## Treasury Financing Operations

### April Certificate and Note Maturities

On March 17, 1950, in accordance with the announcement by the Secretary of the Treasury on February 14, it was announced that subscription books would be opened on March 20 for two issues of Treasury notes. One was an issue of 1-1/4 percent Treasury notes maturing on July 1, 1951; the other was an additional amount of the 1-1/2 percent Treasury notes maturing on March 15, 1955, which were issued on March 15, 1950.

The new issue of 15-month 1-1/4 percent notes, Series C-1951, was offered in exchange, par for par, for the one-year 1-1/4 percent certificates of indebtedness, Series D-1950, maturing April 1, 1950. The additional 5-year 1-1/2 percent Treasury notes, Series A-1955, were offered in exchange, at par and accrued interest, for the 18-1/2 month 1-3/8 percent Treasury notes, Series A-1950, maturing April 1, 1950. Cash subscriptions were not received. The maturing certificates, Series-D-1950, amounted to \$963 million and the maturing notes, Series A-1950, amounted to \$3,596 million. Subscription books were closed at the close of business on March 23.

The 1-1/4 percent notes of the new issue are dated April 1, 1950, and bear interest from that date at the rate of 1-1/4 percent per annum, payable on a semiannual basis on January 1 and July 1, 1951. They will mature July 1, 1951, and are not subject to call for redemption before maturity. They were issued in bearer form only, in denominations of \$1,000, \$5,000, \$10,000, \$100,000, and \$1,000,000. The notes of Series A-1955, dated March 15, 1950, form a part of the series issued pursuant to the offering circular dated February 17, 1950. They

are identical in all respects with those notes, with which they are freely interchangeable.

Reports to the Treasury on the ownership of Government securities indicate that on January 31, 1950, about 45 percent of the maturing certificates and about 63 percent of the maturing notes were owned by reporting commercial banks and Federal Reserve Banks. The ownership figures for January 31 are the latest published for the holdings of commercial banks.

Subscriptions to the new 1-1/4 percent Treasury notes amounted to \$887 million, leaving \$75 million to be paid in cash. Subscriptions to the 1-1/2 percent notes were made in the additional amount of \$3,504 million, leaving \$92 million to be paid in cash.

### Treasury Bills Refunded

Treasury bills matured in March in the amount of \$4.7 billion. Each of the five offerings was equal to the amount maturing. The first two were for \$1,000 million each and the last three were for \$900 million each. The average rates of discount, beginning with the issue dated March 2, were 1.137 percent, 1.139 percent, 1.131 percent, 1.138 percent, and 1.145 percent.

### United States Savings Bonds

Discontinuance of the sale of the \$10 maturity value of United States savings bonds, Series E, was announced by the Treasury Department on March 15. The change was effective at the close of business on March 31, 1950. Series E bonds of \$10 denomination were authorized on June 7, 1944, for issuance exclusively to members of the armed forces.

---

**Note:** Details of Treasury market financing operations are shown in the tables on "Offerings" and "Disposition", respectively, of marketable issues of bonds, notes,

and certificates of indebtedness, and in the table "Offerings of Treasury Bills", in this issue of the "Treasury Bulletin".

<sup>1/</sup> Both receipts and expenditures exclude (1) refunds of receipts and (2) payments to the Treasury, principally by wholly owned Government corporations, for retirement of capital stock and for disposition of earnings. For prior fiscal year figures adjusted to a comparable basis, beginning with 1931, see the 1949 Annual Report of the Secretary of the Treasury, pages 360 and 361.

<sup>2/</sup> Gross receipts less appropriations to Federal Old-Age and Survivors Insurance Trust Fund and refunds of receipts (see "Budget Receipts and Expenditures", Table 1).

<sup>3/</sup> To make the figures for the fiscal years 1948 and 1949 comparable with

those for other years shown in this table, all transactions relating to the Foreign Economic Cooperation Trust Fund (established under Section 114 (b) of the Economic Cooperation Act of 1948) have been consolidated with Budget expenditures, beginning with the March 1950 issue of the "Treasury Bulletin".

<sup>4/</sup> Consists of: trust accounts; sales and redemptions of securities of Government corporations, etc., in the market (net); increment on gold; seigniorage on silver; and miscellaneous funds and accounts. Figures exclude retirement of national bank notes chargeable against increment on gold (fiscal years 1937-39).

<sup>5/</sup> For outstanding checks and telegraphic reports from Federal Reserve Banks; excess of receipts, or expenditures (-).

- 1/ For further detail, see tables under "Internal Revenue Collections".
- 2/ Receipts of Victory taxes withheld pursuant to the Revenue Act of 1942 are classified as "Other" income and profits taxes.
- 3/ Consists of receipts for old-age insurance, unemployment insurance, railroad retirement, and health insurance in the 1951 estimate; for details see Tables 7 and 8 in this section. Excludes railroad unemployment insurance contributions, which are included in "Other receipts".
- 4/ Includes proceeds from sale of surplus property and from Government-owned securities; also deposits resulting from renegotiation of war contracts (see "Treasury Bulletin" for February 1948, page 5).
- 5/ Both budget receipts and budget expenditures exclude payments to the Treasury, principally by wholly owned Government corporations, for retirement of capital stock and for disposition of earnings (see "Treasury Bulletin" for February 1949, page A-2).
- 6/ See Table 7 in this section.
- 7/ Excludes interest on refunds.
- 8/ Allows for deduction of appropriation of \$250 million for Health Insurance Trust Fund, under proposed legislation.
- 9/ In addition to the exclusion of certain payments to the Treasury as indicated in footnote 5, total expenditures shown here exclude refunds of receipts (see Table 1 in this section). Interest on refunds is shown under "Other" expenditures. Budget expenditures also exclude amounts for public debt retirement which are chargeable to the sinking fund, etc., under special provisions of law, and include transfers to trust accounts and net expenditures of wholly owned Government Corporations, etc., except payments to the Treasury mentioned above.
- 10/ To make the figures for the fiscal years 1948 and 1949 comparable with those for other years shown in this table, all transactions relating to the Foreign Economic Cooperation Trust Fund (established under Section 114 (b) of the Economic Cooperation Act of 1948) have been consolidated with Budget expenditures, beginning with the March 1950 issue of the "Treasury Bulletin".
- 11/ Beginning November 1, 1949, interest on the public debt is reported as an expenditure when such interest becomes due and payable, as distinguished from the previous practice of showing it as an expenditure at the time interest was paid by the Treasurer of the United States. In order to take care of the transition in the basis of reporting, the expenditures for interest in the fiscal year 1950 represent not only the interest which becomes due and payable during that year but also the interest for prior years which had not been presented as of June 30, 1949, for payment by the Treasurer of the United States, amounting to \$225 million.
- 12/ Includes public works undertaken by the Veterans' Administration.
- 13/ See footnote 14/.
- 14/ Includes expenditures on behalf of the Department of the Air Force which are made out of appropriations to the Department of the Army, but excludes expenditures as follows: those shown separately in Table 3; international finance and aid, shown in Table 4; river and harbor work and flood control, included in Table 5 under "Public works"; and Panama Canal. War expenditures of the Panama Canal, all prior to July 1, 1947, are included in Table 3 under "Other"; other expenditures of the Panama Canal are included in Table 5 under "Miscellaneous".
- 15/ Excludes expenditures shown separately in Table 3, and those for international finance and aid, shown in Table 4.
- 16/ Excludes expenditures shown separately in Table 3.
- 17/ Beginning March 1948, includes reimbursement for expenditures by the Departments of the Army and the Navy for care and handling of surplus property overseas.
- 18/ Effective January 1, 1950, certain administrative functions of the General Services Administration were consolidated pursuant to Section 106 of Public Law 152, approved June 30, 1949, and appropriated funds relating to such functions were transferred to and combined in one operating account. Accordingly, expenditures by this agency for surplus property disposal and for public buildings other than construction are not reported separately after that date, and are not included in the totals for these purposes shown in Tables 3 and 5. Figures for the preceding months of the fiscal year 1950 have been revised to a comparable basis.
- 19/ After July 1, 1947, expenditures for national defense and related activities were not segregated from the other expenditures of the Corporation and its affiliates, which are included in Table 5 under "Miscellaneous".
- 20/ Prior to July 1, 1946, expenditures for this purpose were not shown separately from "Other" Treasury Department expenditures, included in Table 5 under "Miscellaneous".
- 21/ For content before July 1948 see "Treasury Bulletin" for September 1948, page 4, and February 1948, page 7, except that beginning with the fiscal year 1947 figures have been revised to include expenditures of the National Advisory Committee for Aeronautics. Beginning July 1948, consists of expenditures of that Committee, the Selective Service System, and the Office of the Secretary of Defense. The latter includes retired pay for the military services beginning September 1949.
- 22/ Excludes expenditures made through the Bank under Economic Cooperation Act of 1948.
- 23/ Beginning June 1949, includes Department of Agriculture expenditures for agricultural commodities and raw materials for occupied areas.
- 24/ Consists principally of expenditures by the Department of State for the International Children's Emergency Fund and for the loan for construction and furnishing of United Nations Headquarters.
- 25/ Department of Agriculture expenditures except those included in Tables 3 and 4 and those for forest roads and trails, included in Table 5 under "Public works".
- 26/ For more detail of these expenditures, see Tables 7, 8, and 9 in this section.
- 27/ Consists of expenditures for the following: public roads, except assistance to Greece and Turkey; public buildings, consisting of construction only, beginning with July 1949 (see footnote 18); and Bureau of Community Facilities (these three categories of expenditures having been under the Federal Works Agency until it was abolished by Public Law 162, approved June 30, 1949); Bureau of Reclamation; Tennessee Valley Authority; river and harbor work and flood control under the Department of the Army; and forest roads and trails under the Department of Agriculture. Prior to July 1949, included all other Federal Works Agency expenditures except those included in Table 3.
- 28/ Excludes expenditures included in Table 3.
- 29/ Not classified separately for fiscal years after 1945. For additional information, see "Treasury Bulletin" for August 1945, page 6.
- 30/ Includes expenditures for executive departments not included elsewhere (including interest on refunds of receipts) and for legislative and judicial functions; Government contributions to Government employees' retirement; aids to education, labor, finance, commerce, industry, and civil aeronautics; Panama Canal, except war expenditures; Post Office deficiency; and for 1950 and 1951 estimates, reserves for contingencies.

\* Less than \$500,000.

1/ Gross receipts less deductions for appropriations to Federal Old-Age and Survivors Insurance Trust Fund and for refunds of receipts.

2/ Excludes refunds of receipts, which are shown as a deduction from receipts (see footnote 1), certain payments to the Treasury, principally by wholly owned Government corporations, and amounts for public debt retirement which are chargeable to the sinking fund, etc., under special provisions of law; includes transfers to trust accounts, and net expenditures of

wholly owned Government corporations, etc., except payments to the Treasury mentioned above. In order to make the figures for the fiscal years 1948 and 1949 comparable with those for other years shown in this table, all transactions relating to the Foreign Economic Cooperation Trust Fund (established under Section 114 (b) of the Economic Cooperation Act of 1948) have been consolidated with Budget expenditures, beginning with the March 1950 issue of the "Treasury Bulletin".

3/ Net receipts less expenditures.

1/ Excess of expenditures is covered by appropriations by Congress.

2/ Represents appropriations equal to "Social security - employment taxes" collected and deposited as provided under Section 201 (a) of the Social Security Act Amendments of 1939.

3/ Tax refunds deducted from receipts exclude interest on refunds, which is included under "Administrative expenses".

4/ Includes expenditures from appropriations made specifically for administrative expenses relating to the Social Security Act; administrative expenses reimbursed to the General Fund of the Treasury under Section 201 (f) of the Social Security Act, as amended; administrative expense under the Wagner-Peyser Act; and interest on refunds of social security taxes (see footnote 3).

5/ Beginning July 1, 1945, payments previously made under the Social

Security Act were discontinued, and thereafter were made under provisions of the Public Health Service Act of 1944.

6/ The Bureau, including the U. S. Employment Service and the Unemployment Insurance Service, was transferred from the Social Security Administration to the Department of Labor under Reorganization Plan No. 2 of 1949, effective August 19, 1949. Expenditures for the two activities are consolidated in this table, beginning with the April 1950 issue of the "Treasury Bulletin". For Employment Service functions, they include the following: direct payments by the Federal Government to the States beginning January 1, 1942; expenditures by the U. S. Employment Service under the War Manpower Commission from December 1, 1942 through July 31, 1946; and expenditures by this Service beginning July 1, 1948, when it was transferred from the Department of Labor to the Social Security Administration. Less than \$50,000.

- 1/ The U. S. subscription to the capital of the International Monetary Fund was paid in part from the Exchange Stabilization Fund (see "Treasury Bulletin" for September 1947, page 17).  
 2/ Consists of seigniorage on silver and increment resulting from reduction in weight of the gold dollar. This item is part of the cash

- budget receipts of the Treasury shown in these tables, but is excluded from the 1951 Budget document figures for "Receipts from the public".  
 3/ In addition to this decrease in the General Fund balance, the Exchange Stabilization Fund was drawn down by \$1,800 million for subscription to the capital of the International Monetary Fund (see footnote 1).

1/ Bank restricted issues are those which commercial banks (banks accepting demand deposits) are not permitted to acquire prior to specified dates, with three exceptions: (1) concurrently with the 4th, 5th, and 6th War Loans and the Victory Loan, commercial banks were permitted to subscribe for limited investment of their savings deposits; (2) commercial banks may temporarily acquire such issues through forfeiture of collateral; (3) commercial banks may hold a limited amount of such issues for trading purposes. Bank restricted bonds may be redeemed at par and accrued interest upon the death of the owner, if the proceeds are used

to pay Federal estate taxes. For a current list of bank restricted issues and the date when each becomes bank eligible, see "Debt Operations", Table 1.

2/ Consists of postal savings and Panama Canal bonds, and also conversion bonds prior to 1947.

3/ Consists of depositary bonds, and also adjusted service bonds until they matured on June 15, 1945.

4/ Outstanding savings bonds Series D-1939 in the amount of \$148 million were transferred to matured debt as of December 31, 1949.

\* Less than \$500,000.

1/ The securities shown in this table were issued to the Treasury to finance Government corporations and certain other business-type activities of the Government, with the Treasury itself raising the necessary funds through public debt operations. To avoid duplication, these securities are not included in the guaranteed debt outstanding as shown in preceding tables.

2/ Total for the period September 1947 through September 1949 includes notes amounting to less than \$1 million issued by the Virgin Islands Company. The Company was dissolved and its liabilities were assumed by the Virgin Islands Corporation under the Act of June 30, 1949, which set up the Corporation.

3/ Notes issued under authority of Public Law 146, approved June 29, 1949, and Public Law 171, approved July 15, 1949, for Farmers' Home Administration programs.

4/ Notes issued under authority of Public Law 820, approved June 29, 1948, for Natural Fibers Revolving Fund.

5/ Notes issued by the Reconstruction Finance Corporation and outstanding in the amount of \$9,365 million, including interest, were canceled on June 30, 1948, pursuant to the Government Corporations Appropriations Act, 1949.

## STATUTORY DEBT LIMITATION

Section 21 of the Second Liberty Bond Act, as amended, provides that the face amount of obligations issued under authority of that Act, and the face amount of obligations guaranteed as to principal and interest by the United States (except guaranteed obligations held by the Secretary of the Treasury), shall not ex-

ceed in the aggregate \$275 billion outstanding at any one time. Obligations issued on a discount basis, and subject to redemption prior to maturity at the option of the owner, are included in the statutory debt limitation at current redemption values.

<sup>1/</sup> Excludes postal savings bonds.<sup>2/</sup> It should be noted that callable issues appear twice in this column, once in the year of first call and again in the year of final maturity. Callable issues with respect to which a definite notice of call has been made, however, are listed as fixed maturities. For

date of issue of each security, see "Market Quotations"; for tax status, see "Treasury Survey of Ownership".

<sup>3/</sup> Bank restricted issues may not be acquired by commercial banks (with minor exceptions) prior to specified dates; see "Debt Outstanding", Table 3, footnote 1.

1/ Original call and maturity dates are used.

2/ Beginning with the November 1947 operation, arrangements were made between the Treasury and the Federal Reserve System whereby all or

a part of the System's holdings of certain maturing and called securities would be presented for cash redemption.

## UNITED STATES SAVINGS BONDS

United States savings bonds were first offered for sale in March 1935 and began to mature in March 1945. Series A-D were sold from March 1935 to April 1941. Series E, F, and G bonds have been on sale since May 1, 1941. For information on the terms and conditions of these bonds, see "Treasury Bulletin" issues for December 1947, page 31, and October 1945, pages A-4 and A-5.

In addition to the information on savings bonds operations which appears each month, data by denominations and dollar sales by States are published as of June 30 and December 31, covering the intervening months. Beginning with the figures through December 31, 1949, data by de-

nominations include both sales and redemptions in thousands of pieces, instead of sales figures alone, previously given in dollar volume at issue price. Redemptions by States were discontinued with the figures through June 30, 1949.

For dollar figures, sales are shown at issue price, and redemptions and amounts outstanding at current redemption values, except that Series G is shown at par. Matured bonds which have been redeemed are included in redemptions. Matured bonds outstanding are included in the interest-bearing debt until all bonds of the series have matured, when they are transferred to matured debt upon which interest has ceased.

<sup>1/</sup> Beginning with June 1947, Series E sales include unclassified sales consisting of Series E, F, and G. The amounts are substantially less than the sales reported as unclassified in the Daily Treasury Statement. The greater part of that item consists of sales for which information is available as to the series but not the year of issue. On the basis of that information such sales are included in this table according to series. Prior to June 1947, it was possible to distribute

by series all sales reported as unclassified in the Daily Treasury Statement.  
<sup>2/</sup> Series E redemptions include unclassified Series A-D redemptions beginning with October 1944, and also unclassified F and G redemptions, beginning with June 1947.  
<sup>3/</sup> Includes both matured and unmatured bonds; see Table 4.

<sup>2/</sup> Includes for each month redemptions of Series D-1940 which have matured

through that month. Outstanding matured bonds of this series, however, are included in the interest-bearing debt until all bonds of the series have matured.

<sup>3/</sup> Includes redemptions not yet classified; see Table 3, footnote 2.

## TREASURY SAVINGS NOTES

Treasury savings notes (originally designated tax savings notes) have been issued in four series: Series A from August 1, 1941, through June 22, 1943; Series B from August 1, 1941, through September 12, 1942; Series C from September 14, 1942, through August 31, 1948; and Series D on continuous sale beginning September 1, 1948. Details concerning terms and conditions for purchase and redemption, and investment yields of Series D notes will be found in the "Treasury Bulletin" for October 1948, page A-1. Similar information concerning Series C notes will be found in the "Treasury Bulletin" for October 1945, pages A-4 and A-5. For details concerning terms and conditions, investment yields, and tax payment or redemption values

of Series A and B, see "Annual Report of the Secretary of the Treasury" for 1942, pages 207 and 220, and for sales and redemptions by fiscal years and months, see "Treasury Bulletin" for February 1946, pages 42 and 43.

In the following tables sales and redemptions of Treasury savings notes are shown at par value. Matured notes redeemed (either for cash or for tax payment) are included in the figures on redemptions. Matured notes outstanding are reflected in the interest-bearing debt until all notes of the series have matured, when they are transferred to matured debt upon which interest has ceased, in accordance with the practice of the Daily Treasury Statement.

## TREASURY SURVEY OF OWNERSHIP, JANUARY 31, 1950

The Treasury Survey of Ownership covers securities issued by the United States Government and by Federal agencies. The banks and insurance companies included in the Survey account for approximately 95 percent of such securities held by all banks and insurance companies in the United States. Data were first published for March 31, 1941, in the May 1941 "Treasury Bulletin".

Information on the distribution of ownership by types of banks and insurance companies is published each month. Additional information showing the holdings of commercial banks distributed according to Federal Reserve member-bank classes and nonmember banks is published for June 30 and December 31.

<sup>1/</sup> Excludes trust departments.<sup>2/</sup> Includes trust companies and, beginning with figures for July 1949, also includes stock savings banks. Formerly these banks were shown as a separate classification, but they are no longer so reported.<sup>3/</sup> Includes those banks and insurance companies not reporting in the Treasury Survey.<sup>4/</sup> United States savings bonds, Series D-1940 and 1941, E, and F, are shown at current redemption values. They were reported at maturity value by the banks and insurance companies included in the Treasury Survey but have been adjusted to current redemption values for use in this statement.<sup>5/</sup> C. C. C. demand obligations in the amount of \$10 million, all held by commercial banks, are shown only in the total amount outstanding; holdings by reporting banks are not available.<sup>6/</sup> Holdings by reporting agencies not available.<sup>7/</sup> Excludes guaranteed securities held by the Treasury.<sup>8/</sup> Issues which commercial banks may not acquire prior to specified dates (with minor exceptions); see "Debt Outstanding", Table 3, footnote 1.<sup>9/</sup> Federal securities fall into three broad classes with respect to the imposition of Federal income taxes on income derived from them.<sup>10/</sup> "Wholly" tax-exempt securities are those with the income exempt from both normal tax and surtax. "Partially" tax-exempt securities are those with the income exempt from the normal tax except that in the case of partially tax-exempt Treasury and savings bonds, interest derived from \$5,000 of principal amount owned by any one holder is also exempt from the surtax. "Taxable" securities are those with the income subject to normal tax and surtax.<sup>11/</sup> Includes F. H. A. debentures; see footnote 11.<sup>12/</sup> A small indeterminate amount of these debentures is partially tax-exempt.<sup>13/</sup> United States savings bonds sold prior to March 1, 1941, are partially tax-exempt; those sold on and after that date are taxable.<sup>14/</sup> The proprietary interest of the United States in these banks ended on June 26, 1947.

\* Less than \$500,000.

## MARKET QUOTATIONS, FEBRUARY 28, 1950

Market quotations shown here are over-the-counter closing quotations in the New York market for the last trading day of the month, as reported to the Treasury by the Federal Reserve Bank of New York. The securities listed in Section I include all public marketable securities issued or guaranteed by the United States Government except those not regularly quoted in the market. The issues excluded are postal savings bonds and Federal Housing Administration debentures. The latter are

the only public marketable interest-bearing guaranteed securities outstanding. Section II lists the public marketable securities issued by Federal agencies but not guaranteed by the United States Government. Daily quotations for the securities listed in Sections I and II are published monthly in the Treasury Department statement, "Prices and Yields of Public Marketable Securities Issued by the United States Government and by Federal Agencies".

<sup>1/</sup> Issued after February 28, 1950; for amount, see "Debt Operations", Tables 2 and 3.<sup>2/</sup> Not quoted on February 28, 1950.<sup>3/</sup> Prices represent the mean of closing bid and ask quotations in the over-the-counter market, except that prices of Treasury bonds for the period prior to October 1, 1939, represent closing prices on the New York Stock Exchange. "When issued" prices are included in history beginning October 1, 1939. Dates of highs and lows, in case of recurrence, are the latest dates.<sup>4/</sup> Quoted on a yield basis September 14, 1948, through February 10, 1950. When the price of security is such as to result in a negative yield the price is quoted in thirty-seconds above the level to give a zero yield.<sup>5/</sup> Called on November 14, 1949, for redemption on March 15, 1950. Quoted on a yield basis beginning February 21, 1950.<sup>6/</sup> Included in the average yield of long-term taxable Treasury bonds as

shown under "Yields of Treasury and Corporate Bonds".

<sup>7/</sup> Issuees which commercial banks may not acquire prior to specified dates (with minor exceptions); see "Debt Operations", Table 1, for eligibility dates.<sup>8/</sup> All partially tax-exempt except Panama Canal bonds, which are wholly tax-exempt.<sup>9/</sup> These securities are not shown until date of issue.<sup>10/</sup> Excludes issuees completely held by Farm Credit Administration agencies. The proprietary interest of the United States in the Federal land banks ceased on June 26, 1947.<sup>11/</sup> Yield to maturity. Market convention treats the yield to earliest call date as more significant when an issue is selling above par; the yield to maturity as more significant when an issue is selling at or below par.

# YIELDS OF TREASURY SECURITIES, FEB. 28, 1950

Based on Mean of Closing Bid and Ask Quotations

Explanation: The points represent yields to call when prices are above par, and to maturity date when prices are at par or below. The smooth curves for the various classes of points are fitted by eye. Issues for which an exchange offer has been made or which are due or callable in less than 3 months are excluded.

Note: Treasury bonds included in the average, beginning with December 1935, are those neither due nor callable for fifteen years. Prior to that time, for years shown in this table, the bonds included were neither due nor callable for twelve years. For a discussion of the composition of these averages, see the "Treasury Bulletin" for March 1944, page 58; for the composition of the high-grade corporate bond average, see the "Treasury Bulletin" for July 1947, page 59, and January 1945, page 56. Treasury bond yields are computed on the basis of the mean of closing bid and ask quotations in the over-the-counter market as reported to the Treasury by the Federal Reserve Bank of New York, beginning September 2, 1941. Prior to that time, yields were computed on the basis of closing prices on the New York Stock Exchange, except that on days when an issue did not sell the yield was computed on the mean of closing bid and ask quotations on the Exchange. Corporate bond yields are computed on the basis of closing prices on the New York Stock Exchange and the New York Curb Exchange; on days when an issue does

not sell, the price of the last preceding sale is used.

- 1/ For definition of taxable and partially tax-exempt bonds, see footnotes to the "Treasury Survey of Ownership", in this issue of the "Treasury Bulletin". The partially tax-exempt average was discontinued on December 15, 1945, because there were no longer any bonds in this category with fifteen or more years to maturity or first call.
- 2/ Average revised beginning November 1, 1944. Old average for November 1944 was 2.56%.
- 3/ Average revised beginning April 1, 1947. Old average for April 1947 was 2.47%.
- 4/ Beginning December 21, 1949, the average includes nine bonds instead of ten, the Consolidated Gas Electric Light and Power Company of Baltimore 2-3/4 percent bonds of 1981 having been called and exchanged for a new issue.
- 5/ Market closed.

Source: Daily Treasury Statement for total receipts from internal revenue; reports by collectors of internal revenue for collections by type of tax. Detail by type of tax is available only on a collection basis. Receipts on the Daily Treasury Statement basis are compiled from the latest daily reports from Government depositaries; they do not coincide with amounts reported by collectors because of the lag in deposits of collections and because certain taxes are paid directly into the depositaries.

<sup>1/</sup> Excludes collections for credit to certain trust accounts for island pos-

sessions; includes corporation income tax on Alaska Railroad.

<sup>2/</sup> Beginning with the fiscal year 1947, collections from the unjust enrichment tax, previously carried in this column, are included with other repealed taxes under "Miscellaneous".

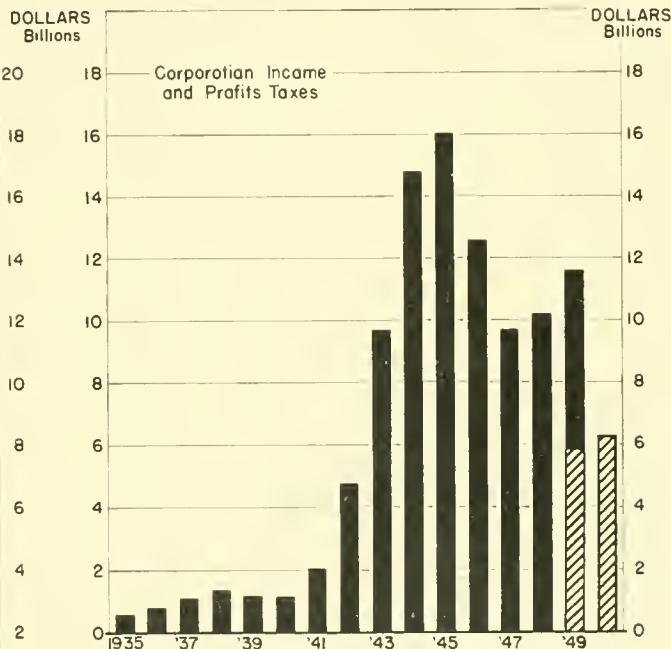

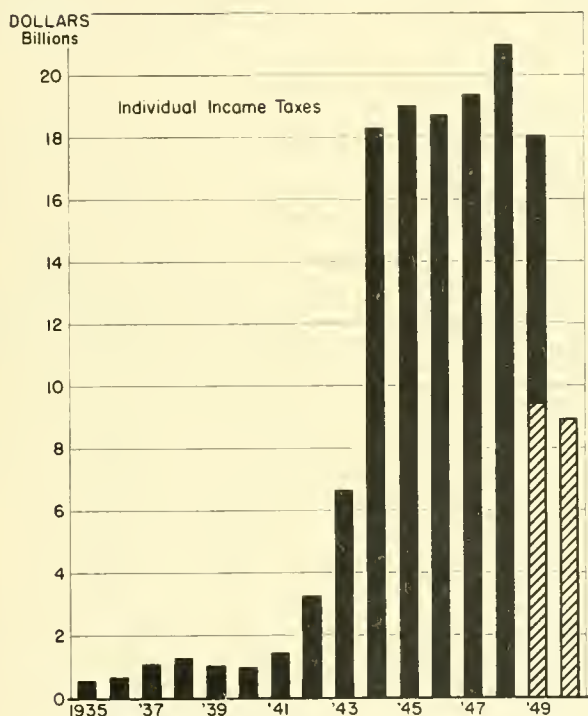

<sup>3/</sup> Repealed for years ending after June 30, 1945.

<sup>4/</sup> Repealed taxes not shown separately are included under "Miscellaneous", beginning with figures for the fiscal year 1948.

Source: Daily Treasury Statement for total receipts from internal revenue; reports by collectors of internal revenue for collections by type of tax. Detail by type of tax is available only on a collection basis. Receipts on the Daily Treasury Statement basis are compiled from the latest daily reports from Government depositories; they do not coincide with amounts reported by collectors because of the lag in deposits of collections and because certain taxes are paid directly into the depositories.

<sup>1/</sup> Excludes collections for credit to certain trust accounts for island

possessions; includes corporation income tax on Alaska Railroad. Current collections consist in general of taxes paid within twelve months after the close of the taxable year for which the return was filed.

<sup>3/</sup> Repealed for years ending after June 30, 1946.

<sup>4/</sup> Repealed for years ending after December 31, 1945.

<sup>5/</sup> Under the Vineon Act.

<sup>6/</sup> Repealed for years ending after June 30, 1945.

## CAPITAL MOVEMENTS

Data relating to claims on foreigners and liabilities to foreigners, and capital movements between the United States and foreign countries, have been collected on Treasury Foreign Exchange Forms since 1935, pursuant to Executive Order 6560 of January 15, 1934, and Treasury regulations thereunder. Information covering the principal types of data and the principal countries is reported monthly, and is published regularly in the "Treasury Bulletin". Supplementary information is published at less frequent intervals. All reports are made initially to the Federal Reserve Banks, which forward consolidated figures to the Treasury. The reporting forms and instructions have been revised a number of times, the most recent revisions being effective as of January 1950 <sup>1/</sup>. With the publication of the figures for January, therefore, it seems appropriate to review the content of the statistics.

### Reporting Coverage

Banks, bankers, and securities brokers and dealers are the reporters of the monthly data. They report with respect to (1) their foreign transactions in securities on their own account and on behalf of other institutions and individuals, and (2) the outstanding foreign claims and liabilities in their own accounts and in accounts with them. Short-term and long-term claims and liabilities are reported separately. Information on the long-term items, which constitute a small part of the total, is published once a year. An increase in the minimum basis for determining institutions that are exempt from reporting as of any one month was stipulated in 1948. This change has had no significant effect on over-all coverage in terms of value although it reduced the number of reporting institutions.

### Capital Movements

The capital movement figures published each month in the "Treasury Bulletin" relate to the flow of funds between the United States and other countries. They are derived from the information reported by the banks, bankers, and securities brokers and dealers. Included in these capital movement figures are (1) the net change in the short-term liabilities of United States banks and their customers to foreigners, (2) the net change in the short-term claims on foreigners of United States banks and their customers in foreign countries, (3) the net change in brokerage debit and credit balances, and (4) the net purchases or sales of domestic and foreign long-term securities by foreigners.

The monthly series on capital movements which are published in the "Treasury Bulletin" do not cover fully the international movement of funds. Among the omitted types of data the principal ones are: (1) the long-term claims and liabilities of reporting banks and bankers; (2) the movements of short and long-term funds of corpora-

tions and individuals that are not handled through the agency of reporting banks or brokers in the United States, such as direct investments by corporations; and (3) the capital transactions of the United States Government. Deposit liabilities of the United States Treasury are included, however. Certain data on foreign claims and liabilities of industrial and commercial concerns and various other nonbanking institutions are collected on Treasury Foreign Exchange Forms and published at irregular intervals.

In addition to the data reported to the Treasury Department, the Department of Commerce collects and publishes certain information for its balance of payments studies. This includes data on the movement of direct investment capital of corporations. The capital transactions of the United States Government are published both by the Department of Commerce and in the semiannual reports of the National Advisory Council on International Monetary and Financial Problems.

### Basis of Reporting

The term "foreigners" as used in the Treasury reports covers all institutions and individuals (including United States citizens) domiciled outside of the United States. Thus, foreign branches of United States institutions are regarded as foreign. The United States branches of foreign institutions are regarded as domestic and they report with respect to their liabilities to and claims on, as well as their transactions with or on behalf of, their head offices abroad. The United States head offices report regarding their branches abroad in like manner. International organizations created by treaty or convention between sovereign states are included as foreign even though such organizations may be located in the United States. In addition, claims and liabilities held by nonreporting domestic custodians, nominees, or agents acting on behalf of or for the benefit of persons or institutions domiciled outside of the United States, and transactions in securities executed by such custodians, nominees, or agents, are reportable by banks and brokers to the extent that the relationship is known.

"Foreign countries" include all countries and territories except continental United States and the following territories and possessions of the United States: Alaska, American Samoa, the Canal Zone, Guam, Hawaii, Midway Island, Puerto Rico, Virgin Islands, and Wake Island. In general, data pertaining to foreigners are reported opposite the foreign country or geographic area in which the foreigner is domiciled. Foreigners in territories, possessions, and other nonmetropolitan areas of a foreign country are considered in the geographical area in which the foreigner is domiciled and not opposite the parent country, except

<sup>1/</sup> Copies of these forms and instructions may be obtained from the Office of International Finance in the United States

Treasury Department, or from Federal Reserve Banks.

## CAPITAL MOVEMENTS

as noted below. Foreign branches or agencies of foreign banks (excluding central banks) and other private institutions are reported opposite the country in which the foreign branch or agency is located.

Foreign branches or agencies of a foreign official institution are considered domiciled in the country to which the official institution belongs if the branches are not themselves acting as official institutions for the countries or areas in which they are located. Also, a United States branch or agency of a foreign official institution in general is reported opposite the country to which the official institution belongs. Accounts with an official international organization are reported opposite the classification "International", rather than opposite the country in which such organization may be located. Private international institutions are considered as domiciled in the country of address, and accounts with such organizations are reported opposite the country of domicile for purposes of these reports.

With respect to currencies, claims and liabilities expressed in foreign currencies are converted at the rates of exchange prevailing on the reporting date. Transactions in securities executed in foreign currencies are entered in terms of the dollar equivalent converted at the rates of exchange prevailing when the transactions were executed. Amounts expressed in the currency of a third country are reported opposite the country of domicile of the foreigner, and not opposite the country in whose currency the amount is expressed.

"Short-term foreign claims and liabilities" are defined as those payable on demand or maturing not more than one year from the date the obligation was incurred. Obligations with a contractual maturity of more than 12 months after the date on which the obligations were incurred are considered as "long-term" even when their maturity dates are within one year of the reporting date.

The reporting of United States liabilities to foreigners is probably more nearly complete than that of United States claims on foreigners. While the reporting banks are in a position to report their own liabilities to foreign individuals and corporations, they often do not have knowledge of the short-term foreign claims belonging to individuals and corporations in the United States. The banks, however, are required to report assets owned by them and their domestic clients, which represent claims on foreigners, acquired or held either here or abroad, insofar as data on these claims may be obtained from the records of the reporting banks. An analogous treatment is afforded liabilities in that the reporting banks include as liabilities to foreigners any claims, acquired either here or abroad, on persons in the United States insofar as data on

these liabilities may be obtained from the records of reporting banks.

Claims and liabilities are reported on a gross basis, regardless of whether there are offsets against these items. Funds placed abroad for the account of domestic clients and funds earmarked abroad or in this country for specific uses are included in the reported data. For example, the reports include deposits and other short-term assets which are set aside as follows: against letters of credit; in anticipation of payment by foreigners of outstanding acceptances; for interest, sinking fund and bond redemption payments, whether held in trust or otherwise; and for other similar purposes. Gold, silver, or currency in transit, however, is excluded. Unutilized credits are not reported even if such credits represent firm commitments. Purchases and sales of forward exchange are not included in the claims and liabilities figures. The reporting of forward contracts for the purchase and sale of foreign exchange was discontinued after December 1949.

"Long-term securities" are defined as those having no contractual maturity and those of a maturity of more than one year from the date of issuance. Holdings of securities with an original maturity of less than one year are included in the reported short-term claims and liabilities. Long-term securities are reported only when transactions in them are executed with foreigners.

The data on securities transactions relate to the total amount of money debited or credited to foreign accounts as a result of transactions in long-term securities. The amounts debited or credited to foreign accounts are defined as the cost of purchases plus commissions and other charges, or the proceeds of sales less commissions, tax, etc. Purchases and sales of long-term securities executed in the United States for account of foreigners and purchases and sales executed abroad for the reporter's account or for the account of domestic clients are both included. The redemption of securities in the United States or abroad, as well as purchases and sales for sinking fund purposes, are included, as are those connected with the underwriting of new issues.

Purchases and sales for arbitrage accounts in which the reporter participates as a principal jointly with a foreigner are also included to the extent that they are executed in the United States. The opposite side of the arbitrage transaction -- the sale or purchase executed abroad -- is not reportable.

For publication in the "Treasury Bulletin", beginning with the April 1950 issue, the monthly figures on capital movements and related data are presented in the first three sections. Supplementary information, formerly

## CAPITAL MOVEMENTS

presented in Section V, now appears as Section IV, in place of the discontinued data on outstanding contracts for forward purchases and sales of foreign exchange.

The supplementary information in Section IV is presented in three tables, appearing at different times. Table I gives data by countries on short-term claims on and liabilities to foreigners as reported quarterly by exporters, importers, and industrial and commercial concerns in the United States. This information was published for the first time in the October 1949 issue of the "Treasury Bulletin" and begins with data for September 30, 1946. Table 2 supplies information by countries on long-term claims on and liabilities to foreigners as reported by

banks and bankers in the United States. This table appeared for the first time in the December 1949 issue. Data are for the end of the calendar year beginning with 1942. Table 3 gives information on short-term claims for countries not regularly reported separately by banks and bankers. This table appears for the first time in the April 1950 issue. The data have been requested at irregular intervals, the earliest date being October 1943.

Publication of detailed figures in the monthly series relating to capital movements was discontinued between the March 1942 and the November 1945 issues. Data omitted during that period, however, were published in the November 1945 issue and supplement.

Note: The information in this Table has been reported to the Treasury Department at irregular intervals upon request. Prior to 1949, these supplemental requests were for data on deposit liabilities only. The totals will not agree with those shown for corresponding dates for "Other Europe", "Other Latin America", "Other Asia", and "Other countries" in the regular monthly series in the "Treasury Bulletin". Reports were requested only from banks and bankers in the Second

Federal Reserve District, and countries have been omitted or grouped to avoid revealing individual accounts or the foreign position of any reporting institutions. The amounts shown here account for more than 70 percent of the totals for all Districts reported each month in these categories.

1/ Data are for Palestine prior to 1948.

2/ Included with Canada.

## CORPORATIONS AND CERTAIN OTHER BUSINESS-TYPE ACTIVITIES

Data relating to corporations in which the United States Government has a proprietary interest, direct or indirect, and to certain other business-type activities of the United States Government are presented in a series of four tables. Table 1 gives a summary of loans outstanding, Table 2, balance sheet data, Table 3, income and expense, and Table 4, source and application of funds. Tables 1 and 2 are compiled from the mid-month "Daily

Treasury Statement", which contains greater detail than the summaries presented here. Tables 3 and 4 are compiled from reports of the agencies, adjusted by the Treasury Department. The latest available loan and balance sheet data are presented in this issue of the "Treasury Bulletin", and Tables 3 and 4 for the same date will appear in a subsequent issue.
