[PUBLIC LAW 120—81st CONGRESS; CHAPTER 237—1st SESSION]

JOINT RESOLUTION [S.J. Res. 55]

To print the monthly publication entitled "Economic Indicators"

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That the Joint Economic Committee be authorized to issue a monthly publication entitled "Economic Indicators," and that a sufficient quantity be printed to furnish one copy to each Member of Congress; the Secretary and the Sergeant at Arms of the Senate; the Clerk, Sergeant at Arms, and Doorkeeper of the House of Representatives; two copies to the libraries of the Senate and House, and the Congressional Library; seven hundred copies to the Joint Economic Committee; and the required number of copies to the Superintendent of Documents for distribution to depository libraries; and that the Superintendent of Documents be authorized to have copies printed for sale to the public.

Approved June 23, 1949.

Charts drawn by Graphics Unit, Office of the Secretary, Department of Commerce.

Economic Indicators, published monthly, is available at 25 cents a single copy or by subscription at \$2.50 per year (foreign, \$3.50) from:

SUPERINTENDENT OF DOCUMENTS
GOVERNMENT PRINTING OFFICE
WASHINGTON, D.C. 20402

Subscribers who wish to receive it at an earlier date after release may take advantage of provisions for airmail subscriptions. The domestic airmail subscription price is \$5.40 per year.

The 1964 *Supplement to Economic Indicators*, which describes each series and gives annual data for years not shown in the monthly issues, is available at 65 cents a copy.

TOTAL OUTPUT, INCOME, AND SPENDING

THE NATION'S INCOME, EXPENDITURE, AND SAVING

According to the revised series, gross national product rose \$9.5 billion to a seasonally adjusted annual rate of \$665.9 billion in the second quarter. Consumer spending, Government purchases, and net exports increased while gross private domestic investment decreased because of a drop in inventory investment.

[Billions of dollars; quarterly data at seasonally adjusted annual rates]

¹ Personal income (p. 5) less personal taxes and nontax payments (fines, penalties, etc.).

² Government transfer payments to persons, foreign net transfers by Government, net interest paid by Government, and subsidies less current surplus of Government enterprises.

³ Undistributed corporate profits, corporate inventory valuation adjustment, capital consumption allowances, and excess of wage accruals over disbursements. Does not include retained earnings of unincorporated business which are included in disposable personal income.

⁴ Private business investment, purchases of capital goods by private nonprofit institutions, and residential housing.

⁵ Net foreign investment with sign changed.

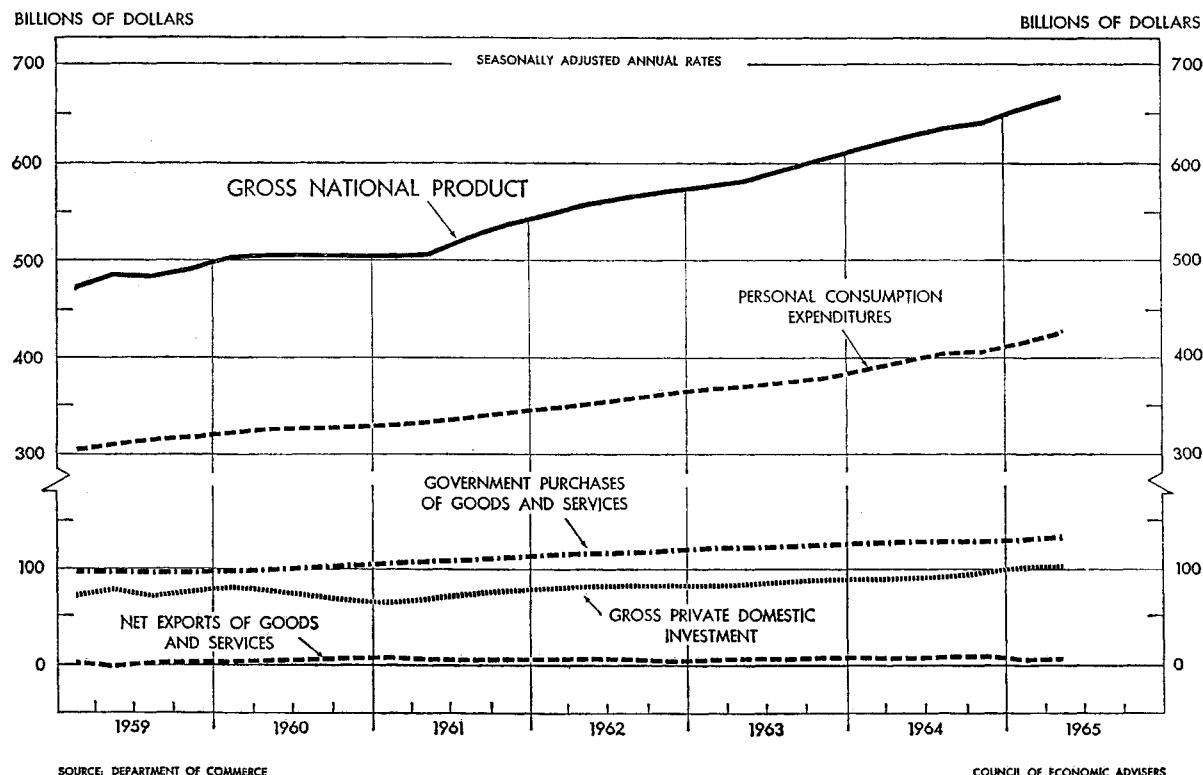

⁶ Less than \$50 million.

NOTE.—Revised series beginning 1929. For details, see *Survey of Current Business*, August 1965. Data for Alaska and Hawaii included beginning 1960.

Source: Department of Commerce.

GROSS NATIONAL PRODUCT OR EXPENDITURE

The revised series show a 1½ percent rise in gross national product in the second quarter on a seasonally adjusted basis; after adjustment for price changes, the rise was about two-thirds of 1 percent.

¹ Compensation of employees (see p. 3) excluding employer contributions for social insurance and the excess of wage accruals over disbursements.

² Employer contributions to private pension, health, and welfare funds; compensation for injuries; directors' fees; military reserve pay; and a few other minor items.

³ Personal income exclusive of net income of unincorporated farm enterprises, farm wages, agricultural net interest, and net dividends paid by agricultural

corporations.

⁴ Preliminary.

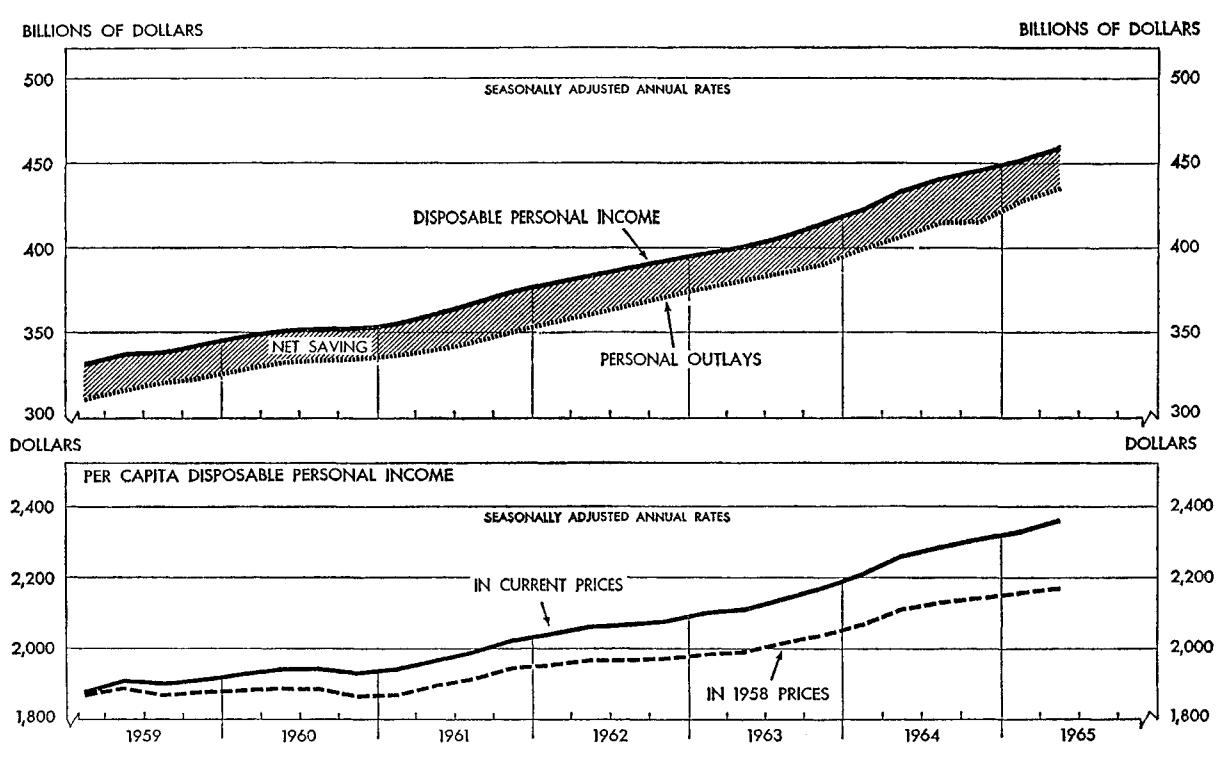

*Reflects stepped-up payments for veterans' insurance.

NOTE.—Revised series beginning 1929. For details, see Survey of Current Business, August 1965. Data for Alaska and Hawaii included beginning 1960.

Source: Department of Commerce.

DISPOSITION OF PERSONAL INCOME

According to the revised series, disposable personal income rose \$7 billion (seasonally adjusted annual rate) and personal outlays—consisting of consumption expenditures, consumer interest payments, and personal transfer payments to foreigners—increased nearly \$8 billion. As a result, personal saving dropped about \$1 billion to a rate of 5.0 percent of disposable income.

Period	Personal income	Less: Personal taxes	Equals: Disposable personal income	Less: Personal outlays				Equals: Personal saving	Per capita disposable personal income		Saving as percent of disposable personal income (percent)	Population (thousands)			
				Total personal outlays ¹	Personal consumption expenditures ²				Current prices	1958 prices

FARM INCOME

Net farm income, seasonally adjusted, rose sharply in the first half of 1965. The gain over a year earlier was \$1 billion excluding inventory change and \$1½ billion including the effects of changes in inventories. Surging farm prices, particularly for meat animals, was a major factor in the rise.

CORPORATE PROFITS

Current data for the second quarter indicate a further rise in corporate profits. According to the revised series, profits are estimated at seasonally adjusted annual rates of \$73.7 billion before taxes and \$44.4 billion after taxes bringing the over-the-year increases to 14 percent and 20 percent respectively.

¹ Includes depreciation, capital outlays charged to current accounts and accidental damages.

Data beginning 1962 adjusted for effects of new depreciation guidelines (\$2.3 billion for 1962) and therefore not comparable with previous data. Data for Alaska and Hawaii included beginning 1960.

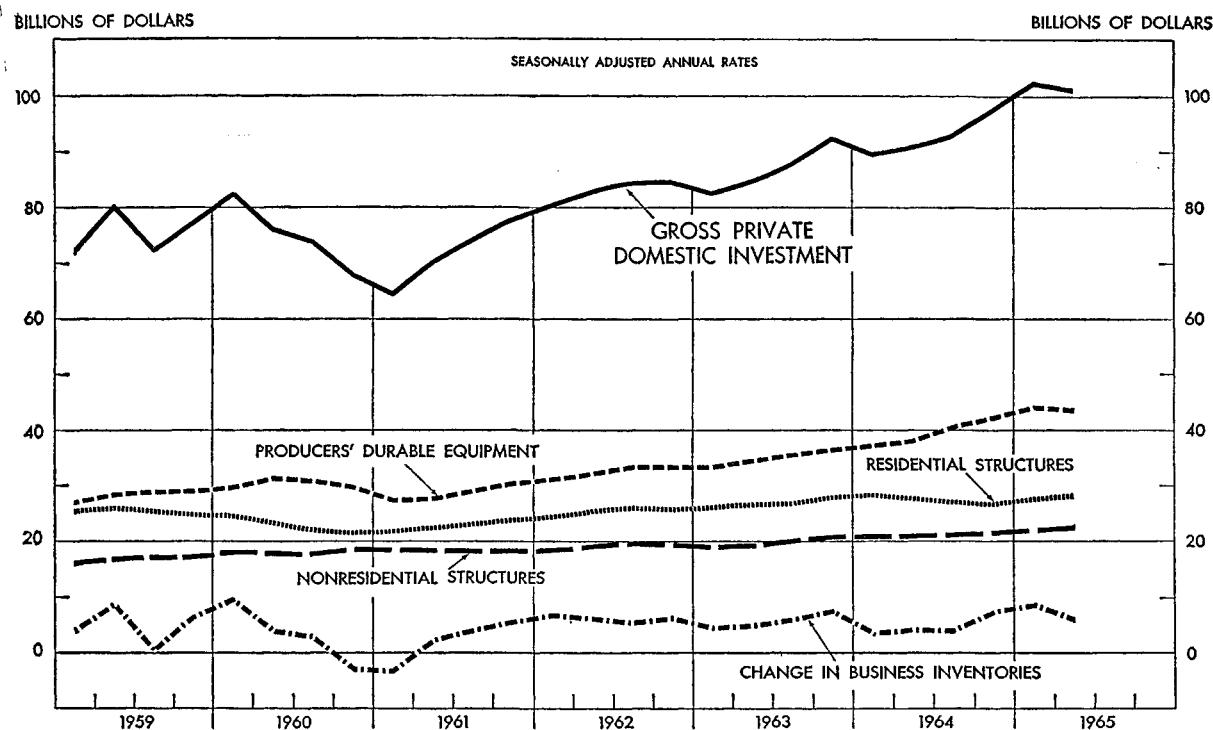

² Corporate profits after taxes plus corporate capital consumption allowances.

NOTE.—Revised series beginning 1929. For details, see *Survey of Current Business*, August 1965.

Source: Department of Commerce.

GROSS PRIVATE DOMESTIC INVESTMENT

Gross private domestic investment declined \$1½ billion (seasonally adjusted annual rate) in the second quarter. Fixed investment increased about \$¾ billion while inventory investment declined \$2 billion, according to the revised series. The rate of inventory investment was, nevertheless, substantially above the 1964 average.

EXPENDITURES FOR NEW PLANT AND EQUIPMENT

Business expenditures for new plant and equipment in 1965 are expected to total \$50.9 billion, almost 13½ percent above the 1964 total, according to the August survey. This represents the second upward revision in 1965 spending plans since the initial survey earlier this year—capital spending plans for 1965 of \$50.2 billion in February were increased to \$50.4 billion in May.

¹ Excludes agriculture.

² Commercial and other includes trade, service, finance, communications, and construction.

³ Estimates based on anticipated capital expenditures as reported by business in late July and August 1965. Includes adjustments when necessary for systematic tendencies in anticipatory data.

NOTE.—Beginning 1959 all quarterly data are rounded to nearest \$50 million.

Annual total is the sum of unadjusted expenditures; it does not necessarily coincide with the average of seasonally adjusted figures.

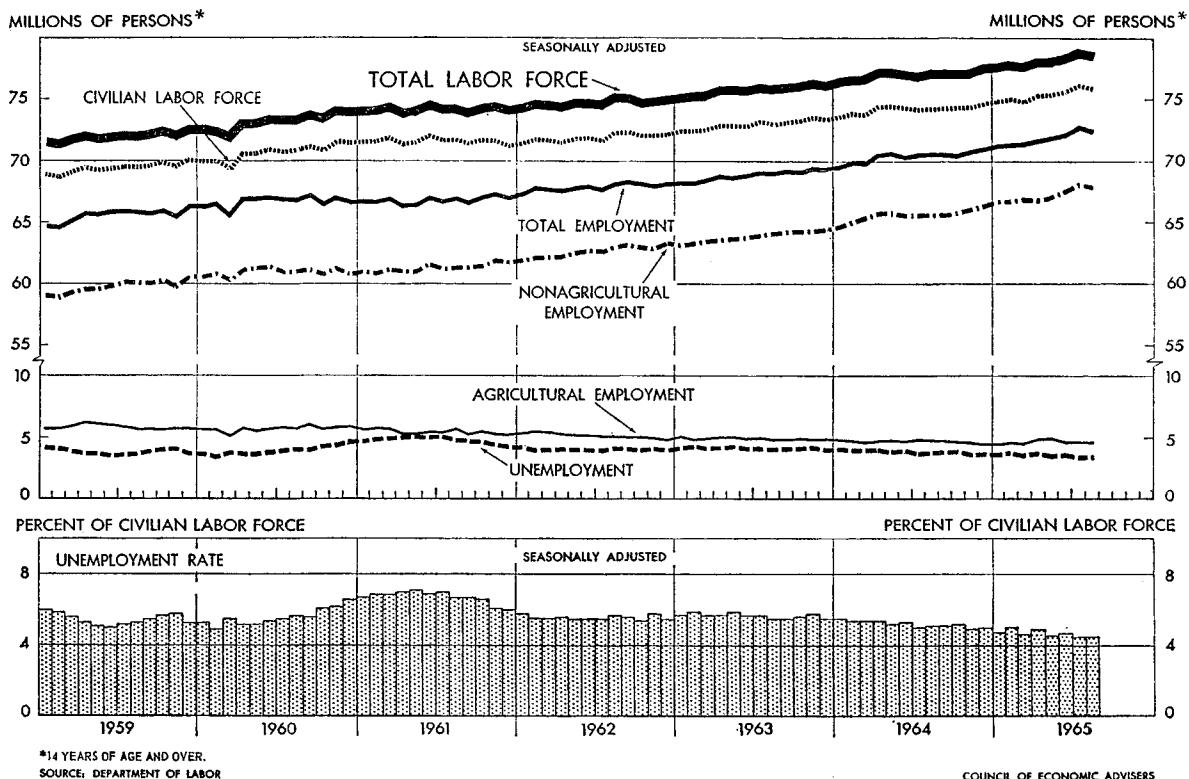

These figures do not agree with the totals included in the gross national product estimates of the Department of Commerce, principally because the latter cover agricultural investment and also certain equipment and construction outlays charged to current expense.

¹ Man-hours lost by the unemployed and those on part-time for economic reasons as a percent of total man-hours potentially available to the civilian labor force. Beginning 1963, series reflects whether unemployed persons sought full or part-time jobs.

² Differs from total nonagricultural employment (p. 13), which includes persons with jobs but not at work for such reasons as vacation, illness, bad weather, and industrial disputes.

³ Includes persons who worked part-time because of slack work, material shortages or repairs, new job started, or job terminated.

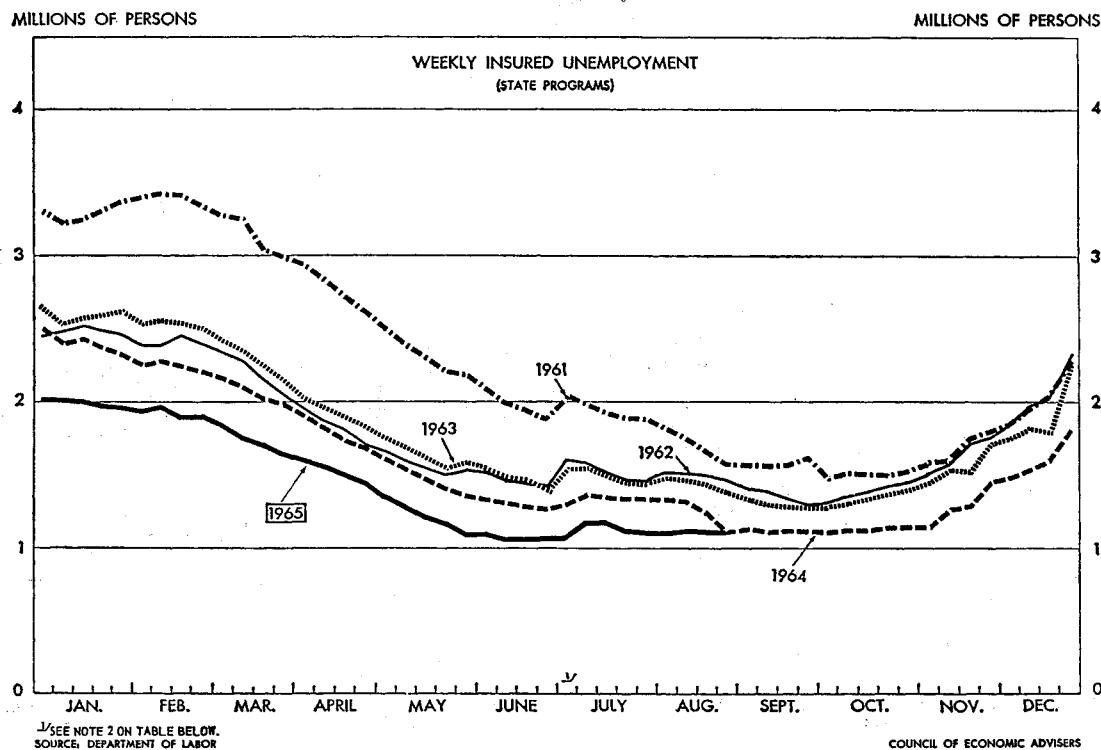

⁴ Primarily includes persons who could find only part-time work.

⁵ Average hours worked: usually full-time, 23.7; usually part-time, 17.4.

NOTE.—See Note, p. 10. Beginning 1960, data include Alaska and Hawaii. Source: Department of Labor.

UNEMPLOYMENT INSURANCE PROGRAMS

In August, insured unemployment under State programs averaged 156,000 less than in August 1964. The insured unemployment rate increased slightly to 3.1 percent in August on a seasonally adjusted basis.

¹ Includes all full- and part-time wage and salary workers in nonagricultural establishments who worked during or received pay for any part of the pay period which includes the 12th of the month. Excludes proprietors, self-employed persons, domestic servants, and personnel of the armed forces. Total derived from this table not comparable with estimates of nonagricultural employment of the civilian labor force, shown on p. 10, which include proprietors, self-employed persons, and domestic servants; which count persons as employed when they

are not at work because of industrial disputes; and which are based on an enumeration of population, whereas the estimates in this table are based on reports from employing establishments.

² Preliminary.

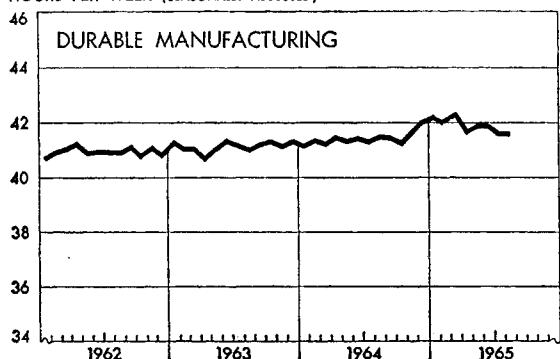

NOTE.—Beginning 1959, data include Alaska and Hawaii.

PRODUCTION AND BUSINESS ACTIVITY

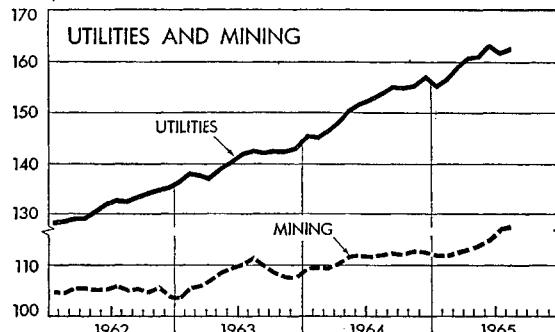

INDUSTRIAL PRODUCTION

In August, the industrial production index (seasonally adjusted) rose slightly above the revised July level to bring the over-the-year gain to nearly 8 percent. Declines in the durable manufacturing sector were more than offset by increases in other sectors.

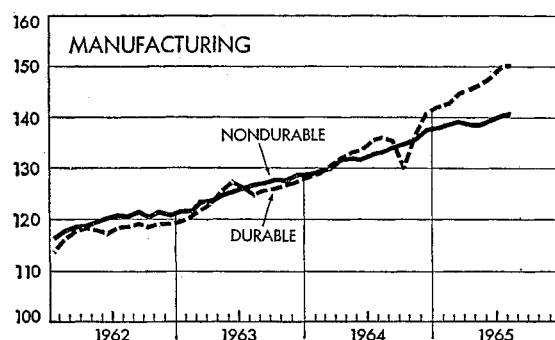

Index, 1957-59=100 (SEASONALLY ADJUSTED)

WEEKLY INDICATORS OF PRODUCTION

Auto and truck assemblies declined sharply in August but picked up a little in early September with production of the new models underway. Steel output declined slightly during most of this period.

MANUFACTURERS' SHIPMENTS, INVENTORIES, AND NEW ORDERS

Manufacturers' shipments rose sharply by 4 percent to a new high in July. Inventories, however, rose only 1 percent so that the inventory-shipments ratio fell to 1.57. New orders also reached a new high, 3 percent above the June level. According to the advance survey, durable goods orders fell 4 percent in August, largely because of sharp declines in steel and motor vehicles.

MERCHANDISE EXPORTS AND IMPORTS

Recorded imports dropped 9 percent in July largely because of delays in unloading U.S. ships affected by the maritime strike. Utilizing available foreign vessels, exporters were able to increase their shipments 4 percent, thus reversing a three-month decline. As a result, the trade surplus widened by almost \$250 million (seasonally adjusted).

U.S. EXPORTS AND IMPORTS OF GOODS AND SERVICES

In the second quarter, the U.S. surplus on goods and services improved by almost one-third—to a seasonally adjusted annual rate of over \$8 billion—but still remained below the 1964 rate. Merchandise exports and imports rose 21 percent and 17 percent respectively, while investment income and other service receipts and payments also reached record levels.

U.S. BALANCE OF INTERNATIONAL PAYMENTS

The United States recorded a surplus on regular transactions of \$476 million (seasonally adjusted annual rate) in the second quarter—the first surplus in nearly 8 years. In addition to the recovery on current account, major factors in this improvement were the sharp reversal of long-term portfolio capital flows and the reduction in direct investment abroad. Second-quarter results were strongly influenced by the balance-of-payments program adopted in February, though other special factors were also important.

PRICES

CONSUMER PRICES

The over-all index of consumer prices increased by 0.1 percent in July. Although food prices rose by 0.7 percent, this increase was offset by a 0.4 percent fall in the prices of other commodities. Service prices continued to rise.

¹ Member banks are all national banks and those State banks which have taken membership in the Federal Reserve System.

² Commercial and industrial loans.

³ Debits during period to demand deposit accounts except interbank and U.S. Government. New series; see *Bank Debts and Deposit Turnover*, G.6 FRB, February 19, 1965.

⁴ Averages of daily figures. Annual data are for December.

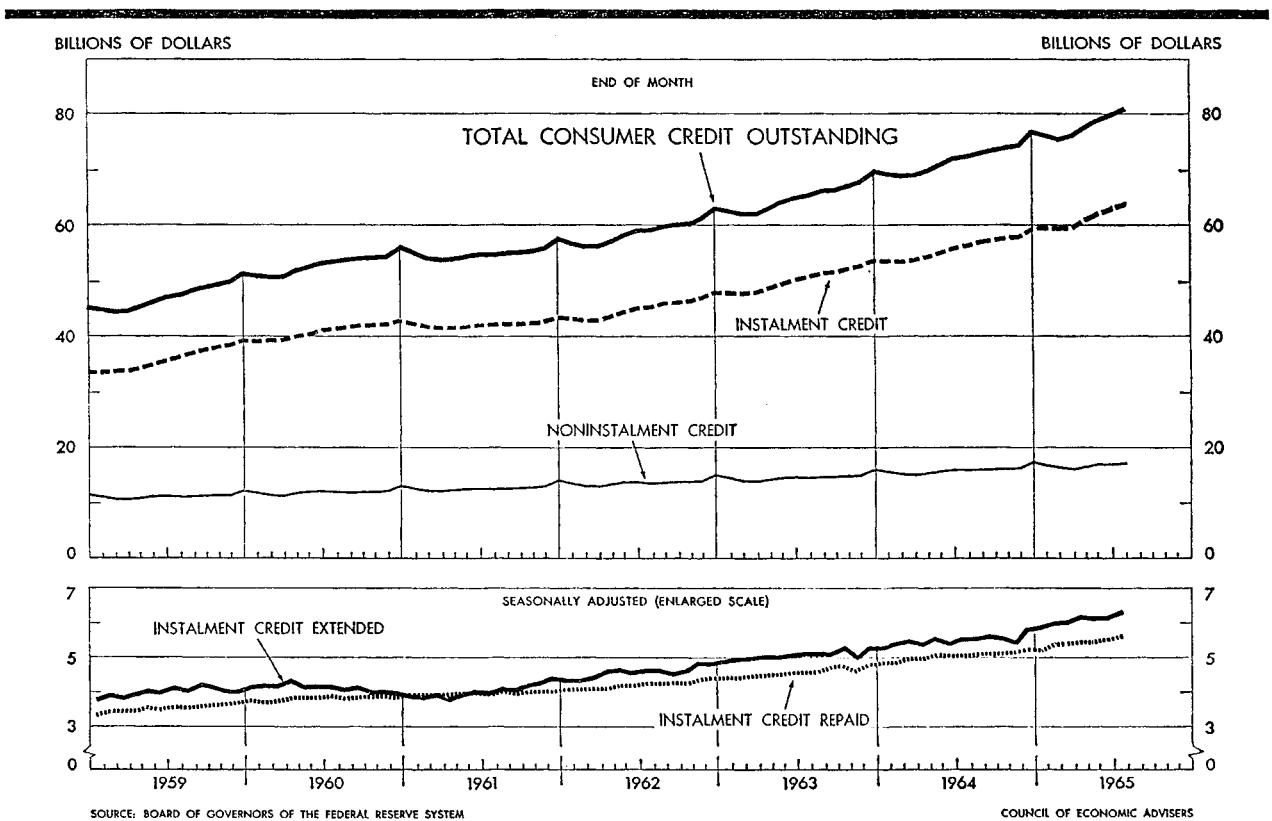

⁵ Estimates as of December 31. ⁶ Preliminary.

NOTE.—Between January and August 1969, series for all commercial banks expanded to include data for all banks in Alaska and Hawaii. Data for all member banks include Alaska and Hawaii beginning 1954 and 1969, respectively.

¹ Also includes other consumer goods paper, and repair and modernization loans, not shown separately.

² Consists of single-payment loans, charge accounts, and service credit.

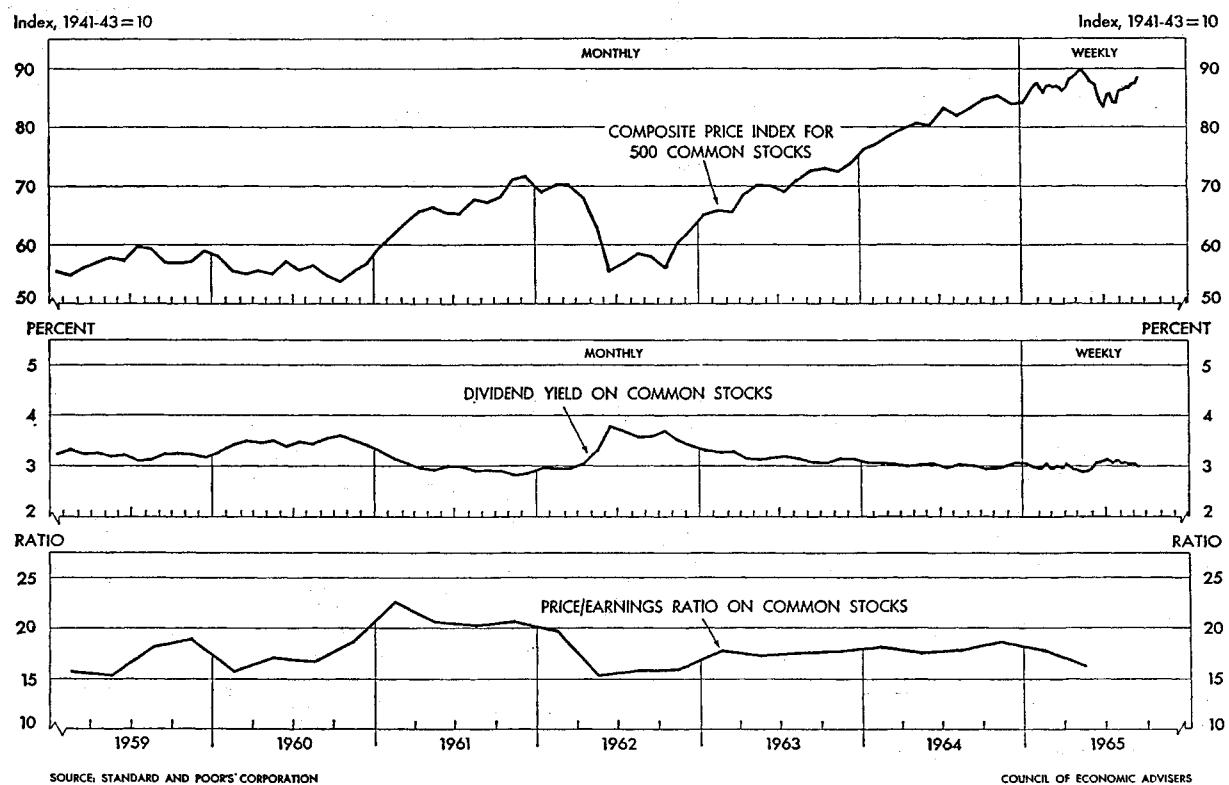

³ End of period, unadjusted.

NOTE.—Data for Alaska and Hawaii included beginning January and August 1959, respectively.

Sources: Board of Governors of the Federal Reserve System and Federal Home Loan Bank Board.

BOND YIELDS AND INTEREST RATES

Interest rates registered further increases in August and early September. Uncertainties over the budgetary impact of Vietnam and the outcome of the steel negotiations were important influences.
