[PUBLIC LAW 120—81ST CONGRESS; CHAPTER 237—1ST SESSION]

JOINT RESOLUTION [S. J. Res. 55]

To print the monthly publication entitled "Economic Indicators"

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That the Joint Economic Committee be authorized to issue a monthly publication entitled "Economic Indicators," and that a sufficient quantity be printed to furnish one copy to each Member of Congress; the Secretary and the Sergeant at Arms of the Senate; the Clerk, Sergeant at Arms, and Doorkeeper of the House of Representatives; two copies to the libraries of the Senate and House, and the Congressional Library; seven hundred copies to the Joint Economic Committee; and the required number of copies to the Superintendent of Documents for distribution to depository libraries; and that the Superintendent of Documents be authorized to have copies printed for sale to the public.

Approved June 23, 1949.

¹ Cash receipts from farm marketings, value of farm products consumed in farm households, gross rental value of farm dwellings, and Government payments to farmers.

² Realized gross farm income less farm production expenses. Excludes farm wages paid to workers living on farms and any income to farm people from non-farm sources, which in 1955 amounted to 1.7 billion dollars and 6.1 billion dollars, respectively.

NOTE.—Number of farms and income per farm revised beginning with 1951; other series revised beginning with 1954. For details, see *Farm Income Situation*, July 16, 1957.

Source: Department of Agriculture (except as noted).

³ Data prior to 1952 differ from farm proprietors' income on pages 3 and 4 because of revisions by the Department of Agriculture not yet incorporated into the national income accounts of the Department of Commerce.

⁴ Dollar estimates in current prices divided by the index of prices paid by farmers for items used in family living, on a 1956 base.

⁵ The number of farms is held constant within a given year.

⁶ Estimate by Council of Economic Advisers

CORPORATE PROFITS

Corporate profits (seasonally adjusted) in the first quarter of 1957 dropped below the level reached in the fourth quarter of 1956, but remained above profits in the first quarter of 1956.

¹ Excludes agriculture.

² Commercial and other includes trade, service, finance, communications, and construction.

³ Estimates based on anticipated capital expenditures as reported by business in late April and May 1957.

NOTE.—Annual total is the sum of seasonally unadjusted expenditures; it does not necessarily coincide with the average of seasonally adjusted figures, which include adjustments, when necessary, for systematic tendencies in anticipatory data.

These figures do not agree with the totals included in the gross national product estimates of the Department of Commerce, principally because the latter cover agricultural investment and also certain equipment and construction outlays charged to current expense.

Detail will not necessarily add to totals because of rounding.

¹ Includes all full- and part-time wage and salary workers in nonagricultural establishments who worked during or received pay for any part of the pay period ending nearest the 15th of the month. Excludes proprietors, self-employed persons, domestic servants, and personnel of the armed forces. Total derived from this table not comparable with estimates of nonagricultural employment of the civilian labor force reported by the Department of Commerce (p. 11) which include proprietors, self-employed persons, and domestic servants; which count persons as employed when they are not at work because of industrial disputes; and which are based on an enumeration of population, whereas the estimates in this table are based on reports from employing establishments.

² Preliminary estimates.

AVERAGE WEEKLY EARNINGS - SELECTED INDUSTRIES

Average weekly earnings of production workers in manufacturing rose to \$82.59 in June, because of the lengthened workweek and the increase in hourly earnings. They were \$3.40 above year-ago levels.

[For production workers or nonsupervisory employees]

PRODUCTION AND BUSINESS ACTIVITY

INDUSTRIAL PRODUCTION

The index of industrial production (seasonally adjusted) is estimated at 143 (1947-49=100) for June, the same as the April-May index, and 3 percent below the all-time peak reached at the end of 1956.

[1947-49=100, seasonally adjusted]

WEEKLY INDICATORS OF PRODUCTION

Several weekly indicators of production increased in June. Exceptions were steel, which was about the same as in May, and paperboard, which dropped slightly. However, in early July all indicators declined as a result of the holiday.

Period	Steel produced		Electric power distributed (millions of kilowatt-hours)	Bituminous coal mined (thousands of short tons) ²	Freight loaded (thousands of cars)	Paperboard produced (thousands of tons)	Cars and trucks assembled (thousands)		
	Thousands of net tons	Percent of theoretical capacity ¹					Total	Cars	Trucks

¹ Compiled by F. W. Dodge Corporation; seasonally adjusted by the National Bureau of Economic Research. Omits small contracts, and covers rural areas less fully than urban.

² Series begins January 1956. The 37 Eastern States data are probably indicative of the 48 States trend for other periods.

³ Revised series beginning January 1956; not comparable with prior data.

⁴ Preliminary estimates

NOTE.—New construction data are the revised series.

Sources: Department of Commerce, Department of Labor, and F. W. Dodge Corporation (except as noted).

HOUSING STARTS AND APPLICATIONS FOR FINANCING

Private nonfarm housing starts (seasonally adjusted) decreased slightly in June; rates for earlier months in 1957 have been somewhat revised. Financing applications for FHA loans dropped below April and May levels, and those for VA loans continued to decline.

[Thousands of units]

SALES AND INVENTORIES - MANUFACTURING AND TRADE

Manufacturers' new orders (seasonally adjusted) rose \$400 million in May, while inventories rose slightly and sales remained unchanged. Total trade sales and inventories increased slightly during the month. According to preliminary estimates, retail sales in June were 0.5 percent higher than in May.

¹ Member banks include, besides all national banks, those State banks that have taken membership in the Federal Reserve System.

² Commercial, industrial, and agricultural loans; revised series beginning January 1952 and again October 1955. Such loans by weekly reporting member banks represent approximately 70 percent of business loans by all commercial banks.

³ Data are averages of daily figures on balances and borrowings during the period.

⁴ Preliminary estimates.

NOTE.—Detail will not necessarily add to totals because of rounding.
