WHO'S WHO?

IN banking, more than in any other business, personality is the controlling factor. Banking plants are very much alike. Banking practices are pretty well standardized. One check is very much like another. All \$10.00 bills are essentially the same. The difference between banks is the difference between bankers. The more you know about the officers and directors of a bank, the more distinctive and useful information you have about the bank itself. All this information appears in the pages of this Directory. Study it before you write and before you travel. Use it to inform your associates, to develop your subordinates, to widen the horizon of your business
