[Public Law 120—81st Congress; Chapter 237—1st Session]

JOINT RESOLUTION [S. J. Res. 55]

To print the monthly publication entitled "Economic Indicators"

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That the Joint Economic Committee be authorized to issue a monthly publication entitled "Economic Indicators," and that a sufficient quantity be printed to furnish one copy to each Member of Congress; the Secretary and the Sergeant at Arms of the Senate; the Clerk, Sergeant at Arms, and Doorkeeper of the House of Representatives; two copies to the libraries of the Senate and House, and the Congressional Library; seven hundred copies to the Joint Economic Committee; and the required number of copies to the Superintendent of Documents for distribution to depository libraries; and that the Superintendent of Documents be authorized to have copies printed for sale to the public.

Approved June 23, 1949.

Charts drawn by Graphics Unit, Office of the Secretary, Department of Commerce.

GROSS NATIONAL PRODUCT OR EXPENDITURE

The gross national product fell \$8.6 billion (seasonally adjusted annual rate) between the fourth quarter of 1957 and the first quarter of 1958, according to preliminary estimates. The decline was chiefly in gross private domestic investment.

Less Government sales.

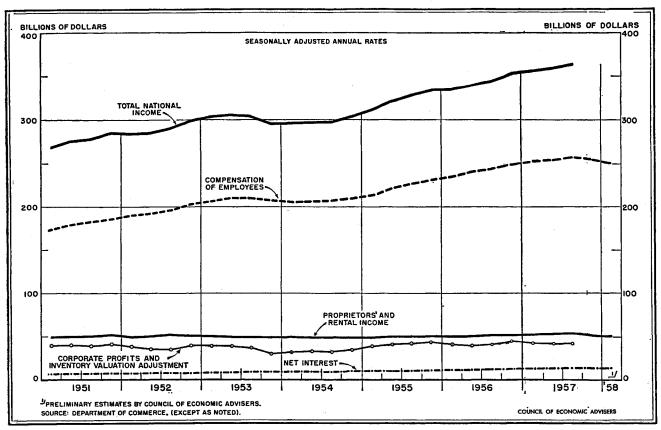

Includes expenditures for military services, international security and foreign relations (except foreign loans), development and control of atomic energy, promotion of the merchant marine, promotion of defense production and economic stabilization, and civil defense. For further details, see Economic Report of the President, January 1955 (p. 137), and National Income, 1954 Edition (p. 148). These expenditures are not comparable with the "major national security" category in The Budget of the United States Government for the Fiscal Year Ending June 30, 1963, and shown on p. 31 of Economic Indicators.

Prollminary estimates by Council of Economic Advisers.

Note.—Detail will not necessarily add to totals because of rounding. Source: Department of Commerce (except as noted).

NATIONAL INCOME

Compensation of employees was \$4.9 billion (seasonally adjusted annual rate) lower in the first quarter of 1958 than in the fourth quarter of 1957.

² Preliminary estimates by Council of Economic Advisers; rounded to nearest half billion dollars.

SOURCES OF PERSONAL INCOME

Personal income in March was at a seasonally adjusted annual rate of \$341.4 billion, slightly lower than in February. The \$1.2 billion decrease in wages and salaries was partially offset by increases in farm income and transfer payments. Other types of income were unchanged.

				[Billions o	of dollars]				•

Source: Department of Agriculture.

¹ Cash receipts from farm marketings, value of farm products consumed in farm households, gross rental value of farm dwellings, and Government payments to farmers.

² Realized gross farm income less farm production expenses. Excludes farm wages paid to workers living on farms and any income to farm people from nonfarm sources, which in 1957 amounted to \$1.8 billion and \$6.3 billion, respectively.

⁴ Data prior to 1952 differ from farm proprietors' income on pages 3 and 4 because of revisions by the Department of Agriculture not yet incorporated into the national income accounts of the Department of Commerce.

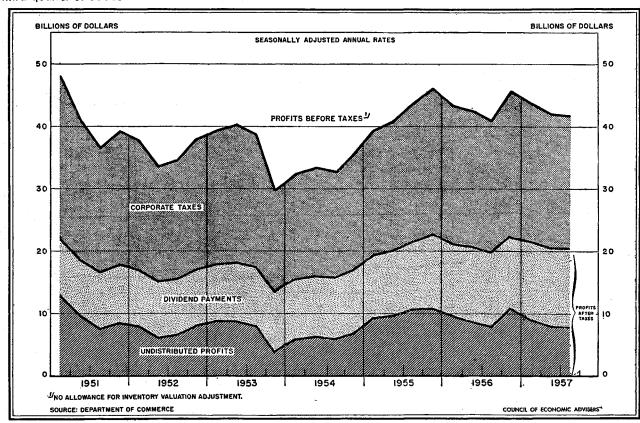

⁴ Dollar estimates in current prices divided by the index of prices paid by farmers for items used in family living on a 1957 base.

⁵ The number of farms is held constant within a given year.

⁶ Preliminary estimates.

CORPORATE PROFITS

Corporate profits in the third quarter of 1957 were slightly lower than in the second quarter. Profits before taxes were \$1.0 billion (seasonally adjusted annual rate) higher and profits after taxes \$0.5 billion higher than in the third quarter of 1956.

Note.—See p. 3 for profits before taxes and after inventory valuation adjustment. Detail will not necessarily add to totals because of rounding.

GROSS PRIVATE DOMESTIC INVESTMENT

Gross private domestic investment fell \$7.8 billion (seasonally adjusted annual rate) in the first quarter of 1958, according to preliminary estimates. A reduction in inventories accounted for over half of the decline. Outlays for producers' durable equipment fell \$2.3 billion.

¹ Revisions shown on p. 19 have not yet been incorporated into these accounts. "Other" construction in this series includes petroleum and natural gas well drilling, which are excluded from estimates on p. 19.

NOTE.—Detail will not necessarily add to totals because of rounding. Source: Department of Commerce (except as noted).

² Preliminary estimates by Council of Economic Advisers.

EXPENDITURES FOR NEW PLANT AND EQUIPMENT

The January-March survey of business expenditures on plant and equipment indicates a continuing drop in outlays during the first half of the year. Anticipated outlays for the full year 1958 are 13 percent below outlays in 1957.

Sources: Securities and Exchange Commission and Department of Commerce.

Excludes agriculture.

Commercial and other includes trade, service, finance, communications, and construction.

Estimates based on anticipated capital expenditures as reported by business from late January to early March 1958.

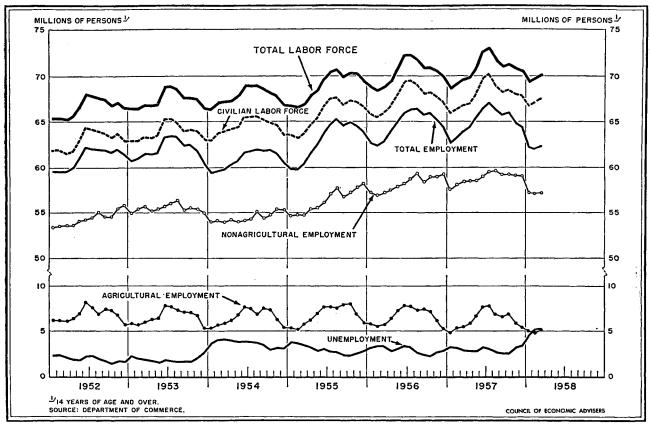

Nore.—Annual total is the sum of unadjusted expenditures; it does not necessarily coincide with the average of seasonally adjusted figures, which include adjustments, when necessary, for systematic tendencies in anticipatory data.

These figures do not agree with the totals included in the gross national product estimates of the Department of Commerce, principally because the latter cover agricultural investment and also certain equipment and construction outlays charged to current expense.

Detail will not necessarily add to totals because of rounding.

EMPLOYMENT, UNLIMPLOTIMENT, AND WAGES STATUS OF THE LABOR FORCE

At 5.2 million, unemployment in March was practically unchanged from February, but the seasonally adjusted rate of unemployment rose to 7.0 percent. Total civilian employment was 300,000 higher because of the seasonal pickup in outdoor activities.

¹ Includes all full- and part-time wage and salary workers in nonagricultural establishments who worked during or received pay for any part of the pay period ending nearest the 15th of the month. Excludes proprietors, self-employed persons, domestic servants, and personnel of the armed forces. Total derived from this table not comparable with estimates of nonagricultural employment of the civilian labor force reported by the Department of Commerce (p. 11) which include proprietors, self-employed persons, and domestic servants; which count persons as employed when they are not at work because of industrial disputes; and which are based on an enumeration of population, whereas the estimates in this table are based on reports from employing establishments.

Source: Department of Labor.

¹ Preliminary estimates.

AVERAGE WEEKLY HOURS - SELECTED INDUSTRIES

The average workweek in manufacturing was 38.5 hours in March, slightly higher than in February, but 1.6 hours below March 1957.

[Hours per week, for production workers or nonsupervisory employees]

PRODUCTION AND BUSINESS ACTIVITY

INDUSTRIAL PRODUCTION

The index of industrial production (seasonally adjusted) declined again in March. The estimated index of 128 (1947-49=100) was 2 points lower than in February and 17 points lower than a year earlier.

¹ Compiled by F. W. Dodge Corporation; seasonally adjusted by the National Bureau of Economic Research. Omits small contracts, and covers rural areas less fully than urban.

2 Series begins January 1956. The 37 Eastern States data are probably indicative of the 48 States trend for other periods.

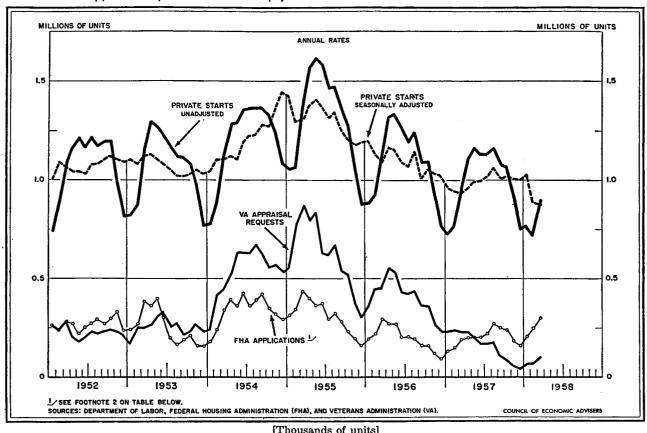

3 Revised series beginning January 1956; not comparable with prior data. Series discontinued beginning January 1958.

4 Preliminary estimates.

Note.—Detail will not necessarily add to totals because of rounding. Sources: Department of Commerce, Department of Labor, and F. W. Dodge Corporation (except as noted).

HOUSING STARTS AND APPLICATIONS FOR FINANCING

Private nonfarm housing starts (seasonally adjusted) dropped slightly in March. Applications for FHA commitments and VA appraisal requests increased sharply.

Member banks include, besides all national banks, those State banks that have taken membership in the Federal Reserve System.
 Commercial, industrial, and agricultural loans; revised series beginning January 1952 and again October 1955. Such loans by weekly reporting member banks represent approximately 70 percent of business loans by all commercial banks.
 Data are averages of daily figures on balances and borrowings during the period.
 Preliminary estimates.

NOTE.—Detail will not necessarily add to totals because of rounding.

Note.—Detail will not necessarily add to totals because of rounding.

CASH RECEIPTS FROM AND PAYMENTS TO THE PUBLIC

Federal cash receipts exceeded cash payments by \$1.2 billion in calendar year 1957 compared with \$5.5 billion in the prior year. In the fourth quarter there was a cash deficit of \$4.4 billion, due primarily to seasonally low tax receipts.

Period	Cash receipts from the public	Cash pay- ments to the public	Excess of receipts (+) or payments (-)
Fiscal year total: 1955	87, 286	70, 538 72, 617 80, 007 84, 938 86, 662	-2, 702 +4, 471 +2, 099 +175 +624
1954	68, 589 71, 448 80, 330 84, 503	69, 661 72, 188 74, 807 83, 308	$\begin{array}{r} -1,072 \\ -740 \\ +5,524 \\ +1,193 \end{array}$
