FOR RELEASE JUNE 23, 1994

ST. LOUIS -- The Federal Reserve Bank of St. Louis has made available a collection of essays presented at its 18th annual economic policy conference, "Money Stock Measurement: History, Theory and Policy Implications."

The collection of essays is published in a special issue of the Review, the Federal Reserve Bank of St. Louis' bimonthly research journal, and features authors at the forefront of the economics profession, discussing a wide variety of stimulating and thought-provoking topics regarding money stock measurement.

Authors include William A. Barnett, Washington University; Charles W. Calomiris, University of Illinois; K. Alec Chrystal, The City University

(more)

ESSAYS/2

of London; Douglas Fisher, North Carolina State University; Adrian Fleissig, North Carolina State University; Kenneth A. Kavajecz, Northwestern University; Ronald MacDonald, University of Strathclyde; and Jerome L. Stein, Brown University.

To obtain a free copy of this collection, call (314) 444-8809 or write:

Review, Research and Public Information, Federal Reserve Bank of St. Louis, Post Office Box 442, St. Louis, Mo. 63166.

The Federal Reserve Bank of St. Louis has branches in Little Rock, Louisville and Memphis. It serves the Eighth Federal Reserve District, which includes all of Arkansas, eastern Missouri, western Kentucky and Tennessee, southern Indiana and Illinois, and northern Mississippi.
