TWO A. B. A. PRESIDENTS

IN HIS ANNUAL address to the American Bankers Association in 1926, Retiring President Oscar Wells said:

"Has the local banker a sufficiently national outlook and has the metropolitan banker a sufficiently international outlook?"

In one of his first public pronouncements after his election to the presidency of the A. B. A., President Melvin A. Traylor said:

"Whether our horizon is bounded by county lines or by the seven seas, I think the same answer may be given to "What's ahead of American Banking?"

"First: Closer study of what is close to us.

"Second: Broader knowledge of what affects us from the outside.

"Last and most important: Development of ourselves and our employees into bigger bankers."

The Bankers Directory is the first and most necessary tool of the banker who agrees with these two presidents of the A. B. A. He browses through it for the latest facts on banking personalities, banking services and banking progress in other cities. He uses it to widen the scope of his correspondence, he refers to it for first line information on foreign banking.

He keeps his Bankers Directory up to date because his Bankers Directory keeps him up to date.

INVESTMENT BANKERS AND BANKER INVESTORS

INTERCHANGE of service and information between deposit bankers and investment bankers is the outstanding feature of American banking today.

The Bankers Directory, with its complete list of American Banks and its authoritative list of the sort of investment banking houses which deposit bankers deal with and recommend to their customers, is in constant use to facilitate this phase of banking.

In this Directory you will find members of stock exchanges and outstanding investment houses listed with the banks of each city. Give your bank, your directors, and your customers the benefit of this service on all matters affecting securities, either as investments for your own portfolio, collateral on loans, or adjustments of customer holdings.

Dear Sir:-

Attached find our order for January 1927 issue of the Bankers Directory.

I know you will appreciate learning that the Bankers Directory is a tremendous aid to us in serving the banks of this country and also foreign banks.

The information contained therein enables us to ascertain at a glance the type of bank, its size, departments it maintains and its growth, which information enables us to answer the thousands of inquiries we receive intelligently.

With the aid of the Bankers Directory we are not apt to send a small bank an outline of a system that could only be used by a large bank, nor are we apt to send a large bank an outline of a system or equipment that would not properly function.

Looking forward to the receipt of the January 1927 Bankers Directory, we are,

Sincerely,

YAWMAN & ERBE MFG. CO.

The Investment of Your Own Bank's Funds

how you can select securities approved by successful bankers

You know the growth and success of The National Bank of Commerce in St. Louis, its 70-year record of achievement; but have you ever stopped to think that there is also a large company offering investment securities, which is owned by the same stockholders, and directed by the same men ~ *the Federal Commerce Trust Company?*

All the vast system of credit information of this powerful bank is available, and its officials are in constant touch with leaders in more than 900 different lines of business. Its directors have unusual facilities for appraising the real worth of an investment offering.

Your own judgment is, of course, the final word in the selection of securities, but if it corresponds with the judgment of "Commerce," isn't that an added check on your investments . . . . an added protection for your bank's funds?

If you haven't circulars of current offerings of this company, it will pay you to send for them today. Every security listed represents the mature judgment of the directors and officials of one of the nation's most successful banking institutions.

THE NUMERICAL SYSTEM

THE A.B.A. NUMERICAL SYSTEM has been of definite value to business and banking in the United States and we are proud of our part in that system as official numbering agents of American Bankers Association. Each bank listed in this Directory has its transit number shown next to its name.

The entire system is explained and mapped in the first part of the Directory.

We devote a special publication to this numerical system which lists by numbers instead of by banks and your bank should have a copy of the latest number. Write for the Key to the Numerical System, A.B.A., Volume IX, Cloth Bound, 577 pages. Price $2.50.

Making a Profit from Collections and Credit Reports

Thousands of banks decline to render free service on Collections and for Credit Reports. They have adopted the "Fee-in-Advance" system. We are daily in receipt of letters like that below endorsing the system.

NO. 6040

THE CITY NATIONAL BANK
OF LAFAYETTE
CAPITAL $ 100,000.00
SURPLUS $ 50,000.00
LAFAYETTE, IND.

Rand McNally & Co.
Chicago, Ill.

Gentlemen:

Five years ago we placed with your representative, Mr. Roy A. Dahlen, a subscription and advertising contract for your Bankers Directory.

We renewed this contract with the utmost pleasure a few days ago with Mr. Dahlen for another five years.

From the initial appearance of our advertisement we noticed immediate results and the collections coming into our bank over your publication have been a source of considerable profit to us both in commissions made and also in keeping us up to date as to the credit standing of our local business men.

We like our advertisement very much, and we know from actual experience it is a "sure business getter".

Yours very truly,

Cashier.

Get Your Fee-In-Advance!

The Rand McNally Bankers Directory furnishes, without cost to advertisers, a supply of cards mentioned above. These cards are sent by the banks to those forwarders who send in collections or requests for credit reports without a fee, and generally the fee for the service is forthcoming. These fees generally more than pay for the cost of the Directory and the advertising lines.

This System is in General Use and is Universally Approved

COMMON SENSE
THE LAW
AND
THE BANKER

WILLIAM McCHESNEY MARTIN, Chairman of the St. Louis Federal Reserve Bank once said that banking took more common sense and more knowledge of law than any other business. He also said that the banker who is a banker, takes a risk every time he breathes, and that ordinary banking risks should not be too much complicated by legal uncertainties.

Every law of the National Government and the State Legislatures which seems likely to affect your business as a banker is digested in this Directory. Learned counsel in the various states keep this information abreast of legislative enactments. You will find it helpful to study the Laws section of this Directory every now and then and to refer out-of-town legal matters to the bonded attorneys listed herein.

UNLESS you can read Chinese the map reproduced above probably means very little to you.

Yet this, or something like this, might be your only map of China—but for Rand McNally service!

It is through this service that you can conveniently secure, at reasonable prices, any map you desire in form and language to meet your requirements.

And all Rand McNally maps are always accurate and up to date. Back and forth, across the two oceans, Rand McNally & Company carry on an elaborate correspondence with official sources abroad, requesting, giving and receiving information.

Every change is promptly reported. Old stock on hand is immediately destroyed, and new Rand McNally maps are made. For maps are worthless unless they are exact.

There is a Rand McNally map for every purpose. Rand McNally business map systems are essential to manufacturers in planning sales campaigns.

Rand McNally Indexed Pocket Maps make it possible for travelers everywhere to lay out their routes in advance and give them invaluable information on the road.

Rand McNally Official Auto Road Maps are unfailing guides for automobile owners who wish to plan their tours intelligently and to be sure of their way as they drive.

Rand McNally maps of all kinds are indispensable to readers of books, magazines, newspapers, for locating the places they read about and for securing a better idea of the world they live in.

Rand McNally Maps, Globes and Atlases are obtainable at leading booksellers' and stationers', or direct.

Do not use an old A.B.A. Key Book! The Ninth Edition of the Key to the Numerical System of the American Bankers Association is now available for delivery. The new issue contains all of the New banks, which have been assigned Transit Numbers. The old issues are practically worthless. Every bank should use only the latest revised edition, which contains a numerical and alphabetical list of banks in the United States—a handsome cloth bound book of over 600 pages. Compiled exclusively by the Bankers Directory for the American Bankers Association. Sent, charges paid, upon receipt of the price $2.50 per copy, including semi-annual supplements until next edition is published.

STANDARDIZE ON THE BANKERS DIRECTORY

STANDARDIZATION equipment means efficiency and economy in bank operation. You probably know that every officer and employee of your bank who uses a bankers directory wants *The* Bankers Directory—Rand McNally's Blue Book. You will be following the precedent set by Executives of practically all important American banks when you standardize on the Bankers Directory for inside equipment, outside information and inter-bank publicity.
