Torrington.....	Goshen County Bank sold to Citizens National Bank for liquidation March 19, 1932.

NOW—79 OF THE 100 LARGEST BANKS IN THE UNITED STATES USE LA MONTE SAFETY PAPERS FOR THEIR CHECKS...

This preference for La Monte, by the leaders, is matched also by the wide acceptance La Monte has with all banking institutions throughout the country. In nearly every city, every section, you will find important banks using La Monte Safety

Papers for their checks. And every year more and more banks turn to La Monte.

This leadership, this increasing confidence in La Monte Safety Papers, has a reasonable, logical reason behind it. La Monte invented and perfected safety paper. Since 1871 La Monte has been making safety papers exclusively. No one else has had so long and continuous experience; no one has ever approached the excellence of La Monte Papers.

In addition to their safety, La Monte Papers are fine papers, made to stand a great deal of handling, creasing, folding, and to provide an enduring record of every transaction. Distinctive in design, attractive in color, La Monte Safety Papers afford every bank the opportunity of choosing, producing, and placing in the hands of its customers a highly individual check; one that will return an extra value in advertising and in good will.

La Monte Safety Papers are made in the United States and Canada, sold and used throughout the world. From your own printer or lithographer you may obtain samples and quotations on your requirements. Or you may write directly to us at any one of the following addresses. Your inquiry will be welcomed, and if there is any service we may render you in regard to your checks, kindly request us.
