[Public Law 120—81st Congress; Chapter 237—1st Session]

JOINT RESOLUTION [S.J. Res. 55]

To print the monthly publication entitled "Economic Indicators"

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That the Joint Economic Committee be authorized to issue a monthly publication entitled "Economic Indicators," and that a sufficient quantity be printed to furnish one copy to each Member of Congress; the Secretary and the Sergeant at Arms of the Senate; the Clerk, Sergeant at Arms, and Doorkeeper of the House of Representatives; two copies to the libraries of the Senate and House, and the Congressional Library; seven hundred copies to the Joint Economic Committee; and the required number of copies to the Superintendent of Documents for distribution to depository libraries; and that the Superintendent of Documents be authorized to have copies printed for sale to the public. Approved June 23, 1949.

Charts drawn by Graphics Unit, Office of the Secretary, Department of Commerce.

Note.—Series revised beginning 1957. For details, see Survey of Current Business, July 1960.

For explanation and use of this arrangement, see Senate Report No. 1295, Joint Economic Report, pp. 92-33, 99-105, and Economic Report of the President, January 1953, Appendix A.

GROSS NATIONAL PRODUCT OR EXPENDITURE

Gross national product rose in the second quarter to an annual rate of \$505 billion (seasonally adjusted), according to revised estimates. Increases in personal consumption expenditures, net exports, and State and local purchases were partly offset by decreases in domestic investment and Federal purchases.

¹ Compensation of employees (see p. 3) excluding employer contributions for social insurance and the excess of wage accruals over disbursaments.

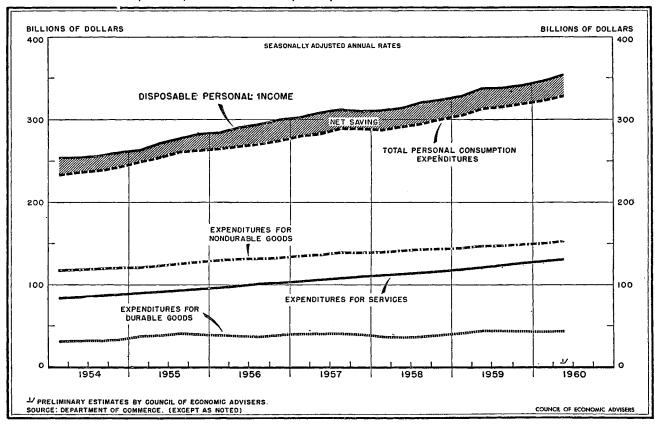

² Personal income exclusive of net income of unincorporated farm enterprises, farm wages, agricultural net interest, and net dividends paid by agricultural corporations.

³ Preliminary estimates.

Note.—Series revised beginning 1957. For details, see Survey of Current Business, July 1960.

DISPOSITION OF PERSONAL INCOME

Disposable personal income rose \$7.3 billion (seasonally adjusted annual rate) between the first and second quarters of 1960. Total consumption expenditures also rose, but by a smaller amount than income.

FARM INCOME

Gross and net incomes of farm operators, responding to rising prices of farm products, increased from the first to the second quarter of 1960. They were larger in the second quarter of 1960 than in the corresponding quarter of

CORPORATE PROFITS

Corporate profits before taxes in the first quarter of 1960 rose \$4.0 billion (seasonally adjusted annual rate), or about 9 percent. On an after-tax basis, the increase in earnings was almost entirely retained by corporations.

GROSS PRIVATE DOMESTIC INVESTMENT

During the second quarter of 1960, slower inventory accumulation as well as a decline in new construction reduced private domestic investment by \$3.8 billion (seasonally adjusted annual rate), despite an 8-percent rise in producers' durable equipment.

EXPENDITURES FOR NEW PLANT AND EQUIPMENT

The April-May survey of business expenditures on plant and equipment tends to confirm the earlier anticipation of increases in the first and second quarters. The present survey indicates a continued advance in the third quarter.

Sources: Securities and Exchange Commission and Department of Commerce.

¹ Excludes agriculture.
² Commercial and other includes trade, service, finance, communications, and construction.
³ Estimates based on anticipated capital expenditures as reported by business in late April and May 1960. Includes adjustments when necessary for systematic tendencies in anticipatory data.

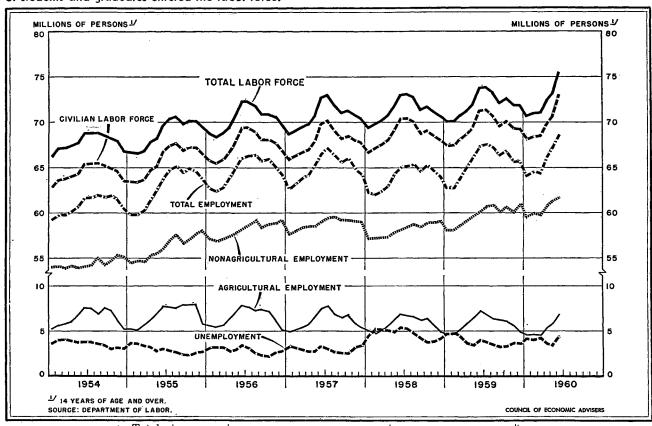

Note.—Quarterly anticipated data are rounded to nearest \$100 million; beginning 1959 all other quarterly data rounded to nearest \$50 million.

Annual total is the sum of unadjusted expenditures; it does not necessarily coincide with the average of seasonally adjusted figures.

These figures do not agree with the totals included in the gross national product estimates of the Department of Commerce, principally because the latter cover agricultural investment and also certain equipment and construction outlays charged to current expense.

EMPLOYMENT, UNEMPLOYMENT, AND WAGES STATUS OF THE LABOR FORCE

Total employment increased by 1.4 million, in June, though unemployment rose by 1.0 million as record numbers of students and graduates entered the labor force.

 Weekly averages. Beginning January 1959, includes Alaska and Hawaii.
 Includes program for Federal employees for 1955-June 1959.

^{&#}x27;Preliminary estimate.

Note.-Beginning January 1960, labor force data include Alaska and Hawaii. Sources: Department of Labor and Council of Economic Advisers.

NONAGRICULTURAL EMPLOYMENT

The number of employees on the payrolls of nonagricultural establishments, seasonally adjusted, declined by 50,000 in June. Employment reductions in manufacturing were partially offset by increases in other industries.

¹ Includes all full- and part-time wage and salary workers in nonagricultural establishments who worked during or received pay for any part of the pay period ending nearest the 15th of the month. Excludes proprietors, self-employed persons, domestic servants, and personnel of the armed forces. Total derived from this table not comparable with estimates of nonagricultural employment of the civilian labor force, shown on p. 11, which include proprietors, self-employed persons, and domestic servants; which count persons as employed when they

are not at work because of industrial disputes; and which are based on an enumeration of population, whereas the estimates in this table are based on reports from employing establishments.

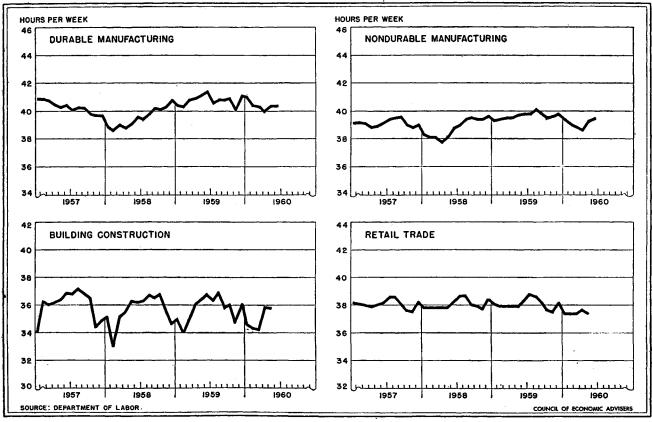

Includes mining; transportation and public utilities; finance, insurance, and real estate; and service and miscellaneous, not shown separately.

Preliminary estimates.

¹ Compiled by F. W. Dodge Corporation; seasonally adjusted by the National Bureau of Economic Research. Omits small contracts, and covers rural areas less fully than urban.

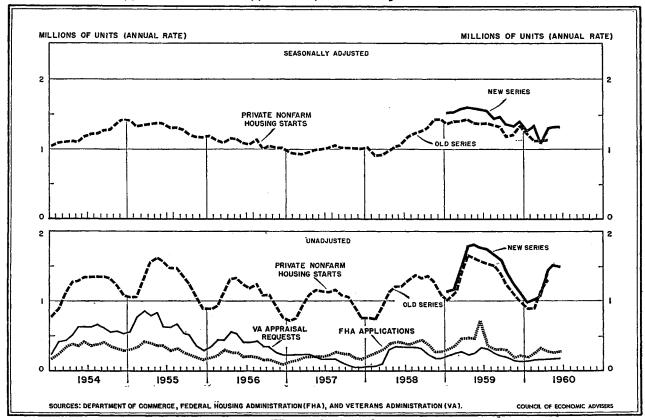

² Series begins January 1956. The 37 Eastern States data are probably indicative of the 48 States trend for other periods.

Revised series beginning January 1956; not comparable with prior data.
 Series discontinued beginning January 1958.
 Preliminary estimates.

Sources: Department of Commerce and F. W. Dodge Corporation (except as noted).

HOUSING STARTS AND APPLICATIONS FOR FINANCING

Private housing starts in June were at an annual rate of 1,334,000 (seasonally adjusted), about the same as in May, The number of FHA applications and VA appraisal requests rose in June.

PRICES

CONSUMER PRICES

The consumer price index increased a little in June, as the prices of food and a number of other major categories rose.

WHOLESALE PRICES

Wholesale prices declined further in June as decreases in farm prices more than compensated for slight advances in prices of processed foods. Prices of industrial products were unchanged from the May level.

PRICES RECEIVED AND PAID BY FARMERS

The indexes of prices received by farmers and of prices paid dropped in the month ended June 15 following earlier advances. As prices received were down more than prices paid, the parity ratio fell one point.

	Prices 1	received by	farmers	Prices	s paid by fa	rmers		
Period	All farm products	Crops	Livestock and products	All items, interest, taxes. and wage rates (parity index)	Family living items	Produc- tion items	Parity ratio ¹
