Treasury Financing Operations

December-January Maturities

On November 22, 1950, the Secretary of the Treasury announced that the Treasury would offer an issue of 1-3/4 percent 5-year Treasury notes in exchange for the 1-1/2 percent Treasury bonds maturing December 15, 1950, and the one-year 1-1/8 percent certificates of indebtedness maturing January 1, 1951. The maturing 1-1/2 percent Treasury bonds were outstanding in the amount of \$2,635 million and the maturing certificates in the amount of \$5,373 million.

The subscription books for the new notes were opened December 4 and were closed at the close of business on December 7. The notes, designated Series B-1955, are dated December 15. Exchanges of the bonds will be made par for par on December 15, and exchanges of the certificates, Series A-1951, are to be made at par with an adjustment of interest on January 1. The new notes will be delivered on or after December 15 in the case of bonds exchanged, and

on or after January 2 in the case of certificates exchanged. Cash subscriptions were not received.

The new notes will bear interest from December 15, 1950, at the rate of 1-3/4 percent per annum, payable semiannually on June 15 and December 15 in each year until the principal amount becomes payable. They will mature December 15, 1955, and will not be subject to call for redemption prior to maturity. The notes are to be issued in bearer form only, in denominations of \$1,000, \$5,000, \$10,000, \$100,000, and \$1,000,000.

Treasury Bills Refunded

Treasury bills matured in November in the amount of \$5.5 billion. Each weekly offering was equal to the maturing amount of \$1.1 billion. The average rates of discount on the new offerings were 1.341 percent for November 2, 1.350 percent for November 9, 1.366 percent for November 16, 1.380 percent for November 24, and 1.383 percent for November 30.

Note: Details of Treasury market financing operations are shown elsewhere in this issue of the "Treasury Bulletin", in the tables on "Offerings" and "Dis-

position", respectively, of marketable issues of bonds, notes, and certificates of indebtedness, and in the table "Offerings of Treasury Bills".

^{1/} Excludes postal savings bonds.^{2/} It should be noted that callable issues appear twice in this column, once in the year of first call and again in the year of final maturity. Callable issues with respect to which a definite notice of call has been made, however, are listed as fixed maturities. For

date of issue of each security, see "Market Quotations"; for tax status, see "Treasury Survey of Ownership".

^{3/} Bank restricted issues may not be acquired by commercial banks (with minor exceptions) prior to specified dates; see "Debt Outstanding", Table 3, footnote 1.

UNITED STATES SAVINGS BONDS

United States savings bonds were first offered for sale in March 1935 and began to mature in March 1945. Series A-D were sold from March 1935 to April 1941. Series E, F, and G have been on sale since May 1, 1941. For information on the terms and conditions of these bonds, see "Treasury Bulletin" issues for December 1947, page 31 and October 1945, pages A-4 and A-5.

In addition to the information on savings bonds operations which appears each month, data by denominations

and dollar sales by States are published at less frequent intervals but are shown on a monthly basis.

Series A-F sales are shown at issue price and total redemptions and amounts outstanding at current redemption values. Series G is shown at face value throughout. Matured bonds which have been redeemed are included in redemptions. Matured bonds outstanding are included in the interest-bearing debt until all bonds of the series have matured, when they are transferred to matured debt upon which interest has ceased.

^{1/} Beginning with June 1947, Series E sales include unclassified sales consisting of Series E, F, and G. The amounts are substantially less than the sales reported as unclassified in the Daily Treasury Statement. The greater part of that item consists of sales for which information is available as to the series but not the year of issue. On the basis of that information such sales are included in this table according to series. Prior to June 1947, it was possible to distribute by series all sales reported as unclassified in the Daily Treasury Statement.

^{2/} Series E redemptions include unclassified Series A-D redemptions beginning with October 1944, and also unclassified F and G redemptions, beginning with June 1947.

^{3/} Includes both matured and unmatured bonds; see Table 4.

^{4/} Includes sales resulting from special offering (October 2 through 10) to certain classes of institutional investors in excess of regular limitations; Series F sales amounted to \$135 million and Series G sales to \$486 million, making a total of \$621 million. For details regarding this offering, see "Treasury Bulletin" for September 1950, page A-1.

* Less than \$500,000.

^{1/} Breakdown of redemptions between matured and unmatured bonds not available prior to January 1950.

^{2/} Includes for each month redemptions of Series D-1940 which have matured

through that month. Outstanding matured bonds of this series, however, are included in the interest-bearing debt until all bonds of the series have matured.

^{3/} Includes redemptions not yet classified; see Table 3, footnote 2.

TREASURY SAVINGS NOTES

Treasury savings notes (originally designated tax savings notes) have been issued in four series: Series A from August 1, 1941, through June 22, 1943; Series B from August 1, 1941, through September 12, 1942; Series C from September 14, 1942, through August 31, 1948; and Series D on continuous sale beginning September 1, 1948. Details concerning terms and conditions for purchase and redemption, and investment yields of Series D notes will be found in the "Treasury Bulletin" for October 1948, page A-1, and September 1949, page A-1. Similar information concerning Series C notes will be found in the "Treasury Bulletin" for October 1945, pages A-4 and A-5. For details concerning terms and conditions, investment yields, and tax payment or redemption values of Series A and B, see "Annual

Report of the Secretary of the Treasury" for 1942, pages 207 and 220, and for sales and redemptions by fiscal years and months, see "Treasury Bulletin" for February 1946, pages 42 and 43.

In the following tables sales and redemptions of Treasury savings notes are shown at par value. Matured notes redeemed (either for cash or for tax payment) are included in the figures on redemptions. Matured notes outstanding are reflected in the interest-bearing debt until all notes of the series have matured, when they are transferred to matured debt upon which interest has ceased, in accordance with the practice of the Daily Treasury Statement.

Note: Beginning with the October 1950 issue of the "Treasury Bulletin" a new classification of ownership figures is being presented for (1) individuals, (2) corporations other than banks and insurance companies, and (3) miscellaneous investors. Corporate pension trust funds and those nonprofit institutions that were formerly classified with "Individuals" are now included in "Miscellaneous investors".

$\frac{1}{1}$ United States savings bonds, Series A-D, E, and F, are included at current redemption values.

$\frac{2}{2}$ Securities issued or guaranteed by the U. S. Government, excluding guaranteed securities held by the Treasury.

$\frac{3}{3}$ Consists of commercial banks, trust companies, and stock savings banks in the United States and in Territories and island possessions. Figures exclude securities held in trust departments.

$\frac{4}{4}$ Includes partnerships and personal trust accounts. Nonprofit institutions and corporate pension trust funds are included under "Miscellaneous investors".

$\frac{5}{5}$ Exclusive of banks and insurance companies.

$\frac{6}{6}$ Consist of trust, sinking, and investment funds of State and local governments and their agencies, and Territories and island possessions.

$\frac{7}{7}$ Holdings by Federal land banks are included under "Miscellaneous investors" instead of "U. S. Government investment accounts" beginning with June 30, 1947, since the proprietary interest of the United States in these banks ended June 26, 1947.

$\frac{8}{8}$ Includes savings and loan associations, nonprofit institutions, corporate pension trust funds, dealers and brokers, and investments of foreign balances and international accounts in this country. Beginning with December 1946, includes investments by the International Bank for Reconstruction and Development and the International Monetary Fund in special noninterest-bearing notes issued by the U. S. Government.

1/ Excludes trust departments.

2/ Includes trust companies and, beginning with figures for July 1949, also includes stock savings banks. Formerly these banks were shown as a separate classification, but they are no longer so reported.

3/ Includes those banks and insurance companies not reporting in the Treasury Survey.

4/ United States savings bonds, Series D-1940 and D-1941, E, and F, are shown at current redemption values. They were reported at maturity value by the banks and insurance companies included in the Treasury Survey but have been adjusted to current redemption values for use in this statement.

5/ C. C. C. demand obligations in the amount of \$3.5 thousands, all held by commercial banks, are shown only in the total amount outstanding; holdings by reporting banks are not available.

6/ Holdings by reporting agencies not available.

7/ Excludes guaranteed securities held by the Treasury.

8/ Issues which commercial banks may not acquire prior to specified dates (with minor exceptions); see "Debt Outstanding", Table 3, footnote 1.

2/ Federal securities fall into three broad classes with respect to the imposition of Federal income taxes on income derived from them. "Wholly" tax-exempt securities are those with the income exempt from both normal tax and surtax. "Partially" tax-exempt securities are those with the income exempt from the normal tax except that in the case of partially tax-exempt Treasury and savings bonds, interest derived from \$5,000 of principal amount owned by any one holder is also exempt from the surtax. "Taxable" securities are those with the income subject to normal tax and surtax.

10/ Includes F. H. A. debentures; see footnote 11.

11/ A small indeterminate amount of these debentures is partially tax-exempt.

12/ United States savings bonds sold prior to March 1, 1941, are partially tax-exempt; those sold on and after that date are taxable.

13/ The proprietary interest of the United States in these banks ended on June 26, 1947.

* Less than \$500,000.

MARKET QUOTATIONS, OCTOBER 31, 1950

Market quotations shown here are over-the-counter closing quotations in the New York market for the last trading day of the month, as reported to the Treasury by the Federal Reserve Bank of New York. The securities listed in Section I include all public marketable securities issued or guaranteed by the United States Government except those not regularly quoted in the market. The issues excluded are postal savings bonds and Federal Housing Administration debentures. The latter are

the only public marketable interest-bearing guaranteed securities outstanding. Section II lists the public marketable securities issued by Federal agencies but not guaranteed by the United States Government. Daily quotations for the securities listed in Sections I and II are published monthly in the Treasury Department statement, "Prices and Yields of Public Marketable Securities Issued by the United States Government and by Federal Agencies".

1/ Issued after October 31, 1950; for amount, see "Debt Operations", Table 2.

2/ Prices represent the mean of closing bid and ask quotations in the over-the-counter market, except that prices of Treasury bonds for the period prior to October 1, 1939, represent closing prices on the New York Stock Exchange. "When issued" prices are included in history beginning October 1, 1939. Dates of highs and lows, in case of recurrence, are the latest dates.

3/ Quoted on a yield basis; on a price basis prior to May 10, 1950, for Series B- and C-1951, and prior to August 23, 1950, for Series A-1951.

4/ Included in the average yield of long-term taxable Treasury bonds as shown under "Yields of Treasury and Corporate Bonds".

5/ Issues which commercial banks may not acquire prior to specified

dates (with minor exceptions); see "Debt Operations", Table 1, for eligibility dates.

6/ All partially tax-exempt except Panama Canal bonds, which are wholly tax-exempt.

7/ These securities are not shown until date of issue.

8/ Not quoted on October 31, 1950.

9/ Not quoted since date of issue.

10/ Excludes issues completely held by Farm Credit Administration agencies.

The proprietary interest of the United States in the Federal land banks ceased on June 26, 1947.

11/ Callable on 15 days' notice on May 1, 1951.

12/ Yield to maturity. Market convention treats the yield to earliest call date as more significant when an issue is selling above par; the yield to maturity as more significant when an issue is selling at or below par.

MARKET QUOTATIONS, OCTOBER 31, 1950

YIELDS OF TREASURY SECURITIES. OCT. 31, 1950

Based on Mean of Closing Bid and Ask Quotations

Explanation: The points represent yields to call when prices are above par, and to maturity date when prices are at par or below. The smooth curves for the various classes of points are fitted by eye. Issues for which an exchange offer has been made or which are due or callable in less than 3 months are excluded.

Note: Treasury bonds included in the averages, beginning with December 1935, are those neither due nor callable for fifteen years. Prior to that time, for years shown in this table, the bonds included were neither due nor callable for twelve years. For a discussion of the composition of these averages, see the "Treasury Bulletin" for March 1944, page 58; for the composition of the high-grade corporate bond average, see the "Treasury Bulletin" for July 1947, page 59, and January 1945, page 56. Treasury bond yields are computed on the basis of the mean of closing bid and ask quotations in the over-the-counter market as reported to the Treasury by the Federal Reserve Bank of New York, beginning September 2, 1941. Prior to that time, yields were computed on the basis of closing prices on the New York Stock Exchange, except that on days when an issue did not sell the yield was computed on the mean of closing bid and ask quotations on the Exchange. Corporate bond yields are computed on the basis of closing prices on the New York Stock Exchange and the New York Curb Exchange; on days when an issue does not sell, the price of the last preceding sale is used.

- 1/ For definition of taxable and partially tax-exempt bonds, see foot-note to the "Treasury Survey of Ownership", in this issue of the "Treasury Bulletin". The partially tax-exempt average was discontinued on December 15, 1945, because there were no longer any bonds in this category with fifteen or more years to maturity or first call.
- 2/ Average revised beginning November 1, 1944. Old average for November 1944 was 2.56%.
- 3/ Average revised beginning April 1, 1947. Old average for April 1947 was 2.47%.
- 4/ As of December 21, 1949, the Consolidated Gas Electric Light and Power Company of Baltimore 2-3/4's of 1981 were dropped from the average, having been called.
- 5/ As of October 20, 1950, the Standard Oil Company of California 2-3/4's of 1965-66 were dropped from the average, having been called.
- 6/ Market closed.

Source: Daily Treasury Statement for total receipts from internal revenue; reports by collectors of internal revenue for collections by type of tax. Detail by type of tax is available only on a collection basis. Receipts on the Daily Treasury Statement basis are compiled from the latest daily reports from Government depositaries; they do not coincide with amounts reported by collectors because of the lag in deposits of collections and because certain taxes are paid directly into the depositaries.

^{1/} Excludes collections for credit to certain trust accounts for island pos-

sesses; includes corporation income tax on Alaska Railroad.

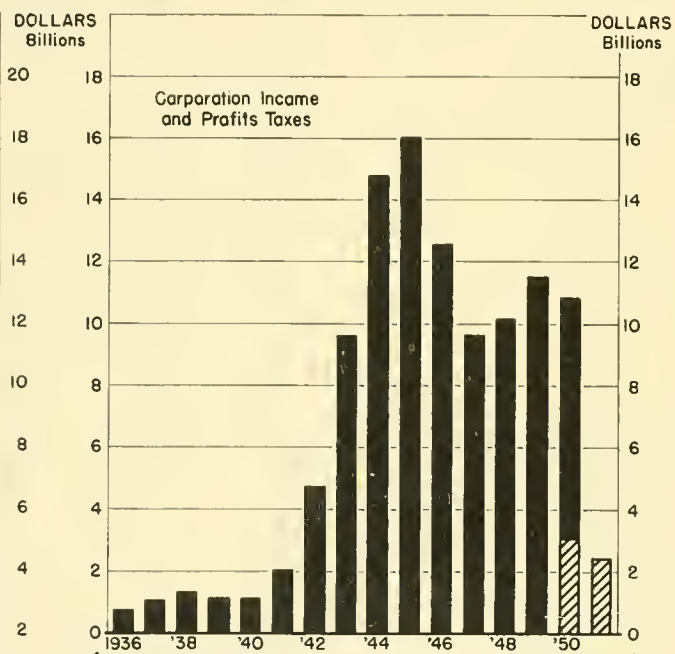

^{2/} Beginning with the fiscal year 1947, collections from the unjust enrichment tax, previously carried in this column, are included with other repealed taxes under "Miscellaneous".

^{3/} Repealed for years ending after June 30, 1945. Beginning with July 1950, included under "Miscellaneous".

^{4/} Repealed taxes not shown separately are included under "Miscellaneous", beginning with figures for the fiscal year 1948.

CAPITAL MOVEMENTS

Data relating to claims on foreigners and liabilities to foreigners, and capital movements between the United States and foreign countries, have been collected since 1935, pursuant to Executive Order 6560 of January 15, 1934, and Treasury regulations thereunder. Information covering the principal types of data and the principal countries is reported each month by banks and bankers and securities brokers and dealers in the United States. This information is published regularly in the "Treasury Bulletin". Supplementary information is published at less frequent intervals. All reports are made initially to the Federal Reserve Banks, which forward consolidated figures to the Treasury.

The term "foreigners" as used in these reports covers all institutions and individuals (including United States citizens) domiciled outside the United States, as well as international organizations, wherever domiciled, created by treaty or convention between sovereign states. "Short-term" refers to original maturities of one year or less, and "long-term" refers to all other maturities. A detailed discussion of the reporting coverage, basis of reporting, and derivation of capital movements figures appeared in the April 1950 issue of the "Treasury Bulletin", pages 50-52. Revised report forms and regulations became effective with

the data for January 1950. Attention is called to the fact that although the grand total figures on the revised reporting basis are reasonably comparable with those for preceding months, data for individual countries in some instances are not comparable because of certain changes in coverage and geographical classification.

The supplementary information, contained in Section IV, is presented in three tables appearing at different times. Table 1 gives data by countries on short-term claims on and liabilities to foreigners as reported quarterly by exporters, importers, and industrial and commercial concerns in the United States. This information was published for the first time in the October 1949 issue of the "Treasury Bulletin" and begins with data for September 30, 1946. The data have been requested at irregular intervals, the earliest date being October 1943.
