*A contract for bank directory service, give careful consideration to the following facts:*

1. The Rand McNally Bankers Directory (The Bankers Blue Book) for 68 years has been the standard publication of its kind.
2. It has a paid circulation several times larger than its nearest competitor, and larger than all similar directories combined.
3. 95% of the banks subscribing to bank directories buy the Rand McNally Bankers Blue Book.
4. Based on circulation its rates are one-third that of any similar publication.
5. Thousands of Commercial Banks, Savings, Trust and Investment Banking Houses advertise only in THE BANKERS DIRECTORY.
6. The number of advertisers alone greatly exceeds the number of paid subscribers to any similar work.
7. Its greater prestige, circulation and preference is deserved because it is the most reliable and comprehensive reference book of its kind and the publishers spare no expense in keeping it complete, thorough and up-to-date.
8. The Blue Book is the Official Numbering Agent of the American Bankers Association.

## First in Service

This bank exerts every effort to be *first* in the excellence of its correspondent service . . . *first* in serving our correspondent banks pleasantly and with dispatch . . . *first* in doing those little things that are appreciated because they go far beyond the mere routine handling of items. It is this fact that causes so many bankers to think of the First National *first* when they think of Dallas.

# Non-Bank Towns . . .

## Access

In the third from last section of the BLUE BOOK you will find over 100 pages, indexed as above, listing all of the towns in the United States that are without Banking facilities.

After each town listed you will find its nearest accessible Banking point. Behind each name is information as to whether or not the town is a county seat, has a money order office, or a telegraph station.

Conscientiously revised every six months, this is the most accurate and up-to-date list of non-Bank towns and their nearest accessible Banking points that it is possible to obtain.

Key To Numerical System  
of  
The American Bankers  
Association

As Official Numbering Agent of the American Bankers Association, we publish annually (in May), with a semi-annual supplement (in October), the Key Book—an alphabetical and numerical (by Transit numbers) list of American Banks.

Many Transit numbers have been changed due to bank consolidations, closings, new banks, new branch banks, etc.

It isn't worth the gamble of time lost or mistakes made to use an old Key Book when a new one costs only \$2.50 delivered.

*If you haven't ordered the latest  
Key Book do so TODAY.*

## Is Your Bank's Horizon World Wide?

The customers you care the most about keeping are the very ones who would be most interested in seeing international banking services offered by your bank: the manufacturer interested in establishing world markets; the importer who helps settle international debts; the inexperienced or the seasoned globe-trotter—they all look to you for *international* information.

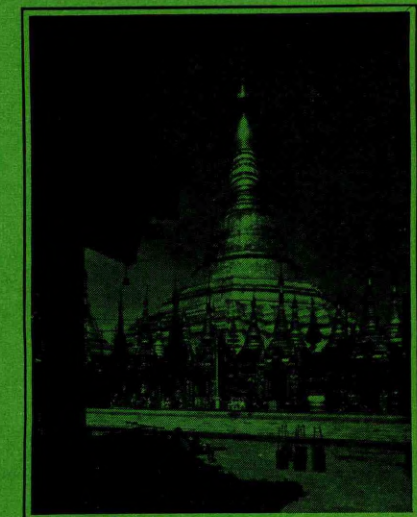

Their accounts are valuable. And, with a BLUE BOOK at your elbow, you are fully equipped to extend your bank's service throughout the world.

The Foreign Banks Section of your BLUE BOOK contains a complete and accurate list of all banks in the world. It shows the statement of condition of the chief foreign banks, together with officers and principal correspondents.

The BLUE BOOK also contains a table of postal and parcel post rates to any section of the globe.

Your BLUE BOOK contains maps of Europe, Asia, Africa, England, Philippine Islands, South America, Mexico, West Indies and Alaska.

**Every officer who serves depositors should have a BLUE BOOK—an up-to-date copy—for his personal use.**

# Keep Abreast of the Times

MR. BANKER . . . Be alert to modern day banking by reading the Blue Book Library. By authorities in their respective fields . . . written from the standpoint of actual practices and not general theories . . . giving the experiences of hundreds of banks and bankers in meeting every major type problem that confronts the banker.

## THE BLUE BOOK LIBRARY

### Making Profits

**Bank Loan Management**, by H. N. Stronck and J. Eigelberner, 268 pages. This volume covers the entire financial administration of a bank from the three-fold standpoint of yield, liquidity and safety. It shows how other banks are handling every type of loan—how they are judging their credit risks—utilizing outside credit information—and how they are handling their investment accounts. It is a handy guide for all profit-making activities.

### Preserving Economies

**Bank Cost Control**, by B. E. Young, 299 pages. This volume shows how a bank can coordinate

its auditing and accounting functions to establish a control that will eliminate all waste and risks. By means of this control system the bank can determine and allocate its true costs and strengthen its earnings position. It is a handy guide for all internal control operations.

### Building Business

**Advertising for Banks**, by Don Knowlton, 533 pages. The author of this volume shows how a bank of any size can decide upon an advertising appropriation and then how it can make that appropriation cover the necessary forms of publicity. He shows how the officer in charge of publicity can write all the forms of adver-

tisements—how he can build effective interior and window displays—how he can build new business and maintain satisfactory customer and community relations. It is a handy guide for all publicity and deposit building activities.
