## Economic Indicators

## JANUARY 1956

## Prepared for the Joint Committee on the Economic Report by the Council of Economic Advisers

> A number of subscribers to Economic Indicators have inquired about the Historical and Descriptive Supplement to Economic Indicators, which describes each series and gives data for years not shown in the monthly issue. This publication was issued in December 1953 but has been out of print in recent months. A revised version is now available for 40 cents a copy from:
> Superintendent of Documents Government Printing Office Washington 25, D. C.

## [Public Law 120-81st Congress; Chapter 237-1st Session] <br> JOINT RESOLUTION [S. J. Res. 55]

To print the monthly publication entitled "Economic Indicators"
Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That the Joint Committee on the Economic Report be authorized to issue a monthly publication entitled "Economic Indicators," and that a sufficient quantity be printed to furnish one copy to each Member of Congress; the Secretary and the Sergeant at Arms of the Senate; the Clerk, Sergeant at Arms, and Doorkeeper of the House of Representatives; two copies to the libraries of the Senate and House, and the Congressional Library; seven hundred copies to the Joint Committee on the Economic Report; and the required number of copies to the Superintendent of Documents for distribution to depository libraries; and that the Superintendent of Documents be authorized to have copies printed for sale to the public.

Approved June 23, 1949.

## TOTAL OUTPUT, INCOME, AND SPENDING

THE NATION'S INCOME, EXPENDITURE, AND SAVING
Current estimates of total income and expenditures for the third quarter of 1955 reflect the continued rise in over-all economic activity.

## GROSS NATIONAL PRODUCT OR EXPENDITURE

According to current estimates, the gross national product rose about $\$ 7$ billion (seasonally adjusted annual rate) to a new high of $\$ 391.5$ billion between the second and third quarters. Consumer expenditures accounted for most of the increase.

[Billions of dollars]

${ }^{1}$ Less Government sales
${ }^{1}$ Includes expenditures for military services, international security and foreign relations (except foreign loans), development and control of atomic energy, promotion of the merchant marine, promotion of defense production and economic stabilization, and civil defense. For further details, see Economic Report or the President, January 1955 (D. 137), and National Income, 1954 Edition ( $\mathrm{p}, 148$ ). These expenditures are not comparable with the "national security" category in The Budget of the U. S. Government for the Fiscal Year Ending June 80,1956 , and shown on p. 31 of Economic Indicators.

Note.-Detail will not necessarily add to totals because of rounding.
Source: Department of Commerce.

## NATIONAL INCOME

According to preliminary estimates, national income rose by $\$ 5$ billion (seasonally adjusted annual rate) between the second and third quarters, largely due to the increase in compensation of employees.

[Billions of dollars]

## SOURCES OF PERSONAL INCOME

Personal income rose $\$ 2$ billion (seasonally adjusted annual rate) between October and November. Most of the increase was accounted for by labor income.

${ }^{1}$ Includes such items as fines, penalties, and donations.
Note.-Detail will not necessarily add to totals because of rounding. Source: Department of Commerce.

## PER CAPITA DISPOSABLE INCOME

Per capita disposable income (seasonally adjusted), measured in both current and constant prices, rose about 1 percent between the second and third quarters. In constant prices, it exceeded the level of the corresponding 1954 quarter by more than 5 percent.

| Period |  |  |
| :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- |

1 Income less taxes.
${ }^{3}$ Includes armed forces overseas. Annual data as of July 1; quarterly data centered in the middle of the period, interpolated from monthly figures.
Sources: Department of Commerce, Department of Labor, and Council of Economic Advisers.

## FARM INCOIME

Gross and net farm income (seasonally adjusted) declined between the second and third quarters.

${ }^{1}$ Includes cash receipts from farm marketings, value of farm products consumed directly in farm households, gross rental value of farm dwellings, and Government payments to farmers.
${ }^{2}$ Excludes (a) farm wages paid to workers living on farms and (b) any income to farm people from nonfarm sources. These items in 1954 were as follows: (a) 2.0 billion dollars and (b) 5.7 billion dollars.
${ }^{4}$ Differs from farm proprietors' income on pages 3 and 4 because of revisions by the Department of Agriculture not yet incorporated into the national income
un or he Departm an Conerce.
Doilar estimates in current prices divided by index of prices paid by farmers for items used in family living, on base $1954=100$.

- For the quarterly data, the number of farms is held constant within a given year. "Estimates by Council of Economic Advisers.

Source: Department of Agriculture (except as noted)

## CORPORATE PROFITS

Corporate profits, before and after taxes, increased between the second and third quarters, according to current estimates.

SOURCE: DEPARTMENT OF COMMERCE (EXCEPT AS NOTED).

## EXPENDITURES FOR NEW PLANT AND EQUIPMENT

According to a survey taken in October and November, business expenditures on plant and equipment are expected to total $\$ 28.3$ billion in 1955 , about $\$ 1 / 2$ billion more than in 1954 . Expenditures are expected to reach $\$ 30.9$ billion (seasonally adjusted annual rate) in the fourth quarter of 1955.

[Billions of dollars]

I fixeluies agriculture.
('ommercin] and other includes trade, service, finance, communications, and construction
${ }^{3}$ Esthmates based on anticipated capital expenditures as reported by business in late October and November 1955
Anmual total is sum of seasonally unadjusted expenditures; it does not necessarily coincide with average of seasonally adjusted figures, which inciude adjustmonim, when mecessury, for systomatic tendencies in anticipatory data.

NuTw,-These figres do not agree with the totals included in the gross national product estimates of the Department of Commerce, principally because the lattr cober apriculthma tuvestment and also cortain equipment and construction outlays charged to current expense.

Hetall will mot nocessurily athd to totils because of rounding.

## EMPLOYMENT, UNEMPLOYMENT, AND WAGES STATUS OF THE LABOR FORCE

In line with seasonal expectations, employment (inclusive of agriculture) declined between November and December; unemployment remained about the same. Employment in December was about $31 / 2$ million higher than a year earlier and unemployment about 400,000 less, as the labor force increased by about 3 million.

## NONAGRICULTURAL EMPLOYMENT

Employment in nonagricultural establishments rose by over $1 / 2$ million, but somewhat less than seasonally between November and December. Employment in durable goods manufacturing remained about the same, as expected at this time of year; in nondurable goods, the decline was greater than seasonal.

## FEDERAL FINANCE BUDGET RECEIPTS AND EXPENDITURES

The cumulative budget deficit for the first 5 months of the fiscal year was $\$ 6.7$ billion, due primarily to seasonally low tax collections. For the same period last year, the budget deficit amounted to $\$ 7.1$ billion.
