Treasury Financing Operations

Treasury Bonds Callable on June 15, 1953

On February 13, 1953, the Secretary of the Treasury announced that the outstanding 2 percent Treasury bonds of 1953-55, dated October 7, 1940, due June 15, 1955, are called for redemption on June 15, 1953. He stated that the bonds of this issue are being called at this time because of their partially tax-exempt attributes. He further stated that holders of the called bonds may, in advance of the redemption date, be offered the privilege of exchanging all or any part of their called bonds for other interest-bearing obligations of the United States, in which event public notice will hereafter be given. The bonds are outstanding in the amount of \$725 million.

Four other issues of Treasury bonds also

callable on June 15, 1953, the announcement stated, are not called for redemption on that date. These are the two issues of 2 percent Treasury bonds of 1952-54, the 2 percent Treasury bonds of 1951-55, and the 2-1/4 percent Treasury bonds of 1952-55.

Treasury Bills Refunded

A total of \$5.4 billion of Treasury bills matured in February and they were refunded in equivalent total and weekly amounts. The offerings on February 5, 19, and 26 were for \$1.3 billion each and the offering on February 13 was for \$1.5 billion. The average rates of discount on the new issues were 2.031 percent for February 5, 1.993 percent for February 13, 1.977 percent for February 19, and 2.070 percent for February 26.

Note: Details of Treasury market financing operations are shown elsewhere in this issue of the "Treasury Bulletin", in the tables on "Offerings" and "Dis-

position", respectively, of marketable issues of bonds, notes, and certificates of indebtedness, and in the table "Offerings of Treasury Bills".

^{1/} Under Current Tax Payment Act of 1943, as amended (26 U.S.C. 1621-1632). Monthly figures include old-age insurance taxes on employers and employees, because these taxes are not separable currently from income tax withheld. Fiscal year figures exclude old-age insurance taxes, on the basis of estimates beginning 1951. For further explanation, see footnote 7.

^{3/} Corporation income and profits taxes and individual income tax not withheld. Monthly figures include old-age insurance tax on self-employment income, because this tax is not separable currently from income tax not withheld. Fiscal year figures exclude old-age

insurance tax, on the basis of estimates beginning 1952. For further explanation, see footnote 7.

^{4/} Partly estimated beginning January 1951 (see footnote 7). Monthly figures will not add to this total (see footnotes 2 and 3).

^{5/} Consists of receipts for old-age insurance, unemployment insurance, and railroad retirement; for further detail, see Tables 7 and 8. Beginning January 1951, receipts for old-age insurance are estimated as explained in footnote 7. Railroad unemployment insurance contributions for administrative expenses are included in "Other receipts".

^{6/} Includes proceeds from sale of surplus property and from Government-owned securities; deposits resulting from renegotiation of war contracts (see "Treasury Bulletin" for February 1948, page 5); and repayments on credit to United Kingdom (see Table 4).

1/ For basis of appropriations, see Table 7. Amounts appropriated are equivalent to the amounts of taxes collected and deposited for old-age insurance. The Social Security Act Amendments of 1950 (Public Law 734), approved August 28, 1950, changed in certain respects the basis of transferring the appropriated funds to the trust fund. Effective January 1, 1951, the old-age insurance taxes on employers and employees and the withheld income tax are paid into the Treasury in combined amounts without separation as to type of tax. The old-age insurance tax on self-employment income, imposed by Public Law 734, is levied and collected as part of the individual income tax, beginning with the taxable year 1951. Beginning January 1951, the amounts transferred currently as appropriations to the trust fund are based on estimates of old-age insurance tax receipts made by the Secretary

of the Treasury, and are adjusted in later transfers on the basis of wage and self-employment income records maintained by the Federal Security Administrator. For purposes of this table, the amounts credited to the trust fund beginning January 1951 are considered to represent estimated receipts of old-age insurance taxes for corresponding periods. Accordingly, these amounts are included under employment taxes and excluded from total income and profits taxes as shown. Throughout the calendar year 1951, the same amounts were deducted from the combined taxes paid in by employers, and the balance was shown as income tax withheld. Beginning January 1952, the tax on self-employment income is allowed for in the amounts credited to the trust fund, but no breakdown between the two types of old-age insurance taxes is available monthly. Estimates of the breakdown are made on a fiscal year basis beginning 1952.

8/ Interest on refunds is included in Table 5 under "Miscellaneous".

1/ Fiscal year ending June 30 of year indicated.

2/ Gross receipts less appropriations to Federal Old-Age and Survivors Insurance Trust Fund and refunds of receipts.

3/ Expenditures are "net", after allowance for reimbursements to appropriations, receipts of revolving fund appropriations, and receipts credited to disbursing accounts of corporations and agencies having authority to use collections without formal covering into the Treasury. The figures include transfers to trust accounts, transactions of the Foreign Economic Cooperation Trust Fund, established under the Economic Cooperation Act of 1948 (62 Stat. 150), and transactions of wholly owned Government corporations and agencies. Beginning November 1950, investments by these corporations and agencies

in public debt securities are excluded from budget expenditures and included with other such investments under "Trust account and other transactions". Corresponding adjustments were made in November 1950 and January 1951 for net investments classified as budget expenditures in the period July through October. Budget expenditures exclude also amounts for public debt retirement which are chargeable to the sinking fund, etc., under special provisions of law. Payments to the Treasury, principally by wholly owned Government corporations, for retirement of capital stock and disposition of earnings are excluded from both receipts and expenditures. Further information on capital transfers and the Foreign Economic Cooperation Trust Fund may be found in the 1952 Annual Report of the Secretary of the Treasury, pages 512 and 513.

1/ Excess of expenditures is covered by appropriations by Congress.

2/ Taxes on employers and employees under the Federal Insurance Contributions Act and later amendments (26 U.S.C. 1400-1432); and tax on self-employment income under the Social Security Act Amendments of 1950 (26 U.S.C. 480-482). The tax on self-employment income is levied and collected as part of the individual income tax beginning with the taxable year 1951. Beginning January 1951, the receipts shown here are based on estimates (see footnote 4).

3/ Tax on employers of 8 or more under the Federal Unemployment Tax Act and later amendments (26 U.S.C. 1600-1611). Against this tax certain credits not to exceed 90 percent of the total tax are allowed with respect to contributions by the taxpayer to a State fund under a State unemployment compensation law.

4/ Appropriation to the Federal Old-Age and Survivors Insurance Trust Fund equivalent to the amount of taxes collected and deposited for old-age insurance (42 U.S.C. 401 (a)); see also footnote 2). The Social Security Act Amendments of 1950 (Public Law 734), approved August 28, 1950, changed in certain respects the basis of transferring the appropriated funds to the trust fund. Effective January 1, 1951, the amounts transferred currently as appropriations to the trust fund are based on estimates of old-age insurance tax receipts made by the Secretary of the Treasury, and are adjusted in later transfers on the basis of wage and self-employment income

records maintained by the Federal Security Administrator. For purposes of this table, beginning January 1951, the same amount as is credited each month to the trust fund is shown as estimated current tax receipts for old-age insurance.

5/ Interest on refunde is included under "Administrative expense".

6/ Includes expenditures from appropriations made specifically for administrative expenses relating to the Social Security Act, as amended; administrative expenses reimbursed to the General Fund of the Treasury under Section 201 (f) of the Social Security Act, as amended; administrative expenses under the Wagner-Peyser Act of 1933, as amended (29 U.S.C. 49d); and interest on refunds of social security taxes.

7/ Aid to permanently and totally disabled (Title XIV) as added by Social Security Act Amendments of 1950 (Public Law 734), approved August 28, 1950.

8/ For unemployment insurance and maintenance of public employment offices; includes expenditures made directly by the Federal Government beginning January 1942 for maintenance of employment offices, and expenditures of the U. S. Employment Service for the period December 1942 through June 1948, when it was not in the Bureau of Employment Security.

2/ Total includes expenditures for grants to States, Public Health Service, as follows: 1945, \$10.7 million; and 1946, \$1.2 million. After 1945 expenditures were made under provisions of the Public Health Service Act of 1944 (58 Stat. 682).

1/ The U. S. subscription to the capital of the International Monetary Fund was paid in part from the Exchange Stabilization Fund (see "Treasury Bulletin" for September 1947, page 17).

2/ Consists of seigniorage on silver and increment resulting from reduction

in weight of the gold dollar. This item is part of the cash budget receipts shown in these tables, but is excluded from the Budget figures for "Receipts from the public".

3/ In addition to this decrease in the General Fund balance, the Exchange Stabilization Fund was drawn down by \$1,800 million for subscription to the capital of the International Monetary Fund.

^{1/} Obligations, issued by certain Government corporations and other agencies, which are guaranteed by the United States as to both principal and interest.

Such obligations were first authorized in 1932. Prior to September 1939, the figures represent principal shown as a contingent liability of the United States; beginning September 1939, they represent principal outstanding, both matured and unmatured. Guaranteed securities held by the Treasury are excluded.

STATUTORY DEBT LIMITATION

The Second Liberty Bond Act, as amended, (31 U.S.C. 757 b), provides that the face amount of obligations issued under authority of that act, and the face amount of obligations guaranteed as to principal and interest by the United States (except guaranteed obligations held by the Secretary of the Treasury), shall not exceed in the

aggregate \$275 billion outstanding at any one time. Obligations issued on a discount basis, and subject to redemption prior to maturity at the option of the owner, are included in the statutory debt limitation at current redemption values.

UNITED STATES SAVINGS BONDS

United States savings bonds were first offered in March 1935 and began to mature in March 1945. Series A-D were sold between March 1935 and the end of April 1941, and Series E, F, and G were first offered in May 1941. When Series E began to mature on May 1, 1951, owners of the matured bonds were offered three options: To redeem the bonds in cash in accordance with the original terms; to retain them with an extended maturity of 10 years at specified rates of interest accrual; or to exchange them for Series G bonds. A number of changes became effective May 1, 1952. The principal ones were: The rate of interest accrual on Series E was increased, especially for the near term, with corresponding changes in extended Series E; and Series F and G were replaced by two new issues, Series J

and K, also at higher interest rates. A new current-income bond, Series H, similar in interest return to Series E, was offered beginning June 1. For details of these changes see "Treasury Bulletin" for May 1952, page A-1.

In the tables which follow, Series A-F and J sales are shown at issue price and total redemptions and amounts outstanding at current redemption values. Series G, H, and K are shown at face value throughout. Matured bonds which have been redeemed are included in redemptions. Data by denominations and sales by States are published on a monthly basis but not in each issue of the "Treasury Bulletin".

TREASURY SAVINGS NOTES

Treasury tax and savings notes have been issued in five series: Tax Series A from August 1, 1941, through June 22, 1943; Tax Series B from August 1, 1941, through September 12, 1942; Savings Series C (originally designated Tax Series C) from September 14, 1942, through August 31, 1948; Savings Series D from September 1, 1948, through May 14, 1951; and Savings Series A beginning on May 15, 1951.

Details concerning terms and conditions for purchase and redemption and investment yields of Savings Series A appear in the June 1951 issue of the "Treasury Bulletin", page A-1. Similar information with respect to Savings Series D will be found in the October 1948 and September 1949 issues, and with respect to Savings Series C in the October 1945

issue. For details concerning terms and conditions, investment yields, and tax payment or redemption values of Series A and B, see "Annual Report of the Secretary of the Treasury" for 1942, pages 207 and 220, and for sales and redemptions by fiscal years and months, see "Treasury Bulletin" for February 1946, pages 42 and 43.

In the following tables sales and redemptions of Treasury savings notes are shown at par value. Matured notes redeemed (either for cash or for tax payment) are included in the figures on redemptions. Matured notes outstanding are reflected in the interest-bearing debt until all notes of the series have matured, when they are transferred to matured debt upon which interest has ceased.

1/ Excludes trust departments.

2/ Includes trust companies and, beginning with figures for July 1949, also includes stock savings banks. Formerly these banks were shown as a separate classification, but they are no longer so reported.

3/ Includes those banks and insurance companies not reporting in the Treasury Survey.

4/ United States savings bonds, Series E, F, and J, are shown at current redemption values. They were reported at maturity value by the banks and insurance companies included in the Treasury Survey but have been adjusted to current redemption values for use in this statement.

5/ Holdings by reporting agencies not available.

6/ Excludes guaranteed securities held by the Treasury.

7/ Issues which commercial banks may not acquire prior to specified dates (with minor exceptions); see "Debt Outstanding", Table 3, footnote 1.

8/ Federal securities fall into three broad classes with respect to the imposition of Federal income taxes on income derived from them. "Wholly" tax-exempt securities are those with the income exempt from both normal tax and surtax. "Partially" tax-exempt securities are those with the

income exempt from the normal tax except that in the case of partially tax-exempt Treasury bonds, interest derived from \$5,000 of principal amount owned by any one holder is also exempt from the surtax. "Taxable" securities are those with the income subject to normal tax and surtax.

TREASURY SURVEY - COMMERCIAL BANK OWNERSHIP, DECEMBER 31, 1952

The tables which follow provide an analysis of the security holdings of commercial banks reporting in the Treasury survey of ownership of securities issued by the United States Government and by Federal agencies. The figures show the total holdings distributed according to Federal Reserve member-bank classes and nonmember banks.

This analysis of commercial bank ownership was first published in the May 1944 issue of the "Treasury Bulletin", based on the survey data for December 31, 1943. It has appeared at semiannual or quarterly intervals since that time, and is now being published for the June 30 and December 31 survey data.

1/ Includes trust companies and stock savings banks but excludes securities held in trust departments.

2/ United States savings bonds, Series F and J, are shown at current redemption values. They were reported at maturity value by the banks included in the Treasury Survey but have been adjusted to current redemption values for use in this statement.

3/ Excludes C. C. C. demand obligations as of close of the previous month in the amount of \$457 thousand, all held by commercial banks; data for reporting banks are not available.

4/ Issues which commercial banks may not acquire prior to specified dates (with minor exceptions); see "Debt Outstanding", Table 3, footnote 1.

5/ Federal securities fall into three broad classes with respect to the imposition of Federal income taxes on income derived from them. "Wholly" tax-exempt securities are those with the income exempt from both normal

"Partially" tax-exempt securities are those with the income exempt from the normal tax except that in the case of partially tax-exempt Treasury bonds, interest derived from \$5,000 of principal amount owned by any one holder is also exempt from the surtax. "Taxable" securities are those with the income subject to both normal tax and surtax.

6/ Includes F. H. A. debentures; see footnote 7.

7/ A small indeterminate amount of these debentures is partially tax-exempt.

8/ Total includes \$71.5 million depositary bonds held by commercial banks not included in Treasury Survey.

MARKET QUOTATIONS, JANUARY 30, 1953

Current market quotations shown here are over-the-counter closing quotations in the New York market for the last trading day of the month, as reported to the Treasury by the Federal Reserve Bank of New York. The securities listed in Section I include all public marketable securities issued or guaranteed by the United States Government except those not regularly quoted in the market. The issues excluded are postal savings bonds and Federal Housing Administration

Section II lists the public marketable securities issued by Federal agencies but not guaranteed by the United States Government. Daily quotations have been published each month in the Treasury Department statement, "Prices and Yields of Public Marketable Securities Issued by the United States Government and by Federal Agencies".

1/ Tax Anticipation Series.

2/ Quoted on a price basis beginning January 28, 1953.

3/ Excess of price over yield price.

4/ Prices are the mean of closing bid and ask quotations in the over-the-counter market, except that prices of Treasury bonds for the period prior to October 1, 1939, are closing prices on the New York Stock Exchange. "When issued" prices are included in history beginning October 1, 1939. Dates of highs and lows, in case of recurrence, are the latest dates.

5/ Not called for redemption on March 15, 1953. Will mature on September 15, 1953.

6/ Callable on 4 months' notice on June 15, 1953.

7/ Yield to maturity. Market convention treats the yield to earliest call date as more significant when an issue is selling above par; the yield to

maturity as more significant when an issue is selling at or below par.

8/ Included in the average yield of long-term taxable Treasury bonds as shown under "Yields of Treasury and Corporate Bonds".

9/ For definition, see "Debt Outstanding", Table 3, footnote 1.

10/ All partially tax-exempt except Panama Canal bonds, which are wholly tax-exempt.

11/ Not quoted on January 30, 1953.

12/ Amount issued on February 2, 1953, was \$103 million.

13/ Amount issued on February 2, 1953, was \$30 million.

14/ Excludes issues completely held by Farm Credit Administration agencies. The proprietary interest of the United States in the Federal land banks ended on June 26, 1947.

15/ Callable on 15 days' notice on August 1, 1953.

YIELDS OF TAXABLE TREASURY SECURITIES, JAN. 30, 1953

Based on Mean of Closing Bid and Ask Quotations

Explanation: The points represent yields to call when prices are above par, and to maturity date when prices are at par or below. The smooth curves for the various classes of points are fitted by eye. Issues for which an exchange offer has been made or which are due or callable in less than 3 months are excluded.

Note: Treasury bonds included in the averages, beginning April 1952, are those neither due nor callable for twelve years. The minimum length of the bonds included was 15 years from December 1935 through March 1952, and 12 years prior to December 1935 for the period shown in this table. For a discussion of the composition of these Treasury bond averages, see "Treasury Bulletin" for March 1944, page 58; for the composition of the high-grade corporate bond average, see the "Treasury Bulletin" for July 1947, page 59, and January 1945, page 56. Treasury bond yields are computed on the basis of the mean of closing bid and ask quotations in the over-the-counter market as reported to the Treasury by the Federal Reserve Bank of New York, beginning September 2, 1941. Prior to that time, yields were computed on the basis of closing prices on the New York Stock Exchange, except that on days when an issue did not sell the yield was computed on the mean of closing bid and ask quotations on the Exchange. Corporate bond yields are computed on the basis of closing prices on the New York Stock

Exchange and the American Stock Exchange (formerly New York Curb Exchange); on days when an issue does not sell, the price of the last preceding sale is used.

- 1/ For definition of taxable and partially tax-exempt bonds, see footnotes to the "Treasury Survey of Ownership" in this issue of the "Treasury Bulletin". The partially tax-exempt average was discontinued on December 15, 1945, because they were no longer any bonds in this category with fifteen or more years to maturity or first call.
- 2/ As of December 21, 1949, the Consolidated Gas Electric Light and Power Company of Baltimore 2-3/4's of 1981 were dropped from the average, having been called.
- 3/ As of October 20, 1950, the Standard Oil Company of California 2-3/4's of 1965-66 were dropped from the average, having been called.
- 4/ The long-term taxable Treasury bond average was revised beginning April 1, 1952 (see "Note"). The old average for April 1952 was 2.62 percent.
- 5/ Market closed.

Source: Daily Treasury Statement for total receipts from internal revenue; reports by the Bureau of Internal Revenue for collections by type of tax. Detail by type of tax is available only on a collection basis. Receipts on the Daily Treasury Statement basis are compiled from the latest daily reports from Government depositories; they do not coincide with amounts reported by the Bureau because of the lag in deposits of collections and because certain taxes are paid directly into the depositories.

1/ Excludes collections for credit to certain trust accounts for island possessions; includes corporation income tax on Alaska Railroad (repealed by Public Law 386, approved June 10, 1952, for taxable years ending after that date).

2/ Includes excess profits taxes formerly shown separately as follows: unjust enrichment through 1947 (thereafter these collections are included under "Miscellaneous taxes"); declared value (repealed for years ending after June 30, 1946); Excess Profits Tax Act of 1940

(Title II of the Second Revenue Act of 1940, which was repealed for years ending after December 31, 1945). Includes also excess profits taxes on Army and Navy contracts under the Vinson Act as amended (34 U.S.C. 496) and income tax on business income of exempt organizations, imposed by the Revenue Act of 1951, approved October 20, 1951.

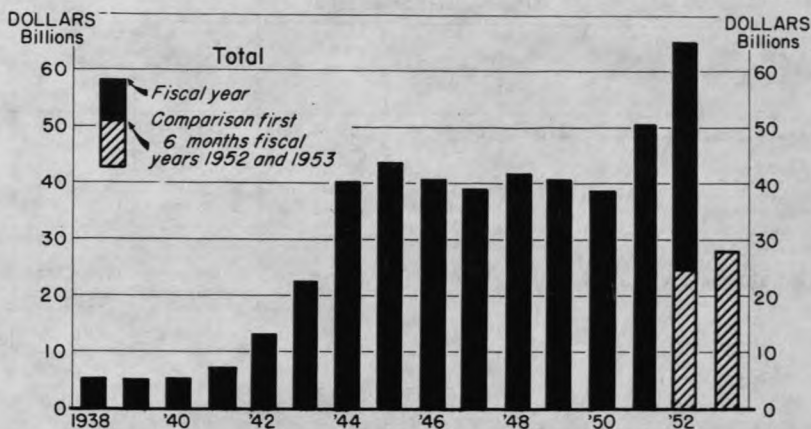

3/ Monthly figures include old-age insurance tax on self-employment income, which is levied and collected as part of the individual income tax beginning with the taxable year 1951. Fiscal year figures exclude this tax, on the basis of estimates beginning 1952, and it is included under "Old-age insurance taxes".

4/ Withheld income tax and old-age insurance taxes on employers and employees are paid into the Treasury in combined amounts beginning January 1951, so that current collections are not separable as to type of tax. For fiscal years beginning 1951, the breakdown is estimated.

5/ Repealed for years ending after June 30, 1945. Beginning July 1950, included under "Miscellaneous taxes".

CAPITAL MOVEMENTS

Data relating to claims on foreigners and liabilities to foreigners, and capital movements between the United States and foreign countries, have been collected since 1935, pursuant to Executive Order 6560 of January 15, 1934, and Treasury regulations thereunder. Information covering the principal types of data and the principal countries is reported each month by banks and bankers and securities brokers and dealers in the United States. This information is published regularly in the "Treasury Bulletin". Supplementary information is published at less frequent intervals. All reports are made initially to the Federal Reserve Banks, which forward consolidated figures to the Treasury.

The term "foreigners" as used in these reports covers all institutions and individuals (including United States citizens) domiciled outside the United States, as well as international organizations, wherever domiciled, created by treaty or convention between sovereign states. "Short-term" refers to original maturities of one year or less, and "long-term" refers to all other maturities. A detailed discussion of the reporting coverage, basis of reporting, and derivation of capital movements figures appeared in the April 1950 issue of the "Treasury Bulletin", pages 50-52. Revised report forms and regulations became effective with

the data for January 1950. Attention is called to the fact that although the grand total figures on the revised reporting basis are reasonably comparable with those for preceding months, data for individual countries in some instances are not comparable because of certain changes in coverage and geographical classification.

The supplementary information, contained in Section IV, is presented in three tables appearing at different times. Table 1 gives data by countries on short-term claims on and liabilities to foreigners as reported quarterly by exporters, importers, and industrial and commercial concerns in the United States. This information was published for the first time in the October 1949 issue of the "Treasury Bulletin" and begins with data for September 30, 1946. Table 2 supplies information by countries on long-term claims on and liabilities to foreigners as reported by banks and bankers in the United States. This table appeared for the first time in the December 1949 issue. Data are for the end of the calendar year beginning with 1942. Table 3 gives information on short-term liabilities to countries not regularly reported separately by banks and bankers. This table appeared for the first time in the April 1950 issue. The data have been requested at irregular intervals, the earliest date being October 1943.
