## Long-Term Bond Offering

On April 8, 1953, the Secretary of the Treasury announced that on April 13 the Treasury would offer for cash subscription appraximately $\$ 1$ billion of 3-1/4 percent fully marketable long-term Treasury bonds, dated May 1, 1953, waturing June 15, 1983, and callable on or after June 15,1978 . The announcement stated that this offering, together with increases in weekly offerlngs of Treasury bllls, was planned to meet the cash needs of about $\$ 2$ blllion for the balance of the fiscal year ending June 30 .

It was stated further that the bond was designed to attract people's savings as they accumulate, especially in such institutions as life insurance companies, savinge banke, pension funds, etc. To facilitate subscriptions by these institutions and by individuals, payments for the bonds may be made over a period of three months from the date of 1 saue. Subecriptions from commercial banks were limited to a percentage of their time depoaits. The bill increases are expected to be absorbed in subatantial part by corporaticns and otber nonbank investors.

The bond offering was made avallable al 80 , Guring the period prior to May 1 , for exohange of Series $F$ and $O$ savings bonds maturing from May 1 through December 1953. Holders of these bonds were given the privilege of exchanging them for the new marketable bond at par, with interest adjustments as of May 1.

Eliglble $F$ and $G$ bondholders not wishing to accopt the now marketable bond in exchange for their maturing bonds would have the opportunity, it was pointed out, of reinvesting the proceeds of matured F and $G$ eavings bonds in other series of savings bonde currently on sale, or to recelve cach payment.

Full detalls of the offering were made available on April 13, when the eubscription books were opened. The cash subscription books were closed at the close of business on April 14, in accordance with an announcement by the secretary of the Treasury on that date.

Bearer bonds, with interest couponsattached, and bonds registered as to principal and interest are being issued, in denominations of $\$ 500, \$ 1,000$, $\$ 5,000, \$ 10,000, \$ 100,000$, and $\$ 1,000,000$. Intereat on the new bonde will be payable on a semiannual basis on December 15, 1953, and thereafter on June 15 and December 15 unt11 the principal amount becomes payable.

Cash subscriptions to the $3-1 / 4$ percent Treasury bonds of $1978-83$ amounted to $\$ 5-1 / 4$ b11110n, and total allotments were $\$ 1,288 \mathrm{mill}$. Subseriptione in amounts up to and including $\$ 5,000$ were allotted in full. All other subscriptions were allotted 20 percent, subject to adjustment to the next higher *500, but not less than 35,000 on any one subscription. The allotrent total incluced $\$ 117.8$ million to Government $1 n v e s t m e n t$ accounts.

Allotments by investor classes were as follows:

Subscriptions may be nald for by credit in Treasury tax and loan accounts. Payments at par and accrued interest from May 1,295 z, may be deferred over a period of three monthe but must be completed not later than July 31.

Cash subscriptions from commercial banke for their own account were received without deposit, but were restricted in each case to an amount not exceeding 5 percent of their time deposits as of December 31, 1952. Other cash subscriptions were required to be accompanied by payment of 10 percent of the amount of boncs applied for.

Exchange subscriptions were received from holders of Series $F$ and $G$ savings bonds maturing in the monthe of May through December 1953, of which there are about $\$ 1.1$ billion outstanding. Holders of $F$ and $O$ bonds agisregating leas than an even multiple of $\$ 500$ were allowed to exchange such bonds with payment of the difference in cash. Total excranges amounted to $\$ 418.7$ million, of which $\$ 385.8$ million were $G$ bonds, $\$ 31.9 \mathrm{million}$ were $F$ bonds, and the remainder, cash differences pald. Exchange subscription books were closed at the close of business on April 30.

Treasury B111s Increased
Offerings of 91-day bills during April totaled
\$7.0 billion. The ilrst increase in weekly bill offerings pursuant to the Secretary's announcement of April $g$ was made in the 1 ssue of April 23, whioh amounted to $\$ 1.5$ billion compared with the maturing issue of $\$ 1.4$ billion. This was the f1rst increase in weekly offerings sinoe the 1 ssue of June $5,1952$. The four remaining issues were refunded in the
equivalent weekly amounts of 1.2 blllion on April 2, $\$ 1.4$ billion each on April 9 and April 16, and $\$ 1.5$ blllion on April 30. Average rates of discount on the flve new offerings were 2.029 percent for April 2, 2.073 percent for April 9, 2.219 percent for April 16, 2.320 percent for Apr11 23, and 2.243 percent for April 30.

I/ For basis of eppropriations, see Teble 7. Amounta approprieted are equivelant to the amounte of taxee collocted and depoeited for oldage insurance. The Social Security Act Amenamente of 1950 (Fublic Law 734), approved August 28, 1950, changed in certain rsepects the basie of transierring the epproprieted funde to the trust fund. Effective January 1, 1951, the old-ase insurance taxee on employere and employeer and the withheld income tax are paid into the Treasury in combined amounte without separation as to type of tax. The old-age insurance tax on self-amployment income, imposed by Fublic Law 734, is Ievied and collected as part of the individual income tax, beginning with the tarable year 2951. Beginning January 1951, the amounts tranaferred currentiy as appropriatioms to the trust fund are baeed on estimates of old-age insurance tax receipts made by the Secretery
of the Treasury, and are edjusted in later transiers on the besis of wage and self-cmployment income recorie maintained by the Federal Security Adminietretor. For purpoeee of thie table, the smounts credited to the trust fund beginning Jenuary 1951 are cansidered to represent eetimated rocelpte of old-ase insurance taxee for correeponding periods. Accordinsly, these emounte sre included under emplogment taxes and sxcluded fram total income and profits taxes as ehown. Throughout the calender jeer 1951, the aeme emounte wero deducted from the combined taxes paid in by amployers, and the balance was shown as income tax withheld. Beginning Jenuary 1952, the tax on self-employment income is ellowed for in the amounte credited to the trust fund, but no breakdown between the two types of old-age insurance taxee is availeble monthly. Eetimates of the breakiown ere made on a flecal year basis beginning 2952.
8 Intereet an refunds is included in Table 5 under "Miecelleneous".

Table 4.- Disposition of Matured Marketable Issues of Tressury Bonds, Notes, and Certificates of Indebtedness

United States eavinge bonde were firet offered in March 1935 and began to mature in March 1945. Series A-D were cold between March 1935 and the end of April 1941, and Series $E, F$, and $G$ vere firet offered in May 1941. When Seriee E began to mature on May 1, 1951, owners of the metured bonde were offered three optione: To redeem the bonde in oaeh in eocordance with the original terme; to retein them with en extended maturity of 10 yeare at epecifled rates of interest aoorual; or to exchange them for series $G$ bonde. A number of ohanges became epfective May 1, 1952. The principal onee ware: The rate of interest eocrual on Series E Was increased, especially for the near term, with corresponding changes in extended Serien E; and Series $F$ and $G$ were replaced by two new iseues, Seriee J
and $K$, also at higher interest rates. A new current-income bond, Series $R$, elmilar in interest return to Series E, was offered beginning Junel. For detells of these ohanges see "Treasury Bulletin" for May 1952, oage A-2.

In the tables which follow, Seriee $A-F$ and $J$ ealee are ahown at leaue price and total redemptions and amounte outetanding at current redemption valuee. Series $G$, $H$, and $K$ are shown at face value throughout. Matured bonde which have been redeemed are inoluded in redemptione. Date by denominetione and eales by states are publiehed on a monthly basis but not in each lesue of the "Treasury Bulletin".

Data relating to claime on forelgners and liabillties to foreigners, and capital movements between the United States and foreign countrlea, have been collected aince 1935, pursuant to Executive Order 6560 of January 15 , 1934, and Treasury regulations thereunder. Information covering the principal types of data and the principal countries ia reported each montb by banka and bankers and aecuritiea brokers and dealers in the United Statse. This infermation 18 published regularly in the "Treasury Bulletin". Supplementary information ie publiehed at leae frequent intervala. All raports are made initially to the Federal Reserve Banke, which forward consolldated ilgurea to the Treasury.

The term "forelgners" as used in these reporta oovers all institutions and individuale (Inoluding United States citizens) domiolled outelde the United States, as well as international organizations, wherever domicilad, created by treaty or convention between soverelgn statee. "Short-term" refars to original maturities of one year or lese, and "long-term" refers to all other maturitlea. A detallod disoussion of the reporting ooverage, basls of reporting, and derivation of capital movements ilgures appeared in the Aprll 1950 18sue of the "Treasury Bulletin", pages 50-52. Reviaed report forme and regulations became effective witb
the data for January 1950. Attention 18 called to the fact that although the grand total figures on the reviaed reporting basis are reasonably comparable with thoae for preceding months, data for individual countries in some instances are not comparable because of certaln changee in coverage and geographical claselfication.

The supplementary information, contained in Section IV, is presented in three tables appearing at different times. Table 1 glves data by countries on ehort-terim cladme on and liabllitlee to foreigners as reported quarterly by exportera, importers, and industrial and comercial concerns in the United States. This information was published for the firet time in the October 1949 iseue of the "Treasury Bulletin" and begine with data for September 30, 1946. Table 2 supplise information by countries on long-term clalma on and liabillties to forelgner aa reported by banke and bankers in the United states. This table appeared for the first time in the December 1949 18sue. Data are for the end of the oalendar year beginning with 1942. Table 3 gives information on ohort-term llabilities to countries not regularly reported aeparately by banka and bankers. This table appeared for the firat time in the April 1950 1asue. The data have bean requeated at irregular intervale, the earllest date belng Ootober 1943.
