Practical Knowledge for Key Employees

Many of the country's leading banks subscribe to Bankers Monthly for their officers, directors and key employees, because they have learned that only in this magazine can they find the actual current practices of other institutions on administration policies, operating and personnel methods, credits and collections, increasing deposits and selling services, adjustment of portfolios and director cooperation.

- Throughout the coming months we plan to give our readers—among other articles of interest—these seven monthly features:
- a banking article of national interest
 - a successful plan of vital interest to the loan officer
 - a report of teamwork in a bank and what it accomplished

—a better banking house article telling of the installation of some new equipment or service that pleased customers and increased profits

- a new business feature showing how some bank developed a plan to secure deposits, sell its services or increase its loans
- spot news—pertinent items of interest to alert bankers
- all the banking changes of the previous month.

Successful bankers are attentive readers of Bankers Monthly! If your officers and key employees are not already on our roster, write immediately for special group discounts.

Non-Bank Towns . . .

Access

In the third from last section of the BLUE BOOK you will find over 100 pages, indexed as above, listing all of the towns in the United States that are without Banking facilities.

After each town listed you will find its nearest accessible Banking point. Behind each name is information as to whether or not the town is a county seat, has a money order office, or a telegraph station.

Conscientiously revised every six months, this is the most accurate and up-to-date list of non-Bank towns and their nearest accessible Banking points that it is possible to obtain.

Making Profits

Bank Loan Management, by H. N. Stronck and J. Eigelberner, 268 pages. This volume covers the entire financial administration of a bank. It shows how to handle every type of loan from the three-fold standpoint of yield, liquidity and safety—how to judge the credit risk—how to utilize outside credit information—how to handle the investment account and the ten commandments of successful loan administration. It is a handy guide for all profit-making activities.

Preserving Economies

Bank Cost Control, by Benjamin E. Young, 299 pages. This volume shows how to coordinate the auditing and accounting functions in a bank to establish a control that will eliminate waste and risks. By means of this audit and control system you can determine and allocate your various operating costs and figure a finished cost per transaction. It is a handy guide for the control of all inside operations.

Building Business

Advertising For Banks, by Don Knowlton, 533 pages. The author of this book shows how a bank of any size can

decide upon an advertising budget—how it can make that budget cover the necessary forms of publicity—how the one in charge of publicity can write and produce the various forms of advertisements—how he can build effective interior and window displays—how to build new business and maintain favorable customer and community relations. It is a handy guide for all publicity and deposit building activities.

YOUR new Blue Book gives you the latest and most complete bank information available—arranged in 18 convenient columns—condensed to thousands of dollars—stripped of insignificant figure digits—accessible at a glance.

With this columnar arrangement of data there is no time lost in trying to segregate the particular item you are seeking from a jumbled mass of facts. There is no time lost in comparing a given figure with a similar one in another institution, for you simply “run your eye” down the column and locate the corresponding item instantly.

Bankers tell us this style helps them answer their own and customers’

questions more promptly with less effort. Business executives say it is a money saver, because their clerks can check a greater number of banks in less time.

Provide a copy of the new Blue Book for every officer. Also, keep one on the counter for customers’ use—it will not only save your time, but your customers will appreciate this extra service.

IT'S THE ALBUQUERQUE NATIONAL TRUST AND SAVINGS BANK

Albuquerque, largest city in New Mexico, is the hub of all commercial and banking activities for this 122,634 square mile state. This clean, modern city centers the colorful Indian country and a vast mountain recreational empire which many world travelers have pronounced the most vivid and fascinating area to be found anywhere in the world.

Nestling in the heart of the rich irrigated Rio Grande Valley, flanked by the imposing Sandia mountains, Albuquerque enjoys a year-round sunshiny climate so clear, so tonic, that it was chosen by the United States Government as the location for the enormous Veterans' Administration Hospital and a Government Indian Hospital.

Albuquerque also offers exceptional educational facilities, with a fine public and secondary school system. Here, too, is the State University of New

Mexico, famed for its archeological and Spanish departments, with its beautiful tree-shaded campus and unique New Mexican style architecture.

A real travel center, Albuquerque is on trans-continental highways 66 and 85, on the main line of the Santa Fe Railway and the direct route of TWA and Continental Air Lines.

The Albuquerque National Trust and Savings Bank is the oldest bank in Albuquerque, offering a complete and dependable banking service for this growing city and progressive state.

Our long experience has given us a fund of valuable information concerning New Mexico's mining, farming, live stock, oil and other leading industries. We will be glad to supply any information concerning Albuquerque, New Mexico, or about the banking service we are prepared to offer.

On difficult old defaulted Special Assessment Bonds we make bids when no one else can. Try us.
