EXPLANATORY NOTES

The Federal Deposit Insurance Corporation conducted an abbreviated summary of deposits survey for June 30, 1982. Banks reported the amount of deposits by type of account for each banking office. Survey results have been compiled in a series of publications (See Appendix A), which include State, Standard Metropolitan Statistical Area (SMSA), and county tabulations, along with a national summary, which contains tables on bank structure and tabulations by class and size of bank.

Scope of the Surveys

Data on the distribution of deposits were obtained for each bank, and for each banking office of branch banking systems, to provide means of measuring the deposit structure in local banking markets. Because of the abbreviated reporting format, unit banks, as defined in the instructions, were not required to participate in the survey. Deposit figures for these banks were taken from the June 30, 1982 Reports of Condition. Where recordkeeping by banks prevented accurate separation of individual office figures across county lines, the reporting banks usually estimated the allocation of deposits among offices. Corporation estimates were infrequent and should have little effect on published figures.

Arrangement of Published Data

Because these publications are directed toward providing information on the structure of individual banking markets, the figures for each geographical area include deposits only of banking offices located within that area. In line with the banking market concept, the total number of *banks* shown for any given area includes each bank operating at least one office within the designated area, irrespective of the location of its main office. Thus a bank operating branches throughout an SMSA comprising several counties appears as one bank in the SMSA and as one bank in each of the several counties. Similarly, if the bank's operations extend into two different States, the bank is counted once in each State and once in the U.S. total. The number of *banking offices* in any given area includes each location at which deposit business is transacted, whether it is a unit bank, a main office or branch of a banking system, or a banking facility. For all geographical classifications, individual banking offices—not the combined totals of the bank—are the source of the 1982 data.

The amount of bank deposits are shown for total deposits and for four deposit categories: demand, IPC (individuals, partnerships, and corporations); savings, IPC; time, IPC; and all public funds (demand, time, and savings).

Additional points which should be noted:

1. *Banking office* is defined to include all offices and facilities which actually hold deposits and to exclude consumer installment loan offices, computer centers, and other nondeposit installations, such as some electronic funds transfer units. It also excludes "nondeposit" trust companies. See the instructions that are part of the forms for additional definitions.
2. The sums of the type-of-account categories listed do not add to total deposits; the differences are due in part to *all other deposits,* such as deposits of foreign governments, commercial bank deposits, and certified and officers checks which are not shown separately.
3. All reports submitted have been processed and corrected to the extent possible. There may be rounding differences or minor reporting errors reflected in the table material.

INSTRUCTIONS FOR FORM 8020/05, JUNE 30, 1982 - COMMERCIAL AND MUTUAL SAVINGS BANKS

DEFINITIONS

BANK WITH BRANCHES OR FACILITIES - An institution that has a main banking office and one or more distinct physical premises or facilities that are extentions of the banking entity.

BRANCH - For this Summary, a Branch is any office or facility of a bank, other than its main office, at which deposits are received, checks paid, or money lent **even though some of these may not be defined as branches by State branching laws.** A branch includes, but is not limited to, all of the following: drive-in facilities, seasonal offices, offices on military bases or government installations, paying/receiving stations or units, and nondeposit offices. Deposit data will not be collected and forms will not be provided for electronic fund transfer units (EFTU) and customer bank communication terminals (CBCT).

DEPOSITS - The definitions of deposit types used in the 1982 Summary are the same as those used for the Report of Condition. These definitions relate to deposits held or received by the reporting bank in its main office and in any branch located in any State, the District of Columbia, any territory or insular possession, Puerto Rico, Guam, or the Virgin Islands. For specific definitions of deposit types refer to the Instructions for the Preparation of the Report of Condition. Equivalent Report of Condition items are on the face of this form.

INSTRUCTIONS

Each bank should receive one copy of Form 8020/05 for the main office and for each branch or facility, as defined above, opened on or before June 30, 1982. Electronic funds transfer units (EFTU) and customer bank communication terminals (CBCT) are not included in this year's Summary.

Each form should be completed and returned even if the identified office does not accept deposits. For such offices indicate that it is a "Nondeposit office" and sign where indicated.

If your institution did not receive a form for an office or facility use a xerox copy indicating the appropriate branch identification information. Forms received for a closed office or facility should be returned with "Closed" and the date of closing indicated.

This year's Summary collects deposit category totals by banking office. When processed by FDIC the aggregate **deposit category totals for your institution's banking offices must equal the June 30, 1982 equivalent Report of Condition items** indicated on this reporting Form 8020/05.

Combining account or deposit data from two or more offices is prohibited, with the following exceptions: drive-in offices, seasonal branches, nondeposit branches, and military facilities. Combining deposits of offices located in different counties is also prohibited.

In all other cases, you must provide individual data for each of your offices. Where centralized bookkeeping or other conditions make it impossible to report exact figures, you must provide estimates and label them as such on the forms.

Please forward the original of each form received by July 30, 1982 to:

Federal Deposit Insurance Corporation
Information Planning Unit
550 17th Street, N.W.
Washington, D. C. 20429

If you need assistance, please call, toll free, 800-424-4334, extension 701.

ADDITIONAL POINTS TO BE NOTED

— Overdrafts should not be reported as deposits. They are considered loans and therefore should not be included in the Summary of Deposits.

— Hypothecated deposits (deposits accumulated for the payment of personal loans) should not be included in any deposit category.

— Please report all amounts to the nearest thousand, EXCLUDING DOLLARS AND CENTS.

— Every line on the form should contain an entry. Where there are no figures to report, "none" or "not applicable" should be entered.

— Deposits of Trust Department should be included in the appropriate type of deposits category (as reported on the Report of Condition).

— NOW accounts should be included in Savings as defined in the Report of Condition instructions.

— Please verify that the aggregate deposit category totals for your institution's banking offices are equal to the equivalent June 30, 1982 Report of Condition items indicated on the face of this reporting form.

— Signature on the "Main Office" banking office form only is acceptable.

— Complete and return the original of all banking office forms received including those that, by **FDIC definition,** do not require deposit totals.
