Introducing

A Complete New Columnar Style

in this edition of your Blue Book

You now have eleven columns of data on every American bank—three more than in former editions of your Blue Book.

Figures in Thousands of Dollars

You will find all statements in this and subsequent editions listed in thousands of dollars only. A bank with \$100,000 capital is shown as \$100. An institution with \$1,250,101 in deposits is listed as \$1,250. This makes possible a quicker and easier reading and comparison of bank statements.

Undivided Profits and Reserves

Surplus and undivided profits now occupy two columns: "surplus" and "undivided profits and/or reserves."

U. S. Government Securities

Likewise, bonds and investments are divided into two columns, one showing the

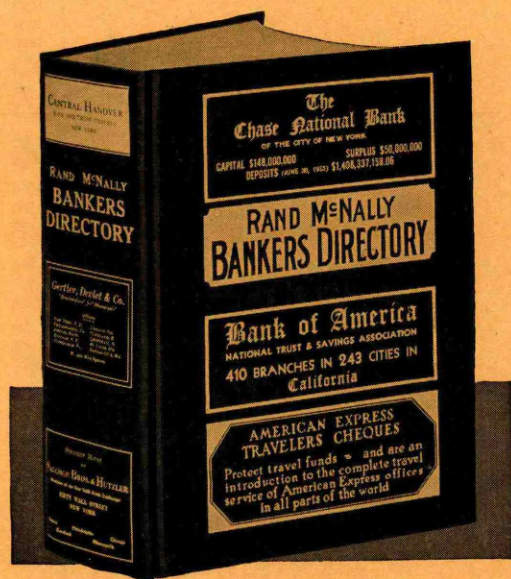

amount of funds invested in United States Government securities and the other showing the amount invested in other securities.

Totals Column

A "totals" column—separates the liabilities from the resources and shows at a glance the combined resources or liabilities of any American bank. No other bank directory embodies this essential index figure.

• • •

This new Blue Book revolutionizes all former methods of presenting banking data. Its four major improvements give you added figures on each bank—more conveniently arranged, permitting you to quickly compare the relative conditions as to each item of all banks in any given state or city.

Thousands of Dollars...

FOR increased speed and facility of reading, you will find the latest statements of all United States banks shown in this and subsequent editions of your Blue Book in thousands of dollars only.

Thus, a bank with \$200,000 capital is shown as \$200, one with \$1,421,118 in deposits is shown as \$1,421.

Complete New Columnar Style

Eleven columns of figures in this edition replace eight in former ones. This new style, more costly to the publisher, but more valuable to the user, gives you three new columns of figures on every bank in the United States.

Important New Figures

Surplus and undivided profits are now divided into two columns, "Surplus" and "Undivided Profits and/or Reserves." Bond and investments are also broken down into two columns, "U. S. Government Securities" and "Other Securities."

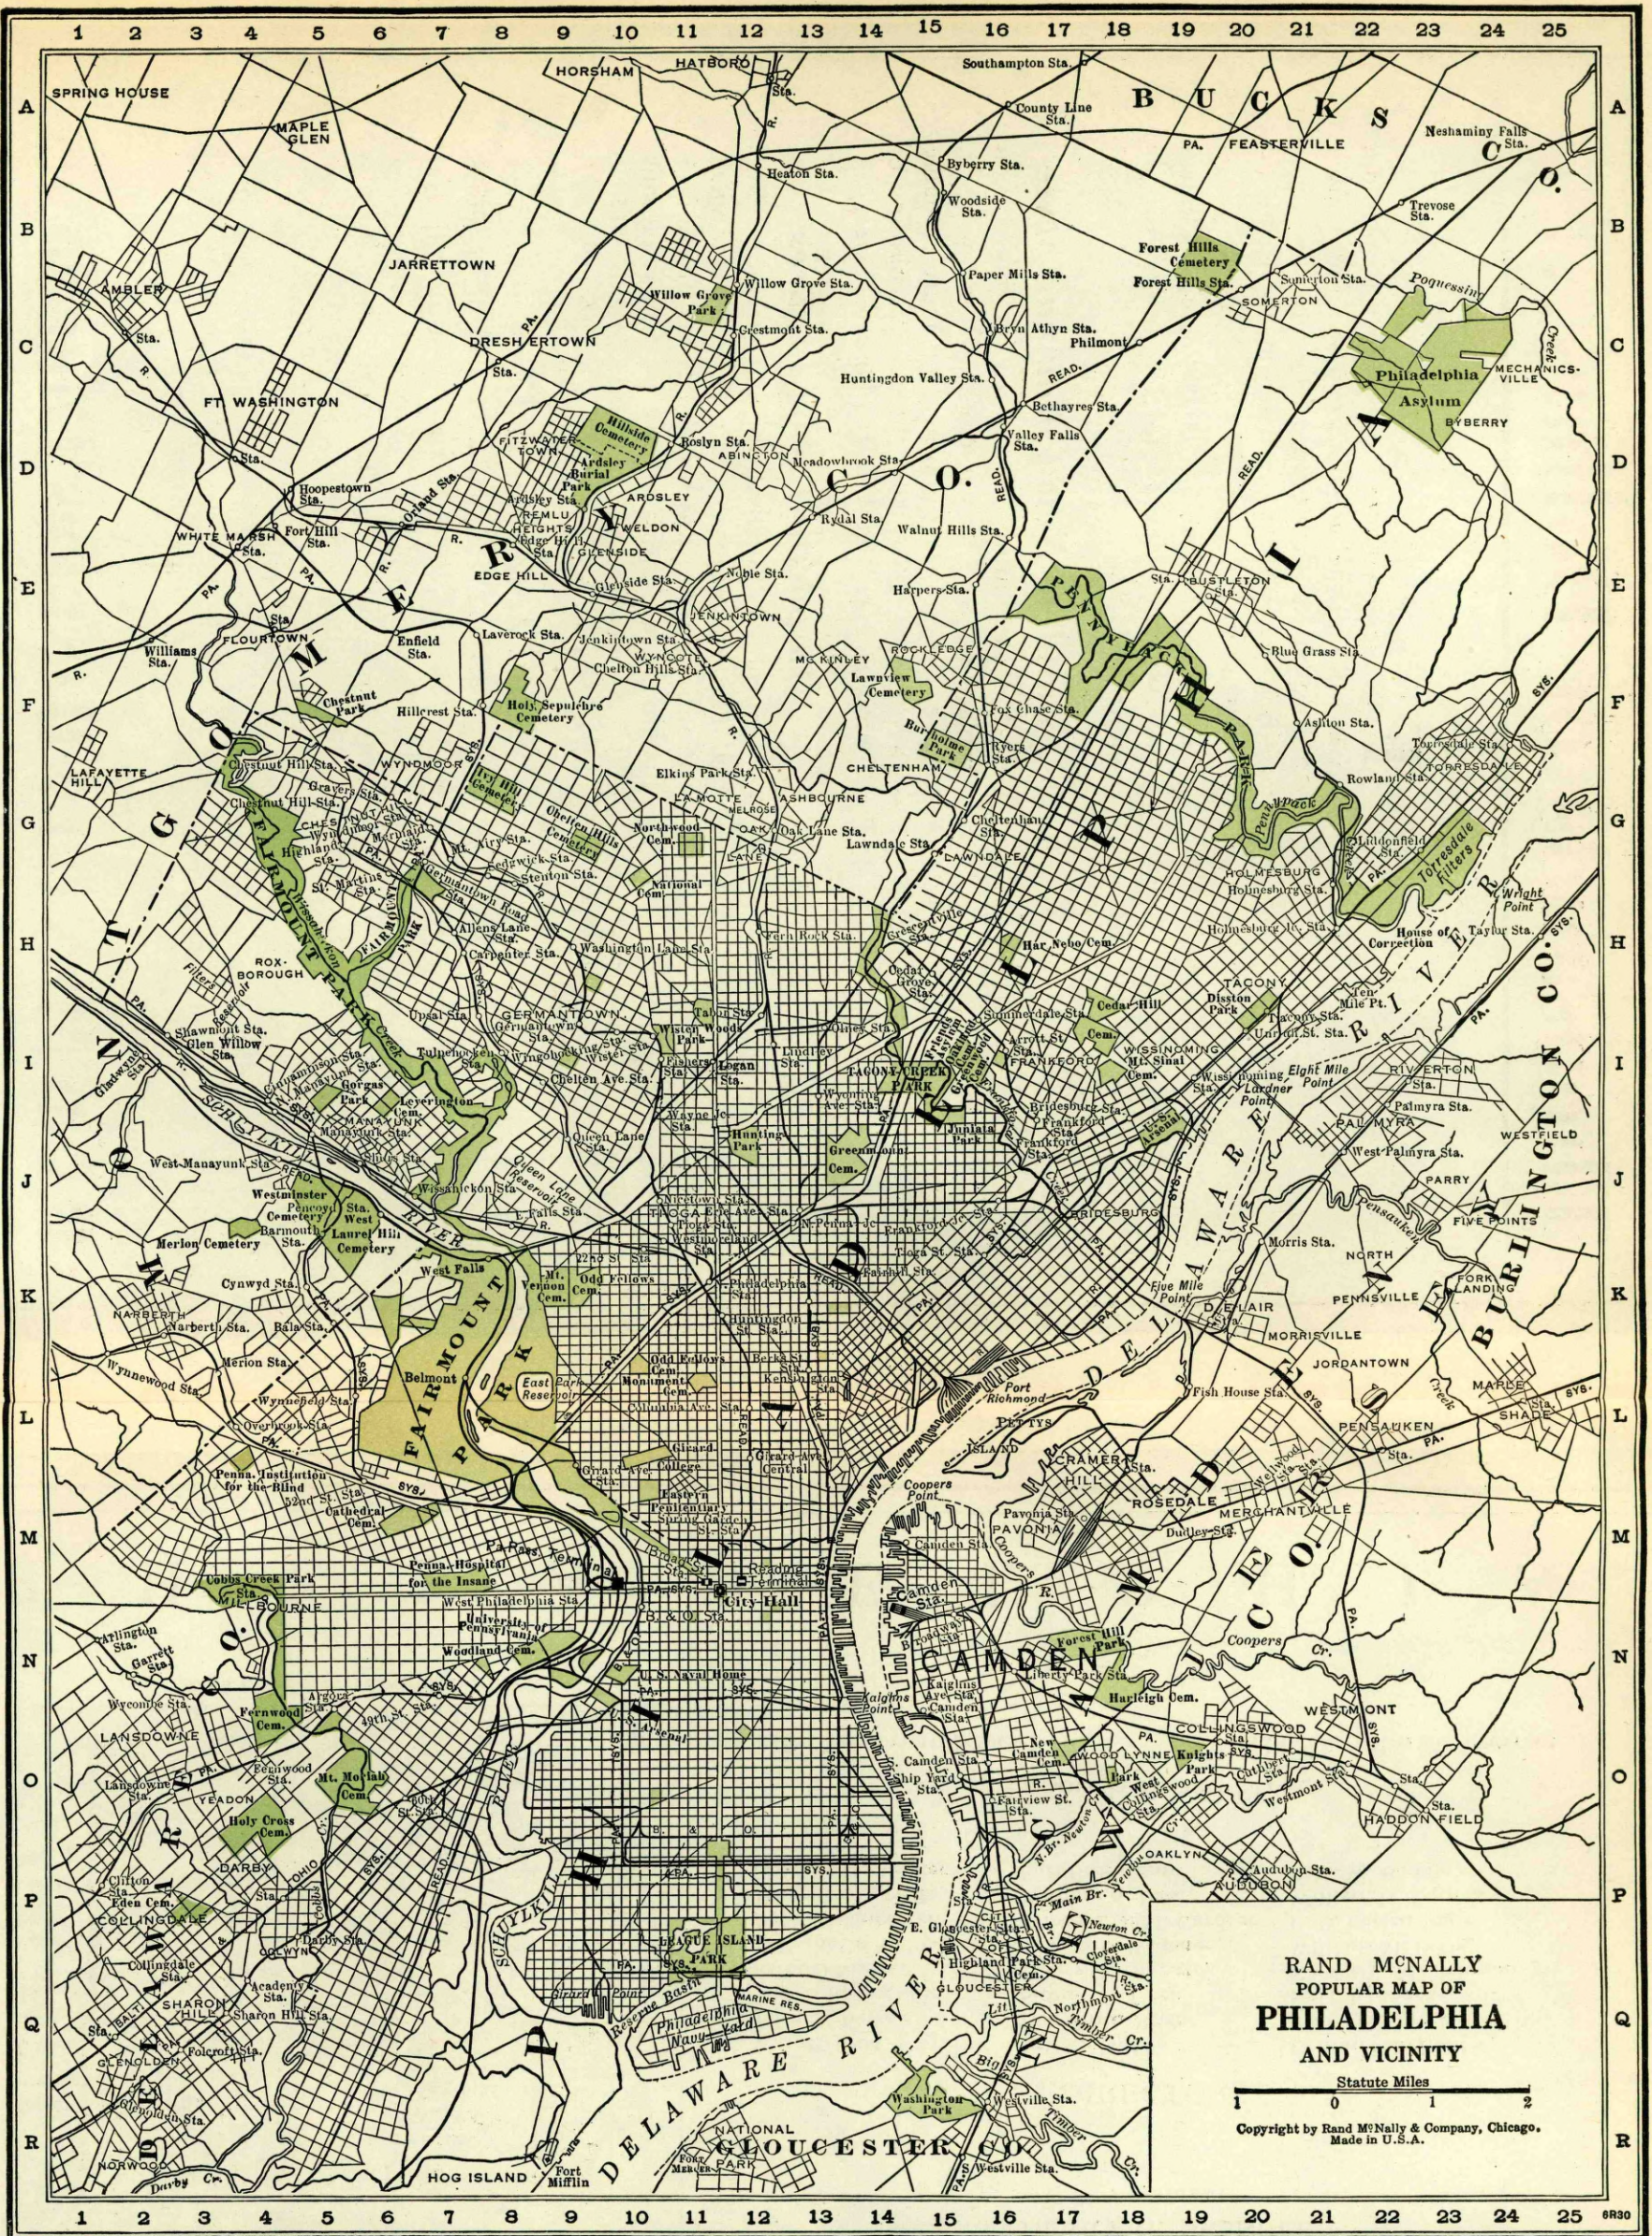

Totals at a Glance

A "Totals" column separating the liabilities from the resources enables you to tell at a glance the combined resources or liabilities of any bank in the country. No other directory embodies this feature.

• • •

With these four major advances your Blue Book emphasizes its position as "America's Standard Financial Reference."

STANDARDIZE ON THE BANKERS DIRECTORY

STANDARDIZED equipment means efficiency and economy in bank operation. You probably know that every officer and employee of your bank who uses a bankers directory wants *The Bankers Directory*—Rand McNally's Blue Book. You will be following the precedent set by Executives of practically all important American banks when you standardize on the Bankers Directory for inside equipment, outside information and inter-bank publicity.

See Back of Washington, D. C. Map

Introducing A Complete New Columnar Style

in this edition of your Blue Book

You now have eleven columns of data on every American bank—three more than in former editions of your Blue Book.

Figures in Thousands of Dollars

You will find all statements in this and subsequent editions listed in thousands of dollars only. A bank with \$100,000 capital is shown as \$100. An institution with \$1,250,101 in deposits is listed as \$1,250. This makes possible a quicker and easier reading and comparison of bank statements.

Undivided Profits and Reserves

Surplus and undivided profits now occupy two columns: "surplus" and "undivided profits and/or reserves."

U. S. Government Securities

Likewise, bonds and investments are divided into two columns, one showing the

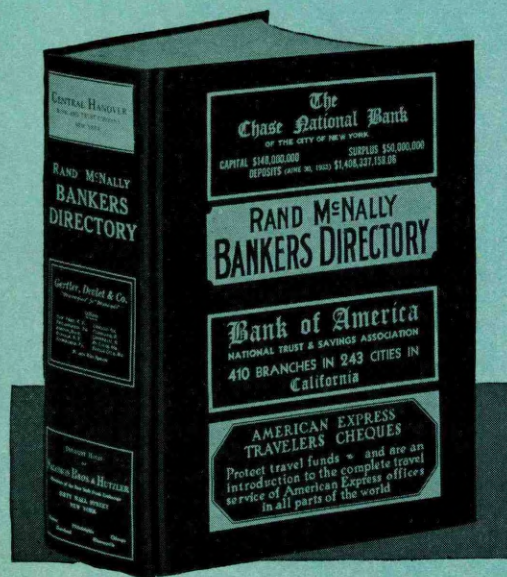

amount of funds invested in United States Government securities and the other showing the amount invested in other securities.

Totals Column

A "totals" column—separates the liabilities from the resources and shows at a glance the combined resources or liabilities of any American bank. No other bank directory embodies this essential index figure.

• • •

This new Blue Book revolutionizes all former methods of presenting banking data. Its four major improvements give you added figures on each bank—more conveniently arranged, permitting you to quickly compare the relative conditions as to each item of all banks in any given state or city.

Thousands of Dollars...

FOR increased speed and facility of reading, you will find the latest statements of all United States banks shown in this and subsequent editions of your Blue Book in thousands of dollars only.

Thus, a bank with \$200,000 capital is shown as \$200, one with \$1,421,118 in deposits is shown as \$1,421.

Complete New Columnar Style

Eleven columns of figures in this edition replace eight in former ones. This new style, more costly to the publisher, but more valuable to the user, gives you three new columns of figures on every bank in the United States.

Important New Figures

Surplus and undivided profits are now divided into two columns, "Surplus" and "Undivided Profits and/or Reserves." Bond and investments are also broken down into two columns, "U. S. Government Securities" and "Other Securities."

Totals at a Glance

A "Totals" column separating the liabilities from the resources enables you to tell at a glance the combined resources or liabilities of any bank in the country. No other directory embodies this feature.

• • •

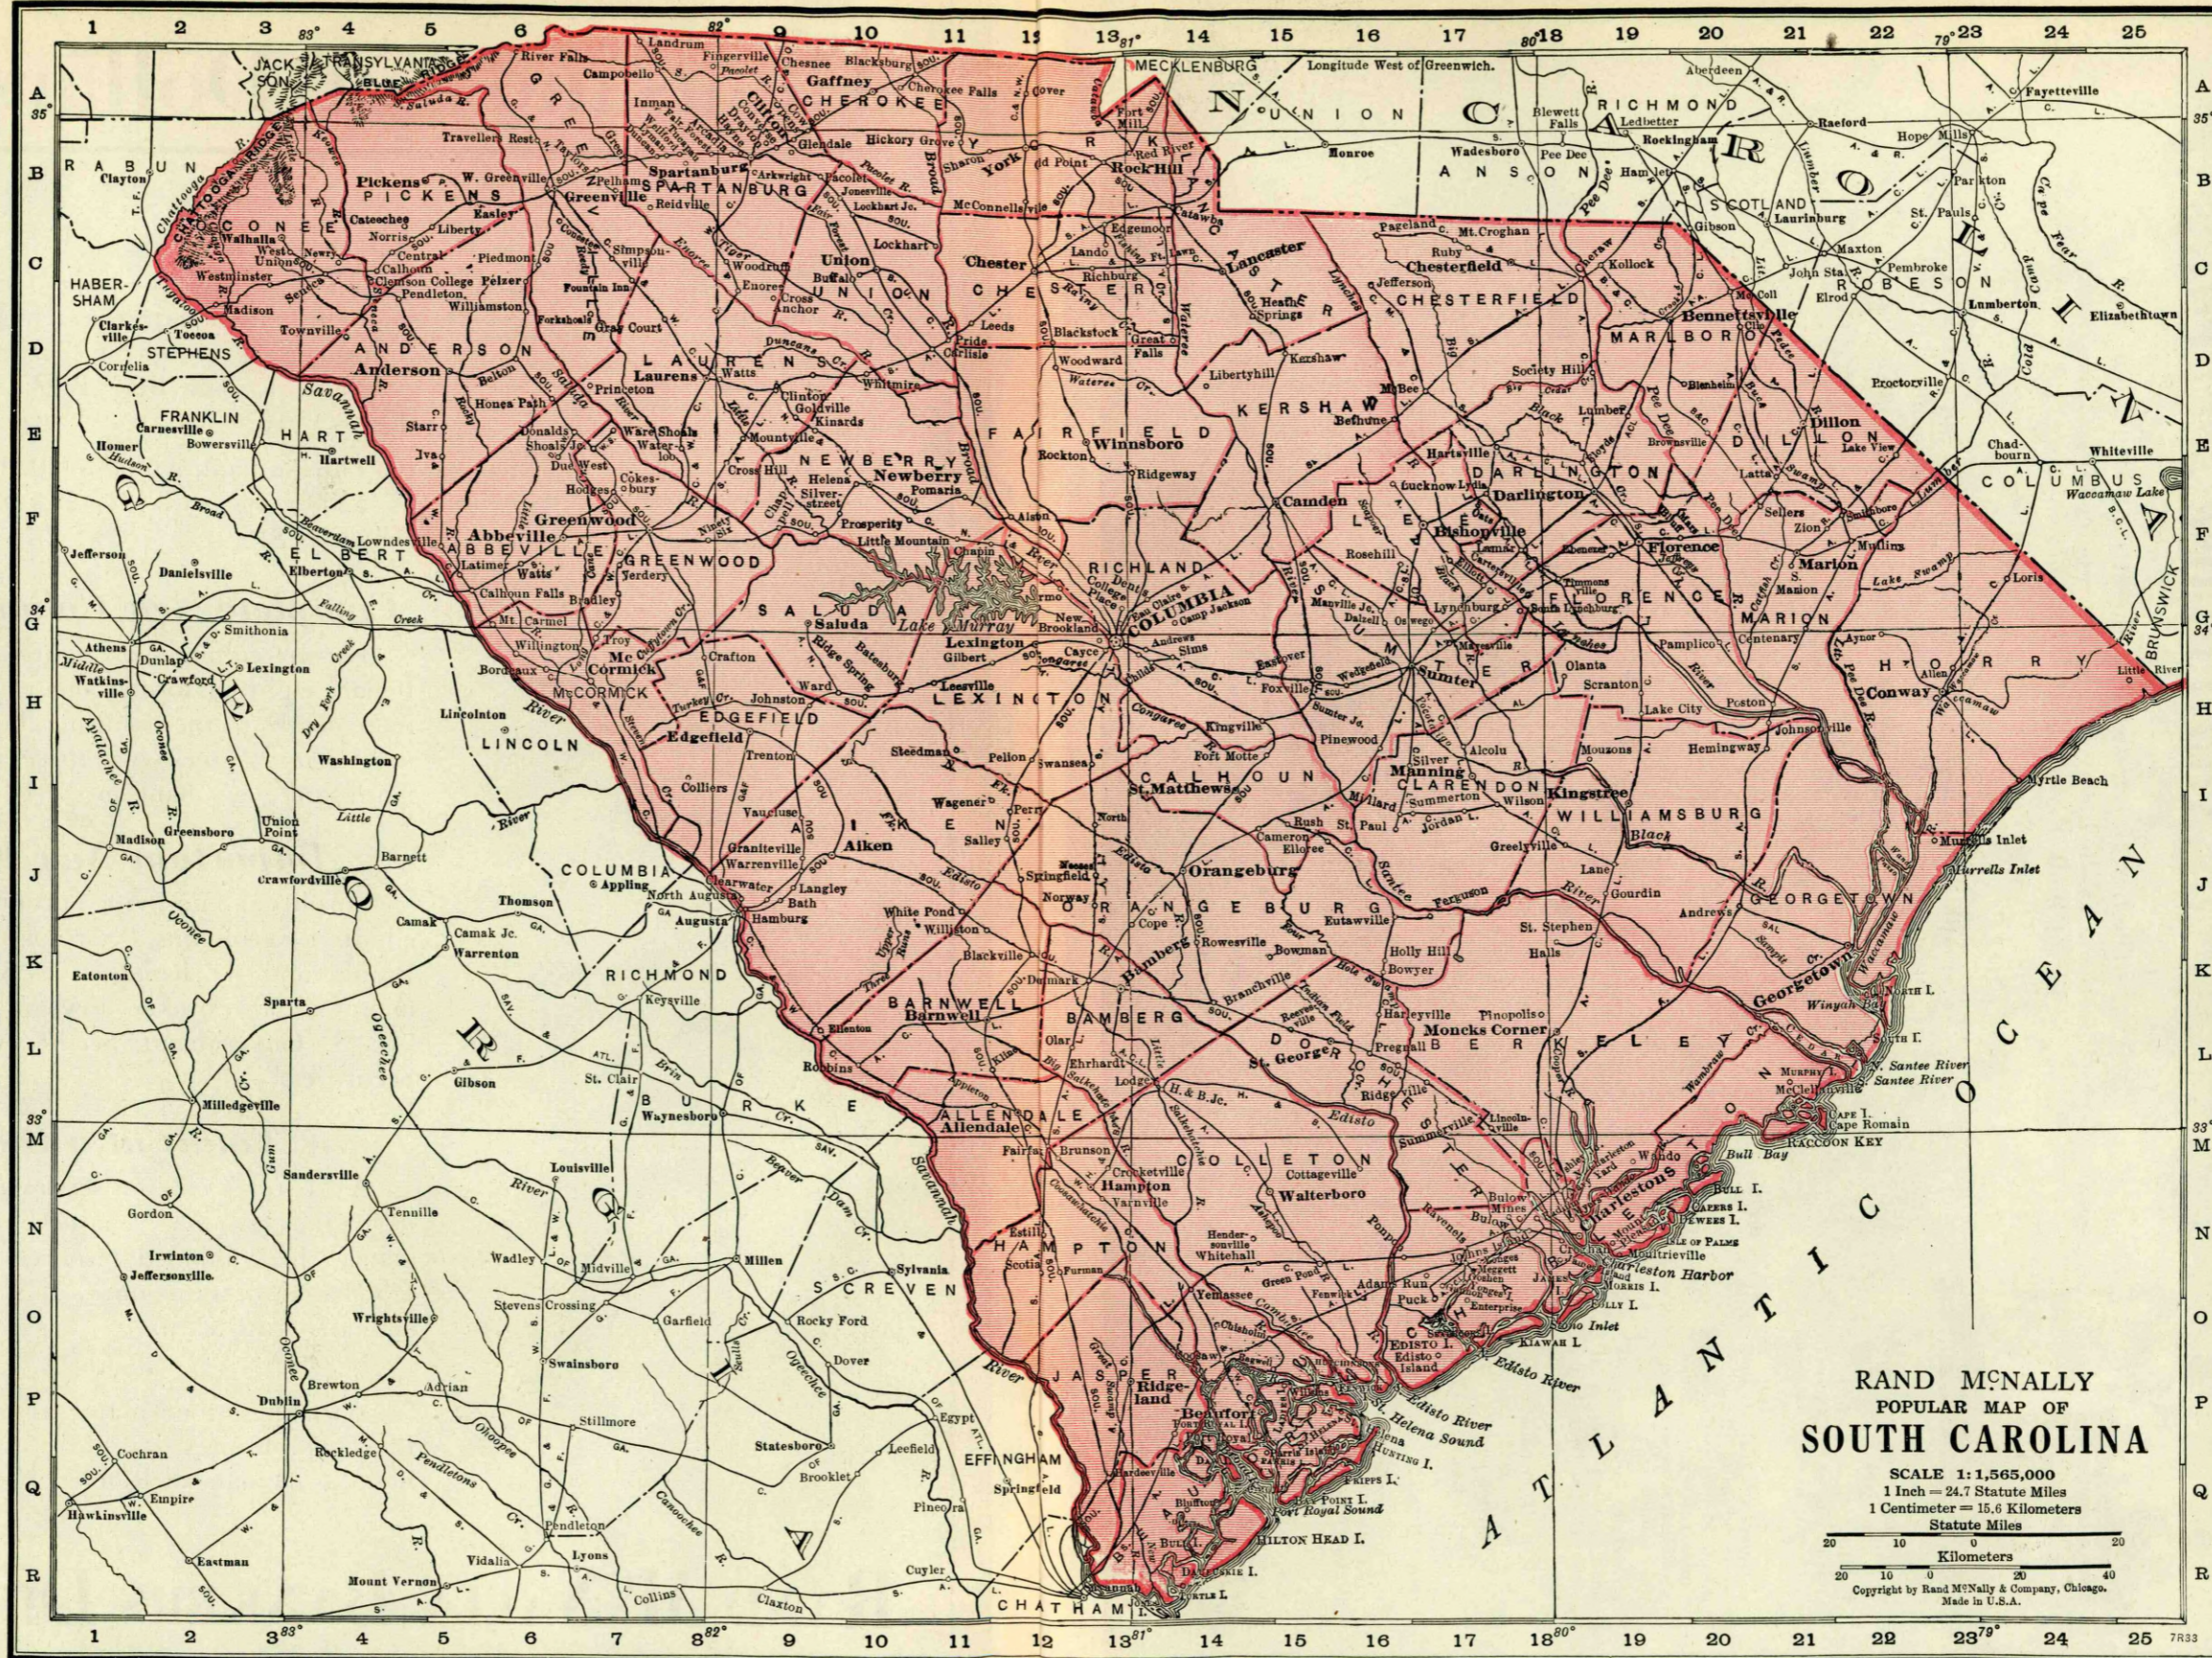

With these four major advances your Blue Book emphasizes its position as "America's Standard Financial Reference."

Choose legal representatives as you choose securities—

Every bank officer should have a Blue Book at his elbow.

The Blue Book besides containing a complete and accurate list of all banks and bank officers, has—

a complete list of discontinued bank titles for the past five years. Includes titles discontinued because of merger, absorption, failure—

a carefully compiled, thoroughly revised digest of all State laws affecting banking—

a list of all non-bank towns, showing the nearest accessible banking point—

a list of Bank Recommended Attorneys, one for each county—

and a great deal of other information needed by bankers, handily indexed for quick reference.

Keep a Blue Book always at your elbow because—*“if what you want to know has anything to do with banking, you will find it in the Blue Book.”*

The list of selected investment dealers in your Blue Book has helped you steadily—so can the Blue Book list of Bank Recommended Attorneys.

Safe

Bank Recommended Attorneys—listed in your Bankers Directory (Blue Book)—are each recommended by a banker as worthy of handling your out-of-town legal matters.

Seasoned

These attorneys are recommended because they have handled satisfactorily the business of one or more local banks. They are experienced in the work you want them to do.

Marketable

By “marketable” we mean that the list of Bank Recommended Attorneys is easily obtainable at all times. It is right at your elbow—in your Blue Book.

Good Yield

Matters sent to Bank Recommended Attorneys are handled with dispatch. Your money is back to work again when it should be—your delay and detail correspondence is reduced to a minimum.

Choose your legal representatives by the same standards used for buying securities. Use only Bank Recommended Attorneys listed in your Blue Book.

A. S. Pratt & Sons, Inc.—Specialists in Government Bonds
 WASHINGTON, D. C. See Back of Washington, D. C. Map

Introducing

A Complete New Columnar Style

in this edition of your Blue Book

You now have eleven columns of data on every American bank—three more than in former editions of your Blue Book.

Figures in Thousands of Dollars

You will find all statements in this and subsequent editions listed in thousands of dollars only. A bank with \$100,000 capital is shown as \$100. An institution with \$1,250,101 in deposits is listed as \$1,250. This makes possible a quicker and easier reading and comparison of bank statements

Undivided Profits and Reserves

Surplus and undivided profits now occupy two columns: "surplus" and "undivided profits and/or reserves."

U. S. Government Securities

Likewise, bonds and investments are divided into two columns, one showing the

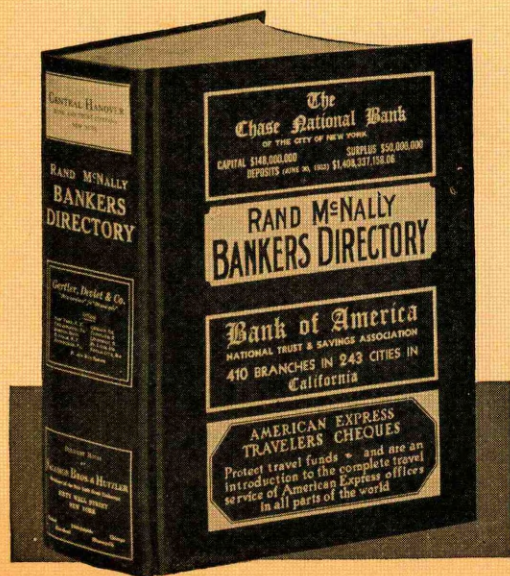

amount of funds invested in United States Government securities and the other showing the amount invested in other securities.

Totals Column

A "totals" column—separates the liabilities from the resources and shows at a glance the combined resources or liabilities of any American bank. No other bank directory embodies this essential index figure.

• • •

This new Blue Book revolutionizes all former methods of presenting banking data. Its four major improvements give you added figures on each bank—more conveniently arranged, permitting you to quickly compare the relative conditions as to each item of all banks in any given state or city.

Thousands of Dollars...

Tenn.

FOR increased speed and facility of reading, you will find the latest statements of all United States banks shown in this and subsequent editions of your Blue Book in thousands of dollars only.

Thus, a bank with \$200,000 capital is shown as \$200, one with \$1,421,118 in deposits is shown as \$1,421.

Complete New Columnar Style

Eleven columns of figures in this edition replace eight in former ones. This new style, more costly to the publisher, but more valuable to the user, gives you three new columns of figures on every bank in the United States.

Important New Figures

Surplus and undivided profits are now divided into two columns, "Surplus" and "Undivided Profits and/or Reserves." Bond and investments are also broken down into two columns, "U. S. Government Securities" and "Other Securities."

Totals at a Glance

A "Totals" column separating the liabilities from the resources enables you to tell at a glance the combined resources or liabilities of any bank in the country. No other directory embodies this feature.

• • •

With these four major advances your Blue Book emphasizes its position as "America's Standard Financial Reference."
