THE UNDERSIGNED have associated themselves under the name and firm of FREEBORN, JEWETT & Co. for the purpose of pursuing the business of **Inspection of Pot and Pearl Ashes**, and have taken the Stores No. 63 and 65 Washington-street, until the 1st of May next, at the old established Inspection Warehouse, 48 and 49 West-street, in the city of New-York.

The matter of Inspection in future, being unrestricted and free, as regards legal requirements, still it is presumed, it will not supersede the necessity of the classification of these articles according to the proper standard by persons competent to perform the same. This seems to be called for from the skill and experience necessary to arrive at the different properties of the articles in the preservation of the character of our Ashes in Foreign markets, and also, as promoting the convenience and facilities of dealers in these articles.

The Undersigned feel assured that they are entitled to the confidence of the public on the score of a thorough knowledge of the articles they propose to inspect and classify, all the members of the firm having been practically and almost constantly, for many years past, engaged in the Inspection of Ashes, and in future will give their personal attention to the business. It will be our aim to preserve the standard of Inspection, and do justice to the manufacturer and consumer.

The Fees of Inspection will be reduced from former rates, twenty per cent. and fixed at *eight cents per hundred pounds*, which will be invariable.

Ashes will be received at the Warehouse or Storage, at the usual rates, subject to order for Inspection or otherwise.

Submitting the above matters to your consideration, we shall be pleased at all times to receive any Ashes you may see fit to entrust to our care.

Very Respectfully,
Your obedient servants,

The first lot of new Ohio, 833 bbls. Prime and Mess, has just been received, 250 bbls. of which, we understand, have changed hands on terms we did not learn. Beef remains firm, and with a fair demand, the sales are to a moderate extent; 300 bbls. Western and River Mess sold at $8,37½ @ $8,50; and 200 do. City, $9;—we quote as the extremes for Country and City $6,25 @ $7, and $8,37½ @ $9 for Prime and Mess. Ohio Lard is in fair request, but the light supply prevents large operations; a few hundred kegs common sold at 6¾ cents; and 500 do. prime, 7½. Pickled Meats are quiet; some new Ohio Hams have been received, and remain unsold. Butter and Cheese are dull.

Export, from 1st to 31st December,
Beef....4,300 bbls.
Pork....7,192 bbls.
Lard....20,037 kegs.
Export, from 1st to 5th January,
Beef....537 bbls.
Pork....505 bbls.
Lard....4,632 kegs.

RAGS—Some parcels Leghorn recently received, say 223 bales Nos. 1 and 2, have been disposed of on private terms, part previous to arrival.

RICE—The market remains dull, with sales of 200 tcs. of the various qualities here at $3,12½ @ $3.87½, cash.

SALT—A sale of 850 sacks Ashton's Liverpool Fine has been made in the neighbourhood of $1,30, 4 mos; a lot of Fine, recently received, was sold before arrival. 2000 bushels Turks Island changed hands at about 27 cents, 4 mos.; an invoice of 153½ lasts Cadiz, and a portion of another of the same description, on terms we did not learn.

SEEDS—The market is very quiet; a small lot American Rough Flax brought $1,27; a parcel of Foreign we believe remains unsold.

Export of Clover and Flax for three years:

	Clover.	Flax.
1844....tcs.	3519	5924
1845	6477	14,586
1846	6186	5616

SKINS—A lot of 2500 Curacao Goat has been sold within our range.

SPICES—Sumatra Pepper has recently sold pretty largely at 7 cents, and the market is now firm at that price; a lot of Jamaica Pimento remains unsold.

SPIRITS—A cargo of Rochelle Brandy having arrived since our last, prices have receded considerably, with sales of 15 @ 20 hf. pipes A. Seignette at $2,05; and Rasteau Charruyer, $2,06; 15 hf. pipes Otard, Dupuy & Co. brought $2,37½ @ $3,45; and some J. J. Dupuy, $1,90, 6 mos. Other Foreign Spirits are quiet. Domestic Whiskey is dull at 23½ @ 24 cents in drudge casks, and 24 in bbls. which for the former is a reduction. The price of Alcohol is now 48 cents, and American Brandy and Gin cannot be sold to any extent at previous rates.

SUGARS—The demand is moderate, and prices of the various descriptions without change. The sales include 250 hhds. New-Orleans at 7 @ 7¾ cents; and 1500 bxs. Brown and White Havana at 6½ @ 7½ for the former, and 7¾ @ 8, 4 mos. for the latter. The Refiners have reduced their prices 1 cent ₱ lb. and are now selling their best Double Refined Sugar at 10 cents; we reduce our quotations accordingly.

TALLOW—Sales have been made of 25,000 lb. prime, part for export, at 8¼ @ 8½ cents, cash.

TEAS—The market is very quiet, there being as far as we can learn, no demand at present. In another column will be found our usual Annual Statement of the Imports into this Country, and the Exports from this Port for 1845 and 1846.

TOBACCO—Is in fair request, and we notice further sales of 44 bales St. Jago and 40 do. Yara, to go out of the market, 310 do. Baracoa and 29 cases Pennsylvania Seed Leaf for export, on private terms; about 75 cases Florida at 3½ and 10 @ 35 cents; 44 bales Havana, for home use, 25 and 50 @ 75; and 50 hhds. Kentucky, 3 @ 4½, 4 months. The stock in the Inspection Warehouse 1st inst. consisted of 1820 hhds. Kentucky, 1020 Virginia and North Carolina, 37 Ohio, and 24 Maryland—together 2901 hhds.—being 13 less than on the 1st ult.

WHALEBONE—There has been nothing done in either description since our last.

WINES—Are dull, and we have only to notice sales of 15 qr. casks and 10 Ind. bbls. Canary at 65 @ 80 cents; 10 hf. pipes Madeira, 62½ @ 75; 20 qr. casks Port, 72½ @ 100; 45 Lisbon, 50; and a few Sherry, $1, 6 mos.

FREIGHTS—Are not quite so active generally since the sailing of the steamer, and in some cases rather lower rates have been accepted, though the packets (excepting to Havre) having previously engaged ahead, demand previous prices. To Liverpool, the packet 1st prox. has 14,000 bushels Corn (engaged last week) at 18½d. ₱ bushel; 19d. was afterwards paid, and 18d. @ 19d. may still be considered a fair quotation. A transient ship was taken up yesterday at 5s. ₱ bbl. for Flour, and 18d. for Grain. To Glasgow, Wheat and Corn have been taken at 18d. ₱ bushel. To Ports in Ireland, 20d. for Corn continues to be paid. To Havre, Flour is taken at $1,12½ ₱ bbl.; and for Grain in bags, 30 cents is asked, without any new engagements at that rate.

EXCHANGE—Since our last, there has been nothing done in Foreign worthy of notice.

CINCINNATI MARKET.

Cincinnati, Ohio, Dec. 30, 1846.

Hogs—The sales which have transpired since our last date are larger than in any preceding week this season, amounting, up to Monday night, to 23,000 head, and a good many have been cutting, the particulars of which are not public.

Up to the present date the aggregate packed, we estimate, is not far from 125,000 head—may, perhaps, exceed this number. The extreme rates of the week are $2,90 @ $3,15. A lot of 1050 head, under the excitement of a sort of cock-fight between two buyers, was sold above the outside rate named, but was no indication of the general market; only a very few, mostly dressed, have sold below $3,05, the principal sales being at $3,10 to $3,15.

Yesterday, sales to extent of 2100 head—350 average weight 200 lb. at $3,13; 300 do. average 230 lb. at $3,15; 1200 do. at same; 215 do. average 208 lb. at $3,17. The 1050 mentioned above were sold at $3,20.

Lard—There is still a good demand. Sales to extent of 2876 kegs and 941 bbls. all the kegs No. 1 at 6¼ cents; 316 bbls. do. 6¼; 95 do. Country Rendered, 6-15; 50 do. do. 6¼ cents; 270 bbls. a mixed lot, 60 do. ord. No. 1, and 43 do. soft, 6; 22 bbls. and tcs. at 6; 55 bbls. ordinary and good No. 2, at 5, 5½ @ 5¾ cents.

Further sales were reported yesterday of 202 kegs No. 1, Country Rendered at 6¼ c.; 25 do. 6¼; 18 bbls. No. 2, Country Rendered, 5 cents.—*Exchange Reporter.*

CANALS OF NEW-YORK.

We have prepared from official sources the following table of the Commerce of the Canals of the State for the past season. It presents a very gratifying result of the year's business, and exhibits in strong colours the wealth of our State and of the West.

Accompanying the table showing the movement from and to the Hudson for the past season, is a similar one of the movement for the season of 1845.

It will be seen that there is an increase in the tonnage of 172,579 tons, and of $14,826,461 in the value of the property transported, and the excess both in tonnage and value over previous years is still greater.

The value of the entire movement of property from and to the Hudson, is greater by $1,490,353, than the exports of the United States for the fiscal year ending July, 1844, and greater by $7,297,845 than the value of the goods imported into the United States for the same time.

These facts speak volumes in favour of the importance of this Commerce, not only to this State, but in a national point of view, as worthy the attention of the General Government.

Statement of all the Property which came to the Hudson River on all the Canals in 1845 and 1846, with the quantity and estimated value of each article in Albany and Troy.

RELIEF VESSELS.

REVENUE MARINE ORDER.

Treasury Department, Dec. 28, 1846.

Sir: As the season is approaching when much suffering and distress experienced by vessels bound to ports in the United States from long voyages may be alleviated by the agency of the revenue vessels while cruising on the coast, in discharge of the duties enjoined by the act of Congress of December 22, 1837, I have thought it advisable to designate the revenue schooner , under your command, more especially for that service.

To enable you to afford the required assistance to vessels and crews in all cases of distress, it will be proper that you should carry provision, fuel, and water, in such quantities as can be conveniently stowed.

Should the underwriters see fit to place clothing or other supplies on board, you will take charge of the same, and dispose of them agreeably to their directions.

Thus prepared, you are directed to cruise between and , keeping as close to the land as may be consistent with the safety of the vessel, and not going into port oftener than you may be compelled to from stress of weather or want of supplies; on all such occasions you will immediately report to the department the cause of such return to port.

While cruising [illegible] approaching the coast which you may fall in with, and afford to those requiring aid or relief such assistance as may be adapted to their condition and necessities, and as it may be in your power to render; and that any supplies thus furnished may be duly accounted for, you will charge them at the cost value, handing over to the collector any money or orders which you may have received therefor, and taking his receipt for the same.

You will cause the tracks made during your cruise to be distinctly traced upon the chart, and all soundings, stating the depth of water, quality of the ground, &c. entered upon the journal. A full list of all vessels boarded or spoken, specifying those relieved, the nature of the assistance afforded, and the position of the vessel at the time, with an abstract of the distance run by log, will be transmitted to the department, at the expiration of the cruising, on the 1st of April next.

I am, very respectfully, your obedient servant,
R. J. WALKER,
Secretary of the Treasury.

The Alert to cruise between Eastport and Owl's Head.
The Hamilton between Cape Neddock and Chatham Light.
The Jackson between Holmes's Hole and Point Judith.
The Taney between Montauk Point and Little Egg Harbour.
The Crawford between Little Egg Harbour and Chincoteague.
The Madison between Chincoteague and Cape Hatteras.

A reference to House document No. 201, of the last session, will exhibit that during the months of December, 1845, and January, February and March, 1846, 1261 vessels were spoken and boarded, 89 of which were found in distress and relieved.

POST-OFFICE.

Post-Office, New-York, January 1, 1847.

On and after the first day of January inst. the Act of Congress requires the Post-office Department to receive only GOLD and SILVER. This must be in the Coin of the United States, and in such Foreign Coin, at such value as the Laws of Congress make a legal tender.

The public will therefore take notice, that on and after This Day, nothing except specie will be received in payment at the Post-office. And that for parts of a dollar, the Coin of the United States will only be taken.

The public are also requested to provide American Coin less than a dollar, as it will greatly facilitate the delivery of letters.

ROBERT H. MORRIS, Postmaster.

MARYLAND.

From the Message of Gov. Pratt to the Legislature, now in Session, we extract the following relative to the Finances and Debt of the State.

Our State for the last six years has been unable to meet her liabilities, from causes referred to, and fully explained in my message to the last Legislature. For a portion of that period the public debt had increased, by the accumulation of interest, with fearful rapidity; and at the close of the fiscal year immediately preceding my qualification as Governor, the arrears of interest amounted to $1,432,154 51.

During the fiscal year ending on the first of December, 1844, the treasurer paid on account of interest $395,059 62, being less than one year's interest by the sum of $268,361 54; and the public debt was consequently increased during that fiscal year by the amount of that deficit. In the following fiscal year, ending on the first of December, 1845, the treasurer paid towards the liquidation of interest the sum of $710,784 51, being more than one year's interest by the sum of $55,363 35, decreasing the public debt by that amount, and making a relative difference of $315,724 89 in the financial operations of the two years.

If this comparison is extended to the close of the fiscal year on the first of December last, it will show that there was paid in that year towards the extinguishment of interest the sum of $732,289 99, being $76,868 83 more than the accruing interest for the year, and lessening the public debt by that amount. But, gentlemen, I have had a double object in instituting this comparison between the pre-existing system of taxation unexecuted, and the system as perfected by the legislation of 1844 and 1845, fully enforced. My chief object has been to show, by actual practical results, that the existing tax laws are more than adequate to meet the current demands upon the Treasury. I will now proceed to show that you will be justified, without the imposition of additional taxes, in funding the arrears of interest, and in proclaiming a day upon which the State shall resume the payment of all current demands upon her Treasury, and thereby cast off forever the reproach which for so many years has rested upon her and her people.

Your first object in prosecuting this inquiry will be to ascertain the amount of interest which it will be necessary to fund, that you may know the consequent increase in the demands upon the Treasury; and it is my duty to give you the data upon which your estimates should be predicated. I will suppose that you will decide to fund to the first of October next, exclusive of the interest of that quarter. You will then have the arrears of interest on the first of December, 1846—$1,299,922 33

One month's interest due on the first of January, 1847....51,220 00
The quarter's interest due on the first of April, 1847....94,458 00
And the quarter's interest due on the first of July, 1847....231,453 00
Which will make the interest due and to become due to that date....$1,677,053 33

Your determination to fund will involve, as its necessary consequence, the repeal of the laws which authorize the payment of taxes in coupons. If you should pass an act repealing the coupon laws, to take effect from the first of July next, I should think it fair (in view of the anxiety which will be felt to pay the taxes by this depreciated means) to estimate that the amount to be funded will not exceed $1,200,000.

Your next object should be to ascertain what will be the current demands upon the Treasury. The annual claims upon the Treasury consist of the ordinary expenses of the State Government, which may be estimated at....$200,000 00
The interest on the public debt, exclusive of the interest on the tobacco loan, which is paid by that fund, at....651,821 16
Making the present annual demands upon the Treasury....$851,821 16

To this you must add the interest on one million two hundred thousand dollars, the debt now proposed to be funded, *at such rate as in your judgment the honor of the State and the just claims of her creditors may require you to establish.*

SUB-TREASURY.

The Buffalo Commercial Advertiser of 29th ult. says:—"*In reference to this subject* we observe that the postmaster of this city has notified the public that on and after the 1st day of January next, nothing but specie will be taken in payment of postage, and that Spanish and Mexican quarters will be received at *twenty-two* cents only. This will have the effect of fixing the standard for these coins, or of driving them out of the market, *no difficulty being entertained of procuring a sufficiency of American coin to meet the exigency.*"

With regard to Spanish and Mexican quarters, we apprehend the effect will be exactly the reverse, and that they will become almost exclusively the circulating medium.—*Ed. Ship. List.*

ROOFING.—GALVANIZED TIN PLATES.—MOREWOOD & ROGER'S PATENT.—The Subscribers beg to call the attention of builders, architects, and owners of buildings, to the many advantages which these Plates possess over all other metallic substances hitherto used for roofing, guttering, &c. as they possess at once the strength and lightness of Iron, without its liability to rust, having now been tested for several years in this particular both in this country and in Europe. They are also less liable to expansion and contraction from sudden changes of the atmosphere than common Tin Plates, Iron, Zinc, or any other metal now used for roofing, and consequently form a much better and tighter roof, requiring far less frequent repairs, whilst the first cost is but a trifle more.

They would invite those interested to examine the roofs of the following stores, which are now covering with these Plates: Nos. 16 and 18 Wall-street; No. 55 Exchange Place; Rufus Lord, rear of 50 Exchange Place; Sheldon & Phelps, South William-street.

The proprietors have been compelled to enlarge the Works, in order to meet the increasing demand from other cities, where the Lead has lately been introduced, and the undersigned are this year prepared to furnish limited supplies on liberal terms.

The pure Leads (dry and in oil) are guaranteed to be perfectly free from any adulteration.
