

# Thousands of Dollars...

---

**F**OR increased speed and facility of reading, you will find the latest statements of all United States banks shown in this and subsequent editions of your Blue Book in thousands of dollars only.

Thus, a bank with \$200,000 capital is shown as \$200, one with \$1,421,118 in deposits is shown as \$1,421.

## *Complete New Columnar Style*

Eleven columns of figures in this edition replace eight in former ones. This new style, more costly to the publisher, but more valuable to the user, gives you three new columns of figures on every bank in the United States.

## *Important New Figures*

Surplus and undivided profits are now divided into two columns, "Surplus" and "Undivided Profits and/or Reserves." Bond and investments are also broken down into two columns, "U. S. Government Securities" and "Other Securities."

## *Totals at a Glance*

A "Totals" column separating the liabilities from the resources enables you to tell at a glance the combined resources or liabilities of any bank in the country. No other directory embodies this feature.

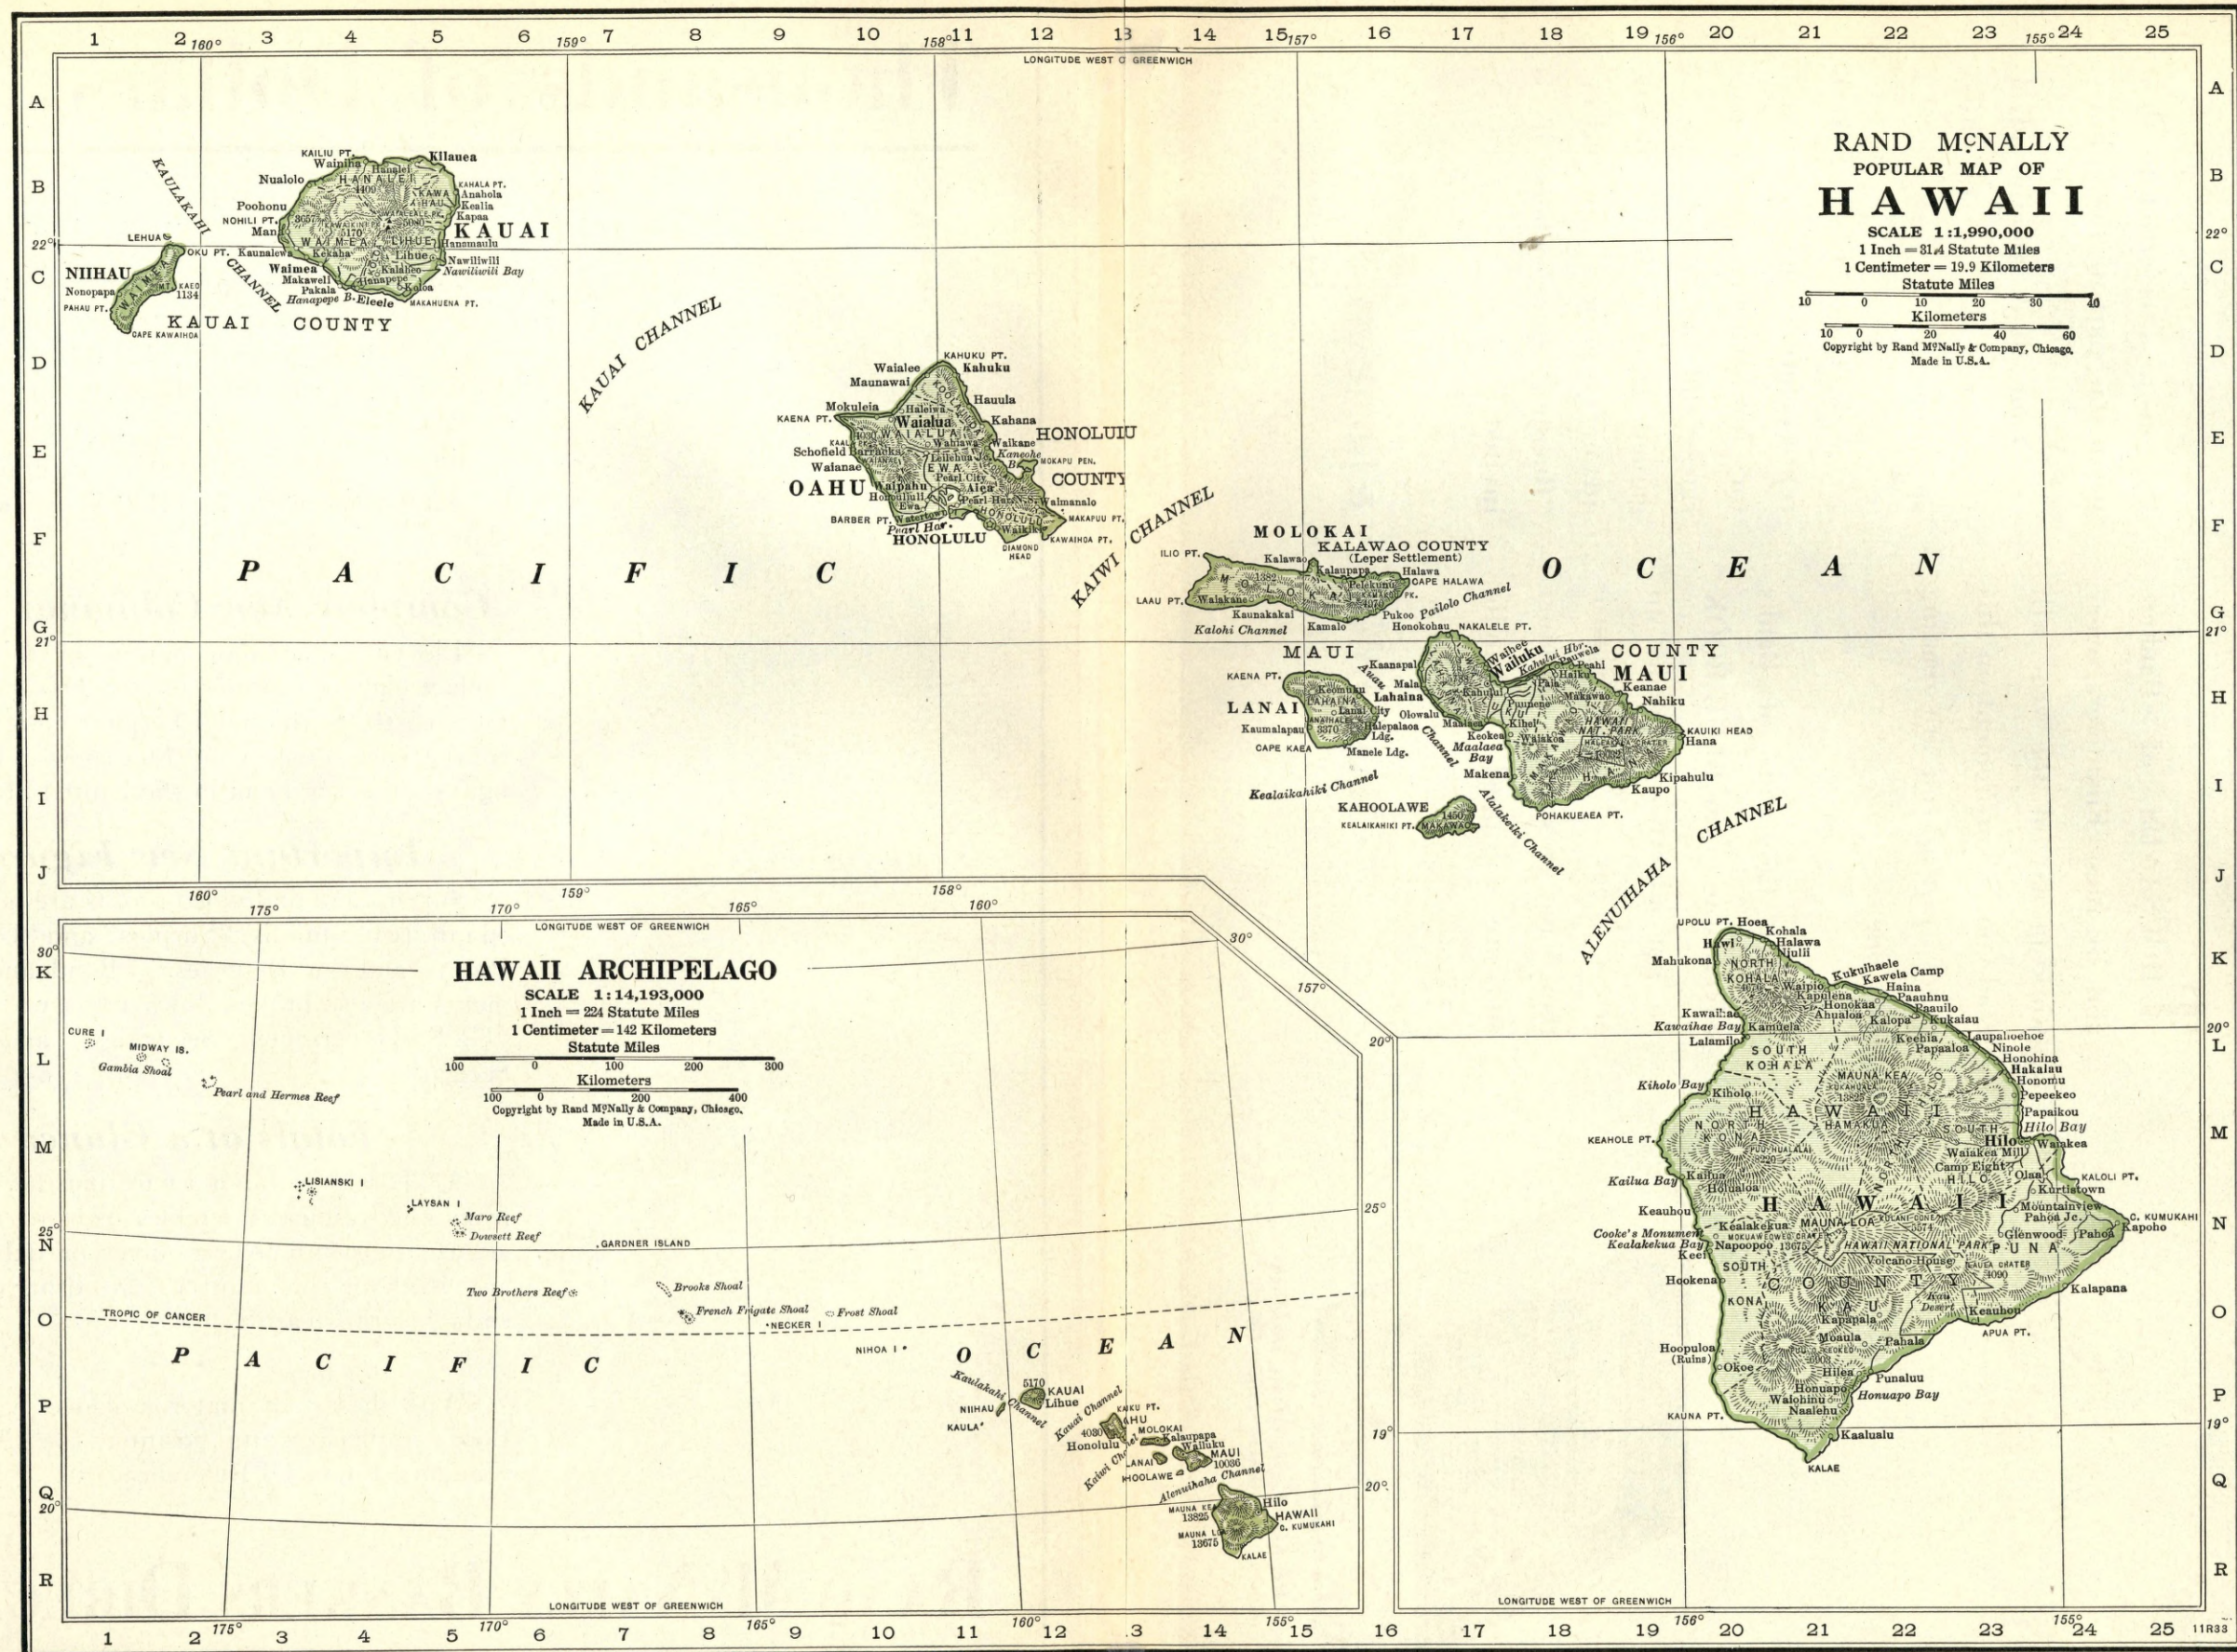

• • •

With these four major advances your Blue Book emphasizes its position as "America's Standard Financial Reference."

# *“Business Goes Where it is Invited”*

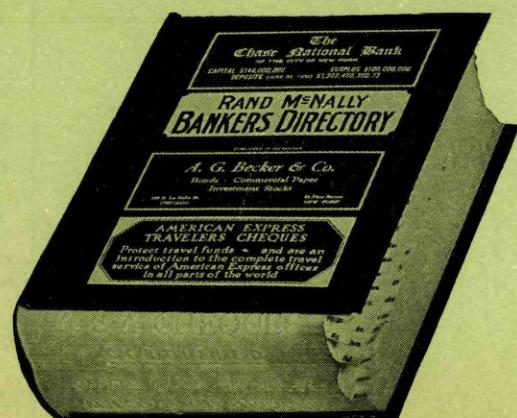

**T**HOUSANDS of Bankers and Business Financiers every working day of the year will read your advertisement on this page—just as you are reading this one.

The thousands of Banks advertising in the BLUE BOOK do not advertise in order to grow. They advertise because they have grown, are growing, and are equipped to handle

the business referred to their particular part of the country.

Your Bank should advertise here if it fills those specifications.

Ask the BLUE BOOK representative in your territory for particulars as to space rates and advantages to be gained from a BLUE BOOK advertisement. Remember, “Business goes where it is invited.”

*The BLUE BOOK—America's Standard  
Financial Reference—Since 1872*

# Thousands of Dollars...

---

**F**OR increased speed and facility of reading, you will find the latest statements of all United States banks shown in this and subsequent editions of your Blue Book in thousands of dollars only.

Thus, a bank with \$200,000 capital is shown as \$200, one with \$1,421,118 in deposits is shown as \$1,421.

## *Complete New Columnar Style*

Eleven columns of figures in this edition replace eight in former ones. This new style, more costly to the publisher, but more valuable to the user, gives you three new columns of figures on every bank in the United States.

## *Important New Figures*

Surplus and undivided profits are now divided into two columns, "Surplus" and "Undivided Profits and/or Reserves." Bond and investments are also broken down into two columns, "U. S. Government Securities" and "Other Securities."

## *Totals at a Glance*

A "Totals" column separating the liabilities from the resources enables you to tell at a glance the combined resources or liabilities of any bank in the country. No other directory embodies this feature.

. . .

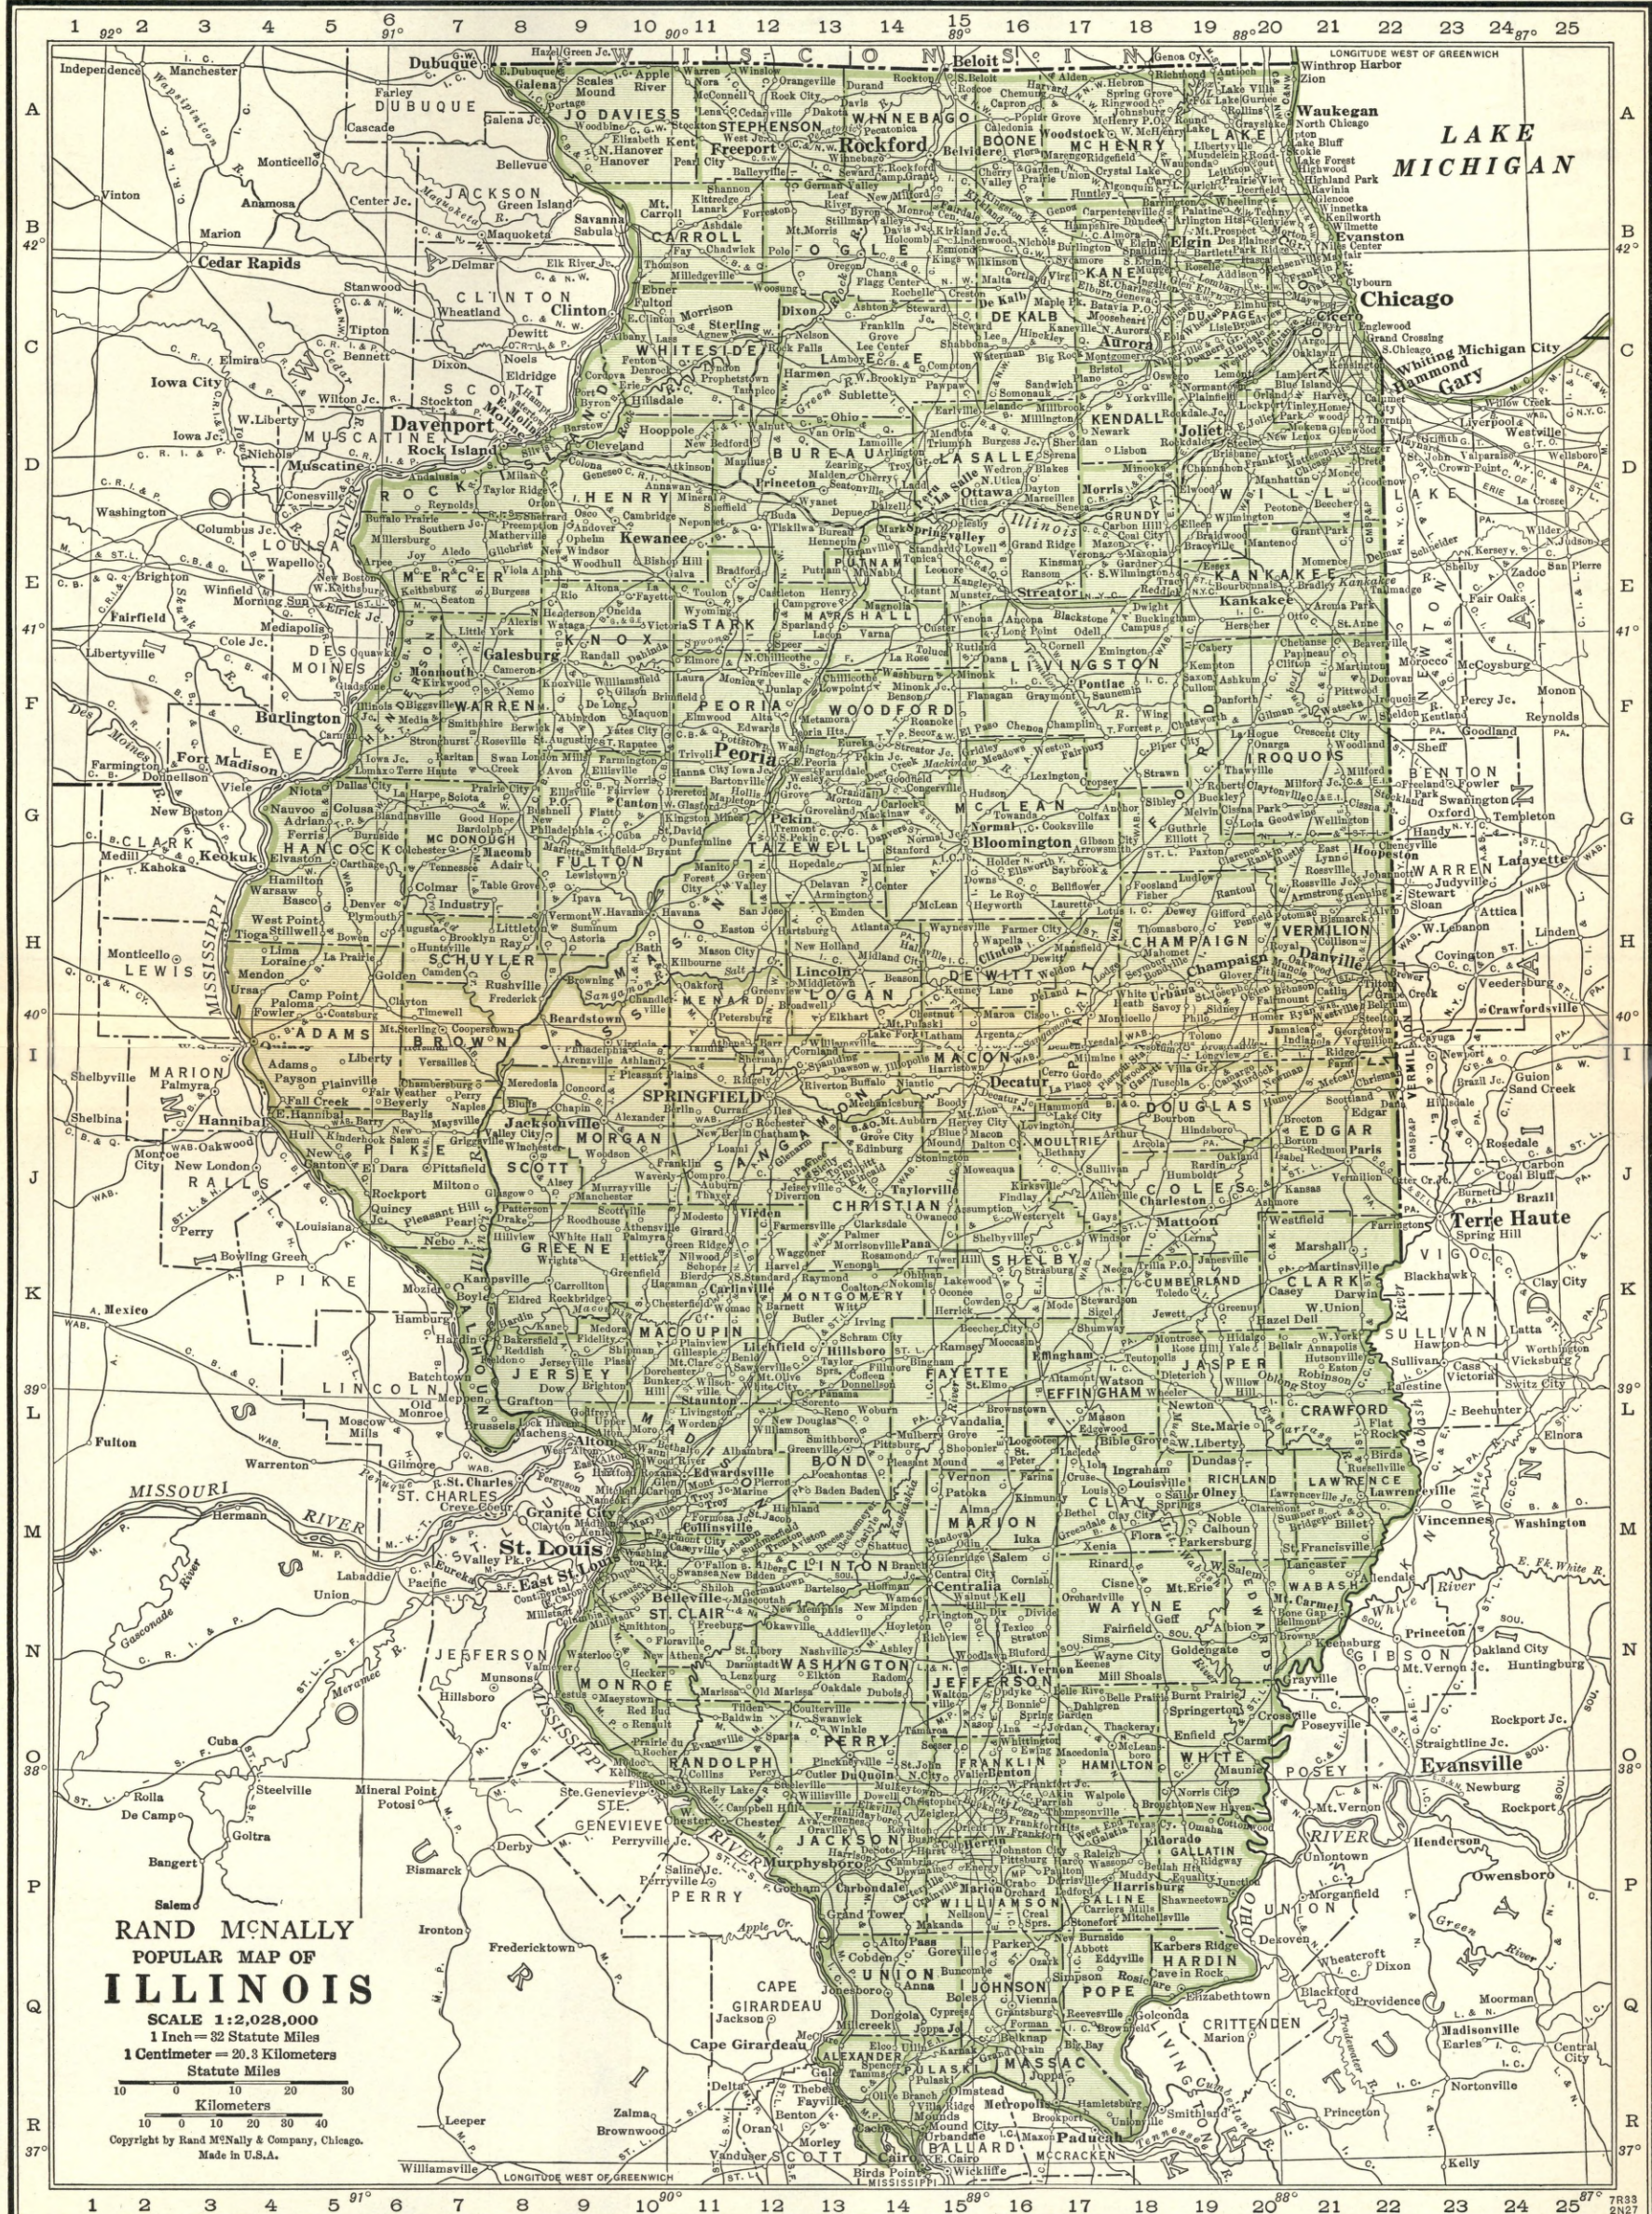

With these four major advances your Blue Book emphasizes its position as "America's Standard Financial Reference."

## Four Outstanding Advances that Revolutionize All Bank Directories

### ● Figures in thousands of dollars

To make reading easier and reference more rapid, latest statements are listed in thousands of dollars only. Thus, a bank with \$200,000 capital is shown as \$200—one with \$2,150,101 in deposits is shown as \$2,150.

### ● Eleven columns replace eight

The Blue Book now gives you eleven columns of figures on every bank in the United States, more columns of data than it was thought possible to set in such a convenient arrangement without increasing bulk of the book or decreasing number of banks to the page.

### ● Important new figures

This change in columnar style permits the addition of figures on undivided profits and reserves separate from the surplus, and figures on the amounts invested in U. S. Government securities separate from funds invested in other securities.

### ● Totals at a glance

It also makes possible a "totals" column which separates the liabilities from the resources and "spots" the combined resources or liabilities of any American bank at a glance. No other bank directory has this feature.

These four major advances in the Blue Book's style set a new "high" in efficient presentation of banking data.

Do not use an old A. B. A. Key Book! The Nov. 1933 supplement to the 15th Edition of the Key to the Numerical System of the American Bankers Association is now available. This supplemented volume contains all of the New banks, which have been assigned Transit Numbers, and all closed ones with their cancelled Numbers—Since the 14th Edition appeared. Every bank should use only the latest revised edition, which contains a numerical and alphabetical list of banks in the United States—a handsome cloth bound book of over 400 pages. Compiled exclusively by the Bankers Directory for the American Bankers Association. Sent, charges paid, upon receipt of the price \$2.50 per copy.

CONTINENTAL ILLINOIS NATIONAL BANK AND TRUST COMPANY of CHICAGO

# ***Introducing*** ***A Complete New Columnar Style***

## **in this edition of your Blue Book**

You now have eleven columns of data on every American bank—three more than in former editions of your Blue Book.

### **Figures in Thousands of Dollars**

You will find all statements in this and subsequent editions listed in thousands of dollars only. A bank with \$100,000 capital is shown as \$100. An institution with \$1,250,101 in deposits is listed as \$1,250. This makes possible a quicker and easier reading and comparison of bank statements.

### **Undivided Profits and Reserves**

Surplus and undivided profits now occupy two columns: "surplus" and "undivided profits and/or reserves."

### **U. S. Government Securities**

Likewise, bonds and investments are divided into two columns, one showing the

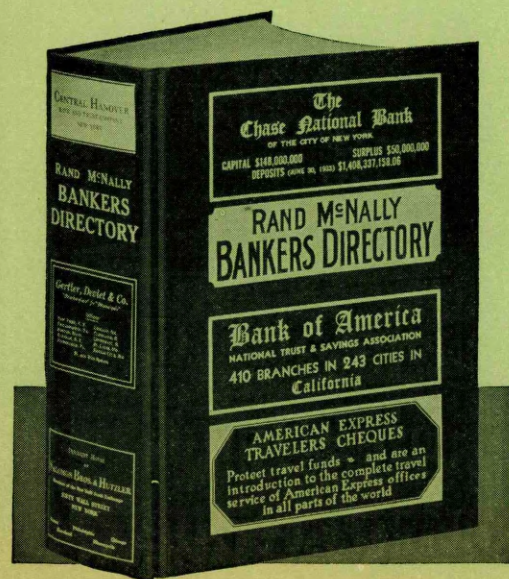

amount of funds invested in United States Government securities and the other showing the amount invested in other securities.

### **Totals Column**

A "totals" column—separates the liabilities from the resources and shows at a glance the combined resources or liabilities of any American bank. No other bank directory embodies this essential index figure.

• • •

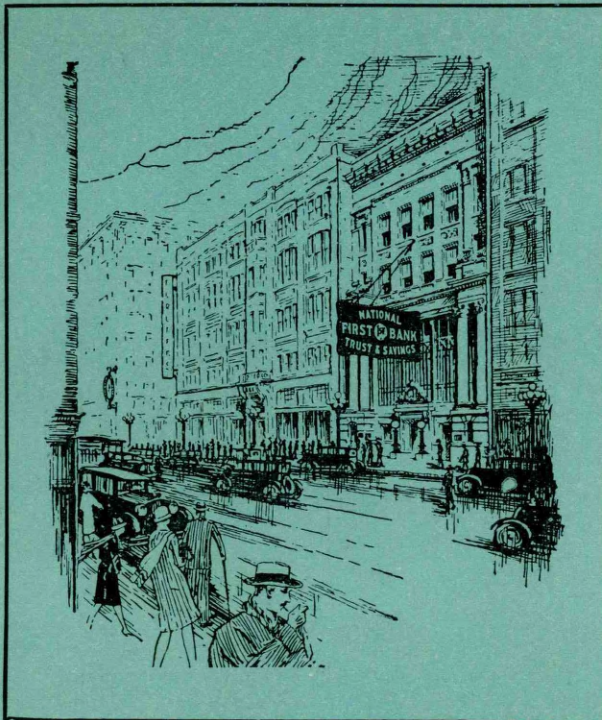

This new Blue Book revolutionizes all former methods of presenting banking data. Its four major improvements give you added figures on each bank—more conveniently arranged, permitting you to quickly compare the relative conditions as to each item of all banks in any given state or city.

## **Rand McNally Bankers Directory**

### **The Bankers Blue Book**

"THE HEART OF ILLINOIS"

ESTABLISHED 1863

WE invite the accounts of banks and corporations whose transactions would be facilitated by the hearty co-operation of Peoria's oldest financial institution.

Our thorough organization and experience enables us to be of exceptional service to correspondents.

We welcome personal consultation or correspondence with banks, corporations, firms and individuals.

**UNSURPASSED  
COLLECTION  
SERVICE**

Resources - - \$11,700,000.00

Capital Assets over \$1,850,000.00

# **Introducing** **A Complete New Columnar Style** **in this edition of your Blue Book**

You now have eleven columns of data on every American bank—three more than in former editions of your Blue Book.

## **Figures in Thousands of Dollars**

You will find all statements in this and subsequent editions listed in thousands of dollars only. A bank with \$100,000 capital is shown as \$100. An institution with \$1,250,101 in deposits is listed as \$1,250. This makes possible a quicker and easier reading and comparison of bank statements.

## **Undivided Profits and Reserves**

Surplus and undivided profits now occupy two columns: "surplus" and "undivided profits and/or reserves."

## **U. S. Government Securities**

Likewise, bonds and investments are divided into two columns, one showing the

amount of funds invested in United States Government securities and the other showing the amount invested in other securities.

## **Totals Column**

A "totals" column—separates the liabilities from the resources and shows at a glance the combined resources or liabilities of any American bank. No other bank directory embodies this essential index figure.

• • •

This new Blue Book revolutionizes all former methods of presenting banking data. Its four major improvements give you added figures on each bank—more conveniently arranged, permitting you to quickly compare the relative conditions as to each item of all banks in any given state or city.

# **Rand McNally Bankers Directory**

## **The Bankers Blue Book**

# Thousands of Dollars...

---

**F**OR increased speed and facility of reading, you will find the latest statements of all United States banks shown in this and subsequent editions of your Blue Book in thousands of dollars only.

Thus, a bank with \$200,000 capital is shown as \$200, one with \$1,421,118 in deposits is shown as \$1,421.

## *Complete New Columnar Style*

Eleven columns of figures in this edition replace eight in former ones. This new style, more costly to the publisher, but more valuable to the user, gives you three new columns of figures on every bank in the United States.

## *Important New Figures*

Surplus and undivided profits are now divided into two columns, "Surplus" and "Undivided Profits and/or Reserves." Bond and investments are also broken down into two columns, "U. S. Government Securities" and "Other Securities."

## *Totals at a Glance*

A "Totals" column separating the liabilities from the resources enables you to tell at a glance the combined resources or liabilities of any bank in the country. No other directory embodies this feature.

. . .

With these four major advances your Blue Book emphasizes its position as "America's Standard Financial Reference."

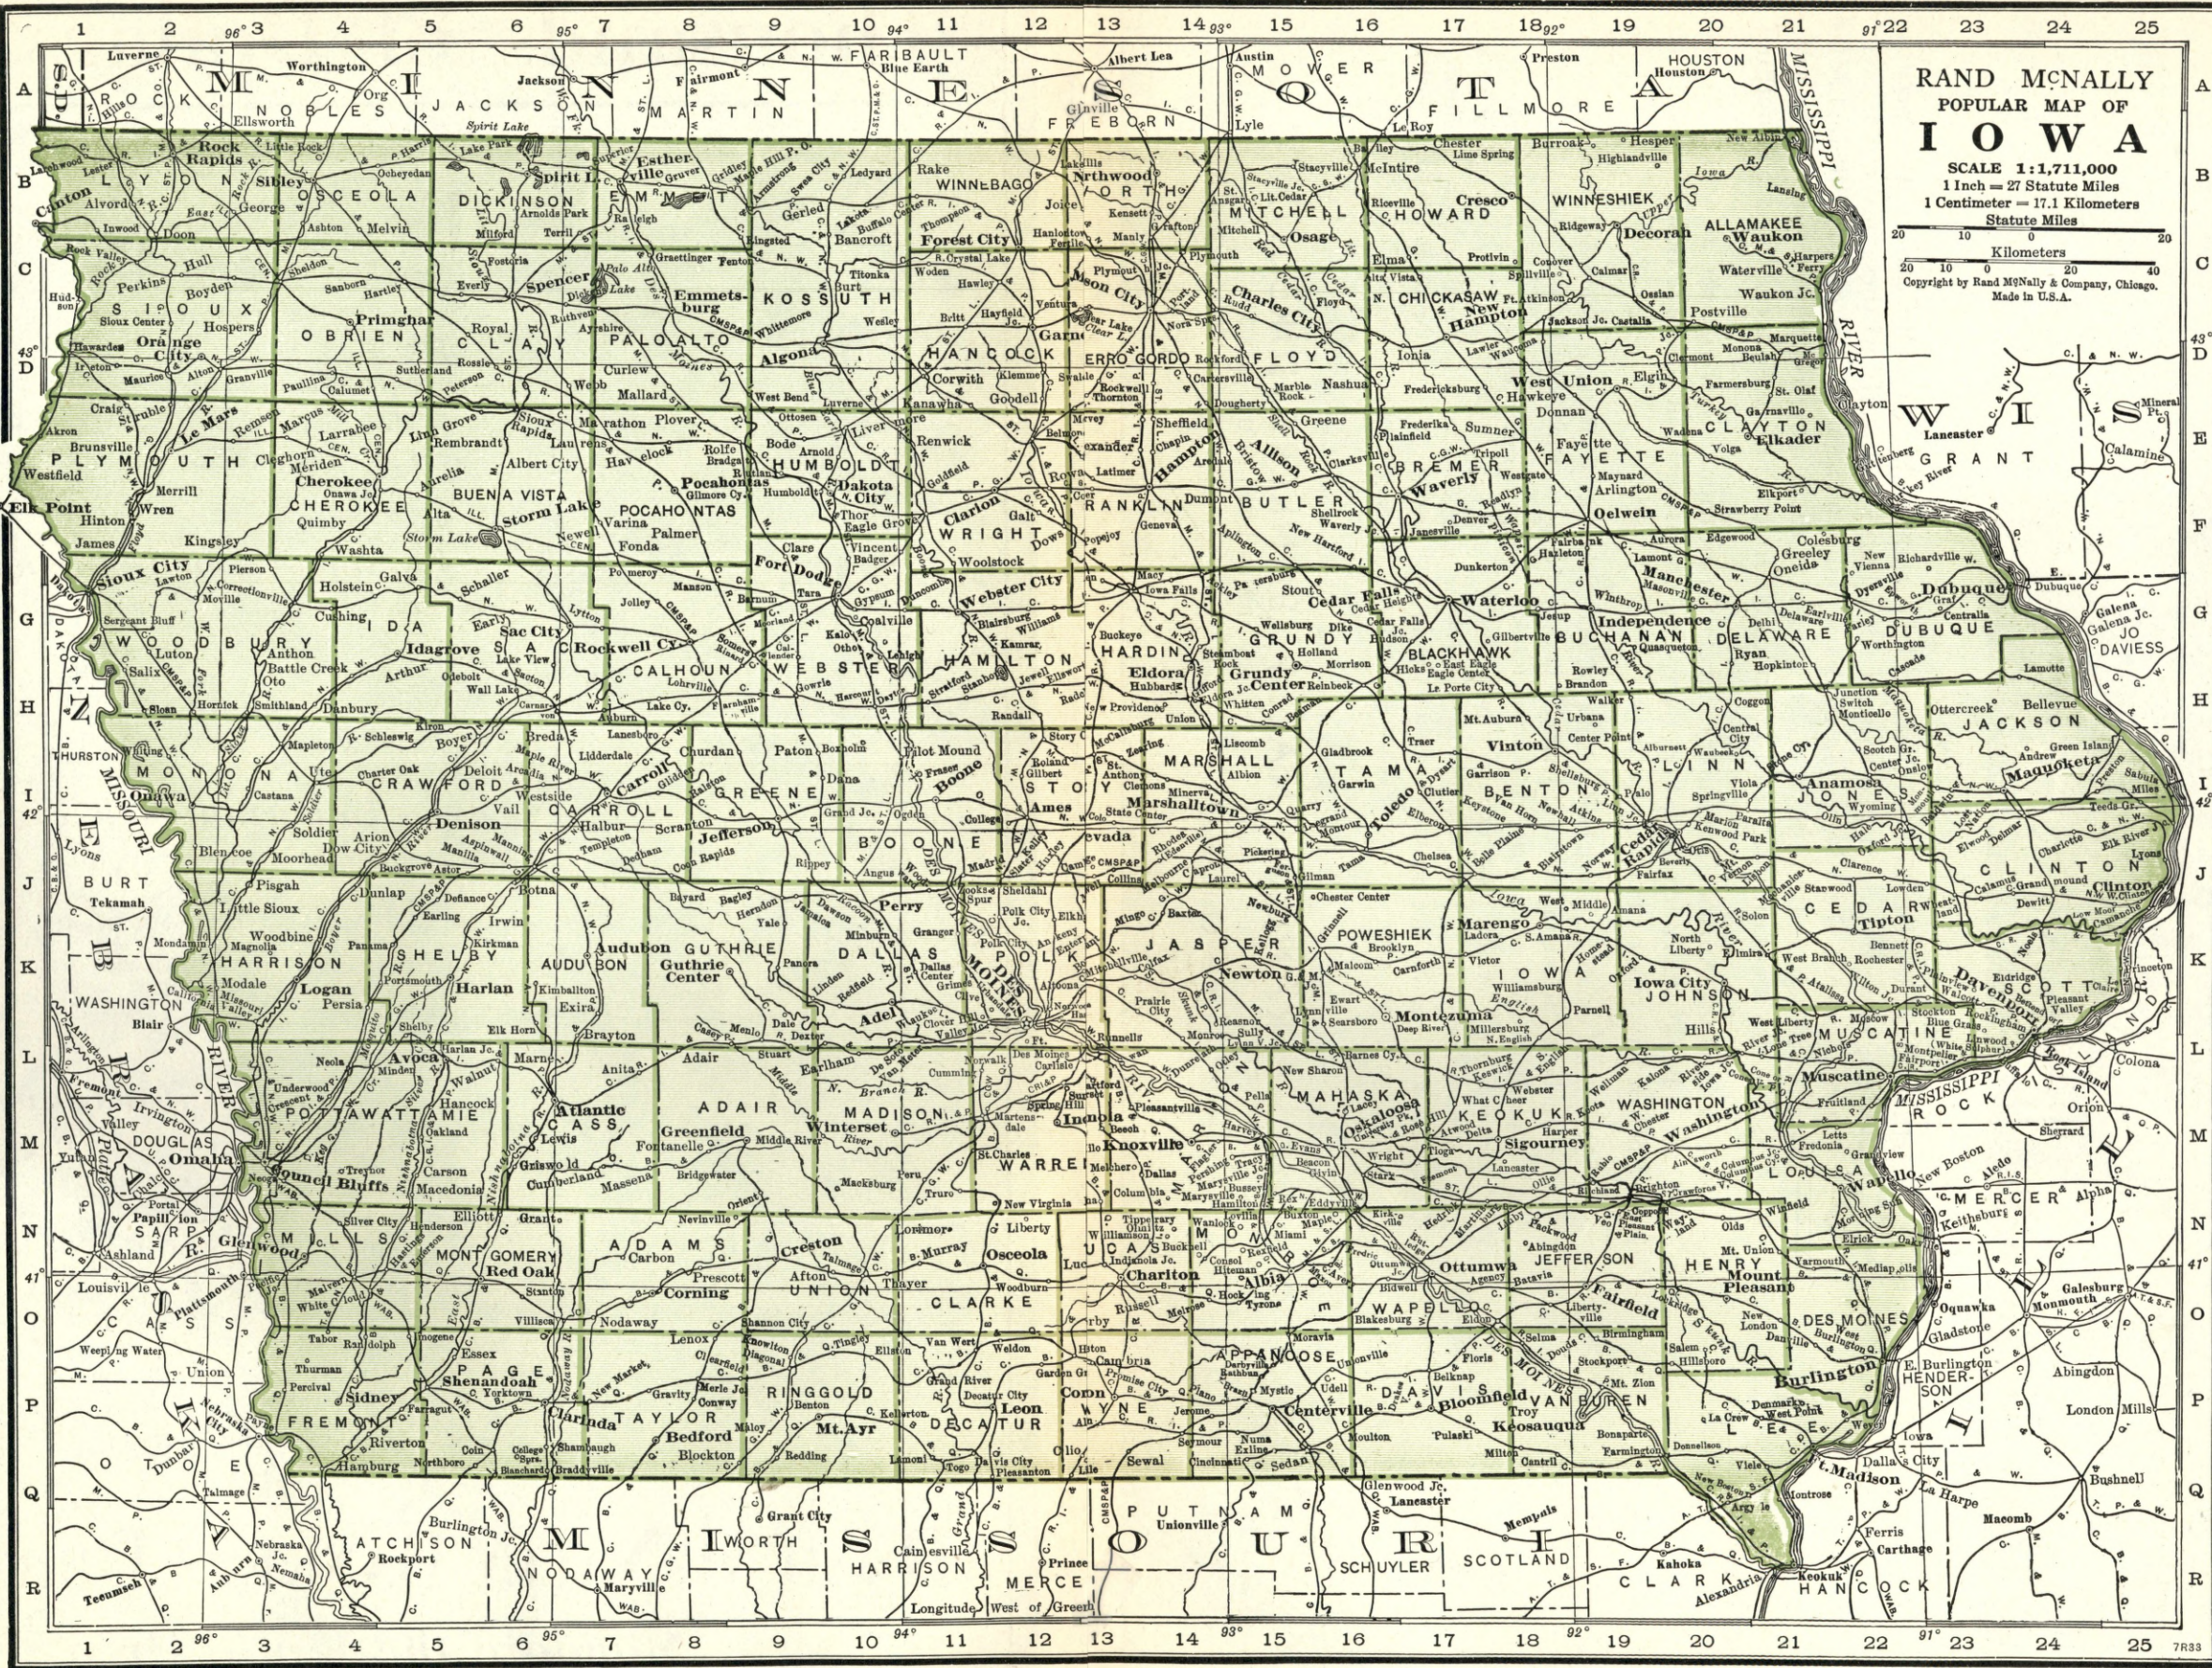

**RAND McNALLY BANKERS DIRECTORY**

The valuable "indirect publicity" obtained  
by the banks advertising in THE  
RAND McNALLY BANKERS BLUE BOOK  
actually costs the banks NOTHING

THE BANKERS DIRECTORY is used by thousands of Commercial Houses, Security Dealers, Lawyers and Banks to send their business directly to these advertisers, with the results that the advertising banks actually make in profits on the Bill of Lading Drafts, Notes, Collections, etc., etc., sent to them more than they pay for the space itself—the resultant unequaled Prestige, "Indirect Publicity" actually costing nothing.

For 61 years, America's leading Financial Institutions, *Country Banks*, as well as Reserve City Banks, have advertised regularly and consistently in the Blue Book and the number of advertisers increases each year.

Your Bank should be prominently displayed and "stand out" among the banks of your city in the Blue Book. Your prospective customers outside of your own locality must necessarily judge and form their opinion of your bank by the way you "show up" in the Blue Book. They naturally do not know you personally or are able to see your

attractive Banking Room and Building, which things attract your local patronage.

No obligation on your part if you write us to-day about "Bold-Faced Type" for your bank in the next edition of the Blue Book. Neither is it necessary to subscribe to the Book in order to advertise in it.

Address Advertising Department

**RAND McNALLY BANKERS DIRECTORY**

Since 1872—THE BANKERS BLUE BOOK
