## SOURCES OF PERSONAL INCOME

Personal income rose \$12.2 billion (annual rate) in January, following a rise of \$27.1 billion in December. The changes reflected several special factors: A pay raise for Federal Government employees, cost-of-living and other adjustments to several Federal transfer payments programs, and changes in social security contributions affected the January change, while subsidy payments to farmers and retroactive payment to Postal Service employees affected both the January and December changes. Excluding these special factors, personal income increased \$20.5 billion in January and \$13.9 billion in December.

<sup>1</sup> Includes all full- and part-time wage and salary workers in nonagricultural establishments who received pay for any part of the pay period which includes the 12th of the month. Excludes proprietors, self-employed persons, domestic servants, and personnel of the Armed Forces. Total derived from this table not comparable with estimates of nonagricultural employment of the civilian labor force, shown on p. 11, which include proprietors, self-employed persons, and domestic servants; which count persons as employed when they are not at work because of industrial disputes, bad

weather, etc., even if they are not paid for the time off; and which are based on a sample of the working-age population, whereas the estimates in this table are based on reports from employing establishments.

<sup>2</sup> Includes mining, not shown separately.

<sup>2</sup> Household fuels—gas (piped), electricity, fuel oil, etc.—and motor fuel. Motor oil, coolant, etc. also included through 1982.

<sup>3</sup> Relative importance, December 1987.

NOTE.—Beginning with data for January 1988, the reference base was changed from 1967=100

to 1982-84=100, and new seasonal factors were calculated.

Data beginning 1983 incorporate a rental equivalence measure for homeownership costs and therefore are not strictly comparable with figures for earlier periods.

Data beginning 1987 and 1988 calculated on a revised basis.

<sup>1</sup> Data are prorated averages of Wednesday figures for domestically chartered banks and averages of month-end data for foreign-related institutions. Data beginning January 1984 are not strictly comparable with data for earlier periods, largely because beginning January 1984 certain obligations of States and political subdivisions are included in loans rather than in other securities.

<sup>2</sup> Excludes loans to commercial banks in the United States.

<sup>3</sup> Data are averages of daily figures.

NOTE.—Series for all commercial banks revised.

<sup>1</sup> Department of Defense Military Assistance Program grant-aid shipments are excluded through 1984 and for revised statistical month data for 1985-86; they are included for statistical month data for 1985-86 and for 1987.

<sup>2</sup> Adjusted to include undocumented exports to Canada.

<sup>3</sup> Total includes commodities and transactions not classified according to kind. For exports data beginning 1987, these include undocumented exports to Canada.

<sup>4</sup> Total arrivals of imported goods other than intransit shipments.

<sup>5</sup> Revised statistical month exports less statistical month customs value imports.

NOTE.—Data shown include trade of the U.S. Virgin Islands. Statistical month and revised statistical month refer only to data for 1984-86. Data for 1987 are roughly equivalent to revised statistical month data.
