## THIS DOESN'T SHOW ON THE COVER

"Send us your directory at once. We have just received another publication and in the course of a few minutes examination we have found the following errors in cashiers in banks in our own state. We know these men personally, and none of them have been in these positions for from two to five years. We cannot correct errors regarding persons we do not know but we presume there are some of those."

---

"We are under a five-year contract for directories and display advertising with the.....of New York....about two years of such contract having expired. *It has proven very unsatisfactory by reason of innumerable inaccuracies, and we are practically compelled to buy some other book, as a work of reference.* As soon as your next directory is issued, we would like to have you forward it to us immediately."

---

"In the latest issue of another book we have been subscribing to, the information is given that in this state there are 'no special laws relating to banks,' although a special banking law has passed and has been in operation since 1914. We want your directory."

MICHIGAN Map on Index

## Dominant in the Great Northwest

WITH 1800 direct connections throughout the Northwest, the First & Security National, Minneapolis, is the logical bank through which to clear Northwestern items.

To maintain connections of this magnitude calls for a highly developed organization such as few banks in the entire country can equal in size, completeness or efficiency.

For Correspondent Banks this network of direct connections means many days and hours saved; the organization behind them means par in service; the broad, liberal policy of its management means satisfactory and lasting relationships.
