Self-protecting Checks

A check on National Safety Paper is completely protected the moment it is written. If an attempt is made to alter the writing with chemicals, eraser or knife, an irremovable white spot or stain is produced in the paper, instantly exposing the fraud.

This complete protection has the added advantage of being permanent. Atmospheric or other conditions, so often destructive to so-called pantagraph-tinted checks, do not affect the

chemical-safety properties of National Safety Paper.

National Safety Paper has been in use for over 50 years. So positive has its protection proved, that today it is used by a large majority of the banks in financial centers throughout the country.

Specify National Safety Paper to your lithographer. We shall be glad to mail a complete set of samples, upon request.

What Do You Owe Your Depositors?

THRIFT does not end with mere saving—it also involves putting the savings to work for the highest return commensurate with safety. Banks, therefore, perform a normal function when they advise their depositors how best to invest their savings in safe and conservative bonds. A good sense of service requires that every bank should be closely associated with a bond house of established standing—not only as an obvious obligation to its customers, but also as a means whereby its own surplus funds may be employed to best advantage.

With such an association in view we invite your correspondence.

FIRST NATIONAL BANK 2-10
OF CHICAGO
192__ No. __

A more powerful agent for new business

Now it is possible to make use of a new and powerful influence in building business for your bank—at no extra cost.

And at the same time you remove the danger of loss to yourself and your depositors through check alteration.

You do it by furnishing Super-Safety INSURED Bank Checks. They are an impregnable, triple safeguard against the check-crook. Yet they cost you no more than ordinary, unsafe checks.

In the first place they warn the crook, amateur or skilled master, that it is dangerous for him to attempt operations. In the second place they make his success well-nigh impossible. And finally they insure your depositors against actual loss.

You, as a progressive banker, will at once see how this positive protection will help in securing new business. It "puts teeth" into your arguments about safety—protection—for the prospective depositor.

But there is more to it than that.

There is our powerful, national advertising campaign—for instance—directed to the millions of business men in America. In our advertisements we point out the benefits of doing business by check. And we point out what check safety is.

Then, when you have purchased Super-Safety INSURED Checks, we furnish you with free advertising helps of every conceivable kind—to make use of this broadened, bettered service, in building prestige, getting new business.

Thousands of banks all over the country, are finding how well this positive protection pays. The check-crook is a serious, ever-present menace to banks and depositors. Last year, it is estimated, check frauds cost this country more than fifty million dollars!

An investigation will disclose possibilities for your bank far greater than can even be hinted here.

BURNS NATIONAL BANK 2-10
OF CHICAGO 192 No.

**SUPER-SAFETY
Insured
BANK CHECK**

Triple protection

Super-Safety INSURED Bank Checks are made of the world's safest check paper. Ink does not spread on it. It fairly shrieks any attempt at erasure, knife scratching, or the work of acids. Yet it is a crisp, fine paper to handle, or write upon.

When you have purchased Super-Safety INSURED Bank Checks, a "master insurance policy" of the old, reliable HARTFORD ACCIDENT & INDEMNITY COMPANY is furnished you—by the terms of which each depositor is insured for \$1,000 against loss by check alteration. Your depositors are constantly reminded of this super-service by the "insured" mark on the corner of each check, by a reproduction of the "master policy" in the front of each check book, and by the advertising and display material which we furnish you free.

Back of each Super-Safety INSURED Bank Check is the powerful protection of the WILLIAM J. BURNS INTER-

NATIONAL DETECTIVE AGENCY, INC. Much or little as that famous name may mean to the ordinary citizen, it commands instant attention and respect from the check-crook. A check protected by Burns is dangerous ground for him—and he knows it. This warning is plainly printed on each check. And we furnish you every means of reminding your depositors that this protection is a part of your service to them.

Cost no more

Because we are the largest makers of bank checks in the world, Super-Safety INSURED checks cost no more than ordinary, unsafe bank checks. Price is kept down by efficient quantity-production. You order them as you'd order any check—and pay no more for their positive protection.

To Our Subscribers

This, the Ninety-Sixth Edition of the BANKERS BLUE BOOK, marks more than a half century of service to the bankers of the world, and the fact that nearly all of the banks of the United States use our book is proof that the service has met the hearty approval of the subscribers.

We assure our patrons that, as in the past, nothing will be left undone by us in our effort to give them a Directory as nearly perfect as experience, continued vigilance, time, and money can make it.

We wish to impress our constantly increasing number of friends and patrons that the claims of this publication for patronage are:

1. It is *honestly* revised twice a year.
2. It is *complete, up-to-date*, and is published nearer to the date of the information it contains than is any other similar publication.
3. It is printed in *tabulated form*, all similar items being placed in the *same column*, for the purpose of comparison more expensive, but more satisfactory to the user.
4. It is *beautifully printed* in clear readable type.
5. It gives to advertisers a *country-wide circulation*, covering a majority of the best banks in America and thousands of the large corporations and lawyers offices, a *circulation three times that of any other similar publication* and larger than that of any other financial publication in America.

RAND McNALLY & COMPANY.

THE FARM MORTGAGE BANKERS' ASSOCIATION OF AMERICA

E. D. CHASSELL, Secretary, 112 West Adams St., Chicago

"While the farm mortgage has been recognized for more than 2000 years as the most reliable security for local investors, the organization of the Farm Mortgage Bankers Association of America in 1914 was the beginning of the first nation-wide systematic effort to standardize the mortgage so as to make it a convenient form of investment for the non-resident investor. Members of this association put their own money into mortgages on productive farm lands before offering them for sale. Conservative farm mortgage bankers make loans on the basis of average productive value of lands for a term of years and not on temporary selling prices in times of booms. For this reason the inflation of land prices has not depreciated the value of farm mortgages as dependable investments."

Numerical System of the A. B. A.

In 1911 the American Bankers Association adopted what is known as the "Numerical Transit System," which has proved of great benefit to the banking world.

The Clearing House Section of the Association, realizing the necessity for a uniform system of bank numbers, called a meeting in Chicago, December 12 and 13, 1910, to evolve a plan and work out the details of numbering all the banks in the country. The Executive Council of the American Bankers Association at its meeting in Nashville, May 2, 1911, unanimously adopted the system devised by the committee and authorized the publication of the A. B. A. KEY BOOK containing the names of the banks and the numbers assigned.

EXPLANATION OF SYSTEM

The reserve cities were each designated by a prefix number, with the exception of Brooklyn, which was included with New York City, Kansas City, Kan., which was included with Kansas City, Mo., and South Omaha; which was included with Omaha. Buffalo, N. Y., and Memphis, Tenn., on account of their size and importance as banking centers were included with the reserve cities. The cities were numbered from 1 to 49, inclusive, in the order of their population according to the Government Census of 1910. The lower numbers were thus assigned to the larger cities.

The Treasurer and Assistant Treasurers of the United States and the Post Offices were also numbered in these cities.

The state prefix numbers, together with clearing house numbers, were used in numbering the banks in the largest city in each state other than the reserve cities, all other cities being designated by the use of the state prefix and the numbers given to the banks, which are continued in the relative order of the population of the cities in each state. Each bank is numbered in consecutive order according to seniority in each city or town, excepting in towns having only one bank, in which case the banks are numbered in alphabetical order according to towns.

Rand McNally & Co. of Chicago, publishers of the Key to Numerical System of The American Bankers Association, assign numbers to new banks as they are organized and supply, upon request, the number of any bank which does not appear in the Key, and in March and September each year publish and supply upon request, free of charge, supplements containing all changes which have taken place since any previous issue of the Key or of any supplement.

The Eighth Edition will be published in May, 1924. In order to secure a "Key Book" place your order NOW!

CLEARING HOUSES IN THE UNITED STATES AND CANADA

Babson's Statistical Organization of Wellesley Hills, Mass. says: "One of the best measurements of a locality's purchasing power is in the amount of the deposits in its banks. Moreover, one of the best measurements of a locality's prosperity is the relative rate at which the amount on deposit in its banks is increasing."

This compilation of deposits in the cities having Clearing Houses gives total deposits of *all* banks and will be a valuable reference for comparisons.

—Opinion of Banker after using
the Blue Book 50 years.

Rand McNally Bankers Directory,
Chicago, Ill.

Gentlemen:

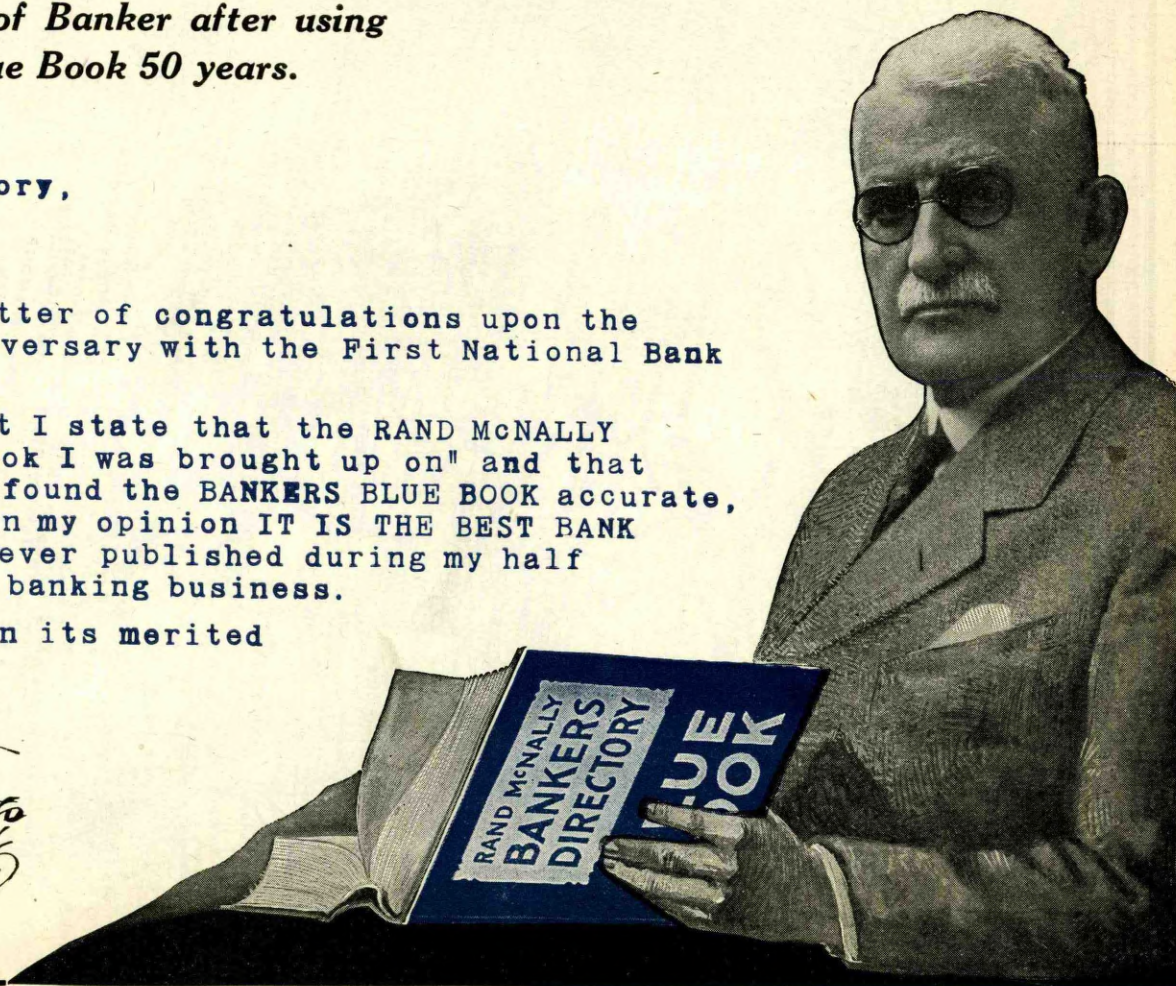

I thank you for your letter of congratulations upon the occasion of my fiftieth anniversary with the First National Bank of Princeton.

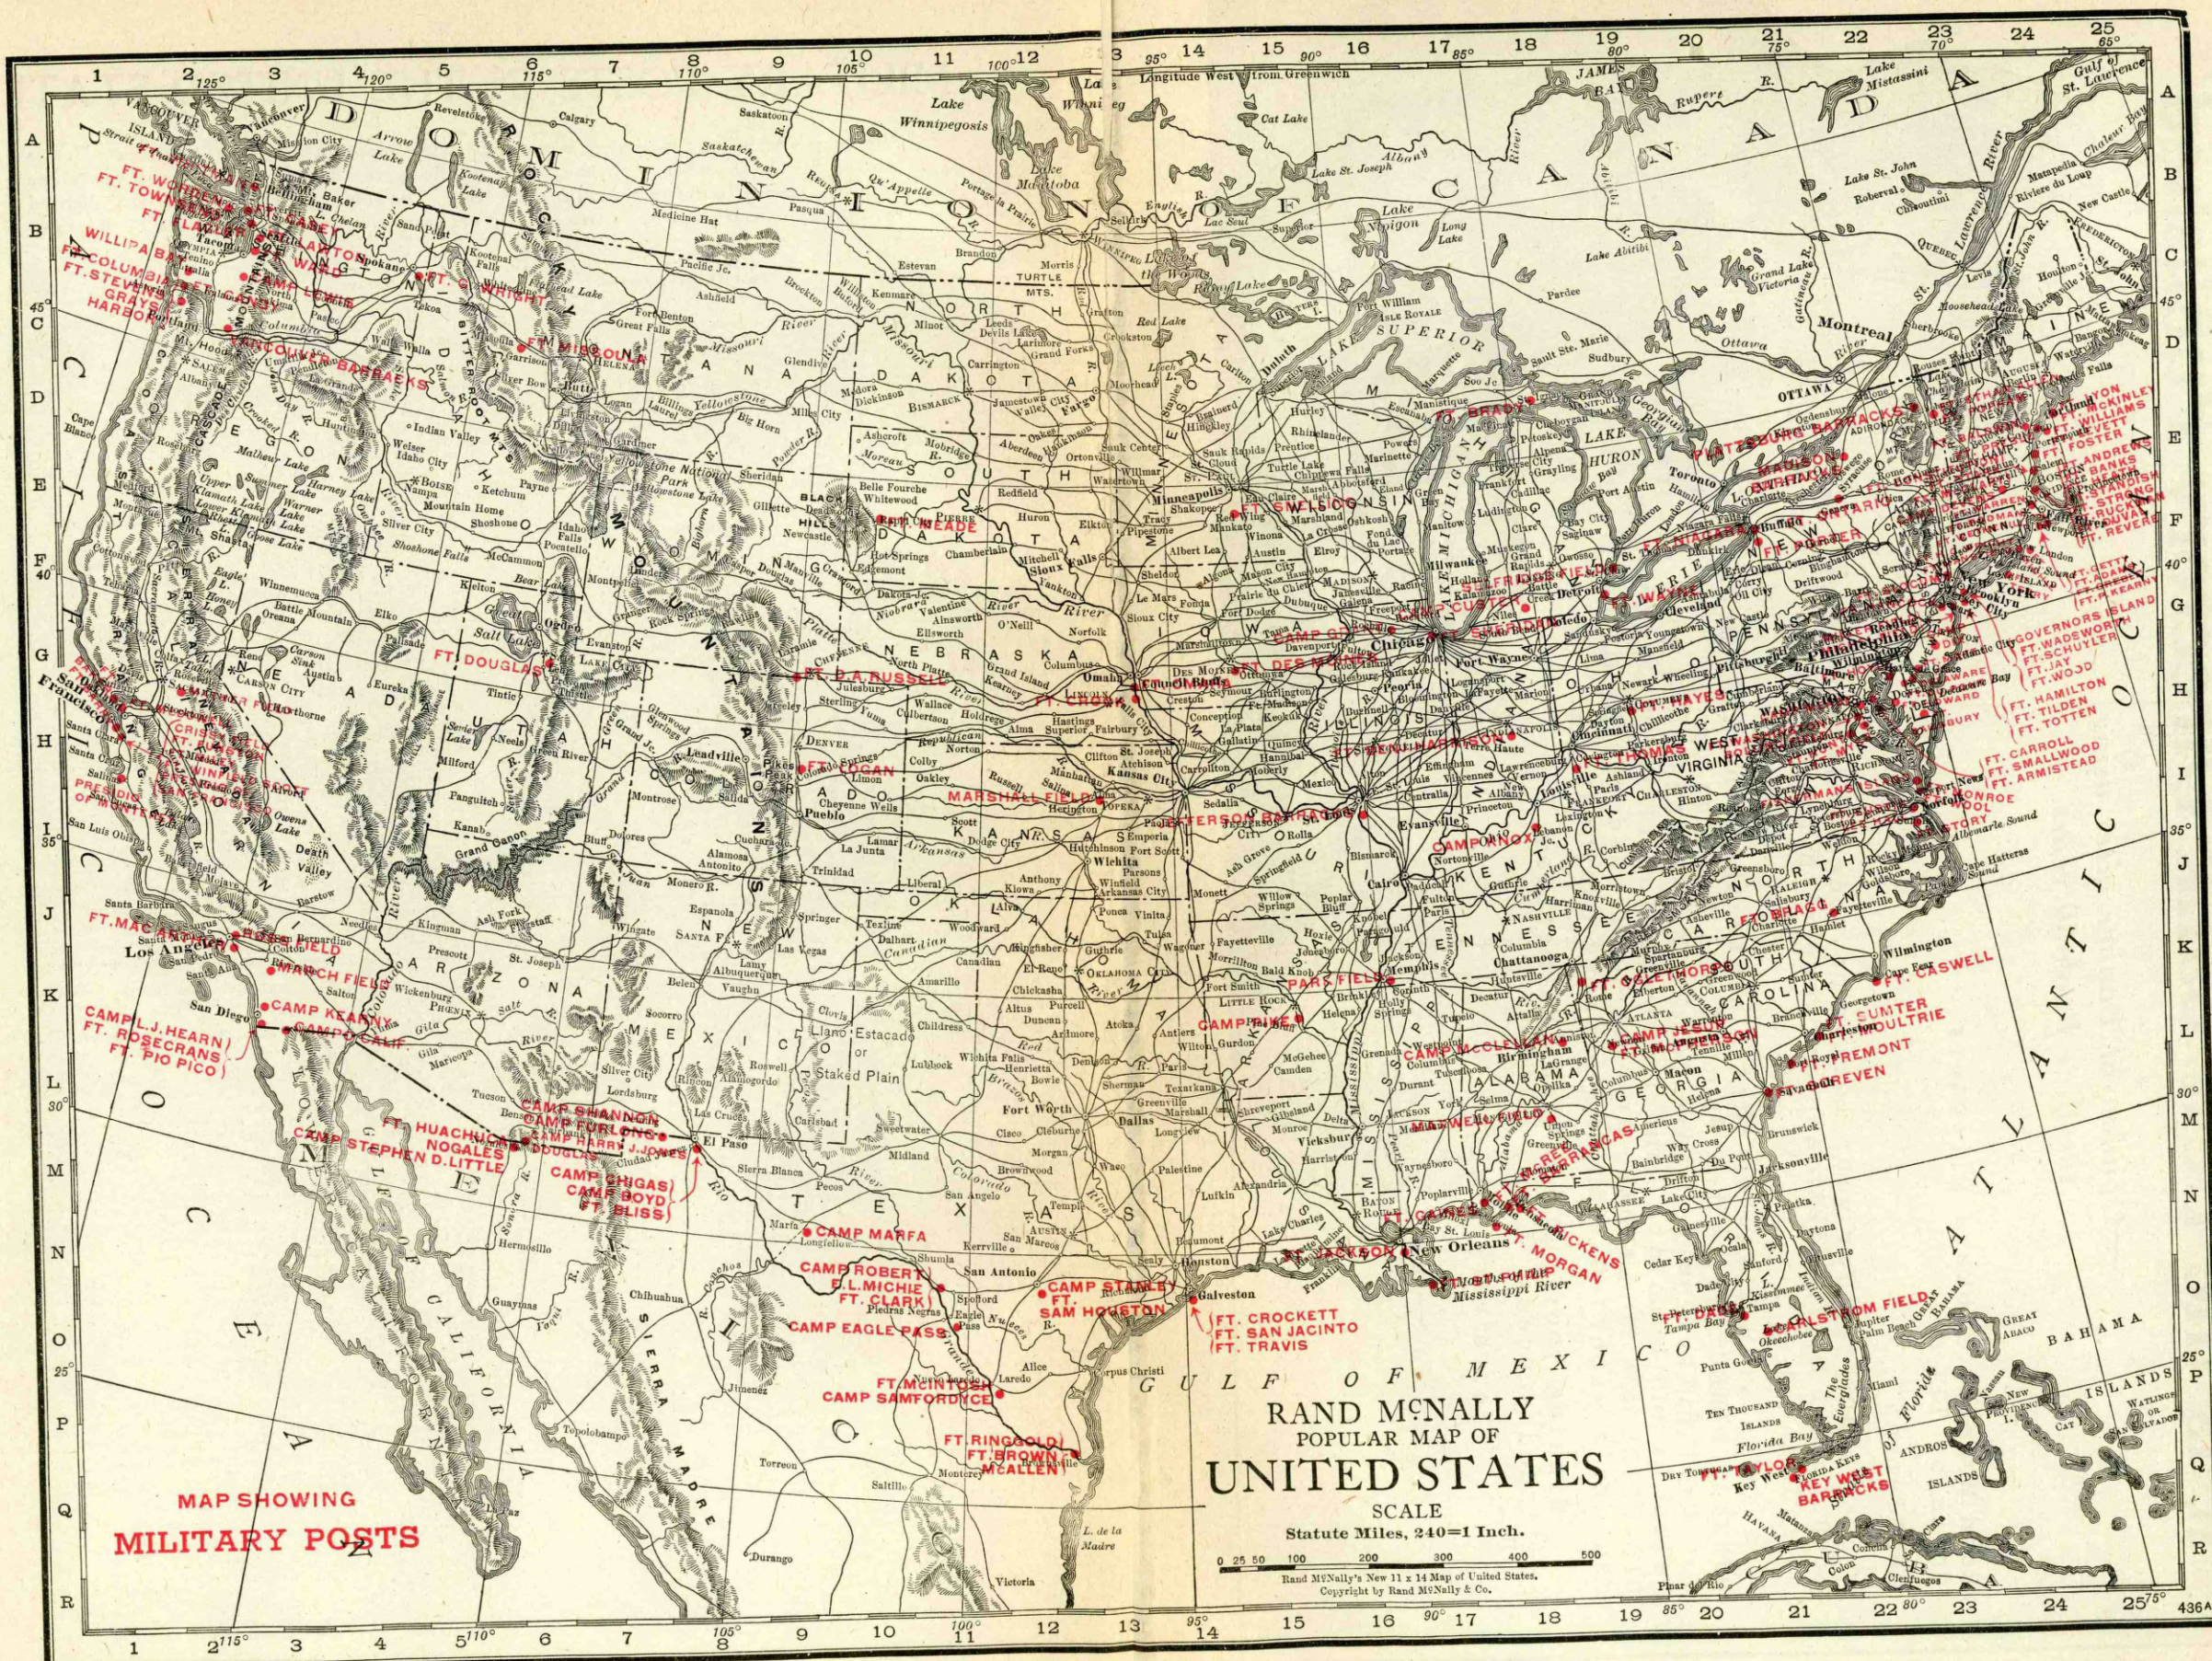

It is with pleasure that I state that the RAND McNALLY BANKERS DIRECTORY is the "book I was brought up on" and that for over fifty years I have found the BANKERS BLUE BOOK accurate, reliable and complete, and in my opinion IT IS THE BEST BANK DIRECTORY NOW PUBLISHED, or ever published during my half century's experience in the banking business.

Wishing your publication its merited continued success, I am

Yours very truly,

TOTAL STATISTICS FOR THE UNITED STATES AND CANADA

IMPORTANT: This tabulation covers only institutions performing the functions of a bank. Some publishers, for reasons of their own, include in their tabulation all those concerns whose names they publish but whose business is confined to the selling of investments. Such information is naturally misleading. We carry the names of thousands of such institutions but they are not included in this tabulation.
