The Key Book is a record of transit numbers assigned to every bank in the U. S., arranged in alphabetical and numerical order.

Using the Transit number of a bank eliminates the need of writing out the full name of a bank, etc., speeds up work and minimizes the possibility of error.

Detailed instructions for its efficient use appear in the front part of each Key Book.

Copies of the 1942 edition Key to the Numerical System of the American Bankers Association are available.

Compiled and published yearly in May under authority of the American Bankers Association, as their OFFICIAL NUMBERING AGENT.
