A. S. Pratt & Sons, Inc.—Specialists in Government Bonds
 WASHINGTON, D. C. See Back of Washington, D. C. Map

Introducing **A Complete New Columnar Style** **in this edition of your Blue Book**

You now have eleven columns of data on every American bank—three more than in former editions of your Blue Book.

Figures in Thousands of Dollars

You will find all statements in this and subsequent editions listed in thousands of dollars only. A bank with \$100,000 capital is shown as \$100. An institution with \$1,250,101 in deposits is listed as \$1,250. This makes possible a quicker and easier reading and comparison of bank statements.

Undivided Profits and Reserves

Surplus and undivided profits now occupy two columns: "surplus" and "undivided profits and/or reserves."

U. S. Government Securities

Likewise, bonds and investments are divided into two columns, one showing the

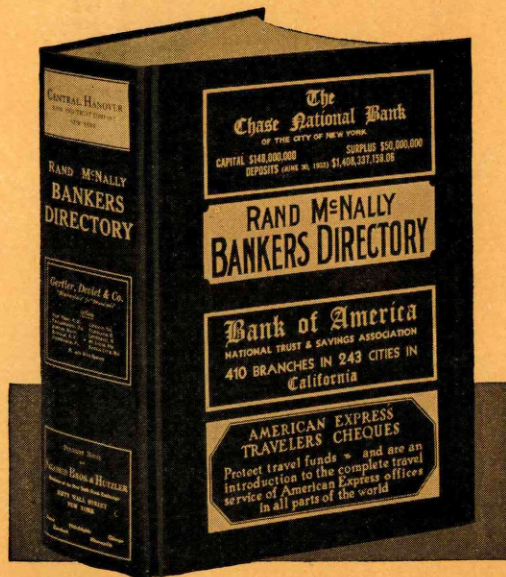

amount of funds invested in United States Government securities and the other showing the amount invested in other securities.

Totals Column

A "totals" column—separates the liabilities from the resources and shows at a glance the combined resources or liabilities of any American bank. No other bank directory embodies this essential index figure.

• • •

This new Blue Book revolutionizes all former methods of presenting banking data. Its four major improvements give you added figures on each bank—more conveniently arranged, permitting you to quickly compare the relative conditions as to each item of all banks in any given state or city.

Banks Advertising in this Directory give Prompt Attention to Collections and Correspondence

Thousands of Dollars...

FOR increased speed and facility of reading, you will find the latest statements of all United States banks shown in this and subsequent editions of your Blue Book in thousands of dollars only.

Thus, a bank with \$200,000 capital is shown as \$200, one with \$1,421,118 in deposits is shown as \$1,421.

Complete New Columnar Style

Eleven columns of figures in this edition replace eight in former ones. This new style, more costly to the publisher, but more valuable to the user, gives you three new columns of figures on every bank in the United States.

Important New Figures

Surplus and undivided profits are now divided into two columns, "Surplus" and "Undivided Profits and/or Reserves." Bond and investments are also broken down into two columns, "U. S. Government Securities" and "Other Securities."

Totals at a Glance

A "Totals" column separating the liabilities from the resources enables you to tell at a glance the combined resources or liabilities of any bank in the country. No other directory embodies this feature.

• • •

With these four major advances your Blue Book emphasizes its position as "America's Standard Financial Reference."

Thousands of Dollars...

FOR increased speed and facility of reading, you will find the latest statements of all United States banks shown in this and subsequent editions of your Blue Book in thousands of dollars only.

Thus, a bank with \$200,000 capital is shown as \$200, one with \$1,421,118 in deposits is shown as \$1,421.

Complete New Columnar Style

Eleven columns of figures in this edition replace eight in former ones. This new style, more costly to the publisher, but more valuable to the user, gives you three new columns of figures on every bank in the United States.

Important New Figures

Surplus and undivided profits are now divided into two columns, "Surplus" and "Undivided Profits and/or Reserves." Bond and investments are also broken down into two columns, "U. S. Government Securities" and "Other Securities."

Totals at a Glance

A "Totals" column separating the liabilities from the resources enables you to tell at a glance the combined resources or liabilities of any bank in the country. No other directory embodies this feature.

• • •

With these four major advances your Blue Book emphasizes its position as "America's Standard Financial Reference."

Do not use an old A. B. A. Key Book! The Nov. 1933 supplement to the 15th Edition of the Key to the Numerical System of the American Bankers Association is now available. This supplemented volume contains all of the New banks, which have been assigned Transit Numbers, and all closed ones with their cancelled Numbers—Since the 14th Edition appeared. Every bank should use only the latest revised edition, which contains a numerical and alphabetical list of banks in the United States—a handsome cloth bound book of over 400 pages. Compiled exclusively by the Bankers Directory for the American Bankers Association. Sent, charges paid, upon receipt of the price \$2.50 per copy.

Thousands of Dollars...

FOR increased speed and facility of reading, you will find the latest statements of all United States banks shown in this and subsequent editions of your Blue Book in thousands of dollars only.

Thus, a bank with \$200,000 capital is shown as \$200, one with \$1,421,118 in deposits is shown as \$1,421.

Complete New Columnar Style

Eleven columns of figures in this edition replace eight in former ones. This new style, more costly to the publisher, but more valuable to the user, gives you three new columns of figures on every bank in the United States.

Important New Figures

Surplus and undivided profits are now divided into two columns, "Surplus" and "Undivided Profits and/or Reserves." Bond and investments are also broken down into two columns, "U. S. Government Securities" and "Other Securities."

Totals at a Glance

A "Totals" column separating the liabilities from the resources enables you to tell at a glance the combined resources or liabilities of any bank in the country. No other directory embodies this feature.

• • •

With these four major advances your Blue Book emphasizes its position as "America's Standard Financial Reference."

*This attorney is competent and reliable
and I recommend him to the
bankers of America*

A directory of attorneys . . . one for each county in the United States . . . and every attorney recommended by a banker.

The only basis for these banker recommendations is satisfactory performance. These attorneys are actually handling bank matters with firmness, discretion and dispatch. Nearly every mail brings a number of enthusiastic letters from bankers who use this directory of Bank Recommended Attorneys regularly and often.

If you are not using Bank Recommended Attorneys, you are not experiencing the legal service it is possible for a banker to enjoy. And the directory of Bank Recommended Attorneys is right at your elbow . . . it's a valuable part of your BANKERS DIRECTORY (BLUE BOOK).

Use this attorney directory for your out-of-town legal business.

☞ It is the duty of every bank officer to use time efficiently.

☞ See that you have a BLUE BOOK always at your elbow. It will more than pay its costs by saving your time—to say nothing of increasing your efficiency.

☞ In your daily work, remember—if *what you want to know has anything to do with banking, you will find it in the BANKERS DIRECTORY.*

Number under Name of Bank is the New Transit Number given to each bank in U. S. exclusively by The Rand-McNally Bankers' Directory, under the authority of The American Bankers Ass'n.

Thousands of Dollars...

FOR increased speed and facility of reading, you will find the latest statements of all United States banks shown in this and subsequent editions of your Blue Book in thousands of dollars only.

Thus, a bank with \$200,000 capital is shown as \$200, one with \$1,421,118 in deposits is shown as \$1,421.

Complete New Columnar Style

Eleven columns of figures in this edition replace eight in former ones. This new style, more costly to the publisher, but more valuable to the user, gives you three new columns of figures on every bank in the United States.

Important New Figures

Surplus and undivided profits are now divided into two columns, "Surplus" and "Undivided Profits and/or Reserves." Bond and investments are also broken down into two columns, "U. S. Government Securities" and "Other Securities."

Totals at a Glance

A "Totals" column separating the liabilities from the resources enables you to tell at a glance the combined resources or liabilities of any bank in the country. No other directory embodies this feature.

• • •

With these four major advances your Blue Book emphasizes its position as "America's Standard Financial Reference."

Four Outstanding Advances that Revolutionize All Bank Directories

● Figures in thousands of dollars

To make reading easier and reference more rapid, latest statements are listed in thousands of dollars only. Thus, a bank with \$200,000 capital is shown as \$200—one with \$2,150,101 in deposits is shown as \$2,150.

● Eleven columns replace eight

The Blue Book now gives you eleven columns of figures on every bank in the United States, more columns of data than it was thought possible to set in such a convenient arrangement without increasing bulk of the book or decreasing number of banks to the page.

● Important new figures

This change in columnar style permits the addition of figures on undivided profits and reserves separate from the surplus, and figures on the amounts invested in U. S. Government securities separate from funds invested in other securities.

● Totals at a glance

It also makes possible a "totals" column which separates the liabilities from the resources and "spots" the combined resources or liabilities of any American bank at a glance. No other bank directory has this feature.

These four major advances in the Blue Book's style set a new "high" in efficient presentation of banking data.
