EMPLOYMENT and **PAY ROLLS**

DETAILED REPORT MARCH 1947

United States Department of Labor Bureau of Labor Statistics

REVISED ESTIMATES OF EMPLOYMENT

Industries in the Apparel Group

In this detailed report the Bureau presents revisions of the production worker estimates for the individual industries comprising the apparel group. The new estimates, based on 1945 data from the Social Security Administration, correct the downward bias which has accumulated since 1939 and are, therefore, more representative of the true levels of employment. In addition, the industries are now consistent with the estimate for the major group--apparel and finished textile products--which had previously been adjusted.

The estimates for all industries in this group, with the exception of the corset industry, have been revised. Because of the lapse of several years without any revisions, the magnitude of each of the changes is very large. The largest of these was in the women's clothing industry, where the employment in a considerable number of new establishments had not been reflected in the Bureau's series. This is the most important single cause of the downward bias.

The present report shows revised estimates and indexes only for the current months and March of last year. A set of summary sheets presenting revised figures from January 1939 to date, by month, will be provided upon request.

- 1/ March 1947 estimates are based on reports from 33,500 cooperating establishments covering 7,650,000 production workers. Estimates for the major industry groups have been adjusted to levels indicated by final 1945 data made available by the Bureau of Employment Security of the Federal Security Agency and supersede data shown in mimeographed releases dated prior to April 1947 and Monthly Labor. Reviews dated prior to May 1947. Comparable series from January 1945 available upon request. The sum of the individual industry estimates, however, do not agree with the totals shown for the major industry groups. The Bureau has not prepared estimates for certain industries and, with the exception of apparel, estimates for individual industries have been adjusted only to levels indicated by the 1939 Census of Manufactures but not to Federal Security Agency data, (See apparel adjustment note.). Data for the current and immediately preceding months are subject to revisions
- These estimates have been adjusted to levels indicated by final 1945 data made available by the Bureau of Employment Security of the Federal Security Agency. They supersede data shown in mimeographed releases dated prior to May 1947 and Monthly Labor Reviews dated prior to June 1947. Comparable series from January 1939 available upon request.

Table 2. - Indexes of Production-Worker Employment and Pay Rolls in Manufacturing Industries 1/ - Continued

1/ These indexes are based on 33,500 ccoperating establishments covering 7,650,000 full- and part-time production workers who worked or received pay during any part of one pay period ending nearest the 15th of March 1947. Indexes for the major industry groups have been adjusted to levels indicated by final 1945 data made available by the Bureau of Employment Security of the Federal Security Agency and supersede data shown in mimeographed releases dated prior to April 1947 and Monthly Labor Reviews dated prior to May 1947. Comparable series from January 1945 available upon request. Indexes for the individual industry groups. With the exception of the industries in the apparel group, indexes for individual industries have been adjusted to levels indicated by the 1939 Census of Manufactures, but not to Federal Security Agency data.

Indexes for the current and immediately preceding months are subject to revisior

- 2/ Revisions have been made as follows in the indexes for earlier months:
 - Agricultural machinery, excluding tractors July and August 1946 pay roll to 247.5 and 252.9.

Caskets and other morticians' goods - November and December 1946 pay roll to 209.8 and 229.3.

Compressed and liquefied gases - December 1946 pay roll to 247.4.

- 3/ These indexes have been adjusted to levels indicated by final 1945 data made available by the Bureau of Employment Security of the Federal Security Agency. They supersede data shown in mimeographed releases dated prior to May 1947 and Monthly Labor Reviews dated prior to June 1947.' Comparable series from January 1939 available upon request.
- 4/ CORRECTION Supplement Table 15. Page 41. February 1947 Detailed Report:

PRODUCTS OF FETROLEUM AND COAL - December 1946 pay roll index should have been 250.9.

RUBBER PRODUCTS - December 1946 employment index should have been 200.1; pay roll 392.2.

Table 3. - Estimated Number of Employees in Selected Nonmanufacturing Industries 1/ (In thousands)

| Street railways and busses | 254 | 254 | 254 | 244 |
| Hotels (year-round) | 378 | 380 | 378 | 385 |
| Power laundries | 4/ | - 4/ | 4/ | 4/ |
| Cleaning and dyeing | 4/ | 4/ | 4/ | 4/ |
| Class I steam railroads 5/ | 1,326 | 1,325 | 1,332 | 1,368 |

Data are for production workers only.

12/3/ Excludes messengers, and approximately 6,000 employees of general and divisional headquarters, and of cable companies.

The change in definition from "wage earner" to "production worker" in the power laundries and cleaning and dyeing industries results in the omission of driversalesmen. This causes a significant difference in the data. New series are being propared.

/ These figures are based on reports from cooperating establishments covering both full- and part-time employees who worked or received pay during any part of one pay period ending nearest the 15th of March 1947, as follows: Mining: 2,700 establishments - 354,000 production workers. Fublic utilities: 6,800 establishments - 620,000 employees.

Wholesale trade: 11,400 establishments - 326,000 employees.

Retail trade: 39,900 establishments - 1,026,000 employees.

Hotels (year-round): 1,300 establishments - 137,000 employees. Power laundries and cleaning and dyeing: 1,800 establishments - 74,000 production workers.

Data for the current and immediately preceding months are subject to revision. Does not include well drilling or rig building.

Cash payments only; additional value of board, room, and tips, not included. Source: Interstate Commerce Commission. Not available.

(In thousands)

Estimates include all full- and part-time wage and salary workers in nonagricultural establishments who worked or received pay during the pay period ending nearest the 15th of the month. Proprietors, self-employed persons, domestic servants, and personnel of the armed forces are excluded. These estimates have been adjusted to levels indicated by final 1945 data made available by the Bureau of Employment Security of the Federal Security Agency and supersede data shown in mimeographed releases dated prior to April 1947 and Monthly Labor Reviews dated prior to May 1947. Data from January 1939 forward were affected by this revision. The complete series from 1939 are available upon request.

2/ Finance and Service were formerly combined and published as "Finance, service, and miscellaneous." Comparable data from 1939 are available.

Table 7. - Estimated Number of Employees 1/ in Manufacturing Industries by Major Industry Group

Estimates include all full- and part-time wage and salary workers in manufacturing industries who worked or received pay during the pay period ending nearest the 15th of the month. These estimates have been adjusted to levels indicated by final 1945 data made available by the Bureau of Employment Security of the Federal Security Agency and supersede data shown in mimeographed releases dated prior to April 1947.

2/ Includes production and non-production workers.

L/ Estimates for manufacturing have been revised to conform with the new series prepared by cooperating state or Regional office. Because this series has been adjusted to recent data made available under the Federal Social Security program, it is not comparable with data previously shown nor with current estimates for "All Industry Divisions". Comparable series for manufacturing estimates, January 1943 to date, available upon request to Regional Director, U. S. Dept. of Labor or cooperating state agency.

Table 9.--Imployment and Pay Polls for Regular Federal Services and Government Corporations', March 1947

(In thousands)

1/ Employment is as of the first of the month.

Pay rolls for February and March 1947 cover the entire calendar month; pay rolls for March 1946 cover all pay periods ending within the month, or four weeks for most employees.
Subject to revision.

4/ Revised.

5/ Includes data for United States navy yards and force-account construction which are also included under construction and shipbuilding and repair projects (tables 11 and 12). Beginning July 1945, data include clerks at third-class post offices, who previously were working on a contract basis, Substitute rural mail carriers are excluded from the employment.

6/ Includes areas in Maryland and Virginia which are within the metropolitan area, as defined by the Bureau of Census.

7/ Covers War and Navy Departments, Maritime Commission, National Advisory Committee for Aeronautics. The Panama Canal, and the war emergency and reconversion agencies.

8/ Includes Alaska and the Panama Canal Zone.

2/ Covers the Panama Railroad Company, the Federal Reserve banks, and banks of the Farm Credit Administration. Data for other Covernment corporations are included under the executive branch.

Note: Revisions which are made from time to time for months prior to those shown in this table are available in the Monthly Labor Review under "Trends of employment, and Labor Turnover". Mimeographed tables showing Federal employment monthly from 1939 to date and Federal pay Digitized for FRAMERIS monthly from 1943 to date are available upon request.

Table 10.—Personnel and Pay of the Military Branch of the Federal Government in Selected Months

(In thousands)

- Personnel is as of the first of the calendar month and includes those on terminal leave, the missing, and those in the hands of the enemy.
 2/ Data for the Navy cover the Navy, Marine Corps, and Coast Guard.
- 3/ Pay rolls are computed from personnel records. The personnel used in the computations is the count as of the last day of the month for the Army and the average for the month for the Navy. Pay rolls for the Navy (proper) include quarterly clothing allowances in January 1947 in the amount of \$5,127,175.
- 4/ Although payments may extend over a period of three months, data for the Navy (proper) include the total amount in the month of discharge.
- 5/ Represents Government's contribution. The men's share is included in the pay roll,
- 6/ Leave payments were authorized by Public Law 704 of the 79th Congress to former enlisted personnel for accrued and unused leave and to present officers and enlisted personnel for leave accrued in excess of 60 days. Payment of present personnel while on terminal leave is included in the pay roll. Value of the bonds represents the face value; interest will be paid in addition to the face value at the time the bonds are cashed.

1/ Preliminary.

2/ Revised.

/ Data for all construction workers (contract and force-account) engaged on new construction, additions, alterations, and on repair work of the type usually covered by building permits. (Force-account employees are workers hired directly by the owner and utilized as a separate work force to perform construction work of the type usually chargeable to capital account.) The construction figure included in the Eureau's nonagricultural employment series covers only employees of construction contractors and on Federal force-account and excludes force-account workers of State and local governments, public utilities, and private firms.

Includes the following force-account employees, hired directly by the Federal Government, and their pay rolls: March 1946, 16,593, \$3,024,907; February 1947, 20,777, \$4,148,447; March 1947, 20,480, \$3,920,465. These employees are also included under the Federal executive service (table 9); all other workers were employed by contractors and subcontractors.

6/ Includes employment on construction of plants to produce atomic bombs, which, for security reasons, was not previously included in these estimates but was shown in the classification "other", as follows: March 1946, 2,600; February 1947, 1,500; March 1947, 1,500.

7/ Excludes pay-roll data for construction of plants to produce atomic bombs.
8/ Employees and pay rolls for Defense Plant Corporation projects are included, but those for projects financed from RFC loans are excluded. The latter are considered non-Federal projects.

9/ Includes contral office force of construction contractors, shop employees of special trades contractors, such as bench sheet-metal workers, etc.

10/ Data for other types of maintenance not available.
