## Deoember 1 Certificater Refunded

In accordance with an announoement by the Secretary of tho Treasury there was offered on November 17, 1952, an additional amount of 2 percent Treasury certificates of indebtedness, Series C-1953, In exchange for the $1-7 / 8$ percent cartificates of indebtedness, Series F-1952, which matured December 1, 1952, in the amount of $\$ 1,063$ million. Cash aubecriptions were not received. The subscription books were closed at the closc of business on November 20. Subscriptions totalec $\$ 873$ million, leaving $\$ 190$ million to be paid in cash,

Reports to the Treasury on the ownership of Government securities indicate that on September 30, 1952, about 49 percent of Ser1es F-1952 cert111catea were onned by reporting commercial banks. The ownership figures for September 30 are the latest published for commercial banks.

The new certilicates of Series C-1953 are an addition to and form part of the series offered on August 4, 1952. They are identical with those certificates and are freely interchangeable with them. All of the series are dated August 15, 1952, and bear interest irom that date at the rate of

2 percant per annum, payable with the principal at maturity on August 15, 1953. The iull amount of interest due on the maturing certificates was credited, accrued interest from August 15, 1952 , to December 1, 1952, on the certificates isoued was chargec, and the difference was pald to subscribere.

Treasury Bonds Callable on March 15, 1953
The announcement of the certificate refunding stated also that the option to call for redemption on March 15, 2953, the 2 percent Treasury bonds of 1951-53 would not be exercised. This bond iesue, which was first callable on September 15, 1951, ano w111 mature on September 15,1953 , is outstanding in the amount of $\$ 8.0$ bllifon.

Treasury Bills Refunded
Weekly maturities of 91 -day Treasury bills totaled $\$ 5.4$ billion in November and were refunced in equivalent total and weekly amounts. The offer1ngs on November 6, 20, and 28 were for $\$ 1.3$ b11110n each and the amount offered on November 13 was for $\$ 1.5$ billion. The average rates of discount on the new 1 sues were 2.796 percent for November $6,1.843$ percent for November $13,1.877$ percent for November 20, and 1.931 percent for November 28.

I/ For bsais of appropriations, see Ieble 7. Amounts appropriatod are equivalent to the amomnte of taxea oollected and depoestod for oldoge insurance. The Social Security Act Amendmants of 1950 (Public Lav 734), approved August 28, 1950, changed in certain roopecto the besis of transferring the appropriated funds to the trust fomd. Effective January 1, 1951, the old-age insurance taxoe on employers and comployoes and the vithhold incomo tax are paid into the Treasury in combined enounts withont eoparation as to type of tax. The old-age insurance tax on self-employment incomo, imposed by Public Lay 734, is leried and collected as part of the individual inoomo tax, baginning with the taxable yoar 1951. Beginning January 1951, the amounte transferred currently as eppropriations to the trust fund are based on estimatse of old-age insurance tax recoipts made by the Secretary of the Troesury, and ere edjusted in later transfors on the basis of
vago and esli-emplogment income records maintained by the Federal
Security Adminietretor. For purposee of this table, the amount credited oach month to the trust frund ie inoluied under "Faploymant taxee" as estimsted receipts for old-age insurance. Throughout the calondar yeer 1951, the balance of the combinod amounte paid in by employers was show as incam tax withheld. Beginning January 1952, the tax on eolf-employment income is allowed for in the amounte credited to the trust fund These emounte therefore can no longer be used to derive eatimatoe of income tar withheld by employers, but they are used to derive the eatimates of total income and profito taxee.
8/ Interset on refunie is included in Table 5 under "Miscellaneous".
9 Begiming January 1952, these colums will not edd to the total incomo and profite taxee, because eack includes part of the old-age insurance tares. Theee taxe日, as moseured by eppropriations to the Federal OldAge and Survivors Insurance Trust Fund, are no loager eoparable betwean those paid vith income tax vithheld and those paid vith other income tax.

[^3]Such obligetions were firet euthorized in 1932. Prior to
September 1939, the figuree repreeent principal ehown as e contingent liebility of the United State日; beginning September 1939, they represent principal outetanding, both matured and unmatured. Guarenteed eecuritiee held by the Tresoury are excluded.

The Second Liberty Bond Act, as amended, ( 31 U.S.C. 757 b), provides that the face amount of obligations issued under authority of that act, and the face amount of obligations guaranteed as to principal and interest by the United States (except guaranteed obligations held by the secretary of the rreasury), shall not exceed in the
aggregate 3275 billion outstanding at any one time. Obligations issued on a discount basis, and subject to redemption prior to maturity at the option of the owner, are included in the statutory debt limitation at current redemption values.

p Preliminary.

United States savinge bonde were first offered in March 1935 and began to mature in March 2945. Seriee A-D were eold between March 1935 and the end of April 1941, and Seriee $E, F$, and $G$ were iret offered in May 1941. When Seriee E began to mature on May 1, 1951, ownere of the matured bonds were offered three options: To redeem the bonde in cesh in accordance with the original terme; to retain them with an extended maturity of 10 yeara at specifled rates of interest aoorual; or to exohange them for Seriee $G$ bonda. A number of changee became effective May 1, 1952. The principal onee were: The rate of intereet socrual on Seriee $E$ wae increased, especially for the near term, with corresponding changee in extended Series $E$; and Series $F$ and $G$ were replaced by two new leauee, Seriea $J$
and $X$, aleo at higher interest rates. A new current-income bond, Series $H$, similar in interest return to Series E, wes offored beginning June 1 . For detalle of these changes see "Treasury Bulletin" for May 1952, page A-1.

In the tables which follow, series $A-F$ and $J$ eales are shown at lesue price and totel redemptione and amounte outetanding at current redemption values. Seriee $G, H$, and $X$ are shown at face value throughout. Matured bonde which have been redeemed are inoluded in redemptione. Data by denominations and eales by statee are published on $e$ monthly basie but not in each lesue of the "Treasury Bulletin".

Data relating to claims on forelgners and liabilities to foreigners, and cspital movements batween the United Ststes and foreign countries, bave been collected since 1935, pursuant to Executive Order 6560 of January 15, 1934, and Treasury regulations thereunder. Information covering the principal types of data and the principal countries is reported each montb by banks and bankers and securities brokers and dealers in the United States. This information is published regularly in the Treasury Sulletin". Supplementary information is published at less frequent intervals. All reperts are made initially to the Federal Reserve Banks, which forward consolidated ilgures to the Treasury.

The term "foreigners" as used in these raports covers all institutions and individuals (including United States Citizans) domiciled outsids the United States, as well as international organizations, wherever domiciled, created by treaty or convention between sovereign states. "Short-term" refers to original maturities of one year or lese, and "long-term" refers to all other maturities. A detailed disousaion of the reporting coverage, basis of reporting, and derivation of capital movements figurea appeared in the April 195018 sue of the "Treasury Bulletin", pagea 50-52. Revisad report forms and regulations became effective with
the data for January 1950. Attention 18 called to the fact that although the grand total figures on the revised reporting basis are reasonably comparabls with those for preceding months, dsta for individusl countries in some instances ars not comparable because of cartain changes in coverage and geographical classilication.

The supplementary information, contained in Section IV, 1s presented in three tables appearing at different times. Table 1 gives dats by countries on short-term claims on anc liabilities to foreigners as reported quarterly by axporters, importere, and industrial and commercial concerns in the United States. This information was published for the first tlme in the October 1949 18sue of the "Treasury Bullatin" and begins with dats for September 30, 1946. Table 2 aupplies information by countries on long-term claims on and liabilitiss to foreigners as reported by banks and bankere in the United Statas. This table appeared for the first time in the December 1949 issue. Data are for the end of the calendar year beginning with 1942. Table 3 gives information on short-term liabilities to countples not regularly reported separately by banks and bankers. This table appesred for the ifrst time in the April 1950 1seus. The data have been requested at irregular intervals, the earliest date being October 1943.
