Introducing **A Complete New Columnar Style** **in this edition of your Blue Book**

You now have eleven columns of data on every American bank—three more than in former editions of your Blue Book.

Figures in Thousands of Dollars

You will find all statements in this and subsequent editions listed in thousands of dollars only. A bank with \$100,000 capital is shown as \$100. An institution with \$1,250,101 in deposits is listed as \$1,250. This makes possible a quicker and easier reading and comparison of bank statements.

Undivided Profits and Reserves

Surplus and undivided profits now occupy two columns: "surplus" and "undivided profits and/or reserves."

U. S. Government Securities

Likewise, bonds and investments are divided into two columns, one showing the

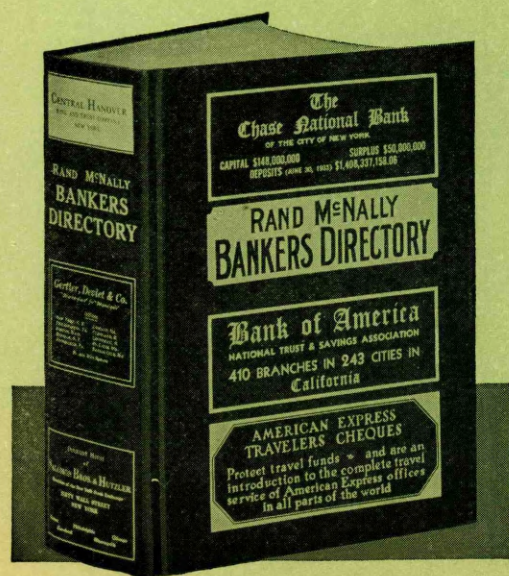

amount of funds invested in United States Government securities and the other showing the amount invested in other securities.

Totals Column

A "totals" column—separates the liabilities from the resources and shows at a glance the combined resources or liabilities of any American bank. No other bank directory embodies this essential index figure.

• • •

This new Blue Book revolutionizes all former methods of presenting banking data. Its four major improvements give you added figures on each bank—more conveniently arranged, permitting you to quickly compare the relative conditions as to each item of all banks in any given state or city.

Banks Advertising in this Directory give Prompt Attention to Collections and Correspondence

Public confidence and sound management have made The First National Bank of Saint Paul one of the fifty largest financial institutions in the United States. With

such outstanding size and the most complete banking facilities, the "First" in Saint Paul is an ideal correspondent for Ninth District and other Banks and Bankers.

The **FIRST NATIONAL BANK** *of Saint Paul*

A. S. Pratt & Sons, Inc.—Specialists in Government Bonds
WASHINGTON, D. C.

See Back of Washington, D. C. Map

Introducing **A Complete New Columnar Style** **in this edition of your Blue Book**

You now have eleven columns of data on every American bank—three more than in former editions of your Blue Book.

Figures in Thousands of Dollars

You will find all statements in this and subsequent editions listed in thousands of dollars only. A bank with \$100,000 capital is shown as \$100. An institution with \$1,250,101 in deposits is listed as \$1,250. This makes possible a quicker and easier reading and comparison of bank statements.

Undivided Profits and Reserves

Surplus and undivided profits now occupy two columns: "surplus" and "undivided profits and/or reserves."

U. S. Government Securities

Likewise, bonds and investments are divided into two columns, one showing the

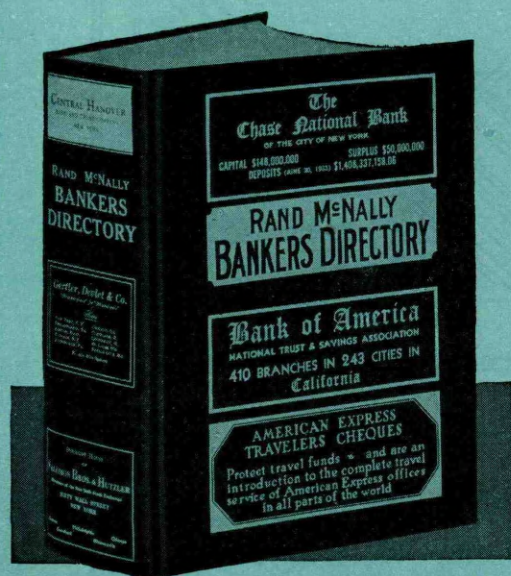

amount of funds invested in United States Government securities and the other showing the amount invested in other securities.

Totals Column

A "totals" column—separates the liabilities from the resources and shows at a glance the combined resources or liabilities of any American bank. No other bank directory embodies this essential index figure.

• • •

This new Blue Book revolutionizes all former methods of presenting banking data. Its four major improvements give you added figures on each bank—more conveniently arranged, permitting you to quickly compare the relative conditions as to each item of all banks in any given state or city.

Thousands of Dollars

IN THIS and all subsequent editions of your Blue Book you will find the latest statements of all American banks listed in thousands of dollars only. For example, a bank with \$100,000 capital is shown in the "capital" column as \$100. An institution with \$1,431,113 in deposits is listed in the "deposits" column as \$1,431.

Eleven Columns Replace Eight

You now have eleven columns of data on each bank—three columns more than in former editions of the Blue Book.

New Figures

These new columns permit the following important changes: a division of surplus and undivided profits into "surplus" and "undivided profits and/or reserves;" a breakdown of bonds and securities into "U. S. Government securities" and "other securities."

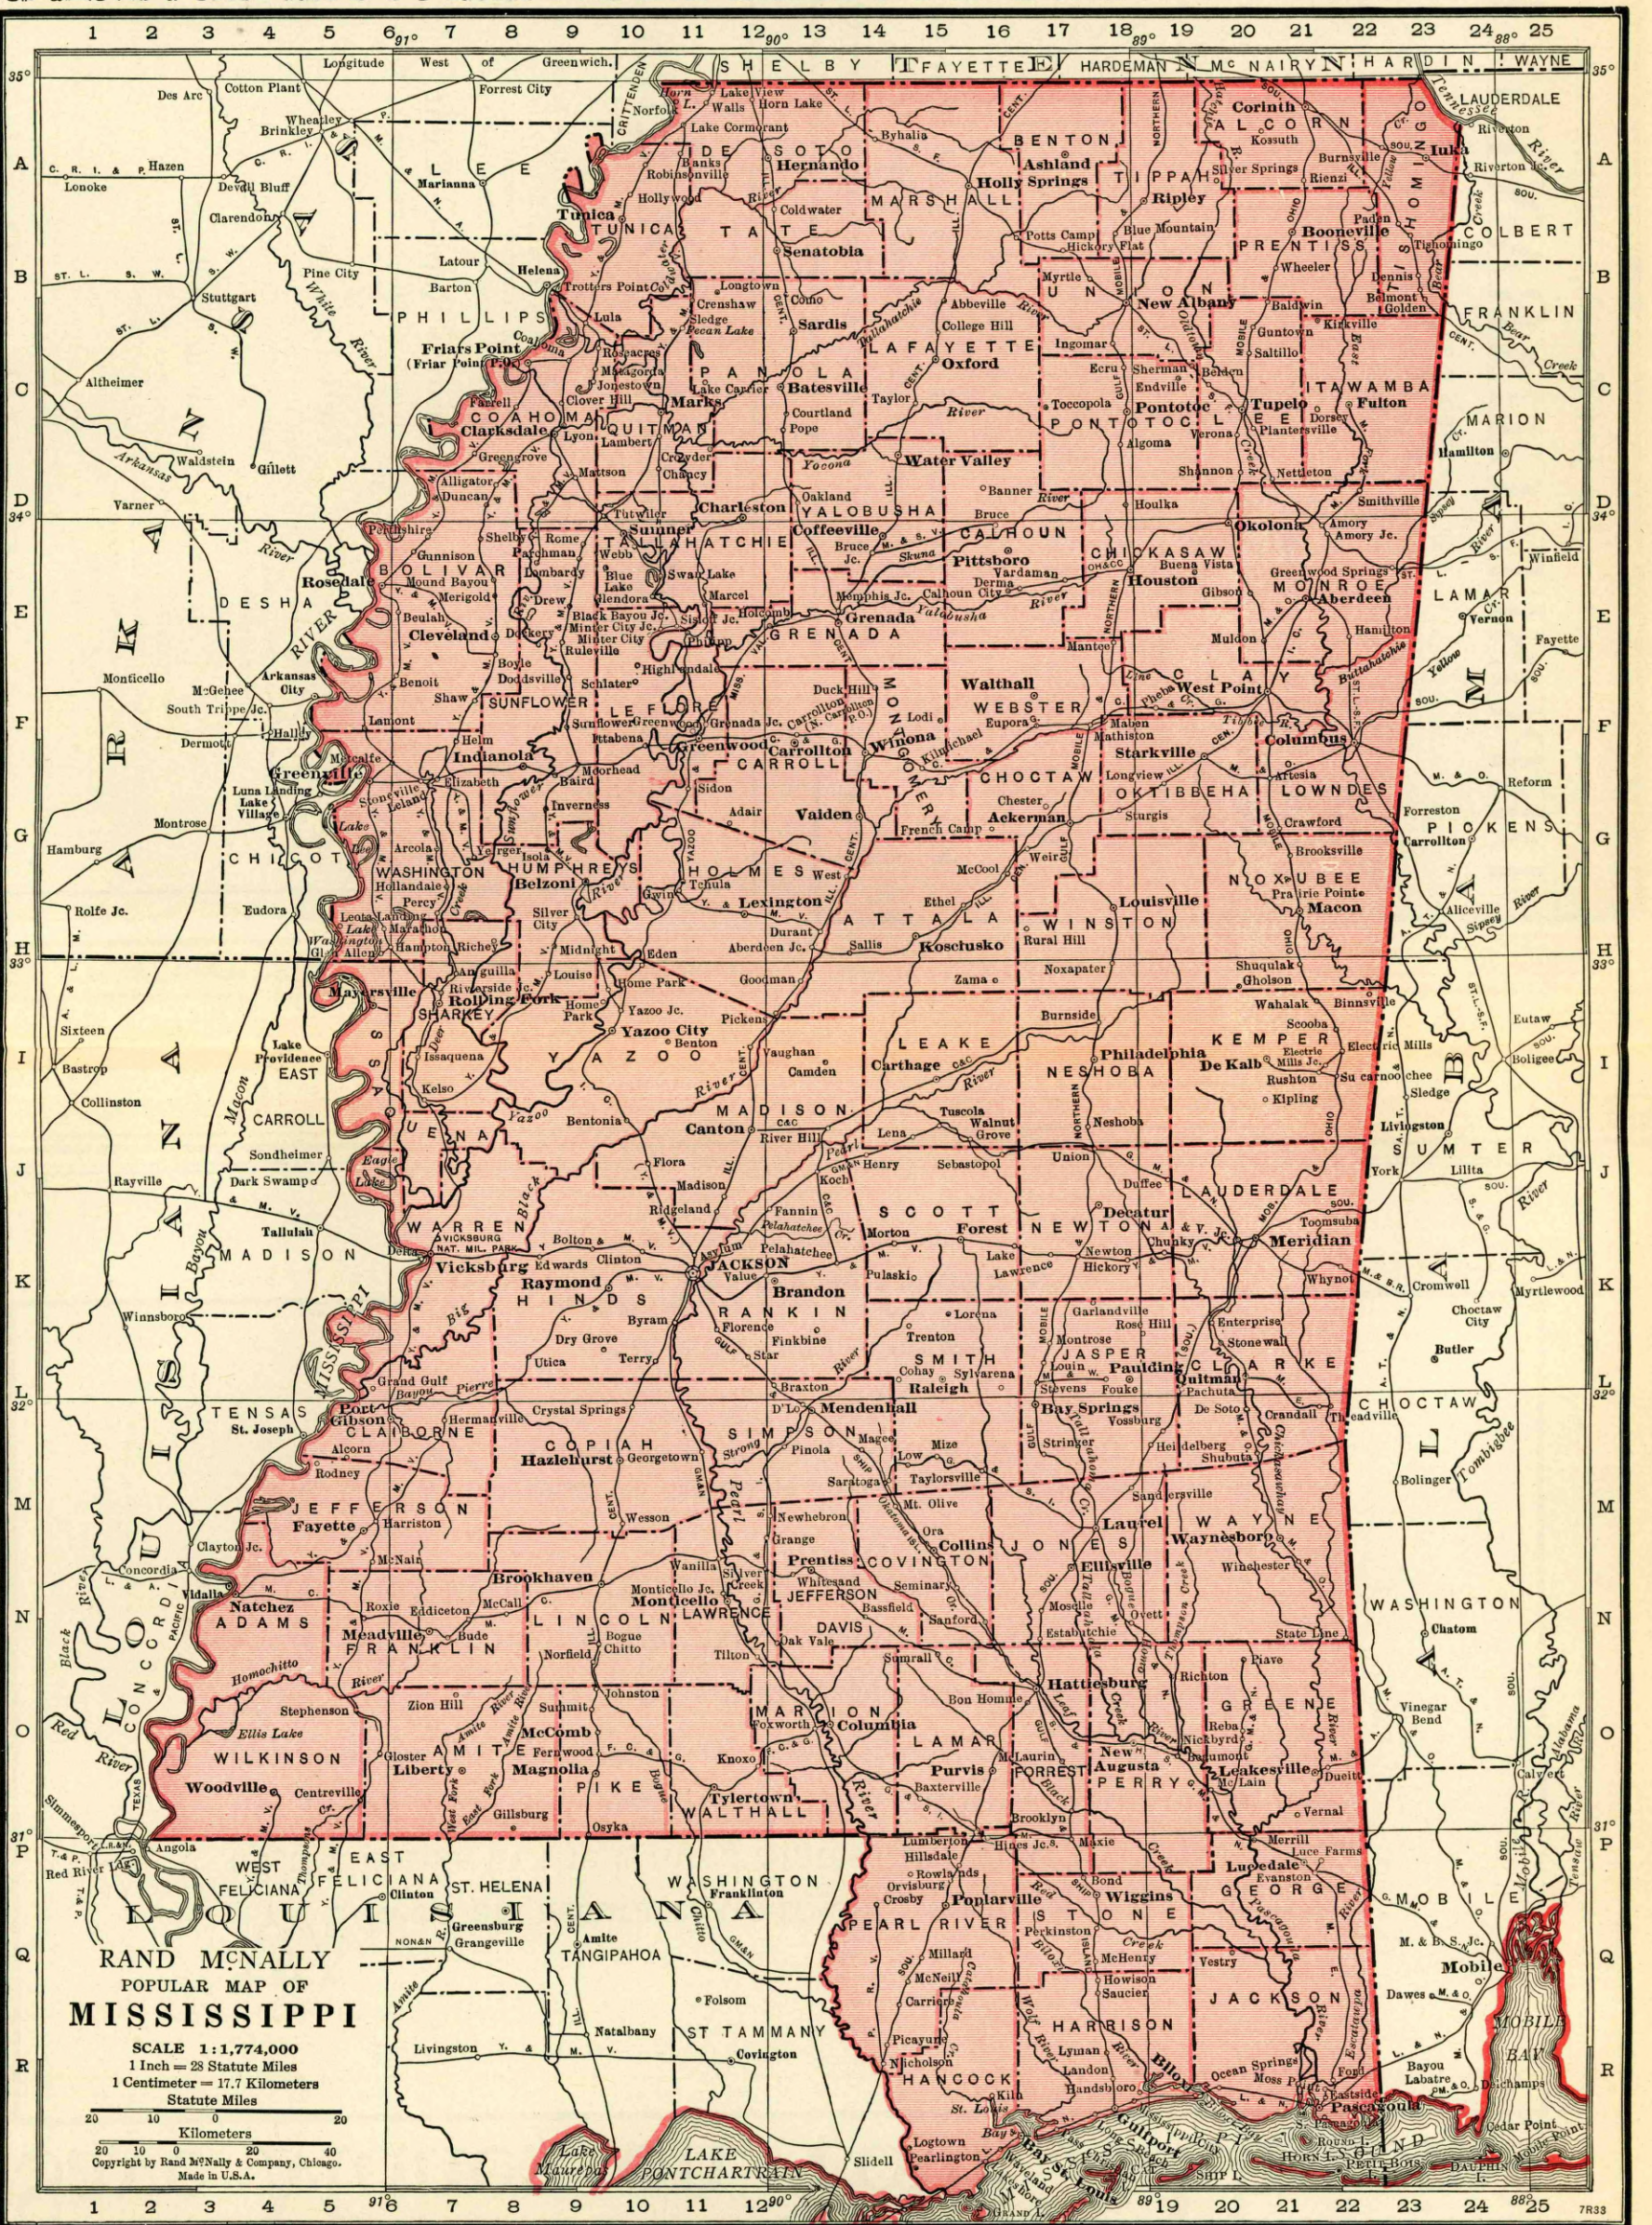

Totals at a Glance

A "totals" column now separates the liabilities from the resources and enables you to tell at a glance the combined resources or liabilities of any American bank. No other directory has this feature.

*Always first with timely improvements, your Blue Book
continues to set the pace for all bank directories.*

Save Money on Your Addressing

WE keep an accurate, up-to-date addressograph list of all the banks in the United States, corrected weekly. This list is at your service. If we can address your circulars, envelopes, fill in letters or "pull a proof" of it, you can have the service at a reasonable price and be assured that there will be no "come back" mail. Every name is live, active and kept so by careful attention.

If interested we should be glad to hear from you
and to quote prices and give other information.

Thousands of Dollars...

FOR increased speed and facility of reading, you will find the latest statements of all United States banks shown in this and subsequent editions of your Blue Book in thousands of dollars only.

Thus, a bank with \$200,000 capital is shown as \$200, one with \$1,421,118 in deposits is shown as \$1,421.

Complete New Columnar Style

Eleven columns of figures in this edition replace eight in former ones. This new style, more costly to the publisher, but more valuable to the user, gives you three new columns of figures on every bank in the United States.

Important New Figures

Surplus and undivided profits are now divided into two columns, "Surplus" and "Undivided Profits and/or Reserves." Bond and investments are also broken down into two columns, "U. S. Government Securities" and "Other Securities."

Totals at a Glance

A "Totals" column separating the liabilities from the resources enables you to tell at a glance the combined resources or liabilities of any bank in the country. No other directory embodies this feature.

• • •

With these four major advances your Blue Book emphasizes its position as "America's Standard Financial Reference."

STANDARDIZE ON THE BANKERS DIRECTORY

STANDARDIZED equipment means efficiency and economy in bank operation. You probably know that every officer and employee of your bank who uses a bankers directory wants *The Bankers Directory*—Rand McNally's Blue Book. You will be following the precedent set by Executives of practically all important American banks when you standardize on the Bankers Directory for inside equipment, outside information and inter-bank publicity.

FIRST NATIONAL BANK, GREAT FALLS, MONTANA

ESTABLISHED 1886
CAPITAL AND SURPLUS \$700,000

LARGEST BANK IN NORTHERN MONTANA
COUNTRY BANK ACCOUNTS SOLICITED

Thousands of Dollars...

FOR increased speed and facility of reading, you will find the latest statements of all United States banks shown in this and subsequent editions of your Blue Book in thousands of dollars only.

Thus, a bank with \$200,000 capital is shown as \$200, one with \$1,421,118 in deposits is shown as \$1,421.

Complete New Columnar Style

Eleven columns of figures in this edition replace eight in former ones. This new style, more costly to the publisher, but more valuable to the user, gives you three new columns of figures on every bank in the United States.

Important New Figures

Surplus and undivided profits are now divided into two columns, "Surplus" and "Undivided Profits and/or Reserves." Bond and investments are also broken down into two columns, "U. S. Government Securities" and "Other Securities."

Totals at a Glance

A "Totals" column separating the liabilities from the resources enables you to tell at a glance the combined resources or liabilities of any bank in the country. No other directory embodies this feature.

• • •

With these four major advances your Blue Book emphasizes its position as "America's Standard Financial Reference."

Save Money on Your Addressing

WE keep an accurate, up-to-date addressograph list of all the banks in the United States, corrected weekly. This list is at your service. If we can address your circulars, envelopes, fill in letters or "pull a proof" of it, you can have the service at a reasonable price and be assured that there will be no "come back" mail. Every name is live, active and kept so by careful attention.

If interested we should be glad to hear from you
and to quote prices and give other information.

WASHINGTON, D. C.
See Back of Washington, D. C. Map

Introducing **A Complete New Columnar Style** **in this edition of your Blue Book**

You now have eleven columns of data on every American bank—three more than in former editions of your Blue Book.

Figures in Thousands of Dollars

You will find all statements in this and subsequent editions listed in thousands of dollars only. A bank with \$100,000 capital is shown as \$100. An institution with \$1,250,101 in deposits is listed as \$1,250. This makes possible a quicker and easier reading and comparison of bank statements.

Undivided Profits and Reserves

Surplus and undivided profits now occupy two columns: "surplus" and "undivided profits and/or reserves."

U. S. Government Securities

Likewise, bonds and investments are divided into two columns, one showing the

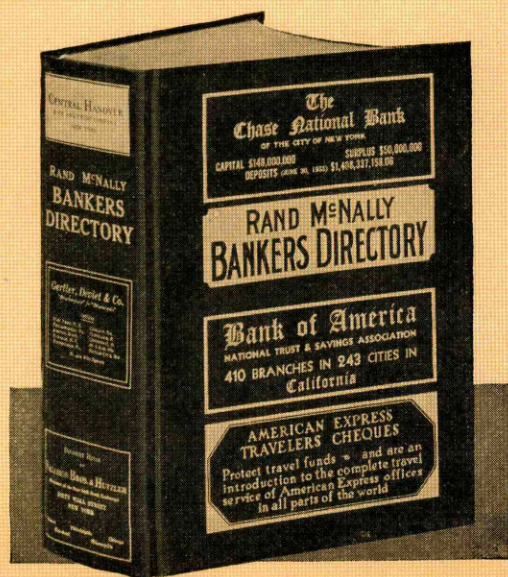

amount of funds invested in United States Government securities and the other showing the amount invested in other securities.

Totals Column

A "totals" column—separates the liabilities from the resources and shows at a glance the combined resources or liabilities of any American bank. No other bank directory embodies this essential index figure.

• • •

This new Blue Book revolutionizes all former methods of presenting banking data. Its four major improvements give you added figures on each bank—more conveniently arranged, permitting you to quickly compare the relative conditions as to each item of all banks in any given state or city.

Thousands of Dollars...

FOR increased speed and facility of reading, you will find the latest statements of all United States banks shown in this and subsequent editions of your Blue Book in thousands of dollars only.

Thus, a bank with \$200,000 capital is shown as \$200, one with \$1,421,118 in deposits is shown as \$1,421.

Complete New Columnar Style

Eleven columns of figures in this edition replace eight in former ones. This new style, more costly to the publisher, but more valuable to the user, gives you three new columns of figures on every bank in the United States.

Important New Figures

Surplus and undivided profits are now divided into two columns, "Surplus" and "Undivided Profits and/or Reserves." Bond and investments are also broken down into two columns, "U. S. Government Securities" and "Other Securities."

Totals at a Glance

A "Totals" column separating the liabilities from the resources enables you to tell at a glance the combined resources or liabilities of any bank in the country. No other directory embodies this feature.

• • •

With these four major advances your Blue Book emphasizes its position as "America's Standard Financial Reference."

STATE BANKERS ASSOCIATION

OFFICERS of State Bankers Associations are all listed in this Directory and this information, like all other contents of the book, is kept scrupulously accurate and up to date.

We find these association officers are always ready to be of cordial assistance to us in matters of mutual interest. Our Directory subscribers will doubtless have the same experience.

Labor Saving Forms for Banks

Thousands of Dollars...

FOR increased speed and facility of reading, you will find the latest statements of all United States banks shown in this and subsequent editions of your Blue Book in thousands of dollars only.

Thus, a bank with \$200,000 capital is shown as \$200, one with \$1,421,118 in deposits is shown as \$1,421.

Complete New Columnar Style

Eleven columns of figures in this edition replace eight in former ones. This new style, more costly to the publisher, but more valuable to the user, gives you three new columns of figures on every bank in the United States.

Important New Figures

Surplus and undivided profits are now divided into two columns, "Surplus" and "Undivided Profits and/or Reserves." Bond and investments are also broken down into two columns, "U. S. Government Securities" and "Other Securities."

Totals at a Glance

A "Totals" column separating the liabilities from the resources enables you to tell at a glance the combined resources or liabilities of any bank in the country. No other directory embodies this feature.

• • •

With these four major advances your Blue Book emphasizes its position as "America's Standard Financial Reference."

Missouri Financial Advertisers Concentrate in the Blue Book

THROUGH the pages of RAND M^CNALLY BANKERS DIRECTORY you can reach every directory user among the banks and investment houses in America. Why duplicate your efforts?

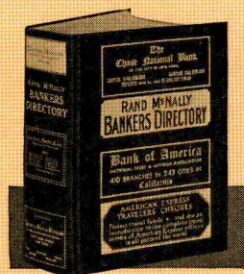

For example—

In the State of Missouri (exclusive of Kansas City and St. Louis) 143 banks advertise in bank directories. Of these 96% use the Blue Book and 92% use it exclusively.

In St. Louis and Kansas City 31 banks advertise in bank directories. 26 of these banks choose the Blue Book to tell their story and 14 of the 26 use the Blue Book exclusively.

Throughout the country Blue Book advertisers and subscribers outnumber those of all other bank directories combined. 60% of the banks buying space in the Blue Book deem it unnecessary to use any other directory.

Be sure that your directory contract carries the name of Rand M^CNally & Company.

FIDELITY UNION TRUST COMPANY — NEWARK — New Jersey's Largest Bank

Thousands of Dollars...

FOR increased speed and facility of reading, you will find the latest statements of all United States banks shown in this and subsequent editions of your Blue Book in thousands of dollars only.

Thus, a bank with \$200,000 capital is shown as \$200, one with \$1,421,118 in deposits is shown as \$1,421.

Complete New Columnar Style

Eleven columns of figures in this edition replace eight in former ones. This new style, more costly to the publisher, but more valuable to the user, gives you three new columns of figures on every bank in the United States.

Important New Figures

Surplus and undivided profits are now divided into two columns, "Surplus" and "Undivided Profits and/or Reserves." Bond and investments are also broken down into two columns, "U. S. Government Securities" and "Other Securities."

Totals at a Glance

A "Totals" column separating the liabilities from the resources enables you to tell at a glance the combined resources or liabilities of any bank in the country. No other directory embodies this feature.

. . .

With these four major advances your Blue Book emphasizes its position as "America's Standard Financial Reference."

The valuable "indirect publicity" obtained
by the banks advertising in THE
RAND McNALLY BANKERS BLUE BOOK
actually costs the banks NOTHING

THE BANKERS DIRECTORY is used by thousands of Commercial Houses, Security Dealers, Lawyers and Banks to send their business directly to these advertisers, with the results that the advertising banks actually make in profits on the Bill of Lading Drafts, Notes, Collections, etc., etc., sent to them more than they pay for the space itself—the resultant unequaled Prestige, "Indirect Publicity" actually costing nothing.

For 61 years, America's leading Financial Institutions, *Country Banks*, as well as Reserve City Banks, have advertised regularly and consistently in the Blue Book and the number of advertisers increases each year.

Your Bank should be prominently displayed and "stand out" among the banks of your city in the Blue Book. Your prospective customers outside of your own locality must necessarily judge and form their opinion of your bank by the way you "show up" in the Blue Book. They naturally do not know you personally or are able to see your

attractive Banking Room and Building, which things attract your local patronage.

No obligation on your part if you write us to-day about "Bold-Faced Type" for your bank in the next edition of the Blue Book. Neither is it necessary to subscribe to the Book in order to advertise in it.

FIDELITY UNION TRUST COMPANY — NEWARK — New Jersey's Largest Bank

Introducing

A Complete New Columnar Style

in this edition of your Blue Book

You now have eleven columns of data on every American bank—three more than in former editions of your Blue Book.

Figures in Thousands of Dollars

You will find all statements in this and subsequent editions listed in thousands of dollars only. A bank with \$100,000 capital is shown as \$100. An institution with \$1,250,101 in deposits is listed as \$1,250. This makes possible a quicker and easier reading and comparison of bank statements.

Undivided Profits and Reserves

Surplus and undivided profits now occupy two columns: "surplus" and "undivided profits and/or reserves."

U. S. Government Securities

Likewise, bonds and investments are divided into two columns, one showing the

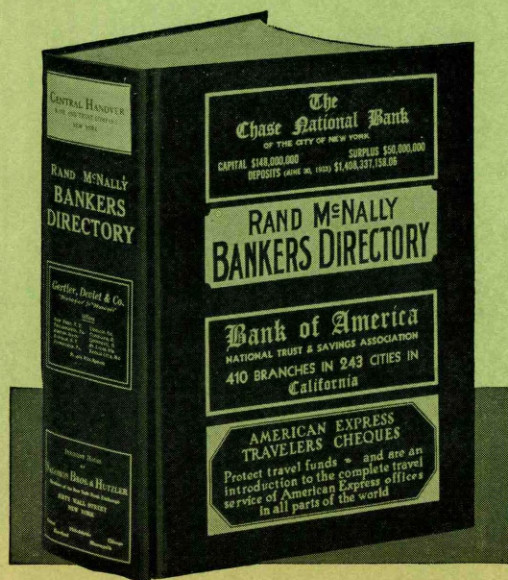

amount of funds invested in United States Government securities and the other showing the amount invested in other securities.

Totals Column

A "totals" column—separates the liabilities from the resources and shows at a glance the combined resources or liabilities of any American bank. No other bank directory embodies this essential index figure.

• • •

This new Blue Book revolutionizes all former methods of presenting banking data. Its four major improvements give you added figures on each bank—more conveniently arranged, permitting you to quickly compare the relative conditions as to each item of all banks in any given state or city.

Thousands of Dollars...

FOR increased speed and facility of reading, you will find the latest statements of all United States banks shown in this and subsequent editions of your Blue Book in thousands of dollars only.

Thus, a bank with \$200,000 capital is shown as \$200, one with \$1,421,118 in deposits is shown as \$1,421.

Complete New Columnar Style

Eleven columns of figures in this edition replace eight in former ones. This new style, more costly to the publisher, but more valuable to the user, gives you three new columns of figures on every bank in the United States.

Important New Figures

Surplus and undivided profits are now divided into two columns, "Surplus" and "Undivided Profits and/or Reserves." Bond and investments are also broken down into two columns, "U. S. Government Securities" and "Other Securities."

Totals at a Glance

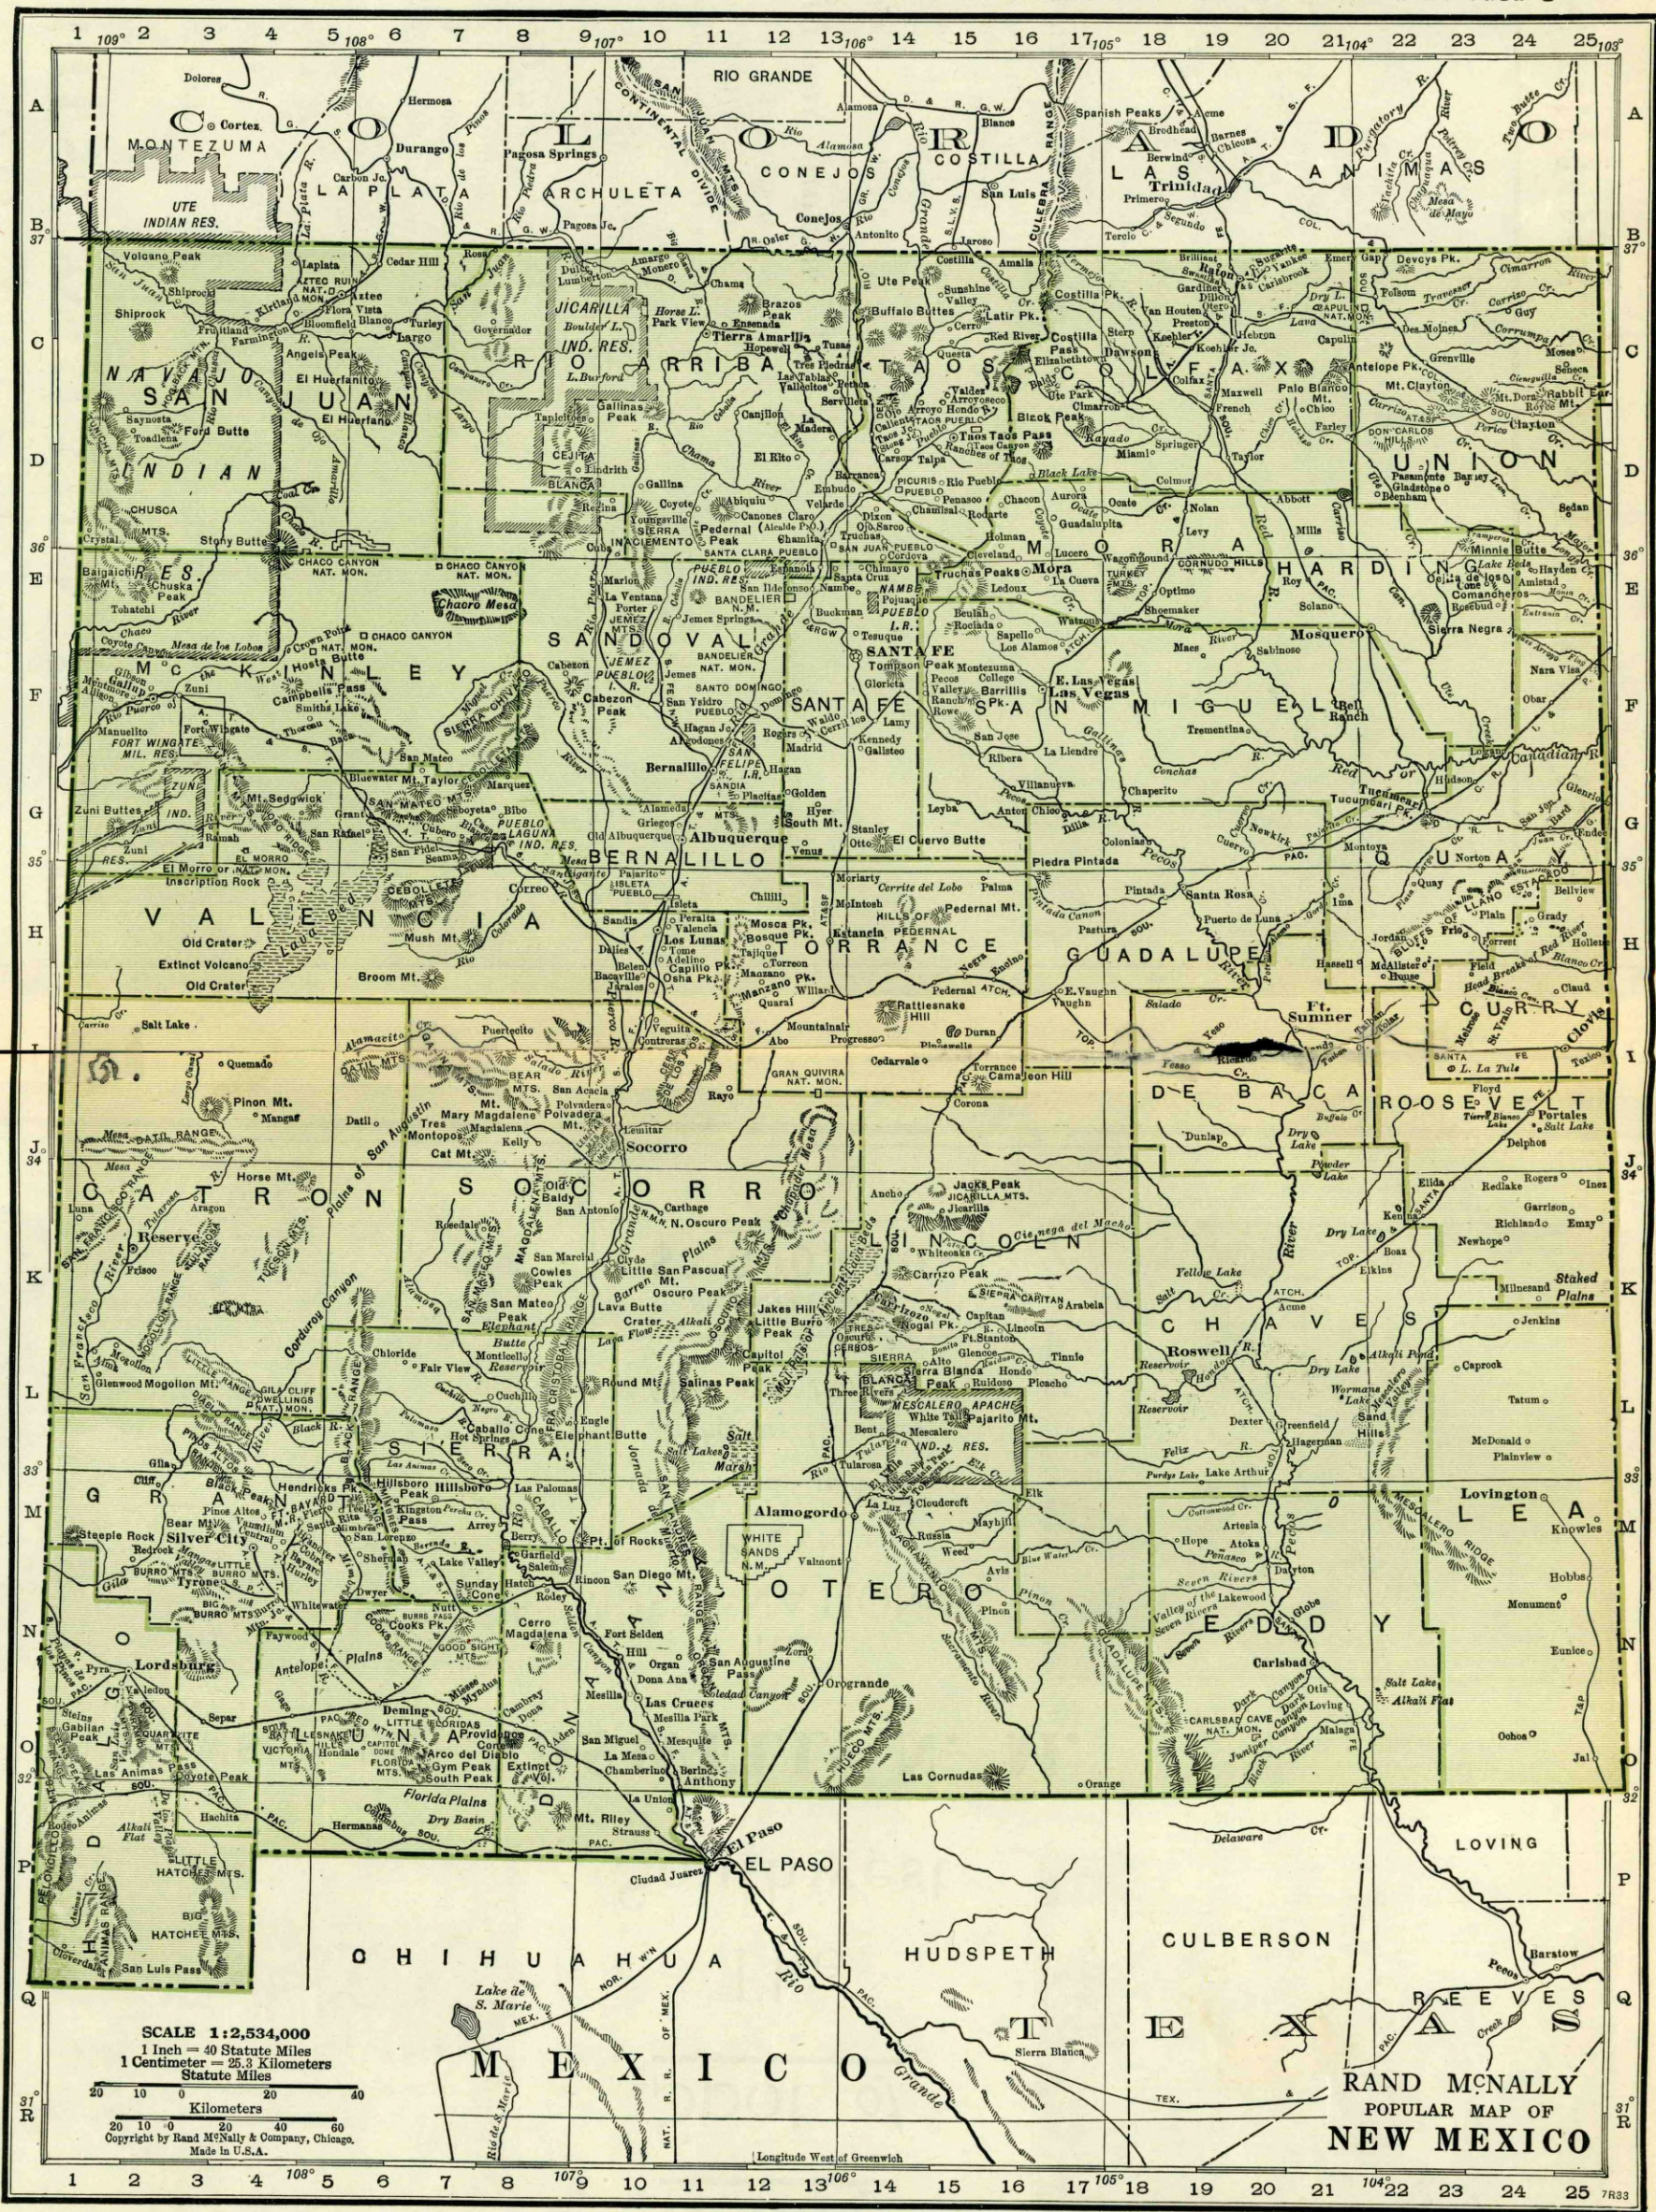

A "Totals" column separating the liabilities from the resources enables you to tell at a glance the combined resources or liabilities of any bank in the country. No other directory embodies this feature.

• • •

With these four major advances your Blue Book emphasizes its position as "America's Standard Financial Reference."
