A Complete New Columnar Style

in this edition of your Blue Book

You now have eleven columns of data on every American bank—three more than in former editions of your Blue Book.

Figures in Thousands of Dollars

You will find all statements in this and subsequent editions listed in thousands of dollars only. A bank with \$100,000 capital is shown as \$100. An institution with \$1,250,101 in deposits is listed as \$1,250. This makes possible a quicker and easier reading and comparison of bank statements.

Undivided Profits and Reserves

Surplus and undivided profits now occupy two columns: "surplus" and "undivided profits and/or reserves."

U. S. Government Securities

Likewise, bonds and investments are divided into two columns, one showing the

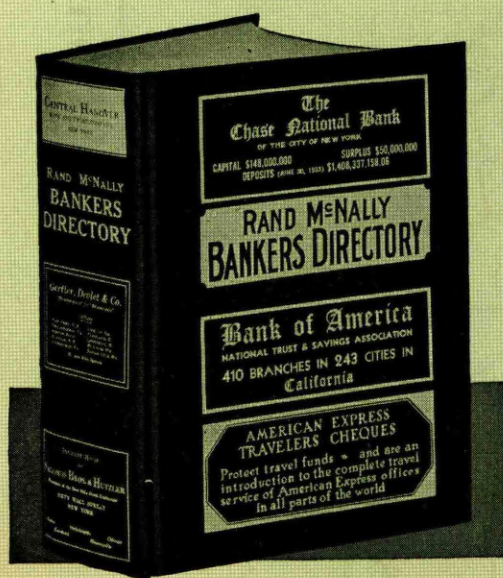

amount of funds invested in United States Government securities and the other showing the amount invested in other securities.

Totals Column

A "totals" column—separates the liabilities from the resources and shows at a glance the combined resources or liabilities of any American bank. No other bank directory embodies this essential index figure.

This new Blue Book revolutionizes all former methods of presenting banking data. Its four major improvements give you added figures on each bank—more conveniently arranged, permitting you to quickly compare the relative conditions as to each item of all banks in any given state or city.

A Complete New Columnar Style

in this edition of your Blue Book

You now have eleven columns of data on every American bank—three more than in former editions of your Blue Book.

Figures in Thousands of Dollars

You will find all statements in this and subsequent editions listed in thousands of dollars only. A bank with \$100,000 capital is shown as \$100. An institution with \$1,250,101 in deposits is listed as \$1,250. This makes possible a quicker and easier reading and comparison of bank statements.

Undivided Profits and Reserves

Surplus and undivided profits now occupy two columns: "surplus" and "undivided profits and/or reserves."

U. S. Government Securities

Likewise, bonds and investments are divided into two columns, one showing the

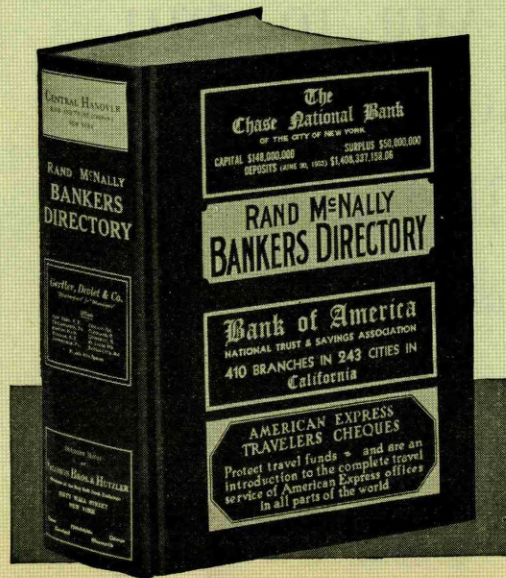

amount of funds invested in United States Government securities and the other showing the amount invested in other securities.

Totals Column

A "totals" column—separates the liabilities from the resources and shows at a glance the combined resources or liabilities of any American bank. No other bank directory embodies this essential index figure.

This new Blue Book revolutionizes all former methods of presenting banking data. Its four major improvements give you added figures on each bank—more conveniently arranged, permitting you to quickly compare the relative conditions as to each item of all banks in any given state or city.

Thousands of Dollars...

FOR increased speed and facility of reading, you will find the latest statements of all United States banks shown in this and subsequent editions of your Blue Book in thousands of dollars only.

Thus, a bank with \$200,000 capital is shown as \$200, one with \$1,421,118 in deposits is shown as \$1,421.

Complete New Columnar Style

Eleven columns of figures in this edition replace eight in former ones. This new style, more costly to the publisher, but more valuable to the user, gives you three new columns of figures on every bank in the United States.

Important New Figures

Surplus and undivided profits are now divided into two columns, "Surplus" and "Undivided Profits and/or Reserves." Bond and investments are also broken down into two columns, "U. S. Government Securities" and "Other Securities."

Totals at a Glance

A "Totals" column separating the liabilities from the resources enables you to tell at a glance the combined resources or liabilities of any bank in the country. No other directory embodies this feature.

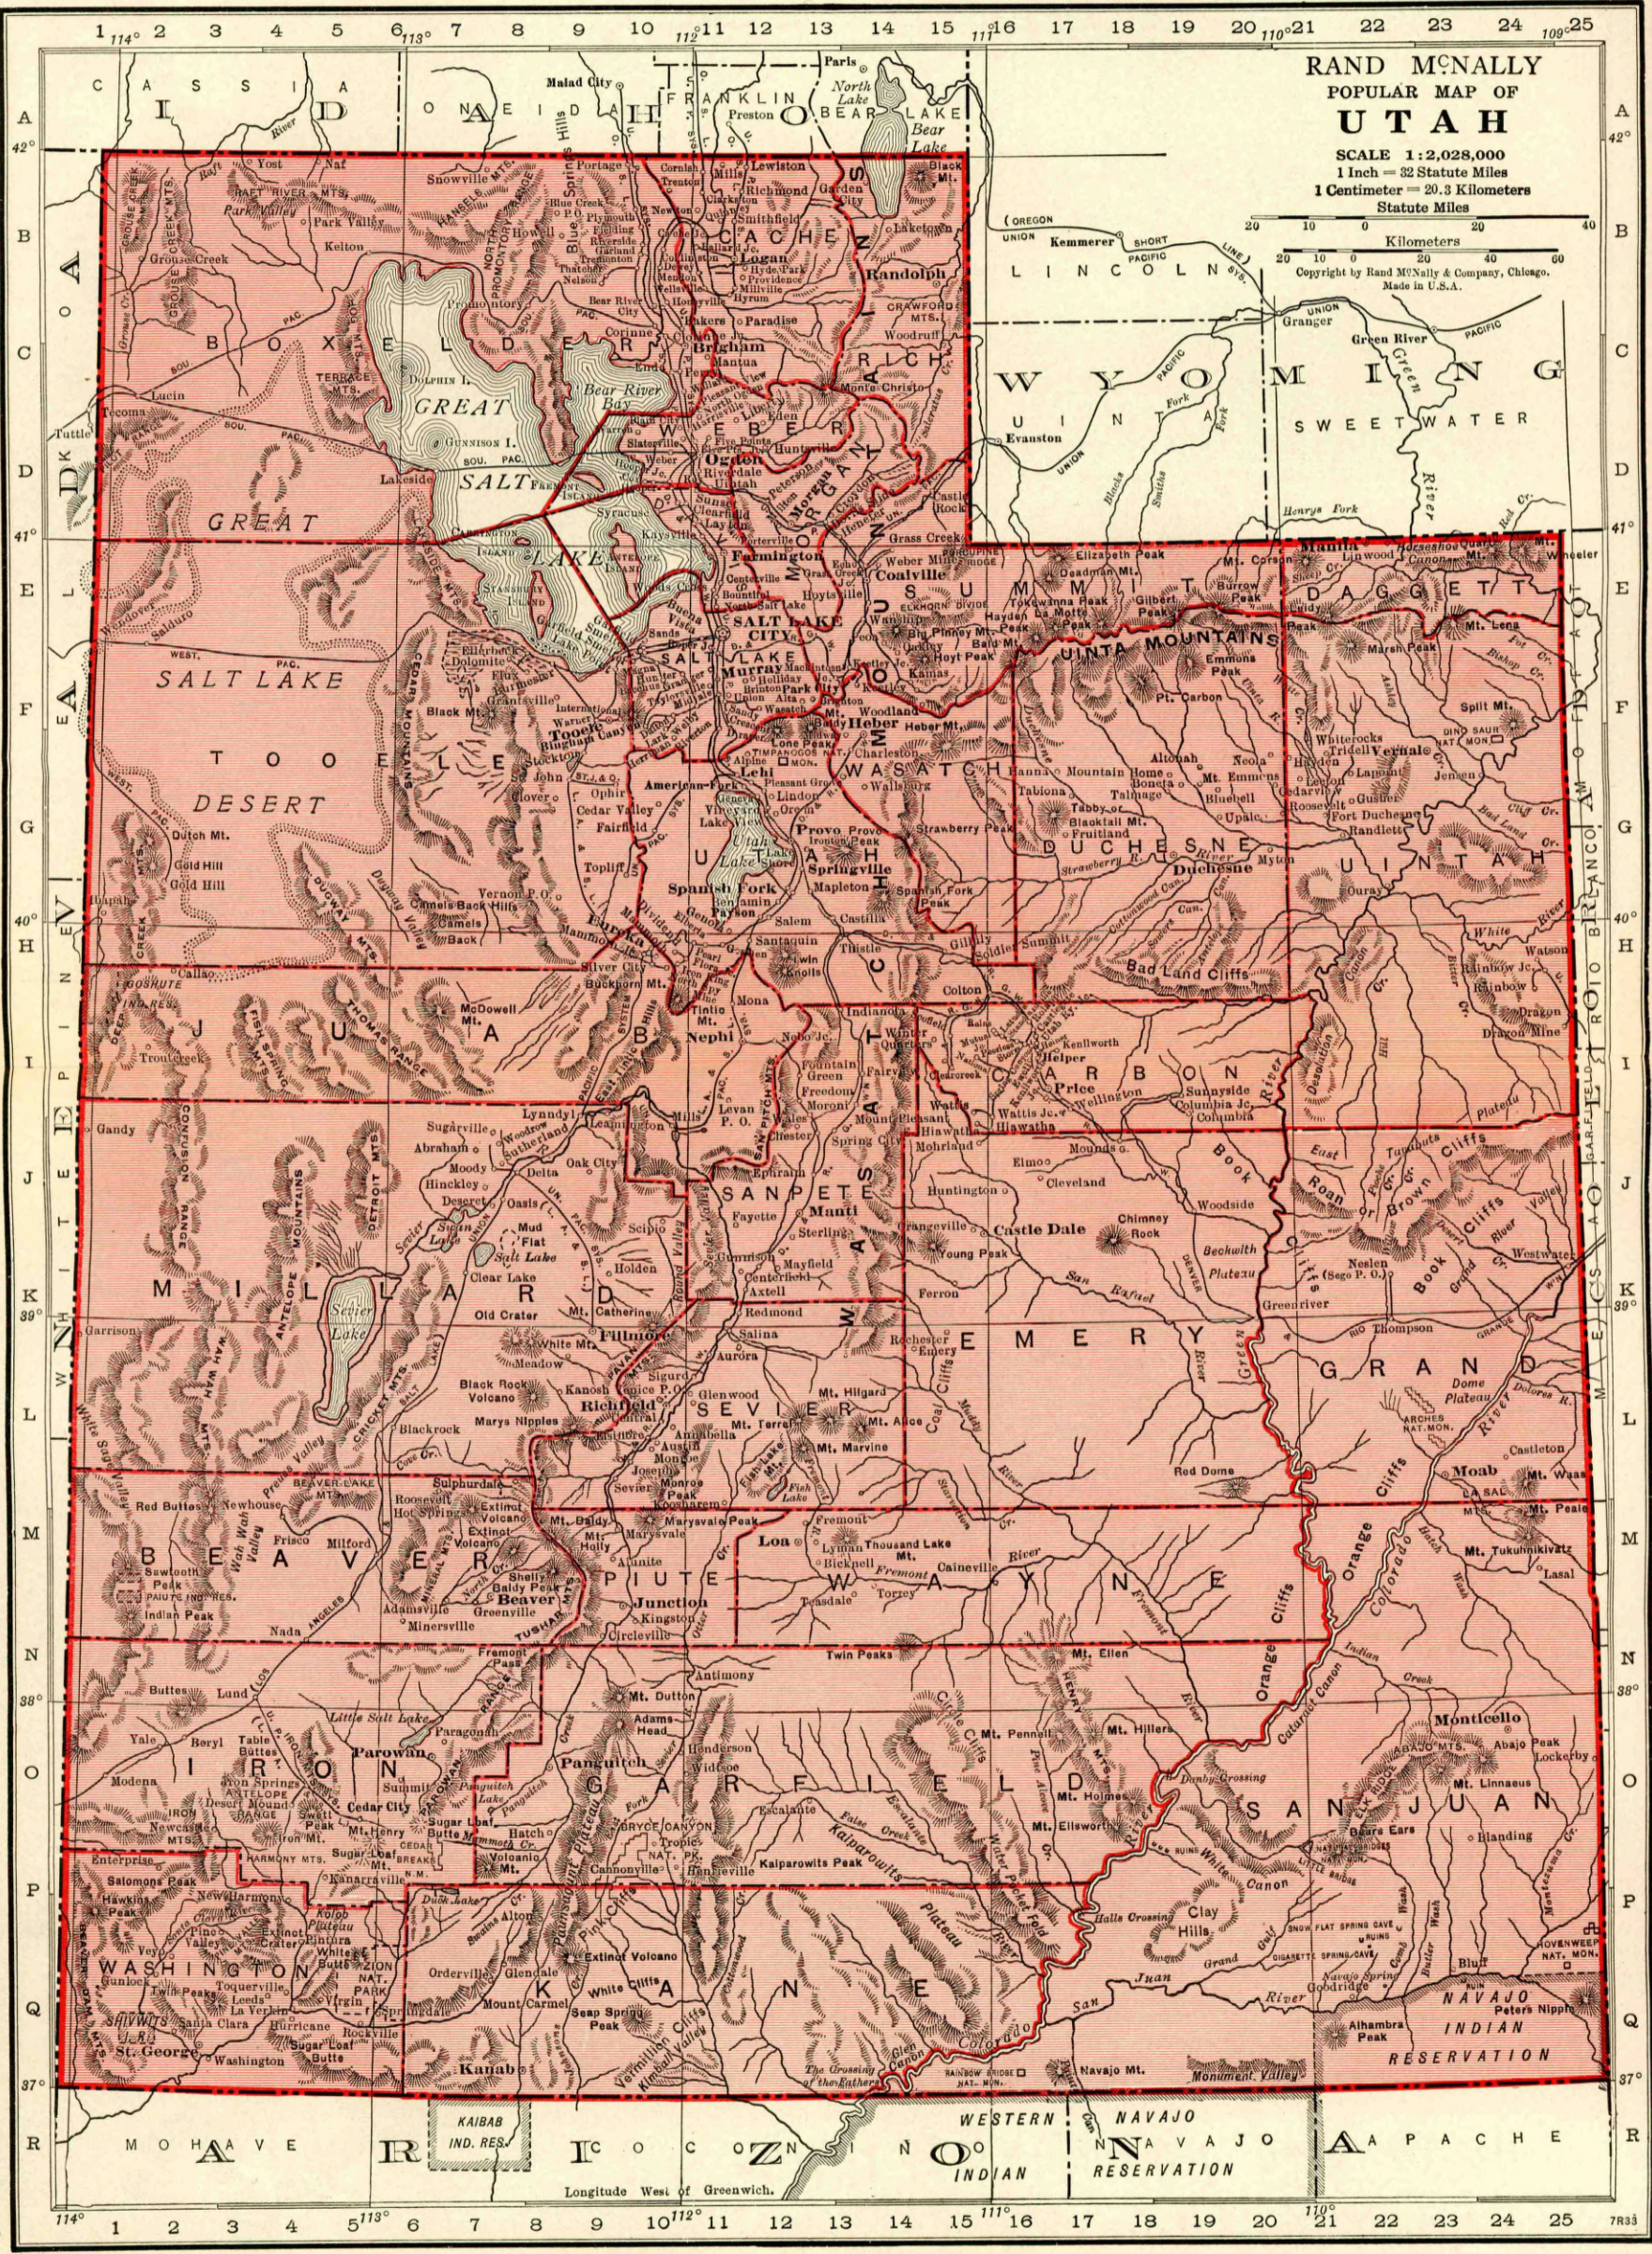

• • •

With these four major advances your Blue Book emphasizes its position as "America's Standard Financial Reference."

*This attorney is competent and reliable
and I recommend him to the
bankers of America*

A directory of attorneys . . . one for each county in the United States . . . and every attorney recommended by a banker.

The only basis for these banker recommendations is satisfactory performance. These attorneys are actually handling bank matters with firmness, discretion and dispatch. Nearly every mail brings a number of enthusiastic letters from bankers who use this directory of Bank Recommended Attorneys regularly and often.

If you are not using Bank Recommended Attorneys, you are not experiencing the legal service it is possible for a banker to enjoy. And the directory of Bank Recommended Attorneys is right at your elbow . . . it's a valuable part of your BANKERS DIRECTORY (BLUE BOOK).

Use this attorney directory for your out-of-town legal business.

☞ It is the duty of every bank officer to use time efficiently.

☞ See that you have a BLUE BOOK always at your elbow. It will more than pay its costs by saving your time—to say nothing of increasing your efficiency.

☞ In your daily work, remember—if *what you want to know has anything to do with banking, you will find it in the BANKERS DIRECTORY.*

A Complete New Columnar Style in this edition of your **Blue Book**

You now have eleven columns of data on every American bank—three more than in former editions of your Blue Book.

Figures in Thousands of Dollars

You will find all statements in this and subsequent editions listed in thousands of dollars only. A bank with \$100,000 capital is shown as \$100. An institution with \$1,250,101 in deposits is listed as \$1,250. This makes possible a quicker and easier reading and comparison of bank statements.

Undivided Profits and Reserves

Surplus and undivided profits now occupy two columns: "surplus" and "undivided profits and/or reserves."

U. S. Government Securities

Likewise, bonds and investments are divided into two columns, one showing the

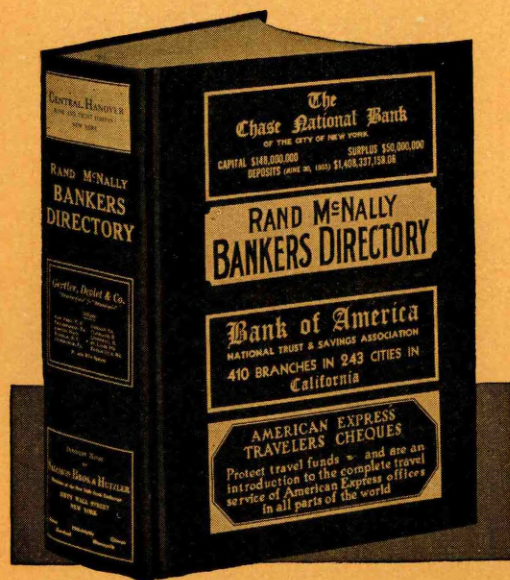

amount of funds invested in United States Government securities and the other showing the amount invested in other securities.

Totals Column

A "totals" column—separates the liabilities from the resources and shows at a glance the combined resources or liabilities of any American bank. No other bank directory embodies this essential index figure.

• • •

This new Blue Book revolutionizes all former methods of presenting banking data. Its four major improvements give you added figures on each bank—more conveniently arranged, permitting you to quickly compare the relative conditions as to each item of all banks in any given state or city.

Thousands of Dollars...

FOR increased speed and facility of reading, you will find the latest statements of all United States banks shown in this and subsequent editions of your Blue Book in thousands of dollars only.

Thus, a bank with \$200,000 capital is shown as \$200, one with \$1,421,118 in deposits is shown as \$1,421.

Complete New Columnar Style

Eleven columns of figures in this edition replace eight in former ones. This new style, more costly to the publisher, but more valuable to the user, gives you three new columns of figures on every bank in the United States.

Important New Figures

Surplus and undivided profits are now divided into two columns, "Surplus" and "Undivided Profits and/or Reserves." Bond and investments are also broken down into two columns, "U. S. Government Securities" and "Other Securities."

Totals at a Glance

A "Totals" column separating the liabilities from the resources enables you to tell at a glance the combined resources or liabilities of any bank in the country. No other directory embodies this feature.

• • •

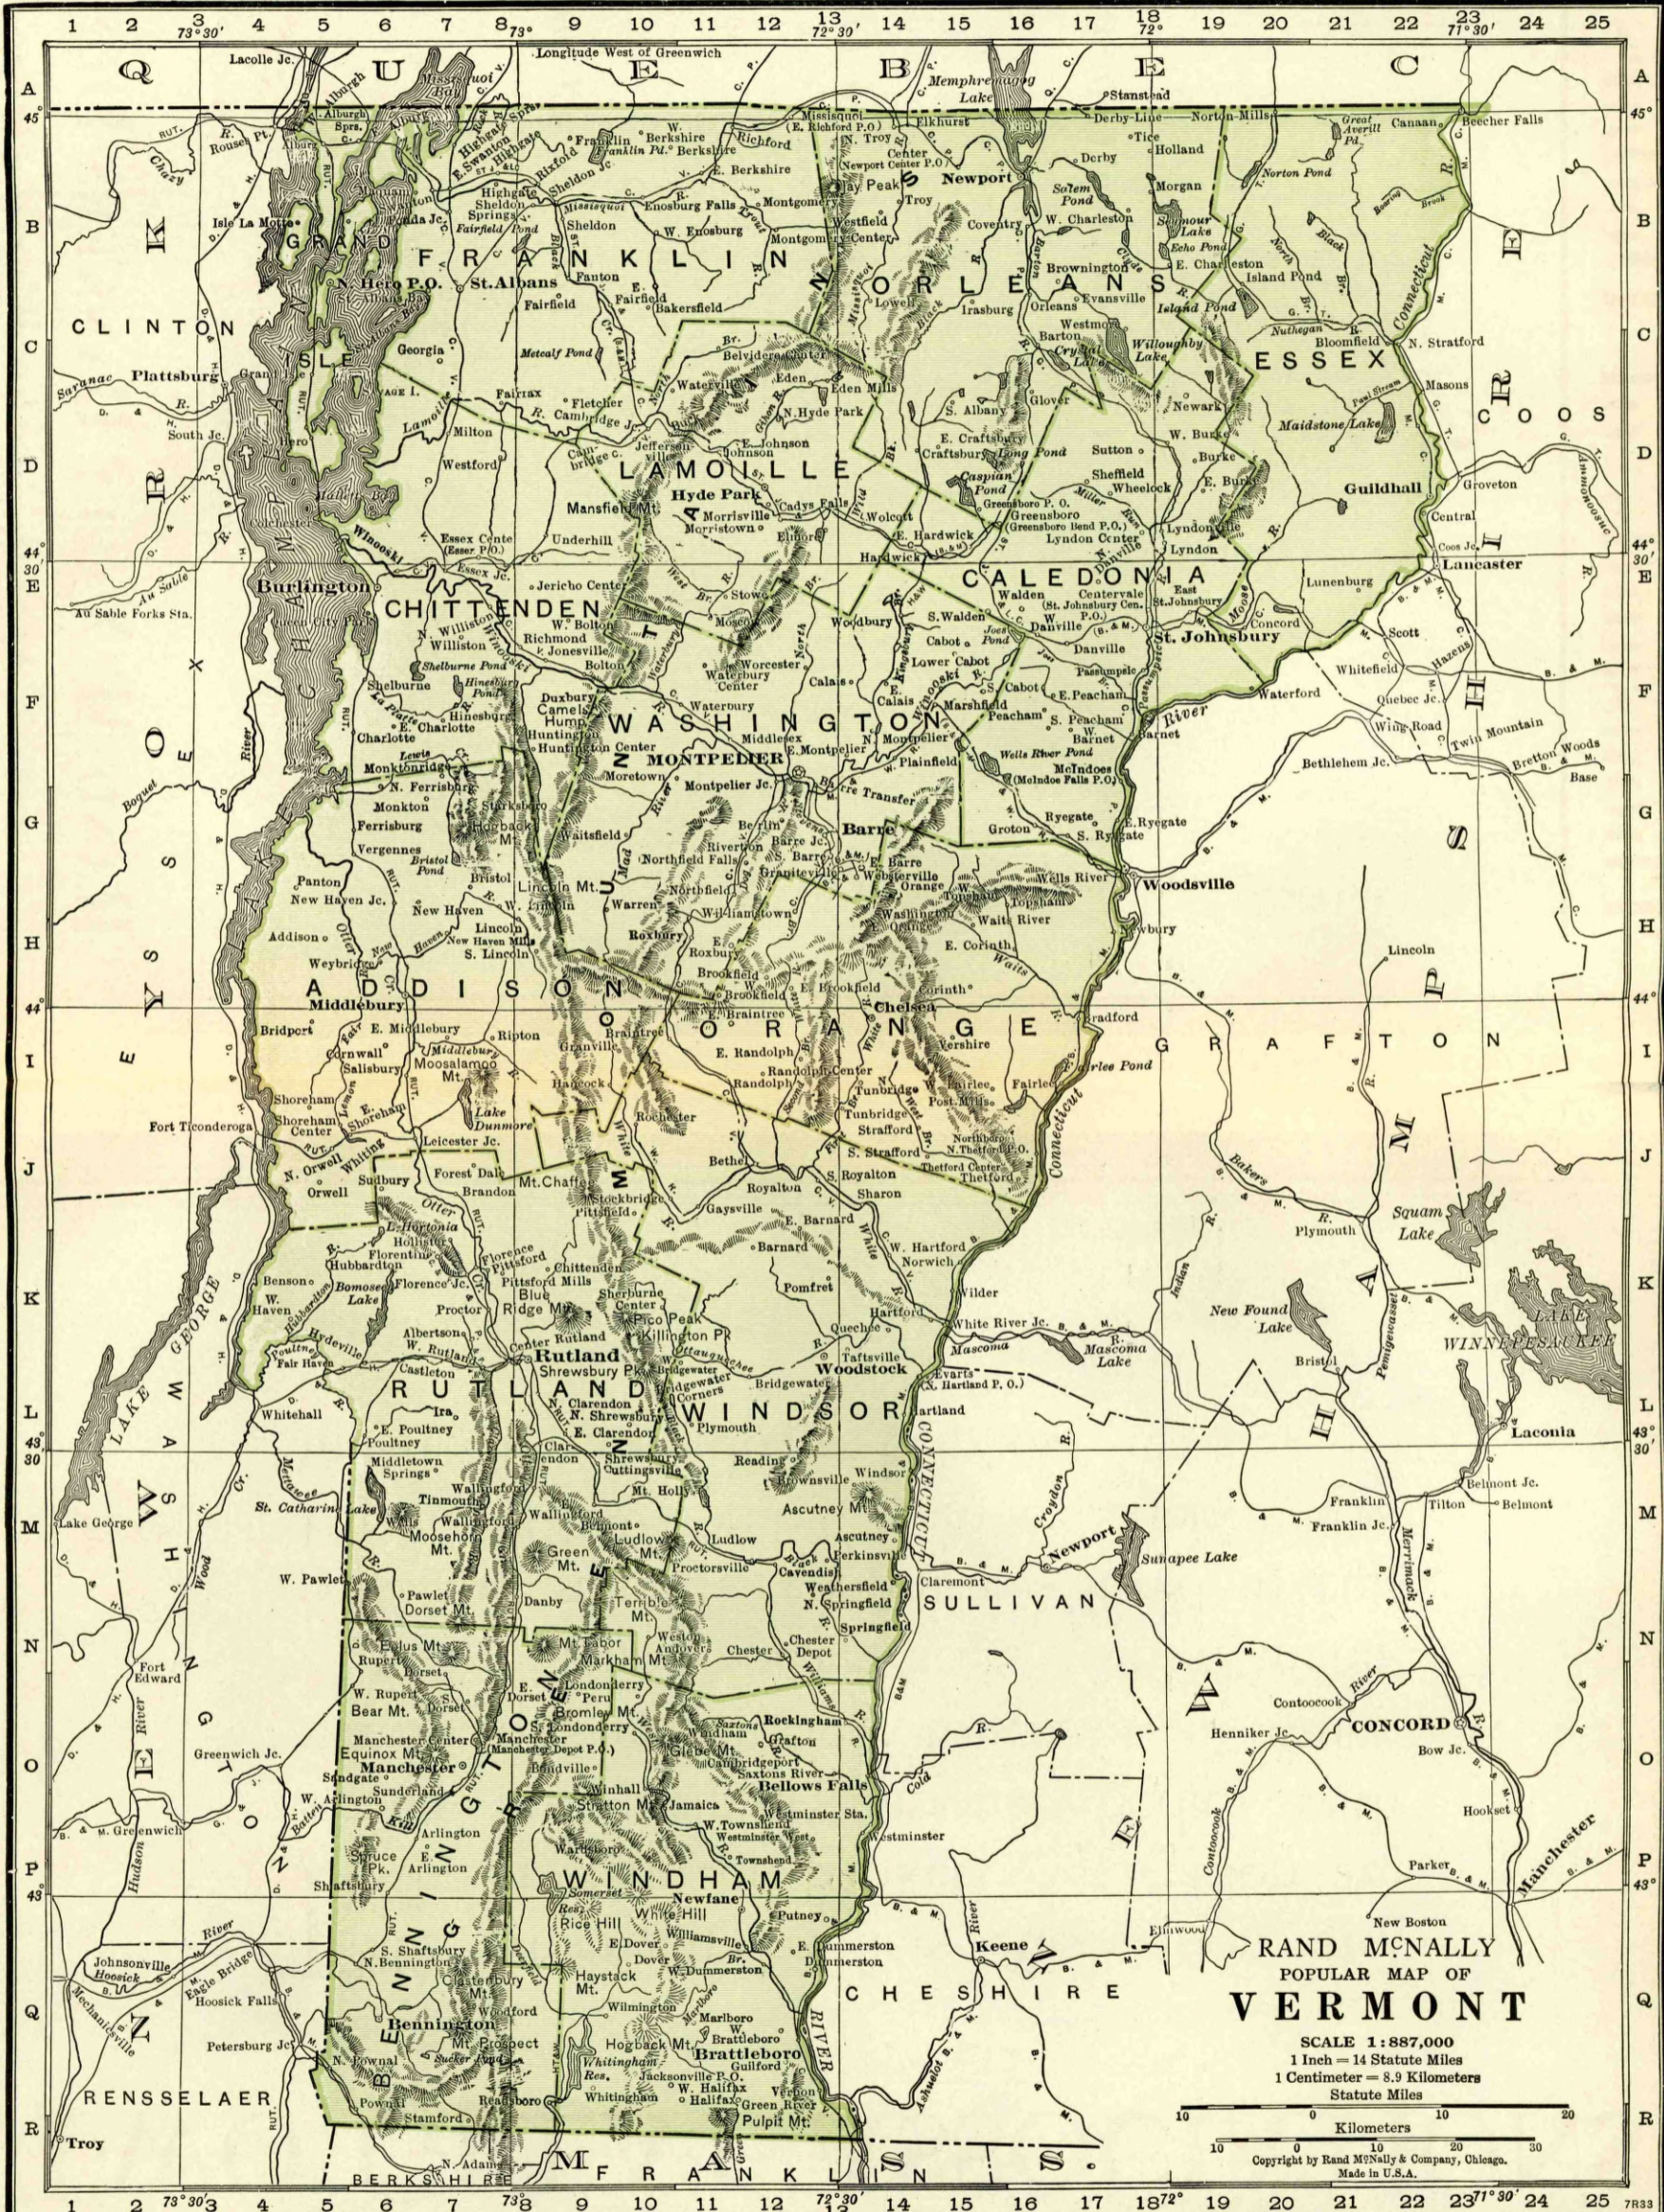

With these four major advances your Blue Book emphasizes its position as "America's Standard Financial Reference."

Thousands of Dollars...

FOR increased speed and facility of reading, you will find the latest statements of all United States banks shown in this and subsequent editions of your Blue Book in thousands of dollars only.

Thus, a bank with \$200,000 capital is shown as \$200, one with \$1,421,118 in deposits is shown as \$1,421.

Complete New Columnar Style

Eleven columns of figures in this edition replace eight in former ones. This new style, more costly to the publisher, but more valuable to the user, gives you three new columns of figures on every bank in the United States.

Important New Figures

Surplus and undivided profits are now divided into two columns, "Surplus" and "Undivided Profits and/or Reserves." Bond and investments are also broken down into two columns, "U. S. Government Securities" and "Other Securities."

Totals at a Glance

A "Totals" column separating the liabilities from the resources enables you to tell at a glance the combined resources or liabilities of any bank in the country. No other directory embodies this feature.

• • •

With these four major advances your Blue Book emphasizes its position as "America's Standard Financial Reference."

GUILFORD NATIONAL BANK
GREENSBORO, N. C.

June 11, 1934

Mr. H. F. Wintrol, Advertising Manager
Rand McNally Bankers Directory
536 South Clark Street
Chicago, Illinois

Dear Mr. Wintrol:

Your records will show that during my connection with the Cabarrus Bank & Trust Company, Concord, North Carolina, as Executive Vice President, we favored you with a contract for a page of space, which, incidentally, I regard as the most profitable advertising expenditure that we made. It should be of even more value to us in Greensboro under the circumstances.

Yours very truly,

W. L. BURNS,
President

WLB/bfb

THOUSANDS of other Blue Book advertisers, by renewing their schedules, have acclaimed the Bankers Directory a sound publicity investment.

Rand McNally Bankers Directory has more subscribers than all other bank directories combined. Through its pages you reach all of the directory users among the banks, investment houses and business organizations in America.

If your bank is equipped to handle additional out-of-town business in an efficient manner and does not advertise in the Blue Book now, write for our rates immediately. You will find that, based upon circulation, our rates are lower than any similar publication.

Thousands of Dollars...

FOR increased speed and facility of reading, you will find the latest statements of all United States banks shown in this and subsequent editions of your Blue Book in thousands of dollars only.

Thus, a bank with \$200,000 capital is shown as \$200, one with \$1,421,118 in deposits is shown as \$1,421.

Complete New Columnar Style

Eleven columns of figures in this edition replace eight in former ones. This new style, more costly to the publisher, but more valuable to the user, gives you three new columns of figures on every bank in the United States.

Important New Figures

Surplus and undivided profits are now divided into two columns, "Surplus" and "Undivided Profits and/or Reserves." Bond and investments are also broken down into two columns, "U. S. Government Securities" and "Other Securities."

Totals at a Glance

A "Totals" column separating the liabilities from the resources enables you to tell at a glance the combined resources or liabilities of any bank in the country. No other directory embodies this feature.

• • •

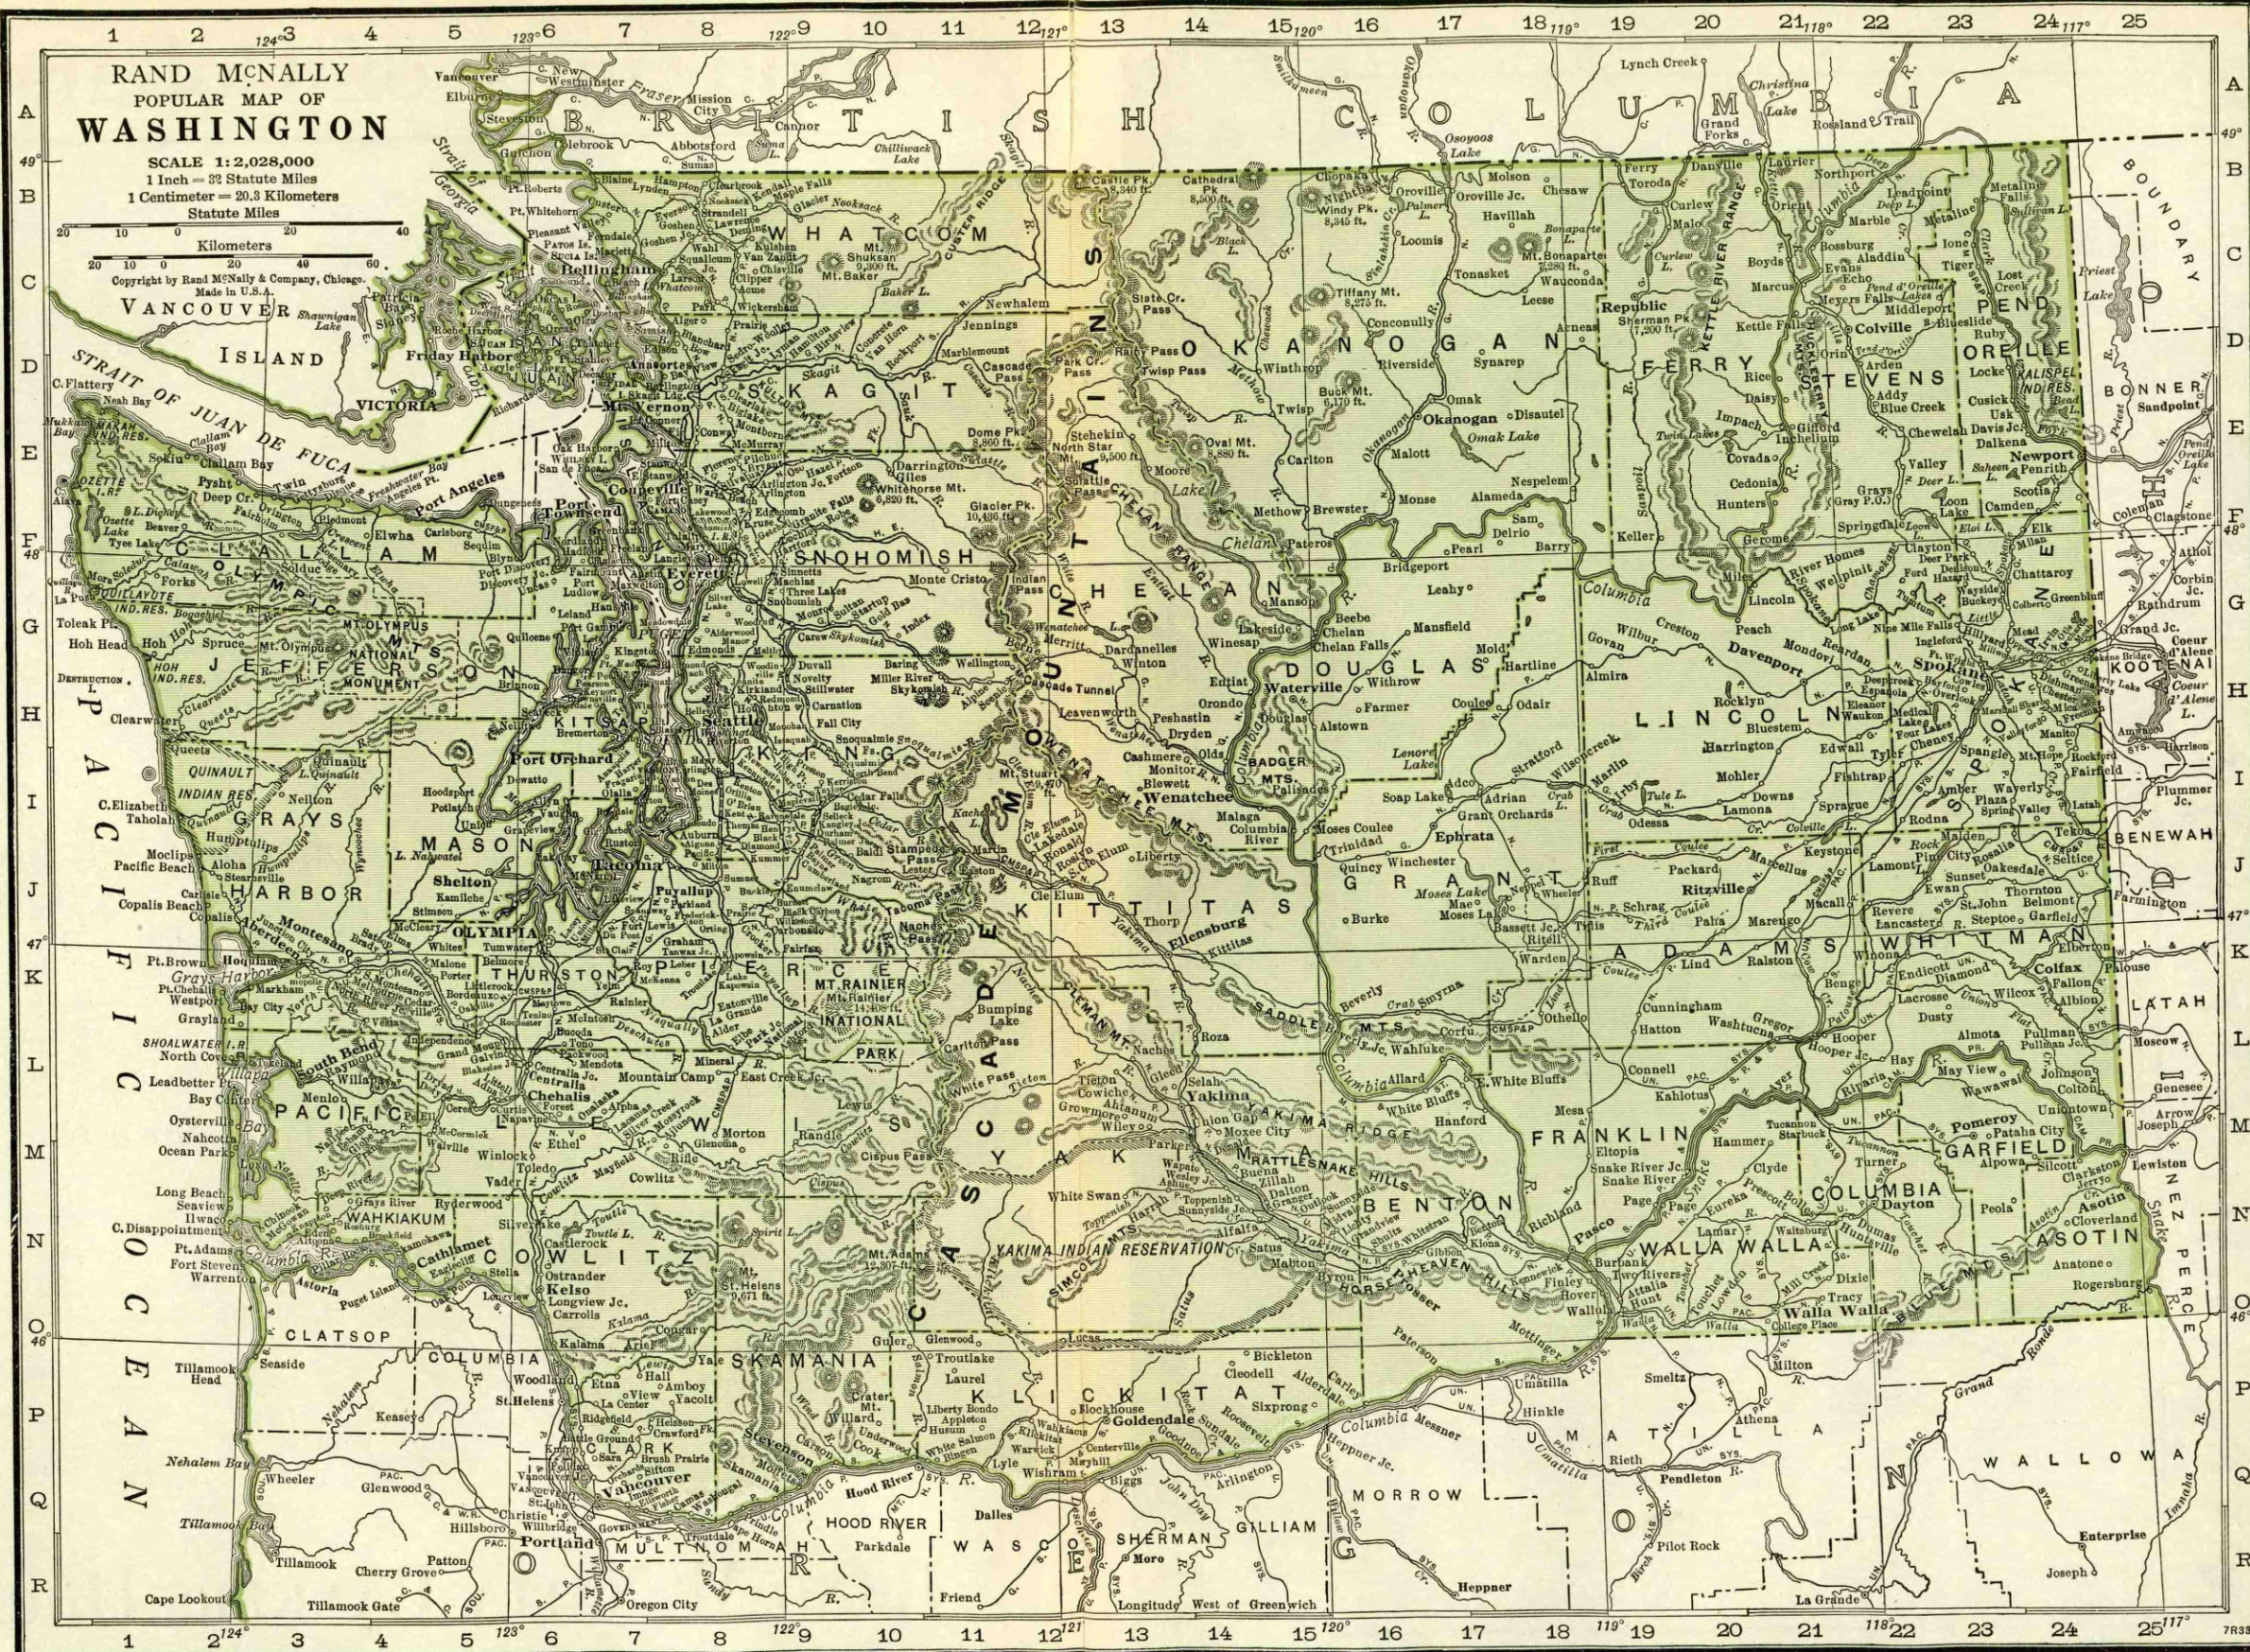

With these four major advances your Blue Book emphasizes its position as "America's Standard Financial Reference."

Save Money on Your Addressing

WE keep an accurate, up-to-date addressograph list of all the banks in the United States, corrected weekly. This list is at your service. If we can address your circulars, envelopes, fill in letters or "pull a proof" of it, you can have the service at a reasonable price and be assured that there will be no "come back" mail. Every name is live, active and kept so by careful attention.

If interested we should be glad to hear from you
and to quote prices and give other information.

Capital & Surplus - - \$2,500,000.00

ESTABLISHED 1867

NO hectic booms, no spectacular changes, no marked extremes of
 wealth or poverty—just a sound, healthy, continuous growth—that's
 the Great Kanawha Valley of West Virginia . . . Diversity of Industry
 and Commerce, and a backlog of well-distributed wealth, keep it on an
 even keel . . . Coal, Oil, Gas, Chemicals—for these it ranks foremost
 in the world . . . We are glad to have had the opportunity for the past
 67 years to work arm in arm with the forces largely responsible for the
 Progress of this Great Valley.

A Complete New Columnar Style in this edition of your Blue Book

You now have eleven columns of data on every American bank—three more than in former editions of your Blue Book.

Figures in Thousands of Dollars

You will find all statements in this and subsequent editions listed in thousands of dollars only. A bank with \$100,000 capital is shown as \$100. An institution with \$1,250,101 in deposits is listed as \$1,250. This makes possible a quicker and easier reading and comparison of bank statements.

Undivided Profits and Reserves

Surplus and undivided profits now occupy two columns: "surplus" and "undivided profits and/or reserves."

U. S. Government Securities

Likewise, bonds and investments are divided into two columns, one showing the

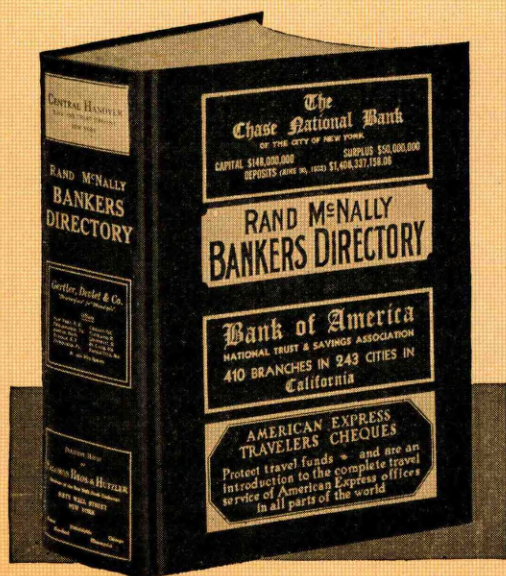

amount of funds invested in United States Government securities and the other showing the amount invested in other securities.

Totals Column

A "totals" column—separates the liabilities from the resources and shows at a glance the combined resources or liabilities of any American bank. No other bank directory embodies this essential index figure.

• • •

This new Blue Book revolutionizes all former methods of presenting banking data. Its four major improvements give you added figures on each bank—more conveniently arranged, permitting you to quickly compare the relative conditions as to each item of all banks in any given state or city.

This Section

Makes Your Blue Book Doubly Useful

YOUR Blue Book makes it possible for you to find in one separate section a complete geographical listing of All Bank Titles changed or discontinued within the past five years.

In this NEW section you can trace any Bank Title which has been changed or discontinued as a result of Merger, Consolidation, Absorption, or Suspension and find the exact year of the change with the new title, if any.

Always a necessary part of any Bank's operating equipment, now your Blue Book is doubly useful.

FIRST WISCONSIN NATIONAL BANK OF MILWAUKEE
 CAPITAL AND SURPLUS - \$15,000,000
 UNIT OF WISCONSIN BANKSHARES GROUP

A Complete New Columnar Style **in this edition of your Blue Book**

You now have eleven columns of data on every American bank—three more than in former editions of your Blue Book.

Figures in Thousands of Dollars

You will find all statements in this and subsequent editions listed in thousands of dollars only. A bank with \$100,000 capital is shown as \$100. An institution with \$1,250,101 in deposits is listed as \$1,250. This makes possible a quicker and easier reading and comparison of bank statements.

Undivided Profits and Reserves

Surplus and undivided profits now occupy two columns: "surplus" and "undivided profits and/or reserves."

U. S. Government Securities

Likewise, bonds and investments are divided into two columns, one showing the

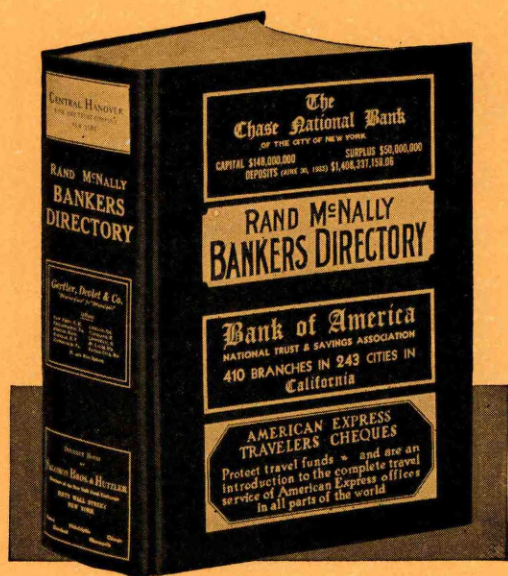

amount of funds invested in United States Government securities and the other showing the amount invested in other securities.

Totals Column

A "totals" column—separates the liabilities from the resources and shows at a glance the combined resources or liabilities of any American bank. No other bank directory embodies this essential index figure.

• • •

This new Blue Book revolutionizes all former methods of presenting banking data. Its four major improvements give you added figures on each bank—more conveniently arranged, permitting you to quickly compare the relative conditions as to each item of all banks in any given state or city.

Banks Advertising in this Directory give Prompt Attention to Collections and Correspondence

This book saves more than it costs

YOU can't side-step transit costs. But you can cut them to the "irreducible minimum" with the American Bankers Association KEY Book.

A complete list of American banks listed alphabetically by states and cities, and cross-indexed by transit numbers, \$2.50.

Practically any question in regard to recording and sending items is answered by quick reference to the new KEY Book. Blurred endorsements and checks without transit numbers are handled with no bother at all. Changes in titles, mergers and closed banks are located and verified in a few seconds. Transit letter writing is reduced to copying two numbers only.

If you now spend as much as 30 minutes a day entering and sending transit items, you will find that a new A. B. A. Key Book will more than pay for itself.

The 16th edition KEY TO NUMERICAL SYSTEM OF THE AMERICAN BANKERS ASSOCIATION is up to date as of May 1st, 1934. Accurate information is absolutely essential to the efficient operation of the transit department of any bank, large or small. Write now for your copies, we will make shipment immediately upon receipt of your order.

Supplements of transit changes over previous editions are furnished free to each Key Book subscriber.
