## DISPOSITION OF PERSONAL INCOME

Although personal income rose by about $\$ 2$ billion (seasonally adjusted annual rate) in the first quarter, disposable income increased only $\$ 1$ billion, according to preliminary estimates. The difference was due mainly to year-end personal tax payments on 1955 income. Consumption expenditures increased more than $\$ 2$ billion and the personal saving rate declined.

## GROSS PRIVATE DOMESTIC INVESTMENT

Gross private demestic investment declined $\$ 0.8$ billion (seasonally adjusted annual rate) in the first quarter of this year, according to preliminary estimates. A rise of cbout $\$ 11 / 2$ billion in business fixed investment was more than offset by reductions in residential construction and the rate of inventory accumulation.

## EXPENDITURES FOR NEW PLANT AND EQUIPMENT

According to a survey, made between late January and early March, business expenditures on plant and equipment are expected to continue to rise and reach $\$ 35.3$ billion (seasonally adjusted annual rate) in the second quarter. Outlays for the full year 1956 are expected to total almost $\$ 35$ billion, 22 percent above 1955.

## EMPLOYMENT, UNEMPLOYMENT, AND WAGES STATUS OF THE LABOR FORCE

In line with seasonal expectations, total employment (inclusive of agriculture) rose by about $1 / 2$ million between February and March. Unemployment, which usually declines at this time of year, did not change appreciably.

[^1]Temporary layofis are shown separately so as to
afford a basis for further analysis of employment and unemployment.

- Data for $1949-53$ ( 1953 revised series) based on 68 area sample; beginning 1954, on 230 -area sample. Starting July 1955, data are for week containing

12th of month; previously, for week containing 8th of
month.

- Preliminary estimate.

Sources: Department of Commerce (labor force) and Department of Labor (Insured unemployment).

## NUNAGKIUUL'I'UKAL EMPLOYMENT

Employment in nonagricultural establishments increased somewhat less than seasonally between February and March. As is usual at this time of year, employment in manufacturing did not change appreciably.

## WEEKLY INDICATORS OF PRODUCTION

Steel production increased during March to a new record. Freight carloadings also increased. Production of electric power and paperboard declined slightly, but remained at near peak levels. Car and truck assemblies dropped slightly.

| Period | Steel produced |  | Electricpowerdistributed(millions ofkilowatt-hours) | Bituminous coal mined (thousands of short tons): | Freight loaded (thousands of cars) | Paperboard produced (thousands of tons) | Cars and trucks assembled (thousands) |  |  |

## NEW CONSTRUCTION

Total construction activity (seasonally adjusted) continued in March at about the level of January and February. The rate of contract awards, which had increased sharply since last fall, declined slightly but was nearly 12 percent higher than in March of last year.

[Billions of dollars]

## HOUSING STARTS AND APPLICATIONS FOR FINANCING

Private nonfarm housing starts in March increased less than seasonally and were at an annual rate of 1,140,000. Financing applications rose substantially for FHA loans but were almost the same as in February for VA loans.

[Thousands of units]

## SALES AND INVENTORIES-MANUFACTURING AND TRADE

Manufacturers'. and wholesalers' sales (seasonally adjusted) changed little in February, while retail sales declined about 2 percent. Total business inventories continued to rise, with manufacturers accounting for most of the increase. According to preliminary estimates, retail sales increased about 2 percent in March.

| Period | Manufacturing and trade |  | Manufacturing |  |  | Wholesale |  | Retail |  | Department stores |  |

${ }^{1}$ Includes U. 8. Government deposits at Federal Reserve baniks and commercial and savings banks, and U. B. Treasurer's time deposits, open acconnt.
Includes deposits and eurrency held by State and local governments.
Inchides demand deposits, other than interbank and U.S. Government, less cash items in process of collection.
Includes deposits in commercial banks, mutual savings banks, and Postal Savings System, but excludes interbank deposits.

- Prellminary estimates.

## BANK LOANS, INVESTMENTS, AND RESERVES

In February, loans of commercial banks increased by $\$ 0.6$ billion, and their holdings of U. S. Government securities declined $\$ 1.7$ billion. In March, business loans increased much more than usual for this time of the year. The average reserve deficiency of member banks (borrowings at the Federal Reserve less excess reserves) increased between February and March.

## CONSUMER CREDIT

In February, total consumer credit outstanding declined about $\$ 325$ million, reflecting the usual seasonal decline in noninstalment cradit. Total instalment credit outstanding remained virtually unchanged, as increases in automobile credit and in personal loans were largely offset by a decline in loans for the purchase of other consumer durable goods.

[^7]28 : Credit extended or repald during the period.

## BOND YIELDS AND INTEREST RATES

Yields on long-term Government and corporate bonds rose during March, and by early April they equaled or slightly exceeded the 1955 peaks. During March, yields on Treasury bills changed very little and the commercial paper rate was unchanged.

[^8] z Weekly data are Wednesday figures.

[^9]
## STOCK PRICES

The index of stock prices reached new highs in early April.
