Self-protecting Checks

A check on National Safety Paper is completely protected the moment it is written. If an attempt is made to alter the writing with chemicals, eraser or knife, an irremovable white spot or stain is produced in the paper, instantly exposing the fraud.

This complete protection has the added advantage of being permanent. Atmospheric or other conditions, so often destructive to so-called pantagraph-tinted checks, do not affect the

chemical-safety properties of National Safety Paper.

National Safety Paper has been in use for over 50 years. So positive has its protection proved, that today it is used by a large majority of the banks in financial centers throughout the country.

Specify National Safety Paper to your lithographer. We shall be glad to mail a complete set of samples, upon request.

When Buying Bonds for Your Bank—

it is a source of satisfaction and a measure of protection to know that the bond house you deal with has made a thorough and reliable investigation before identifying itself with the issues which it offers.

Because of the breadth of its facilities and experience, Halsey, Stuart & Co.'s endorsement of a bond issue has an accepted value which simplifies the responsibility of bank officers who select bonds for investment of bank funds.

The following issues are representative of our offerings:

This mark in a check corner means positive protection—for bank and depositor—against the check raiser!

The need for check insurance has been proved!

And thousands of banks have proved that it is a powerful help in getting new business

TODAY when you see a new building or a new home going up, you find that the construction is of steel—fireproof.

Yet every new building is *insured* against fire. Fireproof construction is wise—is a necessity. But the final, *positive* protection is insurance.

Here are some facts concerning check-insurance for the serious consideration of every progressive banker:

You know that check raisers are abroad and active—today—just as they have always been. You know what a staggering sum check frauds cost this country every year.

Safety paper, chemical and mechanical protective devices are good as far as they go. But the cunning crook usually finds a way, in the end, to circumvent them.

That's why check-insurance is needed—and will always be needed as long as money is handled by check, as long as there are check-crooks at large. It is the only *positive protection* against loss through raised checks. Every time a check-alteration is reported, its need is proved!

To furnish your depositors with this broadened protection is the sure way to build greater confidence. And that's the way banks build business—*increase deposits*.

In Super-Safety **INSURED** Bank Checks you possess and use the business-building force. With *positive protection* for your depositors and for your bank, *made a fact*.

They are made on the world's safest check paper—protected by The Wm. J. Burns International Detective Agency Inc. And insure both bank and each depositor, for \$1,000 in cash, against raised-check losses. This insurance is carried by the Hartford Accident & Indemnity Company—one of the strongest companies in America, with more than twenty million dollars in assets, and a record for paying all just claims promptly.

You should have all the facts—now! From the standpoint both of business promotion—and protection. Address your nearest branch.

Local newspaper ads—just one of the many sales-helps furnished to customer-banks

FREE helps that do bring business:

EVERY step you make toward still greater security for depositors' funds means added leverage on new business. Thousands of banks are proving this daily in a very tangible way.

In Super-Safety INSURED Bank Checks you offer depositors *positive protection* against check-raisers. That is something definite for your bank to merchandise—to *sell*—in getting new accounts, and holding present depositors.

And back of this banking-service feature is the tremendous force of our national advertising. Monthly, in leading publications that reach millions, we advertise—for you—the wisdom, the safety of "paying by check."

And coupled with that, we furnish to customer-banks free advertising and sales-helps that are proved business-bringers.

Complete campaigns of unusual, striking advertisements for your local newspapers;

Special "copy"—written by advertising experts—to meet immediate problems and conditions you meet;

Well-thought-out, well-executed display material for lobbies, grills, windows;

Skilfully planned-and-written letters, folders envelope stuffers, booklets and the like.

These powerful helps are furnished free to banks providing Super-Safety INSURED checks! They have a definite business building value—which thousands of banks have already *proved*.

And these positively protected checks cost you no more than any checks of even approximately equal quality. That is because of our great manufacturing volume—which makes modern, money-saving efficiency possible.

We believe you will find the facts valuable. We know you will find them *interesting*. For detailed information, prices, etc., simply address our nearest branch.

What Do You Owe Your Depositors?

THRIFT does not end with mere saving—it also involves putting the savings to work for the highest return commensurate with safety. Banks, therefore, perform a normal function when they advise their depositors how best to invest their savings in safe and conservative bonds. A good sense of service requires that every bank should be closely associated with a bond house of established standing—not only as an obvious obligation to its customers, but also as a means whereby its own surplus funds may be employed to best advantage.

With such an association in view we invite your correspondence.

To Our Subscribers

This, the Ninety-Seventh Edition of the BANKERS BLUE BOOK, marks more than a half century of service to the bankers of the world, and the fact that nearly all of the banks of the United States use our book is proof that the service has met the hearty approval of the subscribers.

We assure our patrons that, as in the past, nothing will be left undone by us in our effort to give them a Directory as nearly perfect as experience, continued vigilance, time, and money can make it.

We wish to impress our constantly increasing number of friends and patrons that the claims of this publication for patronage are:

1. It is *honestly* revised twice a year.
2. It is *complete, up-to-date*, and is published nearer to the date of the information it contains than is any other similar publication.
3. It is printed in *tabulated form*, all *similar items* being placed in the *same column*, for the purpose of comparison—more expensive, but more satisfactory to the user.
4. It is *beautifully printed* in clear readable type.
5. It gives to advertisers a *country-wide circulation*, covering a majority of the best banks in America and thousands of the large corporations and lawyers offices, a *circulation three times that of any other similar publication* and larger than that of any other financial publication in America.

PROTECTED BY SURETY BOND

The attorneys listed in the Rand McNally Bankers Directory are bonded by the American Surety Company.

What Some Attorneys Say:

—"Am pleased with my connection. It is proving profitable." (*Penna.*)

—"We are much pleased with the results obtained from our contract with you and consider it a good investment." (*Wisconsin.*)

—"I value my representation very highly and I am sending all my out-of-town business to your lawyers." (*Iowa.*)

—"Our confidence in your list is being justified and we desire to continue as your representative in this community." (*South Dakota.*)

—"I have gotten so much good business through your list in the last three months that I am much pleased. At first I thought I was stuck again." (*Texas.*)

—"In our judgment it is superior to any List of Attorneys our long experience has brought us in contact with, and in addition to this is proving a very fruitful source of business to us." (*Kentucky.*)

—"The business I receive is of a first-class nature and I usually get results for clients and make good fees out of claims forwarded me through your list." (*South Carolina.*)

—"In the last few months, we have received several good fees from your List. Last week we received a mortgage to foreclose which provides for a fee of seven hundred dollars. You can see why I want to stay with you." (*Oklahoma.*)

THE FARM MORTGAGE BANKERS' ASSOCIATION OF AMERICA

E. D. CHASSELL, Secretary, 112 West Adams St., Chicago

"While the farm mortgage has been recognized for more than 2000 years as the most reliable security for local investors, the organization of the Farm Mortgage Bankers Association of America in 1914 was the beginning of the first nation-wide systematic effort to standardize the mortgage so as to make it a convenient form of investment for the non-resident investor. Members of this association put their own money into mortgages on productive farm lands before offering them for sale. Conservative farm mortgage bankers make loans on the basis of average productive value of lands for a term of years and not on temporary selling prices in times of booms. For this reason the inflation of land prices has not depreciated the value of farm mortgages as dependable investments."

Numerical System of the A. B. A.

In 1911 the American Bankers Association adopted what is known as the "Numerical Transit System," which has proved of great benefit to the banking world.

The Clearing House Section of the Association, realizing the necessity for a uniform system of bank numbers, called a meeting in Chicago, December 12 and 13, 1910, to evolve a plan and work out the details of numbering all the banks in the country. The Executive Council of the American Bankers Association at its meeting in Nashville, May 2, 1911, unanimously adopted the system devised by the committee and authorized the publication of the A. B. A. KEY BOOK containing the names of the banks and the numbers assigned.

EXPLANATION OF SYSTEM

The reserve cities were each designated by a prefix number, with the exception of Brooklyn, which was included with New York City, Kansas City, Kan., which was included with Kansas City, Mo., and South Omaha, which was included with Omaha. Buffalo, N. Y., and Memphis, Tenn., on account of their size and importance as banking centers were included with the reserve cities. The cities were numbered from 1 to 49, inclusive, in the order of their population according to the Government Census of 1910. The lower numbers were thus assigned to the larger cities.

The Treasurer and Assistant Treasurers of the United States and the Post Offices were also numbered in these cities.

The state prefix numbers, together with clearing house numbers, were used in numbering the banks in the largest city in each state other than the reserve cities, all other cities being designated by the use of the state prefix and the numbers given to the banks, which are continued in the relative order of the population of the cities in each state. Each bank is numbered in consecutive order according to seniority in each city or town, excepting in towns having only one bank, in which case the banks are numbered in alphabetical order according to towns.

Rand McNally & Co. of Chicago, publishers of the Key to Numerical System of The American Bankers Association, assign numbers to new banks as they are organized and supply, upon request, the number of any bank which does not appear in the Key, and in March and September each year publish and supply upon request, free of charge, supplements containing all changes which have taken place since any previous issue of the Key or of any supplement.

The Eighth Edition was published in May, 1924.

CLEARING HOUSES IN THE UNITED STATES AND CANADA

Babson's Statistical Organization of Wellesley Hills, Mass. says: "One of the best measurements of a locality's purchasing power is in the amount of the deposits in its banks. Moreover, one of the best measurements of a locality's prosperity is the relative rate at which the amount on deposit in its banks is increasing."

This compilation of deposits in the cities having Clearing Houses gives total deposits of *all* banks and will be a valuable reference for comparisons.

VALUES OF FOREIGN COINS

TREASURY DEPARTMENT, OFFICE OF THE SECRETARY.
Washington, D. C., July 1, 1924.

In pursuance of the provisions of section 25 of the act of August 27, 1894, as amended by Section 403, Title IV, of the Act of May 27, 1921, and reenacted by section 522, Title IV, Act of September 21, 1922, I hereby proclaim the following estimate by the Director of the Mint of the values of pure metal contents of foreign coins to be the values of such coins in terms of the money of account of the United States, to be followed in estimating the value of all foreign merchandise exported to the United States during the quarter beginning January 1, 1924, expressed in any such metallic currencies: *Provided, however*, that if no such value has been proclaimed, or if the value so proclaimed varies by five per centum or more from a value measured by the buying rate in the New York market at noon on the day of exportation, conversion shall be made at a value measured by such buying rate, as determined by the Federal Reserve Bank of New York and published by me as certified by said bank pursuant to the provisions of said Section 25 as amended.

A. W. Mellon, *Secretary of the Treasury.*

Comparison of Cost of Blue Book!

THE growth of the banking business in the United States in the past forty-four years is almost beyond belief. If one takes a copy of the Rand McNally Bankers Directory, Blue Book, of the year 1880 and lays alongside of it a copy of the 1924 book, he will find the following interesting comparisons:

Banks in Book:	1880	1924
United States.....	6,130	30,465
Canada	402	4,338
Total	6,532	34,803

The figures for 1924 do not include corporations, firms, and individuals whose business is limited to the buying and selling of investments. Those for 1880 do include Private Bankers, of which there was a great number.

Carrying this comparison still further, one gets the following information:

	1880	1924
Number of Banks in United States.....	6,130	30,465
Number of Banks in Canada	402	4,338
Number of Pages in Directory.....	420	2,658
Number of Maps.....	0	100
Weight of Book.....	2 lbs.	10 lbs.

In 1880 the Directory gave only the names of the President, the Cashier, Capital, Surplus, and two correspondents.

In 1924, one finds the names of all officers and correspondents and the Capital, Surplus and Profits, Deposits, Loans, and Investments, Bonds and Securities and Cash and Exchange.

To make a copy of the Directory in 1924 required **five times** as much paper, and owing to increased cost of paper, about **eleven times** as much money to buy the paper as it did in 1880 (and about the same proportion holds good on type, binding materials, ink, etc.)

If one based his figures entirely upon these comparisons, there would be from **five to six times** more hours of labor required to set the type, print and bind a copy of the directory in 1924 than in 1880, and the increase in the **cost** of this labor **per copy** would be over **twelve times** what it was in 1880. However, labor-saving devices and increased circulation have offset some of this increase so that instead of the labor costing **twelve times** as much **per copy** in 1924 as it did in 1880, it is in reality only about **six times** as much **per copy**.

An increase in the number of banks from 6,000 in 1880 to 34,000 in 1924 should require over **five times** as large a force of clerks to collect the information, compile, and edit the statistics. In fact, it does actually require **five times** as large a force, but at over **twelve times** the **total cost**, owing to increased wages. Here again, however, increased circulation has cut down the clerical **cost per copy** from **twelve times** to about **four times** what it was in 1880.

It costs over six times as much in postage to collect information from 34,000 banks as it does from 6,000. In 1880 the book weighed two pounds. It now weighs ten pounds. During all these forty-four years and in spite of the conditions shown, there have been only two increases in the price of the Bankers Directory.

COMPARATIVE CONSOLIDATED FIGURES FOR JANUARY AND JULY 1924

IMPORTANT: This tabulation covers only institutions performing the functions of a bank. Some publishers for reasons of their own, include in their tabulation all those concerns whose names they publish but whose business is confined to the selling of investments. Such information is naturally misleading. We carry the names of thousands of such institutions but they are not included in this tabulation.
