the Eyes have it! . . .

YOUR new Blue Book gives you the latest and most complete bank information available—arranged in 18 convenient columns—condensed to thousands of dollars—stripped of insignificant figure digits—accessible at a glance.

With this columnar arrangement of data there is no time lost in trying to segregate the particular item you are seeking from a jumbled mass of facts. There is no time lost in comparing a given figure with a similar one in another institution, for you simply "run your eye" down the column and

locate the corresponding item instantly.

Bankers tell us this style helps them answer their own and customers' questions more promptly with less effort. Business executives say it is a money saver, because their clerks can check a greater number of banks in less time.

Provide a copy of the new Blue Book for every officer. Also, keep one on the counter for customers' use—it will not only save your time, but your customers will appreciate this extra service.

Selected

By ambitious bankers throughout the nation as a short-cut to advancement and to the greater opportunities that lie ahead.

THESE THREE BOOKS, by authorities in their respective fields, offer a complete course in banking for the exceedingly low cost of only \$10.00 . . . Send for your copies today and look them over at our expense.

Making Profits

Bank Loan Management, by H. N. Stronck and J. Eigelberner, 268 pages. This volume covers the entire financial administration of a bank from the three-fold standpoint of yield, liquidity and safety. It shows how other banks are handling every type of loan—how they are judging their credit risks—utilizing outside credit information—and how they are handling their investment accounts. It is a handy guide for all profit-making activities.

Preserving Economies

Bank Cost Control, by B. E. Young, 299 pages. This volume shows how a bank can coordinate

its auditing and accounting functions to establish a control that will eliminate all waste and risks. By means of this control system the bank can determine and allocate its true costs and strengthen its earnings position. It is a handy guide for all internal control operations.

Building Business

Advertising for Banks, by Don Knowlton, 533 pages. The author of this volume shows how a bank of any size can decide upon an advertising appropriation and then how it can make that appropriation cover the necessary forms of publicity. He shows how the officer in charge of publicity can write all the forms of adver-

tisements—how he can build effective interior and window displays—how he can build new business and maintain satisfactory customer and community relations. It is a handy guide for all publicity and deposit building activities.

READ THEM FREE—We have told you what we think of these books and we could tell you what hundreds of others think of them, too. But we would rather have you judge for yourself how they will fit into your own institution, so send for them now. There will be no charge unless you decide to keep them.

Preferred . . .

by Bankers and Business Executives

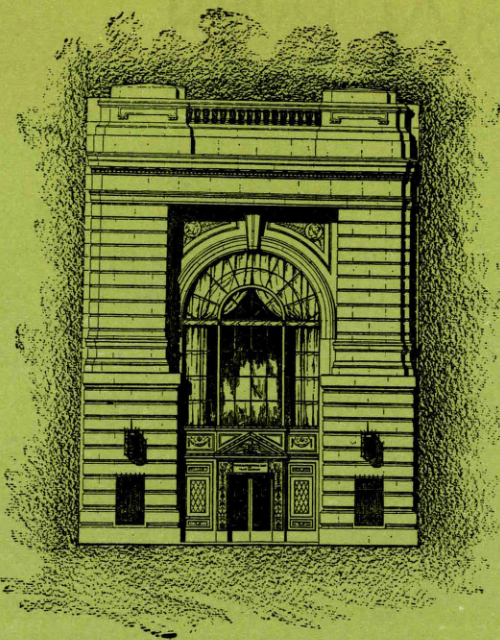

RAND MCNALLY BANKERS DIRECTORY has more subscribers than all other bank directories combined.

Seven good reasons for this are:

- 1**—It gives an 11 item breakdown of all U. S. banks' latest statements
- 2**—It lists corresponding items of different banks in the same column for quicker location and easier comparison
- 3**—It gives all discontinued U. S. bank titles (1931-36 inclusive) in one separately indexed section
- 4**—Its bank recommended attorney section is the third oldest law list in America and the most select
- 5**—Its side opening style permits more banks to the page, making more complete information on each page and making the book less bulky than any other complete bank directory
- 6**—It is published nearer the date of its information than any similar work
- 7**—It is the official numbering agent of the American Bankers Association

THOROUGHNESS

No question can arise in regard to banking that Rand McNally Bankers Directory fails to answer. This fact is true not alone of commercial banks, but of the Federal Reserve banks, Federal Land banks, Federal Home Loan banks, Federal Intermediate Credit banks, Joint Stock Land banks, Regional Agricultural Credit corporations, Canadian and foreign banks.

ACCURACY

The undeviating accuracy of the Blue Book makes it the standard work of reference throughout the banking world.

The Bankers Secretary is a free service, but a necessary one. We run it for three reasons. In the first place, we are in a better position to keep track of manufacturers of bank equipment and supplies than any other organization in the banking field. Second, we can render a distinctive service to our subscribers through the Bankers Secretary. And third, Bankers Secretary inquiries tell us the basic interests of banking and in that way help us to mould our editorial policies.

YOUR new Blue Book gives you the latest and most complete bank information available—arranged in 18 convenient columns—condensed to thousands of dollars—stripped of insignificant figure digits—accessible at a glance.

With this columnar arrangement of data there is no time lost in trying to segregate the particular item you are seeking from a jumbled mass of facts. There is no time lost in comparing a given figure with a similar one in another institution, for you simply “run your eye” down the column and locate the corresponding item instantly.

Bankers tell us this style helps them answer their own and customers’

questions more promptly with less effort. Business executives say it is a money saver, because their clerks can check a greater number of banks in less time.

Provide a copy of the new Blue Book for every officer. Also, keep one on the counter for customers’ use—it will not only save your time, but your customers will appreciate this extra service.
