[Public Law 120—81st Congress; Chapter 237—1st Session]

JOINT RESOLUTION [S. J. Res. 55]

To print the monthly publication entitled "Economic Indicators"

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That the Joint Economic Committee be authorized to issue a monthly publication entitled "Economic Indicators," and that a sufficient quantity be printed to furnish one copy to each Member of Congress; the Secretary and the Sergeant at Arms of the Senate; the Clerk, Sergeant at Arms, and Doorkeeper of the House of Representatives; two copies to the libraries of the Senate and House, and the Congressional Library; seven hundred copies to the Joint Economic Committee; and the required number of copies to the Superintendent of Documents for distribution to depository libraries; and that the Superintendent of Documents be authorized to have copies printed for sale to the public.

Approved June 23, 1949.

Charts drawn by Graphics Unit, Office of the Secretary, Department of Commerce.

These expenditures are not comparable with the "major national security" category in The Budget of the United States Government for the Fiscal Year Ending June 20, 1959, and shown on p. 31 of Economic Indicators.

NOTE.—Revised series beginning 1946. For details, see Survey of Current Business, July 1958.

Detail will not necessarily add to totals because of rounding. Source: Department of Commerce (except as noted).

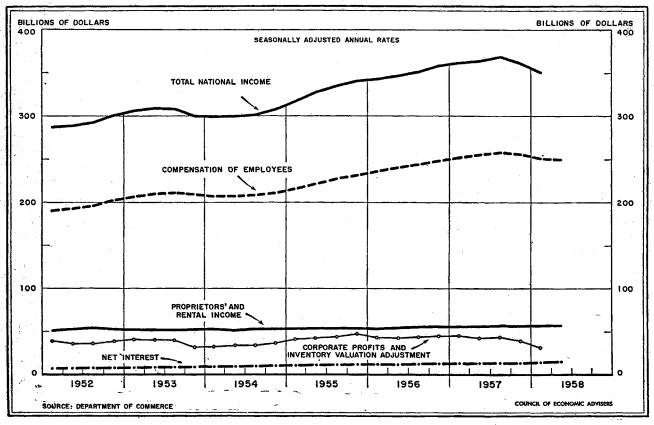

¹ Preliminary estimates by Council of Economic Advisers.

² Less Government sales.

³ Includes expenditures for military services, international security and foreign relations (except foreign loans), development and control of atomic energy, promotion of the merchant marine, promotion of defense production and economic stabilization, and civil defense. For further details, see Economic Report of the President, January 1955 (p. 137), and National Income, 1954 Edition (p. 148).

NATIONAL INCOME

Compensation of employees remained virtually unchanged between the first and second quarters of 1958. Farm proprietors' income rose about \$1 billion (seasonally adjusted annual rate).

SOURCES OF PERSONAL INCOME

Personal income rose \$6.9 billion (seasonally adjusted annual rate) in July. Part of the increase was accounted for by lump-sum payments of retroactive pay increases to Federal Government employees. Labor income of non-Federal employees and transfer payments also rose.

Source: Department of Agriculture.

Cash receipts from farm marketings, value of farm products consumed in farm households, gross rental value of farm dwellings, and Government payments to farmers.

2 Realized gross farm income less farm production expenses. Excludes farm wages paid to workers living on farms and any income to farm people from nonfarm sources, which in 1957 amounted to \$1.8 billion and \$6.3 billion, respectively.

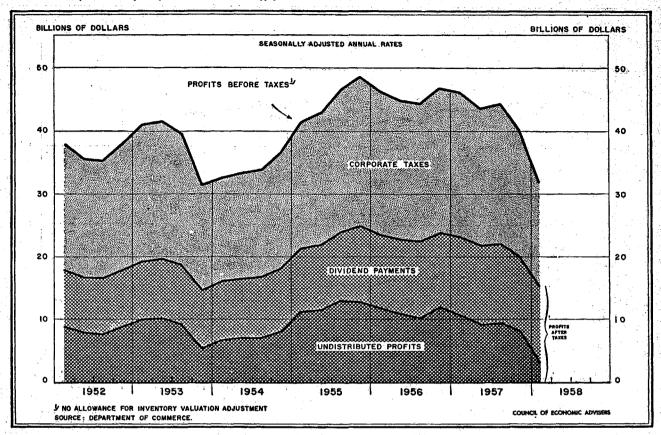

3 Data prior to 1946 differ from farm proprietors' income on pages 3 and 4 because of revisions by the Department of Agriculture not yet incorporated into the national income accounts of the Department of Commerce.

Dollar estimates in current prices divided by the index of prices paid by farmers for items used in family living on a 1957 base.
 The number of farms is held constant within a given year.

North.—Revised series beginning 1946. For details, see Farm Income Situation, July 15, 1958.

CORPORATE PROFITS

Corporate profits in the first quarter of 1958 were lower than in the fourth quarter of 1957. Profits before taxes fell \$8.2 billion (seasonally adjusted annual rate); profits after taxes fell \$4.5 billion.

GROSS PRIVATE DOMESTIC INVESTMENT

Gross private domestic investment (seasonally adjusted) dropped slightly in the second quarter of 1958, according to current estimates. All components of fixed investment declined, while business inventories were liquidated at a slower rate than in the first quarter.

EXPENDITURES FOR NEW PLANT AND EQUIPMENT

The April-May survey of business expenditures on plant and equipment indicated a continuing drop in outlays during the remainder of this year. Outlays anticipated for the full year 1958 are 17 percent below outlays in 1957.

charged to current expense.

Detail will not necessarily add to totals because of rounding.

Sources: Securities and Exchange Commission and Department of Commerce.

Excludes agriculture,
 Commercial and other includes trade, service, finance, communications, and

onstruction.

3 Estimates based on anticipated capital expenditures as reported by business in late April and May 1958.

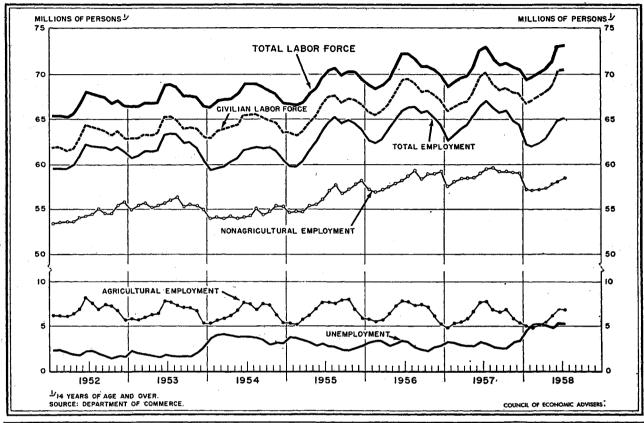

NOTE. -- Annual total is the sum of unadjusted expenditures; it does not necessarily coincide with the average of seasonally adjusted figures, which include

adjustments, when necessary, for systematic tendencies in anticipatory data. These figures do not agree with the totals included in the gross national product estimates of the Department of Commerce, principally because the latter cover agricultural investment and also certain equipment and construction outlays

EMPLOYMENT, UNEMPLOYMENT, AND WAGES

STATUS OF THE LABOR FORCE

Total employment rose by 200,000 in July, less than is usual at this time of year. Unemployment declined slightly to 5.3 million.

Includes all full- and part-time wage and salary workers in nonagricultural establishments who worked during or received pay for any part of the pay period ending nearest the 15th of the month. Excludes proprietors, self-employed persons, domestic servants, and personnel of the armed forces. Total derived from this table not comparable with estimates of nonagricultural employment of the willian labor force reported by the Department of Commerce (p. 11) which include proprietors, self-employed persons, and domestic servants; which count

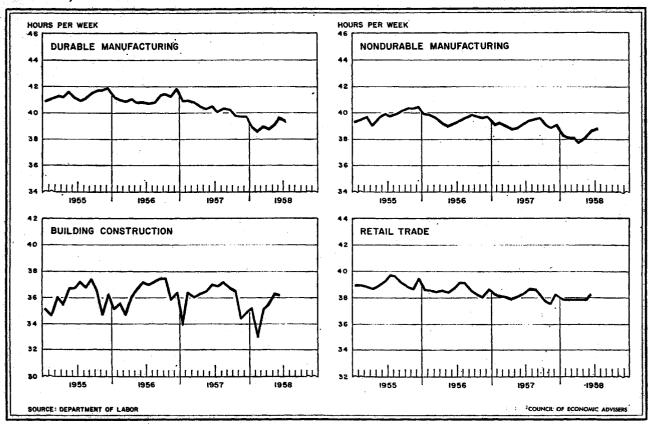

persons as employed when they are not at work because of industrial disputes; and which are based on an enumeration of population, whereas the estimates in this table are based on reports from employing establishments.

² Preliminary estimates.

Note.—Data beginning 1956 are the revised series. Source: Department of Labor.

AVERAGE WEEKLY HOURS - SELECTED INDUSTRIES

The average workweek in manufacturing was unchanged in July at 39.2 hours, although a small decline is usual at this time of year.

PRODUCTION AND BUSINESS ACTIVITY

INDUSTRIAL PRODUCTION

The index of industrial production (seasonally adjusted) increased in July for the third consecutive month. The index, which was 133 (1947-49=100) in July, had recovered about one-third of the 1957-58 decline.

HOUSING STARTS AND APPLICATIONS FOR FINANCING

Private nonfarm housing starts (seasonally adjusted) rose sharply in July to an annual rate of 1,160,000 units. Applications for FHA commitments declined slightly and VA appraisal requests were about the same as in June.

Source: Board of Governors of the Federal Reserve System.

¹ Includes U. S. Government deposits at Federal Reserve Banks and commercial and savings banks, and U. S. Treasurer's time deposits, open account.

² Includes deposits and currency held by State and local governments.

³ Includes deposits in commercial banks, mutual savings banks, and Postal Savings System, but excludes interbank deposits.

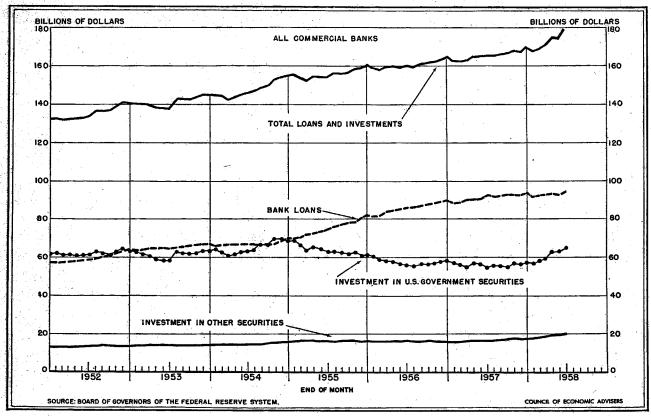

⁴ Includes demand deposits, other than interbank and U. S. Government, less cash items in process of collection.

⁵ Preliminary estimates.

Note.—Monthly data are for the last Wednesday of the month, except the unadjusted data for December 1957, which are for the last day of the month. Detail will not necessarily add to totals because of rounding.

BANK LOANS, INVESTMENTS, AND RESERVES

Commercial bank loans rose \$2.1 billion in June, the same amount as in June 1957. Excess reserves were substantially greater than borrowings again in July.

¹ Member banks include, besides all national banks, those State banks that have taken membership in the Federal Reserve System.
² Commercial, industrial, and agricultural loans; revised series beginning January 1952 and again October 1955. Such loans by weekly reporting member banks represent approximately 70 percent of business loans by all commercial banks.

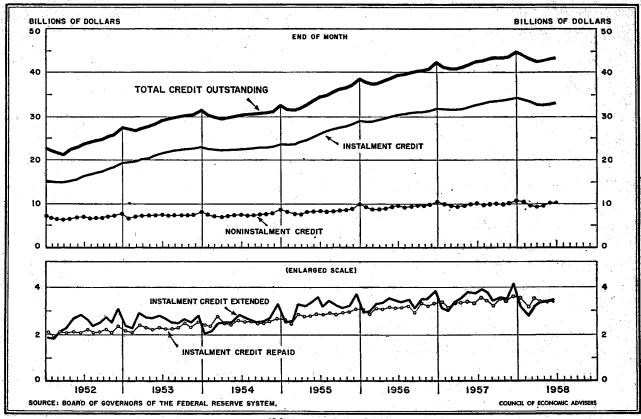

² Data are averages of daily figures on balances and horrowings during the period.

Preliminary estimates.
