## TOTAL OUTPUT, INCOME, AND SPENDING

## THE NATION'S INCOME, EXPENDITURE, AND SAVING

Current estimates of total income and expenditures show a continued rise in over-all economic activity between the second and third quarters of 1956.

## GROSS NATIONAL PRODUCT OR EXPENDITURE

The gross national product rose $\$ 5.5$ billion (seasonally adjusted annual rate) between the second and third quarters of 1956 to about $\$ 414$ billion. increases occurred in every major sector.

; Less Government sales

- Incilides expenditures for military services, international security and foreign relations (except foreign loans), development and control of atomic energy, promoion af the merchant marine, promotion of defense production and sconomic stabilization, and civil defense. For further detalls, see Economic Report of the thentent, Jnnuary 1955 (p. 137), and National Income, 1954 Edition ( p . 148). These expenditures are not comparable with the "major national securlty" category in Th. Midorl of the U. S. Government for the Fiscal Year Ending June 30.1957 . and shown on p. 31 of Ecornomic Indicators.

Fwe. Detall will not necessarily add to totals because of rounding.
a wime Anmiturnt of Commerce.

## NATIONAL INCOME

National income rose $\$ 3.6$ billion (seasonally adjusted annual rate) between the second and third quarters. Com pensation of employees accounted for most of the increase. Farm and nonfarm proprietors' income and interest also rose, while rental income was unchanged. Corporate profits (including inventory valuation adjustment) declined.

${ }^{1}$ Includes employer contributions for social insurance. (See also p. 4.)
a Preliminary estimates by Council of Economic Advisers.
Note.-Detall will not necessarily add to totals becauso of rounding.
Source: Department of Commerce (except as noted).

## SOURCES OF PERSONAL INCOME

Personal income increased $\$ 3.1$ billion (seasonally adjusted annual rate) between September and October. Labor income rose almost $\$ 2$ billion, with one-third of the rise occurring in automobile payrolls. Farm proprietors' income increased $\$ 3 / 4$ billion, reflecting the rise in soil bank payments.

## GROSS PRIVATE DOMESTIC INVESTMENT

Gross private domestic investment (seasonally adjusted annual rate) increased slightly between the second and third quarters of this year. Investment in durable producers' goods rose $\$ 2.0$ billion; construction remained unchanged; and additions to inventories declined $\$ 1.5$ billion.

[Billions of dollars]

[^0]I Includes petroleum and natural gas well drilling.
Note.-Detail will not necessarily add to totals because of rounding
Source: Department of Commerce.

## EXPENDITURES FOR NEW PLANT AND EQUIPMENT

The October-November survey of business expenditures on plant and equipment indicates a continued increase in outlays, though at a much reduced rate, through the first quarter of 1957.

1 Excludes agriculture.
2 Commercial and other includes trade, service, finance, communications, and construction.
${ }^{3}$ Estimates based on anticipated capital expenditures as reported by business in late October and November 1956
${ }^{4}$ Annual total is the sum of seasonally unadjusted expenditures; it does not necessarily coincide with the average of seasonally adjusted figures, which include adjustments, when necessary, for systematic tendencies in anticipatory data.

Note.-These figures do not agree with the totals included in the gross national product estimates of the Department of Commerce, princibally because the latter cover agricultural investment and also certain equipment and construction outlays charged to current expense.

Detail will not necessarily add to totals because of rounding.
Bources: Becurlties and Exchange Commission and Department of Commerce.

## EMPLOYMENT, UNEMPLOYMENT, AND WAGES STATUS OF THE LABOR FORCE

Unemployment rose more than seasonally in November. At nearly 2.5 million, it was 3.6 percent of the civilian labor force, the same rate as last November. Employment declined by 0.9 million but was above November a year ago.

## NONAGRICULTURAL EMPLOYMENT

Nonagricultural employment remained substantially the same in November as in October, 52.4 million.

## PRODUCTION AND BUSINESS ACTIVITY INDUSTRIAL PRODUCTION

The index of industrial production (seasonally adjusted) is estimated at 147 (1947-49 $=100$ ) for November, a new high.

[1947-49 $=100$, seasonally adjusted]

| Period |  | Total industrial production | Manufactures |  |  | Minerals |

## PRODUCTION OF SEILECTED MANUFACTURES

In November, production of transportation equipment increased sharply; the output of most other manufactures showed relatively small changes.

## WEEKLY INDICATORS OF PRODUCTION

Various weekly indicators show that production continued to increase during November. Steel production ran close to the peak rate reached in early October. Automobile production, electric power distribution, and bituminous coal mining increased while freight carloadings and paperboard production averaged lower than during October.

| Period | Steel produced |  | $\|$Electric <br> power <br> distributed <br> (millions of <br> kilowatt-hours) | Bituminous <br> cooi mined <br> (thousands <br> of short <br> tons) | Freight loaded (thousands of cars) | Paperboardproduced(thousandsof tons) | Cars and trucks assembled (thousands) |  |  |

## NEW CONSTRUCTION

Total construction expenditures (seasonally adjusted) increased in November. All of the increase occurred in the public sector. Contract awards, which had been declining for several months, rose in November.

## PRICES

## CONSUMER PRICES

The average of consumer prices rose 0.5 percent in October. The transportation group increased 3.1 percent, due largely to higher prices for new autos. Food prices were unchanged, while most other categories rose slightly.
