- 1/ Estimates for the major industry groups have been adjusted to final data for 1941 and preliminary data for the second quarter of 1942 made available by the Bureau of Employment Security of the Federal Security Agency. Estimates for individual industries have been adjusted to levels indicated by the 1939 Census of Manufactures, but not to Federal Security Agency data. For this reason, together with the fact that this Bureau has not prepared estimates for certain industries, and does not publish wage earners in war industries, the sum of the individual industry estimates will not agree with totals shown for the major industry groups.
- Unpublished information concerning the following war industries may be obtained by authorized agencies upon request: Aircraft engines; aircraft and parts, excluding aircraft engines; ammunition; communication equipment; engines and turbines; explosives and safety fuses; firearms; fireworks; optical instruments and ophthalmic goods; professional and scientific instruments and fire control equipment; radios and phonographs; and shipbuilding and boatbuilding.
- 3/ Comparable data for earlier months available upon request.
- 4/ Revisions have been made as follows in the data published for earlier months:

Paper goods, other - February 1943 to July 1943 wage earners to 48.2, 48.1, 47.4, 47.5, 48.2 and 47.8.

 Pay Roll in Manufacturing Industries 1/ Continued
- Indexes for the major industry groups have been adjusted to final data for 1941 and preliminary data for the second quarter of 1942 made available by the Bureau of Employment Security of the Federal Security Agency. Indexes for individual industries have been adjusted to levels indicated by the 1939 Census of Manufactures, but not to Federal Security Agency data.
- Unpublished information concerning the following war industries may be obtained by authorized agencies upon request: Aircraft engines; aircraft and parts, excluding aircraft engines; ammunition; communication equipment; engines and turbines; explosives and safety fuses; firearms; fireworks; optical instruments and ophthalmic goods; professional and scientific instruments and fire control equipment; radios and phonographs; and shipbuilding and boatbuilding.
- 3/ Comparable indexes for earlier months available upon request.
- 4/ Revisions have been made as follows in the data published for earlier months:

Paper goods, other - February 1943 to July 1943 employment indexes to 128.1, 127.7, 125.8, 126.1, 127.9 and 127.1; February 1943 pay-roll index to 175.9, May to 183.3, June to 189.1 and August 1943 to January 1944 to 187.3, 183.6, 191.7, 192.2, 189.5 and 193.6.
