**YOUR** new Blue Book gives you the latest and most complete bank information available—arranged in 18 convenient columns—condensed to thousands of dollars—stripped of insignificant figure digits—accessible at a glance.

With this columnar arrangement of data there is no time lost in trying to segregate the particular item you are seeking from a jumbled mass of facts. There is no time lost in comparing a given figure with a similar one in another institution, for you simply “run your eye” down the column and locate the corresponding item instantly.

Bankers tell us this style helps them answer their own and customers’

questions more promptly with less effort. Business executives say it is a money saver, because their clerks can check a greater number of banks in less time.

Provide a copy of the new Blue Book for every officer. Also, keep one on the counter for customers’ use—it will not only save your time, but your customers will appreciate this extra service.

## Practical Knowledge for Key Employees

Many of the country's leading banks subscribe to Bankers Monthly for their officers, directors and key employees, because they have learned that only in this magazine can they find the actual current practices of other institutions on administration policies, operating and personnel methods, credits and collections, increasing deposits and selling services, adjustment of portfolios and director cooperation.

Throughout the coming months we plan to give our readers—among other articles of interest—these seven monthly features:

- a running study of investment problems as they affect the average-size country bank.
- a series of research reports on safe deposit principles and practice, analyzing the policies of 100 typical banks.

—a continuation of the studies of loan hazards (insurable and uninsurable) of specific industries and businesses.

—an article on either operation or policy for officer in charge of purchasing and stock keeping.

—a report of successful public relations or advertising program.

—spot news.

—all the banking changes of the previous month.

Successful bankers are attentive readers of Bankers Monthly! If your officers and key employees are not already on our roster, write immediately for special group discounts.

## Are Your Out-Of-Town Legal Matters Handled By Bank Attorneys

**Y**OU will get the same service on legal matters in other cities that you do in your own if you use The Rand McNally list of Bank - Recommended attorneys *exclusively*. Every attorney listed comes to us through the voluntary recommendation of his local banker who has first-hand knowledge of that attorney's integrity and ability.

In most cases, the attorney recommended is the bank's own attorney. In all cases, the attorney is recommended because he is competent and reliable, and because he has demonstrated efficiency in handling bank work.

At the right are samples of the attorneys and law firms listed. These were picked at random to show the character of our Bank-Recommended Attorneys.

We invite anyone having a competent confidential attorney rating book to examine the character of our list. It will be found as high as any in the country.

Rand McNally & Company now offer banks  
a proved service that . . . .

## SIMPLIFIES COLLECTIONS of PERSONAL LOANS • TIME PAYMENTS • MORTGAGES

Through licenses under the patents protecting these coupon books, Rand McNally & Company can now supply banks and industry with this tried and proved economic system for collecting personal loans, mortgage payments, time payments, and similar types of collections.

This system enables you to set up, *in less than half a minute*, the entire coupon schedule of payments at the time the loan is made. Each coupon in the customer's book represents a payment due and shows *amount, month, and day of month* it is due.

No advance mailing of payment due notices—

no mailing back of customer's record books—no necessity for getting ledger card from the file for each transaction—effective discouragement of partial payments—greater speed at the teller's window—accounts filed by control number for quick positive handling—these are but some of the money-saving features of this efficient, practical system.

Investigate this modern collection system for banks, both large and small. Write today for further information, or to have our sales representative in your banking district call at your bank. Address:

# Blue Book Symbols

answer *more* questions in *less* time.

By means of a system of symbols your Blue Book is able to list 37 important facts about every American bank in 18 columns of space. And the columnar arrangement of data—not possible without these symbols—makes it possible for you to locate and compare at a glance any or all facts about banks in a community.

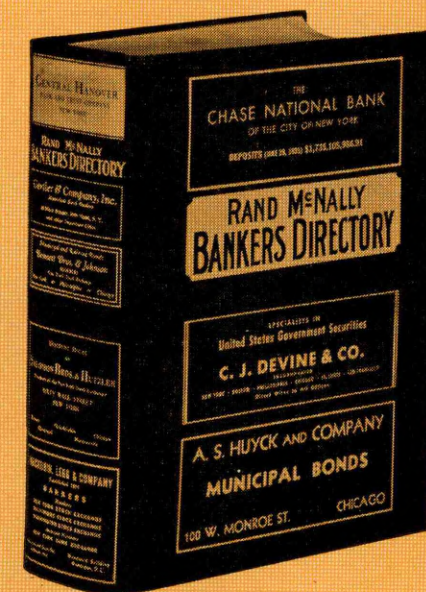

In the Blue Book's 18 columns of data you will find answers to the following questions:

# Selected . . . . .

By ambitious bankers throughout the nation as a short-cut to advancement and to the greater opportunities that lie ahead.

THESE THREE BOOKS, by authorities in their respective fields, offer a complete course in banking for the exceedingly low cost of only \$5.00 . . . . Send for your copies today and look them over at our expense.

## Making Profits

**Bank Loan Management**, by H. N. Stronck and J. Eigelberner, 268 pages. This volume covers the entire financial administration of a bank from the three-fold standpoint of yield, liquidity and safety. It shows how other banks are handling every type of loan—how they are judging their credit risks—utilizing outside credit information—and how they are handling their investment accounts. It is a handy guide for all profit-making activities.

## Preserving Economies

**Bank Cost Control**, by B. E. Young, 299 pages. This volume shows how a bank can coordinate

its auditing and accounting functions to establish a control that will eliminate all waste and risks. By means of this control system the bank can determine and allocate its true costs and strengthen its earnings position. It is a handy guide for all internal control operations.

## Building Business

**Advertising for Banks**, by Don Knowlton, 533 pages. The author of this volume shows how a bank of any size can decide upon an advertising appropriation and then how it can make that appropriation cover the necessary forms of publicity. He shows how the officer in charge of publicity can write all the forms of adver-

tisements—how he can build effective interior and window displays—how he can build new business and maintain satisfactory customer and community relations. It is a handy guide for all publicity and deposit building activities.

## SPECIAL OFFER

The large demand for these books has enabled us to reduce the price in half—formerly selling for \$10 the set, we can now offer them to you for \$5. If sold singly, \$2 ea. **ACT NOW—get your set while the supply lasts.**
