A Complete New Columnar Style

in this edition of your Blue Book

You now have eleven columns of data on every American bank—three more than in former editions of your Blue Book.

Figures in Thousands of Dollars

You will find all statements in this and subsequent editions listed in thousands of dollars only. A bank with \$100,000 capital is shown as \$100. An institution with \$1,250,101 in deposits is listed as \$1,250. This makes possible a quicker and easier reading and comparison of bank statements.

Undivided Profits and Reserves

Surplus and undivided profits now occupy two columns: "surplus" and "undivided profits and/or reserves."

U. S. Government Securities

Likewise, bonds and investments are divided into two columns, one showing the

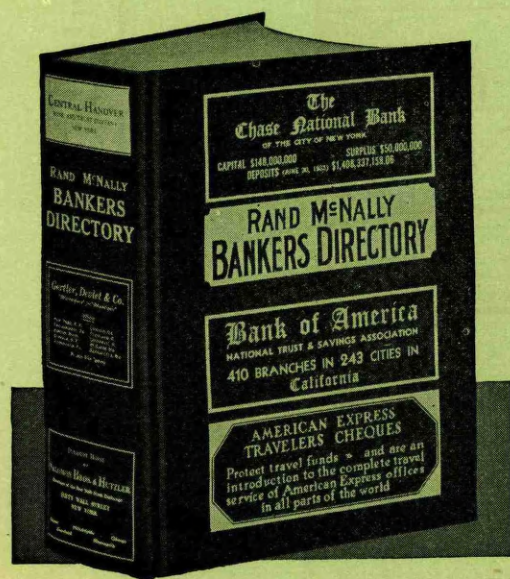

amount of funds invested in United States Government securities and the other showing the amount invested in other securities.

Totals Column

A "totals" column—separates the liabilities from the resources and shows at a glance the combined resources or liabilities of any American bank. No other bank directory embodies this essential index figure.

• • •

This new Blue Book revolutionizes all former methods of presenting banking data. Its four major improvements give you added figures on each bank—more conveniently arranged, permitting you to quickly compare the relative conditions as to each item of all banks in any given state or city.

A Complete New Columnar Style

in this edition of your Blue Book

You now have eleven columns of data on every American bank—three more than in former editions of your Blue Book.

Figures in Thousands of Dollars

You will find all statements in this and subsequent editions listed in thousands of dollars only. A bank with \$100,000 capital is shown as \$100. An institution with \$1,250,101 in deposits is listed as \$1,250. This makes possible a quicker and easier reading and comparison of bank statements.

Undivided Profits and Reserves

Surplus and undivided profits now occupy two columns: "surplus" and "undivided profits and/or reserves."

U. S. Government Securities

Likewise, bonds and investments are divided into two columns, one showing the

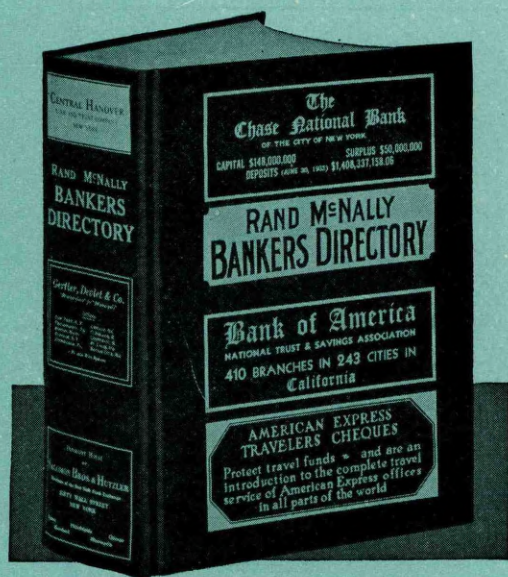

amount of funds invested in United States Government securities and the other showing the amount invested in other securities.

Totals Column

A "totals" column—separates the liabilities from the resources and shows at a glance the combined resources or liabilities of any American bank. No other bank directory embodies this essential index figure.

This new Blue Book revolutionizes all former methods of presenting banking data. Its four major improvements give you added figures on each bank—more conveniently arranged, permitting you to quickly compare the relative conditions as to each item of all banks in any given state or city.

Rand McNally Bankers Directory

The Bankers Blue Book

Number under Name of Bank is the New Transit Number given to each bank in U. S. exclusively by The Rand-McNally Bankers' Directory, under the authority of The American Bankers Ass'n.

Thousands of Dollars

IN THIS and all subsequent editions of your Blue Book you will find the latest statements of all American banks listed in thousands of dollars only. For example, a bank with \$100,000 capital is shown in the "capital" column as \$100. An institution with \$1,431,113 in deposits is listed in the "deposits" column as \$1,431.

Eleven Columns Replace Eight

You now have eleven columns of data on each bank—three columns more than in former editions of the Blue Book.

New Figures

These new columns permit the following important changes: a division of surplus and undivided profits into "surplus" and "undivided profits and/or reserves;" a breakdown of bonds and securities into "U. S. Government securities" and "other securities."

Totals at a Glance

A "totals" column now separates the liabilities from the resources and enables you to tell at a glance the combined resources or liabilities of any American bank. No other directory has this feature.

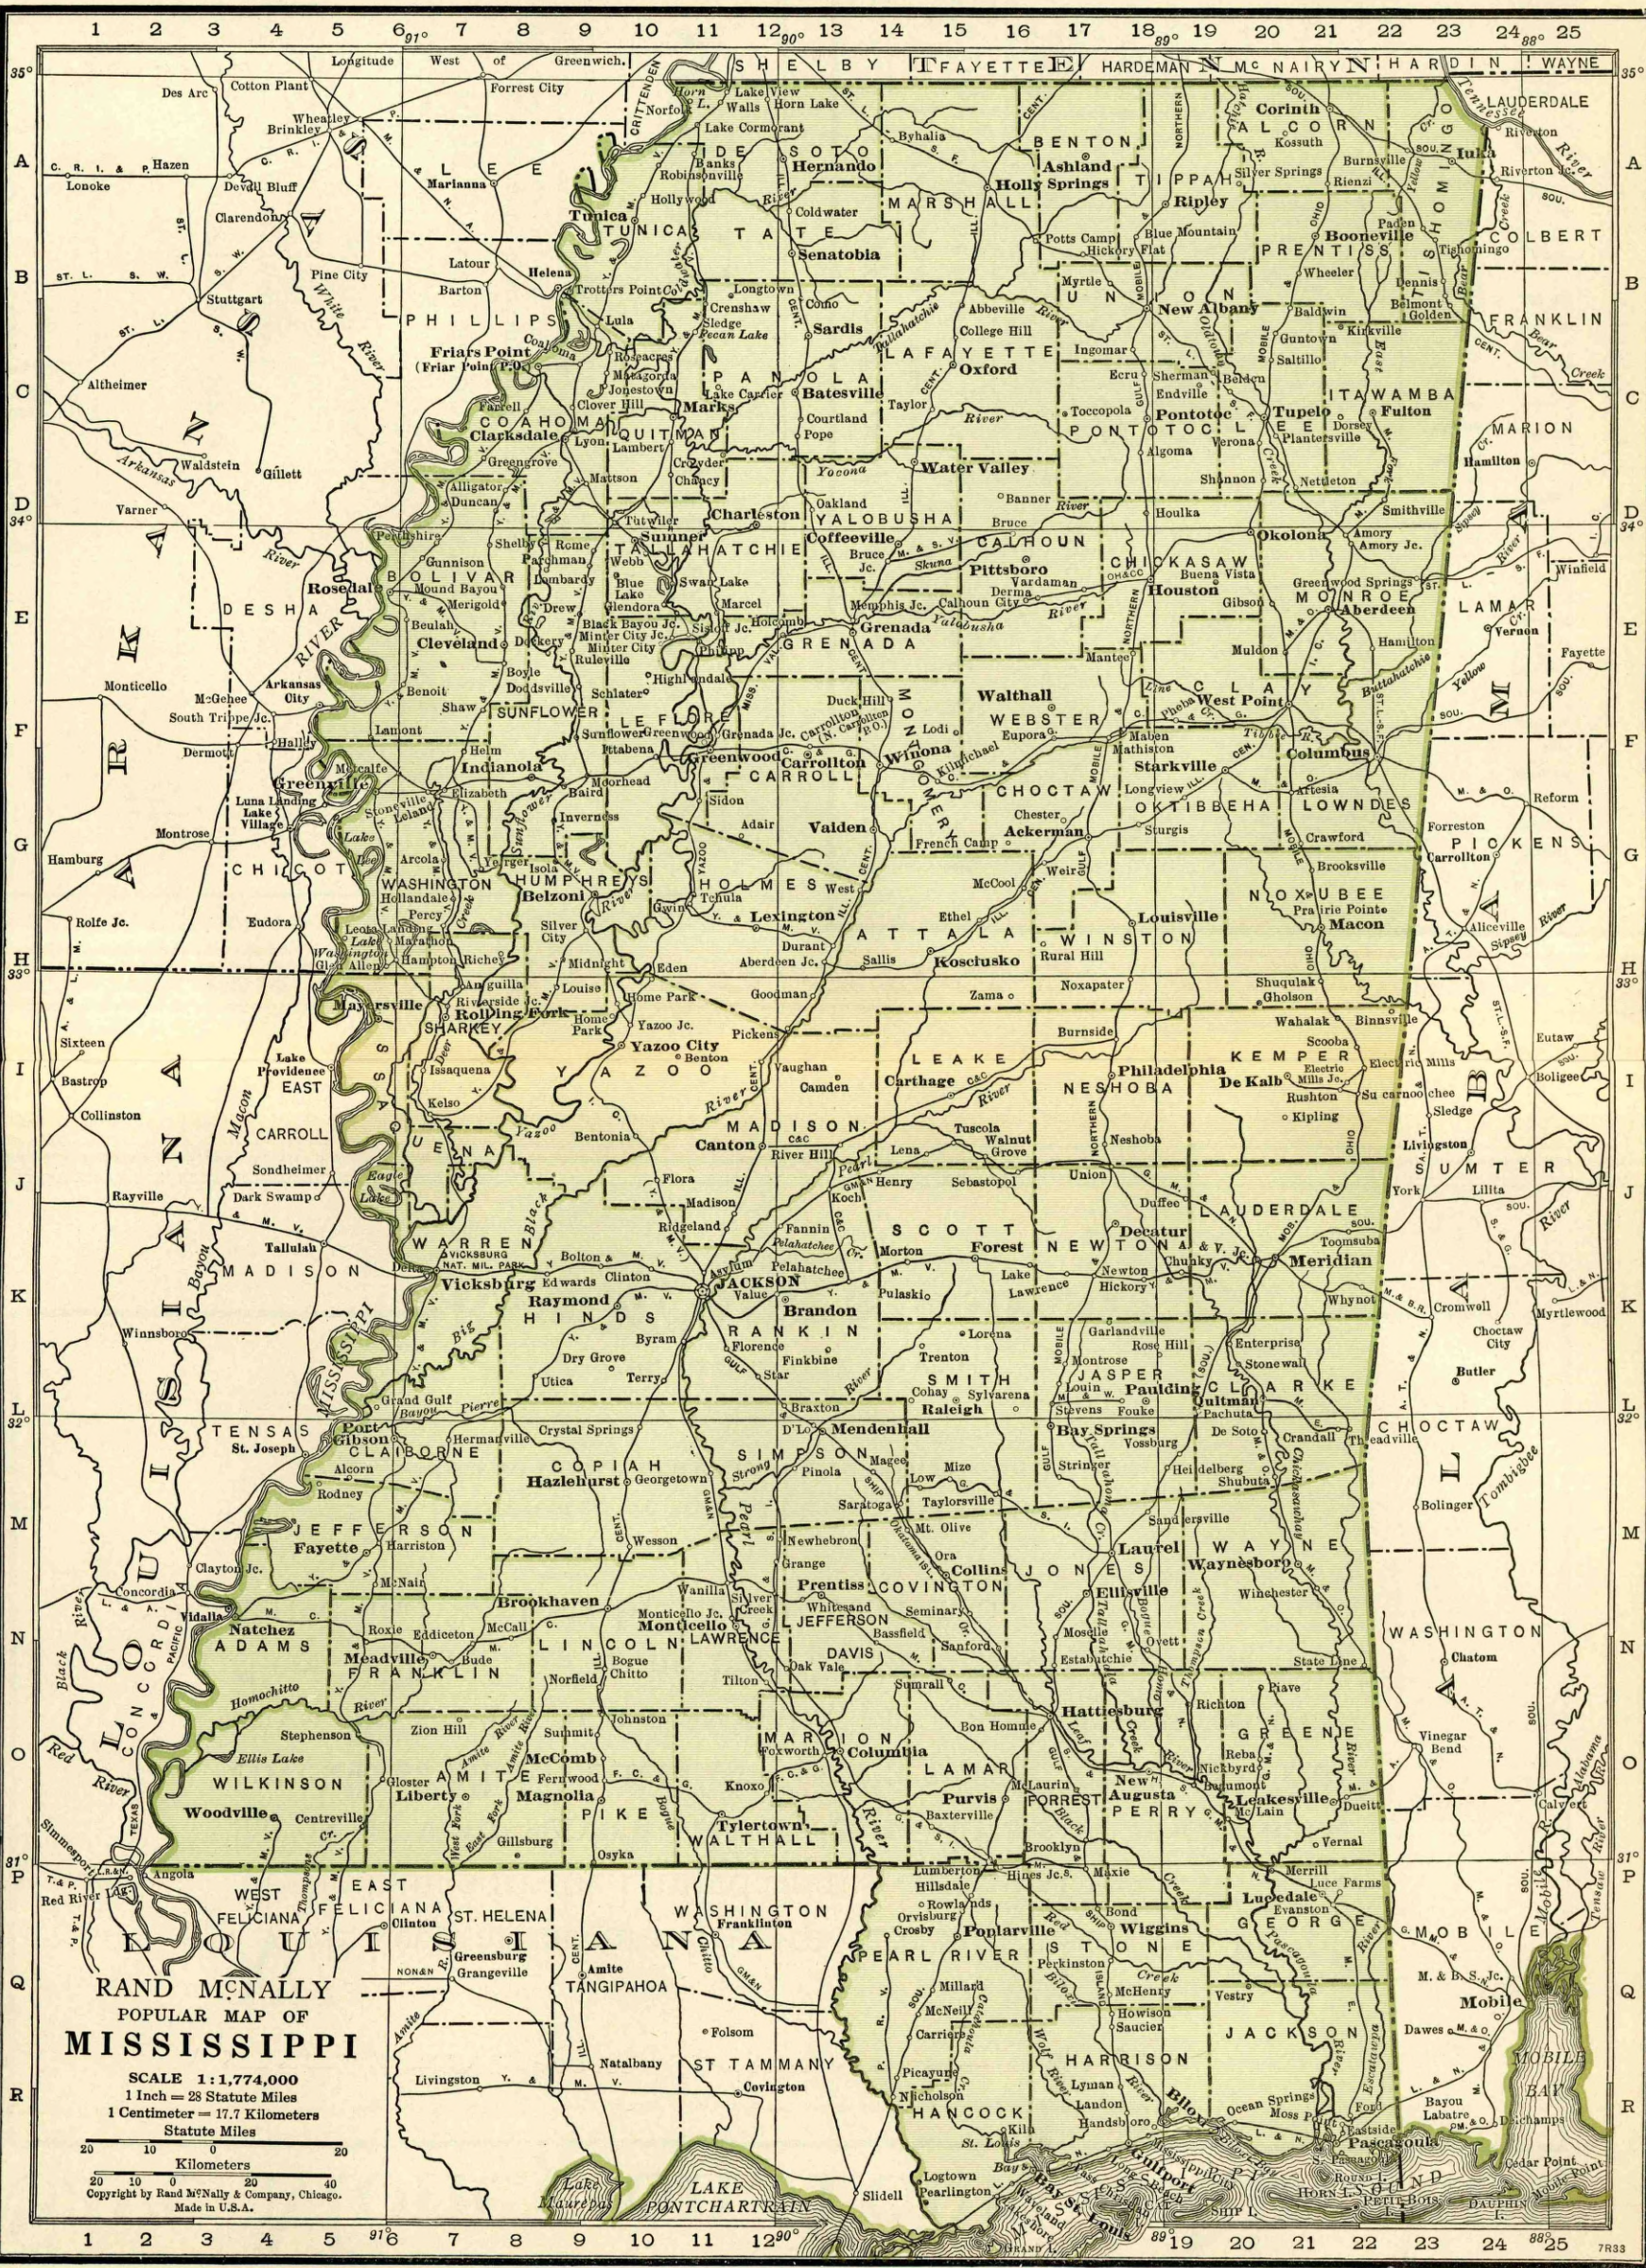

Always first with timely improvements, your Blue Book continues to set the pace for all bank directories.

For Banks and Bankers Everywhere

Thousands of Dollars...

FOR increased speed and facility of reading, you will find the latest statements of all United States banks shown in this and subsequent editions of your Blue Book in thousands of dollars only.

Thus, a bank with \$200,000 capital is shown as \$200, one with \$1,421,118 in deposits is shown as \$1,421.

Complete New Columnar Style

Eleven columns of figures in this edition replace eight in former ones. This new style, more costly to the publisher, but more valuable to the user, gives you three new columns of figures on every bank in the United States.

Important New Figures

Surplus and undivided profits are now divided into two columns, "Surplus" and "Undivided Profits and/or Reserves." Bond and investments are also broken down into two columns, "U. S. Government Securities" and "Other Securities."

Totals at a Glance

A "Totals" column separating the liabilities from the resources enables you to tell at a glance the combined resources or liabilities of any bank in the country. No other directory embodies this feature.

• • •

With these four major advances your Blue Book emphasizes its position as "America's Standard Financial Reference."

STANDARDIZE ON THE BANKERS DIRECTORY

STANDARDIZED equipment means efficiency and economy in bank operation. You probably know that every officer and employee of your bank who uses a bankers directory wants *The Bankers Directory*—Rand McNally's Blue Book. You will be following the precedent set by Executives of practically all important American banks when you standardize on the Bankers Directory for inside equipment, outside information and inter-bank publicity.

Table with columns: TOWN AND COUNTY, PRESIDENT, VICE-PRESIDENT, CASHIER, ASS'T CASHIER, LIABILITIES (Capital, Surplus, Und. Prof. and Reserves, Deposits, Other Liabilities, Totals), RESOURCES (Cash Ex. & Due from Bks, U.S. Gov. **For Banks and

Thousands of Dollars...

FOR increased speed and facility of reading, you will find the latest statements of all United States banks shown in this and subsequent editions of your Blue Book in thousands of dollars only.

Thus, a bank with \$200,000 capital is shown as \$200, one with \$1,421,118 in deposits is shown as \$1,421.

Complete New Columnar Style

Eleven columns of figures in this edition replace eight in former ones. This new style, more costly to the publisher, but more valuable to the user, gives you three new columns of figures on every bank in the United States.

Important New Figures

Surplus and undivided profits are now divided into two columns, "Surplus" and "Undivided Profits and/or Reserves." Bond and investments are also broken down into two columns, "U. S. Government Securities" and "Other Securities."

Totals at a Glance

A "Totals" column separating the liabilities from the resources enables you to tell at a glance the combined resources or liabilities of any bank in the country. No other directory embodies this feature.

• • •

With these four major advances your Blue Book emphasizes its position as "America's Standard Financial Reference."

A Complete New Columnar Style

in this edition of your **Blue Book**

You now have eleven columns of data on every American bank—three more than in former editions of your Blue Book.

Figures in Thousands of Dollars

You will find all statements in this and subsequent editions listed in thousands of dollars only. A bank with \$100,000 capital is shown as \$100. An institution with \$1,250,101 in deposits is listed as \$1,250. This makes possible a quicker and easier reading and comparison of bank statements.

Undivided Profits and Reserves

Surplus and undivided profits now occupy two columns: "surplus" and "undivided profits and/or reserves."

U. S. Government Securities

Likewise, bonds and investments are divided into two columns, one showing the

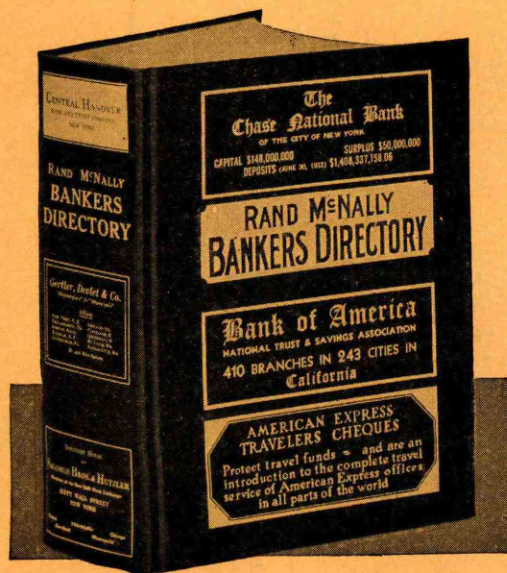

amount of funds invested in United States Government securities and the other showing the amount invested in other securities.

Totals Column

A "totals" column—separates the liabilities from the resources and shows at a glance the combined resources or liabilities of any American bank. No other bank directory embodies this essential index figure.

• • •

This new Blue Book revolutionizes all former methods of presenting banking data. Its four major improvements give you added figures on each bank—more conveniently arranged, permitting you to quickly compare the relative conditions as to each item of all banks in any given state or city.

Rand McNally Bankers Directory **The Bankers Blue Book**

Number under Name of Bank is the New Transit Number given to each bank in U. S. exclusively by The Rand-McNally Bankers' Directory, under the authority of The American Bankers Ass'n.

NEBRASKA Map on Index

Banks Advertising in this Directory give Prompt Attention to Collections and Correspondence

Thousands of Dollars . . .

FOR increased speed and facility of reading, you will find the latest statements of all United States banks shown in this and subsequent editions of your Blue Book in thousands of dollars only.

Thus, a bank with \$200,000 capital is shown as \$200, one with \$1,421,118 in deposits is shown as \$1,421.

Complete New Columnar Style

Eleven columns of figures in this edition replace eight in former ones. This new style, more costly to the publisher, but more valuable to the user, gives you three new columns of figures on every bank in the United States.

Important New Figures

Surplus and undivided profits are now divided into two columns, "Surplus" and "Undivided Profits and/or Reserves." Bond and investments are also broken down into two columns, "U. S. Government Securities" and "Other Securities."

Totals at a Glance

A "Totals" column separating the liabilities from the resources enables you to tell at a glance the combined resources or liabilities of any bank in the country. No other directory embodies this feature.

. . .

With these four major advances your Blue Book emphasizes its position as "America's Standard Financial Reference."

Thousands of Dollars...

FOR increased speed and facility of reading, you will find the latest statements of all United States banks shown in this and subsequent editions of your Blue Book in thousands of dollars only.

Thus, a bank with \$200,000 capital is shown as \$200, one with \$1,421,118 in deposits is shown as \$1,421.

Complete New Columnar Style

Eleven columns of figures in this edition replace eight in former ones. This new style, more costly to the publisher, but more valuable to the user, gives you three new columns of figures on every bank in the United States.

Important New Figures

Surplus and undivided profits are now divided into two columns, "Surplus" and "Undivided Profits and/or Reserves." Bond and investments are also broken down into two columns, "U. S. Government Securities" and "Other Securities."

Totals at a Glance

A "Totals" column separating the liabilities from the resources enables you to tell at a glance the combined resources or liabilities of any bank in the country. No other directory embodies this feature.

• • •

With these four major advances your Blue Book emphasizes its position as "America's Standard Financial Reference."

Blue Book Attorneys Cover the World

Dunedin is a small town on the east coast of the southern island of New Zealand, the last post of civilization visited by Admiral Byrd in 1928 before leaving on the final lap of his first trip to the south pole.

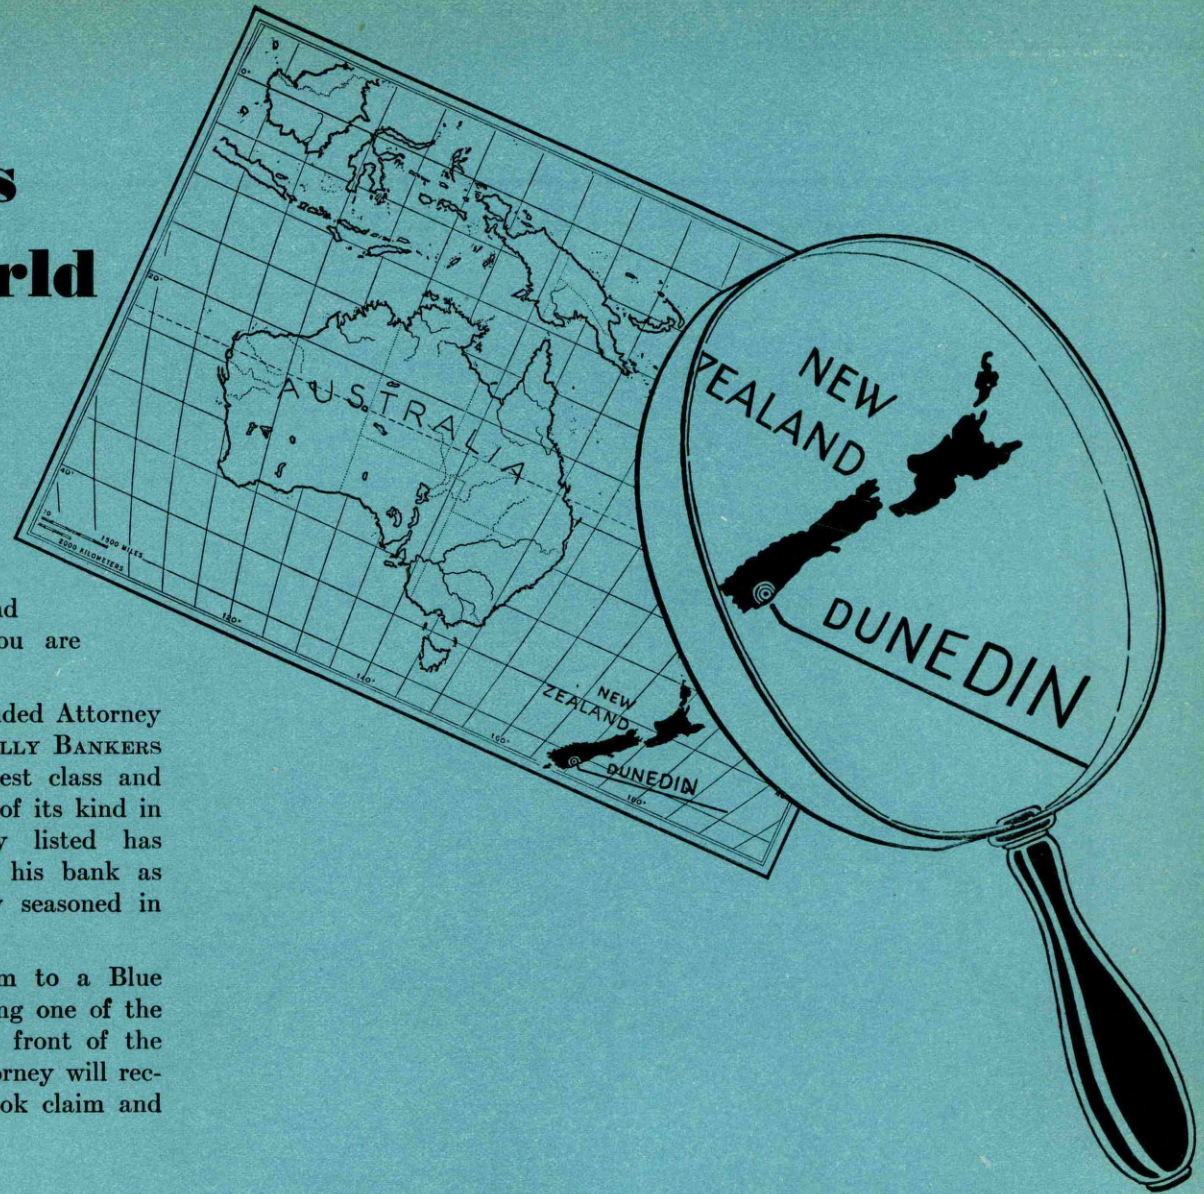

It is an out-of-the-way place to have a collection. But, if you have one there, Messrs. Duncan and MacGregor, Blue Book Attorneys recommended as competent to handle all legal-financial matters referred to that territory, will serve you promptly and efficiently.

In fact, there are Blue Book Attorneys all over the world. No matter whether you have pending legal business in Dunedin, New Zealand, Dunedin, Fla., or any other place, look for the town in the Bank Recommended Attorney section of your new Blue

Book and you will find the name of a reliable Attorney who will give you the same kind of service to which you are accustomed at home.

The Bank Recommended Attorney section of **RAND McNALLY BANKERS DIRECTORY** is the highest class and most complete law list of its kind in print. Every Attorney listed has been recommended by his bank as reliable and thoroughly seasoned in bank work.

Send your next claim to a Blue Book Attorney, attaching one of the blue coupons bound in front of the section. Then the Attorney will recognize it as a Blue Book claim and give it preference.

CHAIRMAN OF THE BOARD

The Kings National Bank

of

Washington, D. C.

CHARLES C. GLOVER, JR.
VICE-CHAIRMAN OF THE BOARD

ROBERT V. FLEMING
PRESIDENT

GEORGE O. VASS
VICE PRESIDENT AND CASHIER

Acknowledging the receipt of your letter of April 2nd, I am delighted to know that you approve of one of my advertising policies, and that is, to use the Bankers Directory in liberal doses. I am very much pleased with this new contract and believe it is money well invested.

I appreciate the kind expressions in your letter, and remain, with cordial regards,

Very truly yours,

GOV/EL

Vice President and Cashier.

This letter is in response to thanks we sent Mr. Vass for practically doubling his Blue Book business.

THE Rand M^cNally BANKERS DIRECTORY has more *advertisers* than its nearest competitor has *subscribers*. It has more *subscribers* than all other similar publications combined.

The BANKERS DIRECTORY (BLUE BOOK) has the most advertisers because of its overwhelming lead in circulation — maintained for more than half a century by its unyielding policy of absolute accuracy and dependability.

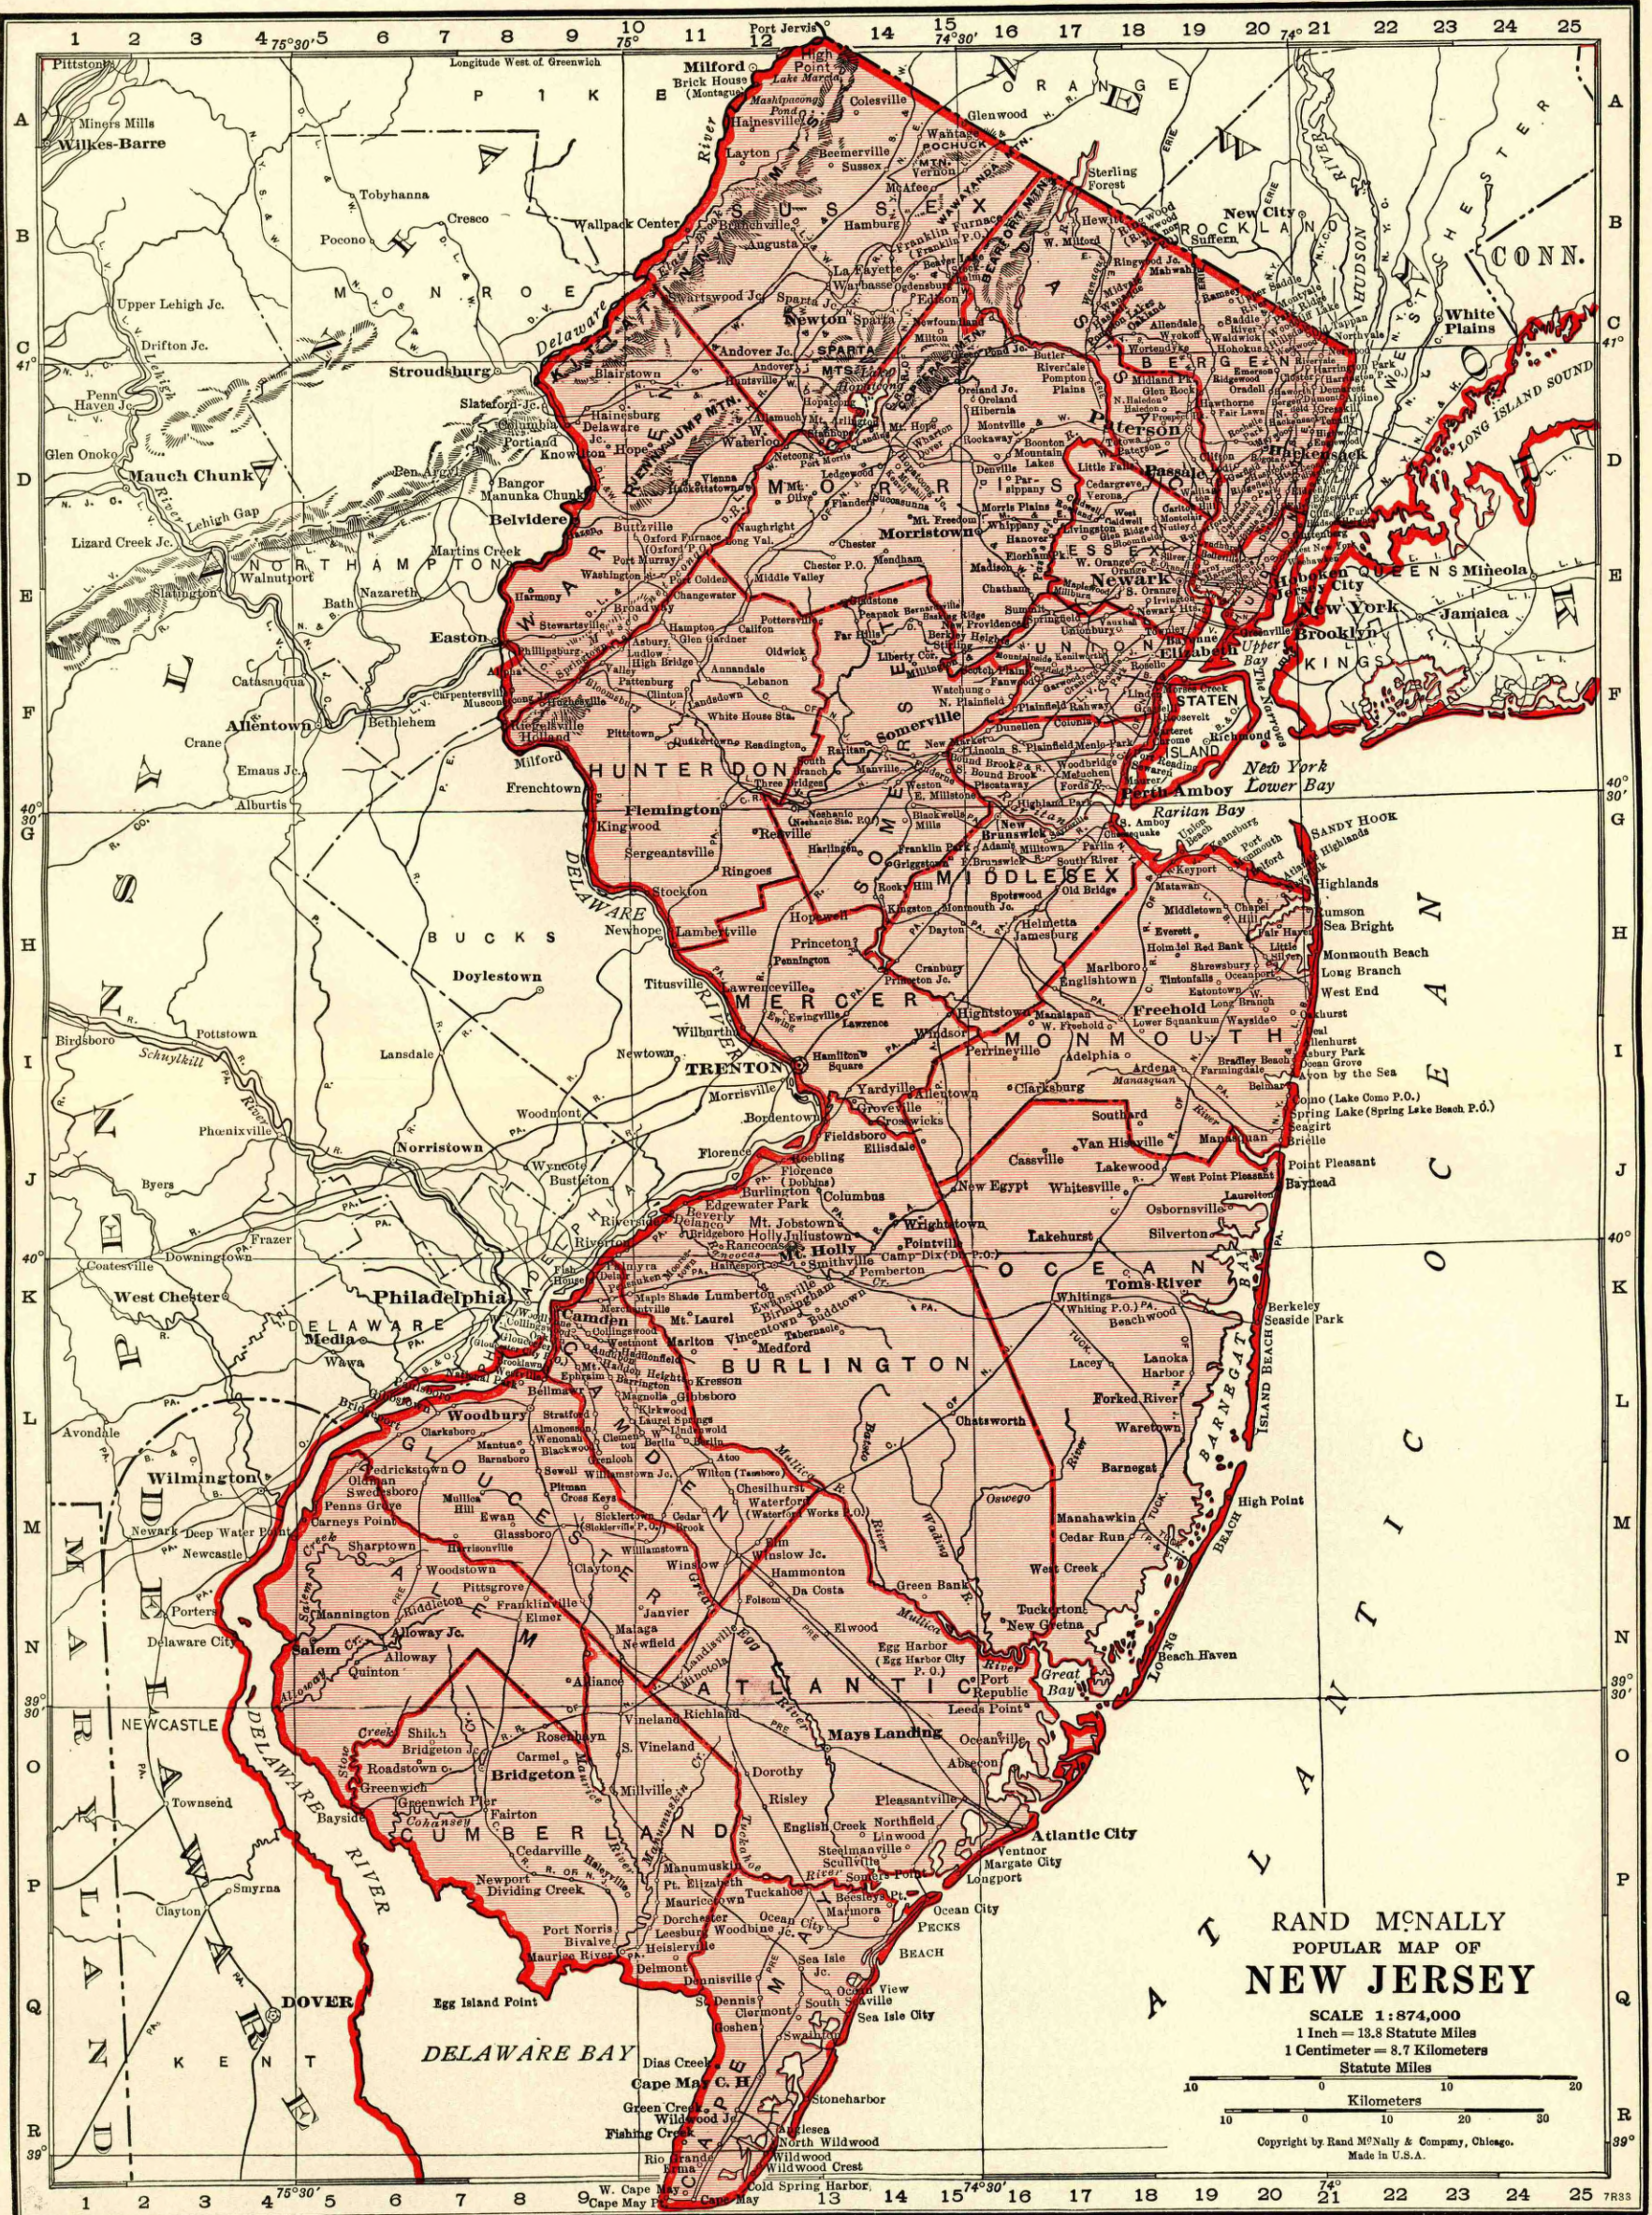

That is why *nine out of ten* who advertise in a bank directory use Rand M^cNally's. And why those who advertise in the BLUE BOOK "believe it is money well invested."

The valuable "indirect publicity" obtained
by the banks advertising in THE
RAND McNALLY BANKERS BLUE BOOK
actually costs the banks NOTHING

THE BANKERS DIRECTORY is used by thousands of Commercial Houses, Security Dealers, Lawyers and Banks to send their business directly to these advertisers, with the results that the advertising banks actually make in profits on the Bill of Lading Drafts, Notes, Collections, etc., etc., sent to them more than they pay for the space itself—the resultant unequaled Prestige, "Indirect Publicity" actually costing nothing.

For 61 years, America's leading Financial Institutions, *Country Banks*, as well as Reserve City Banks, have advertised regularly and consistently in the Blue Book and the number of advertisers increases each year.

Your Bank should be prominently displayed and "stand out" among the banks of your city in the Blue Book. Your prospective customers outside of your own locality must necessarily judge and form their opinion of your bank by the way you "show up" in the Blue Book. They naturally do not know you personally or are able to see your

attractive Banking Room and Building, which things attract your local patronage.

No obligation on your part if you write us today about "Bold-Faced Type" for your bank in the next edition of the Blue Book. Neither is it necessary to subscribe to the Book in order to advertise in it.

FIDELITY UNION TRUST COMPANY — NEWARK — New Jersey's Largest Bank

A Complete New Columnar Style

in this edition of your Blue Book

You now have eleven columns of data on every American bank—three more than in former editions of your Blue Book.

Figures in Thousands of Dollars

You will find all statements in this and subsequent editions listed in thousands of dollars only. A bank with \$100,000 capital is shown as \$100. An institution with \$1,250,101 in deposits is listed as \$1,250. This makes possible a quicker and easier reading and comparison of bank statements.

Undivided Profits and Reserves

Surplus and undivided profits now occupy two columns: "surplus" and "undivided profits and/or reserves."

U. S. Government Securities

Likewise, bonds and investments are divided into two columns, one showing the

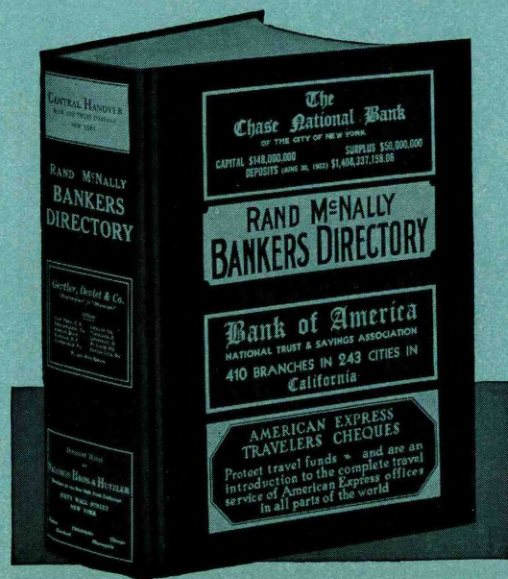

amount of funds invested in United States Government securities and the other showing the amount invested in other securities.

Totals Column

A "totals" column—separates the liabilities from the resources and shows at a glance the combined resources or liabilities of any American bank. No other bank directory embodies this essential index figure.

• • •

This new Blue Book revolutionizes all former methods of presenting banking data. Its four major improvements give you added figures on each bank—more conveniently arranged, permitting you to quickly compare the relative conditions as to each item of all banks in any given state or city.

Thousands of Dollars...

FOR increased speed and facility of reading, you will find the latest statements of all United States banks shown in this and subsequent editions of your Blue Book in thousands of dollars only.

Thus, a bank with \$200,000 capital is shown as \$200, one with \$1,421,118 in deposits is shown as \$1,421.

Complete New Columnar Style

Eleven columns of figures in this edition replace eight in former ones. This new style, more costly to the publisher, but more valuable to the user, gives you three new columns of figures on every bank in the United States.

Important New Figures

Surplus and undivided profits are now divided into two columns, "Surplus" and "Undivided Profits and/or Reserves." Bond and investments are also broken down into two columns, "U. S. Government Securities" and "Other Securities."

Totals at a Glance

A "Totals" column separating the liabilities from the resources enables you to tell at a glance the combined resources or liabilities of any bank in the country. No other directory embodies this feature.

• • •

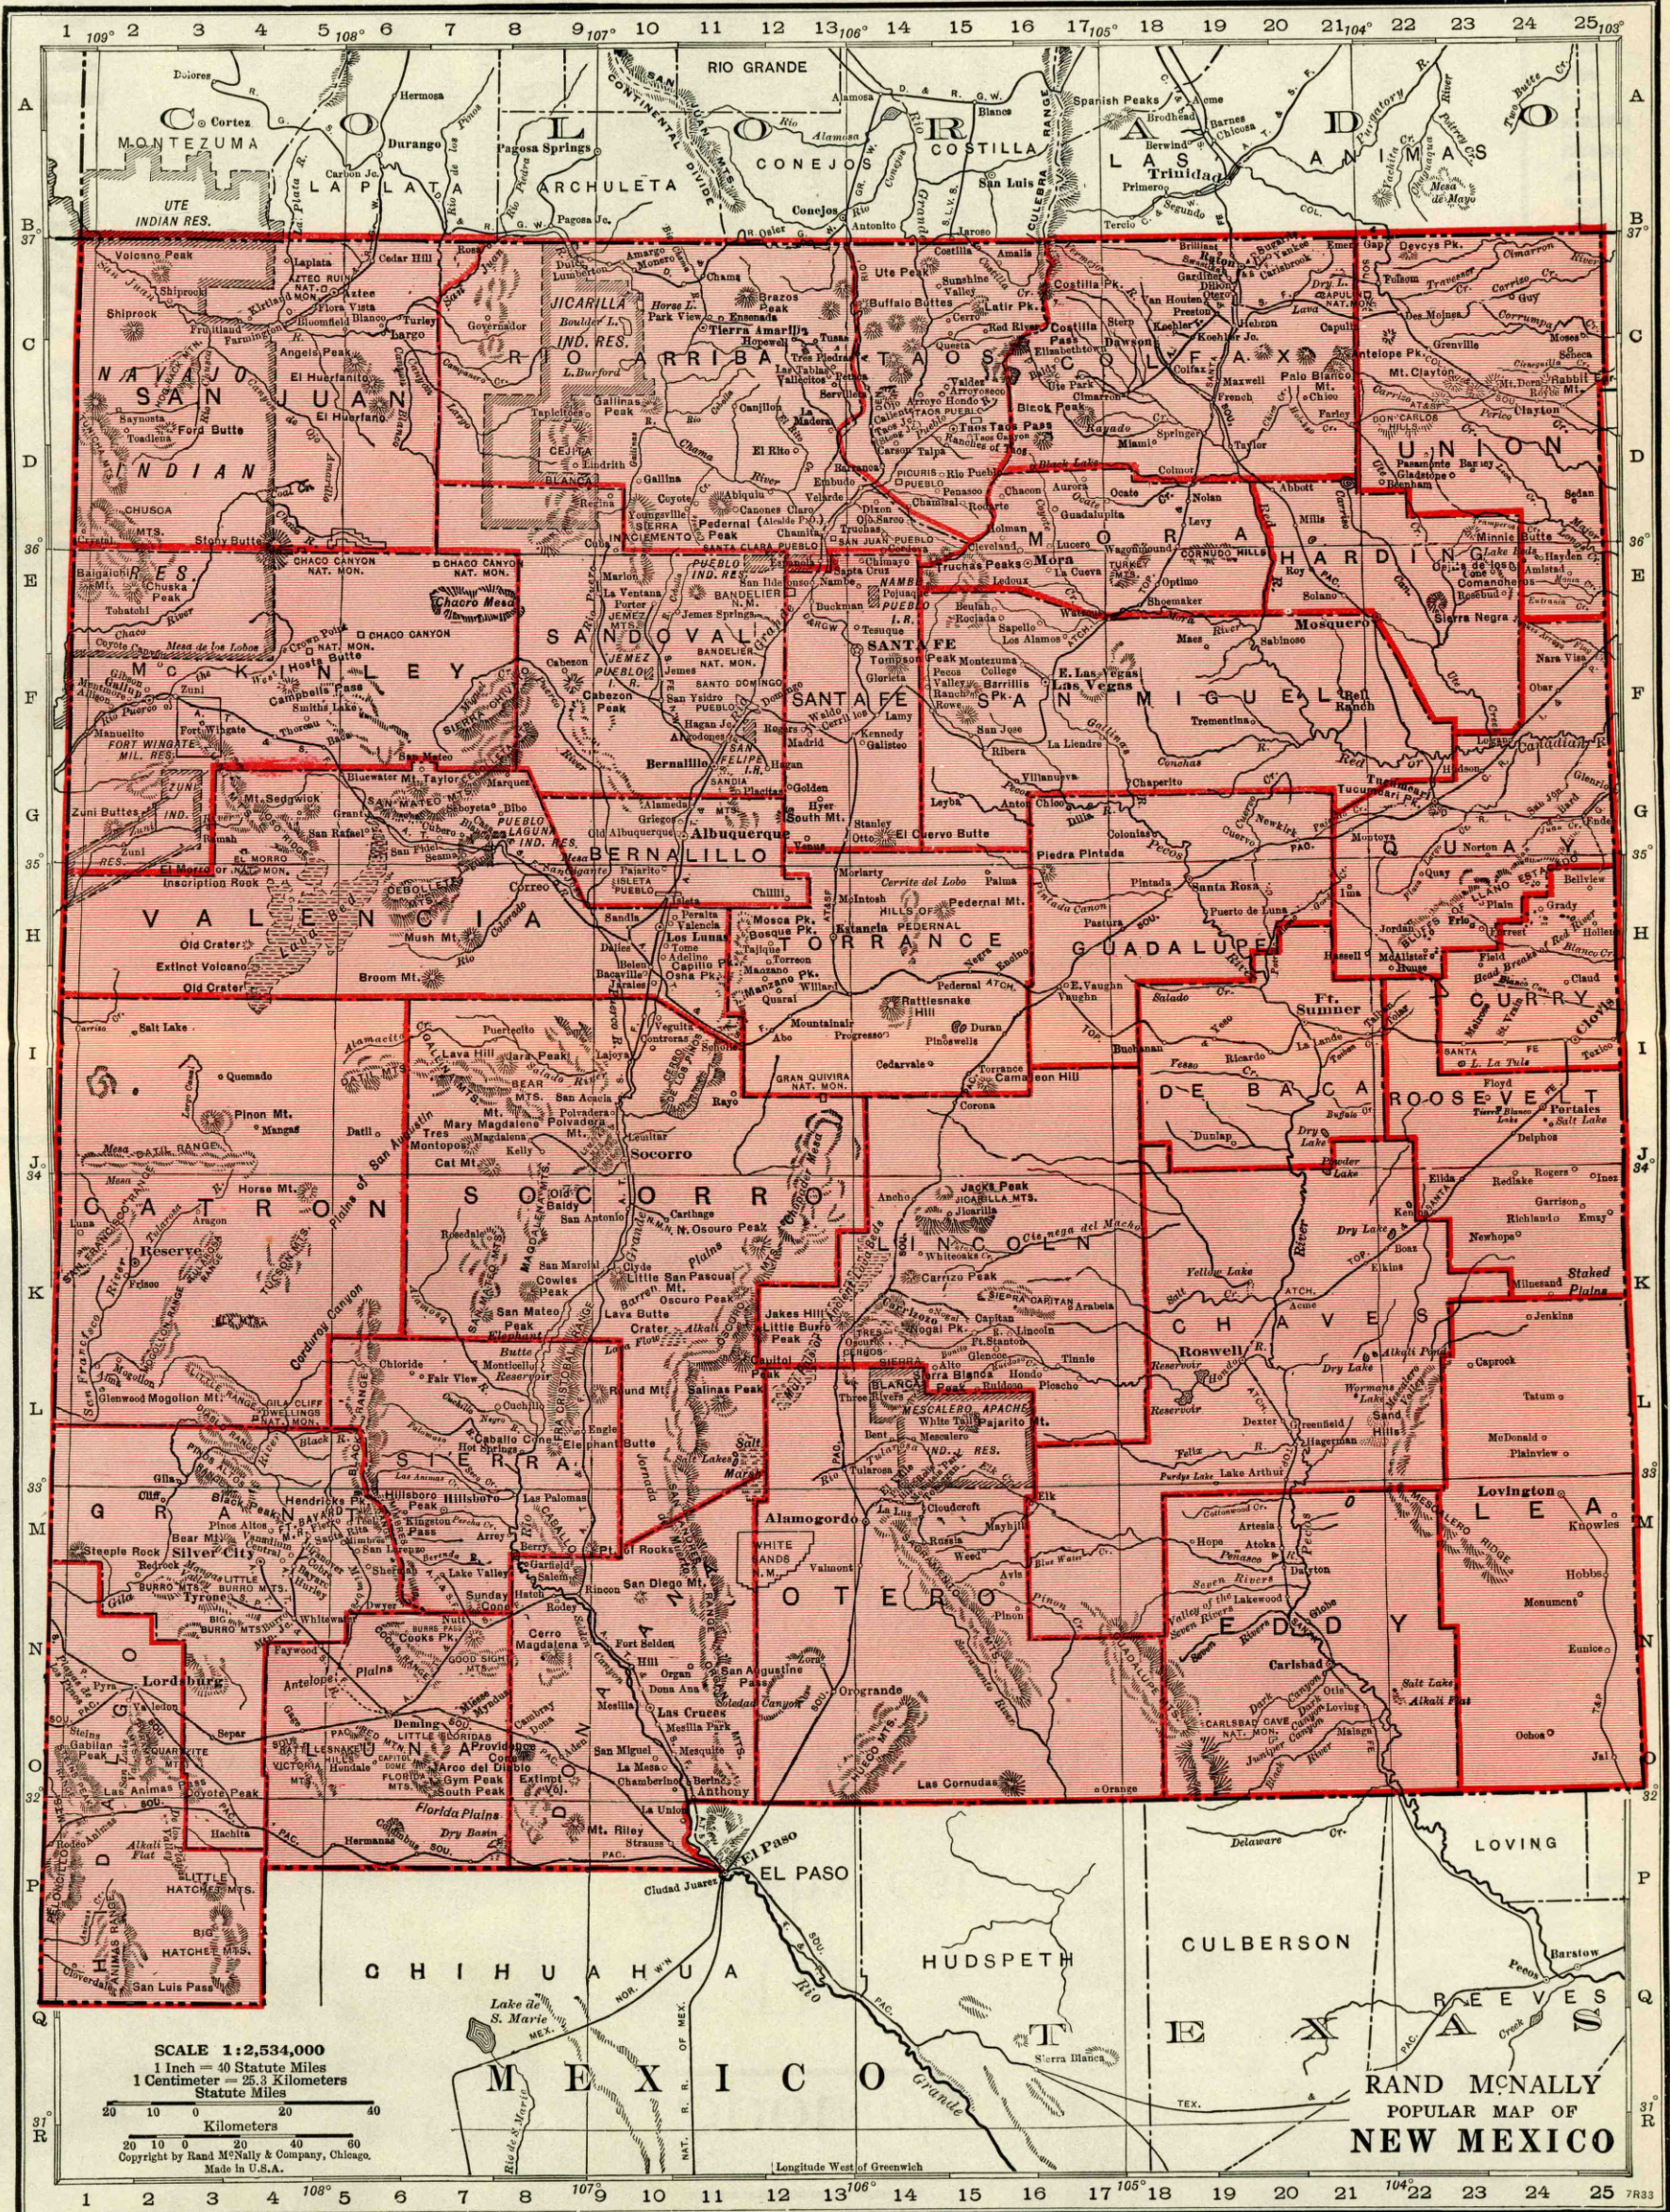

With these four major advances your Blue Book emphasizes its position as "America's Standard Financial Reference."
