JOINT RESOLUTION [S. J. Res. 55]

To print the monthly publication entitled "Economic Indicators"

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled. That the Joint Economic Committee be authorized to issue a monthly publication entitled "Economic Indicators," and that a sufficient quantity be printed to furnish one copy to each Member of Congress; the Secretary and the Sergeant at Arms of the Senate; the Clerk, Sergeant at Arms, and Doorkeeper of the House of Representatives; two copies to the libraries of the Senate and House, and the Congressional Library; seven hundred copies to the Joint Economic Committee; and the required number of copies to the Superintendent of Documents for distribution to depository libraries; and that the Superintendent of Documents be authorized to have copies printed for sale to the public.

Approved June 23, 1949.

TOTAL OUTPUT, INCOME, AND SPENDING

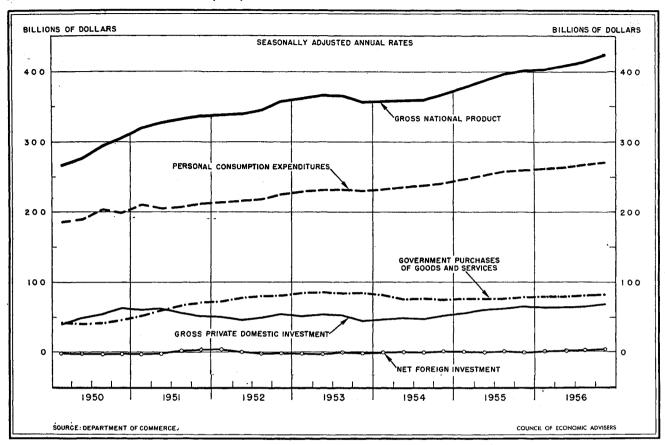

THE NATION'S INCOME, EXPENDITURE, AND SAVING

Current estimates of total income and expenditures show a more marked rise in over-all economic activity between the third and fourth quarters of 1956.

GROSS NATIONAL PRODUCT OR EXPENDITURE

The gross national product rose \$10.0 billion (seasonally adjusted annual rate) between the third and fourth quarters of 1956. Increases occurred in every major sector.

Less Government sales.

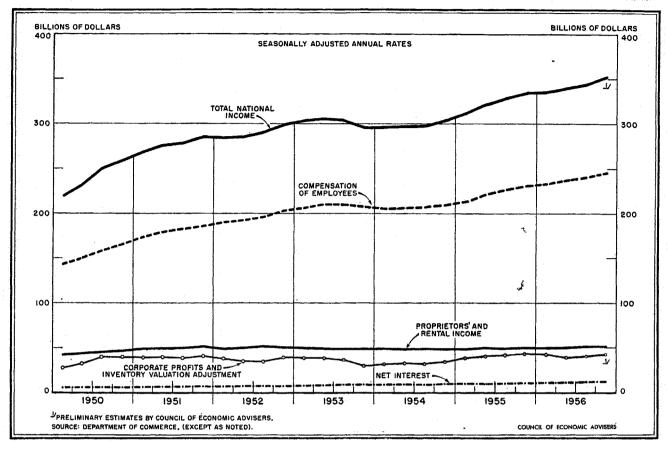

Includes expenditures for military services, international security and foreign relations (except foreign loans), development and control of atomic energy, prometion of the merchant marine, promotion of defense production and economic stabilization, and civil defense. For further details, see Economic Report of the Fresident, January 1958 (p. 137), and National Income, 1964 Edition (p. 148). These expenditures are not comparable with the "major national security" category in The Budget of the U. S. Government for the Fixeal Year Ending June 30, 1967, and shown on p. 31 of Economic Indicators.

Note.-Detail will not necessarily add to totals because of rounding.

¹ Compensation of employees (see p. 3) excluding employer contributions for social insurance and the excess of wage accruals over disbursements.

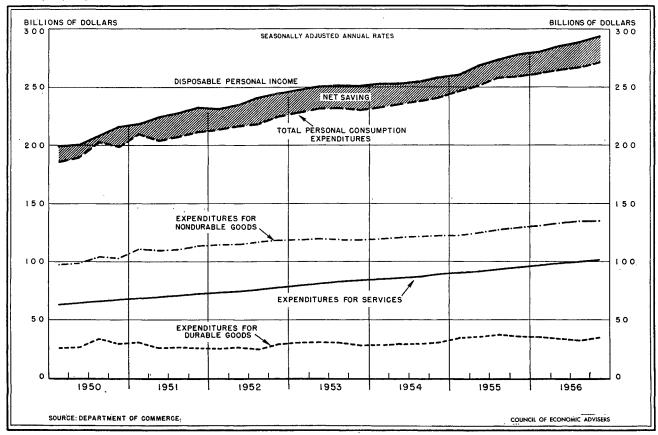

Personal income exclusive of net income of unincorporated farm enterprises, farm wages, agricultural net interest, and net dividends paid by agricultural corporations.

Includes \$2.7 billion National Service Life Insurance dividend, most of which was paid in the first half of the year.
 Preliminary estimates.

⁴ Note.—Detail will not necessarily add to totals because of rounding. Source: Department of Commerce.

DISPOSITION OF PERSONAL INCOME

Disposable personal income increased \$5.1 billion (seasonally adjusted annual rate) between the third and fourth quarters of 1956. Consumer expenditures rose somewhat less than disposable income, and the rate of consumer saving was slightly higher.

Source: Department of Agriculture (except as noted).

¹ Cash receipts from farm marketings, value of farm products consumed in farm households, gross rental value of farm dwellings, and Government payments to farmers.

² Realized gross farm income less farm production expenses. Excludes farm wages paid to workers living on farms and any income to farm people from nonfarm sources, which in 1955 amounted to 1.7 billion dollars and 6.1 billion dollars, respectively.

Jata prior to 1952 differ from farm proprietors' income on pages 3 and 4 because of revisions by the Department of Agriculture not yet incorporated into the national income accounts of the Department of Commerce.

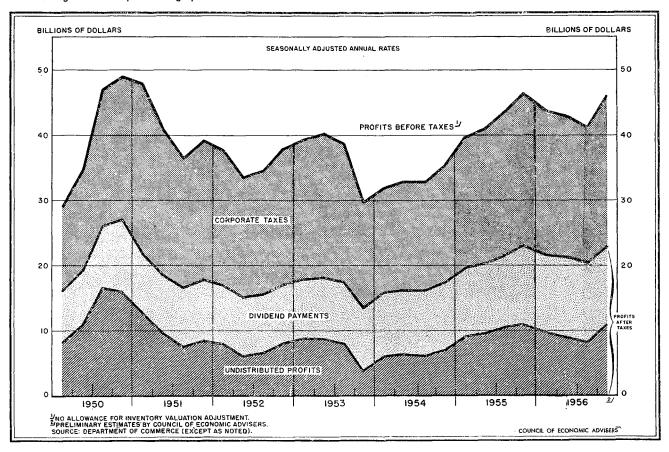

Dollar estimates in current prices divided by the index of prices paid by farmers for items used in family living, on a 1956 base.

The number of farm is held constant within a given year.

Estimate by Council of Economic Advisers.

CORPORATE PROFITS

Corporate profits (seasonally adjusted annual rate) rose in the fourth quarter of 1956, reversing the downward movement during the three preceding quarters.

Sources: Securities and Exchange Commission and Department of Commerce.

Excludes agriculture.

2 Commercial and other includes trade, service, finance, communications, and construction.

Estimates based on anticipated capital expenditures as reported by business in late October and November 1956.

Annual total is the sum of seasonally unadjusted expenditures; it does not necessarily coincide with the average of seasonally adjusted figures, which include adjustments, when necessary, for systematic tendencies in anticipatory data.

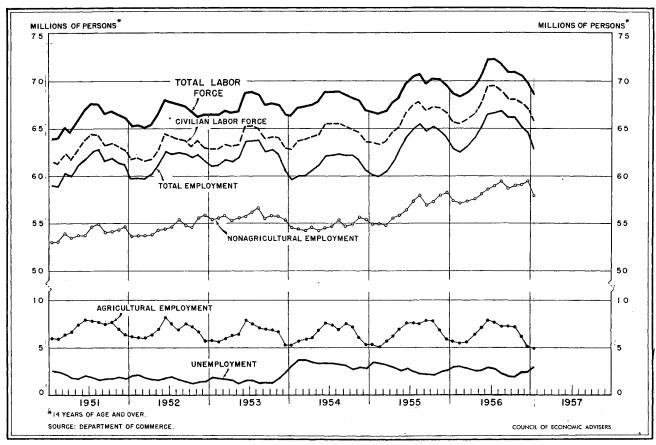

Note.—These figures do not agree with the totals included in the gross national product estimates of the Department of Commerce, principally because the latter cover agricultural investment and also certain equipment and construction outlays charged to current expense.

Detail will not necessarily add to totals because of rounding.

EMPLOYMENT, UNEMPLOYMENT, AND WAGES

STATUS OF THE LABOR FORCE

Unemployment rose slightly less than seasonally to 2.9 million in January. Employment declined more than seasonally. Both employment and unemployment were approximately at the same levels as in January of last year.

Includes all full- and part-time wage and salary workers in nonagricultural establishments who worked during or received pay for any part of the pay period ending nearest the 15th of the month. Excludes proprietors, self-employed persons, domestic servants, and personnel of the armed forces. Total derived from this table not comparable with estimates of nonagricultural employment of the civilian labor force reported by the Department of Commerce (p. 11) which include proprietors, self-employed persons, and domestic servants; which count persons as employed when they are not at work because of industrial disputes; and which are based on an enumeration of population, whereas the estimates in this table are based on reports from employing establishments.

2 Preliminary estimates.

¹² Note.—Beginning with 1954, data are based on first quarter 1955 benchmark levels. Source: Department of Labor.

AVERAGE WEEKLY HOURS - SELECTED INDUSTRIES

The average workweek of manufacturing production workers decreased more than seasonally in January and was about 0.5 hours below the level of January 1956. In durable goods manufacturing, the workweek was only 0.2 hours below a year earlier.

[Hours per week, for production workers or nonsupervisory employees]

PRICES

CONSUMER PRICES

Consumer prices continued to rise gradually in December. Although the average of food and apparel prices remained unchanged, and transportation prices declined fractionally, all other major components of the index increased.

¹ Includes U. S. Government deposits at Federal Reserve banks and commercial and savings banks, and U. S. Treasurer's time deposits, open account.

Includes deposits and currency held by State and local governments.

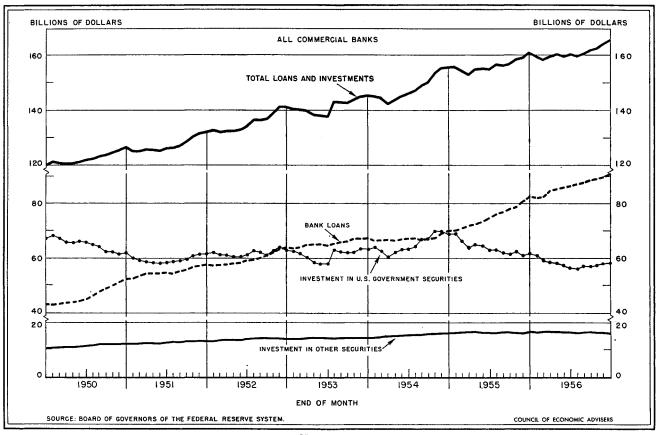

Includes demand deposits, other than interbank and U. S. Government, less cash items in process of collection.

Includes deposits in commercial banks, mutual savings banks, and Postal Savings System, but excludes interbank deposits.

Preliminary estimates.

BANK LOANS, INVESTMENTS, AND RESERVES

Loans of commercial banks rose \$1.6 billion in December, compared with an increase of \$800 million in November and \$1.2 billion in December 1956. Free reserves (excess reserves less borrowings at the Federal Reserve) were positive in January.

¹ Member banks include, besides all national banks, those State banks that have taken membership in the Federal Reserve System.

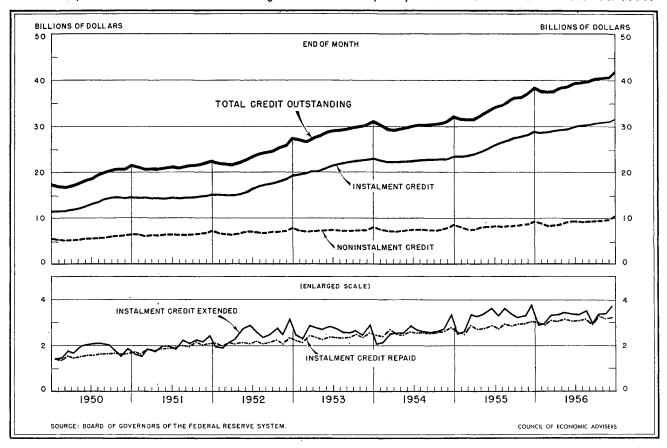

2 Commercial, industrial, and agricultural loans; revised series beginning January 1952 and again October 1955. Such loans by weekly reporting member banks represent approximately 70 percent of business loans by all commercial banks.

1 Data are averages of daily figures on balances and borrowings during the period.

4 Preliminary estimates.

CONSUMER CREDIT

In December, total consumer credit outstanding rose \$1.2 billion, compared with \$1.5 billion in December 1955.

Includes all consumer credit extended for the purpose of purchasing automobiles and other consumer goods and secured by the items purchased.

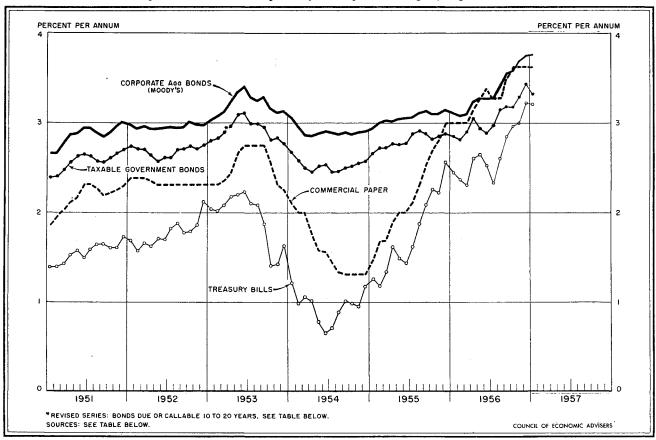

**Includes only such loans held by financial institutions; those held by retail outlets are included in "other consumer goods paper."

**Oraclit extended or repell during the period.

**Source: Board of Governors of the Rederal Reserve System. 28

BOND YIELDS AND INTEREST RATES

Yields on new Treasury bills fluctuated during January and at the end of the month were close to the peak reached in December. Yields on high-grade municipal bonds declined during January; yields on corporate and Federal bonds also declined during the month but their January averages were slightly higher than in December.

FEDERAL FINANCE

BUDGET RECEIPTS AND EXPENDITURES

The cumulative budget deficit for the first 6 months of the current fiscal year was \$5.7 billion, compared to \$7.9 billion for the same period in fiscal 1956. Tax collections are seasonally low during the first half of the fiscal year.

¹ Revised to include the items classified as "major national security" in The Budget of the United States Government for the Fiscal Year Ending June 30, 1967. These expenditure items are: Military functions of Defense Department, mutual military program, development and control of atomic energy, stockpiling of strategic and critical materials, and defense production expansion.

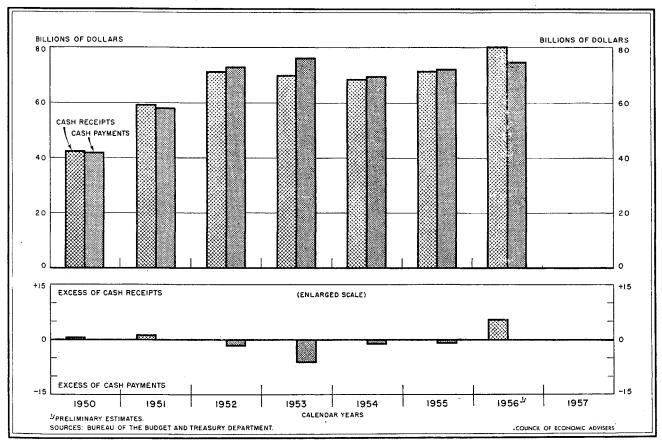

1 Includes guaranteed securities, except those held by the Treasury. Not all of total shown is subject to statutory debt limitation.

1 Preliminary.

Note.-Detail will not necessarily add to totals because of rounding.

CASH RECEIPTS FROM AND PAYMENTS TO THE PUBLIC

Federal cash receipts exceeded cash payments by \$5.5 billion in calendar year 1956, compared with a cash deficit of \$740 million in the prior year. In the fourth quarter of 1956 there was a cash deficit of \$4.8 billion, due primarily to seasonally low tax receipts.

[Millions of dollars]
