### STATISTICS OF INCOME FOR 1936

#### PART 1

#### INDIVIDUAL INCOME TAX RETURNS, ESTATE TAX RETURNS, AND GIFT TAX RETURNS

TREASURY DEPARTMENT,

OFFICE OF COMMISSIONER OF INTERNAL REVENUE, Washington, D. C., October 25, 1938.

SIR: In accordance with the provision in the Revenue Act of 1916 and subsequent acts requiring the publication annually of statistics with respect to the operation of the income, war-profits, and excessprofits tax laws, I have the honor to transmit herewith a report entitled "Statistics of Income for 1936, Part 1," prepared from individual income tax returns for 1936 filed during 1937, with a historical presentation of the income and of the tax liability reported by individuals since the inception of the present period of income taxation under the sixteenth amendment to the Constitution. The report also contains tabulations of data from estate tax returns filed during 1937, irrespective of the date of death of the decedent, as well as tabulations of data from gift tax returns filed during 1937, with brief historical summaries.

#### INDIVIDUAL INCOME TAX RETURNS

#### RETURNS TABULATED

Individual income tax returns for years ended December 31, 1936, and thereafter, are filed under the provisions of the Revenue Act of 1936, which was approved June 22, 1936. The major changes in the provisions of this act, affecting individual income tax returns, as compared with the provisions of the Revenue Act of 1934, under which the returns for the preceding year were filed, were application of the normal tax to the amount of dividends received from domestic corporations, and increases in the surtax rates, applicable to surtax net incomes in all brackets of over 50,000. The increases in the highest surtax brackets, as compared with the rate of 59 percent previously applicable to surtax net income in exceeding 1,000,000, are 73 percent on that part of surtax net income in excess of 1,000,000 and not over 2,000,000; 74 percent on the part in excess of 2,000,000. (These increased surtax rates were also contained in section 101 of the Revenue Act of 1935, approved August 30, 1935, which was superseded by section 12 of the Revenue Act of 1936.)

The year for which the income is reported is, in general, the calendar year ended December 31, 1936. However, a negligible number of individual returns is filed for a fiscal year other than the calendar year. The returns for a fiscal year ended within the period July 1936 through June 1937 are tabulated with the calendar year returns for 1936. There are also included part-year returns for which the greater part of the accounting period falls in 1936. Individual income tax returns for a fiscal year ended after June 30, 1936, and prior to December 31, 1936, are filed under the provisions of the Revenue Act of 1934.

The general tables for individuals include only returns with net income. The data tabulated from individual returns with no net income are shown on pages 30–31 and 133–134. Prior to 1928 no tabulations were made from individual returns with no net income. The filing of returns with no net income or with a net income of less than \$1,000, is due to (1) the provisions of the Revenue Act of 1921 and subsequent acts requiring that a return be filed by every individual with gross income of \$5,000 and over, irrespective of the amount of net income or deficit, and by every married couple living together and having an aggregate gross income of \$5,000 and over; (2) married couples electing to file separate returns, as provided by law; (3) returns filed in the case of the death of the taxpayer covering the income period to date of death, and (4) part-year returns filed by taxpayers electing to change the accounting period.

The statistics are taken from returns as filed and prior to any revision or adjustment that may subsequently be made as a result of audit by the Bureau of Internal Revenue, and include data from amended returns showing net income of \$100,000 and over but not from tentative returns, or amended returns with net income under \$100,000. The data from income tax returns filed by individuals reporting net income of \$5,000 and over are tabulated from each such return. Individual returns with net income under \$5,000 filed on Form 1040, which display income characteristics similar to those usually found in returns with net income of \$5,000 and over, such as varied or unusual sources of income or large total income, pass through the Statistical Section, and the data are tabulated from each of these returns.

The statistics pertaining to individual returns with net income under \$5,000, excepting those on Form 1040 specified above (which numbered approximately 356,000), represent estimates based on samples of such returns. All returns, Form 1040, are sent to Washington for administrative action and those with net income under \$5,000, excepting those referred to above, are sampled by the Statistical Section. The returns, Form 1040A, are retained in the collection districts and samples only are sent to Washington. Averages for the various items from a sample for each State are applied to the total number of returns of the class which they represent to secure estimates for the particular State.

The sample for 1936 included (1) approximately 250,000 returns, Form 1040, representing nearly 25 percent of the total number of taxable and nontaxable returns, Form 1040, with net income under \$5,000, exclusive of those which display income characteristics similar to those usually found in returns of net income of \$5,000 and over, and (2) approximately 350,000 returns, Form 1040A, representing for each collection district not less than 10 percent of the number of taxable and nontaxable returns, Form 1040A, with net income under \$5,000. The minimum for Form 1040 was 4,000 and for Form 1040A the mininum was 2,000, or 10 percent of the number filed, whichever was larger. When the number of returns filed in a collection district in this class was less than 4,000 in the case of Form 1040 or 2,000 in the case of Form 1040A, the entire number filed was tabulated.

#### DEFINITION OF NET INCOME

Throughout this report "net income" represents the amount of gross income, as defined in the revenue acts effective for the year for which the returns are filed, in excess of the deductions claimed by the taxpayer under the provisions of the respective acts, and "deficit" means excess of deductions over gross income. Credits allowed individuals, such as personal exemption, credit for dependents, and credit for earned income, are not included in deductions. For the income years 1934, 1935, and 1936, net income includes gains and losses from the sales of capital assets to the extent required or allowed under the Revenue Acts of 1934 and 1936.

Net income subject to surtax represents the amount of net income less personal exemption and credit for dependents. For 1936, the amount of net income subject to the normal tax is equal to the surtax net income less (1) the amount of interest received on Government obligations not wholly exempt from tax and (2) the earned income credit. For years prior to 1936, the amount of dividends received from domestic corporations subject to taxation under Title I of the effective revenue act was also subtracted from surtax net income in determining the amount of net income subject to normal tax.

#### TAX LIABILITY AND COLLECTIONS

The amount of tax liability as reported on the returns is not precisely comparable with the amount of individual income tax collections during the calendar year in which the returns are filed. Several factors are responsible for the difference in the taxes collected and the tax liability reported on the returns, among which are the following:

1. The amount of tax originally reported may have been subsequently revised as the result of audit of returns. The revisions may result in additional assessments, thereby increasing the tax liability, or in certificates of overassessment, representing abatements and credits, which reduce the tax liability originally reported. An amended return has the same effect as an audit revision.

2. Income and profits taxes paid to foreign countries or possessions of the United States may be taken as a deduction from gross income or applied under certain limitations as a credit against the income tax payable to the United States. The amount of such taxes taken as a credit by individuals against the income tax liability to the United States has not been deducted from the amount of income tax liability shown in the tabulations in this report. The aggregate amounts of this credit, which are available only for the years 1925 to 1930, inclusive, appear on page 9 of the Statistics of Income for 1930.

3. Individual income taxes paid at the source on tax-free covenant bonds are deductible from income taxes payable by individuals but are not deducted in arriving at the income tax liability of individual returns shown herein.

4. The amount of tax liability on fiscal year returns may not represent taxes collected during the calendar year in which the returns are filed. 5. Tabulations in this report exclude individual income tax returns, Forms 1040C and 1040NB, whereas, collections in the current year include taxes on these returns. Form 1040C is designed for departing aliens, and Form 1040NB for nonresident aliens not engaged in trade or business within the United States and not having an office or place of business therein. Form 1040NB is used for the calendar year 1936 for the first time.

6. Delays in payment due to financial embarrassment, death, liquidation of business, or any other cause, result in collections of taxes after the close of the year in which such taxes are due, and the classification of such collections as "back taxes" because made in a subsequent year. For similar reasons, certain amounts are uncollectible.

7. Collections in the current year include such interest and penalty items as are received in connection with delinquent payments on returns.

#### GEOGRAPHIC DISTRIBUTION

Individual income tax returns may be filed either in the collection district in which the taxpayer resides or in which his principal place of business is located. Although the returns are tabulated by the States in which they are filed, the data do not represent the geographic distribution of the sources of income, as income reported by an individual in one State may have been derived from sources in other States.

#### COMPARABILITY WITH PREVIOUS REPORTS

In various sections of this report, attention is directed to changes in the provisions of the revenue acts under which the returns for given years are filed which interfere with a precise comparability of the data over a period of years. The major provisions of the revenue acts from 1913 to date are shown on pages 138–148.

#### NUMBER OF RETURNS, NET INCOME, AND TAX

The returns of individuals reporting net income for 1936 numbered 5,413,499, of which 2,861,108 were taxable and 2,552,391 nontaxable. Aggregate net income was \$19,240,109,644, of which \$14,218,853,550 was reported on taxable returns and \$5,021,256,094 on nontaxable returns. The total tax liability reported on taxable returns was \$1,214,016,803. Tax liability averaged \$224 for all returns and \$424 for taxable returns. The effective tax rates were 6.3 percent for all returns and 8.5 percent for taxable returns. The number of returns reporting net income was 4.2 percent of the total population (Census Bureau estimate of population as of July 1, 1936).

As compared with returns for 1935, the total number of returns increased by 838,487, or 18.3 percent, the number of taxable returns increased by 750,218, or 35.5 percent, and the number of nontaxable returns increased by 88,269, or 3.6 percent. The total net income increased \$4,330,297,619, or 29.0 percent, the net income on taxable returns increased \$4,184,747,575, or 41.7 percent, and the net income on nontaxable returns increased \$145,550,044, or 3.0 percent. The tax liability increased \$556,577,460, or 84.7 percent. The effective rates of tax for 1935, which were somewhat lower than those for 1936, were 4.4 percent for all returns and 6.6 percent for taxable returns.

The distribution of returns of individuals by States and Territories is given in the basic table 1, page 83, and by net income classes in basic table 2, pages 84-85. Each of these tables shows number of returns, net income, tax, personal exemption, and credit for depedents.

#### SIMPLE AND CUMULATIVE DISTRIBUTION BY NET INCOME CLASSES OF NUMBER OF RETURNS, NET INCOME, AND TAX

The distribution of the returns by a limited number of net income classes is exhibited in the following table, which includes the number of returns, net income, and tax; also cumulative totals and percentages. In basic table 3, pages 86-88, a similar distribution of the number of returns, net income, and tax is shown by a more detailed net income classification.

<sup>1</sup> For general explanations, see pp. 1-5. <sup>2</sup> Less than one-hundredth of 1 percent.

#### CLASSIFICATION BY SEX AND FAMILY RELATIONSHIP

The table presented herewith shows the number of individual returns and the net income distributed according to sex and family relationship of the taxpayer. In basic tables 4 and 5, pages 89–91 and 92–94, similar data are shown by States and Territories and by net income classes, respectively.

The tabulation of the returns showing community property income excludes returns with net income under \$5,000 and joint returns of husband and wife with net income under \$10,000. The returns of married persons not showing community property income filed in the eight community property States are classified according to the status reported, as joint returns of husbands and wives or separate returns of husbands and wives. In tabulating joint returns showing community property net income of \$10,000 and over, with tax liability apportioned between husband and wife, the items of income and deductions are divided to represent two community property returns, the net income class for each of the separate returns being one-half of the combined community income. Separate returns of husbands and wives showing community property income of \$5,000 and over are classified as community property returns by net income classes according to the net income on each return.

#### STATISTICS OF INCOME

	Retu	rns	Net income		
Family relationship	Number	Percent	Amount (thousands of dollars)	Percent	
Joint returns of husbands, wives, and dependent children, and returns of either husband or wife when no other return is filed. Separate returns of husbands and wives: Men 1 Women 1 Heads of families: Single men and married men not living with wives Single women and married women not living with husbands. Not heads of families:	2, 392, 833 150, 364 136, 211 367, 419 199, 535	44. 20 2. 78 2. 52 6. 79 3. 69	9, 321, 442 2, 071, 764 927, 683 957, 966 511, 590	48. 45 10. 77 4. 82 4. 98 2. 66	
Single men and married men not living with wives Single women and married women not living with husbands Community property returns. Estates and trusts	1, 299, 657 769, 692 49, 311 48, 477	24.00 14.21 .91 .90	2, 706, 848 1, 775, 820 620, 126 346, 870	14.07 9.23 3.22 1.80	
Grand total	5, 413, 499	100.00	19, 240, 110	100.00	

Individual returns, 1936, by sex and family relationship: number of returns, net income, and percentages 1

<sup>1</sup> For general explanations, see pp. 1-5. <sup>3</sup> An unequal number of separate returns of husbands and wives results from the use of the sample method for returns with net income under \$5,000, as the net income of one spouse may be \$5,000 or over and that of the other spouse under \$5,000 (see discussion of sample, p. 2).

#### PERSONAL EXEMPTION AND CREDITS AGAINST NET INCOME

The net income specifically exempt from normal tax through personal exemption, credit for dependents, earned income credit, and interest on Government obligations not wholly exempt from tax, together with net income subject to normal tax is shown in the Unlike former years, the net income subject to following table. normal tax includes the amount of dividends received from stock of domestic corporations subject to taxation under Title I of the effective revenue law.

Individual returns, 1936: net income exempt from and amount subject to normal tax 1

Distribution	Amount (thousands of dollars)	Percent
Net income	19, 240, 110	100.00
Personal exemption and credits against net income: Personal exemption Credit for dependents. Earned income credit. Taxable interest on partially tax-exempt Government obligations <sup>2</sup>	9, 920, 814 1, 451, 502 1, 231, 044 43, 627	51.56 7.54 6.40 .23
Total Less: Excess exemption and credits <sup>3</sup>	$12, 646, 987 \\ 1, 661, 807$	65. 73 8. 63
Net income exempt from normal tax	10, 985, 180	57.10
Net income subject to normal tax	8, 254, 930	42.90

<sup>1</sup> For general explanations, see pp. 1-5. <sup>2</sup> Interest received on United States savings bonds and Treasury bonds, owned in excess of \$5,000, and on obligations of certain instrumentalities of the United States (see items 5 and 25, Form 1040, p. 152) reported on returns with net income of \$5,000 and over. <sup>3</sup> Includes taxable interest received on partially tax-exempt Government obligations reported on returns with net income under \$5,000

with net income under \$5,000.

#### CAPITAL GAINS AND LOSSES

The special provisions in the revenue acts for capital gains and losses from the sale of assets held more than two years apply, for capital gains, to sales after December 31, 1921, and prior to January 1, 1934, and for capital losses, to sales after December 31, 1923, and prior to January 1, 1934. A summary of the provisions of the Revenue Act of 1921 and subsequent acts, affecting the tax on capital gains, and of the provisions of the Revenue Act of 1924 and subsequent acts, affecting the tax credit on capital losses, is found on pages 8 and 9 of the Statistics of Income for 1933 and in the section of this report entitled "Revenue Acts of 1913–1936," etc., page 145. The "total income" and "net income" for individual returns for 1922 through 1933, as presented in the historical tables in this report, pages 39–44, *include* "capital net gains," whereas, for the years 1924 through 1933 the "net income" has not been reduced by and "deductions" have not been increased by the amount of "capital net losses," reported for tax credit.

Under the Revenue Acts of 1934 and 1936, the definition of capital assets is extended to include assets held by the taxpayer, regardless of time held, instead of only assets held over two years. Also, certain percentages of the gain or loss recognized upon such sales or exchanges are taken into account in computing net income. These percentages vary according to the period for which the assets have been held. The deduction for net capital losses is limited to an amount not in excess of \$2,000, after subtracting the prorated gains from the sales or exchanges of capital assets.

The net income reported on the individual income tax returns for 1934, 1935, and 1936 includes net capital gains and net capital losses computed in accordance with the above limitations. It is not possible, by using the net capital gain and net capital loss on the returns for 1934, 1935, and 1936 to adjust the "total income," "net income," and "deductions" so that they will be comparable with these items tabulated for prior years. Moreover, net capital gains and losses reported on individual income tax returns for 1934, 1935, and 1936 are not comparable with "profit and loss from sale of real estate, stocks, and bonds, etc.," "capital net gain," or "capital net loss" which were reported on returns in prior years.

#### SOURCES OF INCOME AND DEDUCTIONS

In the table on page 10 there appears a distribution, by sources, of the income and deductions reported by individuals. Income from the various sources represents the net amount by which the gross receipts exceed the deductions allowed, as reported in the schedules of the return (see Form 1040, p. 152), and in aggregate represents the sum of the net amounts of income from each source. Net losses reported under "income" items on the face of the returns are transferred in tabulation to deductions, which also include amounts reported on the return under "deductions."

Income from partnerships and fiduciaries excludes taxable interest received by these entities on obligations of the United States, since this item is reported separately under its classification, and includes net capital gain or loss allowed upon sale of capital assets and dividends received by these entities on stock of domestic corporations and foreign corporations. In former years, dividends received by partnerships and fiduciaries on stock of domestic corporations subject to taxation under Title I of the various revenue laws were tabulated under "dividends," while dividends on stock of foreign corporations (other than those deriving more than half their gross income from sources in the United States) and, except for 1932 and 1933, dividends on stock of domestic corporations not subject to taxation under Title I of the various revenue laws, were left in income from partnerships and fiduciaries.

With reference to the amount of net capital gains and net capital losses, attention is directed to the provisions of the Revenue Acts of 1934 and 1936, as described in the section of the text entitled "Capital gains and losses."

The items of "interest paid" and "taxes paid" which are reported under "deductions" on the individual income tax returns do not include amounts reported as business deductions in schedules A and B.

Interest paid is reported as item 13, on the face of the return, Form 1040, in accordance with the following instructions:

Enter as item 13 interest paid on personal indebtedness as distinguished from business indebtedness (which should be deducted under schedule A or B). Do not include interest on indebtedness incurred or continued to purchase or carry obligations (other than obligations of the United States issued after September 24, 1917, and originally subscribed for by the taxpayer) the interest upon which is wholly exempt from taxation.

Taxes paid exclude (1) the Federal income tax, (2) estate, inheritance, legacy, succession, and gift taxes, (3) income and profits taxes paid to foreign countries or possessions of the United States, which are allowed as a credit against the tax, and (4) taxes reported on Form 1040F, schedule of farm income and expenses. Taxes paid are reported as item 14 on the face of the return, Form 1040, in accordance with the following instructions:

Enter as item 14 personal taxes and taxes paid on property not used in your business or profession, not including those assessed against local benefits of **a** kind tending to increase the value of the property assessed. Do not include Federal income taxes, nor estate, inheritance, legacy, succession, and gift taxes, nor taxes imposed upon your interest as shareholder of a corporation which are paid by the corporation without reimbursement from you, nor income taxes claimed as a credit in item 32. No deduction is allowable for any portion of foreign income and profits taxes if a credit is claimed in item 32.

A historical summary of taxes paid for the years 1927 through 1932 and of interest paid for the years 1928 through 1932 is found in the 1932 Statistics of Income, Table 8A, page 80.

<sup>4</sup> For definition of capital assets and amounts of net capital gain and loss taken into account for tax purposes, see text, p. 8, and synopsis of laws, pp. 144-145.
"Dividends" include those on stock of both domestic and foreign corporations, excluding dividends received by partnerships and fiduciaries. In former years, this item included dividends on stock of domestic corporations subject to taxation under Title I of the various revenue acts, and until 1934, the dividends received on stock of foreign corporations deriving more than half their gross income from sources within the United States, whether or not received direct or by partnerships and fiduciaries.
<sup>4</sup> Interest received on United States savings bonds and Treasury bonds, owned in excess of \$5,000, and on obligations of certain instrumentalities of the United States (see items 5 and 25, Form 1040, p. 152) reported on returns with net income on partially tax-exempt Government obligations reported on returns with met income on the states (see items 5 and 25, Form 1040, p. 152) reported on returns with net income on the states (see items 5 and 25, Form 1040, p. 152)

<sup>6</sup> Includes taxable interest received on partially tax-exempt Government congations reported on returns with net income under \$5,000.
<sup>7</sup> Excludes dividends received on stock of domestic corporations not subject to taxation under Title I of the Revenue Act of 1936 and on stock of foreign corporations. In former years, dividends received from these two types of corporations were tabulated as "other income," except in so far as included in partnership and flduciary income, and until 1934 except in so far as received from foreign corporations deriving more than half their gross income from sources within the United States. See footnotes 2 and 4.
<sup>8</sup> Excludes amounts reported in schedules A and B as business deductions.

The following table shows, for a limited number of net income classes, the distribution of total income by sources, specific items of deductions, and net income. The distribution by States and Territories and by more detailed net income classes is shown in basic tables 6 and 7, respectively (pp. 95-101). The following text table and basic table 7 also show the total number of returns in each net income class and, for returns with net income of \$5,000 and over, the number of returns on which were reported specific sources of income and deduc-The table on pages 13–14 shows for a limited number of net tions. income classes the percentage distribution of sources of income, deductions, and net income.

<sup>4</sup> "Dividends" include those on stock of both domestic and foreign corporations, excepting dividends received by partnerships and fiduciaries. In former years, this item included dividends on stock of domestic corporations subject to taxation under Title I of the various revenue acts, and until 1934, the dividends received on stock of foreign corporations deriving more than half their gross income from sources within the United States, whether or not received direct or by partnerships and fiduciaries.
<sup>4</sup> Interest received on United States savings bonds and Treasury bonds, owned in excess of \$5,000, and on obligations of certain instrumentalities of the United States, is subject to surtax if the surtax net income is over \$4,000. (See items 5 and 25, Form 1040, p. 152.)
<sup>6</sup> The number of returns is not available, since the amount of "other income" is secured by deducting the sum of specific corporations. In former years, dividends received from these two types of corporations were tabulated as "other income." except in so far as included in partnership and fiduciary income, and until 1934 except in so far as not available, since the amount of "other line gross income from sources within the United States. (See footnotes 2 and 4.)
<sup>1</sup> Excludes amounts reported in schedules A and B as business deductions." is determined by subtracting the sum of specific deductions from total deductions.

<sup>9</sup> Not available.

<sup>19</sup> Excludes returns with net income under \$5,000.
 <sup>10</sup> Excludes returns with net income under \$5,000 is tabulated with "other taxable interest."
 <sup>11</sup> Includes taxable interest received on partially tax-exempt Government obligations reported on returns with a stable interest.

with pet income under \$5,000.

Individual returns, 1936, by net income classes: percentage distribution of sources of income, deductions, and net income-Continued

<sup>1</sup> For general explanations, see pp. 1-5.

<sup>1</sup> For general explanations, see pp. 1-5.
<sup>2</sup> See text, p. 8.
<sup>4</sup> For definition of capital assets and amounts of net capital gain and loss taken into account for tax purposes, see text, p. 8, and synopsis of laws, pp. 144-145.
<sup>4</sup> 'Dividends'' include those on stock of both domestic and foreign corporations, excepting dividends received by partnerships and fiduciaries. In former years, this item included dividends on stock of domestic corporations subject to taxation under Title I of the various revenue acts, and until 1934, the dividends received on stock of foreign corporations deriving more than half their gross income from sources within the United States, whether or not received direct or by partnerships and fiduciaries.
<sup>a</sup> Interest received on United States savings bonds and Treasury bonds, owned in excess of \$5,000, and on obligations of certain instrumentalities of the United States, is subject to taxation under Title I of the Revenue Act of 1936 and on stock of foreign corporations. In former years, dividends received from these two types of corporations were tabulated as "other income," except in so far as included in partnership and fiduciaries.
<sup>a</sup> Excludes dividends received on stock of foreign corporations. In former years, dividends received from these two types of corporations were tabulated as "other income," except in so far as included in partnership and fiduciary income, and until 1934 except in so far as received from foreign corporations deriving more than half their gross income from sources within the United States. See footnotes 2 and 4.
<sup>a</sup> Excludes amounts reported in schedules A and B as business deductions.
<sup>a</sup> Tacable interest received on partially tax-exempt Government obligations reported on returns with net income under \$5,000 is tabulated with "other taxable interest."
<sup>a</sup> Includes taxable interest received on partially tax-exempt Government obligations reported on returns with net income under

<sup>9</sup> Includes taxable interest received on partially tax-exempt Government obligations reported on returns with net income under \$5,000.

FREQUENCY DISTRIBUTION OF SELECTED SOURCES OF INCOME AND LOSS BY NET INCOME CLASSES AND BY SIZE OF EACH SOURCE OF INCOME AND LOSS

For returns with net income of \$5,000 and over, there is shown in the following table the frequency distribution of selected sources of income and loss by net income classes and by size of each source of income and loss.

Sources of income not included in this tabulation are partnership, fiduciary, interest, and other income. The total income received through partnerships and fiduciaries cannot be shown in this table as such income may not be fully included under these items in the individual income tax returns. The instructions on the return Form individual income tax returns. 1040 provide as follows:

Enter as item 7 your share of the profits (whether received or not) (or of the losses) of a partnership, syndicate, pool, etc., and as item 8 income from an estate or trust, except that the share of taxable interest on obligations of the United States, etc., shall be included in schedule D. Include in items 31 and 32, respectively, credits claimed for income tax paid at source, and foreign income taxes.

If the taxable year on the basis of which you file your return does not coincide with the annual accounting period of the partnership or fiduciary, then you should include in your return your distributive share of the net profits (or losses) for such accounting period ending within your taxable year.

Individual returns with net income of \$5,000 and over, 1936, by net income classes and by size of selected sources of income and loss: number of returns

<sup>1</sup> "Dividends" include those on stock of both domestic and foreign corporations, excepting dividends received by partnerships and fiduciaries. In former years this item included dividends on stock of domestic corporations subject to taxation under Title I of the various revenue acts, and until 1934, the dividends received on stock of foreign corporations deriving more than half their gross income from sources within the United States, whether or not received direct or by partnerships and fiduciaries.

#### PROFIT AND LOSS FROM BUSINESS, BY INDUSTRIAL GROUPS, RETURNS WITH NET INCOME OF \$5,000 AND OVER

The profit and loss from business (sole proprietorship) reported on returns, Form 1040, with net income of \$5,000 and over, are classified in the following table according to nature of business.

For businesses with information in schedule A, there are shown the number with profit and with loss, total receipts, labor and salaries, profit or loss. For businesses without information in schedule A, and for all businesses, there are presented the total number with profit or with loss and the amount of profit or loss.

In the tabulation of sources of income from individual returns the classification "business profit" represents items of profit reported on the returns, as shown by the total receipts from business or profession, less cost of goods sold and other business deductions, such as salaries, interest on business indebtedness, taxes on business or business property, losses from fire or storm, bad debts arising from sales, depreciation, obsolescence and depletion, rents, repairs, and other expenses as provided for in schedule Å of the individual income tax returns, Form 1040. The "business loss" represents items of loss from business which occur when deductions exceed the total receipts.

Basic table 8, pages 102–107, contains, for each industrial group, a frequency distribution of the number of businesses and the profit or loss from business by size of profit or loss. The following table and basic table 8 exclude (1) income from

The following table and basic table 8 exclude (1) income from partnerships reported in item 7 on face of return, Form 1040, (see p. 152), (2) salaries, wages, fees, commissions, etc., reported in item 1 on face of return, and (3) business profits or losses reported on returns with net income of less than \$5,000. Individual returns with net income of \$5,000 and over with business (sole loss: number of businesses, total receipts, labor and salaries,

#### WHOLLY AND PARTIALLY TAX-EXEMPT OBLIGATIONS, RETURNS WITH NET INCOME OF \$5,000 AND OVER

Wholly tax-exempt obligations consist of securities the interest on which is wholly exempt from the normal income tax and surtax of the Federal Government. Partially tax-exempt obligations comprise securities the interest on which is exempt from the normal income tax of the Federal Government and certain issues on which the interest on the principal amount up to \$5,000 is also exempt from surtax. During the calendar year 1936, the wholly tax-exempt obligations on which interest was paid consisted of (1) obligations of the Federal Government: bonds issued on or before September 1, 1917, Treasury bills, Treasury certificates of indebtedness, Treasury notes, securities issued under the Federal Farm Loan Act, or such act as amended, (2) obligations of a State, Territory or political subdivision thereof, or the District of Columbia, and (3) obligations of United States possessions. Partially tax-exempt obligations were United States savings bonds, Treasury bonds, and obligations of instrumentalities of the United States other than obligations issued under Federal Farm Loan Act, or such act as amended.

The tabulation presented herewith shows, for returns with net income of \$5,000 and over, the wholly and partially tax-exempt obligations owned as of the end of the year, and the total wholly and partially tax-exempt interest received or accrued during the year, segregated by nature of obligation and by net income classes. Bond holdings frequently vary materially during the year, therefore the amount of bonds reported as of the end of the year may include bonds for which no interest was received or accrued, and, vice versa, the interest reported may include interest on bonds which have been sold prior to the end of the year.

Moreover, in some cases where the income is received through partnerships and fiduciaries, interest is reported for which no corresponding principal amount owned, representing the pro rata share of the member of the partnership or beneficiary of the estate or trust in the principal owned by the partnership or estate or trust, is reported.

Schedule D, Form 1040, from which this table is prepared, is a supplementary informational schedule and frequently is not completely filled out. Therefore, the amount of interest in excess of exemption may not correspond to the amount of taxable interest on Government obligations, etc., reported on the face of the return for tax computation.

Inasmuch as Liberty 3½ percent Bonds and Liberty 4 and 4½ percent bonds are matured obligations on which interest has ceased, data concerning these obligations are no longer included in this table.

# Individual returns with net income of \$5,000 and over and with wholly and partially tax-exempt Government obligations, 1936, by net income classes and by each type of obligation: amount owned and interest received

<sup>1</sup> Includes other obligations of United States issued on or before September 1, 1917.
 <sup>3</sup> Includes obligations of instrumentalities of the United States other than obligations issued under Federal Farm Loan Act, or such act as amended.
 <sup>3</sup> Includes interest received on a principal amount not in excess of \$5,000 which is wholly exempt from income taxes. (See line (e), column 3, schedule D, Form 1040, p. 153.) The amount of such interest received on a principal amount in excess of exemption of \$5,000, which is reported on the face of the return for tax computation, is tabulated in "Taxable interest on partially tax-exempt Government obligations" in the text table on p. 11 and basic table 7 on p. 99.
 <sup>4</sup> Includes interest received on obligations of instrumentalities of the United States other than obligations issued under Federal Farm Loan Act, or such act as amended. (See line (f), column 3, schedule D, Form 1040, p. 153.) The amount of such interest received, which is reported on the face of the return for tax computation, is tabulated in "Taxable interest on partially tax-exempt Government obligations" in the text table on p. 11 and basic table 7 on p. 99.
 <sup>4</sup> Under Federal Farm Loan Act, or such act as amended. (See line (f), column 3, schedule D, Form 1040, p. 153.) The amount of such interest received, which is reported on the face of the return for tax computation, is tabulated in "Taxable interest on partially tax-exempt Government obligations" in the text table on p. 11 and in basic table 7 on p. 99.
 <sup>4</sup> Under \$500.

#### RETURNS ON FORM 1040 WITH NO NET INCOME

As noted on page 2, the general tables for individual returns in Statistics of Income do not include data from returns which show no net income. Such returns, in most instances, are filed in accordance with the statutory requirements that every individual with gross income of \$5,000 and over, irrespective of the amount of net income or deficit, file an income tax return. Tabulations prepared from these returns by deficit classes and by sources of income and deductions are shown below. The distribution of the returns by States and Territories and more detailed tabulation of the sources of income and deductions, by deficit classes are shown in basic tables 10 and 11, pages 133–134.

Individual returns, Form 1040, with no net income, 1936, by deficit classes: number of returns, deficit, and totals for 1932-36

[Deficit classes and money figures in thousands of dollars]

Deficit classes	Number of returns	Deficit
Under 5	5, 135           3, 075           965           410           113           114 <td>76, 107 35, 791 46, 769 32, 923 28, 170 13, 912 21, 399 11, 485 11, 561 8, 513</td>	76, 107 35, 791 46, 769 32, 923 28, 170 13, 912 21, 399 11, 485 11, 561 8, 513
Total 1936. 1935. 1934. 1934. 1932.	94, 609 104, 170 168, 449	$286, 632 \\381, 353 \\412, 859 \\1, 141, 331 \\1, 480, 922$

Individual returns, Form 1040, with no net income, 1936: sources of income and deductions, and deficit <sup>1</sup>

Sources of income and deductions	Amount (thou- sands of dollars)	Sources of income and deductions	Amount (thou- sands of dollars)
Sources of income: Salaries, wages, commissions, fees, etc	9,450	Deductions: Business loss_ Partnership loss <sup>2</sup> Net capital loss <sup>3</sup> Interest paid <sup>7</sup> Taxes paid <sup>7</sup> Contributions_ Other deductions Total deductions Deficit	48, 189

 <sup>1</sup> For general explanations, see pp. 1-5.
 <sup>2</sup> See text, p. 8.
 <sup>3</sup> For definition of capital assets and amounts of net capital gain and loss taken into account for tax purposes, see text, p. 8, and synopsis of laws, pp. 144-145.
 <sup>4</sup> "Dividends" include those on stock of both domestic and foreign corporations, excepting dividends received by partnerships and fiduciaries. In former years, this item included dividends on stock of domestic corporations subject to taxation under Title I of the various revenue acts, and until 1934, the dividends received on stock of foreign corporations deriving more than half their gross income from sources within the United States, whether or not received direct or by partnerships and fiduciaries.
 <sup>4</sup> Interest received on United States savings bonds and Treasury bonds, owned in excess of \$5,000, and on obligations of certain instrumentalities of the United States. (See items 5 and 25, Form 1040, p. 152.)
 <sup>6</sup> Excludes dividends received on stock of foreign corporations. In former years, dividends received from these two types of corporations were tabulated as "other income," except in so far as included in partnership and fiduciaries are reported in schedulet as "other income," except in so far as included in partnership and half their gross income from sources within the United States. See footnotes 2 and 4.
 <sup>7</sup> Excludes amounts reported in schedules A and B as business deductions. <sup>7</sup> Excludes amounts reported in schedules A and B as business deductions.

#### NUMBER OF RETURNS BY COUNTIES, CITIES, AND TOWNS

The statistics showing the number of individual income tax returns for 1936 by counties, cities, and towns having a population of 1,000 and over, are issued in a separate mimeographed bulletin entitled "Individual Income Tax Returns for 1936—Number of Returns by States, by Counties, and by Cities and Towns," which was released in May 1938. Copies may be secured from the Bureau of Internal Revenue, Washington, D. C., upon request. Information on net income and tax liability on individual income tax returns is not tabulated for smaller civil divisions than States and Territories.

#### PARTNERSHIP RETURNS OF INCOME

Partnership returns, except for the war excess-profits tax of 1917, are not subject to direct assessment. The partnership net income, whether distributed or not, or the net loss, is reported on the individual returns of the copartners according to their shares. A partnership return of income (Form 1065, see p. 160) is, however, required to be filed.

The number of partnership returns filed for 1917 through 1936 is as follows:

Year:	Number	Year:	Number
1917	31, 701	1927	282, 841
1918	100, 728	1928	272, 127
1919	175, 898	1929	263, 519
1920	240, 767	1930	244, 670
1921	259, 359	1931	230, 407
1922	287, 959	1932	216, 712
1923	304, 996		
1924	321, 158	1934	221,740
1925	309, 414	1935	222, 293
1926	295, 425	1936	237, 367

#### HISTORICAL SUMMARIES (INDIVIDUAL RETURNS)

A résumé of the individual income tax returns for each of the years since the inception of the present period of income taxation, showing number of returns, net income, and tax, by net income classes, also sources of income and deductions, is shown in the following tables.

Summary figures for individual returns by States and Territories for the years 1926 through 1936, showing number, net income, and tax, are tabulated as a section of basic table 9, pages 108–132.

## STATISTICS OF INCOME

Individual returns, 1913-36: number of returns, net income, tax before credits, tax credits, and tax 1

		Number of returns

## [Money figures in thousands of dollars]

Changes in the revenue acts affecting the comparability of statistical data from income tax returns of individuals are summarized on pp. 138-145. Returns for 1913 pertain to the last 10 months of that year; taxes shown for 1913 to 1915, inclusive, are receipts for fiscal year ended June 30, immediately following, as shown in annual reports of Commissioner of Internal Revenue, which receipts include fines, penalties, addi-tional assessments, etc.; tax for 1916 and subsequent years is tax liability reported on returns.
 Revised figures. (See Statistics of Income for 1925, pp. 22-29.)
 Revised. (See Statistics of Income for 1935, Part 1, p. 3, footnote 6.)

Individual returns, 1914-36, by net income classes: number of returns 1

<sup>1</sup> Changes in the revenue acts affecting the comparability of statistical data from income tax returns of individuals are summarized on pp. 138-145. The returns for 1913 are omitted, as they pertain only to the last 10 months of that year. Data for returns of net income under 55,000 are estimated on basis of sample for 1918 through 1927 and for 1923 and partly estimated and partly tabulated 1928, 1930, and subsequent years. \* Excludes 7,635 returns of married women making separate returns from husbands. In 1916 the net income on returns filed separately by husband and wife is combined and the total appears as one return. In all other years the returns of married women filed separately are included in their individual income classes independently of the husband's income.

Changes in the revenue acts affecting the comparability of statistical data from income tax returns of Individuals are summarized on pp. 138-145. Data for returns of net income under \$5,000 are estimated on basis of sample for 1918 through 1927 and for 1929; and partly estimated and partly tabulated 1928, 1930, and subsequent years.
 Revised. (See Statistics of Income for 1925, pp. 28-29.)
 Revised. (See Statistics of Income for 1935, Part 1, p. 34, footnote 3.)

For footnotes, see  $\mathbf{p}.~44$ 

83167-38----4

<sup>1</sup> Changes in the revenue acts affecting the comparability of statistical data from income tax returns of individuals are summarized on pp. 138-145. The income items for 1916 are "Gross income," the deductions not having been allocated to the various sources but included in aggregate under "Deductions." Beginning 1917, the income items are "net income," the deductions allocable to the various sources of income being applied against the gross income from the specific sources as reported on the schedules in the income tax returns. When net losses are shown on the specific sources as reported on the schedules in the income tax returns. When net losses are shown on the schedules such net losses are transferred in tabulation to "Deductions," Data for returns of net income under \$5,000 are estimated on basis of sample for years 1918 through 1927 and for 1929; and partly estimated and partly tabulated 1928, 1930, and subsequent years.
<sup>1</sup> Excludes data for 1,640,755 returns with net income under %2,000 and aggregate net income of \$2,461,137,000.
<sup>1</sup> Excludes baginning 1924 wages and salaries of the individual, his wife, or dependent minors derived from the business conducted by the individual. Prior to 1924 such wages and salaries were reported as income under "Wages and vocations," in 1916.
<sup>(1</sup> Professions and vocations, in 1916.
<sup>(2</sup> Professions and vocations, in 1916.

"Professions and vocations" in 1916. \* Revised. (See Statistics of Income for 1935, Part 1, p. 42, note 4.) \* Includes partnership income and profit from sale of all stocks, bonds, etc. for 1916. See also note 3. Cartain income from partnerships is included in other sources (see notes 8, 10, and 14). Beginning 1936, amount includes all dividends received by partnerships. Prior to 1936, dividends received by partnerships on stock of domestic corporations subject to taxation under Title I of the effective revenue laws were tabulated under "dividends received," while dividends on stock of foreign corporations (other than those deriving more than half their gross income from sources in the United States) and, except for 1932 and 1933, dividends on stock of domestic corporations not subject to taxation under Title I of the effective revenue laws, were left in income from partnerships. Beginning 1934, amount includes net capital gain or loss from sale of capital assets by partnerships (see note 21). For 1918 through 1921, amount includes income from flucturies, and income from personal service corporations as defined in the Revenue Acts of 1918 and 1921 (except certain amounts included in other sources, see notes 10 and 14). The amount for partnerships for 1916 was tabulated with business.

amounts included in other sources, see noise to and the second se

rate, 1922 to 1933, inclusive. See notes 7, 9, and 21.
Included In "Profit from sale of real estate, etc."
For 1936, amount includes dividends on stock of both domestic and foreign corporations, excepting dividends received by partnerships and fiduciaries. Prior to 1936, amount includes dividends on stock of domestic corporations subject to taxation under Title I of the effective revenue laws, and until 1934, the dividends received on stock of foreign corporations deriving more than half their gross income from sources within the United States, whether or not received direct or by partnership and fiduciaries; also dividends received through personal service corporations, 1918 through 1921; and stock dividends, 1916 through 1919.
<sup>11</sup> Certain income from fiduciaries is included in other sources (see notes 8, 10 and 14). Beginning 1936, amount includes all dividends received by fiduciaries. Prior to 1936, dividends received by fiduciaries and sock of domestic corporations subject to taxation under Title I of the effective revenue laws were tabulated under "title i gross income from sources in the United States) and, except for 1932 and 1933, dividends on stock of domestic corporations not subject to taxation under Title I of the effective revenue laws, were left in income from fiduciaries. Beginning 1934, mount includes all gain or loss from sale of capital assets for estate or trust (see note 21). For 1917, income from fiduciaries is included in "interest and other income."
<sup>12</sup> Included in "Interest and other income."
<sup>13</sup> Includes interest on such obligations held by individuals, or such interest received through partnerships and fiduciaries also such interest through personal service corporations, 1917 and

and fiduciaries; also such interest through personal service corporations, 1919 to 1921, inclusive. 1918 amount included in "Interest and other income." <sup>16</sup> Such obligations were issued after September 1, 1917. In 1917 and

<sup>16</sup> Such obligations were issued after September 1, 1917.
 <sup>16</sup> Beginning 1936, amount excludes dividends received on stock of domestic corporations not subject to taxation under Title I of the effective revenue law and on stock of foreign corporations. For years prior to 1936, amount includes dividends received from these two types of corporations, except in so far as included in partnership and flduciary income, and until 1934, except in so far as received from foreign corporations deriving more than half their gross income from sources within the United States. See notes 6, 10 and 11.
 <sup>17</sup> Included in "Other deductions."
 <sup>18</sup> Revised. (See Statistics of Income for 1925, pp. 28-29.)
 <sup>19</sup> Revised. (See Statistics of Income for 1935, Part 1, p. 42, note 19.)
 <sup>20</sup> Revised figures for returns with net income under \$5,000. (See Statistics of Income for 1934, Part 1, p. 31, footnote 18.)

footnote 18.)

footnote 18.) <sup>21</sup> Net capital gain or loss on sale of capital assets (regardless of time held) by individuals, after certain limitations are applied (see sec. 117, Revenue Acts of 1934 and 1936). Excludes net capital gain or loss on sale of capital assets by partnerships or fiduciaries, which amounts beginning 1934, are included with other income (or loss) from partnerships or other income from fiduciary (see notes 5 and 10). <sup>22</sup> Excludes amounts reported in schedules A and B as business deductions. <sup>23</sup> Excludes of returns of married women making separate returns from husbands. <sup>24</sup> Contributions for 1920 not available for returns with net income of \$5,000 and over.

## ESTATE TAX RETURNS

The estate tax is imposed upon the transfer of the net estate in its entirety and not upon any particular legacy, devise, or distributive share. The relationship of the beneficiary to the decedent has no bearing upon the tax liability.

Estate tax returns were filed during the calendar year 1937 under the provisions of the Revenue Act of 1924 or prior Acts, the Revenue Act of 1926, and the combined provisions of the Revenue Acts of 1926 and 1932, 1926 and 1934, and 1926 and 1935. A synopsis of estate tax rates, specific exemption, and credits against tax under the Revenue Acts of 1916 to 1935, inclusive, is presented on pages 146–147.

An estate tax return is required under these Revenue Acts in the case of every citizen, regardless of place of residence, or resident (only in case of every resident if the decedent died prior to May 11, 1934, the effective date of the Revenue Act of 1934), whose gross estate, as defined in the statutes, exceeds the specific exemption allowed. The specific exemption is \$50,000 under the Revenue Act of 1924 and prior Acts, \$100,000 under the Revenue Act of 1926, \$50,000 for the purpose of the additional estate tax under the Revenue Acts of 1932 and 1934, and \$40,000 for the purpose of the additional estate tax under the Revenue Act of 1935. A return is required in the case of every nonresident alien (or every nonresident citizen and alien if the decedent died prior to May 11, 1934, the effective date of the Revenue Act of 1934) any part of whose estate, regardless of value, was situated at date of death in the United States, within the meaning of the statute.

Prior to the effective date of the Revenue Act of 1935 (August 31, 1935) returns were required to be filed within 1 year after date of death, while under the Revenue Act of 1935 returns are required to be filed within 15 months after date of death. Under certain conditions further extensions of time are granted for filing. In determining the value of the gross estate under the 1935 Act the executor may elect either the date of the decedent's death or the date one year after the decedent's death, or in the case of property distributed, sold, exchanged, or otherwise disposed of during the year following death, as of the date of the distribution, sale, exchange, or other disposition. Under former Revenue Acts the value of the gross estate was determined as of the date of death.

The gross estate as defined by law includes certain transfers, such as those made in contemplation of death or intended to take effect at or after death. The net estate is the amount of the gross estate less (1) the sum of the authorized deductions, and (2) the specific exemption allowed in the case of citizen or resident decedents (prior to the enactment of the Revenue Act of 1934, exemption allowed for resident decedents only).

Returns for estates of decedents who died prior to 10:25 a. m. February 26, 1926, are filed under Revenue Acts passed prior to that date and returns for estates of decedents who died during the period 10:25 a. m., February 26, 1926, through 4:59 p. m. June 6, 1932, are filed under the Revenue Act of 1926. Estates of decedents who died subsequent to the effective date of the Revenue Act of 1932 (5 p. m. June 6, 1932) are subject to two estate taxes, the tax levied under the provisions of the Revenue Act of 1926 and an additional estate tax imposed by the Revenue Act of 1932, or by that Act as amended by the Revenue Acts of 1934 and 1935. The tax under the Revenue Act of 1926 applies to net estates after deduction of a specific exemption of \$100,000 and tax credits are allowed for estate, inheritance, legacy, or succession taxes paid to any State, Territory, or the District of Columbia not to exceed 80 percent of the Federal estate tax, and for gift taxes paid to the Federal Government. The additional estate tax applies to net estates after deduction of a specific exemption of \$50,000 under the 1932 and 1934 Revenue Acts, and \$40,000 under the 1935 Act and is equal to the excess of (1) the amount of a tentative tax computed at the rates specified in the Act which is in effect, over (2) the amount of the tax computed at rates in the Revenue Act of 1926 before deduction of the tax credits provided. The rates of the tentative tax under the Revenue Act of 1932 were graduated from 1 percent upon net estates not in excess of \$10,000 to 45 percent upon the amount in excess of \$10,000,000. Under the Revenue Acts of 1934 and 1935 the rates of the tentative tax were increased, reaching a maximum rate under the 1935 Act of 70 percent on the amount of net estate in excess of \$50,000,000.

The Revenue Act of 1924 allows a tax credit not to exceed 25 percent of the Federal estate tax (after deduction of any credit for gift tax imposed by the Revenue Act of 1924) for estate, inheritance, legacy, or succession taxes paid to any State, Territory, or the District of Columbia, in respect of any property included in the gross estate. Prior to the Revenue Act of 1924 this tax credit was not allowed. Under the Revenue Act of 1926, this tax credit is increased to an amount not to exceed 80 percent of the Federal estate tax. No credit for estate, inheritance, legacy, or succession taxes is allowable against the additional estate tax imposed by the Revenue Act of 1932, or by that Act as amended. Credit for gift tax imposed by the provisions of the Revenue Act of 1924 is allowable against estate tax pavable under the Revenue Act of 1924 or the Revenue Act of 1926 with respect to so much of the property which constituted a gift as is included in the decedent's gross estate. For decedents who died subsequent to the effective date of the Revenue Act of 1932, a tax credit for gift taxes paid to the Federal Government is allowed both against the tax computed under the Revenue Act of 1926 and against the additional tax computed under the Revenue Act of 1932, 1934, or 1935.

The tables are based on the returns as filed and prior to any adjustments that may be determined upon investigation and audit. The tax liability reported does not correspond with the actual receipts of taxes during the period for the reason that payments may be made at a later date than the filing of the return, and for the reason that field investigation and office audit may disclose deficiency taxes or excess payments which are not reflected in these tables.

Data included in these tables are compiled from returns filed during the calendar year 1937, irrespective of the date of death of the decedent, under Revenue Acts passed prior to 1926, the Revenue Act of 1926 only, and the combined provisions of the Revenue Acts of 1926 and 1932, 1926 and 1934, or 1926 and 1935. In order to maintain comparability with the method of tabulation for preceding years, the data for taxable returns of decedents who died after the effective date of the Revenue Act of 1926 are classified by net estate classes which correspond to the successive tax brackets specified in the Revenue Act of 1926 on the basis of the net estate under the provisions of that Act rather than the provisions of the 1932, 1934, or 1935 Acts. The total number of estate tax returns filed during the calendar

The total number of estate tax returns filed during the calendar year 1937 is 17,032, and the total tax liability is \$308,450,000 (see table, 5, pp. 72–73). The number of returns for citizens or residents is 15,037, of which 12,010 are taxable returns and 3,027 are nontaxable returns. The tax liability on the 12,010 taxable returns is \$305,784,000. As compared with returns filed during the previous year, the number of taxable returns for citizens or residents increased by 2,873, or 31.4 percent, and the tax liability on such returns increased \$110,483,000, or 56.6 percent.

In table 1, which is in the nature of a summary statement, the taxable and nontaxable returns for citizens or residents are classified according to the various Revenue Acts under which the returns were filed, and the number of returns, gross estate, deductions, net estate, and tax liability are shown for each group of returns.

The data for the taxable returns in table 1 are presented in more detail in tables 2, 2-A, 2-B, 2-C, 3, 3-A, 3-B, and 3-C. Table 2 is a summary of tables 2-A, 2-B, and 2-C and table 3 is a summary of tables 3-A, 3-B, and 3-C. Tables 2-A, 2-B, and 2-C include the items of gross estate and deductions and tables 3-A, 3-B, and 3-C include the items of net estate and tax liability. The taxable returns for resident decedents who died prior to May 11, 1934, are presented in tables 2-A and 3-A, the taxable returns for citizen or resident decedents who died during the period May 11, 1934, through August 30, 1935, are presented in tables 2-B and 3-C.

In former years, the total insurance was tabulated as an item of gross estate and the insurance exemption (amount receivable by beneficiaries, other than estate, not in excess of \$40,000) was tabulated as a deduction item. This year, the balance of insurance (total insurance less insurance exemption) is tabulated as an item of gross estate and the amounts of the total insurance and the tax-exempt insurance are entered as information items at the end of each table. Consequently, in this report, the gross estate and total deductions are less than similar items shown in prior years by the amount of the insurance exemption. In this report, the nomenclature of the item of deductions, "Property from an estate taxed within 5 years: Value at date of previous or present decendent's death, whichever is lower" is changed to read "Property from an estate taxed within 5 years: Net deduction."

Table 4 presents a distribution by States of the returns of citizen or resident decedents and table 5 is a historical summary of all estate tax returns filed.

TABLE 1.—Taxable and nontaxable estate tax returns of resident decedents who died
11, 1934, by revenue Acts under which returns were filed: number of returns, gross
estate and tax

<sup>1</sup> By section 403, Revenue Act of 1934, nonresident decedents are classified as citizens and aliens, and the former are brought under the same provisions of the law as resident decedents.
<sup>2</sup> For decedents who died before 10:25 a. m., February 26, 1926, returns are required to be filed under the Revenue Act of 1924 or prior Acts if the gross estate exceeded \$50,000 in value at date of death. During the calendar year 1937, 11 returns were filed under the Revenue Act of 1924 or prior Acts, of which 8 are taxable. For decedents who died in period 10:25 a. m. February 26, 1926, through 4:59 p. m. June 6, 1932, returns are required to be filed under the Revenue Act of 1924 or prior Acts, of which 8 are taxable. For decedents who died in period 10:25 a. m. February 26, 1926, through 4:59 p. m. June 6, 1932, returns are required to be filed under the Revenue Act of 1926 if the gross estate exceeded \$100,000 in value at date of death. For statement of rates, exemptions, and credits contained in the provisions of these Acts, see pn 146-147.

death. For statement of rates, exemptions, and credits contained in the provisions of these Acts, see pp. 146-147. <sup>3</sup> Estates of decedents who died in period 5 p. m. June 6, 1932, through May 10, 1934, are subject to two estate taxes, the tax levied under the provisions of the Revenue Act of 1926 and an additional estate tax levied by the Revenue Act of 1932. Returns are required to be filed if the gross estate exceeded \$50,000 in value at date of death. For statement of rates, exemptions, and credits contained in the provisions of these Acts see pp. 146-147

value at date of death. For statement of rates, exemptions, and credits contained in the provisions of these Acts, see pp. 146-147. \* Estates of decedents who died in period May 11, 1934, through August 30, 1935, are subject to two estate taxes, the tax levied under the provisions of the Revenue Act of 1926 and an additional estate tax levied by the Revenue Act of 1932, as amended by the Revenue Act of 1934. Returns are required to be filed if the gross estate exceeded \$50,000 in value at date of death. For statement of rates, exemptions, and credits contained in the provisions of these Acts, see pp. 146-147. \* Estates of decedents who died on or after August 31, 1935, are subject to two estate taxes, the tax levied under the provisions of the Revenue Act of 1926 and an additional estate taxes, the tax levied under the provisions of the Revenue Act of 1926 and an additional estate tax levied by the Revenue Act of 1932, as amended by the Revenue Act of 1926 and an additional estate tax levied by the Revenue Act of 1936, are subject to two estate taxes, the tax levied 1932, as a mended by the Revenue Act of 1935. Returns are required to be filed if the gross estate exceeded \$40,000 in value at date of death. For statement of rates, exemptions, and credits contained in the provisions of these Acts, see pp. 146-147. \* A tabulation of these returns by net estate classes is found in tables 2-A and 3-A, on pp. 54 and 64.

\$40,000 in value at date of death. For statement of rates, exemptions, and credits contained in the provisions of these Acts, see pp. 146-147.
<sup>6</sup> A tabulation of these returns by net estate classes is found in tables 2-A and 3-A, on pp. 54 and 64.
<sup>7</sup> A tabulation of these returns by net estate classes is found in tables 2-B and 3-B, on pp. 56 and 66.
<sup>8</sup> A tabulation of these returns by net estate classes is found in tables 2-B and 3-C on pp. 58 and 67.
<sup>9</sup> The following items are distributed by form of property: Jointly owned property, \$71,001,143; transfers made in contemplation of or intended to take effect at or after death, \$103,066,933; general power of appointment exercised by will or by deed in contemplation of death, \$25,598,097; and property from an estate taxed within five years, \$33,214,850. For statistics from estate tax returns filed during 1927-32 "jointly owned property" only was distributed in this manner.
<sup>10</sup> Securities the interest on which is wholly or partially exempt from the normal individual income tax and surtax of the Federal Government.
<sup>11</sup> Includes debts due the decedent, interest in business, claims, rights, royalties, pensions, leaseholds, judgments, shares in trust funds, household goods and personal effects (including wearing apparel), farm products and growing crops, live stock, farm machinery, automobiles, etc.
<sup>12</sup> Specific exemption in Act of 1924 and prior Acts is \$50,000 (tabulated in columns 5 and 6 for returns of decedents who died before 10:24 a. m. February 26, 1926).
<sup>13</sup> The net deduction for property previously taxed is the amount of such property (valued at date of previously taxed property, bears to gross estate.
<sup>14</sup> A mount receivable by beneficiaries, other than estate, not in excess of \$40,000.
<sup>15</sup> A more detailed tabulation of tax before tax credits, tax credits, and tax after tax credits is found in tables 2-A.
<sup>16</sup> A more detailed tabulation of ta

STATISTICS OF INCOME

<sup>1</sup> By sec. 403, Revenue Act of 1934, nonresident decedents are classified as citizens and aliens, and the former are brought under the same provisions of the law as resident decedents.

<sup>4</sup> For decedents who died before 10:25 a. m. February 26, 1926, returns are required to be filed under the Revenue Act of 1924 or prior Acts if gross estate exceeded \$50,000 in value at date of death. During the calendar year 1937, 8 taxable returns were filed under the Revenue Act of 1924 or prior Acts. For decedents who died in period 10:25 a. m. February 26, 1926, through 4:59 p. m. June 6, 1932, returns are required to be filed under the Revenue Act of 1926 if gross estate exceeded \$100,000 in value at date of death.
 <sup>3</sup> Returns of decedents who died after 4:59 p. m. June 6, 1932.
 <sup>4</sup> For returns filed under Acts of 1932 and 1934, the gross estate is \$50,000 or more. For returns filed under Act of 1935 the gross estate is \$40,000 or more.

For returns filed under Acts of 1932 and 1934, the gross estate is \$50,000 or more. For returns filed under Act of 1935 the gross estate is \$40,000 or more.
Net estate after deduction of specific exemption of \$100,000.
The following items are distributed by form of property: Jointly owned property, \$60,850,180; transfers made in contemplation of or intended to take effect at or after death.
\$98,195,860; general power of appointment exercised by will or by deed in contemplation of death, \$25,632,232; and property from an estate taxed within five years, \$90,551,197. For statistics from estate tax returns filed during 1927-32, "jointly owned property" only was distributed in this manner.
<sup>7</sup> Securities the interest on which is wholly or partially exempt from the formal income tax and the surtax of the Federal Government.
<sup>8</sup> Includes debts due the decedent, interest in business, claims, rights, royalties, pensions, leaseholds, judgments, shares in trust funds, household goods and personal effects (including wearing apparel), farm products and growing crops, live stock, farm machinery, automobiles, etc.
<sup>9</sup> Specific exemption in Act of 1924 and prior Acts is \$50,000 (tabulated in columns of decedents who died before 10:25 a. m. February 26, 1926). Specific exemption in Act of 1926 is \$100,000 (tabulated in columns of decedents who died after 10:24 a. m. February 26, 1926).
<sup>10</sup> The net deduction for reparent private is the arount of uprote property called after 10:24 a. m. February 26, head must have a proportionate and provers of decedent is detated provide property and detated provide action for meaning apparel), head must have a to be arount of uprote property or provide property in a state to the property and prior Acts is \$30,000 (tabulated in columns 2 through 24 for returns of decedents who died after 10:24 a. m. February 26, 1926).

<sup>10</sup> The net deduction for property previously taxed is the amount of such property (valued at date of previous or present decedent's death, whichever is lower) less a proportionate reduction. This reduction is the proportion of the sum of the specific exemption and total deductions, except previously taxed property, that the amount of previously taxed property bears to gross estate.

<sup>11</sup> Amount receivable by beneficiaries, other than estate, not in excess of \$40,000.

 TABLE 2-A (Table 2, Statistics of Income for 1935, Part 1).
 Taxable estate tax returns of resident decedents filed under Revenue Acts passed prior to 1926, Act of 1926 only, and under Acts of 1926 and 1932 by net estate classes: number of returns, gross estate by form of property, deductions, total insurance and tax-exempt insurance

# STATISTICS OF INCOME

<sup>1</sup>For decedents who died before 10:25 a. m. February 26, 1926, returns are required to be filed under the Revenue Act of 1924 or prior Acts if gross estate exceeded \$50,000 in value at date of death. During the calendar year 1937, 8 taxable returns were filed under the Revenue Act of 1924 or prior Acts. For decedents who died in period 10:25 a. m. February 26, 1926, through 4:59 p. m. June 6, 1932, returns are required to be filed under the Revenue Act of 1926 if the gross estate exceeded \$100,000 in value at date of death. <sup>2</sup> Returns of decedents who died in period 5 p. m. June 6, 1932, through May 10, 1934. <sup>3</sup> Returns of decedents who died in period 5 p. m. June 6, 1932, through May 10, 1934.

 Net estate after deduction of specific exemption of \$100,000.
 The following items are distributed by form of property: Jointly owned property, \$367,389; transfers made in contemplation of or intended to take effect at or after deata, \$1,531,202; and property from an estate taxed within five years, \$847,904. For statistics from estate tax returns filed during 1927-32, "jointly owned property" only was distributed in this manner.

<sup>6</sup> Securities the interest on which is wholly or partially exempt from the normal income tax and surtax of the Federal Government. <sup>7</sup> Includes debts due the decedent, interest in business, claims, rights, royalties, pensions, leaseholds, judgments, shares in trust funds, household goods and personal effects (in-cluding wearing apparel), farm products and growing crops, live stock, farm machinery, automobiles, etc. <sup>8</sup> specific exemption in Act of 1924 and prior Acts is \$50,000 (tabulated in column 2 for returns of decedents who died before 10:25 a. m. February 26, 1926). Specific exemption in Act of 1926 is \$100,000 (tabulated in columns 2 through 10 for returns of decedents who died in period 10:25 a. m., February 26, 1926), through May 10. 1934).

<sup>9</sup> The net deduction for property previously taxed is the amount of such property (valued at date of previous or present decedent's death, whichever is lower) less a proportionate reduction. This reduction is the proportion of the sum of the specific exemption and total deductions, except previously taxed property, that the amount of previously taxed property bears to the gross estate.

<sup>10</sup> Amount receivable by beneficiaries, other than estate, not in excess of \$40,000,

STATISTICS OF INCOME

<sup>1</sup> By sec. 403. Revenue Act of 1934, nonresident decedents are classified as citizens and aliens, and the former are brought under the same provisions of the law as resident decedents. <sup>2</sup> Estates of decedents who died in period May 11, 1934, through August 30, 1935, are subject to two estate taxes, the tax levied under the provisions of the Revenue Act of 1926 and an additional estate tax levied by the Revenue Act of 1932, as amended by the Revenue Act of 1934. Returns are required to be filed if gross estate exceeded \$50,000 in value at date of death. For statement of rates, exemptions, and credits contained in the provisions of these Acts, see pp. 146-147.

<sup>3</sup> Returns with gross estate of \$50,000 or more.

<sup>4</sup> Net estate after deduction of specific exemption of \$100,000.

The following items are distributed by form of property: Jointly owned property, \$1,262,394; transfers made in contemplation of or intended to take effect at or after death, \$1,052,478; general power of appointment exercised by will or by deed in contemplation of death, \$95,313; and property from an estate taxed within five years, \$2,275,235. For statis-

Securities to mertay base of appointment exercised by win or by deed in contempation of death, 395,313, and property from an escate taxed within invergence, 42,27,223,525. For statistics from estate tax returns filed during 1927-32 "jointly owned property" only was distributed in this manner.
 Securities the interest on which is wholly or partially exempt from the normal income tax and surtax of the Federal Government.
 Includes debts due the decedent, interest in business, claims, rights, royalties, pensions, leaseholds, judgments, shares in trust funds, household goods and personal effects (including wearing apparel), farm products and growing crops, live stock, farm machinery, automobiles, etc.

<sup>8</sup> The net deduction for property previously taxed is the amount of such property (valued at date of previous or present decedent's death, whichever is lower) less a proportionate reduction. This reduction is the proportion of the sum of the specific exemption and total deductions, except previously taxed property, that the amount of previously taxed property bears to the gross estate.

Amount receivable by beneficiaries, other than estate, not in excess of \$40,000.

10 Less than \$500.

## TABLE 2-C (Table 4, Statistics of Income for 1935, Part 1). Table estate tax returns of citizen or resident decedents 1 filed under Revenue Acts of 1926 and 1935, by net estate classes: number of returns, gross estate by form of property, deductions, total insurance and tax-exempt insurance

STATISTICS

OF INCOME

By section 403, Revenue Act of 1934, nonresident decedents are classified as citizens and aliens, and the former are brought under the same provisions of the law as resident decedents.

<sup>2</sup> Estates of decedents who died on or after August 31, 1935, are subject to two estate taxes, the tax levied under the provisions of the Revenue Act of 1926 and an additional estate tax levied by the Revenue Act of 1932, as amended by the Revenue Act of 1935. Returns are required to be filed if gross estate exceeded \$40,000 in value at date of death. For statement of rates, exemptions, and credits contained in the provisions of these Acts, see pp. 146-147.

ment of rates, exemptions, and credits contained in the provisions of these Acts, see pp. 146-147.
<sup>a</sup> Returns with gross estate of \$40,000 or more.
<sup>b</sup> Net estate after deduction of specific exemption of \$100,000.
<sup>a</sup> The following items are distributed by form of property: Jointly owned property, \$59,220,397; transfers made in contemplation of or intended to take effect at or after death,
<sup>b</sup> Stock 180; general powers of appointment exercised by will or by deed in contemplation of death, \$25,536,919; and property from an estate taxed within five years, \$87,428,058. For statistics from the estate tax returns filed during 1927-32 'jointly owned property' only was distributed in this manner.
<sup>c</sup> Securities the interest on which is wholly or partially exempt from the normal income tax and surtax of the Federal Government.
<sup>c</sup> Includes debts due the decedent, interest in business, claims, rights, royalties, pensions, leaseholds, judgments, shares and trust funds, household goods and personal effects (including wearing apparel), farm products and growing crops, live stock, farm machinery, automobiles, etc.
<sup>a</sup> The net deduction for property previously taxed is the amount of such property (valued at date of previous or present decedent's death, whichever is lower) less a proportionate reduction. This reduction is the proportion of the sum of the specific exemption and total deductions, except previously taxed property, that the amount of previously taxed property

bears to the gross estate.

<sup>9</sup> Amount receivable by beneficiaries, other than estate, not in excess of \$40,000.

## TABLE 3 (Summary of Tables 3-A, 3-B, and 3-C).—Taxable estate tax returns of resident decedents who died before May 11, 1934, and of citizen or resident decedents <sup>1</sup> who died on or after May 11, 1934, by net estate classes: number of returns, net estate and tax

1 By section 403 of the Revenue Act of 1934, nonresident decedents are classified as citizens and aliens, and the former are brought under the same provisions of the law as resident decedents. <sup>2</sup> Tabulated data are based on provisions of the Revenue Act of 1926, as reported on returns for decedents who died after 10:24 a. m., February 26, 1926. <sup>3</sup> Includes net estates as indicated in the following table:

Date of death of decedent	Net estate		Specific	Number of returns	
Date of death of decedent	Under applicable revenue acts	Amount			
Prior to 10:25 a. m., February 26, 1926	Passed prior to 1926 1926 1932, and 1932 as amended by 1934 1932 as amended by 1935	\$380, 306 794, 030 12, 911, 410 1, 608, 532, 289	\$50, 000 100, 000 50, 000 40, 000		

Estate, inheritance, legacy, or succession taxes paid to any of the States, Territories, or the District of Columbia.
Credit for gift taxes paid to the Federal Government.
Includes Alaska.
Less than \$500.

<sup>1</sup> Changes in the Revenue Acts affecting the comparability of statistical data from estate tax returns are summarized on pp. 146-147.
 <sup>2</sup> Includes citizens residing outside the United States who died on or after May 11, 1934.
 <sup>3</sup> Excludes citizens residing outside the United States who died on or after May 11, 1934.
 <sup>4</sup> The net taxable estate for decedents who died after 4:59 p. m. June 6, 1982, is shown under the provisions of the Revenue Act of 1926, whereas the tax is under the provisions of that Act plus the additional tax under the Revenue Act of 1932, or that Act as amended by the Revenue Acts of 1934 and 1935.

#### GIFT TAX RETURNS

There are presented herein tables compiled from data reported on gift tax returns for 1936, filed during 1937. The gift tax, payable by the donor, is imposed upon the transfer of property by gift made subsequent to June 6, 1932. Any individual citizen or resident of the United States who makes any transfer by gift which exceeds \$5,000 in value to any one donee, or regardless of value if the gift consists of a future interest, must file a gift tax return. A nonresident alien is similarly required to file a return if the gift consists of property situated in the United States.

The gift tax returns for the calendar year 1936 were filed under the provisions of the Revenue Act of 1932, as amended by the Revenue Act of 1935. The major changes provided by the Revenue Act of 1935, affecting gift taxes, were: rates graduated from  $1\frac{1}{2}$  percent upon net gifts not in excess of \$10,000 to  $52\frac{1}{2}$  percent on the amount in excess of \$50,000,000, in lieu of  $\frac{3}{4}$  of 1 percent upon net gifts not in excess of \$10,000 to  $\frac{52\frac{1}{2}}{2}$  percent on the amount in excess of \$10,000 to 45 percent on the amount in excess of \$10,000,000; and a reduction from \$50,000 to \$40,000 in the specific exemption allowed each resident or citizen donor. All of the specific exemption can be taken in one year or the amount can be spread over a period of years, at the option of the donor. If the total of the specific exemption for gifts made prior to the calendar year 1936 exceeds \$40,000 an adjustment is made on the returns for 1936, so that the specific exemption, which is used in the computation of the gift tax for the calendar year 1936, does not exceed \$40,000.

The rates of tax in force for the calendar year for which the return is filed are applied, first, to the cumulative net gifts made from June 6, 1932 (the date of the enactment of the Revenue Act of 1932), through the end of the calendar year for which the return is filed. From the tax so determined there is deducted an amount computed by applying like rates to the cumulative net gifts made up to the beginning of such calendar year. The balance is the tax liability for the calendar year for which the return is filed.

The following tables show form of property in which gifts were made by net gift classes; also number of returns, total gifts before exclusions, exclusions, total gifts after exclusions, deductions, net gifts and tax, classified by net gift classes, by total gift classes, and by taxable and nontaxable returns.

The data presented are based on the returns as filed and prior to any revision that may subsequently be made as a result of audit by the Bureau of Internal Revenue. The tax liability shown in the tables does not correspond with the actual collections for the same period, as payment of the tax shown on the returns is at times deferred, and for the further reason that any deficiency taxes or overassessments disclosed by the audit are not reflected.

In the tables, the term "total gifts" represents the value of the property transferred less any money consideration received in exchange, provided a donative intent existed. The tax is imposed upon the net gifts which are obtained by subtracting from the total gifts:

(1) An exclusion of \$5,000 for each donee (except in cases of future interests);

(2) The included amount of gifts represented by charitable, public and similar gifts; and (3) Specific exemption not in excess of \$40,000 for each resident or citizen donor, all of which may be taken in one year or the amount spread over a period of years, at the option of the donor.

The several forms of gifts, comprising total gifts, have been classified under the headings of real estate, stocks and bonds, cash, insurance, and miscellaneous. The last-named classification includes jewelry, objects of art, copyrights on books, the forgiveness of debts, interest in business, the assignment of a judgment, the assignment of benefits of a contract of insurance, etc. Gifts of stocks and bonds comprise 62.0 percent of total gifts, followed by gifts of cash amounting to 18.3 percent, real estate 8.2 percent, miscellaneous gifts 6.8 percent, and insurance 4.7 percent. Gifts for charitable, public, and similar purposes amounted to 12.9 percent of the total gifts made.

Slightly less than one-fourth of the total gifts was effected by trusts. The following table gives, for each form of property, the total gifts, amounts by trust, and all other gifts:

Gift tax returns, 1936, by form of property: total gifts, amount by trust, and all other gifts

Form of property	Total gifts	Amount by trust	All other gifts
Real estate Stocks and bonds Cash	39, 811 299, 452 88, 459 22, 465 32, 596	5, 456 92, 920 9, 226 6, 949 4, 702	34, 355 206, 532 79, 232 15, 516 27, 894
Total	482, 783	119, 254	363. 529

[Thousands of dollars]

From the following table comparison can be made with respect to all returns for the calendar years 1932 through 1936:

Gift tax returns, 1932 1-36: total number of returns, number of taxable and nontaxable returns, total gifts, net gifts, and tax

1 1932 covers period from June 6 through December 31, 1932.

Digitized for FRASER http://fraser.stlouisfed.org/ Federal Reserve Bank of St. Louis

Of the donors who filed gift tax returns for 1936, there were 4,280 who had also filed returns in one or more prior years. The number of returns, and the amounts of net gifts and tax, as reported on the 1936 returns, of these identical donors are given in the following table:

Gift tax returns of identical donors, 1936 and one or more prior years:1 number of returns, net gifts, and tax

#### [Money figures in thousands of dollars]

<sup>1</sup> Period from June 6, 1932, through December 31, 1935.
 <sup>2</sup> Figures adjusted according to provisions of section 301 (b) of the Revenue Act of 1935. If a specific exemption of over \$40,000 and not over \$50,000 was taken for gifts made in years prior to 1936, the amounts of net gifts and tax for prior years, as reported on the 1936 returns, are increased by the difference between the exemption previously taken and \$40,000.
 <sup>3</sup> These amounts are probably understated because there is not always sufficient information shown on the current year return for their computation. However, whenever possible these figures are adjusted according to the method given in footnote 2.

[Total gift classes and money figures in thousands of dollars]

<sup>1</sup> Total gifts before subtracting exclusions and before deducting charitable, public, and similar gifts and specific exemption. <sup>2</sup> Net gifts after exclusions and deductions.

Total charitable, public, and similar gifts after total exclusions for such gifts not exceeding \$5,000 for each donee (except future interests).
 A specific exemption of \$40,000 is allowed each resident or citizen donor (see sec. 301(b), Revenue Act of 1935). At the option of the donor, amount may be taken in one year or spread over a period of years.

Tables are continued in the following pages, exhibiting in greater detail information from individual income tax returns.

There is also included a synopsis of individual income and profits tax rates, estate and gift tax rates, credits, and exemptions affecting the comparability of the data in the Statistics of Income.

Statistics from the corporation income and excess-profits tax returns and personal holding company returns for 1936 are being prepared and will be issued under the title "Statistics of Income for 1936, Part 2." Respectfully,

> GUY T. HELVERING, Commissioner of Internal Revenue.

H. MORGENTHAU JR., Secretary of the Treasury.

#### [Money figures in thousands of dollars]

<sup>1</sup> Includes Alaska. <sup>3</sup> An unequal number of separate returns of husbands and wives results from the use of the sample method for returns with net income under \$5,000, as the net income of one spouse may be \$5,000 or over and that of the other spouse under \$5,000 (see discussion of sample, p. 2). <sup>3</sup> See text, p. 6.

Nontaxable returns	49, 309	620, 115				

[Net income classes and money figures in thousands of dollars]

Nontaxable returns. Specific exemptions from normal tax and surtax exceed net income. A negligible number of nontaxable returns in net income classes of \$6,000 and over is not tabulated separately.
 A nunequal number of separate returns of husbands and wives results from the use of the sample method for returns with net income under \$5,000, as the net income of one spouse may be \$5,000 or over and that of the other spouse under \$5,000 (see discussion of sample, p. 2).
 See text, p. 6.
 Classes grouped to conceal identity of taxpayer.

#### STATISTICS OF INCOME

## TABLE 6.—Individual returns, 1936, by States and Territories: sources of income and deductions, and net income

[Thousands of dollars]

#### TABLE 6.—Individual returns, 1936, by States and Territories: sources of income and deductions, and net income-Continued

[Thousands of dollars]

<sup>1</sup> For explanation of item, see p. 8.
 <sup>2</sup> For definition of capital assets and amounts of net capital gain and loss taken into account for tax purposes, see text, p. 8, and synopsis of laws, pp. 144-145.
 <sup>3</sup> "Dividends" include those on stock of both domestic and foreign corporations, excepting dividends received by partnerships and fiduciaries. In former years, this item included dividends on stock of domestic corporations subject to taxation under Title I of the various revenue acts, and until 1934, the dividends received on stock of foreign corporations diriving more than half their gross income from sources within the United States, whether or not received direct or by partnerships and fiduciaries.
 <sup>4</sup> Interest received on United States savings bonds and Treasury bonds, owned in excess of \$5,000 and over.
 <sup>4</sup> Include staxable interest received on partially tax-exempt Government obligations reported on returns

<sup>b</sup> Includes taxable interest received on partially tax-exempt Government obligations reported on returns

<sup>a</sup> includes taxable interest received on partially tax-exempt Government obligations reported on returns with net income under \$5,000.
 <sup>b</sup> Excludes dividends received on stock of domestic corporations not subject to taxation under Title I of the Revenue Act of 1936 and on stock of foreign corporations. In former years, dividends received from these two types of corporations were tabulated as "other income," except in so far as included in partnership and fiduciary income, and until 1934 except in so far as received from foreign corporations deriving more than half their gross income from sources within the United States. See footnotes 1 and 3.
 <sup>†</sup> Excludes amounts reported in schedules A and B as business deductions.
 <sup>§</sup> Includes Alaska.

## **TABLE 7.**—Individual returns, 1936, by net income classes: sources of income and deductions, and net income; also total number of returns, and for returns with net income of \$5,000 and over, number for each specific source of income and deduction

Total	<sup>9</sup> 362, 482	544, 869	<sup>9</sup> 571, 818	698, 609	<sup>9</sup> 521, 622	385, 838	788, 416	2, 648, 263	19, 240, 110

<sup>1</sup> For explanation of items, see p. 8.
<sup>1</sup> For definition of capital assets and amounts of net capital gain and loss taken into account for tax purposes, see text, p. 8, and synopsis of laws, pp. 144-145.
<sup>1</sup> "Dividends" include those on stock of both domestic and foreign corporations, excepting dividends received by partnerships and fiduciaries. In former years, this item included dividends on stock of domestic corporations subject to taxation under Title I of the various revenue acts, and until 1934, the dividends received on stock of foreign corporations deriving more than half their gross income from sources within the United States, whether or not received irect or by partnerships and fiduciaries.
<sup>4</sup> Interest received on United States savings bonds and Treasury Donds, owned in excess of \$5,000, and on obligations of certain instrumentalities of the United States, is subject to surtax if the surtax net income is over \$4,000. (See items 5 and 25, Form 1040, p. 152.)
<sup>4</sup> The number of returns is not available, since the amount of "other income" is secured by deducting the sum of specific sources of income from total income. "Other income" is secured by deducting the sum of specific sources of income from total income. "Other income" is secured by deducting the sum of specific sources of income from total income. "Other income" is secured by deducting the sum of specific networks. See footnotes 1 and 3.
<sup>6</sup> Excludes amounts reported in schedules A and B as business deductions.
<sup>1</sup> The number of returns is not available, since the amount of "other deductions" is determined by subtracting the sum of specific deductions from total deductions.
<sup>1</sup> Excludes amounts reported in schedules A and B as business deductions.
<sup>1</sup> Excludes amounts reported in schedules A and B as business deductions.
<sup>1</sup> The number of returns is not available, since the amount of "other deductions" is determined by subtrated states. See footnotes 1 a

<sup>6</sup> Excludes returns with net income under \$5,000.
 <sup>10</sup> Taxable interest received on partially tax-exempt Government obligations reported on returns with net income under \$5,000 is tabulated with "other taxable interest."

<sup>11</sup> Includes taxable interest received on partially tax-exempt Government obligations reported on returns with net income under \$5,000. 12 Classes grouped.

13 Less than \$500.

<sup>1</sup> Nontaxable returns. Specific exemptions from normal tax and surtax exceed net income. A negligible number of nontaxable returns in net income classes of \$6,000 and over is not tabulated separately.
 <sup>2</sup> Classes grouped to conceal identity of taxpayer.
 <sup>3</sup> Changes in the revenue acts affecting the comparability of statistical data from income tax returns of individuals are summarized on pp. 138-145,
 <sup>4</sup> Includes Alaska.

### [Footnotes for table A]

References to notes mean the notes of this synopsis.

Required to file income tax returns for all income from sources within the United States, (except income specifically exempt by law) regardless of amount, unless total tax has been paid at source.
 (a) Under the Revenue Acts of 1913, 1916, and 1917, individuals were required to file returns on a calendar year basis, while under the Revenue Act of 1918 and subsequent acts, returns are permitted for a fiscal year other than that ending Dec. 31.
 (b) For the years 1913 through 1915, a citizen or resident of the United States whose net income was less than \$200,000 and few phone act in proceedings of the prime was not becaused to the entire of the prime.

(c) For the years but stringin 1915, a citizen of resident of the Onted States whose het income was less than \$20,000 and for whom a full return was made by withholding agent, was not required to file a return. (c) For 1921 and subsequent years citizens deriving a large portion of their gross income from sources within a possession of the United States are required to file returns for all income derived from sources within the United States, regardless of amount. (See sec. 262 of the Revenue Acts of 1921, 1924, and 1926, and sec. 251 of the Revenue Act of 1928 and subsequent acts.)

(d) For 1925 and subsequent years American citizens who are nonresidents of the United States for more than 6 months of the year are not required to report earned income from sources without the United States, and are not required to file returns unless their gross income, exclusive of such exempt earned income, equals and are not required to file returns unless their gross income, exclusive of such exempt earned income, equals or exceeds \$5,000; or unless their net income, exclusive of such exempt earned income, equals or exceeds the amount indicated in this table under "Individuals required to file returns." (See also (c) above.) For 1932 and subsequent years the exclusion from gross income of earned income from sources without the United States does not apply to amounts paid by the United States or any agency thereof. (See sec. 116 (a), Revenue Act of 1932 and subsequent acts.) The compensation of resident alien employees of foreign gov-ernments is excluded from gross income under certain conditions. (See sec. 116 (h), Revenue Act of 1934 by Public, No. 374, 74th Cong., and which is retroactive, subject to the statutory period of limitaton.) <sup>3</sup> Not applicable to citizens deriving a large portion of their gross income from sources within a possession shown in this table for nonresident aliens, 1921 and subsequent years. <sup>4</sup> Husband and wife each to file a return unless combined income is included in joint return.

shown in this table for nonresident aliens, 1921 and subsequent years.
Husband and wife each to file a return unless combined income is included in joint return.
Net income means "statutory" net income, i. e., the excess of gross income over deductions as defined in the various revenue acts. Net income has been adjusted from time to time as follows:

(a) Amortization of buildings, machinery, equipment, or other facilities constructed or acquired on or after April 6, 1917, for the production of articles contrbuting to the prosecution of the war is included to a reasonable amount in business deductions, 1918 through 1921.
(b) Contributions to charitable and scientific organizations, etc., not exceeding 15 percent of the net income before deducting the contributions, are deductible for 1917 and subsequent years. (For unlimited deduction of contributions see sec. 214 (10), Revenue Acts of 1924 and 1926, and sec. 120, Revenue Act of 1928 and subsequent acts.)

income before deducting the contributions, are deductible for 1917 and subsequent years. (For unlimited deduction of contributions see sec. 214 (10), Revenue Acts of 1924 and 1926, and sec. 120, Revenue Act of 1928, and subsequent acts.) (c) Losses sustained in transactions entered into for profit but not connected with business or trade are not deductible, 1915 through 1915. For 1916 and 1917 such losses are deductible to the extent of the aggregate income from such transactions; for 1918 through 1931, such losses are wholly deductible, excepting that for the years 1924 through 1933, the loss, if incurred through the sale of capital assets held for more than 2 years, is deductible from total tax to the extent of 12½ percent of the loss. (See table C, p. 145) For the years 1932 and 1933 losses from sales or exchanges of stocks or bonds (other than capital assets held for more than 2 years, and other than bonds issued by a government or political subdivision thereof) are allowed only to the extent of the gains from such sales or exchanges. The Revenue Act of 1932 provides that any excess loss thus disallowed, computed without regard to any losses sustained during the preceding taxable year, is, to an amount not in excess of the taxpayer's net income for the taxable year, considered as loss sustained in the succeeding taxable year from sales or exchanges of stocks or bonds other than capital assets. (See sec. 23 (r) (2), Revenue Act of 1932.) However, section 218 (b) of the National Industrial Recovery Act repeals, effective as of Jan. 1, 1933, section 23 (r) (2) of the Revenue Act of 1932, thereby limiting the application of losses from the sale or exchange of stocks or bonds does not apply to persons dealing in securities or carrying on the banking business. (See sec. 23 (r) (3), Revenue Act of 1932, business, thereby limiting the application of losses from the sale or exchange of stocks or bonds does not apply to persons dealing in securities or carrying on the banking business. (See sec. 23 (r) (3), Revenue A

or trade. The same provision is contained in the Revenue Act of 1936, so that for 1934 and subsequent years capital losses are computed on the basis of certain percentages which vary according to the period for which assets have been held, and deduction of capital losses (after the percentages are applied). (For method of computing capital gains and losses, see table C, pp. 144-145.) The Revenue Acts of 1934 and 1936 allow losses from wagering transactions only to the extent of the gains from such sales after the percentages are applied). (For method of computing capital gains and losses, see table C, pp. 144-145.) The Revenue Acts of 1934 and 1936 allow losses from wagering transactions only to the extent of the gains from such transactions, and deny deductions for losses from sales or exchanges of property, directly or indirectly, between members of a family and (except in case of distributions in liquidation) between an individual and a corporation in which such individual owns, directly or indirectly, more than 50 percent in value of the outstanding stock. (See sec. 24 (a) (c), Revenue Acts of 1934 and 1936.) (d) Net loss for prior year resulting from the operation of any trade or business regularly carried on by the taxpayer. In the case of a net loss for any taxable year being made. When the net income of the succeeding taxable year. The Revenue Acts of 1921 through 1928 provide that net loss in any year beginning after Dec. 31, 1920, the Revenue Act of 1921 through 1928 provide that net loss in any year begin-ling attracting transmitter Dec. 31, 1920, may be deducted from the net income of the succeeding taxable year. The Revenue Act of 1932 provides that a net loss for the year only. (36) or 1931 shall be allowed as a deduction in computing net income for the next succeeding taxable year. The Revenue Act of 1932 provides that a net loss for the year only. (36) and sec. 117, Revenue Act of 1932.) However, section 218 (a) of the National Industrial Recovery Act repeals, effective as of Jan. 1, 1933, secti

Net income subject to normal tax is all net income after deducting the sum of:
(a) Personal exemption.
(b) Credit for dependents, 1917 and subsequent years.
(c) Dividends on stock of domestic corporations, 1913 through 1935, other than (1) corporations deriving a large portion of their gross income from sources within a possession of the United States, 1921 and subsequent years, and (2) China Trade Act corporations, 1922 and subsequent years, and (3) corporations exempt from tax, 1932 and subsequent years.
(d) Dividends on stock of foreign corporations receiving a certain amount of income from sources within the United States, for the years 1913 through 1933.
(e) Income, the tax upon which has been paid or withheld for payment at the source of income for the years 1913 through 1917.
(f) Interest not wholly tax exempt on United States obligations issued after Sept. 1, 1917, which is required

(f) Interest not wholly tax exempt on United States obligations issued after Sept. 1, 1917, which is required to be included in gross income, and for 1934 and subsequent years interest on obligations of instrumentalities of the United States, as defined in section 25 (a) (3), Revenue Acts of 1934 and 1936. (g) Credit of 10 percent of the amount of the earned net income, but not in excess of 10 percent of the entire net income, for 1934 and subsequent years. (See table C, p. 145.) (See note 13.) <sup>7</sup> No provision for head of family in Revenue Act of 1913. Exemption prorated for period Mar. 1 through Dec 21 (1995).

Dec. 31, 1913. <sup>8</sup> For each dependent under 18 years of age or incapable of self-support because mentally or physically

defective.

Nonresident aliens are allowed the personal exemption (\$1,000 if single, \$2,000 if married) and the credit for each dependent (\$200) only when the country of which nonresident alien is a citizen either imposes no income tax or allows similar credit to citizens of the United States not residing within such foreign

### C.—Individual supplemental income and profits tax rates

<sup>1</sup> In excess of \$3,000 for nonresident aliens.

<sup>1</sup> In excess of \$3,000 for nonresident aliens.
<sup>2</sup> Nonresident aliens having business with invested capital, reported only that proportion of invested capital which net income from sources within the United States was of the entire net income.
<sup>3</sup> Deduction (not allowable to nonresident aliens), \$6,000 plus an amount equal to the same percentage of invested capital for taxable year as the average annual pre-war income was of pre-war invested capital (not less than 7 percent nor more than 9 percent). If not established during at least one whole year of the pre-war period, 8 percent. If, during the pre-war period, the individual had a deficit or a very small income from business, of if invested capital cannot be determined, same percent as that of representative businesses. (See sec. 210, Revenue Act of 1917.)
<sup>4</sup> Nonresident aliens were not allowed to deduct income taxes paid to foreign countries, either as a tax credit on in general deductions for the years 1918, 1919, and 1920.
<sup>5</sup> Beginning with 1921, the credit cannot exceed the proportion of the total tax against which the credit is taken, that the taxpayer's net income from sources without the United States bears to the entire net income. This credit does not apply to nonresident aliens nor to citizens deriving a large portion of their gross income from sources within a possession of the United States, but to such persons these taxes are allowable as a deduction from gross income, if imposed upon income from sources within the United States possessions in a cosse of that deducted as a tax credit, is permitted to be included in deductions against gross income. (See note 7.)
<sup>6</sup> Tax for 1923 reduced 25 percent by credit or refund under section 1200 (a) of the Revenue Act of 1924.
<sup>7</sup> For 1932 and subsequent years, the taxpayer may elect to credit the income tax liability to the United States, possessions (with certain limitations) against the income tax liability to the United States, or to incl

The following percentages of the gains of losses feedback upon the salar taken into account in computing net income:
100 percent if capital asset was held not over 1 year.
80 percent if capital asset was held over 1 year, but not over 2 years.
60 percent if capital asset was held over 2 years, but not over 5 years.
40 percent if capital asset was held over 5 years, but not over 10 years.
30 percent if capital asset was held over 10 years.

### STATISTICS OF INCOME

## and tax credits, under the Revenue Acts of 1917 through 1936

### Capital gains and losses

Rev- enue Act	Income year	Definition of capital assets	Tax on capital net gain	Tax credit on capital net loss
1921	1922, 1923 \$	A s s e t s held over 2 years.	Taxpayer may elect to be taxed at 12½ percent on capital net gain, provided that the total net gain, is not less than 12½ percent of the total net income. (Loss in ordinary net income cannot be deducted from capital net gain.)	None. Capital net loss is de ductible from ordinary income.
1924	1924	do	Taxpayer may elect to be taxed at 12!5 percent on capital net gain, if the tax would be greater than 12!4 percent by including capital net gain in ordinary net income. (Loss in ordinary net income may be deducted from capital net gain and the balance taxed at 12!5 percent.)	Capital net loss may be reported apart from ordinary net in- come, and a tax credit of 12½ percent of the capital net loss taken, if tax thus produced is not less than the tax would be if the capital net loss were de- ducted from ordinary income.
1926	1925, 1926, 1927	do	Same as 1924 Act	Same as 1924 Act.
1928	1928, 1929, 1930, 1931	do	do	Do.
1932	1930, 1931	do	do	Do.
1934	1934, 1935	All prop-	Taxable gains, and losses are com-	None. (See preceding column

STATISTICS OF INCOME

Digitized for FRASER http://fraser.stlouisfed.org/ Federal Reserve Bank of St. Louis

				1	Revenue Act			
Specific exemption and credits against estate tax	1916 In effect Sept. 9, 1916, through Mar. 2, 1917	Map 2 1017	1010	1918, 1921, 1924 as amended by 1926. In effect 6:55 p. m., Feb. 24, 1919, through 10:24 a. m., Feb. 26, 1926	1926 In effect after 10:24 a. m., Feb. 26, 1926	1932 2 In effect 5 p. m., June 6, 1932, through May 10, 1934	1932 2 As amen by 1934. In effect May 11, 1934, through Aug. 30, 1935	1932 <sup>2</sup> As amended by 1935. In effect after Aug. 30, 1935
Specific exemption: Resident decedents Nonresident citizen decedents Nonresident alien decedents Credits against Federal estate tax: Credits for estate, inheritance, legacy or	\$50,000	\$50, 000	\$50, 000	\$50,000 Not to exceed 25	Not to exceed 80 per-	\$50,000	\$50,000	\$40, 000 40, 000
<ul> <li>succession taxes, actually paid to any state or territory, or the District of Columbia, in respect of any property included in gross estate of decedent for Federal estate tax purposes.</li> <li>Credit for Federal gift tax paid by dece- dent in respect of property included in gross estate of decedent for Federal estate tax purposes.</li> </ul>				per cent of tax (from 4:01 p. m., June 2, 1924, through 10:24 a. m., Feb. 26, 1926.) Total amount paid under Revenue Act of 1924, as amended.	cent of tax (after 10:24 a. m., Feb. 26, 1926). Total amount paid under Revenue Act of 1924, as amended. Credit for amount paid under Revenue Act of 1932 not to ex- ceed the proportion of the tax computed under the Revenue Act of 1926 that the value of the in- cluded gift bears to the entire gross estate.	None, for amount paid un- der Revenue Act of 1924, as amended. Credit for amount paid under Rev- enue Act of 1932 not o æx- ceed the proportion of the additional estate tax that the value of the included gift bears to the entire gross estate, and not to æx- ceed the difference be- tween the gift tax credit allowed against the tax computed under the Rev- enue Act of 1926, and the total amount of the gift tax.	Same as 1932.	Same as 1932.

<sup>1</sup> An estate tax return is required for every resident decedent (on and after May 11, 1934, for every citizen decedent, regardless of p lace of residence) whose gross estate as defined in the statutes, exceeds the specific exemption allowed. A return is also required for every nonresident decedent (on and after May11, 1934, for every nonresident alien decedent), any part of whose estate, regardless of value, was situated at date of death in the United States, within the meaning of the statute. The returns are required to be filed within one year after date of death, except for decedents who died after Aug. 30, 1935, for whom returns are due 15 months after date of death. <sup>2</sup> Rates for computation of additional tax—additional tax is amount by which tax computed according to rates of Revenue Act of 1932 (or 1932 as amended) exceeds tax computed according to rates of Revenue Act of 1926.

3 Specific exemption of \$100,000 is allowed in case of nonresident citizen decedent dying on and after May 11, 1934, under 1926 Act as amended by 1934 Act.

#### INSTRUCTIONS

### The Instructions Numbered 1 to 15 Correspond with the Item Numbers on the First Page of the Return

### INCOME

Income from salaries, wages, etc.—Enter as item 1 the total of all salaries, wages, or other compensation credited by or r.ceived from outside sources, as reported in Schedule A. Any amount claimed as a deduction for necessary expenses against salaries, etc., such as traveling expenses while away from home in connection with your occupation should be fully explained in Schedule A or in an attached statement. Travel-ing expenses ordinarily include expenditures for railroad fares, meals, and lodging.
 Dividual.

2. Dividends.—Enter as item 2 the total of all dividends reported in Schedule B.

Interest on bank deposits, etc.—Enter as item 3 the total of all interest on bank deposits, notes, mortgages, corporation bonds, etc., reported in Schedule C. Interest on bonds is con-sidered income when due and payable.

4. Interest on tax-free covenant bonds.—Enter as item 4 the total of all bond interest, reported in Schedule D, upon which a tax was paid at the source. Such tax (2 percent of the interest entered as item 4) may be claimed as a credit in item 18 of the return.

5. Other income.—Enter as item 5 the total of all other tax-able income, reported in Schedule F, including income from an estate or trust.

6. Total income.—Enter as item 6 the total amount of items 1 to 5.

Schedule E should be filled in if you own any of the obliga-tions specified in column 1. Enter in column 2 the principal amounts of the various obligations owned at the end of the year and enter in column 3 all interest received or credited to your account during the year on these obligations, including such interest received from an estate or trust.

#### DEDUCTIONS

7. Contributions—Enter as item 7 the total contributions or gifts, reported in Schedule G, made within the taxable year to any corporation, or trust, or community chest, fund, or foundation, organized and operated exclusively for religious, charitable, scientific, literary, or educational purposes, or for the prevention of cruelty to children or animals, no part of the net earnings of which insures to the benefit of any private shareholder or individual, and no substantial part of the activities of which is carrying on propaganda, or otherwise attempting, to influence legislation. The total amount claimed shall not exceed 15 percent of your net income computed without the benefit of this deduction. pting,

Denent of this deduction. 8. Taxes paid.—Enter as item 8 the amounts reported in Schedule H as personal taxes and taxes on property which were imposed upon and paid by you during the taxable year. Do not include taxes assessed against local benefits of a kind tending to increase the value of the property assessed, nor Federal income taxes, nor estate, inhieritance, legacr, succes-sion, or rift taxes, nor taxes imposed upon your interest as a shareholder of a corporation which are paid by the corporation without reimbursement from you. No deduction is allowable for any portion of foreign income taxes if a credit is claimed in item 19.

9. Interest paid.—Enter as item 9 the amount reported in Schedule I as interest paid on personal indebtedness. 10. Losses.—Enter as item 10 the total amount reported in Schedule J as losses by fire, storm, shipwreck, or other cas-ualty, or from theft, sustained during the taxable year and not compensated for by insurance or otherwise, and losses sus-tained as the result of stocks or bonds or debts becoming rthless

Losses from wagering transactions are allowable only to be extent of the gains from such transactions. tł

No deduction is allowable for the amount of any item or part thereof allocable to a class of exempt income, other than inter-est. Items directly attributable to such exempt income shall be allocated thereto, and items directly attributable to any

class of taxable income shall be allocated to such taxable in-come. A taxpayer receiving any exempt income, other than interest, or holding any property or engaging in any activity the income from which is exempt shall submit with his return as a part thereof an itemized statement, in detail, showing (1) the amount of each class of exempt income, and (2) the amount of items allocated to each such class (the amount allocated by apportionment being shown separately).

11. Total deductions .- Enter as item 11 the total of items 7 to 10.

#### COMPUTATION OF TAX

12. Net income.—Enter as item 12 the amount of net in-come, which is obtained by deducting item 11 from item 6.

13. Earned income credit, Enter as item 13 the amount of earned income credit, which is 10 percent of the amount of your earned net income but not in excess of 10 percent of the amount of your entire net income.

"Earned income" means wages, salaries, professional fees, and other amounts received as compensation for personal serv-ices actually rendered, but does not include any amount not included in gross income, nor that part of the compensation derived by the taxpayer for personal services rendered by him, to a corporation which represents a distribution of earnings or profits rather than a reasonable allowance as compensation for the personal services actually rendered.

"Earned income deductions" means such deductions as are allowed by section 23 of the Revenue Act of 1936 for the pur-pose of computing net income, and are properly allocable to or chargeable against earned income.

"Earned not income" means the excess of the amount of the earned income over the sum of the earned income deductions. If the taxpaver's net income is not more than 33,000, his entire net income shall be considered to be earned net income, and if his net income is nore than 33,000, his earned net income shall not be considered to be less than \$3,000.

For the purpose of determining the 10 percent limitation the net income should include interest on an aggregate in oxcess of \$5,000 principal amount of United States Savings Bonds and Treasury Bonds; and interest on obligations of in-strumentalities of the United States (other than obligations issued under the Federal Farm Lean Act, or under such Act as amended), reported in Schedule E.

The earned income credit allowable to each spouse in a joint return is the same as is allowable to each spouse in separate returns; however, the earned income, earned income deduc-tions, earned net income, and net income of each spouse must be shown separately in the joint return.

be shown separately in the joint redurn. 14 and 15. Personal exemption and credit for dependents— A single person, or a married person not living with husband or wife, may claim a personal exemption of \$1,000. A person who, during the entire taxable year, was the head of a family or was married and living with husband or wife, may claim an exemption of \$2,500. If husband and wife file separato re-turns, the personal exemption may be taken by either or di-vided between them.

A "head of a family" is an individual who actually supports and maintains in one household one or more individuals who are closely connected with him by blood relationship, relation-ship by marriage, or by adoption, and whose right to exercise family control and provide for these dependent individuals is based upon some moral or legal obligation.

In addition to the personal exemption, a credit of \$400 may be claimed for each personal exemption, a credit of \$400 may be claimed for each person (other than husband or wife) under 18 years of age, or incapable of self-support because mentally or physically defective, who received his or her chief support from the taxpayer. This credit may be allowed only to the person who furnishes the chief support, and may not be di-vided between two individuals. Explain such credit in Sched-ule K, furnishing the name of each devendent, the relationship between taxpayer and dependent, and the reason for support if the dependent is not under 18 years of age.

If the status of the taxpayer, insofar as it affects the per-sonal exemption or credit for dependents, changes during the taxable year, the personal exemption and credit shall be ap-portioned in accordance with the number of months before and after such change. For the purpose of such apportionment a fractional part of a month shall be disregarded unless it amounts to more than half a month, in which case it shall be amounts to more than considered as a month.

#### LIABILITY FOR FILING RETURN

LIABLITY FOR FILING RETURN 16. An income tax return must be filed by every citizen of the United States whether residing at home or abroad, and every person residing in the United States, though not a citi-zen thereof, having a gross income for the calendar year 1936 of \$5,000 or over, or a net income for the same period of (a) \$1,000 or over, if single, or if married and not living with husband or wife, or (c) more than the personal exemption if the status of the taxpayer changes during the taxable year. If the combined net income of husband and wife, including that of dependent minor children, if any, is \$2,500 or over, or if their combined gross fncome is \$5,000 or over, either each must make a return or the income of each must be included in a single joint return.

In order for a joint return to be filed by a husband and wife, both spouses must have had some income or deductions in the year for which the return is filed, and the return must include the income and deductions of both spouses. A joint return of husband and wife may be filed only if they were living to-gether at the close of their taxable year. (See Instruction 13 for information with respect to earned income credit in a joint return.)

#### ITEMS EXEMPT FROM TAX

17. The following items are exempt from Federal income tax, except where otherwise indicated, and should not be in-cluded in gross income:

(a) Amounts received under a life insurance contract paid by reason of the death of the insured; whether in a single sum or in installments (but if such amounts are held by the insurer under an agreement to pay interest thereon, the interest pay-ments shall be included in gross income);

ments shall be included in gross income); (b) Amounts received (other than amounts paid by reason of the desh of the insured and interest payments on such a life insurance of the insured and interest payments on such a life insurance of the insured and interest payments on such when added to amounts received before the taxable year under such contract) exceed the aggregate premiums or con-sideration paid (whether or not paid during the taxable year) then the excess shall be included in gross income. Amounts received as an annuity under an annuity or endowment con-tract shall be included in gross income. Amounts received as an annuity under an annuity of the summer to the the taxable year over an amount equal to 3 percent of the aggregate premiums or consideration paid for such an-nuity (whether or not paid during such year), until the aggregate premiums or consideration paid for such annuity; (c) Gitts (not made as a consideration for survice rendered) and money and property acquired by bequest, devise, or in-heritance (but the income derived from such property is tax-able and must be reported); (d) Interest upon (1), the obligations of a State, Territory,

able and must be reported); (d) Interest upon (1) the obligations of a State, Territory, or any political subdivision thereof, or the District of Colum-bia, or United States possessions; or (2) obligations issued under the provisions of the Federal Farm Loan Act or under such act as amended; or (3) the obligations of the United States; or (4) obligations of instrumentalities of the United States (other than obligations issued under Federal Farm Loan Act or under such Act as amended), such as Federal Farm Mortgage Corporation bonds, thome owners' Loan Cor-poration bonds, etc. The interest on United States Savings

Bonds and Treasury Bonds, owned in excess of \$5,000, and on obligations of instrumentalities of the United States (other than obligations issued under Federal Farm Loan Act or under such Act as amended) is subject to surtax if the surtax net income is over \$4,000. Such interest should be reported in Schedule E;

(e) Amounts received through accident or health insurance or under workmen's compensation acts, as compensation for personal injuries or sickness, plus the amount of any damages received, whether by suit or agreement, on account of such in-juries or sickness;

(f) The rental value of a dwelling house and appurtenances thereof furnished to a minister of the gospel as part of his compensation;

(g) Compensation paid by a State or political subdivision thereof to its officers or employees for services rendered in connection with the exercise of an essential governmental function; and

(h) Amounts received as earned income from sources with-out the United States (except amounts paid by the United States or any agency thereof) by an individual citizen of the United States who is a bona fide nonresident for more than 6 months during the taxable year. The taxpayer in such a case may not deduct from his gross income any amount properly allocable to or chargeable against the amount so excluded from his gross income.

#### GENERAL INFORMATION

18. Affadrin.-The oak hull be administered without cnarge by any collector, deputy collector, or internal revenue agent. If an internal revenue officer is not available, the return should be sworn to before a person authorized to administer oaths, except an atorney or agent employed to represent the tax-payer before the Department in connection with his tax lia-bility.

payer before the Department in connection with no tex in-bility. The affidavit must be executed by the person whose income is reported or by his legal representative or agent. The re-turn may be made by an agent (1) if, by reason of illness, the person liable for the making of the return is unable to make it, or (2) if the taxpayer is unable to make the return by reason of continuous absence from the United States for a period of at least 60 days prior to the date prescribed by law for making the return. Whenever a return is made by an agent it must be accompanied by a power of attorney on Form 950, or, in the case of husband and wife, on Form 936 (copies of which may be obtained from the collector of internal reve-nue).

The joint return of husband and wife must be signed by both spouses and sworn to by the spouse preparing—filing in—the return. If the return is prepared by both spouses, or is pre-pared by neither spouse, then both spouses must swear to the return, except where one spouse acts for the other spouse under a power of attorney submitted on Form 936.

unaer a power or attorney submitted on rorm yso. 19. Tax.—The tax may be paid at time of filing the return, or in four equal installments, payable quarterly, provided each installment is paid on the fore its respective due date. If any installment is not paid on the date fixed for payment, the whole amount of tax unpaid shall be paid upon notice and de-mand by the collector.

20. Penalty for willful failure to make and file a return on time.—Not more than \$10,000 or imprisonment for not more than 1 year. or both, together with the costs of prosecution, and, in addition, 5 to 25 percent of the amount of the tax.

21. Penalty for willfully making a false or fraudulent re-turn.—Not more than \$10,000 or imprisonment for not more than 5 years, or both, together with the costs of prosecution.

22. FOR FAILURE TO FILE DUPLICATE INCOME TAX RETURN ON TIME THERE WILL BE ASSESSED \$5, WHICH WILL BE PAYABLE UPON NOTICE BY THE COLLECTOR.

### INSTRUCTIONS

### The Instructions Numbered 1 to 25 Correspond with the Item Numbers on the First Page of the Return

#### 1. GROSS RECEIPTS

Letters in the business or protocols in the chapter provided at the top of page 1, and enter an item 1 on page 1 of the return the gross receipts from sales or serv-ices, less any discounts or allowances from the sale price or service charge. Parmer's income schedule—If the organization operates a farm and keeps no books of account, or keeps books on a cach basis, obtain from the collector and attach to this return Form 1040F, Schedule of Farm Lecome and Expenses, and earter the eff farm income so item 3 and serve and estimates of account are kept on an account large 1 of this return. If the farm books of account are kept on an accrual basis, the filing of Form 1040F is continued.

Install: optional. Installment sales.—If the installment method is used, attach to the return a schedule chowing separately for the taxable years 1932, 1933, 1934, and 1935 the following information: (a) Gross sales (b) cost of goods odd); (c) gross prefits; (d) percentage of profits to gross sales; (c) amount collected; and (f) gross profit on amount collected. See sortion 44 of the Revenue Att of 1934.

### 2. COST OF GOODS SOLD

sine.

Enter as item 2 the information requested in lines (a) to (a), and list in Schedule A on page 2 of the return the principal items of cost included in the amount entered on line (c), the micro items to be grouped in one amount. Interenteds.—If the production, purchare, or easle of merchandise is an income-preducing factor in the trado or business, juventorise of merchandise on hand should be taken at the beginning and end of the taxable year. Enter "C", or "C or M", on lines (a) and (b) to indicate whether the invectories are valued at cost, or cost or market, whichever is lower.

#### 3. GROSS PROFIT

Enter as item 3 the gross profit derived from the businees or profession, which is obtained by deducting item 2, the cost of goods sold as extended, from item 1, the gross receipts.

#### 4. INCOME (OR LOSS) FROM ANOTHER PARTNERSHIP, ETC.

4. INCOME (DOSS) FROM ANOTHER PARTICLESTIC. Enter as lists of the basis of the profits (which are reacted on nol) (or of the losses) of another partnership, syndicate, pool, joint venture, etc., except that the share of dividead on atock of domestic corporations abili be lacidad in item 10 (a) and/or (b) on page 1 of the return, and interest on obligations of the United Statest, etc., shall be reported in Schedule IB, page 2 of the return. If the accounting period on the basis of which this return is filed does not coincide with the annual accounting period of another partnership, syndicate, pool, etc., from which income is received, there should be included in this return the distributive ahare of the net yrolds (or Dessa) for the accounting period of such partnership, syndicate, pool, etc., ending within the accounting period for

#### 5. INTEREST ON BANK DEPOSITS, ETC.

Enter as item 5 all interest received or credited to the account of the organiza-tion during the taxable year on bank deposits, notces, mortgages, and corpora-tion bonds, except interest on bonds upon which a tax was paid at the source. Interest on bonds is considered income when due and payable.

### 6. INTEREST ON TAX-FREE COVENANT BONDS

Enter as item 6 interest on bands upon which a tar was paid at the source by the debtor corporation, if an ownership certificate on Form 1000 was filed with the interest coupons. The tax of 2 percent paid at the source on such interest should be allocated to the partners or members in column 6 of item 25, page 1 of the return.

#### 7. RENTS

Enter as Hem 7 the gross amount received for the rent of property. Any deductions claimed for repairs, interest, taxes, and depreciation should be included in items 15, 16, 17, and 21; respectively. If property or crops were received in lisu of cash rest, report the income as though the rest had been received in cash. Crops received as rest on a crops share basis should be reported as income for the year in which disposed of, unless this return shows income acrued.

#### 8. ROYALTIES

Enter as item 3 the gross amount received as royalties. If a deduction is claimed on account of depiction, it should be included in item 22. See sections 23 (m) and 114 of the Revenue Act of 1934.

### 9. CAPITAL GAINS AND LOSSES

Report sales or exchanges of capital assets in Schedub B and enter the net amount of gain or loss to be taken into account in computing net income as item 9. (CAPITAL LOSSES ARE ALLOWARDE ONLY TO THE EXTENT OF \$2,000 PLUS CAPITAL CANNS). Describe the property briefly, and sales the price received or the fair market value of the property received in nge

state the price received or the fair market value of the property rescived in schange. If the property sold or exchanged was acquired prior to March 1, 1913, the basis for determining GAIN is the scot or the fair market value as of March 1, 1913, adjusted as provided in action 113 (b) of the Revenue Act of 1954, which-ever is greater, but in determining LOSS the basis is cost os adjusted. If the property was acquired after Fabruary 25, 1913, and the basis is not otherwise doily of the Barcenue Act of 1954, there thely is will be thirty or decided 113 (b) of the Barcenue Act of 1954, there thely is will be thirty or decided 114 be in the hands of the transferror, increased in the amount of gain or devenued is the amount of loss recognical to the transfer upon such transfer upon-erty in the hands of the partner shall be such part of the basis of such property residentification is high dy a parteer, the basis of such property residentification is high dy a parteer shall be a such part of the basis of such property in the hands of the partner shall be such part of the basis of such property. (See section 113 of the Revenue Act of 1934). If the amount shown as cost is other than actual cash cost of the property sold or exchanged, full details must b fur-nished regarding the acquisition of the property. Case section of depiction which has been allowed (but not less than the amount allowable) in respect of anch property and case date of acquisition, or asion dareh 1, 1913, if is property was acquired before that date. In addition, if the property was acquired before March 1, 1913, the oxis shall be reduced by the depreciation actually cavationed before that date.

Subsequent improvements include expenditures for additions, improvements, and repairs made to restore the property or prolong its useful kin. Do not declute ordinary repairs, lotters, to taxa in a computing gain or loss. No loss shall be recognized in any sale or other disposition of shares of atock or securities where the organization has acquired substantially identical stock or securities where the organization has acquired substantially identical stock or securities which 20 days before or after the date of such sale or disposition, unless the organization is negred in the trade or business of buying and selling stocks and securities.

ctocks and securities. No deduction shall be allowed in respect of losses from also or exchanges of property, directly or indirectly, (A) between members of a family, or (B) except in the case of distributions in liquidation, between an individual and a corpora-tion is which such individual wors, directly or indirectly, more than 50 per-cent in value of the outstanding stock. For the purpose of this paragrapha-(C) an individual shall be considered as owning the stock owned, directly or indirectly, by his family; and (D) the family of an iodividual shall include only his brothers and sksters (whether by the whole or half bloch), spouse, ancestors, and lineal descendants.

The provisions of the Revenue Act of 1934 relating to capital gains and losses are

19. BAD DEERTS Enter as item 19 dobts, or portions thereof, arising from sales or services that have been reflected in income, which have been definitely assertationed to be worthless and have been charged of which the year, or such reasonable amount as has been added to a reserve for had debts within the year, or If the debts are included in the dotaction claimed, state in Schedule F on the debts are included in the dotaction claimed, state in Schedule F on then they became due, line (c) what efforts were made to collect, and line (d) how they were actually determined to be worthless. When they became due, line (c) what efforts were made to collect, and line (d) how they were actually determined to be worthless. A debt previously charged off as had, if zubsequently collected, must be returned as income for the year in which collected. 20 CONTENEUTONS

#### 29. CONTRIBUTIONS

2. CONTRIBUTIONS
To the use of: (a) The United States, any State, Territory, or any political subdivision thereof, or the District of Columbia, for exclusively public purposes, or the District of Columbia, the exclusively provide a state of the state of the prevention of creative provide the prevention of creative to exclusively for religious, chartable, scientific, little and the prevention of the activities of which is exclusively for a subdivide or animals, no part of the net earnings of which parts of the prevention of creative to exclusively for a statement, to influence legislation; (4) the special fund for vecational rehabilitation authorized by section 12 of the Word War Veterand Act, 1024; (4) poils or organizations of war veterans, or any list or societies of any such posts or organizations, if the state of the research of the research of the inters to the state state of the state state state of the state state state of the state stat

#### 21. DEPRECIATION

21. DEPERCIATION The amount deductible on account of depreciation in item 21 is an amount reasonably measuring the portion of the investment in depreciable properly by reason of actualism, were and iten; or obolessence, which is properly chargenable against the operations of the year. If the property was acquired by purchase on or after March 1, 1913, the amount of depreciation should be determined upon the basis of the original cost (not replacement gost) of the property, and the probable number of years remaining of its expeted useful life. In case the property was purchased prior to March 1, 1923, the amount of depreciation will be determined in the same manner, excepted useful life. In case the property was purchased prior to March 1, 1923, the amount of depreciation will be determined in the same manner, excepted useful life. The second second second second second second second second depreciation will be determined in the same manner, except that it will be computed on its original cost, less depreciation sustained prior to March 1, 1920, or visa second second second second second second second second depreciation second second second second second second second depreciations useful life of the property. Makever pin or method of apportionment is adopted must be reasonable, must have due regard to operating conditions during the taxable year and should be described in the return. It a deduction is chained on account of depreciation, fill in Schedule 6. In

described in the return. If a deduction is claimed on account of depreciation, fill in Schedule G. In case obsolescence is included, state separately amount claimed and basis upon which it is computed. Land values or cost must not be included in the sched-ule, and where land and buildings were purchased for a lump sum the cost of the buildings subject to depreciation must be established. The adjusted pro-erty accounts and the accumulated depreciation shown in the schedule should be recorded with those accounts as follcated on its books of the taxpar-(See proton and may partner or member as a deviced bing, or of other property held for personal use, nor on stocks, honds, and like securitority.

#### 22. OTHER DEDUCTIONS

2.0 OTHER DEDUCTIONS Exter as item 22 any other subhorid obtaining for which he space is pro-vided elsewhere on page 1 of the roturn. Do not deduct losses incurred in transactions which were neither connected with the trade or business nor entered into for profit. No deduction is allowable for the amount of any item or part thereof allocable to a class of exempt income, other than interest. Items directly attributable to auch scale with the trade shall be allocated to and items directly attributable to any class of trade in the small be allocated to ach taxable income. An organization receiving any exempt income, other han interest, rot holding any property or engaring in any activity the income ized statement, in detail, showing (1) the amount of each class (the anount allocated by apportionment being shown separately).

## PART 2

## CORPORATION INCOME AND EXCESS-PROFITS TAX RETURNS AND PERSONAL HOLDING COMPANY RETURNS

TREASURY DEPARTMENT,

Office of Commissioner of Internal Revenue, Washington, D. C., May 10, 1939.

SIR: In accordance with the provision in the Revenue Act of 1916 and subsequent acts requiring the publication annually of statistics with respect to the operation of the income, war-profits, and excessprofits tax laws, I have the honor to transmit herewith a report entitled "Statistics of Income for 1936, Part 2," prepared from corporation income and excess-profits tax returns and personal holding company returns for 1936 filed during 1937, with a historical presentation of the income and of the tax liability reported by corporations from 1909 to date. (Statistics compiled from individual income tax returns for 1936, and estate tax returns and gift tax returns filed during 1937, are published in Statistics of Income for 1936, Part 1.)

## CORPORATION INCOME AND EXCESS-PROFITS TAX RETURNS

## RETURNS TABULATED

In general, the corporation income and excess-profits tax returns covered by this report are for the calendar year 1936. However, a considerable number of returns are filed for a fiscal year other than a calendar year. Such returns for a fiscal year ended in the period July 1936 through June 1937 are tabulated with the calendar year returns. There are also included part-year returns for which the greater part of the accounting period falls in 1936.

The statistics are compiled from the returns as filed and prior to revision that may subsequently be made as a result of audit by the Bureau of Internal Revenue.

The general tables for corporations include aggregates for all returns covered by this report, as well as separate tabulations for returns with net income and with no net income. For the tabulation of the returns with year ended prior to December 31, 1936, which show income tax data under the provisions of the Revenue Act of 1934, the gross income, deductions, net income and deficit have been arbitrarily adjusted to conform to the definitions of these items under the Revenue Act of 1936, but the income tax and excess-profits tax have not been adjusted according to the provisions of the Revenue Act of 1936.

## REVENUE ACTS UNDER WHICH RETURNS ARE FILED

The returns included in this report are filed under the provisions of the following revenue acts: Those for the calendar year 1936 and for a fiscal year or part year ended in the period January through June 1937 have data relating to the normal tax and surtax on undistributed profits under the provisions of the Revenue Act of 1936, and excessprofits tax data under the provisions of the Revenue Acts of 1935 and 1936; those with fiscal year ended prior to December 31, 1936 (or with part year which began in 1935), have income tax data under the provisions of the Revenue Act of 1934, and excess-profits tax data under the provisions of the Revenue Act of 1935. (The provisions of the Revenue Act of 1935 relating to corporation income taxes were superseded by the provisions of the Revenue Act of 1936 before their first effective dates.)

Under the provisions of the Revenue Act of 1936, corporations, other than those listed in the following paragraph, are subject to a normal tax graduated from 8 percent on "normal tax net income" not in excess of \$2,000, to 15 percent on the amount in excess of \$40,000 in lieu of the flat rate of 13¾ percent on "net income" imposed by the Revenue Act of 1934, and to a surtax on undistributed profits graduated from 7 percent to 27 percent. (For a more detailed description of the surtax, see the section of this report entitled "Surtax on undistributed profits," pages 12–14.) Fifteen percent of the dividends received from domestic corporations (which are subject to taxation under Title I of the Revenue Act of 1936) is included in net income subject to the normal tax and the total amount of such dividends received is included in net income subject to the surtax. Under earlier revenue acts, all dividends received from such domestic corporations were exempt from the income tax.

The following corporations, although exempt from the surtax on undistributed profits, are subject to a flat normal tax rate of 15 percent instead of the graduated normal tax: banks and trust companies, a substantial part of the business of which is receiving deposits and making loans and discounts; insurance companies; corporations with income from sources within possessions of the United States which are entitled to the benefits of section 251 of the Revenue Act of 1936; and corporations organized under the China Trade Act of 1922. Foreign corporations are also exempt from the surtax and are subject to a flat normal tax. For nonresident foreign corporations, income from sources within the United States is subject to a 15 percent normal tax, except dividends received, which are subject to a tax of 10 percent. The 10 percent rate on dividends received may be reduced to not less than 5 percent if the recipient corporation is organized under the laws of a contiguous country and provision for such reduction has been effected by treaty with such country. Resident foreign corporations are subject to a flat normal tax of 22 percent on income from sources within the United States.

Under the Revenue Act of 1934, steam and electric railroad corporations were permitted to file consolidated returns for income tax purposes. This privilege is continued under the Revenue Act of 1936. However, the previous tax rate of 15<sup>3</sup>/<sub>4</sub> percent is changed to the graduated normal tax and surtax on undistributed profits corresponding to tax rates for corporations not filing consolidated returns. The Revenue Act of 1936 extended the privilege of filing consolidated returns to street, suburban, and interurban electric railways.

The excess-profits tax rates under the provisions of the Revenue Act of 1935 for income-tax taxable years ended after June 30, 1936, are 6 percent of the net income in excess of 10 percent and not in excess of 15 percent of the adjusted declared value of capital stock plus 12 percent of the net income in excess of 15 percent of the adjusted declared value of capital stock. The rate imposed by the Revenue Act of 1934 was 5 percent of the net income in excess of 121/2 percent of the adjusted declared value of capital stock. For income years ended in the period July through November 1936 the net income subject to the excess-profits tax, according to the provisions of the Revenue Act of 1935, is the same as that for income tax purposes, except that the income tax is allowed as a deduction in determining the net income subject to the excess-profits tax. Under the provisions of the Revenue Act of 1936, which apply to income years ended December 31, 1936, and thereafter, the income tax is not allowed as a deduction in the computation of the net income for excess-profits tax purposes, and 15 percent of the dividends received from domestic corporations (which are subject to taxation under Title I of the Revenue Act of 1936) is included in the net income subject to the excess-profits tax. Under earlier revenue acts, dividends received from such corporations were exempt from the excessprofits tax.

Under the provisions of the Revenue Act of 1936, a deduction from gross income for contributions or gifts is allowed for the first time, limited, however, to 5 percent of the net income before the deduction of the contributions or gifts.

## DEFINITIONS OF GROSS INCOME, DEDUCTIONS, NET INCOME AND TAX

In this report "gross income" corresponds to "total income" reported in item 14, page 2 of return for 1936, plus "cost of goods sold" and "cost of operations," items 2 and 5, page 2 of return. Unlike former years, "gross income" includes interest received on certain Government obligations, which is subject to excess-profits tax (item 8, p. 2 of return). "Deductions" correspond to "total deductions" reported in item 26, page 2 of return, plus "cost of goods sold" and "cost of operations," items 2 and 5, page 2 of return. Unlike former years, "deductions" include contributions or gifts (limited to 5 percent of net income before deduction of contributions or gifts for returns with year ended December 31, 1936, and thereafter) and exclude dividends received which were allowed as a deduction under former effective revenue acts. All negative income amounts reported under sources of income are transferred to deductions and both "gross income" and "deductions" are increased by a like amount. Referincome" and "deductions" are increased by a like amount. ences in this and succeeding paragraphs are to item numbers on Form 1120, facsimile of which appears on pages 204–211.

The amount of "net income" tabulated in this report means "net income for excess-profits tax computation" (item 27, p. 2 of return) and represents the amount of gross income, as defined above, in excess of deductions; and "deficit" represents the excess of deductions over gross income. Unlike former years, net income or deficit includes dividends received on stock of domestic corporations subject to taxation under Title I of the effective revenue act (item 12(a), p. 2 of return) and interest received on certain Government obligations which is subject to the excess-profits tax (item 8, p. 2 of return), and excludes contributions or gifts (limited to 5 percent of net income before deduction of contributions or gifts for returns with year ended December 31, 1936, and thereafter).

In the general tables in this report, the amount tabulated as "normal tax" includes the following: income tax reported on returns for a fiscal year ended in the period July through November 1936 (and returns with part year which began in 1935), and the graduated normal tax (item 22, face of return) and the flat normal tax for corporations exempt from the graduated rates, reported on returns for the calendar year 1936 and for a fiscal year or part year ended in the period January through June 1937. The surtax on undistributed profits (item 41, face of return) is the amount reported on returns for the calendar year 1936 and for a fiscal year or part year, ended in the period January through June 1937, of corporations which are subject to the surtax and which did not pay out dividends or have a credit for restricting dividend payments in excess of adjusted net income. The amount tabulated as excess-profits tax is reported as item 28, page 2 of the return. The income tax liability shown in this report represents an amount prior to the allowance of credit claimed for income tax paid to a foreign country or United States possession.

## TAX LIABILITY AND COLLECTIONS

The amount of tax liability as reported on the returns is not precisely comparable with the amount of corporate income tax collections during the calendar year in which the returns are filed. Several factors are responsible for the differences in the tax collected and the tax liability reported on the returns, among which are the following:

1. The amount of tax originally reported may have been subsequently revised as the result of audit of the returns. The revisions may result in additional assessments, thereby increasing the tax liability, or in certificates of overassessment, representing abatements and credits, which reduce the tax liability originally reported. An amended return has the same effect as an audit revision.

2. Income and profits taxes paid to foreign countries or possessions of the United States may be taken as a deduction from gross income or applied with certain limitations as a credit against the income tax payable to the United States. When used as a credit, the amount can not exceed the proportion of the total tax against which the credit is taken that the taxpayer's net income from sources without the United States bears to the taxpayer's entire net income. The amount of such taxes taken as a credit by corporations against the income tax liability to the United States has not been deducted from the income tax liability shown in the tabulations in this report. For the amount of this credit for the years 1925 through 1935, see the Statistics of Income for 1935, Part 2, page 8.

3. Income tax paid at source on tax-free covenant bonds, because of being assessed against the debtor corporation, is included in the corporation income tax collections, notwithstanding the fact that it is paid on behalf of individual holders of bonds. 4. The amount of tax liability on fiscal year returns may not represent taxes collected during the calendar year in which the returns are filed. Fiscal year returns are required to be filed on or before the 15th day of the third month after the end of the fiscal year, and payment, as in the case of calendar year returns, is required at the time the return is filed, or in four quarterly installments. The first of the quarterly installments is due when the return is filed. Thus during the calendar year 1937, collections were made of part or all of the taxes reported on returns for a fiscal year ended in period January 31, 1936 (the last quarterly installment payment on which was due on or before January 15, 1937), through September 30, 1937 (the filing of returns and the full payment or first installment payment on which was due on or before December 15, 1937); whereas there are excluded from the statistics in this report, as previously indicated, the returns for a fiscal year ended prior to July 1936 and subsequent to June 1937.

5. Tabulations in this report exclude data reported on nonresident foreign corporation income tax returns, Form 1120NB, whereas collections in the current year include taxes on these returns. Form 1120NB is required for the calendar year 1936 or for a fiscal year begun in 1936 and ended in 1937, unless a tax of 10 percent has been withheld at the source on dividends and a tax of 15 percent has been withheld at the source on all other items of taxable income (interest, rents, royalties, etc.) received during the year from sources within the United States.

6. Delays in payment because of financial embarrassment, liquidation of business, and other causes result in collections of taxes after the close of the year in which such taxes are due, and the classification of such collections as "back taxes" because the collections are made in a subsequent year. For similar reasons, certain amounts are uncollectible.

7. Collections in the current year include such interest and penalty items as are received in connection with delinquent payments on returns.

#### INDUSTRIAL CLASSIFICATION

Corporations are classified industrially according to their predominant business. The industrial groups, therefore, do not contain solely corporations engaged exclusively in the industries in which they are classified, because of the diversified activities of many corporations. The industrial classification for 1934, 1935, and 1936 is not strictly comparable with that for prior years, by reason of the discontinuance, under the Revenue Act of 1934, of the privilege of filing consolidated returns, except by railroads. Whereas returns formerly filed on a consolidated basis were classified according to the predominant business of the consolidated group, the industrial classification for returns with year ended December 31, 1934, or thereafter, is based on the predominant business of each separately incorporated concern (except in the case of an affiliated railroad group which exercises the privilege of filing a consolidated return). Although the present classification is, to some extent, a purer industrial distribution than was possible for consolidated returns of affiliated groups of companies in years prior to 1934, it does not furnish a wholly clean-cut separation of industries, because of the varied activities of many corporations and as a result of corporations dissolving their subsidiaries and transferring the business to the parent company.

## GEOGRAPHIC DISTRIBUTION

The data, although tabulated by the States in which the returns are filed, do not represent what may be called the geographic distribution of income. There is no way of ascertaining from the income tax returns the amount of income originating in the respective States or the amount of tax paid on that basis, since income reported by a corporation in one State may have been derived from sources in other States. Returns are filed in the collection district in which the principal place of business or principal office of the corporation is located, except that consolidated returns of affiliated groups of railroad companies are filed in the collection district of the parent company.

The geographic distribution for 1934, 1935, and 1936 is not strictly comparable with that for prior years, by reason of the discontinuance, under the Revenue Act of 1934, of the privilege of filing consolidated returns, except by railroads. The separate returns of affiliated groups of companies which formerly filed on a consolidated basis may or may not be filed in the same collection districts as heretofore, depending on whether or not the principal place of business or principal office of the affiliated companies is in the same collection district as that of the parent company.

#### COMPARABILITY WITH PREVIOUS REPORTS

In various sections of this report reference is made to conditions affecting the comparability of specific items from year to year, such as changes in the provisions of the revenue acts under which the returns for given years are filed. In particular it must be noted that certain data and classifications of the returns for 1934, 1935, and 1936 are not strictly comparable with those for prior years (see Statistics of Income for 1934, Part 2, pp. 19-29), and, furthermore, that certain data and classifications of the returns for 1936 are not strictly comparable with those for 1934 and 1935. For the 1936 returns shown in this report, the gross income, deductions, compiled receipts, compiled deductions, compiled net profit, net income, deficit, and tax liability, as well as the classification of the returns with net income and with no net income, are affected by the provisions of the Revenue Act of 1936. The major changes contained in the provisions of this act, affecting the tabulated data for corporations, are described in the section of this report entitled "Revenue Acts under which returns are filed," pages 2-3, and are summarized in the section of this report entitled "Revenue Acts of 1913–1936 and certain tax provisions of the National Industrial Recovery Act (1933); also the special excise tax under the act of August 5, 1909," pages 195-200.

## NUMBER OF RETURNS, NET INCOME OR DEFICIT, AND TAX

The number of corporation income and excess-profits tax returns for 1936, filed during the calendar year 1937, is 530,779, of which 203,161 show net income amounting to \$9,478,241,475, while 275,696 show a deficit of \$2,152,023,715, and 51,922 have no income data. The normal tax is \$1,024,792,938, the surtax on undistributed profits \$144,972,284, the excess-profits tax \$21,612,551, and the total tax \$1,191,377,773. The amount tabulated as normal tax includes the following: income tax of \$59,289,827 reported on returns with a fiscal year ended prior to December 31, 1936 (and returns with part year which began in 1935); graduated normal tax of \$930,438,197 and flat normal tax of \$35,064,914 for corporations exempt from the graduated rates, reported on returns for the calendar year 1936 and for a fiscal year or part year ended in period January through June 1937. The surtax is reported on returns of corporations (other than those which are exempt from the surtax) for the calendar year 1936 and for a fiscal year or part year ended in the period January through June 1937. A special tabulation of the surtax liability reported on returns filed under the Revenue Act of 1936 appears in the section of this report entitled "Surtax on undistributed profits," pages 12–18.

In connection with the amounts of net income, deficit, and tax liability, for returns with net income and with no net income, attention is called to the fact that these items are not strictly comparable with those for prior years. The major changes contained in the provisions of the Revenue Act of 1936, affecting the tabulated data for corporations, are described in the section of this report entitled "Revenue acts under which returns are filed," pages 2–3, and are summarized in the section of this report entitled "Revenue Acts of 1913–1936 and certain tax provisions of the National Industrial Recovery Act (1933); also the special excise tax under the Act of August 5, 1909," pages 195–200.

Separate tabulations for fiscal year returns and for part year returns, shown on pages 34–38, make it possible to segregate certain data for the calendar year accounting period and for other accounting periods.

## MAJOR INDUSTRIAL GROUPS

In the table on pages 8–10 returns of corporations are segregated by major industrial groups and by returns with net income, returns with no net income, and returns of inactive corporations. There are shown, of the following data, the items that are applicable to each segregation: number of returns, gross income, deductions, net income or deficit, normal tax, surtax on undistributed profits, and excessprofits tax. Basic table 1, pages 60–61, shows similar data for the returns distributed by States and Territories.

In analyzing the data compiled from returns classified under the major industrial group "Finance" and under the industrial subgroup "Life insurance—Mutual or stock companies," allowance should be made for the two special deductions from gross income permitted life insurance companies under subsection (a), section 203, Revenue Acts of 1934 and 1936, relating to reserve funds required by law and reserve for dividends. For returns with net income this deduction is \$120,116,262; for returns with no net income, \$654,895,402. In basic tables 3 and 4, pages 70–81 and pages 82–91, respectively, the special deductions for life insurance companies are included in "other deductions."

There are excluded from the major industrial group "Finance," for the first time, returns of nonresident foreign corporations with income derived from sources within the United States on which the tax has not been fully satisfied at the source. For the calendar year 1936 and for a fiscal year begun in 1936 and ended in 1937, Form 1120NB is required of such corporations, unless a tax of 10 percent has been withheld at the source on dividends and a tax of 15 percent has been withheld at the source on all other items of taxable income (interest, rents, royalties, etc.). In prior years, all nonresident foreign corporations filed Form 1120 and data from these returns were tabulated in the major group "Finance."

This year, the industrial groups "Clothing and apparel," "Petroleum and other mineral oil products," and "Motor vehicles, complete or parts," are shown as major industrial groups for the first time. In prior years, the group "Clothing and apparel" was included in "Textile mill products," the group "Petroleum and other mineral oil products" was included in "Chemicals and allied products," and the group "Motor vehicles, complete or parts," was included in "Metal and its products."

In connection with the 1936 data for returns with net income and with no net income classified by industrial groups and also by States and Territories, attention is called to the fact that these data are not strictly comparable with those for prior years. The major changes contained in the provisions of the Revenue Act of 1936, affecting the tabulated data for corporations, are described in the section of this report entitled "Revenue Acts under which returns are filed," pages 2-3, and are summarized in the section of this report entitled "Revenue Acts of 1913–1936 and certain tax provisions of the National Industrial Recovery Act (1933); also the special excise tax under the Act of August 5, 1909," pages 195–200.

In basic table 3 there are shown dividends received on stock of domestic corporations (line 7), interest received on certain Government obligations subject to the excess-profits tax (line 9), and contributions or gifts (line 19), by major industrial groups and by returns with net income and with no net income. The information shown in basic table 3 permits comparisons of 1936 data on gross income, deductions, and net income less deficit with these items for prior years and indicates the effect on the classification of the returns with net income and with no net income of the inclusion in net income for income tax computation of dividends received on stock of domestic corporations and interest received on certain Government obligations. These data should be used in connection with the following table:

Corporations, 1936, by major industrial groups: number of returns, gross income. deductions, net income or deficit, normal tax, surtax on undistributed profits, and excess-profits tax, for returns with net income and with no net income; also number of returns of inactive corporations <sup>1</sup>

[Money figures in thousands of dollars]

<sup>1</sup> For textual discussion, see pp. 1-8. <sup>3</sup> The classification of returns "with net income" and "with no net income" is based on the amount of net income for income tax computation (item 29, p. 2 of return). Unlike former years, net income for income tax computation includes dividends received on stock of domestic corporations subject to taxation under Title 1 of the effective revenue acts (item 12(a), p. 2 of return) and interest received on certain Government obligations, which is subject to excess-profits tax (item 8, p. 2 of return), and excludes contributions or gifts (limited to 5 percent of net income before deduction of contributions or gifts) and excess-profits tax (item 28, p. 2 of return). The amount of "net income" or "deficit" represents the net income for excess-profits tax computation (item 27, p. 2 of return), which, unlike former years, includes the above-mentioned dividends received and interest received on certain Government obligations, and excludes the above-mentioned dividends received and interest received on certain Government obligations, and excludes the above-mentioned dividends received and interest received on certain Government obligations, and excludes the above-mentioned dividends received and interest received on certain Government obligations, and excludes the above-mentioned dividends received in gifts. The amount of "net income" or "deficit" equals the difference between "total income" and "total deductions" (items 14 and 28, respectively, p. 2 of return) and also between "gross income" and "deductions" in this table.

deductions" (items 14 and 28, respectively, p. 2 of return) and also between "gross income" and "deductions" in this table. <sup>4</sup> "Gross income" and "deductions" correspond to "total income" and "total deductions" (items 14 and 26, respectively, p. 2 of return) plus, in each instance, "cost of goods sold" and "cost of operations" (item 2 and 5, p. 2 of return). Unlike former years, "gross income" includes interest received on certain Govern-ment obligations, which is subject to excess-profits tax (item 8, p. 2 of return), and "deductions" include con-tributions or gifts (limited to 5 percent of net income before deduction of contributions or gifts) and exclude dividends received on stock of domestic corporations (item 12(a), p. 2 of return), and "deductions" and find returns with part year which becan in 1935; graduated normal tax of \$830,438,197 and flat normal tax of \$35,064,914 for corporations exempt from the graduated rates, reported on returns for the calendar year 1936 and for fiscal year or part year ended in period January through June 1937. <sup>5</sup> Corresponds to item 28, p. 2 of return). To secure "met income tax computation" (item 29, p. 2 of return) this amount of excess-profits tax is subtracted from the "net income for excess-profits tax com-putation" (item 27, p. 2 of return). <sup>6</sup> Includes special nonexpense deductions of life insurance companies (see p. 7).

#### NET INCOME AND DEFICIT CLASSES

The classification of the returns into those "with net income" and "with no net income" and the net income and deficit classes are based on net income for income tax computation (item 29, p. 2 of return). Unlike former years, net income for income tax computation includes dividends received on stock of domestic corporations subject to taxation under Title I of the effective revenue acts (item 12(a), p. 2 of return) and interest received on certain Government obligations, which is subject to excess-profits tax (item 8, p. 2 of return), and excludes contributions or gifts (limited to 5 percent of net income before deduction of contributions or gifts) and excess-profits tax (item 28, p. 2 of return).

In the following table the returns are segregated by net income and deficit classes. There are shown, of the following data, the items that are applicable to each segregation: number of returns, net income or deficit, normal tax, surtax on undistributed profits and excess-profits tax. The number of returns of inactive corporations is also given in the lower part of the table.

A more detailed description and presentation of the returns subject to surtax on undistributed profits, classified by size of net income, is given in the following section of this report entitled "Surtax on undistributed profits" and in the text table on pages 12–18.

In connection with the 1936 data for returns with net income and with no net income classified by size of net income or deficit, attention is called to the fact that these data are not strictly comparable with those for prior years. The effect of the inclusion in net income for income tax computation of dividends received on stock of domestic corporations and interest received on certain Government obligations is indicated by the data shown in the text table on pp. 19-20. The major changes contained in the provisions of the Revenue Act of 1936, affecting the tabulated data for corporations, are described in the section of this report entitled "Revenue acts under which returns are filed," pages 2-3, and are summarized in the section of this report entitled "Revenue Acts of 1913-1936 and certain tax provisions of the National Industrial Recovery Act (1933); also the special excise tax under the act of August 5, 1909," pages 195-200.

[Net income and deficit	classes and money	figures in	thousands of dollars

<sup>1</sup> Net income and deficit classes and the classification of returns into those "with net income" and "with no net income" are based on net income for income tax computation (item 29, p. 2 of return). Unlike former years, net income for income tax computation includes dividends received on stock of domestic corporations subject to taxation under Title I of the effective revenue acts (item 12(a), p. 2 of return) and interest received on certain Government obligations, which is subject to excess-profits tax (item 3, p. 2 of return), and excludes contributions or gifts (limited to 5 percent of net income before deduction of contributions or gifts) and excess-profits tax (item 28, p. 2 of return). The amount of "net income" or "deficit" represents the net income for excess-profits tax computation (item 27, p. 2 of return), which, unlike former years, includes the above-mentioned dividends received and interest received on certain Government obligations, and excludes the above-mentioned contributions or gifts. The amount of "net income" or "deficit" in the table equals the difference between "total income" and "total deductions" (items 14 and 26, respectively, p. 2 of return). The see forthet 4. p. 10.

See footnote 4, p. 10. See footnote 5, p. 10.

#### SURTAX ON UNDISTRIBUTED PROFITS

Under the provisions of section 14(d) of the Revenue Act of 1936, effective for the calendar year 1936 and thereafter, all corporations are subject to the surtax on undistributed profits, except the following: banks and trust companies, a substantial part of the business of which is the receiving of deposits and making loans and discounts; insurance companies; corporations with income from sources within possessions of the United States which are entitled to the benefits of section 251 of the Revenue Act of 1936; corporations organized under the China Trade Act of 1922; foreign corporations; domestic corporations which are in bankruptcy or are insolvent and in receivership in a court of the United States or of any State, Territory, or the District of Columbia; and joint stock land banks organized under the Federal Farm Loan Act, as amended.

The surtax is equal to the sum of: 7 percent of the portion of the undistributed net income which is not over 10 percent of the adjusted net income; 12 percent of the portion of the undistributed net income which is over 10 percent and not over 20 percent of the adjusted net income; 17 percent of the portion of the undistributed net income which is over 20 percent and not over 40 percent of the adjusted net income; 22 percent of the portion of the undistributed net income which is over 40 percent and not over 60 percent of the adjusted net income; 27 percent of the portion of the undistributed net income which is over 60 percent of the adjusted net income. A specific credit is allowed corporations with adjusted net income of less than \$50,000 whereby the undistributed net income subject to the surtax rate of 7 percent is increased to an amount not in excess of \$5,000.

The adjusted net income (item 28, face of return) equals the net income for excess-profits tax computation (item 27, page 2 of return) less the excess-profits tax, normal tax, interest received on certain Government obligations subject to the excess-profits tax, and certain credits allowed to holding company affiliates and to national mortgage associations. The undistributed net income (item 31, face of return) equals the adjusted net income less the dividends paid credit and the credit for contracts restricting the payments of dividends.

In the following table the returns with net income for the calendar year 1936 or for a fiscal year or a part year ended in the period January through June 1937, are segregated by returns of corporations not subject to the surtax, and by net income classes. The returns of corporations subject to the surtax are further classified by the highest surtax rate reported on each return and by those with no surtax. There are shown, of the following data, the items that are applicable to each segregation: number of returns, net income, dividends paid credit, undistributed net income, normal tax, surtax on undistributed profits and excess-profits tax. There are also included in the following table data for the returns with net income with fiscal year ended in the period of July through November 1936 and returns with net income with part year which began in 1935, which are filed under the provisions of the Revenue Acts of 1934 and 1935.

Of the 203,161 returns with net income included in this report, 190,141 are filed under the Revenue Act of 1936. Of the returns filed under this act, 181,131 are for corporations subject to the surtax on undistributed profits. Of the returns of corporations subject to the surtax on undistributed profits, 135,904 show a surtax liability of \$144,972,284 and 45,227 show no surtax liability because the dividends paid credit and/or the credit for contracts restricting dividend payments are in excess of the adjusted net income. Of the returns with surtax liability, 115,095 show 7 percent as the highest surtax rate, 5,049 show 12 percent as the highest surtax rate, 6,821 show 17 percent as the highest surtax rate, 4,443 show 22 percent as the highest surtax rate, and 4,496 returns show 27 percent as the highest surtax rate.

#### DIVIDENDS RECEIVED, INTEREST RECEIVED ON GOVERNMENT OBLIGATIONS, AND DIVIDENDS PAID, BY NET INCOME AND DEFICIT CLASSES

The following table shows for the returns by net income and deficit classes, the following data: total number of returns; number of returns with dividends received and amount of dividends received; interest received on Government obligations, amount subject to excess-profits tax and amount wholly tax-exempt; number of returns with cash dividends paid, with cash and stock dividends paid, and with stock dividends paid; and the amounts of cash and stock dividends paid.

The information shown in this table indicates the effect on the segregation of the returns with net income and with no net income and

by net income and deficit classes by the inclusion in net income for income tax computation of dividends received on stock of domestic corporations, and interest received on certain Government obligations which is subject to the excess-profits tax. These data should be used in connection with the text table on pages 11-12.

Corporations, 1936, by net income and deficit classes: total number of returns, num-ber of returns with dividends received, amount of dividends received, interest received on Government obligations, number of returns with cash dividends paid, with cash and stock dividends paid, and with stock dividends paid, and amount of cash and stock dividends paid, for returns with net income and with no net income

<sup>1</sup> The classification of returns into those "with net income" and "with no net income" and the net income and deficit classes are based on net income for income tax computation (item 29, p. 2 of return). Unlike former years, net income for income tax computation includes dividends received on stock of domestic corporations subject to taxation under Title I of the effective revenue acts (item 12(a), p. 2 of return) and interest received on certain Government obligations, which is subject to excees-profits tax (item 8, p. 2 of return), and excludes contributions or gifts (limited to 5 percent of net income before deduction of contributions or gifts) and exceess-profits tax (item 28, p. 2 of return).
<sup>1</sup> Dividends received on stock of domestic corporations subject to taxation under Title I of the effective revenue acts (item 12(a), p. 2 of return).
<sup>3</sup> Data reported in reconciliation schedule on return (Schedule M, item 17).
<sup>4</sup> Included in "gross income," "compiled receipts," "net income," and "deficit," throughout this report. Interest on United States bonds and Treasury bonds owned in principal amount of over \$5,000, and obligations of the United States (other than those issued under Federal Farm Loan Act, or such act as amended, obligations of the United States or political subdivisions thereof, securities issued under Federal Farm Loan Act, or such act as amended, obligations of the United States or bolical subdivisions thereof, securities issued under Federal Farm Loan Act, or such act as amended, obligations of states and Tersivry bords of the United States states specifies and the United States states and the United States states as amended, obligations of the United States or bolical subdivisions thereof, securities issued under Federal Farm Loan Act, or such act as amended, obligations of the United States or before September 1, 1917, Treasury notes, Treasury bills, Treasury certificates of indebtedness, and United States savings bonds and Treasury bonds owned in prin

## DIVIDENDS PAID

Dividends paid on the capital stock of domestic corporations, as reported on the corporation income tax returns for 1936, are: cash \$7,379,332,807 and stock \$344,972,312. Cash dividends paid increased over 1935 by \$1,438,712,730, or 24.2 percent, and stock dividend payments increased \$209,120,918, or 153.9 percent.

Amounts specifically designated as stock dividends in item 17 on schedule M, Form 1120, are tabulated as such. All other dividends (except liquidating) are tabulated as cash dividends, with the result that the latter include dividends paid in other property as well as in cash.

In the text table, pages 19-20, the number of returns with cash dividends paid, with both cash and stock dividends paid, and with stock dividends paid, and the amounts of cash and stock dividends paid are shown by net income and deficit classes. In basic table 3, pages 70-81, the cash and stock dividend payments are exhibited by major industrial groups for returns in the aggregate as well as for those with net income and with no net income, and in basic table 5, pages 92-98, the amounts reported on returns with balance sheets, grouped by size of total assets, are likewise shown in the aggregate and for the same two subclasses of returns.

Cash and stock dividends paid by all corporations, and by corporations with net income and with no net income, for the years 1922 through 1936, are as follows:

	Aggregate		Returns with	net income 2	Returns with no net income <sup>2</sup>		
Year	Cash divi- dends	Stock divi- dends	Cash divi- dends	Stock divi- dends	Cash divi- dends	Stock divi- dends	
1922           1923           1924           1925           1926           1927           1928           1929           1929           1930           1931           1933           1934           1935           1936	3, 436, 715 4, 169, 118 4, 338, 823 5, 189, 475 5, 945, 293 2, 6, 423, 176 3, 7, 082, 723 3, 8, 519, 812 3, 815, 4241 6, 151, 082 3, 885, 601 3, 127, 459 3, 4, 859, 379 5, 940, 620 7, 379, 333	$\begin{array}{c} \textbf{3}, \textbf{348}, \textbf{050}\\ \textbf{891}, \textbf{286}\\ \textbf{510}, \textbf{526}\\ \textbf{544}, \textbf{431}\\ \textbf{757}, \textbf{650}\\ \textbf{3}, \textbf{702}, \textbf{501}\\ \textbf{550}, \textbf{128}\\ \textbf{1}, \textbf{288}, \textbf{643}\\ \textbf{414}, \textbf{180}\\ \textbf{163}, \textbf{530}\\ \textbf{143}, \textbf{070}\\ \textbf{122}, \textbf{043}\\ \textbf{214}, \textbf{763}\\ \textbf{135}, \textbf{581}\\ \textbf{344}, \textbf{972} \end{array}$	3, 182, 870 3, 820, 620 3, 994, 991 4, 817, 301 5, 530, 211 3, 785, 476 8, 6, 594, 169 3, 8, 005, 952 3, 6, 823, 050 3, 871, 880 2, 385, 889 4, 651, 002 7, 179, 220	3, 166, 916 787, 167 466, 820 502, 490 716, 219 642, 178 509, 853 1, 193, 896 250, 499 77, 887 89, 955 80, 450 173, 419 112, 162 335, 319	$\begin{array}{c} 253,845\\ 348,498\\ 343,832\\ 372,173\\ 415,082\\ 367,701\\ 488,554\\ 513,860\\ 1,361,191\\ 2,270,203\\ 1,565,215\\ 741,570\\ 1,036,781\\ 1,289,618\\ 200,112\\ \end{array}$	181, 134 104, 118 43, 706 41, 942 41, 430 60, 323 40, 275 94, 747 163, 644 55, 122 21, 593 41, 344 23, 689 9, 653	

Corporations, 1922-36: cash and stock dividends paid 1

[Thousands of dollars]

<sup>1</sup> Excludes cash and stock dividends paid by life insurance companies for all years prior to 1928. <sup>2</sup> For 1936 the classification of returns into those "with net income" and "with no net income" is based on net income for income tax computation (item 29, p. 2 of return) which, unlike former years, includes dividends received on stock of domestic corporations subject to taxation under Title I of the effective revenue act (item 12(a), p. 2 of return) and interest received on certain Government obligations, which is subject to excess-profits tax (item 8, p. 2 of return), and excludes contributions or gifts (limited to 5 percent of net income before deduction of contributions or gifts) and excess-profits tax (item 28, p. 2 of return). <sup>3</sup> Revised. For 1927, see Statistics of Income for 1928, p. 329. For 1928, see Statistics of Income for 1935, Part 2, p. 9, footnote 2. For 1929, see Statistics of Income for 1934, Part 2, p. 9, footnote 2. For 1930 and 1934, see Statistics of Income for 1935, Part 2, p. 9, footnote 2.

In connection with the data in the above table attention is called to the fact that the classifications of the returns with net income and with no net income for 1936 are not strictly comparable with similar classifications for prior years. The major changes contained in the provisions of the Revenue Act of 1936, affecting the tabulated data for corporations, are described in the section of this report entitled "Revenue Acts under which returns are filed," pages 2-3, and are summarized in the section of this report entitled "Revenue Acts of 1913-1936 and certain tax provisions of the National Industrial Recovery Act (1933); also the special excise tax under the act of August 5, 1909," pages 195-200.

The dividend payments for the years 1934, 1935, and 1936, shown in the above table, are not strictly comparable with those for prior years. For statement of the effect on dividend payments of the discontinuance of the privilege of filing consolidated returns under the Revenue Act of 1934, see Statistics of Income for 1934, Part 2, page 10.

## COMPILED RECEIPTS AND COMPILED DEDUCTIONS

In the table on page 24 there appears a summary of compiled receipts and compiled deductions for the 478,857 returns of active corporations, with segregation of those submitting and those not submitting balance sheets. Similar statistics for all active corporations without this segregation, by major industrial groups and by returns with net income and with no net income, are presented in basic table 3, pages 70–81. For returns with balance sheets, the same information is given by major industrial groups in basic table 4, and by assets classes in basic table 5, except that in table 4 the figures for corporations with net income and with no net income are not combined. The tables show also compiled net profit (or compiled net loss), net income or deficit, normal tax, surtax on undistributed net income, excess-profits tax, total tax, and compiled net profit after deducting total tax.

Compiled receipts comprise (1) taxable income consisting of gross sales, gross receipts from operations (where inventories are not an income-determining factor), taxable interest received, rents received, net gain from sale of capital assets (real estate, stocks, bonds, etc.), dividends received on stock of domestic corporations, and other items grouped as "other receipts," and (2) tax-exempt and taxable interest received on Government obligations. This year, for the first time, the amount of dividends received on stock of domestic corporations subject to taxation under Title I of the effective revenue acts is included in compiled receipts as an item of taxable income. In former years, this item was tabulated as tax-exempt income because dividends received from such domestic corporations were exempt from the income and excess-profit taxes. This year also, for the first time, the interest received on Government obligations which is subject to the excessprofits tax is tabulated separately from the wholly tax-exempt interest received on Government obligations. Compiled receipts exclude nontaxable income other than interest received on Government obligations, which is wholly tax-exempt. Compiled receipts differ from gross income, as the two terms are used in this report, only by the amount of wholly tax-exempt interest received on certain Government obligations included in the former item.

Certain items of compiled receipts, namely, dividends received on stock of domestic corporations and wholly and partially tax-exempt interest received on Government obligations are shown for returns with net income and with no net income classified by net income and deficit classes in the text table on pages 19–20. Compiled deductions comprise cost of goods sold, cost of operations, compensation of officers, rent paid on business property, bad debts, interest paid, taxes paid (excepting income tax, excess-profits tax, and other disallowed taxes), contributions or gifts, depreciation, depletion, net loss from the sale of capital assets (real estate, stocks, bonds, etc.), and items not classified, including amounts of negative income (i. e., transfers of losses reported under income items) grouped as "other deductions." This year, for the first time, compiled deductions include contributions or gifts (limited to 5 percent of net income before deduction of contributions or gifts) for returns with year ended December 31, 1936, and thereafter. Compiled deductions do not differ from deductions, as the two terms are used in this report.

Compiled net profit is the excess of compiled receipts over compiled deductions, and is larger than net income, as the term is used in this report, by the amount of wholly tax-exempt interest received on certain Government obligations. Compiled net loss is the excess of compiled deductions over compiled receipts and is smaller than deficit, as the term is used in this report, by the amount of wholly tax-exempt interest received on certain Government obligations. For returns with year ended December 31, 1936, and thereafter, compiled net profit differs from that for prior years to the extent that it is affected by the inclusion in the deductions of contributions or gifts permitted under the Revenue Act of 1936, which are limited to 5 percent of the net income before deduction of contributions or gifts. The amounts tabulated as "cost of goods sold" and "cost of opera-

The amounts tabulated as "cost of goods sold" and "cost of operations" (items 2 and 5, respectively, page 2 of the return) include salaries and wages, taxes, and depreciation only to the extent that these deductions are reported as part of such costs. Amounts of these items which may be allocable to "cost of goods sold" or to "cost of operations" but which are reported elsewhere on the returns are tabulated under "other deductions," in the case of salaries and wages, and under "taxes paid" or "depreciation" in the case of the other two items. If any deduction items other than these three are reported in "cost of goods sold" or "cost of operations," adjustment is made, and the items are transferred to their appropriate classifications.

The deduction item "compensation of officers" excludes the amounts paid to the officers of life insurance companies which file Form 1120L. There is no provision on Form 1120L for reporting this item, and from the annual statement submitted with the return it is not possible to obtain the compensation of officers separately.

The deduction item "contributions or gifts" is tabulated for returns with year ended December 31, 1936, and thereafter and is limited to 5 percent of net income before deduction of contributions or gifts.

The net loss from sales of capital assets is limited by law to an amount not in excess of \$2,000, after deduction of the gain from such sales. The definition of capital assets, the limitation on net capital loss, and the corporations which are exempt from this limitation, effective for returns with years ended December 31, 1934, and thereafter, are indicated in the section of this report entitled "Revenue Acts of 1913–1936 and certain tax provisions of the National Industrial Recovery Act (1933); also the special excise tax under act of August 5, 1909," page 199, footnote 5(d). Corporations, 1936: number of returns, compiled receipts and compiled deductions-compiled net profit, net income, normal tax, surtax on undistributed profits, excessprofits tax, total tax, and dividends paid, for returns in the aggregate and for those with and without balance sheets

#### ASSETS AND LIABILITIES

In the first and second following tables are shown respectively: (1) a summary statement of the principal assets and liabilities as of December 31, 1936, or the close of the fiscal year nearest thereto for 415,654 out of 478,857 returns of active corporations and (2) the number of returns and the number of balance sheets tabulated, by net income and deficit classes. The difference between the number of returns and the number of balance sheets tabulated represents returns of corporations which did not submit balance sheets, or for which balance sheet data were fragmentary. In basic table 4, pages 82–91, the principal assets and liabilities are shown by major industrial groups. This table also includes items of compiled receipts and compiled deductions for active corporations which submitted balance sheets. For descriptive statement of compiled receipts and compiled deductions, see pages 22–23.

In connection with the data in the two following tables attention is called to the fact that the classifications of the returns with net income and with no net income for 1936 are not strictly comparable with similar classifications for prior years. The major changes contained in the provisions of the Revenue Act of 1936, affecting the tabulated data for corporations, are described in the section of this report entitled "Revenue acts under which returns are filed," pages 2–3, and are summarized in the section of this report entitled "Revenue Acts of 1913–1936 and certain tax provisions of the National Industrial Recovery Act (1933); also the special excise tax under the act of August 5, 1909," pages 195–200.

#### [Money figures in thousands of dollars]

<sup>1</sup> Excludes returns for inactive corporations and returns with fragmentary balance sheet data. <sup>2</sup> The classification of returns into those "with net income" and "with no net income" is based on the net income for income tax computation (item 29, p. 2 of the return). Unlike former years, net income for income tax computation includes dividends received on stock of domestic corporations subject to taxation under Title I of the effective revenue acts (item 12(a), p. 2 of return) and interest received on certain Govern-ment obligations, which is subject to excess-profits tax (item 8, p. 2 of return), and excludes contributions or gifts (limited to 5 percent of net income before deduction of contributions or gifts) and excess-profits tax (item 28, p. 2 of return). <sup>3</sup> "Total assets" means the sum of the asset items or the sum of the liability items reported on the bal-ance sheet of the return less any deficit.

<sup>1</sup> See footnote 1, p. 20.

Balance sheet items not otherwise classified are tabulated under "other assets" and "other liabilities," among which are the following:

Other assets.—Copyrights; formulas; good will; patents; trade marks; machinery and equipment leased to others; sinking funds; other funds; deferred charges; organization expenses; prepaid and suspense items; interest, discount, coupons, and dividends receivable; guaranty deposits, and deposits on contracts, meters, and leaseholds; cash value of life insurance. Other assets of life insurance companies include market value of real estate and bonds in excess of book value; interest, rents, and premiums due; and agents' balances.

Other liabilities.—Deferred and suspense items; funds held in trust; borrowed securities; outstanding coupons and certificates; overdrafts; and all reserves except reserves for bad debts, depreciation, and depletion. Other liabilities of life insurance companies include the net value of outstanding policies and securities, and borrowed money. Other liabilities of banks include deposits (time, saving, demand, etc.) and bank notes in circulation, and other liabilities of building and loan associations include certificates.

The following changes in classification affect the comparability of asset and liability data over a period of years: Prior to 1929, "investments other than tax-exempt" were included in "other assets" for all corporations; beginning with 1929 they were segregated for corporations other than life insurance; for 1930 and subsequent years, they are segregated for all corporations. Over a period of years shifts appear under liabilities in the amounts reported as "common stock" and "preferred stock," because of variation in reporting these data. For balance sheets in which common and preferred stock are not reported separately, the combined amount is tabulated as "common stock." For balance sheets with no par stock and not showing capital stock value, the net worth is tabulated under "surplus and undivided profits."

The following table presents, by major industrial groups, the gross capital assets, reserves for depreciation (except on land) and depletion, and net capital assets. Gross capital assets include (1) depreciable and depletable assets (buildings, machinery and equipment, furniture and fixtures, delivery equipment and natural resources) and (2) land. Attention is directed to the fact that the amounts of money in this table are in millions of dollars. Corporations submitting balance sheets, 1936, by major industrial groups: gross capital assets, reserves for depreciation and depletion, and net capital assets, for returns in the aggregate and for those with net income and with no net income

 <sup>2</sup> Includes (1) depreciable and depletable assets (buildings, machinery and equipment, furniture and fixtures, delivery equipment, and natural resources) and (2) land.
 <sup>3</sup> Net capital assets are also tabulated in text table on p. 25 and in basic tables 4, 5, and 6.

114338-39-3

#### ASSETS AND LIABILITIES, COMPILED RECEIPTS AND COMPILED DEDUCTIONS BY TOTAL ASSETS CLASSES

For corporations submitting balance sheets, classified by total assets classes, the following table shows for all returns and for returns with net income and with no net income, the number of returns, total assets as of December 31, 1936, or the close of the fiscal year nearest thereto, total compiled receipts, compiled net profit or net loss, and net income or deficit. In basic table 5 there is shown, in addition, the principal assets and liabilities and the principal items of compiled receipts and compiled deductions. In basic table 6 selected items of the same character are presented for corporations submitting balance sheets, further classified by major industrial groups.

These data are compiled from 415,654 returns filed by corporations that submitted balance sheets. The difference between this number and 478,857 active corporations represents returns of corporations that did not submit balance sheets, or for which balance sheet data were fragmentary. In connection with the classification of corporation data by size of total assets, attention is directed to the fact that the balance sheet form Schedule L of the corporation income tax return (facsimile on p. 204) provides that reserves for depreciation and depletion of capital assets be deducted from the gross amount of capital assets and also that reserves for bad debts be deducted from the gross amount of accounts receivable. The "total assets" classification is based on the net amount of the assets remaining after deducting deficit, if any, from the sum of the asset items or the sum of the liability items reported on the balance sheet of the return. For a descriptive statement of assets and liabilities, see pages 25, 27, and of compiled receipts and compiled deductions, see pages 22-23.

In connection with the data in the following table attention is called to the fact that the net income or deficit and the classifications of the returns with net income and with no net income are not strictly comparable with similar items and classifications for prior years. The major changes contained in the provisions of the Revenue Act of 1936, affecting the tabulated data for corporations, are described in the section of this report entitled "Revenue acts under which returns are filed," pages 2–3, and are summarized in the section of this report entitled "Revenue Acts of 1913–1936 and certain tax provisions of the National Industrial Recovery Act (1933); also the special excise tax under the Act of August 5, 1909," pages 195–200. Corporations submitting balance sheets, 1936, by total assets classes: number of returns, total assets, total compiled receipts, compiled net profit or net loss, and net income or deficit, for returns in the aggregate and for those with net income and with no net income

See footnote 3, p. 26.
See footnote 6, p. 24.
Compiled net profit or loss is the difference between total compiled receipts and total compiled de-

ductions. 4 The classification of returns into those "with net income" and "with no net income" is based on the net income for income tax computation (item 29, p. 2 of the return). Unlike former years, net income for income tax computation includes dividends received on stock of domestic corporations subject to taxation under Title 1 of the effective revenue acts (item 12(a), p. 2 of return) and interest received on certain Government obligations, which is subject to excess.profits tax (item 8, p. 2 of return), and excludes contributions or gifts (limited to 5 percent of net income before deduction of contributions or gifts) and excess.profits tax (item 28, p. 2 of return). The amount of "net income" or "deficit" represents the net income for excess.profits tax computation (item 27, p. 2 of return), which, unlike former years, includes the above-mentioned dividends received and interest received on certain Government obligations, and excludes the above-mentioned contributions or gifts. The amount of "net income" or "deficit" in the table equals the difference between "total income" and "total deductions" (items 14 and 26, respectively, p. 2 of return) \* Compiled net loss or deficit.

## CONSOLIDATED RETURNS OF RAILROADS

Under the Revenue Acts of 1934 and 1936, steam and electric railroad corporations are permitted to file consolidated returns for income tax purposes. According to the provisions of the Revenue Act of 1934 the income tax rate for consolidated returns is 15% percent, but according to the provisions of the Revenue Act of 1936, for returns with year ended December 31, 1936, and thereafter, the rate is changed to the graduated normal tax and surtax on undistributed profits, corresponding to tax rates for corporations not filing consolidated returns. The Revenue Act of 1936 extends the privilege of filing consolidated returns to street, suburban, and interurban electric railways.

According to section 141(d) of the Revenue Act of 1936, an affiliated group, which has the privilege of filing a consolidated return, means one or more chains of corporations connected through stock ownership with a common parent corporation if—(1) at least 95 percent of the stock of each of the corporations (except the common parent corporation) is owned directly by one or more of the other corporations; and (2) the common parent corporation owns directly at least 95 percent of the stock of at least one of the other corporations; and (3) each of the corporations is either (A) a corporation whose principal business is that of a common carrier by railroad or (B) a corporation the assets of which consist principally of stock in such corporations and which does not itself operate a business other than that of a common carrier by railroad. The term "common carrier by railroad" includes steam and electric railroads, street, suburban, and interurban electric railways, but excludes express, refrigerator, and sleeping car Thus, the consolidated returns do not include hotels, companies. coal mines, and other extraneous corporations which are owned by railroads, since under the law, separate returns must be filed for each of these corporations.

The number of consolidated returns for 1936 is 98, of which 35 show net income amounting to \$114,616,836, while 63 show a deficit of \$159,123,317. In the first following table there appears, for the 98 consolidated returns, a summary of compiled receipts and compiled deductions, compiled net profit or net loss, net income or deficit, normal tax, surtax on undistributed profits, total tax, compiled net profit less total tax, and dividends paid, for the returns with net income and with no net income. Items of assets and liabilities are shown in the second following table for the 95 consolidated returns with balance sheets. For descriptive statements of compiled receipts, compiled deductions, assets and liabilities, see pages 22–27.

In connection with the data in the two following tables attention is called to the fact that the items contributions or gifts, compiled deductions, compiled net profit or loss, net income or deficit and tax and the classifications of the returns with net income and with no net income for 1936 are not strictly comparable with similar items and classifications for prior years. The major changes contained in the provisions of the Revenue Act of 1936, affecting the tabulated data for corporations, are described in the section of this report entitled "Revenue Acts under which returns are filed," pages 2–3, and are summarized in the section of this report entitled "Revenue Acts of 1913–1936 and certain tax provisions of the National Industrial Recovery Act (1933); also the special excise tax under the Act of August 5, 1909," pages 195-200.

The consolidated returns of railroads, which are all calendar year returns, are included in the text tables (except those for fiscal year and part-year returns) and in all the basic tables in this report.

Consolidated returns of railroad corporations, 1936: number of returns, compiled receipts and compiled deductions, compiled net profit or net loss, net income or deficit, normal tax, surtax on undistributed profits, excess profits tax, total tax, and dividends paid, for returns in the aggregate and for those with net income and with no net income

<sup>1</sup> The classification of returns into those "with net income" and "with no net income" is based on the net income for income tax computation includes dividends received on stock of domestic corporations subject to taxation under Title I of the effective revenue acts (item 12(a), p. 2 of return) and interest received on certain Government obligations, which is subject to excess-profits tax (item 28, p. 2 of return). The amount of "net income" "deficit" represents the abet accomposition (item 27, p. 2 of return), and excludes contributions or gifts (limited to 5 percent of net income before deduction of contributions or gifts) and excess-profits tax (item 28, p. 2 of return). The amount of "net income" or "deficit" represents the abet accomparison (item 27, p. 2 of return), which, unlike former years, includes the above-mentioned contributions or gifts. Net income is less than compiled net loss by the amount of wholy tax-exempt interest received on Government obligations. <sup>3</sup> See footnote 1, p. 24. <sup>4</sup> See footnote 3, p. 24. <sup>10</sup> See footnote 3, p. 24. <sup>11</sup> See footnote 1, p. 24. <sup>12</sup> See footnote 4, p. 24. <sup>13</sup> See footnote 5, p. 24. <sup>14</sup> See footnote 1, p. 24. <sup>15</sup> See footnote 6, p. 24. <sup>15</sup> See footnote 6, p. 24. <sup>16</sup> See footnote 6, p. 24. <sup>16</sup> See footnote 6, p. 24. <sup>16</sup> See footnote 7, p. 24

#### FISCAL YEAR RETURNS

Fiscal year returns are filed by corporations whose fiscal year is other than the calendar year. These returns are included in all basic tables in this report and in all text tables except those restricted to part-year returns and to consolidated returns in which categories there were no fiscal year returns. The tabulations include all fiscal year returns with year ended in the period July 1936 through June 1937 that were received by the Statistical Section prior to the final tabulation of the Statistics of Income data.

Returns with a fiscal year ended in the period July through November 1936 have income tax data under the provisions of the Revenue Act of 1934 and excess-profits tax data under the provisions of the Revenue Act of 1935; returns with a fiscal year ended in the period January through June 1937 have data relating to the normal tax and to the surtax on undistributed profits under the provisions of the Revenue Act of 1936, and excess-profits tax data under the provisions of the Revenue Acts of 1935 and 1936. For the tabulation of the data from the returns with a fiscal year ended in the period July through November 1936 the gross income, deductions, net income, and deficit have been arbitrarily adjusted to conform to similar items reported on the returns filed under the Revenue Act of 1936, but the income tax and excess-profits tax are tabulated as reported.

In the two following tables data are shown separately for the fiscal year returns with net income and with no net income. In the first following table the number of returns, net income or deficit, and taxes are classified by the month in which the fiscal year ended. In the second following table the number of returns, net income or deficit, and taxes are classified by the size of the net income or deficit. This table is divided into three parts, namely, Part I, All fiscal year returns; Part II, Returns with fiscal year ended in period July through November 1936; and Part III, Returns with fiscal year ended in period January through June 1937.

Fiscal year returns of corporations, 1936, by month in which fiscal year ended: number of returns, net income or deficit, income tax or normal tax, surtax on undistributed profits, and excess-profits tax, for returns with net income and with no net income

[Money figures in thousands of dollars]

<sup>1</sup> The classification of returns "with net income" and "with no net income" is based on the amount of net income for income tax computation (item 29, p. 2 of return). Unlike former years, net income for income tax computation includes dividends received on stock of domestic corporations subject to taxation under Title I of the effective revenue acts (item 12(a), p. 2 of return) and interest received on certain Government obligations, which is subject to excess-profits tax (item 8, p. 2 of return). The amount of "net income before deduction of contributions or gifts) and excludes contributions or gifts (Imited to 5 percent of net income before deduction of contributions or gifts) and exceess-profits tax (item 27, p. 2 of return), which, unlike former years, includes the above-mentioned dividends received and interest received on certain Government obligations, and excludes the above-mentioned contributions or gifts. On returns for a year ended in period July through November 1936 the net income tax for Say Say 70 reported on such returns. The amount of includes the following amounts; income tax of Say Say 70 reported on returns with fiscal year ended in period July through November 1936; graduated normal tax of \$101,039,957, and flat normal tax of \$287,847 for corporations exempt from the graduated rates, reported on returns for fiscal year ended in period July through November 1936; graduated normal tax of \$101,039,957, and flat normal tax of \$287,847 for corporations exempt from the graduated rates, reported on returns for fiscal year ended in period July through November 1936; graduated rates, reported on returns for fiscal year ended in period Jung through November 1936; graduated rates, reported on returns for fiscal year ended in period Jung through November 1936; graduated rates, reported on returns for fiscal year ended in period Jung through November 1936; graduated rates, reported on returns for fiscal year ended in period Janary through June 1937.

To secure the "net income for income tax computation" according to the provisions of the Revenue Act of 1936, this amount of excess-profits tax is subtracted from "net income for excess-profits tax computation."

Fiscal year returns of corporations, 1936, by net income and deficit classes: number of returns, net income or deficit, income tax or normal tax, surtax on undistributed profits and excess-profits tax, for returns in the aggregate, for returns with fiscal year ended in periods July through November 1936, and January through June 1937, and for returns with net income and with no net income

Total	23, 055	838, 693	101, 328	18, 346	4, 750	24, 588	135, 893

<sup>1</sup> The net income and deficit classes and the classification of returns into those "with net income" and "with no net income" are based on net income for income tax computation (item 29, p. 2 of return). Un-like former years, net income for income tax computation includes dividends received on stock of domestic corporations subject to taxation under Title I of the effective revenue acts (item 12(a), p. 2 of return) and interest received on certain Government obligations, which is subject to excess-profits tax (item 8, p. 2 of return), and excludes contributions or gifts (limited to 5 percent of net income before deduction of con-tributions or gifts) and excess-profits tax (item 28, p. 2 of return). The amount of "net income" or "deficit" represents the net income for excess profits tax computation (item 27, p. 2 of return), which, unlike former years, includes the above-mentioned dividends received and interest received on certain Government obligations, and excludes the above-mentioned contributions or gifts. On returns for a year ended in period July through November, 1936, the net income or deficit has been arbitrarily adjusted to include the above-mentioned dividends received and interest received on such returns. No adjustment was made for the amount of contributions or gifts which was not required to be reported on such returns. 1 See footnote 2, p. 35.

was made for the amount of contributions or guts which was not required to be reported on such returns.
i See footnote 2, p. 35.
i Reported on returns with fiscal year ended in period January through June 1937.
i See footnote 3, p. 35.
i Includes graduated normal tax of \$101,039,957, and flat normal tax of \$287,847 for corporations exempt
from the graduated rates, reported on returns for fiscal year ended in period January through June 1937.

#### PART YEAR RETURNS

The returns filed by corporations showing income for less than 12 months represent reorganizations, newly organized businesses, liquidating corporations, and changes from calendar year to fiscal year basis, or vice versa. These returns are included in all text tables (except those for consolidated returns and for fiscal year returns) and in all basic tables in this report. The part year returns tabulated herein represent those in which the greater part of the income period was in 1936.

Saa footnote ( n. 21	

<sup>1</sup> See footnote 4, p. 31.
 <sup>2</sup> Includes income tax reported on part year returns with year ended prior to December 31, 1936, and graduated or mail tax and flat normal tax (for corporations exempt from the graduated rates) reported on part year returns with year ended December 31, 1936, and thereafter.

Returns with a part year which began in 1935 have income tax data under the provisions of the Revenue Act of 1934 and excessprofits tax data under the Revenue Act of 1935; returns with a part year which began in 1936 have data relating to the normal tax and to the surtax on undistributed profits under the provisions of the Revenue Act of 1936, and excess-profits tax data under the provisions of the Revenue Acts of 1935 and 1936. For the tabulation of the data from the returns with a part year which began in 1935 the net income and deficit have been arbitrarily adjusted to conform to similar items reported on the returns filed under the Revenue Act of 1936, but the income tax and excess-profits tax are tabulated as reported.

## FREQUENCY DISTRIBUTION OF CORPORATION RETURNS BY CERTAIN BASIC CLASSIFICATIONS

This year, for the first time, a series of tables is presented showing the frequency distribution of the corporation income and excessprofits tax returns by certain basic classifications. The four text tables in this section of the report are summary tabulations, the data being further classified by major industrial groups in basic tables 9-12.

The number of returns represented in the two following tables and in basic tables 9 and 10, for returns of corporations submitting balance sheets with total assets of \$250,000 and over, vary in slight degree from the total number of returns tabulated for the general tables throughout this report (see footnote 1, p. 39). The first following table shows the number of returns by total receipts classes, cross classified by total assets classes and by returns with net income and with no net income, and basic table 9 presents similar data for each major industrial group. The second following table shows the number of returns by net income or deficit classes, cross classified by total receipts classes and by returns with net income and with no net income and basic table 10 presents similar data for each major industrial group.

The total assets classification is based on the net amount of the assets remaining after deducting deficit, if any, from the sum of the asset items or the sum of the liability items reported on the balance sheet of the return.

The total receipts classes are based on either gross sales (item 1, page 2 of return), or gross receipts from operations (item 4, page 2 of return), or the sum of both when reported on the return. The former item is reported when inventories are an income-determining factor and the latter item is reported when inventories are not an incomedetermining factor.

#### Frequency distribution of corporation returns 1 with balance sheets showing total assets of \$250,000 and over, by total receipts classes, cross classified by total assets classes and by returns with net income and with no net income 2

1

<sup>1</sup> The number of returns with total assets of \$250,000 and under \$5,000,000 in this table is 1,377 less than the total number of such returns shown in basic table 5, pp. 92–98. Transcript cards containing the data reported on the returns, which were used in the preparation of this table, were not available for 277 returns with net income and 1,100 returns with no net income.

a See footnote 2, p. 26.
This classification is based on either gross sales where inventories are an income-determining factor (item 1, p. 2 of return) or gross receipts from operations where inventories are not an income-determining factor (item 4, p. 2 of return), or the sum of both when reported on the return.
4 See footnote 3, p. 26.

-For data similar to those in this table, classified by major industrial groups, see basic table 9, Note .pp. 139-149.

#### HISTORICAL SUMMARIES

A résumé of the corporation returns showing number of returns, gross income, net income, deficit, tax, and the items of compiled receipts, compiled deductions, assets and liabilities is shown in the following tables. Attention is called to the fact that the amounts of money in the tables on pages 49–53 are in millions of dollars.

Corporation returns distributed by States and Territories, for the years 1927 through 1936, showing number of returns, gross income, net income, deficit, and tax, for returns with net income and with no net income are presented in basic table 8, pages 125–135. Similar data are shown by major industrial groups for the years 1927 through 1936 in basic table 7, pages 120–124.

The data for 1934-36 are not strictly comparable with those for prior years as a result of the extensive discontinuance of the privilege of filing consolidated returns under the Revenue Act of 1934. (See section of this report entitled "Comparability with previous reports," p. 6.)

Corporations, 1909-36: total number, number with net income and with no net income, gross income, net income, deficit, net income less deficit, income tax, warprofits and excess-profits tax, and total tax; also number of inactive corporations 1

<sup>1</sup> Changes in the revenue acts affecting the comparability of statistical data from income tax returns of corporations are summarized on pp. 195-200; textual discussion appears on pp. 2-3, 6. The period 1909 to 1915 includes, to a limited extent, additions made by audit and delinquent returns filed. <sup>1</sup> Taxes shown for 1909 to 1915 inclusive, are receipts for fiscal year ended June 30, immediately following, as shown in annual reports of Commissioner of Internal Revenue, which receipts include fines, penalties, additional assessments, etc.; 1916 and subsequent years, tax is amount reported on income tax returns, taxes for 1913 include income tax \$32,456,663; excise tax, \$10,671,077 (act of Aug. 5, 1909). <sup>3</sup> Prior to 1927, returns for inactive corporations with no income data were included with returns with no net income.

net income.

net income. <sup>4</sup> Returns with net income in excess of \$5,000 exemption. <sup>5</sup> Returns with net income not in excess of \$5,000 exemption or with no net income. <sup>6</sup> 1915 contains approximately 32,000 returns related to 1914. (See Annual Report Commissioner of Internal Revenue, 1916, p. 26.) <sup>7</sup> On net income earned from July 1, to Dec. 31, 1921, reported on fiscal year returns whose accounting period terminated subsequent to July 1, 1922. <sup>8</sup> Revised. For revised figures for 1925, see Statistics of Income for 1935, Part 2, p. 21, footnote 7. For revised figures for 1928, see Statistics of Income for 1930, p. 238; for revised figures for 1930, see Statistics of Income for 1931, pp. 32 and 33; and for revised figures for 1932, see Statistics of Income for 1933, p. 37. <sup>9</sup> Deficit in excess of net income. <sup>10</sup> Excess-profits tax (effective June 30, 1933, under provisions of the National Industrial Recovery Act). <sup>11</sup> For 1936, net income or deficit represents the amount for excess-profits tax computation which, unlike former years, includes dividends received on scok of domestic corporations subject to excess-profits tax, and excludes contributions or gitts (limited to 5 percent of net income before deduction of contributions tax, and excludes contributions or gifts (limited to 5 percent of net income before deduction of contributions

or gifts). <sup>13</sup> For 1936, includes income tax reported on returns with fiscal year ended July through November 1936 and returns with part year which began in 1935); graduated normal tax, and flat normal tax for corporations exempt from the graduated rates, reported on returns for the calendar year 1936 and for fiscal year or part year ended in period January through June 1937. <sup>14</sup> For 1936 includes surtax on undistributed profits of \$144,972,000 on returns for the calendar year 1936 and for fiscal year ended in period January through June 1937.

Corporations, 1933-36, by net income and deficit classes: number of returns, and net income or deficit, for returns with net income and with no net income <sup>1</sup>

[Net income and deficit classes and money figures in thousands of dollars]

<sup>1</sup> Changes in the revenue acts affecting the comparability of statistical data from income tax returns of corporations are summarized on pp. 195-200; textual discussion appears on pp. 2-3, 6. Figures for returns with net income for 1918 and 1920 to 1924, inclusive, and for returns with net income and nonet income for 1925 to 1930, inclusive, appear in Statistics of Income for 1930, pp. 49-51. Figures for returns with net income and with no net income for 1931 and 1932, appear in Statistics of Income for 1934, Part 2, pp. 36 and 37. <sup>1</sup> See footnote 1, p. 12.

<sup>1</sup> Changes in the revenue acts affecting the comparability of statistical data from income tax returns of corporations are summarized on pp. 195-200; textual discussion appears on pp. 2-3, 6. Compiled receipts and compiled deductions are not available for corporations submitting balance sheets as distinct from all corporations, for the years 1926 to 1930, inclusive. <sup>1</sup> Excludes returns for inactive corporations and returns with fragmentary balance sheet data.

See text pp. 25, 27. 4 Includes cash in till and deposits in bank. 4 See fext pp. 25, 27. 4 See footnotes 4 and 5, p. 24. 5 We footnotes 4 and 5, p. 24. 5 We footnotes 4 and 5, p. 24.

6 "Total assets" means the sum of the asset items or the sum of the hability items reported on the balance sheet of the return less any deficit. <sup>7</sup> For 1931, gross sales for trading and manufacturing concerns. For 1932 and subsequent years, gross sales where inventories are an income-determining factor. For "cost of goods sold" see "deductions." <sup>8</sup> For 1931, gross receipts from operations other than trading and manufacturing. For 1932 and subse-quent years, gross receipts from operations where inventories are not an income-determining factor. For "cost of operations" see "deductions." <sup>9</sup> Dividends received on stock of domestic corporations subject to taxation under Title I of the effective revenue acts

revenue acts.

<sup>4</sup> Dividends received on stock of domestic corporations subject to taration under Title I of the effective revenue acts.
 <sup>10</sup> Includes United States savings bonds and Treasury bonds owned in principal amount of over \$5,000 and obligations of instrumentalities of the United States (other than those issued under Federal Farm Loan Act or such act as amended) reported as item 8, p. 2 of 1986 return.
 <sup>11</sup> For 1931 through 1935, includes obligations of States and Territories, or political subdivisions thereof, obligations of instrumentalities of the United States, and obligations of the United States or its possessions. For 1936, includes obligations of States and Territories or political subdivisions thereof, securities issued under Federal Farm Loan Act, or such Act as amended, obligations of the United States issued on or before Sept. 1, 1917, Treasury notes, Treasury bills, Treasury certificates of indebtedness, and United States savings bonds and Treasury bonds owned in principal amount of \$5,000 or less.
 <sup>12</sup> Excludes nontaxable income other than interest on tax-exempt obligations. For 1936, "dividends received from domestic corporations" are included in taxable income instead of in tax-exempt income.
 <sup>13</sup> Includes taxes which are reported in "cost of goods sold." For method of tabulation see p. 23.
 <sup>14</sup> Excludes compensation of officers of igeods sold." For method of tabulation see p. 23.
 <sup>15</sup> Excludes compensation of one theorem before deduction of contributions or gifts on returns with year ended Dec. 31, 1936, and thereafter.
 <sup>18</sup> For limitation on amount of net capital loss that may be allowed, see section of this report entitled "Revenue Acts of 1913-1936 and Certain Tax Provisions of the National Industrial Recovery Act (1933); also special excise tax under Act of Aug. 5, 1909, "p. 199, footnote 5(d).
 <sup>19</sup> For 1936, compiled deductions include contributions or gifts (inmited to 5 percent

5 percent of net income before deduction of contributions or gifts) on returns with year ended Dec. 31, 1936, and thereafter. <sup>31</sup> For 1936, "net income" represents the amount for excess-profits tax computation (item 27, p. 2 of return) which is equal to the difference between "total income" and "total deductions" (items 14 and 26, respec-tively, p. 2 of return). Unlike former years, net income includes dividends received on stock of domestic corporations subject to taxation under Title I of the effective revenue acts (item 12(a), p. 2 of return) and interest received on certain Government obligations, which is subject to excess-profits tax (item 8, p. 2 of return) and excludes contributions or gifts (limited to 5 percent of net income before deduction of contri-butions or critic).

return) and excludes contributions or gifts (limited to 5 percent of net income before deduction of contri-butions or gifts). <sup>22</sup> Includes in this year returns for inactive corporations. <sup>23</sup> Included in "other assets." <sup>24</sup> Revised. For revised figures for 1926, see Statistics of Income for 1928, p. 388: for revised figures for 1927, see Statistics of Income for 1931, p. 32; for revised figures for 1929, see Statistics of Income for 1930, p. 28; for revised figures for 1930, 1931, and 1932, see Statistics of Income for 1933, p. 37; and for revised figures for 1934, see Statistics of Income for 1935, Part 2, pare 26, footnote 16. <sup>25</sup> In this year "investments other than tax-exempt" owned by life insurance companies were included with "other assets" (see text, p. 27). <sup>26</sup> Included in "other deductions." <sup>27</sup> Compiled net loss or deficit.

#### PERSONAL HOLDING COMPANY RETURNS

Personal holding company returns, Form 1120H, included in this report are for the calendar year 1936 and for a fiscal year ended in the period July 1936 through June 1937. Returns for a fiscal year ended prior to December 31, 1936, are filed under the provisions of section 351 of the Revenue Act of 1934, and returns for the calendar year 1936 and for a fiscal year ended in the period January through June 1937 are filed under the provisions of section 351 of the Revenue Act of 1936. (The increased surtax rates contained in section 109 of the Revenue Act of 1935, approved August 30, 1935, were superseded by those in section 351 of the Revenue Act of 1936 before their first effective dates.)

The major change in the provisions of the Revenue Act of 1936, affecting personal holding company returns of both domestic and foreign corporations, was an increase in the surtax rate graduated from 8 percent on the "undistributed adjusted net income" not in excess of \$2,000 to 48 percent on the amount over \$1,000,000, in lieu of a graduated surtax of 30 percent on the "undistributed adjusted net income" not over \$100,000 plus 40 percent of the amount over \$100,000. Personal holding companies are subject to this surtax on Form 1120H (see facsimile on pp. 217-220) in addition to the corporation income tax on Form 1120.

A personal holding company is defined under the provisions of section 351 of the Revenue Act of 1936 as any corporation (including resident and nonresident foreign corporations as well as domestic corporations, other than the specifically exempt corporations indicated below), if—(A) 80 percent or more of its gross income for the taxable year was derived from royalties, dividends, interest, annuities, and (except in the case of regular dealers in stock or securities) gains from the sale of stock or securities, and (B) at any time during the last half of the taxable year more than 50 percent in value of its outstanding stock was owned, directly or indirectly, by or for not more than five individuals. In the case of a domestic corporation, gross income is the same as that defined in sections 22, 204, and 207 of the Revenue Act of 1936, and in the case of a foreign corporation, whether resident or nonresident, the gross income is from sources within the United States, as defined in section 119 of the Revenue Act of 1936. Corporations specifically exempt from this tax are as follows: (1) Corporations exempt from income taxation (as listed in section 101 of the Revenue Act of 1936); (2) banks and trust companies incorporated under the laws of the United States or of any State or Territory, a substantial part of the business of which is the receipt of deposits and making loans and discounts; (3) life insurance companies; and (4) surety companies.

The term "adjusted net income" means, in the case of a domestic corporation, the net income for income tax purposes less the sum of (a) Federal income, war-profits, and excess-profits taxes and foreign taxes paid or accrued during the taxable year to the extent that they were not deducted in the computation of the corporate net income, but not including surtax on personal holding companies; (b) contributions or gifts to charitable, educational, and other similar organizations not otherwise allowed as a deduction for income tax purposes, including, in the case of a corporation organized prior to January 1, 1936, to take over the assets and liabilities of the estate of a decedent,

amounts paid in liquidation of any liability of the corporation based on the liability of the decedent to make any such contribution or gift, to the extent such liability of the decedent existed prior to January 1, 1934; and (c) losses from sales or exchanges of capital assets which are disallowed as a deduction by section 117(d) of the Revenue Act of 1936. In the case of a resident or nonresident foreign corporation filing Form 1120H, the "adjusted net income" means the net income from sources within the United States (gross income from sources within the United States as defined in section 119 of the Revenue Act of 1936 less statutory deductions) minus the amount of deductions enumerated in (a), (b), and (c) above.

The term "undistributed adjusted net income" means the "adjusted net income" minus the sum of: (a) 20 percent of the excess of the adjusted net income over the amount of dividends received from personal holding companies; (b) reasonable amounts used or set aside to retire indebtedness incurred prior to January 1, 1934; and (c) the amount of the dividends paid credit allowed by section 27(a) of the Revenue Act of 1936 for the surtax on undistributed profits, computed without the benefit of the dividend carry-over provisions in section 27(b) of the Revenue Act of 1936.

The accompanying tables are based on the returns as filed and prior to revision that may subsequently be made as a result of audit by the Bureau of Internal Revenue.

The personal holding company returns filed by corporations on Form 1120H, for the calendar year 1936 and for a fiscal year ended in the period July 1936 through June 1937, numbered 4,691. The 1,013 returns of personal holding companies which report surtax liability show adjusted net income of \$55,294,720 and dividends paid of \$26,099,642, or 47.2 percent of their adjusted net income. The undistributed adjusted net income subject to surtax is \$17,344,578, and the surtax liability is \$3,683,759.

No surtax liability was shown for 3,678 personal holding companies, which were divided into (a) 2,459 companies with no undistributed adjusted net income, of which 150 companies reported that each shareholder included his *pro rata* share of the adjusted net income of the corporation on his individual income tax return and 2,309 companies reported dividends distributed to shareholders and other credits in excess of adjusted net income, and (b) 1,219 companies with no adjusted net income.

For returns Form 1120H of personal holding companies, (a) with adjusted net income (divided into returns with surtax liability and the two types with no surtax liability) and (b) with no adjusted net income, the following table presents: Number of returns, net income or deficit on Form 1120, deductions, adjusted net income or loss, credits, undistributed adjusted net income, and surtax. In each case the returns were separated into those with net income and with no net income on Form 1120. All returns with adjusted net income on Form 1120H showed net income on Form 1120, because of the inclusion of dividends received on stock of domestic corporations, subject to taxation under Title I of the Revenue Act of 1936, in the net income subject to income tax. This net income on Form 1120 for years ended December 31, 1936, and thereafter includes, for the first time, dividends received and the net income of fiscal year returns with year ended prior to December 31, 1936, was adjusted to include such dividends received.

Personal holding companies, 1936: number of returns, net income or deficit on Form 1120, deductions, adjusted net income or loss, credits, undistributed adjusted net income, and surtax, for returns with adjusted net income and with no adjusted net income on Form 1120H and for those with net income and with no net income on Form 1120<sup>1</sup>

<sup>1</sup> Classification of returns Form 1120H into those with net income and with no net income on Form 1120 is based on "net income for income-tax computation," item 29, p. 2 of return, Form 1120. For difference in this amount and the net income reported on returns. Form 1120, for 1934 and 1935, see footnote 2.
<sup>3</sup> Corresponds to item 29, p. 2 of return. Unlike returns for 1934 and 1935, net income or deficit includes (1) dividends received on stock of domestic corporations subject to taxation under Title I of the effective revenue act (item 12(a), p. 2 of return), and (2) interest received on certain Government obligations, which is subject to excess-profits tax (item 8, p. 2 of return), and (2) contributions or gifts, limited to 5 percent of net income before deduction of contributions or gifts (item 21, p. 2 of return).
<sup>4</sup> Unlike returns for 1934 and 1935, amount does not include excess-profits tax paid during the taxable year which was deducted in the computation of net income on Form 1120.
<sup>4</sup> Unlike returns for 1934 and 1935, amount does not include contributions or gifts deducted in the computation of net income on Form 1120.
<sup>4</sup> Unlike returns for 1934 and 1935, amount does not include contributions or gifts deducted in the computation of net income on Form 1120.
<sup>4</sup> Unlike returns for 1934 and 1935, amount does not include contributions or gifts deducted in the computation of net income on Form 1120.
<sup>4</sup> Unlike returns for 1934 and 1935, amount does not include contributions or gifts deducted in the computation of net income on Form 1120.
<sup>5</sup> Returns with no adjusted net income and also with no net income on Form 1120.
<sup>6</sup> Deficit or adjusted net joss.

<sup>6</sup> Deficit or adjusted net loss.

Amounts reported on Form 1120H by companies with undistributed adjusted net income and surtax liability.

It is not possible to determine the amount of the income tax liability of the individual shareholders on Form 1040 with respect either to the *pro rata* shares of the adjusted net income shown on Form 1120H, which were reported on Form 1040, or to the dividends distributed by the personal holding companies to the shareholders.

In the tables throughout this report compiled from corporation income and excess-profits tax returns for 1936, the returns Form 1120 filed by personal holding companies were merged in the various industrial classifications according to the predominant business activity of the corporation as reported on that form.

The following table shows the number of returns with adjusted net income distributed by adjusted net income classes:

Personal holding companies with adjusted net income, by adjusted net income classes: number of returns

#### BASIC TABLES

Tables are continued in the following pages exhibiting in greater detail information from corporation income and excess-profits tax returns.

### SYNOPSIS OF CORPORATION INCOME AND PROFITS TAX RATES

There is also included a synopsis of corporation income and profits tax rates and credits affecting the comparability of the data in Statistics of Income in the section of this report entitled "Revenue Acts of 1913–1936 and certain tax provisions of the National Industrial Recovery Act (1933); also the special excise tax under the Act of August 5, 1909," on pages 195–200.

Respectfully,

GUY T. HELVERING, Commissioner of Internal Revenue.

Hon. JOHN W. HANES, Acting Secretary of the Treasury.

<sup>1</sup> The classification of returns "with net income" and "with no net income" is based on the amount of net income for income tax computation (item 29, p. 2 of return). Unlike former years, net income for income tax computation includes dividends received on stock of domestic corporations subject to taxation under Title I of the effective revenue acts (item 12(a), p. 2 of return) and interest received on certain Government obligations, which is subject to excess profits tax (item 8, p. 2 of return), and excludes contributions or gifts limited to 5 percent of net income before deduction of contributions or gifts and excess-profits tax (item 28, p. 2 of return). The amount of "net income" or "deficit" represents the net income for excess-profits tax (item deductions, and excludes the above-mentioned dividends received and interest received on certain Government obligations, and excludes the above-mentioned dividends received and interest received on certain Government obligations, and excludes the above-mentioned dividends received and interest received on certain Government of "net income" or "deficit" equals the difference between "total income" and "total deductions" (items 14 and 26, respectively, p. 2 of return) and also between "gross income" and "deductions" in this table.

income, deductions, net income or deficit, normal tax, surtax on undistributed profits, with no net income; also number of returns of inactive corporations

#### thousands of dollars]

scribing returns included, see pp. 1-7]

<sup>2</sup> "Gross income" and "deductions" correspond to "total income" and "total deductions" (items 14 and 26, respectively, p. 2 of return) plus, in each instance, "cost of goods sold" and "cost of operations" (items 2 and 5, p. 2 of return). Unlike former years, "gross income" includes interest received on certain Government obligations, which is subject to excess-profits tax (item 8, p. 2 of return), and "deductions" include contributions or gifts (limited to 5 percent of net income before deduction of contributions or gifts) and exclude dividends received on stock of domestic corporations (item 12 (a), p. 2 of return). Includes the following amounts: Income tax of 559,289,827, reported on returns with fiscal year ended prior to Dec. 31, 1936 (and returns with part year which began in 1935); graduated normal tax of \$800,488,197, and flat normal tax of \$830,489,414 for corporations exempt from the graduated rates, reported on returns for the calendar year 1936 and for fiscal year or part year ended in period January througo June 1937. Corresponds to item 28, p. 2 of return). To secure the "net income for income tax computation" (item 29, p. 2 of return) this amount of excess-profits tax is subtracted from the "net income for excess-profits tax computation" (item 27, p. 2 of return).

				· ·		······································							<u></u>

<sup>1</sup> The classification of returns "with net income" and "with no net income" is based on the amount of net income for income tax computation (item 29, p. 2 of return). Unlike former years, net income for income tax computation includes dividends received on stock of domestic corporations subject to taxation under Tike I of the effective revenue acts (item 12(a), p. 2 of return) and interest received on certain Government obligations, which is subject to excess-profits tax (item 8, p. 2 of return). And excludes contributions or gifts) (limited to 5 percent of net income before deduction of contributions or gifts) and excess-profits tax (item 28, p. 2 of return). The amount of "net income" or "deficit" represents the net income for excess-profits tax computation (item 27, p. 2 of return), which, unlike former years, includes the above-mentioned dividends received and interest received on certain Government obligations, and excludes the above-mentioned contributions or gifts. The amount of "deficit" equals the difference between "total income" and "total income" on "deficit" equals the difference between "total income" and "total income"

Government obligations, and excludes the above-mentioned contributions or gifts. The amount of "net income" or "deficit" equals the difference between "total income" and "total deductions" (items 14 and 26, respectively, p. 20 freturn). <sup>1</sup> "Government" corresponds to "total income" (item 14, p. 2 of return) plus "cost of goods sold" and "cost of operations" (items 2 and 5, p. 2 of return). Unlike former years, "gross income" includes interest received on certain Government obligations, which is subject to excess-profits tax (item 8, p. 2 of return). <sup>3</sup> Includes the following amounts: Income tax of \$59,289,827, reported on returns with fiscal year ended prior to December 31, 1936 (and returns with part year which began in 1935); graduated normal tax of \$503,0438,197, and flat normal tax of \$55,064,914, for corporations exempt from the graduated rates, reported on returns for the calendar year 1936 and for fiscal year or part year ended in period January through June 1937. <sup>4</sup> Corresponds to item 28, p. 2 of return. To secure the "net income for income tax computation" (item 29, p. 2 of return), this amount of excess-profits tax is subtracted from the "net income for excess-profits tax computation" (item 27, p. 2 of return). <sup>4</sup> "Aerial transportation" includes data for airports which, for 1935, were tabulated with those for "terminal stations, toll bridges and toll roads, irrigation systems, etc."

**TABLE 3.**—Corporations, 1936, by major industrial groups: number of returns, or deficit, normal tax, surtax on undistributed profits, excess-profits tax, total tax, with no net income

<sup>12</sup> Unlike former years, compiled deductions and compiled net profit are affected by the inclusion in de-

<sup>12</sup> Unlike former years, compiled deductions and compiled net profit are affected by the inclusion in deductions of contributions or gifts (limited to 5 percent of net income before deduction of contributions or gifts) on returns with year ended Dec. 31, 1936, and thereafter. <sup>13</sup> The classification of returns into those "with net income" and "with no net income" is based on the net income for income tax computation (item 29, p. 2 of the return). Unlike former years, net income for income tax computation includes dividends received on stock of domestic corporations subject to taxation under Title I of the effective revenue acts (item 12(a), p. 2 of return) and interest received on certain Government obligations, which is subject to excess-profits tax (item 8, p. 2 of return), and excludes contributions or gifts (limited to 5 percent of net income before deduction of contributions or gifts) and excess-profits tax (item 28, p. 2 of return). The amount of "net income" or "deficit" represents the net income for excess-profits tax computation (item 27, p. 2 of return), which, unlike former years, includes the above-mentioned dividends received and interest received on certain Government obligations, and excludes the above-mentioned contributions or gifts. Net income is less than compiled net profit and defieit is greater than compiled net loss by the amount of wholly tax-oxempt interest received on returns with fiscal year ended prior to Dec. 31, 1936 (and returns with part year which began in 1935); graduated normal tax of \$35,064,914, for corporations exempt from the graduated rates, reported on returns for the calendar year 1936 and for fiscal year or part year ended in period January through June 1937. <sup>14</sup> Locudes than \$500. <sup>45</sup> Compiled net loss or deficit. <sup>45</sup> Compiled net loss or deficit.

<sup>10</sup> Less thin \$500.
 <sup>10</sup> Compiled net loss or deficit.
 <sup>11</sup> Compiled net loss plus total tax.
 <sup>18</sup> Includes for a limited number of returns the cost of securities purchased for customers.
 <sup>19</sup> Excludes compensation of officers of life insurance companies which file return, 1120L.
 <sup>10</sup> Includes special nonexpense deductions of life insurance companies.

**TABLE 4.**—Corporations submitting balance sheets, 1936, by major industrial groups: year nearest thereto, compiled receipts and compiled deductions, compiled net profit or profits tax, total tax and dividends paid, for returns with net income and with no

<sup>1</sup> The classification of returns into those "with net income" and "with no net income" is based on the net income for income tax computation (item 29, p. 2 of the return). Unlike former years, net income for income tax computation includes dividends received on stock of domestic corporations subject to taxation under Title I of the effective revenue acts (item 12(a), p. 2 of return) and interest received on certain Government obligations, which is subject to excess-profits tax (item 8, p. 2 of return), and excludes contributions or gifts (limited to 5 percent of net income before deduction of contributions or gifts, and excess-profits tax (item 28, p. 2 of return). The amount of "net income" or "defict" represents the net income for excess-profits tax computation (item 27, p. 2 of return), which, unlike former years, includes the above-mentioned dividends received and interest received on certain Government obligations, and excludes the above-mentioned contributions or gifts. Not income is less than compiled net profit and deficit is greater than compiled net loss by the amount of wholly tax-exempt interest received on Government obligations.

Excludes returns for inactive corporations and returns with fragmentary balance sheet data.

Sected, pp. 25, 27.
 Includes cash in till and deposits in bank.
 Includes obligations of States and Territories or political subdivisions thereof, obligations of instrumentalities of the United States, and obligations of the United States or its possessions.

tarties of the official states, and obligations of the Onited States of its possessions.
See text, p. 27.
"Total assets" means the sum of the asset items or the sum of the liability items reported in the balance sheet of the return less any deficit.
Gross sales where inventories are an income-determining factor. For "cost of goods sold," see "deductions."

Gross sales where inventories are an income-determining factor. For "cost of goods sold," see "deductions."
Gross receipts from operations where inventories are not an income-determining factor. For "cost of operations," see "deductions."
Dividends received on stock of domestic corporations subject to taxation under Title I of the effective revene acts (item 12 (a), p. 2 of return).
Includes United States savings bonds and Treasury bonds owned in principal amount of over \$5,000, and obligations of instrumentalities of the United States (other than those issued under Federal Farm Loan Act or such act as amended) reported as item 8, p. 2 of return.
Includes obligations of states and Territories or political sublivisions thereof, securities issued under Federal Farm Loan Act, or such act as amended, obligations of states and Treasury bills, Treasury efficates of indotbedness, and United States Savings bonds and Treasury to political sublivisions thereof, securities issued under Federal Farm Loan Act, or such act as amended, obligations of states issued on or before Sept. 1, 1917, Treasury bonds owned in principal amount of \$5,000 or less.
Excludes nontaxable income other than interest on tax-exempt obligations proted in Schedule M of the return. Unlike former years, dividends received from domestic corporations are included in taxable income.
Includes taxes which are reported in "cost of goods sold." For method of tabulation, see p. 23.
Includes taxes which are reported in "cost of goods sold." For method of tabulation, see p. 23.
Excludes taxes tabulated under "cost of goods sold." For method of tabulation, see p. 23.
Includes taxes which are reported in "cost of goods sold." For method of tabulation, see p. 23.
Excludes taxes tabulated under "cost of goods sold." In the formethore of tabulations.
Formethod of tabulations, see p. 23.

<sup>14</sup> Excludes taxes which are reperfect in "cost of operations." and action, see pr. 22.
 <sup>15</sup> Excludes taxes tabulated under "cost of goods sold" and "cost of operations."
 <sup>16</sup> Limited to 5 percent of net income before deduction of contributions or gifts on returns with year ended bec, 31, 1936, and thereafter.
 <sup>18</sup> For limitation of amount of net capital loss that may be allowed, see section of this report entitled "Revenue Acts of 1913-36 and certain tax provisions of the National Industrial Recovery Act (1933); also the special excise tax under the act of Aug. 5, 1909," page 199, footnote 5(d).
 <sup>19</sup> Unlike former years, compiled deductions and compiled net profit are affected by the inclusion in deductions of contributions or gifts (limited to 5 percent of net income before deduction of contributions or gifts) on returns with year ended Dec. 31, 1936, and thereafter.
 <sup>26</sup> Includes the following amounts: Income tax of \$58,681,787, reported on returns with fiscal year ended prior to Dec. 31, 1936 and for fiscal year or part year ended in period January through June 1937.
 <sup>21</sup> Compiled net loss or deficit.
 <sup>22</sup> Less than \$500.
 <sup>23</sup> Includes for alimited number of returns, the cost of securities purchased for customers.

<sup>21</sup> Includes for a limited number of returns the cost of securities purchased for customers.
 <sup>24</sup> Excludes compensation of officers of life insurance companies which file return Form 1120L.

<sup>26</sup> Includes special nonexpense deductions of life insurance companies.

Total	761	18, 848	1, 412	7, 713	43, 841	27, 193	15, 639	8, 771	63, 464	<sup>9</sup> 80, 473	 2, 488	2, 829	<b>9 2, 96</b> 6	<sup>9</sup> 2, 970	120

<sup>1</sup> "Total assets" means the sum of the asset items or the sum of the liability items reported on the balance sheet of the return less any deficit.
<sup>2</sup> Cash includes amounts in till and deposits in bank. Reserve for bad debts has been deducted from accounts receivable.
<sup>3</sup> Gross sales where inventories are an income-determining factor.

4 Gross receipts from operations where inventories are not an income-determining factor. Includes, for a limited number of returns in the "Finance" group, the cost of securities purchased for customers.

 <sup>6</sup> Excludes nontaxable income other than interest on tax-exempt obligations reported in schedule M of the return.
 <sup>6</sup> Excludes nontaxable income other than interest on tax-exempt obligations reported in schedule M of the return.
 <sup>6</sup> Compiled net profit or ret loss is difference between total compiled receipts and total compiled deductions. Compiled net profit for 1936 is affected by the inclusion in deductions of contributions or gifts (limited to 5 percert of the net income before deduction of contribution or gifts) cn returns with year ended D ecember 31, 1936, and thereafter.
 <sup>7</sup> The classification of returns "with net income" and "with no net income" is based on the amount of net income tax computation (item 29, p. 2 of return). Unlike former years, net income for income tax computation includes dividends received on stock of domestic corporations subject to taxation under Title I of the effective revenue acts (item 12(a), p. 2 of return) and interest received on central Government obligations, which is subject to excess-profits tax (item 8, p. 2 of return), and excludes contributions or gifts (limited to 5 percent of net income before deduction of contributions or gifts) and excess-profits tax (item 8, p. 2 of return), and excludes contributions or gifts (limited to 5 percent of net income '1 percents the net income of or extra computation (item 27, p. 2 of return), which, unlike former years, includes the above-mentioned and interest received on certain Government obligations, and excludes the above-mentioned dividends received and interest received on certain Government of "net income" or "deficit" equals the difference between "total income" and "total deductions" (items 14 and 26, respectively, p. 2 of return). <sup>8</sup> Classes grouped to conceal data reported and identity of corporation.

Compiled net loss or deficit.
 <sup>10</sup> Less than \$500.

### STATISTICS OF INCOME

TABLE 7.—Corporations, 1927-36, by major industrial groups: number of returns, gross income, net income or deficit, income tax, excess-profits tax, and total tax for returns with net income and with no net income <sup>1</sup>

<sup>1</sup> Changes in the revenue acts affecting the comparability of statistical data from income tax returns of corporations are summarized on pp. 195-200. The classification of returns into those "with net income" is based on the amount of income for tax computation. For 1936 the amount of income for tax computation. For 1936 the amount of income for tax computation. For 1936 the amount of income for tax computation includes dividends received on stock of domestic corporations subject to taxation under Title I of the effective revenue acts (item 12(a), p. 2 of return), and excludes contributions or gifts (limited to 5 percent of net income before deduction of contributions or gifts) and excess-profits tax (item 28, p. 2 of return). and excludes contributions or gifts (limited to 5 percent of net income before deduction of contributions or gifts) and excess-sponds to total income as reported on the return, plus "cost of goods sold," and for 1932-36, gross income corresponds to total income as reported on the return, plus "cost of goods sold," and for 1932-36, gross income corresponds to total income as reported on the return, plus "cost of goods sold," and for 1932-36, gross income or cresponds to total income for prior years. For 1936, gross income includes interest received on certain Government obligations which is subject to the excess-profits tax. 4 For 1927-35, net income or deficit represents the amount for income tax computation. For 1936, net income or deficit represents the amount for computation which includes dividends received on setck of domestic corporations subject to excess-profit tax computations or gifts. (limited to 5 percent of net income before deduction of contributions or gifts (limited to 5 percent of net income before deduction of contributions or gifts.) Tor 1936, includes income tax reported on returns with fiscal year ended July through November 1936 (and returns with part year which line ludes involve or party are not in perceived on returns with fiscal year ended July through Novemb

<sup>6</sup> The excess-profits tax for 1933 became effective June 30, 1933, under the tax provisions of the National Industrial Recovery Act. Under the provisions of the Revenue Act of 1934, a small amount of excess-profits tax for 1934 and 1935 appears on returns with no net income for income tax purposes. The credit for interest received on certain obligations of the United States and its instrumentalities, which is allowed against net income in the computation of the income for income for networks, which is allowed against net excess-profits tax. (See article 1(d), Treasury Decision 4459, "Regulations relating to excess-profits tax imposed by section 702 of the Revenue Act of 1934,")
<sup>7</sup> For 1936 includes surtax on undistributed profits reported on returns for the calendar year 1936 and for fiscal year or part year ended in period January through June 1937.
<sup>8</sup> Revised. For revised figures for 1927, see Statistics of Income for 1928; for revised figures for 1928, see Statistics of Income for 1930; or revised figures for 1930, see Statistics of Income for 1931, pp. 32 and 33; for revised figures for 1932, see Statistics of Income for 1930, proto tails, "por to 1932.
<sup>9</sup> Liquors and heverages, included in "Food and kindred products," 1927 to 1932.
<sup>9</sup> Liquors and heverages, included in "Textiles and their products," prior to 1936, <sup>11</sup> Petroleum and other mineral oil products, included in "Chemicals and allied products" prior to 1936.
<sup>14</sup> Motor vehicles, complete or parts, included in "Metal and its products" prior to 1936.

Federal Reserve Bank of St. Louis

<sup>1</sup> Changes in the revenue acts affecting the comparability of statistical data from income tax returns of corporations are summarized on pp. 195-200. The classification of returns into those "with net income" and "with no net income" is based on the amount of income for tax computation. For 1936 the amount of income for tax computation includes dividends received on stock of domestic corporations subject to taxation under Title I of the effective revenue acts (item 12(a), p. 2 of return) and interest received on certain Government obligations, which is subject to excess-profits tax (item 8, p. 2 of return), and excludes contributions or gifts (limited to 5 percent of net income before deduction of contributions or gifts) and excess-profits tax (item 28, p. 2 of return). <sup>2</sup> Includes number of returns of inactive corporations. <sup>3</sup> For 1927-1931 gross income corresponds to total income as reported on the return, plus "cost of goods sold" and "cost of operations." For 1936 interest on the return, or good of goods sold" and "cost of operations." For 1936 interest on the return, plus "cost of goods sold" and "cost of operations." For 1936, and press income includes interest received on certain Government obligations which is subject to the excess-profits tax (item 26, gross income corresponds to total income as reported on the return, plus "cost of goods sold" and the store and prestions. <sup>3</sup> For 1932-1936, gross income, as this item was not included in gross income for prior years. For 1936, gross income includes interest received on certain Government obligations which is subject to the excess-profits tax.

Hubble find gives interest received on certain Government obligations which is subject to the excess-profits tax. • For 1927-1935, net income or deficit represents the amount for income tax computation. For 1936, net income or deficit represents the amount for excess-profits tax computation which includes dividends received on stock of domestic corporations subject to taxation under Title I of the effective revenue acts and interest received on certain Government obligations subject to excess-profits tax, and excludes contributions or gifts. • For 1936, includes income tax reported on returns with fiscal year ended July through November 1936 (and returns with part year which began in 1935); graduated normal tax. and flat normal tax for corporations exceent from the graduated rates, reported on returns for the calendar year 1936 and for fiscal year or part year ended in period January through June 1937. • The recess-profits tax for 1933 became effective June 30, 1933, under the tax provisions of the National Industrial Recovery Act. Under the provisions of the Revenue Act of 1934, a small amount of excess-profits tax in 1935 appears on returns with no net income for income tax purposes. The credit for interest received on certain obligations of the National Industrial Recovery Act. (See article 1(d), Treasury Decision 4459, "Regulations relating, which is allowed against net income in the computation of the Revenue Act of 1934, "Regulations relating to excess-profits tax for 1935, head the surface on undistributed profits reported on returns for the calendar year 1936 and for fiscal year or part year ended in period January through June 1937. \* For 1934, a small amount of excess-profits tax for 1934 became on the tax of 1934, a small amount of excess-profits tax for 1934 became on the tax of the Revenue Act of 1934, a small amount of excess-profits tax is allowed on certain of the income tax, is not allowed against net income in the computation of the income tax. is not allowed against net income in the comp

<sup>1</sup> The classification of returns into those "with net income" and "with no net income" is based on the net income for income tax computation (item 29, p. 2 of the return). Unlike brmer years, net income for income tax computation includes dividends received on stock of domestic corporations subject to taxation under Title I of the effective revenue acts (item 12(a), p. 2 of return) and interest received on certain Government obligations, which is subject to excess-profits tax (item 8, p. 2 of return), and excludes contributions or gifts) and excess-profits tax (item 28, p. 2 of return). <sup>4</sup> This classification is based on either gross sales where inventories are an income-determining factor (item 1, p. 2 of return) or gross receipts from operations where inventories re not an income-determining factor, or the sum of both where reported on the return. <sup>4</sup> "Total assets" means the sum of the asset items or the sum of the liability items reported on the balance sheet of the return less any deficit.

**NOTE** — For the aggregate of data in:  $1^{-3}$  table, see text table p. 39.

### [Net income or deficit classes and total receipts classes in thousands of dollars]

<sup>1</sup> The classification of returns into those "with net income" and "with no net income" and the net income tor income tex computation (item 29, p. 2 of return). Unlike <sup>1</sup> The classification of returns into those "with net income" and "with no net income" and the net income and deficit classes are based on net income for income tax computation (item 29, p. 2 of return). Unlike former years, net income for income tax computation includes dividends received on stock of domestic corporations subject to taxation under Title I of the effective revenue acts (item 12(a), p. 2 of return) and interest received on certain Government oblications, which is subject to excess-profits tax (item 8, p. 2 of return), and excludes contributions or gitts (limited to 5 percent of net income before deduction of contri-butions or gitts) and excess-profits tax (item 28, p. 2 of return). <sup>1</sup> This classification is based on either gross sales where inventories are an income-determining factor (item 1, p. 2 of return) or gross receipts from operations where inventories are not an income-determining factor (item 4, p. 2 of return), or the sum of both when reported on the return.

NOTE.-For the aggregate of data in this table, see text table on p. 40-41.

<sup>166</sup>

[Net income or deficit classes and total assets classes in thousands of dollars]

<sup>1</sup> The classification of returns into those "with net income" and "with no net income" and the net income and deficit classes are based on net income for income tax computation (item 29, p. 2 of return). Unlike former years, net income for income tax computation includes dividends received on stock of domestic corporations subject to taxation under Title I of the effective revenue acts (item 12(a), p. 2 of return) and interest received on certain Government obligations, which is subject to excess-profits tax (item 8, p. 2 of return), and excess-profits tax (item 28, p. 2 of return). <sup>2</sup> "Total assets" means the sum of the asset items or the sum of the liability items reported on the balance sheet of the return less any deficit

sheet of the return less any deficit.

NOTE .- For the aggregate of data in this table, see text table, pp. 42-43.

#### TABLE 12.—Corporations, 1936: frequency distribution of returns by net income or deficit classes, cross classified by dividends received classes, by returns with net income and with no net income, and by certain major industrial groups

<sup>1</sup> The classification of the returns into those "with net income" and "with no net income" and the net income and deficit classes are based on net income for income tax computation (item 29, p. 2 of return). Unlike former years, net income for income tax computation includes dividends received on stock of domestic corporations subject to taxation under Title I of the effective revenue acts (item 12(a), p. 2 of return) and interest received on certain Government obligations, which is subject to excess profits tax (item 8, p. 2 of return) and excludes contributions or gitts (intime 4 to 5 percent of net income before deduction of contributions or gitts) and excess-profits tax (item 2, p. 2 of return). <sup>3</sup> Dividends received on stock of domestic corporations subject to taxation under Title I of the effective revenue acts (item 12 (a), p. 2 of return).

NOTE.-For aggregate of data in this table, see text table pp. 44-45.

All corporations are required to file returns regardless of amount of net income or loss, except those

<sup>1</sup> All corporations are required to file returns regardless of amount of net income or loss, except those exempted by specific provisions of the law. Under the Revenue Act of 1909, corporations were required to file returns on a calendar year basis; under subsequent revenue acts corporations were permitted to file returns on a facal year basis, other than that ending Dec. 31, except that under the act of 1921 and subsequent acts life insurance companies are required to file on a calendar year basis in accordance with the State laws regulating insurance companies. Foreign corporations are required to file income tax returns for all income from sources within the United States, regardless of amount, and are entitled to the statutory deductions allowed against such income, except that for 1936, foreign corporations not engaged in trade or business in the United States and not having an office or place of business therein, heing liable to tax only upon their fixed or determinable annual or periodical income from sources within the United States, are not required to file returns unless the total tax has not been paid atsource. When filing returns, such foreign corporations were treated as partnerships. Prior and subsequent to said dates, such corporations were taxed as other corporations. For 1934 and sub-sequent years, personal holding companies (as defined in sec. 351(b), Revenue Act of 1934) are required to file returns for surtax, in addition to the corporation returns for income and excess-profits tax. (For rates, see page 54.)

hie returns for surtax, in addition to the corporation returns for income and excess-profits tax. (For rates, see page 54.) <sup>3</sup> For the years 1918 through 1921, the war-profits and excess-profits tax of foreign corporations, and for 1921 the war-profits and excess-profits tax of corporations deriving a large portion of their gross income from sources within a possession of the United States, is computed by comparison with respresentative corpora-tions whose invested capital can be satisfactorily determined and which are engaged in a like or similar trade or business and similarly circumstanced. (See sec. 328, Revenue Acts of 1918 and 1921.) (See note 7.) <sup>3</sup> Specific credit allowable to domestic corporations with net income of \$25,000 or less, 1921 through 1931, except domestic corporations deriving a large portion of their gross income from sources within a possession of the United States, 1928 and subsequent years; not allowable to foreign corporations, 1918 and subsequent verses

except domestic corporations deriving a large portion or using the management of the united States, 1928 and subsequent years; not allowable to foreign corporations, 1918 and subsequent years.
In arriving at the net income subject to income tax for the years 1917 through 1921 there is allowed as a credit the amount of excess profits tax (and for 1918 through 1921, the war-profits tax); for 1933 through 1935 no credit was allowed for excess-profits tax in arriving at the net income subject to income tax, nor was a credit allowed for income tax in arriving at the income subject to excess-profits tax is allowed as a credit in arriving at the net income subject to income tax.
Income means "statutory" net income, i.e., the excess of gross income over deductions as defined in the various revenue acts. Foreign corporations report only income from sources within the United States; for 1921 and subsequent years domestic corporations deriving a large portion of their gross income from sources within a possession of the United States, received within the United States. (See sec. 262 of the Revenue Acts of 1921, 1924, and 1926 and sec. 251 of the Revenue Act of 1928 and subsequent acts.) Net income has been adjusted from time to time as follows:
(a) Amortization of buildings, machinery, equipment, or other facilities constructed or acquired on or stere Act 1912 and 1926 and sec. 651 of the tracement Act of 1928 and subsequent acts.)
(b) Dividends received on stock of all corporations is lable to the tax imposed by the Revenue Acts of 1909, 1917, and 1918 are deductible. (Such deductible dividends are not included in the amount of gross income shown in "Statistics of Income" for 1918 due to the fact that on the return these dividends were designated as nontaxable income.) Under the Revenue Act of 1934, built deductible. Under the Revenue Acts of 1921, through 1934 there may be deducted the full amount of dividends received from sources within the united States; but under the Reve

through 1936 and certain tax provisions of the National Industrial Recovery Act under the act of Aug. 5, 1909—Continued

1918.)

(Footnotes continued on p. 200)

<sup>11</sup> The \$3,000 credit not allowable to domestic corporations deriving a large portion of their gross income from sources within a possession of the United States.
 <sup>13</sup> Beginning with 1921, the credit cannot exceed the proportion of the total tax against which the credit is taken, that the taxpayer's net income from sources without the United States bears to the entire net income. This credit does not apply to foreign corporations or to domestic corporations deriving a large portion of the United States. Sources within a possession of the United States, but to such corporations these taxes are allowable as a deduction from gross income if imposed upon income from sources within the United States. For the years 1921 through 1931, the amount of income and profits taxes paid to foreign countries or United States possessions in excess of that deduced as a tax credit is permitted to be included in deductions against gross income. (See note 17.)
 <sup>13</sup> For 1922 and subsequent years, corporations are allowed, as a credit against net income for income tax purposes, the amount received as interest upon obligations of the United States which is required to be included in deduced in gross income (e. g., see sec. 236 (a), Revenue Act of 1924). For 1922 and subsequent years, China Trade Act corporations are entitled to a specific credit. (See sec. 4(a), China Trade Act, 1922.)
 <sup>14</sup> Not allowable to China Trade Act corporations for 1922 and subsequent years.
 <sup>15</sup> Income of domestic insurance companies, exclusive of mutual companies other than life, taxable at 124 percent.

1235 percent. <sup>10</sup> See joint resolution of Congress No. 133, approved by the President Dec. 16, 1929, reducing rates of fucome tax for 1929.

<sup>10</sup> See Joint Festimization of Congress No. 133, approved by the Freshelt Dec. 16, 1929, reducing rates of income tax for 1929.
 <sup>17</sup> For 1932 and subsequent years, the taxpayer may elect to credit the income and profits taxes paid to foreign countries or United States possessions (with certain limitations) against the income tax liability to the United States, or to include the entire amount of such taxes in deductions against the income tax liability to the United States, or to include the entire amount of such taxes in deductions against gross income. (See sees. 131 and 23 (c) (2), Revenue Act of 1932 and subsequent acts.)
 <sup>18</sup> The rate of tax on consolidated returns for 1932 and 1933 is 14½ percent, except for returns with fiscal year ended in 1934 on which the tax attributable to 1934 is at the rate of 1434 percent. (See sec. 218 (e), National Industrial Recovery Act.) The rate of tax on consolidated returns with year beginning on or after Jan. 1, 1934, is 1534 percent. Under the Revenue Acts of 1934 and 1936 only railroad corporations are permitted to file consolidated returns.
 <sup>19</sup> See note 5 (d) and (e) and note 18.
 <sup>19</sup> For 1934 and subsequent years, interest on Liberty bonds, etc., which is required to be included in gross income, is included in section 26 (b). (See also note 13.)
 <sup>10</sup> "Normal tax net income" is net income less (1) credit for interest received on obligations of the United States and its instrumentalities and (2) credit of 55 percent of the amount of dividends received from domested for a part income less (1) credit for interest against as credit the amount of dividends paid.

the corporations subject to tax. Mutual investment companies may also claim as credit the amount of dividends paid. <sup>21</sup> Certain corporations are not liable for the normal tax and surtax, as provided in sections 13 and 14 of the Revenue Act of 1936, but are taxable at the following rates: Insurance companies, 15 percent; conportions entitled to benefits of sec. 251, 15 percent; China Trade Act corporations, resident, 22 percent; nonresident, 15 percent (except dividends, which are taxable at 10 percent unless such rate be reduced by treaty with contiguous country to a rate not less than for such as the following the dividend of the sections.

bis percent; foreign corporations, resident; 22 percent; normal take for porations, resident; 25 percent; percent; percent; percent; accept dividends, which are taxable at 10 percent unless such rate be reduced by treaty with contiguous country to a rate not less than 5 percent. See sec. 231, Revenue Act of 1936).
<sup>18</sup> "Undistributed net income" subject to surtax is "adjusted net income" (see note 24) less a credit for amount of dividends paid. The following corporations are not subject to the surtax on undistributed profits: (a) Banks, (b) domestic corporations which for any portion of the taxable year are in bankruptey, (c) insurance companies, (d) foreign corporations, (e) corporations deriving a large portion of their gross income from sources within a possession of the United States, (f) corporations organized under the China Trade Act, 1922, (g) joint stock land banks.
<sup>14</sup> "Adjusted net income" is the net income less (1) the normal tax and (2) the credit for interest received on obligations of the United States and its instrumentalities. When the "adjusted net income" is less than \$50,000, a specific credit is allowed. (See sec. 14 (c), Revenue Act of 1936.)
<sup>15</sup> If corporation was not in existence during the whole of at least one calendar year during the pre-war period, the credit (with certain exceptions) shall be the sum of \$3,000 and an amount equal to the same percentage of invested capital of the taxable year. (See sec. 311, Revenue Act of 1938 and 1936. Note, — For the year 1917 there was also at x of 10 percent upon that portion of the total net income remain ing undistributed six months after the close of the taxable year, in excess of the income eatually employed in the business, or invested in obligations of the United States issued after September 1, 1917.
<sup>16</sup> For definitions of personal holding companies, see section 351 (b). Revenue Act of 1934 and 1936.
<sup>17</sup> Not engental to the sath was exempt from the cress-profits tar.
<sup>18</sup>

#### INSTRUCTIONS

#### The Instructions Numbered 1 to 12 Correspond with the Item Numbers on Page 1 of the Return

#### GROSS INCOME AND DEDUCTIONS

1. Interest.—Enter as item 1 interest received from all sources during the taxable year. Interest on bonds is considered income when due and payable.

2. Dividends.—Enter as item 2 (a) the amount received as dividends (1) from a domestic corporation which is subject to taxation under Title 1 of the Revenue Act of 1363 other than a corporation entitled to the benefits of section 251 of the Revenue Act of 1936 and other than a corporation organized under the China Trade Act, 1922. Enter as item 2 (b) dividends from a domestic corporation which is not subject to taxation under Title I of the Revenue Act of 1936. Enter as item 2 (b) dividends from a foreign corporation and dividends from a corporation entitled to the benefits of section 251 of the Revenue Act of 1936 and a corporation organized under the China Trade Act, 1922. Submit schedule, itemizing all dividends received during the year, stating amounts and names and addresses of the corporations declaring the dividends.

3. Rents.-Enter as item 3 rents received from tenants.

4. Total income.-Enter as item 4 the total of items 1 to 3, inclusive.

5. Interest exempt from taxation.—Enter as item 5 the amount of interest which is wholly exempt from taxation under the provisions of section 22 (b) (4) of the Revenue Act of 1936.

See Instruction 15 with respect to partially tax-exempt interest which is allowed as a credit against net income.

6. Percentage of the mean of the reserve funds. —Enter as item 6 the amount reported as item 6 in Schedule A. There may be deducted from gross income an amount equal to 4 percent of the mean of the reserve funds required by law and held at the beginning and end of the taxable year, except that in the case of any suchreserve fund which is computed at a lower interest assumption rate, the rate of 3% percent shall be substituted for 4 percent. Life insurance combanies issuing policies covering life, health, and accident insurance combined in one policy issued on the weekly prenium payment plan, continuing for life and not subject to cancelation, shall be allowed, in addition to the above, a deduction of 3% percent of the mean of such reserve funds (not required by law) held at the beginning and end of the taxable year, as the Commissioner finds to be necessary for the protection of the holders of such policies only. For definition of "allowable reserves" see Article 203 (a) (3)-1, Regulations 94.

7. Two percent of the reserve held for deferred dividends. —Enter as item 7 an amount equal to 2 percent of the reserve held at the end of the taxable year for deferred dividends the payment of which is deferred for a period of not less than 5 years from the date of the policy contract. Do not include in such reserve dividends payable during the following taxable year.

8. Investment expenses. —Enter as item 8 expenses paid which are properly chargeable to investment expenses, the total amount of which, if there be any allocation of general expenses to investment expenses, should not exceed one-fourth of 1 percent of the mean of the invested assets reported in item 11, Schedule B. Submit a schedule showing the nature and amount of the items included herein, the minor items being grouped in one amount. See section 203 (a) (4) of the Revenue Act of 1936. For definition of "general expenses" see Article 203 (a) (4)-1, Regulations 94.

9. Taxes.-Enter as item 9 taxes paid exclusively upon real estate owned by the company and taxes assessed against individual shareholders and paid by the company without reimbursement, as provided in section 203 (a) (5) of the Revenue Act of 1936. Do not include taxes assessed against local benefits of a kind tending to increase the value of the property assessed, as for paving, sewers, etc. For limitation on deduction see Article 203 (b)-1, Regulations 94.

10. Real estate expenses.—Enter as item 10 all ordinary and necessary building expenses, such as fire insurance, heak, light, labor, etc., and the cost of incidental repairs which neither materially add to the value of the property nor appreciably prolong its life, but keep it in an ordinarily efficient operating condition. Do not include any amount paid out for new buildings or for permanent improvements or betterments made to increase the value of any property or any amount expended on foreclosed property before such property or any amount expended on foreclosed property before such property is held forth for rental purposes. For limitation on deduction see Article 20 (b)-1, Regulations 94.

11. Depreciation.—The amount deductible on account of depreciation in item 11 is an amount reasonably measuring the portion of the investment in depreciable property by reason of exhausiton, wear and tear, or obsolescence, which is properly chargeable against the operations of the year. In any event the deduction is limited to the depreciation on the property that is used, and to the extent used, for the purpose of producing the income specified in section

202 (a) of the Revenue Act of 1936. If the property was acquired by purchase on or after March 1, 1913, the amount of depreciation should be determined upon the basis of the original cost (not replacement cost) of the property, and the probable number of years remaining of its expected useful life. In case the property was purchased prior to March 1, 1913, the amount of depreciation will be determined in the same manner, except that it will be computed on its original cost, less depreciation sustained prior to March 1, 1913, or its fair market value as of that date, whichever is greater. If the property was acquired in any other manner than by purchase, see section 114 of the Revenue Act of 1936. The capital sum to be recovered should be charged off ratably over the useful life of the property. Whatever plan or method of apportionment is adopted must be reasonable, must have due regard to operating conditions during the traylab raze and acheed ba described in the sterum.

during the taxable year, and should be described in the return. If a deduction is claimed on account of depreciation, Schedule C should he filled in. In case obsolescence is included, state separately amount claimed and basis upon which it is computed. Land values or cost must not be included in the schedule, and where land and buildings were purchased for a lump sum the cost of the building subject to depreciation must be established.

The adjusted property accounts and the accumulated depreciation shown in the schedule should be reconciled with those accounts as reflected on the books of the taxpayer. Stocks, bonds, and like securities are not subject to exhaustion.

Stocks, bonds, and like securities are not subject to exhaustion, wear and tear, within the meaning of the law. See sections 23 (1), 114, and 203 (a) (6) of the Revenue Act of 1936.

See sections 23 (1), 114, and 203 (a) (b) of the Revenue Act of 1936. For limitation on deduction see Article 203 (b)-1, Regulations 94.

12. Interest on indebtedness.—Enter as item 12 the amount of interest paid during the taxable year on the company's indebtedness, except on indebtedness incurred or continued to purchase or carry obligations (other than obligations of the United States issued after September 24, 1917, and originally aubscribed for by the taxpayer) the interest upon which is wholly exempt from taxation. Interest paid on dividends held on deposit and surrendered during the taxable year should be included in this item. Do not include any interest paid on deferred dividends on which a deduction was allowed under item 7.

If a life insurance company pays interest on the proceeds of life insurance policies left with it pursuant to the provisions of supplementary contracts, not involving life contingencies, or similar contracts, the interest so paid shall be allowed as a deduction from gross income, except that such deduction shall not be allowed in respect of interest accrued in any prior taxable year to the extent that the company has had the benefit of a deduction of 4 percent or 3% percent, as the case may be, of the mean of the company's liability on such contracts, by the inclusion of such liability in its reserve funds.

13. Rental value of real estate.—The deduction included in items 9 to 11 on account of real estate owned and occupied in whole or in part by the company shall be limited to an amount which bears the same ratio to such deduction (computed without regard to subsection (b) of section 203 of the Revenue Act of 1936) as the rental value of the space not so occupied bears to the rental value of the entire property. (Submit detailed schedule.)

value of the space not so occupied bears to the rental value of the entire property. (Submit detailed schedule.) 14. Items not deductible.—No deduction is allowable for the amount of any item or part thereof allocable to a class of exempt income, other than interest. Items directly attributable to such attributable to any class of taxable income shall be allocated to such taxable income. A taxpayer receiving any exempt income, other than interest, or holding any property or engaging in any activity the income from which is exempt shall submit with its return as a part thereof an itemized statement, in detail, showing (1) the amount of each class of exempt income, and (2) the amount of items allocated by a port schedules).

#### CREDITS AGAINST NET INCOME

15. Enter as item 16 the amount of interest included in gross income which is partially exempt from taxation under the provisions of section 22 (b) (4) of the Revenue Act of 1936.

16. Enter as Item 17, 85 percent of the amount received as dividends from a domestic corporation which is subject to income  $\tan x$ under the Revenue Act of 1936 — 85 percent of Item 2 (a).

#### CREDIT FOR TAXES

17. If credit is claimed in item 20 for income tax paid to a foreign country or possession of the United States, Form 1118, together with the receipt for each such tax payment, must be submitted with this return. If credit is claimed for taxes accrued a bond may also be required on Form 1119. A foreign company is not entitled to claim this credit.

Digitized for FRASER http://fraser.stlouisfed.org/ Federal Reserve Bank of St. Louis

#### LIST OF ATTACHED SCHEDULES

18. Attach a list of the schedules accompanying this return, giving for each a brief title and the schedule number. Place name and address of company on each schedule.

#### COMPANIES REQUIRED TO FILE A RETURN

19. Liability. --Every domestic life insurance company and every foreign life insurance company carrying on an insurance business within the United States or bolding reserve funds upon business transacted within the United States, issuing life insurance, how the serve funds of which held for the fulfillment of such contracts comprise more than 50 percent of its total reserve funds, shall fle areturn on this form. See sections 201 to 203 of the Revenue Act of 1936.

20. Basis of return.—A return on this form shall be rendered on a cash receipts and disbursements basis in conformity with the annual statement made to the State Insurance Department, instead of the accrusi basis.

21. Annual statement.—A copy of the annual statement for life insurance companies adopted by the National Convention of Insurance Commissioners for the year 1936, as filed with the Insurance Department of the State, Territory, on District of Columbia, which shows the reserves used in computing the net income reported on the return, together with copies of Schedule A (real estate) and Schedule D (bonds and stocks), must accompany this return. Similar copies for the preceding year must also be furnished, if not filed with the return for the previous year.

22. Compensation of officers and employees.—If the company paid to any officer or employee during the taxable year compensation for personal services in excess of \$15,000, Schedule C-1 (copies of which may be obtained from the collector of internal revenue) must be filed, IN DUPLICATE, with and as part of this return.

#### PERIOD COVERED

23. The return shall be for the calendar year ended December 31, 1936, and the net income computed on the calendar year basis in accordance with the State laws regulating insurance companies.

#### TIME AND PLACE FOR FILING

24. The return must be sent to the collector of internal revenue for the district in which the company's principal place of business or principal office or agency is located, so as to reach the collector's effice on or before March 15, 1937. In the case of a foreign company maintaining an office or place of business within the United States, the return shall be filed on or before June 15, 1937.

The criterian shall be list of or before sume 15, 1937. The collector of internal revenue may grant a reasonable extension of time for filing a return, not to exceed 6 months, if application therefor is made before the date prescribed by law for filing such return, whenever in his judgment good cause exists.

#### AFFIDAVITS

25. The return shall be sworn to by the president, vice president, or other principal officer, and by the treasurer, assistant treasurer, or chief accounting officer. Receivers, trustees in disalution, trustees in bankruptcy, and assignees, operating the property or business of corporations, must make returns of income for such corporations. If a receiver has full custody of and control over the business or property of a corporation, the shall be deemed to be operating such business for which the corporations was organized or only in marshaling, selling, and disposing of its assets for purposes of liquidation. An attorney or agent employed to represent the company before the Department is not permitted to administer the ost.

26. Question 8 at the foot of page 2 of the return should be answered fully, and where the return is actually prepared by some person or presons other than the taxpayer, such person or persons must execute the affidavit at the foot of page 1 of the return.

#### PAYMENT OF TAX

27. The tax should be paid by sending with the return a check or money order drawn to the order of "Collector of Internal Revenue at (insert name of city and State)." Do not send cash by mail, nor pay it in person except at the collector's office.

pay it in person except at the collector's ounce. The tax may be paid at the time of filing the return, or in four equal installments, as follows: The first installment shall be paid on or before March 15, 1937, the second installment on or before June 15, 1937, the third installment on or before September 15, 1937, and the fourth installment on or before September 15, 1937.

If any installment is not paid on the date fixed for its payment, the whole amount of the tax unpaid shall be paid upon notice and demand by the collector.

#### PENALTIES

23. For willful failure to make and file a return on time.—Not more than \$10,000, or imprisonment for not more than 1 year, or both, together with the costs of prosecution, and, in addition, 5 percent to 25 percent of the amount of the tax.

29. For willfully attempting to evade or defeat payment of the tax.—Not more than \$10,000, or imprisonment for not more than 5 years, or both, together with the costs of prosecution.

30. For deficiency due to negligence or fraud.—Five percent of the amount of the deficiency if due to negligence or intentional disregard of rules and regulations without intent to defraud, or 50 percent of the amount of the deficiency if due to fraud.

#### INFORMATION AT SOURCE

31. Every insurance company shall make a return on Forms 1096 and 1099 with respect to amounts paid, credited, or distributed during the calendar year (a) as salaries or other compensation for personal services, totaling \$1,000 or more in the case of a citizen or resident who is not married or whose marital status is unknown, or \$2,500 or more in the case of a married citizen or resident, interest, rent, premiung, annuities, or other fixed or determinable income totaling \$1,000 or more to a fiduciary, a domestic or resident partnership, or a citizen or resident. The return on Forms 1096 and 1099 shall also include dividend payments, amounting to \$300 or more during the calendar year 1936 to each shareholder who is an individual (citizen or resident of the United States), a resident fiduciary, or a resident of the United States), a resident function, or payments of dividends amounting to \$150 or more during the period from January 1, 1936, to July 1, 1936, inclusive, to any shareholder who is a nonresident partnership. The forms will be furnished by any collector of internal revenue upon request. Such returns of information covering the calendar year 1936 must be forwarded to the Commissioner of Internal Revenue, Sorting Section, Washington, D. C., in time to be received not later than Februar 16, 1937.

#### DUPLICATE RETURN

32. The copy of the return required to be filed on the duplicate form (green paper) shall be a complete duplicate of the return except that it need not be signed or sworn to nor accompanied by a copy of Schedule C-1 or a copy of the annual statement made to the insurance department of the State, Perritory, or District of Columbia. For failure to file the duplicate return on time there will be assessed \$10, which will be payable upon notice by the collector.

If a value of stock is used which is group. group. (d) In determining whether the statutory conditions with respect to stock ownership are present at any time during the period specified, the phrase "in value" shall, in the light of all the circumstances, be described the value of the corports stock outstanding at such time (not including transury stock). This value may be determined upon the basis of the company's such worth, earning having a bearing upon the value of the stock. If a value of stock is used which is greatly at variance with that reflected by the corporate book, the evidence upon which such valuation is based should be field with the return. In any case where there are two or more classes of stock outstanding, the total value of the base the base the different classes according to the relative value of each class therein.

#### 5. COMPUTATION OF UNDISTRIBUTED ADJUSTED NET INCOME

5. COMPUTATION OF UNDISTRIBUTED ADJUSTED NET INCOME
Is accreting the tast basis for personal holding companies, the "adjusted bet income" in first ecomputed. This is accompliable in the case of a domestic between the anount of (a) Federal income, "any political and excess profile is axes paid or performing the tasting from the origonate holds and excess profile is axes paid or a domestic and an anount excess of a domestic between the state of a domestic between the state of a domestic between the state or an anount or any institute of the state paid or a comparison or grift to a totherwise allowed as a doduction to or for the use of domest described in accinet and allowed to a state paid or a domestic between the state or an anount or grift to a totherwise allowed to the tast of the tast of a domestic base paid or the tast of the tast of a domestic base paid or the tast of task of the tast of the tast of task of the tast of task of the task of task of the task of task of the task of ta

obligations of States of refrinces on the United Genes of any pointed en-division thereof or of the District of Columbia or of the possisions of the the "adjusted of or of the District of Columbia or of the possisions of the the "adjusted per kinome" described above, (a) as anount equal to 30 percen-of the excess of the adjusted net income over the amount of dividends received from personal holding companies which are allowable as a credit for the gur-st adde to refire indebiedness incurred by the taxpayer prior to January 1, 1934 (see Instruction 6), and (b) the amount of the dividends part of the dividend and receive 37, computed without the benefit of subsection (b) thereof. The foreign is a credit permitted by section 131 with respect to the tax 31. However, the deduction of foreign taxes under section 22(c) is permitted for the purpose of the series even if for the purposes of the correst tax imposed by Title 1 a credit for such taxes is taken.

#### 6. AMOUNTS USED OR SET ASIDE TO RETIRE INDEBTEDNESS INCURRED PRIOR TO JANUARY 1, 1934

It, pursuant to a bona fide plan for the retirement of its bonds, debentures, or similar obligations representing indebtedness incurred prior to January I, 1934, for the purpose of raising capital (or assumed prior to that date in con-nection with the acquisition of capital assets by which such indebtedness is entering the taxable year an amount of such indebtedness, or (2) establishes a sinking fund or reserve for the retirement of such indebted-ness during the taxable year, and acoust as also in such indebted-ness during the faxable year, and acoust fund or reserve in deuton from the retirement of such indebtedness. In deuton from the adjusted the income is allowable in a reservable amount in respect of the amounts op aid or set saide in such fund or reserve during the taxable year.

in respect of the amounts point or set and/or and the sub-flux of reserve during the amount point of respect of the amounts point or set and the sub-flux of reserve during the sub-flux of reserve during the sub-flux of reserve during the sub-flux of reserve during the sub-flux of reserve during the sub-flux of reserve during the sub-flux of reserve during the sub-flux of reserve during the sub-flux of reserve during the sub-flux of reserve during the sub-flux of reserved the sub-flux of rese

#### 7. SIGNATURES AND VERIFICATION

The return shall be sworn to by the president, vice president, or other prin-cipal officer, and by the tressurer, assistant tressurer, or chief accounting officer. The return of a foreign corporation having no office or place of business in the United States but having an agent in the United States shall be sworn to by agent

#### 8. TIME AND PLACE FOR FILING

E. THE AND PLACE FOR FILING
The return must be field on or before the filteenth day of the third month following the close of the taxable year with the collector of internal revenue for the dustrict in which is located the corporation's principal place of business or principal office or agency. In the case of a foreign corporation the return does not be taxable year. The human is fore of the sixth month following the close of the taxable year. The human is fore of the sixth month following the close of the taxable year. The human is fore of the sixth month following the close of business in the United States shall be filed with the Collector of Internal Revenue may grant a reasonable extension of time for filing a return, not to exceed 6 months, if application therefore is made before to go de subs exists.

#### 9. PAYMENT OF TAX

Checks or money orders in payment of the tax should be drawn to the order of "Collector of Internal Revenue at (maret name of ety and State)." Do not of "Collector of Internal Revenue at (maret name of ety and State)." To not The total amount of tax may be paid when the return is liked or in four equal isstallments as follows: The first installment shall be paid on or before the date prescribed for fing the return, the second installment shall be paid on or before the data may be paid when the total the state of the second installment shall be paid on or before fifteenth day of the sixth month, and the total methinstall be paid on the first installment. If any installment is not paid on the date fixed for its payment, the whole If any installment is not paid on the date fixed for its payment, the whole

If any installment is not paid on the date fixed for its payment, the whole amount of the tax unpaid shall be paid upon notice and demand by the collector.

#### 10. PENALTIES

For will a failure to make and file return on time.—Not more than \$10,000 or imprisonment for not more than one year, or both, and in addition 5 to 25 percent of the amount of the tax. For willfully attempting to evade a defeat payment of the tax—Not more than \$10,000 imprisonment to for not more than \$6 we cars, no both, together with the costs of proceedion. For deficiency due to negligence or faud.—Five percent of the amount of the tax defeat payment of the due to the due to the other and explains and explains without intent to defraud, or 50 percent of the amount of the deficiency if due to fraud.

#### 11. PAYMENT OF SURTAX ON PRO BATA SHARES

11. PATMENT OF SUBTAC ON PRO BATA SHARES
The arsta imposed by section 53 does not apply to any tasable year (1).
The the harcholders of the corporation, that is, every humbolder of proof as the barcholders of the corporation, that is, every humbolder of proof as the barcholders of the corporation, that is, every humbolder of proof as the barcholders of the corporation is and the same of the proof of the corporation is and the same of the proof of the same of the sa
