasonal expectations, employment (inclusive of agriculture) declined and unemployment rose between October and November. Employment in November was about 3 million higher than a year ago and unemployment about $1 / 2$ million less, as the labor force increased by about $21 / 2$ million.

T Includes part-time workers and those with jobs but not at work for such reasons as vacations, illness, bad weather, temporary layoff, and industrial disputes; excludes armed forces.
2 Shown separately so as to afford a basis for further analysis of employment and unemployment.

15th of month; previously, for week containing 8th of month
Sources: Department of Commerce (labor force) and Department of Labor (insured unemployment)

Employment in nonagricultural establishments increased more than seasonally between October and November. Employment in durable goods manufacturing increased more than expected at this time of year; in nondurable goods, the decline was less than seasonal.

I Includes all full- and part-time wage and salary workers in nonagricultural establishments who worked during or received pay for any part of the pay period ending nearest the 15 th of the month. Excludes proprietors, self-emploved persons, domestic servants, and personnel of the armed forces. Total derived from this tsble not comparable with estimates of nonagricultural employment of the civilian labor force reported by the Department of Commerce (p, il) which include proprietors, selfemployed persons, and domestic servants; which count persons as employed when they are not at work because of industrial disputes; and which are ? Preliminary estimates.
12 Note.-Beginning with 1953, data are based on first quarter 1954 benchmark levels.

## AVERAGE WEEKLY HOURS - SELected industries

The average workweek of factory production workers rose slightly to 41.2 hours in November. The average workweek in durable goods manufacturing rose to 42.0 hours, the highest level since December 1952.

## AVERAGE WEEKLY EARNINGS - SELECTED INDUSTRIES

Average weekly earnings of factory production workers rose from $\$ 78.50$ in October to a new high of $\$ 79.52$ in November, primarily a reflection of increased hourly earnings. The November figure was about $\$ 6.00$ higher than a year earlier.

[^0]
## PRODUCTION AND BUSINESS ACTIVITY INDUSTRIAL PRODUCTION

According to preliminary estimates, industrial production in November, seasonally adjusted, increased one point to a new peak of 144 (1947-49 $=100$ ).

[1947-49 = 100, seasonally adjusted]

| Period | Total industrial production | Manufactures |  |  | Minerals |

## HOUSING STARTS AND APPLICATIONS FOR FINANCING

The number of private nonfarm housing starts in November was at an annual rate of 1.2 million (seasonally adjusted). There was a slight decline from the preceding month.

## SALES AND INVENTORIES - MANUFACTURING AND TRADE

Retail sales (seasonally adjusted) were unchanged in October, while sales of manufacturers declined moderately. Preliminary estimates indicate that retail sales decreased slightly in November. Manufacturers' new orders decreased in October but continued to exceed sales, adding to order backlogs. Inventories of manufacturers and distributors increased in October.

## PRICES

## CONSUMER PRICES

Average consumer prices were unchanged in October. Reduced prices for food were counterbalanced by increased prices for several other major categories of goods and services.

1 Includes U. S. Government deposits at Federal Reserve banks and commercial and savings banks, and U. S. Treasurer's time deposits, open account. Includes deposits and currency held by State and local governments.
${ }^{3}$ Includes demand deposits, other than interbank and U.S. Governmient, less cash items in process of collection.
Includes deposits in commercial banks, mutual savings banks, and Postal Savings System, but excludes interbank deposits.

## BANK LOANS, INVESTMENTS, AND RESERVES

In October, loans of commercial banks increased $\$ 0.8$ billion, and their holdings of U. S. Government securities increased $\$ 0.9$ billion. The expansion of loans continued in November. "Free" reserves (excess reserves less borrowings at the Federal Reserve banks) declined further during November.

## CONSUMER CREDIT

Consumer credit extensions dropped in October, due mainly to a substantial decline in automobile credit extensions. At the end of the month, total consumer credit outstanding was $\$ 34.6$ billion- $\$ 350$ million higher than a month earlier.

## BOND YIELDS AND INTEREST RATES

Short-term interest rates rose sharply in the latter part of November, following the increase in the discount rate charged by the Reserve Banks on member bank borrowings. Long-term rates increased only slightly.
